To Our Shareholders:

2016 was a year of tremendous transformation for Allergan as we evolved into a focused global biopharmaceutical growth company. Throughout this transition, we have remained engaged with our investors, focused on actions that drive long-term value creation and committed to strong corporate governance practices.

Business Strategy. We have continued our development as a bold, global pharmaceutical company and a leader in Growth Pharma. We deliver innovative therapies that create long-term shared value for our shareholders, our customers and our patients. With the completion in August of the divestiture of our global generics business to Teva, we have transformed our Company into a growth-oriented, branded pharmaceutical company with industry-leading profitability and a robust, innovative pipeline. Throughout our transformation, we have been relentlessly focused on operating effectively and deploying capital in a way that maximizes shareholder value creation. We made great strides this past year, including maintaining leadership in key therapeutic areas and sustaining industry leading operating margins, positioning us to continue this momentum as we look forward.

Shareholder Engagement. Following our 2016 Annual General Meeting of Shareholders, our Board of Directors undertook a broad initiative to deepen relationships with our shareholders to help inform discussions on a number of issues, including our governance, Board leadership, compensation and sustainability practices. While our management team has longstanding relationships with our investors, we developed a more comprehensive shareholder engagement program, led by our Board of Directors. Over the course of the fall, members of our management team, and often Chris Coughlin, our Lead Independent Director, and Chris Bodine, the Chair of our Nominating and Corporate Governance Committee, met with shareholders representing approximately 37% of the Company's outstanding ordinary shares. The conversations we had as part of this shareholder engagement provided us with a deeper understanding of the perspectives of our shareholders and helped inform recent Board decisions. We look forward to making this engagement a regular component of our governance program going forward.

Governance Enhancements and Board Refreshment. During our discussions with our shareholders this past year, our shareholders emphasized the importance of robust independent leadership in the boardroom. In response, our Board spent substantial time debating the optimal leadership structure of our Company and concluded that the enumerated responsibilities of our Lead Independent Director role should be strengthened to better achieve that goal. In October 2016, the independent members of the Board elected Chris Coughlin as Lead Independent Director, and subsequently, we formally published our new and enhanced Lead Independent Director responsibilities. Shareholders have been highly supportive of this enhancement. We believe that our Board leadership structure, with Brent Saunders as our Chairman and Chris Coughlin as our Lead Independent Director, is

Table of Contents

the optimal structure for our Company at this time and will best allow us to create value for our shareholders as we continue on our path of transformation.

In addition, we recently added a new, highly qualified director to our Board. Adriane Brown joins our Board with a wealth of directly applicable experience, including a proven track record of developing and growing technologies and products across a network of global R&D centers and manufacturing plants. This continues our strong history of adding directors to our Board who bring a diversity of deep and valuable experiences to our business. Over the last four years we have added seven new directors, helping to further enhance a collective Board skillset that is well-suited to our industry and our strategic objectives.

Social Contract with Patients. Our Company has been a leader within the pharmaceutical industry by pledging to price treatments in a way that makes them accessible and affordable to patients while intensely monitoring their quality and safety, and educating physicians on their proper use. We call this commitment our Social Contract with Patients. The Social Contract recognizes that a company doing the hard, long and risky work of bringing new medicines to market has to price life-enhancing medicines in a way that fulfills its responsibilities to patients which, in turn, makes its business stronger and fuels its ability to generate return for its shareholders. Our Board is proud to support our Company's pursuit of medical innovation and commitment to patients and recognizes the strong connection between the Social Contract and the role it plays in the corporate governance of the Company.

Our Board appreciates the trust that you place in us to be stewards of your company. We remain fully committed to serving patients who rely on our products, delivering sustainable operating results, and creating value for our shareholders.

Sincerely,

Brenton L. Saunders

2017 NOTICE OF ANNUAL GENERAL MEETING OF SHAREHOLDERS AND PROXY STATEMENT

Performance Highlights

In 2016, Allergan experienced another year of tremendous transformation as we continued to build the Company into a focused global biopharmaceutical growth company. We focused on operational excellence and revisited our capital allocation strategy to ensure that we are deploying capital in a way that maximizes shareholder value creation. The strong operational foundation we have built, as highlighted below, puts us on solid footing to maximize our value.

**2016: A YEAR OF TRANSFORMATION WHILE
MAINTAINING STRONG BUSINESS PERFORMANCE**

Table of Contents

In addition, Allergan's five-year total shareholder return has exceeded that of the S&P 500 index and the NYSE ARCA Pharmaceutical Index (DRG), as demonstrated by the chart on page 46, although in 2016, relative to previous years of outperformance, Allergan's total shareholder return was initially positively impacted by the planned merger of Pfizer and Allergan, and then negatively impacted by the subsequent termination of that planned merger in April of 2016. Allergan's stock price did not decline along with those of most other pharmaceutical companies during the second half of 2015 because of the anticipated compensation Allergan shareholders would receive upon the planned closing of the transaction. Following the termination of the planned merger with Pfizer, Allergan's stock price declined to bring its valuation more in line with those of pharmaceutical companies whose stock prices were impacted by industry and market pressures during this period.

Shareholder Outreach and Engagement

During 2016, our Board of Directors (also referred to throughout this Proxy Statement as our *Board*) recognized that we needed to deepen our relationships with our shareholders and solicit their views on governance, environmental, social, executive compensation and other matters in order to inform our Board's discussions and decision-making. Our Board believes that this regular, open communication with our shareholders on these matters is critical to our Company's long-term success.

Following our 2016 Annual General Meeting of Shareholders, certain of our independent directors and certain members of our management team engaged with our shareholders to discuss and obtain their feedback on a variety of topics. We had extensive engagement with shareholders representing approximately 37% of the Company's outstanding ordinary shares. Topics discussed as part of this engagement included our executive compensation program; corporate governance matters such as the composition and refreshment of our Board of Directors; succession planning and the leadership structure of our Board of Directors; capital allocation; and our Social Contract with Patients.

Shareholder feedback from these engagements was shared with our full Board of Directors and its Committees and was included in discussions and deliberations as appropriate. As a result of the feedback received over the course of the last year, the Board made the decision to:

Formalize the duties and responsibilities of our Lead Independent Director, with consideration for the specific feedback we received from our shareholders.

Update our Corporate Governance Guidelines to reflect the formalized Lead Independent Director role.

Improve the disclosure of our incentive plan performance measures.

Enhance the transparency of our executive compensation program and Compensation Committee decision-making elements throughout the Compensation Discussion and Analysis section of this Proxy Statement.

We appreciate the feedback of our shareholders and we are committed to ongoing constructive dialogue with our shareholders throughout the year.

Compensation Highlights

Our executive compensation framework focuses on the following key objectives:

Creating unambiguous long-term shareholder alignment by linking a substantial portion of executives' pay to share price appreciation.

Delivering sustainable top- and bottom-line growth.

Creating a unified management team aligned to a shared set of objectives.

Attracting and retaining key executive talent.

Providing flexibility and allowing for Compensation Committee discretion in order to reflect individual circumstances as well as changing business conditions and priorities.

Reinforcing our bold, entrepreneurial culture.

Board Leadership

During 2016, the independent members of our Board of Directors conducted a review of the Board's leadership structure, with particular focus on the structure that would best position our Company for success as we emerge from a period of tremendous transformation into a focused global biopharmaceutical growth company. Our Board of Directors determined that the combination of a Chairman/Chief Executive Officer and a Lead Independent Director would be the best leadership structure for our Company at the present time. In conjunction with that determination, the independent directors of the Board formalized and published a robust set of Lead Independent Director responsibilities.

In October 2016, our Board of Directors elected Brent Saunders, our President and Chief Executive Officer, as Chairman, and elected Christopher Coughlin as our Board's Lead Independent Director.

Governance Highlights

Our corporate governance requirements and practices, which are informed by shareholder feedback and reflect a commitment to a robust shareholder outreach program to facilitate ongoing dialogue, include the following highlights:

Robust Lead Independent Director role.

Annual election of directors.

Majority voting for the election of directors in an uncontested election, and plurality voting in a contested election.

No poison pill in place.

Thoughtful succession planning process.

Robust annual Board evaluation process, led by an independent third party governance expert.

Proposal No. 1 Election of Directors

Background

Under the Company's current Articles of Association, the Board of Directors must consist of between five and fourteen directors. Our Board's overarching goal is to have a Board large enough to include all critical skills and perspectives but small enough to work efficiently. Generally, in determining the optimal size, structure and membership, the Board will take into account the Company's then-current circumstances, the Company's near- and longer-term strategic goals and aspirations, the current state of the pharmaceutical industry, legislative and regulatory developments, governance trends, and the views of shareholders and other key stakeholders. Our Board of Directors currently has thirteen members; however, Michael R. Gallagher is not standing for re-election to the Board, and at the Annual Meeting, twelve directors are proposed to be elected to serve until the 2018 Annual General Meeting of Shareholders or until their respective successors are duly elected and qualified.

Based upon the recommendation of the Nominating and Corporate Governance Committee, the Board of Directors has nominated Nesli Basgoz, M.D., Paul M. Bisaro, James H. Bloem, Christopher W. Bodine, Adriane M. Brown, Christopher J. Coughlin, Catherine M. Klema, Peter J. McDonnell, M.D., Patrick J. O'Sullivan, Brenton L. Saunders, Ronald R. Taylor and Fred G. Weiss for reelection as directors to serve until the 2018 Annual General Meeting of Shareholders or until their respective successors are duly elected and qualified.

None of the director nominees were selected pursuant to an arrangement or understanding between such nominee and any other person.

Information about each director nominee is set forth in the following paragraphs and is based on information provided to us as of March 17, 2017. The Board of Directors knows of no reason why any of the nominees will be unavailable to serve, but in the event of any such unavailability, the proxies received will be voted for such substitute nominees as the Board of Directors may recommend, unless the number of directors constituting a full Board of Directors is reduced.

Board Recommendation

The Board of Directors unanimously recommends a vote FOR the election of each of Nesli Basgoz, M.D., Paul M. Bisaro, James H. Bloem, Christopher W. Bodine, Adriane M. Brown, Christopher J. Coughlin, Catherine M. Klema, Peter J. McDonnell, M.D., Patrick J. O'Sullivan, Brenton L. Saunders, Ronald R. Taylor and Fred G. Weiss.

Required Vote

Persons nominated to serve on our Board of Directors in an uncontested election must each individually receive a greater number of votes cast **FOR** than votes cast **AGAINST** in order to be elected, or re-elected, to the Board of Directors. Accordingly, abstentions will not affect the outcome of the election of directors.

Please note that if your broker holds your ordinary shares in street name, your broker will not vote your shares on the election of directors and broker non-votes will result, unless you provide your voting instructions to your broker.

Broker non-votes will not affect the outcome of the election of directors.

Overview of Directors

Our Board of Directors collectively has a skillset well suited to our industry and our strategic objectives, and possesses the requisite leadership, financial, risk management and operating skills. Our Board also has extensive experience across a broad spectrum of the healthcare industry. Our Board is well-balanced in terms of the tenure of its members, which is a testament to our ongoing evaluation of the effectiveness of our Board and search for a diverse slate of candidates who can contribute to our Company.

Table of Contents

Effective Combined Skillset

Director Nomination and Refreshment Process

Nomination

Our goal is to have a diverse, balanced and engaged Board whose members possess the skills and background necessary to maximize shareholder value in a manner consistent with all legal requirements and the highest ethical standards.

Specifically, our Board, through our Nominating and Corporate Governance Committee, seeks candidates who:

Bring to our Board not only critical skills and experience in areas directly important to the success of the Company's business, but also a diversity of experiences and backgrounds, both professionally and personally.

Have high integrity, sound moral character and good judgment.

Satisfy the independence requirements of the New York Stock Exchange (*NYSE*), our Corporate Governance Guidelines and applicable law.

Our Corporate Governance Guidelines specify that the value of diversity on the Board of Directors should be considered by the Nominating and Corporate Governance Committee in the director identification and nomination process. This Committee does not assign specific weights to particular criteria, and no particular criterion is necessarily applicable to all prospective nominees.

The Nominating and Corporate Governance Committee follows a rigorous process when evaluating candidates for nomination to the Board of Directors. The Nominating and Corporate Governance Committee considers candidates for our Board of Directors from diverse sources, including suggestions from our shareholders and, from time to time, a third party that the Committee engages for a fee to assist in identifying potential director candidates. The Committee makes a final recommendation to the Board of Directors, which then nominates a candidate for election by the shareholders or, as applicable, appoints a candidate to fill a vacancy or new position. The Nominating and Corporate Governance Committee employs the same process for evaluating all candidates, including those properly

recommended by shareholders, and considers shareholder recommendations of candidates on the same basis as it considers all other candidates.

Table of Contents

PROPOSAL NO. 1 ELECTION OF DIRECTORS

Shareholders wishing to recommend a director candidate for consideration by the Nominating and Corporate Governance Committee may do so by sending the candidate's name, biographical information and qualifications, together with a consent in writing signed by the recommended nominee indicating that he or she is willing to be considered as a nominee and, if nominated and elected, will serve as a director, to the Chair of the Nominating and Corporate Governance Committee in care of the Corporate Secretary, Allergan plc, Clonshaugh Business and Technology Park, Coolock, Dublin, D17 E400, Ireland. The submission of a recommendation by a shareholder in compliance with these procedures does not guarantee the selection of the shareholder's candidate or the inclusion of the candidate in our Proxy Statement. However, the Nominating and Corporate Governance Committee will consider any such candidate in accordance with the procedures and guidelines as described above and as set forth in our Corporate Governance Guidelines and the charter of our Nominating and Corporate Governance Committee.

Refreshment

In determining whether to recommend a director for re-election, the Nominating and Corporate Governance Committee considers that director under the same criteria as all other director nominees and with a view toward the anticipated future needs of the Company. Our Board has no term limits or retirement age for service as a Director. At the same time, our Board believes there is value in Board refreshment and turnover so that the mix of directors yields a Board that is as strong as possible from year to year. Accordingly, the Nominating and Corporate Governance Committee annually re-examines whether to re-nominate each sitting director using the same criteria it would an outside candidate, considering criteria such as whether:

The number of other boards on which he or she serves, or his or her age or health, impacts the energy and time needed for active participation on the Board.

His or her experience in a key area has become stale or is no longer relevant given the anticipated future work of the Board.

The length and nature of his or her work on the Board has diminished his or her independence. Both our Corporate Governance Guidelines and the charter of our Nominating and Corporate Governance Committee set forth in further detail the criteria that guide our Board and our Nominating and Corporate Governance Committee in assessing potential candidates for election and re-election to our Board of Directors, and can be found on our website at www.allergan.com under the Investors' section.

Director Independence

On an annual basis, our Board of Directors reviews the independence of each of our directors and affirmatively makes a determination as to the independence of each director. For a director to be considered independent, the

Table of Contents

BOARD AND COMMITTEE GOVERNANCE

Board of Directors must determine that the director does not have any direct or indirect material relationship with Allergan (other than as serving as a director of Allergan). The Board of Directors considers any and all additional relevant facts and circumstances in making an independence determination.

Our Board of Directors has determined that at least a majority of our directors have no direct or indirect material relationship with us (other than as our director) and that these directors are independent within the meaning of the independence standards promulgated by the SEC and the NYSE. The Board of Directors has determined that Nesli Basgoz, M.D., James H. Bloem, Christopher W. Bodine, Adriane M. Brown, Christopher J. Coughlin, Catherine M. Klema, Peter J. McDonnell, M.D., Patrick J. O'Sullivan, Ronald R. Taylor and Fred G. Weiss have no material relationship with the Company and are independent directors. Mr. Bisaro has been determined to be not independent because he has been an employee of the Company within the last three years. Mr. Saunders has been determined to be not independent as he is our Chief Executive Officer.

In making its independence determinations, the Board of Directors reviewed transactions and relationships between, on the one hand, each director or any member of his or her immediate family, and, on the other hand, the Company or one of its subsidiaries or affiliates, in each case based on information provided by the director, our records and publicly available information. Each of the reviewed transactions and arrangements were entered into in the ordinary course of business and none of the reviewed business transactions, donations or grants involved an amount that exceeded the greater of \$1 million or 2% of either company's revenues with respect to transactions where a director served as an employee or general partner of the entity party to the transaction or any member of his or her immediate family or spouse served as an executive officer or general partner of any such entity. None of our non-employee directors directly or indirectly provides any professional or consulting services to us and none of our directors currently has or has had any direct or indirect material interest in any of the transactions and arrangements that exceeded the greater of \$1 million or 2% of either company's revenues. The Board of Directors has determined that these transactions were made in the ordinary course and did not affect the independence of the directors involved.

Additionally, in making its independence determinations, the Board of Directors considered the fact that many of our independent directors currently serve or have previously served within the last three years as a professor, trustee, director, or member of a board, council or committee for one or more charitable organizations (including research or scientific institutions), hospitals, for profit corporations or any other entity with which Allergan has business transactions or to which Allergan may make grants. These business transactions may include, among other things, purchases of services and supplies, licensing transactions, healthcare sponsorships and programs, research and development and clinical trials, activities, and limited consulting services.

