## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

## (1) Background

The accompanying Consolidated Financial Statements of General Mills, Inc. (we, us, our, General Mills, or the Company) have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the rules and regulations for reporting on Form 10-Q. Accordingly, they do not include certain information and disclosures required for comprehensive financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal recurring nature, including the elimination of all intercompany transactions and any noncontrolling and redeemable interests share of those transactions. Operating results for the quarter ended August 27, 2017 are not necessarily indicative of the results that may be expected for the fiscal year ending May 27, 2018.

These statements should be read in conjunction with the Consolidated Financial Statements and footnotes included in our Annual Report on Form 10-K for the fiscal year ended May 28, 2017. The accounting policies used in preparing these Consolidated Financial Statements are the same as those described in Note 2 to the Consolidated Financial Statements in that Form 10-K with the exception of the new accounting requirements adopted in the first quarter of fiscal 2018 for stock-based payments and goodwill impairment testing. See Note 16 to the Consolidated Financial Statements in Part I, Item 1 of this report for additional information. Certain terms used throughout this report are defined in the Glossary section below.

## (2) Divestiture

During the second quarter of fiscal 2017, we sold our Martel, Ohio manufacturing facility in our Convenience Stores \& Foodservice segment and simultaneously entered into a co-packing arrangement with the purchaser. We received $\$ 17.5$ million in cash, and recorded a pre-tax loss of $\$ 13.5$ million.

## (3) Restructuring Initiatives

We are currently pursuing several multi-year restructuring initiatives designed to increase our efficiency and focus our business behind our key growth strategies. Charges related to these activities were as follows:

In the third quarter of fiscal 2017, we approved restructuring actions designed to better align our organizational structure with our strategic initiatives. This action will affect approximately 600 positions and we expect to incur approximately $\$ 75$ million of net expenses relating to these actions, all of which will be cash. We recorded $\$ 0.8$ million of restructuring charges in the first quarter of fiscal 2018 relating to these actions. We expect these actions to be completed by the end of fiscal 2018.

In the second quarter of fiscal 2017, we notified the employees and their representatives of our decision to close our pasta manufacturing facility in Melbourne, Australia in our Europe \& Australia segment to improve our margin structure. This action will affect approximately 350 positions,

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

and we expect to incur approximately $\$ 34$ million of net expenses relating to this action, of which approximately $\$ 3$ million will be cash. We recorded $\$ 2.1$ million of restructuring charges in the first quarter of fiscal 2018 relating to this action. We expect this action to be completed by the end of fiscal 2019.

## Table of Contents

In the first quarter of fiscal 2017, we announced a plan to restructure certain product lines in our Asia \& Latin America segment. To eliminate excess capacity, we closed our snacks manufacturing facility in Marília, Brazil and ceased production operations for meals and snacks at our facility in São Bernardo do Campo, Brazil. We also ceased production of certain underperforming snack products at our facility in Nanjing, China. These and other actions will affect approximately 420 positions in our Brazilian operations and approximately 440 positions in our Greater China operations. We expect to incur approximately $\$ 42$ million of net expenses related to these actions, most of which will be non-cash. We recorded $\$ 36.4$ million of restructuring charges in the first quarter of fiscal 2017 relating to these actions. We expect these actions to be completed by the end of fiscal 2019.

In the first quarter of fiscal 2017, we approved a plan to close our Vineland, New Jersey facility to eliminate excess soup capacity in our North America Retail segment. This action affected 380 positions, and we expect to incur approximately $\$ 55$ million of net expenses, of which approximately $\$ 12$ million will be cash. We recorded $\$ 13.4$ million of restructuring charges in the first quarter of fiscal 2018 and $\$ 20.9$ million in the first quarter of 2017 relating to this action. We expect this action to be completed by the end of fiscal 2019.

We paid $\$ 26.7$ million in cash relating to restructuring initiatives in the first quarter of fiscal 2018 and $\$ 15.9$ million in first quarter of fiscal 2017.

In addition to restructuring charges, we recorded $\$ 1.2$ million of project-related costs in cost of sales in the first quarter of fiscal 2018 and $\$ 13.8$ million in the first quarter of fiscal 2017. We paid $\$ 2.7$ million in cash in the first quarter of fiscal 2018 and $\$ 16.7$ million in the same period of fiscal 2017 for project-related costs. We expect to incur approximately $\$ 12$ million of project-related costs in future periods related to our restructuring initiatives.

Restructuring charges and project-related costs are recorded in our Consolidated Statements of Earnings as follows:

|  | Quarter Ended |  |  |
| :--- | :---: | ---: | ---: |
| In Millions | Aug. 27, 2017 | Aug. 28, 2016 |  |

| Other intangible assets | $\mathbf{\$ 1 3 , 4 2 5 . 6}$ | $\$ 13,277.6$ |

Based on the carrying value of finite-lived intangible assets as of August 27, 2017, annual amortization expense for each of the next five fiscal years is estimated to be approximately $\$ 27$ million.

The changes in the carrying amount of goodwill during fiscal 2018 were as follows:

| In Millions | North | Convenience Stores |  |  |  |  |  |  |  |  |

The changes in the carrying amount of other intangible assets during fiscal 2018 were as follows:

| In Millions | Total |
| :--- | ---: |
| Balance as of May 28, 2017 | $\$ 4,530.4$ |
| Other activity, primarily foreign currency translation | 62.9 |
| Balance as of Aug. 27, 2017 | $\mathbf{\$ 4 , 5 9 3 . 3}$ |

Our annual goodwill and indefinite-lived intangible assets test was performed on the first day of the second quarter of fiscal 2017 and we determined there was no impairment of our intangible assets as their related fair values were substantially in excess of the carrying values, except for the Latin America reporting unit and Immaculate Baking brand intangible asset.

The excess fair value above the carrying value of the Latin America reporting unit and the Immaculate Baking brand intangible asset is as follows:

## In Millions

## Carrying <br> Value

Excess Fair Value
Above

|  | Carrying <br> Value |  |
| :--- | :--- | ---: | ---: |
| Latin America | $\$ 523.0$ | $15 \%$ |
| Immaculate Baking | $\$ 12.0$ | $17 \%$ |

In addition, while having significant coverage as of our fiscal 2017 assessment date, the Progresso, Green Giant, and Food Should Taste Good brand intangible assets and U.S. Yogurt reporting unit had risk of decreasing coverage. We will continue to monitor these businesses for potential impairment.

## (6) Risk Management Activities

Many commodities we use in the production and distribution of our products are exposed to market price risks. We utilize derivatives to manage price risk for our principal ingredients and energy costs, including grains (oats, wheat, and corn), oils (principally soybean), non-fat dry milk, natural gas, and diesel fuel. Our primary objective when entering into these derivative contracts is to achieve certainty with regard to the future price of commodities purchased for use in our supply chain. We manage our exposures through a combination of purchase orders, long-term contracts with suppliers, exchange-traded futures and options, and over-the-counter options and swaps. We offset our exposures based on current and projected market conditions and generally seek to acquire the inputs at as close to our planned cost as possible.

We use derivatives to manage our exposure to changes in commodity prices. We do not perform the assessments required to achieve hedge accounting for commodity derivative positions. Accordingly, the changes in the values of these derivatives are recorded currently in cost of sales in our Consolidated Statements of Earnings.

