Independent Auditors' Report

Based on a report originally issued in Korean

To The Board of Directors and Shareholders

SK Telecom Co., Ltd.:

We have audited the accompanying consolidated financial statements of SK Telecom Co., Ltd. and its subsidiaries (the Group), which comprise the consolidated statements of financial position as at December 31, 2016 and 2015, the consolidated statements of income, comprehensive income, changes in equity and cash flows for the years then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

*Management's Responsibility for the Consolidated Financial Statements*

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Korean International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

*Auditors' Responsibility*

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Korean Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

*Opinion*

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2016 and 2015 and of its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with Korean International Financial Reporting Standards.

**Table of Contents**

*Other Matter*

The procedures and practices utilized in the Republic of Korea to audit such consolidated financial statements may differ from those generally accepted and applied in other countries.

KPMG Samjong Accounting Corp.

Seoul, Korea

February 22, 2017

This report is effective as of February 22, 2017, the audit report date. Certain subsequent events or circumstances, which may occur between the audit report date and the time of reading this report, could have a material impact on the accompanying consolidated financial statements and notes thereto. Accordingly, the readers of the audit report should understand that the above audit report has not been updated to reflect the impact of such subsequent events or circumstances, if any.

**Table of Contents**

**1. Reporting Entity, Continued**

(2) List of subsidiaries, Continued

The list of subsidiaries as of December 31, 2016 and 2015 is as follows, Continued:

(\*1) The ownership interest represents direct ownership interest in subsidiaries either by the Parent Company or subsidiaries of the Parent Company.

(\*2) During the year ended December 31, 2016, the Parent Company acquired 219,967 shares of SK Telink Co., Ltd., a subsidiary of the Parent Company, in return for the transfer of Parent Company's owned shares of Neosnetworks Co., Ltd., a subsidiary of the Parent Company, to SK Telink Co., Ltd., as contribution in kind.

In addition, SK Telink Co., Ltd. exercised call options to purchase the entire shares of Neosnetworks Co., Ltd. held by the non-controlling interests during the year ended December 31, 2016 and Neosnetworks Co., Ltd. became a wholly owned subsidiary of SK Telink Co., Ltd.

(\*3) On November 24, 2016, the board of directors of the Parent Company resolved to acquire the shares of SK Communications Co., Ltd. held by all of the other shareholders of SK Communications Co., Ltd. on February 7, 2017 at ₩ 2,814 per share in cash.

On November 24, 2016, the extraordinary meeting of shareholders of the SK Communications Co., Ltd. approved the sale of shares and its voluntary delisting of SK Communication Co., Ltd.'s ordinary shares from KOSDAQ market of Korea Exchange.

(\*4) On November 2, 2015, the board of directors of the Parent Company entered into a share purchase agreement to acquire 30%(23,234,060 shares) of the issued and outstanding common shares of CJ Hello Vision Co., Ltd. ( CJ Hello Vision ) from CJ O Shopping Co., Ltd. ( CJ O Shopping ) for an aggregate purchase price of ₩500,000 million. The agreement stated government's approval as prerequisite.

On November 2, 2015, the board of directors of SK Broadband Co., Ltd. ( SK Broadband ), a subsidiary of the Parent Company, approved the merger of SK Broadband into CJ Hello Vision, and then SK Broadband entered into a merger agreement with CJ Hello Vision with government's approval as prerequisite.

After the announcement of disapproval of proposed takeover of CJ Hello Vision by the Fair Trade Commission (FTC) on July 18, 2016, the Parent Company announced the revocation of share purchase agreement with CJ O Shopping while SK Broadband withdrew from merger agreement with CJ Hello Vision on July 25, 2016 as execution of the share purchase agreement with CJ O Shopping and merger agreement between SK Broadband and CJ Hello Vision became objectively impossible.

(\*5) The ownership interest changed due to the shares issued to employee stock ownership association by SK Planet Co., Ltd. during the year ended December 31, 2016.

(\*6)

Although the Group has less than 50% of the voting rights of IRIVER LIMITED, the Group is considered to have control over IRIVER LIMITED since the Group holds significantly more voting rights than any other vote holder or organized group of vote holders, and the other shareholdings are widely dispersed.

## (2) List of subsidiaries, Continued

The list of subsidiaries as of December 31, 2016 and 2015 is as follows, Continued:

(\*7) Changes in subsidiaries are explained in Note 1-(4).

(\*8) During the year ended December 31, 2016, the Group acquired all of the non-controlling interests in shopkick Management Company, Inc.

(\*9) Others are owned together by SK techx Co., Ltd. and three other subsidiaries of the Parent Company.

(\*10) Changed its name to SK Telecom Innovation Fund, L.P. during the year ended December 31, 2016.

## (3) Condensed financial information of subsidiaries

Condensed financial information of the significant subsidiaries as of and for the year ended December 31, 2016 is as follows:

**2. Basis of Presentation****(1) Statement of compliance**

These consolidated financial statements were prepared in accordance with Korean International Financial Reporting Standards ( K-IFRS ), as prescribed in the *Act on External Audits of Stock Companies in the Republic of Korea*.

The consolidated financial statements were authorized for issuance by the Board of Directors on February 2, 2017, which will be submitted for approval at the shareholders meeting to be held on March 24, 2017.

**(2) Basis of measurement**

The consolidated financial statements have been prepared on the historical cost basis, except for the following material items in the consolidated statements of financial position:

derivative financial instruments measured at fair value;

financial instruments at fair value through profit or loss measured at fair value;

available-for-sale financial assets measured at fair value; and

liabilities(assets) for defined benefit plans recognized at the net of the total present value of defined benefit obligations less the fair value of plan assets.

**Table of Contents**

**2. Basis of Presentation, Continued**

(3) Functional and presentation currency

Financial statements of Group entities within the Group are prepared in functional currency of each group entity, which is the currency of the primary economic environment in which each entity operates. Consolidated financial statements of the Group are presented in Korean won, which is the Parent Company's functional and presentation currency.

(4) Use of estimates and judgments

The preparation of the consolidated financial statements in conformity with K-IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period prospectively.

1) Critical judgments

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements is included in Note 3 for the following areas: consolidation: whether the Group has de facto control over an investee, and classification of lease.

2) Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes: allowance for doubtful accounts, estimated useful lives of property and equipment and intangible assets, impairment of goodwill, recognition of provision, measurement of defined benefit liabilities, and recognition of deferred tax assets (liabilities).

3) Fair value measurement

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Group has an established policies and processes with respect to the measurement of fair values. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the finance executives.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of K-IFRS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

**Table of Contents**

**2. Basis of Presentation, Continued**

(4) Use of estimates and judgments, Continued

3) Fair value measurement, Continued

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Information about assumptions used for fair value measurements are included in Note 33.

**3. Significant Accounting Policies**

The significant accounting policies applied by the Group in the preparation of its consolidated financial statements in accordance with K-IFRSs are included below. The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements.

(1) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. The Group's operating segments have been determined to be each business unit, for which the Group generates separately identifiable financial information that is regularly reported to the chief operating decision maker for the purpose of resource allocation and assessment of segment performance. The Group has four reportable segments which consist of cellular services, fixed-line telecommunication services, e-commerce services and others, as described in Note 4. Segment results that are reported to the chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

(2) Basis of consolidation

(i) Business combination

A business combination is accounted for by applying the acquisition method, unless it is a combination involving entities or businesses under common control.

Consideration transferred is generally measured at fair value, identical to the measurement of identifiable net assets acquired at fair value. The difference between the acquired company's fair value and the consideration transferred is accounted for goodwill. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognized in profit or loss immediately. Acquisition-related costs are expensed in the periods in which the costs are incurred and the services are received excluding costs to issue debt or equity securities recognized based on K-IFRS No. 1032 and 1039.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(2) Basis of consolidation, Continued

(i) Business combination, Continued

Consideration transferred does not include the amount settled in relation to the pre-existing relationship and the amount settled in relation to the pre-existing relationship is generally recognized through profit or loss.

Contingent consideration is measured at fair value at the acquisition date. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. If contingent consideration is not classified as equity, the Group subsequently recognizes changes in fair value of contingent consideration through profit or loss.

(ii) Non-controlling interests

Non-controlling interests are measured at their proportionate share of the acquiree's identifiable net assets at the date of acquisition.

Changes in a Controlling Company's ownership interest in a subsidiary that do not result in the Controlling Company losing control of the subsidiary are accounted for as equity transactions.

(iii) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Consolidation of an investee begins from the date the Group obtains control of the investee and ceases when the Group loses control of the investee.

(iv) Loss of control

If the Group loses control of a subsidiary, the Group derecognizes the assets and liabilities of the former subsidiary from the consolidated statement of financial position and recognizes gain or loss associated with the loss of control attributable to the former controlling interest. Any investment retained in the former subsidiary is recognized at its fair value when control is lost.

(v) Interest in investees accounted for using the equity method

Interest in investees accounted for using the equity method composed of interest in associates and joint ventures. An associate is an entity in which the Group has significant influence, but not control, over the entity's financial and operating policies. A joint venture is a joint arrangement whereby the Group that has joint control of the arrangement

has rights to the net assets of the arrangement.

The investment in an associate and a joint venture is initially recognized at cost including transaction costs and the carrying amount is increased or decreased to recognize the Group's share of the profit or loss and changes in equity of the associate or the joint venture after the date of acquisition.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(2) Basis of consolidation, Continued

(vi) Intra-group transactions

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. The Group's share of unrealized gain incurred from transactions with investees accounted for using the equity method are eliminated and unrealized loss are eliminated using the same basis if there are no evidence of asset impairments.

(vii) Business combinations under common control

SK Holdings Co., Ltd. is the ultimate controlling entity of the Group. The assets and liabilities acquired under business combination under common control are recognized at the carrying amounts in the ultimate controlling shareholder's consolidated financial statements. The difference between consideration and carrying amount of net assets acquired is added to or subtracted from capital surplus and others.

(3) Cash and cash equivalents

Cash and cash equivalents comprise cash balances, call deposits and financial asset with maturities of three months or less from the acquisition date that are easily convertible to cash and subject to an insignificant risk of changes in their fair value.

(4) Inventories

Inventories are stated at the acquisition cost using the average method. During the period, a perpetual inventory system is used to track inventory quantities, which is adjusted to the physical inventory counts performed at the period end. When the net realizable value of inventories is less than the acquisition cost, the carrying amount is reduced to the net realizable value and any difference is charged to current operations as operating expenses.

(5) Non-derivative financial assets

The Group recognizes and measures non-derivative financial assets by the following four categories: financial assets at fair value through profit or loss, held-to-maturity investments, loans and receivables and available-for-sale financial assets. The Group recognizes financial assets in the consolidated statement of financial position when the Group becomes a party to the contractual provisions of the instrument.

Upon initial recognition, non-derivative financial assets not at fair value through profit or loss are measured at their fair value plus transaction costs that are directly attributable to the acquisition of the asset.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(5) Non-derivative financial assets, Continued

(i) Financial assets at fair value through profit or loss

A financial asset is classified as financial asset at fair value through profit or loss if it is held for trading or is designated as such upon initial recognition. Upon initial recognition, transaction costs are recognized in profit or loss when incurred. Financial assets at fair value through profit or loss are measured at fair value, and changes therein are recognized in profit or loss.

(ii) Held-to-maturity investments

A non-derivative financial asset with a fixed or determinable payment and fixed maturity, for which the Group has the positive intention and ability to hold to maturity, are classified as held-to-maturity investment. Subsequent to initial recognition, held-to-maturity investments are measured at amortized cost using the effective interest rate method.

(iii) Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method except for loans and receivables of which the effect of discounting is immaterial.

(iv) Available-for-sale financial assets

Available-for-sale financial assets are those non-derivative financial assets that are designated as available-for-sale or are not classified as financial assets at fair value through profit or loss, held-to-maturity investments or loans and receivables. Subsequent to initial recognition, they are measured at fair value with changes in fair value, net of any tax effect, recorded in other comprehensive income (OCI) in equity. Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at cost.

(v) De-recognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Group is recognized as a separate asset or liability. If the Group retains substantially all the risks and rewards of ownership of the transferred financial assets, the Group continues to recognize the transferred financial assets and recognizes financial liabilities for the consideration received.

(vi) Offsetting between financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount is presented in the consolidated statement of financial position only when the Group currently has a legally enforceable right to offset the recognized amounts, and there is the intention to settle on a net basis or to realize the asset and settle the liability simultaneously.

---

**Table of Contents****3. Significant Accounting Policies, Continued****(6) Derivative financial instruments, including hedge accounting**

Derivatives are initially recognized at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are accounted for as described below.

**(i) Hedge accounting**

The Group holds forward exchange contracts, interest rate swaps, currency swaps and other derivative contracts to manage interest rate risk and foreign exchange risk. The Group designates derivatives as hedging instruments to hedge the risk of changes in the fair value of assets, liabilities or firm commitments (a fair value hedge) and foreign currency risk of highly probable forecasted transactions or firm commitments (a cash flow hedge).

On initial designation of the hedge, the Group formally documents the relationship between the hedging instrument(s) and hedged item(s), including the risk management objectives and strategy in undertaking the hedge transaction, together with the methods that will be used to assess the effectiveness of the hedging relationship.

*Fair value hedge*

Changes in the fair value of a derivative hedging instrument designated as a fair value hedge are recognized in profit or loss. The gain or loss from remeasuring the hedging instrument at fair value for a derivative hedging instrument and the gain or loss on the hedged item attributable to the hedged risk are recognized in profit or loss in the same line item of the consolidated statement of income. The Group discontinues fair value hedge accounting if the hedging instrument expires or is sold, terminated or exercised, or if the hedge no longer meets the criteria for hedge accounting. Any adjustment arising from gain or loss on the hedged item attributable to the hedged risk is amortized to profit or loss from the date the hedge accounting is discontinued.

*Cash flow hedge*

When a derivative is designated to hedge the variability in cash flows attributable to a particular risk associated with a recognized asset or liability or a highly probable forecasted transaction that could affect profit or loss, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income, net of tax, and presented in the hedging reserve in equity. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in profit or loss. If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated, exercised, or the designation is revoked, then hedge accounting is discontinued prospectively. The cumulative gain or loss on the hedging instrument that has been recognized in other comprehensive income is reclassified to profit or loss in the periods during which the forecasted transaction occurs. If the forecasted transaction is no longer expected to occur, then the balance in other comprehensive income is recognized immediately in profit or loss.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(6) Derivative financial instruments, including hedge accounting, Continued

(ii) Separable embedded derivatives

Embedded derivatives are separated from the host contract and accounted for separately only if the following criteria have been met:

- (a) the economic characteristics and risks of the embedded derivative are not closely related to those of the host contract;
- (b) a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and
- (c) the hybrid (combined) instrument is not measured at fair value with changes in fair value recognized in profit or loss.

Changes in the fair value of separable embedded derivatives are recognized immediately in profit or loss.

(iii) Other derivative financial instruments

Changes in the fair value of other derivative financial instrument not designated as a hedging instrument are recognized immediately in profit or loss.

(7) Impairment of financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably. However, losses expected as a result of future events, regardless of likelihood, are not recognized.

Objective evidence that a financial asset is impaired includes following loss events:

significant financial difficulty of the issuer or obligor;

a breach of contract, such as default or delinquency in interest or principal payments;

the lender, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;

it becoming probable that the borrower will enter bankruptcy or other financial reorganization;

the disappearance of an active market for that financial asset because of financial difficulties; or

observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group

In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(7) Impairment of financial assets, Continued

If financial assets have objective evidence that they are impaired, impairment losses are measured and recognized.

(i) Financial assets measured at amortized cost

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of its estimated future cash flows discounted at the asset's original effective interest rate. The Group can recognize impairment losses directly or by establishing an allowance account. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor's credit rating), the previously recognized impairment loss is reversed either directly or by adjusting an allowance account.

(ii) Financial assets carried at cost

If there is objective evidence that an impairment loss has occurred on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed.

(iii) Available-for-sale financial assets

When a decline in the fair value of an available-for-sale financial asset has been recognized in other comprehensive income and there is objective evidence that the asset is impaired, the cumulative loss that had been recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment even though the financial asset has not been derecognized. Impairment losses recognized in profit or loss for an investment in an equity instrument classified as available-for-sale is not reversed through profit or loss subsequently. If, in a subsequent period, the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss is reversed, with the amount of the reversal recognized in profit or loss.

(8) Property and equipment

Property and equipment are initially measured at cost. The cost of property and equipment includes expenditures arising directly from the construction or acquisition of the asset, any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

**Table of Contents****3. Significant Accounting Policies, Continued****(8) Property and equipment, Continued**

Subsequent to initial recognition, an item of property and equipment is carried at its cost less any accumulated depreciation and any accumulated impairment losses.

Subsequent costs are recognized in the carrying amount of property and equipment at cost or, if appropriate, as a separate item if it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing are recognized in profit or loss as incurred.

Property and equipment, except for land, are depreciated on a straight-line basis over estimated useful lives that appropriately reflect the pattern in which the asset's future economic benefits are expected to be consumed. A component that is significant compared to the total cost of property and equipment is depreciated over its separate useful life.

Gains and losses on disposal of an item of property and equipment are determined by comparing the proceeds from disposal with the carrying amount of property and equipment and are recognized as other non-operating income (loss).

The estimated useful lives of the Group's property and equipment are as follows:

|                              | Useful lives (years) |
|------------------------------|----------------------|
| Buildings and structures     | 15 ~ 40              |
| Machinery                    | 3 ~ 15               |
| Other property and equipment | 4 ~ 10               |

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting date and adjusted, if appropriate. The change is accounted for as a change in accounting estimate.

**(9) Borrowing costs**

The Group capitalizes borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset. Other borrowing costs are recognized in expense as incurred. A qualifying asset is an asset that requires a substantial period of time to get ready for its intended use or sale. Financial assets are not qualifying assets. Assets that are ready for their intended use or sale when acquired are not qualifying assets.

To the extent that the Group borrows funds specifically for the purpose of obtaining a qualifying asset, the Group determines the amount of borrowing costs eligible for capitalization as the actual borrowing costs incurred on that borrowing during the period less any investment income on the temporary investment of those borrowings. To the extent that the Group borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the Group determines the amount of borrowing costs eligible for capitalization by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the

borrowings of the Group that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs that the Group capitalizes during a period do not exceed the amount of borrowing costs incurred during that period.

**Table of Contents****3. Significant Accounting Policies, Continued****(10) Intangible assets**

Intangible assets are measured initially at cost and, subsequently, are carried at cost less accumulated amortization and accumulated impairment losses.

Amortization of intangible assets except for goodwill is calculated on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use. The residual value of intangible assets is zero. However, club memberships are expected to be available for use as there are no foreseeable limits to the periods. This intangible asset is determined as having indefinite useful lives and not amortized.