Risk Oversight

Risk oversight continues to be top-of-mind for our Board of Directors. How well we manage risk will ultimately determine our success.

Our Company faces a number of risks, including economic, financial, legal, regulatory, competition and reputational risks. Primary day-to-day responsibility for the identification, assessment, and prioritization of risks, as well as for the application of resources to minimize, control, and mitigate these risks, lies with senior management. Our Board of Directors' responsibility with respect to risk is in the area of risk oversight: the Board plays an active role in understanding and overseeing the management of risks that our Company faces and ensures that senior management has the framework and processes in place to effectively and adequately monitor and manage these risks.

Broad risk matters, such as setting the Company's risk appetite and ensuring its fit with strategy, are matters for the full Board. However, certain risk management oversight responsibilities are delegated to Board Committees. The Board Committees meet regularly and report back to the full Board. All Board Committees foster open communication with the Board, which enables the Board to coordinate its oversight of risk and identify risk interrelationships between Committees.

Table of Contents

The Company allocates responsibility for managing risk as follows:

Overview of Risk Management Responsibilities

Board of Directors	Performs Company-wide risk oversight and identifies and monitors appropriate risk parameters.
Board Committees	Assist the full Board in carrying out its risk oversight function by considering risk in enumerated areas of responsibility.
Senior Management	Performs day-to-day risk management: Identification, assessment, and prioritization of risks. Application of resources to minimize, control, and mitigate risks.

The following Committees have the following risk oversight responsibilities:

Board Committee	Risk Oversight Responsibilities*
Audit and Compliance Committee	Oversees major areas of financial and compliance risk exposure.
Compensation Committee	Responsible for reviewing the Company’s risk assessment and risk management policies. Oversees risks relating to the Company’s compensation programs to ensure that these programs do not lead to excessive risk-taking by our employees and that employee interests are aligned with the interests of the Company’s stockholders, as discussed in more detail in the Risk Assessment section of this Proxy Statement on page 63.

Quality and Innovation
Oversees risks relating to the Company's compliance with quality systems and other legal and regulatory requirements related to product safety and quality and environmental, health and safety matters.

Committee

Oversees risks relating to the Company's strategy, activities, results and investment in product research and development and innovation initiatives.

* A detailed overview of each Committee's responsibilities can be found in the respective Committee charters on our website at www.allergan.com under the Investors' Corporate Governance section.

Leadership Structure

Our Board believes that Allergan's leadership structure must be considered in the context of its specific culture, circumstances, strategic objectives and challenges. Accordingly, our Board reevaluates its leadership structure annually to ensure that the most efficient and appropriate structure is in place for our Company's needs, which may evolve over time.

Our Corporate Governance Guidelines do not mandate whether the roles of Chairman of the Board and Chief Executive Officer should be combined or separate, but rather provide that when the Chairman is not an independent director, the Board shall specify a method for determining the agenda for, and leading, the non-management executive sessions of the Board, which may include appointing a Lead Independent Director.

The duties of the Lead Independent Director include:

Presiding at meetings of the Board at which the Executive Chair is not present, including executive sessions of the independent directors.

Having the authority to call meetings of independent directors.

Approving meeting agendas for the Board.

Approving meeting schedules for the Board to assure that there is sufficient time for discussion of all agenda items.

Approving presentation materials and other written information sent to the Board.

Being available for consultation and director communication with major shareholders.

Recommending the retention of advisers and consultants.

Serving as a liaison, where appropriate, between management and independent directors.

Performing such other duties as the Board may determine from time to time.

Over the last few years, and particularly with the sale of our Company's global generics and Anda Distribution businesses to Teva in August 2016 and October 2016, respectively, we have been transforming our Company into a focused global biopharmaceutical growth company. Given the ongoing transformation, and after carefully considering the critical issue of Board leadership, our Board determined that combining the roles of Chairman and Chief Executive Officer, and having a Lead Independent Director, is the most effective leadership structure for our Board and our Company at this time.

Effective October 26, 2016, Brenton Saunders, who has led our Company since becoming President and Chief Executive Officer in July 2014, has been elected Chairman of our Board of Directors. He replaced Paul Bisaro, who had served as Executive Chairman since July 1, 2014. Mr. Bisaro remains a member of our Board of Directors. In addition to the role of Chairman, Mr. Saunders retains his current role as President and Chief Executive Officer.

Also effective October 26, 2016, Christopher Coughlin, who joined the Board in July 2014 after serving as a member of the Board of Directors of Forest since 2011, has been elected Lead Independent Director. Our Board determined that with his depth of experience in biopharmaceuticals, his demonstrated skill in managing companies before, during and after significant corporate transformations, and his extensive service on public company boards, Mr. Coughlin is

well suited to serve as our Company's Lead Independent Director.

Board Evaluations

Our Board is committed to continuous improvement and recognizes the fundamental role a robust Board and Committee evaluation process plays in ensuring that our Board maintains an optimal composition and is functioning effectively.

Board Self-Evaluations

The Board, in conjunction with the Nominating and Corporate Governance Committee, conducts an annual self-evaluation of its effectiveness and to identify opportunities where an enhancement or change in practices may lead to further improvement. The Nominating and Corporate Governance Committee also uses this process to assess and determine the characteristics and skills required of prospective candidates for election to the Board.

Consistent with its charter (available on our website at www.allergan.com under the Investors Corporate Governance section), the Nominating and Corporate Governance Committee is responsible for the Board evaluation process. However, the evaluation is conducted by an independent third party facilitator with deep experience in corporate governance matters and assessments of board effectiveness.

Table of Contents

The Board self-evaluation process is as follows:

All directors provide responses to a questionnaire, and the independent third party facilitator interviews all directors on the following Board effectiveness topics:

Board Composition & Development	Access to Information
Meeting Dynamics	Interaction with Management
Leadership & Individual Contributions	

Additionally, the independent third party facilitator seeks feedback on the effectiveness of the Board's oversight on the following key areas:

Strategic Planning and Goal Setting	HR Matters
Fostering Innovation	Risk Oversight
Operational Matters	Governance
Financial Matters	

The results of the interviews and the scores provided on the series of questions are analyzed and presented to the full Board in a report that includes both key strengths in Board effectiveness and opportunities for enhancing Board effectiveness.

The Board discusses the report presented by the independent third party facilitator and chooses one or two priorities (or more, if warranted by the report) to focus on in order to increase its effectiveness. A leader (either from the Committee or from management, as appropriate given the subject matter) is assigned to each priority.

The Nominating and Corporate Governance Committee uses the results of the evaluation in determining the characteristics and skills required of prospective candidates for election to the Board. It also uses these results to make recommendations to the Board with respect to assignments of Board members to various Board Committees.

Individual feedback for directors is delivered by Board leadership to help facilitate the contributions of every director to the Board at his/her highest capability.

Committee Self-Evaluations

Each Committee of the Board – the Audit and Compliance Committee, Compensation Committee, Nominating and Corporate Governance Committee, and Quality and Innovation Committee – annually evaluates its performance as a Committee.

The evaluation process is similar to that of the Board and is also facilitated by an independent third party. Each Committee’s evaluation is focused on the Committee’s effectiveness in performing its key functions.

The Chair of each Committee reports the respective Committee’s conclusions to the Board and may make recommendations for improvement to the Board.

BOARD AND COMMITTEE GOVERNANCE

Succession Planning

Our Board of Directors recognizes that one of its most critical responsibilities is to guarantee excellence and stability in our Company's senior leadership. As a result, our Board is actively engaged in talent management. Our Board oversees the development of executive talent and plans for the succession of the Chairman of our Board, our directors, our Chief Executive Officer and other senior members of executive management.

Board Succession Planning

The Nominating and Corporate Governance Committee considers the critical needs of the Company regularly, taking into account the results of the annual Board of Directors and Committee evaluations and other relevant data to assess Board skills and the leadership capabilities of existing directors to ensure that there are sitting directors who are ready to fill the roles of Chairman, Lead Independent Directors and Chair of each of our Committees should one of those directors vacate his or her position unexpectedly.

Chief Executive Officer Succession Planning

Our Board of Directors is responsible for the selection of our Chief Executive Officer. In connection with its preparation of short- and long-term succession plans for the Chief Executive Officer, including in the event of unanticipated vacancy, our Board of Directors regularly reviews leadership development initiatives and identifies and periodically updates the skills, experience and attributes that they believe are required to be an effective Chief Executive Officer in light of the Company's business strategy, prospects and challenges.

Shareholder Engagement

Our Board of Directors believes that regular, open communication with our shareholders is critical to our Company's long-term success. We recognize the importance of listening to and taking into account the views of our shareholders on performance, governance, environmental, social, executive compensation and other matters, and our Board is committed to understanding Company shareholders' views and considering their input as the Board and management makes important decisions.

This is why Allergan includes an extensive outreach program that establishes and cultivates investor relationships as part of its governance program. This outreach is conducted in accordance with the following process:

**2017 ANNUAL PROXY
STATEMENT**

Table of Contents

Consistent with our strong focus on attaining and understanding shareholder feedback, senior management, and from time to time certain independent members of our Board, engaged extensively with our shareholders following our 2016 Annual General Meeting of Shareholders. We held in person or telephonic meetings with shareholders representing approximately 37% of the Company's outstanding ordinary shares. Discussions focused on our Company's performance, executive compensation program, environmental and social responsibility activities, our Board's independent oversight of management, our Board's composition, succession planning, risk management and other critical issues. All feedback was shared with our Board and with the relevant Committees for their consideration.

Feedback from our 2016 shareholder engagements was shared with our full Board of Directors and its Committees, and included in discussions and deliberations as appropriate. As a result of the feedback received over the course of the last year, the Board:

Formalized the duties and responsibilities of our Lead Independent Director with consideration for the specific feedback we received from our shareholders.

Updated our Corporate Governance Guidelines to reflect the formalized Lead Independent Director role.

Improved the disclosure of our incentive plan performance measures.

Enhanced transparency of our executive compensation program and Compensation Committee decision making elements throughout the Compensation Discussion and Analysis section of this Proxy Statement.

We appreciate the feedback of our shareholders and we are committed to ongoing constructive dialogue with our shareholders throughout the year.

Board Meetings

During the fiscal year ended December 31, 2016, the Board of Directors of Allergan plc held nine Board meetings. Each incumbent director attended at least 75 percent of the combined total of (i) all Board of Directors meetings and (ii) all meetings of Committees of which such director was a member. We do not have a policy with regard to Board members' attendance at our Annual General Meeting of Shareholders. Ten members of the Board of Directors then in office attended our 2016 Annual General Meeting of Shareholders.

Executive Sessions

We schedule regular executive sessions in which all of the directors meet without management participation. We also schedule regular executive sessions in which only independent directors meet. Mr. Coughlin, who was elected Lead Independent Director in October 2016, chairs executive sessions of the independent directors of the Board. Prior to Mr. Coughlin's election as Lead Independent Director, Ms. Klema, the then Lead Independent Director, chaired executive sessions of the independent directors of the Board.

Committees

The Board of Directors has four standing Committees: the Audit and Compliance Committee, the Compensation Committee, the Nominating and Corporate Governance Committee and the Quality and Innovation Committee.

Each Committee:

Operates in accordance with a written charter adopted by the Board (published on our website at www.allergan.com under the Investors Corporate Governance Committee Charters section).

Reviews its charter on an annual basis.

Evaluates its performance on an annual basis.

Director Compensation

Pursuant to the terms of our director compensation program adopted in 2015 (the **2015 Program**), all members of the Board of Directors who were not full-time employees of the Company receive an annual cash retainer equal to \$125,000, paid at the time of our Annual General Meeting of Shareholders. Our Lead Independent Director also receives an additional annual fee of \$50,000. As compensation for serving as Committee Chair, (i) the Chair of the Audit and Compliance Committee receives an additional annual fee of \$30,000 and (ii) the Chair of each of our other Committees receives an additional annual fee of \$24,000. In addition, all directors received a grant of restricted stock units valued at approximately \$250,000 on May 5, 2016, the date of our 2016 Annual General Meeting of Shareholders. These awards will vest at the earlier of (1) the date of our 2017 annual meeting or (2) May 4, 2017.

Effective August 8, 2016, the Board of Directors adopted a revised director compensation structure (the **2016 Program**). Pursuant to the 2016 Program, we increased the cash retainer for each director from \$125,000 to \$150,000, and increased the target value of our restricted stock unit grant for each director from \$250,000 to \$300,000. The additional compensation we provide for serving as Lead Independent Director or as a Committee Chair remained unchanged from the 2015 Program. On account of this revised structure, each of our non-employee directors received a cash payment of \$25,000 on August 8, 2016, equal to the incremental increase in our annual fees. Additionally, on August 8, 2016, each of our non-employee directors received a grant of restricted stock units valued at approximately \$50,000. These awards will vest at the same time as our May 5, 2016 grant.

Messrs. Saunders and Bisaro, who were also employed by us during 2016, did not receive additional compensation for their service as directors during 2016. Mr. Bisaro ceased his employment with the Company effective January 1, 2017, and will be compensated during 2017 for his service as a director starting at such date. For a discussion of the treatment of his equity awards upon his employment termination, see page 70 of the Compensation Discussion and Analysis section of this Proxy Statement.

For 2016, we ceased providing any tax assistance or equalization support for our directors. Previously, the Company provided gross-ups for expense reimbursements and tax equalization support on account of differences in

Table of Contents**BOARD AND COMMITTEE GOVERNANCE**

Irish and home country tax rates. However, as expense reimbursements are no longer subject to payment of Irish tax under an interpretation by the Irish Revenue authorities, the Company ceased providing any gross-up in connection with expenses for 2016, whether in Ireland or in a director's home country. Additionally, we felt it was also in the Company's and our shareholders' best interests to cease providing tax equalization support. Therefore, as of 2016, all of our non-employee directors are now solely liable for any taxes associated with their compensation.

In order to better align the interests of our Board with those of our shareholders in a fair and reasonable manner, as well as to align with what we believe is a corporate governance best practice, we maintain share ownership guidelines for our senior executives and directors. Our ownership guidelines require our directors to hold shares in the Company in an amount at least equal in value to five times their annual base director's fee. Under our guidelines, restricted shares, as well as vested shares owned by a director, are included in the calculation. Each of our directors, other than our newly appointed director, Adriane Brown (effective February 1, 2017), is currently in compliance with the Company's share ownership guidelines.

As of December 31, 2016, each of our non-employee directors held 1,389 outstanding unvested restricted share units. Corporate Political Contributions

Public Policy Engagement & Disclosure of Political Activities

Our Board of Directors believes that informed public policy plays a critical role in our ability to achieve our goal of pursuing medical advances to help patients live life to its fullest potential. Therefore, two of our U.S. subsidiaries, Allergan, Inc. and Allergan USA, Inc. engage in various efforts to advance public policies that support healthcare innovation and improve patient access to needed medical treatments while also advocating for a fair, free market system that will provide the best environment for continued innovation.

These efforts include direct and indirect engagement with and advocacy before federal, state and local government officials, sponsoring a federal political action committee, contributing to state and local candidates and committees where permitted, and supporting and participating in industry and trade organizations. We believe that such public policy engagement is an important and appropriate role for companies in open societies when conducted in a legal and transparent manner.

Our public policy priorities and positions are determined in consultation with the Company's business operations and are approved by our senior management.

Lobbying

In the U.S. in 2016, the top issues that our Company lobbied at the federal level included:

Allergan's Social Contract with Patients.

Intellectual property reform.

Table of Contents

Implementation issues related to the Affordable Care Act.

Incentives for anti-microbial research.

Patient safety concerns related to drug compounding and counterfeit medicines.

In each state where we engage in lobbying, we comply with that state's specific lobbying registration, disclosure and other compliance requirements. For 2016, our state lobbying efforts were focused predominately on eleven states: Arizona, California, Georgia, Florida, Illinois, Massachusetts, New Jersey, New York, Ohio, Oregon, and Texas.

In the U.S. in 2016, the top issues that our Company lobbied at the state level included:

Allergan's Social Contract with Patients.

Patient access to prescription medicines.

Patient safety concerns related to drug compounding and counterfeit medicines.

Interchangeability of biosimilars.

Price transparency disclosure requirements.

In the U.S., a range of lobbying registration and disclosure laws exist with which we comply. At the federal level, we comply with the Lobbying Disclosure Act, which requires us to file quarterly reports with the U.S. Congress to disclose the issues we are lobbying and the amount we spend doing so. These reports call for the disclosure of the expenses associated with lobbying the federal government, including those incurred by our Government Affairs team and non-lobbyist employees, amounts paid to outside lobbying firms and consultants and the portion of our trade association dues attributable to those associations' federal lobbying. For calendar year 2016, we reported total U.S. federal lobbying expenditures of \$2,780,000 and state lobbying expenditures of \$2,000,000.

Industry & Trade Association Memberships

Additionally, Allergan is a member of industry and trade groups that represent both the pharmaceutical industry and the business community at large so that we may participate in bringing about consensus on broad policy issues that can impact our business objectives and ability to serve patients. Allergan's membership in these industry and trade groups comes with the understanding that, although we may not always agree with the positions of the larger organizations and/or other members, we are committed to participating in the discussions and voicing our concerns as appropriate through our colleagues who serve on the boards and committees of these groups. We may even recuse

ourselves from related association or industry group activities if our participation would not advance Allergan's interests.

