Table of Contents**Ferro Corporation and Subsidiaries****Notes to Condensed Consolidated Financial Statements****1. Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements of Ferro Corporation (Ferro, we, us or the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. These statements reflect all normal and recurring adjustments which are, in the opinion of management, necessary to present fairly the financial position, results of operations and cash flows for the periods presented. The preparation of financial statements in conformity with U.S. GAAP requires us to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. These interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2012.

Operating results for the three and six months ended June 30, 2013, are not necessarily indicative of the results expected in subsequent quarters or for the full year ending December 31, 2013.

2. Recent Accounting Pronouncements and Change in Accounting Principle*Accounting Standards Adopted in the Six Months Ended June 30, 2013*

On January 1, 2013, we adopted Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2011-11, *Disclosures about Offsetting Assets and Liabilities*, (ASU 2011-11) and ASU 2013-01, *Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities*, (ASU 2013-01). These pronouncements are codified in Accounting Standards Codification (ASC) Topic 210, Balance Sheet, and contain new disclosure requirements about a company's right of setoff and related arrangements associated with its financial and derivative instruments. Adoption of this pronouncement did not have a material effect on our consolidated financial statements.

On January 1, 2013, we adopted FASB ASU 2013-02, *Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income*, (ASU 2013-02), which is codified in ASC Topic 220, Comprehensive Income. This pronouncement adds new disclosure requirements for items reclassified out of accumulated other comprehensive income. Adoption of this pronouncement did not have a material effect on our consolidated financial statements.

Change in Accounting Principle

During the third quarter of 2012, we elected to change our method of recognizing defined benefit pension and other postretirement benefit expense. Historically, we recognized actuarial gains and losses in accumulated other comprehensive income within equity on our consolidated balance sheets annually, and these gains and losses were amortized into our operating results over the average remaining service period of plan participants, to the extent such gains and losses were in excess of a corridor.

Under our new method, we recognize actuarial gains and losses in our operating results in the year in which the gains or losses occur. These gains and losses are generally measured annually as of December 31 and recorded during the fourth quarter, unless an interim remeasurement is required. The remaining components of benefit expense, primarily service and interest costs and the expected return on plan assets, will be recorded quarterly as ongoing expense or benefit. While the historical method of recognizing expense was acceptable, we believe the new method is preferable because it results in recognition in our operating results of actuarial gains and losses as they arise. In accordance with ASC Topic 250, Accounting Changes and Error Corrections, all prior periods have been adjusted to apply the new method retrospectively. The effect of the change on retained earnings as of January 1, 2012, was a reduction of \$106.0 million with a corresponding offset to accumulated other comprehensive loss.

We have presented the effects of the change in accounting principle on our condensed consolidated financial statements for the three and six months ended June 30, 2012 below. The following tables present the significant effects of the change on our historical condensed consolidated statements of operations and statements of comprehensive income. There was no effect on our historical condensed consolidated statements of cash flows.

In the production of some of our products, we use precious metals, some of which we obtain from financial institutions under consignment agreements with terms of one year or less. The financial institutions retain ownership of the precious metals and charge us fees based on the amounts we consign. These fees were \$0.8 million and \$1.7 million for the three months ended June 30, 2013 and 2012, respectively, and were

Edgar Filing: FERRO CORP - Form 10-Q

\$1.8 million and \$3.6 million for the six months ended June 30, 2013 and 2012, respectively. We had on hand precious metals owned by participants in our precious metals consignment program of \$51.1 million at June 30, 2013, and \$112.2 million at December 31, 2012, measured at fair value based on market prices for identical assets and net of credits.

4. Property, Plant and Equipment

Property, plant and equipment is reported net of accumulated depreciation of \$673.8 million at June 30, 2013, and \$658.1 million at December 31, 2012. Unpaid capital expenditure liabilities, which are noncash investing activities, were \$2.7 million at June 30, 2013, and \$6.2 million at June 30, 2012.

Table of Contents**5. Debt**

Loans payable and current portion of long-term debt consisted of the following:

	June 30, 2013	December 31, 2012
	(Dollars in thousands)	
Loans payable to banks	\$ 3,088	\$ 2,477
Domestic accounts receivable asset securitization program	35,000	40,000

	June 30, 2013	December 31, 2012
	(Dollars in thousands)	
7.875% Senior Notes	\$ 250,000	\$ 250,000
6.50% Convertible Senior Notes, net of unamortized discounts	34,914	34,417
Revolving credit facility	3,977	2,596
Capital lease obligations	5,994	6,433
Other notes	5,280	4,731
Total long-term debt	300,165	298,177
Current portion of long-term debt	(37,192)	(36,553)
Long-term debt, less current portion	\$ 262,973	\$ 261,624

Receivable Sales Programs

We have an asset securitization program for Ferro's U.S. trade accounts receivable. We sell interests in our domestic receivables to various purchasers, and we may obtain up to \$50.0 million in the form of cash or letters of credit. Advances received under this program are accounted for as borrowings secured by the receivables and included in net cash provided by financing activities. In the second quarter of 2013, we extended the maturity of this credit facility through May 2014. At June 30, 2013, advances received of \$35.0 million were secured by \$84.9 million of accounts receivable, and based on available and qualifying receivables, \$15.0 million of additional borrowings were available under the program. The interest rate under this program is the sum of (A) either (1) commercial paper rates, (2) LIBOR rates, or (3) the federal funds rate plus 0.5% or the prime rate and (B) a fixed margin. At June 30, 2013, the interest rate was 0.7%.

We also have several international programs to sell with recourse trade accounts receivable to financial institutions. Advances received under these programs are accounted for as borrowings secured by the receivables and included in net cash provided by financing activities. At June 30, 2013, the commitments supporting these programs totaled \$18.2 million, the advances received of \$0.8 million were secured by \$10.8 million of accounts receivable, and based on available and qualifying receivables, \$7.3 million of additional borrowings were available under the programs. The interest rates under these programs are based on EURIBOR rates plus 1.75%. At June 30, 2013, the weighted-average interest rate was 1.9%.

7.875% Senior Notes

The 7.875% Senior Notes (the "Senior Notes") were issued in 2010 at par, bear interest at a rate of 7.875% per year, payable semi-annually in arrears on February 15th and August 15th, and mature on August 15, 2018. Through August 15, 2013, we may redeem up to 35% of the Senior Notes at a price equal to 107.875% of the principal amount using proceeds of certain equity offerings. We may also redeem some or all of the

Edgar Filing: FERRO CORP - Form 10-Q

Senior Notes prior to August 15, 2014, at a price equal to the principal amount plus a defined applicable premium. The applicable premium on any redemption date is the greater of 1% of the principal amount of the note or the excess of (1) the present value at such redemption date of the redemption price of the note at August 15, 2014, plus all required interest payments due on the note through August 15, 2014, computed using a discount rate equal to the Treasury Rate as of the redemption date plus 50 basis points; over (2) the principal amount of the note. In addition, we may redeem some or all of the Senior Notes beginning August 15, 2014, at prices ranging from 100% to 103.938% of the principal amount.

Table of Contents

The Senior Notes are unsecured obligations and rank equally in right of payment with any other unsecured, unsubordinated obligations. The Senior Notes contain certain affirmative and negative covenants customary for high-yield debt securities, including, but not limited to, restrictions on our ability to incur additional debt, create liens, pay dividends or make other distributions or repurchase our common stock and sell assets outside the ordinary course of business. At June 30, 2013, we were in compliance with the covenants under the Senior Notes indenture.

6.50% Convertible Senior Notes

The 6.50% Convertible Senior Notes (the *Convertible Notes*) were issued in 2008, bear interest at a rate of 6.5% per year, payable semi-annually in arrears on February 15th and August 15th, and mature on August 15, 2013. We separately account for the liability and equity components of the Convertible Notes in a manner that, when interest cost is recognized in subsequent periods, will reflect our nonconvertible debt borrowing rate at the time the Convertible Notes were issued. The effective interest rate on the liability component is 9.5%. Under certain circumstances, holders of the Convertible Notes may convert their notes prior to maturity. The Convertible Notes are unsecured obligations and rank equally in right of payment with any other unsecured, unsubordinated obligations. The principal amount outstanding was \$35.1 million at June 30, 2013, and \$35.1 million at December 31, 2012. At June 30, 2013, we were in compliance with the covenants under the Convertible Notes indenture.

