(Unaudited)

Notes to the Consolidated Schedule of Portfolio Investments

- (a) At June 30, 2018, restricted securities represented 100% of the fair value of the investment portfolio. Restricted securities are subject to one or more restrictions on resale and are not freely marketable.
- (b) The Date Acquired column indicates the date in which the Corporation first acquired an investment in the company or a predecessor company.
- (c) Each equity percentage estimates the Corporation's ownership interest in the applicable portfolio investment. The estimated ownership is calculated based on the percent of outstanding voting securities held by the Corporation or the potential percentage of voting securities held by the Corporation upon exercise of warrants or conversion of debentures, or other available data. If applicable, the symbol <1% indicates that the Corporation holds an equity interest of less than one percent.
- (d) The Corporation's investments are carried at fair value in accordance with Accounting Standards Codification (ASC) 820 Fair Value Measurements and Disclosures, which defines fair value and establishes guidelines for measuring fair value. At June 30, 2018, ASC 820 designates 100% of the Corporation's investments as Level 3 assets. Under the valuation policy of the Corporation, unrestricted publicly held securities are valued at the average closing bid price for these securities for the last three trading days of the reporting period. Restricted securities are subject to restrictions on resale, and are valued at fair value as determined by the management of the Corporation and submitted to the Board of Directors for approval. Fair value is considered to be the amount that the Corporation may reasonably expect to receive for portfolio securities when sold on the valuation date. Valuations as of any particular date, however, are not necessarily indicative of amounts which may ultimately be realized as a result of future sales or other dispositions of securities and these favorable or unfavorable differences could be material. Among the factors considered in determining the fair value of restricted securities are the financial condition and operating results, projected operations, and other analytical data relating to the investment. Also considered are the market prices for unrestricted securities of the same class (if applicable) and other matters which may have an impact on the value of the portfolio company (see Note 3 Investments to the Consolidated Financial Statements).
- (e) These investments are non-income producing. All other investments are income producing. Non-income producing investments have not generated cash payments of interest or dividends including LLC tax-related distributions within the last twelve months, or are not expected to do so going forward.
- (f) As of June 30, 2018 the total cost of investment securities was approximately \$37.9 million. Net unrealized depreciation was approximately (\$5.6) million, which was comprised of \$1.9 million of unrealized appreciation of investment securities and (\$7.5) million of unrealized depreciation of investment securities. At June 30, 2018, the aggregate gross unrealized gain for federal income tax purposes was \$2.5 million and the aggregate gross unrealized loss for federal income tax purposes was (\$7.0) million. The net unrealized loss for federal income tax purposes was (\$4.5) million based on a tax cost of \$36.8 million.
- (g) Rand Capital SBIC, Inc. investment.

- (h) Reduction in cost and value from previously reported balances reflects current principal repayment.
- (i) Represents interest due (amounts over \$50,000) from investments included as interest receivable on the Corporation's Statement of Financial Position.
- (j) Non-Control/Non-Affiliate Investments are investments that are neither Control Investments nor Affiliate Investments.
- (k) Affiliate Investments are defined by the Investment Company Act of 1940, as amended (1940 Act), as those Non-Control investments in companies in which between 5% and 25% of the voting securities are owned by the Corporation.
- (l) Control Investments are defined by the 1940 Act as investments in companies in which more than 25% of the voting securities are owned by the Corporation or where greater than 50% of the board representation is maintained.
- (m) Payment in kind (PIK) represents earned interest that is added to the cost basis of the investment.

This schedule should be read in conjunction with the Corporation's Consolidated Financial Statements, including the Consolidated Schedule of Portfolio Investments and Notes to the Consolidated Financial Statements.

- (1) Gross additions include increases in the cost basis of investments resulting from new portfolio investments, follow on investments, capitalized interest and the accretion of discounts. Gross additions also include net increases in unrealized appreciation or net decreases in unrealized depreciation, and the movement of an existing portfolio company into this category and out of another category.
- (2) Gross reductions include decreases in the cost basis of investments resulting from principal repayments, sales, note conversions, net increases in unrealized depreciation, net decreases in unrealized appreciation, the exchange of existing securities for new securities and the movement of an existing portfolio company out of this category and into another category.

- (3) Represents the total amount of interest, fees or dividends credited to income for the portion of the period an investment was included in Control or Affiliate categories, respectively.

RAND CAPITAL CORPORATION AND SUBSIDIARIES
CONSOLIDATED SCHEDULE OF PORTFOLIO INVESTMENTS

December 31, 2017 (Continued)

Notes to the Consolidated Schedule of Portfolio Investments

- (a) At December 31, 2017, restricted securities represented 100% of the fair value of the investment portfolio. Restricted securities are subject to one or more restrictions on resale and are not freely marketable.
- (b) The Date Acquired column indicates the date in which the Corporation first acquired an investment in the company or a predecessor company.
- (c) Each equity percentage estimates the Corporation's ownership interest in the applicable portfolio investment. The estimated ownership is calculated based on the percent of outstanding voting securities held by the Corporation or the potential percentage of voting securities held by the Corporation upon exercise of warrants or conversion of debentures, or other available data. If applicable, the symbol <1% indicates that the Corporation holds an equity interest of less than one percent.
- (d) The Corporation's investments are carried at fair value in accordance with Accounting Standards Codification (ASC) 820 Fair Value Measurements and Disclosures, which defines fair value and establishes guidelines for measuring fair value. At December 31, 2017, ASC 820 designates 100% of the Corporation's investments as Level 3 assets. Under the valuation policy of the Corporation, unrestricted publicly held securities are valued at the average closing bid price for these securities for the last three trading days of the reporting period. Restricted securities are subject to restrictions on resale, and are valued at fair value as determined by the management of the Corporation and submitted to the Board of Directors for approval. Fair value is considered to be the amount that the Corporation may reasonably expect to receive for portfolio securities when sold on the valuation date. Valuations as of any particular date, however, are not necessarily indicative of amounts which may ultimately be realized as a result of future sales or other dispositions of securities and these favorable or unfavorable differences could be material. Among the factors considered in determining the fair value of restricted securities are the financial condition and operating results, projected operations, and other analytical data relating to the investment. Also considered are the market prices for unrestricted securities of the same class (if applicable) and other matters which may have an impact on the value of the portfolio company (see Note 3 Investments to the Consolidated Financial Statements).
- (e) These investments are non-income producing. All other investments are income producing. Non-income producing investments have not generated cash payments of interest or dividends including LLC tax-related distributions within the last twelve months, or are not expected to do so going forward.
- (f) As of December 31, 2017, the total cost of investment securities was approximately \$36.7 million. Net unrealized depreciation was approximately (\$4.4) million, which was comprised of \$2.4 million of unrealized appreciation of investment securities and (\$6.8) million of unrealized depreciation of investment securities. At December 31, 2017, the aggregate gross unrealized gain for federal income tax purposes was \$2.8 million and the aggregate gross unrealized loss for federal income tax purposes was (\$4.4) million. The net unrealized loss for federal income tax purposes was (\$1.6) million based on a tax cost of \$33.9 million.
- (g) Rand Capital SBIC, Inc. investment.
- (h) Reduction in cost and value from previously reported balances reflects current principal repayment. There were no principal repayments during the year ended December 31, 2017.

