TRIPADVISOR, INC.

UNAUDITED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1: ORGANIZATION AND BASIS OF PRESENTATION

We refer to TripAdvisor, Inc. and our wholly-owned subsidiaries as TripAdvisor, the Company, us, we and our in these notes to the consolidated financial statements.

During 2011, Expedia, Inc., or Expedia, announced its plan to separate into two independent public companies in order to better achieve certain strategic objectives of its various businesses. We refer to this transaction as the Spin-Off. On December 20, 2011, following the close of trading on the NASDAQ Global Select Market (NASDAQ), the Spin-Off was completed, and TripAdvisor began trading as an independent public company on December 21, 2011. Expedia effected the Spin-Off by means of a reclassification of its capital stock that resulted in the holders of Expedia capital stock immediately prior to the time of effectiveness of the reclassification having the right to receive a proportionate amount of TripAdvisor capital stock. A one-for-two reverse stock split of outstanding Expedia capital stock occurred immediately prior to the Spin-Off, with cash paid in lieu of fractional shares. In connection with the Spin-Off, Expedia contributed or transferred all of the subsidiaries and assets relating to Expedia's TripAdvisor Media Group, which were comprised of the TripAdvisor Holdings, LLC combined financial statements, to TripAdvisor and TripAdvisor or one of its subsidiaries assumed all of the liabilities relating to Expedia's TripAdvisor Media Group.

Our common stock trades on the NASDAQ under the trading symbol TRIP.

Description of Business

TripAdvisor is an online travel company, empowering users to plan and have the perfect trip. TripAdvisor's travel research platform aggregates reviews and opinions of members about destinations, accommodations (hotels, bed and breakfasts, specialty lodging and vacation rentals), restaurants and activities throughout the world through our flagship TripAdvisor brand. TripAdvisor-branded websites include tripadvisor.com in the United States and localized versions of the website in 29 countries, including in China under the brand daodao.com. Beyond travel-related content, TripAdvisor websites also include links to the websites of our travel advertisers allowing travelers to directly book their travel arrangements. In addition to the flagship TripAdvisor brand, we manage and operate 20 other travel media brands: www.airfarewatchdog.com, www.bookingbuddy.com, www.cruisecritic.com, www.everytrail.com, www.familyvacationcritic.com, www.flipkey.com, www.gateguru.com, www.holidaylettings.co.uk, www.holidaywatchdog.com, www.independenttraveler.com, www.jetsetter.com, www.niumba.com, www.onetime.com, www.seatguru.com, www.smartertravel.com, www.tingo.com, www.travelpod.com, www.virtualtourist.com, www.whereivebeen.com, and www.kuxun.cn, connected by the common goal of providing comprehensive travel planning resources across the travel sector. We derive substantially all of our revenue from advertising, primarily through click-based advertising and display-based advertising sales. In addition, we earn revenue through a combination of subscription-based offerings from our Business Listings and Vacation Rental products, transaction revenue from selling room nights on our transactional sites, and other revenue including licensing our content to third-parties. We have one reportable segment: TripAdvisor. The segment is determined based on how our chief operating decision maker manages our business, makes operating decisions and evaluates operating performance.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared by us in accordance with generally accepted accounting principles, or GAAP, for interim financial reporting and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, certain information and footnote disclosures normally included in financial statements prepared under generally accepted accounting principles for complete periods have been condensed or omitted pursuant to such regulations. In the opinion of management, all adjustments considered necessary for a fair presentation of our financial position, results of operations and cash flows have been included. All such adjustments are of a normal recurring nature. These unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2012 in our Annual Report on Form 10-K. The results for interim periods are not necessarily indicative of the results to be expected for the full year. The financial statements and related financial disclosures have been presented on a consolidated basis.

Consolidation

Our consolidated financial statements include the accounts of TripAdvisor, our wholly owned subsidiaries, and entities we control, or in which we have a variable interest and are the primary beneficiary of expected cash profits or losses. We record noncontrolling interest in our consolidated financial statements to recognize the minority ownership interest in our consolidated subsidiaries. Noncontrolling interest in the

Edgar Filing: TripAdvisor, Inc. - Form 10-Q

earnings and losses of consolidated subsidiaries represent the share of net income or loss allocated to members or partners in our consolidated entities. Significant intercompany transactions between the TripAdvisor consolidated entities and accounts have been eliminated.

Table of Contents

Certain of our subsidiaries that operate in China have variable interests in affiliated entities in China in order to comply with Chinese laws and regulations, which restrict foreign investment in Internet content provision businesses. Although we do not own the capital stock of some of our Chinese affiliates, we consolidate their results as we are the primary beneficiary of the cash losses or profits of these variable interest affiliates and have the power to direct the activities of these affiliates. Although we currently operate at a loss in the Chinese market our variable interest entities are not material for all periods presented.

Accounting Estimates

We use estimates and assumptions in the preparation of our consolidated financial statements in accordance with GAAP. Our estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of our consolidated financial statements. These estimates and assumptions also affect the reported amount of net income or loss during any period. Our actual financial results could differ significantly from these estimates. The significant estimates underlying our consolidated financial statements include revenue recognition; recoverability of long-lived assets, valuation and impairment of marketable securities, intangible assets and goodwill; income taxes; useful lives of property and equipment; purchase accounting and stock-based compensation.

Reclassifications

We have reclassified certain amounts related to our prior period results to conform to our current period presentation.

Seasonality

Expenditures by travel advertisers tend to be seasonal. Traditionally, our strongest quarter has been the third quarter, which is a key travel research period, with the weakest quarter being the fourth quarter. However, adverse economic conditions or continued growth of our international operations with differing holiday peaks may influence the typical trend of our seasonality in the future.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

Deferred Merchant Payables

We receive cash from travelers at the time of booking related to our transaction-based businesses and we record these amounts, net of commissions, on our consolidated balance sheets as deferred merchant payables. We pay after the travelers use and subsequent billing from the hotel or vacation rental owners. Therefore, we receive cash from the traveler prior to paying the hotel and vacation rental owners, and this operating cycle represents a working capital source of cash to us. As long as our transaction-based businesses grow, we expect that changes in working capital related to these transactions will positively impact operating cash flows. As of June 30, 2013, our deferred merchant payables balance was \$31.3 million and the related transactions generated positive operating cashflow of \$15.5 million during the six months ended June 30, 2013. A payable balance of \$14.5 million was acquired with our business acquisitions during the three months ended June 30, 2013. For additional information on our business acquisitions refer to Note 6 *Acquisitions* below. The deferred merchant payables balance at December 31, 2012 was \$1.3 million.

There have been no material changes or other additions to our significant accounting policies since December 31, 2012. For additional information about our critical accounting policies and estimates, refer to Note 2 *Significant Accounting Policies*, included in our Annual Report on Form 10-K for the year ended December 31, 2012.

Recently Adopted Accounting Pronouncements

Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income

In February 2013, the Financial Accounting Standards Board, or FASB, issued new accounting guidance which adds new disclosure requirements for items reclassified out of accumulated other comprehensive income. The new guidance requires that companies present, either in a single note or parenthetically on the face of the financial statements, the effect of significant amounts reclassified based on its source and is effective for public companies in interim and annual reporting periods beginning after December 15, 2012. Accordingly, we have adopted these presentation requirements during the first quarter of 2013. The adoption of this new guidance did not have a material impact on our consolidated financial statements or disclosure.

NOTE 3: STOCK BASED AWARDS AND OTHER EQUITY INSTRUMENTS

Edgar Filing: TripAdvisor, Inc. - Form 10-Q

Stock-based compensation expense relates primarily to expense for restricted stock units (RSUs) and stock options. Our outstanding RSUs and stock options generally vest over four years.

For the three and six months ended June 30, 2013, we recognized total stock-based compensation expense of \$10.2 million and \$23.8 million, respectively. The total income tax benefit related to stock-based compensation expense was \$4.0 million and \$9.3 million for the three and six months ended June 30, 2013, respectively. For the three and six months ended June 30, 2012, we recognized total stock-based compensation expense of \$6.8 million and \$11.5 million, respectively. The total income tax benefit related to stock-based compensation expense was \$2.5 million and \$4.0 million for the three and six months ended June 30, 2012, respectively.

Table of Contents*TripAdvisor, Inc. 2011 Stock and Annual Incentive Plan, As Amended*

On December 20, 2011, our 2011 Stock and Annual Incentive Plan became effective. At our annual meeting of stockholders held on June 28, 2013 (the Annual Meeting), our stockholders approved an amendment to our 2011 Stock and Annual Incentive Plan to increase the aggregate number of shares of common stock authorized for issuance thereunder by 15,000,000 shares. We refer to our 2011 Stock and Annual Incentive Plan, as amended by the amendment as the 2011 Incentive Plan. A summary of the material terms of the 2011 Incentive Plan can be found in Proposal 3: Approval of The 2011 Stock and Annual Incentive Plan, as amended in our Proxy Statement on Schedule 14A for the Annual Meeting. The summary of the material terms of the 2011 Incentive Plan is qualified in its entirety by the full text of the 2011 Incentive Plan and the first amendment thereto, which are included in this Quarterly Report on Form 10-Q as Exhibits 4.2 and 4.1, respectively.

2013 Stock Option Activity

The exercise price for all stock options granted by us to date has been equal to the market price of the underlying shares of common stock at the date of grant. In this regard, when making stock option awards, our practice is to determine the applicable grant date and to specify that the exercise price shall be the closing price of our common stock on the date of grant. Stock options granted during the first six months of 2013 have a term of ten years from the date of grant and generally vest over a four-year service period.

During the six months ended June 30, 2013, we granted 1,561,789 primarily service-based stock options under the 2011 Incentive Plan with a weighted average grant-date fair value per option of \$23.15. We will amortize the fair value, net of estimated forfeitures, as stock-based compensation expense over the vesting term of generally four years on a straight-line basis, with the amount of compensation expense recognized at any date at least equaling the portion of the grant-date fair value of the award that is vested at that date. We use historical data to estimate pre-vesting option forfeitures and record share-based compensation expense only for those awards that are expected to vest. Changes in estimated forfeitures are recognized through a cumulative catch-up adjustment in the period of change which also impacts the amount of stock compensation expense to be recognized in future periods.

A summary of the status and activity for stock option awards relating to our common stock for the six months ended June 30, 2013, is presented below:

	Options Outstanding (In thousands)	Weighted Average Exercise Price Per Share	Weighted Average Remaining Contractual Life (In years)	Aggregate Intrinsic Value (In thousands)
Options outstanding at January 1, 2013	8,654	\$ 31.41		
Granted	1,562	46.35		
Exercised	875	22.69		\$ 26,740
Cancelled	321	36.23		
Options outstanding at June 30, 2013	9,020	\$ 34.67	6.0	\$ 236,321
Exercisable as of June 30, 2013	3,756	\$ 29.03	3.5	\$ 119,593
Vested and expected to vest after June 30, 2013	8,439	\$ 34.12	6.0	\$ 223,343

Aggregate intrinsic value represents the difference between the closing stock price of our common stock and the exercise price of outstanding, in-the-money options. Our closing stock price as reported on NASDAQ as of June 28, 2013 was \$60.87.

The estimated fair value of the options granted under the 2011 Incentive Plan was calculated using a Black-Scholes Merton option-pricing model (Black-Scholes model). The Black-Scholes model incorporates assumptions to value stock-based awards, which includes the risk-free rate of return, expected volatility, expected term and expected dividend yield.

Table of Contents

Our risk-free interest rate is based on the rates currently available on zero-coupon U.S. Treasury issues, in effect at the time of the grant, whose remaining maturity period most closely approximates the stock option's expected term assumption. We estimated the volatility of our common stock by using an average of historical stock price volatility of publicly traded companies that we consider peers based on daily price observations over a period equivalent to or approximate to the expected term of the stock option grants. The decision to use a weighted average volatility factor of a peer group was based upon the relatively short period of availability of data on our common stock. We estimated our expected term using the simplified method for all stock options as we do not have sufficient historical exercise data on our common stock. Our expected dividend yield is zero, as we have not paid any dividends on our common stock to date.

The fair value of stock option grants under the 2011 Incentive Plan has been estimated at the date of grant using the Black-Scholes model with the following weighted average assumptions for the periods presented below:

	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012
Risk free interest rate	1.07%	1.05%	1.07%	1.05%
Expected term (in years)	6.25	6.21	6.25	6.21
Expected volatility	51.82%	53.34%	51.73%	53.34%
Expected dividend yield	0%	0%	0%	0%

2013 RSU Activity

During the six months ended June 30, 2013, we granted 994,293 primarily service-based RSUs under the 2011 Incentive Plan for which the fair value was measured based on the quoted price of our common stock at the date of grant. We will amortize the fair value, net of estimated forfeitures, as stock-based compensation expense over the vesting term of generally four years on a straight-line basis, with the amount of compensation expense recognized at any date at least equaling the portion of the grant-date fair value of the award that is vested at that date.

