Forward-Looking Statements

This communication contains certain forward-looking statements within the meaning of federal securities laws, including the Securities Litigation Reform Act of 1995 that are not limited to historical facts, but reflect Range's and MRD's current beliefs, such as may, will, could, should, expect, plan, project, intend, anticipate, believe, estimate, and other similar expressions are intended to identify such forward-looking statements. The statements in this press release that are not historical facts include, but are not limited to, the anticipated timetable for completing the proposed transaction, benefits and synergies of the proposed transaction, costs and other anticipated expenses of the combined company, the combined company's plans, objectives, future opportunities for the combined company and products, future financial performance, and other forward-looking information.

regarding Range's and MRD's future expectations, beliefs, plans, objectives, financial conditions, assumptions or future even-
looking statements within the meaning of the federal securities laws.

Furthermore, the statements relating to the proposed transaction are subject to numerous risks and uncertainties, many of which
cause actual results to differ materially from the results expressed or implied by the statements. These risks and uncertainties include:
votes of Range's or MRD's shareholders; the timing to consummate the proposed transaction; satisfaction of the conditions to
that the closing of the proposed transaction otherwise does not occur; the risk that a regulatory approval that may be required for
subject to conditions that are not anticipated; the diversion of management time on transaction-related issues; the ultimate timing
Range and MRD; the effects of the business combination of Range and MRD, including the combined company's future financial
potential adverse reactions or changes to business relationships resulting from the announcement or completion of the proposed
the proposed transaction and the ability of Range to realize such synergies and other benefits; expectations regarding regulatory
settlements and investigations; and actions by third parties, including governmental agencies; changes in the demand for or price
by weakness in the worldwide economy; consequences of audits and investigations by government agencies and legislative bodies
proceedings by such agencies; compliance with environmental laws; changes in government regulations and regulatory requirements
exploration; compliance with laws related to income taxes and assumptions regarding the generation of future taxable income;
customers; delays or failures by
customers to make payments owed to us; impairment of oil and natural gas properties; structural changes in the oil and natural
maintaining a highly skilled workforce.

Range's and MRD's respective reports on Form 10-K for the year ended December 31, 2015, Form 10-Q for the quarter ended
other SEC filings discuss some of the important risk factors identified that may affect these factors and Range's and MRD's
condition. Range and MRD undertake no obligation to revise or update publicly any forward-looking statements for any reason
these forward-looking statements that speak only as of the date hereof.

The SEC permits oil and gas companies, in filings made with the SEC, to disclose proved reserves, which are estimates that ge
certainty to be recoverable in future years from known reservoirs under existing economic and operating conditions as well as
Range has elected not to disclose the Company's probable and possible reserves in its filings with the SEC. Range uses certain
resource potential, "unproved resource potential" or "upside" or other descriptions of volumes of resources potentially recover
that may include probable and possible reserves as defined by the SEC's guidelines. Range has not attempted to distinguish pr
classifications. The SEC's rules prohibit us from including in filings with the SEC these broader classifications of reserves. T
estimates of proved, probable and possible reserves and accordingly are subject to substantially greater risk of actually being re
internal estimates of hydrocarbon quantities that may be potentially discovered through exploratory drilling or recovered with a
reviewed by independent engineers. Unproved resource potential does not constitute reserves within the meaning of the Societ
Management System and does not include proved reserves. Area wide unproven resource potential has not been fully risked by
recovery, refers to our management's estimates of hydrocarbon quantities that may be recovered from a well completed as a p
constitute or represent reserves within the meaning of the Society of Petroleum Engineer's Petroleum Resource Management S
Actual quantities that may be recovered from Range's interests could differ substantially. Factors affecting ultimate recovery i
directly affected by the availability of capital, drilling and production costs, commodity prices, availability of drilling and com
transportation constraints, regulatory approvals, field spacing rules, recoveries of gas in place, length of horizontal laterals, act
and mechanical factors affecting recovery rates and other factors. Estimates of resource potential may change significantly as
data.

In addition, our production forecasts and expectations for future periods are dependent upon many assumptions, including estim
the undertaking and outcome of future drilling activity, which may be affected by significant commodity price declines or drill
the disclosure in our most recent Annual Report on Form 10-K, available from our website at www.rangeresources.com or by v
Worth, Texas 76102. You can also obtain this Form 10-K on the SEC's website at www.sec.gov or by calling the SEC at 1-80

3

Range s Keys for Success

High quality, large scale acreage position containing repeatable projects with good returns improving further as costs are reduced

Low cost structure with ability to continue driving costs down

Improving capital efficiency

New takeaway capacity projected to improve realizations for natural gas, NGLs and condensate

Shallow base decline rate, 19% in 1st year, allows a minimal level of capex to hold production flat, ~\$300 million for 2017

Low-cost takeaway capacity with built-in flexibility

Strong 2016 hedges and ample liquidity with no near-term debt maturities

5

Near-Term Price Enhancements

Range will be able to utilize a full year of Spectra's Uniontown to Gas City project, which takes ~200 Mmcf per day of Range gas production from local Appalachia M2 to Midwest markets