Edgar Filing: RAND CAPITAL CORP - Form 10-Q

- (i) Represents interest due (amounts over \$50,000) from investments included as interest receivable on the Corporation's Statement of Financial Position.
- (j) Non-Control/Non-Affiliate Investments are investments that are neither Control Investments nor Affiliate Investments.
- (k) Affiliate Investments are defined by the Investment Company Act of 1940, as amended (1940 Act), as those Non-Control investments in companies in which between 5% and 25% of the voting securities are owned by the Corporation.
- (l) Control Investments are defined by the 1940 Act as investments in companies in which more than 25% of the voting securities are owned by the Corporation or where greater than 50% of the board representation is maintained.
- (m) Payment in kind (PIK) represents earned interest that is added to the cost basis of the investment.
- (n) Rand Capital SBIC II, L.P. investment.

This schedule should be read in conjunction with the Corporation's Consolidated Financial Statements, including the Consolidated Schedule of Portfolio Investments and Notes to the Consolidated Financial Statements.

- (1) Gross additions include increases in the cost basis of investments resulting from new portfolio investments, follow on investments, capitalized interest and the accretion of discounts. Gross additions also include net increases in unrealized appreciation or net decreases in unrealized depreciation, and the movement of an existing portfolio company into this category and out of another category.
- (2) Gross reductions include decreases in the cost basis of investments resulting from principal repayments, sales,

note conversions, net increases in unrealized depreciation, net decreases in unrealized appreciation, the exchange of existing securities for new securities and the movement of an existing portfolio company out of this category and into another category.

- (3) Represents the total amount of interest, fees or dividends credited to income for the portion of the period an investment was included in Control or Affiliate categories, respectively.

Rand Capital Corporation and Subsidiaries

Notes to the Consolidated Financial Statements

(Unaudited)

Note 1. ORGANIZATION

Rand Capital Corporation (Rand , we , us and our) was incorporated under the laws of New York in February 1969, completed our initial public offering in 1971 as an internally managed, closed-end, diversified, management investment company. We have elected to be treated as a business development company (BDC) under the Investment Company Act of 1940, as amended (the 1940 Act). As a BDC, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in qualifying assets and provide managerial assistance to the portfolio companies in which we invest. See Item 1. Business Regulation, Regulation as a Business Development Company in our Annual Report on Form 10-K for the year ended December 31, 2017.

Throughout our history, our principal business has been to make venture capital investments in early or expansion stage companies, often in upstate New York and regions in close proximity. In accordance with our strategic growth plan, we look for companies with strong leadership that are bringing to market new or unique products, technologies or services and have a high potential for growth. We invest in a mixture of debt and equity instruments. The debt securities typically have an equity component in the form of warrants or options to acquire stock or the right to convert the debt securities into equity securities.

We established our first small business investment company (SBIC) in 2002, Rand Capital SBIC, Inc. (Rand SBIC), whereby we utilized funds borrowed from the Small Business Administration (SBA) combined with our capital to invest in our portfolio companies. We historically made the majority of our venture capital investments through Rand SBIC. Rand SBIC 's predecessor was organized as a Delaware limited partnership and was converted into a New York corporation on December 31, 2008, at which time our operations as a licensed SBIC were continued. Although Rand SBIC was operated as if it were a BDC, it was registered as an investment company under the 1940 Act. In 2012, the SEC granted an Order of Exemption for Rand with respect to the operations of Rand SBIC, and then Rand SBIC filed an election to be regulated as a BDC under the 1940 Act. Rand SBIC 's board of directors is comprised of the directors of Rand, a majority of whom are not interested persons of Rand or Rand SBIC.

During 2017 we established a second SBIC subsidiary, Rand Capital SBIC II, L.P. (Rand SBIC II), and began making investments through this SBIC subsidiary. During the first quarter of 2018, together with the SBA, we determined that the optimal structure was to revert back to investing in small businesses through our original SBIC, Rand SBIC, and the assets of Rand SBIC II were transferred to Rand SBIC. Rand SBIC has applied for \$6 million in new SBA leverage commitment and is currently undergoing the review and approval process.

We operate as an internally managed investment company whereby our officers and employees conduct the business of the Corporation under the general supervision of our Board of Directors. We have not elected to qualify to be taxed as a regulated investment company as defined under Subchapter M of the Internal Revenue Code.

In this Quarterly Report on Form 10-Q, unless the context otherwise requires, we , the Corporation , us , and our refer to Rand Capital Corporation and Rand SBIC.

Our corporate office is located in Buffalo, NY and our website address is www.randcapital.com. We make available free of charge on our website our annual and periodic reports, proxy statements and other information as soon as

reasonably practicable after such material is filed with the Securities and Exchange Commission (SEC). Our shares are traded on the NASDAQ Capital Market under the ticker symbol RAND .

Table of Contents

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation It is our opinion that the accompanying consolidated financial statements include all adjustments of a normal recurring nature necessary for a fair presentation in accordance with United States generally accepted accounting principles (GAAP) of the consolidated financial position, results of operations, cash flows and statement of changes in net assets for the interim periods presented. Certain information and note disclosures normally included in audited annual consolidated financial statements prepared in accordance with GAAP have been omitted; however, we believe that the disclosures made are adequate to make the information presented herein not misleading. Our interim results for the six months ended June 30, 2018 are not necessarily indicative of the results to be expected for the full year.

These statements should be read in conjunction with the consolidated financial statements and the notes included in our Annual Report on Form 10-K for the year ended December 31, 2017. Information contained in this filing should also be reviewed in conjunction with our related filings with the SEC prior to the date of this report. Those filings include, but are not limited to, the following:

N-54A	Election to Adopt Business Development Company status
DEF-14A	2018 Definitive Proxy Statement submitted to shareholders

Principles of Consolidation - The consolidated financial statements include the accounts of Rand and its two wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

Fair Value of Financial Instruments The carrying amounts reported in the consolidated statement of financial position of cash, interest receivable, accounts payable and accrued expenses approximate fair value because of the immediate or short-term nature of these financial instruments.

Fair Value of SBA Debentures - In March 2018, the SBIC Funding Corporation completed a pooling of SBA debentures that have a coupon rate of 3.187%, excluding a mandatory SBA annual charge estimated to be 0.804%, resulting in a total estimated fixed rate for ten years of 3.991%. The carrying value of Rand's SBA debentures is a reasonable estimate of fair value because their stated interest rates approximate current interest rates that are available for debt with similar terms.