A list of the major industry and trade groups that we support (over \$25,000 annually) is available on our website at www.allergan.com under the Responsibility Social Responsibility Public Policy section.

Political Contributions

While U.S. federal law prohibits corporations from making political contributions to federal candidates, companies can establish political action committees that are funded solely through voluntary employee contributions. The Allergan, Inc. Political Action Committee (the *Allergan, Inc. PAC*) provides eligible employees a direct means to voluntarily participate in the political process that can affect public policy issues of importance to our business interests.

The Allergan, Inc. PAC operates in accordance with all relevant federal and state laws and contributes to candidates from both parties. When selecting candidates to support, priority is given to candidates who understand business issues of importance to Allergan, as well as to candidates who represent states or districts where the company has facilities or employees. Contributions are always made in the best interest of the company and are never made in recognition of the private political preferences of company executives. Input from Allergan employees who participate in the Allergan, Inc. PAC is considered when selecting candidates to support, but all contribution

recommendations must be approved by the Allergan, Inc. PAC Treasurer. All Allergan, Inc. PAC contributions are publicly disclosed via reports which are available on the Federal Election Commission's Web site at www.fec.gov.

In certain jurisdictions where doing so is permitted, Allergan makes corporate contributions to support election campaigns, political action committees, party committees and ballot measure committees. Allergan supports state candidates from both parties and applies the same criteria as with the Allergan, Inc. PAC in selecting which recipients to support. On a semi-annual basis, we make available a list of all corporate state and local political contributions made to support candidates, committees, political parties and ballot measure committees available on our website at www.allergan.com under the Responsibility Social Responsibility Public Policy section.

Compliance

We believe that our efforts to influence public policy and its participation in the political process are critical to advancing the company's interests. We are also firmly committed to doing so only in a legal and transparent manner. Our contributions and our policies and practices in this area are reviewed and overseen by the Audit and Compliance Committee, in addition to management oversight of these policies and activities.

All of our employees must abide by our global Code of Conduct, which defines the way we conduct our affairs with each other, with our stakeholders and with external parties. The Code of Conduct applies to our interactions with government officials, including our advocacy activities on public policy issues, and is intended to ensure that all information that we provide to government officials and entities is complete and accurate to the best of an employee's knowledge and belief.

We also have a Code of Business Conduct and Ethics that prohibits our employees from using corporate funds or other resources for political purposes without prior approval by the Company. Our corporate policy on ethical business practices includes guidelines conforming to the U.S. anti-kickback laws and Foreign Corrupt Practices Act, making clear that no illegal payments of any kind (monetary or otherwise) are to be offered or made to individuals or entities including local, state or federal government or political party officials or candidates in the U.S.; government or political party officials or candidates of any other nation; or officials of public international organizations at any time or under any circumstances.

To ensure compliance with these policies and federal and state law, outside legal experts provide periodic guidance to our company on required disclosure of its political activities. We also perform periodic audits to assess and enforce compliance with our policy governing our corporate and PAC contributions.

levels of employment engagement and satisfaction, with no marked decreases in satisfaction metrics from prior surveys. We anticipate continuing the practice of pulse checks throughout 2017.

Additionally, we have put in place a talent management plan that provides opportunities for our leaders to focus on their growth through a blend of performance management, individual development plans, and a variety of learning options that are focused on building key skills for our future, including:

The implementation of a Performance Management program that enables, encourages, and rewards our colleagues to deliver exceptional results and includes annual development goal setting that is linked to the Company's strategic goals as articulated by senior management.

A strong commitment to building our talent pipeline through robust succession planning and identification of high potential talent.

BOARD AND COMMITTEE GOVERNANCE

Our Social Contract

On September 6, 2016, our Chief Executive Officer made unprecedented commitments to uphold our Social Contract with Patients (our *Social Contract*). Our Board of Directors has affirmed its commitment to the Social Contract.

Our Board of Directors recognizes the strong connection between our Social Contract and the role it plays in the corporate governance of the Company, and believes that adhering to the four principles of the Social Contract is key to our Company's success, as it enables our Company to fulfill our responsibilities to patients which, in turn, fuels our ability to generate return for our shareholders. The four principles of the Social Contract are:

Principle 1: Invest & Innovate

We commit to investing, at risk, billions of dollars to develop life-enhancing innovations.

We will do so in the U.S. and around the world, and use our Open Science model to access promising inventions that exist outside of Allergan.

This is our responsibility as part of our social contract with people who are hoping for a better, healthier life.

Principle 2: Access & Price

We commit to making these branded therapeutic treatments accessible and affordable to patients.

We commit to working with decision makers and intermediaries to make our products accessible to all people who need them.

We commit to pricing our products in a way that is commensurate with, or lower than, the value they create.

We will not engage in price gouging actions or predatory pricing and will limit price increases; where we increase price on our branded therapeutic medicines, we will take price increases no more than once per year and, when we do, they will be limited to single-digit percentage increases.

Principle 3: Quality & Safety

We commit to intensely monitoring the safety of our medicines, before they are approved by regulators and after they enter the market.

We commit to promptly reporting and acting on new safety data.

We commit to maintaining high standards of quality for each of our products and to maintaining a continuous supply of our medicines.

Principle 4: Education

We commit to appropriately educating physicians about our medicines so that they can be used in the right patients for the right conditions.

We take pride in doing this well because outcomes matter to everyone.

Our Board's structure and composition encourages thoughtful consideration of the four principles, as well as oversight of management's implementation of the Social Contract, as our Board members bring the perspective of all stakeholders to this discussion, including practicing physicians, private insurers, retail pharmacy, pharmacy benefit managers, major healthcare systems, pharmaceutical companies and non-profit patient groups.

More information on our Social Contract can be found at www.allergan.com under the Responsibility Social Contract section.

Proposal No. 2 Non-binding Vote on the Compensation of Our Named Executive Officers (Say-on-Pay-Vote)

Background

Pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, we are providing our shareholders the opportunity to vote to approve, on an advisory (non-binding) basis, the compensation of our Named Executive Officers as disclosed in this Proxy Statement. The Company has determined to hold such say-on-pay advisory vote every year and following the 2017 Annual General Meeting of Shareholders expects to hold its next non-binding say-on-pay vote at the 2018 Annual General Meeting of Shareholders.

Summary

In accordance with Section 14A of the U.S. Securities and Exchange Act of 1934 (the *Exchange Act*), we are asking our shareholders to provide advisory (non-binding) approval of the compensation of our Named Executive Officers (which consist of our Chief Executive Officer, Chief Financial Officer and our next three highest paid executives), as such compensation is described in the Compensation Discussion and Analysis section, the tabular disclosure regarding such compensation and the accompanying narrative disclosure set forth in this Proxy Statement, beginning on page 45. Our executive compensation programs are designed to enable us to attract, motivate and retain executive talent, who are critical to our success. These programs link compensation to the achievement of pre-established corporate financial performance objectives and other key objectives within each executive's area of responsibility and provide long-term incentive compensation that focuses our executives' efforts on building shareholder value by aligning their interests with those of our shareholders. The following is a summary of some of the key points of our executive compensation program. We urge our shareholders to review the Compensation Discussion and Analysis section of this Proxy Statement and executive-related compensation tables for more information.

Performance-Based Compensation. Our executive compensation program includes (i) cash awards that are linked to measurable annual individual, business and strategic objectives and corporate financial goals; and (ii) performance-based equity incentives that are directly linked to the creation of long-term, sustainable shareholder value.

Long-Term Compensation. Grants of performance share units and stock options are intended to align the interests of executives with our shareholders and focus executives' attention on long-term growth. In addition, even after performance awards are earned, they continue to be subject to service vesting requirements to promote executive retention and a longer-term perspective.

Independent Compensation Consultation. The Compensation Committee has engaged an independent global executive compensation consulting firm, Steven Hall & Partners, to advise the Committee on matters related to executive compensation.

Resolution

RESOLVED, that the compensation of Allergan's Named Executive Officers, as described in the Compensation Discussion and Analysis, compensation tables and narrative discussion set forth in this Proxy Statement, be and is hereby approved.

Board Recommendation

The Board of Directors unanimously recommends that shareholders vote *FOR* adoption of the resolution approving, on an advisory (non-binding) basis, the compensation of the Company's Named Executive Officers, as described in the Compensation Discussion and Analysis, compensation tables and narrative discussion set forth in this Proxy Statement.

Our Board of Directors believes that the information provided above and within the Compensation Discussion and Analysis section of this Proxy Statement demonstrates that our executive compensation program was designed appropriately and is working to ensure that management's interests are aligned with our shareholders' interests to support long-term value creation.

Required Vote

A simple majority of votes cast at the Annual Meeting is required to approve, on a non-binding basis, the compensation of our Named Executive Officers.

Abstentions and broker non-votes will not have any effect on the outcome of this proposal because neither an abstention nor a broker non-vote represents a vote cast.

The say-on-pay vote is advisory, and therefore not binding on the Company, the Board of Directors or the Compensation Committee. However, the Board of Directors and the Compensation Committee will consider the outcome of the vote in deciding whether to take any action as a result of the vote and when making future compensation decisions for Named Executive Officers.

Executive Summary

2016 Business Highlights

A Year of Transformation While Maintaining Strong Business Performance

In 2016, we experienced another year of tremendous transformation as we continued to build Allergan into a focused global biopharmaceutical growth company. We focused on operational excellence and, with the sale of the global generics business, we revisited our capital allocation strategy to ensure that we are deploying capital in a way that maximizes shareholder value creation from the proceeds from that sale that we received from Teva. The strong operational foundation we have built, which is highlighted below, puts us on solid footing to maximize our value.

The achievement of the strong operational results highlighted below is especially significant this year. Concurrent with running the business, we also:

Sold our global generics business – one of the most complex divestitures in the industry – and Anda Distribution business for a combined sale price of approximately \$39 billion, impacting 16,700 employees; 56 of our 76 plants, warehouses and distribution centers; and 16 of our 26 R&D sites.

Continued integration from previous transformative deals – the acquisition of Forest and Allergan.

Successfully managed pre-integration activities and the termination of our planned merger with Pfizer.

Completed 10 stepping stone (Open Science) deals.

Announced our Social Contract with Patients, making us a leader within the pharmaceutical industry by pledging to price treatments in a way that makes them accessible and affordable to patients while intensely monitoring their quality and safety, and educating physicians on their proper use.

Alignment of Pay and 2016 Performance

Our short- and long-term incentive compensation programs are designed to closely align payouts with our financial and/or share price performance as well as the individual performance of our NEOs. Our program goals are directly tied to our strategic goals of (1) top- and bottom-line growth and (2) share price appreciation. As demonstrated below, while we were successful on our bottom-line targets in 2016, we missed our objective for top-line growth. As a result, the financial performance under our annual performance bonus, and resulting payout to our CEO, were below target.

In addition, as a result of our share price performance over the previous year, our long-term incentives are all below target levels of performance.

COMPENSATION DISCUSSION AND ANALYSIS

Annual Bonus: For the 2016 performance year, the financial metrics used to determine the corporate financial performance factor were 50% Net Revenue and 50% Non-GAAP Performance Net Income Per Share. These were chosen to align to our philosophy of driving top- and bottom-line growth. In 2016, we exceeded our goal for Non-GAAP Performance Net Income Per Share but did not meet our Net Revenue goal. As a result, annual incentive awards to our NEOs were significantly lower than in prior years. See page 52 for additional details on the 2016 Annual Incentive Plan.

Long-term Incentives: Share price growth both absolute and relative have been the primary performance measures included in our long-term awards. While we recognized the importance of measuring operating performance, and included those measures in our annual bonus plans, the Compensation Committee chose shareholder return because it incentivizes actions that drive sustainable share-price performance through long performance measurement and vesting periods. Additionally, share price performance has provided a durable performance measure during this period of tremendous transformation.

While our three- and five-year stock price performance remained strong at 25% and 248%, respectively, the performance over the one year ended December 31, 2016 was -33%. See page 8 for a discussion of our 2016 share price performance. The chart below illustrates the strong correlation between our stock price performance, both on an absolute and relative basis, and potential payouts under each of our in-progress long-term incentive awards.

The charts below indicate the value of our in-cycle long-term incentive awards calculated as of year-end 2016 (assuming the performance period ended on this date) versus the target opportunity. The payout of these awards is linked directly to our share price performance as shown above. Actual performance will be determined upon the completion of the applicable performance period.

Table of Contents**Impact of 2016 Say on Pay Vote & Shareholder Engagement**

At our 2016 Annual General Meeting of Shareholders, we provided shareholders with the opportunity to cast an annual non-binding advisory vote on executive compensation. Of the votes cast on this 2016 say-on-pay vote, 52% were in favor of the proposal. We were disappointed in the results and sought to learn more about our shareholders perspectives on our executive compensation program. We understand from our shareholders feedback that our decision to provide change-in-control tax gross-ups in connection with the Pfizer transaction was a key driver of the vote for many of our shareholders who did not vote in favor of the proposal in 2016, particularly given the 85% favorable say on pay voting results for 2015 where many of the same programs were in place. These excise tax gross-up arrangements were put in place solely for the Pfizer transaction due to the very specific circumstances of that deal, and because the deal was terminated, the arrangements were by their terms rescinded and are no longer in place.

Following this result at our 2016 Annual General Meeting of Shareholders, senior management, and from time to time certain independent members of our Board, contacted shareholders to discuss and obtain additional shareholder feedback on a variety of topics. We conducted calls and meetings with shareholders who collectively owned over 37% of our outstanding ordinary shares. In addition to the specific discussions around our executive compensation program, topics discussed included our strategy and performance; corporate governance matters such as Board composition and refreshment, succession planning and our Board leadership structure; capital allocation; and our Social Contract with Patients. Shareholder feedback from these engagements was shared with the Board and its Committees so that they could discuss and consider the significant comments or concerns that are identified.

A summary of the additional feedback received and the actions taken is set forth below:

What We Heard

Do not provide change-in-control excise tax gross-ups

More clearly articulate how our program design is aligned to our strategy

Improve disclosure on how we make annual bonus decisions

Provide more clarity on our performance metrics for outstanding incentive awards

Consider use of operational metrics, especially R&D, in long-term incentive awards

What We Did

We do not have excise tax gross-ups. The excise tax gross-up arrangements that were put in place due to the very specific circumstances of the Pfizer transaction were automatically voided once the transaction was terminated. Included on page 50 are details on how each element of our pay is designed to align to our philosophy and strategy.

Provided clearer description of our 2016 financial performance and individual performance of our CEO and other NEOs on page 53.

Included on page 47 is a summary of performance metrics for all of our outstanding programs, including period-to-date performance as of December 31, 2016.

We previously front-loaded awards for our CEO and other NEOs for 2015 2017 (as summarized on page 57), so we did not make new long-term incentive grants in 2016. However, we are incorporating investor feedback as we design our new long-term incentive program. In particular, we will consider the inclusion of an operating goal focused on R&D in our new incentive program.

In addition to the actions above, in October 2016 we adjusted the composition of our Compensation Committee and also retained a new independent compensation consultant (as described below). As a result of these changes, Catherine Klema was appointed chairperson of the Compensation Committee, replacing Ron Taylor, and Dr. Peter McDonnell was appointed as a new Committee member. While these modifications were not made in response to specific shareholder feedback, we felt it was important to obtain a new perspective on our pay programs.

Our relationship with Allergan's shareholders is an important part of our Company's success and we are committed to continuing to engage with our shareholders in constructive and meaningful dialogue throughout the year.

COMPENSATION DISCUSSION AND ANALYSIS

Determination of Compensation

The Compensation Committee makes all compensation decisions regarding senior management, which includes our NEOs and certain other senior officers of the Company. The Compensation Committee considered the recommendation of both the CEO and our former Executive Chairman in determining the compensation of the other NEOs.

For the beginning of 2016, the Compensation Committee continued to retain F.W. Cook, an independent executive compensation consulting firm, to advise the Compensation Committee on matters related to CEO and other executive compensation with respect to 2016. Starting in October 2016, the Compensation Committee has engaged Steven Hall & Partners as its independent compensation consulting firm.

COMPENSATION DISCUSSION AND ANALYSIS

Our annual compensation program is highly sensitive to performance. The following illustrates the key direct compensation components for our CEO and other NEOs as a percentage of their 2016 total target direct compensation opportunities:

COMPONENTS OF CEO PAY **COMPONENTS OF OTHER NEO PAY**
(AVERAGE)

Base Salary

Base salary provides our NEOs with a degree of financial certainty and stability; however, as shown above, the focus of our program is on variable at-risk pay. For 2016, base salary represented 7% of the target annual pay opportunity for our CEO, and 13% for our other NEOs.

In setting base salaries and determining base salary increases for our NEOs, the Compensation Committee takes into account a variety of factors, including:

Level of responsibility.

Individual and team performance.

Internal review of the NEO's total compensation, individually and relative to our other officers and executives with similar responsibilities within the Company.

