Subject: **Request for information on news media report**

A news report in the newspaper *Valor Econômico* of July 11, 2018, under the headline:

*Cemig considering re-opening bond issue* ,

contains, among other information, statements that Cemig:

1. intends to raise up to US\$ 500 million through re-opening of the bond issue that has previously been placed outside Brazil, with maturity in 2024 ; and
  2. has begun conversations with investors and may possibly complete the transaction this week .
- We request information/explanations on the items indicated, by July 12, 2018, including your confirmation of them or otherwise, and also any other information that is considered to be important.

**Reply by CEMIG**

Dear Ms. Ana Lucia da Costa Pereira,

Supervision Office for Companies and Equity Securities Offers B3 S.A.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

In response to Official Letter 1441/2018-SAE, of July 11, 2018, we inform you that Companhia Energética de Minas Gerais Cemig ( Cemig or the Company ) is permanently assessing alternatives for improvement of its capital structure, lengthening of its debt profile and reduction of the cost of its debt.

Consequently the Company, in the normal course of its business, is continuously consulting financial institutions and investors, in Brazil and the rest of the world, as to the conditions on which they would open credit lines for financing of the Company's business.

In the case referred to, financing in the external market through issue of Eurobonds is one possible alternative. As an example, in December 2017 Cemig Geração e Transmissão S.A. ( Cemig GT ), a wholly-owned subsidiary of Cemig, placed an issue of US\$1 billion, and in that issue the indicative demand was US\$3.7 billion. Thus, it was natural to suppose that a further issue in this market would be a viable financing option, in addition to the alternatives available in the local market.

It is appropriate to highlight the characteristics of this type of transaction, in which, initially, the Company prospects qualified investors on potential interest in financing it. Once interest has been identified, the Company may opt to indicate a price level for the transaction, with the objective of quantifying the potential volume of a transaction. If the volume, at the indicated price level, indicates the possibility of success for the transaction the company may opt to begin a process of bookbuilding, culminating in pricing of an issue.

At the same time, when accessing the external debt market it is essential to obey the regulation and practices specific to this market, avoiding broad disclosure by the Company prior to the pricing, due to the risk that this could have adverse effects on the success of the transaction.

In line with this, yesterday the Company carried out an initial monitoring, but without this meaning that the transaction, at that moment, was feasible. It was only today that Cemig priced the re-opening of the Eurobond issue, in the amount of US\$500 million, and, naturally, published a Material Announcement with the related information.

In relation to the media report referred to, in the interests of success of the transaction, and consequently, in the interests of the Company and its stakeholders, no statement of any kind was made prior to the pricing, in accordance, we would note, with the regulation and specific practices of this market, to avoid adverse risks for the transaction.

Cemig takes this opportunity to reiterate its commitment to transparency and best market practices in communication with the market.

**Settlement of additional Eurobond tranche**

In continuation of the **Material Announcement** published on **December 7, 2018** and in compliance with CVM Instruction 358 of January 3, 2002 as amended, **Cemig** (*Companhia Energética de Minas Gerais* listed on the stock exchanges of São Paulo, New York and Madrid), **hereby reports** to the Brazilian Securities Commission (CVM), the São Paulo Stock Exchange (B3) and the market **as follows**:

Today (July 18) Cemig's wholly-owned subsidiary **Cemig Geração e Transmissão S.A. ( Cemig GT )** completed financial settlement of the additional tranche of Eurobonds arising from re-opening of the initial issue made on December 5, 2017.

The additional tranche, for US\$500 million, with settlement of principal in December 2024, with six-monthly interest, was priced on July 12, 2018 at yield of 9.14% p.a.

A hedge transaction was concomitantly contracted, for the whole period of the issue, comprising:

a call spread on the principal, in which Cemig GT is protected over the interval between R\$ 3.85/US\$ and R\$ 5.00/US\$; and

a swap transaction for 100% of the interest, exchanging the 9.25% annual coupon for a rate equivalent to 125.52% of the CDI rate.

This rate is significantly more advantageous than the cost of the original issue, which was for a rate equivalent to 150% of the CDI rate.

The net proceeds will be allocated to payment of debts with shorter maturities and higher average cost, resulting in lengthening of the debt profile and reduction of the Company's financial expenses.

