**ITEM 2.05 COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES**

On August 3, 2017, Navistar International Corporation (the Company) announced its plan to cease engine production at its plant in Melrose Park, Ill. (Melrose Park Facility) in the second quarter of fiscal 2018. The majority of engines produced at the Melrose Park Facility are medium duty 9/10 liter engines used in International® Class 6 and 7 vehicles, for which alternative engine options are currently offered in all applications. The company will continue the transformation of the facility's technical center, including truck and engine testing and validation as well as used truck sales and reconditioning, continuing the process that started in 2010.

As a result of the cessation of engine production at the Melrose Park Facility, the Company incurred pre-tax charges of approximately \$43 million, which consists of charges of \$32 million for employee separation and other pension and post retirement contractual termination benefits, and \$11 million for inventory reserves and other-related charges. Approximately \$8 million of these restructuring charges will result in additional future cash outlays. In addition, the Company anticipates up to \$8 million in additional charges for accelerated depreciation and related impacts during the remainder of fiscal 2017 the first half of fiscal 2018.

**ITEM 7.01 REGULATION FD DISCLOSURE**