Revolving Credit Facility

In 2010, we entered into the Third Amended and Restated Credit Agreement with a group of lenders for a five-year, \$350 million multi-currency senior revolving credit facility (the *2010 Credit Facility*). In March 2013, we amended the 2010 Credit Facility (the *2013 Amended Credit Facility*) to provide additional operating flexibility. The primary effects of the 2013 Amended Credit Facility were to:

Decrease the Revolving Loan Commitment Amount from \$350.0 million to \$250.0 million;

Amend the calculation of EBITDA to provide for a restructuring expense add-back attributable to the Company's restructuring programs of \$30.0 million in 2013, \$20.0 million in 2014 and \$10.0 million in 2015, with no aggregate limit on restructuring expense;

Increase the maximum permitted leverage ratio such that for (i) the first, second and third quarters of 2013, it shall increase from 3.50 to 4.25; (ii) the fourth quarter of 2013 and first quarter of 2014, it shall increase from 3.50 to 4.00; (iii) the second and third quarters of 2014, it shall increase from 3.50 to 3.75; and (iv) the fourth quarter of 2014 and thereafter, it will be 3.50; and

Amend the requirements for Permitted Acquisitions such that for the Company to consummate a Permitted Acquisition the Company must have minimum liquidity of \$100.0 million and the Company's Secured Leverage Ratio must be less than 1.50. The 2013 Amended Credit Facility matures on August 24, 2015, and is secured by substantially all of Ferro's assets. After reductions for outstanding letters of credit, we had \$241.6 million of additional borrowings available at June 30, 2013. The interest rate under the 2013 Amended Credit Facility is the sum of (A) either (1) LIBOR or (2) the higher of the Federal Funds Rate plus 0.5%, the Prime Rate, or LIBOR plus 1.0% and (B) a variable margin based on the Company's leverage. At June 30, 2013, the interest rate was 3.4%.

Under the 2013 Amended Credit Facility, we are subject to a number of financial covenants, including limitations on the payment of common stock dividends. At June 30, 2013, we were in compliance with the covenants of the 2013 Amended Credit Facility.

Table of Contents**6. Financial Instruments**

The following financial instrument assets (liabilities) are presented at their respective carrying amount, fair value and classification within the fair value hierarchy:

	Carrying Amount	June 30, 2013 Fair Value			
		Total	Level 1	Level 2	Level 3
		(Dollars in thousands)			
Cash and cash equivalents	\$ 30,662	\$ 30,662	\$ 30,662	\$	\$
Loans payable	(38,881)	(38,881)		(38,881)	
7.875% Senior Notes	(250,000)	(258,750)		(258,750)	
6.5% Convertible Senior Notes, net of unamortized discounts	(34,914)	(34,540)		(34,540)	
Revolving credit facility	(3,977)	(4,080)		(4,080)	
Other long-term notes payable	(5,280)	(4,394)		(4,394)	
Foreign currency forward contracts, net	494	494		494	

	Carrying Amount	December 31, 2012 Fair Value			
		Total	Level 1	Level 2	Level 3
		(Dollars in thousands)			
Cash and cash equivalents	\$ 29,576	\$ 29,576	\$ 29,576	\$	\$
Loans payable	(48,599)	(48,599)		(48,599)	
7.875% Senior Notes	(250,000)	(231,500)		(231,500)	
6.5% Convertible Senior Notes, net of unamortized discounts	(34,417)	(34,803)		(34,803)	
Revolving credit facility	(2,596)	(2,634)		(2,634)	
Other long-term notes payable	(4,731)	(3,937)		(3,937)	
Foreign currency forward contracts, net	(4,758)	(4,758)		(4,758)	

The fair values of cash and cash equivalents are based on the fair values of identical assets. The fair values of short-term loans payable are based on the present value of expected future cash flows and approximate their carrying amounts due to the short periods to maturity. The fair values of the Senior Notes and the Convertible Notes are based on third-party estimated bid prices. The fair values of the revolving credit facility and the other long-term notes are based on the present value of expected future cash flows and assumptions about current interest rates and the creditworthiness of the Company that market participants would use in pricing the debt.

Foreign currency forward contracts. We manage foreign currency risks principally by entering into forward contracts to mitigate the impact of currency fluctuations on transactions. These forward contracts are not designated as hedging instruments. Gains and losses on these foreign currency forward contracts are netted with gains and losses from currency fluctuations on transactions arising from international trade and reported as foreign currency (gains) losses, net in the condensed consolidated statements of operations. The fair values of these contracts are based on market prices for comparable contracts. We had foreign currency forward contracts with notional amounts of \$255.8 million at June 30, 2013, and \$250.7 million at December 31, 2012.

The following table presents the effect on our consolidated statements of operations for the three months ended June 30, 2013 and 2012, respectively, of our foreign currency forward contracts:

	Amount of (Loss) Gain Recognized in Earnings		Location of (Loss) Gain in Earnings
	2013	2012	
	(Dollars in thousands)		
Foreign currency forward contracts	\$ (4,964)	\$ 15,186	Foreign currency losses (gains), net

Table of Contents

The following table presents the effect on our consolidated statements of operations for the six months ended June 30, 2013 and 2012, respectively, of our foreign currency forward contracts:

	Amount of (Loss) Gain Recognized in Earnings		Location of (Loss) Gain in Earnings
	2013	2012	
	(Dollars in thousands)		
Foreign currency forward contracts	\$ (4,000)	\$ 9,533	Foreign currency losses (gains), net

The following table presents the fair values on our consolidated balance sheets of foreign currency forward contracts:

	June 30,	December 31,	Balance Sheet Location
	2013	2012	
	(Dollars in thousands)		
Asset derivatives:			
Foreign currency forward contracts	\$ 1,062	\$	Other current assets
Foreign currency forward contracts		213	Accrued expenses and other current liabilities
Total	\$ 1,062	\$ 213	
Liability derivatives:			
Foreign currency forward contracts	\$ (568)	\$	Other current assets
Foreign currency forward contracts		(4,971)	Accrued expenses and other current liabilities
Total	\$ (568)	\$ (4,971)	

7. Income Taxes

Income tax expense for the six months ended June 30, 2013, was \$3.6 million, or 33.8% of pre-tax income. In the first six months of 2012, we recorded income tax expense of \$7.7 million, or 59.9% of pre-tax income. The decrease in the effective tax rate was primarily due to the ratio of pre-tax losses in jurisdictions for which no tax benefit is recognized relative to pre-tax book income or loss.

8. Contingent Liabilities

We have recorded environmental liabilities of \$8.3 million at June 30, 2013, and \$9.6 million at December 31, 2012, for costs associated with the remediation of certain of our properties that have been contaminated, primarily a non-operating facility in Brazil. The costs include legal and consulting fees, site studies, the design and implementation of remediation plans, post-remediation monitoring and related activities. The ultimate liability could be affected by numerous uncertainties, including the extent of contamination found, the required period of monitoring and the ultimate cost of required remediation.

There are various lawsuits and claims pending against the Company and its subsidiaries. We do not currently expect the ultimate liabilities, if any, and expenses related to such lawsuits and claims to materially affect the consolidated financial position, results of operations, or cash flows of the Company.

9. Retirement Benefits

Net periodic benefit (credit) cost of our U.S. pension plans (including our unfunded nonqualified plans), non-U.S. pension plans, and postretirement health care and life insurance benefit plans have been adjusted for our change in accounting principle as described in Note 2, Recent Accounting Pronouncements and Change in Accounting Principle. Net periodic benefit (credit) cost for the three months ended June 30, 2013 and 2012, respectively, follow:

Edgar Filing: FERRO CORP - Form 10-Q

	U.S. Pension Plans		Non-U.S. Pension Plans		Other Benefit Plans	
	2013	2012	2013	2012	2013	2012
	(Dollars in thousands)					
Service cost	\$ 4	\$ 4	\$ 525	\$ 426	\$	\$
Interest cost	4,485	4,866	1,218	1,302	285	397
Expected return on plan assets	(6,181)	(5,219)	(739)	(752)		
Amortization of prior service cost (credit)	3	12	8	34	(29)	(32)
Curtailement and settlement effects				(2,394)		
Net periodic benefit (credit) cost	\$ (1,689)	\$ (337)	\$ 1,012	\$ (1,384)	\$ 256	\$ 365

Table of Contents

Net periodic benefit (credit) cost for the six months ended June 30, 2013 and 2012, respectively, follow:

	U.S. Pension Plans		Non-U.S. Pension Plans		Other Benefit Plans	
	2013	2012	2013	2012	2013	2012
	(Dollars in thousands)					
Service cost	\$ 8	\$ 8	\$ 1,058	\$ 1,003	\$	\$
Interest cost	8,970	9,735	2,448	2,677	570	793
Expected return on plan assets	(12,362)	(10,315)	(1,487)	(1,505)		
Amortization of prior service cost (credit)	6	24	14	1	(58)	(65)
Curtailement and settlement effects				(2,394)		
Net periodic benefit (credit) cost	\$ (3,378)	\$ (548)	\$ 2,033	\$ (218)	\$ 512	\$ 728

Net periodic benefit credit for our U.S. pension plans for the six months ended June 30, 2013 increased from the effects of a lower discount rate and larger plan asset balances resulting in increased expected returns. Net periodic benefit cost for our non-U.S. pension plans increased due to the credit recognized in the second quarter of 2012, resulting from curtailment of retirement benefit accumulations in the Netherlands. The affected employees in the Netherlands now receive benefits through a defined contribution plan.