Although we do not meet the criteria for cash flow hedge accounting, we believe that these instruments are effective in achieving our objective of providing certainty in the future price of commodities purchased for use in our supply chain. Accordingly, for purposes of measuring segment operating performance, certain gains and losses are reported in unallocated corporate items outside of segment operating results until such time that the exposure we are managing affects earnings. At that time we reclassify the gain or loss from unallocated corporate items to segment operating profit, allowing our operating segments to realize the economic effects of the derivative without experiencing the resulting mark-to-market volatility, which remains in unallocated corporate items.

Unallocated corporate items for the quarters ended August 27, 2017, and August 28, 2016 included:

## In Millions

Net loss on mark-to-market valuation of certain commodity positions
Net loss on commodity positions reclassified from unallocated corporate items to segment operating profit
Net mark-to-market revaluation of certain grain inventories
Net mark-to-market valuation of certain commodity positions recognized in unallocated corporate items

As of August 27, 2017, the net notional value of commodity derivatives was $\$ 290.6$ million, of which $\$ 83.0$ million related to energy inputs and $\$ 207.6$ million related to agricultural inputs. These contracts relate to inputs that generally will be utilized within the next 12 months.

In advance of planned debt financing, in fiscal 2018, we entered into $\$ 500$ million of treasury locks due October 15, 2017 with an average fixed rate of 1.8 percent.

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

In advance of planned debt financing, during the third quarter of fiscal 2016 and the first quarter of fiscal 2017, we entered into $\$ 400$ million and $\$ 100$ million, respectively, of treasury locks due February 15,2017 with an average fixed rate of 2.0 percent. All of these treasury locks were cash settled for $\$ 17.2$ million during the third quarter of fiscal 2017, concurrent with the issuance of our $\$ 750.0$ million 10-year fixed-rate notes.

## Table of Contents

The fair values of the derivative positions used in our risk management activities and other assets recorded at fair value were not material as of August 27, 2017, and were Level 1 or Level 2 assets and liabilities in the fair value hierarchy. We did not significantly change our valuation techniques from prior periods.

We offer certain suppliers access to third party services that allows them to view our scheduled payments online. The third party services also allow suppliers to finance advances on our scheduled payments at the sole discretion of the supplier and the third party. We have no economic interest in these financing arrangements and no direct relationship with the suppliers, the third parties, or any financial institutions concerning these services. All of our accounts payable remain as obligations to our suppliers as stated in our supplier agreements. As of August 27, 2017, $\$ 724.7$ million of our total accounts payable were payable to suppliers who utilize these third party services.
(7) Debt

The components of notes payable were as follows:

|  | Aug. 27, | May 28, |
| :--- | :---: | :---: |
| In Millions | $\mathbf{2 0 1 7}$ | $\mathbf{2 0 1 7}$ |

| Financial institutions | $\mathbf{2 9 2 . 8}$ | 279.4 |
| Total | $\mathbf{\$ 1 , 6 6 0 . 3}$ | $\$ 1,234.1$ |

To ensure availability of funds, we maintain bank credit lines sufficient to cover our outstanding notes payable. Commercial paper is a continuing source of short-term financing. We have commercial paper programs available to us in the United States and Europe. We also have committed, uncommitted, and asset-backed credit lines that support our foreign operations.

The following table details the fee-paid committed and uncommitted credit lines we had available as of August 27, 2017:

| In Billions | Facility <br> Amount | Borrowed <br> Amount |  |  |
| :--- | ---: | ---: | ---: | ---: |
| Credit facility expiring: | $\$ 2.7$ | $\$$ |  |  |

| June 2019 | 2.9 | 0.1 |  |  |
| Total committed credit facilities | $\$ 0.5$ | 0.2 |  |  |
| Uncommitted credit facilities | $\$$ | 3.4 | $\$$ | 0.3 |

The credit facilities contain covenants, including a requirement to maintain a fixed charge coverage ratio of at least 2.5 times. We were in compliance with all credit facility covenants as of August 27, 2017.

## Long-Term Debt

The fair values and carrying amounts of long-term debt, including the current portion, were $\$ 8,772.1$ million and $\$ 8,427.4$ million, respectively, as of August 27, 2017. The fair value of long-term debt was estimated using market quotations and discounted cash flows based on our current incremental borrowing rates for similar types of instruments. Long-term debt is a Level 2 liability in the fair value hierarchy.

In March 2017, we issued 300.0 million principal amount of floating-rate notes due March 20, 2019. Interest on the notes is payable quarterly in arrears. The notes are not generally redeemable prior to maturity. These notes are senior unsecured obligations that include a change of control repurchase provision. The net proceeds were used to repay a portion of our outstanding commercial paper.

In February 2017, we repaid $\$ 1.0$ billion of 5.7 percent fixed-rate notes.

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

In January 2017, we issued $\$ 750.0$ million principal amount of 3.2 percent fixed-rate notes due February 10, 2027. Interest on the notes is payable semi-annually in arrears. We may redeem the notes in whole, or in part, at any time at the applicable redemption price. The notes are senior unsecured obligations that include a change of control repurchase provision. The net proceeds were used to repay a portion of our maturing long-term debt.

## Table of Contents

Certain of our long-term debt agreements contain restrictive covenants. As of August 27, 2017, we were in compliance with all of these covenants.

## (8) Redeemable and Noncontrolling Interests

We have a 51 percent controlling interest in Yoplait SAS and a 50 percent interest in Yoplait Marques SNC and Liberté Marques Sàrl. Sodiaal International (Sodiaal) holds the remaining interests in each of the entities. On the acquisition date, we recorded the $\$ 904.4$ million fair value of Sodiaal s 49 percent euro-denominated interest in Yoplait SAS as a redeemable interest on our Consolidated Balance Sheets. Sodiaal has the ability to put all or a portion of its redeemable interest to us at fair value once per year, up to three times before December 2024. We adjust the value of the redeemable interest through additional paid-in capital on our Consolidated Balance Sheets quarterly to the redeemable interest s redemption value, which approximates its fair value. Yoplait SAS pays dividends annually if it meets certain financial metrics set forth in its shareholders agreement. As of August 27, 2017, the redemption value of the euro-denominated redeemable interest was $\$ 967.5$ million.

A subsidiary of Yoplait SAS has an exclusive milk supply agreement for its European operations with Sodiaal through July 1, 2021. Net purchases totaled $\$ 52.5$ million for the three-month period ended August 27, 2017 and $\$ 62.0$ million for the three-month period ended August 28, 2016.

On the acquisition dates, we recorded the $\$ 281.4$ million fair value of Sodiaal s 50 percent euro-denominated interest in Yoplait Marques SNC and 50 percent Canadian dollar-denominated interest in Liberté Marques Sàrl as noncontrolling interests on our Consolidated Balance Sheets. Yoplait Marques SNC earns a royalty stream through a licensing agreement with Yoplait SAS for the rights to Yoplait and related trademarks. Liberté Marques Sàrl earns a royalty stream through licensing agreements with certain Yoplait group companies for the rights to Liberté and related trademarks. These entities pay dividends annually based on their available cash as of their fiscal year end.