**EXTRAORDINARY GENERAL MEETING OF STOCKHOLDERS**

**JULY 23, 2018**

**CONVOCATION**

Stockholders are hereby called to an Extraordinary General Meeting of Stockholders to be held on July 23, 2018 at 10 a.m., at the company's head office, Av. Barbacena 1219, 2<sup>ª</sup> floor, Belo Horizonte, Minas Gerais, Brazil, to decide on:

Election of members of the Audit Board nominated by the majority stockholder, to serve the rest of the current period of office.

Stockholders may opt to exercise their right to vote through the remote voting system, in accordance with CVM Instruction 481/2009, by sending the related Remote Voting Form via their custody agent, or the mandated bank, or directly to the Company.

Proxy votes

Any stockholder who wishes to be represented by proxy at the said General Meeting of Stockholders should obey the precepts of Article 126 of Law 6406 of 1976, as amended, and of §2 of Article 10 of Clause 10 of the by-laws, by exhibiting at the time, or previously depositing at the Company's head office, preferably by July 19, 2018, the proof of ownership of the shares, issued by the depositary financial institution, an identity document, and a power of attorney with specific powers, at Cemig's Corporate Executive Office (*Superintendência da Secretaria Geral*) at Av. Barbacena 1219 - 2<sup>ª</sup> Floor, Belo Horizonte, Minas Gerais, Brazil.

Belo Horizonte, June 19, 2018 Adézio de Almeida Lima Chair of the Board of Directors

The representative of the stockholder **The State of Minas Gerais** stated that the Office of the General Attorney of the State, as formal representative of the controlling stockholder, would make a statement of position to this Meeting in the terms of Official Letter OF 0079/2018, of May 16, 2018.

In accordance with CVM Instruction 481/2009, the Chair then asked the Secretary to read the spreadsheet of summary consolidated voting, recording the votes given by Remote Voting Forms, published to the Market on July 20 of this year, which will be at the disposal of stockholders for any consultation.

The Chair then stated that an Extraordinary General Meeting of Stockholders had been held on July 11, 2018, at which, due to approval of the Company's new by-laws, to adapt to Federal Law 13,303 of June 30, 2016 and Minas Gerais State Decree 47154 of February 20, 2017, the members of the Audit Board nominated by the holders of preferred shares were elected; and at that meeting it was not possible for the majority stockholder to nominate members for the Audit Board.

The representative of **The State of Minas Gerais** then put forward the following nominations for membership of the Audit Board:

Asking for the floor, the representative of the stockholder **BNDES Participações S.A. (BNDESPar)**, although not being part of the group voting on this occasion, stated the understanding that obedience to the prohibitions in Article 17 of the State Companies Law for nominations to an Audit Board, independently of the legal dispute on whether they are mandatory, are the best corporate governance practice for formation of the Audit Board, in that they ensure a higher level of professionalism, and recommended that all the Company's stockholders should adopt them in their nominations.

It was also the understanding of **BNDESPar** that, in spite of the juridical support for this election and for the nominations made for it, considering the transitory nature of the court decision, given as it was in an interim remedy and already subject to contestation, it would be prudent for the controlling stockholder of the Company to aim for a composition of the Audit Board in line with the view taken by the CVM in Case 19957.004466/2018-41, to avoid any later need for re-composition of that Board, even before the end of the current period of office, which would harm the continuity of its work. **BNDESPar** also alerted the meeting that the other requirements and prohibitions in the State Companies Law should be complied with, including the need for one of the nominees to be a government employee with a permanent link to the public administration.

The representative of the stockholder **The State of Minas Gerais** then reported that the Judiciary of Minas Gerais State had granted a request for urgent relief in the following terms:

- a) suspending the effect of the recommendation / decision issued by the CVM contained in Official Announcement 227/2018/CVM/SEP/GEA-1 (SEI 19957.005738/2018-20); and thus requiring the CVM to abstain from opening any administrative proceedings tending to punish the controlling stockholder, or Cemig, in any case where the reason for action is application of the prohibitions stated in §2 of Article 17 of Law 13303/2016 in relation to the members of Cemig's Audit Board, until any subsequent court decision, on penalty of a fine in the event of non-compliance;
- b) consequent order that Cemig should urgently (subject to the minimum timing required by the law and by its by-laws), in a General Meeting of Stockholders, elect the members of its Audit Board, based on the names already put forward by **The State of Minas Gerais**, as majority stockholder, on May 16, 2018, subject to the requirement in Article 26 of Law 13303/2016, as regulated by State Decree 47154/2017, but without the prohibitions established by that Law in relation to the members of the Board of Directors (§ 2° of Article 17 of Law 13303/2016); on penalty of a procedural fine in the event of non-compliance with the decision.