The estimated useful lives of the Group's intangible assets are as follows:

|                        | Useful lives (years) |
|------------------------|----------------------|
| Frequency usage rights | 5 ~ 13.1             |
| Land usage rights      | 5                    |
| Industrial rights      | 5, 10                |
| Development costs      | 5                    |
| Facility usage rights  | 10, 20               |
| Customer relations     | 3 ~ 7                |
| Other                  | 3 ~ 20               |

Amortization periods and the amortization methods for intangible assets with finite useful lives are reviewed at the end of each reporting period. The useful lives of intangible assets that are not being amortized are reviewed at the end of each reporting period to determine whether events and circumstances continue to support indefinite useful life assessments for those assets. Changes are accounted for as changes in accounting estimates.

Expenditures on research activities are recognized in profit or loss as incurred. Development expenditures are capitalized only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends to and has sufficient resources to complete development and to use or sell the asset. Other development expenditures are recognized in profit or loss as incurred.

Subsequent expenditures are capitalized only when they increase the future economic benefits embodied in the specific asset to which it relates. All other expenditures, including expenditures on internally generated goodwill and brands, are recognized in profit or loss as incurred.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(11) Government grants

Government grants are not recognized unless there is reasonable assurance that the Group will comply with the grant's conditions and that the grant will be received.

(i) Grants related to assets

Government grants whose primary condition is that the Group purchases, constructs or otherwise acquires a long-term asset are deducted in calculating the carrying amount of the asset. The grant is recognized in profit or loss over the life of a depreciable asset as a reduction to depreciation expense.

(ii) Grants related to income

Government grants which are intended to compensate the Group for expenses incurred are deducted from the related expenses.

(12) Investment property

Property held for the purpose of earning rentals or benefiting from capital appreciation is classified as investment property. Investment property is initially measured at its cost. Transaction costs are included in the initial measurement. Subsequently, investment property is carried at depreciated cost less any accumulated impairment losses.

Subsequent costs are recognized in the carrying amount of investment property at cost or, if appropriate, as a separate item if it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing are recognized in profit or loss as incurred.

Investment property except for land, are depreciated on a straight-line basis over 15~40 years as estimated useful lives.

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting date and adjusted, if appropriate. The change is accounted for as a change in an accounting estimate.

(13) Impairment of non-financial assets

The carrying amounts of the Group's non-financial assets, other than assets arising from employee benefits, inventories, deferred tax assets and non-current assets held for sale, are reviewed at the end of the reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill and intangible assets that have indefinite useful lives or that are not yet available for use, irrespective of whether there is any indication of impairment, are tested for impairment annually by comparing their recoverable amount to their carrying amount.

---

**Table of Contents****3. Significant Accounting Policies, Continued****(13) Impairment of non-financial assets, Continued**

The Group estimates the recoverable amount of an individual asset, if it is impossible to measure the individual recoverable amount of an asset, then the Group estimates the recoverable amount of cash-generating unit ( CGU ). A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. The value in use is estimated by applying a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU for which estimated future cash flows have not been adjusted, to the estimated future cash flows expected to be generated by the asset or CGU.

An impairment loss is recognized in profit or loss to the extent the carrying amount of the asset exceeds its recoverable amount.

Goodwill acquired in a business combination is allocated to each CGU that is expected to benefit from the synergies arising from the business acquired. Any impairment identified at the CGU level will first reduce the carrying value of goodwill and then be used to reduce the carrying amount of the other assets in the CGU on a pro rata basis. Except for impairment losses in respect of goodwill which are never reversed, an impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

**(14) Leases**

The Group classifies and accounts for leases as either a finance or operating lease, depending on the terms. Leases where the Group assumes substantially all of the risks and rewards of ownership are classified as finance leases. All other leases are classified as operating leases.

**(i) Finance leases**

At the commencement of the lease term, the Group recognizes as finance assets and finance liabilities in its consolidated statements of financial position, the lower amount of the fair value of the leased property and the present value of the minimum lease payments, each determined at the inception of the lease. Any initial direct costs are added to the amount recognized as an asset.

Minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rents are charged as expenses in the periods in which they are incurred.

The depreciable amount of a leased asset is allocated to each accounting period during the period of expected use on a systematic basis consistent with the depreciation policy the Group adopts for depreciable assets that are owned. If

there is no reasonable certainty that the Group will obtain ownership by the end of the lease term, the asset is fully depreciated over the shorter of the lease term and its useful life. The Group reviews to determine whether the leased assets are impaired.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(14) Leases, Continued

(ii) Operating leases

Leases where the lessor retains a significant portion of the risks and rewards of ownership are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are recognized in profit or loss on a straight-line basis over the period of the lease.

(iii) Determining whether an arrangement contains a lease

Determining whether an arrangement is, or contains, a lease is based on the substance of the arrangement and requires an assessment of whether fulfillment of the arrangement is dependent on the use of a specific asset and the arrangement conveys a right to use the asset.

At inception or reassessment of the arrangement, the Group separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values. If the Group concludes for a financial lease that it is impracticable to separate the payments reliably, the Group recognizes an asset and a liability at an amount equal to the fair value of the underlying asset that was identified as the subject of the lease. Subsequently, the liability is reduced as payments are made and an imputed finance charge on the liability is recognized using the Group's incremental borrowing rate of interest.

(15) Non-current assets held for sale

Non-current assets, or disposal groups comprising assets and liabilities, that are expected to be recovered primarily through sale rather than through continuing use, are classified as held for sale. In order to be classified as held for sale, the asset (or disposal group) must be available for immediate sale in its present condition and its sale must be highly probable. The assets or disposal group that are classified as non-current assets held for sale are measured at the lower of their carrying amount and fair value less cost to sell. The Group recognizes an impairment loss for any initial or subsequent write-down of an asset (or disposal group) to fair value less costs to sell, and a gain for any subsequent increase in fair value less costs to sell, up to the cumulative impairment loss previously recognized in accordance with K-IFRS No. 1036, *Impairment of Assets*.

A non-current asset that is classified as held for sale or part of a disposal group classified as held for sale is not depreciated (or amortized).

(16) Non-derivative financial liabilities

The Group classifies non-derivative financial liabilities into financial liabilities at fair value through profit or loss or other financial liabilities in accordance with the substance of the contractual arrangement. The Group recognizes financial liabilities in the consolidated statement of financial position when the Group becomes a party to the contractual provisions of the financial liability.

(i) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading or designated as such upon initial recognition. Subsequent to initial recognition, financial liabilities at fair value through profit or loss are measured at fair value, and changes therein are recognized in profit or loss. Upon initial recognition, transaction costs that are directly attributable to the issue of the financial liability are recognized in profit or loss as incurred.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(16) Non-derivative financial liabilities, Continued

(ii) Other financial liabilities

Non-derivative financial liabilities other than financial liabilities at fair value through profit or loss are classified as other financial liabilities. At the date of initial recognition, other financial liabilities are measured at fair value minus transaction costs that are directly attributable to the issue of the financial liability. Subsequent to initial recognition, other financial liabilities are measured at amortized cost using the effective interest method.

The Group derecognizes a financial liability from the consolidated statement of financial position when it is extinguished (i.e. when the obligation specified in the contract is discharged, cancelled or expires).

(17) Employee benefits

(i) Short-term employee benefits

Short-term employee benefits are employee benefits that are due to be settled within 12 months after the end of the period in which the employees render the related service. When an employee has rendered service to the Group during an accounting period, the Group recognizes the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service.

(ii) Other long-term employee benefits

Other long-term employee benefits include employee benefits that are settled beyond 12 months after the end of the period in which the employees render the related service. The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognized in profit or loss in the period in which they arise.

(iii) Retirement benefits: defined contribution plans

When an employee has rendered service to the Group during a period, the Group recognizes the contribution payable to a defined contribution plan in exchange for that service as a liability (accrued expense), after deducting any contribution already paid. If the contribution already paid exceeds the contribution due for service before the end of the reporting period, the Group recognizes that excess as an asset (prepaid expense) to the extent that the prepayment will lead to a reduction in future payments or a cash refund.

(iv) Retirement benefits: defined benefit plans

At the end of reporting period, defined benefits liabilities relating to defined benefit plans are recognized at present value of defined benefit obligations net of fair value of plan assets.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(17) Employee benefits, Continued

The calculation is performed annually by an independent actuary using the projected unit credit method. When the fair value of plan assets exceeds the present value of the defined benefit obligation, the Group recognizes an asset, to the extent of the present value of any economic benefits available in the form of refunds from the plan or reduction in the future contributions to the plan.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income. The Group determines net interests on net defined benefit liability (asset) by multiplying discount rate determined at the beginning of the annual reporting period and considers changes in net defined benefit liability (asset) from contributions and benefit payments. Net interest costs and other costs relating to the defined benefit plan are recognized through profit or loss.

When the plan amendment or curtailment occurs, gains or losses on amendment or curtailment in benefits for the past service provided are recognized through profit or loss. The Group recognizes gain or loss on a settlement when the settlement of defined benefit plan occurs.

(v) Termination benefits

The Group recognizes a liability and expense for termination benefits at the earlier of the period when the Group can no longer withdraw the offer of those benefits and the period when the Group recognizes costs for a restructuring that involves the payment of termination benefits. If benefits are payable more than 12 months after the reporting period, they are discounted to their present value.

(18) Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The risks and uncertainties that inevitably surround many events and circumstances are taken into account in reaching the best estimate of a provision. Where the effect of the time value of money is material, provisions are determined at the present value of the expected future cash flows.

Where some or all of the expenditures required to settle a provision are expected to be reimbursed by another party, the reimbursement is recognized when, and only when, it is virtually certain that reimbursement will be received if the entity settles the obligation. The reimbursement is treated as a separate asset.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimates. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

A provision is used only for expenditures for which the provision was originally recognized.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(19) Transactions in foreign currencies

(i) Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of Group at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated to the functional currency using the reporting date's exchange rate. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined.

Foreign currency differences arising on retranslation are recognized in profit or loss, except for differences arising on the retranslation of available-for-sale equity instruments.

(ii) Foreign operations

If the presentation currency of the Group is different from a foreign operation's functional currency, the financial statements of the foreign operation are translated into the presentation currency using the following methods:

The assets and liabilities of foreign operations, whose functional currency is not the currency of a hyperinflationary economy, are translated to presentation currency at exchange rates at the reporting date. The income and expenses of foreign operations are translated to functional currency at exchange rates at the dates of the transactions. Foreign currency differences are recognized in other comprehensive income.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition of that foreign operation is treated as assets and liabilities of the foreign operation. Thus they are expressed in the functional currency of the foreign operation and translated at the closing rate at the reporting date.

When a foreign operation is disposed of, the relevant amount in the translation is transferred to profit or loss as part of the profit or loss on disposal. On the partial disposal of a subsidiary that includes a foreign operation, the relevant proportion of such cumulative amount is reattributed to non-controlling interest. In any other partial disposal of a foreign operation, the relevant proportion is reclassified to profit or loss.

(20) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

When the Group repurchases its own shares, the amount of the consideration paid is recognized as a deduction from equity and classified as treasury shares. The profits or losses from the purchase, disposal, reissue, or retirement of treasury shares are directly recognized in equity being as transaction with owners

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(21) Hybrid bond

The Group recognizes a financial instrument issued by the Group as an equity instrument if it does not include contractual obligation to deliver financial assets including cash to the counter party.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(22) Revenue

Revenue from the sale of goods, rendering of services or use of the Group assets is measured at the fair value of the consideration received or receivable. Returns, trade discounts and volume rebates are recognized as a reduction of revenue.

When two or more revenue generating activities or deliverables are sold under a single arrangement, each deliverable that is considered to be a separate unit of account is accounted for separately. The allocation of consideration from a revenue arrangement to its separate units of account is based on the relative fair values of each unit.

(i) Services rendered

Revenue from cellular services consists of revenue from basic charges, voice charges, data charges, data-roaming services and interconnection charges. Such revenues are recognized as services are performed. Revenues received for the activation of service are deferred and recognized over the average customer retention period.

Revenue from fixed-line services includes domestic and long-distance call charges, international phone connection charges, and broadband internet services. Such revenues are recognized as the related services are performed.

Revenue from other services rendered is recognized in profit or loss in proportion to the stage of completion of the transaction at the reporting date. The stage of completion is assessed by reference to surveys of work performed.

(ii) Goods sold

Revenue is recognized when persuasive evidence exists, usually in the form of an executed sales agreement, that the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably.

(iii) Customer loyalty programmes

For customer loyalty programmes, the fair value of the consideration received or receivable in respect of the initial sale is allocated between the award credits and the other components of the sale. The amount allocated to the award credits is estimated by reference to the fair value of the services to be provided with respect to the redeemable award credits. The fair value of the services to be provided with respect to the redeemable portion of the award credits granted to the customers in accordance with customer loyalty programmes is estimated taking into account the expected redemption rate and timing of the expected redemption. Considerations allocated to the award credits are deferred and revenue is recognized when the award credits are recovered and the Group performs its obligation to provide the service. The amount of revenue recognized is based on the relative size of the total award credits that are expected to be redeemed and the redeemed award credits in exchange for services.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(23) Finance income and finance costs

Finance income comprises interest income on funds invested (including available-for-sale financial assets), dividend income, gains on disposal of available-for-sale financial assets, changes in fair value of financial assets at fair value through profit or loss, and gains on hedging instruments that are recognized in profit or loss. Interest income is recognized as it accrues in profit or loss, using the effective interest rate method. Dividend income is recognized in profit or loss on the date that the Group's right to receive payment is established.

Finance costs comprise interest expense on borrowings, unwinding of the discount on provisions, changes in fair value of financial assets at fair value through profit or loss, and losses on hedging instruments that are recognized in profit or loss. Interest expense on borrowings and debentures are recognized in profit or loss using the effective interest rate method.

(24) Income taxes

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in profit or loss except to the extent that it relates to a business combination, or items recognized directly in equity or in other comprehensive income.

(i) Current tax

Current tax is the expected tax payable or receivable on the taxable profit or loss for the year, using tax rates enacted or substantively enacted at the end of the reporting period and any adjustment to tax payable in respect of previous years. The taxable profit is different from the accounting profit for the period since the taxable profit is calculated excluding the temporary differences, which will be taxable or deductible in determining taxable profit (tax loss) of future periods, and non-taxable or non-deductible items from the accounting profit.

(ii) Deferred tax

Deferred tax is recognized, using the asset-liability method, in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The Group recognizes a deferred tax liability for all taxable temporary differences, except for the difference associated with investments in subsidiaries and associates that the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. The Group recognizes a deferred tax asset for all deductible temporary differences to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilized.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(24) Income taxes, Continued

(ii) Deferred tax, Continued

The Group reviews the carrying amount of a deferred tax asset at the end of each reporting period and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and deferred tax assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if there is a legally enforceable right to offset the related current tax liabilities and assets, and they relate to income taxes levied by the same tax authority and they are intended to be settled current tax liabilities and assets on a net basis. Income tax expense in relation to dividend payments is recognized when liabilities relating to the dividend payments are recognized.

(25) Earnings per share

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Parent Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares, which comprise convertible notes and share options granted to employees, if any.

(26) Standards issued but not yet effective

The following new standards are effective for annual periods beginning after January 1, 2016 and earlier application is permitted; however, the Group has not early adopted the following new standards in preparing these financial statements.

1) K-IFRS No. 1109, *Financial Instruments*

K-IFRS No. 1109, published on September 25, 2015 which will replace the K-IFRS No. 1039 *Financial Instruments: Recognition and Measurement*, is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Group currently plans to apply K-IFRS No.1109 in the period beginning on January 1, 2018.

Adoption of K-IFRS No. 1109 will generally be applied retrospectively, except for the following:

exemption allowing the Group not to restate comparative information for prior periods with respect to classification and measurement (including impairment) changes; and

Prospective application of new hedge accounting except for those specified in K-IFRS 1109 for retrospective application such as accounting for the time value of options and the forward element of forward contracts.

**Table of Contents****3. Significant Accounting Policies, Continued**

(26) Standards issued but not yet effective, Continued

1) K-IFRS No. 1109, *Financial Instruments*, Continued

Key features of K-IFRS No. 1109 includes new classification and measurement approach for financial assets that reflects the business model in which assets are managed and their cash flow characteristics, impairment model based on changes in expected credit losses, and new approach to hedge qualification and methods for assessing hedge effectiveness.

To ensure smooth implementation of K-IFRS No.1109, the Group needs to assess the financial impact of adopting K-IFRS No. 1109, to formulate the accounting policy, and to design, implement and enhance the accounting system and related controls. The expected quantitative impact of adopting K-IFRS No. 1109 on the Group's financial statements cannot be reliably estimated because it will be dependent on the financial instruments that the Group holds and economic conditions at that time as well as accounting elections and judgments that it will make in the future.

The Group plans to change the accounting process and internal control and to assess the financial impact on its consolidated financial statements resulting from the adoption of K-IFRS No. 1109 by December 31, 2017. Qualitative impacts on consolidated financial statements upon adoption of K-IFRS No. 1109 are as follows:

## i) Classification and measurement of financial assets

Classification of for financial assets under K-IFRS No. 1109 is driven by the entity's business model for managing financial assets and their contractual cash flows. This contains three principal classification categories: financial assets measured at amortized cost, fair value through other comprehensive income (FVOCI) and fair value through profit or loss (FVTPL). Derivatives embedded in contracts where the host is a financial asset are never bifurcated. Instead, the hybrid financial instrument as a whole is assessed for classification. Details of the classification based on business models and contractual cash flows are as follows:

| <b>Business model assessment</b>                                 | <b>Contractual cash flow characteristics</b>     |                                   |
|--|--|-----------------------------------|
|  | <b>Solely payments of principal and interest</b> | <b>Others</b>                     |
| Hold to collect contractual cash flows                           | Amortized cost(*1)                               |                                   |
| Hold to collect contractual cash flows and sell financial assets | FVOCI- measured at fair value (*1)               | FVTPL-measured at fair value (*2) |
| Hold to sell financial assets and others                         | FVTPL-measured at fair value                     |                                   |

(\*1) To eliminate or significantly reduce the accounting mismatch, the Group may irrevocably designate a financial asset as measured at FVTPL using the fair value option at initial recognition.

(\*2) Equity instruments that are not held for trading may be irrevocably designated as FVOCI using the fair value option.

**Table of Contents****3. Significant Accounting Policies, Continued**

(26) Standards issued but not yet effective, Continued

1) K-IFRS No. 1109, *Financial Instruments*, Continued

i) Classification and measurement of financial assets, Continued

As new classification requirements for financial assets under K-IFRS No. 1109 are more stringent than requirements under K-IFRS No. 1039, the adoption of the new standard may result in increase in financial assets designated as FVTPL and higher volatility in profit or loss of the Group. As of December 31, 2016, the Group's financial assets consist of ₩5,937,507 million of loans and receivables, ₩935,885 million of available-for-sale financial assets, and ₩7,368 million of financial assets at fair value through profit or loss.

A financial asset is measured at amortized cost under K-IFRS No. 1109 if the asset is held by the Group to collect its contractual cash flows and the asset's contractual cash flows represent solely payments of principal and interest. As of December 31, 2016, the Group has ₩5,937,507 million of loans and receivables measured at amortized cost.