General levels of salaries and salary changes relative to other officers and executives with similar responsibilities at peer group companies.

Salary levels are typically reviewed annually as part of our performance review process as well as upon a promotion or other change in job responsibility. Increases to the salaries of our NEOs are based on the Compensation Committee's and the CEO's assessment (other than for himself) of the individual's performance and market conditions.

Based on its annual review of executive officer compensation levels and opportunities, the Compensation Committee approved minimal market adjustments of 3% to base salaries for our CEO and our other NEOs. Our former Executive

Chairman did not receive a salary adjustment in 2016. Additionally, in connection with his promotion to the role of Chief Commercial Officer (from President, North American Brands), Mr. Meury received an additional adjustment in May 2016 of approximately 24% to more closely align his salary to market levels for this expanded role.

Table of Contents

The base salaries for our CEO and other NEOs during 2016 are set forth in the following table:

Name	2015	2016	Change
	Base Salary	Base Salary	
	(\$)	(\$)	(%)
Brenton L. Saunders	\$ 1,000,000	\$ 1,030,000	3%
Paul Bisaro	\$ 750,000	\$ 750,000	0%
Maria Teresa Hilado	\$ 625,000	\$ 643,750	3%
William Meury ¹	\$ 625,000	\$ 800,000	28%
Robert A. Stewart	\$ 715,000	\$ 736,450	3%

1. Mr. Meury received a 3% salary adjustment in March 2016 (from \$625,000 to \$643,750), and an additional 24% adjustment in May 2016 (from \$643,750 to \$800,000) in connection with being named our Chief Commercial Officer, resulting in a year-over-year increase of 28%.

Annual Incentive Awards

Annual cash incentive awards are an important feature of our performance-based compensation program. Annual cash incentive awards to our NEOs are made under our 162(m) Plan, which the Company adopted and our shareholders approved in 2012. The 162(m) Plan is intended to allow, but does not require, incentive compensation payable under such plan to qualify as performance-based compensation and therefore be tax-deductible by the Company under Section 162(m) of the Internal Revenue Code (**Section 162m**). See **Tax Deductibility of Compensation** on page 63 for further information regarding Section 162(m).

For 2016, the maximum award for each participant under the 162(m) Plan continued to be based on a percentage of the Company's operating income¹, as defined in the 162(m) Plan (3.0% for Messrs. Saunders and Bisaro and 2.0% for each of our other NEOs), with a cap of \$7,000,000 payable to a participant in any given year. Under the 162(m) Plan, the Compensation Committee has the discretion to reduce the bonus amounts payable to our NEOs based on factors determined to be appropriate, including the achievement of performance goals applied under our Company-wide annual incentive plan (the **AIP**), as described below. The majority of our non-field-based employees participate in the AIP.

The Compensation Committee's practice has been to exercise negative discretion from the calculated 162(m) Plan maximum award payable to each NEO by applying the AIP performance goal(s) in making its determination of the actual award amount paid. This approach is not purely formulaic, however, as the Compensation Committee also considers the contributions of each participant to our success during the performance period and other factors it deems appropriate. The Compensation Committee cannot increase the calculated 162(m) Plan maximum award payable and can only reduce it. Annual cash incentive awards are typically paid in March of the year following the 162(m) Plan performance period.

We are asking our shareholders to approve the material terms of the performance goals, including the annual plan maximum payment, for awards under 162(m) Plan again this year, as described in more detail in Proposal No. 5 of this Proxy Statement on page 80, so that we can continue to ensure our ability to grant tax deductible annual bonuses.

¹¹ *Operating income is defined as the Company's operating income determined in accordance with GAAP plus, without duplication and only to the extent such amount represents a charge or expense determined in accordance with GAAP and reflected in the operating income of the Company and regardless of classification within the Company's statement of income, the sum of (a) depreciation and amortization expense; (b) asset impairment charges; (c) charges associated with the revaluation of material contingent liabilities that are based in whole or in part on future estimated cash flows; (d) business restructuring charges; (e) costs and charges associated with the acquisition of businesses and assets including, but not limited to, milestone payments and integration charges; (f) litigation charges and settlements; (g) losses and expenses associated with the sale of assets; minus (h) gains or income of a nature similar to items (a) through (g) above. With respect to each of (a) through (h), such amounts are as identified in the Company's financial statements, notes to the financial statements, or management's discussion and analysis with respect to the financial statements as filed with the SEC.*

COMPENSATION DISCUSSION AND ANALYSIS

2016 Annual Incentive Target Amounts

The Compensation Committee determined individual incentive award levels and corporate financial and individual performance goals, which were based on performance during the full 2016 calendar year.

For 2016, Mr. Meury's target bonus opportunity was increased to 110% of his base salary from 100% in 2015. The Compensation Committee made this change in connection with his increased responsibilities in his new role as Chief Commercial Officer.

2016 Performance Goals

For 2016, the performance goals under the AIP, which were applied as part of the Compensation Committee exercising its negative discretion under the 162(m) Plan, consisted of a combination of corporate financial and individual performance goals for each of the NEOs.

Maximum performance under the AIP results in earning 225% of target payouts, taking into account the degree of achievement of financial and individual performance objectives and other factors the Compensation Committee deems relevant to its determination, which may include the Company's total shareholder return for the year both in relative and absolute terms. Threshold payouts are based on the minimum level of performance for which payouts are authorized and results in earning 25% of the NEO's target award.

Our 2016 Bonuses were calculated as follows:

Corporate Financial Performance	×		=	2016 Bonus Award
--	---	--	---	-------------------------

2016 Corporate Financial Performance

Corporate Financial Goals

For the 2016 performance year, the financial metrics used to determine corporate financial performance were Net Revenue and Non-GAAP Performance Net Income Per Share. The Compensation Committee determined that both Net Revenue and Non-GAAP Performance Net Income Per Share align our management team with our strategy to be a leading focused global biopharmaceutical growth company. Specifically, the Committee selected these metrics for the following reasons:

Metric	Rationale
Net Revenue	<ul style="list-style-type: none"> Incentivizes sustainable top line revenue growth. Focuses management on extending category leadership across therapy areas.
Non-GAAP Performance Net Income Per Share	<ul style="list-style-type: none"> Aligns with strategy of targeted geographic expansion. Aligns to investor expectations. Maintains a strong focus on profitability. Is easy to understand and communicate. Aligns with the market practice amongst our peers.

For the purpose of measuring corporate financial performance, **Non-GAAP Performance Net Income Per Share** means the reported GAAP measures as GAAP results adjusted for the following net of tax: (i) amortization expenses, (ii) global supply chain and operational excellence initiatives, (iii) acquisition, integration and licensing charges, (iv) accretion and fair market value adjustments on contingent liabilities, (v) impairment/asset sales and related costs, including the exclusion of discontinued operations, (vi) legal settlements and (vii) other unusual charges or expenses.

Table of Contents

Each of our financial performance metrics is equally weighted to determine overall Company Performance. For each of our financial performance metrics, we established threshold, target and stretch goals. Achieving our target goal results in 100% performance for that measure; threshold goal achievement results in 50% performance, and stretch achievement results in 150% performance. For performance in between these levels, we apply linear interpolation. No performance award for either goal may be earned for achievement below our threshold goal.

2016 Corporate Financial Achievement

Our 2016 financial performance measures were chosen to align to our philosophy of driving top- and bottom-line growth. Our target revenue goal required industry leading double-digit revenue growth, with threshold performance requiring high single-digit growth. As highlighted above, while we delivered strong operational results, as measured against our rigorous goals, this performance resulted in 82% financial performance.

Metric ⁽¹⁾	Weighting	Performance		Threshold	Target	Stretch	Actual	Resulting
		Range		Goal	Goal	Goal

2016 Individual Performance**2016 Individual Goals for our CEO and former Executive Chairman**

The Compensation Committee also recognizes that individual performance is a key element to consider in determining the overall cash incentive award payable to an executive. To this end, our CEO reviews the performance of each of our NEOs (other than himself and Mr. Bisaro) on the basis of specific objectives and subjective factors and makes recommendations to the Compensation Committee on final award amounts. The CEO's and our former Executive Chairman's awards are subject to a similar adjustment based on their individual performance, respectively, which is determined by the Compensation Committee.

2016 Individuals Goals For Our Other NEOs

In consultation with the Compensation Committee, our CEO and Executive Chairman assigned specific individual performance goals for 2016 to our other NEOs that were tailored to the scope and nature of their responsibilities.

2016 was a year of tremendous transformation as we took major steps to position Allergan as a focused global biopharmaceutical growth company. Our CEO and current Chairman, Brent Saunders, and our former Executive Chairman, Paul Bisaro, demonstrated extraordinary leadership in successfully guiding our Company through a pivotal year that positions us well for 2017 and beyond. Both Mr. Saunders and Mr. Bisaro surpassed the individual performance goals set out for them as our Company exceeded expectations on a number of strategic initiatives and priorities, including achieving sustainable top- and bottom-line growth, advancing our pipeline, maintaining industry leading margins and allocating capital to maximize shareholder return. In addition to the Company performance highlights provided earlier in this Compensation Discussion and Analysis, the Compensation Committee considered the following key accomplishments that reflect the leadership of Mr. Saunders and Mr. Bisaro in assessing their individual performance:

Mr. Saunders Key Performance Highlights:

Completed one of the most complex divestitures in the industry with sale of the global generics business, and completed the divestiture of the Anda Distribution business, to Teva for a combined sale price of approximately \$39 billion, impacting 16,700 employees; 56 of our 76 plants, warehouses and distribution centers; and 16 of our 26 R&D sites.

Announced, executed and completed a \$15 billion share repurchase, including a \$10 billion accelerated share repurchase.

Enhanced the pipeline and built depth in several therapeutic areas (including NASH, Crohn's, Parkinson's and regenerative medicine).

Achieved industry leading customer service/backorder metrics.

Successfully managed the termination of the planned merger with Pfizer.

COMPENSATION DISCUSSION AND ANALYSIS

Long-Term Incentives

The Compensation Committee believes that long-term equity-based incentive awards provide a valuable tool for aligning the interests of management with our shareholders and focusing management's attention on our long-term growth. In addition, the Compensation Committee believes that equity-based awards are essential to attract and retain the talented professionals and managers needed for our continued success. Additionally, unlike several of our industry peers, Allergan does not provide a defined-benefit pension program. As such, we view our long-term incentive program as a valuable driver of retention and long-term wealth accumulation while still performance-based.

The Company currently maintains the shareholder approved Amended and Restated 2013 Incentive Award Plan of Allergan plc (the **2013 IAP**) and the Amended and Restated Allergan, Inc. 2011 Incentive Award Plan (the **Legacy Allergan Plan**). Shares available for issuance under the Legacy Allergan Plan may also be used to settle awards granted under the 2013 IAP, subject to certain limitations.

2014 Long-Term Incentive Award Grants

The Company typically makes our annual long-term incentive award equity grants in March each year; however, in July 2014, following the Forest acquisition, we front-loaded grants of performance share unit (PSU) and stock option awards to the NEOs those awards represented three years' worth of equity awards reflecting the applicable NEO's equity awards for 2015, 2016 and 2017. As a result, no new long-term incentive awards were granted to the NEOs in 2015 or 2016.

We believe that granting these awards covering three years' of equity award value immediately after this transaction provided the following benefits to us and our shareholders:

Created immediate shareholder alignment by emphasizing performance in the critical first years following our initial transformational actions.

Encouraged and rewarded sustained performance over the performance period.

Focused our new management team on one set of goals.

Provided retention of executives in an environment where there is heightened competition for talent with industry peers.

PSU awards may be earned based on the Company's TSR compound annual growth rate (*CAGR*) for the 39-month performance period from July 1, 2014 through September 1, 2017. Following the performance period, earned awards vest based on continued service with the Company, with 1/3 of the award vesting on each of December 31, 2017, 2018 and 2019. The number of PSUs that may be earned ranges from 0% to 300% of the target number granted, depending on performance (with linear interpolation between performance levels).

Table of Contents

Stock option awards vest 20% per year on each of the first, second, third, fourth and fifth anniversaries of the grant date.

(1) For the four consecutive quarters ended September 30, 2015, the Company's average closing share price was \$285.07. As a result, 25% of each participant's target PSU award was banked as described above. The banked portion remains subject to the service vesting conditions of the award and will be payable in accordance with the normal schedule as described above.

Legacy Actavis Performance Share Units

Our former Executive Chairman and our Chief Operations Officer, along with other senior executives at the time, received performance share unit awards in May 2014, with performance based on relative share price achievement measured against the components of the S&P 500 Healthcare Index with the same 4-digit GICS code as the Company. Performance was measured between January 1, 2014 and December 31, 2016, following which the Compensation Committee certified achievement and the earned awards vested. Target performance (100% vesting) required median relative total shareholder return. Maximum performance (150% vesting) required 75th percentile relative total shareholder return. No vesting occurred for performance below the 25th percentile. Performance between these levels was determined by linear interpolation.

The level of performance attained and number of units that vested are set forth below. During the performance period, we achieved the thirteenth highest total shareholder return of the 20 companies we measured our performance against, resulting in vesting of 70% of the awards.

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS**

Following this vesting, no remaining legacy Actavis performance awards remain in-cycle, allowing us to continue to simplify and create a uniform award program.

	Target Granted	Performance Range	Performance Achieved	Actual Vested
Executive	(#)	(%)	(%)	(#)
Paul Bisaro	10,149	0% - 150%	70%	7,105
Robert A. Stewart	3,383	0% - 150%	70%	2,369

Transaction Related Performance Based Awards

In connection with the closing of the Forest acquisition (July 1, 2014) and Allergan acquisition (March 17, 2015), members of our new senior management team, including each of the NEOs, were granted certain transaction related performance based awards pursuant to the terms of our 2013 IAP. The awards are intended to incentivize our executives to deliver superior performance during the critical years immediately following these transformative deals.

- (1) The synergy savings goal related to the Forest acquisition was achieved at a payout percentage of 190% of target (\$1.18B in savings vs. \$1B target), and the Compensation Committee had certified the achievement prior to the December 1, 2015 payout.
- (2) On August 2, 2016 the Compensation Committee approved an amendment to eliminate the Non-GAAP Performance Net Income Per Share goal (at that time, known as the Non-GAAP EPS goal) since the goal was no longer a suitable metric to measure performance following the sale of the global generics business to Teva. As a result of the amendment, the value that was to be measured based on Non-GAAP Performance Net Income Per Share goal is now also measured based on the relative total shareholder return goal, such that all amounts under the TIP Award will be earned solely based on achievement of the pre-established relative total shareholder return goal. At the time of the amendment relative TSR performance was below threshold.

Employee and Other Benefits

The NEOs are eligible to participate in a variety of retirement, health and welfare and paid time off benefits similar to, and on the same basis as, our other salaried, U.S.-based employees. Additionally, we provide our NEOs, along with our other executives, with a limited number of personal benefits that we believe have a business purpose and are reasonable and consistent with our overall compensation program and better enable us to attract and retain superior employees for key positions. The primary purpose of these additional benefits is to allow our executives to focus greater attention to important Company endeavors by helping them work more efficiently, minimizing distractions, and ensuring their safety and security. These benefits include:

Reimbursement of financial counseling and tax preparation up to a maximum of \$10,000 per year. We believe that it is important for executives to have professional assistance with managing their total compensation so that they can focus their full attention on growing and managing the business.

Limited personal use of Company aircraft and Company cars. We believe that these benefits provide a more secure travel environment for executives and allow them to devote additional time to Company business. To ensure his safety and security, Mr. Saunders is required by our Board of Directors to use the Company aircraft for all business and personal travel. Mr. Saunders is required to reimburse the Company to the extent the incremental cost of any personal travel exceeds \$200,000 in any calendar year. Mr. Bisaro is entitled to limited personal use of the Company aircraft not to exceed \$110,000 per year. Additionally, Mr. Saunders is provided with access to a dedicated Company car and driver. In 2015, Messrs. Bisaro and Stewart were provided with an annual car allowance. In 2016, the Compensation Committee eliminated this executive car allowance benefit, which is being phased out over a two-year period.

All taxes payable on the value of the benefits described above are borne by the recipient of such benefits.

Other Compensation Practices

Compensation Peer Group

The Compensation Committee reviews the elements of our compensation program, including executive officer compensation levels and opportunities as compared to those provided to similarly situated executives among a peer group of companies.

In setting the compensation for our NEOs and other senior executives, the Compensation Committee considers compensation survey data from independent third party sources as well as publicly available information. While we generally aim to set each NEO's target total direct compensation (base salary plus target annual cash incentive compensation plus the expected value of long-term incentive grants) within the levels paid to similarly situated executives in our peer group, such data is intended to serve as only one of several reference points to assist the Compensation Committee in its discussions and deliberations.

The Compensation Committee reserves flexibility to vary pay levels based on a variety of factors including the desired mix of variable and fixed pay elements, the NEO s overall performance and changes in roles or responsibilities.

The Compensation Committee included the pharmaceutical companies below in Allergan s peer group and used this list as a reference point for compensation-related decisions during 2016. In selecting the peer companies, the Compensation Committee weighed a number of criteria, including but not limited to the following:

Similar business complexity and product life-cycle.

