Section 16(a) of the Exchange Act requires directors, executive officers and persons who own more than 10% of a registered class of our equity securities to file initial reports of ownership and reports of changes in ownership with the SEC and Nasdaq. Such persons are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file. Based solely on a review of copies of such forms received with respect to the fiscal year 2017, we believe that all directors, executive officers and persons who own more than 10% of our ordinary shares have complied with the reporting requirements of Section 16(a).

Audit Committee

Our Board has a standing audit committee, the members of which are Dov Baharav, chair, Thomas Riordan and Thomas Weatherford. Our board has determined that Mr. Weatherford is an audit committee financial expert as defined by the SEC rules and has the requisite financial sophistication as defined by Nasdaq rules and regulations. Our board has determined that Mr. Weatherford is independent within the meaning of the independent director standards of Nasdaq and the SEC.

ITEM 11 EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

We invest our resources to grow our business in a manner that we believe will increase shareholder value. To further this objective, our compensation committee oversees our compensation program to support and reward the achievement of our financial goals and to promote the attainment of other key business objectives. In order to conduct our business effectively, we must attract, motivate and retain highly qualified employees. Our compensation program, the principles of which are included in our Compensation Philosophy, is designed to reward high performance and innovation, to promote accountability and to ensure that executive interests are aligned with the interests of our shareholders.

In this Compensation Discussion and Analysis section, we discuss the material elements of our compensation programs and policies, including program objectives and reasons for payment of each element of our executives compensation. Following this discussion, you will find a series of tables containing more specific details about the compensation earned by, or awarded to, our named executive officers. This discussion focuses principally on compensation and practices relating to the named executive officers for 2017.

Our named executive officers for 2017 were: Eyal Waldman, president and CEO; Jacob Shulman, chief financial officer; Marc Sultzbaugh, senior vice president of worldwide sales; and Michael Kagan, chief technology officer. On February 21, 2018, we announced Mr. Shulman's resignation from the Company effective May 4, 2018.

Executive Summary 2017 Performance and Link to Pay Decisions

Company Financial Performance.

Our revenue for 2017 was \$863.9 million, an increase of 1 percent from revenue in 2016 of \$857.5 million and a new record high for the Company.

GAAP net loss in 2017 was \$19.4 million, or \$0.39 per diluted share, compared to net income of \$18.5 million, or \$0.37 per diluted share, in 2016.

Non-GAAP* net income in 2017 was \$116.6 million, or \$2.28 per diluted share, compared to a net income of \$169.5 million, or \$3.43 per diluted share, in 2016. 2017 non-GAAP net income excludes \$68.9 million of share-based compensation expense, amortization expense of acquired intangible assets of \$52.2 million, restructuring and related charges of \$12.0 million, acquisition and other charges of \$2.7 million, and income tax effects and adjustments of \$0.3 million. 2016 non-GAAP net income excludes \$71.1 million of share-based compensation expense, amortization expense of acquired intangible assets of \$56.6 million, acquisition and other charges of \$17.1 million, settlement costs of \$5.0 million and income tax effects and adjustments of \$1.1 million.

We generated cash from operating activities of \$161.3 million for 2017, compared to \$196.1 million in 2016.

* Please see Reconciliation of GAAP Net Income (Loss) to Non-GAAP Net Income on page 17 of this Form 10-K/A for a reconciliation of non-GAAP net income (loss) to GAAP net income.

Base Salaries. The 2017 base salaries of our named executive officers, other than our CEO, were increased on average over 2016 base salaries by approximately 12.5% in order to maintain competitive positioning. These increases positioned our U.S.-based named executive officers closer to our peer group median, as 2016 salaries for such executives were approximately 20% less than the median of our peer companies, and we increased the base salary of our Israeli-based CTO (who was not included in our 2016 benchmarking analysis) to bring him to relative parity to his named executive officer peers. A 7.0% increase to our CEO's 2016 base salary was approved by shareholders for 2017 at the 2017 annual meeting of shareholders.

Cash Bonuses Reflected 2017 Company Performance. As in prior years, ten percent of the Company's earnings, measured on the basis of our non-GAAP operating income, funded the Company's annual bonus pool for all eligible employees, including the named executive officers, in accordance with the criteria set forth in our Compensation Philosophy. For 2017, the total profit sharing pool was \$13.2 million, representing 10% of our non-GAAP operating income, which was \$132.0 million, excluding our bonus pool. Bonus awards for our named executive officers are generally based on Company performance and individual achievement and require the approval of both the compensation committee and the board of directors. The board of directors and compensation committee determined that our CEO would not receive a bonus payout for 2017 based on their evaluation of Company performance in 2017. In addition, the CEO did not recommend a bonus for our chief financial officer due to his resignation. The bonus approved for our chief technology officer was 18% of his annual base salary and the bonus approved for our senior vice president of worldwide sales was 8% of his annual base salary. These bonuses were 50% and 70% lower than the individuals' 2016 bonuses, respectively.

Table of Contents

Equity as a Key Component of Compensation. In April 2017, our compensation committee and board of directors granted each of our named executive officers (other than our CEO) restricted share unit awards as long-term incentives. Our CEO's grant of 90,000 restricted share units was made following shareholder approval at our 2017 annual general meeting of shareholders. The size of the award granted to Mr. Waldman in 2017 was lower than the award granted to him in 2016 by 10%. Our 2017 restricted share unit awards are subject to vesting over four years, which encourages retention of our executives and encourages and rewards the executives to create shareholder value over the long term. Based on benchmarking against our U.S. peer group in 2016, the 2016 equity grants awarded to three of four named executive officers including our CEO, chief financial officer and vice president of worldwide sales, were at or below the peer group median. Comparative data were not available to benchmark the 2016 equity award to our chief technology officer, who is based in Israel.

