Letter to the Stockholders

Dear Stockholders,

We are pleased to present the annual stockholder report for Tri-Continental Corporation (the Fund). The report includes the Fund's investment results, a discussion with the Fund's portfolio managers, the portfolio of investments and financial statements as of December 31, 2017.

The Fund's Common Stock returned 20.82%, based on net asset value, and 28.00%, based on market price, for the 12 months ended December 31, 2017. During the same 12-month period, the S&P 500 Index returned 21.83% and the Fund's Blended Benchmark returned 17.01%.

During 2017, the Fund paid four distributions in accordance with its distribution policy, that aggregated to \$1.1674 per share of Common Stock of the Fund. These distributions are based upon amounts distributed by underlying portfolio companies owned by the Fund. In addition, in the fourth quarter, the Fund paid a capital gain distribution of \$0.0950 per share of Common Stock. The Fund has paid dividends on its common stock for 73 consecutive years. On December 19, 2017, the Board of Directors (the Board) announced the retirement of Mr. William A. Hawkins, who served as Chair of the Board, and Ms. Alison Taunton-Rigby, each effective December 31, 2017. The Board unanimously elected Mr. George S. Batejan and me, Mr. Edward J. Boudreau, Jr., to the Fund's Board, effective January 1, 2018. I will serve as Chair of the Board. We thank Mr. Hawkins and Ms. Taunton-Rigby for their service to the Fund. Mr. Batejan and I will stand for election by stockholders at the Fund's 2018 Stockholder Meeting on April 16, 2018.

Information about the Fund, including daily pricing, current performance, Fund holdings, stockholder reports, the current prospectus for the Fund, distributions and other information can be found at investor.columbiathreadneedleus.com under the Closed-End Funds tab.

On behalf of the Board, we would like to thank you for your continued support of Tri-Continental Corporation.

Regards,

Edward J. Boudreau, Jr.

Chair of the Board

Average annual total returns (%)
(for the period ended December 31,
2017)

	Inception	1 Year	5 Years	10 Years
Market Price	01/05/29	28.00	15.57	7.16
Net Asset Value	01/05/29	20.82	14.28	7.23
S&P 500 Index		21.83	15.79	8.50
Blended Benchmark		17.01	12.77	7.95

The performance information shown represents past performance and is not a guarantee of future results. The investment return and principal value of your investment will fluctuate so that your shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance information shown. You may obtain performance information current to the most recent month-end by visiting investor.columbiathreadneedleus.com.

Returns reflect changes in market price or net asset value, as applicable, and assume reinvestment of distributions.

Returns do not reflect the deduction of taxes that investors may pay on distributions or the sale of shares.

The S&P 500 Index, an unmanaged index, measures the performance of 500 widely held, large-capitalization U.S. stocks and is frequently used as a general measure of market performance.

The Blended Benchmark, a weighted custom composite established by the Investment Manager, consists of a 50% weighting in the S&P 500 Index, a 16.68% weighting in the Russell 1000 Value Index, a 16.66% weighting in the Bloomberg Barclays U.S. Corporate Investment Grade & High Yield Index and a 16.66% weighting in the Bloomberg Barclays U.S. Convertible Composite Index.

Indices are not available for investment, are not professionally managed and do not reflect sales charges, fees, brokerage commissions, taxes or other expenses of investing. Securities in the Fund may not match those in an index.

Price Per Share				
	December 31, 2017	September 30, 2017	June 30, 2017	March 31, 2017
Market Price (\$)	26.94	25.55	24.35	23.12
Net Asset Value (\$)	29.88	28.72	27.56	27.00

Distributions Paid Per Common Share^(a)

Payable Date	Per Share Amount (\$)
March 28, 2017	0.2507
June 27, 2017	0.2509
September 26, 2017	0.2614
December 29, 2017	0.4044 ^(b)

a) Preferred Stockholders were paid dividends totaling \$2.50 per share.

b) Includes a distribution of \$0.3094 from ordinary income and a capital gain distribution of \$0.0950 per share.

The net asset value of the Fund's shares may not always correspond to the market price of such shares. Common stock of many closed-end funds frequently trade at a discount from their net asset value. The Fund is subject to stock market risk, which is the risk that stock prices overall will decline over short or long periods, adversely affecting the value of an investment in the Fund.

Manager Discussion of Fund Performance

For the 12-month period that ended December 31, 2017, the Fund's Common Stock returned 20.82%, based on net asset value, and 28.00%, based on market price. During the same time period, the S&P 500 Index returned 21.83% and the Fund's Blended Benchmark returned 17.01%.

The Fund is divided into two approximately equal segments, each of which is managed with its own approach. One segment uses quantitative models to select individual stocks. The flexible capital income segment invests across a company's investable capital structure, including stocks, bonds and convertible securities. Both segments outperformed their respective benchmarks in a very good year for the Fund.

Investors drove markets higher in 2017

The year 2017 was a tumultuous year in U.S. politics and around the globe, as tensions with North Korea and Iran remained high. Yet investors were exuberant about the prospects for stronger economic growth and lower taxes and continued to drive the financial markets higher. Economic growth picked up, as gross domestic product (GDP) in the U.S. expanded at an annualized rate of more than 3.0% for two consecutive quarters for the first time since 2014; 3% is the long-term historical average growth rate of GDP. Even though jobs were lost as a result of hurricane disruptions during the third quarter, the unemployment rate fell to 4.1%, as the U.S. labor market added an average of more than 170,000 new jobs per month during the year. At 4.1% unemployment, the U.S. economy is at what economists consider full employment. Global growth and a weaker dollar boosted exports. Robust manufacturing activity, higher consumer spending and expectations that less stringent regulation in certain industries would further boost growth also supported investor confidence.

The Federal Reserve raised the target range on its key short-term interest rate, the federal funds rate, three times in 2017, citing solid job and economic growth and progress toward its 2.0% inflation target. The federal funds rate target started the year at 0.75% to 1.0% and ended the year at 1.25% to 1.50%. While short-term rates rose, the 10-year Treasury benchmark closed the year approximately where it started.

This favorable backdrop proved supportive for stocks with the highest sensitivity to economic growth, particularly in information technology. The Dow Jones Industrial Average reached four 1,000 point milestones, opening just above 20,000 in January and closing just under 25,000 on December 29, 2017. The S&P 500 Index, a broad-based measure of U.S. equity returns, gained 21.83% during the same time period. The Bloomberg Barclays U.S. Aggregate Bond Index, which tracks returns of U.S. investment-grade government and corporate bonds, gained 3.54%.

Significant performance factors

Quantitative segment: The Fund's quantitative models made a strong contribution to Fund results for the year. The metrics for stock selection within the quantitative segment fall into three broad categories: valuation (fundamental measures such as earnings and cash flow relative to market values), catalyst (price momentum and business momentum) and quality (quality of earnings and financial strength). We then rank the securities within a sector/industry from 1 (most attractive) to 5 (least attractive) based upon the metrics within these categories. For the year, performance of the models was strong and worked as expected. Stocks rated 1 and 2 by the models outperformed, while those rated 4 and 5 underperformed. Our quality and catalyst models performed particularly well. The Fund's value model provided mixed results.

Among individual Fund holdings within the quantitative segment, Boeing was a top contributor to returns. Shares of the aerospace giant climbed throughout the year, based on expectations of strong global passenger traffic growth, higher defense spending and tax reform. We did well to avoid owning General Electric, whose shares dropped sharply on declining cash flow and a cut to its dividend. An underweight in Amazon was the biggest individual detractor for the portfolio. Amazon shares benefited from recent acquisitions, expansion into new fields, growing market share and a record year for e-commerce, in general.

Flexible capital income segment: As technology has become a significant component of the income universe, one key decision for income investors in 2017 was to have the right exposure to technology — and the results of the flexible capital income segment of the Fund suggests that we did. For the year, Micron Technology convertibles and positions

in Lam Research and Microsoft (which is not in the benchmark) common stock were major contributors to the Fund's solid performance.

4 Tri-Continental Corporation | Annual Report 2017

Table of Contents**Table of Contents****Manager Discussion of Fund Performance (continued)**

As value-oriented investors, we seek opportunities in out-of-favor companies. In that regard, we invested in Macy's. However, traditional brick-and-mortar retail struggled. Macy's lost ground and we sold the stock. We invested the proceeds in Wal-Mart, and that decision was a significant positive for the Fund in 2017, as Wal-Mart was more resilient against online retailers than many of its competitors. In health care, AbbVie shares sold off early in the year on fears that its Humira would face stiff competition as patents expire. However, AbbVie rebounded strongly and aided Fund performance. General Cable convertibles delivered a solid return as they were sold at a higher price than expected. GNC, specialty retailer of vitamins and other products, took a significant hit during the fourth quarter, as did Walter Investment Management, a mortgage servicing company, which announced that it would restructure its debt. However, the impact on the Fund was modest as both positions were small.

Although it was a quiet but positive year for fixed income, two of the segment's bond holdings were significant contributors to Fund returns. In the health care sector, Valeant bonds did well as the company rebounded from a significant fall two years ago. Investors responded favorably to its ability to pay down and refinance debt. Industrial equipment supplier Accudyne Industries, a private company, sold a small part of its business for a significant profit. We sold the bonds, which were the Fund's best-performing fixed-income position for the year.

At period's end

Strategy within the quantitative segment is based on quantitative stock selection models. As a result, we do not try to predict when equities (as an asset class) will perform well or when they will perform poorly. Instead, we seek to keep the Fund substantially invested at all times, with security selection driven by quantitative models, which we work to improve and enhance over time.

Within the flexible capital income segment, we remain cautiously constructive at period end, even if valuations are high and the opportunities were less attractive than they were at the market bottom. We believed that business conditions remained healthy, and the segment remained fully invested. We continue to believe that our flexibility to move among different income-generating assets is a key strength, as it offers the potential to identify attractive investments in any market environment.