A financial asset is measured at FVOCI under K-IFRS No. 1109 if the objective of the business model is achieved both by collecting contractual cash flows and selling financial assets; and the asset's contractual cash flows represent solely payments of principal and interest. As of December 31, 2016, the Group has ₩6,755 million of debt instruments classified as available-for-sale financial assets.

Under K-IFRS No. 1109, equity instruments that are not held for trading may be irrevocably designated as FVOCI on initial recognition with no recycling of amounts from OCI to profit and loss. As of December 31, 2016, the Group has ₩929,130 million of available-for-sale equity instruments; and unrealized valuation gain from available-for-sale equity instruments amounting to ₩296,027 million is recycled from OCI to profit or loss during the year ended December 31, 2016.

All other financial assets are measured at FVTPL. As of December 31, 2016, the Group has no debt and equity instruments designated as FVTPL using the fair value option.

ii) Classification and measurement of financial liabilities

Under K-IFRS No. 1109, for the financial liabilities designated as FVTPL using the fair value option, the element of gains or losses attributable to changes in the own credit risk should normally be recognized in OCI, with the remainder recognized in profit or loss. These amounts recognized in OCI are not recycled to profit or loss even when the liability is derecognized. However, if presentation of the fair value change in respect of the liability's credit risk in OCI results in or enlarges an accounting mismatch in profit or loss, gains and losses are entirely presented in profit or loss.

Adoption of K-IFRS 1109 may result in decrease in profit or loss, since the amount of fair value changes that is attributable to changes in the credit risk of the liability will be presented in OCI.

As of December 31, 2016, the Group's total financial liability amounts to ~~₩~~12,702,059 million, among which the financial liabilities designated as FVTPL using fair value option amount to ~~₩~~59,600 million. Changes in fair value on financial liabilities designated as FVTPL using fair value option amounting to ~~₩~~4,018 million was recognized as loss during the year ended December 31, 2016.

1) K-IFRS No. 1109, *Financial Instruments*, Continued

iii) Impairment: financial assets and contract assets

The current impairment requirements under K-IFRS No. 1039 are based on an incurred loss model, where the impairment exists if there is objective evidence as a result of one or more events that occurred after the initial recognition of an asset. However, K-IFRS No. 1109 replaces the incurred loss model in K-IFRS No. 1039 with an expected credit loss model which applies to debt instruments measured at amortized cost or at fair value through other comprehensive income.

Under K-IFRS No. 1109, the Group should recognize a loss allowance or provision at an amount equal to 12-month expected credit losses or lifetime expected credit losses for financial assets determined by the extent of probable credit deterioration since initial recognition as explained below. Therefore, the new impairment requirements are expected to result in earlier recognition of credit losses compared to the incurred loss model of K-IFRS No. 1039.

|         | <b>Stages (*1)</b>  | <b>Loss allowances</b>   |
|---------|---|--|
| Stage 1 | No significant increase in credit risk since initial recognition (*2) | Loss allowances are determined for the amount of the expected credit losses that result from default events that are possible within 12 months after the reporting date.     |
| Stage 2 | Significant increase in credit risk since initial recognition         | Loss allowances are determined for the amount of the expected credit losses that result from all possible default events over the expected life of the financial instrument. |
| Stage 3 | Objective evidence of credit risk impairment                          |  |

(\*1) Under K-IFRS No. 1115, *Revenue from Contracts with Customers* (see note 3 (26) (2)), for trade receivables and contract assets arising with no significant credit risk, loss allowances are recognized at an amount equal to lifetime expected credit losses. However, for trade receivables and contract assets with a significant financing component arising under K-IFRS No. 1115, the Group may choose as its accounting policy to recognize loss allowances at an amount equal to lifetime expected credit losses. In addition, for receivables under lease arrangement, the Group may choose to recognize loss allowances at an amount equal to lifetime expected credit losses.

(\*2) The Group may determine that a financial asset's credit risk has not increased significantly if the asset has low credit risk at the reporting date.

K-IFRS No. 1109 allows the Group to only recognize the cumulative changes in lifetime expected credit losses since initial recognition as a loss allowance for purchased or originated credit-impaired financial assets at the reporting date.

As of December 31, 2016, the Group has ₩5,937,507 million of debt instrument financial assets measured at amortized cost and ₩369,332 million as loss allowances for these assets.

1) K-IFRS No. 1109, *Financial Instruments*, Continued

iv) Hedge accounting

K-IFRS No. 1109 maintains the mechanics of hedge accounting from those in K-IFRS No. 1039. However, K-IFRS No. 1109 replaces existing rule-based requirements under K-IFRS No. 1039 that are complex and difficult to apply with principle based requirement focusing more on the Group's risk management purposes and procedures. Under K-IFRS No. 1109, more hedging instruments and hedged items are permitted and 80%-125% effectiveness requirement is removed.

By complying with the hedging rules in K-IFRS No. 1109, the Group may apply hedge accounting for transactions that currently do not meet the hedging criteria under K-IFRS No. 1039 thereby reducing volatility in profit or loss. As of December 31, 2016, the Group recognized the total amount of ₩2,782,026 million as hedged liabilities that applied hedge accounting and changes in fair value of cash flow hedge in the amount of ₩96,418 million was recognized in OCI for the year ended December 31, 2016.

Upon initial application of K-IFRS No. 1109, the Group may choose as its accounting policy to continue to apply hedge accounting requirements under K-IFRS No. 1039 instead of the requirements in K-IFRS No. 1109. The Group is still in the process of evaluating whether to make such accounting policy election upon adoption date.

2) K-IFRS No. 1115, *Revenue from Contracts with Customers*

K-IFRS No. 1115, *Revenue from Contracts with Customers*, published on November 6, 2015 is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted. It replaces existing revenue recognition guidance, including K-IFRS No. 1018, *Revenue*, K-IFRS No. 1011, *Construction Contracts*, K-IFRS No. 2031, *Revenue: Barter Transactions Involving Advertising Services*, K-IFRS No. 2113, *Customer Loyalty Programmes*, K-IFRS No. 2115, *Agreements for the Construction of Real Estate*, and K-IFRS No. 2118, *Transfers of Assets from Customers*. The Group plans to adopt K-IFRS No. 1115 on January 1, 2018. In accordance with the requirements in K-IFRS No. 1008, *Accounting Policies, Changes in Accounting Estimates and Errors* and the transition guidance in K-IFRS No. 1115, the Group is considering to adopt K-IFRS No. 1115 using the retrospective approach.

K-IFRS No. 1018 provides separate revenue recognition criteria by transaction type which include sale of goods, rendering of services, and use of entity assets by others yielding interest, royalties and dividends. However, K-IFRS No. 1115 introduces a five-step model for revenue recognition that focuses on the transfer of control rather than the transfer of risks and rewards. The steps in five-step model are as follows:

identification of the contract with a customer;

identification of the performance obligations in the contract;

determination of the transaction price;

allocation of the transaction price to the performance obligations in the contract; and

recognition of revenue when (or as) the entity satisfies a performance obligation.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(26) Standards issued but not yet effective, Continued

2) K-IFRS No. 1115, Revenue from Contracts with Customers, Continued

As of December 31, 2016, the Group has not yet changed its accounting process and internal controls related to revenue recognition.

The Group plans to change the accounting process and internal control and to assess the financial impact on its consolidated financial statements resulting from the adoption of K-IFRS No. 1115 by December 31, 2017. The impact of accounting changes on its consolidated financial statements that may arise from the adoption of K-IFRS No. 1115 is expected to include the following:

i) Identification of the separate performance obligations in the contract

A substantial portion of the Group's revenues are generated from provision of wireless telecommunications services. K-IFRS No. 1115 requires the Group to evaluate goods or services promised to customers to determine if they are performance obligations other than wireless telecommunications service that should be accounted for separately. The amount and timing of revenue recognition under K-IFRS No. 1105 may be different from those under K-IFRS No. 1018 depending on the conclusion over the existence of separately identifiable performance obligations and the timing of satisfying each performance obligation.

ii) Allocate the transaction price to the separate performance obligations

In accordance with K-IFRS No. 1115, the Group should allocate the transaction price to each performance obligation in a contract in proportion to their stand-alone selling price. The Group plans to use adjusted market assessment method for estimating the stand-alone selling price. However, in some circumstances, expected cost plus a margin approach will be used.

iii) Incremental costs to acquire a contract

The Group has exclusive contracts with its sales agents to sell the Group's wireless telecommunications services to subscribers. These agents receive commissions depending on the number of subscribers newly added and retained. The commissions paid to the agents constitute a significant portion of the Group's operating expenses. Currently, the portion of these commissions that would not have been incurred if there have been no binding contracts with the subscribers are expensed.

Under K-IFRS 1115, incremental costs to acquire a contract and certain costs to fulfill a contract are capitalized and amortized over the period the goods and services are delivered. However, as a practical expedient, the Group plans to expense the incremental cost as incurred if the amortization period of the contract acquisition and fulfillment cost is considered to be not longer than one year.

**Table of Contents****4. Operating Segments**

The Group's operating segments have been identified to be each business unit, by which the Group provides independent services and merchandise. The Group's reportable segments are cellular services, which include cellular voice service, wireless data service and wireless internet services; fixed-line telecommunication services, which include telephone services, internet services, and leased line services; e-commerce services, which include online commerce services; and all other businesses, which include the Group's internet portal services and other immaterial operations, each of which does not meet the quantitative threshold to be considered as a reportable segment and are presented collectively as others.

Since there are no intersegment sales of inventory or depreciable assets, there is no unrealized intersegment profit to be eliminated on consolidation. The Group principally operates its businesses in Korea and the revenue amounts earned outside of Korea are immaterial. Therefore, no entity-wide geographical information is presented.

No single customer contributed 10% or more to the Group's total revenue for the years ended December 31, 2016 and 2015.

**Table of Contents****5. Restricted Deposits**

Deposits which are restricted in use as of December 31, 2016 and 2015 are summarized as follows:

(\*1) Net assets of these entities represent net assets excluding those attributable to their non-controlling interests.

(\*2) The ownership interest is based on the number of shares owned by the Parent Company as divided by the total shares issued by the investee company. The Group applied the equity method using the effective ownership interest of 20.69% which is based on the number of shares owned by the Parent Company and the total issued shares outstanding less investee's treasury shares.

**13. Goodwill**

- (1) Goodwill as of December 31, 2016 and 2015 are as follows:

*(In millions of won)*

|   | <b>December<br/>31,<br/>2016</b> | <b>December 31,<br/>2015</b> |
|---|----------------------------------|------------------------------|
| Goodwill related to acquisition of Shinsegi Telecom, Inc. | ₩ 1,306,236                      | 1,306,236                    |
| Goodwill related to acquisition of SK Broadband Co., Ltd. | 358,443                          | 358,443                      |
| Other goodwill  | 267,773                          | 243,911                      |
|   | ₩ 1,932,452                      | 1,908,590                    |

Goodwill is allocated to the following CGUs for the purpose of impairment testing.

goodwill related to Shinsegi Telecom, Inc.(\*1): cellular services;

goodwill related to SK Broadband Co., Ltd.(\*2): fixed-line telecommunication services; and

other goodwill: other.

(\*1) Goodwill related to acquisition of Shinsegi Telecom, Inc.

The recoverable amount of the CGU is based on its value in use calculated by applying the annual discount rate of 4.9% to the estimated future cash flows based on financial budgets for the next five years. An annual growth rate of 0.3% was applied for the cash flows expected to be incurred after five years and is not expected to exceed the Group's

long-term wireless telecommunication business growth rate. Management of the Group does not expect the total carrying amount of the CGU will exceed the total recoverable amount due to reasonably possible changes from the major assumptions used to estimate the recoverable amount.

(\*2) Goodwill related to acquisition of SK Broadband Co., Ltd.

The recoverable amount of the CGU is based on its value in use calculated by applying the annual discount rate of 5.0% to the estimated future cash flows based on financial budgets for the next five years. An annual growth rate of 1.0% was applied for the cash flows expected to be incurred after five years and is not expected to exceed the Group's long-term wireless telecommunication business growth rate. Management of the Group does not expect the total carrying amount of the CGU will exceed the total recoverable amount due to reasonably possible changes from the major assumptions used to estimate the recoverable amount.

(\*1) During the year ended December 31, 2016, the Parent Company acquired the frequency right for bandwidth blocs in the 2.6 GHz band for ₩1,330,100 million at the spectrum auction held by the Ministry of Science, ICT and Future Planning (MSIP) of Korea and made the initial payment in accordance with the terms of the agreement in August 2016. The remaining consideration will be paid on an annual installment basis for 10 years from August 2016. In addition, the Parent Company extended frequency usage rights for 2.1 GHz band for ₩568,500 million with the initial payment made to MSIP during the year ended December 31, 2016. The remaining consideration will be paid on an annual installment basis for 5 years from December 2016.

(\*2) Includes reclassification from advance payments and property and equipment.

(\*3) The Group recognized the difference between recoverable amount and the carrying amount of intangible assets, amounting to ₩21,523 million as impairment loss for the year ended December 31, 2016.

- (\*1) In November 2016, SK Broadband Co., Ltd. agreed to refinance these fixed rate borrowings with floating-rate borrowings on January 30, 2017 and entered into a floating-to-fixed interest rate swap agreement to mitigate the interest rate risk that will arise from floating-rate borrowings.
- (\*2) Prior to 2015, the Group obtained long-term borrowings from Export Kreditnamnden, an export credit agency. The long-term borrowings are to be repaid by installments on an annual basis from 2014 to 2022.

(\*1) The Group eliminated a measurement inconsistency of accounting profit or loss between the bonds and related derivatives by designating the structured bonds as financial liabilities at fair value through profit or loss.

The carrying amount of financial liabilities designated at fair value through profit or loss exceeds the principal amount required to pay at maturity by ~~₩~~9,600 million as of December 31, 2016.

(\*2) The principal amount and the fair value of the structured bonds that were designated as financial liabilities at fair value through profit or loss as of December 31, 2015 were ~~₩~~100,000 million and ~~₩~~101,009 million, respectively. The bonds were early redeemed during the year ended December 31, 2016.

(\*3) Unsecured private bonds were issued by SK Broadband Co., Ltd., a subsidiary of the Parent Company.

(\*4) Unsecured private bonds were issued by PS&Marketing Corporation, a subsidiary of the Parent Company.

(\*5) As of December 31, 2016, 3M LIBOR rate is 1.00%.

**Table of Contents****16. Long-term Payables Other**

(1) Long-term payables other as of December 31, 2016 and 2015 are as follows:

*(In millions of won)*

|   | <b>December<br/>31,<br/>2016</b> | <b>December 31,<br/>2015</b> |
|---|----------------------------------|------------------------------|
| Payables related to acquisition of frequency usage rights | ₩ 1,602,943                      | 550,964                      |
| Other(*)  | 21,647                           | 30,733                       |
|   | <b>₩ 1,624,590</b>               | <b>581,697</b>               |

(\*) Other includes other long-term employee compensation liabilities.

(2) As of December 31, 2016 and 2015, details of long-term payables other which consist of payables related to the acquisition of frequency usage rights are as follows (See Note 14):

*(In millions of won)*

|   | <b>December 31, 2016</b> | <b>December 31, 2015</b> |
|---|--------------------------|--------------------------|
| Long-term payables - other                              | ₩ 2,013,122              | 709,888                  |

| Emission allowance                           |                                      | 1,477    |             |          |       |                               | 1,477                   | 1,477   |             |
| Other provisions                             | 562                                  | 3,795    | (510)       | (472)    |       | (271)                         | 3,104                   | 2,943   | 161         |
|  | ₩ 87,088                             | 11,896   | (6,649)     | (23,671) | 1,812 | (271)                         | 70,205                  | 40,988  | 29,217      |

The Group has provided handset subsidy to subscribers who purchase wireless telecommunication services from the Group and recognized a provision for subsidy amounts which the Group has obligations to pay in future periods.

**Table of Contents****18. Leases**

In 2012, the Group disposed a portion of its property and equipment and investment property, and entered into lease agreements with respect to those assets. These sale and leaseback transactions were accounted for as operating leases. The Group entered into operating lease agreements and sublease agreements in relation to rented office space and the expected future lease payments and lease revenues as of December 31, 2016 are as follows:

*(In millions of won)*

|                   | <b>Minimum lease payments</b> | <b>Revenues</b> |
|-------------------|-------------------------------|-----------------|
| Less than 1 year  | ₩ 35,684                      | 1,882           |
| 1~5 years         | 70,766                        | 896             |
| More than 5 years | 17,075                        | 224             |
|                   | ₩ 123,525                     | 3,002           |

**19. Defined Benefit Liabilities(Assets)**

(1) Details of defined benefit liabilities(assets) as of December 31, 2016 and 2015 are as follows:

*(In millions of won)*

|  | <b>December 31, 2016</b> | <b>December 31, 2015</b> |
|--|--------------------------|--------------------------|
| Present value of defined benefit obligations | ₩ 595,667                | 525,269                  |
| Fair value of plan assets                    | (555,175)                | (426,413)                |
| Defined benefit assets(*)                    | (30,247)                 |                          |
| Defined benefit liabilities                  | 70,739                   | 98,856                   |

(\*) Since the Group entities neither have legally enforceable right nor intention to settle the defined benefit obligations of Group entities with defined benefit assets of other Group entities, defined benefit assets of Group entities have been separately presented from defined benefit liabilities.

(2) Principal actuarial assumptions as of December 31, 2016 and 2015 are as follows:

|   | <b>December 31, 2016</b> | <b>December 31, 2015</b> |
|---|--------------------------|--------------------------|
| Discount rate for defined benefit obligations | 1.90~2.96%               | 1.90~2.93%               |
| Expected rate of salary increase              | 2.49~6.09%               | 2.51~7.04%               |

Discount rate for defined benefit obligation is determined based on yield rate of high-quality corporate bonds with similar maturities for estimated payment term of defined benefit obligation. Expected rate of salary increase is determined based on the Group's historical promotion index, inflation rate and salary increase ratio.

**Table of Contents****19. Defined Benefit Liabilities(Assets), Continued**

(3) Changes in defined benefit obligations for the years ended December 31, 2016 and 2015 are as follows:

| Others                           | (6,665)                               | 5,150       |
| Ending balance                   | ₩ 595,667                             | 525,269     |

(4) Changes in plan assets for the years ended December 31, 2016 and 2015 are as follows:

| <i>(In millions of won)</i> | <b>2016</b>       | <b>2015</b> |
|-----------------------------|-------------------|-------------|
|                             | Beginning balance | ₩ 426,413   |
| Interest income             | 9,826             | 9,035       |
| Remeasurement               | (6,320)           | 3,146       |
| Contributions               | 159,687           | 115,640     |
| Benefit paid                | (34,247)          | (47,809)    |
| Others                      | (184)             | 144         |
| Ending balance              | ₩ 555,175         | 426,413     |

The Group expects to make a contribution of ₩121,727 million to the defined benefit plans in 2017.

