We have an attractive financial profile with significant growth and momentum in revenues and subscribers. We have achieved eight consecutive quarters of revenue growth on a constant currency year-over-year basis and have grown our number of End of Period Subscribers for nine consecutive quarters on a year-over-year basis. We achieved our longest ever average member length of stay of well over nine months in our most recent quarter. Our subscription-based model provides a recurring and reliable revenue stream from meeting fees and Online subscriptions, which together accounted for 83% of our revenues and 86% of our gross profit in the fiscal year ended December 30, 2017. We believe that, with only 5% of U.S. adults who are trying to lose weight using a commercial weight management plan, we have a significant opportunity to drive increased penetration of and engagement with our brand. We further believe our deep knowledge of weight management, international presence and brand awareness uniquely position us for growth in the global wellness and weight management market.

For the fiscal year ended December 30, 2017 and the fiscal quarter ended March 31, 2018, we generated revenues of \$1.3 billion and \$408.2 million, respectively; net income of \$163.5 million and \$39.1 million, respectively; and Adjusted EBITDAS of \$337.2 million and \$77.9 million, respectively. Evolution into a Technology-Experience Wellness Company

In the more than 50 years since our founding, we have built our business by helping millions of people around the world lose weight. In the past three years, we have made significant investments in people, programs and technology to leverage our position as the commercial weight management leader to continue our evolution into a global technology-experience wellness company through the following strategic initiatives and key investments:

innovated our program offering and launched WW Freestyle, an evolution of our science-based, livable and sustainable SmartPoints food plan that guides our members towards more nutritious food choices, complemented by activity, behavioral and lifestyle tools that can be personalized by each of our members for maximum livability;

partnered with several key celebrities and influencers to begin diversifying our global reach across ethnicity, geography and gender, including most notably our strategic partnership with Oprah Winfrey who has been a Weight Watchers member, board member, advisor and shareholder since October 2015;

modernized our product and our technology platform to enhance our engagement with members and bring human connection to the digital space by launching our social network Connect, offering 24/7

chat and expanding our social media presence, which together provide a platform for rapid and cost-effective geographic expansion;

improved our global marketing execution by codifying what works based on consumer insights and in-market testing with a focus on conversion; and

hired key strategic executives, including Mindy Grossman as President and CEO, Michael Korcuska as Chief Product Officer, and Gail Tifford as Chief Brand Officer.

These initiatives and investments have enabled us to evolve into a global brand-led, human-centric business with a holistic approach to wellness that incorporates personalization, community and our knowledge of behavioral science to help our members lead healthier, more active, fulfilling lives. Our business has significant momentum and we believe that we are in the early stages of realizing the return on our investments, which we expect will result in continued growth and profitability.

Market Opportunity

Wellness is a large and growing market. We are focused on a comprehensive approach to living a healthy life that incorporates activity and inspires a positive mindset shift, while continuing to build upon our leadership in behavioral science, nutrition and weight management. Social media engagement and digital content are informing and increasingly influencing consumer wellness behaviors. As consumers continue to focus on wellness, we believe we are well positioned to offer the necessary tools and communities to help and inspire consumers all over the world to improve their well-being.

We are the world's leading commercial weight management program. According to Marketdata Enterprises, the weight loss and weight management industry had revenue of approximately \$66 billion in 2016 in the United States alone. The number of overweight and obese people around the world has grown from 857 million in 1980 to approximately 2.2 billion in 2015, primarily driven by improving living standards, changing eating patterns and increasingly sedentary lifestyles. Although 60% of the adult population in the United States is trying to lose weight, we believe only 5% of them are currently using a commercial weight management plan. We believe that the growing population of overweight people has an increasing awareness of the health benefits of weight loss and the desire to lead a healthier lifestyle, providing us with a significant market opportunity.

Our Unique Commitment to Our Members

We help our members build powerful habits, rooted in science: We provide a scientifically-proven program that guides our customers in three dimensions - food, activity and mindset - in order to shift behaviors from diets to livable and sustainable patterns of healthy living.

We enable our members to find and form inspired communities: We deepen and expand inspired communities using a powerful influencer program, digital tools, meeting venues, special events and experiences that aim to strengthen current communities and build new ones.

We know our members and meet them where they are: We create deep human and personalized digital and in-person experiences to connect with our customers at the right moment, with the right message through the right channels. This comprises a 360 degree experience through meetings, online content, our social network Connect, 24/7 chat and social media.

We connect with our members in the way they want to be engaged and in a manner that fits into their life. We strive to create a 360 degree experience to connect at the right moment, with the right message and through the right channel across diverse geographies. Our digital platform, in-person meetings and unique experiences allow our members to build relationships and form their own inspirational communities to continue building healthier food, activity and lifestyle habits. An overwhelming majority of posts on our social network, Connect, are positive, providing our members with a unique and safe community to share their weight management and wellness journeys. During the first quarter of fiscal 2018, we had approximately 1.7 million unique monthly Connect visitors, sharing videos and building their own communities. We also host approximately 30,000 Weight Watchers meetings each week around the world, run by approximately 8,600 leaders, all of whom have deep experience with our program. We seek to expand and strengthen our communities and diversify our reach across ethnicities, geographies, age, lifestage and gender through our strategic relationships with influencers. Celebrities, health and wellness influencers, brand ambassadors and chefs share their experiences with our products and program to attract new members and inspire current members. We are proud to have Oprah Winfrey as a passionate Weight Watchers member, board member, shareholder and thought leader. She is an inspiration in this mission. The response to Ms. Winfrey's participation in our member community has been overwhelmingly positive and her ability to connect and inspire people to realize their full potential has sparked interest and excitement in our brand. The success of our WW Freestyle program has also been amplified by Ms. Winfrey's broader visibility and influence as a role model and advocate for pursuing a healthier lifestyle. In addition to Ms. Winfrey, we have a diverse and growing network of influencers including U.S. based celebrities such as DJ Khaled and Kevin Smith, international celebrities such as H  l  ne S  gara, and celebrity chefs such as Eric Greenspan. In addition, our approximately 200 member ambassadors embrace and promote the Weight Watchers healthy lifestyle, further enhancing our brand awareness. We believe these strategic relationships help reposition us as a lifestyle-oriented, modern brand.

Highly Attractive Business Model and Strong Financial Profile

We are a global healthy living brand that benefits from a subscription-based model that generates recurring and reliable revenue, which allows us to continually make investments to support future growth. The sign-up

process encourages new customers to join with a three month commitment at introductory pricing followed by auto-renewal at our normal rate. Our efficient business model features strong gross margins and a variable cost structure, producing high margins with very low cost to serve incremental subscribers across both our meetings and Online businesses. Our Online business is asset-light and highly scalable with centralized infrastructure. Our disciplined cost management approach combined with our low capital expenditure requirements has generated significant cash flows. We have reduced our net debt to Adjusted EBITDAS, or our net leverage, to 4.5x as of the twelve month period ended March 31, 2018 and we are targeting our net leverage to be below 3.5x by the end of fiscal 2018.