The following table presents a summary of RSU activity on our common stock:

	RSUs Outstanding (in thousands)	Weighted Average Grant- Date Fair Value Per Share
Unvested RSUs outstanding as of January 1, 2013	446	\$ 26.11
Granted	994	47.05
Vested and released (1)	306	22.01
Cancelled	40	41.23
Unvested RSUs outstanding as of June 30, 2013	1,094	\$ 45.13

- (1) Inclusive of 117,403 RSUs withheld to satisfy employee minimum tax withholding requirements using net shares settlement method. Total payments for the employees' tax obligations to the taxing authorities were \$5.5 million and \$3.0 million for the six months ended June 30, 2013 and 2012, respectively, and are reflected as a financing activity within the consolidated statements of cash flows. RSUs that are withheld to satisfy employee minimum tax withholding requirements remain in the authorized but unissued pool under the 2011 Incentive Plan.

A summary of the unrecognized compensation expense, net of estimated forfeitures, and the weighted average period remaining at June 30, 2013 related to our non-vested stock options and RSU awards is presented below (in thousands, except year information):

Edgar Filing: TripAdvisor, Inc. - Form 10-Q

	Stock Options	RSUs
Unrecognized compensation expense (net of forfeitures)	\$ 77,179	\$ 32,234
Weighted average period remaining (in years)	2.89	3.51

All shares of common stock issued in respect of the exercise of options or other equity awards since Spin-Off have been issued from authorized, but unissued common stock.

-------	------------	-------	----------	------------	------------	------------	-----------

Our cash and cash equivalents consist of cash on hand in global financial institutions, money market funds and marketable securities with maturities of 90 days or less at the date purchased. The remaining maturities of our long-term marketable securities range from one to three years and our short-term marketable securities include maturities that were greater than 90 days at the date purchased and have 12 months or less remaining at June 30, 2013.

Table of Contents

We classify our cash equivalents and marketable securities within Level 1 and Level 2 as we value our cash equivalents and marketable securities using quoted market prices (Level 1) or alternative pricing sources (Level 2). The valuation technique we used to measure the fair value of money market funds were derived from quoted prices in active markets for identical assets or liabilities. Investments in U.S. Treasury securities are considered Level 2 valuations because we have access to quoted prices, but do not have visibility to the volume and frequency of trading for all investments. Fair values for our U.S. agency securities, commercial paper, corporate securities, certificates of deposit and municipal securities are considered Level 2 valuations because they are obtained from pricing sources for identical or comparable instruments, rather than direct observations of quoted prices in active markets.

There were no material realized gains or losses related to sales of our marketable securities for the three and six months ended June 30, 2013 and 2012.

As of June 30, 2013, we have marketable securities with a total fair value of \$332.5 million in a total gross unrealized loss position of \$1.2 million. We consider the declines in market value of our marketable securities investment portfolio to be temporary in nature and do not consider any of our investments other-than-temporarily impaired. When evaluating an investment for other-than-temporary impairment, we review factors such as the length of time and extent to which fair value has been below its cost basis, the financial condition of the issuer and any changes thereto, and our intent to sell, or whether it is more likely than not we will be required to sell the investment before recovery of the investment's cost basis. During the six months ended June 30, 2013 and 2012, we did not recognize any impairment charges. We did not have any investments in marketable securities that were in a continuous unrealized loss position for 12 months or greater at June 30, 2013 or December 31, 2012.

Derivative Financial Instruments

In the normal course of business, we are exposed to the impact of foreign currency fluctuations, which we attempt to mitigate through the use of derivative instruments. Accordingly, we have entered into forward contracts to reduce the effects of fluctuating foreign currency exchange rates on our cash flows denominated in foreign currencies. We do not use derivatives for trading or speculative purposes. In accordance with current accounting guidance on derivative instruments and hedging activities, we record all our derivative instruments as either an asset or liability measured at their fair value. Our derivative instruments are typically short-term in nature.

Our current forward contracts are not designated as hedges. Consequently, any gain or loss resulting from the change in fair value is recognized in the current period earnings. These gains or losses are offset by the exposure related to receivables and payables with our foreign subsidiaries. We recorded a net loss of \$0.1 million and a net gain of \$0.7 million for the three and six month periods ended June 30, 2013, respectively, related to our forward contracts in our consolidated statement of operations in Other, net. The net cash received or paid related to our derivative instruments are classified as operating in our consolidated statements of cash flows, which is based on the objective of the derivative instruments. No derivative instruments were entered into or settled during the three and six months ended June 30, 2012.

Table of Contents

The following tables show the fair value and notional principal amounts of our outstanding or unsettled derivative instruments that are not designated as hedging instruments (in thousands):

	Balance Sheet Caption	June 30, 2013		U.S. Dollar Notional
		Fair Value of Asset	Derivative (2) Liability	
Foreign exchange-forward contracts (current)	Accrued and other current liabilities (1)	\$	\$ 1	\$ 23,042

	Balance Sheet Caption	December 31, 2012		U.S. Dollar Notional
		Fair Value of Asset	Derivative (2) Liability	
Foreign exchange-forward contracts (current)	Accrued and other current liabilities (1)	\$	\$ 64	\$ 2,710

- (1) Derivative contracts address foreign exchange fluctuations for the Euro versus the U.S. dollar.
- (2) The fair value of our derivatives are measured using Level 2 fair value inputs, as we use a pricing model that takes into account the contract terms as well as current foreign currency exchange rates in active markets.

Concentration of Credit Risk

Counterparties to currency exchange derivatives consist of major international financial institutions. We monitor our positions and the credit ratings of the counterparties involved and, by policy limits, the amount of credit exposure to any one party. While we may be exposed to potential losses due to the credit risk of non-performance by these counterparties, losses are not anticipated.

Other Financial Instruments

Other financial instruments not measured at fair value on a recurring basis include trade receivables, related party receivables, trade payables, deferred merchant payables, short-term debt, accrued and other current liabilities and long-term debt. With the exception of long-term debt, the carrying amount approximates fair value because of the short maturity of these instruments as reported on our consolidated balance sheets as of June 30, 2013 and December 31, 2012. The carrying value of the long-term borrowings outstanding on our Credit Agreement bears interest at a variable rate and therefore is also considered to approximate fair value.

We did not have any Level 3 assets or liabilities for the periods ended June 30, 2013 and December 31, 2012.

NOTE 5: DEBT**Term Loan Facility Due 2016 and Revolving Credit Facility***Overview*

On December 20, 2011, in connection with the Spin-Off, we entered into a credit agreement, dated as of December 20, 2011, by and among TripAdvisor, TripAdvisor Holdings, LLC, and TripAdvisor LLC, the lenders party thereto, JPMorgan Chase Bank, N.A., as administrative agent, and J.P. Morgan Europe Limited, as London agent (this credit agreement, together with all exhibits, schedules, annexes, certificates, assignments and related documents contemplated thereby, is referred to herein as the Credit Agreement), which provides \$600 million of borrowing including:

Edgar Filing: TripAdvisor, Inc. - Form 10-Q

the Term Loan Facility, or Term Loan, in an aggregate principal amount of \$400 million with a term of five years due December 2016; and

the Revolving Credit Facility in an aggregate principal amount of \$200 million available in U.S. dollars, Euros and British pound sterling with a term of five years expiring December 2016.

The Term Loan and any loans under the Revolving Credit Facility bear interest by reference to a base rate or a Eurocurrency rate, in either case plus an applicable margin based on our leverage ratio. We are also required to pay a quarterly commitment fee, on the average daily unused portion of the Revolving Credit Facility for each fiscal quarter and fees in connection with the issuance of letters of credit. The Term Loan and loans under the Revolving Credit Facility currently bear interest at LIBOR plus 175 basis points, or the Eurocurrency Spread, or the alternate base rate (ABR) plus 75 basis points, and undrawn amounts are currently subject to a commitment fee of 30 basis points.

Table of Contents

As of June 30, 2013, we are using a one-month interest period Eurocurrency spread, which is approximately 2.0% per annum. Interest is currently payable on a monthly basis while we are borrowing under the one-month interest rate period. The current interest rates are based on current assumptions, leverage and LIBOR rates and do not take into account that rates will reset periodically.

The Term Loan principal is currently repayable in quarterly installments on the last day of each calendar quarter equal to 2.5% of the original principal amount with the balance due on the final maturity date. Principal payments aggregating \$20 million were made during the six months ended June 30, 2013.

The Revolving Credit Facility includes \$40 million of borrowing capacity available for letters of credit and \$40 million for borrowings on same-day notice. As of June 30, 2013, there are no outstanding borrowings under our Revolving Credit Facility. During the three and six months ended June 30, 2013, we recorded total interest and commitment fees on our Credit Agreement of \$2.0 million and \$4.1 million, respectively, to interest expense on our consolidated statement of operations. During the three and six months ended June 30, 2012, we recorded total interest and commitment fees on our Credit Agreement of \$2.1 million and \$4.4 million, respectively, to interest expense on our consolidated statements of operations. All unpaid interest and commitment fee amounts as of June 30, 2013 and December 31, 2012 were not material.

Total outstanding borrowings under the Credit Agreement consist of the following (in thousands):

	June 30, 2013
Short-Term Debt:	
Revolving Credit Facility	\$
Term Loan	40,000
Total Short-Term Borrowings	\$ 40,000
Long-Term Debt:	
Term Loan	\$ 320,000
Total Long-Term Borrowings	\$ 320,000

The remaining future minimum principal payment obligations due under the Credit Agreement related to our Term Loan is as follows as of June 30, 2013 (in thousands):

	Payment Amount
2013 (remaining six months)	\$ 20,000
2014	\$ 40,000
2015	\$ 40,000
2016	\$ 260,000
Total	\$ 360,000

Prepayments

We may voluntarily repay any outstanding borrowing under the Credit Agreement at any time without premium or penalty, other than customary breakage costs with respect to eurocurrency loans.

Guarantees

Edgar Filing: TripAdvisor, Inc. - Form 10-Q

All obligations under the Credit Agreement are unconditionally guaranteed by us and each of our existing and subsequently acquired or organized direct or indirect wholly-owned domestic and foreign restricted subsidiaries, subject to certain exceptions for subsidiaries that are controlled foreign corporations, foreign subsidiaries in jurisdictions where applicable law would otherwise be violated, and non-material subsidiaries.

Table of Contents

Covenants

The Credit Agreement contains a number of covenants that, among other things, restrict our ability to: incur additional indebtedness, create liens, enter into sale and leaseback transactions, engage in mergers or consolidations, sell or transfer assets, pay dividends and distributions, make investments, loans or advances, prepay certain subordinated indebtedness, make certain acquisitions, engage in certain transactions with affiliates, amend material agreements governing certain subordinated indebtedness, and change our fiscal year. The Credit Agreement also requires us to maintain a maximum leverage ratio and a minimum cash interest coverage ratio, and contain certain customary affirmative covenants and events of default, including a change of control. If an event of default occurs, the lenders under the Credit Agreement will be entitled to take various actions, including the acceleration of all amounts due under Credit Agreement and all actions permitted to be taken by a secured creditor.

As of June 30, 2013 we believe we are in compliance with all of our debt covenants.

The full text of the Credit Agreement is incorporated by reference to Exhibit 4.2 of our Annual Report on Form 10-K for the year ending December 31, 2012.

Chinese Credit Facilities

In addition to our borrowings under the Credit Agreement, we maintain our Chinese Credit Facilities. As of June 30, 2013 and December 31, 2012, we had \$24.6 million and \$32.1 million of short-term borrowings outstanding, respectively.

Certain of our Chinese subsidiaries entered into a RMB 138,600,000 (approximately \$22 million), one-year revolving credit facility with Bank of America (the Chinese Credit Facility BOA) that is currently subject to review on a periodic basis with no-specific expiration period. During the third quarter of 2012, this credit line was increased to RMB 189,000,000 (approximately \$30 million). During the six months ended June 30, 2013, we made a payment inclusive of interest of RMB 68,283,570 (approximately \$10.9 million). We currently have \$11.3 million of outstanding borrowings from the Chinese Credit Facility BOA as of June 30, 2013. Our Chinese Credit Facility BOA currently bears interest at a rate based on 100% of the People s Bank of China s base rate and was 5.6% as of June 30, 2013.