Investment Classification In accordance with the provisions of the 1940 Act, the Corporation classifies its investments by level of control. Under the 1940 Act, Control Investments are investments in companies that the Corporation is deemed to Control because it owns more than 25% of the voting securities of the company or has greater than 50% representation on the company's board. Affiliate Investments are companies in which the Corporation owns between 5% and 25% of the voting securities. Non-Control/Non-Affiliate Investments are those companies that are neither Control Investments nor Affiliate Investments.

Investments - Investments are valued at fair value as determined in good faith by the management of the Corporation and approved by the Board of Directors. The Corporation invests in loan instruments, debt instruments, and equity instruments. There is no single standard for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistent valuation process. The Corporation analyzes and values each investment quarterly, and records unrealized depreciation for an investment that it believes has become impaired, including where collection of a loan or debt security or realization of the recorded value of an equity security is doubtful. Conversely, the Corporation will record unrealized appreciation if it believes that an underlying portfolio company has appreciated in value and,

therefore, its equity securities have also appreciated in value. These estimated fair values may differ from the values that would have been used had a ready market for the investments existed and these differences could be material if the Corporation's assumptions and judgments differ from results of actual liquidation events.

Table of Contents

Qualifying Assets - All of the Corporation's investments were made in privately held small business enterprises, that were not investment companies, were principally based in the United States, and represent qualifying assets as defined by Section 55(a) of the 1940 Act.

Revenue Recognition - Interest Income - Interest income is recognized on the accrual basis except where the investment is in default or otherwise presumed to be in doubt. In such cases, interest is recognized at the time of receipt. A reserve for possible losses on interest receivable is maintained when appropriate.

Rand SBIC's interest accrual is also regulated by the SBA's Accounting Standards and Financial Reporting Requirements for Small Business Investment Companies. Under these rules, interest income cannot be recognized if collection is doubtful, and a 100% reserve must be established. The collection of interest is presumed to be in doubt when there is substantial doubt about a portfolio company's ability to continue as a going concern or a loan is in default for more than 120 days. Management also uses other qualitative and quantitative measures to determine the value of a portfolio investment and the collectability of any accrued interest.

The following investments are on non-accrual status: G-TEC Natural Gas Systems (G-Tec), First Wave Products Group, LLC (First Wave), OnCore Golf Technology, Inc. (Oncore) and portions of the Empire Genomics, LLC (Empire Genomics) and Mercantile Adjustment Bureau, LLC (Mercantile) outstanding loan balances.

The Corporation holds debt securities in its investment portfolio that contain payment-in-kind (PIK) interest provisions. PIK interest, computed at the contractual rate specified in each debt agreement, is periodically added to the principal balance of the debt and is recorded as interest income. Thus, the actual collection of this interest may be deferred until the time of debt principal repayment.

Revenue Recognition - Dividend Income - The Corporation may receive cash distributions from portfolio companies that are limited liability companies or corporations and these distributions are classified as dividend income on the consolidated statement of operations. Dividend income is recognized on an accrual basis when it can be reasonably estimated.

The Corporation may hold preferred equity securities that contain cumulative dividend provisions. Cumulative dividends are recorded as dividend income, if declared and deemed collectible, and any dividends in arrears are recognized into income and added to the balance of the preferred equity investment. The actual collection of these dividends in arrears may be deferred until such time as the preferred equity is redeemed.

Revenue Recognition - Fee Income - Consists of the revenue associated with the amortization of financing fees charged to the portfolio companies upon successful closing of SBIC financings and income associated with portfolio company board attendance fees. The income associated with the amortization of financing fees was \$15,327 and \$14,621 for the six months ended June 30, 2018 and 2017, respectively. The board fees were \$2,000 and \$1,000 for the six months ended June 30, 2018 and 2017, respectively.

Realized Gain or Loss and Unrealized Appreciation or Depreciation of Investments - Amounts reported as realized gains and losses are measured by the difference between the proceeds from the sale or exchange and the cost basis of the investment without regard to unrealized gains or losses recorded in prior periods. The cost of securities that have, in management's judgment, become worthless are written off and reported as realized losses when appropriate. Unrealized appreciation or depreciation reflects the difference between the fair value of the investments and the cost basis of the investments.

Original Issue Discount Investments may include original issue discount or OID income. This occurs when the Corporation purchases a warrant and a note from a portfolio company simultaneously, which requires an allocation of a portion of the purchase price to the warrant and reduces the note or debt instrument by an equal amount in the form of a note discount or OID.

Table of Contents

The note is reported net of the OID and the OID is accreted into interest income over the life of the loan. The Corporation recognized \$19,271 and \$8,395 in OID income for six months ended June 30, 2018 and 2017, respectively. OID income is estimated to be approximately \$20,000 for the remainder of 2018.

Deferred Debenture Costs - SBA debenture origination and commitment costs, which are netted against the debenture obligation (See Note 6 SBA Debentures), will be amortized ratably over the terms of the SBA debentures. Amortization expense was \$13,700 for each of the six months ended June 30, 2018 and 2017. Amortization expense on currently outstanding debentures for the next five years is estimated to average approximately \$23,000 per year.

SBA Debentures - The Corporation had \$8,000,000 in outstanding SBA debentures at June 30, 2018 and December 31, 2017 with a weighted average interest rate of 3.54%. The debentures are presented net of deferred debenture costs (See Note 6 SBA Debentures). The \$8,000,000 in outstanding SBA leverage matures from 2022 through 2025.

In the event of a future default of such SBA obligations, the Corporation has consented to the exercise, by the SBA, of all rights of the SBA under 13 C.F.R. 107.1810(i) SBA remedies for automatic events of default and has agreed to take all actions that the SBA may so require. These actions may include the Corporation's automatic consent to the appointment of the SBA, or its designee, as receiver under Section 311(c) of the Small Business Investment Act of 1958.

Net Assets per Share - Net assets per share are based on the number of shares of common stock outstanding. The Corporation does not have any common stock equivalents outstanding.

Supplemental Cash Flow Information - Income taxes (refunded) paid during the six months ended June 30, 2018 and 2017 were (\$17,051) and \$587,840, respectively. Interest paid during each of the six months ended June 30, 2018 and 2017 was \$140,275. The Corporation converted \$77,154 and \$53,294 of interest receivable into investments during the six months ended June 30, 2018 and 2017, respectively.

Accounting Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Stockholders' Equity (Net Assets) - At June 30, 2018 and December 31, 2017, there were 500,000 shares of \$10.00 par value preferred stock authorized and unissued.

On October 26, 2017, the Board of Directors extended the repurchase authorization for up to 1,000,000 shares of the Corporation's outstanding common stock on the open market through October 26, 2018 at prices no greater than the then current net asset value. No shares were repurchased during the six months ended June 30, 2018. At June 30, 2018, the total treasury shares held was 541,046 shares with a total cost of \$1,469,105.