Highly Experienced and Passionate Management Team

Ms. Grossman has more than 35 years of experience in building and transforming consumer brands. As the Chief Executive Officer, her passion for the Weight Watchers brand propels the continued evolution of our business. Nicholas Hotchkin has served as our Chief Financial Officer since August 2012 and has led our initiative to reduce our cost structure. To position us for continued growth, we have further bolstered our management team of passionate, mission-driven individuals by adding Michael Korcuska as our new Chief Product Officer to lead our end-to-end experience and Gail Tifford as our new Chief Brand Officer to continue our brand evolution. We believe our management team has the vision and experience to position Weight Watchers for continued success and to implement our business strategies over the long term. We believe that the power of our communities reinforces commitment and provides our members with inspiration, human connection and support, which enriches their lives and enables them to continue making healthier food, activity and lifestyle choices. We intend to leverage the size and power of our physical and digital communities to inspire and create new communities that attract a broader and more diverse member base, whether by gender, ethnicity, age or lifestage. We also intend to create new communities through experiences such as WW Cruises and to be socially impactful by helping underserved communities get healthier.

Brand-Led Product and Services Innovation to Drive Incremental Revenue

We have developed and formed strategic partnerships to offer new innovative offerings for our customers, including fresh, convenient, ready-to-cook meal kits to be sold under WW Fresh, and kitchen tools and products sold under WW Healthy Kitchen. We now innovate throughout the year, which helps reduce the seasonality of our business and increases the excitement around our brand. For example, our Summer of Impact campaign will increase our visibility during the summer months. In addition, we will leverage our brand,

program, digital product and technology platform to expand our service offerings, including collaborating with employers to offer weight loss solutions to improve the overall well-being of their employees.

(1) EBITDAS and Adjusted EBITDAS are not measurements of financial performance prepared in accordance with GAAP and have important limitations as analytical tools. Any analysis of non-GAAP financial measures should be used only in conjunction with results presented in accordance with GAAP and should not be considered in isolation or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

they do not reflect costs or cash outlays for capital expenditures, capital software expenditures or contractual commitments;

they do not reflect changes in, or cash requirements for, our working capital needs;

they do not reflect the interest expense, or the cash requirements necessary to service interest or principal payments, on our debt;

they do not reflect period to period changes in taxes, income tax expense or the cash necessary to pay income taxes;

they do not reflect certain impairments and adjustments for purchase accounting;

they do not reflect the impact of earnings or charges resulting from matters we consider not to be indicative of our ongoing operations; and

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and these non-GAAP financial measures do not reflect cash requirements for such replacements.

Because of these limitations, these non-GAAP financial measures should not be considered as measures of discretionary cash available to invest in business growth or to reduce indebtedness. However, we present these non-GAAP financial measures because we consider them to be useful supplemental measures of our performance. In addition, we believe these non-GAAP financial measures are useful to investors, analysts and rating agencies in measuring the ability of a company to meet its debt service obligations.

RISK FACTORS

An investment in shares of our common stock involves a significant degree of risk. You should carefully consider the following risk factors and the risk factors included in our 2017 10-K, together with all of the other information included in and incorporated by reference into this prospectus supplement and the accompanying prospectus, before you decide whether to purchase the shares of common stock. The risks and uncertainties described below are not the only risks and uncertainties that we face. Additional risks and uncertainties not currently known to us or that we currently deem immaterial also may impair our business, financial condition or results of operations and impact the price of our common stock. If any of the following risks actually occur, our business, financial condition or results of operations and the price of our common stock could suffer. The risks discussed below also include forward-looking statements and our actual results may differ substantially from those discussed in those forward-looking statements. See Cautionary Statement Regarding Forward-Looking Statements.

Risks Related to this Offering and Ownership of Our Common Stock

Affiliates of Artal will continue to have significant influence over us after this offering and may have conflicts of interest with us or the holders of our common stock.

Following this offering and assuming no exercise of the underwriters' option, Artal will own approximately 33.14% of our outstanding common stock and continue to have the ability to exercise significant influence over the election and removal of our directors and our corporate and management policies, including potential mergers or acquisitions, payment of dividends, asset sales, the amendment of our articles of incorporation or bylaws and other significant corporate transactions. This concentration of our ownership may delay or deter possible changes in control of our company, which may reduce the value of an investment in our common stock. So long as Artal owns 10% or more of our common stock, Artal will have the right pursuant to an agreement with us to nominate directors to our Board of Directors in proportion to its stock ownership.

Upon completion of this offering, we will no longer be a controlled company within the meaning of the NYSE rules and the rules of the SEC. However, we will continue to qualify for, and may rely on, exemptions from certain corporate governance requirements that would otherwise provide protection to shareholders of other companies during a one-year transition period.

In October 2015, in connection with Ms. Winfrey entering into a strategic collaboration with us, Ms. Winfrey purchased 6,362,103 shares of the Company's common stock and we granted Ms. Winfrey a fully vested option to purchase an additional 3,513,468 shares of common stock (the Winfrey Option), and Artal Luxembourg S.A. entered into a Voting Agreement with Ms. Winfrey (the Voting Agreement), pursuant to which Ms. Winfrey agreed to vote all of her common stock or preferred stock of the Company and other securities convertible into or exercisable or exchangeable for any common stock or preferred stock of the Company so as to elect as directors such nominees designated by Artal. The Voting Agreement terminates, among other events, on the date that Artal (and certain permitted transferees) and Ms. Winfrey (and certain permitted transferees) collectively own less than 50% of our issued and outstanding common stock. For more information on the Winfrey Option and the Voting Agreement, see the section entitled Transactions with Related Persons and Certain Control Persons Transactions with Related Persons Winfrey Transactions Winfrey Partnership in the portions of our Definitive Proxy Statement on Schedule 14A, filed April 5, 2018 (the 2018 Proxy Statement) incorporated by reference herein.

Upon completion of this offering, the group comprised of Artal and Ms. Winfrey will no longer control a majority of the voting power of our outstanding common stock and we expect that the Voting Agreement will terminate. See Summary The Offering. As a result, we will no longer qualify as a controlled company within the meaning of the rules

of the NYSE. However, we will continue to qualify for, and may rely on, exemptions from certain corporate governance requirements that would otherwise provide protection to

S-15

Table of Contents

shareholders of other companies during a one-year transition period. The NYSE rules will require that we (i) have a board of directors that is composed of a majority of independent directors, as defined under the rules of such exchange within one year of the date we no longer qualify as a controlled company, (ii) have a compensation committee that (x) includes one independent director on the date we no longer qualify as a controlled company, (y) consists of a majority of independent directors within 90 days of the date we no longer qualify as a controlled company and (z) consists entirely of independent directors within one year of the date we no longer qualify as a controlled company and (iii) have a nominating committee that (x) includes one independent director on the date we no longer qualify as a controlled company, (y) consists of a majority of independent directors within 90 days of the date we no longer qualify as a controlled company and (z) consists entirely of independent directors within one year of the date we no longer qualify as a controlled company. While we do not currently expect we will, during these transition periods we are nevertheless permitted under the NYSE rules to utilize the available exemptions from certain corporate governance requirements and therefore during such transition periods you may not have the same protections afforded to shareholders of companies that are subject to all of the NYSE corporate governance requirements.

Future sales of our shares, or the perception of such future sales, could cause our stock price to decline.

The market price of our common stock could decline as a result of sales of a large number of shares of our common stock in the market after this offering or the perception that these sales may occur. These sales, or the possibility that these sales may occur, also might make it more difficult for us to sell equity securities in the future at a time and at a price that we deem appropriate.