In addition, during April 2012, certain of our Chinese subsidiaries entered into a RMB 125,000,000 (approximately \$20 million) one-year revolving credit facility with J.P. Morgan Chase Bank (Chinese Credit Facility-JPM). This credit facility was renewed for an additional year in April 2013. During the six months ended June 30, 2013, we made a payment inclusive of interest of RMB 24,281,546 (approximately \$3.9 million). We currently have \$13.3 million of outstanding borrowings from the Chinese Credit Facility JPM as of June 30, 2013. Our Chinese Credit Facility JPM currently bears interest at a rate based on 100% of the People s Bank of China s base rate and was 5.6% as of June 30, 2013.

NOTE 6: ACQUISITIONS

During the six months ended June 30, 2013, we completed five acquisitions for total cash consideration paid of \$31.6 million, net of cash acquired. The total cash consideration is subject to adjustment based on the finalization of working capital adjustments and amounts retained with payment subject to certain indemnification obligations by the respective sellers for our benefit in future periods. We acquired TinyPost, the developer of a product that enables users to write over photos and turn them into stories, Jetsetter, a members-only private sale site for hotel bookings, CruiseWise, a cruise research and planning site, Niumba, a Spain-based vacation rental site, and GateGuru, a mobile app with flight and airport information around the world, all of which complement our existing brands in those areas of the travel ecosystem. The total purchase price of these acquisitions, all of which were accounted for as purchases of businesses under the acquisition method, have been allocated to the tangible and identifiable intangible assets acquired and the net liabilities assumed based on their respective fair values on the acquisition date. The purchase price allocation of our 2013 acquisitions are preliminary and subject to revision as more information becomes available, but in any case will not be revised beyond 12 months after the acquisition date and any change to the fair value of net liabilities acquired will lead to a corresponding change to the purchase price allocable to goodwill. Acquisition-related costs were expensed as incurred and were not significant.

Table of Contents

The following table presents the purchase price allocations initially recorded on our consolidated balance sheet on June 30, 2013 for all 2013 acquisitions (in thousands):

	Total
Net liabilities (1)	\$ (14,195)
Goodwill (2)	34,137
Intangible assets (3)	16,944
Deferred tax liability	(1,352)
Total purchase price consideration (4)	\$ 35,534

- (1) Includes cash acquired of \$2.9 million.
- (2) The goodwill represents the excess value over both tangible and intangible assets acquired. The goodwill in these transactions is primarily attributable to expected operational synergies, the assembled workforces, and the future development initiatives of the assembled workforces. Goodwill in the amount of \$18.1 million is expected to be deductible for tax purposes.
- (3) Identifiable definite-lived intangible assets were comprised of developed technology of \$1.6 million, trade names of \$7.0 million, customer relationships of \$7.9 million, and non-compete agreements of \$0.4 million. The overall weighted-average life of the identifiable definite-lived intangible assets acquired in the purchase of the companies was 8.3 years, which will be amortized on a straight-line basis over their estimated useful lives.
- (4) Subject to adjustment based on (i) final working capital adjustment calculations, and (ii) indemnification obligations of the acquired company stockholders.

Our consolidated financial statements include the operating results of all acquired businesses from the date of each acquisition. Pro forma results of operations for all 2013 acquisitions have not been presented as the financial impact to our consolidated financial statements both individually and in aggregate, are not material. There were no acquisitions completed during the six months ended June 30, 2012.

NOTE 7: GOODWILL AND INTANGIBLE ASSETS, NET

The change in goodwill for the six months ended June 30, 2013 consists of the following (in thousands):

	Total
Balance at December 31, 2012	\$ 471,684
Additions (1)	34,137
Purchase accounting adjustments (2)	(872)
Foreign exchange translation adjustments	(2,934)
Balance at June 30, 2013	\$ 502,015

- (1) The additions to goodwill relate to our business acquisitions. See Note 6 *Acquisitions*, above for further information.
 - (2) Purchase price allocation adjustment is related to our 2012 acquisition.
- Intangible assets, which were acquired in business combinations and recorded at fair value on the date of purchase, consist of the following:

June 30, 2013	December 31, 2012
--------------------------	------------------------------

Edgar Filing: TripAdvisor, Inc. - Form 10-Q

	(In thousands)	
Intangible assets with definite lives	\$ 37,790	\$ 21,382
Less: accumulated amortization	(15,968)	(13,492)
Intangible assets with definite lives, net	21,822	7,890
Intangible assets with indefinite lives	30,300	30,300
	\$ 52,122	\$ 38,190

Table of Contents

The following table presents the components of our intangible assets with definite lives:

	Weighted Ave Remaining Life (in years)	June 30, 2013			December 31, 2012		
		Gross Carrying Amount	Accumulated Amortization (In thousands)	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization (In thousands)	Net Carrying Amount
Trade names and trademarks	8.1	\$ 21,217	\$ (10,384)	\$ 10,833	\$ 14,431	\$ (9,029)	\$ 5,402
Subscriber relationships	6.3	13,311	(4,270)	9,041	5,617	(3,511)	2,106
Technology and other	2.6	3,262	(1,314)	1,948	1,334	(952)	382
Total	6.8	\$ 37,790	\$ (15,968)	\$ 21,822	\$ 21,382	\$ (13,492)	\$ 7,890

Intangible assets with definite lives are amortized on a straight-line basis. The estimated amortization expense for intangible assets with definite lives for the remainder of 2013, the annual expense for the next five years, and the expense thereafter, assuming no subsequent impairment of the underlying assets, is expected to be as follows (in thousands):

2013 (remaining six months)	\$ 2,871
2014	4,553
2015	2,674
2016	2,177
2017	2,017
2018	2,017
2019 and thereafter	5,513
Total	\$ 21,822

NOTE 8: ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES

Accrued expenses and other current liabilities consisted of the following:

	June 30, 2013	December 31, 2012
	(In thousands)	
Accrued salary, bonus, and related benefits	\$ 26,598	\$ 29,438
Accrued marketing costs	19,251	11,941
Accrued charitable foundation payments	4,252	6,757
Accrued treasury share purchases	8,292	
Other	23,447	15,100
Total accrued expenses and other current liabilities	\$ 81,840	\$ 63,236

Table of Contents**NOTE 9: COMMITMENTS AND CONTINGENCIES****Office Lease Commitments**

On June 20, 2013, TripAdvisor LLC (TA LLC), our indirect, wholly owned subsidiary, entered into a lease (the Lease), with Normandy Gap-V Needham Building 3, LLC, as landlord (the Landlord). Pursuant to the Lease, the Landlord will build an approximately 280,000 square foot rental building in Needham, Massachusetts (the Premises), and thereafter lease the Premises to TA LLC as TripAdvisor's new corporate headquarters for an initial term of 15 years and 7 months. If the Landlord fails to deliver the Premises according to the schedule, subject to certain conditions, TA LLC may be entitled to additional free rent, or in extreme cases, a right to terminate the Lease. Under the Lease, TA LLC is required to pay an initial base rent of \$33.00 per square foot per year, increasing to \$34.50 per square foot by the final year of the initial term, as well as all real estate taxes and other building operating costs.

The aggregate future minimum lease payments are \$143.5 million and are currently scheduled to be paid, beginning in November 2015, as follows: \$1.1 million for 2015, \$9.3 million for 2016, \$9.3 million for 2017, and \$123.9 million for 2018 and thereafter. The Lease has escalating rental payments and initial periods of free rent and therefore the effects of variable rent payments will be expensed on a straight-line basis over the life of the Lease in accordance with GAAP. All real estate taxes and other building operating costs paid during the term of the Lease will be expensed as incurred. TA LLC is also obligated to deliver a letter of credit to the Landlord in the amount of \$0.8 million as security deposit, which amount is subject to increase under certain circumstances. Subject to certain conditions, TA LLC has certain rights under the Lease, including rights of first offer to lease additional space or to purchase the Premises if the Landlord elects to sell. TA LLC also has an option to extend the term of the Lease for two consecutive terms of five years each.

In connection with the Lease, on June 20, 2013, TripAdvisor entered into a Guaranty (the Guaranty), pursuant to which TripAdvisor provides full payment and performance guaranty for all of TA LLC's obligations under the Lease.

The full text of the Lease and the Guaranty are filed with this Quarterly Report on Form 10-Q as Exhibits 10.1 and 10.2, respectively.

The following table presents our estimated future minimum rental payments under all operating leases with non-cancelable lease terms having initial terms in excess of one year as of June 30, 2013 (in thousands):

	Total Payments
2013 (remaining six months)	\$ 5,125
2014	8,494
2015	5,774
2016	10,598
2017	10,598
2018 and thereafter	130,008
Total (1)	\$ 170,597

- (1) Excludes spending on anticipated leasehold improvements on our Needham, Massachusetts lease, including design, development, construction costs, the purchase and installation of equipment, and receipt of related Landlord incentives which we estimate will begin in October 2014.

There have been no other material changes to our commitments and contingencies since December 31, 2012. (Refer to Note 12 *Commitments and Contingencies*, in the Notes to our Consolidated Financial Statements in Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2012.)

Legal Proceedings

In the ordinary course of business, we and our subsidiaries are parties to legal proceedings and claims involving alleged infringement of third-party intellectual property rights, defamation, and other claims. Rules of the U.S. Securities and Exchange Commission require the

Edgar Filing: TripAdvisor, Inc. - Form 10-Q

description of material pending legal proceedings, other than ordinary, routine litigation incident to the registrant's business, and advise that proceedings ordinarily need not be described if they primarily involve damages claims for amounts (exclusive of interest and costs) not individually exceeding 10% of the current assets of the registrant and its subsidiaries on a consolidated basis. In the judgment of management, none of the pending litigation matters that the Company and its subsidiaries are defending involves or is likely to involve amounts of that magnitude. There may be claims or actions pending or threatened against us of which we are currently not aware and the ultimate disposition of which could have a material adverse effect on us.

Table of Contents**NOTE 10: INCOME TAXES**

Each interim period is considered an integral part of the annual period and, accordingly, we measure our tax expense using an estimated annual effective tax rate. An enterprise is required, at the end of each interim reporting period, to make its best estimate of the annual effective tax rate for the full fiscal year and use that rate to provide for income taxes on a current year-to-date basis, as adjusted for discrete taxable events that occur during the interim period.

Our effective tax rate for the three and six months ended June 30, 2013 was 25.5% and 25.8%, respectively. Our effective tax rate for the three and six months ended June 30, 2012 was 30.7% and 31.5%, respectively. For the three and six months ended June 30, 2013, the effective tax rate is less than the federal statutory rate primarily due to earnings in jurisdictions outside the United States, where our effective tax rate is lower, which was partially offset by state income taxes, non-deductible stock compensation and accruals on uncertain tax positions. The decrease in the effective tax rate for 2013 compared to the 2012 rate was primarily due to an increase in earnings in jurisdictions outside the United States as well as an internal restructuring that occurred during the fourth quarter of 2012. This restructuring was undertaken within our non-US operations to align our global structure for more efficient treasury management and global cash deployment.

Our policy is to recognize accrued interest and penalties related to unrecognized tax benefits and income tax liabilities as part of our income tax expense. As of June 30, 2013, accrued interest is \$0.8 million, net of federal benefit, and no penalties have been accrued. We do not anticipate any material releases in the next twelve months.

For all periods prior to and through the Spin-Off date, we were a member of the Expedia consolidated tax group. Accordingly, Expedia filed a consolidated federal income tax return and certain state income tax returns with us for that period. Expedia has paid the entire income tax liability associated with these filings. As such, our income tax liability for this period was transferred to Expedia upon Spin-Off and was not included in income taxes payable as of December 31, 2011. Additionally, due to continuing ownership and business relationships after the Spin-Off, we may be considered to have a unitary relationship with Expedia from January 1, 2012 through December 11, 2012 for state income tax purposes. Consequently, we may file as part of a unitary combined group with Expedia for certain state tax returns for 2012.

As of June 30, 2013, the Company's tax years for 2009 through 2012 are subject to examination by the tax authorities in the United States, various states, and foreign jurisdictions. By virtue of previously filed consolidated income tax returns filed with Expedia, we are routinely under audit. We are currently under an IRS audit for the 2009 and 2010 tax years, and have various ongoing state income tax audits. As of June 30, 2013, no material assessments have resulted from these audits. These audits include questioning the timing and the amount of income and deductions and the allocation of income among various tax jurisdictions. Annual tax provisions include amounts considered sufficient to pay assessments that may result from the examination of prior year returns. We are no longer subject to tax examinations by tax authorities for years prior to 2005.

