Annual Report

October 31, 2018

Wells Fargo Multi-Sector Income Fund (ERC)

Beginning on January 1, 2021, as permitted by new regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's annual and semi-annual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports. Instead, the reports will be made available on the Fund's website, and you will be notified by mail each time a report is posted and provided with a website address to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund electronically at any time by contacting your financial intermediary (such as a broker-dealer or bank) or, if you are a direct investor, by calling 1-800-730-6001.

You may elect to receive all future reports in paper free of charge. If you invest through a financial intermediary, you can contact your financial intermediary to request that you continue to receive paper copies of your shareholder reports; if you invest directly with the Fund, you can call 1-800-730-6001. Your election to receive reports in paper will apply to all Wells Fargo Funds held in your account with your financial intermediary or, if you are a direct investor, to all Wells Fargo Funds that you hold.

Wells Fargo Funds

The early months of the reporting period were characterized by strong performance for equity and fixed-income markets. The remainder of the reporting period generated economic, business, and investing data that were decidedly more mixed and volatile relative to the prior year.

Dear Shareholder:

We are pleased to offer you this annual report for the Wells Fargo Multi-Sector Income Fund for the 12-month period that ended October 31, 2018. The early months of the reporting period were characterized by strong performance for equity and fixed-income markets. The remainder of the reporting period generated economic, business, and investing data that were decidedly more mixed and volatile relative to the prior year.

For the period, U.S. stocks, as measured by the S&P 500 Index,¹ gained 7.35% and international stocks, as measured by the MSCI ACWI ex USA Index (Net),² declined 8.24%. Based on the MSCI EM Index (Net),³ emerging market stocks lost 12.52%. For bond investors, the Bloomberg Barclays U.S. Aggregate Bond Index⁴ declined 2.05% and the Bloomberg Barclays Global Aggregate ex-USD Index⁵ fell 2.09%. The Bloomberg Barclays Municipal Bond Index⁶ dropped 0.51%, and the ICE BofAML U.S. High Yield Index⁷ was up 0.86%.

Optimism continued to shape markets as 2017 closed and 2018 opened.

Economic conditions in late 2017 were characterized by synchronized global growth, low inflation, healthy corporate earnings, growing consumer confidence, declining unemployment, and a weaker U.S. dollar that supported international growth. The U.S. Bureau of Economic Analysis reported that U.S. gross domestic product (GDP) growth on an annualized basis for the fourth quarter of 2017 was 2.9% and inflation remained below the U.S. Federal Reserve (Fed) target.

Economic momentum continued in Europe. The Bank of England (BOE) raised interest rates in November 2017 to 0.50%, the first increase in more than 10 years, indicating confidence in the economy's growth potential. Meanwhile,

the European Central Bank (ECB) and the Bank of Japan (BOJ) kept interest rates low to spur business activities and bought bonds in an effort to encourage equity investments. The People's Bank of China (PBOC) also sought to stimulate economic growth. Many emerging market economies benefited from stronger currencies versus the U.S. dollar, while commodity price increases benefited countries that rely on natural resources for exports.

¹The S&P 500 Index consists of 500 stocks chosen for market size, liquidity, and industry group representation. It is a market-value-weighted index with each stock's weight in the index proportionate to its market value. You cannot invest directly in an index.

²The Morgan Stanley Capital International (MSCI) All Country World Index (ACWI) ex USA Index (Net) is a free-float-adjusted market-capitalization-weighted index that is designed to measure the equity market performance of developed markets, excluding the United States and Canada. Source: MSCI. MSCI makes no express or implied warranties or representations and shall have no liability whatsoever with respect to any MSCI data contained herein. The MSCI data may not be further redistributed or used as a basis for other indices or any securities or financial products. This report is not approved, reviewed, or produced by MSCI. You cannot invest directly in an index.