As of March 12, 2018, there were 66,206,643 shares of our common stock outstanding. Subject to the lock-up provisions described below and certain transfer restrictions with respect to shares granted to our directors as compensation, as well as shares held by Ms. Winfrey and shares issuable pursuant to the Winfrey Option, all of these shares will be freely tradeable without restriction or further registration under the Securities Act of 1933 (the Securities Act), as amended, by persons other than our affiliates within the meaning of Rule 144 under the Securities Act.

We, our executive officers and directors and the selling shareholder have agreed with the underwriters to a lock-up period, meaning that we, our executive officers, directors and the selling shareholder may not sell any shares of our common stock without the prior consent of Goldman Sachs & Co. LLC, Morgan Stanley & Co. LLC and UBS Securities LLC for 75 days after the date of this prospectus supplement. However, this lock-up arrangement is subject to a number of exceptions, including the pledge by certain Artal entities of up to 9% of our fully diluted and outstanding shares of common stock pursuant to a margin loan agreement and the transfer or sale of such shares upon any enforcement of such pledge.

Following this offering, Artal will own 21,943,300 shares of our common stock, or 20,818,300 shares if the underwriters exercise the underwriters option in full, and Ms. Winfrey will own 7,524,049 shares of our common stock (which includes the common stock issuable under her fully vested Winfrey Option). Artal will be able to sell its shares in the public market from time to time, subject to certain limitations on the timing, amount and method of those sales imposed by SEC regulations.

Artal and Ms. Winfrey have the right to cause us to register the sale of shares of common stock owned by them and to include their shares in future registration statements relating to our securities. If Artal and/or Ms. Winfrey were to sell a large number of its shares, the market price of our stock could decline significantly. In addition, the perception in the public markets that sales by Artal and/or Ms. Winfrey might occur could also adversely affect the market price of our common stock.

You may be diluted by the future issuance of additional common stock in connection with our incentive plans, acquisitions or otherwise.

We have approximately 855,981,241 million authorized but unissued shares of common stock. Our amended and restated articles of incorporation authorizes us to issue these shares of common stock and options relating to

S-16

Table of Contents

common stock for the consideration and on the terms and conditions established by our Board of Directors in its sole discretion, whether in connection with acquisitions or otherwise. We have reserved shares for issuance under various stock incentive plans. Any common stock that we issue under the various stock incentive plans that we may adopt in the future, would dilute the percentage ownership held by the investors who purchase common stock in this offering.

Future offerings of debt or equity securities which would rank senior to our common stock may adversely affect the market price of our common stock.

If, in the future, we decide to issue debt or equity securities that rank senior to our common stock, it is likely that such securities will be governed by an indenture or other instrument containing covenants restricting our operating flexibility. Additionally, any preferred stock or convertible or exchangeable securities that we issue in the future may have rights, preferences and privileges more favorable than those of our common stock and may result in dilution to owners of our common stock. In particular, our amended and restated certificate of incorporation authorizes our Board of Directors, without the approval of our shareholders, to issue 250 million shares of our preferred stock, subject to limitations prescribed by applicable law, rules and regulations and the provisions of our amended and restated certificate of incorporation, as shares of preferred stock in series, to establish from time to time the number of shares to be included in each such series and to fix the designation, powers, preferences and rights of the shares of each such series and the qualifications, limitations or restrictions thereof. The powers, preferences and rights of these additional series of preferred stock may be senior to or on parity with our common stock, which may reduce its value. We and, indirectly, our shareholders, will bear the cost of issuing and servicing such securities. Because our decision to issue debt or equity securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, holders of our common stock will bear the risk of our future offerings reducing the market price of our common stock and diluting the value of their stock holdings in us.

Because we have no current plans to pay cash dividends on our common stock, you may not receive any return on investment unless you sell your common stock for a price greater than that which you paid for it.

We have no current plans to pay cash dividends on our common stock. The declaration, amount and payment of any future dividends will be at the sole discretion of our Board of Directors. Any future determination to declare and pay dividends will be made at the sole discretion of our Board of Directors, after taking into account our financial condition and results of operations, capital requirements, contractual, legal, tax and regulatory restrictions, the provisions of Virginia law affecting the payment of distributions to shareholders and such other factors our Board of Directors may deem relevant. In addition, our ability to pay dividends may be limited by covenants in our existing indebtedness, including the credit agreement governing our \$1.54 billion term loan facility and \$150 million revolving credit facility (collectively the Credit Facilities) and the indenture governing our 8.625% Senior Notes due 2025 (the Notes), and may be limited by the agreements governing other indebtedness we or our subsidiaries incur in the future.

Weight Watchers International, Inc. is dependent on its subsidiaries for cash to fund all of its operations and expenses, including future dividend payments, if any.

We conduct substantially all of our operating businesses through our subsidiaries. Consequently, our ability to generate cash to meet our debt service obligations or to make future dividend payments, if any, is highly dependent on the earnings and the receipt of funds from our subsidiaries via dividends or intercompany loans. We do not currently expect to declare or pay dividends on our common stock for the foreseeable future; however, to the extent that we determine in the future to pay dividends on our common stock, any future indebtedness of our subsidiaries, as well as the laws of the jurisdiction of incorporation or formation, as applicable, of our subsidiaries, may significantly restrict the ability of our subsidiaries to pay dividends or otherwise transfer assets to us. In addition, Virginia law may impose

requirements that may restrict our ability to pay dividends to holders of our common stock.

This prospectus supplement, the accompanying prospectus and any free writing prospectuses used in connection with this offering contain forward-looking statements, including with respect to our future operating results, and our actual results may differ significantly from such forward-looking statements.

In connection with this offering, we have made forward-looking statements, including with respect to our goals or targets for our future financial and operating performance, that represent our management's best estimates of our future performance as of the date the forward-looking statements are made. These forward-looking statements are prepared by our management and are qualified by, and subject to, the assumptions, estimates and the other information contained or referred to in the relevant prospectus, prospectus supplement or free writing prospectus in which they are made, as well as the Risk Factors section of this prospectus supplement and the accompanying prospectus. Such assumptions and estimates may change in the future. In addition, these forward-looking statements are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond our control. Accordingly, our forward-looking statements only represent estimates of what management believes, as of the date the statements are made, to be achievable or realizable as of a certain future date. Actual results may vary from our forward-looking statements and any such variations may be material. For example, any failure by us to successfully implement our operating strategy or the occurrence of any of the events or circumstances set forth in the Risk Factors section of our 2017 10-K could result in our future financial and operating performance to be different from our goals and targets as set forth in any forward-looking statement. In light of the foregoing, investors are urged not to place undue reliance on any forward-looking statement.

The market price of our common stock may be volatile, which could cause the value of your investment to decline.

The price you pay in this offering may not reflect the market price of our common stock following this offering and we cannot assure you that the market price will equal or exceed the price you pay in this the offering. The trading price of our common stock may be subject to wide fluctuations. Factors affecting the trading price of our common stock may include:

variations in our financial results;

announcements of new business initiatives by us or by our competitors;

recruitment or departure of key personnel;

changes in the estimates of our financial results, or any failure by us to meet or exceed any such estimates, or changes in the recommendations of any securities analysts that elect to follow our common stock or the common stock of our competitors; and

market conditions in our industry and the economy as a whole.