(5) Total amount of expenses recognized in profit and loss (included in labor in the consolidated statement of income) and capitalized into construction-in-progress for the years ended December 31, 2016 and 2015 are as follows:

| <i>(In millions of won)</i> | <b>2016</b> | <b>2015</b> |
|-----------------------------|-------------|-------------|
| Current service cost        | ₩ 114,528   | 106,764     |

|                   |           |         |
|-------------------|-----------|---------|
| Net interest cost | 3,615     | 3,257   |
|                   | ₩ 118,143 | 110,021 |

The above costs are recognized in labor, research and development, or capitalized into construction-in-progress.

**Table of Contents****19. Defined Benefit Liabilities(Assets), Continued**

(6) Details of plan assets as of December 31, 2016 and 2015 are as follows:

*(In millions of won)*

|  | <b>December 31, 2016</b> | <b>December 31, 2015</b> |

| Short-term financial instruments, etc. | 446,176                  | 343,460                  |
|  | ₩ 555,175                | 426,413                  |

(7) As of December 31, 2016, effects on defined benefit obligations if each of significant actuarial assumptions changes within expectable and reasonable range are as follows:

*(In millions of won)*

|  | <b>Increase</b> | <b>Decrease</b> |
|--|-----------------|-----------------|
| Discount rate (if changed by 0.5%)                 | ₩ (24,168)      | 26,443          |
| Expected salary increase rate (if changed by 0.5%) | 26,410          | (24,408)        |

The sensitivity analysis does not consider dispersion of all cash flows that are expected from the plan and provides approximate values of sensitivity for the assumptions used.

Weighted average durations of defined benefit obligations as of December 31, 2016 and 2015 are 9.10 years and 9.35 years, respectively.

| Nov. 1, 2012          | Fixed-to-fixed cross currency swap (U.S. dollar denominated bonds face value of USD 700,000)                  | Foreign currency risk                        | Standard Chartered and eight other banks | Nov. 1, 2012~ May. 1, 2018    |
| Jan. 17, 2013         | Fixed-to-fixed cross currency swap (Australia dollar denominated bonds face value of AUD 300,000)             | Foreign currency risk                        | BNP Paribas and two other banks          | Jan. 17, 2013 ~ Nov. 17, 2017 |
| Mar. 7, 2013          | Floating-to-fixed cross currency interest rate swap (U.S. dollar denominated bonds face value of USD 300,000) | Foreign currency risk and interest rate risk | DBS bank                                 | Mar. 7, 2013 ~ Mar. 7, 2020   |
| Oct. 29, 2013         | Fixed-to-fixed cross currency swap (U.S. dollar denominated bonds face value of USD 300,000)                  | Foreign currency risk                        | Korea Development Bank and others        | Oct.29, 2013 ~ Oct. 26, 2018  |
| Dec. 16, 2013         | Fixed-to-fixed cross currency swap (U.S. dollar borrowing amounting to USD 63,296)                            | Foreign currency risk                        | Deutsche bank                            | Dec.16, 2013 ~ Apr. 29, 2022  |
| Dec. 20, 2016         | Floating-to-fixed interest rate swap (Korean won borrowing amounting to KRW 49,000)                           | Interest rate risk                           | Korea Development Bank                   | Dec. 20, 2016~ Dec. 20, 2021  |
| Jan. 30, 2017         | Floating-to-fixed interest rate swap(*) (Korean won borrowing amounting to KRW 44,917)                        | Interest rate risk                           | Korea Development Bank                   | Nov. 10, 2016~ Jul. 30, 2019  |

(\*) In November 2016, SK Broadband Co., Ltd. agreed to refinance these fixed rate borrowings with floating-rate borrowings on January 30, 2017 and entered into a floating-to-fixed interest rate swap agreement to mitigate the interest rate risk that will arise from floating-rate borrowings. SK Broadband Co., Ltd. designated interest rate swap as hedging instrument for a highly probable forecasted transaction.

|                                    | ₩ 199,779                | 189,510                  |

(\*1) Prior to 2015, the Parent Company retired shares of treasury shares which reduced its retained earnings before appropriation. As a result, the Parent Company's outstanding shares have decreased without change in share capital.

(\*2) Others primarily consist of the excess of the consideration paid by the Group over the carrying values of net assets acquired from entities under common control.

There were no changes in share capital during the years ended December 31, 2016 and 2015 and details of shares outstanding as of December 31, 2016 and 2015 are as follows:

| <i>(In shares)</i>             | <b>2016</b>              |                            |                               | <b>2015</b>              |                            |                               |

| Private hybrid bonds | Unsecured subordinated bearer bond | June 7, 2013         | June 7, 2073        | 4.21                               | ₩ 400,000     |
| Issuance costs       |                                    |                      |                     |                                    | (1,482)       |
|                      |                                    |                      |                     |                                    | ₩ 398,518     |

Hybrid bonds issued by the Parent Company are classified as equity as there is no contractual obligation for delivery of financial assets to the bond holders. These are subordinated bonds which rank before common stocks in the event of a liquidation or reorganization of the Parent Company.

(\*1) The Parent Company has a right to extend the maturity under the same terms at issuance without any notice or announcement. The Parent Company also has the right to defer interest payment at its sole discretion.

(\*2) Annual interest rate is calculated as yield rate of 5 year national bonds plus premium. According to the step-up clause, additional premium of 0.25% and 0.75%, respectively, after 10 years and 25 years from the issuance date are applied.

**Table of Contents****24. Retained Earnings**

(1) Retained earnings as of December 31, 2016 and 2015 are as follows:

*(In millions of won)*

|   | <b>December 31, 2016</b> | <b>December 31, 2015</b> |

|   | ₩ 15,953,164             | 15,007,627               |

(2) Legal reserve

The Korean Commercial Act requires the Parent Company to appropriate as a legal reserve at least 10% of cash dividends paid for each accounting period until the reserve equals 50% of outstanding share capital. The legal reserve may not be utilized for cash dividends, but may only be used to offset a future deficit, if any, or may be transferred to share capital.

**25. Reserves**

**Table of Contents****30. Earnings per Share**

## (1) Basic earnings per share

1) Basic earnings per share for the years ended December 31, 2016 and 2015 are calculated as follows:

*(In millions of won, shares)*

|   | <b>2016</b> | <b>2015</b> |
|---|-------------|-------------|
| <b>Basic earnings per share attributable to owners of the Parent Company:</b> |             |             |
| Profit attributable to owners of the Parent Company                           | ₩ 1,675,967 | 1,518,604   |
| Interest on hybrid bonds  | (16,840)    | (16,840)    |
| Profit attributable to owners of the Parent Company on common shares          | 1,659,127   | 1,501,764   |
| Weighted average number of common shares outstanding                          | 70,609,160  | 71,551,966  |
| Basic earnings per share (in won)   | ₩ 23,497    | 20,988      |

2) The weighted average number of common shares outstanding for the years ended December 31, 2016 and 2015 are calculated as follows:

*(In shares)*

|   | <b>2016</b>  | <b>2015</b> |
|---|--------------|-------------|
| Issued common shares at January 1                                   | 80,745,711   | 80,745,711  |
| Effect of treasury shares   | (10,136,551) | (9,193,745) |
| Weighted average number of common shares outstanding at December 31 | 70,609,160   | 71,551,966  |

## (2) Diluted earnings per share

For the years ended December 31, 2016 and 2015, there were no potentially dilutive shares. Therefore, diluted earnings per share for the years ended December 31, 2016 and 2015 are the same as basic earnings per share.

**Table of Contents****31. Dividends**

## (1) Details of dividends declared

Details of dividend declared for the years ended December 31, 2016 and 2015 are as follows:

*(In millions of won, except for face value and share data)*

| <b>Year</b> | <b>Dividend type</b>      | <b>Number of shares outstanding</b> | <b>Face value (in won)</b> | <b>Dividend ratio</b> | <b>Dividends</b> |
|-------------|---------------------------|-------------------------------------|----------------------------|-----------------------|------------------|
| 2016        | Cash dividends (interim)  | 70,609,160                          | 500                        | 200%                  | ₩ 70,609         |
|             | Cash dividends (year-end) | 70,609,160                          | 500                        | 1,800%                | 635,482          |
|             |                           |                                     |                            |                       | ₩ 706,091        |
| 2015        | Cash dividends (interim)  | 72,629,160                          | 500                        | 200%                  | ₩ 72,629         |
|             | Cash dividends (year-end) | 70,609,160                          | 500                        | 1,800%                | 635,482          |
|             |                           |                                     |                            |                       | ₩ 708,111        |

## (2) Dividends yield ratio

Dividends yield ratios for the years ended December 31, 2016 and 2015 are as follows:

*(In won)*

| <b>Year</b> | <b>Dividend type</b> | <b>Dividend per share</b> | <b>Closing price at year-end</b> | <b>Dividend yield ratio</b> |
|-------------|----------------------|---------------------------|----------------------------------|-----------------------------|
| 2016        | Cash dividends       | 10,000                    | 224,000                          | 4.46%                       |
| 2015        | Cash dividends       | 10,000                    | 215,500                          | 4.64%                       |

**33. Financial Risk Management****(1) Financial risk management**

The Group is exposed to credit risk, liquidity risk and market risk. Market risk is the risk related to the changes in market prices, such as foreign exchange rates, interest rates and equity prices. The Group implements a risk management system to monitor and manage these specific risks.

The Group's financial assets consist of cash and cash equivalents, financial instruments, available-for-sale financial assets, accounts receivable - trade and other. Financial liabilities consist of accounts payable - trade and other, borrowings, and debentures.

**1) Market risk****(i) Currency risk**

The Group incurs exchange position due to revenue and expenses from its global operations. Major foreign currencies where the currency risk occur are USD, JPY and EUR. The Group determines the currency risk management policy after considering the nature of business and the presence of methods that mitigate the currency risk for each Group entities. Currency risk occurs on forecasted transactions and recognized assets and liabilities which are denominated in a currency other than the functional currency of each Group entity. The Group manages currency risk arising from business transactions by using currency forwards, etc.

## (i) Currency risk, Continued

Monetary assets and liabilities denominated in foreign currencies as of December 31, 2016 are as follows:

*(In millions of won, thousands of foreign currencies)*

|        | Assets             |                | Liabilities        |                |
|--------|--------------------|----------------|--------------------|----------------|
|        | Foreign currencies | Won equivalent | Foreign currencies | Won equivalent |
| USD    | 144,158            | ₩ 174,210      | 1,842,559          | ₩ 2,226,736    |
| EUR    | 14,650             | 18,570         | 24                 | 29             |
| JPY    | 68,014             | 705            | 320                | 3              |
| AUD    |                    |                | 299,532            | 261,207        |
| CHF    |                    |                | 299,806            | 354,170        |
| Others |                    | 429            |                    | 299            |
|        |                    | ₩ 193,914      |                    | ₩ 2,842,444    |

In addition, the Group has entered into cross currency swaps to hedge against currency risk related to foreign currency borrowings and debentures. (Refer to Note 20)

As of December 31, 2016, a hypothetical change in exchange rates by 10% would have increase (reduce) the Group's income before income tax as follows:

*(In millions of won)*

|        | If increased by 10% | If decreased by 10% |
|--------|---------------------|---------------------|
| USD    | ₩ 6,711             | (6,711)             |
| EUR    | 1,854               | (1,854)             |
| JPY    | 70                  | (70)                |
| Others | 13                  | (13)                |
|        | ₩ 8,648             | (8,648)             |

(ii) Equity price risk

The Group has listed and non-listed equity securities for its liquidity management and operating purpose. As of December 31, 2016, available-for-sale equity instruments measured at fair value amount to ₩741,285 million.

(iii) Interest rate risk

The interest rate risk of the Group arises from borrowings and debenture. Since the Group's interest bearing assets are mostly fixed-interest bearing assets, the Group's revenue and operating cash flows are not influenced by the changes in market interest rates.

Accordingly, the Group performs various analysis of interest rate risk to reduce interest rate risk and to optimize its financing. To minimize risks arising from changes in interest rates, the Group takes various measures such as refinancing, renewal, alternative financing and hedging.

**Table of Contents****33. Financial Risk Management, Continued**

## (1) Financial risk management, Continued

## 1) Market risk, Continued

## (iii) Interest rate risk, Continued

As of December 31, 2016, the floating-rate borrowings and bonds of the Group are ₩53,083 million and ₩362,550 million, respectively, and the Group has entered into interest rate swap agreements, as described in Note 20, for all floating-rate bonds to hedge the interest rate risk.

If the interest rate increases (decreases) 1% with all other variables held constant, income before income taxes for the year ended December 31, 2016, would change by ₩41 million due to the interest expense on floating-rate borrowings that are exposed to interest rate risk.

## 2) Credit risk

The maximum credit exposure as of December 31, 2016 and 2015 are as follows:

*(In millions of won)*

|                                     | <b>2016</b>       | <b>2015</b>      |
|-------------------------------------|-------------------|------------------|

|                                     | <b>₩6,158,872</b> | <b>5,132,849</b> |

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet his/her contractual obligations.

To manage credit risk, the Group evaluates the credit worthiness of each customer or counterparty considering the party's financial information, its own trading records and other factors. Based on such information, the Group establishes credit limits for each customer or counterparty.

The Group establishes an allowance for doubtful account that represents its estimate of incurred losses in respect of trade and other receivables. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for groups of similar assets in respect

of losses that have been incurred but not yet identified. The collective loss allowance is determined based on historical data of payment statistics for similar financial assets. Also, the Group's credit risk can arise due to transactions with financial institutions related to its cash and cash equivalents, financial instruments and derivatives. To minimize such risk, the Group has a policy to deal only with financial institutions with high credit ratings. The amount of maximum exposure to credit risk of the Group is the carrying amount of financial assets as of December 31, 2016.

**Table of Contents****33. Financial Risk Management, Continued**

## (1) Financial risk management, Continued

## 3) Liquidity risk

The Group's approach to managing liquidity is to ensure that it will always maintain sufficient cash and cash equivalents balances and have enough liquidity through various committed credit lines. The Group maintains enough liquidity within credit lines through active operating activities.

Contractual maturities of financial liabilities as of December 31, 2016 are as follows:

(In millions of won)

|                                     | Carrying amount | Contractual cash flows | Less than 1 year | 1 - 5 years | More than 5 years |

|                                     | ₩ 12,614,906    | 14,069,984             | 4,650,108        | 5,925,559   | 3,494,317         |

The Group does not expect that the cash flows included in the maturity analysis could occur significantly earlier or at different amounts.

(\*) Includes interest payables.

As of December 31, 2016, periods in which cash flows from cash flow hedge derivatives are expected to occur are as follows:

(In millions of won)

|             | Carrying amount | Contractual cash flows | Less than 1 year | 1 - 5 years | More than 5 years |
|-------------|-----------------|------------------------|------------------|-------------|-------------------|
| Assets      | ₩ 207,402       | 217,982                | 5,154            | 187,287     | 25,541            |
| Liabilities | (87,153)        | (88,381)               | (88,219)         | (162)       |                   |
|             | ₩ 120,249       | 129,601                | (83,065)         | 187,125     | 25,541            |

**Table of Contents****33. Financial Risk Management, Continued****(2) Capital management**

The Group manages its capital to ensure that it will be able to continue as a business while maximizing the return to shareholders through the optimization of its debt and equity structure. The overall strategy of the Group is the same as that of the Group as of and for the year ended December 31, 2015.

The Group monitors its debt-equity ratio as a capital management indicator. This ratio is calculated as total liabilities divided by total equity; both are from the financial statements.

Debt-equity ratio as of December 31, 2016 and 2015 are as follows:

*(In millions of won)*

|                    | <b>December 31, 2016</b> | <b>December 31, 2015</b> |
|--------------------|--------------------------|--------------------------|
| Total liabilities  | ₩ 15,181,233             | 13,207,291               |
| Total equity       | 16,116,430               | 15,374,096               |
| Debt-equity ratios | 94.20%                   | 85.91%                   |

**(3) Fair value**

- 1) Fair value and carrying amount of financial assets and liabilities including fair value hierarchy as of December 31, 2016 are as follows:

*(In millions of won)*

|  | <b>Carrying<br/>amount</b> | <b>December 31, 2016</b> |                |                | <b>Total</b> |

| Debentures   | 6,952,949          |                   | 7,411,909 |         | 7,411,909 |
| Long-term payables - other                                       | 701,882            |                   | 767,010   |         | 767,010   |
|  | ₩ 8,069,965        |                   | 8,595,621 |         | 8,595,621 |

The above information does not include fair values of financial assets and liabilities of which fair values have not been measured as carrying amounts are reasonable approximation of fair values.

Available-for-sale financial assets amounting to ₩194,600 million and ₩223,197 million as of December 31, 2016 and December 31, 2015, respectively, are measured at cost in accordance with K-IFRS 1039 since they are equity instruments which do not have quoted price in an active market for the identical instruments (inputs for level 1) and for which fair value cannot be reliably measured using other valuation methods.

Fair value of the financial instruments that are traded in an active market (available-for-sale financial assets, financial liabilities at fair value through profit or loss, etc.) is measured based on the bid price at the end of the reporting date.

**Table of Contents****33. Financial Risk Management, Continued**

## (3) Fair value, Continued

The Group uses various valuation methods for determination of fair value of financial instruments that are not traded in an active market. Fair value of available-for-sale securities is determined using the market approach methods and financial assets through profit or loss are measured using the option pricing model. In addition, derivative financial contracts and long-term liabilities are measured using the discounted present value methods. Inputs used to such valuation methods include swap rate, interest rate, and risk premium, and the Group performs valuation using the inputs which are consistent with natures of assets and liabilities measured.

Interest rates used by the Group for the fair value measurement as of December 31, 2016 are as follows:

|                            | <b>Interest rate</b> |
|----------------------------|----------------------|
| Derivative instruments     | 1.50 ~ 2.52%         |
| Borrowings and debentures  | 1.90 ~ 2.16%         |
| Long-term payables - other | 1.79 ~ 2.27%         |

- 3) There have been no transfers from Level 2 to Level 1 in 2016 and changes of financial assets classified as Level 3 for the year ended December 31, 2016 are as follows:

*(In millions of won)*

|                                     | <b>Balance<br/>at<br/>beginning</b> | <b>Transfer<br/>comprehensive loss</b> | <b>Other<br/>comprehensive loss</b> | <b>Disposal</b> | <b>Balance at<br/>ending</b> |
|-------------------------------------|-------------------------------------|--|-------------------------------------|-----------------|------------------------------|

(\*) On August 1, 2015, SK C&C Co., Ltd., the ultimate controlling entity of the Parent Company merged with SK Holdings Co., Ltd., its equity method investee, and changed its name to SK Holdings Co., Ltd.

(5) M&Service Co., Ltd., a subsidiary of the Parent Company, has entered into performance agreement with SK Energy Co., Ltd. and provided a blank note to SK Energy Co., Ltd., with regard to this transaction.

- (6) There were additional investments in associates and joint ventures during the years ended December 31, 2016 and 2015 as presented in Note 10.

**Table of Contents**

**35. Commitments and Contingencies**

(1) Collateral assets and commitments

SK Broadband Co., Ltd., a subsidiary of the Parent Company, has pledged its properties as collateral for leases on buildings in the amount of ₩6,674 million as of December 31, 2016.