Shareholder Advisory Vote to Approve Executive Compensation

At our 2017 annual general meeting of shareholders, our shareholders voted 77% (reflecting shares represented in person or by proxy at the meeting and entitled to vote) in favor of the non-binding advisory vote to approve the compensation of our named executive officers. Our compensation committee reviewed the result of the shareholders advisory vote on executive compensation, as well as feedback from shareholders during the 2017 proxy solicitation period and following our annual meeting. In consideration of investor feedback, our compensation committee is exploring introducing performance-based equity awards for at least the chief executive officer. Otherwise, we do not expect to implement significant changes to our executive compensation programs as a result of the shareholders advisory vote, although the compensation committee continues to evolve its practices in determining compensation to further align with shareholder interests.

Compensation Philosophy and Objectives

We generally seek to set base salaries near the market median by reference to benchmarking and/or survey data, where available, but the base salary for each individual named executive officer reflects a number of factors, including past performance, scope of responsibility, experience and qualifications. The compensation committee also uses the same criteria for determining bonus awards, with emphasis on the individual's contributions to the prior year's success.

Bonus awards for 2017 were based on performance during 2017 and the criteria set forth in the Compensation Philosophy.

We seek to align the interests of our executives and other employees with the interests of our shareholders by granting our executives and other employees equity awards. In 2017, our compensation committee and board of directors granted our named executive officers restricted share units. Our compensation committee and board of directors believe that restricted share units can provide value certainty, which is important for talent retention, while continuing to align the interests of our executives and other employees with the interests of our shareholders.

In accordance with our Compensation Philosophy, the maximum annual value of variable compensation components (cash bonuses and equity grants) for all office holders of the Company shall not exceed two percent (2%) of the Company's market capitalization. The compensation approved for payment to our office holders for the year 2017 complies with this requirement.

In order to retain the focus of our named executive officers on our business in the event of a potential change in control, we have entered into executive severance benefits agreements with each of our named executive officers that provide for certain payments and other severance benefits in the event their service is terminated following a change in control of our Company. We believe that these executive severance benefits agreements help attract and retain talented executives by ensuring their efforts remain focused on our shareholders' long term interests without needing to engage in potential short-term employment planning.

We believe that the total cash compensation (including base salary and annual cash bonus awards) of our named executive officers, the incentive and retention benefit of equity awards in the form of restricted share units, and the security provided by executive severance benefits agreements, created a competitive total compensation package for our named executive officers in 2017.

Table of Contents

Pursuant to the Companies Law, the compensation of our named executive officers (other than our CEO) and the compensation of other office holders (who are not directors) who report directly to our CEO must also be approved by our Board following the approval by our compensation committee. In accordance with the Companies Law, our CEO's compensation must be approved by our compensation committee, board of directors and shareholders holding a majority of the voting power represented at the general meeting provided that (i) at least one-half of the shares of non-controlling shareholders or shareholders that do not have a Personal Interest (as defined in the Companies Law) in the approval voted at the meeting are voted in favor (disregarding abstentions) or (ii) the total number of shares of non-controlling shareholders or shareholders that do not have such Personal Interest voted against the terms of service of the CEO does not exceed two percent of the aggregate voting rights in the Company.

Approach for Determining Form and Amount of Compensation

Designing a Competitive Compensation Package. Our executive compensation program is administered by our compensation committee, which is currently comprised of three independent members. Operating under its charter, our compensation committee reviews, in consultation with the management and the board of directors, and evaluates the Compensation Philosophy, including the compensation plans, policies and programs of the Company. In addition, our compensation committee reviews and recommends to our Board the approval of our CEO's compensation (including base salary, cash bonuses, equity awards, and other forms of individual compensation such as a change in control agreement). Our compensation committee also annually evaluates and approves certain elements of our other named executive officers' compensation, including compensation of other office holders of the Company (as the term "office holder" is defined in the Companies Law and includes our named executive officers). These annual evaluations include, among others: (i) consideration of the current levels and components of compensation paid to our named executive officers and office holders, (ii) consideration of the mix of cash incentives and long-term equity awards, (iii) a review of available survey and/or peer group data for compensation paid to executives in positions comparable to those held by our named executive officers and office holders, (iv) consideration of the ratio between an office holder's compensation and the salary paid to other employees of the Company, including without limitation, the ratios to the median and average salaries of such employees, and whether such variation has an effect on employment relationships within the Company, and (v) consideration of the education, skills, expertise, professional experience and accomplishments of the office holder, his or her role, responsibilities and previous compensation arrangement of the office holders. Our executive compensation program has three primary components: (i) base compensation or salary, (ii) annual cash bonuses and (iii) equity awards consisting of restricted share units. Our program is designed to provide incentives and rewards for our short-term, mid-term and long-term performance, and is structured to motivate our named executive officers to meet our strategic objectives, thereby maximizing total return to shareholders. In addition, we provide our named executive officers with benefits that are standard for the local employment market and, therefore, generally make available to all salaried employees in the geographic location where they are based. In Israel, we make contributions on behalf of most of our employees, including our named executive officers, to an education fund and also to a fund known as Managers' Insurance, which provides a combination of retirement plan, insurance and severance pay benefits to Israeli employees, and we permit employees to participate in the company's automobile leasing program, under which we pay for gas, maintenance, insurance and the cost of normal wear and tear of the vehicle over the life of the lease. We make matching 401(k) plan contributions in an amount up to 4% of base salary for all employees based in the United States, including our U.S.-based named executive officers. The Company's match of 401(k) contributions had an implied cap of \$10,800 for fiscal year 2017 due to the cap on eligible compensation deferrals to the 401(k), including catchup contributions for persons of age 50 or older.

Recruitment and retention of our named executive officers and other executive management requires a competitive compensation package. Our compensation committee's approach emphasizes fixing the primary elements of total compensation for executives' base salary, annual cash incentive and long-term incentive awards at approximately the median of the market.