In addition, if the market for wellness and weight management products and services or the stock market in general experiences loss of investor confidence, the trading price of our common stock could decline in spite of our operating performance. The trading price of our common stock may also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. You may be unable to resell your shares of our

common stock at or above the offering price.

If securities analysts do not publish research or reports about our business or if they downgrade our stock or our sector, the price of our stock could decline.

The trading market for our common stock will rely in part on the research and reports that industry or financial analysts publish about us or our business. We cannot control what these analysts publish. Furthermore, if one or more of the analysts who do cover us downgrades our stock or our industry, or the stock of any of our competitors, the price of our stock could decline. If one or more of these analysts ceases coverage of our company, we could lose visibility in the market, which in turn could cause our stock price to decline.

These shares, however, are not deemed issued and outstanding for purposes of computing percentage ownership of each other individual shareholder.

Our capital consists of our common stock and our preferred stock. The percent of class calculations are based on the 66,206,643 shares of our common stock outstanding and zero shares of our preferred stock outstanding as of March 12, 2018. None of the shares held by our directors or executive officers has been pledged as security as of March 12, 2018.

Table of Contents

CERTAIN UNITED STATES FEDERAL TAX CONSEQUENCES

The following is a summary of certain United States federal income and estate tax consequences to a non-U.S. Holder (as defined below) of the purchase, ownership and disposition of our common stock as of the date hereof. Except where noted, this summary deals only with common stock that is held as a capital asset.

A non-U.S. Holder means a beneficial owner of our common stock (other than an entity treated as a partnership for United States federal income tax purposes) that is not for United States federal income tax purposes any of the following:

an individual citizen or resident of the United States;

a corporation (or any other entity treated as a corporation for United States federal income tax purposes) created or organized in, or under the laws of, the United States, any state thereof or the District of Columbia;

an estate, the income of which is subject to United States federal income taxation regardless of its source; or

a trust, if it (1) is subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all substantial decisions of the trust or (2) has a valid election in effect under applicable United States Treasury regulations to be treated as a U.S. person.

This summary is based upon provisions of the Internal Revenue Code of 1986, as amended (the Code), and regulations, rulings and judicial decisions as of the date hereof. Those authorities may be changed, perhaps retroactively, so as to result in United States federal income and estate tax consequences different from those summarized below. This summary does not address all aspects of United States federal income and estate taxes and does not deal with non-U.S., state, local or other tax considerations that may be relevant to non-U.S. Holders in light of their personal circumstances, including the impact of the alternative minimum tax and the Medicare contribution tax on net investment income. In addition, it does not represent a detailed description of the United States federal income and estate tax consequences applicable to you if you are subject to special treatment under United States federal income tax laws (including if you are a United States expatriate, a foreign pension fund, a controlled foreign corporation, a passive foreign investment company, a financial institution, a broker-dealer, an insurance company, a non-U.S. Holder who holds our common stock as part of a hedge, straddle, constructive sale or conversion transaction or a partnership or other pass-through entity for United States federal income tax purposes). We cannot assure you that a change in law will not alter significantly the tax considerations that we describe in this summary.

If a partnership (or an entity or arrangement treated as a partnership for United States federal income tax purposes) holds our common stock, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding our common stock, you should consult your tax advisor.

IF YOU ARE CONSIDERING THE PURCHASE OF OUR COMMON STOCK, YOU SHOULD CONSULT YOUR OWN TAX ADVISORS CONCERNING THE PARTICULAR UNITED STATES FEDERAL INCOME AND ESTATE TAX CONSEQUENCES TO YOU OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK, AS WELL AS THE CONSEQUENCES TO YOU ARISING

UNDER THE LAWS OF ANY OTHER TAXING JURISDICTION.

Dividends

As described in the section entitled Dividend Policy, we have no current plans to pay dividends in the foreseeable future. However, if we do make distributions of cash or property on our common stock (other than

S-26

Table of Contents

certain distributions of our common stock), such distributions will constitute dividends for United States federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under United States federal income tax principles. Amounts not treated as dividends for United States federal income tax purposes will constitute a return of capital and first be applied against and reduce a non-U.S. Holder's adjusted tax basis in its common stock, but not below zero. Any excess will be treated as capital gain and will be treated as described below under Gain on Disposition of Common Stock.

Dividends paid to a non-U.S. Holder of our common stock generally will be subject to withholding of United States federal income tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty. However, dividends that are effectively connected with the conduct of a trade or business by the non-U.S. Holder within the United States (and, if required by an applicable income tax treaty, are attributable to a United States permanent establishment) are not subject to the withholding tax, provided certain certification and disclosure requirements are satisfied. Instead, such dividends are subject to United States federal income tax on a net income basis generally in the same manner as if the non-U.S. Holder were a United States person as defined under the Code. Any such effectively connected dividends received by a foreign corporation may be subject to an additional branch profits tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty.

A non-U.S. Holder of our common stock who wishes to claim the benefit of an applicable income tax treaty rate and avoid backup withholding, as discussed below, for dividends will be required (a) to provide the applicable withholding agent with a properly executed Internal Revenue Service (IRS) Form W-BEN or Form W-8BEN-E (or other applicable form) certifying under penalty of perjury that such holder is not a United States person as defined under the Code and is eligible for treaty benefits or (b) if our common stock is held through certain foreign intermediaries, to satisfy the relevant certification requirements of applicable United States Treasury regulations. Special certification and other requirements apply to certain non-U.S. Holders that are pass-through entities rather than corporations or individuals.

A non-U.S. Holder of our common stock eligible for a reduced rate of United States federal withholding tax pursuant to an income tax treaty may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for a refund with the IRS.

Gain on Disposition of Common Stock

Subject to the discussion of backup withholding and FATCA below, any gain realized on the sale or other disposition of our common stock generally will not be subject to United States federal income tax unless:

the gain is effectively connected with a trade or business of the non-U.S. Holder in the United States (and, if required by an applicable income tax treaty, is attributable to a United States permanent establishment of the non-U.S. Holder);

the non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of that disposition, and certain other conditions are met; or

we are or have been a United States real property holding corporation for United States federal income tax purposes during a specific period described in the applicable United States Treasury regulations and certain

other conditions are met.

A non-U.S. Holder described in the first bullet point immediately above will be subject to tax on the net gain derived from the sale or other disposition under regular graduated United States federal income tax rates. In addition, if any non-U.S. Holder described in the first bullet point immediately above is a foreign corporation, the gain realized by such non-U.S. Holder may be subject to an additional branch profits tax at a rate equal to 30% (or such lower rate as may be specified by an applicable income tax treaty). An individual non-U.S. Holder described in the second bullet point immediately above will be subject to a flat 30% tax (or such lower rate as

S-27

Table of Contents

may be specified by an applicable income tax treaty) on the gain derived from the sale or other disposition, which may be offset by certain United States source capital losses, even though the individual is not considered a resident of the United States.

Generally, a corporation is a United States real property holding corporation if the fair market value of its United States real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests and its other assets used or held for use in a trade or business (all as determined for United States federal income tax purposes). We believe we are not and do not anticipate becoming a United States real property holding corporation for United States federal income tax purposes.

U.S. Federal Estate Tax

Common stock held by an individual holder who is neither a citizen or resident of the United States (as specifically defined for estate tax purposes) at the time of death will be included in such holder's gross estate for United States federal estate tax purposes, unless an applicable tax treaty provides otherwise.