SK Broadband Co., Ltd., has provided guarantees in connection with its employees' borrowings relating to employee stock ownership and provided short-term financial instruments amounting to ₩728 million as collateral as of December 31, 2016.

(2) Legal claims and litigations

As of December 31, the Group is involved in various legal claims and litigation. Provision recognized in relation to these claims and litigation is immaterial. In connection with those legal claims and litigation for which no provision was recognized, management does not believe the Group has a present obligation, nor is it expected any of these claims or litigation will have a significant impact on the Group's financial position or operating results in the event an outflow of resources is ultimately necessary.

(3) Accounts receivables from sale of handsets

The sales agents of the Parent Company sell handsets to the Parent Company's subscribers on an installment basis. During the year ended December 31, 2016, the Parent Company entered into a comprehensive agreement to purchase the accounts receivables from handset sales with agents and to transfer the accounts receivables from handset sales to special purpose companies which were established with the purpose of liquidating receivables, respectively.

The accounts receivables from sale of handsets amounting to ₩681,466 million as of December 31, 2016, which the Parent Company purchased according to the relevant comprehensive agreement are recognized as accounts receivable-other and long-term accounts receivable-other.

Independent Auditors' Report

Based on a report originally issued in Korean

To The Board of Directors and Shareholders

SK Telecom Co., Ltd.:

We have audited the accompanying consolidated financial statements of SK Telecom Co., Ltd. and its subsidiaries (the Group), which comprise the consolidated statements of financial position as at December 31, 2016 and 2015, the consolidated statements of income, comprehensive income, changes in equity and cash flows for the years then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

*Management's Responsibility for the Consolidated Financial Statements*

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Korean International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

*Auditors' Responsibility*

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Korean Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

*Opinion*

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2016 and 2015 and of its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with Korean International Financial Reporting Standards.

**Table of Contents**

*Other Matter*

The procedures and practices utilized in the Republic of Korea to audit such consolidated financial statements may differ from those generally accepted and applied in other countries.

KPMG Samjong Accounting Corp.

Seoul, Korea

February 22, 2017

This report is effective as of February 22, 2017, the audit report date. Certain subsequent events or circumstances, which may occur between the audit report date and the time of reading this report, could have a material impact on the accompanying consolidated financial statements and notes thereto. Accordingly, the readers of the audit report should understand that the above audit report has not been updated to reflect the impact of such subsequent events or circumstances, if any.

**Table of Contents**

**1. Reporting Entity, Continued**

(2) List of subsidiaries, Continued

The list of subsidiaries as of December 31, 2016 and 2015 is as follows, Continued:

(\*1) The ownership interest represents direct ownership interest in subsidiaries either by the Parent Company or subsidiaries of the Parent Company.

(\*2) During the year ended December 31, 2016, the Parent Company acquired 219,967 shares of SK Telink Co., Ltd., a subsidiary of the Parent Company, in return for the transfer of Parent Company's owned shares of Neosnetworks Co., Ltd., a subsidiary of the Parent Company, to SK Telink Co., Ltd., as contribution in kind.

In addition, SK Telink Co., Ltd. exercised call options to purchase the entire shares of Neosnetworks Co., Ltd. held by the non-controlling interests during the year ended December 31, 2016 and Neosnetworks Co., Ltd. became a wholly owned subsidiary of SK Telink Co., Ltd.

(\*3) On November 24, 2016, the board of directors of the Parent Company resolved to acquire the shares of SK Communications Co., Ltd. held by all of the other shareholders of SK Communications Co., Ltd. on February 7, 2017 at ₩2,814 per share in cash.

On November 24, 2016, the extraordinary meeting of shareholders of the SK Communications Co., Ltd. approved the sale of shares and its voluntary delisting of SK Communication Co., Ltd.'s ordinary shares from KOSDAQ market of Korea Exchange.

(\*4) On November 2, 2015, the board of directors of the Parent Company entered into a share purchase agreement to acquire 30%(23,234,060 shares) of the issued and outstanding common shares of CJ Hello Vision Co., Ltd. ( CJ Hello Vision ) from CJ O Shopping Co., Ltd. ( CJ O Shopping ) for an aggregate purchase price of ₩500,000 million. The agreement stated government's approval as prerequisite.

On November 2, 2015, the board of directors of SK Broadband Co., Ltd. ( SK Broadband ), a subsidiary of the Parent Company, approved the merger of SK Broadband into CJ Hello Vision, and then SK Broadband entered into a merger agreement with CJ Hello Vision with government's approval as prerequisite.

After the announcement of disapproval of proposed takeover of CJ Hello Vision by the Fair Trade Commission (FTC) on July 18, 2016, the Parent Company announced the revocation of share purchase agreement with CJ O Shopping while SK Broadband withdrew from merger agreement with CJ Hello Vision on July 25, 2016 as execution of the share purchase agreement with CJ O Shopping and merger agreement between SK Broadband and CJ Hello Vision became objectively impossible.

(\*5) The ownership interest changed due to the shares issued to employee stock ownership association by SK Planet Co., Ltd. during the year ended December 31, 2016.

(\*6)

Although the Group has less than 50% of the voting rights of IRIVER LIMITED, the Group is considered to have control over IRIVER LIMITED since the Group holds significantly more voting rights than any other vote holder or organized group of vote holders, and the other shareholdings are widely dispersed.

## (2) List of subsidiaries, Continued

The list of subsidiaries as of December 31, 2016 and 2015 is as follows, Continued:

(\*7) Changes in subsidiaries are explained in Note 1-(4).

(\*8) During the year ended December 31, 2016, the Group acquired all of the non-controlling interests in shopkick Management Company, Inc.

(\*9) Others are owned together by SK techx Co., Ltd. and three other subsidiaries of the Parent Company.

(\*10) Changed its name to SK Telecom Innovation Fund, L.P. during the year ended December 31, 2016.

## (3) Condensed financial information of subsidiaries

Condensed financial information of the significant subsidiaries as of and for the year ended December 31, 2016 is as follows:

**2. Basis of Presentation**

## (1) Statement of compliance

These consolidated financial statements were prepared in accordance with Korean International Financial Reporting Standards ( K-IFRS ), as prescribed in the *Act on External Audits of Stock Companies in the Republic of Korea*.

The consolidated financial statements were authorized for issuance by the Board of Directors on February 2, 2017, which will be submitted for approval at the shareholders meeting to be held on March 24, 2017.

## (2) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis, except for the following material items in the consolidated statements of financial position:

derivative financial instruments measured at fair value;

financial instruments at fair value through profit or loss measured at fair value;

available-for-sale financial assets measured at fair value; and

liabilities(assets) for defined benefit plans recognized at the net of the total present value of defined benefit obligations less the fair value of plan assets.

**Table of Contents**

**2. Basis of Presentation, Continued**

(3) Functional and presentation currency

Financial statements of Group entities within the Group are prepared in functional currency of each group entity, which is the currency of the primary economic environment in which each entity operates. Consolidated financial statements of the Group are presented in Korean won, which is the Parent Company's functional and presentation currency.

(4) Use of estimates and judgments

The preparation of the consolidated financial statements in conformity with K-IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period prospectively.

1) Critical judgments

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements is included in Note 3 for the following areas: consolidation: whether the Group has de facto control over an investee, and classification of lease.

2) Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes: allowance for doubtful accounts, estimated useful lives of property and equipment and intangible assets, impairment of goodwill, recognition of provision, measurement of defined benefit liabilities, and recognition of deferred tax assets (liabilities).

3) Fair value measurement

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Group has an established policies and processes with respect to the measurement of fair values. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the finance executives.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of K-IFRS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

**Table of Contents**

**2. Basis of Presentation, Continued**

(4) Use of estimates and judgments, Continued

3) Fair value measurement, Continued

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Information about assumptions used for fair value measurements are included in Note 33.

**3. Significant Accounting Policies**

The significant accounting policies applied by the Group in the preparation of its consolidated financial statements in accordance with K-IFRSs are included below. The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements.

(1) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. The Group's operating segments have been determined to be each business unit, for which the Group generates separately identifiable financial information that is regularly reported to the chief operating decision maker for the purpose of resource allocation and assessment of segment performance. The Group has four reportable segments which consist of cellular services, fixed-line telecommunication services, e-commerce services and others, as described in Note 4. Segment results that are reported to the chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

(2) Basis of consolidation

(ii) Business combination

A business combination is accounted for by applying the acquisition method, unless it is a combination involving entities or businesses under common control.

Consideration transferred is generally measured at fair value, identical to the measurement of identifiable net assets acquired at fair value. The difference between the acquired company's fair value and the consideration transferred is accounted for goodwill. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognized in profit or loss immediately. Acquisition-related costs are expensed in the periods in which the costs are incurred and the services are received excluding costs to issue debt or equity securities recognized based on K-IFRS No. 1032 and 1039.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(2) Basis of consolidation, Continued

(ii) Business combination, Continued

Consideration transferred does not include the amount settled in relation to the pre-existing relationship and the amount settled in relation to the pre-existing relationship is generally recognized through profit or loss.

Contingent consideration is measured at fair value at the acquisition date. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. If contingent consideration is not classified as equity, the Group subsequently recognizes changes in fair value of contingent consideration through profit or loss.

(iii) Non-controlling interests

Non-controlling interests are measured at their proportionate share of the acquiree's identifiable net assets at the date of acquisition.

Changes in a Controlling Company's ownership interest in a subsidiary that do not result in the Controlling Company losing control of the subsidiary are accounted for as equity transactions.

(iv) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Consolidation of an investee begins from the date the Group obtains control of the investee and ceases when the Group loses control of the investee.

(v) Loss of control

If the Group loses control of a subsidiary, the Group derecognizes the assets and liabilities of the former subsidiary from the consolidated statement of financial position and recognizes gain or loss associated with the loss of control attributable to the former controlling interest. Any investment retained in the former subsidiary is recognized at its fair value when control is lost.

(vi) Interest in investees accounted for using the equity method

Interest in investees accounted for using the equity method composed of interest in associates and joint ventures. An associate is an entity in which the Group has significant influence, but not control, over the entity's financial and operating policies. A joint venture is a joint arrangement whereby the Group that has joint control of the arrangement has rights to the net assets of the arrangement.

The investment in an associate and a joint venture is initially recognized at cost including transaction costs and the carrying amount is increased or decreased to recognize the Group's share of the profit or loss and changes in equity of the associate or the joint venture after the date of acquisition.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(2) Basis of consolidation, Continued

(vii) Intra-group transactions

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. The Group's share of unrealized gain incurred from transactions with investees accounted for using the equity method are eliminated and unrealized loss are eliminated using the same basis if there are no evidence of asset impairments.

(viii) Business combinations under common control

SK Holdings Co., Ltd. is the ultimate controlling entity of the Group. The assets and liabilities acquired under business combination under common control are recognized at the carrying amounts in the ultimate controlling shareholder's consolidated financial statements. The difference between consideration and carrying amount of net assets acquired is added to or subtracted from capital surplus and others.

(3) Cash and cash equivalents

Cash and cash equivalents comprise cash balances, call deposits and financial asset with maturities of three months or less from the acquisition date that are easily convertible to cash and subject to an insignificant risk of changes in their fair value.

(4) Inventories

Inventories are stated at the acquisition cost using the average method. During the period, a perpetual inventory system is used to track inventory quantities, which is adjusted to the physical inventory counts performed at the period end. When the net realizable value of inventories is less than the acquisition cost, the carrying amount is reduced to the net realizable value and any difference is charged to current operations as operating expenses.

(5) Non-derivative financial assets

The Group recognizes and measures non-derivative financial assets by the following four categories: financial assets at fair value through profit or loss, held-to-maturity investments, loans and receivables and available-for-sale financial assets. The Group recognizes financial assets in the consolidated statement of financial position when the Group becomes a party to the contractual provisions of the instrument.

Upon initial recognition, non-derivative financial assets not at fair value through profit or loss are measured at their fair value plus transaction costs that are directly attributable to the acquisition of the asset.

---

**Table of Contents****3. Significant Accounting Policies, Continued****(5) Non-derivative financial assets, Continued****(i) Financial assets at fair value through profit or loss**

A financial asset is classified as financial asset at fair value through profit or loss if it is held for trading or is designated as such upon initial recognition. Upon initial recognition, transaction costs are recognized in profit or loss when incurred. Financial assets at fair value through profit or loss are measured at fair value, and changes therein are recognized in profit or loss.

**(ii) Held-to-maturity investments**

A non-derivative financial asset with a fixed or determinable payment and fixed maturity, for which the Group has the positive intention and ability to hold to maturity, are classified as held-to-maturity investment. Subsequent to initial recognition, held-to-maturity investments are measured at amortized cost using the effective interest rate method.

**(iii) Loans and receivables**

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method except for loans and receivables of which the effect of discounting is immaterial.

**(iv) Available-for-sale financial assets**

Available-for-sale financial assets are those non-derivative financial assets that are designated as available-for-sale or are not classified as financial assets at fair value through profit or loss, held-to-maturity investments or loans and receivables. Subsequent to initial recognition, they are measured at fair value with changes in fair value, net of any tax effect, recorded in other comprehensive income (OCI) in equity. Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at cost.

**(v) De-recognition of financial assets**

The Group derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Group is recognized as a separate asset or liability. If the Group retains substantially all the risks and rewards of ownership of the transferred financial assets, the Group continues to recognize the transferred financial assets and recognizes financial liabilities for the consideration received.

**(vi) Offsetting between financial assets and financial liabilities**

Financial assets and liabilities are offset and the net amount is presented in the consolidated statement of financial position only when the Group currently has a legally enforceable right to offset the recognized amounts, and there is the intention to settle on a net basis or to realize the asset and settle the liability simultaneously.

---

**Table of Contents****3. Significant Accounting Policies, Continued****(6) Derivative financial instruments, including hedge accounting**

Derivatives are initially recognized at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are accounted for as described below.

**(i) Hedge accounting**

The Group holds forward exchange contracts, interest rate swaps, currency swaps and other derivative contracts to manage interest rate risk and foreign exchange risk. The Group designates derivatives as hedging instruments to hedge the risk of changes in the fair value of assets, liabilities or firm commitments (a fair value hedge) and foreign currency risk of highly probable forecasted transactions or firm commitments (a cash flow hedge).

On initial designation of the hedge, the Group formally documents the relationship between the hedging instrument(s) and hedged item(s), including the risk management objectives and strategy in undertaking the hedge transaction, together with the methods that will be used to assess the effectiveness of the hedging relationship.

*Fair value hedge*

Changes in the fair value of a derivative hedging instrument designated as a fair value hedge are recognized in profit or loss. The gain or loss from remeasuring the hedging instrument at fair value for a derivative hedging instrument and the gain or loss on the hedged item attributable to the hedged risk are recognized in profit or loss in the same line item of the consolidated statement of income. The Group discontinues fair value hedge accounting if the hedging instrument expires or is sold, terminated or exercised, or if the hedge no longer meets the criteria for hedge accounting. Any adjustment arising from gain or loss on the hedged item attributable to the hedged risk is amortized to profit or loss from the date the hedge accounting is discontinued.

*Cash flow hedge*

When a derivative is designated to hedge the variability in cash flows attributable to a particular risk associated with a recognized asset or liability or a highly probable forecasted transaction that could affect profit or loss, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income, net of tax, and presented in the hedging reserve in equity. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in profit or loss. If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated, exercised, or the designation is revoked, then hedge accounting is discontinued prospectively. The cumulative gain or loss on the hedging instrument that has been recognized in other comprehensive income is reclassified to profit or loss in the periods during which the forecasted transaction occurs. If the forecasted transaction is no longer expected to occur, then the balance in other comprehensive income is recognized immediately in profit or loss.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(6) Derivative financial instruments, including hedge accounting, Continued

(ii) Separable embedded derivatives

Embedded derivatives are separated from the host contract and accounted for separately only if the following criteria have been met:

- (a) the economic characteristics and risks of the embedded derivative are not closely related to those of the host contract;
- (b) a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and
- (c) the hybrid (combined) instrument is not measured at fair value with changes in fair value recognized in profit or loss.

Changes in the fair value of separable embedded derivatives are recognized immediately in profit or loss.

(iii) Other derivative financial instruments

Changes in the fair value of other derivative financial instrument not designated as a hedging instrument are recognized immediately in profit or loss.

(7) Impairment of financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably. However, losses expected as a result of future events, regardless of likelihood, are not recognized.

Objective evidence that a financial asset is impaired includes following loss events:

significant financial difficulty of the issuer or obligor;

a breach of contract, such as default or delinquency in interest or principal payments;

the lender, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;

it becoming probable that the borrower will enter bankruptcy or other financial reorganization;

the disappearance of an active market for that financial asset because of financial difficulties; or

observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group

In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(7) Impairment of financial assets, Continued

If financial assets have objective evidence that they are impaired, impairment losses are measured and recognized.

(i) Financial assets measured at amortized cost

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of its estimated future cash flows discounted at the asset's original effective interest rate. The Group can recognize impairment losses directly or by establishing an allowance account. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor's credit rating), the previously recognized impairment loss is reversed either directly or by adjusting an allowance account.

(ii) Financial assets carried at cost

If there is objective evidence that an impairment loss has occurred on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed.

(iii) Available-for-sale financial assets

When a decline in the fair value of an available-for-sale financial asset has been recognized in other comprehensive income and there is objective evidence that the asset is impaired, the cumulative loss that had been recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment even though the financial asset has not been derecognized. Impairment losses recognized in profit or loss for an investment in an equity instrument classified as available-for-sale is not reversed through profit or loss subsequently. If, in a subsequent period, the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognized in profit or loss, the impairment loss is reversed, with the amount of the reversal recognized in profit or loss.

(8) Property and equipment

Property and equipment are initially measured at cost. The cost of property and equipment includes expenditures arising directly from the construction or acquisition of the asset, any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management and the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

**Table of Contents****3. Significant Accounting Policies, Continued**

## (8) Property and equipment, Continued

Subsequent to initial recognition, an item of property and equipment is carried at its cost less any accumulated depreciation and any accumulated impairment losses.

Subsequent costs are recognized in the carrying amount of property and equipment at cost or, if appropriate, as a separate item if it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing are recognized in profit or loss as incurred.

Property and equipment, except for land, are depreciated on a straight-line basis over estimated useful lives that appropriately reflect the pattern in which the asset's future economic benefits are expected to be consumed. A component that is significant compared to the total cost of property and equipment is depreciated over its separate useful life.

Gains and losses on disposal of an item of property and equipment are determined by comparing the proceeds from disposal with the carrying amount of property and equipment and are recognized as other non-operating income (loss).

The estimated useful lives of the Group's property and equipment are as follows:

|                              | Useful lives (years) |
|------------------------------|----------------------|
| Buildings and structures     | 15 ~ 40              |
| Machinery                    | 3 ~ 15               |
| Other property and equipment | 4 ~ 10               |

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting date and adjusted, if appropriate. The change is accounted for as a change in accounting estimate.

