**Item 8.01 Other Events.**

On March 12, 2018, Mellanox Technologies, Ltd. (the Company or Mellanox) issued a press release including a letter to shareholders regarding its upcoming extraordinary general meeting of shareholders (EGM). A copy of the press release is attached hereto as Exhibit 99.1 and is incorporated herein by reference.

**Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995**

All statements included or incorporated by reference in this Current Report, other than statements or characterizations of historical fact, are forward-looking statements, including the Company's outlook for the three months ending March 31, 2018 and the full fiscal year ending December 31, 2018, statements related to trends in the market for the Company's solutions and services, opportunities for the Company in the fiscal year ending December 31, 2018 and beyond, and future product capabilities. These forward-looking statements are based on the Company's current expectations, estimates and projections about the Company's industry and business, management's beliefs and certain assumptions made by the Company, all of which are subject to change.

Forward-looking statements can often be identified by words such as projects, anticipates, expects, intends, plans, predicts, believes, seeks, estimates, may, will, should, would, could, potential, continue, ongoing and variations or negatives of these words. These forward-looking statements are not guarantees of future results and are subject to risks, uncertainties and assumptions that could cause the Company's actual results to differ materially and adversely from those expressed in any forward-looking statement. The risks and uncertainties that could cause the Company's results to differ materially from those expressed or implied by such forward-looking statements include the continued expansion of the Company's product line, customer base and the total available market of the Company's products, the continued growth in demand for the Company's products, the continued, increased demand for industry standards-based technology, the Company's ability to react to trends and challenges in its business and the markets in which it operates, the Company's ability to anticipate market needs or develop new or enhanced products to meet those needs, the adoption rate of the Company's products, the Company's ability to establish and maintain successful relationships with its OEM partners, the Company's ability to effectively compete in its industry, fluctuations in demand, sales cycles and prices for the Company's products and services, the Company's success converting design wins to revenue-generating product shipments, the continued launch and volume ramp of large customer sales opportunities, the Company's ability to protect its intellectual property rights, the Company's ability to successfully acquire businesses and technologies and to successfully integrate and operate these acquired businesses, the Company's success in realizing the anticipated benefits of mergers and acquisitions, and the Company's ability to obtain debt at competitive rates or in sufficient amounts in order to fund its contractual commitments. Furthermore, the majority of the Company's quarterly revenues are derived from customer orders received and fulfilled in the same quarterly period. The Company has limited visibility into actual end-user demand as such demand impacts the Company and its OEM customer inventory balances in any given quarter. Consequently, this introduces risk and uncertainty into the Company's revenue and production forecasts and business planning and could negatively impact its financial results. In addition, current uncertainty in the global economic environment poses a risk to the overall economy as businesses may defer purchases in response to tighter credit conditions, changing overall demand for the Company's products, and negative financial news. Consequently, the Company's results could differ materially from its prior results due to these general economic and market conditions, political events and other risks and uncertainties described more fully in the Company's documents filed with or furnished to the Securities and Exchange Commission (the SEC).

More information about the risks, uncertainties and assumptions that may impact our business is set forth in the Company's annual report on Form 10-K filed with the SEC on February 16, 2018. All forward-looking statements in the letter to shareholders included in the press release attached hereto as Exhibit 99.1, including the outlook for the three months ending March 31, 2018 and the full fiscal year ending December 31, 2018, are based on information available to the Company as of the date hereof, and the Company assumes no obligation to update these forward-looking statements.