**Subject: Request for information on news media report**

Dear Sir,

1.

We refer to the news report published today in the news medium *Valor Econômico*, in the *Empresas* ( Companies ) section, under the headline:

*Cemig assessing Plan B for sale of Light*

which contains the following statements:

Av. Barbacena 1200 Santo  
Agostinho 30190-131 Belo Horizonte, MG Brazil Tel.: +55 31 3506-5024 Fax +55 31 3506-5025

**Table of Contents**

Facing challenges in its efforts to sell its interest in Light, the Minas Gerais state company Cemig is assessing a Plan B for payment of the put option exercised against it, which is to be settled in November of this year. The priority continues to be the sale of control of the Rio de Janeiro electricity distributor Light, but, since the proposals received so far have not been considered attractive, Cemig is working with an alternative for payment of the put option that will avoid Light becoming a state company.

According to one source, Cemig needs approximately R\$ 600 million to pay the option. There is R\$ 100 million deposited in a guarantee account, which remained from the proceeds of the sale of part of the control stockholding in the transmission company Taesa. The idea is to rely on the sale of Cemig Telecom to finance the rest.

The minimum price established for the assets of Cemig Telecom, which will be auctioned on August 8, is R\$ 367 million. Since there are many bidders interested in the company, Cemig's expectation is that the transaction will be made for a premium over the minimum price. According to Cemig, there are 17 investors interested.

*Valor* has found that they include Brazil's principal telephone network operators, mobile telephone tower companies, investment funds, and foreign companies, such as Sterlite Power Grid of India.

Even resolving the problem relating to the put option, Cemig will still need to avoid allowing Light to become a majority-state-controlled company. With settlement of the put option, its interest will increase from 43% to 52% of Light, which could cause early maturity of debts due to covenants in financing contracts.

[...]

A possible problem involves the situation of Renova Energia, controlled by Cemig and by Light. As well as its net debt of R\$ 1.3 billion, while generating extremely low cash flow, Renova needs funds to complete the works on the Alto Sertão III wind complex, which are behind schedule.

*Valor* has found that between R\$ 300 and R\$ 400 million is still needed to complete the project. Further to this, there is R\$ 200 million in debts to suppliers that need to be settled. With the present debt, and the problems resulting from the works being behind schedule, such as the exposure to the electricity spot market, these costs could make the return on the project unfeasible.

**Reply by CEMIG**

Dear Mr. Cláudio José Paulo, Acting Manager

In reply to Official Letter 289/2018/CVM/SEP/GEA-1, Cemig states as follows:

Cemig believes that transparency and accountability are not only legally imposed duties but indispensable prerequisites for efficient management.

For this reason, aiming to keep investors duly informed, Cemig has published Material Announcements, on June 1, 2017 and July 7, 2017, announcing and updating its program of disinvestment which, among other aims, seeks to enhance the Company's financial equilibrium, through accelerated reduction of its net indebtedness.

Cemig reiterates that the assets referred to in the article published by the newspaper *Valor Econômico* are part of the said disinvestment program, and that it has been keeping the market and other interested parties updated on the processes of sale of those assets.

As of today's date, there is no new information which, under CVM Instruction 358/2002, would justify publication of a further Material Announced on any of these subjects.

Finally, Cemig encourages the communications media, for the benefit of its readers, always to state its sources, and once again re-emphasizes that it is available for verification of information.

**Results for second quarter 2018**

For the second quarter of 2018 (**2Q18**) Cemig reports a loss of R\$ 60,370, which compares to net profit of R\$ 138,114 in 2Q17.

This primarily reflected significant net non-operational expenses of R\$ 449,088, comprising:

- (i) FX variation on the debt raised in December 2017 (Eurobond issue);

partially offset by the effects of:

- (ii) adjustment to fair value of the swap transaction made by the Company to replace the interest payments on the Eurobonds (expressed in the issue as 9.25% p.a. in US dollars) by 150.49% of the Brazilian domestic CDI rate, with a hedge contracted for the principal for US dollar exchange rate variation between a floor of R\$ 3.25 and a ceiling of R\$ 5.00 in this case the floor value will be paid by the Company at maturity.