Competitors for executive talent.

Competitors for investor capital.

Similar pay philosophies.

Comparable size to Allergan in terms of revenues and market capitalization.

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS**

While Allergan is smaller than most peers in terms of annual revenues following the sale of the global generics business in 2016, the peer companies remained relevant for the reasons cited above.

Share Ownership Requirements

Share ownership requirements support our strong ownership culture and ensure alignment of our senior management team with our shareholders over the longer term. We maintain a formal stock ownership policy, under which our CEO, Executive Chairman and other senior executives are required to acquire and hold Allergan shares in an amount representing a multiple of base salary.

As part of our executive compensation programs and policies, the Compensation Committee adopted share ownership requirements in 2015 for our CEO, Executive Chairman and other members of senior management as set forth below:

Role	Requirements
Chief Executive Officer	6 x base salary
Executive Chairman	6 x base salary
Other NEOs	4 x base salary

Additionally, executives are required to retain in stock 100% of the after-tax net proceeds associated with stock option exercises and/or PSU and restricted stock unit (RSU) distributions until the designated multiple of base salary is reached.

Table of Contents

The following table sets forth the stock ownership guidelines and current holdings for the CEO, Executive Chairman, and the other NEOs as of December 31, 2016, assuming a stock price of \$210.01.

Under the policy, shares counted toward the share ownership requirements include: (i) vested ordinary shares held of record or in a brokerage account by the individual or his or her spouse; and (ii) vested unexercised stock options. Unvested RSUs and PSUs do not count toward satisfaction of the ownership requirements.

Prohibitions on Hedging and Pledging of Our Shares

Our insider trading policy prohibits any NEO or any other officer or employee subject to its terms from entering into short sales or derivative transactions to hedge their economic exposure to our shares. In addition, these officers and employees are prohibited from pledging our shares as security for any loan.

Clawback Policies; Recoupment of Incentive Compensation

Pursuant to Mr. Saunders' employment agreement with the Company, all equity awards (including any proceeds, gains or other economic benefit actually or constructively received upon any receipt or exercise of any equity award or upon the receipt or resale of any shares of the Company underlying an equity award) will be subject to the provisions of any clawback policy implemented by the Company, including, without limitation, any clawback policy adopted to comply with the requirements of applicable law, including without limitation the Dodd-Frank Wall Street Reform and Consumer Protection Act and any rules or regulations promulgated thereunder, to the extent set forth in such clawback policy and/or in the applicable equity award.

In addition to the clawback provision in Mr. Saunders' employment agreement, the 162(m) Plan also provides that the Compensation Committee has the discretion to require a participant to repay the income, if any, derived from an award under the plan in the event of a restatement of the Company's financial results within three years after payment of such award to correct a material error that is determined by the Compensation Committee to be the result of fraud or intentional misconduct.

These clawback policies help ensure that incentive compensation is payable only if the applicable underlying performance goals are met, consistent with our pay-for-performance philosophy.

Independent Compensation Committee Consultant

From January through October 2016, the Compensation Committee continued its engagement of Frederic W. Cook & Co., Inc. (*F.W. Cook*), an independent compensation consulting firm, to advise the Compensation Committee. Starting in October 2016, the Compensation Committee retained Steven Hall & Partners as its independent consultant.

Both F.W. Cook and Steven Hall & Partners reported directly to the Compensation Committee and the Compensation Committee retains the right to terminate or replace the consultant at any time. Neither firm provides services to the Company or management. Additional information about the Compensation Committee's processes and procedures for consideration of executive compensation, including the role of our CEO, are addressed on page 49. The Compensation Committee met seven times during the fiscal year ended December 31, 2016.

COMPENSATION DISCUSSION AND ANALYSIS

Each year the Compensation Committee reviews the independence of its compensation consultant and other advisors. In performing its analysis, the Compensation Committee considers the factors set forth in SEC rules and NYSE listing standards. After review and consultation with Steven Hall & Partners, the Compensation Committee has determined that Steven Hall & Partners is independent and there are no conflicts of interest raised by the work of Steven Hall & Partners currently nor were any conflicts of interest raised by the work performed by either F.W. Cook or Steven Hall & Partners during the year ended December 31, 2016.

Risk Assessment

The Compensation Committee, with the assistance of senior management, the Compensation Committee's independent compensation consultant and management's outside consultant, periodically reviews the elements of our compensation programs to determine whether they encourage excessive risk taking. We recently performed a formal assessment of our global compensation programs, including our executive compensation program and policies, in February 2017, and the results were reviewed with the Compensation Committee in March 2017.

The assessment reaffirmed our belief that our compensation programs and policies are structured and operated in a manner that does not create risks that are reasonably likely to have a material adverse effect on our business. Among other items, we cite the following design elements in our executive compensation program that discourage excessive risk taking:

Committee Oversight: The Compensation Committee makes all compensation decisions regarding senior management, including our NEOs, and has retained an independent compensation consultant that provides no services to the Company or management.

Performance Goals: A significant portion of executives compensation is tied to the achievement of longer-term performance goals and sustained stock price performance, intended to encourage a long-term perspective and discourage short-term risk taking. Goals are appropriately set to be sufficiently challenging but also reasonably achievable with strong performance.

Payout Curves and Caps: The design of our short- and long-term incentives avoids steep payout cliffs at certain performance levels that may encourage short-term business decisions to meet payout thresholds, and awards and

Appropriate Use of Discretion: To reduce the tendency of formulae and other objective financial performance measures to encourage short-term or excessive risk-taking, compensation decisions are not based solely on the Company's financial performance, but also on subjective considerations, that account for non-financial performance and judgment.

Stock Ownership Guidelines: The Company has robust stock ownership guidelines to further align the interests of our executives with shareholders and ensure a longer-term focus, as described on page 62.

Clawbacks: The Company has clawback provisions that give the Compensation Committee the discretion to reduce the bonus amounts payable to our NEOs based on factors determined to be appropriate,

payouts are capped.

including the achievement of performance goals applied under our Company-wide annual incentive plan, as described on page 62.

Tax Deductibility of Compensation

In establishing total compensation for the executive officers, the Compensation Committee considers the effect of Section 162(m) of the Internal Revenue Code. Section 162(m) generally disallows a tax deduction for compensation over \$1 million paid for any fiscal year to the CEO and the three other highest paid executive officers other than the Chief Financial Officer unless the compensation qualifies as performance-based. While the Compensation Committee generally seeks to preserve the deductibility of most compensation paid to executive officers, the primary objective of the compensation program is to support the Company's business strategy. Thus, the Compensation Committee maintains discretion to award compensation that may not be fully deductible.

(1) Salary includes annual salary and any salary earned but deferred, as applicable, under the Company's deferred compensation plan.

(2) For Messrs. Bisaro and Stewart, represents the payment during 2015 of retention awards received in connection with the Company's 2013 acquisition of Warner Chilcott. Our NEOs do not hold any additional non-performance based retention awards. For Ms. Hilado, represents the payment of a sign-on payment in connection with her hiring on December 8, 2014.

- (3) Our NEOs did not receive stock or option awards during 2016. For additional discussion of our long-term incentive program, see *Long-Term Incentives* on page 57 of the *Compensation Discussion and Analysis*.
- (4) Represents payment under our annual incentive plan for the applicable performance year. For additional discussion of our 2016 annual incentive plan, see *Annual Incentive Awards* on page 52 of the *Compensation Discussion and Analysis*. For 2015 also includes payment of a portion of the *Merger Success Awards*.
- (5) Represents above-market interest earned by our NEOs on their non-qualified deferred compensation account balances during 2016 (other than Mr. Meury, who does not have a plan account). For additional detail regarding our non-qualified deferred compensation plans, see the tables and text under *2016 Nonqualified Deferred Compensation* on page 67.
- (6) All Other Compensation for 2016 consisted of car allowances, Company matches under our qualified and non-qualified savings plans, group life insurance coverage and other perquisites as follows:

Name	Company Aircraft ⁽¹⁾ (\$)	Car and Driver/Car Allowance ⁽²⁾ (\$)	Savings Plan	Group Term Life Insurance (\$)	Financial Planning Reimbursement (\$)	Total Other Compensation (\$)
			Company Matching Contributions (\$)			
Brenton L. Saunders	126,643	2,215	33,000	1,710	10,000	173,568

Robert A. Stewart		7,440	13,665	1,226		22,331

- (1) Amounts represent the incremental costs to us associated with the executive's personal use of our aircraft. Incremental costs include fuel costs, landing and parking fees, per hour accruals for maintenance service plans, passenger catering and ground transportation, crew travel expenses and other trip-related variable costs (including fees for contract crew members and the use of our fractional jet interest). Because our aircraft are used primarily for business travel, incremental costs exclude fixed costs that do not change based on usage, such as pilots' salaries, aircraft purchase or lease costs, fractional jet interest management fees, home-base hangar costs and certain maintenance fees.
- (2) The incremental cost for the Company car driver for commutation and nonbusiness events is calculated by multiplying the variable rate by the applicable miles driven. The variable rate includes a driver's overtime compensation (if any), plus a cost per mile calculation based on fuel and maintenance expense. Because Company car and drivers are used primarily for business travel, incremental costs exclude fixed costs that do not change based on usage such as drivers' salaries and vehicle purchase or lease cost. For instances where a car service is used, the incremental cost to the company is the actual fees paid for such service. The incremental cost for car allowance for Messrs. Bisaro and Stewart is the actual amounts paid by the Company to the NEO during 2016.

(2) This column represents company matching contributions to the *Deferral Plan* in 2016. All Registrant contributions are reported in the *All Other Compensation* column of the Summary Compensation Table on page 65.

Pursuant to the Deferral Plan, eligible employees may defer from 1% to 80% of their salary and from 1% to 100% of their annual cash incentive award, if any. We match 50% of the first 2% of pay an employee defers in accordance with this Plan. In addition, the Company may make additional contributions, at its discretion. Vesting of the matched and discretionary amounts is based on an employee's years of service with us. If an employee has been with us for less than one year, none of the matched or discretionary amounts are vested. For amounts deferred prior to January 1, 2015, vesting thereafter occurs 33% per year, such that employees who have been with us for more than 3 years are 100% vested in the matched amount for these deferrals. For amounts deferred after January 1, 2015, and any discretionary contributions, none of the matched or discretionary amounts is vested until they have achieved two years of service, at which time all contributions are vested 100%.

All contributions to our Deferral Plan have a guaranteed fixed interest rate of return. This guaranteed rate is adjusted annually based on the our seven year cost of funds rate (determined as of the first business day of November preceding each Plan Year), plus the six month forward swap rate on the first business day of November. In 2016, the guaranteed interest rate was 3.95%.

Assets in the Deferral Plan are distributed either (i) at separation of service as a result of retirement, disability, termination or death; or (ii) on a designated date elected by the participant. The Deferral Plan requires participants to make an annual distribution election with respect to the money to be deferred in the next calendar year. If a participant so elects, deferrals made in one year may be distributed as soon as the next year following the deferral election. Participants may elect to receive a distribution as a lump-sum cash payment or in installment payments paid over two to 15 years, or two to 10 years for contributions after January 1, 2015, as the participant elects. Bonus deferrals are credited to a participant's account the year following the year in which the bonus is earned. As a result, bonus deferrals may not be distributed until the year following the year in which the bonus is paid to a participant and credited to his or her account. Per regulatory requirements, participants may not accelerate distributions from the Deferral Plan.

Potential Payments Upon Termination or Change in Control

Executive Severance and Change in Control Agreements

Each of Messrs. Saunders and Meury is a party to an employment agreement or arrangement with the Company pursuant to which each is entitled to certain payments and benefits in the event of an involuntary termination without cause or his resignation for good reason, which may differ depending on whether the termination is in connection with a change in control. Each of Mr. Stewart and Ms. Hilado participate in our severance pay plan and in our change in control severance pay plan, pursuant to which each is entitled to certain payments and benefits in the event of an involuntary termination without cause or his or her resignation for good reason, which may differ depending on whether the termination is in connection with a change in control. Following is a summary of the termination and change in control provisions applicable to each NEO.

Following such summary is a table estimating the values of the applicable payments and benefits, as well as the definitions of change in control, cause, and good reason, which differ slightly among the executives.

In addition to the payments and benefits described below, pursuant to the terms of our 2013 IAP (as defined above), certain long-term incentive awards held by our NEOs will vest in full and, as applicable, become exercisable upon a qualified termination during the two year period following a change in control (each as defined in our 2013 IAP).

Brenton L. Saunders

Pursuant to the terms of his employment agreement, Mr. Saunders is entitled to the following payments and benefits in the event of a termination by us without cause or by Mr. Saunders for good reason at any time between July 1, 2014 and July 1, 2017, provided that the benefits received shall not be less than the severance benefits Mr. Saunders would have received pursuant to his previous employment agreement if his employment had been terminated on July 1, 2014:

- (1) any accrued compensation obligations to Mr. Saunders through the termination date, including a pro-rated highest annual bonus (as defined in the employment agreement between Forest and Mr. Saunders);
- (2) a lump-sum cash payment equal to three times the sum of (i) Mr. Saunders then-current annual base salary and (ii) Mr. Saunders highest annual bonus;
- (3) continued group health benefits (medical, dental and vision) for Mr. Saunders and his dependents for 36 months following termination (or longer, if so provided by the terms of the applicable plan, program, policy or practice); and
- (4)

reasonable outplacement benefits until no later than the Company's second taxable year following the taxable year in which Mr. Saunders terminates.

Mr. Saunders will be entitled to the following payments and benefits in the event of a termination by us without cause or by Mr. Saunders for good reason at any time after July 1, 2017 and until the end of the agreement term (December 31, 2019):

(1) a lump-sum cash payment equal to two times the sum of (i) Mr. Saunders' then-current annual base salary and (ii) Mr. Saunders' target bonus amount; and

(2) continued group health benefits (medical, dental and vision) for Mr. Saunders and his dependents for up to 24 months following termination.

In the event that Mr. Saunders' employment terminates without cause or he resigns for good reason at any time after July 1, 2017 and until the end of the agreement term (December 31, 2019), and if the termination occurs within 90 days prior to or 12 months following a change in control (as defined in the employment agreement), he will be entitled to the same payments and benefits as in the non-change in control context (as described above), except that (i) the lump-sum cash payment will equal three times (instead of two times) the sum of Mr. Saunders

Table of Contents

then-current annual base salary and target bonus amount, and (ii) continued group health benefits will be provided for up to 36 months (instead of up to 24 months) following termination.

If the Company elects not to continue Mr. Saunders' employment with the Company at the conclusion of the agreement term or any time thereafter on substantially the same terms in effect at the expiration of the employment agreement or on other mutually agreeable terms, then Mr. Saunders will be entitled to the same payments and benefits as in the non-change in control context (as described above), as well as any accrued compensation obligations to Mr. Saunders through his termination date, including a pro-rated bonus for the year of termination.

If, at the expiration of Mr. Saunders' employment agreement, Mr. Saunders retires from the Company or does not agree to enter into a new employment agreement or an amendment to the existing agreement extending his employment for a period of at least three years on substantially the same terms as his existing agreement, Mr. Saunders will be entitled to any accrued compensation obligations through his termination date, including a pro-rated bonus for the year of termination.

Maria Teresa Hilado and Robert A. Stewart

Ms. Hilado and Mr. Stewart participate in our severance pay plan and in our change in control severance pay plan. Under the terms of our severance pay plan, these executives are entitled to the following payments and benefits in the event of a termination by us without cause or by the executive for good reason:

- (1) continued payment of their then-current annual base salary for two years following termination;
- (2) continued group health benefits (medical, dental and vision) for the executive and his or her dependents for up to 24 months following termination;
- (3) career transition assistance for up to 24 months following termination; and
- (4) in the case of Mr. Stewart only, continued vesting and payment of Mr. Stewart's then-outstanding equity awards that were granted prior to July 1, 2014 for two years following termination.

Under our change in control severance pay plan, in the event Ms. Hilado or Mr. Stewart is terminated by us without cause or resigns for good reason within 24 months following a change in control, they will be entitled to the payments and benefits described in (1), (2) and (3) above, plus an amount equal to two times each executive's target bonus for the year of termination, or, if greater, for the year preceding the change of control. Additionally, the cash payment will be paid in a single lump sum (rather than in installments).

William Meury

Pursuant to the terms of his employment agreement, Mr. Meury is entitled to the following payments and benefits in the event of a termination by us without cause or by Mr. Meury for good reason (whether or not such termination occurs in connection with a change in control):

- (1) any accrued compensation obligations to Mr. Meury through the termination date, including a pro-rated highest annual bonus (as defined in the employment agreement between Forest and Mr. Meury);
- (2) a lump sum payment equal to three times the sum of (i) Mr. Meury's then-current annual base salary and (ii) Mr. Meury's highest annual bonus;
- (3) continued group health benefits (medical, dental and vision) for Mr. Meury and his dependents for 36 months following termination (or longer, if so provided by the terms of the applicable plan, program, policy or practice); and
- (4) reasonable outplacement benefits until no later than the Company's second taxable year following the taxable year in which Mr. Meury terminates.

