Revenues from **North America** at 16.8 billion, year-on-year growth of 4%. Sequential growth in constant currency at 17%, primarily on account of:

INCOME STATEMENT HIGHLIGHTS:

Gross profit margin at 58.2% registered ~230 basis points decline vs Q3 FY14 primarily on account of unfavourable currency impact. Gross profit margin for GG and PSAI business segments are at 65.9% and 17.2% respectively.

SG&A expenses, excluding impairment adjustments, marginally grew by 2%. This increase is largely due to annual increments, additional manpower deployment in the past 12 months and other sales and marketing spend for events specific to this quarter offset by the favourable impact of Emerging Market currency depreciation.

Consequent to the decline in the recoverable amounts of certain product / customer contracts related intangible assets, an impairment charge of 534 million was recorded during the quarter.

Net Finance income at 1,013 million compared to 15 million in Q3 FY14. The increase is on account of :