An important item is that the volume sold to industrial users was 4.07% lower, which was mainly due to three factors: (a) disconnections of consumer units; (b) migration of captive consumers to the Free Market; and (c) reduction of consumption due to the truck drivers strike, which took place at the end of May 2018. Also, volume sold to the commercial consumer category was 2.07% lower year-on-year, mainly due to migration of captive consumers to the Free Market.

At the same time, sales were higher year-on-year in three other categories: 2.47% higher in the residential consumer category reflecting addition of new consumer units; 1.17% higher in public lighting; and 2.09% higher in supply to public services.

**The electricity market of Cemig GT**

**Cemig GT** billed a total of 7,555,811 MWh in 2Q18, or 7.00% higher than in 2Q17.

The number of clients billed by Cemig GT in June 2018, at 1,284, was 9.6% higher than at the end of June 2017. Of these: 1,210 were industrial, commercial and rural clients, 46 were distribution companies, and 28 were companies in the category of traders, generators and independent power producers.

Free Clients in the industrial, commercial and rural consumer categories consumed 4,586,309 MWh in 2Q18, or 60.7% of the total volume of energy provided by Cemig GT, and 9.3% higher than in 2Q17.

This increase total reflects consumption by commercial clients 51.2% higher.

Trading of electricity to other agents in the electricity sector in the Free Market totaled 2,339,728 MWh in 2Q18, 4.6% higher than in 2Q17.

**Table of Contents**

Sales of energy in the Regulated Market, including those to Cemig D, totaled 629,774 MWh in 2Q18, or 0.1% higher than in 2Q17, due to differences of seasonalization of distributors' contracts between the two periods and contractual reduction.

**QUALITY INDICATORS - DEC / DECi and FEC / FECi**

Cemig is continuously taking action to improve operational management, organization of the logistics of emergency services, and its permanent regime of inspections and preventive maintenance of substations, lines and distribution networks. It also invests in training of its staff for improved qualifications, state-of-the-art technologies, and standardization of work processes, aiming to uphold the quality of electricity supply, and as a result maintain the satisfaction of clients and consumers.

The charts below show Cemig's indicators for duration and frequency of outages - DEC and FEC, since January 2016.

**Revenue from supply of electricity**

Total revenue from supply of electricity in 2Q18 was R\$ 5,838,104, 0.65% higher than in 2Q17 (R\$ 5,800,520).

**Table of Contents****Final consumers**

Total revenue from electricity sold to final consumers, excluding Cemig's own consumption, in 2Q18 was R\$ 4,978,835, or 2.22% less than in 2Q17 (R\$ 5,092,073). The main factors in this revenue were:

the annual tariff adjustment for Cemig D, effective May 28, 2017 (full effect in 2018) with average *negative* effect on consumer tariffs of 10.66%;

the Annual Tariff Adjustment for Cemig D effective Monday, May 28, 2018, with an average *positive* effect on consumer tariffs of 23.19%; and

volume of electricity sold to final consumers 3.79% higher year-on-year.

Revenue from Use of Distribution Systems (the TUSD charge)

This is revenue from charging Free Consumers the Tariff for Use of the Distribution System (*Tarifa de Uso do Sistema de Distribuição*, or TUSD) on the volume of energy distributed. In 2Q18 this revenue was R\$ 440,599, or

0.73% higher than in 2Q17 (R\$ 437,427), with the following factors:

reduction of approximately 40% in the TUSD in the annual tariff adjustment for Cemig D of 2017, in effect from May 28, 2017 (full effect in 2018);

upward adjustment of approximately 36% in the TUSD, in Cemig D's 2018 annual tariff adjustment, effective from May 28, 2018; and

**Table of Contents**

volume of energy transported 13.66% higher, due to a higher level of activity by industrial consumers, mainly related to the ferroalloys sector.

**CVA and Other financial components in tariff adjustments**

In its interim accounting information Cemig recognizes the difference between actual amounts of *non-controllable* costs (in which the CDE, and electricity bought for resale, are significant components) and the figures that were used as assumptions for these costs in calculating rates charged to consumers. The amount of this difference is passed through to clients in Cemig D's next tariff adjustment – in 2Q18 this represented a revenue (gain) of R\$ 627,893, whereas in 2Q17 it produced a reduction (expense) of R\$ 29,294. The difference in this case is mainly due a higher difference, in 2018, between costs of energy and the coverage provided by the tariff, generating a financial asset to be reimbursed to the Company through the next tariff adjustment.