[Paul M. Bisaro](#)

Mr. Bisaro and Allergan mutually agreed that Mr. Bisaro would resign his employment effective on January 1, 2017; however, he has remained in his position as a director of the Company. Pursuant to the terms of his employment agreement and his equity award agreements, Mr. Bisaro will continue to vest in his outstanding equity awards,

Table of Contents**POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL**

subject to any performance conditions where applicable, so long as he remains a member of our Board. He did not receive any additional compensation upon his resignation.

Conditions to Payment

In order to receive their severance benefits, the NEOs, other than Mr. Meury, are required to execute a release of claims against the Company.

In addition, in order to receive his severance benefits, Mr. Saunders is required to comply with certain restrictive covenants included in his employment agreement consisting of (i) limitations on soliciting or interfering with the Company's employees, customers, suppliers, licensees, or other business associates for a one-year period following the executive's termination of employment; (ii) restrictions on competing with Allergan for a one-year period following termination; and (iii) non-disparagement and cooperation covenants effective for twenty-four months following termination. In the event that Mr. Saunders incurs a termination of employment that does not entitle him to severance, the Company may elect to pay the executive a lump sum cash amount equal to his then-current base salary and target bonus in exchange for the executive's agreement to comply with the non-competition restrictions described above.

In order to receive his severance benefits, Mr. Meury must comply with a one-year noncompetition covenant.

The NEOs' incentive payments are subject to potential recoupment in the event of certain restatements of our financial results, as described on page 62.

Estimated Termination Payments

In accordance with the requirements of the rules of the SEC, the table below indicates the amount of compensation payable by us to each NEO, other than Mr. Bisaro, upon certain types of termination of employment. The amounts assume that such termination was effective as of December 31, 2016 and thus exclude amounts earned through such date and are only estimates of the amounts that would actually be paid to such executives upon their termination.

The table does not include certain amounts that the NEOs are entitled to receive under certain plans or arrangements that do not discriminate in scope, terms or operation in favor of our NEOs and that are generally available to all salaried employees, such as payment of accrued vacation. The table also does not include the accrued and vested accounts of the executives under our Deferral Plan. These amounts are generally distributed to our executives upon a termination of employment, regardless of the reason, in accordance with his or her election under the applicable plan. The accrued and vested amounts under the Deferral Plan are set forth in the table under "2016 Nonqualified Deferred Compensation" on page 67.

Proposal No. 3 Non-Binding Vote on the Frequency of a Non-Binding Shareholder Vote on the Compensation of Our Named Executive Officers (Say-on-Pay Frequency Vote)

Background

Pursuant to Section 14A of the Exchange Act, we are asking our shareholders to provide their input with regard to the frequency of future non-binding shareholder votes on our executive compensation programs, such as the proposal contained in Proposal No. 2 of this Proxy Statement. In particular, we are asking whether the non-binding vote on executive compensation should occur every year, every two years or every three years. Currently, the non-binding vote on executive compensation occurs every year.

Summary

Our Board of Directors has determined that an annual advisory vote on executive compensation is the most appropriate alternative for Allergan. The Board's determination was influenced by the fact that the compensation of our named executive officers is evaluated, adjusted and approved on an annual basis. As part of the annual review process, the Board believes that shareholder sentiment should be a factor that is taken into consideration by the Board and Compensation Committee in making decisions with respect to executive compensation. By providing an advisory vote on executive compensation on an annual basis, our shareholders will be able to provide us with direct input on our compensation philosophy, policies and practices as disclosed in the Proxy Statement every year. Accordingly, our Board recommends that the advisory vote on executive compensation be held every year.

You may cast your vote by choosing the option of one year, two years or three years in response to the resolution set forth below.

Resolution

RESOLVED, that the shareholders recommend, in a non-binding vote, whether a shareholder vote to approve the compensation of the Company's named executive officers should occur every one, two or three years.

Board Recommendation

The Board of Directors unanimously recommends that shareholders vote for the option of ONE YEAR as the frequency with which shareholders are provided a non-binding vote on executive compensation.

Required Vote

A simple majority of votes cast at the Annual Meeting is required to approve, on a non-binding basis, the frequency of a non-binding vote on the compensation of our Named Executive Officers. In the event that no option receives a majority of the votes cast, the Board intends to adopt the option that receives the most votes.

Abstentions and broker non-votes will not have any effect on the outcome of this proposal because neither an abstention nor a broker non-vote represents a vote cast.

The say-on-pay frequency vote is advisory, and therefore not binding on the Company, the Board of Directors or the Compensation Committee. However, the Board of Directors and the Compensation Committee will consider the outcome of the vote in deciding whether to take any action as a result of the vote.

Proposal No. 4 Non-Binding Ratification of the Appointment of PricewaterhouseCoopers LLP as Independent Auditors and Binding Authorization of the Board of Directors to Determine its Remuneration

Background

The firm of PricewaterhouseCoopers LLP has audited our consolidated financial statements since our inception, and the Board of Directors recommends that the shareholders ratify, in a non-binding vote, the appointment of PricewaterhouseCoopers LLP to audit our consolidated financial statements for the fiscal year ending December 31, 2017 and to authorize, in a binding vote, the Board of Directors, acting through the Audit and Compliance Committee, to determine PricewaterhouseCoopers LLP's remuneration. Representatives of that firm are expected to be present at the Annual Meeting with the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions from shareholders.

We have been informed by PricewaterhouseCoopers LLP that neither the firm nor any of its members or their associates has any direct financial interest or material indirect financial interest in us or our affiliates.

Shareholder ratification of the appointment of PricewaterhouseCoopers LLP as our independent auditor is not required by our Articles of Association or otherwise. However, the Board of Directors is submitting the appointment of PricewaterhouseCoopers LLP to the shareholders entitled to vote at the Annual Meeting for ratification as a matter of good corporate practice. If the shareholders fail to ratify the appointment, the Audit and Compliance Committee will reconsider whether or not to retain that firm. Even if the appointment is ratified, the Audit and Compliance Committee in its discretion may direct the appointment of a different independent auditor at any time during the year if it determines that such a change would be in our best interests and in the best interests of our shareholders.

Resolution

RESOLVED, that the appointment of PricewaterhouseCoopers LLP as the independent auditor for the Company until the next Annual General Meeting of Shareholders of the Company in 2018 be and is hereby ratified, in a non-binding vote, and that the Board of Directors, acting through the Audit and Compliance Committee, be and is hereby authorized, in a binding vote, to determine its remuneration.

Board Recommendation

The Board of Directors unanimously recommends a vote *FOR* the non-binding ratification of the appointment of PricewaterhouseCoopers LLP as our independent auditor for 2017 and the binding authorization of the Board of Directors, acting through the Audit and Compliance Committee, to determine PricewaterhouseCoopers LLP's remuneration.

Required Vote

A simple majority of votes cast at the Annual Meeting is required to ratify, on a non-binding basis, the selection of PricewaterhouseCoopers LLP as the Company's independent auditor for the fiscal year December 31, 2017 and authorize, on a binding basis, the Board of Directors acting through the Audit and Compliance Committee, to determine PricewaterhouseCoopers LLP's remuneration.

Abstentions will not have any effect on the outcome of this proposal because an abstention does not represent a vote cast.

The ratification of PricewaterhouseCoopers LLP is a matter on which a broker or other nominee has discretionary voting authority, and thus, we do not expect any broker non-votes with respect to this proposal.

The aspect of this vote ratifying the appointment of PricewaterhouseCoopers LLP as our independent auditor for 2017 is advisory, and therefore not binding on the Company, the Board of Directors or the Audit and Compliance Committee. However, the Board of Directors and Audit and Compliance Committee will consider the outcome of the vote in deciding whether to take any action as a result of the vote.

Table of Contents**Audit Fees**

The aggregate fees billed or expected to be billed by PricewaterhouseCoopers LLP (PwC), our independent auditor, in fiscal years 2016 and 2015 were as follows:

connection with the Allergan acquisition and the Forest acquisition.

The Audit and Compliance Committee believes that the provision of all non-audit services rendered is compatible with maintaining PricewaterhouseCoopers LLP's independence.

The Audit and Compliance Committee approved all audit and non-audit services provided by PricewaterhouseCoopers LLP in 2016 and 2015. The Audit and Compliance Committee has adopted a policy to pre-approve all audit and certain permissible non-audit services provided by PricewaterhouseCoopers LLP. Pre-approval is generally provided for up to one year, and any pre-approval is detailed as to type of services to be provided by PricewaterhouseCoopers LLP and the estimated fees related to these services. During the approval process, the Audit and Compliance Committee considers the impact of the types of services and the related fees on the independence of PricewaterhouseCoopers LLP. PricewaterhouseCoopers LLP and management are required to

periodically report to the full Audit and Compliance Committee regarding the extent of services provided by PricewaterhouseCoopers LLP, in accordance with the pre-approval policy and the fees for the services performed. During the year, circumstances may arise when it may become necessary to engage PricewaterhouseCoopers LLP for additional services not contemplated in the pre-approval. In those instances, the Audit and Compliance Committee requires specific pre-approval by the Audit and Compliance Committee or its delegate, the Audit and Compliance Committee chair, before engaging PricewaterhouseCoopers LLP for such services.

Report of the Audit and Compliance Committee

The primary functions of the Audit and Compliance Committee are to assist the Board of Directors in fulfilling its oversight of:

The integrity of Allergan's financial statements.

Allergan's compliance with legal and regulatory requirements.

The outside auditor's qualifications and independence.

The performance of Allergan's internal audit function and of its independent auditor.
Additionally, the Audit and Compliance Committee serves as an independent and objective party that:

Monitors Allergan's financial reporting process and internal control systems.

Retains, oversees and monitors the qualifications, independence, compensation and performance of Allergan's independent auditor.

Provides an open avenue of communication among the independent auditor, financial and senior management, the internal auditing department and the Board of Directors.

The Audit and Compliance Committee charter describes in greater detail the full responsibilities of the Audit and Compliance Committee, and is available on our website at www.allergan.com under the Investors section. The Audit and Compliance Committee reviews its charter annually prior to that year's Annual General Meeting of Shareholders and at such other times as deemed appropriate by the Audit and Compliance Committee.

The Audit and Compliance Committee schedules its meetings and implements procedures designed to ensure that during the course of each fiscal year it devotes appropriate attention to each of the matters assigned to it under the Audit and Compliance Committee charter. To this end, the Audit and Compliance Committee met each quarter, and 10 times in total, during 2016. In addition to the foregoing, the Audit and Compliance Committee makes itself available to Allergan and its internal and external auditors during the course of the year to discuss any issues believed by such parties to warrant the attention of the Audit and Compliance Committee.

In carrying out its responsibilities, the Audit and Compliance Committee acts in an oversight capacity. Management has the primary responsibility for the financial reporting process, including the system of internal controls, and for

preparation of consolidated financial statements in accordance with generally accepted accounting principles. Allergan's independent auditor is responsible for auditing those financial statements and expressing an opinion as to their conformity with generally accepted accounting principles. In performing its oversight responsibilities in connection with the Company's 2016 audit, the Audit and Compliance Committee:

Reviewed and discussed the Company's audited consolidated financial statements for fiscal 2016 with management and with the Company's independent auditor, PricewaterhouseCoopers LLP.

Discussed with PricewaterhouseCoopers LLP the matters required to be discussed by Auditing Standard No. 16 (Communication with Audit Committees), as adopted by the Public Company Accounting Oversight Board (*PCAOB*) and currently in effect.

Received the written disclosures and the letter from PricewaterhouseCoopers LLP required by PCAOB Ethics and Independence Rule 3526, Communications with Audit Committees Concerning Independence, and has discussed with PricewaterhouseCoopers LLP its independence from the Company and its management. Based on the review and discussions above, the Audit and Compliance Committee recommended that the Board of Directors include the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

Proposal No. 5 Approval of Performance Goals under the Allergan plc 2017 Annual Incentive Compensation Plan

Background

We are asking our shareholders to approve the material terms of the performance goals (collectively, the *Performance Goals*), including the annual plan maximum payment (the *Maximum Payment*), for awards under the Allergan plc 2017 Annual Incentive Compensation Plan (the *Plan*).

Section 162(m) of the Internal Revenue Code (*Section 162(m)*) limits the deductibility of certain executive compensation paid to the Company's Chief Executive Officer and the three highest compensated officers (other than the Chief Financial Officer), as determined pursuant to the executive compensation disclosure rules under the Securities Exchange Act of 1934. These officers are referred to as covered employees . An exception from this limitation (the *Performance Exception*) applies to performance-based compensation as defined in the regulations under Section 162(m).

The Plan gives the Board's Compensation Committee the ability to grant short-term and long-term cash incentive awards based upon the achievement of Performance Goals during specified periods that are designed to qualify for the Performance Exception. One of the requirements under the Performance Exception is shareholder approval of the Performance Goals pursuant to which the compensation is paid. The regulations under Section 162(m) require that, in order for awards under the Plan to be eligible to qualify for the Performance Exception, shareholders must approve the material terms of the applicable Performance Goals every five years. The Performance Goals for awards under the Plan were last approved on May 11, 2012. Therefore, we are asking for your approval of the material terms of the Performance Goals, including the Maximum Payment, again this year.

Nothing in the Plan or this Proxy Statement is intended to guarantee that the Company will always seek to ensure that its compensation qualifies as performance-based compensation, and no guarantee can be given that the terms of the Plan do in fact comply with the requirements for performance-based compensation, as they exist today or as they may change from time to time.

Performance Goals

The Performance Goals may be based upon the attainment of specified levels of one or more of the following measures, applied to the Company as a whole or to any subsidiary or other unit of the Company: net sales; revenue; revenue growth or product revenue growth; operating income (before or after taxes); pre- or after-tax income or loss (before or after allocation of corporate overhead and bonus); earnings or loss per share; net income or loss (before or after taxes); return on equity; total stockholder return; return on assets or net assets; appreciation in and/or maintenance of the price of the Shares or any other publicly-traded securities of the Company; market share; gross profits; earnings or losses (including earnings or losses before taxes, before interest and taxes, or before interest, taxes, depreciation and amortization); economic value-added models; comparisons with various stock market indices; reductions in costs; cash flow or cash flow per share (before or after dividends); return on capital (including return on total capital or return on invested capital); cash flow return on investment; improvement in or attainment of expense levels or working capital levels, including cash, inventory and accounts receivable; operating margin; gross margin; year-end cash; cash margin; debt reduction; stockholders equity; operating efficiencies; market share; customer satisfaction; customer growth; employee satisfaction; regulatory achievements (including submitting or filing

applications or other documents with regulatory authorities or receiving approval of any such applications or other documents and passing pre-approval inspections (whether of the Company or the Company's third-party manufacturer) and validation of manufacturing processes (whether the Company's or the Company's third-party manufacturer's); clinical achievements (including initiating clinical studies; initiating enrollment, completing enrollment or enrolling particular numbers of subjects in clinical studies; completing phases of a clinical study (including the treatment phase); or announcing or presenting preliminary or final data from clinical studies; in each case, whether on particular timelines or generally); strategic partnerships or transactions (including in-licensing and out-licensing of intellectual property; establishing relationships with commercial entities with respect to the marketing, distribution and sale of the Company's products (including with group purchasing organizations, distributors and other vendors); supply chain achievements (including establishing

relationships with manufacturers or suppliers of component materials and manufacturers of the Company's products; co-development, co-marketing, profit sharing, joint venture or other similar arrangements); financial ratios, including those measuring liquidity, activity, profitability or leverage; cost of capital or assets under management; financing and other capital raising transactions (including sales of the Company's equity or debt securities; factoring transactions; sales or licenses of the Company's assets, including its intellectual property, whether in a particular jurisdiction or territory or globally; or through partnering transactions); implementation, completion or attainment of measurable objectives with respect to research, development, manufacturing, commercialization, products or projects, production volume levels, acquisitions and divestitures; factoring transactions; and recruiting and maintaining personnel. These Performance Goals may be absolute or relative to the performance of one or more other companies comparable to the Company or of an index covering multiple companies. In establishing Performance Goals, the Committee may specify that there shall be excluded the effect of unusual, non-recurring, or extraordinary items or expenses; charges for restructurings; discontinued operations; acquisitions or divestitures; the cumulative effect of changes in accounting treatment; changes in tax laws, accounting standards or principles, or other laws or regulatory rules affecting reporting results; any impact of impairment of tangible or intangible assets; any impact of the issuance or repurchase of equity securities and/or other changes in the number of outstanding shares of any class of the Company's equity securities; any gain, loss, income or expense attributable to acquisitions or dispositions of stock or assets; stock-based compensation expense; asset write-downs, in-process research and development expense; gain or loss from all or certain claims and/or litigation and insurance recoveries; foreign exchange gains and losses; any impact of changes in foreign exchange rates and any changes in currency; a change in the Company's fiscal year; and any other items, each determined in accordance with U.S. generally accepted accounting principles and as identified in the Company's audited financial statements, including the notes thereto.

Eligible Employees

The Plan may be used to grant performance-based awards to the Company's Chief Executive Officer and any other executive officer of the Company or an affiliate of the Company who is selected by the Compensation Committee to participate in the Plan.