Profit Sharing and Stock Option Plan - In 2001, the stockholders of the Corporation authorized the establishment of an Employee Stock Option Plan (the Option Plan), that provides for the award of stock options to purchase up to 200,000 common shares to eligible employees. In 2002, the Corporation placed the Option Plan on inactive status as it developed a new profit sharing plan for the Corporation's employees in connection with the formation of its SBIC subsidiary. As of June 30, 2018, no stock options had been awarded under the Option Plan. Because Section 57(n) of the 1940 Act prohibits maintenance of a profit sharing plan for the officers and employees of a BDC where any option, warrant or right is outstanding under an executive compensation plan, no stock options will be granted under

the Option Plan while any profit sharing plan is in effect with respect to the Corporation.

Table of Contents

In 2002, the Corporation established a Profit Sharing Plan (the Plan) for its executive officers in accordance with Section 57(n) of the 1940 Act. Under the Plan, the Corporation will pay its executive officers aggregate profit sharing payments equal to 12% of the net realized capital gains of its SBIC subsidiary, net of all realized capital losses and unrealized depreciation of the SBIC subsidiary, for the fiscal year, computed in accordance with the Plan and the Corporation's interpretation of the Plan. Any profit sharing paid or accrued cannot exceed 20% of the Corporation's net income, as defined in the Plan. For purposes of the 20% profit sharing test, the Corporation interprets net income to be the total of the Corporation's net investment gain (loss) and its net realized gain (loss) on investments, prior to inclusion of the estimated profit sharing obligation. The profit sharing payments are split equally between the Corporation's two executive officers, each of whom is fully vested in the Plan.

The Corporation did not record any expense pursuant to the Plan for the six months ended June 30, 2018 and 2017, respectively. Included in the profit sharing and bonus payable line on the Consolidated Statement of Financial Position at December 31, 2017 was \$132,000 that was paid during the first quarter of 2018.

Income Taxes - The Corporation reviews the tax positions it has taken to determine if they meet a more likely than not threshold for the benefit of the tax position to be recognized in the consolidated financial statements. A tax position that fails to meet the more likely than not recognition threshold will result in either a reduction of a current or deferred tax asset or receivable, or the recording of a current or deferred tax liability. There were no uncertain tax positions recorded at June 30, 2018.

It is the Corporation's policy to include interest and penalties related to income tax liabilities in income tax expense. There were no amounts recognized for interest or penalties for the six months ended June 30, 2018 or 2017.

Concentration of Credit and Market Risk The Corporation's financial instruments potentially subject it to concentrations of credit risk. Cash is invested with banks in amounts which, at times, exceed insurable limits. Management does not anticipate non-performance by such banks.

At June 30, 2018, Genicon, Inc. (Genicon), eHealth Global Technologies, Inc. (eHealth), Rheonix, Inc. (Rheonix), Tilson Technology Management, Inc. (Tilson), and Outmatch (Outmatch) represented 13%, 11%, 9%, 8% and 7%, respectively, of the fair value of the Corporation's investment portfolio.

At December 31, 2017, Genicon, Inc. (Genicon), eHealth Global Technologies, Inc. (eHealth), Rheonix, Inc. (Rheonix), Tilson Technology Management, Inc. (Tilson), and Outmatch (Outmatch) represented 12%, 11%, 9%, 8% and 7%, respectively, of the fair value of the Corporation's investment portfolio.

Note 3. INVESTMENTS

The Corporation's investments are carried at fair value in accordance with Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, which defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements.

Loan investments are defined as traditional loan financings with no equity features. Debt investments are defined as debt financings that include one or more equity features such as conversion rights, stock purchase warrants, and/or stock purchase options. A financing may also be categorized as a debt financing if it is accompanied by the direct purchase of an equity interest in the company.

Table of Contents

The Corporation uses several approaches to determine the fair value of an investment. The main approaches are:

Loan and debt securities are valued at cost when it is representative of the fair value of the investment or sufficient assets or liquidation proceeds are expected to exist from a sale of a portfolio company at its estimated fair value. However, they may be valued at an amount other than cost given the carrying interest rate versus the related inherent portfolio risk of the investment. A loan or debt instrument may be reduced in value if it is judged to be of poor quality, collection is in doubt or insufficient liquidation proceeds exist.

Equity securities may be valued using the asset approach, market approach or income approach. The asset approach involves estimating the liquidation value of the portfolio company's assets. To the extent the value exceeds the remaining principal amount of the debt or loan securities of the portfolio company, the fair value of such securities is generally estimated to be their cost. However, where value is less than the remaining principal amount of the loan and debt securities, the Corporation may discount the value of an equity security. The market approach uses observable prices and other relevant information generated by similar market transactions. It may include the use of market multiples derived from a set of comparables to assist in pricing the investment. Additionally, the Corporation adjusts valuations if a subsequent significant equity financing has occurred that includes a meaningful portion of the financing by a sophisticated, unrelated new investor. The income approach employs a cash flow and discounting methodology to value an investment.

ASC 820 classifies the inputs used to measure fair value into the following hierarchy:

Level 1: Quoted prices in active markets for identical assets or liabilities, used in the Corporation's valuation at the measurement date.

Level 2: Quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active, or other observable inputs other than quoted prices.

Level 3: Unobservable and significant inputs to determining the fair value.

Financial assets are categorized based upon the level of judgment associated with the inputs used to measure their fair value.

Any changes in estimated fair value are recorded in the statement of operations.

Under the valuation policy, the Corporation values unrestricted publicly traded companies, categorized as Level 1 investments, at the average closing bid price for the last three trading days of the reporting period. There were no Level 1 or 2 investments as of June 30, 2018.

In the valuation process, the Corporation values restricted securities, categorized as Level 3 investments, using information from these portfolio companies, which may include:

Audited and unaudited statements of operations, balance sheets and operating budgets;

Current and projected financial, operational and technological developments of the portfolio company;

Current and projected ability of the portfolio company to service its debt obligations;

The current capital structure of the business and the seniority of the various classes of equity if a deemed liquidation event were to occur;

Pending debt or capital restructuring of the portfolio company;

Current information regarding any offers to purchase the investment, or recent fundraising transactions;

Current ability of the portfolio company to raise additional financing if needed;

Table of Contents

Changes in the economic environment which may have a material impact on the operating results of the portfolio company;

Internal circumstances and events that may have an impact (both positive and negative) on the operating performance of the portfolio company;

Qualitative assessment of key management;

Contractual rights, obligations or restrictions associated with the investment; and

Other factors deemed relevant by the Corporation's management to assess valuation.

The valuation may be reduced if a portfolio company's performance and potential have deteriorated significantly. If the factors that led to a reduction in valuation are overcome, the valuation may be readjusted.

Equity Securities

Equity securities may include preferred stock, common stock, warrants and limited liability company membership interests.