NOTE 11: STOCKHOLDERS' EQUITY***Common Stock and Class B Common Stock***

Our authorized common stock consists of 1.6 billion shares of common stock with par value of \$0.001 per share, and 400 million shares of Class B common stock with par value of \$0.001 per share. Both classes of common stock qualify for and share equally in dividends, if declared by our Board of Directors. Common stock is entitled to one vote per share and Class B common stock is entitled to 10 votes per share on most matters. Holders of TripAdvisor common stock, acting as a single class, are entitled to elect a number of directors equal to 25% percent of the total number of directors, rounded up to the next whole number, which was two directors as of June 30, 2013. Class B common stockholders may, at any time, convert their shares into common stock, on a one for one share basis. Upon conversion, the Class B common stock is retired and is not available for reissue. In the event of liquidation, dissolution, distribution of assets or winding-up of TripAdvisor the holders of both classes of common stock have equal rights to receive all the assets of TripAdvisor after the rights of the holders of the preferred stock have been satisfied. There were 131,127,919 and 130,452,919 shares of common stock issued and outstanding, respectively, at June 30, 2013 and 12,799,999 shares of Class B common stock issued and outstanding at June 30, 2013.

Preferred Stock

In addition to common stock, we are authorized to issue up to 100 million preferred shares, with \$ 0.001 par value per share, with terms determined by our Board of Directors, without further action by our stockholders. At June 30, 2013, no preferred shares had been issued.

Table of Contents***Accumulated Other Comprehensive Loss***

Accumulated other comprehensive loss is primarily comprised of accumulated foreign currency translation adjustments, as follows (in thousands):

	June 30, 2013	December 31, 2012
Net unrealized loss on securities, net of tax (1)	\$ (649)	\$ (104)
Cumulative foreign currency translation adjustments (2)	(4,326)	(765)
Total accumulated other comprehensive loss	\$ (4,975)	\$ (869)

- (1) Net of unrealized tax benefits of \$0.4 million and \$0.1 million at June 30, 2013 and December 31, 2012, respectively.
(2) Our foreign subsidiary earnings are considered indefinitely reinvested; therefore, deferred taxes are not provided on foreign currency translation adjustments.

Treasury Stock

On February 15, 2013, our Board of Directors authorized the repurchase of \$250 million of our shares of common stock under a share repurchase program. We intend to use available cash and future cash from operations to fund repurchases under the share repurchase program. The repurchase program has no expiration but may be suspended or terminated by the Board of Directors at any time. The Executive Committee of our Board of Directors will determine the price, timing, amount and method of such repurchases based on its evaluation of market conditions and other factors, and any shares repurchased will be in compliance with applicable legal requirements, at prices determined to be attractive and in the best interests of both the Company and its stockholders.

During the six month period ended June 30, 2013, we repurchased 675,000 shares of outstanding common stock under the share repurchase program at an aggregate cost of \$42.4 million, of which \$8.3 million remains payable at June 30, 2013. As of June 30, 2013, we have a remaining amount from the authorized share repurchase program granted by the Board of Directors of \$207.6 million to repurchase shares of our common stock.

Dividends

During the period January 1, 2013 through June 30, 2013, our Board of Directors did not declare any dividends on our outstanding common stock.

NOTE 12: SEGMENT INFORMATION

We have one reportable segment: TripAdvisor. We determined our segment based on how our chief operating decision maker manages our business, makes operating decisions and evaluates operating performance. Our primary operating metric for evaluating segment performance is Adjusted EBITDA. We define Adjusted EBITDA as net income (loss) plus: (1) provision for income taxes; (2) other (income) expense, net; (3) depreciation of property and equipment, including internal use software and website development; (4) amortization of intangible assets; (5) stock-based compensation; and (6) non-recurring expenses. Such amounts are detailed in our segment reconciliation below. In addition, please see our discussion of Adjusted EBITDA in Part I, Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations below.

The following table is a reconciliation of Adjusted EBITDA to net income, the most directly comparable financial measure calculated and presented in accordance with GAAP, for the periods presented (in thousands):

Edgar Filing: TripAdvisor, Inc. - Form 10-Q

	Three months ended		Six months ended	
	June 30,		June 30,	
	2013	2012	2013	2012
Adjusted EBITDA	\$ 112,832	\$ 96,921	\$ 222,179	\$ 181,110
Depreciation (1)	(6,876)	(4,715)	(13,200)	(8,996)
Amortization of intangible assets	(1,630)	(1,760)	(2,739)	(3,599)
Stock-based compensation	(10,208)	(6,768)	(23,819)	(11,460)
Other expense, net	(4,216)	(6,944)	(8,083)	(9,180)
Provision for income taxes	(22,914)	(23,569)	(45,051)	(46,539)
Net income	\$ 66,988	\$ 53,165	\$ 129,287	\$ 101,336

(1) Includes amortization of internal use software and website development costs.

Table of Contents**NOTE 13: EARNINGS PER SHARE*****Basic Earnings Per Share***

We compute basic earnings per share by dividing net income attributable to TripAdvisor by the weighted average number of common shares outstanding during the period. For the three and six months ended June 30, 2013 and 2012, we computed the weighted average number of common shares outstanding during the period using the total of common stock and Class B common stock outstanding as of December 31, 2012 and 2011, respectively, plus the weighted average of any additional shares issued and outstanding during the three and six months ended June 30, 2013 and 2012, respectively.

Diluted Earnings Per Share

We compute diluted earnings per share by dividing net income attributable to TripAdvisor by the sum of the weighted average number of common and common equivalent shares outstanding during the period. For the three and six months ended June 30, 2013 and 2012, we computed the weighted average number of common and common equivalent shares outstanding during the period using the sum of (i) the number of shares of common stock and Class B common stock used in the basic earnings per share calculation as indicated above, (ii) if dilutive, the incremental weighted average common stock that we would issue upon the assumed exercise of common equivalent shares related to stock options and stock warrants and the vesting of restricted stock units using the treasury stock method during the three and six months ended June 30, 2013 and 2012, respectively, and (iii) if dilutive, performance based awards based on the number of shares that would be issuable as of the end of the reporting period assuming the end of the reporting period was also the end of the contingency period.

Under the treasury stock method, the assumed proceeds calculation includes the actual proceeds to be received from the employee upon exercise, the average unrecognized compensation cost during the period and any tax benefits credited upon exercise to additional paid-in-capital. The treasury stock method assumes that a company uses the proceeds from the exercise of an award to repurchase common stock at the average market price for the period. Windfall tax benefits created upon the exercise of an award would be added to assumed proceeds, while shortfalls charged to additional paid-in-capital would be deducted from assumed proceeds. Any shortfalls not covered by the windfall tax pool would be charged to the income statement and would be excluded from the calculation of assumed proceeds, if any.

Below is a reconciliation of the weighted average number of shares of common stock outstanding in calculating diluted earnings per share (in thousands, except for per share information):

	Three months ended June 30,		Six months ended June 30,	
	2013	2012	2013	2012
<u>Numerator:</u>				
Net income attributable to TripAdvisor	\$ 66,988	\$ 53,019	\$ 129,287	\$ 101,130
<u>Denominator:</u>				
Weighted average shares used to compute Basic EPS	143,531	139,278	143,297	136,516
Weighted average effect of dilutive securities:				
Stock options	1,940	1,394	1,671	1,263
RSUs	193	100	192	147
Stock warrants		965		1,021
Weighted average shares used to compute Diluted EPS	145,664	141,737	145,160	138,947
Basic EPS	\$ 0.47	\$ 0.38	\$ 0.90	\$ 0.74
Diluted EPS	\$ 0.46	\$ 0.37	\$ 0.89	\$ 0.73

Table of Contents

The following potential common shares related to stock options and RSUs were excluded from the calculation of diluted net income per share because their effect would have been anti-dilutive for the periods presented (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013 (1)	2012 (2)	2013 (1)	2012 (2)
Stock options	1,741	3,901	3,159	2,861
RSUs	48		24	30
Total	1,789	3,901	3,183	2,891

- (1) These totals do not include 210,000 performance based options and 44,000 performance based RSUs representing the right to acquire 254,000 shares of common stock for which all targets required to trigger vesting have not been achieved as of June 30, 2013; therefore, such awards were excluded from the calculation of weighted average shares used to compute diluted earnings per share for those reporting periods.
- (2) These totals do not include performance based RSUs representing the right to acquire 400,000 shares of common stock for which all targets required to trigger vesting had not been achieved as of June 30, 2012; therefore, such awards were excluded from the calculation of weighted average shares used to compute diluted earnings per share for those reporting periods.

The earnings per share amounts are the same for common stock and Class B common stock because the holders of each class are legally entitled to equal per share distributions whether through dividends or in liquidation.

NOTE 14: RELATED PARTY TRANSACTIONS*Expedia*

Subsequent to the Spin-Off, we remained a related party with Expedia due to common ownership or Liberty Interactive Corporation's ownership of Expedia stock, as applicable, and continue to work together pursuant to various commercial agreements between subsidiaries of TripAdvisor, on the one hand, and subsidiaries of Expedia, on the other hand.

Related-party revenue from Expedia was \$54.3 million and \$114.8 million for the three and six months ended June 30, 2013, respectively, and was \$55.7 million and \$107.3 million for the three and six months ended June 30, 2012, respectively, which primarily consists of click-based advertising and other advertising services provided to Expedia and its subsidiaries and is recorded at contract value, which we believe is a reasonable reflection of the value of the services provided. Related-party revenue represented 22.0% and 24.1% of our total revenue for the three and six months ended June 30, 2013, respectively, and 28.3% and 28.2% of our total revenue for the three and six months ended June 30, 2012, respectively. Other related-party operating expenses which were included within selling and marketing expense were \$1.4 million and \$3.2 million for the three and six months ended June 30, 2013, respectively, and were \$1.8 million and \$3.5 million for the three and six months ended June 30, 2012, respectively, which primarily consisted of marketing expense for exit windows. The net related party receivable balances with Expedia reflected in our consolidated balance sheets as of June 30, 2013 and December 31, 2012 were \$35.2 million and \$24.0 million, respectively.

Liberty Interactive Corporation

As of June 30, 2013, Liberty Interactive Corporation, or Liberty, beneficially owned 18,159,752 shares of our common stock and 12,799,999 shares of our Class B common stock, which shares constitute 13.9% of the outstanding shares of common stock and 100% of the outstanding shares of Class B Common Stock. Assuming the conversion of all of the Liberty's shares of Class B common stock into common stock, Liberty would beneficially own 21.6% of the outstanding common stock (calculated in accordance with Rule 13d-3). Because each share of Class B common stock generally is entitled to ten votes per share and each share of common stock is entitled to one vote per share, Liberty may be deemed to beneficially own equity securities representing approximately 56.5% of our voting power as of June 30, 2013.

We had no related party transactions with Liberty during the six months ended June 30, 2013 and 2012, respectively.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements reflect the views of our management regarding current expectations and projections about future events and are based on currently available information. Actual results could differ materially from those contained in these forward-looking statements for a variety of reasons, including, but not limited to, those discussed in our Annual Report on Form 10-K for the year ended December 31, 2012, Part I, Item 1A, Risk Factors, as well as those discussed elsewhere in this report. Other unknown or unpredictable factors also could have a material adverse effect on our business, financial condition and results of operations. Accordingly, readers should not place undue reliance on these forward-looking statements. The use of words such as anticipates, estimates, expects, intends, plans and believes, among others, generally identify forward-looking statements; however, these words are not the exclusive means of identifying such statements. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements. These forward-looking statements are inherently subject to uncertainties, risks and changes in circumstances that are difficult to predict. We are not under any obligation to, and do not intend to, publicly update or review any of these forward-looking statements, whether as a result of new information, future events or otherwise, even if experience or future events make it clear that any expected results expressed or implied by those forward-looking statements will not be realized. Please carefully review and consider the various disclosures made in this report and in our other reports filed with the U.S. Securities and Exchange Commission (SEC) that attempt to advise interested parties of the risks and factors that may affect our business, prospects and results of operations.

The information included in this management's discussion and analysis of financial condition and results of operations should be read in conjunction with our consolidated financial statements and the notes included in this Quarterly Report on Form 10-Q, and the audited consolidated financial statements and notes and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the year ended December 31, 2012.