Information Reporting and Backup Withholding Requirements

Distributions paid to a non-U.S. Holder and the amount of any tax withheld with respect to such distributions generally will be reported to the IRS. Copies of the information returns reporting such distributions and any withholding may also be made available to the tax authorities in the country in which the non-U.S. Holder resides under the provisions of an applicable income tax treaty.

A non-U.S. Holder will be subject to backup withholding for dividends paid to such holder unless such holder certifies under penalty of perjury that it is a non-U.S. Holder (and the payor does not have actual knowledge or reason to know that such holder is a United States person as defined under the Code), or such holder otherwise establishes an exemption.

Information reporting and, depending on the circumstances, backup withholding will apply to the proceeds of a sale or other disposition of our common stock made within the United States or conducted through certain United States-related financial intermediaries, unless the beneficial owner certifies under penalty of perjury that it is a non-U.S. Holder (and the payor does not have actual knowledge or reason to know that the beneficial owner is a United States person as defined under the Code), or such owner otherwise establishes an exemption.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a non-U.S. Holder's United States federal income tax liability provided the required information is timely furnished to the IRS.

Additional Withholding Requirements

Under Sections 1471 through 1474 of the Code (such Sections commonly referred to as FATCA), a 30% United States federal withholding tax may apply to any dividends paid on our common stock and, for a disposition of our common stock occurring after December 31, 2018, the gross proceeds from such disposition, in each case paid to (i) a foreign financial institution (as specifically defined in the Code) which does not provide sufficient documentation, typically on IRS Form W-8BEN-E, evidencing either (x) an exemption from FATCA, or (y) its compliance (or deemed compliance) with FATCA (which may alternatively be in the form of compliance with an intergovernmental agreement with the United States) in a manner which avoids withholding, or (ii) a non-financial foreign entity (as specifically defined in the Code) which does not provide sufficient documentation, typically on IRS Form

W-8BEN-E, evidencing either (x) an exemption from FATCA, or (y) adequate information regarding certain substantial United States beneficial owners of such entity (if any). If a dividend payment is subject both to withholding under FATCA and to the withholding tax discussed above under Dividends, the withholding under FATCA may be credited against, and therefore reduce, such other withholding tax. You should consult your own tax advisors regarding these requirements and whether they may be relevant to your ownership and disposition of our common stock.

The underwriting agreement also provides that, if an underwriter defaults, the purchase commitments of non-defaulting underwriters may be increased or the offering may be terminated.

The selling shareholder has granted to the underwriters a 30-day option to purchase on a pro rata basis up to 1,125,000 additional shares at the public offering price less the underwriting discounts and commissions.

The underwriters propose to offer the shares of common stock initially at the public offering price on the cover page of this prospectus supplement and to selling group members at that price less a selling concession of \$1.66 per share. After the public offering, the representatives may change the public offering price and concession and discount to broker/dealers. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

The following table summarizes the compensation the selling shareholder will pay and the estimated expenses we will pay:

	Per Share		Total	
	Without Underwriters Option Exercise	With Underwriters Option Exercise	Without Underwriters Option Exercise	With Underwriters Option Exercise
Underwriting Discounts and Commissions paid by selling shareholder	\$ 2.76	\$ 2.76	\$ 20,700,000	\$ 23,805,000

We estimate that the total expenses of the offering, excluding underwriting discounts and commissions, will be approximately \$1.0 million. We have also agreed to reimburse the underwriters for certain of their expenses relating to clearance of this offering with the Financial Industry Regulatory Authority (FINRA) as set for in the underwriting agreement.

We, our executive officers and directors and the selling shareholder have agreed that we will not offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant

any option, right or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock (the signatory's securities), or publicly disclose the intention to make any offer, sale, pledge, disposition or filing or enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of the signatory's securities, or make any demand for or exercise any right with respect to the registration of the signatory's securities, in each case, without the prior written consent of Goldman Sachs & Co. LLC, Morgan Stanley & Co. LLC and UBS Securities LLC for a period of 75 days after the date of this prospectus supplement, subject to certain exceptions, including the pledge by certain Artal entities of up to 9% of our fully diluted and outstanding shares of common stock pursuant to a margin loan agreement and the transfer or sale of such shares upon any enforcement of such pledge.

We have agreed to indemnify the underwriters against liabilities under the Securities Act, or to contribute to payments which the underwriters may be required to make in that respect. The selling shareholder has agreed to indemnify the underwriters against liabilities under the Securities Act, or to contribute to payments which the underwriters may be required to make in that respect, arising from information provided by the selling shareholder.

A prospectus supplement and the accompanying prospectus in electronic format may be made available on the websites maintained by one or more of the underwriters or selling group members, if any, participating in this offering and one or more of the underwriters participating in this offering may distribute prospectus supplements and the accompanying prospectuses electronically. The representatives may agree to allocate a number of shares to underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriters and selling group members that will make internet distributions on the same basis as other allocations.

Price Stabilization

In connection with the offering, the underwriters may engage in stabilizing transactions, over-allotment transactions, syndicate covering transactions and penalty bids in accordance with Regulation M under the Exchange Act.

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

Over-allotment involves sales by the underwriters of shares in excess of the number of shares the underwriters are obligated to purchase, which creates a syndicate short position. The short position may be either a covered short position or a naked short position. In a covered short position, the number of shares over-allotted by the underwriters is not greater than the number of shares that they may purchase in the underwriters' option. In a naked short position, the number of shares involved is greater than the number of shares in the underwriters' option. The underwriters may close out any short position by either exercising their underwriters' option and/or purchasing shares in the open market.

Syndicate covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of shares to close out the short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares

through the underwriters' option. If the underwriters sell more shares than could be covered by the underwriters' option, a naked short position, the position can only be closed out by buying shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

Penalty bids permit the representatives to reclaim a selling concession from a syndicate member when the common stock originally sold by the syndicate member is purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

Table of Contents

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the New York Stock Exchange or otherwise and, if commenced, may be discontinued at any time.

Listing

Our common stock is listed on the New York Stock Exchange under the symbol WTW.

Any such credit default swaps or short positions could adversely affect future trading prices of the shares of common stock offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. DESCRIPTION OF CAPITAL STOCK

Our authorized capital stock consists of (1) 1.0 billion shares of common stock, no par value, and (2) 250,000,000 shares of preferred stock, no par value. Subject to the rights of our Board of Directors as described below, our authorized preferred stock currently consists of 1,000,000 shares designated as Series A Preferred Stock and 10,000,000 shares designated as Series B Junior Participating Preferred Stock (Series B Preferred Stock). No shares of preferred stock are issued or outstanding as of the date of this prospectus.

The following description of our capital stock and related matters is qualified in its entirety by reference to our articles of incorporation and bylaws, copies of which are filed as exhibits to the registration statement of which this prospectus forms a part.

Common Stock

Voting Rights. The holders of our common stock are entitled to one vote per share on all matters submitted for action by the shareholders. There is no provision for cumulative voting with respect to the election of directors. Accordingly, a holder of more than 50% of the shares of our common stock can, if it so chooses, elect all of our directors. In that event, the holders of the remaining shares will not be able to elect any directors.