Historically, in making compensation decisions, our compensation committee and board of directors referenced third-party surveys that provide compensation market data.

For 2017 compensation determinations, our compensation committee and board of directors referred to data from, respectively, a 2017 Radford U.S. Executive Survey, an independent third-party national compensation survey, and the Israel-based Zviran survey, an independent third-party survey of compensation practices by large high-tech companies in Israel, which, together, we refer to as the **Surveys**. The Radford survey consisted of semiconductor companies and companies in the San Francisco Bay Area. The industry data from the Surveys consist of salaries and other compensation paid by companies to executives in positions comparable to those held by our named executive officers to the extent such position was represented in the survey data. Specifically, we reviewed data on named executive officer positions in the United States from the Radford survey and for positions in Israel from the Zviran survey. The companies covered by the Surveys are not identified in the summary reports presented to the compensation committee.

Table of Contents

Beginning in the second half of 2016, with the assistance of Compensia, an independent consultant retained by the compensation committee for purposes of establishing a peer group and performing discrete analysis of U.S. executive compensation, and input from our CEO, the compensation committee approved the following peer group consisting of 18 publicly traded companies from the semiconductor industry (the **Peer Group**):

Arista Networks, Inc.	Inphi Corporation
Brocade Communications Systems Inc.	Integrated Device Technology, Inc.
Cavium, Inc.	Intersil Corporation
Cirrus Logic Inc.	Marvell Technology Group Ltd
Cray Inc.	Microsemi Corporation
Cypress Semiconductor Corporation	Mobileye N.V.
Diodes Inc.	NETGEAR, Inc.
Electronics For Imaging Inc.	Pure Storage, Inc.
Finisar Corporation	Silicon Laboratories Inc.

For companies within the Peer Group, the median revenues for the preceding four quarters as of September 2016 were approximately \$924 million, and the median 200-day average market capitalization as of September 15, 2016 was \$2.5 billion. The Company's revenues for the preceding quarters as of September 2016 were at the 42nd percentile of the Peer Group and the Company's 200-day average market capitalization as of September 15, 2016 was at the 45th percentile of the Peer Group.

Compensia's analysis of the compensation of Messrs. Waldman, Shulman and Sultzbaugh indicated that each of their actual total cash compensation (comprised of their 2016 salaries and 2015 performance bonuses paid in 2016), plus 2016 RSU awards, were at or below the median total compensation of the Peer Group. Compensia's analysis did not include Mr. Kagan as he is located in Israel and there is a lack of comparable data for his position in Israel.

We typically engage in a formal executive compensation benchmarking exercise every other year, and expect to do so again in the third quarter of 2018. However, we continue to consider market data from the Surveys every year. In July 2017, our compensation committee made minor adjustments to our 2016 peer group, removing Intersil Corporation, Mobileye N.V., due to acquisitions, and adding Macom Technology Solutions because it most closely met our peer criteria.

The Role of the Compensation Committee Consultant. As noted above, in the second half of 2016, our compensation committee engaged Compensia, an independent third party compensation consulting firm, to assist in discrete projects and report to the compensation committee, including selecting the Peer Group, gathering general industry compensation data, conducting a review of total compensation of certain named executive officers and members of the Board, and providing advice with respect to certain executive and Board compensation issues that arose in the latter half of 2016, and Compensia's studies were referenced in 2017. In February 2018, the Compensation Committee engaged Radford (part of Aon Hewitt, a business unit of Aon PLC) specifically for CEO and CFO compensation review. In order to determine and confirm independence, before engaging any consultant, each consultant completes an independence questionnaire provided by the Company. In addition, each director and executive officer of the Company completes an annual questionnaire which includes questions which ask about any actual or potential conflicts or relationship between such individual and any relevant consultant.

The Role of Our Chief Executive Officer. Our CEO provides our compensation committee with his assessment of the performance levels of the Company and our named executive officers (other than himself) and his recommendations with respect to compensation of our named executive officers (other than himself). Our compensation committee

believes it is important to consider and evaluate our CEO's input on matters concerning compensation of other named executive officers. The compensation committee believes that our CEO's input regarding our other named executive officers' individual performances, including the expected contributions and future potential of each of them, is useful because each other named executive officer reports directly to our CEO, and our CEO interacts with our other named executive officers on an ongoing basis throughout the year.

Base Salary

In February 2017, our CEO completed his review of the 2016 performance of each of our named executive officers reporting him, and made recommendations to our compensation committee for base salary increases for each of the other named executive officers for 2017. Our compensation committee evaluated the CEO's recommendations considering the Peer Group median for U.S. based executives, available survey data, the Company's growth in revenue and earnings during 2016 and each individual's performance and contributions to the Company's success. Our compensation committee and board of directors each then approved the CEO's 2017 base salary recommendations for the named executive officers reporting to Mr. Waldman, as follows: Mr. Shulman's base salary was increased 16.7% to \$350,000; Mr. Sultzbaugh's base salary was increased 5.7% to \$370,000; and Mr. Kagan's base salary was increased 18.2% to \$279,626. The base salary for Mr. Kagan is converted from New Israeli Shekels to U.S. dollars using the 2017 average exchange rate of 3.57 New Israeli Shekels to 1 U.S. dollar.

In February 2017, the compensation committee also reviewed the 2016 performance of the CEO considering the Company's financial performance and technology execution, the CEO's significant contributions to the Company's performance and the Peer Group data. Following approval by each of the compensation committee and the board of directors, at the April 2017 annual general meeting, our shareholders approved an increase in the annual base salary of our CEO of approximately 7.0% from \$570,000 to \$610,000 effective from April 1, 2017. Our CEO's 2017 base salary was slightly below the Peer Group median.