Overview

We are the world's largest online travel company, empowering users to plan and have the perfect trip. Our travel research platform aggregates reviews and opinions from our community about destinations, accommodations (including hotels, resorts, motels, B&Bs, specialty lodging and vacation rentals), restaurants and activities throughout the world through our flagship TripAdvisor brand. Our branded websites include tripadvisor.com in the United States and localized versions of the website in 29 other countries, including China under the brand daodao.com. Our TripAdvisor branded websites globally averaged more than 220 million monthly unique visitors for the quarter ended June 30, 2013, according to Google Analytics. We feature over 100 million reviews and opinions and we have built a base of approximately 53 million marketable members. Marketable members are members that have registered on our site and given us permission to email them. While we believe growth in marketable members increases user engagement and traffic to our site we do not consider it to be a key driver of our overall revenue. Beyond travel-related content, our websites also include links to the websites of our customers, including travel advertisers, allowing travelers to directly book their travel arrangements. In addition to the flagship TripAdvisor brand, we now manage and operate 20 other travel media brands: www.airfarewatchdog.com, www.bookingbuddy.com, www.cruise critic.com, www.everytrail.com, www.familyvacationcritic.com, www.flipkey.com, www.gateguru.com, www.holidaylettings.co.uk, www.holidaywatchdog.com, www.independenttraveler.com, www.jetsetter.com, www.niumba.com, www.onetime.com, www.seatguru.com, www.smartertravel.com, www.tingo.com, www.travelpod.com, www.virtualtourist.com, www.whereivebeen.com, and www.kuxun.cn, connected by the common goal of providing comprehensive travel planning resources across the travel sector.

For additional information about our portfolio of brands, see Other Travel Brands and Websites in Part I, Item 1, Business, in our Annual Report on Form 10-K for the year ended December 31, 2012.

Table of Contents

Business Model

We derive substantially all of our revenue from the sale of advertising, primarily through click-based advertising and, to a lesser extent, display-based advertising. The remainder of our revenue is generated through a combination of subscription-based offerings, selling room nights on our transactional sites, and other revenue including content licensing. For the six months ended June 30, 2013, we earned \$362 million in revenue from click-based advertising, \$56 million in revenue from display-based advertising and \$59 million in revenue from subscription-based offerings, transaction revenue and other revenue.

Click-Based Advertising Revenue. Our largest source of revenue is click-based advertising, which includes links to our partners booking sites and contextually-relevant branded and unbranded textlinks. Our click-based advertising partners are predominantly online travel agencies and direct suppliers in the hotel, airline and cruise product categories. Click-based advertising is generally priced on a cost-per-click, or CPC, basis, with payments from advertisers based on the number of users who click on each type of link. Most of our click-based advertising contracts can be terminated by the advertisers at will or on short notice.

Display-Based Advertising Revenue. We earn revenue from a variety of display-based advertising placements on our websites through which our advertising partners can promote their brands in a contextually-relevant manner. While our display-based advertising clients are predominately direct suppliers in the hotel, airline and cruise categories and online travel agencies, we also accept display advertising from marketing organizations, casinos, resorts and attractions, as well as advertisers from non-travel categories. We generally sell our display-based advertising on a cost per thousand impressions, or CPM, basis. Our display-based advertising products also include a number of custom-built products including the sponsorship of certain site features and functionality, as well as certain customized co-branded features.

Subscription-Based, Transaction and Other Revenue. We offer advertising via a subscription model that is sold for a flat fee per time period. Managed by our TripAdvisor for Business division, this advertising product, Business Listings, is currently offered to hotels, B&Bs and other specialty lodging properties and allows subscribers to list a website URL, email address and phone number on TripAdvisor-branded websites as well as to post special offers for travelers. Our Vacation Rentals product allows individual vacation property owners and property managers to pay a subscription fee or to use a new free-to-list option to list properties on our U.K.-based Holiday Lettings, U.S.-based FlipKey and our recently-acquired Spain-based Numba websites, as well as on select TripAdvisor-branded websites. Other sources of revenue include selling room nights on our transactional sites, including our recently-acquired Jetsetter business and Tingo, as well as content licensing arrangements with third-party sites.

Executive Summary

Our financial results are currently principally dependent on our ability to drive our click-based advertising revenue. We continue to invest in areas of potential click-based revenue growth, including our social, mobile and global initiatives, while also focusing on growing both our subscription-based products, such as Vacation Rentals and Business Listings, and our transaction-based businesses. We have leveraged our position as the largest online travel company to become an important partner for online advertisers including hotels, online travel agencies and other travel-related service providers by providing our customers with access to our large audience of highly-qualified, highly-engaged users. The key drivers of our click-based and display-based advertising revenue are described below, as well as a summary of our key growth areas and the current trends impacting our business.

Key Drivers of Click-Based Advertising Revenue

For the three and six months ended June 30, 2013, 74% and 76%, respectively, of our total revenue came from our core CPC-based lead generation product. For the three and six months ended June 30, 2012, 77% and 78%, respectively, of our total revenue came from our CPC-based lead generation product. The key drivers of our click-based advertising revenue include the growth in monthly unique hotel shoppers and revenue per hotel shopper.

Hotel shoppers: Total traffic growth, or growth in monthly visits from unique visitors, is reflective of our overall brand growth. We track and analyze sub-segments of traffic and their correlation to revenue generation and utilize hotel shoppers as an indicator of revenue

Edgar Filing: TripAdvisor, Inc. - Form 10-Q

growth. We use the term “hotel shoppers” to refer to users who view a listing of hotels in a city or visitors who view a specific hotel page. Hotel shoppers tend to be seasonal and also tend to vary based on general economic conditions. Our number of hotel shoppers increased 41% for both the three and six month periods ended June 30, 2013, respectively, and increased 30% and 32% for the three and six months ended June 30, 2012, respectively, according to our log files.

Revenue per hotel shopper: Revenue per hotel shopper is a metric we use to analyze how effectively we are able to monetize hotel shoppers based on a combination of user conversion and pricing. User conversion is a measure of how many hotel shoppers ultimately click on a CPC link that generates revenue for us. User conversion on our site is primarily driven by three factors: merchandising, commerce coverage and choice. We define merchandising as the number and location of ads that are available on a page; we define commerce coverage as whether we have a client who can take an online booking for a particular property; and we define choice as the number of clients available for any given property, allowing the user to shop for the best price. Pricing is the effective CPC that online travel agencies and hoteliers are willing to pay us for a hotel shopper lead. Revenue per hotel shopper decreased 16% and 13% for the three and six months ended June 30, 2013, respectively, and decreased 8% for both the three and six month periods ended June 30, 2012, respectively.

Table of Contents

In summary, our CPC revenue depends on the number of hotel shoppers that are interested in a property, whether there is a commerce link available for that hotel shopper to click on for that property, whether there are several commerce choices available for that property so the hotel shopper can shop around and what our customers are willing to pay us for the lead.

Key Drivers of Display-Based Advertising Revenue

For the three and six months ended June 30, 2013, 13% and 12%, respectively, of our total revenue came from our display-based advertising product. The key drivers of our display-based advertising revenue include the growth in number of impressions, or the number of times an ad is displayed on our site, and the cost per thousand impressions, or CPM (or pricing). Our number of impressions increased 32% and 24% for the three and six months ended June 30, 2013, respectively, and increased 7% and 12% for the three and six months ended June 30, 2012, respectively, while pricing decreased 11% and 8% for the three and six months ended June 30, 2013, respectively, and increased 3% and 0% for the three and six months ended June 30, 2012, respectively.

Key Growth Areas

We continue to invest in areas of potential growth, including our social, mobile and global initiatives as well as our subscription-based products, such as Vacation Rentals and Business Listings.

Social. Our Wisdom of Friends initiative is a core component of our strategic growth plan; 76% of respondents to a recent Nielsen study cited recommendations from people I know as the information source that they trust most. We believe that having a strong social presence improves engagement on our sites and improves the sites stickiness amongst the users. As a result, we continue to deepen our integration with Facebook. As of June 30, 2013, and according to AppData, an independent application tracking traffic service, TripAdvisor has averaged nearly 38 million monthly Facebook users via its TripAdvisor Facebook application id. We offer these Facebook users a more personalized and social travel planning experience that enables travelers to engage first with their own Facebook friends reviews and opinions when planning their perfect trip on TripAdvisor.

Mobile. Mobile is an investment area that is geared towards creating a more complete user experience by reinforcing the TripAdvisor brand when users are in-market. In the quarter ended June 30, 2013, we saw strong mobile user uptake, as aggregate downloads of our TripAdvisor, City Guides, and SeatGuru mobile apps doubled year-over-year. Including downloads of Jetsetter and GateGuru, TripAdvisor reached 50 million downloads and average unique monthly visitors via smartphone and tablet devices grew 216% year-over-year from 25.0 million to 79.0 million for the quarter ended June 30, 2013, according to company logs. We believe that travelers will increasingly use mobile devices, including smartphones and tablets, to conduct travel research and planning.

Vacation Rentals. Our Vacation Rentals product addresses a highly-fragmented \$85 billion per-year vacation rental industry, according to a 2010 Radius Global Market study. As of December 31, 2012, we had amassed over 300,000 properties, up more than 50% during the year, across our TripAdvisor Vacation Rentals, U.S.-based FlipKey, and U.K.-based Holiday Lettings, as well as through partnership agreements with other vacation rental businesses. We offer individual property owners and property managers the ability to list using a subscription-based fee structure or a free-to-list, commission-based option and we believe our highly-engaged and motivated user community creates a competitive advantage for us in this market.

Business Listings. Our Business Listings product enables hotel and accommodation owners to list pertinent property information on TripAdvisor, bringing them closer to potential customers and thereby increasing direct bookings. In the year ended December 31, 2012, we grew our Business Listings customer base over 40% to 50,000 subscribers, representing just over 7% of our current hotel and accommodation listings on TripAdvisor branded sites. We continue to expand our sales force and introduce new product features and functionality to grow our subscriber base.

Current Trends Affecting Our Business

Increasing Competition. The travel review industry and, more generally, the business of collecting and aggregating travel-related resources and information, continue to be increasingly competitive. In recent years, an increasing number of companies, such as search companies Google Inc. and Baidu.com, Inc. and several large online travel agencies, have begun to collect and aggregate travel information and resources. We plan to continue to invest in order to remain the leading source of travel reviews as well as continuing to enhance our content and user experience.

Table of Contents

Increasing Use of Internet and Social Media to Access Travel Information. Commerce, information and advertising continue to migrate to the Internet and away from traditional media outlets. We believe that this trend will create strategic growth opportunities, allowing us to attract new consumers and develop unique and effective advertising solutions. Consumers are increasingly using online social media, such as Facebook, as a means to communicate and exchange information, including travel information and opinions. We have made significant efforts related to social networking in order to leverage the expanding use of this channel and enhance traffic diversification and user engagement. We are also continually adapting our user experience in response to a changing internet environment and usage trends. For example, in 2012 we invested in building and introducing to users hotel metasearch functionality for our smartphone platforms and in early June 2013 completed the process of implementing hotel metasearch functionality on our desktop and tablet platforms. Refer to our metasearch discussion below in Our Strategy in this Management's Discussion and Analysis of Financial Condition and Results of Operations section for additional information on our hotel metasearch transition.

Increasing Mobile Usage. Users are increasingly using smartphone and tablet computing devices to access the Internet. To address these growing user demands, we continue to extend our platform to develop smartphone and tablet applications to deliver travel information and resources. Although the substantial majority of our smartphone users also access and engage with our websites on personal computers and tablets where we display advertising, our users could decide to increasingly access our products primarily through smartphone devices. We have just begun to display graphic advertising on smartphones, however, our smartphone monetization strategies are still developing, as smartphone monetization was less than 20% of desktop monetization of hotel shoppers during the six months ended June 30, 2013 while tablets monetize more closely to desktops. Mobile growth and development remains a key company priority and we will continue to invest and innovate in this growing platform to help us maintain and grow our user base and engagement over the long term.

Click-Based Advertising Revenue. In recent years, the majority of our revenue growth resulted from higher click-based advertising revenue due to increased traffic on our websites and an increase in the volume of clicks on our advertisers' placements. Although click-based advertising revenue growth has generally been driven by traffic volume, we remain focused on the various factors that could impact revenue growth, including, but not limited to, the growth in hotel shoppers, CPC pricing fluctuations, the overall economy, the ability of advertisers to monetize our traffic, the quality and mix of traffic to our websites, and the quality and mix of traffic from our advertising placements to advertisers, as well as advertisers' evolving approach to transaction attribution models and return on investment targets. We monitor and regularly respond to changes in these factors in order to strategically improve our user experience, customer satisfaction and monetization in this dynamic environment. For example, in order to improve user experience, we introduced metasearch functionality to our hotel shoppers as discussed below in Our Strategy.