The net asset value of fund shares may not always correspond to the market price of such shares. Shares of many closed-end funds frequently trade at a discount from their net asset value. Market risk may affect a single issuer, sector of the economy, industry or the market as a whole. Foreign investments subject the Fund to risks, including political, economic, market, social and others within a particular country, as well as to currency instabilities and less stringent financial and accounting standards generally applicable to U.S. issuers. Risks are enhanced for emerging market issuers. The Fund's use of leverage allows for investment exposure in excess of net assets, thereby magnifying volatility of returns and risk of loss. Non-investment-grade (high-yield or junk) securities present greater price volatility and more risk to principal and income than higher rated securities. Convertible securities are subject to issuer default risk. A rise in interest rates may result in a price decline of convertible securities held by the Fund. Falling rates may result in the Fund investing in lower yielding securities, lowering the Fund's income and yield. The Fund may also be forced to convert a convertible security at an inopportune time, which may decrease the Fund's return. Investing in derivatives is a specialized activity that involves special risks, which may result in significant losses. See the Fund's prospectus for more information on these and other risks. There can be no assurance that the current level of dividends will be maintained or paid at all.

The views expressed in this report reflect the current views of the respective parties. These views are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict, so actual outcomes and results may differ significantly from the views expressed. These views are subject to change at any time based upon economic, market or other conditions and the respective parties disclaim any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a Columbia fund are based on numerous factors, may not be relied on as an indication of trading intent on behalf of any particular Columbia fund. References to specific securities should not be construed as a recommendation or investment advice.

Notes to Portfolio of Investments

(a) Non-income producing investment.

(b) This security or a portion of this security has been pledged as collateral in connection with derivative contracts.

(c) Represents fair value as determined in good faith under procedures approved by the Board of Trustees. At December 31, 2017, the value of these securities amounted to \$2,170,004, which represents 0.13% of net assets.

(d) Valuation based on significant unobservable inputs.

Represents privately placed and other securities and instruments exempt from SEC registration (collectively, private placements), such as Section 4(a)(2) and Rule 144A eligible securities, which are often sold only to qualified institutional buyers. The Fund may invest in private placements determined to be liquid as well as those determined to be illiquid. Private placements may be determined to be liquid under guidelines established by the Fund's Board of Directors. At December 31, 2017, the value of these securities amounted to \$193,357,337, which represents 11.54% of net assets.

(e) Represents securities that have defaulted on payment of interest. The Fund has stopped accruing interest on these securities. At December 31, 2017, the value of these securities amounted to \$2,030,013, which represents 0.12% of net assets.

Notes to Portfolio of Investments (continued)

- (g) Represents a step bond where the coupon rate adjusts according to a schedule for a series of periods, typically lower for an initial period and then increasing to a higher coupon rate thereafter.
Senior loans have interest rates that float periodically based primarily on the London Interbank Offered Rate (“LIBOR”) and other short-term rates. The interest rate shown reflects the weighted average coupon as of December 31, 2017. The interest rate for senior loans purchased on a when-issued or delayed delivery basis will be
- (h) determined upon settlement therefore no weighted average coupon rate is disclosed. Remaining maturities of senior loans may be less than the stated maturities shown as a result of contractual or optional prepayments by the borrower. Such prepayments cannot be predicted.
- (i) Variable rate security.
- (j) Negligible market value.
- (k) The rate shown is the seven-day current annualized yield at December 31, 2017.
As defined in the Investment Company Act of 1940, an affiliated company is one in which the Fund owns 5% or more of the company’s outstanding voting securities, or a company which is under common ownership or control
- (l) with the Fund. Holdings and transactions in these affiliated companies during the year ended December 31, 2017 are as follows:

Fair value measurements

The Fund categorizes its fair value measurements according to a three-level hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs by prioritizing that the most observable input be used when available. Observable inputs are those that market participants would use in pricing an investment based on market data obtained from sources independent of the reporting entity. Unobservable inputs are those that reflect the Fund’s assumptions about the information market participants would use in pricing an investment. An investment’s level within the fair value hierarchy is based on the lowest level of any input that is deemed significant to the asset’s or liability’s fair value measurement. The input levels are not necessarily an indication of the risk or liquidity associated with investments at that level. For example, certain U.S. government securities are generally high quality and liquid, however, they are reflected as Level 2 because the inputs used to determine fair value may not always be quoted prices in an active market.

Fair value inputs are summarized in the three broad levels listed below:

Level 1 — Valuations based on quoted prices for investments in active markets that the Fund has the ability to access at the measurement date. Valuation adjustments are not applied to Level 1 investments.

Level 2 — Valuations based on other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.).

Level 3 — Valuations based on significant unobservable inputs (including the Fund's own assumptions and judgment in determining the fair value of investments).

Inputs that are used in determining fair value of an investment may include price information, credit data, volatility statistics, and other factors. These inputs can be either observable or unobservable. The availability of observable inputs can vary between investments, and is affected by various factors such as the type of investment, and the volume and level of activity for that investment or similar investments in the marketplace. The inputs will be considered by the Investment Manager, along with any other relevant factors in the calculation of an investment's fair value. The Fund uses prices and inputs that are current as of the measurement date, which may include periods of market dislocations. During these periods, the availability of prices and inputs may be reduced for many investments. This condition could cause an investment to be reclassified between the various levels within the hierarchy.

Certain investments that have been measured at fair value using the net asset value (NAV) per share (or its equivalent) are not categorized in the fair value hierarchy. The fair value amounts presented in the table are intended to reconcile the fair value hierarchy to the amounts presented in the Portfolio of Investments. The Columbia Short-Term Cash Fund seeks to provide shareholders with maximum current income consistent with liquidity and stability of principal. Columbia Short-Term Cash Fund prices its shares with a floating NAV and no longer seeks to maintain a stable NAV. Investments falling into the Level 3 category are primarily supported by quoted prices from brokers and dealers participating in the market for those investments. However, these may be classified as Level 3 investments due to lack of market transparency and corroboration to support these quoted prices. Additionally, valuation models may be used as the pricing source for any remaining investments classified as Level 3. These models may rely on one or more significant unobservable inputs and/or significant assumptions by the Investment Manager. Inputs used in valuations may include, but are not limited to, financial statement analysis, capital account balances, discount rates and estimated cash flows, and comparable company data.

The accompanying Notes to Portfolio of Investments are an integral part of this statement.

Portfolio of Investments (continued)

December 31, 2017

Fair value measurements (continued)

Under the direction of the Fund's Board of Directors (the Board), the Investment Manager's Valuation Committee (the Committee) is responsible for overseeing the valuation procedures approved by the Board. The Committee consists of voting and non-voting members from various groups within the Investment Manager's organization, including operations and accounting, trading and investments, compliance, risk management and legal.

The Committee meets at least monthly to review and approve valuation matters, which may include a description of specific valuation determinations, data regarding pricing information received from approved pricing vendors and brokers and the results of Board-approved valuation control policies and procedures (the Policies). The Policies address, among other things, instances when market quotations are or are not readily available, including recommendations of third party pricing vendors and a determination of appropriate pricing methodologies; events that require specific valuation determinations and assessment of fair value techniques; securities with a potential for stale pricing, including those that are illiquid, restricted, or in default; and the effectiveness of third party pricing vendors, including periodic reviews of vendors. The Committee meets more frequently, as needed, to discuss additional valuation matters, which may include the need to review back-testing results, review time-sensitive information or approve related valuation actions. The Committee reports to the Board, with members of the Committee meeting with the Board at each of its regularly scheduled meetings to discuss valuation matters and actions during the period, similar to those described earlier.

For investments categorized as Level 3, the Committee monitors information similar to that described above, which may include: (i) data specific to the issuer or comparable issuers, (ii) general market or specific sector news and (iii) quoted prices and specific or similar security transactions. The Committee considers this data and any changes from prior periods in order to assess the reasonableness of observable and unobservable inputs, any assumptions or internal models used to value those securities and changes in fair value. This data is also used to corroborate, when available, information received from approved pricing vendors and brokers. Various factors impact the frequency of monitoring this information (which may occur as often as daily). However, the Committee may determine that changes to inputs, assumptions and models are not required as a result of the monitoring procedures performed.

The following table is a summary of the inputs used to value the Fund's investments at December 31, 2017:

*Rounds to zero.

See the Portfolio of Investments for all investment classifications not indicated in the table.

The Fund's assets assigned to the Level 2 input category are generally valued using the market approach, in which a security's value is determined through reference to prices and information from market transactions for similar or identical assets.

Derivative instruments are valued at unrealized appreciation (depreciation).

There were no transfers of financial assets between levels during the period.

The Fund does not hold any significant investments (greater than one percent of net assets) categorized as Level 3.

The Fund's assets assigned to the Level 3 category are valued utilizing the valuation technique deemed the most appropriate in the circumstances.

Certain common stock and warrants classified as Level 3 are valued using an income approach. To determine fair value for these securities, management considered estimates of future distributions from the liquidation of the company assets. Significant increases (decreases) to any of these inputs would result in a significantly lower (higher) fair value measurement.

Certain corporate bonds classified as Level 3 securities are valued using the market approach and utilize single market quotations from broker dealers which may have included, but were not limited to, observable transactions for identical or similar assets in the market and the distressed nature of the security. The appropriateness of fair values for these securities is monitored on an ongoing basis which may include results of back testing, manual price reviews and other control procedures. Significant increases (decreases) to any of these inputs would result in a significantly lower (higher) valuation measurement.

Table of Contents**Table of Contents****Financial Highlights**

Per share operating performance data is designed to allow investors to trace the operating performance, on a per Common Stock share basis, from the beginning net asset value to the ending net asset value, so that investors can understand what effect the individual items have on their investment, assuming it was held throughout the period. Generally, the per share amounts are derived by converting the actual dollar amounts incurred for each item, as disclosed in the financial statements, to their equivalent per Common Stock share amounts, using average Common Stock shares outstanding during the period.

Total return measures the Fund's performance assuming that investors purchased shares of the Fund at the market price or net asset value as of the beginning of the period, invested all distributions paid, as provided for in the Fund's Prospectus and Automatic Dividend Investment and Cash Purchase Plan, and then sold their shares at the closing market price or net asset value per share on the last day of the period. The computations do not reflect any sales charges or transaction costs on your investment or taxes investors may incur on distributions or on the sale of shares of the Fund, and are not annualized for periods of less than one year.