Additional takeaway projects could strengthen local pricing differentials

Range is the only producer with capacity on the Mariner East project to Marcus Hook

20,000 barrels per day of ethane transportation to fulfill contract with INEOS

20,000 barrels per day of propane transportation with access to international propane markets

Range initiated a new marketing arrangement in 3Q15 which improved Marcellus condensate net realized prices

Hedges on 80% of 2016 production at ~\$3.24

16

Range s Keys for Success

Assets, Team, Agreements & Strategy

Low cost structure with
ability to continue driving
costs lower

High-grading asset sales
lowered operating costs

Lower debt balances reduce
interest expense

Headcount reduced by 31% YoY
Improving capital
efficiency

Longer laterals; 2016 plan
average ~7,000 , 2017 plan est.
to average ~8,000

Improved targeting and
completions

Existing pad locations with
facilities and gathering

2017 maintenance capex
estimated at ~\$300 million
Better realizations from
additional takeaway
capacity and sales
agreements

Unique marketing arrangements
coming on line

Ability to reach premium markets
and deliver products outside
Marcellus, including international
exports
Low-cost takeaway
capacity with built-in
flexibility

First-mover advantage allowed
Range to secure capacity on
low-cost expansion projects

Anticipated excess infrastructure
build-out and avoided
contracting for excessive firm
transport
Strong 2016 hedges and
ample liquidity

Approximately 80% hedged on

natural gas at ~\$3.24 Mmbtu

At 3/31/16, only \$31 million
drawn on \$2 billion credit facility

2016 program expected to use
cash flow and asset sales,
preserving liquidity
High quality, large scale
acreage position
containing repeatable
projects with good
returns

Optionality and flexibility due to
quality of acreage position,
gathering system, available
locations on existing pads

Further improvements expected

18

Highlights of Merger

Core acreage positions in two of the most prolific high-quality natural gas plays in North America

Immediately cash flow accretive and credit enhancing

Combination of two low-cost gas producers with opportunities to drive costs lower, improve returns and increase cash flow

Complementary assets positioned near expanding natural gas and NGL demand centers

19
Transaction Details
Consideration

Range Resources (Range) merges with Memorial Resource
Development (MRD) for 0.375 shares of Range per MRD share;
All-stock transaction

Implied value of \$15.75 per MRD share, a 17% premium based on closing prices as of May 13, 2016

Pro Forma
Ownership and
Corporate
Governance

MRD shareholders will own ~31% of the combined company

MRD will have the right to nominate an independent director to a seat on Range's Board

Combined company will be led by current Range senior management team

Key Conditions

Normalized Production Results of Marcellus Tighter Spacing Projects

Tighter spaced wells turned to sales in 2009 and 2010

Average lateral length of these wells is 2,861 feet

Well performance not reflective of improved targeting and completion designs

500 foot spaced wells produced 77% of 1,000 foot spaced wells through the life of the current production

Tighter spaced wells turned to sales in 2009 and 2010

Average lateral length of these wells is 2,861 feet

Well performance not reflective of improved targeting and completion designs

500 foot spaced wells produced 77% of 1,000 foot spaced wells through the life of the current production

41

Targeting/Down Spacing Test Results Encouraging

Optimized targeting
shows a ~53% increase in
cumulative production
after 600 days

Normalized well costs

were \$850,000 less than
original wells

No detrimental
production impact seen
on the original wells
Represents New Optimized
Completion Method

45

Gas In Place (GIP)

Marcellus Shale

Note: Townships where Range holds ~2,000+ acres (as of January 2016) and estimated as prospective, are outlined green. GIP
Range estimates.

GIP is a function of pressure,
temperature, thermal

maturity, porosity,
hydrocarbon saturation and
net thickness

Two core areas have been
developed in the Marcellus

Condensate and NGLs are in
gaseous form in the reservoir

46

Gas In Place (GIP)

Point Pleasant

**Bold, outlined portion represents
the area of the highest pressure
gradients in the Point Pleasant**

Note: Townships where Range holds ~2,000+ acres (as of January 2016) and estimated as prospective, are outlined green. GIP
Range estimates.

47

Gas In Place (GIP)
Upper Devonian Shale

The greatest GIP in the Upper
Devonian is found in SW PA

A significant portion of the GIP

in the Upper Devonian is located
in the wet gas window

Note: Townships where Range holds ~2,000+ acres (as of January 2016) and estimated as prospective, are outlined green. GI
Range estimates.

U.S. Domestic Oil Production Appears to Have Peaked

7 major regions account for 95% of domestic oil production growth

Production
appears
to

have
peaked
in
2
nd
Qtr.
2015

Significant reduction in capital spending in the 7 regions would suggest the trend will continue

Associated gas estimated to be 8 Bcf per day from growth in oil production. Declines in oil production are also impacting associated gas.