The third-party holder of the Class A Interests in our General Mills Cereals, LLC (GMC) consolidated subsidiary receives quarterly preferred distributions from available net income based on the application of a floating preferred return rate to the holder scapital account balance established in the most recent mark-to-market valuation (currently $\$ 251.5$ million). The preferred return rate is adjusted every three years through a negotiated agreement with the Class A Interest holder or through a remarketing auction. On June 1, 2015, the floating preferred return rate on GMC s Class A Interests was reset to the sum of three-month LIBOR plus 125 basis points.

Our noncontrolling interests contain restrictive covenants. As of August 27, 2017, we were in compliance with all of these covenants.

## (10) Stock Plans

We have various stock-based compensation programs under which awards, including stock options, restricted stock, restricted stock units, and performance awards, may be granted to employees and non-employee directors. These programs and related accounting are described in Note 11 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 28, 2017 and Note 16 to the Consolidated Financial Statements in Part I, Item 1 of this report.

Compensation expense related to stock-based payments recognized in the Consolidated Statements of Earnings was as follows:

|  | Quarter Ended |  |

|  | $\mathbf{\$ 2 9 . 6}$ | $\$ 39.0$ |

Compensation expense related to stock-based payments recognized in the Consolidated Statements of Earnings includes amounts recognized in restructuring, impairment, and other exit costs in fiscal 2017.

As of August 27, 2017, unrecognized compensation expense related to non-vested stock options, restricted stock units, and performance share units was $\$ 145.4$ million. This expense will be recognized over 27 months, on average.

Net cash proceeds from the exercise of stock options less shares used for withholding taxes and the intrinsic value of options exercised were as follows:

| Net cash proceeds | $\mathbf{\$ 4 1 . 0}$ | $\$$ |
| Intrinsic value of options exercised | $\mathbf{\$ 4 0 . 3}$ | $\$$ |

We estimate the fair value of each stock option on the grant date using a Black-Scholes option-pricing model. Black-Scholes option-pricing models require us to make predictive assumptions regarding future stock price volatility, employee exercise behavior, and dividend yield. We estimate our future stock price volatility using the historical volatility over the expected term of the option, excluding time periods of volatility we believe a marketplace participant would exclude in estimating our stock price volatility. We also have considered, but did not use, implied volatility in our estimate, because trading activity in options on our stock, especially those with tenors of greater than 6 months, is insufficient to provide a reliable measure of expected volatility. Our method of selecting the other valuation assumptions is explained in Note 11 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 28, 2017.

The estimated fair values of stock options granted and the assumptions used for the Black-Scholes option-pricing model were as follows:

|  | Quarter Ended |  |
| :--- | :---: | :---: |
|  | Aug. 27, | Aug. 28, |

## (14) Retirement and Postemployment Benefits

In fiscal 2017, we changed the method used to estimate the service and interest cost components of the net periodic benefit expense for our United States and most of our international defined benefit pension, other postretirement benefit, and postemployment benefit plans. We adopted a full yield curve approach to estimate service cost and interest cost by applying the specific spot rates along the yield curve used to determine the benefit obligation to the relevant projected cash flows. This method provides a more precise measurement of service and interest costs by correlating the timing of the plans liability cash flows to the corresponding rate on the yield curve.

Components of net periodic benefit expense are as follows:

## (15) Business Segment Information

We operate in the consumer foods industry. In the third quarter of fiscal 2017, we announced a new global organization structure to streamline our leadership, enhance global scale, and drive improved operational agility to maximize our growth capabilities. This global reorganization required us to reevaluate our operating segments. Under our new organization structure, our chief operating decision maker assesses performance and makes decisions about resources to be allocated to our operating segments as follows: North America Retail; Convenience Stores \& Foodservice; Europe \& Australia; and Asia \& Latin America.

We have restated our net sales by segment and segment operating profit to reflect our new operating segments. These segment changes had no effect on previously reported consolidated net sales, operating profit, net earnings attributable to General Mills, or earnings per share.

Our North America Retail operating segment consists of our former U.S. Retail operating units and our Canada region. Within our North America Retail operating segment, our former U.S. Meals operating unit and U.S. Baking operating unit have been combined into one operating unit: U.S. Meals \& Baking. The segment reflects business with a wide variety of grocery stores, mass merchandisers, membership stores, natural food chains, drug, dollar and discount chains, and e-commerce grocery providers. Our product categories in this business segment are ready-to-eat cereals, refrigerated yogurt, soup, meal kits, refrigerated and frozen dough products, dessert and baking mixes, frozen pizza and pizza snacks, grain, fruit and savory snacks, and a wide variety of organic products including refrigerated yogurt, nutrition bars, meal kits, salty snacks, ready-to-eat cereal, and grain snacks.

Our Europe \& Australia operating segment consists of our former Europe region. The segment reflects retail and foodservice businesses in the greater Europe and Australia regions. Our product categories include refrigerated yogurt, meal kits, super-premium ice cream, refrigerated and frozen dough products, shelf stable vegetables, grain snacks, and dessert and baking mixes. We also sell super-premium ice cream directly to consumers through owned retail shops. Revenues from franchise fees are reported in the region or country where the end customer is located.

Our Convenience Stores \& Foodservice operating segment was unchanged. Our major product categories in this segment are ready-to-eat cereals, snacks, refrigerated yogurt, frozen meals, unbaked and fully baked frozen dough products, and baking mixes. Many products we sell are branded to the consumer and nearly all are branded to our customers. We sell to distributors and operators in many customer channels including

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

foodservice, convenience stores, vending, and supermarket bakeries in the United States.

## Table of Contents

Our Asia \& Latin America operating segment consists of our former Asia/Pacific and Latin America regions. The segment consists of retail and foodservice businesses in the greater Asia and South America regions. Our product categories include super-premium ice cream and frozen desserts, refrigerated and frozen dough products, dessert and baking mixes, meal kits, salty and grain snacks, wellness beverages, and refrigerated yogurt. We also sell super-premium ice cream and frozen desserts directly to consumers through owned retail shops. Our Asia \& Latin America segment also includes products manufactured in the United States for export, mainly to Caribbean and Latin American markets, as well as products we manufacture for sale to our international joint ventures. Revenues from export activities are reported in the region or country where the end customer is located.

Operating profit for these segments excludes unallocated corporate items, gain or loss on divestitures, and restructuring, impairment, and other exit costs. Unallocated corporate items include corporate overhead expenses, variances to planned domestic employee benefits and incentives, contributions to the General Mills Foundation, restructuring initiative project-related costs, and other items that are not part of our measurement of segment operating performance. These include gains and losses arising from the revaluation of certain grain inventories and gains and losses from mark-to-market valuation of certain commodity positions until passed back to our operating segments. These items affecting operating profit are centrally managed at the corporate level and are excluded from the measure of segment profitability reviewed by executive management. Under our supply chain organization, our manufacturing, warehouse, and distribution activities are substantially integrated across our operations in order to maximize efficiency and productivity. As a result, fixed assets and depreciation and amortization expenses are neither maintained nor available by operating segment.