The portfolio turnover rate is calculated without regard to purchase and sales transactions of short-term instruments and certain derivatives, if any, and are not annualized for periods of less than one year. If such transactions were included, the Fund's portfolio turnover may be higher.

The ratios of expenses and net investment income to average net assets for Common Stock for the periods presented do not reflect the effect of dividends paid to Preferred Stockholders.

Notes to Financial Statements

December 31, 2017

Note 1. Organization

Tri-Continental Corporation (the Fund) is a diversified fund. The Fund is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as a closed-end management investment company.

The Fund has 1 million authorized shares of preferred capital stock (Preferred Stock) and 159 million authorized shares of common stock (Common Stock). The issued and outstanding Common Stock trades primarily on the New York Stock Exchange under the symbol "TY".

Tri-Continental Corporation's Preferred Stock is entitled to two votes and the Common Stock is entitled to one vote per share at all meetings of Stockholders. In the event of a default in payments of dividends on the Preferred Stock equivalent to six quarterly dividends, the Preferred Stockholders are entitled, voting separately as a class to the exclusion of Common Stockholders, to elect two additional directors, such right to continue until all arrearages have been paid and current Preferred Stock dividends are provided for. Generally, the vote of Preferred Stockholders is required to approve certain actions adversely affecting their rights.

Note 2. Summary of significant accounting policies

Basis of preparation

The Fund is an investment company that applies the accounting and reporting guidance in the Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 946, Financial Services - Investment Companies (ASC 946). The financial statements are prepared in accordance with U.S. generally accepted accounting principles (GAAP), which requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Security valuation

All equity securities are valued at the close of business of the New York Stock Exchange. Equity securities are valued at the last quoted sales price on the principal exchange or market on which they trade, except for securities traded on the NASDAQ Stock Market, which are valued at the NASDAQ official close price. Unlisted securities or listed securities for which there were no sales during the day are valued at the mean of the latest quoted bid and ask prices on such exchanges or markets.

Debt securities generally are valued by pricing services approved by the Board of Directors based upon market transactions for normal, institutional-size trading units of similar securities. The services may use various pricing techniques that take into account, as applicable, factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data, as well as approved independent broker-dealer quotes. Debt securities for which quotations are not readily available or not believed to be reflective of market value may also be valued based upon a bid quote from an approved independent broker-dealer. Debt securities maturing in 60 days or less are valued primarily at amortized cost value, unless this method results in a valuation that management believes does not approximate market value.

Senior loan securities for which reliable market quotations are readily available are generally valued by pricing services at the average of the bids received.

Foreign equity securities are valued based on the closing price on the foreign exchange in which such securities are primarily traded. If any foreign equity security closing prices are not readily available, the securities are valued at the mean of the latest quoted bid and ask prices on such exchanges or markets. Foreign currency exchange rates are generally determined at 4:00 p.m. Eastern (U.S.) time. Many securities markets and exchanges outside the U.S. close prior to the close of the New York Stock Exchange; therefore, the closing prices for securities in such markets or on

such exchanges may not fully reflect events that occur after such close but before the close of the New York Stock Exchange. In those situations, foreign securities will be fair valued pursuant to a policy adopted by the Board of Directors, including, if available, utilizing a third party pricing service to determine these fair values. The third party pricing service takes into account multiple factors,

22 Tri-Continental Corporation | Annual Report 2017

Table of Contents

Table of Contents

Notes to Financial Statements (continued)

December 31, 2017

including, but not limited to, movements in the U.S. securities markets, certain depositary receipts, futures contracts and foreign exchange rates that have occurred subsequent to the close of the foreign exchange or market, to determine a good faith estimate that reasonably reflects the current market conditions as of the close of the New York Stock Exchange. The fair value of a security is likely to be different from the quoted or published price, if available. Investments in open-end investment companies, including money market funds, are valued at their latest net asset value.

Futures and options on futures contracts are valued based upon the settlement price at the close of regular trading on their principal exchanges or, in the absence of transactions, at the mean of the latest quoted bid and ask prices. Investments for which market quotations are not readily available, or that have quotations which management believes are not reflective of market value or reliable, are valued at fair value as determined in good faith under procedures approved by and under the general supervision of the Board of Directors. If a security or class of securities (such as foreign securities) is valued at fair value, such value is likely to be different from the quoted or published price for the security.

The determination of fair value often requires significant judgment. To determine fair value, management may use assumptions including but not limited to future cash flows and estimated risk premiums. Multiple inputs from various sources may be used to determine fair value.

GAAP requires disclosure regarding the inputs and valuation techniques used to measure fair value and any changes in valuation inputs or techniques. In addition, investments shall be disclosed by major category. This information is disclosed following the Fund's Portfolio of Investments.

Foreign currency transactions and translations

The values of all assets and liabilities denominated in foreign currencies are generally translated into U.S. dollars at exchange rates determined at the close of regular trading on the New York Stock Exchange. Net realized and unrealized gains (losses) on foreign currency transactions and translations include gains (losses) arising from the fluctuation in exchange rates between trade and settlement dates on securities transactions, gains (losses) arising from the disposition of foreign currency and currency gains (losses) between the accrual and payment dates on dividends, interest income and foreign withholding taxes.

For financial statement purposes, the Fund does not distinguish that portion of gains (losses) on investments which is due to changes in foreign exchange rates from that which is due to changes in market prices of the investments. Such fluctuations are included with the net realized and unrealized gains (losses) on investments in the Statement of Operations.

Derivative instruments

The Fund invests in certain derivative instruments, as detailed below, to meet its investment objectives. Derivatives are instruments whose values depend on, or are derived from, in whole or in part, the value of one or more securities, currencies, commodities, indices, or other assets or instruments. Derivatives may be used to increase investment flexibility (including to maintain cash reserves while maintaining desired exposure to certain assets), for risk management (hedging) purposes, to facilitate trading, to reduce transaction costs and to pursue higher investment returns. The Fund may also use derivative instruments to mitigate certain investment risks, such as foreign currency exchange rate risk, interest rate risk and credit risk. Derivatives may involve various risks, including the potential inability of the counterparty to fulfill its obligations under the terms of the contract, the potential for an illiquid secondary market (making it difficult for the Fund to sell or terminate, including at favorable prices) and the potential for market movements which may expose the Fund to gains or losses in excess of the amount shown in the Statement of Assets and Liabilities. The notional amounts of derivative instruments, if applicable, are not recorded in the financial statements.

A derivative instrument may suffer a marked-to-market loss if the value of the contract decreases due to an unfavorable change in the market rates or values of the underlying instrument. Losses can also occur if the counterparty does not perform its obligations under the contract. The Fund's risk of loss from counterparty credit risk on over-the-counter derivatives is generally limited to the aggregate unrealized gain netted against any collateral held by the Fund and the amount of any variation margin held by the counterparty, plus any replacement costs or related amounts. With exchange-traded or centrally cleared derivatives, there is reduced counterparty credit risk to the Fund since the clearinghouse or central counterparty

Tri-Continental Corporation | Annual Report 2013

Table of Contents**Table of Contents**

Notes to Financial Statements (continued)

December 31, 2017

(CCP) provides some protection in the case of clearing member default. The clearinghouse or CCP stands between the buyer and the seller of the contract; therefore, additional counterparty credit risk is failure of the clearinghouse or CCP. However, credit risk still exists in exchange-traded or centrally cleared derivatives with respect to initial and variation margin that is held in a broker's customer account. While brokers are required to segregate customer margin from their own assets, in the event that a broker becomes insolvent or goes into bankruptcy and at that time there is a shortfall in the aggregate amount of margin held by the broker for all its clients, U.S. bankruptcy laws will typically allocate that shortfall on a pro-rata basis across all the broker's customers (including the Fund), potentially resulting in losses to the Fund.

In order to better define its contractual rights and to secure rights that will help the Fund mitigate its counterparty risk, the Fund may enter into an International Swaps and Derivatives Association, Inc. Master Agreement (ISDA Master Agreement) or similar agreement with its derivatives contract counterparties. An ISDA Master Agreement is an agreement between the Fund and a counterparty that governs over-the-counter derivatives and typically contains, among other things, collateral posting terms and netting provisions in the event of a default and/or termination event. Under an ISDA Master Agreement, the Fund may, under certain circumstances, offset with the counterparty certain derivative instrument's payables and/or receivables with collateral held and/or posted and create one single net payment. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of default (close-out netting), including the bankruptcy or insolvency of the counterparty. Note, however, that bankruptcy or insolvency laws of a particular jurisdiction may impose restrictions on or prohibitions against the right of offset or netting in bankruptcy, insolvency or other events.

Collateral (margin) requirements differ by type of derivative. Margin requirements are established by the clearinghouse or CCP for exchange-traded and centrally cleared derivatives. Brokers can ask for margin in excess of the minimum in certain circumstances. Collateral terms are contract specific for over-the-counter derivatives. For over-the-counter derivatives traded under an ISDA Master Agreement, the collateral requirements are typically calculated by netting the marked-to-market amount for each transaction under such agreement and comparing that amount to the value of any variation margin currently pledged by the Fund and/or the counterparty. Generally, the amount of collateral due from or to a party has to exceed a minimum transfer amount threshold (e.g., \$250,000) before a transfer has to be made. To the extent amounts due to the Fund from its counterparties are not fully collateralized, contractually or otherwise, the Fund bears the risk of loss from counterparty nonperformance. The Fund attempts to mitigate counterparty risk by only entering into agreements with counterparties that it believes have the financial resources to honor their obligations and by monitoring the financial stability of those counterparties.

Certain ISDA Master Agreements allow counterparties of over-the-counter derivatives transactions to terminate derivatives contracts prior to maturity in the event the Fund's net asset value declines by a stated percentage over a specified time period or if the Fund fails to meet certain terms of the ISDA Master Agreement, which would cause the Fund to accelerate payment of any net liability owed to the counterparty. The Fund also has termination rights if the counterparty fails to meet certain terms of the ISDA Master Agreement. In addition to considering counterparty credit risk, the Fund would consider terminating the derivatives contracts based on whether termination would result in a net liability owed from the counterparty.

For financial reporting purposes, the Fund does not offset derivative assets and derivative liabilities that are subject to netting arrangements in the Statement of Assets and Liabilities.