The significant unobservable inputs used in the fair value measurement of the Corporation's equity investments are earnings before interest, tax and depreciation and amortization (EBITDA) and revenue multiples, where applicable, the financial and operational performance of the business, and the debt and senior equity preferences that may exist in a deemed liquidation event. Standard industry multiples may be used when available; however, the Corporation's portfolio companies are typically small and in early stages of development and these industry standards may be adjusted to more closely match the specific financial and operational performance of the portfolio company. Due to the nature of certain investments, fair value measurements may be based on other criteria, which may include third party appraisals. Significant changes in any of these unobservable inputs may result in a significantly higher or lower fair value estimate.

Another key factor used in valuing equity investments is a significant recent arms-length equity transaction entered into by the portfolio company with a sophisticated, non-strategic, unrelated, new investor. The terms of these equity transactions may not be identical to the equity transactions between the portfolio company and the Corporation, and the impact of the difference in transaction terms on the market value of the portfolio company may be difficult or impossible to quantify.

When appropriate the Black-Scholes pricing model is used to estimate the fair value of warrants for accounting purposes. This model requires the use of highly subjective inputs including expected volatility and expected life, in addition to variables for the valuation of minority equity positions in small private and early stage companies. Significant changes in any of these unobservable inputs may result in a significantly higher or lower fair value estimate.

For recent investments of less than one year old, the Corporation generally relies on the cost basis, which is deemed to represent the fair value, unless other fair value inputs are identified causing the Corporation to depart from this basis.

Loan and Debt Securities

The significant unobservable inputs used in the fair value measurement of the Corporation's loan and debt securities are the financial and operational performance of the portfolio company, similar debt with similar terms with other portfolio companies, as well as the market acceptance for the portfolio company's products or services. These inputs will likely provide an indicator as to the probability of principal recovery of the investment. The Corporation's loan and debt investments are often junior secured or unsecured debt securities. Fair value may also be determined based on other criteria where appropriate. Significant changes to the unobservable inputs may result in a change in fair value. For recent investments, the Corporation generally relies on the cost basis, which is deemed to represent the fair value, unless other fair value inputs are identified causing the Corporation to depart from this basis.

Table of Contents

The following table provides a summary of the significant unobservable inputs used to determine the fair value of the Corporation's Level 3 portfolio investments as of June 30, 2018:

Investment Type	Market Approach EBITDA Multiple	Market Approach Liquidation Seniority	Market Approach Revenue Multiple	Market Approach Transaction Pricing	Totals
Non-Control/Non-Affiliate Equity	\$	\$ 25	\$ 2,145,496	\$ 6,093,729	\$ 8,239,250
Non-Control/Non-Affiliate Debt	\$ 949,040	1,712,818	3,500,000	300,000	6,461,858
Total Non-Control/Non-Affiliate	\$ 949,040	\$ 1,712,843	\$ 5,645,496	\$ 6,393,729	\$ 14,701,108
Affiliate Equity	\$ 4,420,000	\$ 22,841	\$ 4,453,430	\$ 1,647,698	\$ 10,543,969
Affiliate Debt	5,857,849			1,125,000	6,982,849
Total Affiliate	\$ 10,277,849	\$ 22,841	\$ 4,453,430	\$ 2,772,698	\$ 17,526,818
Control Equity	\$	\$	\$ 99,500	\$	\$ 99,500
Total Control	\$	\$	\$ 99,500	\$	\$ 99,500
Total Level 3 Investments	\$ 11,226,889	\$ 1,735,684	\$ 10,198,426	\$ 9,166,427	\$ 32,327,426
Range	4X-9X	1X	1X-6X	Not Applicable	
Unobservable Input	EBITDA Multiple	Asset Value	Revenue Multiple	Transaction Price	
Weighted Average	5.7X	1X	2.5X	Not Applicable	

The following table provides a summary of the components of Level 1, 2 and 3 Assets Measured at Fair Value at June 30, 2018:

Description	Fair Value Measurements at Reported Date Using			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Other Significant Unobservable Inputs (Level 3)	
Loan investments	\$ 3,550,000	\$	\$	\$ 3,550,000
Debt investments	9,894,707			9,894,707

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with the consolidated financial statements and related notes included elsewhere in this report. Historical results and percentage relationships among any amounts in the consolidated financial statements are not necessarily indicative of trends in operating results for any future periods.

FORWARD LOOKING STATEMENTS

Statements included in this Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this report that do not relate to present or historical conditions are forward-looking statements within the meaning of that term in Section 27A of the Securities Act of 1933, as amended, and in Section 21E of the Securities Exchange Act of 1934, as amended. Additional oral or written forward-looking statements may be made by us from time to time, and forward-looking statements may be included in documents that are filed with the Securities and Exchange Commission. Forward-looking statements involve risks and uncertainties that could cause our results or outcomes to differ materially from those expressed in the forward-looking statements. Forward-looking statements may include, without limitation, statements relating to our plans, strategies, objectives, expectations and intentions and are intended to be made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Words such as believes, forecasts, intends, possible, expects, estimates, anticipates, or plans and similar are intended to identify forward-looking statements. Among the important factors on which such statements are based are assumptions concerning the state of the United States economy and the local markets in which our portfolio companies operate, the state of the securities markets in which the securities of our portfolio companies could be traded, liquidity within the United States financial markets, and inflation. Forward-looking statements are also subject to the risks and uncertainties described under the caption Risk Factors contained in Part II, Item 1A of this report and in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2017.

There may be other factors not identified that affect the accuracy of our forward-looking statements. Further, any forward-looking statement speaks only as of the date when it is made and, except as required by law, we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which it is made or to reflect the occurrence of anticipated or unanticipated events or circumstances. New factors emerge from time to time that may cause our business not to develop as we expect, and we cannot predict all of them.

Overview

We are an internally managed investment company that lends to and invests in small companies often concurrently with other investors. We have elected to be treated as a business development company (BDC) under the Investment Company Act of 1940, as amended (the 1940 Act). As a BDC, we are required to comply with certain regulatory requirements. We have historically made the majority of our investments through our wholly-owned subsidiary, Rand Capital SBIC, Inc. (Rand SBIC), which operates as a small business investment company (SBIC) and has been licensed by the U.S. Small Business Administration (SBA) since 2002. During 2017 we established a second SBIC subsidiary, Rand Capital SBIC II, L.P. (Rand SBIC II) and began making investments through this SBIC subsidiary. During the first quarter of 2018, together with the SBA, we determined that the optimal structure was to revert back to investing in small businesses through our original SBIC, Rand SBIC, and the assets of Rand SBIC II were transferred to Rand SBIC. Rand SBIC has applied for an additional \$6 million in new SBA leverage commitments and is currently undergoing the review and approval process.

Table of Contents

Outlook

At the end of the second quarter of 2018, we had approximately \$4.7 million in cash available for future investments and expenses. We believe the combination of cash on hand, proceeds from portfolio exits, anticipated additional SBA leverage, and prospective investment income provide sufficient capital for us to continue to add new investments to our portfolio while reinvesting in existing portfolio companies that demonstrate continued growth potential. The following short and long-term trends provide us confidence in our ability to grow Rand:

We expect that well run businesses will require capital to grow and should be able to compete effectively given the strong macroeconomic environment and eager reception of new technologies and service concepts.