Our operating segment results were as follows:

## (16) New Accounting Pronouncements

In the first quarter of fiscal 2018, we adopted new requirements for the accounting and presentation of stock-based payments. The adoption of this guidance resulted in the prospective recognition of realized windfall and shortfall tax benefits related to the exercise or vesting of stock-based awards in our Consolidated Statements of Earnings instead of additional paid-in capital within our Consolidated Balance Sheets. We recognized a windfall tax benefit of $\$ 17.7$ million in income tax expense in our Consolidated Statements of Earnings for the quarter ended August 27, 2017. We retrospectively adopted the guidance related to reclassification of realized windfall tax benefits in our Consolidated Statements of Cash Flows. This resulted in a reclassification of $\$ 17.7$ million and $\$ 53.0$ million of cash provided by financing activities to operating activities for the quarters ended August 27, 2017 and August 28, 2016, respectively. Additionally, we retrospectively adopted the guidance related to reclassification of employee tax withholdings in our Consolidated Statements of Cash Flows. This resulted in a reclassification of $\$ 19.9$ million and $\$ 29.5$ million of cash used by operating activities to financing activities for the quarters ended August 27, 2017 and August 28, 2016, respectively. Stock-based compensation expense continues to reflect estimated forfeitures.

In the first quarter of fiscal 2018, we adopted new accounting requirements which permit reporting entities to measure a goodwill impairment loss by the amount by which a reporting unit s carrying value exceeds the reporting unit sfair value. Previously, goodwill impairment losses were required to be measured by determining the implied fair value of goodwill. The adoption of this guidance did not impact our result of operations or financial position.

## INTRODUCTION

This Management s Discussion and Analysis of Financial Condition and Results of Operations (MD\&A) should be read in conjunction with the MD\&A included in our Annual Report on Form 10-K for the fiscal year ended May 28, 2017 for important background regarding, among other things, our key business drivers. Significant trademarks and service marks used in our business are set forth in italics herein. Certain terms used throughout this report are defined in the Glossary section below.

## CONSOLIDATED RESULTS OF OPERATIONS

## First Quarter Results

In the first quarter of fiscal 2018, our net sales results finished in line with our expectations, and our execution against our global growth priorities drove market share improvement in a number of important markets, including the U.S. Our results were impacted by a challenging macro environment, unfavorable trade expense phasing, and higher input costs. Net sales declined 4 percent, driven by declining contributions from volume in the North America Retail and Asia \& Latin America segments. Operating profit margin of 16.6 percent was up 10 basis points from year-ago levels primarily driven by a decrease in restructuring expenses and mark-to-market valuation of certain commodity positions, partially offset by lower segment operating profit results. Adjusted operating profit margin decreased 210 basis points to 17.1 percent, primarily driven by higher input costs including currency-driven inflation on imported products in certain markets, and unfavorable trade expense phasing in the first quarter of fiscal 2018. Diluted earnings per share of $\$ 0.69$ increased 3 percent compared to the first quarter of fiscal 2017 and adjusted diluted earnings per share, which excludes certain items affecting comparability, on a constant-currency basis decreased 9 percent compared to the first quarter last year (see the Non-GAAP Measures section below for a description of our use of measures not defined by GAAP).

A summary of our consolidated financial results for the first quarter of fiscal 2018 follows:

|  |  | Quarter Ended <br> Aug. 27, 2017 vs. <br> Aug. 28, | In millions, except <br> Percent of Net <br> Sales | Constant- <br> Currency <br> Growth (a) |

(a) Measured in tons based on the stated weight of our product shipments.

The 4 percent decline in net sales primarily reflected lower organic net sales. Organic net sales declined 4 percent primarily driven by declines in contributions from organic volume growth in North America Retail and Asia \& Latin America. To improve comparability of results from period to period, organic net sales exclude the impacts of foreign currency exchange rate fluctuations, as well as acquisitions, divestitures, and a $53^{\text {rd }}$ week of results, when applicable.

Components of organic net sales growth are shown in the following table:

Cost of sales decreased $\$ 32$ million from the first quarter of fiscal 2017 to $\$ 2,459$ million. The decrease included a $\$ 94$ million decrease attributable to lower volume and a $\$ 96$ million increase attributable to product rate and mix. We recorded a $\$ 2$ million net decrease in cost of sales related to the mark-to-market valuation of certain commodity positions and grain inventories in the first quarter of fiscal 2018 compared to a net increase of $\$ 17$ million in the first quarter of fiscal 2017. We recorded $\$ 12$ million of restructuring charges in cost of sales in the first quarter of fiscal 2018 compared to $\$ 14$ million in the same period last year. We also recorded $\$ 1$ million of restructuring initiative project-related costs in the first quarter of fiscal 2018 compared to $\$ 14$ million in the same period last year (please refer to Note 3 to the Consolidated Financial Statements in Part I, Item 1 of this report).

Selling, general, and administrative (SG\&A) expenses decreased $\$ 33$ million to $\$ 679$ million in the first quarter of fiscal 2018 compared to the same period in fiscal 2017. The decrease in SG\&A expenses primarily reflects savings from cost management initiatives partially offset by a 1 percentage point increase in media and advertising expense. SG\&A expenses as a percent of net sales in the first quarter of fiscal 2018 decreased 20 basis points compared with the first quarter of fiscal 2017.

Restructuring, impairment, and other exit costs totaled $\$ 5$ million in the first quarter of fiscal 2018 compared to $\$ 59$ million in the same period last year.

(a) Includes $\$ 12.3$ million of restructuring charges recorded in cost of sales in the first quarter of fiscal 2018 and $\$ 13.6$ million in the first quarter of fiscal 2017.
(b) Cumulative annual savings versus fiscal 2015 base targeted by fiscal 2018. Includes savings from SG\&A cost reduction projects. For further information on these restructuring initiatives, please refer to Note 3 to the Consolidated Financial Statements in Part 1, Item 1 of this report.

Interest, net for the first quarter of fiscal 2018 totaled $\$ 72$ million, down $\$ 2$ million from fiscal 2017, driven primarily by changes in the mix of debt, partially offset by higher average debt balances.

The effective tax rate for the first quarter of fiscal 2018 was 30.4 percent compared to 30.9 percent for the first quarter of fiscal 2017. The 0.5 percentage point decrease was primarily due to the impact of the prospective adoption of the new accounting standard related to windfall tax benefits from stock-based payments (see note 16 to the Consolidated Financial Statements in Part 1, Item 1 of this report), partially offset by certain discrete items. Our effective tax rate excluding certain items affecting comparability was 30.5 percent in the first quarter of fiscal 2018 compared to 31.4 percent in the first quarter of fiscal 2017 (see the Non-GAAP Measures section below for a description of our use of measures not defined by GAAP).

After-tax earnings from joint ventures for the first quarter of fiscal 2018 decreased 2 percent compared to the same quarter last fiscal year, driven by unfavorable foreign currency exchange and higher product costs for Häagen-Dazs Japan, Inc. (HDJ) partially offset by favorable foreign currency exchange and volume growth for Cereal Partners Worldwide (CPW). On a constant-currency basis, after-tax earnings from joint ventures decreased 1 percent (see the Non-GAAP Measures section below for a description of our use of measures not defined by GAAP). The components of our joint ventures net sales growth are shown in the following table:

The change in net sales for each joint venture on a constant-currency basis is set forth in the following table:

Average diluted shares outstanding decreased by 26 million in the first quarter of fiscal 2018 from the same period a year ago due to the impact of share repurchases, partially offset by option exercises.