10. Stock-Based Compensation

Our Board of Directors granted 0.6 million stock options, 0.5 million performance share units and 0.3 million deferred stock units during the first half of 2013 under our 2010 Long Term Incentive Plan. The following table details the weighted-average grant-date fair values and the assumptions used for estimating the fair values of stock option grants made during the six months ended June 30, 2013:

	Stock Options	
Weighted-average grant-date fair value	\$	4.01
Expected life, in years		6.0
Risk-free interest rate	1.2%	1.4%
Expected volatility	83.9%	86.4%

The weighted average grant date fair value of our performance share units was \$5.70. These shares are currently expensed at target and are evaluated each reporting period for likelihood of achieving the performance criteria.

We measure the fair value of deferred stock units based on the closing market price of our common stock on the date of the grant. The weighted-average fair value per unit for grants made during the six months ended June 30, 2013, was \$5.52.

We recognized stock-based compensation expense of \$2.6 million for the six months ended June 30, 2013, and \$3.8 million for the six months ended June 30, 2012. At June 30, 2013, unearned compensation cost related to the unvested portion of all stock-based awards was approximately \$8.9 million and is expected to be recognized over the remaining vesting period of the respective grants, through the first quarter of 2016.

Table of Contents**11. Restructuring and Cost Reduction Programs**

In the first quarter of 2013, we developed and initiated various restructuring programs across the organization with the objectives of realigning the business and lowering our cost structure. Specifically, the programs relate to our European operations, certain corporate functions, improvement of operational efficiencies, and the exit of the solar pastes product line. As a result of these and ongoing restructuring actions from the prior year, the Company expects to incur charges of approximately \$35 million, most of which will be for severance costs and require future cash expenditures. The programs are subject to required consultations with employee representatives at the affected sites and other local legal requirements. Charges associated with these programs were \$13.5 million and \$22.9 million for the three and the six month periods ended June 30, 2013, respectively. The cumulative charges incurred to date associated with these programs are \$33.1 million.

The activities and accruals related to our restructuring and cost reduction programs are summarized below:

	Employee Severance	Other Costs	Asset Impairment	Total
Balance at December 31, 2012	\$ 4,093	\$ 6,139	\$	\$ 10,232
Restructuring charges	19,635	3,269		22,904
Cash payments	(9,968)	(6,979)		(16,947)
Non-cash items	(1,066)	(117)		(1,183)
Balance at June 30, 2013	\$ 12,694	\$ 2,312	\$	\$ 15,006

We expect to make cash payments to settle the remaining liability for employee termination benefits and other costs over the next twelve months, except where legal or contractual restrictions prevent us from doing so.

12. Discontinued Operations

During the first quarter of 2013, we completed the sale of the stock of our pharmaceuticals business, Ferro Pfanstiehl Laboratories, Inc. (FPL), which was previously reported within the Pharmaceuticals reportable segment. Consideration was comprised of a \$16.9 million cash payment, and the transaction also included an earn-out incentive of up to \$8.0 million based on achieving certain earnings targets over a two-year period. In March 2013, prior to the sale, an impairment loss of \$8.7 million associated with the long lived assets of FPL was recorded under ASC Topic 360 Property, Plant and Equipment. The write down was determined by estimating the fair value of the assets less cost to sell of \$14.8 million using the market approach considering a bona fide purchase offer, a level three measurement within the fair value hierarchy.

The operations of FPL have been segregated from continuing operations and are included in discontinued operations in our condensed consolidated statements of operations. Interest expense has been allocated to the discontinued operation based on the ratio of net assets of FPL to consolidated net assets excluding debt.

	Three months ended June 30, 2012
Net sales	\$ 5,959
Cost of sales	3,932

Amounts reclassified from accumulated other comprehensive income (loss)	(137)			(137)
Net current period other comprehensive loss	(137)	(8,169)		(8,306)
Ending accumulated other comprehensive income (loss)	\$ 2,510	\$ 5,911	\$ (77)	\$ 8,344

15. Reporting for Segments

During the first quarter of 2013, the Company reorganized its operating segments to reflect the current structure under which performance is evaluated, strategic decisions are made and resources are allocated. The new structure aligns the continuing product lines of our former Electronic Materials segment with our continuing operating segments. Under the new structure, we will continue to report Specialty Plastics, Polymer Additives and Performance Coatings, which aggregates our Tile Coating Systems and Porcelain Enamel operating segments, consistent with the manner in which they have historically been reported. The Glass Systems and Performance Pigments and Colors operating segments that aggregated into the historically reported Color and Glass Performance Materials segment, now include our continuing product lines that were historically reported within the Electronic Materials segment, and as a result of such inclusion, fail to meet the aggregation criteria for continuing to report as one segment. These operating segments will now be reported as the Pigments, Powders and Oxides, and Performance Colors and Glass segments. As discussed in Note 12, our pharmaceuticals business that comprised the Pharmaceuticals segment was sold in the first quarter, and is reported as a discontinued operation.

Net sales to external customers by segment are presented in the table below. Sales between segments were not material.

	Three months ended June 30,		Six months ended June 30,	
	As adjusted 2013	As adjusted 2012	As adjusted 2013	As adjusted 2012
	(Dollars in thousands)		(Dollars in thousands)	
Pigments, Powders and Oxides	\$ 53,514	\$ 84,815	\$ 108,301	\$ 154,038
Performance Colors and Glass	106,447	105,815	204,574	209,723
Performance Coatings	155,194	157,315	294,096	309,829
Polymer Additives	76,798	83,450	157,667	171,174
Specialty Plastics	43,502	44,151	88,341	91,207
Total net sales	\$ 435,455	\$ 475,546	\$ 852,979	\$ 935,971

In the first quarter, in conjunction with the changes to operating segments, we changed the profitability metric utilized by management to evaluate segment performance. The metric that was utilized historically was segment income, and segment gross profit is the metric that is now utilized. We measure segment gross profit for internal reporting purposes by excluding certain other cost of sales, which includes costs associated with facilities that have been idled or closed. Each segment's gross profit and a reconciliation to income before income taxes from continuing operations follows:

Table of Contents

	Three months ended June 30,		Six months ended June 30,

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****Overview**

During the three months ended June 30, 2013, sales decreased compared to the prior-year same period but increased approximately \$18 million, or 4%, from the first quarter of 2013. Compared to the first quarter of 2013, we experienced a favorable shift in mix in our Performance Colors and Glass segment, and increased volume and favorable mix in Tile Coating Systems within our Performance Coatings segment. Gross profit for the second quarter of 2013 was favorable to both the prior-year same period and the first quarter of 2013. Gross profit increased approximately \$8 million in the second quarter of 2013 compared to the first quarter, or 100 basis points as a percentage of net sales excluding precious metals, to 21.5%, as we have increased gross profit margin as a result of strong raw material management, favorable mix in various segments, and cost reductions.

During the second quarter we experienced a continued decline in demand for certain plasticizer products in our Polymer Additives segment driven by changing environmental regulations. Gross profit was also negatively impacted by shutdowns at two plants – one for maintenance and one for cleanup and repairs following flooding in Germany – which together impacted gross profit by approximately \$2 million, and also by inventory obsolescence charges taken during the quarter, which totaled approximately \$2 million.

Additionally, we continue to execute against our cost savings plans, which has resulted in additional savings in the second quarter of 2013 compared with the prior-year same period. Further, we have announced that we now expect cost savings to be approximately \$85 million by the end of 2015. During the second quarter of 2013, we successfully advanced negotiations with works councils in Europe related to our planned restructuring actions.

For the three months ended June 30, 2013, Ferro net loss was \$2.0 million, compared with net income of \$2.2 million in 2012, and net loss attributable to common shareholders was \$2.1 million, compared with net income attributable to common shareholders of \$1.9 million in 2012. Loss from continuing operations was \$2.0 million in the three months ended June 30, 2013, compared with net income from continuing operations of \$1.9 million in 2012. Our total segment gross profit for the second quarter of 2013 was \$87.7 million, compared with \$85.8 million in 2012. We incurred restructuring charges of \$13.5 million associated with actions primarily related to our European operations in the second quarter.

Outlook

We have continued to make progress against our strategic objectives during the second quarter of 2013, and expect the momentum that has been built to continue through the remainder of the year. We have executed against our cost reduction plans, and have additional actions underway in the areas of (1) business realignment, (2) operational efficiency, and (3) corporate and back office functions, which are expected to drive cost savings of approximately \$85 million by the end of 2015. These actions, in addition to the cost savings from exiting solar pastes during the first quarter of 2013 will significantly improve the Company's cost structure.

In the second half of the year, we expect to face continued market challenges in Europe and China, in addition to our normal seasonal business pattern, which is characterized by lower customer demand and reduced plant utilization due to holiday shutdowns.