Futures contracts

Futures contracts are exchange-traded and represent commitments for the future purchase or sale of an asset at a specified price on a specified date. The Fund bought and sold futures contracts to maintain appropriate equity market exposure while keeping sufficient cash to accommodate daily redemptions. These instruments may be used for other purposes in future periods. Upon entering into futures contracts, the Fund bears risks that it may not achieve the

anticipated benefits of the futures contracts and may realize a loss. Additional risks include counterparty credit risk, the possibility of an illiquid market, and that a change in the value of the contract or option may not correlate with changes in the value of the underlying asset.

Upon entering into a futures contract, the Fund deposits cash or securities with the broker, known as a futures commission merchant (FCM), in an amount sufficient to meet the initial margin requirement. The initial margin deposit must be maintained at an established level over the life of the contract. Cash deposited as initial margin is recorded in the Statement of Assets and Liabilities as margin deposits. Securities deposited as initial margin are designated in the Portfolio of Investments. Subsequent payments (variation margin) are made or received by the Fund each day. The variation margin payments are

24 Tri-Continental Corporation | Annual Report 2017

Table of ContentsTable of Contents

Notes to Financial Statements (continued)

December 31, 2017

equal to the daily change in the contract value and are recorded as variation margin receivable or payable and are offset in unrealized gains or losses. The Fund recognizes a realized gain or loss when the contract is closed or expires. Futures contracts involve, to varying degrees, risk of loss in excess of the variation margin disclosed in the Statement of Assets and Liabilities.

Effects of derivative transactions in the financial statements

The following tables are intended to provide additional information about the effect of derivatives on the financial statements of the Fund, including: the fair value of derivatives by risk category and the location of those fair values in the Statement of Assets and Liabilities; and the impact of derivative transactions over the period in the Statement of Operations, including realized and unrealized gains (losses). The derivative instrument schedules following the Portfolio of Investments present additional information regarding derivative instruments outstanding at the end of the period, if any.

The following table is a summary of the fair value of derivative instruments (not considered to be hedging instruments for accounting disclosure purposes) at December 31, 2017:

Asset derivatives		
Risk exposure category	Statement of capital stock and surplus location	Fair value (\$)
Equity risk	Surplus — unrealized appreciation on futures contract	60,588*

Liability derivatives		
Risk exposure category	Statement of capital stock and surplus location	Fair value (\$)
Equity risk	Surplus — unrealized depreciation on futures contracts	48,439*

Includes cumulative appreciation (depreciation) as reported in the tables following the Portfolio of Investments.

*Only the current day's variation margin is reported in receivables or payables in the Statement of Assets and Liabilities.

The following table indicates the effect of derivative instruments (not considered to be hedging instruments for accounting disclosure purposes) in the Statement of Operations for the year ended December 31, 2017:

Amount of realized gain (loss) on derivatives recognized in income	
--	--

Risk exposure category	Futures contracts (\$)
Equity risk	900,403

Change in unrealized appreciation (depreciation) on derivatives recognized in income	
--	--

Risk exposure category	Futures contracts (\$)
Equity risk	77,777

The following table is a summary of the average outstanding volume by derivative instrument for the year ended December 31, 2017:

Derivative instrument	Average notional amounts (\$)*
Futures contracts — long	908,864

*Based on the ending quarterly outstanding amounts for the year ended December 31, 2017.

Investments in senior loans

The Fund may invest in senior loan assignments. When the Fund purchases an assignment of a senior loan, the Fund typically has direct rights against the borrower; provided, however, that the Fund's rights may be more limited than the lender from which it acquired the assignment and the Fund may be able to enforce its rights only through an administrative agent.

Tri-Continental Corporation | Annual Report 2017

Table of Contents**Table of Contents**

Notes to Financial Statements (continued)

December 31, 2017

Although certain senior loan assignments are secured by collateral, the Fund could experience delays or limitations in realizing such collateral or have its interest subordinated to other indebtedness of the obligor. In the event that the administrator or collateral agent of a loan becomes insolvent or enters into receivership or bankruptcy, the Fund may incur costs and delays in realizing payment or may suffer a loss of principal and/or interest. The risk of loss is greater for unsecured or subordinated loans. In addition, senior loan assignments are vulnerable to market, economic or other conditions or events that may reduce the demand for senior loan assignments and certain senior loan assignments which were liquid when purchased, may become illiquid.

The Fund may enter into senior loan assignments where all or a portion of the loan may be unfunded. The Fund is obligated to fund these commitments at the borrower's discretion. These commitments, if any, are generally traded and priced in the same manner as other senior loan securities and are disclosed as unfunded senior loan commitments in the Fund's Portfolio of Investments with a corresponding payable for investments purchased. The Fund designates cash or liquid securities to cover these commitments.

Security transactions

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

The trade date for senior loans purchased in the primary market is the date on which the loan is allocated. The trade date for senior loans purchased in the secondary market is the date on which the transaction is entered into.

Income recognition

Interest income is recorded on an accrual basis. Market premiums and discounts, including original issue discounts, are amortized and accreted, respectively, over the expected life of the security on all debt securities, unless otherwise noted.

The Fund may place a debt security on non-accrual status and reduce related interest income when it becomes probable that the interest will not be collected and the amount of uncollectible interest can be reasonably estimated. A defaulted debt security is removed from non-accrual status when the issuer resumes interest payments or when collectibility of interest is reasonably assured.

Corporate actions and dividend income are generally recorded net of any non-reclaimable tax withholdings, on the ex-dividend date or upon receipt of ex-dividend notification in the case of certain foreign securities.

The Fund may receive distributions from holdings in equity securities, business development companies (BDCs), exchange-traded funds (ETFs), limited partnerships (LPs), other regulated investment companies (RICs), and real estate investment trusts (REITs), which report information on the tax character of their distributions annually. These distributions are allocated to dividend income, capital gain and return of capital based on actual information reported. Return of capital is recorded as a reduction of the cost basis of securities held. If the Fund no longer owns the applicable securities, return of capital is recorded as a realized gain. With respect to REITs, to the extent actual information has not yet been reported, estimates for return of capital are made by the Fund's management.

Management's estimates are subsequently adjusted when the actual character of the distributions is disclosed by the REITs, which could result in a proportionate change in return of capital to stockholders.

The Fund may receive other income from senior loans, including amendment fees, consent fees and commitment fees. These fees are recorded as income when received by the Fund. These amounts are included in Interest Income in the Statement of Operations.

Federal income tax status

The Fund intends to qualify each year as a regulated investment company under Subchapter M of the Internal Revenue Code, as amended, and will distribute substantially all of its investment company net taxable income and net capital gain, if any, for its tax year, and as such will not be subject to federal income taxes. In addition, the Fund intends to distribute in each calendar year substantially all of its ordinary income, capital gain net income and certain

other amounts, if any, such that the Fund should not be subject to federal excise tax. Therefore, no federal income or excise tax provision is recorded.

26 Tri-Continental Corporation | Annual Report 2017

Table of ContentsTable of Contents

Notes to Financial Statements (continued)

December 31, 2017

Foreign taxes

The Fund may be subject to foreign taxes on income, gains on investments or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries, as applicable, based upon its current interpretation of tax rules and regulations that exist in the markets in which it invests.

Realized gains in certain countries may be subject to foreign taxes at the Fund level, based on statutory rates. The Fund accrues for such foreign taxes on realized and unrealized gains at the appropriate rate for each jurisdiction, as applicable. The amount, if any, is disclosed as a liability on the Statement of Assets and Liabilities.

Dividends to stockholders

The Fund has an earned distribution policy. Under this policy, the Fund intends to make quarterly distributions to holders of Common Stock that are approximately equal to net investment income, less dividends payable on the Fund's Preferred Stock. Capital gains, when available, are distributed to Common Stockholders along with the last income distribution of the calendar year.

Dividends and other distributions to Stockholders are recorded on ex-dividend dates.

Guarantees and indemnifications

Under the Fund's organizational documents and, in some cases, by contract, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, certain of the Fund's contracts with its service providers contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown since the amount of any future claims that may be made against the Fund cannot be determined, and the Fund has no historical basis for predicting the likelihood of any such claims.

Recent accounting pronouncement

Accounting Standards Update 2017-08 Premium Amortization on Purchased Callable Debt Securities

In March 2017, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2017-08 Premium Amortization on Purchased Callable Debt Securities. ASU No. 2017-08 updates the accounting standards to shorten the amortization period for certain purchased callable debt securities, held at a premium, to be amortized to the earliest call date. The update applies to securities with explicit, noncontingent call features that are callable at fixed prices and on preset dates. The standard is effective for annual periods beginning after December 15, 2018 and interim periods within those fiscal years. At this time, management is evaluating the implication of this guidance and the impact it will have on the financial statement amounts and footnote disclosures, if any.

Note 3. Fees and other transactions with affiliates

Management services fees

The Fund has entered into a Management Agreement with Columbia Management Investment Advisers, LLC (the Investment Manager), a wholly-owned subsidiary of Ameriprise Financial, Inc. (Ameriprise Financial). Under the Management Agreement, the Investment Manager provides the Fund with investment research and advice, as well as administrative and accounting services. The management services fee is an annual fee that is equal to a percentage of the Fund's daily net assets (which includes assets attributed to the Fund's Common and Preferred Stock) that declines from 0.415% to 0.385% as the Fund's net assets increase. The effective management services fee rate for the year ended December 31, 2017 was 0.42% of the Fund's average daily net assets for Common Stock.

Other expenses

Other expenses are for, among other things, miscellaneous expenses of the Fund or the Board of Directors, including payments to Board Services Corp., a company that dissolved on August 25, 2017, which had provided limited administrative services to the Fund and the Board of Directors. That company's expenses included boardroom and office expense, employee compensation, employee health and retirement benefits, and certain other expenses. For the year ended December 31, 2017, other expenses paid by the Fund to this company were \$2,209.