**Transmission indemnity revenue**

In 2Q18 this revenue was R\$ 96,678, a reduction of 52.61% compared to 1Q17 (R\$ 204,025). We highlight the amount of R\$ 149,255 recorded for 2Q17, relating to the backdated difference of transmission concession assets the values of which were not included in the calculation basis for revenues in the previous tariff reviews. The Company reports the updating of the amount of indemnity receivable based on the average regulatory cost of capital, as specified in the sector regulations.

**Table of Contents***Remaining balance to be received through RAP*

The remaining balance, of R\$ 472,356 at June 30, 2018 (R\$ 544,471 at December 31, 2017), was incorporated into the Remuneration Assets Base, and is being recovered via RAP.

**Generation Indemnity Revenue**

In 2Q18 the Company recognized revenue of R\$ 17,218 for the adjustment to the balance not yet amortized relating to the basic plans of the concessions for the *São Simão* and *Miranda* Hydroelectric Plants, to be indemnified as per Ministerial Order 291/17.

*Plants operated under the Quotas regime as from January 1, 2016*

As from August 2013, there were expiry dates of the concessions for various plans operated by Cemig GT under Concession Contract 007/1997. As from the termination of the concession, Cemig GT held the right to indemnity of the assets not yet amortized, as specified in that concession contract. The accounting balances corresponding to these assets, including the Deemed Cost, are recognized in Financial assets. Their total at June 30, 2018 was R\$ 816,411.

*The Miranda and São Simão plants*

The amounts for the basic plan of these plants were transferred to the account *Indemnities receivable*, and are updated in monetary terms in accordance with Mining and Energy Ministry Order 291, of August 3, 2017, as shown below:

**Table of Contents****Revenue from power trading transactions in the Wholesale Trading Exchange (CCEE)**

Revenue from transactions in electricity on the CCEE in 2Q18 was R\$ 25,639, compared to R\$ 198,529 in 2Q17 a year-on-year reduction of 87.09%. The difference is due to the lower volume of electricity available for settlement in the wholesale market in 2018.

**Revenue from supply of gas**

Cemig reports revenue from supply of gas 14.69% higher YoY in 2Q18, at R\$ 470,908, compared to R\$ 410,604 in 2Q17 reflecting higher tariffs to consumers, in spite of a reduction in volume of consumption in reaction to these higher tariffs.

**Table of Contents****Taxes and charges on Revenue**

The total of these taxes and charges reported as deductions from revenue in 2Q18 was R\$ 2,674,737 an increase of 3.54% in relation to their total of R\$ 2,583,211 in 2Q17.

**Consumer charges the Flag Tariff system**

Charges to the consumer arising from the Flag Tariff system in 2Q18 were 93.48% lower year-on-year at R\$ 8,287 in 2Q18, in contrast to R\$ 127,177 in 2Q17.

In the Flag Tariff system, higher rates come into effect depending on the level of water in the country's reservoirs: the Red Flag imposes the highest extra tariff and was in effect with the scarcity of rainfall in April and May 2017.

**Operational costs and expenses**

Operational costs and expenses totaled R\$ 4,859,630 in 2Q18, or 3.28% higher than in 2Q17 (R\$ 4,705,299).

**Table of Contents**

The following paragraphs comment on the main variations:

**Electricity purchased for resale**

The expense on electricity bought for resale in 2Q18 was R\$ 2,818,905, or 6.40% more than in 2Q17 (R\$ 2,649,330). The main factors in the higher figure are:

**Cemig D (distribution):**

The expense on electricity bought for resale by Cemig D in 2Q18 was R\$ 1,927,103, or 15.00% more than in 2Q17 (R\$ 1,675,757). The main factor was the expense on supply bought at auction being 19.09% higher YoY, at R\$ 764,807 in 2Q18, vs. R\$ 642,185 in 2Q17. This in turn was mainly due to inclusion of the supply coming from MCSD (Excess/Deficit Compensation Mechanism) assignments for new-build projects, which resulted in the expense being R\$ 127,780 higher than in 2Q17 partially offset by lower volume in quantity and availability contracts (5,709,270 MWh in 2Q18 and 6,522,682 MWh no 2Q17).

**Cemig GT:**

Cemig GT's expense on electricity bought for resale in 2Q18 was R\$ 897,095, or 8.51% less than in 2Q17 (R\$ 980,581). This reflects a volume of energy purchased 11.88% lower YoY in 2Q18 at 4,726,875 MWh, vs. 5,364,064 MWh in 2Q17; partially offset by the effect of average price per MWh in 2Q18 being 3.82% higher YoY (at R\$ 189.79 in 2Q18, vs. R\$ 182.81 in 2Q17).