Factors that could adversely affect our future performance include those described under the heading "Risk Factors" in Item 1A of Part I of our Annual Report on Form 10-K for the year ended December 31, 2012.

Results of Operations – Consolidated

For the three and six months ended June 30, 2012, amounts originally reported have been adjusted for the effects of applying retrospectively the change in accounting principle as described in Note 2, Recent Accounting Pronouncements and Change in Accounting Principle, to the condensed consolidated financial statements under Item 1 of this Quarterly Report on Form 10-Q. Additionally, all periods presented reflect FPL as a discontinued operation and the changes in our reportable segments.

Comparison of the three months ended June 30, 2013 and 2012

For the three months ended June 30, 2013, Ferro net loss was \$2.0 million, compared with net income of \$2.2 million for the three months ended June 30, 2012. For the three months ended June 30, 2013, Ferro net loss attributable to common shareholders was \$2.1 million, or \$0.02 loss per share, compared with Ferro net income attributable to common shareholders of \$1.9 million, or \$0.02 per share, for the three months ended June 30, 2012.

Table of Contents*Net Sales*

	Three months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Net sales excluding precious metals	\$ 407,658	\$ 421,185	\$ (13,527)	(3.2)%
Sales of precious metals	27,797	54,361	(26,564)	(48.9)%
Net sales	435,455	475,546	(40,091)	(8.4)%
Cost of sales	347,801	389,728	(41,927)	(10.8)%
Gross profit	\$ 87,654	\$ 85,818	\$ 1,836	2.1%

Gross profit as a % of net sales excluding precious metals 21.5% 20.4%

Net sales decreased by 8.4% in the three months ended June 30, 2013, compared with the prior-year same period. The exit of solar pastes during the first quarter of 2013 drove a significant decrease in net sales compared to the prior year, and also drove the significant decrease in sales of precious metals. Additionally, sales in our Polymer Additives segment continued to decline due to reduced demand for certain plasticizer products resulting from changing environmental regulations, and sales in Performance Coatings declined as a result of decreased sales of porcelain enamel products.

Gross Profit

Gross profit increased 2.1% in the three months ended June 30, 2013, compared to the prior-year same period. The significant drivers of the increased gross profit are favorable mix and lower raw material costs in our Performance Coatings segment and favorable impacts of price, raw material costs and production costs in our Performance Colors and Glass segment. These increases were partially offset by unfavorable mix and raw material costs in our Pigments, Powders and Oxides segment and the impact of reduced demand for certain plasticizer products in our Polymer Additives segment. Additionally, during the second quarter of 2013, gross profit was also negatively impacted by shutdowns at two plants one for maintenance and one for cleanup and repairs following flooding in Germany which together impacted gross profit by approximately \$2 million, and also by inventory obsolescence charges taken during the quarter, which totaled approximately \$2 million.

Selling, General and Administrative Expenses

The following table presents our segments summarized into their respective operating groups, with Pigments, Powders and Oxides, Performance Colors and Glass, and Performance Coatings comprising Performance Materials, and Polymer Additives and Specialty Plastics comprising Performance Chemicals. In conjunction with the changes to segments, we also changed the profitability metric utilized by management to evaluate segment performance, as discussed in Note 15. The metric that was utilized historically was segment income, which included selling, general and administrative (SG&A) expenses that were directly incurred by each segment, as well as certain allocated costs. Segment gross profit is the metric that is now utilized. Further, we have refined our approach to managing SG&A expenses and are intensely focused on analyzing expenses at the individual site level, and also across functional areas within the Company, as opposed to the segment level, and will evaluate performance in this manner.

	Three months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Performance Materials	\$ 39,565	\$ 45,326	\$ (5,761)	(12.7)%
Performance Chemicals	5,949	6,640	(691)	(10.4)%
Corporate	18,802	14,338	4,464	31.1%
Selling, general and administrative expenses	\$ 64,316	\$ 66,304	\$ (1,988)	(3.0)%

Table of Contents

SG&A expenses were \$2.0 million lower in the three months ended June 30, 2013 compared with the prior-year same period. As a percentage of sales, SG&A expenses increased 90 basis points from 13.9% in the second quarter of 2012 to 14.8% in the second quarter of 2013. The primary drivers of the change in SG&A expenses were the various personnel actions taken during 2012 and into the second quarter of 2013, which drove the decrease in personnel expenses and stock-based compensation expense. The decrease related to the various personnel actions was partially offset by increased incentive compensation expense in the second quarter of 2013 compared to the prior-year same period. Our expenses related to idle sites have decreased in the current year as a result of selling the majority of our idle sites through the second quarter of 2013. Offsetting the decreases noted was an increase in net periodic benefit cost driven by the curtailment of a defined benefit plan in Europe that occurred in the second quarter of 2012 not recurring in the current period, and increased bad debt expense in the second quarter of 2013 compared to the prior-year same period. Professional services costs increased in the current year compared to the prior-year same period, which comprised the majority of the change in other SG&A expenses.

The following table includes SG&A components with significant changes between 2013 and 2012:

	Three months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Personnel expenses	\$ 39,387	\$ 44,839	\$ (5,452)	(12.2)%
Stock-based compensation	1,307	1,762	(455)	(25.8)%
Idle sites	254	685	(431)	(62.9)%
Pension and other postretirement benefits	(421)	(1,356)	935	(69.0)%
Bad debt expense	1,780	581	1,199	NM
Other	22,009	19,793	2,216	11.2%
Selling, general and administrative expenses	\$ 64,316	\$ 66,304	\$ (1,988)	(3.0)%

NM Not meaningful

Restructuring and Impairment Charges

	Three months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Employee severance	\$ 11,460	\$ 4,579	\$ 6,881	NM
Other restructuring costs	1,990	149	1,841	NM
Restructuring and impairment charges	\$ 13,450	\$ 4,728	\$ 8,722	NM

NM Not meaningful

Restructuring and impairment charges increased significantly in the second quarter of 2013 compared to the prior-year same period. The drivers of the increase were the various restructuring actions that were taken during the second quarter primarily related to our corporate and European operations.

Table of Contents*Interest Expense*

Interest expense in the second quarter of 2013 increased compared to the prior-year same period, primarily due to interest capitalization that occurred in the prior-year same period related to our information systems tools initiative that did not recur in the current year. The components of interest expense are as follows:

	Three months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Interest expense	\$ 6,575	\$ 6,403	\$ 172	2.7%
Amortization of bank fees	417	480	(63)	(13.1)%
Interest capitalization	(21)	(407)	386	(94.8)%
Interest expense	\$ 6,971	\$ 6,476	\$ 495	7.6%

Income Tax Expense

During the second quarter of 2013, income tax expense was \$2.5 million. In the second quarter of 2012, we recorded income tax expense of \$4.9 million. The effective tax rate for the 2013 second quarter was significantly higher than the rate in the second quarter of 2012 primarily due to the ratio of pre-tax losses in jurisdictions for which no tax benefit is recognized relative to pre-tax book income or loss.

Results of Operations Segment Information*Comparison of the three months ended June 30, 2013 and 2012***Performance Materials***Pigments, Powders and Oxides*

	Three months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Segment net sales excluding precious metals	\$ 39,090	\$ 43,023	\$ (3,933)	(9.1)%
Segment precious metal sales	14,424	41,792	(27,368)	(65.5)%
Segment net sales	53,514	84,815	(31,301)	(36.9)%
Segment gross profit	9,319	13,212	(3,893)	(29.5)%
Gross profit as a % of segment net sales excluding precious metals	23.8%	30.7%		

Sales in Pigments, Powders and Oxides decreased due to the exit of solar pastes during the first quarter of 2013, which comprised approximately \$9 million of the decrease in net sales excluding precious metals from the prior-year same period. The decrease in sales related to the exit of solar pastes was partially mitigated by increased sales of our surface finishing products and our metal powders products produced in the United States compared to the prior year. Additionally, the decreased sales from the exit of solar pastes were further mitigated by tolling revenue of approximately \$1 million during the second quarter of 2013 related to a supply agreement entered into with the buyer of our solar pastes assets. Sales were unfavorably impacted by the shift in mix away from solar pastes products, which was only partially mitigated by increased volume and pricing benefits in the second quarter. Regionally, the United States drove the decrease in sales, primarily driven by the exit of solar pastes. Gross profit decreased from the prior-year same period primarily due to the unfavorable product mix and unfavorable raw material impacts, including approximately \$2 million of inventory obsolescence charges.