³ The MSCI Emerging Markets (EM) Index (Net) is a free-float-adjusted market-capitalization-weighted index that is designed to measure large- and mid-cap equity market performance of emerging markets. The MSCI EM Index (Net) consists of the following 24 emerging market country indices: Brazil, Chile, China, Colombia, Czech Republic, Egypt, Greece, Hungary, India, Indonesia, Korea, Malaysia, Mexico, Pakistan, Peru, the Philippines, Poland, Qatar, Russia, South Africa, Taiwan, Thailand, Turkey, and the United Arab Emirates. You cannot invest directly in an index.

⁴ The Bloomberg Barclays U.S. Aggregate Bond Index is a broad-based benchmark that measures the investment-grade, U.S. dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, mortgage-backed securities (agency fixed-rate and hybrid adjustable-rate mortgage pass-throughs), asset-backed securities, and commercial mortgage-backed securities. You cannot invest directly in an index.

⁵The Bloomberg Barclays Global Aggregate ex-USD Index is an unmanaged index that provides a broad-based measure of the global investment-grade fixed-income markets excluding the U.S. dollar-denominated debt market. You cannot invest directly in an index.

⁶The Bloomberg Barclays Municipal Bond Index is an unmanaged index composed of long-term tax-exempt bonds with a minimum credit rating of Baa. You cannot invest directly in an index.

⁷The ICE BofAML U.S. High Yield Index is a market-capitalization-weighted index of domestic and Yankee high-yield bonds. The index tracks the performance of high-yield securities traded in the U.S. bond market. You cannot invest directly in an index. Copyright 2018. ICE Data Indices, LLC. All rights reserved.

Wells Fargo Multi-Sector Income Fund 3

Volatility reemerged during the early months of 2018.

In February 2018, investor concerns arose about inflation and trade, particularly between the U.S. and China. The Fed followed its 25-basis-point (bp; 100 bps equal 1.00%) federal funds rate increase in December 2017 with a further 25-bp increase in March 2018. The inflation rate in March reached the Fed's 2% target for the first time in a year. The S&P 500 Index closed the first quarter with a negative return, the first negative quarterly return for the index since 2014.

Overseas investment markets, hurt by a stronger U.S. dollar and mounting trade and diplomatic tensions, fell. The MSCI ACWI ex USA Index (Net) declined 1.81% for the quarter that ended March 31, 2018.

Global trade tensions prompted investor concerns.

Global trade tensions escalated during the second quarter of 2018. The U.S. government's decision to impose tariffs on a wide range of products manufactured overseas drew retaliatory responses from foreign governments, which punished U.S. commodity producers and product manufacturers. Investors were left to wonder about next steps in what appeared to be an escalating divergence in global economic policies and growth prospects.

Inflation trended higher. The CPI-U⁸ added 0.1% in June after an increase of 0.2% in both April and May. On a year-over-year basis, the all-items index rose 2.9% for the 12 months that ended June 30, 2018. The index for all items less food and energy rose 2.3% for the same 12-month period.

U.S. stocks gained following positive economic data while international stocks and bonds declined.

During the summer months, the U.S. economy strengthened. Revised second-quarter GDP data released in August showed the U.S. economy growing at a 4.2% rate. The unemployment rate in the U.S. was 3.7% by the end of September, according to the U.S. Department of Labor. Wages showed more consistent growth, and consumer confidence remained strong. Several U.S. equity market indices reached records during August, with the S&P 500 Index gaining 7.20% for the three-month period that ended September 30, 2018. In contrast, the MSCI ACWI ex USA Index (Net) gained 0.71% and the MSCI EM Index (Net) declined 1.09% during the same three-month period.

In June, the Fed increased the target range for the federal funds rate to range from 1.75% to 2.00%, then again in September to range from 2.00% to 2.25%. Long-term interest rates in the U.S. remained at higher levels relative to the prior 10 years. Rates on 10-year and 30-year Treasury bonds 2.46% and 2.81%, respectively, on January 1, 2018 were 3.15% and 3.39%, respectively, on October 31, 2018. Investor concerns about an inverted yield curve waned, only to be replaced by concerns about the potentially negative influence of higher interest rates on economic activity.

October proved to be a difficult month for stock markets globally.