## SEGMENT OPERATING RESULTS

In the third quarter of fiscal 2017, we announced a new global organization structure to streamline our leadership, enhance global scale, and drive improved operational agility to maximize our growth capabilities. As a result of this global reorganization, beginning in the third quarter of fiscal 2017, we are reporting results for our four operating segments as follows: North America Retail; Convenience Stores \& Foodservice; Europe \& Australia; and Asia \& Latin America. We have restated our net sales by segment and segment operating profit amounts to reflect our new operating segments. These segment changes had no effect on previously reported consolidated net sales, operating profit, net earnings attributable to General Mills, or earnings per share.

Our North America Retail operating segment consists of our former U.S. Retail operating units and our Canada region. Within our North America Retail operating segment, our former U.S. Meals operating unit and U.S. Baking operating unit have been combined into one operating unit: U.S. Meals \& Baking. Our Europe \& Australia operating segment consists of our former Europe region. Our Asia \& Latin America operating segment consists of our former Asia/Pacific and Latin America regions. Our Convenience Stores \& Foodservice operating segment was unchanged. For further information on our operating segments, please refer to Note 15 to the Consolidated Financial Statements in Part 1, Item 1 of this report.

North America Retail Segment Results

North America Retail net sales were as follows:

|  | Aug. 27, 2017 <br> \$2,438.2 | Quarter Ended Aug. 27, 2017 vs Aug. 28, 2016 (5) \% | $\begin{gathered} \text { Aug. 28, } \\ \mathbf{2 0 1 6} \\ \$ 2.557 .0 \end{gathered}$ |

(a) Measured in tons based on the stated weight of our product shipments.

The 5 percent decrease in North America Retail net sales in the first quarter of fiscal 2018 was driven by declines in the U.S. Yogurt, U.S. Cereal, U.S. Snacks, and Canada operating units.

## Table of Contents

The components of North America Retail organic net sales growth are shown in the following table:

North America Retail organic net sales decreased 5 percentage points for the quarter ended August 27, 2017, which was primarily driven by volume declines in the U.S. Yogurt and U.S. Cereal operating units, and increased trade expense.

North America Retail net sales percentage change by operating unit are shown in the following table:

|  | Quarter Ended |
| :--- | :---: |

(a) On a constant currency basis, Canada net sales decreased 2 percent for the quarter ended August 27, 2017. See the Non-GAAP Measures section below for our use of this measure not defined by GAAP.
Segment operating profit decreased 15 percent to $\$ 533$ million in the first quarter of fiscal 2018 compared to $\$ 628$ million in the same period of fiscal 2017, driven primarily by lower volume growth, unfavorable trade expense phasing, higher input costs, and an increase in media and advertising expense. Segment operating profit decreased 15 percent on a constant-currency basis in the first quarter of fiscal 2018 compared to the first quarter of fiscal 2017 (see the Non-GAAP Measures section below for our use of this measure not defined by GAAP).

## Europe \& Australia Segment Results

Europe \& Australia net sales were as follows:

(a) Measured in tons based on the stated weight of our product shipments.

The 3 percent increase in Europe \& Australia net sales in the first quarter of fiscal 2018 was driven by growth in the super-premium ice cream and snacks businesses, and favorable foreign currency exchange.

## Table of Contents

The components of Europe \& Australia organic net sales growth are shown in the following table:

|  | Quarter Ended <br> Aug. 27, 2017 |
| :--- | ---: |
| Contributions from organic volume growth (a) | 3 pt |

| Foreign currency exchange | 1 pt |
| Net sales growth | 3 pts |

(a) Measured in tons based on the stated weight of our product shipments.

The 2 percent increase in Europe \& Australia organic net sales growth was driven by a 3 percentage point increase from organic net price realization and mix, partially offset by a 1 percentage point reduction in contributions from organic volume growth for the first quarter of fiscal 2018.

Segment operating profit decreased 30 percent to $\$ 31$ million in the first quarter of fiscal 2018 compared to $\$ 44$ million in the same period of fiscal 2017. These results were primarily driven by input cost inflation, including currency-driven inflation on imported products in certain markets. Europe \& Australia segment operating profit decreased 31 percent on a constant-currency basis in the first quarter of fiscal 2018 compared to the first quarter of fiscal 2017 (see the Non-GAAP Measures section below for our use of this measure not defined by GAAP).

## Convenience Stores \& Foodservice Segment Results

Convenience Stores \& Foodservice net sales were as follows:

|  |  | Quarter Ended <br> Aug. 27, 2017 vs |  |

## Asia \& Latin America Segment Results

Asia \& Latin America net sales were as follows:

|  | Quarter Ended <br> Aug. 27, 2017 vs. | Aug. 28, <br> Aug. 27, |  |  |
| :--- | :---: | :---: | :---: | :---: |

| Net price realization and mix |  | 9 | pts |  |
| Foreign currency exchange |  | Flat |  |  |

(a) Measured in tons based on the stated weight of our product shipments.

Asia \& Latin America net sales declined 8 percent in the first quarter of fiscal 2018 compared to the same period in the prior year which reflects the shift in reporting period in fiscal 2017 and challenges related to an enterprise reporting system implementation at our General Mills Brasil Alimentos Ltda subsidiary (Yoki).

The components of Asia \& Latin America organic net sales growth are shown in the following table:

|  | Quarter Ended <br> Aug. 27, 2017 <br> $(17) \mathrm{pts}$ |
| :--- | ---: |
| Contributions from organic volume growth (a) | 9 pts |
| Organic net price realization and mix |  |
|  |  |
| Organic net sales growth | (8)pts |
| Foreign currency exchange | Flat |
| Net sales growth | (8)pts |

(a) Measured in tons based on the stated weight of our product shipments.

The 8 percent decrease in Asia \& Latin America organic net sales for the quarter ended August 27, 2017 was primarily driven by a 17 percentage point decline in organic volume which reflects the shift in reporting period in fiscal 2017 and challenges related to an enterprise reporting system implementation at Yoki. This was partially offset by a 9 percentage point increase of organic net price realization and mix driven by pricing actions.

Segment operating profit decreased to $\$ 16$ million in the first quarter of fiscal 2018 compared to $\$ 22$ million in the same period of fiscal 2017. These results were primarily driven by lower sales volume and currency driven inflation on imported products in certain markets. Asia \& Latin America segment operating profit decreased 33 percent on a constant-currency basis in the first quarter of fiscal 2018 compared to the first quarter of fiscal 2017 (see the Non-GAAP Measures section below for our use of this measure not defined by GAAP).

## UNALLOCATED CORPORATE ITEMS

Unallocated corporate expense totaled $\$ 33$ million in the first quarter of fiscal 2018 compared to $\$ 82$ million in the same period in fiscal 2017. In the first quarter of fiscal 2018, we recorded $\$ 12$ million of restructuring charges and $\$ 1$ million of restructuring initiative project-related costs in cost of sales compared to $\$ 14$ million of restructuring charges and $\$ 14$ million of restructuring initiative project-related costs in cost of sales in the same period last year. In addition, we recorded a $\$ 2$ million net decrease in expense related to the mark-to-market valuation of certain

commodity positions and grain inventories in the first quarter of fiscal 2018 compared to a $\$ 17$ million net increase in expense in the same period last year.