Tri-Continental Corporation | Annual Report 2017

Table of Contents**Table of Contents**

Notes to Financial Statements (continued)

December 31, 2017

Compensation of board members

Members of the Board of Directors, who are not officers or employees of the Investment Manager or Ameriprise Financial, are compensated for their services to the Fund as disclosed in the Statement of Operations. Under a Deferred Compensation Plan (the Plan), these members of the Board of Directors may elect to defer payment of up to 100% of their compensation. Deferred amounts are treated as though equivalent dollar amounts had been invested in shares of certain funds managed by the Investment Manager. The Fund's liability for these amounts is adjusted for market value changes and remains in the Fund until distributed in accordance with the Plan. All amounts payable under the Plan constitute a general unsecured obligation of the Fund.

Compensation of Chief Compliance Officer

The Board of Directors has appointed a Chief Compliance Officer to the Fund in accordance with federal securities regulations. A portion of the Chief Compliance Officer's total compensation is allocated to the Fund, along with other affiliated funds governed by the Board of Directors, based on relative net assets.

Stockholder servicing fees

Under a Stockholder Service Agent Agreement, Columbia Management Investment Services Corp. (the Servicing Agent), an affiliate of the Investment Manager and a wholly-owned subsidiary of Ameriprise Financial, maintains Fund Stockholder accounts and records and provides Fund Stockholder services. Under the Stockholder Service Agent Agreement, the Fund pays the Servicing Agent a monthly stockholder servicing and transfer agent fee based on the number of common stock open accounts. The Servicing Agent is also entitled to reimbursement for out-of-pocket fees.

For the year ended December 31, 2017, the Fund's effective stockholder servicing and transfer agent fee rate as a percentage of common stock average net assets was 0.04%.

The Fund and certain other associated investment companies (together, the Guarantors) have severally, but not jointly, guaranteed the performance and observance of all the terms and conditions of a lease entered into by Seligman Data Corp. (SDC), including the payment of rent by SDC (the Guaranty). The lease and the Guaranty expire in January 2019. At December 31, 2017, the Fund's total potential future obligation over the life of the Guaranty is \$147,508. The liability remaining at December 31, 2017 for non-recurring charges associated with the lease amounted to \$82,684 and is included within payable for other expenses in the Statement of Assets and Liabilities. SDC is owned by six associated investment companies, including the Fund. The Fund's ownership interest in SDC at December 31, 2017 is included within other assets in the Statement of Assets and Liabilities at a cost of \$43,681.

Note 4. Federal tax information

The timing and character of income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP because of temporary or permanent book to tax differences.

At December 31, 2017, these differences were primarily due to differing treatment for deferral/reversal of wash sale losses, re-characterization of distributions for investments, derivative investments, Directors' deferred compensation, distributions, principal and/or interest from fixed income securities, foreign currency transactions, investments in partnerships and amortization/accretion on certain convertible securities. To the extent these differences were permanent, reclassifications were made among the components of the Fund's net assets in the Statement of Assets and Liabilities. Temporary differences do not require reclassifications.

In the Statement of Assets and Liabilities the following reclassifications were made:

Excess of distributions over net investment income (\$)	Accumulated net realized gain (\$)	Paid in capital (\$)
5,723,860	(5,539,348)	(184,512)

Net investment income (loss) and net realized gains (losses), as disclosed in the Statement of Operations, and net assets were not affected by these reclassifications.

28 Tri-Continental Corporation | Annual Report 2017

Table of ContentsTable of Contents

Notes to Financial Statements (continued)

December 31, 2017

The tax character of distributions paid during the years indicated was as follows:

December 31, 2017			December 31, 2016		
Ordinary income (\$)	Long-term capital gains (\$)	Total (\$)	Ordinary income (\$)	Long-term capital gains (\$)	Total (\$)
61,316,946	5,188,617	66,505,563	54,180,193	—	54,180,193

Short-term capital gain distributions, if any, are considered ordinary income distributions for tax purposes.

At December 31, 2017, the components of distributable earnings on a tax basis were as follows:

Undistributed ordinary income (\$)	Undistributed long-term capital gains (\$)	Capital loss carryforwards (\$)	Net unrealized appreciation (\$)
45,397	12,719,393	—	125,508,466

At December 31, 2017, the cost of all investments for federal income tax purposes along with the aggregate gross unrealized appreciation and depreciation based on that cost was:

Federal tax cost (\$)	Gross unrealized appreciation (\$)	Gross unrealized depreciation (\$)	Net unrealized appreciation (\$)
1,542,003,342	172,532,400	(47,023,934)	125,508,466

Tax cost of investments and unrealized appreciation/(depreciation) may also include timing differences that do not constitute adjustments to tax basis.

The following capital loss carryforwards, determined at December 31, 2017, may be available to reduce taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Internal Revenue Code. Capital loss carryforwards with no expiration are required to be utilized prior to any capital losses which carry an expiration date. As a result of this ordering rule, capital loss carryforwards which carry an expiration date may be more likely to expire unused. In addition, for the year ended December 31, 2017, capital loss carryforwards utilized, expired unused and permanently lost, if any, were as follows:

2018 (\$)	2019 (\$)	No expiration short-term (\$)	No expiration long-term (\$)	Total (\$)	Utilized (\$)	Expired (\$)	Permanently lost (\$)
—	—	—	—	—	159,807,480	—	—

Management of the Fund has concluded that there are no significant uncertain tax positions in the Fund that would require recognition in the financial statements. However, management's conclusion may be subject to review and adjustment at a later date based on factors including, but not limited to, new tax laws, regulations, and administrative interpretations (including relevant court decisions). Generally, the Fund's federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

Note 5. Portfolio information

The cost of purchases and proceeds from sales of securities, excluding short-term investments and derivatives, if any, aggregated to \$1,495,998,331 and \$1,564,428,331, respectively, for the year ended December 31, 2017. The amount of purchase and sale activity impacts the portfolio turnover rate reported in the Financial Highlights.

Note 6. Capital stock transactions

Under the Fund's Charter, dividends on Common Stock cannot be declared unless net assets, after deducting the amount of such dividends and all unpaid dividends declared on Preferred Stock, equal at least \$100 per share of Preferred Stock outstanding. The Preferred Stock is subject to redemption at the Fund's option at any time on 30 days' notice at \$55 per share (or a total of \$41,400,700 for the shares outstanding at December 31, 2017) plus accrued dividends, and entitled in liquidation to \$50 per share plus dividends accrued or in arrears, as the case may be.

Tri-Continental Corporation | Annual Report 2017

Table of ContentsTable of Contents

Notes to Financial Statements (continued)

December 31, 2017

Automatic dividend and cash purchase plan

The Fund, in connection with its Automatic Dividend Investment and Cash Purchase Plan (the Plan) and other Stockholder plans, acquires and issues shares of its own Common Stock, as needed, to satisfy Plan requirements. A total of 75,986 shares were issued to Plan participants during the period for proceeds of \$1,801,761, a weighted average discount of 12.28% from the net asset value of those shares. In addition, a total of 811,797 shares were issued at market price in distributions during the period for proceeds of \$20,317,190, a weighted average discount of 12.08% from the net asset value of those shares.

For Stockholder accounts established after June 1, 2007, unless the Stockholder Servicing Agent is otherwise instructed by the Stockholder, distributions on the Common Stock are paid in book shares of Common Stock which are entered in the Stockholder's account as "book credits." Each Stockholder may also elect to receive distributions 75% in shares and 25% in cash, 50% in shares and 50% in cash, or 100% in cash. Any such election must be received by the Stockholder Servicing Agent by the record date for a distribution. If the Stockholder holds shares of Common Stock through a financial intermediary (such as a broker), the Stockholder should contact the financial intermediary to discuss reinvestment and distribution options. Elections received after a record date for a distribution will be effective in respect of the next distribution. Shares issued to the Stockholder in respect of distributions will be at a price equal to the lower of: (i) the closing sale price of the Common Stock on the New York Stock Exchange on the ex-dividend date or (ii) the greater of net asset value per share of Common Stock and 95% of the closing price of the Common Stock on the New York Stock Exchange on the ex-dividend date. The issuance of Common Stock at less than net asset value per share will dilute the net asset value of all Common Stock outstanding at that time.

For the year ended December 31, 2017, the Fund purchased 768,195 shares of its Common Stock from Plan participants at a cost of \$18,577,483, which represented a weighted average discount of 13.43% from the net asset value of those acquired shares.

Under the Fund's stock repurchase program for 2017, the amount of the Fund's outstanding Common Stock that the Fund may repurchase from Stockholders and in the open market is 5%, provided that, with respect to shares purchased in the open market, the discount must be greater than 10%. In February 2018, the Board approved the Fund's stock repurchase program for 2018 under the same terms as described above. The intent of the stock repurchase program is, among other things, to moderate the growth in the number of shares outstanding, increase the NAV of the Fund's outstanding shares, reduce the dilutive impact on stockholders who do not take capital gain distributions in additional shares and increase the liquidity of the Fund's Common Stock in the marketplace. For the year ended December 31, 2017, the Fund purchased 2,070,003 shares of its Common Stock in the open market at an aggregate cost of \$51,284,146, which represented a weighted average discount of 11.73% from the net asset value of those acquired shares.

Shares of Common Stock repurchased to satisfy Plan requirements or in the open market pursuant to the Fund's stock repurchase program are retired and no longer outstanding.

Warrants

At December 31, 2017, the Fund reserved 197,028 shares of Common Stock for issuance upon exercise of 8,145 Warrants, each of which entitled the holder to purchase 24.19 shares of Common Stock at \$0.93 per share.

Assuming the exercise of all Warrants outstanding at December 31, 2017, net assets would have increased by \$183,236 and the net asset value of the Common Stock would have been \$29.77 per share. The number of Warrants exercised during the year ended December 31, 2017 was 3.

Note 7. Affiliated money market fund

The Fund invests in Columbia Short-Term Cash Fund, an affiliated money market fund established for the exclusive use by the Fund and other affiliated funds (the Affiliated MMF). The income earned by the Fund from such investments is included as Dividends - affiliated issuers in the Statement of Operations. As an investing fund, the

Fund indirectly bears its proportionate share of the expenses of the Affiliated MMF. The Affiliated MMF prices its shares with a floating net asset value. In addition,
30Tri-Continental Corporation | Annual Report 2017

Table of Contents

Table of Contents

Notes to Financial Statements (continued)

December 31, 2017

the Board of Directors of the Affiliated MMF may impose a fee on redemptions (sometimes referred to as a liquidity fee) or temporarily suspend redemptions (sometimes referred to as imposing a redemption gate) in the event its liquidity falls below regulatory limits.