Our compensation committee and our board of directors approved a base salary of \$400,000 for Mr. Sultzbaugh effective July 1, 2018, a 10.8% increase over his 2017 base salary of \$370,000, to reflect an increase in responsibilities due to an internal reorganization. Our compensation committee and our board of directors did not approve any increases in the base salaries of our other named executive officers, including our chief executive officer and, thus, the 2018 base salaries of our other named executive officers will remain at their 2017 levels.

Annual Cash Bonus Program

We structured our 2017 annual cash bonus award program to reward named executive officers for our Company's successful performance, measured on the basis of our non-GAAP operating income, and for each individual's contribution to that performance.

Under our annual cash bonus award program, our employees in good performance standing, including our named executive officers, are eligible to receive an award, in accordance with the criteria set forth in our Compensation Philosophy from a bonus pool in an amount that is targeted by our compensation committee at generally up to 10% of our non-GAAP operating income, excluding bonus expenses. In accordance with our Compensation Philosophy, the maximum annual value of the cash bonus payable for each of our office holders shall not exceed two times such office holder's annual base salary.

Our compensation committee may adjust the available annual bonus pool based on its assessment of our achievement of our operating plan and company profitability. In January 2018, the compensation committee determined that the total profit sharing pool for the fiscal year ended December 31, 2017 was \$13.2 million and represented 10% of our non-GAAP operating income, which was \$132.0 million, excluding this bonus expense. The size of each named executive officer's bonus for 2017 was determined in February 2018 in the discretion of our compensation committee based upon its assessment of a number of factors, including our CEO's recommendations, overall company performance in 2017, each named executive officer's individual performance in 2017 and ability to influence our Company's performance, the relative scope of each named executive officer's responsibilities and internal equity. Based on consultation with our CEO (other than with respect to himself) and our board of directors, the compensation committee determined that neither the chief executive officer nor the chief financial officer would receive a bonus award for 2017. The board of directors and compensation committee determined that our CEO would not be awarded a bonus for 2017 based on their evaluation of Company performance in 2017. In addition, the compensation committee determined, following our CEO's recommendation, that our chief financial officer would not be awarded a bonus for 2017 due to his anticipated resignation. The following bonuses were approved for our other executive officers based on their individual contributions to our financial performance for fiscal year 2017: Mr. Sultzbaugh was awarded \$30,000, which represents approximately 8% of his 2017 annual base salary and Mr. Kagan was awarded \$50,000, which represents approximately 18% of his base salary. Payments of the annual cash bonus program award to Mr. Sultzbaugh and Mr. Kagan were made in the first pay period in April 2018.

Equity Compensation Awards

We provide equity awards to our named executive officers in order to align their interests with the interests of our shareholders by tying the value delivered to our named executive officers to the value of our ordinary shares. Annual equity award grants provide our named executive officers with long-term incentives that aid in retaining executive talent and reward executives for creating shareholder value over the long term. We may also make grants of equity awards at the discretion of our Board and the compensation committee in connection with the hiring or promotion of new executive officers.

Our annual awards of restricted share units made to existing employees in April 2017, including our named executive officers, vest over four years at the rate of 1/4th of the shares on May 1, 2018, and thereafter at the rate of 1/16th of the original number of shares on the first day of each quarterly period of August, November and February and May commencing August 1, 2018, with the last 1/16th of the original number of shares vesting on May 1, 2021, so long as the restricted share unit holder remains an officer or employee of the company. We set these vesting schedules in order to provide an incentive to our employees, including our named executive officers, to continue their employment with us over the long term and, with respect to the restricted share units, generally to provide them the opportunity to

sell their vested shares to cover taxes incurred with vesting during a period following the public release of our prior quarter's fiscal operating results.

As with the other components of our compensation program, we determine the size of each equity award to a named executive officer after considering, among other things, the role of each named executive officer within our Company, the criticality of his function within the organization, and the Peer Group data. Since long-term incentive compensation levels fluctuate from year to year across the companies for whom market data are collected, including the Peer Group (depending on each company's granting patterns, valuation assumptions, and stock price), we generally review the market data under both a value approach, which is based on the fair value of long-term incentive awards, and a percentage of common shares outstanding approach, which compares the number of shares subject to each long-term incentive award to the number of shares outstanding for each company. The ability of each executive officer to influence our Company's performance and internal parity are also principal considerations for our compensation committee when determining grant size.

In April 2017, our Board granted each of our named executive officers restricted share units as follows: Mr. Shulman, 15,000; Mr. Sultzbaugh, 17,000; and Mr. Kagan, 17,000. The value of these award levels ranged from 7% below to 17% above the levels awarded in 2016. In April 2017, our Board also approved the grant of 90,000 restricted share units to Mr. Waldman, subject to the approval of our shareholders, which was obtained at our 2017 annual general meeting of shareholders. The value of Mr. Waldman's 2017 award was lower than his 2016 grant by 10%, reflecting our compensation committee's assessment of Mr. Waldman's individual performance and contributions to the company in 2016.

Change in Control Severance Arrangements

We have entered into executive severance benefits agreements with each of our named executive officers which provide for certain severance benefits in the event of an executive's separation of service following a change in control (a so-called "double trigger" requirement).

Pursuant to the terms of the executive severance benefits agreements in place for 2017, if the executive's employment with our Company is terminated without cause or if the executive is constructively terminated (as defined below), in each case during the 12-month period following a change in control (as defined in the agreements) of our Company (each, a "qualifying termination"), and the executive provides us a general release of all claims, then the executive is entitled to receive the following payments and benefits:

continuation of the named executive officer's salary for six months at a per annum rate of 120% of the executive's annual base salary in effect on the termination date;

in the case of a named executive officer who resides in the United States, if the named executive officer elects COBRA coverage under our group health plan, payment for the cost to continue COBRA coverage for the named executive officer and his eligible dependents for up to 12 months following the termination date; and

accelerated vesting and immediate exercisability of the named executive officer's outstanding and unvested stock awards as to 50% of the total number of unvested shares subject to such outstanding and unvested stock option awards.