Dividend Rights. All shares of our common stock are entitled to share equally in any dividends our Board of Directors may declare from legally available sources. The covenants in our existing indebtedness, including our credit facilities and the indenture governing our 8.625% Senior Notes due 2025, impose certain restrictions on our ability to declare dividends with respect to our common stock.

Liquidation Rights. Upon liquidation or dissolution of the Company, whether voluntary or involuntary, all shares of our common stock are entitled to share equally in the assets available for distribution to shareholders after payment of all of our prior obligations, including our preferred stock.

Other Matters. The holders of our common stock have no preemptive or conversion rights and our common stock is not subject to further calls or assessments by us. There are no redemption or sinking fund provisions applicable to the common stock. All outstanding shares of our common stock, including the common stock offered in this offering, are fully paid and non-assessable. The rights, powers, preferences and privileges of holders of our common stock will be subject to those of the holders of any shares of our preferred stock we may authorize and issue in the future.

Preferred Stock

Our Board of Directors has the authority, without any further vote or action by our shareholders, to designate and issue preferred stock in one or more series and to designate the rights, preferences and privileges of each series, which may be greater than the rights of our common stock. It is not possible to state the actual effect of the issuance of any series of preferred stock upon the rights of holders of our common stock until our Board of Directors determines the specific rights of the holders of that series. However, the effects might include, among other things:

restricting dividends on the common stock;

diluting the voting power of the common stock;

impairing the liquidation rights of the common stock;

delaying or preventing a change in control without further action by the shareholders; or

impeding or discouraging an acquisition attempt or other transaction that some, or a majority, of the holders of our common stock might believe to be in their best interests or in which the holders of our common stock might receive a premium for their common stock over the market price of the common stock.

Table of Contents

As a result of these or other factors, the issuance of preferred stock may have an adverse impact on the market price of our common stock.

Our Board of Directors has designated two series of preferred stock (Series A Preferred Stock and Series B Preferred Stock) of which no shares are issued and outstanding.

Series A Preferred Stock

Rank. The Series A Preferred Stock, with respect to dividend rights and rights on liquidation, winding up and dissolution, ranks senior to our common stock, our Series B Preferred Stock and all other classes and series of capital stock of the Company, which by their terms expressly provide that they are junior to the Series A Preferred Stock. The Series A Preferred Stock ranks on a parity with each other class or series of capital stock the terms of which specifically provide that such class or series will rank on a parity with the Series A Preferred Stock and junior to each other class or series of capital stock the terms of which specifically provide that such class or series will rank senior to the Series A Preferred Stock.

Voting Rights. The holders of the Series A Preferred Stock generally have no voting rights with respect to their shares of Series A Preferred Stock, except with respect to an amendment, repeal or change in any of the provisions of the Company's articles of incorporation or bylaws that would adversely affect the rights of the holders of the Series A Preferred Stock.

Dividend Rights. The holders of shares of the Series A Preferred Stock are entitled to receive, as and when declared and out of funds legally available therefor, dividends in cash on each share of Series A Preferred Stock at an annual rate equal to 6% of the Liquidation Value (as defined below). Such dividends are cumulative and will accrue and be payable annually in preference to dividends on any securities junior to the Series A Preferred Stock, including our common stock.

So long as any shares of the Series A Preferred Stock are outstanding, the Company may not purchase, redeem or retire any securities junior to the Series A Preferred Stock, including our common stock, subject to certain exceptions.

Liquidation Rights. The liquidation preference of the Series A Preferred Stock is \$25.00 per share (the Liquidation Value). In the event of any voluntary or involuntary liquidation, dissolution or winding up of the affairs of the Company, the holders of shares of Series A Preferred Stock then outstanding are entitled to be paid out of the assets of the Company available for distribution to its shareholders an amount in cash equal to 100% of the Liquidation Value for each share outstanding, plus an amount in cash equal to all accrued but unpaid dividends thereon to the date of liquidation, dissolution or winding up, before any payment will be made or any assets distributed to the holders of any securities junior to the Series A Preferred Stock, including our common stock.

Redemption. The Company may redeem, in whole or in part, the Series A Preferred Stock, at any time or from time to time at a price per share equal to 100% of the Liquidation Value thereof plus 100% of the sum of accrued and unpaid dividends thereon (including an amount equal to a prorated dividend from the last dividend payment date immediately prior to the redemption date).

Upon the occurrence of a change in control or a public offering of our common stock by Artal Luxembourg S.A., the Series A Preferred Stock is redeemable at the option of the holders thereof, in whole or in part at a redemption price per share payable in cash equal to 100% of the Liquidation Value plus accrued and unpaid dividends to the date of redemption (including an amount equal to a prorated dividend from the last dividend payment date immediately prior to the redemption date).

Table of Contents***Series B Preferred Stock***

Ranking. The Series B Preferred Stock ranks senior to our common stock and junior to our Series A Preferred Stock and all other series of the Company's preferred stock, in each case as to the payment of dividends and the distribution of assets, unless the terms of any such other series provides otherwise.

Voting rights. Subject to certain adjustments, each share of Series B Preferred Stock entitles the holder thereof to 100 votes on all matters submitted to a vote of our shareholders. The holders of shares of Series B Preferred Stock and the holders of shares of our common stock vote together as one class on all matters submitted to a vote of our shareholders. If at any time dividends on any Series B Preferred Stock is in arrears in an amount equal to six quarterly dividends thereon, holders of the Series B Preferred Stock will have certain rights, including the right to elect two directors, until such time when all accrued and unpaid dividends have been declared and paid or set apart for payment. Subject to certain exceptions or as otherwise provided by law, holders of Series B Preferred Stock have no special voting rights, and their consent will not be required (except to the extent they are entitled to vote with holders of our common stock) for taking any corporate action.

Dividend Rights. Subject to certain adjustments and any prior and superior rights of the holders of any shares of any series of Preferred Stock ranking prior and superior to the shares of Series B Preferred Stock with respect to dividends, the holders of shares of Series B Preferred Stock are entitled to receive, in preference to the holders of our common stock and any other capital stock of the Company ranking junior to the Series B Preferred Stock, when, as and if declared by our Board of Directors, quarterly dividends payable in cash on the fifteenth day of January, April, July and October in each year, in an amount per share (rounded to the nearest cent) equal to the greater of (a) \$0.01 or (b) 100 times the aggregate per share amount of all cash dividends plus 100 times the aggregate per share amount (payable in kind) of all non-cash dividends or other distributions (other than a dividend payable in shares of our common stock or a subdivision of the outstanding shares of our common stock) declared on our common stock, subject to certain adjustment provisions.

The Company must declare a dividend or distribution on the Series B Preferred Stock immediately after it declares a dividend or distribution on our common stock (other than a dividend payable in shares of our common stock).

Liquidation Rights. Upon any liquidation (voluntary or otherwise), dissolution or winding up of the Company, no distribution will be made to the holders of shares of our capital stock ranking junior (either as to dividends or upon liquidation, dissolution or winding up) to the Series B Preferred Stock unless, prior thereto, the holders of shares of Series B Preferred Stock have received \$1.00 per share, plus an amount equal to accrued and unpaid dividends and distributions thereon, whether or not declared, to the date of such payment (the **Series B Liquidation Preference**). Following the payment of the full amount of the Series B Liquidation Preference, no additional distributions will be made to the holders of shares of Series B Preferred Stock unless, prior thereto, the holders of shares of our common stock have received an amount per share (the **Common Adjustment**) equal to the quotient obtained by dividing (i) the Series B Liquidation Preference by (ii) 100 (as appropriately adjusted to reflect such events as stock splits, stock dividends and recapitalizations with respect to our common stock) (such number in clause (ii), the **Adjustment Number**). Following the payment of the full amount of the Series B Liquidation Preference and the Common Adjustment in respect of all outstanding shares of Series B Preferred Stock and our common stock, respectively, holders of Series B Preferred Stock and holders of shares of our common stock will receive their ratable and proportionate share of the remaining assets to be distributed in the ratio of the Adjustment Number to one with respect to such Series B Preferred Stock and common stock, on a per share basis, respectively.