## (9) Borrowing costs

The Group capitalizes borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset. Other borrowing costs are recognized in expense as incurred. A qualifying asset is an asset that requires a substantial period of time to get ready for its intended use or sale. Financial assets are not qualifying assets. Assets that are ready for their intended use or sale when acquired are not qualifying assets.

To the extent that the Group borrows funds specifically for the purpose of obtaining a qualifying asset, the Group determines the amount of borrowing costs eligible for capitalization as the actual borrowing costs incurred on that borrowing during the period less any investment income on the temporary investment of those borrowings. To the extent that the Group borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the

Group determines the amount of borrowing costs eligible for capitalization by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Group that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs that the Group capitalizes during a period do not exceed the amount of borrowing costs incurred during that period.

**Table of Contents****3. Significant Accounting Policies, Continued****(10) Intangible assets**

Intangible assets are measured initially at cost and, subsequently, are carried at cost less accumulated amortization and accumulated impairment losses.

Amortization of intangible assets except for goodwill is calculated on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use. The residual value of intangible assets is zero. However, club memberships are expected to be available for use as there are no foreseeable limits to the periods. This intangible asset is determined as having indefinite useful lives and not amortized.

The estimated useful lives of the Group's intangible assets are as follows:

|                        | Useful lives (years) |
|------------------------|----------------------|
| Frequency usage rights | 5 ~ 13.1             |
| Land usage rights      | 5                    |
| Industrial rights      | 5, 10                |
| Development costs      | 5                    |
| Facility usage rights  | 10, 20               |
| Customer relations     | 3 ~ 7                |
| Other                  | 3 ~ 20               |

Amortization periods and the amortization methods for intangible assets with finite useful lives are reviewed at the end of each reporting period. The useful lives of intangible assets that are not being amortized are reviewed at the end of each reporting period to determine whether events and circumstances continue to support indefinite useful life assessments for those assets. Changes are accounted for as changes in accounting estimates.

Expenditures on research activities are recognized in profit or loss as incurred. Development expenditures are capitalized only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends to and has sufficient resources to complete development and to use or sell the asset. Other development expenditures are recognized in profit or loss as incurred.

Subsequent expenditures are capitalized only when they increase the future economic benefits embodied in the specific asset to which it relates. All other expenditures, including expenditures on internally generated goodwill and brands, are recognized in profit or loss as incurred.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(11) Government grants

Government grants are not recognized unless there is reasonable assurance that the Group will comply with the grant's conditions and that the grant will be received.

(i) Grants related to assets

Government grants whose primary condition is that the Group purchases, constructs or otherwise acquires a long-term asset are deducted in calculating the carrying amount of the asset. The grant is recognized in profit or loss over the life of a depreciable asset as a reduction to depreciation expense.

(ii) Grants related to income

Government grants which are intended to compensate the Group for expenses incurred are deducted from the related expenses.

(12) Investment property

Property held for the purpose of earning rentals or benefiting from capital appreciation is classified as investment property. Investment property is initially measured at its cost. Transaction costs are included in the initial measurement. Subsequently, investment property is carried at depreciated cost less any accumulated impairment losses.

Subsequent costs are recognized in the carrying amount of investment property at cost or, if appropriate, as a separate item if it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing are recognized in profit or loss as incurred.

Investment property except for land, are depreciated on a straight-line basis over 15~40 years as estimated useful lives.

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting date and adjusted, if appropriate. The change is accounted for as a change in an accounting estimate.

(13) Impairment of non-financial assets

The carrying amounts of the Group's non-financial assets, other than assets arising from employee benefits, inventories, deferred tax assets and non-current assets held for sale, are reviewed at the end of the reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill and intangible assets that have indefinite useful lives or that are not yet available for use, irrespective of whether there is any indication of impairment, are tested for impairment annually by comparing

their recoverable amount to their carrying amount.

---

**Table of Contents****3. Significant Accounting Policies, Continued**

## (13) Impairment of non-financial assets, Continued

The Group estimates the recoverable amount of an individual asset, if it is impossible to measure the individual recoverable amount of an asset, then the Group estimates the recoverable amount of cash-generating unit ( CGU ). A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. The value in use is estimated by applying a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU for which estimated future cash flows have not been adjusted, to the estimated future cash flows expected to be generated by the asset or CGU.

An impairment loss is recognized in profit or loss to the extent the carrying amount of the asset exceeds its recoverable amount.

Goodwill acquired in a business combination is allocated to each CGU that is expected to benefit from the synergies arising from the business acquired. Any impairment identified at the CGU level will first reduce the carrying value of goodwill and then be used to reduce the carrying amount of the other assets in the CGU on a pro rata basis. Except for impairment losses in respect of goodwill which are never reversed, an impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

## (14) Leases

The Group classifies and accounts for leases as either a finance or operating lease, depending on the terms. Leases where the Group assumes substantially all of the risks and rewards of ownership are classified as finance leases. All other leases are classified as operating leases.

## (i) Finance leases

At the commencement of the lease term, the Group recognizes as finance assets and finance liabilities in its consolidated statements of financial position, the lower amount of the fair value of the leased property and the present value of the minimum lease payments, each determined at the inception of the lease. Any initial direct costs are added to the amount recognized as an asset.

Minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rents are charged as expenses in the periods in which they are incurred.

The depreciable amount of a leased asset is allocated to each accounting period during the period of expected use on a systematic basis consistent with the depreciation policy the Group adopts for depreciable assets that are owned. If there is no reasonable certainty that the Group will obtain ownership by the end of the lease term, the asset is fully depreciated over the shorter of the lease term and its useful life. The Group reviews to determine whether the leased assets are impaired.

---

**Table of Contents****3. Significant Accounting Policies, Continued**

## (14) Leases, Continued

## (ii) Operating leases

Leases where the lessor retains a significant portion of the risks and rewards of ownership are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are recognized in profit or loss on a straight-line basis over the period of the lease.

## (iii) Determining whether an arrangement contains a lease

Determining whether an arrangement is, or contains, a lease is based on the substance of the arrangement and requires an assessment of whether fulfillment of the arrangement is dependent on the use of a specific asset and the arrangement conveys a right to use the asset.

At inception or reassessment of the arrangement, the Group separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values. If the Group concludes for a financial lease that it is impracticable to separate the payments reliably, the Group recognizes an asset and a liability at an amount equal to the fair value of the underlying asset that was identified as the subject of the lease. Subsequently, the liability is reduced as payments are made and an imputed finance charge on the liability is recognized using the Group's incremental borrowing rate of interest.

## (15) Non-current assets held for sale

Non-current assets, or disposal groups comprising assets and liabilities, that are expected to be recovered primarily through sale rather than through continuing use, are classified as held for sale. In order to be classified as held for sale, the asset (or disposal group) must be available for immediate sale in its present condition and its sale must be highly probable. The assets or disposal group that are classified as non-current assets held for sale are measured at the lower of their carrying amount and fair value less cost to sell. The Group recognizes an impairment loss for any initial or subsequent write-down of an asset (or disposal group) to fair value less costs to sell, and a gain for any subsequent increase in fair value less costs to sell, up to the cumulative impairment loss previously recognized in accordance with K-IFRS No. 1036, *Impairment of Assets*.

A non-current asset that is classified as held for sale or part of a disposal group classified as held for sale is not depreciated (or amortized).

## (16) Non-derivative financial liabilities

The Group classifies non-derivative financial liabilities into financial liabilities at fair value through profit or loss or other financial liabilities in accordance with the substance of the contractual arrangement. The Group recognizes financial liabilities in the consolidated statement of financial position when the Group becomes a party to the

contractual provisions of the financial liability.

(i) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading or designated as such upon initial recognition. Subsequent to initial recognition, financial liabilities at fair value through profit or loss are measured at fair value, and changes therein are recognized in profit or loss. Upon initial recognition, transaction costs that are directly attributable to the issue of the financial liability are recognized in profit or loss as incurred.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(16) Non-derivative financial liabilities, Continued

(ii) Other financial liabilities

Non-derivative financial liabilities other than financial liabilities at fair value through profit or loss are classified as other financial liabilities. At the date of initial recognition, other financial liabilities are measured at fair value minus transaction costs that are directly attributable to the issue of the financial liability. Subsequent to initial recognition, other financial liabilities are measured at amortized cost using the effective interest method.

The Group derecognizes a financial liability from the consolidated statement of financial position when it is extinguished (i.e. when the obligation specified in the contract is discharged, cancelled or expires).

(17) Employee benefits

(i) Short-term employee benefits

Short-term employee benefits are employee benefits that are due to be settled within 12 months after the end of the period in which the employees render the related service. When an employee has rendered service to the Group during an accounting period, the Group recognizes the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service.

(ii) Other long-term employee benefits

Other long-term employee benefits include employee benefits that are settled beyond 12 months after the end of the period in which the employees render the related service. The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognized in profit or loss in the period in which they arise.

(iii) Retirement benefits: defined contribution plans

When an employee has rendered service to the Group during a period, the Group recognizes the contribution payable to a defined contribution plan in exchange for that service as a liability (accrued expense), after deducting any contribution already paid. If the contribution already paid exceeds the contribution due for service before the end of the reporting period, the Group recognizes that excess as an asset (prepaid expense) to the extent that the prepayment will lead to a reduction in future payments or a cash refund.

(iv) Retirement benefits: defined benefit plans

At the end of reporting period, defined benefits liabilities relating to defined benefit plans are recognized at present value of defined benefit obligations net of fair value of plan assets.

---

**Table of Contents****3. Significant Accounting Policies, Continued**

## (17) Employee benefits, Continued

The calculation is performed annually by an independent actuary using the projected unit credit method. When the fair value of plan assets exceeds the present value of the defined benefit obligation, the Group recognizes an asset, to the extent of the present value of any economic benefits available in the form of refunds from the plan or reduction in the future contributions to the plan.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income. The Group determines net interests on net defined benefit liability (asset) by multiplying discount rate determined at the beginning of the annual reporting period and considers changes in net defined benefit liability (asset) from contributions and benefit payments. Net interest costs and other costs relating to the defined benefit plan are recognized through profit or loss.

When the plan amendment or curtailment occurs, gains or losses on amendment or curtailment in benefits for the past service provided are recognized through profit or loss. The Group recognizes gain or loss on a settlement when the settlement of defined benefit plan occurs.

## (v) Termination benefits

The Group recognizes a liability and expense for termination benefits at the earlier of the period when the Group can no longer withdraw the offer of those benefits and the period when the Group recognizes costs for a restructuring that involves the payment of termination benefits. If benefits are payable more than 12 months after the reporting period, they are discounted to their present value.

## (18) Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The risks and uncertainties that inevitably surround many events and circumstances are taken into account in reaching the best estimate of a provision. Where the effect of the time value of money is material, provisions are determined at the present value of the expected future cash flows.

Where some or all of the expenditures required to settle a provision are expected to be reimbursed by another party, the reimbursement is recognized when, and only when, it is virtually certain that reimbursement will be received if the entity settles the obligation. The reimbursement is treated as a separate asset.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimates. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

A provision is used only for expenditures for which the provision was originally recognized.

---

**Table of Contents****3. Significant Accounting Policies, Continued**

## (19) Transactions in foreign currencies

## (i) Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of Group at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated to the functional currency using the reporting date's exchange rate. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined.

Foreign currency differences arising on retranslation are recognized in profit or loss, except for differences arising on the retranslation of available-for-sale equity instruments.

## (ii) Foreign operations

If the presentation currency of the Group is different from a foreign operation's functional currency, the financial statements of the foreign operation are translated into the presentation currency using the following methods:

The assets and liabilities of foreign operations, whose functional currency is not the currency of a hyperinflationary economy, are translated to presentation currency at exchange rates at the reporting date. The income and expenses of foreign operations are translated to functional currency at exchange rates at the dates of the transactions. Foreign currency differences are recognized in other comprehensive income.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition of that foreign operation is treated as assets and liabilities of the foreign operation. Thus they are expressed in the functional currency of the foreign operation and translated at the closing rate at the reporting date.

When a foreign operation is disposed of, the relevant amount in the translation is transferred to profit or loss as part of the profit or loss on disposal. On the partial disposal of a subsidiary that includes a foreign operation, the relevant proportion of such cumulative amount is reattributed to non-controlling interest. In any other partial disposal of a foreign operation, the relevant proportion is reclassified to profit or loss.

## (20) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of ordinary shares and share options are recognized as a deduction from equity, net of any tax effects.

When the Group repurchases its own shares, the amount of the consideration paid is recognized as a deduction from equity and classified as treasury shares. The profits or losses from the purchase, disposal, reissue, or retirement of treasury shares are directly recognized in equity being as transaction with owners

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(21) Hybrid bond

The Group recognizes a financial instrument issued by the Group as an equity instrument if it does not include contractual obligation to deliver financial assets including cash to the counter party.

**Table of Contents**

**3. Significant Accounting Policies, Continued**

(22) Revenue

Revenue from the sale of goods, rendering of services or use of the Group assets is measured at the fair value of the consideration received or receivable. Returns, trade discounts and volume rebates are recognized as a reduction of revenue.

When two or more revenue generating activities or deliverables are sold under a single arrangement, each deliverable that is considered to be a separate unit of account is accounted for separately. The allocation of consideration from a revenue arrangement to its separate units of account is based on the relative fair values of each unit.

(i) Services rendered

Revenue from cellular services consists of revenue from basic charges, voice charges, data charges, data-roaming services and interconnection charges. Such revenues are recognized as services are performed. Revenues received for the activation of service are deferred and recognized over the average customer retention period.

Revenue from fixed-line services includes domestic and long-distance call charges, international phone connection charges, and broadband internet services. Such revenues are recognized as the related services are performed.

Revenue from other services rendered is recognized in profit or loss in proportion to the stage of completion of the transaction at the reporting date. The stage of completion is assessed by reference to surveys of work performed.

(ii) Goods sold

Revenue is recognized when persuasive evidence exists, usually in the form of an executed sales agreement, that the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably.

(iii) Customer loyalty programmes

For customer loyalty programmes, the fair value of the consideration received or receivable in respect of the initial sale is allocated between the award credits and the other components of the sale. The amount allocated to the award credits is estimated by reference to the fair value of the services to be provided with respect to the redeemable award credits. The fair value of the services to be provided with respect to the redeemable portion of the award credits granted to the customers in accordance with customer loyalty programmes is estimated taking into account the expected redemption rate and timing of the expected redemption. Considerations allocated to the award credits are deferred and revenue is recognized when the award credits are recovered and the Group performs its obligation to provide the service. The amount of revenue recognized is based on the relative size of the total award credits that are expected to be redeemed and the redeemed award credits in exchange for services.

---

**Table of Contents****3. Significant Accounting Policies, Continued****(23) Finance income and finance costs**

Finance income comprises interest income on funds invested (including available-for-sale financial assets), dividend income, gains on disposal of available-for-sale financial assets, changes in fair value of financial assets at fair value through profit or loss, and gains on hedging instruments that are recognized in profit or loss. Interest income is recognized as it accrues in profit or loss, using the effective interest rate method. Dividend income is recognized in profit or loss on the date that the Group's right to receive payment is established.

Finance costs comprise interest expense on borrowings, unwinding of the discount on provisions, changes in fair value of financial assets at fair value through profit or loss, and losses on hedging instruments that are recognized in profit or loss. Interest expense on borrowings and debentures are recognized in profit or loss using the effective interest rate method.

**(24) Income taxes**

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognized in profit or loss except to the extent that it relates to a business combination, or items recognized directly in equity or in other comprehensive income.

**(i) Current tax**

Current tax is the expected tax payable or receivable on the taxable profit or loss for the year, using tax rates enacted or substantively enacted at the end of the reporting period and any adjustment to tax payable in respect of previous years. The taxable profit is different from the accounting profit for the period since the taxable profit is calculated excluding the temporary differences, which will be taxable or deductible in determining taxable profit (tax loss) of future periods, and non-taxable or non-deductible items from the accounting profit.

**(ii) Deferred tax**

Deferred tax is recognized, using the asset-liability method, in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The Group recognizes a deferred tax liability for all taxable temporary differences, except for the difference associated with investments in subsidiaries and associates that the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. The Group recognizes a deferred tax asset for all deductible temporary differences to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilized.

---

**Table of Contents****3. Significant Accounting Policies, Continued**

## (24) Income taxes, Continued

## (ii) Deferred tax, Continued

The Group reviews the carrying amount of a deferred tax asset at the end of each reporting period and reduces the carrying amount to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and deferred tax assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if there is a legally enforceable right to offset the related current tax liabilities and assets, and they relate to income taxes levied by the same tax authority and they are intended to be settled current tax liabilities and assets on a net basis. Income tax expense in relation to dividend payments is recognized when liabilities relating to the dividend payments are recognized.

## (25) Earnings per share

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Parent Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares, which comprise convertible notes and share options granted to employees, if any.

## (26) Standards issued but not yet effective

The following new standards are effective for annual periods beginning after January 1, 2016 and earlier application is permitted; however, the Group has not early adopted the following new standards in preparing these financial statements.

1) K-IFRS No. 1109, *Financial Instruments*

K-IFRS No. 1109, published on September 25, 2015 which will replace the K-IFRS No. 1039 *Financial Instruments: Recognition and Measurement*, is effective for annual periods beginning on or after January 1, 2018, with early

adoption permitted. The Group currently plans to apply K-IFRS No.1109 in the period beginning on January 1, 2018.

Adoption of K-IFRS No. 1109 will generally be applied retrospectively, except for the following:

exemption allowing the Group not to restate comparative information for prior periods with respect to classification and measurement (including impairment) changes; and

Prospective application of new hedge accounting except for those specified in K-IFRS 1109 for retrospective application such as accounting for the time value of options and the forward element of forward contracts.

**Table of Contents****3. Significant Accounting Policies, Continued**

(26) Standards issued but not yet effective, Continued

1) K-IFRS No. 1109, *Financial Instruments*, Continued

Key features of K-IFRS No. 1109 includes new classification and measurement approach for financial assets that reflects the business model in which assets are managed and their cash flow characteristics, impairment model based on changes in expected credit losses, and new approach to hedge qualification and methods for assessing hedge effectiveness.

To ensure smooth implementation of K-IFRS No.1109, the Group needs to assess the financial impact of adopting K-IFRS No. 1109, to formulate the accounting policy, and to design, implement and enhance the accounting system and related controls. The expected quantitative impact of adopting K-IFRS No. 1109 on the Group's financial statements cannot be reliably estimated because it will be dependent on the financial instruments that the Group holds and economic conditions at that time as well as accounting elections and judgments that it will make in the future.