Following a review of the change in control arrangements of our Peer Group, which indicated that our change in control severance benefits are well below market, in April 2018, our compensation committee and our board of directors approved amendments to our NEO's executive severance agreements, except in the case of Messrs. Waldman and Shulman, to, among other things, increase the cash severance to 12 months' salary and target bonus and provide for full accelerated vesting of the NEO's outstanding equity awards in the event of a qualifying termination.

For the purposes of the executive severance benefits agreements,

Cause means that, in the reasonable determination of the Company (or the Board, in the case of the CEO), the executive: (a) has committed an act of fraud or embezzlement or has intentionally committed some other illegal act that has a material adverse impact on the Company or any successor or parent or subsidiary thereof; (b) has been convicted of, or entered a plea of "guilty" or "no contest" to, a felony which causes or may reasonably be expected to cause substantial economic injury to or substantial injury to the reputation of the Company or any subsidiary or affiliate of the Company; (c) has made any unauthorized use or disclosure of confidential information or trade secrets of the Company or any successor or parent or subsidiary thereof that has a material adverse impact on any such entity; (d) has committed any other intentional misconduct that has a material adverse impact on the Company or any successor or parent or subsidiary thereof; or (e) has intentionally refused or intentionally failed to act in accordance with any lawful and proper direction or order of the Board or the appropriate individual to whom the executive reports, provided such direction is not

materially inconsistent with the executive's customary duties and responsibilities.

Constructive termination means that the executive voluntarily terminates his employment with the Company after any of the following are undertaken without the executive's express written consent: (a) the removal of or a material reduction in the nature or scope of the executive's responsibilities, or the assignment to the executive of duties that are materially inconsistent with the executive's position other than a change in reporting relationship; (b) a change in the executive's direct reporting relationship so that the executive no longer reports directly to the CEO (or the Board in the case of the CEO); (c) a reduction in the executive's base salary, unless the base salaries of all other executives are similarly reduced; or (d) a relocation of the executive's place of employment by more than thirty (30) miles from such the executive's place of employment on the effective date of the severance benefits agreement. The termination of the executive's employment as a result of the executive's death or disability shall not be deemed to be a Constructive Termination.

Change in Control generally includes each of the following:

A transaction or series of transactions whereby any person or related group of persons directly or indirectly acquires beneficial ownership of securities of the Company possessing more than 50% of the total combined voting power of the Company's securities outstanding immediately after such acquisition; or

Table of Contents

During any period of two consecutive years, individuals who, at the beginning of such period, constitute the Board together with any new director(s) whose election by the Board or nomination for election by the Company's shareholders was approved by a vote of at least two thirds of the directors then still in office who either were directors at the beginning of the two- year period or whose election or nomination for election was previously so approved, cease for any reason to constitute a majority thereof; or

The consummation by the Company (whether directly involving the Company or indirectly involving the Company through one or more intermediaries) of (x) a merger, consolidation, reorganization, or business combination or (y) a sale or other disposition of all or substantially all of the Company's assets in any single transaction or series of related transactions or (z) the acquisition of assets or shares of another entity, in each case other than a transaction:

- (i) Which results in the Company's voting securities outstanding immediately before the transaction continuing to directly or indirectly, at least a majority of the combined voting power of the successor entity's outstanding voting securities immediately after the transaction, and
- (ii) After which no person or group beneficially owns voting securities representing 50% or more of the combined voting power of the successor entity; provided, however, that no person or group shall be treated as beneficially owning 50% or more of combined voting power of the successor entity solely as a result of the voting power held in the Company prior to the consummation of the transaction; or

The Company's shareholders approve a liquidation or dissolution of the Company.

The benefits payable under the change in control severance agreements are in addition to payments or other benefits, if any, that any named executive officer who resides in Israel may be entitled to receive under applicable Israeli law. Israeli law generally requires severance pay equal to one month's salary for each year of employment upon the retirement, death or termination without cause (as defined in the Israeli Severance Pay Law) of an employee. To satisfy this requirement, we make contributions on behalf of our Israel-based employees to a fund known as Managers Insurance or to a pension fund. These funds provide a combination of pension plan, insurance and severance pay benefits to the employee, giving the employee or his or her estate payments upon retirement or death and securing the severance pay, if legally entitled, upon termination of employment. Each full-time Israeli employee and hourly employee as of September 2012, including each of our Israel-based named executive officers, is entitled to participate in the Managers Insurance and/or pension fund. Each employee who participates contributes an amount equal to 6% (as of January 2017) of his or her salary to the Managers Insurance and/or pension plan and we contribute up to 6.5% (as of January 2017) to the Managers Insurance and/or pension plan, 8.33% for severance payments and up to 2.5% for disability insurance).

Within the context of our Compensation Philosophy, the compensation committee believes the terms of our executive severance agreements with our named executive officers will encourage their continued attention and dedication to their assigned duties through and following any change in control of our Company. We believe that the terms of these agreements will further ensure that each of our named executive officers will continue to remain focused on the long-term objective of delivering shareholder value during and following a change in control event if they are assured that their long-term employment interests are reasonably provided for with a competitive market severance

arrangement. We believe that these executive severance agreements thus help ensure the best interests of our shareholders.

Additionally, under the Company's Global Share Incentive Plan, in the event of a change in control in the Company, each outstanding award will be assumed or substituted by the successor corporation. If the successor corporation in a change in control refuses to assume or substitute an outstanding award, the award will vest in full.

The potential payments under the executive severance benefits agreements as of December 31, 2017 are set forth below under the heading Potential Payments Upon Termination Following a Change in Control.