We continue to manage risk by investing with other investors, when possible.

We are actively involved with the governance and management of our portfolio companies, which enables us to support their operating and marketing efforts and facilitate their growth.

We have sufficient cash to invest in new opportunities and to opportunistically repurchase shares. At quarter end, we had authorization to repurchase an additional 458,954 shares of our common stock. However, our prioritized use of cash continues to be growing our portfolio.

When our portfolio expands, we are able to better leverage our infrastructure.

Critical Accounting Policies

We prepare our consolidated financial statements in accordance with United States generally accepted accounting principles (GAAP), which require the use of estimates and assumptions that affect the reported amounts of assets and liabilities. A summary of our critical accounting policies can be found in our Annual Report on Form 10-K for the year ended December 31, 2017 under Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations.

Table of Contents**Financial Condition**

	June 30, 2018	December 31, 2017	Decrease	% Decrease
Overview:				
Total assets	\$ 38,870,649	\$ 40,133,913	(\$ 1,263,264)	(3.1%)
Total liabilities	8,103,671	8,215,228	(111,557)	(1.4%)
Net assets	\$ 30,766,978	\$ 31,918,685	(\$ 1,151,707)	(3.6%)

Net asset value per share (NAV) was \$4.87 at June 30, 2018 and \$5.05 at December 31, 2017.

Our gross outstanding SBA debentures at June 30, 2018 were \$8,000,000 and will mature from 2022 through 2025. Cash approximated 15% of net assets at June 30, 2018, as compared to 20% at December 31, 2017.

Composition of Our Investment Portfolio

Our financial condition is dependent on the success of our portfolio holdings. We have invested substantially all of our assets in small to medium-sized companies. The following summarizes our investment portfolio at the dates indicated.

	June 30, 2018	December 31, 2017	Increase	% Increase
Investments, at cost	\$ 37,940,613	\$ 36,689,319	\$ 1,251,294	3.4%
Unrealized depreciation, net	(5,613,187)	(4,405,257)	1,207,930	27.4%
Investments at fair value	\$ 32,327,426	\$ 32,284,062	\$ 43,364	0.1%

Our total investments at fair value, as estimated by management and approved by our Board of Directors, approximated 105% of net assets at June 30, 2018 versus 101% of net assets at December 31, 2017.

The change in investments during the six months ended June 30, 2018, at cost, is comprised of the following:

	Cost Increase (Decrease)
New investments:	
KnowledgeVision Systems, Inc. (Knowledgevision)	\$ 775,000
SciAps, Inc. (Sciaps)	250,000
Centivo Corporation (Centivo)	200,000
Total of new investments	1,225,000
Other changes to investments:	
Genicon Inc. (Genicon) interest conversion and OID amortization	80,348

Edgar Filing: RAND CAPITAL CORP - Form 10-Q

Microcision LLC (Microcision) interest conversion	9,582
GoNoodle, Inc. (GoNoodle) interest conversion	5,153
Centivo interest conversion	1,342
Total of other changes to investments	96,425
Investments repaid, sold or liquidated:	
Knoa Software Inc. (Knoa) repayment	(48,466)
Empire Genomics, LLC (Empire Genomics) repayment	(21,665)
Total of investments repaid, sold or liquidated	(70,131)
Net change in investments, at cost	\$ 1,251,294

Table of Contents**Results of Operations**

Our principal investment objective is to achieve long-term capital appreciation on our equity investments while maintaining a current cash flow from our debt instruments and pass-through equity instruments to fund expenses. Therefore, we invest in a variety of financial instruments to provide a current return on a portion of the investment portfolio.

Comparison of the three months ended June 30, 2018 to the three months ended June 30, 2017**Investment Income**

	Three months ended June 30, 2018	Three months ended June 30, 2017	Increase	% Increase
Interest from portfolio companies	\$ 315,700	\$ 277,640	\$ 38,060	13.7%
Interest from other investments	7,735	6,859	876	12.8%
Dividend and other investment income	78,942	55,705	23,237	41.7%
Fee income	11,141	8,935	2,206	24.7%
Total investment income	\$ 413,518	\$ 349,139	\$ 64,379	18.4%

Interest from portfolio companies Interest from portfolio companies was approximately 14% higher during the three months ended June 30, 2018 versus the same period in 2017 due to the fact that we have originated more income-producing debt investments in the last year. The new debt instruments were originated from Genicon Inc. (Genicon), eHealth Global Technologies, Inc. (eHealth) and several other portfolio companies.

The following investments are on non-accrual status: G-TEC Natural Gas Systems (G-Tec), First Wave Products Group, LLC (First Wave), OnCore Golf Technology, Inc. (Oncore) and portions of the Empire Genomics, LLC (Empire Genomics) and Mercantile Adjustment Bureau, LLC (Mercantile) outstanding loan balances.

Interest from other investments - The increase in interest from other investments is primarily due to higher average cash balances during the three months ended June 30, 2018 versus the same period in 2017.

Dividend and other investment income - Dividend income is comprised of cash distributions from limited liability companies (LLCs) and corporations in which we have invested. Our investment agreements with certain LLCs require those LLCs to distribute funds to us for payment of income taxes on our allocable share of the LLC's profits. These portfolio companies may also elect to make additional discretionary distributions. Dividend income will fluctuate based upon the profitability of these LLCs and corporations and the timing of the distributions or the impact of new investments or divestitures. The dividend distributions for the respective periods were:

	Three months ended June 30, 2018	Three months ended June 30, 2017
Carolina Skiff LLC (Carolina Skiff)	\$ 39,169	\$ 42,000
	27,409	

Edgar Filing: RAND CAPITAL CORP - Form 10-Q

New Monarch Machine Tool, Inc. (New Monarch)		
Tilson Technology Management, Inc. (Tilson)	9,687	5,000
Empire Genomics LLC (Empire Genomics)	2,677	2,681
SOMS Technologies, LLC (SOMS)		6,024
Total dividend and other investment income	\$ 78,942	\$ 55,705

Fee income - Fee income consists of the revenue associated with the amortization of financing fees charged to the portfolio companies upon successful closing of SBIC financings and income from portfolio company board attendance fees. The financing fees are amortized ratably over the life of the instrument associated with the fees. The unamortized fees are carried on the balance sheet under the line item Deferred revenue.

Table of Contents

The income associated with the amortization of financing fees was \$10,141 and \$7,935 for the three months ended June 30, 2018 and 2017, respectively. The income from board fees was \$1,000 for each of the three months ended June 30, 2018 and 2017, respectively.

Expenses

	Three months ended June 30, 2018	Three months ended June 30, 2017	Decrease	% Decrease
Total expenses	\$ 473,670	\$ 607,163	(\$ 133,493)	(22.0%)

Expenses predominately consist of interest expense on outstanding SBA borrowings, compensation expense, and general and administrative expenses, including stockholder and office operating expenses and professional fees.