**Operating provisions**

Operational provisions were 16.90% lower year-on-year in the quarter at R\$ 134,112 in 2Q18, compared to R\$ 161,386 in 2Q17. The main factor is the reversal in employment-law contingencies, compensated by provisions with investment options as described below:

In 2Q18 there was a reversal, of R\$ 20,114, in the total provision for employment-law contingencies, in 2Q18, compared with new provisions totaling R\$ 114,419 made in 2Q17. The reversal is the consequence of judgments given in favor of the Company, against claims by plaintiffs.

In 2Q18 provisions of R\$ 27,519, and R\$ 20,231, respectively, were made for the RME/ LEPSA and SAAG investment options compared to reversals of provisions, in 2Q17, of R\$ 8,020 and R\$ 5,334 respectively, for the same two items.

***Default***

With the conjunction of several factors the Brazilian macroeconomic context of lower economic activity, which created unemployment; the adverse hydrological situation; and the increase in tariffs, which had been held down the debt owed by Cemig's clients has grown to higher than average levels. The good news is that the efforts made by Cemig to counter default in 2017 resulted in the default index being reduced, and the Company has kept these indices under control in 2018.

**Table of Contents**

To combat a record level of default in 2018 Cemig redoubled efforts to reduce customer arrears. An additional budget has been approved for efforts to recover the losses of revenue. Some results have already been achieved. Since December 2016 there has been no significant increase in the default percentages, showing that they are being kept under control. We expect to see a more consistent decline in the percentages from now on. Default in June 2018 was 3.42% lower than in June 2017.

The Company uses various tools of communication and collection to prevent increase in default. These include contact by telephone, email, collection requests by text and by letter, negative posting on credit registers, collection through the courts and, principally, disconnection of supply. Aneel Resolution 414 allows supply to be cut off after 15 days from receipt of a notice to the defaulting consumer.

As well as these various collection methods, in 2018 Cemig is structuring a new management model for the client relationship. Innovations will include making negotiation for settlement of arrears by installments available on line. The aim of the proposal is to provide a wide range of interactions with clients and facilitate access to means of negotiation and payment.

**People**

The expense on personnel in 2Q18 was R\$ 348,576, or 34.96% lower than in 2Q17 (R\$ 535,954). The lower figure, in spite of the 1.83% salary increase from November 2017 under the collective agreement, mainly reflects the much lower expense on the voluntary retirement program 84.48% lower, at R\$ 25,666, in 2Q18, than in 2Q17 (R\$ 165,422).

In April 2018, 117 employees of Cemig Telecom were transferred to the Cemig holding company, in the part referred to as supplementary staff. As and when these employees are allocated to areas of Cemig D and Cemig GT, they will be transferred to each of those companies.

**Gas bought for resale**

In 2Q18 the Company recorded an expense of R\$ 293,225 on acquisition of gas, 11.64% more than its comparable expense of R\$ 262,651 in 2Q17. This basically reflects the higher volume of gas bought for resale (454,622m<sup>3</sup> in 2Q18, vs. 308,850m<sup>3</sup> in 2Q17).

**Table of Contents****Equity in earnings of unconsolidated investees**

In 2Q18 Cemig posted a net loss by the equity method in unconsolidated investees of R\$ 83,107, which compares with a net gain of R\$ 30,477 in 2Q17. This mainly reflects negative equity method contributions from the interests in (a) *Renova* and (b) the *Santo Antônio* hydroelectric plant.

**Net financial revenue (expenses)**

Cemig reported net financial expenses in 2Q18 of R\$ 696,832, which compares with net financial expenses of R\$ 341,554 in 2Q17. The main factors are:

Costs of loans and financings 17.11% lower, at R\$ 316,703 in 2Q18, compared to R\$ 382,076 in 2Q17. This lower figure is due to lower debt indexed to the CDI rate and a lower value for the CDI rate itself, representing a total of 1.56% over the period of 2Q18, compared to 2.55% over 2Q17.

Revenue from late charges on client electricity bills 41.85% higher, at R\$ 92,288 in 2Q18, compared to R\$ 65,069 in 2Q17. A major component of this increase comes from the effects of renegotiation of amounts owed on electricity bills by entities of the Minas Gerais State administration on recognition of the interest due.