As interest rates and bond yields gained during October, stock markets struggled. For the month, the S&P 500 Index fell 6.84%, the MSCI ACWI ex USA Index (Net) dropped 8.13%, and the MSCI EM Index (Net) lost 8.71%. The Bureau of Economic Analysis released its first estimate of third-quarter GDP, which, at an annualized 3.5% rate, indicated that growth may be slowing compared with the second quarter. Readings on consumer sentiment and business spending were mixed.

The S&P 500 Index closed the first quarter with a negative return, the first negative quarterly return for the index since 2014.

⁸ The Consumer Price Index for All Urban Consumers (CPI-U) measures the changes in the price of a basket of goods and services purchased by urban consumers. The urban consumer population is deemed by many as a better representative measure of the general public because close to 90% of the country's population lives in highly populated areas. You cannot invest directly in an index.

Table of Contents

4 Wells Fargo Multi-Sector Income Fund Letter to shareholders (unaudited)

Economic signals overseas also were mixed as the third quarter ended and the fourth quarter began. In early August, the BOE's Monetary Policy Committee increased its key interest rate to 0.75%. The ECB and the BOJ maintained low interest rates and accommodative monetary policies. Amid rising trade uncertainty, the PBOC cut reserve requirement ratios and accelerated infrastructure spending and tax cuts for business enterprises and individuals. Nevertheless, a strengthening U.S. dollar and the trade tensions remained headwinds for investors overseas.

Don't let short-term uncertainty derail long-term investment goals.

Periods of investment uncertainty can present challenges, but experience has taught us that maintaining long-term investment goals can be an effective way to plan for the future. Although diversification cannot guarantee an investment profit or prevent losses, we believe it can be an effective way to manage investment risk and potentially smooth out overall portfolio performance. We encourage investors to know their investments and to understand that appropriate levels of risk-taking may unlock opportunities.

Thank you for choosing to invest with Wells Fargo Funds. We appreciate your confidence in us and remain committed to helping you meet your financial needs.

Sincerely,

Andrew Owen

President

Wells Fargo Funds

Notice to shareholders

On November 9, 2018, the Fund announced an extension of its open-market share repurchase program (the Buyback Program). Under the extended Buyback Program, the Fund may repurchase up to 10% of its outstanding shares during the period in open-market transactions beginning on January 1, 2019 and ending on December 31, 2019. The Fund's Board of Trustees has delegated to Wells Fargo Funds Management, LLC, the Fund's adviser, discretion to administer the Buyback Program including the determination of the amount and timing of repurchases in accordance with the best interests of the Fund and subject to applicable legal limitations.

The Fund's managed distribution plan provides for the declaration of monthly distributions to common shareholders of the Fund at an annual minimum fixed rate of 9% based on the Fund's average monthly NAV per share over the prior 12 months. Under the managed distribution plan, monthly distributions may be sourced from income, paid-in capital, and/or capital gains, if any. To the extent that sufficient investment income is not available on a monthly basis, the Fund may distribute paid-in capital and/or capital gains, if any, in order to maintain its managed distribution level. You should not draw any conclusions about the Fund's investment performance from the amount of the Fund's distributions or from the terms of the managed distribution plan. Shareholders may elect to reinvest distributions received pursuant to the managed distribution plan in the Fund under the existing dividend reinvestment plan, which is described later in this report.

For further information about your Fund, contact your investment professional, visit our website at wellsfargofunds.com, or call us directly at **1-800-222-8222**.

Performance highlights (unaudited)

Investment objective

The Fund seeks a high level of current income consistent with limiting its overall exposure to domestic interest rate-risk.

Strategy summary

The Fund allocates its assets between three separate investment strategies, or sleeves. Under normal market conditions, the Fund will allocate approximately 30%-70% of its total assets to a sleeve consisting of non-investment-grade (high yield) corporate debt, including floating-rate high yield bank loan securities; approximately 10%-40% to a sleeve of foreign debt securities, including emerging market debt; and approximately 10%-30% to a sleeve of adjustable-rate and fixed-rate mortgage backed securities, and investment grade corporate bonds.