Table of Contents*Performance Colors and Glass*

	Three months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Segment net sales excluding precious metals	\$ 93,074	\$ 93,246	\$ (172)	(0.2)%
Segment precious metal sales	13,373	12,569	804	6.4%
Segment net sales	106,447	105,815	632	0.6%
Segment gross profit	31,232	28,042	3,190	11.4%
Gross profit as a % of segment net sales excluding precious metals	33.6%	30.1%		

Sales in Performance Colors and Glass increased primarily due to higher precious metal sales, driven by changes in mix. Net sales excluding precious metals were flat compared to the prior-year same period. Sales of our glass products continued to be strong with an increase over the prior-year same period of approximately \$5 million, offset by decreases in our colors and electronics products. Net sales were favorably impacted by product mix and pricing in the second quarter, which was offset by reduced volume. Regionally, Latin America increased approximately \$2 million compared to the prior-year same period driven by increased sales of container glass products, offset by decreased sales in all other regions. Gross profit increased from the prior-year same period due to the flow through of favorable pricing, in addition to favorable raw material costs and production costs, partially mitigated by reduced volume.

Performance Coatings

	Three months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Segment net sales	\$ 155,194	\$ 157,315	\$ (2,121)	(1.3)%
Segment gross profit	35,235	31,107	4,128	13.3%
Gross profit as a % of segment net sales	22.7%	19.8%		

Sales decreased in Performance Coatings due to lower sales of our tile colors products and porcelain enamel products compared to the prior-year same period. The impact of these decreases was approximately \$10 million, which was partially mitigated by increased sales of digital inks and other tile products. Sales were unfavorably impacted by price, partially mitigated by favorable volume and mix. Regionally, Latin America drove the largest decrease in sales, approximately \$5 million, due to reduced customer demand driven by financial difficulties experienced at certain customers, and the impact of selling our borate mine in Argentina that contributed to Performance Coatings sales in the prior-year same period. Sales in the United States were also down compared to the prior-year same period by approximately \$1 million. Partially mitigating the decreases were increased sales in Europe of digital inks and other tile products. Gross profit increased from the prior-year same period primarily due to favorable raw material impacts, partially offset by unfavorable mix impacts and lower selling prices.

Table of Contents**Performance Chemicals***Polymer Additives*

	Three months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Segment net sales	\$ 76,798	\$ 83,450	\$ (6,652)	(8.0)%
Segment gross profit	5,511	6,525	(1,014)	(15.5)%
Gross profit as a % of segment net sales	7.2%	7.8%		

Sales decreased in Polymer Additives primarily due to the continued decline in sales volume of certain plasticizer products that is being driven by changing environmental regulations. Regionally, this drove a decrease in United States sales of approximately \$5 million and Europe sales of approximately \$2 million. Gross profit decreased from the prior-year same period as a result of the reduced sales volume and unfavorable pricing impacts, and the unfavorable impact to manufacturing costs of a plant in Europe that was shut down during the second quarter for annual maintenance.

Specialty Plastics

	Three months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Segment net sales	\$ 43,502	\$ 44,151	\$ (649)	(1.5)%
Segment gross profit	7,846	7,565	281	3.7%
Gross profit as a % of segment net sales	18.0%	17.1%		

Sales decreased in Specialty Plastics primarily due to lower sales of certain plastic colorant products. Unfavorable pricing impacted sales by approximately \$2 million, and was only partially mitigated by favorable volume impacts of approximately \$1 million. Regionally, the United States drove the majority of the decrease, which was partially mitigated by slight increases in both Europe and Latin America. Gross profit is slightly favorable to the prior-year same period as a result of pricing holding firm relative to changes in raw material costs.

	Three months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Geographic Revenues				
United States	\$ 174,615	\$ 208,773	\$ (34,158)	(16.4)%
International	260,840	266,773	(5,933)	(2.2)%
Total	\$ 435,455	\$ 475,546	\$ (40,091)	(8.4)%

Net sales declined in the United States and international regions compared to the prior-year same period. In the second quarter of 2013, sales originating in the United States were 40% of total net sales, compared with 44% of net sales in the second quarter of 2012. The decline in sales in the United States was primarily driven by the exit of solar pastes, in combination with reduced demand for certain plasticizer products that is being driven by changing environmental regulations. International sales decreased due to the impact of the exit of solar pastes and reduced sales of metal powders products in Asia-Pacific, approximately \$6 million, and decreased sales in Latin America of approximately \$2 million due to lower sales of tile and porcelain enamel products, partially mitigated by increased sales of container glass products. These decreases were partially mitigated by increased sales in Europe of approximately \$2 million, primarily driven by strong performance of digital inks, partially offset by reduced demand for certain plasticizer products that has also had a significant impact on Europe.

Results of Operations Consolidated

Edgar Filing: FERRO CORP - Form 10-Q

Comparison of the six months ended June 30, 2013 and 2012

For the six months ended June 30, 2013, Ferro net loss was \$1.5 million, compared with net income of \$6.2 million for the six months ended June 30, 2012. For the six months ended June 30, 2013, Ferro net loss attributable to common shareholders was \$1.2 million, or \$0.01 loss per share, compared with Ferro net income attributable to common shareholders of \$5.7 million, or \$0.06 per share, for the six months ended June 30, 2012.

Table of Contents*Net Sales*

	Six months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Net sales excluding precious metals	\$ 794,445	\$ 839,088	\$ (44,643)	(5.3)%

Net sales	852,979	935,971	(82,992)	(8.9)%
Cost of sales	686,088	764,432	(78,344)	(10.2)%
Gross profit	\$ 166,891	\$ 171,539	\$ (4,648)	(2.7)%

Gross profit as a % of net sales excluding precious metals 21.0% 20.4%

Net sales decreased by 8.9% in the six months ended June 30, 2013, compared with the prior-year same period. The exit of solar pastes during the first quarter of 2013 drove a significant decrease in net sales compared to the prior-year same period, and also drove the significant decrease in sales of precious metals. Additionally, sales in our Performance Coatings segment decreased compared to the prior year primarily due to reduced volume and unfavorable pricing, and sales in our Polymer Additives segment continued to decline due to reduced demand for certain plasticizer products resulting from changing environmental regulations.

Gross Profit

Gross profit decreased 2.7% in the six months ended June 30, 2013, compared to the prior-year same period. The significant drivers of the decline in gross profit were reduced demand for certain plasticizer products in our Polymer Additives segment, the exit of solar pastes, inventory obsolescence charges taken in our Pigments, Powders and Oxides segment and shutdowns at two plants – one for maintenance and one for cleanup and repairs following flooding in Germany – which together impacted gross profit by approximately \$2 million. The decreases were partially mitigated by increased gross profit in our Performance Coatings segment driven by favorable raw material costs, and favorable raw material and production costs in our Performance Colors and Glass segment.

Selling, General and Administrative Expenses

The following table presents our segments summarized into their respective operating groups, with Pigments, Powders and Oxides, Performance Colors and Glass, and Performance Coatings comprising Performance Materials, and Polymer Additives and Specialty Plastics comprising Performance Chemicals. In conjunction with the changes to segments, we also changed the profitability metric utilized by management to evaluate segment performance, as discussed in Note 15. The metric that was utilized historically was segment income, which included selling, general and administrative (SG&A) expenses that were directly incurred by each segment, as well as certain allocated costs. Segment gross profit is the metric that is now utilized. Further, we have refined our approach to managing SG&A expenses and are intensely focused on analyzing expenses at the individual site level, and also across functional areas within the Company, as opposed to the segment level, and will evaluate performance in this manner.

	Six months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Performance Materials	\$ 79,793	\$ 92,911	\$ (13,118)	(14.1)%
Performance Chemicals	12,197	13,561	(1,364)	(10.1)%
Corporate	33,918	32,340	1,578	4.9%
Selling, general and administrative expenses	\$ 125,908	\$ 138,812	\$ (12,904)	(9.3)%

Edgar Filing: FERRO CORP - Form 10-Q

SG&A expenses were \$12.9 million lower in the six months ended June 30, 2013 compared with the prior-year same period. As a percentage of sales, SG&A expenses remained flat in the second quarter of 2013 compared to the prior-year same period at 14.8%. The primary drivers of the reduction in SG&A expenses were the various personnel actions taken during 2012 and into the second quarter of 2013, which drove decreases in personnel expenses and stock-based compensation expense. The decreases were partially offset by an increase in incentive compensation of approximately \$2 million in the first half of 2013 compared to the prior-year same period. In addition, increased expected returns on our pension plan assets has reduced pension and other postretirement benefit expense in the first half of 2013 compared to the prior-year same period. Our expenses related to idle sites have decreased in the current year as a result of selling the majority of our idle sites through the second quarter of 2013.