The decrease in expenses during the three months ended June 30, 2018 versus the same period in 2017 was primarily caused by a 79%, or \$140,852, decrease in professional fees. Professional fees were higher during 2017 versus 2018 because we incurred additional expenses in connection with developing and implementing our long-term growth strategy during 2017. These expenses included external legal, tax consulting and other advisory expenses to support refinement of our strategy, which involved assessing options relative to the complex regulatory environment in which we operate.

In addition, for the three months ended June 30, 2018 there was a \$30,741 charge to bad debt expense while there was no bad debt expense for the three months ended June 30, 2017.

Increase in Unrealized Depreciation of Investments

	Three months ended June 30, 2018	Three months ended June 30, 2017	Increase
Increase in unrealized depreciation of investments before income taxes	(\$ 756,441)	(\$ 718,339)	\$ 38,102

The increase in unrealized depreciation, before income taxes, for the three months ended June 30, 2018 was comprised of the following:

	Three months ended June 30, 2018
Empire Genomics, LLC (Empire Genomics)	(\$ 450,000)
SOMS Technologies, LLC (SOMS)	(498,348)
GiveGab, Inc. (Givegab)	191,907
Total increase in net unrealized depreciation of investments before income taxes during the three months ended June 30, 2018	(\$ 756,441)

The valuations of our investments in Empire Genomics and SOMS were decreased after we reviewed each of the portfolio company's operations and current and projected financial condition and determined that a valuation adjustment was necessary.

Givegab's value was increased to the cost basis of the investment after a financial analysis of the portfolio company indicating continued improved performance.

Table of Contents

The increase in unrealized depreciation, before income taxes, for the three months ended June 30, 2017 was comprised of the following:

	Three months ended June 30, 2017
City Dining Cards, Inc. (Loupe)	(\$ 250,000)
Teleservices Solutions Holdings, LLC (Teleservices)	(395,398)
SciAps, Inc. (Sciaps)	(300,000)
Athenex, Inc. (Athenex)	197,336
BeetNPath, LLC (Beetnpath)	29,723
Total increase in net unrealized depreciation of investments before income taxes during the three months ended June 30, 2017	(\$ 718,339)

The valuations of our investments in Loupe and Teleservices were decreased after we reviewed each portfolio company and its current and projected financial condition and determined that a valuation adjustment was necessary.

The valuation of Sciaps was decreased to revalue our equity holdings based upon the liquidation preferences of our securities as compared to the most recent equity round of financing completed by Sciaps.

In accordance with our valuation policy, we increased the value of our investment in Beetnpath based on a significant equity financing by a new non-strategic outside entity.

Athenex completed an Initial Public Offering (IPO) during the second quarter of 2017 and its shares of common stock became publicly traded on the NASDAQ Global Select Market under the symbol **ATNX**. We held 46,296 shares of the common stock of Athenex and valued the shares using the three day average bid price for the last three trading days of the reporting period, which was then discounted due to restrictions on the sale of the shares.

All of these value adjustments resulted from a review by our management using the guidance set forth by ASC 820 and our established valuation policy.

Net Increase (Decrease) in Net Assets from Operations

We account for our operations under GAAP for investment companies. The principal measure of our financial performance is net increase (decrease) in net assets from operations on our consolidated statements of operations. For the three months ended June 30, 2018 and 2017, the net decrease in net assets from operations was (\$631,294) and (\$635,337), respectively.

Comparison of the six months ended June 30, 2018 to the six months ended June 30, 2017**Investment Income**

	Six months ended June 30, 2018	Six months ended June 30, 2017	Increase (Decrease)	% Increase (Decrease)
Interest from portfolio companies	\$ 613,048	\$ 523,731	\$ 89,317	17.1%
Interest from other investments	12,845	17,834	(4,989)	(28.0%)
Dividend and other investment income	133,107	120,590	12,517	10.4%
Fee income	17,327	15,621	1,706	10.9%
Total investment income	\$ 776,327	\$ 677,776	\$ 98,551	14.5%

Table of Contents

Interest from portfolio companies Interest from portfolio companies was approximately 17% higher during the six months ended June 30, 2018 versus the same period in 2017 due to the fact that we have originated more income-producing debt investments in the last year. These new debt instruments were originated from Genicon Inc. (Genicon) and eHealth Global Technologies, Inc. and several other portfolio companies.

The following investments are on non-accrual status: G-TEC Natural Gas Systems (G-Tec), First Wave Products Group, LLC (First Wave), OnCore Golf Technology, Inc. (Oncore) and a portion of the Empire Genomics, LLC (Empire Genomics) and Mercantile Adjustment Bureau, LLC (Mercantile) outstanding loan balance.

Interest from other investments - The decrease in interest from other investments is primarily due to lower average cash balances during the six months ended June 30, 2018 versus the same period in 2017.

Dividend and other investment income - The dividend distributions for the respective periods were:

	Six months ended June 30, 2018	Six months ended June 30, 2017
Carolina Skiff LLC (Carolina Skiff)	\$ 80,264	\$ 99,373
New Monarch Machine Tool, Inc. (New Monarch)	27,409	
Tilson Technology Management, Inc. (Tilson)	19,376	10,000
Empire Genomics LLC (Empire Genomics)	6,058	5,193
SOMS Technologies, LLC (SOMS)		6,024
Total dividend and other investment income	\$ 133,107	\$ 120,590

Fee income - The income associated with the amortization of financing fees was \$15,327 and \$14,621 for the six months ended June 30, 2018 and 2017, respectively. The income from board fees was \$2,000 and \$1,000 for the six months ended June 30, 2018 and 2017, respectively.

Expenses

	Six months ended June 30, 2018	Six months ended June 30, 2017	Decrease	% Decrease
Total expenses	\$ 1,062,234	\$ 1,123,572	(\$ 61,338)	(5.5%)

The decrease in expenses during the six months ended June 30, 2018 versus the same period in 2017 was primarily caused by a 47%, or \$123,167, decrease in professional fees. Professional fees were higher during 2017 versus 2018 because we incurred additional expenses in connection with developing and implementing our long-term growth strategy during 2017. This decrease was offset by a \$76,641 charge to bad debt expense for the six months ended June 30, 2018 while there was no bad debt expense for the six months ended June 30, 2017.

Increase in Unrealized Depreciation of Investments

	Six months ended June 30, 2018	Six months ended June 30, 2017	Increase
Increase in unrealized depreciation of investments before income taxes	(\$ 1,207,930)	(\$ 1,098,983)	\$ 108,947

Table of Contents

The increase in unrealized depreciation, before income taxes, for the six months ended June 30, 2018 was comprised of the following:

	Six months ended June 30, 2018
Empire Genomics, LLC (Empire Genomics)	(\$ 651,489)
SOMS Technologies, LLC (SOMS)	(498,348)
First Wave Products Group (First Wave)	(250,000)
GiveGab, Inc. (Givegab)	191,907
Total increase in net unrealized depreciation of investments before income taxes during the six months ended June 30, 2018	(\$ 1,207,930)

The valuations of our investments in Empire Genomics and SOMS were decreased after we reviewed each of the portfolio company's operations and current and projected financial condition and determined that a valuation adjustment was necessary.