Global Economic Conditions. In late 2008 and throughout 2009, weak global economic conditions created uncertainty for travelers and suppliers, and put pressure on discretionary spending on travel and advertising. Since 2010, the travel industry has been gradually improving. However, global economic conditions remain uncertain, and in particular, we anticipate travel expenditures in Europe to continue to be adversely effected by the economic issues overseas.

Table of Contents

Our Strategy

In expanding our global reach, we leverage significant investments in technology, operations, brand-building, and advertiser and other partner relationships. For example, we are able to aggregate a large base of consumer reviews, in a variety of languages, across our global core platform. We expect to continue leveraging this investment when launching additional points of sale in new countries, introducing new product features and adding new business model offerings.

Investment in Technology. We believe that our ability to continue to innovate by providing additional functionality to our main Internet sites, while at the same time continuing to extend that functionality to additional platforms such as smartphones and tablets, will enable us to continue providing an industry-leading user experience. We have a strong culture of speed-to-market with our innovations. By innovating and releasing updates quickly, we believe that we can continue to grow our site visitors and over 100 million reviews and opinions, increase revenue and effectively compete with our competitors.

Social Platform. We intend to continue to expand our social integration and member acquisition efforts with social media, including Facebook, Twitter and other social sharing platforms. We believe that this integration will enable us to continue to grow and maintain engagement with our user base and increase our content. For example, when searching for a hotel on TripAdvisor, users can see which hotels their Facebook friends and friends-of-friends have visited and reviewed. Users can share their reviews and ratings with their friends and publish their activity to their timelines. Users can also update their travel map and rate new experiences on Facebook.

Metasearch. A metasearch display is an interface that shows hotel or flight availability and pricing information from multiple sources, without requiring the user to visit another website. We have offered a flight metasearch product since 2009, expanding internationally to 19 points of sale in 2012 and increasing to 25 points of sale at June 30, 2013. In 2012, we invested in building hotel metasearch functionality for our smartphone platforms and introducing it to 100% of our global smartphone traffic. In early June 2013, we completed the process of fully implementing hotel metasearch functionality onto our desktop and tablet platforms. We believe metasearch functionality provides a better user experience while delivering more valuable leads to advertising partners, however at a lower volume per session. Click-based advertising customers are receiving higher converting leads and therefore are paying higher per-unit prices, which we expect will offset the decreased lead volume. We expect to continue to invest in evolving our metasearch functionality on our site, because we believe that providing hotel and flight pricing and availability deliver a better user experience.

Investment in Search Engine Marketing. One of the ways that we look to penetrate new markets is to leverage our expertise in search engine marketing, or SEM. SEM is a form of Internet marketing that involves the promotion of websites by increasing their visibility in search engine results pages through the use of paid placement, contextual advertising, and paid inclusion. In certain markets we may bid on keywords to break even or at a loss in order to drive traffic, build our brand, gain more users to our product, collect content and scale more quickly. We think SEM is an important channel because it delivers a significant number of brand impressions and can be a cost-effective method to get people to try our sites.

Enhance International Offerings. We are focused on strengthening our broad global footprint. We are continuing to improve localization and grow our user base in Europe, Asia and South America, especially in emerging markets, such as Brazil, Russia and China. These and the other newer sites in Asia-Pacific represent a longer-term opportunity for us. We believe that China represents a large international opportunity for our business. We currently have two lead product offerings in the Chinese market DaoDao and Kuxun both headquartered in Beijing. We continue to invest heavily and operate at a loss in the Chinese market.

Acquisitions. We have a history of successfully acquiring and integrating companies that expand our footprint either geographically or in market sectors that are complementary to our flagship properties. We intend to continue to seek acquisition targets.

Segment

Edgar Filing: TripAdvisor, Inc. - Form 10-Q

We have one reportable segment. The segment is determined based on how our chief operating decision maker manages our business, makes operating decisions and evaluates operating performance.

Employees

As of June 30, 2013, we had 1,799 employees. Of these employees, 1,040 were based in the United States. None of our employees are represented by a labor union or are subject to a collective bargaining agreement. We believe that relations with our employees are good.

Seasonality

Expenditures by travel advertisers tend to be seasonal. Traditionally, our strongest quarter has been the third quarter, which is a key travel research period, with the weakest quarter historically being the fourth quarter. However, adverse economic conditions or continued growth of our international operations with differing holiday peaks may influence the typical trend of our seasonality in the future.

Table of Contents

Critical Accounting Policies and Estimates

Critical accounting policies and estimates are those that we believe are important in the preparation of our consolidated financial statements because they require that management use judgment and estimates in applying those policies. We prepare our consolidated financial statements and accompanying notes in accordance with GAAP. Preparation of the consolidated financial statements and accompanying notes requires that management make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the consolidated financial statements as well as revenue and expenses during the periods reported. Management bases its estimates on historical experience, where applicable and other assumptions that it believes are reasonable under the circumstances. Actual results may differ from estimates under different assumptions or conditions.

There are certain critical estimates that we believe require significant judgment in the preparation of our consolidated financial statements. We consider an accounting estimate to be critical if:

It requires us to make an assumption because information was not available at the time or it included matters that were highly uncertain at the time we were making the estimate; and

Changes in the estimate or different estimates that we could have selected may have had a material impact on our financial condition or results of operations.

There have been no material changes to our critical accounting policies and estimates as compared to the critical accounting policies and estimates described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2012. Refer to *Note 2 Significant Accounting Policies*, for additions to our critical accounting policies for the six months ended June 30, 2013.

New Accounting Pronouncements

For a discussion of new accounting pronouncements, see *Note 2 Significant Accounting Policies*, in the notes to the consolidated financial statements in this Quarterly Report on Form 10-Q. We are an issuer (as defined in Section 2(a) of the Sarbanes-Oxley Act of 2002), and, as such, are required to comply with all new and revised accounting standards applicable to public companies.

Table of Contents

Adjusted EBITDA

To provide investors with additional information regarding our financial results, we have disclosed Adjusted EBITDA in this Quarterly Report on Form 10-Q, a non-GAAP financial measure. We have provided reconciliations below of Adjusted EBITDA to net income, the most directly comparable GAAP financial measure. A non-GAAP financial measure refers to a numerical measure of a company's historical or future financial performance, financial position, or cash flows that excludes (or includes) amounts that are included in (or excluded from) the most directly comparable measure calculated and presented in accordance with GAAP in such company's financial statements.

We define Adjusted EBITDA as net income (loss) plus: (1) provision for income taxes; (2) other (income) expense, net; (3) depreciation of property and equipment, including internal use software and website development; (4) amortization of intangible assets; (5) stock-based compensation; and (6) non-recurring expenses. Adjusted EBITDA is the primary metric by which management evaluates the performance of its business and on which internal budgets are based. In particular, the exclusion of certain expenses in calculating Adjusted EBITDA facilitates operating performance comparisons on a period-to-period basis. Adjusted EBITDA eliminates items that are either not part of our core operations, such as non-recurring expenses, or those costs that do not require a cash outlay, such as stock-based compensation. Adjusted EBITDA also excludes depreciation and amortization expense, which is based on our estimates of the useful life of tangible and intangible assets. These estimates could vary from actual performance of the asset, are based on historical costs and other factors and may not be indicative of current or future capital expenditures. We believe that by excluding certain items, such as stock-based compensation and non-recurring expenses, Adjusted EBITDA corresponds more closely to the cash that operating income generated from our business and allows investors to gain an understanding of the factors and trends affecting the ongoing cash earnings capabilities of our business, from which capital investments are made and debt is serviced.

Our use of Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results reported in accordance with GAAP. Some of these limitations are:

Adjusted EBITDA does not reflect our cash expenditures or future requirements for capital expenditures or contractual commitments;

Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

Adjusted EBITDA does not consider the potentially dilutive impact of stock-based compensation;

Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future, and Adjusted EBITDA does not reflect cash capital expenditure requirements for such replacements or for new capital expenditure requirements;

Adjusted EBITDA does not reflect tax payments that may represent a reduction in cash available to us; and

Other companies, including companies in our own industry, may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, you should consider Adjusted EBITDA alongside other financial performance measures, including various cash flow metrics, net income and our other GAAP results.

The following table is a reconciliation of Adjusted EBITDA to net income, the most directly comparable financial measure calculated and presented in accordance with GAAP, for the periods presented (in thousands):

Edgar Filing: TripAdvisor, Inc. - Form 10-Q

	Three months ended		Six months ended	
	June 30,		June 30,	
	2013	2012	2013	2012
Adjusted EBITDA	\$ 112,832	\$ 96,921	\$ 222,179	\$ 181,110
Depreciation (1)	(6,876)	(4,715)	(13,200)	(8,996)
Amortization of intangible assets	(1,630)	(1,760)	(2,739)	(3,599)
Stock-based compensation	(10,208)	(6,768)	(23,819)	(11,460)
Other expense, net	(4,216)	(6,944)	(8,083)	(9,180)
Provision for income taxes	(22,914)	(23,569)	(45,051)	(46,539)
Net income	\$ 66,988	\$ 53,165	\$ 129,287	\$ 101,336

(1) Includes amortization of internal use software and website development costs.

Table of Contents**Revenue**

We derive substantially all of our revenue through the sale of advertising, primarily through click-based advertising and, to a lesser extent, display-based advertising. In addition, we earn revenue through a combination of subscription-based offerings related to our Business Listings and Vacation Rentals products, transaction revenue from selling room nights on our transactional sites, and other revenue including content licensing.

	Three months ended June 30,			Six months ended June 30,		
	2013 (\$ in millions)	2012	% Change	2013 (\$ in millions)	2012	% Change
Click-based advertising	\$ 183	\$ 151	21%	\$ 362	\$ 296	22%
Display-based advertising	31	27	18%	56	48	16%
Subscription, transaction and other	33	19	68%	59	37	60%
Total revenue	\$ 247	\$ 197	25%	\$ 477	\$ 381	25%

Revenue increased \$50 million and \$96 million during the three and six months ended June 30, 2013, respectively, when compared to the same periods in 2012, primarily due to an increase in click-based advertising revenue of \$32 million and \$66 million, respectively. The primary driver of the increase in click-based advertising revenue was an increase in hotel shoppers of 41% for the three and six months June 30, 2013, respectively, partially offset by lower revenue per hotel shopper of 16% and 13% for the three and six months ended June 30, 2013, respectively, primarily due to a combination of lower user conversion related to our transition to hotel metasearch, growth in hotel shoppers on smartphones, which have a lower monetization rate than desktops and tablets, and growth in emerging international markets that are currently monetizing at lower levels than our mature markets. We expect the lower user conversion trend to continue due to our recent transition to hotel metasearch, which we anticipate will negatively impact revenue growth over the balance of the year. Display-based advertising increased by \$4 million and \$8 million during the three and six months ended June 30, 2013, respectively, primarily as a result of a 32% and 24% increase in the number of impressions during the three and six months ended June 30, 2013, respectively, when compared to the same periods in 2012, partially offset by a decrease in pricing by 11% and 8% for the three and six months ended June 30, 2013, respectively. Subscription, transaction and other revenue increased by \$14 million and \$22 million during the three and six month periods ended June 30, 2013, respectively, primarily due to growth in Business Listings.

The following table presents our revenue by geographic region, which reflects how we measure our business internally. Revenue by geography is based on the location of our websites:

	Three months ended June 30,			Six months ended June 30,		
	2013 (\$ in millions)	2012	% Change	2013 (\$ in millions)	2012	% Change
North America (1)	\$ 134	\$ 107	25%	\$ 255	\$ 208	23%
EMEA (2)	73	63	16%	145	122	19%
APAC (3)	30	19	55%	57	36	57%
LATAM (4)	10	8	34%	20	15	35%
Total revenue	\$ 247	\$ 197	25%	\$ 477	\$ 381	25%

- (1) United States and Canada*
- (2) Europe, Middle East and Africa
- (3) Asia-Pacific

(4) Latin America

* Included in international revenue for discussion purposes.

Table of Contents

International revenue increased \$25 million and \$52 million during the three and six months ended June 30, 2013, respectively, compared to the same periods in 2012. International revenue represented 49% of total revenue during the three and six months ended June 30, 2013, and represented 49% and 48% of total revenue during the three and six months ended June 30, 2012, respectively. The increase in international revenue, in absolute dollars and as a percentage of total revenue, is primarily due to additional investment in international expansion and growth in international hotel shoppers.