## LIOUIDITY

During the first quarter ended August 27, 2017, cash provided by operations was $\$ 590$ million compared to $\$ 371$ million in the same period last year. The $\$ 219$ million increase is primarily driven by a $\$ 310$ million change in current assets and liabilities. The $\$ 310$ million change in current assets and liabilities is primarily due to changes in timing of accounts payable including the impact of extension of payment terms and changes in other current liabilities, which was largely driven by changes in trade and incentive accruals.

## Table of Contents

Cash used by investing activities during the first quarter ended August 27, 2017 was $\$ 123$ million, compared to cash used by investing activities of $\$ 127$ million in the same period in fiscal 2017. Investments of $\$ 116$ million in land, buildings and equipment in the three-month period ended August 27, 2017 decreased $\$ 37$ million compared to the same period a year ago. In addition, we received the final payment of $\$ 13$ million from Sodiaal International (Sodiaal) in the first quarter of 2017 to fully repay the exchangeable note we purchased in fiscal 2012.

Cash used by financing activities during the first quarter ended August 27, 2017, was $\$ 451$ million compared to $\$ 238$ million in the same period last year. We paid $\$ 600$ million in cash to repurchase common stock and paid $\$ 284$ million of dividends in the first quarter of fiscal 2018 compared to $\$ 400$ million and $\$ 291$ million, respectively, in the same period last year.

As of August 27, 2017, we had $\$ 790$ million of cash and cash equivalents held in foreign jurisdictions which will be used to fund foreign operations and potential acquisitions. There is currently no need to repatriate these funds in order to meet domestic funding obligations or scheduled cash distributions. If we choose to repatriate historical earnings from foreign jurisdictions, we intend to do so only in a tax-neutral manner.

To ensure availability of funds, we maintain bank credit lines sufficient to cover our outstanding notes payable. Commercial paper is a continuing source of short-term financing. We have commercial paper programs available to us in the United States and Europe. We also have committed, uncommitted, and asset-backed credit lines that support our foreign operations.

The following table details the fee-paid committed and uncommitted credit lines we had available as of August 27, 2017:

| In Billions | Facility <br> Amount | Borrowed <br> Amount |  |

The third-party holder of the General Mills Cereals, LLC (GMC) Class A Interests receives quarterly preferred distributions from available net income based on the application of a floating preferred return rate to the holder s capital account balance established in the most recent mark-to-market valuation (currently $\$ 252$ million). On June 1, 2015, the floating preferred return rate on GMC s Class A Interests was reset to the sum of three-month LIBOR plus 125 basis points. The preferred return rate is adjusted every three years through a negotiated agreement with the Class A Interest holder or through a remarketing auction.

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

We have an option to purchase the Class A Interests for consideration equal to the then current capital account value, plus any unpaid preferred return and the prescribed make-whole amount. If we purchase these interests, any change in the third-party holder s capital account from its original value will be charged directly to retained earnings and will increase or decrease the net earnings used to calculate EPS in that period.

## Table of Contents

We have a 51 percent controlling interest in Yoplait SAS and a 50 percent interest in Yoplait Marques SNC and Liberté Marques Sàrl. Sodiaal holds the remaining interests in each of these entities. We consolidate these entities into our consolidated financial statements. As of August 27, 2017, we recorded Sodiaal s 50 percent interests in Yoplait Marques SNC and Liberté Marques Sàrl as noncontrolling interests, and the redemption value of its 49 percent interest in Yoplait SAS as a redeemable interest on our Consolidated Balance Sheets. These euro- and Canadian dollar-denominated interests are reported in U.S. dollars on our Consolidated Balance Sheets. Sodiaal has the ability to put all or a portion of its redeemable interest to us at fair value once per year, up to three times before December 2024. As of August 27, 2017, the redemption value of the redeemable interest was $\$ 968$ million, which approximates its fair value.

Certain of our long-term debt agreements, our credit facilities, and our noncontrolling interests contain restrictive covenants. As of August 27, 2017, we were in compliance with all of these covenants.

We have $\$ 605$ million of long-term debt maturing in the next 12 months that is classified as current, including $\$ 500$ million of 1.4 percent notes due October 2017 and $\$ 100$ million of 6.39 percent fixed rate medium term notes due for remarketing in February 2018. We believe that cash flows from operations, together with available short- and long-term debt financing, will be adequate to meet our liquidity and capital needs for at least the next 12 months.

## OFF-BALANCE SHEET ARRANGEMENTS AND CONTRACTUAL OBLIGATIONS

There were no material changes outside the ordinary course of our business in our contractual obligations or off-balance sheet arrangements during the first quarter of fiscal 2018.

## SIGNIFICANT ACCOUNTING ESTIMATES

Our significant accounting policies are described in Note 2 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 28, 2017. The accounting policies used in preparing our interim fiscal 2018 Consolidated Financial Statements are the same as those described in our Form $10-\mathrm{K}$ with the exception of the new accounting requirements adopted in the first quarter of fiscal 2018 for stock-based payments and goodwill impairment testing. See Note 16 to the Consolidated Financial Statements in Part I, Item 1 of this report for additional information.

Our significant accounting estimates are those that have meaningful impact on the reporting of our financial condition and results of operations. These estimates include our accounting for promotional expenditures, valuation of long-lived assets, intangible assets, redeemable interest, stock-based compensation, income taxes, and defined benefit pension, other postretirement benefit, and postemployment benefit plans. The assumptions and methodologies used in the determination of those estimates as of August 27, 2017, are the same as those described in our Annual Report on Form 10-K for the fiscal year ended May 28, 2017, with the exception of the new accounting requirements adopted in the first quarter of fiscal 2018 for goodwill impairment testing. See Note 16 to the Consolidated Financial Statements in Part I, Item 1 of this report for additional information.

We tested our goodwill and brand intangible assets for impairment on our annual assessment date in the second quarter of fiscal 2017. As of our annual impairment assessment date, there was no impairment of any of our intangible assets as their related fair values were substantially in excess of the carrying values, except for the Latin America reporting unit and Immaculate Baking brand intangible asset. The excess fair value above the carrying value of these intangible assets is as follows:
$\left.\begin{array}{lcc} & & \begin{array}{c}\text { Excess Fair Value } \\ \text { Above }\end{array} \\ \text { Carrying }\end{array}\right]$

In addition, while having significant coverage as of our fiscal 2017 assessment date, the Progresso, Green Giant and Food Should Taste Good brand intangible assets and U.S. Yogurt reporting unit had risk of decreasing coverage. We will continue to monitor these businesses for potential impairment.

## RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In March 2017, the Financial Accounting Standards Board (FASB) issued new accounting requirements related to the presentation of net periodic defined benefit pension expense, net periodic postretirement benefit expense, and net periodic postemployment benefit expense. The new standard requires the service cost component of net periodic benefit expense to be recorded in the same line items as other employee compensation costs within our Consolidated Statements of Earnings. Other components of net periodic benefit expense must be presented separately outside of operating profit in our Consolidated Statements of Earnings. In addition, the new standard requires that only the service cost component of net periodic benefit expense is eligible for capitalization. We recognized net periodic benefit expense of $\$ 56$ million in fiscal 2017, $\$ 163$ million in fiscal 2016, and $\$ 153$ million in fiscal 2015 of which $\$ 141$ million, $\$ 161$ million, and $\$ 167$ million, respectively, related to service cost. These amounts may not necessarily be indicative of future amounts that may be recognized subsequent to the adoption of this new standard. The requirements of the new standard are effective for annual reporting periods beginning after December 15, 2017, and interim periods within those annual periods, which for us is the first quarter of fiscal 2019. Early adoption is permitted.

