EVERCORE PARTNERS

Evercore is one of the leading independent investment banking advisory firms in the world based on the dollar volume of announced worldwide merger and acquisition (M&A) transactions on which we have advised since 2000. When we use the term independent investment banking advisory firm, we mean an investment banking firm that directly, or through its affiliates, does not engage in commercial banking or significant proprietary trading activities. We were founded on the belief that there is an opportunity within the investment banking industry for a firm free of the potential conflicts of interest created within large, multi-product financial institutions. We believe that maintaining standards of excellence and integrity in our core businesses demands a spirit of cooperation and hands-on participation more commonly found in smaller organizations. Since our inception, we have set out to build in the employees we choose and in the projects we undertake an organization dedicated to the highest caliber of professionalism and integrity.

We operate globally through two business segments:

Investment Banking; and

Investment Management.

Our Investment Banking segment includes our advisory services, through which we provide advice to clients on significant mergers, acquisitions, divestitures and other strategic corporate transactions, with a particular focus on advising prominent multinational corporations and substantial private equity firms on large, complex transactions. We also provide restructuring advice to companies in financial transition, as well as to creditors, shareholders and potential acquirers. In addition, we provide our clients with capital markets advice relating to both debt and equity securities, we underwrite securities offerings and we raise funds for financial sponsors and advise on secondary transactions for private funds interests. Our Investment Banking segment also includes Evercore ISI services through which we offer equity research and agency-only securities sales and trading for institutional investors.

Our Investment Management segment focuses on Institutional Asset Management, through which we manage financial assets for sophisticated institutional investors and provide independent fiduciary services to corporate employee benefit plans; Wealth Management, through which we provide wealth management services for high net-worth individuals; and Private Equity, through which we manage private equity funds. Each of these businesses is led by senior investment professionals with extensive experience in their respective fields.

You should carefully consider the risks described under Risk Factors in our most recent Annual Report on Form 10-K filed with the SEC and in each subsequently filed Quarterly Report on Form 10-Q (which are incorporated by reference in the accompanying prospectus), as well as the other information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus before making a decision to invest in our securities.

SELLING STOCKHOLDERS

The selling stockholders have acquired or will acquire the shares of Class A common stock covered by this prospectus supplement from time to time upon exchange of Class E partnership units of Evercore LP. The selling stockholders are the former owners of an approximately 40% interest in Evercore's Institutional Equities business. On October 31, 2014, upon the closing of Evercore's acquisition of this interest, the selling stockholders received partnership interests in Evercore LP, consisting of Class E units that are exchangeable on a one-for-one basis into shares of Class A common stock, as well as Class G and Class H interests that convert into a number of Class E units on specified conversion dates based on achievement of financial performance targets, subject in each case to vesting, forfeiture and other conditions, restrictions and limitations. The conditions, restrictions and limitations on the conversion of Class G interests and Class H interests into Class E units, and on the exchange of Class E units for shares of Class A common stock, are described in Evercore LP's limited partnership agreement and Evercore Partners Inc.'s certificate of incorporation, which are incorporated by reference into the registration statement of which this prospectus supplement is part. In addition, certain selling stockholders have agreed with Evercore to exchange other partnership interests for shares of Class A common stock.

This prospectus supplement covers an aggregate of 213,862 shares of Class A common stock that have been issued or may be issued to the selling stockholders over time pursuant to the terms of Class E units, Class G interests and Class H interests. The number of shares ultimately issued to, and that may be resold by, each selling stockholder will depend on the application of the performance, vesting and other conditions, restrictions and limitations.

The following table sets forth, to the best of the Company's knowledge, the number and percentage of shares of Class A common stock beneficially owned (as defined under SEC rules) as of the date hereof by the selling stockholders, including shares that the selling stockholders have the right to acquire within 60 days hereof, calculated as the number of Class E units that are currently exchangeable into shares of Class A common stock. The aggregate number of shares of Class A common stock underlying exchangeable Class E units owned by the selling stockholders as a group on the date hereof is less than one percent of all of our common stock issued and outstanding. Accordingly, pursuant to guidance by the SEC staff, the information in the following table is presented on a group basis as to these selling stockholders. The selling stockholders are currently non-executive employees of Evercore.

| Name of Selling Stockholder | Shares Beneficially Owned | |
|--------------------------------------|---------------------------|------------|
| | Number | Percentage |
| All selling stockholders, as a group | 90,884 | * |

* Less than 1%. Percentage of beneficial ownership is based upon (1) 39,678,957 shares of our Class A common stock issued and outstanding and (2) 4,189,348 votes associated with Class B common stock and Evercore LP Class A limited partnership units outstanding, excluding general partnership units held by Evercore Partners Inc., in each case as of April 20, 2016.

For purposes of this prospectus supplement, selling stockholders include pledgees, donees, transferees or other successors in interest from time to time selling shares received from a selling stockholder. We will pay the expenses incurred to register the shares being offered by the selling stockholders for resale, but the selling stockholders will pay any underwriting discounts and brokerage commissions associated with these sales.

The selling stockholders may offer and sell the shares from time to time at market prices prevailing at the time of sale, at prices related to market prices, at a fixed price or prices subject to change or at negotiated prices, by a variety of methods. This prospectus supplement and the accompanying prospectus, including the Plan of Distribution section of the accompanying prospectus, describe the general manner in which the shares of Class A common stock may be

offered and sold by the selling stockholders. If necessary, the specific manner in which any particular shares of Class A common stock are offered and sold will be described in a further prospectus supplement, together with any required information on the specific selling stockholder or stockholders.