In addition to the product and geographic revenue discussion above, related-party revenue from Expedia, which consists primarily of click-based advertising, is as follows:

	Three months ended June 30,			Six months ended June 30,		
	2013 (\$ in millions)	2012	% Change	2013 (\$ in millions)	2012	% Change
Related party revenue from Expedia	\$ 54	\$ 56	(3)%	\$ 115	\$ 107	7%
% of revenue	22.0%	28.3%		24.1%	28.2%	

Related-party revenue from Expedia decreased \$2 million and increased \$8 million during the three and six month periods ended June 30, 2013, respectively, when compared to the same periods in 2012. Related-party revenue from Expedia increased \$8 million during the six months ended June 30, 2013 when compared to the same period in 2012, primarily due to higher click volume sent to Expedia and higher CPC pricing paid by Expedia during the first three months of 2013, which was partially offset during the three months ended June 30, 2013, primarily due to lower click volume sent to Expedia primarily related to our transition to hotel metasearch. For information on our relationship with Expedia, including recent material transactions, refer to Note 14 *Related Party Transactions* in the notes to our consolidated financial statements.

Cost of Revenue

Cost of revenue consists of expenses that are closely correlated or directly related to revenue generation, including ad serving fees, flight search fees, credit card fees and data center costs.

	Three months ended June 30,			Six months ended June 30,		
	2013 (\$ in millions)	2012	% Change	2013 (\$ in millions)	2012	% Change
Cost of revenue	\$ 4	\$ 3	46%	\$ 8	\$ 6	40%
% of revenue	1.7%	1.5%		1.7%	1.5%	

Cost of revenue increased \$1 million and \$2 million during the three and six month periods ended June 30, 2013, respectively, when compared to the same periods in 2012, primarily due to increased data center costs.

Selling and Marketing

Sales and marketing expenses primarily consist of direct costs, including search engine marketing, or SEM, other traffic acquisition costs, syndication costs and affiliate program commissions, brand advertising and public relations. In addition, our indirect sales and marketing expense consists of personnel and overhead expenses, including salaries, commissions, benefits, stock-based compensation expense and bonuses for sales, sales support, customer support and marketing employees.

	Three months ended June 30,			Six months ended June 30,		
	2013 (\$ in millions)	2012	% Change	2013 (\$ in millions)	2012	% Change
Direct costs	\$ 52	\$ 42	24%	\$ 103	\$ 89	16%
Personnel and overhead	31	22	38%	59	43	38%

Edgar Filing: TripAdvisor, Inc. - Form 10-Q

Total selling and marketing	\$ 83	\$ 64	29%	\$ 162	\$ 132	23%
% of revenue	33.4%	32.6%		33.9%	34.6%	

33

Table of Contents

Direct selling and marketing costs increased \$10 million and \$14 million during the three and six month periods ended June 30, 2013, respectively, when compared to the same periods in 2012, primarily due to increased search engine marketing costs and brand advertising costs, partially offset by a decrease in spending in social media costs. Personnel and overhead costs increased \$9 million and \$16 million during the three and six month periods ended June 30, 2013, respectively, when compared to the same periods in 2012, primarily due to an increase in headcount to support business growth, including international expansion, and employees joining us through recent business acquisitions.

Technology and Content

Technology and content expenses consist of personnel and overhead expenses, including salaries and benefits, stock-based compensation expense and bonuses for salaried employees and contractors engaged in the design, development, testing and maintenance of our websites. Other costs include licensing and maintenance expense.

	Three months ended June 30,			Six months ended June 30,		
	2013 (\$ in millions)	2012	% Change	2013 (\$ in millions)	2012	% Change
Personnel and overhead	\$ 30	\$ 20	49%	\$ 57	\$ 36	58%
Other	2	2	29%	4	3	5%
Total technology and content	\$ 32	\$ 22	48%	\$ 61	\$ 39	54%

% of revenue 12.9% 10.9% 12.7% 10.3%

Technology and content costs increased \$10 million and \$22 million during the three and six months ended June 30, 2013, respectively, when compared to the same periods in 2012, primarily due to increased personnel costs from increased headcount to support business growth, including international expansion, enhanced site features, extending our products onto smartphone and tablet platforms, and development of our new hotel metasearch product, as well as an increase in stock based compensation and additional personnel costs related to employees joining us through recent business acquisitions.

General and Administrative

General and administrative expense consists primarily of personnel and related overhead costs, including executive leadership, finance, legal and human resource functions and stock-based compensation as well as professional service fees and other fees including audit, legal, tax and accounting, and other costs including bad debt expense and our charitable foundation costs.

	Three months ended June 30,			Six months ended June 30,		
	2013 (\$ in millions)	2012	% Change	2013 (\$ in millions)	2012	% Change
Personnel and overhead	\$ 16	\$ 12	33%	\$ 31	\$ 23	36%
Professional service fees and other	10	6	54%	17	12	45%
Total general and administrative	\$ 26	\$ 18	40%	\$ 48	\$ 35	39%

% of revenue 10.3% 9.3% 10.1% 9.1%

General and administrative costs increased \$8 million and \$13 million during the three and six months ended June 30, 2013, respectively, when compared to the same periods in 2012, primarily due to increased personnel costs related to an increase in stock-based compensation, as well as increased headcount to support business growth and additional professional service fees in order to support our operations as a standalone public company and an increase in our bad debt provision.

Depreciation

	Three months ended			Six months ended		
	June 30, 2013 (\$ in millions)	2012	% Change	June 30, 2013 (\$ in millions)	2012	% Change
Depreciation	\$ 7	\$ 5	46%	\$ 13	\$ 9	47%
% of revenue	2.8%	2.4%		2.8%	2.4%	

Depreciation increased \$2 million and \$4 million during the three and six months ended June 30, 2013, respectively, when compared to the same periods in 2012, primarily due to increased amortization related to website development costs.

Table of Contents**Amortization of Intangible Assets**

	Three months ended			Six months ended		
	2013	2012	% Change	2013	2012	% Change
Amortization of intangible assets	\$ 2	\$ 2	(7)%	\$ 3	\$ 4	(24)%
% of revenue	0.7%	0.9%		0.6%	1.0%	

The change in intangible asset amortization is not material for the periods presented. Refer to Note 7 *Goodwill and Intangible Assets, Net* for estimated intangible amortization for the year ending December 31, 2013.

Interest (Expense) Income, Net

Interest expense is primarily related to interest incurred on our Term Loan and credit facilities for the periods presented.

Other, Net

Other, net is primarily comprised of net foreign exchange gains and losses for the periods presented.

Provision for Income Taxes

	Three months ended			Six months ended		
	2013	2012	% Change	2013	2012	% Change
Provision for income taxes	\$ 23	\$ 24	(3)%	\$ 45	\$ 47	(3)%
Effective tax rate	25.5%	30.7%		25.8%	31.5%	

For the three and six months ended June 30, 2013, our effective tax rate is less than the federal statutory tax rate primarily due to earnings in jurisdictions outside the United States, where our effective tax rate is lower, which was partially offset by state income taxes, non-deductible stock compensation and accruals on uncertain tax positions. The change in the effective tax rate for 2013 compared to the 2012 rate was primarily due to an increase in earnings in jurisdictions outside the United States as well as the internal restructuring that was implemented in the last quarter of 2012.

Related Party Transactions

For information on our relationships with Expedia and Liberty Interactive Corporation, including recent material transactions, refer to Note 14 *Related Party Transactions* in the notes to our consolidated financial statements.

Stock-Based Compensation

Refer to Note 3 *Stock Based Awards and Other Equity Instruments* for further information on current year equity award activity, including the issuance of 1,561,789 primarily service based stock options with a weighted average grant-date fair value per option of \$23.15 and 994,293 RSUs with a weighted average grant-date fair value of \$47.05 during the six months ended June 30, 2013.

Financial Position, Liquidity and Capital Resources

Our principal sources of liquidity are cash flows generated from operations. At June 30, 2013 and December 31, 2012, we had \$616 million and \$586 million, respectively, of cash, cash equivalents and short and long-term available-for-sale marketable securities. As of June 30, 2013, approximately \$346 million of our cash, cash equivalents, and short and long-term marketable securities were held by our international subsidiaries, primarily in the United Kingdom, and are related to earnings we intend to reinvest permanently outside the United States. Should we distribute earnings of foreign subsidiaries in the form of dividends or otherwise, we may be subject to U.S. income taxes. Cumulative

Edgar Filing: TripAdvisor, Inc. - Form 10-Q

undistributed earnings of foreign subsidiaries that we intend to indefinitely reinvest outside of the United States totaled approximately \$434 million as of June 30, 2013. Should we distribute, or be treated under certain U.S. tax rules as having distributed, the earnings of foreign subsidiaries in the form of dividends or otherwise, we may be subject to U.S. income taxes. Determination of the amount of any unrecognized deferred income tax liability on this temporary difference is not practicable because of the complexities of the hypothetical calculation. Cash held is primarily denominated in U.S. dollars.

Table of Contents

Historically, the cash we generate has been sufficient to fund our working capital requirements, capital expenditures and to meet our long-term debt obligations and commitments. Management believes that our cash and cash equivalents and available-for-sale marketable securities, combined with expected cash flows generated by operating activities and available cash from our credit facilities will be sufficient to fund our ongoing working capital requirements, capital expenditures, business growth initiatives, meet our long term debt obligations and commitments, share repurchases and fund any potential acquisitions for at least the next 12 months. However, if during that period or thereafter, we are not successful in generating sufficient cash flow from operations or in raising additional capital when required in sufficient amounts and on terms acceptable to us, we may be required to reduce our planned capital expenditures and scale back the scope of our business growth initiatives, either of which could have a material adverse effect on our future financial condition or results of operations.

Term Loan Facility Due 2016 and Revolving Credit Facility

Overview

On December 20, 2011, in connection with the Spin-Off, we entered into a credit agreement, dated as of December 20, 2011, by and among TripAdvisor, TripAdvisor Holdings, LLC, and TripAdvisor LLC, the lenders party thereto, JPMorgan Chase Bank, N.A., as administrative agent, and J.P. Morgan Europe Limited, as London agent (this credit agreement, together with all exhibits, schedules, annexes, certificates, assignments and related documents contemplated thereby, is referred to herein as the Credit Agreement), which provides \$600 million of borrowing including:

the Term Loan Facility, or Term Loan, in an aggregate principal amount of \$400 million with a term of five years due December 2016; and

the Revolving Credit Facility in an aggregate principal amount of \$200 million available in U.S. dollars, Euros and British pound sterling with a term of five years expiring December 2016.

The Term Loan and any loans under the Revolving Credit Facility bear interest by reference to a base rate or a Eurocurrency rate, in either case plus an applicable margin based on our leverage ratio. We are also required to pay a quarterly commitment fee on the average daily unused portion of the Revolving Credit Facility for each fiscal quarter and fees in connection with the issuance of letters of credit. The Term Loan and loans under the Revolving Credit Facility currently bear interest at LIBOR plus 175 basis points, or the Eurocurrency Spread, or the alternate base rate (ABR) plus 75 basis points, and undrawn amounts are currently subject to a commitment fee of 30 basis points.

As of June 30, 2013, we are using a one-month interest period Eurocurrency spread, which is approximately 2.0% per annum. Interest is currently payable on a monthly basis while we are borrowing under the one-month interest rate period. The current interest rates are based on current assumptions, leverage and LIBOR rates and do not take into account that rates will reset periodically. A 25 basis point change in the interest rate on the current Term Loan balance would result in an increase or decrease to interest expense of approximately \$0.9 million per annum.

The Term Loan principal is currently repayable in quarterly installments on the last day of each calendar quarter equal to 2.5% of the original principal amount with the balance due on the final maturity date. Principal payments aggregating \$20 million were made during the six months ended June 30, 2013.

The Revolving Credit Facility includes \$40 million of borrowing capacity available for letters of credit and \$40 million for borrowings on same-day notice. As of June 30, 2013, there are no outstanding borrowings under our Revolving Credit Facility.

During the three and six months ended June 30, 2013, we recorded total interest and commitment fees on our Credit Agreement of \$2.0 million and \$4.1 million, respectively, to interest expense on our consolidated statement of operations. During the three and six months ended June 30, 2012, we recorded total interest and commitment fees on our Credit Agreement of \$2.1 million and \$4.4 million, respectively, to interest expense on our consolidated statements of operations. All unpaid interest and commitment fee amounts as of June 30, 2013 and December 31, 2012 were not material.