In October 2016, the FASB issued new accounting requirements related to the recognition of income taxes resulting from intra-entity transfers of assets other than inventory. This will result in the recognition of the income tax consequences resulting from the intra-entity transfer of assets in our Consolidated Statements of Earnings in the period of the transfer. The requirements of the new standard are effective for annual reporting periods beginning after December 15, 2017, and interim periods within those annual periods, which for us is the first quarter of fiscal 2019. Early adoption is permitted. Based on our assessment to date, we do not expect this guidance to have a material impact on our results of operations or financial position.

In February 2016, the FASB issued new accounting requirements for accounting, presentation and classification of leases. This will result in most leases being capitalized as a right of use asset with a related liability on our Consolidated Balance Sheets. The requirements of the new standard are effective for annual reporting periods beginning after December 15, 2018, and interim periods within those annual periods, which for us is the first quarter of fiscal 2020. We are in the process of evaluating lease accounting software and analyzing the impact of this standard on our results of operations and financial position. Based on our assessment to date, we expect this guidance will have a material impact on our Consolidated Balance Sheets due to the amount of our lease commitments but we are unable to quantify the impact at this time.

In May 2014, the FASB issued new accounting requirements for the recognition of revenue from contracts with customers. The requirements of the new standard and its subsequent amendments are effective for annual reporting periods beginning after December 15, 2017, and interim periods within those annual periods, which for us is the first quarter of fiscal 2019. We are in the process of documenting the impact of the guidance on our current accounting policies and practices in order to identify material differences, if any, that would result from applying the new requirements to our revenue contracts. We continue to make progress on our revenue recognition review and are also in the process of evaluating the impact, if any, on changes to our business processes, systems, and controls to support recognition and disclosure requirements under the new guidance. In addition, we continue to assess our adoption approach. Based on our assessment to date, we do not expect this guidance to have a material impact on our results of operations or financial position.

## NON-GAAP MEASURES

We have included in this report measures of financial performance that are not defined by GAAP. We believe that these measures provide useful information to investors and include these measures in other communications to investors.

For each of these non-GAAP financial measures, we are providing below a reconciliation of the differences between the non-GAAP measure and the most directly comparable GAAP measure, an explanation of why we believe the non-GAAP measure provides useful information to investors, and any additional purposes for which we use the non-GAAP measure. These non-GAAP measures should be viewed in addition to, and not in lieu of, the comparable GAAP measure.

## Organic Net Sales Growth Rates

This measure is used in reporting to our executive management and as a component of the Board of Directors measurement of our performance for incentive compensation purposes. We provide organic net sales growth rates for our consolidated net sales and segment net sales. We believe that organic net sales growth rates provide useful information to investors because they provide transparency to underlying performance in our net sales by excluding the effect that foreign currency exchange rate fluctuations, as well as acquisitions, divestitures, and a $53^{\text {rd }}$ week, when applicable, have on year-to-year comparability. A reconciliation of these measures to reported net sales growth rates, the relevant GAAP measures, are included in our Consolidated Results of Operations and Segment Operating Results discussions in the MD\&A above.

## Table of Contents

## Total Segment Operating Profit and Related Constant-Currency Growth Rate

This measure is used in reporting to our executive management and as a component of the Board of Directors measurement of our performance for incentive compensation purposes. We believe that this measure provides useful information to investors because it is the profitability measure we use to evaluate segment performance. A reconciliation of this measure to operating profit, the relevant GAAP measure, is included in Note 15 to the Consolidated Financial Statements in Part I, Item 1 of this report.

Constant-currency total segment operating profit growth is calculated as follows:

|  | Percentage Change in Total <br> Segment Operating Profit on |
| :---: | :---: | :---: |
| a |  |

## Adjusted Operating Profit as a Percent of Net Sales (Adjusted Operating Profit Margin) Excluding Certain Items Affecting Comparability

We believe this measure provides useful information to investors because it is important for assessing our operating profit margin on a comparable basis. The adjustments are either items resulting from infrequently occurring events or items that, in management s judgment, significantly affect the year-over-year assessment of operating results.

## Diluted EPS Excluding Certain Items Affecting Comparability and Related Constant-Currency Growth Rate

This measure is used in reporting to our executive management and as a component of the Board of Directors measurement of our performance for incentive compensation purposes. We believe that this measure provides useful information to investors because it is the profitability measure we use to evaluate earnings performance on a comparable year-over-year basis. The adjustments are either items resulting from infrequently occurring events or items that, in management s judgment, significantly affect the year-over-year assessment of operating results.

The reconciliation of our GAAP measure, diluted EPS, to diluted EPS excluding certain items affecting comparability and the related constant-currency growth rate follows:

(a) See Note 6 to the Consolidated Financial Statements in Part I, Item 1 of this report.
(b) See Note 3 to the Consolidated Financial Statements in Part I, Item 1 of this report.

See our reconciliation below of the effective income tax rate as reported to the effective income tax rate excluding certain items affecting comparability for the tax impact of each item affecting comparability.

## Constant-Currency After-tax Earnings from Joint Ventures Growth Rates

We believe that this measure provides useful information to investors because it provides transparency to underlying performance of our joint ventures by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

After-tax earnings from joint ventures growth rate on a constant-currency basis is calculated as follows:

## Net Sales Growth Rates for Our Canada Operating Unit on Constant-Currency Basis

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

We believe that this measure of our Canada operating unit net sales provides useful information to investors because it provides transparency to the underlying performance for the Canada operating unit within our North America Retail segment by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

## Table of Contents

Net sales growth rates for our Canada operating unit on a constant-currency basis are calculated as follows:

## Constant-Currency Segment Operating Profit Growth Rates

We believe that this measure provides useful information to investors because it provides transparency to underlying performance of our segments by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

Our segments operating profit growth rates on a constant-currency basis are calculated as follows:

|  | Quarter Ended Aug. 27, 2017 |  |  |
| :---: | :---: | :---: | :---: |
|  | Percentage Change in Operating Profit as Reported | Impact of Foreign Currency Exchange | Percentage Change in Operating Profit on <br> Constant-Currency Basis |

## Effective Income Tax Rate Excluding Certain Items Affecting Comparability

We believe this measure provides useful information to investors because it is important for assessing the effective tax rate excluding certain items affecting comparability and presents the income tax effects of certain items affecting comparability.

Effective income tax rates excluding certain items affecting comparability are calculated as follows:

\left.|  |  | Quarter Ended |  |

## GLOSSARY

Accelerated depreciation associated with restructured assets. The increase in depreciation expense caused by updating the salvage value and shortening the useful life of depreciable fixed assets to coincide with the end of production under an approved restructuring plan, but only if impairment is not present.

Adjusted operating profit margin. Operating profit adjusted for certain items affecting year-over-year comparability, divided by net sales.
AOCI. Accumulated other comprehensive income (loss).