Maximum Payment

In order to meet the requirements of the Performance Exception, the Plan provides that the maximum amount of cash that may be paid pursuant to any award under the plan in any fiscal year is \$10 million.

Amendment and Termination

The Board may amend or terminate the Plan, subject to any requirement for stockholder approval under applicable law, including Section 162(m), or by the New York Stock Exchange. No amendments to, or termination of, the Plan shall impair the rights of a participant without the participant's consent.

Estimate of Benefits

Because the grant of awards pursuant to the Plan is within the discretion of the Compensation Committee, it is not possible to determine the awards that will be made under the Plan. The following table shows the dollar value of the annual incentive awards granted by the Committee to our NEOs in January 2016 under the Plan for the performance period ending December 31, 2016.

Name	2016 Annual Incentive		
	Threshold	Target	Maximum

Copies of the Plan will also be available at the Annual Meeting.

Board Recommendation

The Board of Directors unanimously recommends that shareholders vote *FOR* the approval of the Performance Goals and the Maximum Payment for awards under the Allergan plc 2017 Annual Cash Incentive Plan.

The Board believes that the approval of the Performance Goals, including the Maximum Payment, will permit the Compensation Committee to continue to grant performance-based short-term incentive cash compensation designed to be eligible for the Performance Exception to those employees upon whose judgment and efforts the Company is largely dependent for the successful conduct of its operations. The Board believes that this is in the best interest of the Company.

If shareholders do not approve the performance goals and the maximum payment, management and the Compensation Committee will examine all of the available alternatives, including, but not limited to, paying cash incentive compensation under other arrangements that do not qualify for the Performance Exception.

Required Vote

A simple majority of votes cast at the Annual Meeting is required to approve the material terms of the performance goals for the purposes of Section 162(m) under the Allergan plc 2017 Annual Incentive Compensation Plan.

Abstentions and broker non-votes will not have any effect on the outcome of this proposal because neither an abstention nor a broker non-vote represents a vote cast.

Board Recommendation

The Board of Directors unanimously recommends that shareholders vote AGAINST the adoption of this proposal.

Required Vote

A simple majority of votes cast at the Annual Meeting is required to approve the shareholder proposal described in this Proposal No. 6.

Abstentions and broker non-votes will not have any effect on the outcome of this proposal because neither an abstention nor a broker non-vote represents a vote cast.

Proposal No. 6 Independent Board Chairman

Shareholders request our Board of Directors to adopt as policy, and amend our governing documents as necessary, to require the Chair of the Board of Directors, whenever possible, to be an independent member of the Board. The Board would have the discretion to phase in this policy for the next CEO transition, implemented so it does not violate any existing agreement. If the Board determines that a Chair who was independent when selected is no longer independent, the Board shall select a new Chair who satisfies the requirements of the policy within a reasonable amount of time. Compliance with this policy is waived if no independent director is available and willing to serve as Chair. This proposal requests that all the necessary steps be taken to accomplish the above.

Having a board chairman who is independent of management is a practice that will promote greater management accountability to shareholders and lead to a more objective evaluation of management. This proposal is of particular importance to our company since our stock price fell from \$305 to \$195 in the year leading up to the submittal of this proposal. We also do not have the right to act by written consent—a sign that management does not value shareholder input.

At Allergan's 2016 annual meeting, 36% of shares voted against long-tenured Ronald Taylor, indicating a high degree of shareholder dissatisfaction with his performance as chairman of our executive pay committee. In addition, 48% of shares voted against executive pay, which indicates a substantial level of discomfort. Mr. Taylor and our other directors should be also blasted for having a fox hole annual meeting at least 3000 miles from the majority of shareholders.

Caterpillar reversed itself by naming an independent board chairman in October 2016. Caterpillar had opposed a shareholder proposal for an independent board chairman as recent as its June 2016 annual meeting. Wells Fargo also reversed itself and named an independent board chairman in October 2016.

Table of Contents

According to Institutional Shareholder Services 53% of the Standard & Poors 1,500 firms separate these 2 positions 2015 Board Practices, April 12, 2015. This proposal topic won 50%-plus support at 5 major U.S. companies in 2013 including 73%-support at Netflix.

It is the responsibility of the Board of Directors to protect shareholders' long-term interests by providing independent oversight of management. By setting agendas, priorities and procedures, the Chairman is critical in shaping the work of the Board.

A number of institutional investors said that a strong, objective board leader can best provide the necessary oversight of management. Thus, the California Public Employees' Retirement System's Global Principles of Accountable Corporate Governance recommends that a company's board should be chaired by an independent director, as does the Council of Institutional Investors. An independent director serving as chairman can help ensure the functioning of an effective board.

Board of Directors Response to Shareholder Proposal No. 6

The Board of Directors recommends that shareholders vote AGAINST this shareholder proposal. The Board of Directors believes that this proposal is not in the best interests of the Company or its shareholders and opposes it for the following reasons.

The Board of Directors believes that our shareholders are best served by protecting the Board's flexibility to determine the appropriate leadership structure for the Company, in light of the Company's circumstances at a given time. This is especially true in light of the Company's governance and board structure, which provides for strong independent leadership in our boardroom.

The primary responsibility of the Board of Directors is to foster the long-term success of the Company, and a key element in fulfilling this responsibility is to periodically determine who should serve as our Chairman of the Board of Directors based on the Board of Directors' determination of the unique opportunities and challenges facing the

Company at any given time. It is crucial that the Board of Directors have the flexibility to determine the best leadership structure based on the Company's needs.

The Board of Directors believes it is important to have the flexibility to select a Chairman who is the best person for the job in order to fulfill this responsibility. Implementing a policy as requested by the proposal would unduly restrict the Board of Directors by mandating a fixed and inflexible leadership structure for the Company and would prevent the Board of Directors, including future boards of directors, from determining the most appropriate leadership structure for the Company.

The Company's Lead Independent Director role provides strong independent oversight and has been enhanced in response to shareholder feedback.

Shareholders made clear in their engagements with the Company in mid-2016 in respect of a similar proposal that they wanted the Board of Directors to address the topic of Board leadership. The message from shareholders was clear that our enumerated responsibilities for our Lead Independent Director role should be strengthened to better achieve that objective. Following those engagements, in the fall of 2016, the Company, led by the Board of Directors' Lead Independent Director, held in person or telephonic meetings with shareholders representing approximately 37% of the Company's common stock, who emphasized their desire to ensure robust independent leadership in the boardroom under all circumstances. The Board of Directors implemented that feedback shortly thereafter, and the Company published new and enhanced Lead Independent Director responsibilities in January 2017. In addition, the independent members of the Board of Directors determined that as of October 26, 2016, Mr. Christopher J. Coughlin would serve as Lead Independent Director, replacing Ms. Catherine Klema, who had served as Lead Independent Director since May 2014.

Under our expanded Lead Independent Director role, Mr. Coughlin is responsible for:

Coordinating the activities of the other Independent Directors, including the calling of meetings of the Independent Directors and/or other non-management directors (and the establishment of the agendas and schedules for such meetings), with or without the presence of management.

Presiding at all meetings of the Board of Directors at which the Chairman is not present, including executive sessions.

Serving as liaison between the Chairman and the independent directors.

Serving as liaison between management (including any Executive Chairman) and the independent directors.

Serving as the Board of Director's liaison for consultation and communication with major shareholders, as appropriate.

Approving the agenda for Board meetings, Board pre-read materials, meeting calendars and schedules.

Recommending the retention of advisers and consultants.

The proposal is not necessary to ensure effective oversight of management and accountability to shareholders.

The Board of Directors is committed to protecting shareholders' interests by ensuring the Board of Directors is regularly refreshed and comprised of highly qualified directors and by providing independent oversight of management and has already adopted numerous measures that foster director independence.

The Board of Directors believes that the current leadership structure fully supports the accountability of management to the independent directors, and the Board of Directors has taken affirmative steps to facilitate accountability to shareholders and independent oversight of management, including, for example, through the following:

The Board of Directors has a Lead Independent Director.

Independent directors hold regular meetings led by the Lead Independent Director without management present.

10 of the 12 current Board members are independent under the NYSE listing requirements.

The Board and each of its Committees conduct annual self-evaluations, which are facilitated by independent third party governance experts.

Our governance practices provide strong shareholder rights, including a special meeting right with a 10% threshold, majority voting, and the annual election of directors.

Finally, the Board of Directors has acted responsibly to identify the right current leadership structure to pursue the best long-term interests of its shareholders.

Given the company's strong governance structure and the Board of Directors' responsiveness to shareholders and its track record of independent leadership, the Board of Directors is in the best position to determine the Company's

leadership structure, including who should serve as Chairman of the Board, based on their knowledge of the Company and their understanding of various shareholder interests through their diverse experiences, current and past work experience and participation on the boards of public and private entities.

The Company's Board of Directors reviewed the board leadership structure, including whether to have an independent Chairman and the role of the Lead Independent Director, in October 2016. The Board of Directors determined that Mr. Brent L. Saunders is the right person to serve as Chairman at this time. Mr. Saunders possesses deep knowledge of the Company, its management and operations and has extensive experience with complex pharmaceutical enterprises and brings that expertise to the role of director and Chairman.

The Board of Directors also recognizes the importance of having a leadership structure that will ensure it functions in an independent manner. When the Chairman is not an independent director, the Board of Directors is required to establish further measures to oversee management, which may include appointing a Lead Independent Director.

The Board of Directors believes having a Lead Independent Director is crucial to providing a well-functioning and effective balance between strong Company leadership and appropriate oversight and safeguards by independent directors.

Therefore, we believe the shareholder proposal should be rejected. The Board of Directors unanimously recommends that you vote AGAINST this shareholder proposal.

Proxy Statement

General

Your proxy is solicited by the Board of Directors of Allergan plc for use at the 2017 Annual General Meeting of Shareholders to be held at The Conrad Hotel, Earlsfort Terrace, Dublin 2, Ireland, at 8:30 a.m. local time on May 4, 2017, for the purposes set forth in the accompanying Notice of Annual General Meeting of Shareholders.

In connection with the Annual Meeting, we have prepared a Notice of Annual General Meeting of Shareholders, a Proxy Statement, and our 2016 Annual Report to Shareholders, which provides detailed information relating to our activities and operating performance (collectively, our *proxy materials*).

Under SEC rules, we have elected to make our proxy materials available to our shareholders via the Internet rather than mailing paper copies of those materials to each shareholder, as we believe electronic delivery to our shareholders will expedite the receipt of materials, while lowering costs and reducing the environmental impact of our Annual Meeting by reducing printing and mailing of our proxy materials. On or about March 24, 2017, we mailed a Notice of Internet Availability of Proxy Materials (the *Internet Notice*) directing shareholders to a website where they can access this Proxy Statement and our Annual Report on Form 10-K for the year ended December 31, 2016 and view instructions on how to vote via the Internet or by telephone. If you receive an Internet Notice by mail, you will not automatically receive a printed copy of our proxy materials unless you specifically request one by following the instructions to request that a paper copy be mailed to you that are printed on the Internet Notice.

IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS FOR THE ALLERGAN PLC ANNUAL GENERAL MEETING OF SHAREHOLDERS TO BE HELD ON MAY 4, 2017

The Notice of Annual Meeting, this Proxy Statement and the 2016 Annual Report to Shareholders are available at www.proxyvote.com. Our Irish statutory financial statements will be available at www.proxyvote.com on or before April 12, 2017.

You are encouraged to review all of the important information contained in the proxy materials before voting.

PROXY STATEMENT

Who Can Vote

Only shareholders of record of our ordinary shares at 4:00 p.m. Eastern Standard Time on March 8, 2017, the record date for the Annual Meeting, are entitled to receive notice of and to attend, speak and vote their shares at the Annual Meeting.

Beneficial owners of our ordinary shares are entitled to receive notice of and to attend our Annual Meeting, and have the right to direct their broker, bank or other nominee how to vote but may not vote their shares in person at the Annual Meeting unless they obtain a legal proxy giving them the right to vote their shares at the Annual Meeting from the broker, bank or other nominee holding their shares in street name. Most of our shareholders hold their shares through a broker, bank or other nominee rather than directly in their own name.

Certain distinctions between shares held of record and those owned beneficially are summarized below:

Shareholders of Record

If your ordinary shares are registered directly in your name with our transfer agent, Computershare, you are considered the shareholder of record with respect to those shares and these proxy materials are being sent to you directly by the Company. As the shareholder of record, you have the right to grant your voting proxy directly to us or to vote in person at the Annual Meeting.

Beneficial Owners

If your shares are held in a brokerage account or by another nominee, you are considered to be the beneficial owner of shares held in street name, and these proxy materials, together with a voting instruction card, are being forwarded to you by your broker, bank or other nominee. As the beneficial owner of the shares, you have the right to direct your broker, bank or other nominee how to vote and you are also invited to attend the Annual Meeting, but because you are not the shareholder of record, you may not vote your shares in person at the Annual Meeting unless you obtain a legal proxy giving you the right to vote your shares at the Annual Meeting from the broker, bank or other nominee holding your shares in street name. If your shares are held in street name, your broker, bank or other nominee has enclosed or provided voting instructions for you to use in directing the broker, bank or other nominee how to vote your shares.

Each ordinary share is entitled to one vote on each matter properly brought before the Annual Meeting. Ordinary shares that are held in treasury will not be entitled to vote at the Annual Meeting.

As of March 8, 2017, the record date for the Annual Meeting, there were 335,496,312 of our ordinary shares outstanding.

How to Vote

Your vote is very important, and we encourage you to vote your shares and to submit your proxy regardless of whether or not you plan to attend the Annual Meeting. If you properly give your proxy and submit it to us in time to vote as described in this section of the Proxy Statement, one of the individuals named as your proxy will vote your shares as you have directed.

Shareholders of Record

If you are a shareholder of record, you may vote in one of the following ways:

By Telephone or over the Internet.

You may submit your proxy by calling the toll-free telephone number noted on your proxy card or Internet Notice. Telephone proxy submission is available 24 hours a day and will be accessible until 3:59 p.m. Eastern Daylight Time on May 3, 2017. Easy-to-follow voice prompts allow you to submit your proxy and confirm that your instructions have been properly recorded. If you are a shareholder of record of Allergan and you choose to submit your proxy by telephone by calling the toll-free number on your proxy card, your use of that telephone system, and in particular the entry of your pin number/other unique identifier, will be deemed to constitute your appointment, in writing and under hand, and for all purposes of the Irish Companies Act 2014, of each of Brenton L. Saunders and A. Robert D. Bailey as your proxy to vote your shares on your behalf in accordance with your telephone instructions.

You also may choose to vote over the Internet. The website for Internet voting is noted on your proxy card or Internet Notice. Internet voting is also available 24 hours a day and will be accessible until 3:59 p.m. Eastern Daylight Time on May 3, 2017. As with telephone proxy submission, Internet voting allows you to confirm that your instructions have been properly recorded.

Shareholders who vote through the Internet or submit their proxy by telephone should be aware that they may incur costs to access the Internet, such as usage charges from telephone companies or Internet service providers, and that these costs must be borne by the shareholder.

By Mail.

If you received a paper copy of the proxy card by mail and choose to vote by mail, please mark your proxy card, date and sign it, and promptly return it in the postage-paid envelope provided. We must receive your signed proxy card by 10:00 a.m. Eastern Daylight Time on May 1, 2017.

In Person at the Annual Meeting.

You may vote in person by attending the Annual Meeting and submitting a ballot.

If your proxy is properly completed, the shares it represents will be voted at the Annual Meeting as you instructed. If you submit your proxy, but do not provide instructions, your proxy will be voted in

accordance with the Board of Directors' recommendations as set forth in this Proxy Statement.

Shares must be voted either in person, by telephone proxy submission or over the Internet or by completing and returning a proxy card by mail. Shares cannot be voted by marking, writing on and/or returning an Internet Notice. Any Internet Notice that is returned will not be counted as a vote.

Revoking Your Proxy

Shareholders of Record

If you are a shareholder of record of our ordinary shares, you have the right to revoke your proxy at any time before it is voted at the Annual Meeting by (1) filing a written notice with our Company Secretary, or (2) attending the Annual Meeting and voting in person. Attendance at the Annual Meeting will not, by itself, revoke a proxy. If you wish to grant a new proxy, you can do so by telephone or over the Internet up to 3:59 p.m. Eastern Daylight Time on May 3, 2017, or by mail, which we must receive by 10:00 a.m. Eastern Daylight Time on May 1, 2016.

Any such notices and new proxies that are sent by mail should be sent to Allergan plc, Company Secretary, Clonshaugh Business and Technology Park, Coolock, Dublin, D17 E400, Ireland.

Beneficial Owners

Persons who hold their shares through a bank, brokerage firm or other nominee may change or revoke their voting instructions by following the requirements of their bank or broker, or may vote in person at the Annual Meeting by obtaining a legal proxy from their bank or broker and submitting the legal proxy at the Annual Meeting along with their ballot.