Table of Contents

The following table includes SG&A components with significant changes between 2013 and 2012:

	Six months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Personnel expenses	\$ 82,124	\$ 93,021	\$ (10,897)	(11.7)%
Stock-based compensation	2,648	3,806	(1,158)	(30.4)%
Pension and other postretirement benefits	(833)	(38)	(795)	NM
Idle sites	647	1,391	(744)	(53.5)%
Bad debt expense	1,924	1,517	407	26.8%
Other	39,398	39,115	283	0.7%
Selling, general and administrative expenses	\$ 125,908	\$ 138,812	\$ (12,904)	(9.3)%

NM Not meaningful

Restructuring and Impairment Charges

	Six months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Employee severance	\$ 19,635	\$ 4,891	\$ 14,744	NM
Other restructuring costs	3,269	148	3,121	NM
Restructuring and impairment charges	\$ 22,904	\$ 5,039	\$ 17,865	NM

NM Not meaningful

Restructuring and impairment charges increased significantly in the first half of 2013 compared to the prior-year same period. The drivers of the increase are the various restructuring actions that have been taken during the first half of 2013, primarily related to our corporate and European operations.

Interest Expense

Interest expense in the first half of 2013 increased compared to the prior-year same period, primarily due to the write-off of deferred financing fees resulting from amending our revolving credit facility and the commitment amount being reduced from \$350.0 million to \$250.0 million, and reduced capitalization of interest costs resulting from our information systems tools initiative that did not recur in the current year. The components of interest expense are as follows:

	Six months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			

Edgar Filing: FERRO CORP - Form 10-Q

Interest expense	\$ 12,802	\$ 12,648	\$ 154	1.2%
Amortization of bank fees	1,492	976	516	52.9%
Interest capitalization	(26)	(774)	748	(96.6)%
Interest expense	\$ 14,268	\$ 12,850	\$ 1,418	11.0%

Income Tax Expense

During the first half of 2013, income tax expense was \$3.6 million, or 33.8% of pre-tax income. In the first six months of 2012, we recorded income tax expense of \$7.7 million, or 59.9% of pre-tax income. The decrease in the effective tax rate was primarily due to the ratio of pre-tax losses in jurisdictions for which no tax benefit is recognized relative to pre-tax book income or loss.

Table of Contents**Results of Operations Segment Information**

Comparison of the six months ended June 30, 2013 and 2012

Performance Materials*Pigments, Powders and Oxides*

	Six months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Segment net sales excluding precious metals	\$ 74,595	\$ 85,897	\$ (11,302)	(13.2)%
Segment precious metal sales	33,706	68,141	(34,435)	(50.5)%
Segment net sales	108,301	154,038	(45,737)	(29.7)%
Segment gross profit	17,492	20,244	(2,752)	(13.6)%
Gross profit as a % of segment net sales excluding precious metals	23.4%	23.6%		

Sales in Pigments, Powders and Oxides decreased primarily due to the exit of solar pastes during the first half of 2013, which comprised approximately \$14 million of the decrease in net sales excluding precious metals from the prior-year same period. The decreased sales from the exit of solar pastes were partially mitigated by tolling revenue of approximately \$2 million during the period related to a supply agreement entered into with the buyer of our solar pastes assets. Sales were unfavorably impacted by the shift in mix away from solar pastes products and unfavorable pricing impacts, which was only partially mitigated by increased volume. Regionally, the United States drove the decrease in sales, primarily driven by the exit of solar pastes. Gross profit decreased from the prior-year same period primarily due to unfavorable mix from the exit of solar pastes and inventory obsolescence charges taken during the period of approximately \$2 million.

Performance Colors and Glass

	Six months ended June 30,		\$ Change	% Change

	(Dollars in thousands)			
Segment net sales excluding precious metals	\$ 179,746	\$ 180,981	\$ (1,235)	(0.7)%
Segment precious metal sales	24,828	28,742	(3,914)	(13.6)%
Segment net sales	204,574	209,723	(5,149)	(2.5)%
Segment gross profit	58,490	56,950	1,540	2.7%
Gross profit as a % of segment net sales excluding precious metals	32.5%	31.5%		

Sales in Performance Colors and Glass decreased primarily due to decreased sales of our colors and electronics products of approximately \$5 million and \$4 million, respectively. These decreases were partially mitigated by strong performance of our glass products, as sales increased approximately \$5 million compared with the prior-year same period. Net sales were favorably impacted by product mix and pricing, which was offset by reduced volume. Regionally, Europe sales decreased approximately \$4 million, driven by colors products and container glass products, partially mitigated by increased sales of other glass products. United States sales also decreased approximately \$3 million compared to the prior-year same period due to reduced sales of our colors and electronics products of approximately \$5 million, partially mitigated by increased sales of glass products of approximately \$2 million. Partially mitigating the decreases were increased sales in Latin America of approximately \$3 million, driven by container glass products. Gross profit increased from the prior-year same period as a result of favorable production costs and pricing impacts.

Performance Coatings

Edgar Filing: FERRO CORP - Form 10-Q

	Six months ended		\$ Change	% Change
	June 30,			
	2013	2012		
	(Dollars in thousands)			
Segment net sales	\$ 294,096	\$ 309,829	\$ (15,733)	(5.1)%
Segment gross profit	63,827	61,466	2,361	3.8%
Gross profit as a % of segment net sales	21.7%	19.8%		

Sales decreased in Performance Coatings due to lower sales of our tile colors products and porcelain enamel products totaling approximately \$22 million, which was partially mitigated by increased sales of digital inks of approximately \$6 million compared to the prior-year same period. Sales were unfavorably impacted by price and volume, partially mitigated by slightly favorable mix. Regionally, Latin America was the most significant decrease, approximately \$12 million, due to reduced customer demand and the impact of selling our borate mine in Argentina that contributed to Performance Coatings sales in the prior-year same period. Sales in the United States and Europe also decreased approximately \$3 million and \$1 million, respectively, compared to the prior-year same period. Gross profit increased from the prior-year same period primarily due to favorable raw material impacts, partially offset by unfavorable pricing impacts.

Table of Contents**Performance Chemicals***Polymer Additives*

	Six months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Segment net sales	\$ 157,667	\$ 171,174	\$ (13,507)	(7.9)%
Segment gross profit	14,365	17,964	(3,599)	(20.0)%
Gross profit as a % of segment net sales	9.1%	10.5%		

Sales decreased in Polymer Additives primarily due to the continued decline in sales volume of certain plasticizer products that is being driven by changing environmental regulations. Regionally, this drove a decrease in United States sales of approximately \$10 million and Europe sales of approximately \$5 million, which were partially mitigated by increased sales in Latin America of approximately \$1 million. Gross profit decreased from the prior-year same period as a result of the reduced sales volume, unfavorable pricing impacts, and the unfavorable impact to manufacturing costs of a plant in Europe that was shut down during the second quarter for annual maintenance.

Specialty Plastics

	Six months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Segment net sales	\$ 88,341	\$ 91,207	\$ (2,866)	(3.1)%
Segment gross profit	15,235	16,224	(989)	(6.1)%
Gross profit as a % of segment net sales	17.2%	17.8%		

Sales decreased in Specialty Plastics primarily due to the performance in the first half of 2012 being extraordinarily high, as a result of numerous customers adjusting inventory to normalized levels after destocking in late 2011, and certain customers pre-purchasing large volumes based on commodity pricing concerns. The sales decrease was the most significant in certain reinforced plastics products and liquid color products that declined approximately \$2 million and \$1 million, respectively, compared to the prior-year same period. The primary driver of the sales decrease was unfavorable volume compared to the prior-year same period. Regionally, the United States drove the majority of the decrease, approximately \$4 million, which was partially mitigated by increases in Europe and Latin America that totaled approximately \$1 million. Gross profit also decreased from the prior-year same period, primarily due to reduced sales volumes, and unfavorable mix and pricing impacts.

	Six months ended June 30,		\$ Change	% Change
	2013	2012		
	(Dollars in thousands)			
Geographic Revenues				
United States	\$ 349,018	\$ 412,544	\$ (63,526)	(15.4)%
International	503,961	523,427	(19,466)	(3.7)%
Total	\$ 852,979	\$ 935,971	\$ (82,992)	(8.9)%

Net sales declined in the United States and international regions compared to the prior-year same period. In the first half of 2013, sales originating in the United States were 41% of total net sales, compared with 44% of net sales in the first half of 2012. The decline in sales in the United States was primarily driven by the exit of solar pastes, approximately \$52 million, including sales of precious metals, and reduced demand for certain plasticizer products that is being driven by changing environmental regulations, approximately \$9 million. International sales decreased primarily due to reduced sales of our Performance Coatings products in Latin America, approximately \$12 million, the continued reduction in demand for certain plasticizer products and reduced sales of container glass and colors products in Europe totaling approximately \$10 million, and the impact of the exit of solar pastes on Asia-Pacific, approximately \$3 million.