In the event, however, that there are not sufficient assets available to permit payment in full of the Series B Liquidation Preference and the liquidation preferences of all other series of preferred stock, if any, that rank on a

parity with the Series B Preferred Stock, then such remaining assets will be distributed ratably to the holders of the Series B Preferred Stock and such parity shares in proportion to their respective liquidation preferences. In

Table of Contents

the event, however, that there are not sufficient assets available to permit payment in full of the Common Adjustment, then such remaining assets will be distributed ratably to the holders of our common stock.

Certain Restrictions. Whenever quarterly dividends or other dividends or distributions payable on the Series B Preferred Stock are in arrears, thereafter and until all accrued and unpaid dividends and distributions, whether or not declared, on shares of Series B Preferred Stock outstanding have been paid in full, the Company may not declare or pay dividends on, or redeem or purchase, any shares of capital stock ranking junior to the Series B Preferred Stock (including our common stock), subject to certain exceptions.

Consolidation, Merger, etc. Subject to certain adjustments, if the Company enters into any consolidation, merger, statutory share exchange or other transaction in which the shares of our common stock are converted into, exchanged for or changed into other stock or securities, cash and/or any other property, then in any such case the shares of Series B Preferred Stock will at the same time be similarly converted into, exchanged for or changed in an amount per share (subject to certain adjustments) equal to 100 times the aggregate amount of stock, securities, cash and/or any other property (payable in kind), as the case may be, into which or for which each share of our common stock is changed or exchanged.

No Redemption. The shares of Series B Preferred Stock are not redeemable.

Authorized but Unissued Capital Stock

The listing requirements of the NYSE, which will apply so long as our common stock remains listed on the NYSE, require shareholder approval of certain issuances equal to or exceeding 20% of then-outstanding voting power or then-outstanding number of shares of common stock. These additional shares may be used for a variety of corporate purposes, including future public offerings, to raise additional capital or to facilitate acquisitions.

One of the effects of the existence of unissued and unreserved common stock or preferred stock may be to enable our Board of Directors to issue shares to persons friendly to current management, which issuance could render more difficult or discourage an attempt to obtain control of our company by means of a merger, tender offer, proxy contest or otherwise, and thereby protect the continuity of our management and possibly deprive the shareholders of opportunities to sell their shares of common stock at prices higher than prevailing market prices.

Certain Provisions of Virginia Law and Our Articles of Incorporation and Bylaws

Some provisions of Virginia law and our articles of incorporation and bylaws could make the following more difficult:

acquisition of us by means of a tender offer;

acquisition of us by means of a proxy contest or otherwise; or

removal of our incumbent officers and directors.

These provisions, summarized below, are intended to discourage coercive takeover practices and inadequate takeover bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with our board. We believe that the benefits of increased protection give us the potential ability to negotiate with the

proponent of an unfriendly or unsolicited proposal to acquire or restructure us and outweigh the disadvantages of discouraging these proposals because negotiation of these proposals could result in an improvement of their terms.

Election and Removal of Directors

Our Board of Directors is divided into three classes. The directors in each class will serve for a three-year term, one class being elected each year by our shareholders. This system of electing and removing directors may discourage a third party from making a tender offer or otherwise attempting to obtain control of us because it generally makes it more difficult for shareholders to replace a majority of our directors.

Table of Contents

Our articles of incorporation and bylaws do not provide for cumulative voting in the election of directors.

At any time that Artal or certain of its transferees beneficially owns a majority of our then outstanding common stock, directors may be removed with or without cause. At all other times, directors may be removed only with cause.

Board Meetings

Our bylaws provide that the chairman of the board or any two of our directors may call special meetings of the Board of Directors.

Shareholder Meetings

Our articles of incorporation provide that special meetings of shareholders may be called by the chairman of our Board of Directors or our president or by our Board of Directors. In addition, our articles of incorporation provide that Artal and certain of its transferees have the right to call special meetings of shareholders prior to the date it ceases to beneficially own 20% of our then outstanding common stock.

Requirements for Advance Notification of Shareholder Nominations and Proposals

Our bylaws establish advance notice procedures with respect to shareholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of our Board of Directors or a committee of the Board of Directors or by Artal and certain of its transferees when nominating its director designees. In addition, our bylaws provide that so long as Artal or certain of its transferees beneficially owns a majority of our then outstanding common stock, the foregoing advance notice procedures for shareholder proposals will not apply to it.

Shareholder Action by Written Consent

Virginia law generally requires shareholder action to be taken only at a meeting of shareholders and permits shareholders of a public corporation to act only by written consent with the unanimous written consent of all shareholders.

Amendment of Articles of Incorporation and Bylaw Provisions

Amendment of the provisions described under *Election and Removal of Directors* and *Shareholder Meetings* above and the provisions described under this *Amendment of Articles of Incorporation and Bylaw Provisions* in our articles of incorporation generally will require an affirmative vote of our directors, as well as the affirmative vote of at least 80% of our then outstanding voting stock, except that at any time that Artal or certain of its transferees beneficially owns a majority of our then outstanding common stock, such provisions of our articles of incorporation may be amended by the affirmative vote of a majority of our then outstanding voting stock. Amendments to any other provisions of our articles of incorporation generally require the affirmative vote of a majority of our then outstanding voting stock. Our bylaws may be amended by the affirmative vote of our directors or by the affirmative vote of at least 80% of our then outstanding voting stock.

Liability of Officers and Directors

Our articles of incorporation require us to indemnify any director, officer or employee who was or is a party to any claim, action or proceeding by reason of his being or having been a director, officer or employee of our company or

any other corporation, entity or plan while serving at our request, unless he or she engaged in willful misconduct or a knowing violation of criminal law. Insofar as indemnification of directors, officers or persons controlling us for liabilities arising under the Securities Act of 1933 may be permitted pursuant to the foregoing provisions, we have been informed that, in the opinion of the SEC, indemnification for liabilities under the Securities Act is against public policy and is unenforceable.

Table of Contents

Anti-Takeover Statutes

We have opted out of the Virginia anti-takeover law regulating control share acquisitions. Under Virginia law, shares acquired in a control share acquisition have no voting rights unless granted by a majority vote of all outstanding shares other than those held by the acquiring person or any officer or employee director of the corporation, or the articles of incorporation or bylaws of the corporation provide that this regulation does not apply to acquisitions of its shares. An acquiring person that owns five percent or more of the corporation's voting stock may require that a special meeting of the shareholders be held, within 50 days of the acquiring person's request, to consider the grant of voting rights to the shares acquired in the control share acquisition. If voting rights are not granted and the corporation's articles of incorporation or bylaws permit, the acquiring person's shares may be repurchased by the corporation, at its option, at a price per share equal to the acquiring person's cost. Virginia law grants appraisal rights to any shareholder who objects to a control share acquisition that is approved by a vote of disinterested shareholders and that gives the acquiring person control of a majority of the corporation's voting shares. This regulation was designed to deter certain takeovers of Virginia public corporations.