The Group plans to change the accounting process and internal control and to assess the financial impact on its consolidated financial statements resulting from the adoption of K-IFRS No. 1109 by December 31, 2017. Qualitative impacts on consolidated financial statements upon adoption of K-IFRS No. 1109 are as follows:

## i) Classification and measurement of financial assets

Classification of for financial assets under K-IFRS No. 1109 is driven by the entity's business model for managing financial assets and their contractual cash flows. This contains three principal classification categories: financial assets measured at amortized cost, fair value through other comprehensive income (FVOCI) and fair value through profit or loss (FVTPL). Derivatives embedded in contracts where the host is a financial asset are never bifurcated. Instead, the hybrid financial instrument as a whole is assessed for classification. Details of the classification based on business models and contractual cash flows are as follows:

|  | <b>Contractual cash flow characteristics</b> |                                   |
|--|--|-----------------------------------|
|  | <b>Solely payments of principal</b>          |                                   |
| <b>Business model assessment</b>                                 | <b>and interest</b>                          | <b>Others</b>                     |
| Hold to collect contractual cash flows                           | Amortized cost(*1)                           |                                   |
| Hold to collect contractual cash flows and sell financial assets | FVOCI- measured at fair value (*1).          | FVTPL-measured at fair value (*2) |
| Hold to sell financial assets and others                         | FVTPL-measured at fair value                 |                                   |

- (\*1) To eliminate or significantly reduce the accounting mismatch, the Group may irrevocably designate a financial asset as measured at FVTPL using the fair value option at initial recognition.
- (\*2) Equity instruments that are not held for trading may be irrevocably designated as FVOCI using the fair value option.

**Table of Contents****3. Significant Accounting Policies, Continued**

(26) Standards issued but not yet effective, Continued

- 1) K-IFRS 1109, *Financial Instruments*, Continued
  - i) Classification and measurement of financial assets, Continued

As new classification requirements for financial assets under K-IFRS No. 1109 are more stringent than requirements under K-IFRS No. 1039, the adoption of the new standard may result in increase in financial assets designated as FVTPL and higher volatility in profit or loss of the Group. As of December 31, 2016, the Group's financial assets consist of ₩5,937,507 million of loans and receivables, ₩935,885 million of available-for-sale financial assets, and ₩7,368 million of financial assets at fair value through profit or loss.

A financial asset is measured at amortized cost under K-IFRS No. 1109 if the asset is held by the Group to collect its contractual cash flows and the asset's contractual cash flows represent solely payments of principal and interest. As of December 31, 2016, the Group has ₩5,937,507 million of loans and receivables measured at amortized cost.

A financial asset is measured at FVOCI under K-IFRS No. 1109 if the objective of the business model is achieved both by collecting contractual cash flows and selling financial assets; and the asset's contractual cash flows represent solely payments of principal and interest. As of December 31, 2016, the Group has ₩6,755 million of debt instruments classified as available-for-sale financial assets.

Under K-IFRS No. 1109, equity instruments that are not held for trading may be irrevocably designated as FVOCI on initial recognition with no recycling of amounts from OCI to profit and loss. As of December 31, 2016, the Group has ₩929,130 million of available-for-sale equity instruments; and unrealized valuation gain from available-for-sale equity instruments amounting to ₩296,027 million is recycled from OCI to profit or loss during the year ended December 31, 2016.

All other financial assets are measured at FVTPL. As of December 31, 2016, the Group has no debt and equity instruments designated as FVTPL using the fair value option.

- ii) Classification and measurement of financial liabilities

Under K-IFRS No. 1109, for the financial liabilities designated as FVTPL using the fair value option, the element of gains or losses attributable to changes in the own credit risk should normally be recognized in OCI, with the remainder recognized in profit or loss. These amounts recognized in OCI are not recycled to profit or loss even when the liability is derecognized. However, if presentation of the fair value change in respect of the liability's credit risk in OCI results in or enlarges an accounting mismatch in profit or loss, gains and losses are entirely presented in profit or loss.

Adoption of K-IFRS 1109 may result in decrease in profit or loss, since the amount of fair value changes that is attributable to changes in the credit risk of the liability will be presented in OCI.

As of December 31, 2016, the Group's total financial liability amounts to ~~₩~~12,702,059 million, among which the financial liabilities designated as FVTPL using fair value option amount to ~~₩~~59,600 million. Changes in fair value on financial liabilities designated as FVTPL using fair value option amounting to ~~₩~~4,018 million was recognized as loss during the year ended December 31, 2016.

**Table of Contents****3. Significant Accounting Policies, Continued**

(26) Standards issued but not yet effective, Continued

1) K-IFRS No. 1109, *Financial Instruments*, Continued

iii) Impairment: financial assets and contract assets

The current impairment requirements under K-IFRS No. 1039 are based on an incurred loss model, where the impairment exists if there is objective evidence as a result of one or more events that occurred after the initial recognition of an asset. However, K-IFRS No. 1109 replaces the incurred loss model in K-IFRS No. 1039 with an expected credit loss model which applies to debt instruments measured at amortized cost or at fair value through other comprehensive income.

Under K-IFRS No. 1109, the Group should recognize a loss allowance or provision at an amount equal to 12-month expected credit losses or lifetime expected credit losses for financial assets determined by the extent of probable credit deterioration since initial recognition as explained below. Therefore, the new impairment requirements are expected to result in earlier recognition of credit losses compared to the incurred loss model of K-IFRS No. 1039.

|         | <b>Stages (*1)</b>  | <b>Loss allowances</b>   |
|---------|---|--|
| Stage 1 | No significant increase in credit risk since initial recognition (*2) | Loss allowances are determined for the amount of the expected credit losses that result from default events that are possible within 12 months after the reporting date.     |
| Stage 2 | Significant increase in credit risk since initial recognition         | Loss allowances are determined for the amount of the expected credit losses that result from all possible default events over the expected life of the financial instrument. |
| Stage 3 | Objective evidence of credit risk impairment                          |  |

(\*1) Under K-IFRS No. 1115, *Revenue from Contracts with Customers* (see note 3 (26) (2)), for trade receivables and contract assets arising with no significant credit risk, loss allowances are recognized at an amount equal to lifetime expected credit losses. However, for trade receivables and contract assets with a significant financing component arising under K-IFRS No. 1115, the Group may choose as its accounting policy to recognize loss allowances at an amount equal to lifetime expected credit losses. In addition, for receivables under lease arrangement, the Group may choose to recognize loss allowances at an amount equal to lifetime expected credit losses.

(\*2) The Group may determine that a financial asset's credit risk has not increased significantly if the asset has low credit risk at the reporting date.

K-IFRS No. 1109 allows the Group to only recognize the cumulative changes in lifetime expected credit losses since initial recognition as a loss allowance for purchased or originated credit-impaired financial assets at the reporting date. As of December 31, 2016, the Group has ₩5,937,507 million of debt instrument financial assets measured at amortized cost and ₩369,332 million as loss allowances for these assets.

**Table of Contents****3. Significant Accounting Policies, Continued**

(26) Standards issued but not yet effective, Continued

1) K-IFRS No. 1109, *Financial Instruments*, Continued

iv) Hedge accounting

K-IFRS No. 1109 maintains the mechanics of hedge accounting from those in K-IFRS No. 1039. However, K-IFRS No. 1109 replaces existing rule-based requirements under K-IFRS No. 1039 that are complex and difficult to apply with principle based requirement focusing more on the Group's risk management purposes and procedures. Under K-IFRS No. 1109, more hedging instruments and hedged items are permitted and 80%-125% effectiveness requirement is removed.

By complying with the hedging rules in K-IFRS No. 1109, the Group may apply hedge accounting for transactions that currently do not meet the hedging criteria under K-IFRS No. 1039 thereby reducing volatility in profit or loss. As of December 31, 2016, the Group recognized the total amount of ₩2,782,026 million as hedged liabilities that applied hedge accounting and changes in fair value of cash flow hedge in the amount of ₩96,418 million was recognized in OCI for the year ended December 31, 2016.

Upon initial application of K-IFRS No. 1109, the Group may choose as its accounting policy to continue to apply hedge accounting requirements under K-IFRS No. 1039 instead of the requirements in K-IFRS No. 1109. The Group is still in the process of evaluating whether to make such accounting policy election upon adoption date.

2) K-IFRS No. 1115, *Revenue from Contracts with Customers*

K-IFRS No. 1115, *Revenue from Contracts with Customers*, published on November 6, 2015 is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted. It replaces existing revenue recognition guidance, including K-IFRS No. 1018, *Revenue*, K-IFRS No. 1011, *Construction Contracts*, K-IFRS No. 2031, *Revenue: Barter Transactions Involving Advertising Services*, K-IFRS No. 2113, *Customer Loyalty Programmes*, K-IFRS No. 2115, *Agreements for the Construction of Real Estate*, and K-IFRS No. 2118, *Transfers of Assets from Customers*. The Group plans to adopt K-IFRS No. 1115 on January 1, 2018. In accordance with the requirements in K-IFRS No. 1008, *Accounting Policies, Changes in Accounting Estimates and Errors* and the transition guidance in K-IFRS No. 1115, the Group is considering to adopt K-IFRS No. 1115 using the retrospective approach.

K-IFRS No. 1018 provides separate revenue recognition criteria by transaction type which include sale of goods, rendering of services, and use of entity assets by others yielding interest, royalties and dividends. However, K-IFRS No. 1115 introduces a five-step model for revenue recognition that focuses on the transfer of control rather than the transfer of risks and rewards. The steps in five-step model are as follows:

identification of the contract with a customer;

identification of the performance obligations in the contract;

determination of the transaction price;

allocation of the transaction price to the performance obligations in the contract; and

recognition of revenue when (or as) the entity satisfies a performance obligation.

---

**Table of Contents****3. Significant Accounting Policies, Continued**

(26) Standards issued but not yet effective, Continued

2) K-IFRS No. 1115, *Revenue from Contracts with Customers*, Continued

As of December 31, 2016, the Group has not yet changed its accounting process and internal controls related to revenue recognition.

The Group plans to change the accounting process and internal control and to assess the financial impact on its consolidated financial statements resulting from the adoption of K-IFRS No. 1115 by December 31, 2017. The impact of accounting changes on its consolidated financial statements that may arise from the adoption of K-IFRS No. 1115 is expected to include the following:

i) Identification of the separate performance obligations in the contract

A substantial portion of the Group's revenues are generated from provision of wireless telecommunications services. K-IFRS No. 1115 requires the Group to evaluate goods or services promised to customers to determine if they are performance obligations other than wireless telecommunications service that should be accounted for separately. The amount and timing of revenue recognition under K-IFRS No. 1105 may be different from those under K-IFRS No. 1018 depending on the conclusion over the existence of separately identifiable performance obligations and the timing of satisfying each performance obligation.

ii) Allocate the transaction price to the separate performance obligations

In accordance with K-IFRS No. 1115, the Group should allocate the transaction price to each performance obligation in a contract in proportion to their stand-alone selling price. The Group plans to use adjusted market assessment method for estimating the stand-alone selling price. However, in some circumstances, expected cost plus a margin approach will be used.

iii) Incremental costs to acquire a contract

The Group has exclusive contracts with its sales agents to sell the Group's wireless telecommunications services to subscribers. These agents receive commissions depending on the number of subscribers newly added and retained. The commissions paid to the agents constitute a significant portion of the Group's operating expenses. Currently, the portion of these commissions that would not have been incurred if there have been no binding contracts with the subscribers are expensed.

Under K-IFRS 1115, incremental costs to acquire a contract and certain costs to fulfill a contract are capitalized and amortized over the period the goods and services are delivered. However, as a practical expedient, the Group plans to

expense the incremental cost as incurred if the amortization period of the contract acquisition and fulfillment cost is considered to be not longer than one year.

**Table of Contents****4. Operating Segments**

The Group's operating segments have been identified to be each business unit, by which the Group provides independent services and merchandise. The Group's reportable segments are cellular services, which include cellular voice service, wireless data service and wireless internet services; fixed-line telecommunication services, which include telephone services, internet services, and leased line services; e-commerce services, which include online commerce services; and all other businesses, which include the Group's internet portal services and other immaterial operations, each of which does not meet the quantitative threshold to be considered as a reportable segment and are presented collectively as others.

(1) Segment information for the year ended December 31, 2016 is as follows:

*(In millions of won)*

|  | <b>2016</b>                  |  |                                |               |                  |                    |              |

Since there are no intersegment sales of inventory or depreciable assets, there is no unrealized intersegment profit to be eliminated on consolidation. The Group principally operates its businesses in Korea and the revenue amounts earned outside of Korea are immaterial. Therefore, no entity-wide geographical information is presented.

No single customer contributed 10% or more to the Group's total revenue for the years ended December 31, 2016 and 2015.

**Table of Contents****5. Restricted Deposits**

Deposits which are restricted in use as of December 31, 2016 and 2015 are summarized as follows:

| <i>(In millions of won)</i>         | <b>December 31, 2016</b> | <b>December 31, 2015</b> |
|-------------------------------------|--------------------------|--------------------------|
| Short-term financial instruments(*) | ₩ 90,278                 | 82,469                   |
| Long-term financial instruments(*)  | 937                      | 10,596                   |
|                                     | ₩ 91,215                 | 93,065                   |

(\*) Financial instruments include charitable trust fund established by the Group where profits from the fund are donated to charitable institutions. As of December 31, 2016, the funds cannot be withdrawn before maturity.

**6. Trade and Other Receivables**

(\*1) Net assets of these entities represent net assets excluding those attributable to their non-controlling interests.

(\*2) The ownership interest is based on the number of shares owned by the Parent Company as divided by the total shares issued by the investee company. The Group applied the equity method using the effective ownership interest of 20.69% which is based on the number of shares owned by the Parent Company and the total issued shares outstanding less investee's treasury shares.

**13. Goodwill**

- (1) Goodwill as of December 31, 2016 and 2015 are as follows:

*(In millions of won)*

|   | <b>December 31,<br/>2016</b> | <b>December 31,<br/>2015</b> |
|---|------------------------------|------------------------------|
| Goodwill related to acquisition of Shinsegi Telecom, Inc. | ₩ 1,306,236                  | 1,306,236                    |
| Goodwill related to acquisition of SK Broadband Co., Ltd. | 358,443                      | 358,443                      |
| Other goodwill  | 267,773                      | 243,911                      |
|   | ₩ 1,932,452                  | 1,908,590                    |

Goodwill is allocated to the following CGUs for the purpose of impairment testing.

goodwill related to Shinsegi Telecom, Inc.(\*1): cellular services;

goodwill related to SK Broadband Co., Ltd.(\*2): fixed-line telecommunication services; and

other goodwill: other.

(\*1) Goodwill related to acquisition of Shinsegi Telecom, Inc.

The recoverable amount of the CGU is based on its value in use calculated by applying the annual discount rate of 4.9% to the estimated future cash flows based on financial budgets for the next five years. An annual growth rate of 0.3% was applied for the cash flows expected to be incurred after five years and is not expected to exceed the Group's long-term wireless telecommunication business growth rate. Management of the Group does not expect the total

carrying amount of the CGU will exceed the total recoverable amount due to reasonably possible changes from the major assumptions used to estimate the recoverable amount.

(\*2) Goodwill related to acquisition of SK Broadband Co., Ltd.

The recoverable amount of the CGU is based on its value in use calculated by applying the annual discount rate of 5.0% to the estimated future cash flows based on financial budgets for the next five years. An annual growth rate of 1.0% was applied for the cash flows expected to be incurred after five years and is not expected to exceed the Group's long-term wireless telecommunication business growth rate. Management of the Group does not expect the total carrying amount of the CGU will exceed the total recoverable amount due to reasonably possible changes from the major assumptions used to estimate the recoverable amount.

(\*1) During the year ended December 31, 2016, the Parent Company acquired the frequency right for bandwidth blocs in the 2.6 GHz band for ₩1,330,100 million at the spectrum auction held by the Ministry of Science, ICT and Future Planning (MSIP) of Korea and made the initial payment in accordance with the terms of the agreement in August 2016. The remaining consideration will be paid on an annual installment basis for 10 years from August 2016. In addition, the Parent Company extended frequency usage rights for 2.1 GHz band for ₩568,500 million with the initial payment made to MSIP during the year ended December 31, 2016. The remaining consideration will be paid on an annual installment basis for 5 years from December 2016.

(\*2) Includes reclassification from advance payments and property and equipment.

(\*3)

The Group recognized the difference between recoverable amount and the carrying amount of intangible assets, amounting to ₩21,523 million as impairment loss for the year ended December 31, 2016.

- (\*1) In November 2016, SK Broadband Co., Ltd. agreed to refinance these fixed rate borrowings with floating-rate borrowings on January 30, 2017 and entered into a floating-to-fixed interest rate swap agreement to mitigate the interest rate risk that will arise from floating-rate borrowings.
- (\*2) Prior to 2015, the Group obtained long-term borrowings from Export Kreditnamnden, an export credit agency. The long-term borrowings are to be repaid by installments on an annual basis from 2014 to 2022.

|                                    |                                |                 |                                 | ₩ 6,338,930              | 6,439,147                |

(\*1) The Group eliminated a measurement inconsistency of accounting profit or loss between the bonds and related derivatives by designating the structured bonds as financial liabilities at fair value through profit or loss. The carrying amount of financial liabilities designated at fair value through profit or loss exceeds the principal amount required to pay at maturity by ₩9,600 million as of December 31, 2016.

- (\*2) The principal amount and the fair value of the structured bonds that were designated as financial liabilities at fair value through profit or loss as of December 31, 2015 were ₩100,000 million and ₩101,009 million, respectively. The bonds were early redeemed during the year ended December 31, 2016.
- (\*3) Unsecured private bonds were issued by SK Broadband Co., Ltd., a subsidiary of the Parent Company.
- (\*4) Unsecured private bonds were issued by PS&Marketing Corporation, a subsidiary of the Parent Company.
- (\*5) As of December 31, 2016, 3M LIBOR rate is 1.00%.

**Table of Contents****16. Long-term Payables - Other**

(1) Long-term payables other as of December 31, 2016 and 2015 are as follows:

*(In millions of won)*

|   | <b>December 31,<br/>2016</b> | <b>December 31,<br/>2015</b> |
|---|------------------------------|------------------------------|
| Payables related to acquisition of frequency usage rights | ₩ 1,602,943                  | 550,964                      |
| Other(*)  | 21,647                       | 30,733                       |

| Other provisions                             | 562                                  | 3,795    | (510)       | (472)    |       | (271)                               | 3,104             | 2,943                         | 161             |
|  | ₩ 87,088                             | 11,896   | (6,649)     | (23,671) | 1,812 | (271)                               | 70,205            | 40,988                        | 29,217          |

The Group has provided handset subsidy to subscribers who purchase wireless telecommunication services from the Group and recognized a provision for subsidy amounts which the Group has obligations to pay in future periods.

**Table of Contents****18. Leases**

In 2012, the Group disposed a portion of its property and equipment and investment property, and entered into lease agreements with respect to those assets. These sale and leaseback transactions were accounted for as operating leases. The Group entered into operating lease agreements and sublease agreements in relation to rented office space and the expected future lease payments and lease revenues as of December 31, 2016 are as follows:

*(In millions of won)*

|                   | <b>Minimum lease payments</b> | <b>Revenues</b> |
|-------------------|-------------------------------|-----------------|
| Less than 1 year  | ₩ 35,684                      | 1,882           |
| 1~5 years         | 70,766                        | 896             |
| More than 5 years | 17,075                        | 224             |
|                   | ₩ 123,525                     | 3,002           |

**19. Defined Benefit Liabilities(Assets)**

(1) Details of defined benefit liabilities(assets) as of December 31, 2016 and 2015 are as follows:

*(In millions of won)*

|  | <b>December 31, 2016</b> | <b>December 31, 2015</b> |
|--|--------------------------|--------------------------|
| Present value of defined benefit obligations | 595,667                  | 525,269                  |
| Fair value of plan assets                    | (555,175)                | (426,413)                |
| Defined benefit assets(*)                    | (30,247)                 |                          |
| Defined benefit liabilities                  | 70,739                   | 98,856                   |

(\*) Since the Group entities neither have legally enforceable right nor intention to settle the defined benefit obligations of Group entities with defined benefit assets of other Group entities, defined benefit assets of Group entities have been separately presented from defined benefit liabilities.