Table of Contents*Summary of Cash Flows for the six months ended June 30, 2013 and 2012*

Net cash (used for) provided by operating activities	\$ (8,554)	\$ 5,178	\$ (13,732)

Cash flows from operating activities. Cash flows from operating activities decreased by \$13.7 million in the first six months of 2013 compared with the prior-year same period. The decrease in cash flows was primarily the result of increased cash outflows related to our restructuring activities of \$16.1 million during the first six months of 2013. Reconciling net income to cash flows from operating activities included approximately \$6.0 million of non-cash restructuring charges, depreciation and amortization, as well as the net financial statement impact of the sale of solar assets and Ferro Pfansteihl Laboratories, Inc. (FPL). Approximately \$13.4 million in interest was paid during the current year compared to \$13.2 million in the first six months of 2012. Interest payments were primarily comprised of semiannual interest on our outstanding senior notes. Accounts receivable increased from year end, but less than the increase in the prior-year same period, which is primarily the result of decreased sales compared to the prior-year.

Cash flows from investing activities. Cash flows from investing activities increased \$51.5 million in the first six months of 2013 compared with the prior-year same period. Cash received for the sale of solar assets and FPL, totaling \$27.7 million, comprised the majority of the increase. Capital expenditures decreased to \$15.9 million in the first six months of 2013 from \$35.5 million in the prior-year same period.

Cash flows from financing activities. Cash flows from financing activities decreased \$39.4 million in the first six months of 2013 compared with the prior-year same period from a cash inflow in the prior year to a cash out flow during the first six months of 2013. In the first six months of 2013, we reduced borrowings under our domestic accounts receivable asset securitization program by \$5 million and increased borrowings through our revolving credit facility by \$1.4 million. In the first half of 2012, we borrowed \$30 million through our domestic accounts receivable asset securitization program and \$5.5 million through our revolving credit facility.

Table of Contents

Capital Resources and Liquidity

7.875% Senior Notes

The 7.875% Senior Notes (the "Senior Notes") were issued in 2010 at par, bear interest at a rate of 7.875% per year, payable semi-annually in arrears on February 15th and August 15th, and mature on August 15, 2018. The principal amount outstanding was \$250.0 million at June 30, 2013, and December 31, 2012. Through August 15, 2013, we may redeem up to 35% of the Senior Notes at a price equal to 107.875% of the principal amount using proceeds of certain equity offerings. We may also redeem some or all of the Senior Notes prior to August 15, 2014, at a price equal to the principal amount plus a defined applicable premium. The applicable premium on any redemption date is the greater of 1% of the principal amount of the note or the excess of (1) the present value at such redemption date of the redemption price of the note at August 15, 2014, plus all required interest payments due on the note through August 15, 2014, computed using a discount rate equal to the Treasury Rate as of the redemption date plus 50 basis points; over (2) the principal amount of the note. In addition, we may redeem some or all of the Senior Notes beginning August 15, 2014, at prices ranging from 100% to 103.938% of the principal amount.

The Senior Notes are unsecured obligations and rank equally in right of payment with any other unsecured, unsubordinated obligations. The Senior Notes contain certain affirmative and negative covenants customary for high-yield debt securities, including, but not limited to, restrictions on our ability to incur additional debt, create liens, pay dividends or make other distributions or repurchase our common stock and sell assets outside the ordinary course of business. At June 30, 2013, we were in compliance with the covenants under the Senior Notes indenture.

6.50% Convertible Senior Notes

The 6.50% Convertible Notes (the "Convertible Notes") were issued in 2008, bear interest at a rate of 6.5% per year, payable semi-annually in arrears on February 15th and August 15th, and mature on August 15, 2013. We separately account for the liability and equity components of the Convertible Notes in a manner that, when interest cost is recognized in subsequent periods, will reflect our nonconvertible debt borrowing rate at the time the Convertible Notes were issued. The effective interest rate on the liability component is 9.5%. Under certain circumstances, holders of the Convertible Notes may convert their notes prior to maturity. The Convertible Notes are unsecured obligations and rank equally in right of payment with any other unsecured, unsubordinated obligations. The principal amount outstanding was \$35.1 million at June 30, 2013, and \$35.1 million at December 31, 2012. At June 30, 2013, we were in compliance with the covenants under the Convertible Notes indenture.

Revolving Credit Facility

In 2010, we entered into the Third Amended and Restated Credit Agreement with a group of lenders for a five-year, \$350 million multi-currency senior revolving credit facility (the "2010 Credit Facility"). In March 2013, we amended the 2010 Credit Facility (the "2013 Amended Credit Facility") to provide additional operating flexibility. The primary effects of the 2013 Amended Credit Facility were to:

Decrease the Revolving Loan Commitment Amount from \$350.0 million to \$250.0 million;

Amend the calculation of EBITDA to provide for a restructuring expense add-back attributable to the Company's restructuring programs of \$30.0 million in 2013, \$20.0 million in 2014 and \$10.0 million in 2015, with no aggregate limit on restructuring expense;

Increase the maximum permitted leverage ratio such that for (i) the first, second and third quarters of 2013, it shall increase from 3.50 to 4.25; (ii) the fourth quarter of 2013 and first quarter of 2014, it shall increase from 3.50 to 4.00; (iii) the second and third quarters of 2014, it shall increase from 3.50 to 3.75; and (iv) the fourth quarter of 2014 and thereafter, it will be 3.50; and

Amend the requirements for Permitted Acquisitions such that for the Company to consummate a Permitted Acquisition the Company must have minimum liquidity of \$100.0 million and the Company's Secured Leverage Ratio must be less than 1.50.

Edgar Filing: FERRO CORP - Form 10-Q

The 2013 Amended Credit Facility matures on August 24, 2015, and is secured by substantially all of Ferro's assets. After reductions for outstanding letters of credit, we had \$241.6 million of additional borrowings available at June 30, 2013. The interest rate under the 2013 Amended Credit Facility is the sum of (A) either (1) LIBOR or (2) the higher of the Federal Funds Rate plus 0.5%, the Prime Rate, or LIBOR plus 1.0% and (B) a variable margin based on the Company's leverage. At June 30, 2013, the interest rate was 3.4%.

Table of Contents

Under the 2013 Amended Credit Facility, we are subject to a number of financial covenants, including limitations on the payment of common stock dividends. At June 30, 2013, we were in compliance with the covenants of the 2013 Amended Credit Facility.

Domestic Receivable Sales Programs

We have an asset securitization program for Ferro's U.S. trade accounts receivable. We sell interests in our domestic receivables to various purchasers, and we may obtain up to \$50.0 million in the form of cash or letters of credit. Advances received under this program are accounted for as borrowings secured by the receivables and included in net cash provided by financing activities. In the second quarter of 2013, we extended the maturity of this credit facility through May 2014. At June 30, 2013, advances received of \$35.0 million were secured by \$84.9 million of accounts receivable, and based on available and qualifying receivables, \$15.0 million of additional borrowings were available under the program. At December 31, 2012, we had borrowed \$40.0 million under this facility. The interest rate under this program is the sum of (A) either (1) commercial paper rates, (2) LIBOR rates, or (3) the federal funds rate plus 0.5% or the prime rate and (B) a fixed margin. At June 30, 2013, the interest rate was 0.7%.

International Receivable Sales Programs

We have several international programs to sell with recourse trade accounts receivable to financial institutions. Advances received under these programs are accounted for as borrowings secured by the receivables and included in net cash provided by financing activities. At June 30, 2013, commitments supporting these programs totaled \$18.2 million, advances received of \$0.8 million were secured by \$10.8 million of accounts receivable, and based on available and qualifying receivables, \$7.3 million of additional borrowings were available under the programs. At December 31, 2012, we had borrowed \$6.1 million under this facility. The interest rates under these programs are based on EURIBOR rates plus 1.75%. At June 30, 2013, the weighted-average interest rate was 1.9%.

Off Balance Sheet Arrangements

Consignment Arrangements for Precious Metals. In the production of some of our products, we use precious metals, some of which we obtain from financial institutions under consignment agreements with terms of one year or less. The financial institutions retain ownership of the precious metals and charge us fees based on the amounts we consign. We had on hand precious metals owned by participants in our precious metals program of \$51.1 million at June 30, 2013, and \$112.2 million at December 31, 2012, measured at fair value based on market prices for identical assets and net of credits. On occasion, we have been required to deliver cash collateral. While no deposits were outstanding at June 30, 2013, or December 31, 2012, we may be required to furnish cash collateral in the future based on the quantity and market value of the precious metals under consignment and the amount of collateral-free lines provided by the financial institutions. The amount of cash collateral required is subject to review by the financial institutions and can be changed at any time at their discretion, based in part on their assessment of our creditworthiness.

Liquidity Requirements

Our liquidity requirements primarily include debt service, purchase commitments, labor costs, working capital requirements, restructuring expenditures, capital investments, precious metals cash collateral requirements, and postretirement obligations. We expect to meet these requirements in the long term through cash provided by operating activities and availability under existing credit facilities or other financing arrangements. Cash flows from operating activities are primarily driven by earnings before noncash charges and changes in working capital needs. We had additional borrowing capacity of \$275.3 million at June 30, 2013, and \$361.5 million at December 31, 2012, available under various credit facilities, primarily our revolving credit facility. We have taken a variety of actions to enhance liquidity and to ensure short-term covenant compliance, including ongoing restructuring activities, suspension of dividend payments on our common stock in 2009, and the sale of assets related to our solar pastes product line in 2013.