Perquisites and Other Benefits

Historically, from time to time, our compensation committee and board of directors have provided certain of our named executive officers with perquisites that we believe are reasonable. We do not view perquisites as a significant element of our comprehensive compensation structure, but do believe that these additional benefits may assist our executive officers in neutralizing personal costs associated with performing their duties as expected by the Company and provide time efficiencies for our executive officers in appropriate circumstances, particularly when we require frequent or lengthy travel. In 2017, our named executive officers received the perquisites set forth in the table below, which our compensation committee determined were appropriate in order to facilitate the efforts of Mr. Waldman and Mr. Sultzbaugh on behalf of our Company while at our California headquarters.

Table of Contents

Name	Perquisite
Eyal Waldman	Housing and housing-related expense reimbursement
	Tax reimbursement related to perquisites provided
Marc Sultzbaugh	Housing and housing-related expense reimbursement
	Select travel reimbursement
	Tax reimbursement related to perquisites provided

The table above does not include automobile-related expense reimbursement, insurance reimbursement, retirement fund contributions, severance fund contributions and education fund contributions, all of which are provided to all of our Israel-based employees on a non-discriminatory basis including our named executive officers based in Israel.

In the future, we may provide additional perquisites to our named executive officers as an element of their overall compensation structure. We do not expect these perquisites to be a significant element of our compensation structure. All future practices regarding perquisites will be approved and subject to periodic review by our compensation committee and/or board of directors.

In addition to the termination-related benefits provided to our Israeli employees under Israeli law, each full-time Israeli employee, including each of our Israel-based named executive officers, is entitled to participate in an education fund plan, pursuant to which each employee who participates in the plan contributes an amount equal to 2.5% of his or her salary to the education fund and we contribute 7.5% of his or her salary up to the maximum amount exempted from tax (currently contribution from a monthly salary of NIS15,712). In addition, the Company pays directly to the employee via his or her salary or as additional contribution to the education fund, per the employee's choice, 7.5% of the portion of the employee's salary which exceeds the aforesaid maximum salary exempt from tax.

Shareholder-approved Compensation Philosophy

At our 2016 annual general meeting held on May 9, 2016, our shareholders re-approved our Compensation Philosophy for our office holders, which addresses certain items prescribed by the Companies Law. Our compensation committee reviews its Compensation Philosophy annually and reserves the discretion to amend it from time to time. Regardless of whether the compensation committee amends the Compensation Philosophy or not, pursuant to the Companies Law, our Compensation Philosophy must generally be approved by the board of directors (after considering the recommendations of the compensation committee) and the shareholders every three years.

Tax Considerations

Section 162(m) of the U.S. Internal Revenue Code establishes a limitation on the deductibility of compensation payable in any particular tax year to our named executive officers. Section 162(m) provides that publicly-held companies cannot deduct compensation paid to certain named executive officers (other than, prior to the Tax Cuts and Jobs Act of 2017, our CFO) to the extent that such compensation exceeds \$1 million per officer. Prior to the Tax Cuts and Jobs Act of 2017, compensation that is performance-based compensation within the meaning of Section 162(m) did not count toward the \$1 million limit. As part of the Tax Cuts and Jobs Act of 2017, the ability to rely on this qualified performance-based compensation exception was eliminated and the limitation on deductibility was generally expanded to include all NEOs. Historically, the deductibility of compensation under Section 162(m) has not been a factor in the compensation committee's compensation determination process and as a result of the Tax Cuts and Jobs Act of 2017, subject to the Act's grandfathering rules, the Company may no longer take a deduction for any

compensation paid to its NEOs in excess of \$1 million.

Other Policies

Share Ownership and Holding Policy. Effective as of our 2015 annual general meeting of shareholders, each of our executive officers became subject to a policy that he or she hold shares of the Company with an aggregate value of at least three times his or her annual salary by the fifth anniversary that he or she became subject to the policy. Our named executive officers have until February 24, 2020 to comply with this policy. On January 31, 2017, the compensation committee and board of directors adopted amendments to the share ownership policy that adopted holding requirements: executive officers and directors who are subject to share ownership requirements and who have not attained the minimum ownership level in the allotted period, shall retain the lesser of (i) twenty five percent (25%) of the gross number of shares acquired upon an exercise, vesting or settlement or (ii) fifty percent (50%) of the number of shares remaining after satisfying the exercise price, if any, and tax withholding requirements.

Clawback Policy. In addition, pursuant to our Compensation Philosophy, our executives are required to repay to us any excess payments, including cash and equity, made to them that were based on the Company's performance if such payments were paid based on false and restated financial statements of the Company.

REPORT OF THE COMPENSATION COMMITTEE

Our compensation committee reviews and recommends our programs, policies and practices relating to the compensation and benefits of our officers and employees. Our compensation committee, in consultation with our CEO (other than with respect to his own compensation) and our Board, decides how much cash compensation should be part of each of our officer's total compensation by obtaining global market survey data and, for most named executive officers, benchmarking to a peer group of companies, and considering the relative importance of short-term incentives. In addition, our compensation committee, in consultation with our CEO (other than with respect to his own compensation), makes recommendations to our Board regarding equity-based compensation to align the interests of our management with shareholders, considering each named executive officer's equity holdings. Our compensation committee also manages approvals and processes equity awards under our equity incentive plans. Under the Companies Law and subject to its provisions, compensation for officers (other than directors and our CEO) is required to be approved by the compensation committee and the board of directors. Compensation for our CEO and our director compensation program are required to be approved by the shareholders, following the approval by the compensation committee and the board of directors. Our compensation committee annually reviews and evaluates our incentive compensation plans. All members of our compensation committee are independent under the applicable rules and regulations of the SEC, Nasdaq and the U.S. Internal Revenue Service.

Our compensation committee has reviewed and discussed the Compensation Discussion and Analysis, for the year ended December 31, 2017 with management. In reliance on the reviews and discussion referred to above, our compensation committee recommended to our Board that the Compensation Discussion and Analysis be included in the Annual Report on Form 10-K, as amended, for the year ended December 31, 2017, as filed with the SEC.