(2) Principal actuarial assumptions as of December 31, 2016 and 2015 are as follows:

|   | <b>December 31, 2016</b> | <b>December 31, 2015</b> |
|---|--------------------------|--------------------------|
| Discount rate for defined benefit obligations | 1.90~2.96%               | 1.90~2.93%               |
| Expected rate of salary increase              | 2.49~6.09%               | 2.51~7.04%               |

Discount rate for defined benefit obligation is determined based on yield rate of high-quality corporate bonds with similar maturities for estimated payment term of defined benefit obligation. Expected rate of salary increase is determined based on the Group's historical promotion index, inflation rate and salary increase ratio.

**Table of Contents****19. Defined Benefit Liabilities(Assets), Continued**

(3) Changes in defined benefit obligations for the years ended December 31, 2016 and 2015 are as follows:

| - Demographic assumption         | 677                                   | 732         |
| - Financial assumption           | (2,462)                               | 5,900       |
| - Adjustment based on experience | 6,229                                 | 15,100      |
| Benefit paid                     | (55,350)                              | (58,513)    |
| Others                           | (6,665)                               | 5,150       |
| Ending balance                   | ₩ 595,667                             | 525,269     |

(4) Changes in plan assets for the years ended December 31, 2016 and 2015 are as follows:

| <i>(In millions of won)</i> | <b>2016</b>       | <b>2015</b> |
|-----------------------------|-------------------|-------------|
|                             | Beginning balance | ₩ 426,413   |
| Interest income             | 9,826             | 9,035       |
| Remeasurement               | (6,320)           | 3,146       |
| Contributions               | 159,687           | 115,640     |
| Benefit paid                | (34,247)          | (47,809)    |
| Others                      | (184)             | 144         |
| Ending balance              | ₩ 555,175         | 426,413     |

The Group expects to make a contribution of ₩121,727 million to the defined benefit plans in 2017.

(5) Total amount of expenses recognized in profit and loss (included in labor in the consolidated statement of income) and capitalized into construction-in-progress for the years ended December 31, 2016 and 2015 are as follows:

| <i>(In millions of won)</i> | <b>2016</b> | <b>2015</b> |
|-----------------------------|-------------|-------------|
| Current service cost        | ₩ 114,528   | 106,764     |

|                   |           |         |
|-------------------|-----------|---------|
| Net interest cost | 3,615     | 3,257   |
|                   | ₩ 118,143 | 110,021 |

The above costs are recognized in labor, research and development, or capitalized into construction-in-progress.

**Table of Contents****19. Defined Benefit Liabilities(Assets), Continued**

(6) Details of plan assets as of December 31, 2016 and 2015 are as follows:

*(In millions of won)*

|  | <b>December 31, 2016</b> | <b>December 31, 2015</b> |
|--|--------------------------|--------------------------|
| Equity instruments                     | ₩ 13,640                 | 1,086                    |
| Debt instruments                       | 95,359                   | 81,867                   |
| Short-term financial instruments, etc. | 446,176                  | 343,460                  |
|  | ₩ 555,175                | 426,413                  |

(7) As of December 31, 2016, effects on defined benefit obligations if each of significant actuarial assumptions changes within expectable and reasonable range are as follows:

*(In millions of won)*

|  | <b>Increase</b> | <b>Decrease</b> |
|--|-----------------|-----------------|
| Discount rate (if changed by 0.5%)                 | ₩ (24,168)      | 26,443          |
| Expected salary increase rate (if changed by 0.5%) | 26,410          | (24,408)        |

The sensitivity analysis does not consider dispersion of all cash flows that are expected from the plan and provides approximate values of sensitivity for the assumptions used.

Weighted average durations of defined benefit obligations as of December 31, 2016 and 2015 are 9.10 years and 9.35 years, respectively.

(\*) In November 2016, SK Broadband Co., Ltd. agreed to refinance these fixed rate borrowings with floating-rate borrowings on January 30, 2017 and entered into a floating-to-fixed interest rate swap agreement to mitigate the interest rate risk that will arise from floating-rate borrowings. SK Broadband Co., Ltd. designated interest rate swap as hedging instrument for a highly probable forecasted transaction.

**23. Hybrid Bonds**

Hybrid bonds classified as equity as of December 31, 2016 are as follows:

*(In millions of won)*

|                      | <b>Type</b>                              | <b>Issuance<br/>date</b> | <b>Maturity(*1)</b> | <b>Annual<br/>interest<br/>rate(%)(*2)</b> | <b>Amount</b> |
|----------------------|--|--------------------------|---------------------|--|---------------|
| Private hybrid bonds | Unsecured<br>subordinated bearer<br>bond | June 7, 2013             | June 7, 2073        | 4.21                                       | ₩ 400,000     |
| Issuance costs       |  |                          |                     |  | (1,482)       |
|                      |  |                          |                     |  | ₩ 398,518     |

Hybrid bonds issued by the Parent Company are classified as equity as there is no contractual obligation for delivery of financial assets to the bond holders. These are subordinated bonds which rank before common stocks in the event of a liquidation or reorganization of the Parent Company.

(\*1) The Parent Company has a right to extend the maturity under the same terms at issuance without any notice or announcement. The Parent Company also has the right to defer interest payment at its sole discretion.

(\*2) Annual interest rate is calculated as yield rate of 5 year national bonds plus premium. According to the step-up clause, additional premium of 0.25% and 0.75%, respectively, after 10 years and 25 years from the issuance date are applied.

**Table of Contents****24. Retained Earnings**

(1) Retained earnings as of December 31, 2016 and 2015 are as follows:

*(In millions of won)*

|   | <b>December 31, 2016</b> | <b>December 31, 2015</b> |
|---|--------------------------|--------------------------|
| <b>Appropriated:</b>                        |                          |                          |

|   | ₩ 15,953,164             | 15,007,627               |

(2) Legal reserve

The Korean Commercial Act requires the Parent Company to appropriate as a legal reserve at least 10% of cash dividends paid for each accounting period until the reserve equals 50% of outstanding share capital. The legal reserve may not be utilized for cash dividends, but may only be used to offset a future deficit, if any, or may be transferred to share capital.

**25. Reserves**

(1) Details of reserves, net of taxes, as of December 31, 2016 and 2015 are as follows:

**Table of Contents****30. Earnings per Share**

## (1) Basic earnings per share

- 1) Basic earnings per share for the years ended December 31, 2016 and 2015 are calculated as follows:

*(In millions of won, shares)*

|   | <b>2016</b> | <b>2015</b> |
|---|-------------|-------------|
| <b>Basic earnings per share attributable to owners of the Parent Company:</b> |             |             |
| Profit attributable to owners of the Parent Company                           | ₩ 1,675,967 | 1,518,604   |
| Interest on hybrid bonds  | (16,840)    | (16,840)    |
| Profit attributable to owners of the Parent Company on common shares          | 1,659,127   | 1,501,764   |
| Weighted average number of common shares outstanding                          | 70,609,160  | 71,551,966  |
| Basic earnings per share (in won)   | ₩ 23,497    | 20,988      |

- 2) The weighted average number of common shares outstanding for the years ended December 31, 2016 and 2015 are calculated as follows:

*(In shares)*

|   | <b>2016</b>  | <b>2015</b> |
|---|--------------|-------------|
| Issued common shares at January 1                                   | 80,745,711   | 80,745,711  |
| Effect of treasury shares   | (10,136,551) | (9,193,745) |
| Weighted average number of common shares outstanding at December 31 | 70,609,160   | 71,551,966  |

## (2) Diluted earnings per share

For the years ended December 31, 2016 and 2015, there were no potentially dilutive shares. Therefore, diluted earnings per share for the years ended December 31, 2016 and 2015 are the same as basic earnings per share.

**Table of Contents****31. Dividends**

## (1) Details of dividends declared

Details of dividend declared for the years ended December 31, 2016 and 2015 are as follows:

*(In millions of won, except for face value and share data)*

| Year | Dividend type             | Number of shares outstanding | Face value (in won) | Dividend ratio | Dividends |

**33. Financial Risk Management**

(1) Financial risk management

The Group is exposed to credit risk, liquidity risk and market risk. Market risk is the risk related to the changes in market prices, such as foreign exchange rates, interest rates and equity prices. The Group implements a risk management system to monitor and manage these specific risks.

The Group's financial assets consist of cash and cash equivalents, financial instruments, available-for-sale financial assets, accounts receivable-trade and other. Financial liabilities consist of accounts payable - trade and other, borrowings, and debentures.

1) Market risk

(i) Currency risk

The Group incurs exchange position due to revenue and expenses from its global operations. Major foreign currencies where the currency risk occur are USD, JPY and EUR. The Group determines the currency risk management policy after considering the nature of business and the presence of methods that mitigate the currency risk for each Group entities. Currency risk occurs on forecasted transactions and recognized assets and liabilities which are denominated in a currency other than the functional currency of each Group entity. The Group manages currency risk arising from business transactions by using currency forwards, etc.

## (i) Currency risk, Continued

Monetary assets and liabilities denominated in foreign currencies as of December 31, 2016 are as follows:

*(In millions of won, thousands of foreign currencies)*

|        | Assets             |                | Liabilities        |                |
|--------|--------------------|----------------|--------------------|----------------|
|        | Foreign currencies | Won equivalent | Foreign currencies | Won equivalent |
| USD    | 144,158            | ₩ 174,210      | 1,842,559          | ₩ 2,226,736    |
| EUR    | 14,650             | 18,570         | 24                 | 29             |
| JPY    | 68,014             | 705            | 320                | 3              |
| AUD    |                    |                | 299,532            | 261,207        |
| CHF    |                    |                | 299,806            | 354,170        |
| Others |                    | 429            |                    | 299            |
|        |                    | ₩ 193,914      |                    | ₩ 2,842,444    |

In addition, the Group has entered into cross currency swaps to hedge against currency risk related to foreign currency borrowings and debentures. (Refer to Note 20)

As of December 31, 2016, a hypothetical change in exchange rates by 10% would have increase (reduce) the Group's income before income tax as follows:

*(In millions of won)*

|        | If increased by 10% | If decreased by 10% |
|--------|---------------------|---------------------|
| USD    | ₩ 6,711             | (6,711)             |
| EUR    | 1,854               | (1,854)             |
| JPY    | 70                  | (70)                |
| Others | 13                  | (13)                |
|        | ₩ 8,648             | (8,648)             |

(ii) Equity price risk

The Group has listed and non-listed equity securities for its liquidity management and operating purpose. As of December 31, 2016, available-for-sale equity instruments measured at fair value amount to ₩741,285 million.

(iii) Interest rate risk

The interest rate risk of the Group arises from borrowings and debenture. Since the Group's interest bearing assets are mostly fixed-interest bearing assets, the Group's revenue and operating cash flows are not influenced by the changes in market interest rates.

Accordingly, the Group performs various analysis of interest rate risk to reduce interest rate risk and to optimize its financing. To minimize risks arising from changes in interest rates, the Group takes various measures such as refinancing, renewal, alternative financing and hedging.

**Table of Contents****33. Financial Risk Management, Continued**

## (1) Financial risk management, Continued

## 1) Market risk, Continued

## (iii) Interest rate risk, Continued

As of December 31, 2016, the floating-rate borrowings and bonds of the Group are ₩53,083 million and ₩362,550 million, respectively, and the Group has entered into interest rate swap agreements, as described in Note 20, for all floating-rate bonds to hedge the interest rate risk.

If the interest rate increases (decreases) 1% with all other variables held constant, income before income taxes for the year ended December 31, 2016, would change by ₩41 million due to the interest expense on floating-rate borrowings that are exposed to interest rate risk.

## 2) Credit risk

The maximum credit exposure as of December 31, 2016 and 2015 are as follows:

*(In millions of won)*

|                                     | <b>2016</b>       | <b>2015</b>      |

|                                     | <b>₩6,158,872</b> | <b>5,132,849</b> |

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet his/her contractual obligations.

To manage credit risk, the Group evaluates the credit worthiness of each customer or counterparty considering the party's financial information, its own trading records and other factors. Based on such information, the Group establishes credit limits for each customer or counterparty.

The Group establishes an allowance for doubtful account that represents its estimate of incurred losses in respect of trade and other receivables. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for groups of similar assets in respect of losses that have been incurred but not yet identified. The collective loss allowance is determined based on historical data of payment statistics for similar financial assets. Also, the Group's credit risk can arise due to transactions with financial institutions related to its cash and cash equivalents, financial instruments and derivatives. To minimize such risk, the Group has a policy to deal only with financial institutions with high credit ratings. The amount of maximum exposure to credit risk of the Group is the carrying amount of financial assets as of December 31, 2016.

**Table of Contents****33. Financial Risk Management, Continued**

## (1) Financial risk management, Continued

## 3) Liquidity risk

The Group's approach to managing liquidity is to ensure that it will always maintain sufficient cash and cash equivalents balances and have enough liquidity through various committed credit lines. The Group maintains enough liquidity within credit lines through active operating activities.

Contractual maturities of financial liabilities as of December 31, 2016 are as follows:

(In millions of won)

**Table of Contents****33. Financial Risk Management, Continued****(2) Capital management**

The Group manages its capital to ensure that it will be able to continue as a business while maximizing the return to shareholders through the optimization of its debt and equity structure. The overall strategy of the Group is the same as that of the Group as of and for the year ended December 31, 2015.

The Group monitors its debt-equity ratio as a capital management indicator. This ratio is calculated as total liabilities divided by total equity; both are from the financial statements.

Debt-equity ratio as of December 31, 2016 and 2015 are as follows:

*(In millions of won)*

|                    | <b>December 31, 2016</b> | <b>December 31, 2015</b> |
|--------------------|--------------------------|--------------------------|
| Total liabilities  | ₩ 15,181,233             | 13,207,291               |
| Total equity       | 16,116,430               | 15,374,096               |
| Debt-equity ratios | 94.20%                   | 85.91%                   |

**(3) Fair value**

- 1) Fair value and carrying amount of financial assets and liabilities including fair value hierarchy as of December 31, 2016 are as follows:

*(In millions of won)*

|  | <b>Carrying<br/>amount</b> | <b>December 31, 2016</b> |                |                | <b>Total</b> |

| Borrowings   | ₩ 415,134          |                   | 416,702   |         | 416,702   |
| Debentures   | 6,952,949          |                   | 7,411,909 |         | 7,411,909 |
| Long-term payables - other                                       | 701,882            |                   | 767,010   |         | 767,010   |
|  | ₩ 8,069,965        |                   | 8,595,621 |         | 8,595,621 |

The above information does not include fair values of financial assets and liabilities of which fair values have not been measured as carrying amounts are reasonable approximation of fair values.

Available-for-sale financial assets amounting to ₩194,600 million and ₩223,197 million as of December 31, 2016 and December 31, 2015, respectively, are measured at cost in accordance with K-IFRS 1039 since they are equity instruments which do not have quoted price in an active market for the identical instruments (inputs for level 1) and for which fair value cannot be reliably measured using other valuation methods.

Fair value of the financial instruments that are traded in an active market (available-for-sale financial assets, financial liabilities at fair value through profit or loss, etc.) is measured based on the bid price at the end of the reporting date.

**Table of Contents****33. Financial Risk Management, Continued**

## (3) Fair value, Continued

The Group uses various valuation methods for determination of fair value of financial instruments that are not traded in an active market. Fair value of available-for-sale securities is determined using the market approach methods and financial assets through profit or loss are measured using the option pricing model. In addition, derivative financial contracts and long-term liabilities are measured using the discounted present value methods. Inputs used to such valuation methods include swap rate, interest rate, and risk premium, and the Group performs valuation using the inputs which are consistent with natures of assets and liabilities measured.

Interest rates used by the Group for the fair value measurement as of December 31, 2016 are as follows:

|                            | <b>Interest<br/>rate</b> |
|----------------------------|--------------------------|
| Derivative instruments     | 1.50 ~ 2.52%             |
| Borrowings and debentures  | 1.90 ~ 2.16%             |
| Long-term payables - other | 1.79 ~ 2.27%             |

- 3) There have been no transfers from Level 2 to Level 1 in 2016 and changes of financial assets classified as Level 3 for the year ended December 31, 2016 are as follows:

*(In millions of won)*

|                                     | <b>Balance<br/>at<br/>beginning</b> | <b>Transfer</b> | <b>Other<br/>comprehensive<br/>loss</b> | <b>Disposal</b> | <b>Balance at<br/>ending</b> |
|-------------------------------------|-------------------------------------|-----------------|---|-----------------|------------------------------|

(\*) On August 1, 2015, SK C&C Co., Ltd., the ultimate controlling entity of the Parent Company merged with SK Holdings Co., Ltd., its equity method investee, and changed its name to SK Holdings Co., Ltd.

(5)

M&Service Co., Ltd., a subsidiary of the Parent Company, has entered into performance agreement with SK Energy Co., Ltd. and provided a blank note to SK Energy Co., Ltd., with regard to this transaction.

- (6) There were additional investments in associates and joint ventures during the years ended December 31, 2016 and 2015 as presented in Note 10.

**Table of Contents**

**35. Commitments and Contingencies**

(1) Collateral assets and commitments

SK Broadband Co., Ltd., a subsidiary of the Parent Company, has pledged its properties as collateral for leases on buildings in the amount of ₩6,674 million as of December 31, 2016.

SK Broadband Co., Ltd., has provided guarantees in connection with its employees' borrowings relating to employee stock ownership and provided short-term financial instruments amounting to ₩728 million as collateral as of December 31, 2016.

(2) Legal claims and litigations

As of December 31, the Group is involved in various legal claims and litigation. Provision recognized in relation to these claims and litigation is immaterial. In connection with those legal claims and litigation for which no provision was recognized, management does not believe the Group has a present obligation, nor is it expected any of these claims or litigation will have a significant impact on the Group's financial position or operating results in the event an outflow of resources is ultimately necessary.

(3) Accounts receivables from sale of handsets

The sales agents of the Parent Company sell handsets to the Parent Company's subscribers on an installment basis. During the year ended December 31, 2016, the Parent Company entered into a comprehensive agreement to purchase the accounts receivables from handset sales with agents and to transfer the accounts receivables from handset sales to special purpose companies which were established with the purpose of liquidating receivables, respectively.

The accounts receivables from sale of handsets amounting to ₩681,466 million as of December 31, 2016, which the Parent Company purchased according to the relevant comprehensive agreement are recognized as accounts receivable-other and long-term accounts receivable-other.