Excludes unamortized debt issuance costs

(2)

Liquidity based on bank commitment amount, which excludes additional liquidity under total borrowing base

(3)

Liquidity limited based on senior subordinated notes indenture provision

Debt at lowest level in past 3 years

June

2014

Called high cost 8% notes, reducing annual interest expense by \$24 million or \$0.06 mcf
Redemption funded by an equal sized equity offering aimed at accelerating balance sheet

October

2014

Renewed bank credit agreement with larger facility size, borrowing base, bank group and enhanced flexibility
Annual borrowing base redeterminations and a 5-year maturity

Ability to release collateral during transition to investment grade

March

2015

Unanimous reaffirmation of \$3 billion borrowing base and \$2 billion commitments

Elimination of debt-to-ebitdax covenant; replaced with interest coverage test and a forward-looking asset coverage test

Announced closure of Oklahoma City office, saving approximately \$18 million annually in administrative costs

May

2015

Opportunistically accessed a strong high yield debt market issuing \$750 million 10-year notes at 4.875%

Issued senior notes continuing to lay foundation for an investment grade balance sheet

Coupon remains the lowest of any high yield energy issuer of any rating year-to-date

August

2015

Portion of proceeds from 4.875% senior notes offering used to redeem 6.75% senior subordinated notes due 2020

Reduction in coupon on \$500 million principal redeemed of 1.875% amounts to annual interest savings of ~\$9.4 million

2016

Sold Nora field for \$876 million on 12/30/15, paying down revolving credit facility

Bradford county assets sold 3/28/16 for \$110 million

Signed purchase and sale agreement for central Oklahoma assets for \$77 million

Early, Continuous Action Taken to Prepare for Low Prices

66

67

Range Bonds Continue to Trade Well

67

Source: Bloomberg as of 6/13/2016

Since December highs, Range bonds tightened significantly and continue to trade well relative to a group of high quality peer bonds of similar duration

of
any
vote
or
approval.
This
communication
relates
to
a
proposed
business
combination
between
Range
and
MRD.
In
connection
with
the
proposed
transaction,
Range
intends
to
file
with
the
SEC

a
registration
statement
on
Form
S-4
that
will
include
a
joint
proxy
statement
of
Range
and
MRD
that
also
constitutes
a
prospectus
of
Range.
Each
of
Range
and
MRD
also
plan
to
file
other
relevant
documents
with
the
SEC
regarding
the
proposed
transactions.
No
offering
of
securities
shall
be
made

except
by
means
of
a
prospectus
meeting
the
requirements
of
Section
10
of
the
U.S.
Securities
Act
of
1933,
as
amended.
Any
definitive
joint
proxy
statement/prospectus(es)
for
Range
and/or
MRD
(if
and
when
available)
will
be
mailed
to
shareholders
of
Range
and/or
MRD,
as
applicable.
INVESTORS
AND
SECURITY
HOLDERS
OF

RANGE
AND
MRD
ARE
URGED
TO
READ
THE
PROXY
STATEMENT(S),
REGISTRATION
STATEMENT(S),
PROXY
STATEMENT/PROSPECTUS
AND
OTHER
DOCUMENTS
THAT
MAY
BE
FILED
WITH
THE
SEC
CAREFULLY
AND
IN
THEIR
ENTIRETY
IF
AND
WHEN
THEY
BECOME
AVAILABLE
BECAUSE
THEY
WILL
CONTAIN
IMPORTANT
INFORMATION.

Investors and security holders will be able to obtain free copies of these documents (if and when available) and other documents containing important information about Range and MRD, once such documents are filed with the SEC through the website maintained

by
the
SEC
at
<http://www.sec.gov>.
Copies

of
the
documents
filed
with
the
SEC
by
Range
will
be
available
free
of
charge
on Range's internet website at <http://www.rangeresources.com>
or by contacting Range's Investor Relations Department by email
at
lsando@rangeresources.com,
damend@rangeresources.com,
mfreeman@rangeresources.com,
or
by
phone
at
817-869-4267.

Copies of the documents filed with the SEC by MRD will be available free of charge on MRD's internet website at <http://www.memorialrd.com>
or by phone at 713-588-8339.

Range,
MRD
and
certain
of
their
respective
directors
and
executive
officers
may
be
deemed
to
be
participants
in
the
solicitation
of

proxies
in
respect
of
the
proposed
transaction.
Information
about
the
directors
and
executive
officers
of
MRD
is
set
forth
in
MRD's
proxy
statement
for
its
2016
annual
meeting
of
shareholders,
which
was
filed
with
the
SEC
on
April
1,
2016.
Information
about
the
directors
and
executive
officers
of
Range
is

set
forth
in
its
proxy
statement
for
its
2016
annual
meeting
of
shareholders,
which
was
filed
with
the
SEC
on
April
8,
2016.
These
documents
can
be
obtained
free
of
charge
from
the
sources
indicated
above.
Other
information
regarding
the
participants
in
the
proxy
solicitations
and
a
description
of
their

direct
and
indirect
interests,
by
security
holdings
or
otherwise,
will
be
contained
in
the
joint
proxy
statement/prospectus
and
other
relevant
materials
to
be
filed
with
the
SEC
when
such
materials
become
available.
Investors
should
read
the
joint
proxy
statement/prospectus
carefully
when
it
becomes
available
before
making
any
voting
or
investment

decisions.

You
may
obtain
free
copies
of
these
documents
from
Range
or
MRD
using
the
sources
indicated
above.