The foregoing report is provided by the undersigned members of our compensation committee.

The Report of the Compensation Committee is not soliciting material, is not deemed filed with the SEC and is not to be incorporated by reference in any filing of the Company under the Securities Act or the Exchange Act, whether made before or after the date hereof and irrespective of any general incorporation language in any such filing.

Pay Ratio Disclosure

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, and Item 402(u) of Regulation S-K, we are providing the following information about the relationship of the annual total compensation of our employees and the annual total compensation of Mr. Waldman, our CEO. For 2017, our last completed fiscal year, the total compensation in 2017 of our CEO was approximately 43.5 times the median total compensation in 2017 of all of our other employees (the **Pay Ratio**). The median of the annual total compensation of all employees of our Company (other than our CEO) was \$124,654 and the annual total compensation of our CEO was \$5,424,560. The Company chose October 1, 2017 as the date for establishing the employee population used in identifying the median employee and used January 1, 2017 through September 30, 2017 as the measurement period. We identified the median employee using the sum of base salary or wages (based on our payroll records) earned, annual bonus actually paid, and grant date fair value of RSUs approved by the compensation committee during the measurement period for each employee (U.S. and non-U.S.) employed as of October 1, 2017. Permanent employees who joined in 2017 and permanent employees who were on leave during 2017 were assumed to have worked for the entire measurement period. We captured all full-time, part-time, seasonal and temporary employees located in the U.S., Israel, China and Denmark as of October 1, 2017, consisting of approximately 2,566 individuals, with approximately 17% of these individuals located in the U.S., approximately 77% located in Israel, and approximately 6% located in China and Denmark. As permitted by SEC rules, under the 5% de minimis exemption, we excluded 100 non-U.S. employees, as described in further detail below. Earnings of our employees outside the U.S. were converted to U.S. dollars using the currency exchange rate as of September 30, 2017. No cost-of-living adjustments were made. The annual total compensation of the median employee and the annual total compensation of the CEO were calculated in accordance with the requirements of Item 402(c)(2)(x) of Regulation S-K.

The non-U.S. excluded employees and their employee populations are as follows: Japan (9 employees); Netherlands (6 employees); Singapore (6 employees); Switzerland (1 employee); Taiwan (11 employees); U.K. (17 employees); Argentina (1 employee); Australia (5 employees); Czech Republic (2 employees); Greece (2 employees); India (5 employees); Indonesia (1 employee); Malaysia (2 employees); Norway (1 employee); Russia (14 employees); South Korea (3 employees); Thailand: (5 employees); Turkey (2 employees); and Canada (7 employees).

RISK ASSESSMENT AND COMPENSATION PRACTICES

Our management assessed and discussed with our compensation committee and board of directors the Company's compensation policies and practices for our employees as they relate to our risk management and, based upon this assessment, we believe that any risks arising from such policies and practices are not reasonably likely to have a material adverse effect on the Company in the future.

Our employees' base salaries are fixed in amount and thus we do not believe that they encourage excessive risk-taking. While performance-based cash bonuses and sales commissions focus on achievement of short-term and mid-term or annual goals, which may encourage the taking of short-term and mid-term risks at the expense of long-term results, we believe that our internal controls help mitigate this risk and our performance-based cash bonuses and sales commissions are limited, representing a small portion of the total compensation opportunities available to most employees. We also believe that our performance-based cash bonuses and sales commissions appropriately balance risk and the desire to focus our employees on specific short-term and mid-term goals important to our success and do not encourage unnecessary or excessive risk-taking.

A significant proportion of the compensation provided to our employees and non-employee directors is in the form of long-term equity-based incentives that are important to help further align our employees' and directors' interests with those of our shareholders. We do not believe that these equity-based incentives encourage unnecessary or excessive

risk taking because their ultimate value is tied to our share price. In addition, we generally stagger grants of equity-based awards and, in the case of employees, subject them to long-term vesting schedules to help ensure that employees have significant value tied to the long-term performance of our ordinary shares. Certain specified executive officers and our non-employee directors are also subject to share ownership guidelines and holding requirements to further align our employees' and directors' interests with our shareholders' interests.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

Our Board has a standing compensation committee, the members of which are Amal Johnson, chair, Dov Baharav and Glenda Dorchak. None of the members of our compensation committee has at any time been one of our executive officers or employees. None of our executive officers currently serves, or in the past fiscal year has served, as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving on our Board or compensation committee.

Table of Contents**DIRECTOR COMPENSATION**

In October 2006, our Board adopted a compensation program for non-employee directors which became effective on February 6, 2007 and was last amended at our 2017 annual general meeting of shareholders held on April 25, 2017. The current annual cash compensation amounts payable to each non-employee member of our Board for their annual board services are set forth in the table below:

	Annual Fees
Board membership	\$ 45,000
Additional amounts, as applicable, payable to:	
Chairperson of the Board	\$ 30,000
Chairperson of the audit committee	\$ 25,000
Chairperson of the compensation committee	\$ 15,000
Chairperson of the nominating and corporate governance committee	\$ 10,000
Chairperson of the technology, strategy and M&A committee	\$ 10,000
Member of the audit committee (other than chairperson)	\$ 10,000
Member of the compensation committee (other than chairperson)	\$ 7,400
Member of the nominating and corporate governance committee (other than chairperson)	\$ 5,000
Member of the technology, strategy and M&A committee (other than chairperson)	\$ 5,000

Our non-employee directors are reimbursed for expenses incurred in connection with attending board and committee meetings, and are entitled to insurance, exemption and indemnification as customary for officers in the Company.