Our valuation of First Wave was decreased to reflect an anticipated round of financing expected to be completed by First Wave in the third quarter of 2018.

Givegab's value was increased to the cost basis of the investment after a financial analysis of the portfolio company indicating continued improved performance.

The increase in unrealized depreciation, before income taxes, for the six months ended June 30, 2017 was comprised of the following:

	Six months ended June 30, 2017
City Dining Cards, Inc. (Loupe)	(\$ 500,000)
Teleservices Solutions Holdings, LLC (Teleservices)	(395,398)
SciAps, Inc. (Sciaps)	(300,000)
Mercantile Adjustment Bureau, LLC (Mercantile)	(250,000)
Athenex, Inc. (Athenex)	197,336
ACV Auctions, Inc. (ACV)	119,356
BeetNPath, LLC (Beetnpath)	29,723
Total increase in net unrealized depreciation of investments before income taxes during the six months ended June 30, 2017	(\$ 1,098,983)

The valuations of our investments in Loupe, Mercantile and Teleservices were decreased after we reviewed each portfolio company and its current and projected financial condition and determined that a valuation adjustment was necessary.

The valuation of Sciaps was decreased to revalue our equity holdings based upon the liquidation preferences of our securities as compared to the most recent equity round of financing completed by Sciaps.

In accordance with our valuation policy, we increased the value of our investments in ACV and Beetnpath based on a significant equity financing by a new non-strategic outside entity.

Athenex completed an Initial Public Offering (IPO) during the second quarter of 2017 and its shares of common stock were traded on the NASDAQ Global Select Market under the symbol `ATNX`. As of June 30, 2017 we held 46,296 shares of the common stock of Athenex and valued these shares using the three day average bid price for the last three trading days of the reporting period, which was then discounted due to restrictions on the sale of the shares.

Table of Contents

All of these value adjustments resulted from a review by our management using the guidance set forth by ASC 820 and our established valuation policy.

Net Decrease in Net Assets from Operations

We account for our operations under GAAP for investment companies. The principal measure of our financial performance is net decrease in net assets from operations on our consolidated statements of operations. For the six months ended June 30, 2018 and 2017, the net decrease in net assets from operations was (\$1,151,707) and (\$994,818), respectively.

Liquidity and Capital Resources

Our principal long-term objective is to achieve growth in net asset value per share through capital appreciation. Therefore, a significant portion of our investment portfolio is structured to maximize the potential for capital appreciation, and certain portfolio investments may be structured to provide little or no current yield in the form of dividends or interest payments.

As of June 30, 2018, our total liquidity consisted of approximately \$4.7 million in cash on hand.

Net cash provided by operating activities has averaged approximately \$433,000 over the last three years. The average cash used for investment in portfolio companies over the last three years was approximately \$3,000,000. Our cash flow from operations may fluctuate based on the timing of the receipt of dividend income and realized gains and the associated income taxes paid. We will generally use cash to fund our operating expenses and also to invest in companies, as we seek to build our portfolio utilizing our available cash and proceeds from liquidations of portfolio investments. We anticipate that we will continue to exit investments. However, the timing of liquidation events within the portfolio is difficult to project with any certainty. As of June 30, 2018, we did not have any outstanding commitments to borrow funds from the SBA. Starting in 2022, our SBA debt begins to reach maturity, and this will require us to identify sources of future funding if liquidation of investments is not sufficient to fund operations and repay the SBA debt obligation.

We believe that the cash on hand at June 30, 2018, the scheduled interest payments on our portfolio investments and the anticipated additional SBA leverage will be sufficient to meet our cash needs for the next twelve months. We continue to seek potential exits from portfolio companies to increase the amount of liquidity available for new investments, operating activities and future SBA debenture repayment obligations.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Our investment activities contain elements of risk. Our investment portfolio consists of equity and debt securities in private companies and is subject to valuation risk. Because there is typically no public market for the equity and debt securities in which we invest, the valuation of the equity interests in the portfolio is stated at fair value as determined in good faith by our management and approved by our Board of Directors. This is in accordance with our investment valuation policy (see the discussion of valuation policy contained in Note 3. Investments in the consolidated financial statements contained in Item 1 of this report, which is hereby incorporated herein by reference.) In the absence of readily ascertainable market values, the estimated value of the portfolio may differ significantly from the values that would be placed on the portfolio if a ready market for the investments existed. Any changes in valuation are recorded on the consolidated statement of operations as Net change in unrealized depreciation on investments.

At times, a portion of our portfolio may include marketable securities traded in the over-the-counter market. In addition, there may be a portion of the portfolio for which no regular trading market exists. In order to realize the full value of a security, the market must trade in an orderly fashion or a willing purchaser must be available when a sale is to be made. Should an economic or other event occur that would not allow markets to trade in an orderly fashion, we may not be able to realize the fair value of our marketable investments or other investments in a timely manner.

Table of Contents

As of June 30, 2018 we did not have any off-balance sheet arrangements or hedging or similar derivative financial instrument investments.

Item 4. Controls and Procedures

Disclosure Controls and Procedures. The Corporation maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that this information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. The Chief Executive Officer and the Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of the Corporation's disclosure controls and procedures as June 30, 2018. Based on the evaluation of these disclosure controls and procedures, the Chief Executive Officer and Chief Financial Officer concluded that the Corporation's controls and procedures were effective as of June 30, 2018.

Changes in Internal Control over Financial Reporting. There have been no changes in our internal control over financial reporting during the Corporation's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.

Table of Contents**PART II.****OTHER INFORMATION****Item 1. Legal Proceedings**

None.

Item 1A. Risk Factors

See Part I, Item 1A, Risk Factors, of the Annual Report on Form 10-K for the year ended December 31, 2017.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**Issuer Purchases of Equity Securities**

Period		Total number of shares purchased (1)	Average price paid per share (2)	Total number of shares purchased as part of publicly announced plan (3)	Maximum number of shares that may yet be purchased under the share repurchase program
4/1/2018	4/30/2018				458,954
5/1/2018	5/31/18				458,954
6/1/2018	6/30/2018				458,954

- (1) There were no shares repurchased during the second quarter of 2018.
- (2) The average price paid per share is calculated on a settlement basis and includes commission.
- (3) On October 26, 2017, the Board of Directors extended the repurchase authorization of up to 1,000,000 shares of the Corporation's common stock on the open market at prices no greater than the then current net asset value through October 26, 2018.

Item 3. Defaults upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not Applicable.