Solicitation of Proxies

We have retained the services of a proxy solicitation firm, MacKenzie Partners, Inc. (*MacKenzie*), to solicit proxies for the Annual Meeting from our shareholders by mail. We will bear the entire cost of our and MacKenzie's solicitations, including the payment of fees of approximately \$15,000 to MacKenzie for their services, and the cost of preparation, assembly, printing and mailing of this Proxy Statement, the Internet Notice, the proxy card and any additional proxy materials or information furnished to our shareholders. In addition, our directors, officers and employees may solicit proxies on our behalf by telephone, facsimile, electronic mail or personal solicitation. Our directors, officers and employees will receive no additional compensation for such services. We will reimburse brokers, custodians and nominees for the reasonable expenses they incur furnishing proxy solicitation and other required Annual Meeting materials to street name holders who beneficially own those shares on the record date.

Quorum and Voting

At the close of business on March 8, 2017, 335,496,312 ordinary shares were outstanding and entitled to vote at the Annual Meeting. Votes cast by proxy (including through the Internet or by telephone) or in person at the Annual Meeting will be tabulated by the election inspector appointed for the Annual Meeting who will determine whether or not a quorum is present. The presence, in person or by proxy, of the holders of a majority of our outstanding ordinary shares and entitled to vote at the Annual Meeting is necessary in order to constitute a quorum for the conduct of business at the Annual Meeting. Ordinary shares held in treasury will not be included in the calculation of the number of ordinary shares present at the Annual Meeting for the purposes of determining a quorum. If a proxy is received but marked *abstain* or if a broker non-vote (as described below) occurs, those shares will be considered as present and entitled to vote for the purposes of determining the presence of a quorum.

Broker Non-Votes

If your ordinary shares are held by a broker in street name, under NYSE rules your broker may vote your shares on certain routine matters if you do not provide your broker with voting instructions. Proposal No. 4, the ratification of the selection of our independent auditors and the authorization of the Board of Directors, acting through the Audit and Compliance Committee, to determine its remuneration, is considered a routine matter upon which brokerage firms may vote on behalf of their clients even if no voting instructions are provided.

If your ordinary shares are held by a broker in street name, under NYSE rules your broker may not vote your shares on certain non-routine matters if you do not provide your broker with voting instructions. This is called a broker non-vote and occurs because your broker lacks discretionary voting authority to vote your shares on a non-routine matter if you do not provide your broker with your voting instructions.

Table of Contents

PROXY STATEMENT

The non-routine matters on the agenda for this year's Annual Meeting are (a) Proposal No. 1: the election of directors, (b) Proposal No. 2: the compensation of our Named Executive Officers, (c) Proposal No. 3: the frequency with which the Company should conduct a non-binding vote with respect to the compensation of its Named Executive Officers, (d) Proposal No. 5: the approval of the material terms of the performance goals under the Allergan plc 2017 Annual Incentive Compensation Plan and (e) the shareholder proposal (Proposal No. 6). Accordingly, with respect to the proposals other than Proposal No. 4 (ratification of the selection of our independent auditors and authorization of the Board of Directors, acting through the Audit and Compliance Committee, to determine its remuneration), your broker will not be able to vote your shares without specific instructions from you.

Voting Procedures

A properly submitted proxy that is received by 3:59 p.m. Eastern Daylight Time on May 3, 2017 (with respect to proxies submitted through the Internet or by telephone) or by 10:00 a.m. Eastern Daylight Time on May 1, 2017 (with respect to proxies submitted by mail) and that is not revoked will be voted in the manner directed by the shareholder submitting the proxy. If no direction is made, such proxy will be voted:

FOR the election of each of Nesli Basgoz, M.D., Paul M. Bisaro, James H. Bloem, Christopher W. Bodine, Adriane M. Brown, Christopher J. Coughlin, Catherine M. Klema, Peter J. McDonnell, M.D., Patrick J. O'Sullivan, Brenton L. Saunders, Ronald R. Taylor and Fred G. Weiss as our directors;

FOR the approval, on a non-binding basis, of our Named Executive Officer compensation;

ONE YEAR with respect to the frequency with which the Company should conduct an advisory vote with respect to the compensation of its Named Executive Officers;

FOR the ratification, on a non-binding basis, of the appointment of PricewaterhouseCoopers LLP as the Company's independent auditor for the fiscal year ending December 31, 2017 and the authorization, on a binding basis, of the Board of Directors, acting through the Audit and Compliance Committee, to determine its remuneration;

FOR the approval of the material terms of the performance goals for the purposes of Section 162(m) under the Allergan plc 2017 Annual Incentive Compensation Plan; and

AGAINST the shareholder proposal described in Proposal No. 6.

As of the date of this Proxy Statement, the Board of Directors knows of no other business that will be presented for consideration at the Annual Meeting. However, if other proper matters are presented at the Annual Meeting, or any continuations, adjournments or postponements of the Annual Meeting, it is the intention of the proxy holders named in our form of proxy to vote the proxies held by them in accordance with their best judgment.

The proxy for the Annual Meeting gives each of Brenton L. Saunders and A. Robert D. Bailey or any other proxy appointed by you discretionary authority to vote your shares in accordance with his best judgment with respect to all additional matters that might come before the Annual Meeting.

Irish Statutory Financial Statements

We are presenting our Irish statutory financial statements, including the reports of the directors and the statutory auditors thereon, at the Annual General Meeting, and we are making a copy of them available for download in PDF format on www.proxyvote.com on or before April 12, 2017. Since we are an Irish company, we are required to prepare Irish statutory financial statements under applicable Irish company law and to deliver those accounts to shareholders of record in connection with our Annual Meeting. The Irish statutory financial statements cover the results of operations and financial position of Allergan plc for the year ended December 31, 2016. Irish law requires the directors to prepare financial statements for each financial year giving a true and fair view of the state of the group's and parent company's affairs at the end of the financial year and of the group's profit or loss for the financial year. Under that law, the directors have prepared the group's consolidated financial statements in accordance with U.S. generally accepted accounting principles, as defined in Section 279 of the Irish Companies Act 2014, to the extent that the use of those principles in the preparation of the consolidated financial statements does not contravene any provision of the Irish Companies Act 2014 or of any regulations made thereunder and the parent company financial statements in accordance with accounting standards issued by the Financial Reporting Council and promulgated by the Institute of Chartered Accountants in Ireland (Generally Accepted Accounting Practice in Ireland).

Table of Contents

We will mail without charge, upon written request, a copy of the Irish statutory financial statements to shareholders of record or beneficial owners of our ordinary shares. Requests should be sent to Allergan plc, Clonshaugh Business and Technology Park, Coolock, Dublin, D17 E400, Ireland.

Householding

In an effort to reduce printing costs and postage fees, we have adopted a practice approved by the SEC called householding. Under this practice, non-registered shareholders who have the same address and last name will receive only one copy of the Internet Notice and, upon request, our proxy materials, unless one or more of these non-registered shareholders notifies us that he or she wishes to receive individual copies. If you share an address with another non-registered shareholder and prefer to receive separate copies of the Internet Notice, or if you currently receive separate copies and would prefer to receive one copy, please contact our Investor Relations department with your request by mail at Allergan plc, Investor Relations, Morris Corporate Center III, 400 Interpace Parkway, Parsippany, NJ 07054, or by telephone at (862) 261-7488.

Information on Our Website

Information on our website, other than our Proxy Statement and form of proxy, or any other website referred to in this Proxy Statement, is not part of the proxy soliciting material and is not incorporated into this Proxy Statement by reference.

Such performance goals shall otherwise comply with the requirements of Section 162(m) of the Code and the regulations thereunder.

4.2. *Certification.* At such time as it shall determine appropriate following the conclusion of each Performance Period and prior to payment of any Award, the Committee shall certify, in writing, the amount of the Award for each Participant for such Performance Period.

4.3. *Payment of Awards.* (a) The amount of the Award actually paid to a Participant may, in the sole discretion of the Committee, be less than the amount otherwise payable to the Participant based on attainment of the performance goals for the Performance Period as determined in accordance with Section 4.1. The Committee may establish factors to take into consideration in implementing its discretion to reduce the amount of an Award, including, but not limited to, individual performance and/or one or more of the performance goals. The Committee may not waive the achievement of the applicable performance goals for any award intended to qualify as qualified performance-based compensation under

Section 162(m) of the Code, except in the case of the death or disability of the Participant or a change in control of the Company. In no event may the Committee increase the amount of the Award otherwise payable to the Participant based on attainment of the performance goals for the Performance Period.

(b) The actual amount of the Award determined by the Committee for a Performance Period shall be paid in the Committee's discretion in cash or, to the extent permissible under a shareholder-approved stock plan of the Company, in stock based awards under such plan. Payment to each Participant shall be made no later than the fifteenth day of the third month following the end of the fiscal year of the Company in which the applicable Performance Period ends, unless payment is deferred pursuant to a plan or arrangement satisfying the requirements of Section 409A of the Code.

4.4. *Changes in Employment.* (a) If (i) a person becomes a Participant during a Performance Period as specified in Section 4.1(b), or (ii) a Participant dies, retires or is

disabled, during a Performance Period, or (iii) if a Participant's employment is otherwise terminated, during a Performance Period (except for cause, as determined by the Committee in its sole discretion), the Award payable to such a Participant may, in the discretion of the Committee, be proportionately reduced based on the period of actual employment during the applicable Performance Period.

(b) Except as provided in paragraph (a) of this Section, if a Participant's employment with the Company terminates prior to the end of a Performance Period for any reason, the Participant will not be entitled to any Award for such Performance Period unless otherwise determined by the Committee.

4.5. Transfers and Changes in Responsibilities. If a Participant's responsibilities materially change or the Participant is transferred during a Performance Period to a position that is not deemed by the Committee as eligible to participate in the Plan, the Company may, as determined by the Committee, terminate the Participant's participation in this Plan. In the event of such termination, the Participant would be eligible for a prorated Award based on the number of months in such Performance Period prior to such termination. Such Award will be paid only after the end of such Performance Period.

4.6. Maximum Award. The maximum dollar value of all Awards payable to any Participant during any fiscal year is \$10,000,000.

5. MISCELLANEOUS

5.1. Amendment and Termination of the Plan. The Board may, from time to time, alter, amend, suspend or terminate the Plan as it shall deem advisable, subject to any requirement for stockholder approval imposed by applicable law, including Section 162(m) of the Code, or by the New York Stock Exchange (or such other principal securities market on which the Company's securities are listed or qualified for trading). No amendments to, or termination of, the Plan shall in any way impair the rights of a Participant under any Award previously granted without such Participant's consent.

5.2. Section 162(m) of the Code. Unless otherwise determined by the Committee, the provisions of this Plan shall be administered and interpreted in accordance with Section 162(m) of the Code to ensure the deductibility by the Company of the payment of Awards. The Committee has the discretion to grant Awards, including Awards made to Participants who are covered employees within the meaning of Section 162(m) of the Code, that do not qualify as performance-based compensation.

5.3. Tax Withholding. The Company or an Affiliate shall have the right to make all payments or distributions pursuant to the Plan to a Participant, net of any applicable federal, state and local taxes required to be paid or withheld. The Company or an Affiliate shall have the right to withhold from wages, Awards or other amounts otherwise payable to such Participant such withholding taxes as may be required by law, or to otherwise require the Participant to pay such withholding taxes. If the Participant shall fail to make such tax payments as are required, the Company or an Affiliate shall, to the extent permitted by law, have the right to deduct any such taxes from any payment of any kind otherwise due to such Participant or to take such other action as may be necessary to satisfy such withholding obligations.

5.4. Right of Discharge Reserved; Claims to Awards. Nothing in this Plan shall provide any Participant a right to receive any Award or payment under the Plan with respect to a

Performance Period. Nothing in the Plan nor the grant of an Award hereunder shall confer upon any Participant the right to continue in the employment of the Company or an Affiliate or affect any right that the Company or an Affiliate may have to terminate the employment of (or to demote or to exclude from future Awards under the Plan) any such Participant at any time for any reason. Except as specifically provided by the Committee, the Company shall not be liable for the loss of existing or potential profit from an Award granted in the event of the termination of employment of any Participant. No Participant shall have any claim to be granted any Award under the Plan, and there is no obligation for uniformity of treatment of Participants under the Plan.

5.5. Nature of Payments. All Awards made pursuant to the Plan are in consideration of services performed or to be performed for the Company or an Affiliate, division or business unit of the Company. Any income or gain realized pursuant to Awards under the Plan constitute a special incentive payment to the Participant and shall not be taken into account, to the extent permissible under applicable law, as compensation for purposes of any of the employee benefit plans of the Company or an Affiliate except as may be determined by the Committee or by the Board or board of directors of the applicable Affiliate.

5.6. Other Plans. Nothing contained in the Plan shall prevent the Board from adopting other or additional compensation arrangements, subject to stockholder approval if such approval is required; and such arrangements may be either generally applicable or applicable only in specific cases.

5.7. Severability. If any provision of the Plan shall be held unlawful or otherwise invalid or unenforceable in whole or in part by a court of competent jurisdiction, such provision shall (a) be deemed limited to the extent that such court of competent jurisdiction deems it lawful, valid and/or enforceable and as so limited shall remain in full force and effect, and (b) not affect any other provision of the Plan or part thereof, each of which shall remain in full force and effect. If the making of any payment or the provision of any other benefit required under the Plan shall be held unlawful or otherwise invalid or unenforceable by a court of competent jurisdiction, such unlawfulness, invalidity or unenforceability shall not prevent any other payment or benefit from being made or provided under the Plan, and if the making of any payment in full or the provision of any other benefit required under the Plan in full would be unlawful or otherwise invalid or unenforceable, then such unlawfulness, invalidity or unenforceability shall not prevent such payment or benefit from being made or provided in part, to the extent that it would not be unlawful, invalid or unenforceable, and the maximum payment or benefit that would not be unlawful, invalid or unenforceable shall be made or provided under the Plan.

5.8. Clawback. The Committee has the discretion to require a Participant to repay the income, if any, derived from an Award in the event of a restatement of the Company's financial results within three years after payment of such Award to correct a material error that is determined by the Committee to be the result of fraud or intentional misconduct. In addition, all Awards and all benefits derived by a Participant from any Award shall be subject to recovery by the Company in such circumstances and on such terms and conditions as may be prescribed by the Committee at any time or from time to time pursuant to any policy adopted by the Company to ensure, or otherwise to ensure, compliance with any rules, regulations or listing standards adopted by the Securities and Exchange Commission or the New York Stock Exchange to implement Section 10D of the Securities Exchange Act, as required by the Dodd-Frank Wall Street Reform and Consumer Protection Act.

5.9. *Section 409A.* The Company intends that the Plan and each Award granted hereunder that is subject to Section 409A of the Code shall be exempt from or comply with Section 409A and that the Plan shall be interpreted, operated and administered accordingly. If any provision of the Plan contravenes any regulations or guidance promulgated under Section 409A or would cause any Award to be subject to taxes, interest or penalties under Section 409A, the Company may, in its sole discretion, modify the Plan to (a) comply with, or avoid being subject to, Section 409A, (b) avoid the imposition of taxes, interest and penalties under Section 409A, and/or (c) maintain, to the maximum extent practicable, the original intent of the applicable provision without violating the provisions of Section 409A. The Company is not obligated to modify the Plan and there is no guarantee that any payments will be exempt from taxes, interest and penalties under Section 409A. Notwithstanding anything herein to the contrary, in no event shall the Company be liable for the payment of, or any gross up in connection with, any taxes, interest and or penalties owed by any Participant pursuant to Section 409A.

5.10. *Construction.* As used in the Plan, the words *include* and *including*, and variations thereof, shall not be deemed to be terms of limitation, but rather shall be deemed to be followed by the words *without limitation*.

5.11. *Unfunded Status of the Plan.* The Plan is intended to constitute an *unfunded* plan for incentive compensation. With respect to any payments not yet made to a Participant by the Company, nothing contained herein shall give any such Participant any rights that are greater than those of a general creditor of the Company. The Plan is not intended to be subject to the Employee Retirement Income Security Act of 1974, as amended.

5.12. *Governing Law.* The Plan and all determinations made and actions taken thereunder, to the extent not otherwise governed by the Code or the laws of the United States, shall be governed by the laws of the State of New Jersey without reference to principles of conflict of laws that might result in the application of the laws of another jurisdiction, and shall be construed accordingly.

5.13. *Effective Date of the Plan.* The Plan shall be effective on the date it is first adopted by the Committee, subject to the approval of the Plan by the holders of the then outstanding securities of the Company entitled to vote generally in the election of directors. The Plan shall be null and void and of no effect if the foregoing condition is not fulfilled. So long as the Plan has not been terminated by the Company, it shall be resubmitted for approval to the Company's stockholders in 2022, and every fifth year thereafter. In addition, the Plan shall be resubmitted to the Company's stockholders for approval as required by Section 162(m) of the Code if it is amended in any way that changes the material terms of the Plan's performance goals, including by materially modifying the performance goals, increasing the maximum bonus payable under the Plan, or changing the Plan's eligibility requirements.

5.14. *Captions.* The captions in the Plan are for convenience of reference only, and are not intended to narrow, limit or affect the substance or interpretation of the provisions contained herein.