Note 8. Significant risks

Credit risk

Credit risk is the risk that the value of debt securities in the Fund's portfolio may decline because the issuer may default and fail to pay interest or repay principal when due. Rating agencies assign credit ratings to debt securities to indicate their credit risk. Lower rated or unrated debt securities held by the Fund may present increased credit risk as compared to higher-rated debt securities.

Interest rate risk

Interest rate risk is the risk of losses attributable to changes in interest rates. In general, if prevailing interest rates rise, the values of debt securities tend to fall, and if interest rates fall, the values of debt securities tend to rise. Actions by governments and central banking authorities can result in increases in interest rates. Increasing interest rates may negatively affect the value of debt securities held by the Fund, resulting in a negative impact on the Fund's performance and net asset value per share. In general, the longer the maturity or duration of a debt security, the greater its sensitivity to changes in interest rates.

Large-capitalization risk

Stocks of large-capitalization companies have at times experienced periods of volatility and negative performance. During such periods, the value of the stocks may decline and the Fund's performance may be negatively affected.

Liquidity risk

Liquidity risk is the risk associated with a lack of marketability of investments which may make it difficult to sell the investment at a desirable time or price. Changing regulatory, market or other conditions or environments (for example, the interest rate or credit environments) may adversely affect the liquidity of the Fund's investments. The Fund may have to accept a lower selling price for the holding, sell other investments, or forego another, more appealing investment opportunity. Generally, the less liquid the market at the time the Fund sells a portfolio investment, the greater the risk of loss or decline of value to the Fund. A less liquid market can lead to an increase in Fund redemptions, which may negatively impact Fund performance and net asset value per share, including, for example, if the Fund is forced to sell securities in a down market.

Technology and technology-related investment risk

The Fund invests a substantial portion of its assets in technology and technology-related companies. The market prices of technology and technology-related stocks tend to exhibit a greater degree of market risk and price volatility than other types of investments. These stocks may fall in and out of favor with investors rapidly, which may cause sudden selling and dramatically lower market prices. These stocks also may be affected adversely by changes in technology, consumer and business purchasing patterns, government regulation and/or obsolete products or services. In addition, a rising interest rate environment tends to negatively affect technology and technology-related companies. In such an environment, those companies with high market valuations may appear less attractive to investors, which may cause sharp decreases in the companies' market prices. Further, those technology or technology-related companies seeking to finance their expansion would have increased borrowing costs, which may negatively impact their earnings. As a result, these factors may negatively affect the performance of the Fund. Finally, the Fund may be susceptible to factors affecting the technology and technology-related industries, and the Fund's net asset value may fluctuate more than a fund that invests in a wider range of industries. Technology and technology-related companies are often smaller and less experienced companies and may be subject to greater risks than larger companies, such as limited product lines, markets and financial and managerial resources. These risks may be heightened for technology companies in foreign markets.

Table of Contents

Notes to Financial Statements (continued)

December 31, 2017

Note 9. Subsequent events

Management has evaluated the events and transactions that have occurred through the date the financial statements were issued and noted no items requiring adjustment of the financial statements or additional disclosure.

Note 10. Information regarding pending and settled legal proceedings

Ameriprise Financial and certain of its affiliates have historically been involved in a number of legal, arbitration and regulatory proceedings, including routine litigation, class actions, and governmental actions, concerning matters arising in connection with the conduct of their business activities. Ameriprise Financial believes that the Fund is not currently the subject of, and that neither Ameriprise Financial nor any of its affiliates are the subject of, any pending legal, arbitration or regulatory proceedings that are likely to have a material adverse effect on the Fund or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Fund. Ameriprise Financial is required to make quarterly (10-Q), annual (10-K) and, as necessary, 8-K filings with the Securities and Exchange Commission (SEC) on legal and regulatory matters that relate to Ameriprise Financial and its affiliates. Copies of these filings may be obtained by accessing the SEC website at www.sec.gov.

There can be no assurance that these matters, or the adverse publicity associated with them, will not result in increased Fund redemptions, reduced sale of Fund shares or other adverse consequences to the Fund. Further, although we believe proceedings are not likely to have a material adverse effect on the Fund or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Fund, these proceedings are subject to uncertainties and, as such, we are unable to estimate the possible loss or range of loss that may result. An adverse outcome in one or more of these proceedings could result in adverse judgments, settlements, fines, penalties or other relief that could have a material adverse effect on the consolidated financial condition or results of operations of Ameriprise Financial.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of Tri-Continental Corporation

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of Tri-Continental Corporation (the "Fund") as of December 31, 2017, the related statement of operations for the year ended December 31, 2017, the statement of changes in net assets for each of the two years in the period ended December 31, 2017, including the related notes, and the financial highlights for each of the five years in the period ended December 31, 2017 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2017, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended December 31, 2017 and the financial highlights for each of the five years in the period ended December 31, 2017 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2017 by correspondence with the custodian, transfer agent, agent banks and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

/s/PricewaterhouseCoopers LLP

Minneapolis, Minnesota

February 21, 2018

We have served as auditors of one or more investment companies within the Columbia Funds Complex since 1977.

Tri-Continental Corporation | Annual Report 2018

Table of Contents**Table of Contents**

Directors and Officers

Stockholders elect the Board that oversees the Fund's operations. The Board appoints officers who are responsible for day-to-day business decisions based on policies set by the Board. The following table provides basic biographical information about the Fund's Directors as of the date of this report, including their principal occupations during the past five years, although specific titles for individuals may have varied over the period. Certain Directors may have served as a Trustee to other Funds in the Columbia Funds Complex prior to the date set forth in the Position Held with the Fund and Length of Service column. Under current Board policy, Directors may serve a term of three years, whereupon they may be re-elected to serve another term (the Fund's Board has three classes, with one class expiring each year at the Fund's regular stockholder's meeting), or, for Directors not affiliated with the Investment Manager, generally through the end of the calendar year in which they reach either the mandatory retirement age established by the Board or the fifteenth anniversary of the first Columbia Funds Board meeting they attended as a member of the Board.

Additional information

The Fund mails one shareholder report to each shareholder address. If you would like more than one report, please call shareholder services at 800.345.6611 and additional reports will be sent to you.

Proxy voting policies and procedures

The policy of the Board of Trustees is to vote the proxies of the companies in which the Fund holds investments consistent with the procedures as stated in the Statement of Additional Information (SAI). You may obtain a copy of the SAI without charge by calling 800.345.6611; contacting your financial intermediary; visiting investor.columbiathreadneedleus.com; or searching the website of the Securities and Exchange Commission (SEC) at sec.gov. Information regarding how the Fund voted proxies relating to portfolio securities is filed with the SEC by August 31st for the most recent 12-month period ending June 30th of that year, and is available without charge by visiting investor.columbiathreadneedleus.com, or searching the website of the SEC at sec.gov.

Quarterly schedule of investments

The Fund files a complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q is available on the SEC's website at sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 800.SEC.0330. The Fund's complete schedule of portfolio holdings, as filed on Form N-Q, can also be obtained without charge, upon request, by calling 800.345.6611.

Additional Fund information

For more information about the Fund, please visit investor.columbiathreadneedleus.com or call 800.345.6611.

Customer Service Representatives are available to answer your questions Monday through Friday from 8 a.m. to 7 p.m. Eastern time.

Table of Contents**Item 2. Code of Ethics.**

- (a) The registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party.
- (b) During the period covered by this report, there were not any amendments to a provision of the code of ethics adopted in 2(a) above.
- (c) During the period covered by this report, there were no waivers, including any implicit waivers, from a provision of the code of ethics described in 2(a) above that relates to one or more of the items set forth in paragraph (b) of this item's instructions.

Item 3. Audit Committee Financial Expert.

The registrant's Board of Trustees has determined that Pamela G. Carlton, William P. Carmichael and Catherine James Paglia, each of whom are members of the registrant's Board of Trustees and Audit Committee, each qualify as an audit committee financial expert. Ms. Carlton, Mr. Carmichael and Ms. Paglia are each independent trustees, as defined in paragraph (a)(2) of this item's instructions.

Item 4. Principal Accountant Fees and Services.

Fee information below is disclosed for the one series of the registrant whose report to stockholders is included in this annual filing.

(a) *Audit Fees.* Aggregate Audit Fees billed by the principal accountant for professional services rendered during the fiscal years ended December 31, 2017 and December 31, 2016 are approximately as follows:

2017	2016
\$37,400	\$37,000

Audit Fees include amounts related to the audit of the registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for those fiscal years.

Table of Contents

(b) *Audit-Related Fees.* Aggregate Audit-Related Fees billed to the registrant by the principal accountant for professional services rendered during the fiscal years ended December 31, 2017 and December 31, 2016 are approximately as follows:

2017	2016
\$0	\$400

Audit-Related Fees include amounts for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported in Audit Fees above. In fiscal year 2016, Audit-Related Fees consist of agreed-upon procedures performed for semi-annual shareholder reports.

During the fiscal years ended December 31, 2017 and December 31, 2016, there were no Audit-Related Fees billed by the registrant's principal accountant to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for an engagement that related directly to the operations and financial reporting of the registrant.

(c) *Tax Fees.* Aggregate Tax Fees billed by the principal accountant to the registrant for professional services rendered during the fiscal years ended December 31, 2017 and December 31, 2016 are approximately as follows:

2017	2016
\$6,200	\$4,300

Tax Fees include amounts for the review of annual tax returns, the review of required shareholder distribution calculations and typically include amounts for professional services by the principal accountant for tax compliance, tax advice and tax planning.

During the fiscal years ended December 31, 2017 and December 31, 2016, there were no Tax Fees billed by the registrant's principal accountant to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for an engagement that related directly to the operations and financial reporting of the registrant.