Income from cash investments 70.13% lower in 2Q18, at R\$ 18,123, compared to R\$ 60,663 in 2Q17. This mainly reflects (a) the lower CDI rate in the quarter (1.56% over the period of 2Q18, vs. 2.55% over 2Q17), and (b) a lower total of cash invested in 2Q18.

An expense of R\$ 532,000 for foreign exchange variation on US dollar-denominated funding (the Eurobond issue); this being partially offset by a gain of R\$ 82,912 on financial instruments the adjustment to fair value of the swap transaction contracted to cover the Eurobond issue. The net expense in 2Q18 is thus R\$ 449,088. The swap transaction substituted the issue's interest rate of 9.25% p.a. in US dollars by 150.49% of the Brazilian domestic CDI rate. For the principal a hedge was contracted for US dollar exchange rates between a floor of R\$ 3.25 and a ceiling of R\$ 5.00 in this case the floor value will be paid by the Company at maturity.

The net negative effect of the transaction in the quarter, consequence of the foreign exchange variation expense not being offset by the hedge instruments contracted, arises basically from the higher curve of future expectations for the CDI rate than for the R\$/US\$ exchange rate which occurred basically in the months of May and June 2018, due to the instability of the macroeconomic scenario.

**Table of Contents**

Expectations for future variations in the CDI rate and the US dollar exchange rate are the main variables used in the calculation of fair value of the hedge transactions referred to.

Note that the next expense referred to is not a cash effect, except for the first six-monthly interest payment of the transaction, in which the effect of exchange rate variation, for that installment only, was offset by a revenue amount received in the hedge linked to the transaction.

Monetary updating of CVA balances: this provided a financial *revenue* item of R\$ 10,839 in 2Q18, in contrast to a financial *expense* of R\$ 21,911 in 2Q17. The positive and negative balances of CVA are updated by the Selic rate.

**Ebitda**

**DEBT**

The Company's consolidated total debt at June 30, 2018 was R\$ 14,604,054, 1.43% less than at December 31, 2017.

**Table of Contents**

Cemig's debt increased by R\$ 206 million over the first half of 2018, in spite of the Company having amortized a volume larger than the new funds raised in the period. This is mainly due to the appreciation of approximately 16% in the US dollar against the Real, in the second quarter of the year, which directly affected the balance of the debt under the Eurobonds when expressed in the local currency. It is important to note that in spite of this effect, which increased gross debt in Reais, and the debt indicators, the Company is protected from the effects of exchange rate variation on this debt for the interest payments and charges, by a swap; and for the principal (US\$ 1 billion), through a call spread for the interval between R\$ 3.25 and R\$ 5.00. In this case the Company will pay, at maturity, the amount of the floor of this range; and if the ceiling is exceeded, the Company will pay the floor level of R\$ 3.25 plus the difference between the US\$/R\$ exchange rate and the ceiling level of R\$ 5.00. Thus, Cemig has recorded an asset of R\$ 131 million in the financial statements, at fair value, referring to the hedge, while the value on the curve of this asset represents R\$ 584 million.

**Additional Eurobond issue**

On July 18, 2018 Cemig GT completed financial settlement of an additional tranche to its initial Eurobond issue completed on December 5, 2017. The new tranche, of R\$ 500 million, brings the total of the issue to R\$ 1.9 billion. The issue has six-monthly coupon of 9.14% p.a., with maturity of the principal in 2024.

Concomitantly with the settlement a hedge transaction was contracted, for the whole period of the issue, comprising:

a call spread on the principal, in which Cemig GT is protected over the interval between R\$ 3.85/US\$ and R\$ 5.00/US\$; and

a swap for 100% of the interest, exchanging the 9.25% annual coupon for a rate equivalent to 125.52% of the CDI rate.

The net proceeds will be allocated to payment of debts with shorter maturities and higher average cost, resulting in lengthening of the debt profile and reduction of the Company's financial expenses.

**Table of Contents****Payment of debentures**

On July 16, 2018 Cemig GT amortized the first and second series of its 6<sup>th</sup> debenture issue, in the amount of R\$ 533 million.

On July 27, 2018, with the additional tranche of the Eurobond issue, Cemig GT made early settlement of R\$ 385 million, or 25%, of the balance of the nominal unit value of its 7<sup>th</sup> issue of non-convertible debentures, of which the cost was 140% of the CDI rate with original maturity on December 23, 2021.