Our credit facilities and the indenture governing our senior notes contain a number of restrictive covenants, including those described in more detail in Note 6 to the consolidated financial statements under Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2012. These covenants include customary operating restrictions that limit our ability to engage in certain activities, including additional loans and investments; prepayments, redemptions and repurchases of debt; and mergers, acquisitions and asset sales. We are also subject to customary financial covenants under our credit facilities, including a leverage ratio and an interest coverage ratio. These covenants under our credit facilities restrict the amount of our borrowings, reducing our flexibility to fund ongoing operations and strategic initiatives. These facilities and our senior notes are described in more detail in *Capital Resources and Liquidity* under Item 7 and in Note 6 to the consolidated financial statements under Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2012.

Table of Contents

We may from time to time seek to retire or repurchase our outstanding debt through open market purchases, privately negotiated transactions, or otherwise. Such repurchases, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions, and other factors. The amounts involved may be material.

Difficulties experienced in global capital markets could affect the ability or willingness of counterparties to perform under our various lines of credit, receivable sales programs, forward contracts, and precious metals program. These counterparties are major, reputable, multinational institutions, all having investment-grade credit ratings, except for one, which is not rated. Accordingly, we do not anticipate counterparty default. However, an interruption in access to external financing could adversely affect our business prospects and financial condition.

We assess on an ongoing basis our portfolio of businesses, as well as our financial and capital structure, to ensure that we have sufficient capital and liquidity to meet our strategic objectives. As part of this process, from time to time we evaluate the possible divestiture of businesses that are not critical to our core strategic objectives and, where appropriate, pursue the sale of such businesses. A reduced forecast for our solar pastes sales and a diminished outlook for our future opportunities in the solar market led to our decision to sell assets related to our solar pastes product line in 2013. We also evaluate and pursue acquisition opportunities that we believe will enhance our strategic position. Generally, we publicly announce divestiture and acquisition transactions only when we have entered into definitive agreements relating to those transactions.

Critical Accounting Policies and Their Application

There were no material changes to our critical accounting policies described in *Critical Accounting Policies* within Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2012.

Impact of Newly Issued Accounting Pronouncements

Refer to Note 2 to the condensed consolidated financial statements under Item 1 of this Quarterly Report on Form 10-Q for a discussion of accounting standards we recently adopted or will be required to adopt.

Risk Factors

Certain statements contained here and in future filings with the SEC reflect the Company's expectations with respect to future performance and constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements are subject to a variety of uncertainties, unknown risks and other factors concerning the Company's operations and business environment, which are difficult to predict and are beyond the control of the Company. Factors that could adversely affect our future financial performance include those described under the heading *Risk Factors* in Item 1A of Part I of our Annual Report on Form 10-K for the year ended December 31, 2012.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

The primary objective of the following information is to provide forward-looking quantitative and qualitative information about our exposure to instruments that are sensitive to fluctuations in interest rates and foreign currency exchange rates.

Our exposure to interest rate risk arises from our debt portfolio. We manage this risk by controlling the mix of fixed-rate versus variable-rate debt after considering the interest rate environment and expected future cash flows. Our objective is to limit variability in earnings, cash flows and overall borrowing costs caused by changes in interest rates, while preserving operating flexibility.

We operate internationally and enter into transactions denominated in foreign currencies. These transactions expose us to gains and losses arising from exchange rate movements between the dates foreign currencies are recorded and the dates they are settled. We manage this risk by entering into forward currency contracts that offset these gains and losses.

The notional amounts, net carrying amounts of assets (liabilities), and fair values associated with our exposure to these market risks and sensitivity analyses about potential gains (losses) resulting from hypothetical changes in market rates are presented below:

	June 30, 2013	December 31, 2012
	(Dollars in thousands)	
Variable-rate debt and utilization of accounts receivable sales programs:		
Change in annual interest expense from 1% change in interest rates	\$ 429	\$ 543
Fixed-rate debt:		
Carrying amount	290,194	289,148
Fair value	297,684	270,240
Change in fair value from 1% increase in interest rates	(10,601)	(10,113)
Change in fair value from 1% decrease in interest rates	11,156	10,668
Foreign currency forward contracts:		
Notional amount	255,821	250,680
Carrying amount and fair value	494	(4,758)
Change in fair value from 10% appreciation of U.S. dollar	12,278	13,205
Change in fair value from 10% depreciation of U.S. dollar	(15,007)	(16,140)

Table of Contents

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Ferro is committed to maintaining disclosure controls and procedures that are designed to ensure that information required to be disclosed in its Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the U.S. Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to its management, including its Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

As required by Rule 13a-15(b) of the Exchange Act, Ferro has carried out an evaluation, under the supervision and with the participation of its management, including its Chief Executive Officer and its Chief Financial Officer, of the effectiveness of the design and operation of its disclosure controls and procedures. The evaluation examined those disclosure controls and procedures as of June 30, 2013, the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that the disclosure controls and procedures were effective as of June 30, 2013.

Changes in Internal Control over Financial Reporting

During the second quarter of 2013, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II OTHER INFORMATION

Item 1. Legal Proceedings

There are various lawsuits and claims pending against the Company and its consolidated subsidiaries. We do not currently expect the ultimate liabilities, if any, and expenses related to such lawsuits and claims to materially affect the consolidated financial position, results of operations, or cash flows of the Company.

As previously reported, on March 29, 2013, a purported shareholder of the Company filed a putative shareholder derivative and class action lawsuit in the Cuyahoga County, Ohio, Court of Common Pleas (*Turberg v. Lawrence et al.*, No. 13-CV-803886), and on April 9, 2013, a purported shareholder of the Company filed a substantially similar putative shareholder derivative and class action lawsuit in the United States District Court for the Northern District of Ohio (*Raul v. Hipple et al.*, No. 1:13-cv-00783). Both of these cases have been voluntarily dismissed without prejudice, *Turberg v. Lawrence et al.* on June 5, 2013 and *Raul v. Hipple et al.* on July 10, 2013.

Item 1A. Risk Factors

There were no material changes to the risk factors disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Our ability to pay common stock dividends is limited by certain covenants in our 2010 Credit Facility, as amended, and the bond indenture governing the Senior Notes. The covenant in our 2010 Credit Facility, as amended, is the more limiting of the two covenants and is described under the Revolving Credit Facility in Note 6 within Item 8 of the Company's Annual Report on Form 10-K for the year ended December 31, 2012.

The following table summarizes purchases of our common stock by the Company and affiliated purchasers during the three months ended June 30, 2013:

	Total Number of Shares Purchased (1)	Average Price Paid per Share (In thousands, except for per share amounts)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
April 1, 2013 to April 30, 2013		\$		
May 1, 2013 to May 31, 2013				
June 1, 2013 to June 30, 2013				
Total				

(1) Consists of shares of common stock surrendered by employees to meet minimum tax withholding obligations under current and previous long-term incentive plans.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Not applicable.

Item 6. Exhibits

The exhibits listed in the attached Exhibit Index are the exhibits required by Item 601 of Regulation S-K.

EXHIBIT INDEX

The following exhibits are filed with this report or are incorporated here by reference to a prior filing in accordance with Rule 12b-32 under the Securities and Exchange Act of 1934.

Exhibit:

- 3 Articles of incorporation and by-laws:
 - 3.1 Eleventh Amended Articles of Incorporation of Ferro Corporation (incorporated by reference to Exhibit 4.1 to Ferro Corporation's Registration Statement on Form S-3, filed March 5, 2008).
 - 3.2 Certificate of Amendment to the Eleventh Amended Articles of Incorporation of Ferro Corporation filed December 29, 1994 (incorporated by reference to Exhibit 4.2 to Ferro Corporation's Registration Statement on Form S-3, filed March 5, 2008).
 - 3.3 Certificate of Amendment to the Eleventh Amended Articles of Incorporation of Ferro Corporation filed on June 23, 1998 (incorporated by reference to Exhibit 4.3 to Ferro Corporation's Registration Statement on Form S-3, filed March 5, 2008).
 - 3.4 Certificate of Amendment to the Eleventh Amended Articles of Incorporation of Ferro Corporation filed on October 14, 2011 (incorporated by reference to Exhibit 3.1 to Ferro Corporation's Current Report on Form 8-K, filed October 17, 2011).
 - 3.5 Ferro Corporation Amended and Restated Code of Regulations.
 - 4 Instruments defining rights of security holders, including indentures:
 - 4.1 Senior Indenture, dated as of March 5, 2008, by and between Ferro Corporation and U.S. Bank National Association (incorporated by reference to Exhibit 4.5 to Ferro Corporation's Registration Statement on Form S-3, filed March 5, 2008).