(d) *All Other Fees.* Aggregate All Other Fees billed by the principal accountant to the registrant for professional services rendered during the fiscal years ended December 31, 2017 and December 31, 2016 are approximately as follows:

2017	2016
\$0	\$0

Table of Contents

All Other Fees include amounts for products and services provided by the principal accountant, other than the services reported in paragraphs (a) through (c) above.

Aggregate All Other Fees billed by the registrant's principal accountant to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for an engagement that related directly to the operations and financial reporting of the registrant during the fiscal years ended December 31, 2017 and December 31, 2016 are approximately as follows:

	2017	2016
	\$225,000	\$225,000

In both fiscal years 2017 and 2016, All Other Fees primarily consist of fees billed for internal control examinations of the registrant's transfer agent and investment advisor.

(e)(1) Audit Committee Pre-Approval Policies and Procedures

The registrant's Audit Committee is required to pre-approve the engagement of the registrant's independent auditors to provide audit and non-audit services to the registrant and non-audit services to its investment adviser (excluding any sub-adviser whose role is primarily portfolio management and is sub-contracted or overseen by another investment adviser (the Adviser) or any entity controlling, controlled by or under common control with the Adviser that provides ongoing services to the Fund (a Control Affiliate) if the engagement relates directly to the operations and financial reporting of the registrant.

The Audit Committee has adopted a Policy for Engagement of Independent Auditors for Audit and Non-Audit Services (the Policy). The Policy sets forth the understanding of the Audit Committee regarding the engagement of the registrant's independent accountants to provide (i) audit and permissible audit-related, tax and other services to the registrant (Fund Services); (ii) non-audit services to the registrant's Adviser and any Control Affiliates, that relates directly to the operations and financial reporting of a Fund (Fund-related Adviser Services); and (iii) certain other audit and non-audit services to the registrant's Adviser and its Control Affiliates. A service will require specific pre-approval by the Audit Committee if it is to be provided by the Fund's independent auditor; provided, however, that pre-approval of non-audit services to the Fund, the Adviser or Control Affiliates may be waived if certain de minimis requirements set forth in the SEC's rules are met.

Under the Policy, the Audit Committee may delegate pre-approval authority to any pre-designated member or members who are independent board members. The member(s) to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next regular meeting. The Audit Committee's responsibilities with respect to the pre-approval of services performed by the independent auditor may not be delegated to management.

Table of Contents

On an annual basis, at a regularly scheduled Audit Committee meeting, the Fund's Treasurer or other Fund officer shall submit to the Audit Committee a schedule of the types of Fund Services and Fund-related Adviser Services that are subject to specific pre-approval. This schedule will provide a description of each type of service that is subject to specific pre-approval, along with total projected fees for each service. The pre-approval will generally cover a one-year period. The Audit Committee will review and approve the types of services and the projected fees for the next one-year period and may add to, or subtract from, the list of pre-approved services from time to time, based on subsequent determinations. This specific approval acknowledges that the Audit Committee is in agreement with the specific types of services that the independent auditor will be permitted to perform and the projected fees for each service.

The Fund's Treasurer or other Fund officer shall report to the Audit Committee at each of its regular meetings regarding all Fund Services or Fund-related Adviser Services provided since the last such report was rendered, including a description of the services, by category, with forecasted fees for the annual reporting period, proposed changes requiring specific pre-approval and a description of services provided by the independent auditor, by category, with actual fees during the current reporting period.

(e)(2) 100% of the services performed for items (b) through (d) above during 2017 and 2016 were pre-approved by the registrant's Audit Committee.

(f) Not applicable.

(g) The aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, and rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant for the fiscal years ended December 31, 2017 and December 31, 2016 are approximately as follows:

2017	2016
\$231,200	\$229,700

(h) The registrant's Audit Committee of the Board of Directors has considered whether the provision of non-audit services that were rendered to the registrant's adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X, is compatible with maintaining the principal accountant's independence.

Table of Contents

Item 5. Audit Committee of Listed Registrants.

- (a) The registrant has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Exchange Act (15 U.S.C. 78c(a)(58)(A)). Pamela G. Carlton, William P. Carmichael and Catherine James Paglia are each independent trustees and collectively constitute the entire Audit Committee.
- (b) Not applicable.

Item 6. Investments

- (a) The registrant's Schedule I Investments in securities of unaffiliated issuers (as set forth in 17 CFR 210.12-12) is included in Item 1 of this Form N-CSR.
- (b) Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

Proxy Voting Policies and Procedures

General. The Funds have delegated to the Investment Manager the responsibility to vote proxies relating to portfolio securities held by the Funds, including Funds managed by subadvisers.

The Investment Manager votes proxies relating to portfolio securities in accordance with a proxy voting policy and pre-determined proxy voting guidelines adopted by the Board. The Funds endeavor to vote all proxies of which they become aware prior to the vote deadline; provided, however, that in certain circumstances the Funds may refrain from voting securities. For instance, the Funds may refrain from voting foreign securities if the costs of voting outweigh the expected benefits of voting and typically will not vote securities if voting would impose trading restrictions.

Board Oversight and Retention of Proxy Voting Authority. The Board may, in its discretion, vote proxies for the Funds. For instance, the Board may determine to vote on matters that may present a material conflict of interest to the Investment Manager.

The Board reviews on an annual basis, or more frequently as determined appropriate, the Investment Manager's administration of the proxy voting process and its adherence to the approved guidelines.

Voting Guidelines. The Investment Manager and Board will generally vote in accordance with pre-determined voting guidelines adopted by the Board. The voting guidelines indicate whether to vote for, against or abstain from particular proposals, or whether the matter should be considered on a case-by-case basis. A committee within the Investment Manager (the Proxy Voting Committee), which is composed of representatives of the Investment Manager's equity investments, equity research, compliance, legal and operations functions, may determine to vote differently from the guidelines on particular proposals in the event it determines that doing so is in the clients' best economic interests. The

Board may also determine to vote differently from the guidelines on particular proposals in the event it determines that doing so is appropriate and in the

Table of Contents

Funds' interests. The Investment Manager and the Board may also consider the voting recommendations of analysts, portfolio managers, subadvisers and information obtained from outside resources, including one or more third party research providers. When proposals are not covered by the voting guidelines or a voting determination must be made on a case-by-case basis, a portfolio manager, subadviser or analyst will make the voting determination based on his or her determination of the clients' best economic interests. In addition, the Proxy Voting Committee or Board may determine proxy votes when proposals require special consideration.

On an annual basis, or more frequently as determined necessary, the Board reviews recommendations to revise the existing guidelines or add new guidelines. Recommendations are based on, among other things, industry trends and the frequency that similar proposals appear on company ballots.

Addressing Conflicts of Interest. If the Investment Manager is subject to a potential material conflict of interest with respect to a proxy vote, the Board will vote the proxy by administering the guidelines or determining the vote on a case-by-case basis. If the Board determines that its members may be subject to a potential material conflict of interest with respect to a proxy vote, the member is asked to recuse himself or herself from the determination.

Voting Proxies of Affiliated Underlying Funds. Certain Funds may invest in shares of other Columbia Funds (referred to in this context as "underlying funds") and may own substantial portions of these underlying funds. If such Funds are in a master-feeder structure, the feeder fund will either seek instructions from its shareholders with regard to the voting of proxies with respect to the master fund's shares and vote such proxies in accordance with such instructions or vote the shares held by it in the same proportion as the vote of all other master fund shareholders. With respect to Funds that hold shares of underlying funds other than in a master-feeder structure, the proxy policy of the Funds is, in general, to ensure that direct public shareholders of underlying funds control the outcome of any shareholder vote. To help manage this potential conflict of interest, the policy of the Funds is to vote proxies of the underlying funds in the same proportion as the vote of the direct public shareholders; provided, however, that if there are no direct public shareholders of an underlying fund or if direct public shareholders represent only a minority interest in an underlying fund, the Fund may cast votes in accordance with instructions from the independent members of the Board.

Proxy Voting Agents. The Investment Manager has retained Institutional Shareholder Services Inc., a third-party vendor, as its proxy voting administrator to implement the Funds' proxy voting process and to provide recordkeeping and vote disclosure services. The Investment Manager has retained both Institutional Shareholder Services Inc. and Glass-Lewis & Co. to provide proxy research services.

Additional Information. Information regarding how the Columbia Funds (except certain Columbia Funds that do not invest in voting securities) voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 will be available by August 31 of this year free of charge: (i) through the Columbia Funds' website at www.columbiathreadneedle.com/us and/or (ii) on the SEC's website at www.sec.gov. For a copy of the voting guidelines in effect on the date of this SAI, see Appendix B to this SAI.

Table of Contents**Item 8. Portfolio Managers of Closed-End Management Investment Companies.
Portfolio Managers**

Portfolio Manager	Title	Role with the Corporation	Managed the Corporation Since
Brian Condon, CFA	Senior Portfolio Manager and Head of Quantitative Strategies	Co-Portfolio Manager	2010
Peter Albanese	Senior Portfolio Manager	Co-Portfolio Manager	2014
Yan Jin	Senior Portfolio Manager	Co-Portfolio Manager	2012
David King, CFA	Senior Portfolio Manager	Co-Portfolio Manager	2011

Mr. Condon joined one of the Columbia Management legacy firms or acquired business lines in 1999. Mr. Condon began his investment career in 1993 and earned a B.A. from Bryant University and an M.S. in finance from Bentley University.

Mr. Albanese joined the Investment Manager in August 2014. Prior to joining the Investment Manager, Mr. Albanese was a Managing Director and Senior Portfolio Manager at Robeco Investment Management. Mr. Albanese began his investment career in 1991 and earned a B.S. from Stony Brook University and an M.B.A. from the Stern School of Business at New York University.

Mr. Jin joined one of the Columbia Management legacy firms or acquired business lines in 2002. Mr. Jin began his investment career in 1998 and earned a M.A. in economics from North Carolina State University.

Mr. King joined the Investment Manager in 2010. Mr. King began his investment career in 1983 and earned a B.S. from the University of New Hampshire and an M.B.A. from Harvard Business School.