We have opted out of the Virginia anti-takeover law regulating affiliated transactions. Under this law, certain material transactions between a Virginia corporation and any holder of more than 10% of any class of its outstanding voting shares are required to be approved by the holders of at least two-thirds of the remaining voting shares. Affiliated transactions subject to this approval requirement include mergers, share exchanges, material dispositions of corporate assets not in the ordinary course of business, any dissolution of the corporation proposed by or on behalf of a 10% holder or any reclassification, including reverse stock splits, recapitalization or merger of the corporation with its subsidiaries, that increases the percentage of voting shares owned beneficially by a 10% holder by more than five percent.

PLAN OF DISTRIBUTION

The selling shareholder may sell the shares of our common stock covered by this prospectus in any of the following ways (or in any combination):

to or through underwriters, brokers or dealers (acting as agent or principal);

through a block trade in which the broker or dealer engaged to handle the block trade will attempt to sell the securities as an agent, but may position and resell a portion of the block as principal to facilitate the transaction;

directly to one or more purchasers, including through a specific bidding or auction process or otherwise;

directly to or through agents;

in at the market offerings, within the meaning of Rule 415(a)(4) of the Securities Act;

through a combination of any of these methods of sale; or

through any other methods described in a prospectus supplement.

The distribution of securities may be effected from time to time in one or more transactions, including block transactions and transactions on the NYSE or any other organized market where the securities may be traded.

Each time that the selling shareholder sells shares of our common stock covered by this prospectus, we will provide a prospectus supplement that will describe the method of distribution and set forth the terms and conditions of the offering of such shares, including:

the name or names of any underwriters, dealers, brokers or agents and the amounts of shares underwritten or purchased by each of them;

the offering price of the shares and any underwriting discounts, commissions, concessions or agency fees allowed or reallocated or paid to dealers, and other items constituting underwriters', dealers', brokers' or agents' compensation, as applicable;

any options under which underwriters may purchase additional shares from the selling shareholder; and

any securities exchange or market on which the shares may be listed or traded.

Any offering price and any discounts, commissions, concessions or agency fees allowed or reallocated or paid to dealers may be changed from time to time. The selling shareholder may determine the price or other terms of the shares of our common stock offered under this prospectus by use of an electronic auction. We will describe how any auction will determine the price or any other terms, how potential investors may participate in the auction and the nature of the obligations of the underwriter, dealer or agent in the applicable prospectus supplement.

If the selling shareholder sells securities to a dealer acting as a principal, the dealer may resell such securities at varying prices to be determined by such dealer in its discretion at the time of resale without consulting with the selling shareholder and such resale prices may not be disclosed in the applicable prospectus supplement.

The selling shareholder may distribute the shares from time to time in one or more transactions:

at a fixed price or at prices that may be changed from time to time;

at market prices prevailing at the time of sale;

at prices relating to such prevailing market prices; or

Table of Contents

at negotiated prices.

Any of the prices may represent a discount of then-prevailing market prices.

Underwriters, dealers or any other third parties described above may offer and sell the offered shares from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. If underwriters or dealers are used in the sale of any shares, the shares will be acquired by the underwriters or dealers for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The shares may be either offered to the public through underwriting syndicates represented by managing underwriters, or directly by underwriters. Generally, the underwriters' obligations to purchase the shares will be subject to certain conditions precedent. The underwriters will be obligated to purchase all of the shares if they purchase any of the shares (other than any shares purchased upon exercise of any option to purchase additional shares), unless otherwise specified in the prospectus supplement. The selling shareholder may use underwriters with whom we have a material relationship. We will describe the nature of any such relationship in the prospectus supplement, naming the underwriter or underwriters.

The selling shareholder may sell the shares through agents from time to time. The prospectus supplement will name any agent involved in the offer or sale of the shares and any commissions paid to them. Generally, any agent will be acting on a best efforts basis for the period of its appointment. The selling shareholder may engage in at-the-market offerings into an existing trading market in accordance with Rule 415(a)(4) under the Securities Act. The selling shareholder may authorize underwriters, dealers, brokers or agents to solicit offers by certain purchasers to purchase the shares from the selling shareholder at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. These contracts will be subject only to those conditions set forth in the prospectus supplement, and the prospectus supplement will set forth any commissions to be paid for solicitation of these contracts. Any underwriters, dealers, brokers and agents that participate in the distribution of the shares may be deemed to be underwriters as defined in the Securities Act. Any commissions paid or any discounts or concessions allowed to any such persons, and any profits they receive on resale of the shares, may be deemed to be underwriting discounts and commissions under the Securities Act. We will identify any underwriters or agents and describe their compensation in a prospectus supplement.

Offered shares may also be offered and sold, if so indicated in the applicable prospectus supplement, in connection with a remarketing upon their purchase, in accordance with a redemption or repayment pursuant to their terms, or otherwise, by one or more marketing firms, acting as principals for their own accounts or as agents for the selling shareholder. Any remarketing firm will be identified and the terms of its agreements, if any, with us and its compensation will be described in the applicable prospectus supplement.

Underwriters or agents may purchase and sell the shares in the open market. These transactions may include over-allotments or short sales of the securities, stabilizing transactions, syndicate covering transactions and penalty bids.

Over-allotment or short sales involve sales by persons participating in the offering of more securities than were sold to them. In these circumstances, these persons would cover such over-allotments or short positions by making purchases in the open market or by exercising their over-allotment option, if any. Stabilizing transactions consist of bids or purchases for the purpose of preventing or retarding a decline in the market price of the shares and are permitted so long as the stabilizing bids do not exceed a specified maximum. Syndicate covering transactions involve the placing of any bid on behalf of the underwriting syndicate or the effecting of any purchase to reduce a short position created in connection with the offering. The underwriters or agents also may impose a penalty bid, which permits them to reclaim selling concessions allowed to syndicate members or certain dealers if they repurchase the shares in

stabilizing or covering transactions. These activities may stabilize, maintain or otherwise affect the market price of the shares, which may be higher than the price that might

Table of Contents

otherwise prevail in the open market. These activities, if begun, may be discontinued at any time. These transactions may be effected on any exchange on which the shares are traded, in the over-the-counter market or otherwise.

Our common stock is listed on the NYSE under the symbol WTW .

If at the time of any offering made under this prospectus a member of the Financial Industry Regulatory Authority (FINRA) participating in the offering has a conflict of interest as defined in FINRA s Rule 5121 (Rule 5121), that offering will be conducted in accordance with the relevant provisions of Rule 5121.

The selling shareholder may also sell securities under Rule 144 of the Securities Act, if available, or pursuant to other available exemptions from registration requirements under the Securities Act, rather than under this prospectus.

Agents, dealers, brokers and underwriters may be entitled to indemnification by us and the selling shareholder, against certain civil liabilities, including liabilities under the Securities Act, or to contribution with respect to payments which the agents, dealers, brokers or underwriters may be required to make in respect thereof.

The specific terms of the lock-up provisions in respect of any given offering will be described in the applicable prospectus supplement.