In addition to cash compensation, under the existing board compensation plan, each of our non-employee directors receive an annual automatic, non-discretionary award of 4,200 restricted share units. Annual awards to our non-employee directors who continue to serve as a non-employee director following the annual general meeting will typically be processed on the first day of the month following the date of each annual general meeting. The annual award vests, in equal monthly increments over the 12 months following the applicable annual general meeting and will be 100% vested on the 12-month anniversary of the grant date, provided the director continues to serve as a non-employee director.

Our directors have a three-month period following cessation of service to our Company in which to exercise any outstanding vested options, except in the case of a director's death or disability, in which case the options will be exercisable by the director or his or her estate or beneficiary for a 12-month period following the cessation of services. Options and restricted share units granted to our non-employee directors will fully vest and become immediately exercisable upon a change in control of our Company.

In addition, effective as of our 2015 annual general meeting of shareholders, each of our non-employee directors became subject to a policy requiring that he or she hold shares of the Company in the value of at least three times his or her annual retainer fees. All our non-employee directors have until February 2020 to comply with this policy. This policy is set forth in our Executive Officer and Director Share Ownership Policy and our Corporate Governance Guidelines. In January 2017, the board of directors also adopted a holding policy whereby, in the case that a

non-employee director (or specified employee) does not hold the minimum share ownership by his or her fifth anniversary of becoming subject to the ownership policy, he or she will be required to retain the lesser of (i) twenty-five percent (25%) of the gross number of shares acquired upon an exercise, vesting or settlement or (ii) fifty percent (50%) of the number of shares remaining after satisfying the exercise price, if any, and tax withholding requirements.

The table below sets forth information regarding compensation provided by us to our non-employee directors during the year ended December 31, 2017.

ITEM 13 *CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE*

Certain Relationships and Related Transactions

In our last fiscal year, there has not been, nor is there currently proposed, any transaction or series of similar transactions to which we were or are to be a party in which the amount involved exceeds \$120,000 and in which any of our directors, executive officers, holders of more than 5% of our ordinary shares or any members of the immediate family of any of the foregoing persons, had or will have a direct or indirect material interest.

Our audit committee reviews and, where required, approves related party transactions on an ongoing basis as required by the Companies Law and the regulations promulgated thereunder and as required by Nasdaq Listing Rules. Under the Companies Law, our audit committee must approve specified actions and transactions with office holders and controlling shareholders or in which an office holder or controlling shareholder has a Personal Interest. The audit committee is also required to determine whether any such action is material and whether any such transaction is an extraordinary transaction or non-negligible transaction, for the purpose of approving such action or transaction as required by the Companies Law. Under the Companies Law, a controlling shareholder is a shareholder who has the ability to direct the Company's activity, excluding an ability deriving merely from holding an office of director or another office in the Company, and a person will be presumed to control the Company if he holds 50% or more of (i) our voting rights or (ii) the rights to appoint our directors or general managers. For the purpose of transactions with an interested party, the Companies Law definition also includes a shareholder that owns 25% or more of the voting rights in the general meeting of the Company, if there is no other person who holds more than 50% of the voting rights in the Company. Two or more persons holding voting rights in the Company each of which has a Personal Interest in the approval of the transaction being brought for approval of the Company will be considered to be joint holders. The Company is not currently aware of any controlling shareholder, as such term is defined in the Companies Law.

Director Independence

The board of directors currently consists of eleven directors. Our Corporate Governance Guidelines require that our Board be comprised of a majority of directors who qualify as independent directors as required under the rules of Nasdaq. Our Board has determined that each of our current directors other than Mr. Waldman, our president and CEO, and Mr. Cohen, our former chief operating officer, is independent under the director independence standards of Nasdaq.

Table of Contents**ITEM 14 *PRINCIPAL ACCOUNTANT FEES AND SERVICES*****Audit and Non-Audit Services**

Subject to shareholder approval of the audit committee's authority to determine remuneration for their services, the audit committee is directly responsible for the appointment, compensation and oversight of our independent auditors. In addition to its retention of EY Israel to audit our consolidated financial statements for the fiscal year ended 2017, the audit committee retained EY Israel to provide other non-audit and advisory services in 2017. The audit committee has reviewed all non-audit services provided by EY Israel in 2017 and has concluded that the provision of such non-audit services was compatible with maintaining EY Israel's independence and that such independence has not been impaired.

Set forth below are the aggregate fees billed for professional services rendered for the fiscal year ended December 31, 2017 by EY Israel and the aggregate fees billed for professional services rendered for the fiscal year ended December 31, 2016 by PricewaterhouseCoopers LLP (**PwC**).

Service Category	Fiscal Year Ended December 31,	
	2017 EY Israel	2016 PwC
Audit Fees	\$ 705,000	\$ 1,900,000
Audit-Related Fees	69,676	195,300
Tax Fees	53,428	362,000
All Other Fees	34,200	48,897
Total	\$ 862,304	\$ 2,506,197

In the above table, in accordance with the SEC's definitions and rules, audit fees are fees for professional services for the audit and review of our annual consolidated financial statements, as well as fees for issuance of consents and for services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements except those not required by statute or regulation; audit-related fees are fees for assurance and related services that were reasonably related to the performance of the audit or review of our financial statements, including attestation services that are not required by statute or regulation, due diligence and any services related to acquisitions; tax fees are fees for tax compliance, tax advice and tax planning; and all other fees are fees for any services not included in the first three categories.

The Sarbanes-Oxley Act of 2002 and the auditor independence rules of the SEC require all issuers to obtain pre-approval from their respective audit committees in order for their independent registered public accounting firms to provide professional services without impairing independence. As such, the audit committee has a policy and has established procedures by which it pre-approves all audit and other permitted professional services to be provided by the Company's independent registered public accounting firm. From time to time, the Company may desire additional permitted professional services for which specific pre-approval is obtained from the audit committee before provision of such services commences. The audit committee has considered and determined that the provision of the services other than audit services referenced above is compatible with maintenance of the auditors' independence.