Constant currency. Financial results translated to U.S. dollars using constant foreign currency exchange rates based on the rates in effect for the comparable prior-year period. To present this information, current period results for entities reporting in currencies other than United States dollars are translated into United States dollars at the average exchange rates in effect during the corresponding period of the prior fiscal year, rather than the actual average exchange rates in effect during the current fiscal year. Therefore, the foreign currency impact is equal to current year results in local currencies multiplied by the change in the average foreign currency exchange rate between the current fiscal period and the corresponding period of the prior fiscal year.

Derivatives. Financial instruments such as futures, swaps, options, and forward contracts that we use to manage our risk arising from changes in commodity prices, interest rates, foreign exchange rates, and stock prices.

Euribor. Euro Interbank Offered Rate.

Fair value hierarchy. For purposes of fair value measurement, we categorize assets and liabilities into one of three levels based on the assumptions (inputs) used in valuing the asset or liability. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.

Level 3: Unobservable inputs reflecting management $s$ assumptions about the inputs used in pricing the asset or liability.
Fixed charge coverage ratio. The sum of earnings before income taxes and fixed charges (before tax), divided by the sum of the fixed charges (before tax) and interest.

Focus 6 platforms. The Focus 6 platforms for the Convenience Stores \& Foodservice segment consist of cereal, yogurt, snacks, frozen meals, biscuits, and baking mixes.

Foundation businesses. Foundation businesses consist primarily of refrigerated dough, desserts, and soup in our North America Retail segment and bakery flour and frozen dough products in our Convenience Stores \& Foodservice segment, as well as other product lines not included in Growth businesses.

Generally Accepted Accounting Principles (GAAP). Guidelines, procedures, and practices that we are required to use in recording and reporting accounting information in our financial statements.

Goodwill. The difference between the purchase price of acquired companies plus the fair value of any noncontrolling and redeemable interests and the related fair values of net assets acquired.

Growth businesses. Growth businesses include cereal, snack bars, the natural and organic portfolio, hot snacks, Mexican products, and yogurt in our North America Retail segment; our Europe \& Australia segment; our Asia \& Latin America segment; and our Focus 6 platforms in our Convenience Stores \& Foodservice segment.

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

Hedge accounting. Accounting for qualifying hedges that allows changes in a hedging instrument $s$ fair value to offset corresponding changes in the hedged item in the same reporting period. Hedge accounting is permitted for certain hedging instruments and hedged items only if the hedging relationship is highly effective, and only prospectively from the date a hedging relationship is formally documented.

## Table of Contents

Interest bearing instruments. Notes payable, long-term debt, including current portion, cash and cash equivalents, and certain interest bearing investments classified within prepaid expenses and other current assets and other assets.

LIBOR. London Interbank Offered Rate.

Mark-to-market. The act of determining a value for financial instruments, commodity contracts, and related assets or liabilities based on the current market price for that item.

Net mark-to-market valuation of certain commodity positions. Realized and unrealized gains and losses on derivative contracts that will be allocated to segment operating profit when the exposure we are hedging affects earnings.

Net price realization. The impact of list and promoted price changes, net of trade and other price promotion costs.
Noncontrolling interests. Interests of subsidiaries held by third parties.
Notional principal amount. The principal amount on which fixed-rate or floating-rate interest payments are calculated.
OCI. Other Comprehensive Income.
Organic net sales growth. Net sales growth adjusted for foreign currency translation, as well as acquisitions, divestitures, and a $53^{\text {rd }}$ week impact, when applicable.

Project-related costs. Costs incurred related to our restructuring initiatives not included in restructuring charges.
Redeemable interest. Interest of subsidiaries held by a third party that can be redeemed outside of our control and therefore cannot be classified as a noncontrolling interest in equity.

Total debt. Notes payable and long-term debt, including current portion.

Translation adjustments. The impact of the conversion of our foreign affiliates financial statements to U.S. dollars for the purpose of consolidating our financial statements.

## CAUTIONARY STATEMENT RELEVANT TO FORWARD-LOOKING INFORMATION FOR THE PURPOSE OF SAFE HARBOR PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This report contains or incorporates by reference forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are based on our current expectations and assumptions. We also may make written or oral forward-looking statements, including statements contained in our filings with the Securities and Exchange Commission and in our reports to stockholders.

The words or phrases will likely result, are expected to, will continue, is anticipated, estimate, plan, project, or similar expressions ide forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results and those currently anticipated or projected. We wish to caution you not to place undue reliance on any such forward-looking statements.

In connection with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, we are identifying important factors that could affect our financial performance and could cause our actual results in future periods to differ materially from any current opinions or statements.

Our future results could be affected by a variety of factors, such as: competitive dynamics in the consumer foods industry and the markets for our products, including new product introductions, advertising activities, pricing actions, and promotional activities of our competitors; economic conditions, including changes in inflation rates, interest rates, tax rates, or the availability of capital; product development and innovation; consumer acceptance of new products and product improvements; consumer reaction to pricing actions and changes in promotion levels; acquisitions or dispositions of businesses or assets; changes in capital structure; changes in the legal and regulatory environment, including labeling and advertising regulations and litigation; impairments in the carrying value of goodwill, other intangible assets, or other long-lived assets, or changes in the useful lives of other intangible assets; changes in accounting standards and the impact of significant accounting estimates; product quality and safety issues, including recalls and product liability; changes in consumer demand for our products; effectiveness of advertising, marketing, and promotional programs; changes in consumer behavior, trends, and preferences, including weight loss trends; consumer perception of health-related issues, including obesity; consolidation in the retail environment; changes in purchasing and inventory levels of significant customers; fluctuations in the cost and availability of supply chain resources, including raw materials, packaging, and energy; disruptions or inefficiencies in the supply chain; effectiveness of restructuring and cost saving initiatives; volatility in the market value of derivatives used to manage price risk for certain commodities; benefit plan expenses due to changes in plan asset values and discount rates used to determine plan liabilities; failure or breach of our information technology systems; foreign economic conditions, including currency rate fluctuations; and political unrest in foreign markets and economic uncertainty due to terrorism or war.

You should also consider the risk factors that we identify in Item 1A of Part I of our Annual Report on Form 10-K for the fiscal year ended May 28, 2017, which could also affect our future results.

We undertake no obligation to publicly revise any forward-looking statements to reflect events or circumstances after the date of those statements or to reflect the occurrence of anticipated or unanticipated events.

## Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The estimated maximum potential value-at-risk arising from a one-day loss in fair value for our interest rate, foreign exchange, commodity, and equity market-risk-sensitive instruments outstanding as of August 27, 2017 was $\$ 25$ million, $\$ 24$ million, $\$ 3$ million, and $\$ 1$ million, respectively. During the three-month period ended August 27, 2017, the foreign exchange value-at-risk decreased by $\$ 1$ million while the interest rate, commodity, and equity value-at-risk were flat compared to this measure as of May 28, 2017. The value-at-risk for foreign exchange decreased due to lower volatility. For additional information, see Item 7A of Part II of our Annual Report on Form 10-K for the fiscal year ended May 28, 2017.

Item 4. Controls and Procedures.
We, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based on our evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of August 27, 2017, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 is (1) recorded, processed, summarized, and reported within the time periods

## Edgar Filing: GENERAL MILLS INC - Form 10-Q

specified in Securities and Exchange Commission rules and forms, and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.

## Table of Contents

There were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) during the quarter ended August 27, 2017 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