The remaining future minimum principal payment obligations due under the Credit Agreement related to our Term Loan is as follows as of June 30, 2013 (in millions):

Edgar Filing: TripAdvisor, Inc. - Form 10-Q

	Payment Amount
2013 (remaining six months)	\$ 20
2014	\$ 40
2015	\$ 40
2016	\$ 260
Total	\$ 360

Table of Contents

Covenants

The Credit Agreement contains a number of covenants that, among other things, restrict our ability to: incur additional indebtedness, create liens, enter into sale and leaseback transactions, engage in mergers or consolidations, sell or transfer assets, pay dividends and distributions, make investments, loans or advances, prepay certain subordinated indebtedness, make certain acquisitions, engage in certain transactions with affiliates, amend material agreements governing certain subordinated indebtedness, and change our fiscal year. The Credit Agreement also requires us to maintain a maximum leverage ratio and a minimum cash interest coverage ratio, and contain certain customary affirmative covenants and events of default, including a change of control. If an event of default occurs, the lenders under the Credit Agreement will be entitled to take various actions, including the acceleration of all amounts due under Credit Agreement and all actions permitted to be taken by a secured creditor.

As of June 30, 2013 we believe we are in compliance with all of our debt covenants.

Refer to Note 5 *Debt* in the notes to the consolidated financial statements for additional information on our Credit Agreement. The full text of the Credit Agreement is incorporated by reference on our Annual Report on Form 10-K for the year ended December 31, 2012, as Exhibit 4.2.

Chinese Credit Facilities

In addition to our borrowings under the Credit Agreement, we maintain our Chinese Credit Facilities. As of June 30, 2013 and December 31, 2012, we had \$24.6 million and \$32.1 million of short term borrowings outstanding, respectively.

Certain of our Chinese subsidiaries entered into a RMB 138,600,000 (approximately \$22 million), one-year revolving credit facility with Bank of America (the Chinese Credit Facility BOA) that is currently subject to review on a periodic basis with no-specific expiration period. During the third quarter of 2012 this credit line was increased to RMB 189,000,000 (approximately \$30 million). During the six months ended June 30, 2013, we made a payment inclusive of interest of RMB 68,283,570 (approximately \$10.9 million). We currently have \$11.3 million of outstanding borrowings from this credit facility as of June 30, 2013. Our Chinese Credit Facility BOA currently bears interest based at 100% of the People's Bank of China's base rate and was 5.6% as of June 30, 2013.

In addition, during April 2012, certain of our Chinese subsidiaries entered into a RMB 125,000,000 (approximately \$20 million) one-year revolving credit facility with J.P. Morgan Chase Bank (Chinese Credit Facility-JPM). This credit facility was renewed for an additional year in April 2013. During the six months ended June 30, 2013, we made a payment inclusive of interest of RMB 24,281,546 (approximately \$3.9 million). We currently have \$13.3 million of outstanding borrowings from this credit facility as of June 30, 2013. Our Chinese Credit Facility JPM currently bears interest based at 100% of the People's Bank of China's base rate and was 5.6% as of June 30, 2013.

Contractual Obligations, Commercial Commitments and Off-Balance Sheet Arrangements

Office Lease Commitments

On June 20, 2013, TripAdvisor LLC (TA LLC), our indirect, wholly owned subsidiary, entered into a lease (the Lease), with Normandy Gap-V Needham Building 3, LLC, as landlord (the Landlord). Pursuant to the Lease, the Landlord will build an approximately 280,000 square foot rental building in Needham, Massachusetts (the Premises), and thereafter lease the Premises to TA LLC as TripAdvisor's new corporate headquarters for an initial term of 15 years and 7 months. If the Landlord fails to deliver the Premises according to the schedule, subject to certain conditions, TA LLC may be entitled to additional free rent, or in extreme cases, a right to terminate the Lease. Under the Lease, TA LLC is required to pay an initial base rent of \$33.00 per square foot per year, increasing to \$34.50 per square foot by the final year of the initial term, as well as all real estate taxes and other building operating costs.

The aggregate future minimum lease payments are \$143.5 million and are currently scheduled to be paid, beginning in November 2015, as follows: \$1.1 million for 2015, \$9.3 million for 2016, \$9.3 million for 2017, and \$123.9 million for 2018 and thereafter. The Lease has escalating rental payments and initial periods of free rent and therefore the effects of variable rent payments will be expensed on a straight-line basis over the life of the Lease in accordance with GAAP. All real estate taxes and other building operating costs paid during the term of the Lease will be expensed as incurred. TA LLC is also obligated to deliver a letter of credit to the Landlord in the amount of \$0.8 million as security deposit, which amount is subject to increase under certain circumstances. Subject to certain conditions, TA LLC has certain rights under the Lease, including rights of first offer to lease additional space or to purchase the Premises if the Landlord elects to sell. TA LLC also has an option to extend the term of the Lease for two consecutive terms of five years each.

Edgar Filing: TripAdvisor, Inc. - Form 10-Q

In connection with the Lease, on June 20, 2013, TripAdvisor entered into a Guaranty (the Guaranty), pursuant to which TripAdvisor provides full payment and performance guaranty for all of TA LLC s obligations under the Lease.

Table of Contents

The full text of the Lease and the Guaranty are filed with this Quarterly Report on Form 10-Q as Exhibit 10.1 and 10.2, respectively.

The following table presents our estimated future minimum rental payments under all operating leases with non-cancelable lease terms having initial terms in excess of one year as of June 30, 2013 (in millions):

	Total Payments
2013 (remaining six months)	\$ 5
2014	8
2015	6
2016	11
2017	11
2018 and thereafter	130
Total (1)	\$ 171

- (1) Excludes spending on anticipated leasehold improvements on our Needham, Massachusetts lease, including design, development, construction costs, and the purchase and installation of equipment, and the receipt of related Landlord incentives, which we estimate will begin in October 2014.

There have been no other material changes outside the normal course of business to our contractual obligations and commercial commitments since December 31, 2012. Refer to Contractual Obligations, Commercial Commitments and Off-Balance Sheet Arrangements in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations of our Annual Report on Form 10-K for the year ended December 31, 2012.

Off-Balance Sheet Arrangements

As of June 30, 2013, we did not have any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on our financial condition, results of operations, liquidity, capital expenditures or capital resources.

Contingencies

In the ordinary course of business, we and our subsidiaries are parties to legal proceedings and claims involving alleged infringement of third-party intellectual property rights, defamation, and other claims. Rules of the SEC require the description of material pending legal proceedings, other than ordinary, routine litigation incident to the registrant's business, and advise that proceedings ordinarily need not be described if they primarily involve damages claims for amounts (exclusive of interest and costs) not individually exceeding 10% of the current assets of the registrant and its subsidiaries on a consolidated basis. In the judgment of management, none of the pending litigation matters that the Company and its subsidiaries are defending involves or is likely to involve amounts of that magnitude. There may be claims or actions pending or threatened against us of which we are currently not aware and the ultimate disposition of which could have a material adverse effect on us.

Table of Contents***Consolidated Cash Flow Statements Discussion:***

Our cash flows are as follows (in millions):

	Six months ended June 30,	
	2013	2012
Net cash provided by (used in):		
Operating activities	\$ 133	\$ 91
Investing activities	\$ (256)	\$ (6)
Financing activities	\$ (43)	\$ 212

Operating Activities

For the six months ended June 30, 2013, net cash provided by operating activities increased by \$42 million or 46% when compared to the same period in 2012, primarily due to an increase in net income of \$28 million, an increase in non-cash items not affecting cash flows of \$13 million, which is primarily related to increased stock based compensation and depreciation. Working capital movements were essentially flat for the six months ending June 30, 2013 and 2012, which reflected an increase in deferred merchant payables in 2013 of \$15.5 million offset by a decrease in operating cash related to the timing of customer receipts, related party cash receipts and tax and vendor payments.

Investing Activities

For the six months ended June 30, 2013, net cash provided by investing activities decreased by \$250 million when compared to the same period in 2012, primarily due to a net increase in marketable securities of \$202 million, cash paid for acquisition of businesses of \$32 million, net of cash acquired, and an increase in capital expenditures of \$10 million. In addition, we received \$7 million during the three months ended March 31, 2012 from Expedia related to the Spin-Off, which did not reoccur in 2013.

Financing Activities

For the six months ended June 30, 2013, net cash provided by financing activities decreased by \$255 million when compared to the same period in 2012 primarily due to an increase of \$10 million in principal payments on our term loan, payments of \$34 million for common stock share repurchases under our authorized share repurchase program, a reduction of \$206 million in proceeds related to the exercise of our stock options and warrants, as all remaining warrants were settled in the first six months of 2012, and a \$15 million repayment of our outstanding borrowings on our Chinese Credit Facilities in 2013. This was offset a \$10 million repayment of our outstanding borrowing on our Revolving Credit Facility in 2012 that did not reoccur in 2013.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk
Market Risk Management

We are exposed to certain market risks, including changes in interest rates and foreign currency exchange rates that could adversely affect our results of operations or financial condition. We manage our exposure to these risks through established policies and procedures and by assessing the anticipated near-term and long-term fluctuations in interest rates and foreign currency exchange rates. Our objective is to mitigate potential income statement, cash flow and market exposures from changes in interest and foreign exchange rates.

There has been no material change in our market risk profile during the six months ended June 30, 2013. For additional information, see Item 7A, Quantitative and Qualitative Disclosures About Market Risk, in Part II of our Annual Report on Form 10-K for the year ended December 31, 2012.

Item 4. Controls and Procedures
Evaluation of Disclosure Controls and Procedures

As of June 30, 2013, our management, with the participation of our President and Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15(b) promulgated under the Securities Exchange Act of 1934, as amended, or the Exchange Act. Based upon that evaluation, our President and Chief Executive Officer and our Chief Financial Officer concluded that, as of June 30, 2013, our disclosure controls and procedures were effective in ensuring that material information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's, or the SEC's, rules and forms, including ensuring that such material information is accumulated and communicated to our management, including our President and Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in internal control over financial reporting.

There were no changes to our internal control over financial reporting that occurred during the quarter ended June 30, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****Item 1. Legal Proceedings**

In the ordinary course of business, we and our subsidiaries are parties to legal proceedings and claims involving alleged infringement of third-party intellectual property rights, defamation, and other claims. Rules of the SEC require the description of material pending legal proceedings, other than ordinary, routine litigation incident to the registrant's business, and advise that proceedings ordinarily need not be described if they primarily involve damages claims for amounts (exclusive of interest and costs) not individually exceeding 10% of the current assets of the registrant and its subsidiaries on a consolidated basis. In the judgment of management, none of the pending litigation matters that TripAdvisor and our subsidiaries are defending involves or is likely to involve amounts of that magnitude. There may be claims or actions pending or threatened against us of which we are currently not aware and the ultimate disposition of which could have a material adverse effect on us.

Item 1A. Risk Factors

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the factors discussed in Part I Item 1A., Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2012 which could materially affect our business, financial condition or future results. During the quarter ended June 30, 2013, there have been no material changes in our risk factors from those disclosed in Part I, Item 1A., Risk Factors in our Annual Report on Form 10-K for the fiscal year ended December 31, 2012.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds***Unregistered Sales of Equity Securities***

During the quarter ended June 30, 2013, we did not issue or sell any shares of our common stock, Class B common stock or other equity securities pursuant to unregistered transactions in reliance upon an exemption from the registration requirements of the Securities Act of 1933, as amended.

Share Repurchases

During the three months ended June 30, 2013, we repurchased 675,000 shares of outstanding common stock under the share repurchase program, as set forth in the table below:

Period	Total Number of Shares Purchased	Average Price Paid per Share (1)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2)	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs
April 1 to April 30				\$ 250,000,000
May 1 to May 31				\$ 250,000,000
June 1 to June 30	675,000	\$ 62.82	675,000	\$ 207,593,148
Total	675,000		675,000	

Edgar Filing: TripAdvisor, Inc. - Form 10-Q

- (1) These amounts include fees and commissions associated with the share repurchase.
- (2) In February 2013, we announced that our Board of Directors authorized the repurchase of \$250 million of our shares of common stock under a share repurchase program. We intend to use available cash and future cash from operations to fund repurchases under the share repurchase program. The repurchase program has no expiration but may be suspended or terminated by the Board of Directors at any time. The Executive Committee of our Board of Directors will determine the price, timing, amount and method of such repurchases based on its evaluation of market conditions and other factors, and any shares repurchased will be in compliance with applicable legal requirements, at prices determined to be attractive and in the best interests of both the company and its stockholders.