Other Accounts Managed by the Portfolio Managers:

Fund	Portfolio Manager	Number and type of account	Other Accounts Managed Approximate Total Net Assets (excluding the fund)	Performance Based Accounts	Ownership of Fund Shares
<i>For fiscal period ending December 31, 2017, unless otherwise noted</i>					
Tri-Continental Corporation	Brian Condon	22 RICs	\$12.94 billion	None	\$100,001 - \$500,000
		3 PIVs	\$140.82 million		
		61 Other accounts	\$6.85 billion		
	David King	3 RICs	\$1.39 billion	None	Over \$1,000,000

Edgar Filing: TRI-CONTINENTAL CORP - Form N-CSR

	7 Other accounts	\$3.47 million		
Peter Albanese	16 RICs	\$12.88 billion	None	\$100,001 - \$500,000
	3 PIVs	\$140.82 million		
	56 Other accounts	\$6.85 billion		

Potential Conflicts of Interest:

Like other investment professionals with multiple clients, a Fund's portfolio manager(s) may face certain potential conflicts of interest in connection with managing both the Fund and other accounts at the same time. The Investment Manager and the Funds have adopted compliance policies and procedures that attempt to address certain of the potential conflicts that portfolio managers face in this regard. Certain of these conflicts of interest are summarized below.

Table of Contents

The management of accounts with different advisory fee rates and/or fee structures, including accounts that pay advisory fees based on account performance (performance fee accounts), may raise potential conflicts of interest for a portfolio manager by creating an incentive to favor higher fee accounts.

Potential conflicts of interest also may arise when a portfolio manager has personal investments in other accounts that may create an incentive to favor those accounts. As a general matter and subject to the Investment Manager's Code of Ethics and certain limited exceptions, the Investment Manager's investment professionals do not have the opportunity to invest in client accounts, other than the funds.

A portfolio manager who is responsible for managing multiple funds and/or accounts may devote unequal time and attention to the management of those Funds and/or accounts. The effects of this potential conflict may be more pronounced where Funds and/or accounts managed by a particular portfolio manager have different investment strategies.

A portfolio manager may be able to select or influence the selection of the broker/dealers that are used to execute securities transactions for the Funds. A portfolio manager's decision as to the selection of broker/dealers could produce disproportionate costs and benefits among the Funds and the other accounts the portfolio manager manages.

A potential conflict of interest may arise when a portfolio manager buys or sells the same securities for a Fund and other accounts. On occasions when a portfolio manager considers the purchase or sale of a security to be in the best interests of a Fund as well as other accounts, the Investment Manager's trading desk may, to the extent consistent with applicable laws and regulations, aggregate the securities to be sold or bought in order to obtain the best execution and lower brokerage commissions, if any. Aggregation of trades may create the potential for unfairness to a Fund or another account if a portfolio manager favors one account over another in allocating the securities bought or sold. The Investment Manager and its Participating Affiliates (including Threadneedle) may coordinate their trading operations for certain types of securities and transactions pursuant to personnel-sharing agreements or similar intercompany arrangements. However, typically the Investment Manager does not coordinate trading activities with a Participating Affiliate with respect to accounts of that Participating Affiliate unless such Participating Affiliate is also providing trading services for accounts managed by the Investment Manager. Similarly, a Participating Affiliate typically does not coordinate trading activities with the Investment Manager with respect to accounts of the Investment Manager unless the Investment Manager is also providing trading services for accounts managed by such Participating Affiliate. As a result, it is possible that the Investment Manager and its Participating Affiliates may trade in the same instruments at the same time, in the same or opposite direction or in different sequence, which could negatively impact the prices paid by the Fund on such instruments. Additionally, in circumstances where trading services are being provided on a coordinated basis for the Investment Manager's accounts (including the Funds) and the accounts of one or more Participating Affiliates in accordance with applicable law, it is possible that the allocation opportunities available to the Funds may be decreased, especially for less actively traded securities, or orders may take longer to execute, which may negatively impact Fund performance.

Cross trades, in which a portfolio manager sells a particular security held by a Fund to another account (potentially saving transaction costs for both accounts), could involve a potential conflict of interest if, for example, a portfolio manager is permitted to sell a security from one account to another account at a higher price than an independent third party would pay. The Investment Manager and the Funds have adopted compliance procedures that provide that any transactions between a Fund and another account managed by the Investment Manager are to be made at a current market price, consistent with applicable laws and regulations.

Another potential conflict of interest may arise based on the different investment objectives and strategies of a Fund and other accounts managed by its portfolio manager(s). Depending on another account's objectives and other factors,

a portfolio manager may give advice to and make decisions for a Fund that may differ from advice given, or the timing or nature of decisions made, with respect to another account. A portfolio manager's investment decisions are the product of many factors in addition to basic suitability for the particular account involved. Thus, a portfolio manager may buy or sell a particular security for certain

Table of Contents

accounts, and not for a Fund, even though it could have been bought or sold for the Fund at the same time. A portfolio manager also may buy a particular security for one or more accounts when one or more other accounts are selling the security (including short sales). There may be circumstances when a portfolio manager's purchases or sales of portfolio securities for one or more accounts may have an adverse effect on other accounts, including the Funds.

To the extent a Fund invests in underlying funds, a portfolio manager will be subject to additional potential conflicts of interest. Because of the structure of funds-of-funds, the potential conflicts of interest for the portfolio managers may be different than the potential conflicts of interest for portfolio managers who manage other Funds. The Investment Manager and its affiliates may receive higher compensation as a result of allocations to underlying funds with higher fees.

A Fund's portfolio manager(s) also may have other potential conflicts of interest in managing the Fund, and the description above is not a complete description of every conflict that could exist in managing the Fund and other accounts. Many of the potential conflicts of interest to which the Investment Manager's portfolio managers are subject are essentially the same or similar to the potential conflicts of interest related to the investment management activities of the Investment Manager and its affiliates.

Structure of Compensation:

Portfolio manager direct compensation is typically comprised of a base salary, and an annual incentive award that is paid either in the form of a cash bonus if the size of the award is under a specified threshold, or, if the size of the award is over a specified threshold, the award is paid in a combination of a cash bonus, an equity incentive award, and deferred compensation. Equity incentive awards are made in the form of Ameriprise Financial restricted stock, or for more senior employees both Ameriprise Financial restricted stock and stock options. The investment return credited on deferred compensation is based on the performance of specified Columbia Funds, in most cases including the Columbia Funds the portfolio manager manages.

Base salary is typically determined based on market data relevant to the employee's position, as well as other factors including internal equity. Base salaries are reviewed annually, and increases are typically given as promotional increases, internal equity adjustments, or market adjustments.

Annual incentive awards are variable and are based on (1) an evaluation of the employee's investment performance and (2) the results of a peer and/or management review of the employee, which takes into account skills and attributes such as team participation, investment process, communication, and professionalism. Scorecards are used to measure performance of Columbia Funds and other accounts managed by the employee versus benchmarks and/or peer groups. Performance versus benchmark and peer group is generally weighted for the rolling one, three, and five year periods. One year performance is weighted 10%, three year performance is weighted 60%, and five year performance is weighted 30%. Relative asset size is a key determinant for fund weighting on a scorecard. Typically, weighting would be proportional to actual assets. Consideration may also be given to performance in managing client assets in sectors and industries assigned to the employee as part of his/her investment team responsibilities, where applicable. For leaders who also have group management responsibilities, another factor in their evaluation is an assessment of the group's overall investment performance.

Equity incentive awards are designed to align participants' interests with those of the shareholders of Ameriprise Financial. Equity incentive awards vest over multiple years, so they help retain employees.

Deferred compensation awards are designed to align participants' interests with the investors in the Columbia Funds and other accounts they manage. The value of the deferral account is based on the performance of Columbia Funds.

Employees have the option of selecting from various Columbia Funds for their deferral account, however portfolio managers must allocate a minimum of 25% of their incentive awarded through the deferral program to the Columbia Fund(s) they manage. Deferrals vest over multiple years, so they help retain employees.

Exceptions to this general approach to bonuses exist for certain teams and individuals. Funding for the bonus pool is determined by management and depends on, among other factors, the levels of compensation generally in the investment management industry taking into account investment performance (based on market compensation data) and both Ameriprise Financial and Columbia Management profitability for the year, which is largely determined by assets under management.

For all employees the benefit programs generally are the same, and are competitive within the financial services industry. Employees participate in a wide variety of plans, including options in Medical, Dental, Vision, Health Care and Dependent Spending Accounts, Life Insurance, Long Term Disability Insurance, 401(k), and a cash balance pension plan.

Table of Contents**Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.**

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽¹⁾	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs ⁽¹⁾
07-01-17 to 07-31-17	264,543	\$ 24.66	264,543	1,314,261
08-01-17 to 08-31-17	279,947	\$ 24.93	279,947	1,034,314

(1) The registrant has a stock repurchase program. For 2017, the registrant was authorized to repurchase up to 5% of its outstanding Common Stock directly from stockholders and in the open market, provided that, with respect to shares repurchased in the open market the excess of the net asset value of a share of Common Stock over its market price (the discount) is greater than 10%. The table reflects trade date + 1, rather than trade date, which is used for financial statement purposes; therefore, shares reflected may vary from capital stock activity presented in the shareholder report.

Item 10. Submission of Matters to a Vote of Security Holders.

There were no material changes to the procedures by which shareholders may recommend nominees to the registrant's board of directors.

Item 11. Controls and Procedures.

- (a) The registrant's principal executive officer and principal financial officer, based on their evaluation of the registrant's disclosure controls and procedures as of a date within 90 days of the filing of this report, have concluded that such controls and procedures are adequately designed to ensure that material information required to be disclosed by the registrant in Form N-CSR is accumulated and communicated to the registrant's management, including the principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Table of Contents

- (b) There was no change in the registrant's internal control over financial reporting that occurred during the registrant's second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. Disclosure of Securities Lending Activities for Closed-End Management Investment Companies

Not applicable.

Item 13. Exhibits.

(a)(1) Code of ethics required to be disclosed under Item 2 of Form N-CSR attached hereto as Exhibit 99.CODE ETH.

(a)(2) Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)) attached hereto as Exhibit 99.CERT.

(a)(3) None.

(b) Certification pursuant to Rule 30a-2(b) under the Investment Company Act of 1940 (17 CFR 270.30a-2(b)) attached hereto as Exhibit 99.906CERT.