Figures quoted represent past performance, which is no guarantee of future results, and do not reflect taxes that a shareholder may pay on fund distributions or the sales of fund shares. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted, which assumes the reinvestment of dividends and capital gains. Performance figures of the Fund do not reflect brokerage commissions that a shareholder would pay on the purchase and sale of shares. If taxes and such brokerage commissions had been reflected, performance would have been lower. To obtain performance information current to the most recent month-end, please call 1-800-222-8222.

The Fund's expense ratio for the year ended October 31, 2018, was 2.14%, which includes 1.07% of interest expense.

Comparison of NAV vs. market value⁸

The Fund is leveraged through a revolving credit facility. The use of leverage results in certain risks, including, among others, the likelihood of greater volatility of net asset value and the market value of common shares. Foreign investments are especially volatile and can rise or fall dramatically due to differences in the political and economic conditions of the host country. These risks are generally intensified in emerging markets. Derivatives involve additional risks, including interest rate risk, credit risk, the risk of improper valuation, and the risk of non-correlation to the relevant instruments that they are designed to hedge or closely track. Bond values fluctuate in response to the financial condition of individual issuers, general market and economic conditions, and changes in interest rates. Changes in market conditions and government policies may lead to periods of heightened volatility in the bond market and reduced liquidity for certain bonds held by the Fund. In general, when interest rates rise, bond values fall and investors may lose principal value. Interest rate changes and their impact on the Fund and its share price can be sudden and unpredictable. High-yield securities have a greater risk of default and tend to be more volatile than higher-rated debt securities. The Fund is exposed to mortgage- and asset-backed securities risk. This closed-end fund is no longer available as an initial public offering and is only offered through broker/dealers on the secondary market.

Wells Fargo Multi-Sector Income Fund 7

MANAGERS DISCUSSION

The Fund's return based on market value was -1.91% for the 12-month period that ended October 31, 2018. During the same period, the Fund's return based on its net asset value (NAV) was 1.28%. Based on its NAV return, the Fund outperformed the Multi-Sector Income Blended Index, which lost 1.10% over the same period.

Market conditions shifted across fixed-income sectors during the period.

During the reporting period, U.S. Treasuries, as measured by the Bloomberg Barclays U.S. Treasury Index⁹ outperformed U.S. investment-grade corporate bonds, as measured by the Bloomberg Barclays U.S. Corporate Bond Index¹⁰. Negative performance from the first and second quarters of 2018 was nearly offset by spread tightening seen in the third quarter, but market volatility in October and a sell-off in risk assets pushed performance down.

Securitized sectors underperformed U.S. Treasuries. Underperformance was driven by the mortgage-backed security (MBS) sector, where spreads widened in reaction to increased volatility and the U.S. Federal Reserve's sale of bonds purchased as part of its quantitative easing policy. Commercial mortgage-backed securities (CMBS), private-label residential mortgage-backed securities (RMBS), and asset-backed securities (ABS) outperformed when compared with U.S. Treasury bonds with the same duration. In general, lower-rated segments of these sectors outperformed higher-rated segments.

While high-yield market returns were modest less than 1%, as measured by the ICE BofAML U.S. High Yield Index Constrained Index¹¹ the asset class outperformed many of its higher-quality, fixed-income alternatives, as measured by the Bloomberg Barclays Aggregate Bond Index¹². The return was primarily driven by interest income offset by principal loss. The principal loss was caused by a modest increase in spreads between Treasury bonds and corporate credits as well as higher Treasury yields. The lowest-quality bonds outperformed higher-quality bonds.

Investment flows into high yield have been negative for a number of years. Nonetheless, the market technicals have been strong. High yield has lacked new issuance, and more companies have been upgraded to investment grade (issuers that may be considered rising stars) than have been downgraded to high yield (companies considered fallen angels). This has had the effect of slightly shrinking the size of the high-yield market. By contrast, the bank-loan market has grown over this time and has been the source for financing many of the more aggressively structured deals. This has been a positive for high yield as credit quality by rating has improved. Currently, relative to history, high yield has fewer CCC-rated credits and more BB-rated credits in the benchmark.

From a fundamental perspective, levels of corporate leverage among U.S. companies included in the index remained elevated for this point in the credit cycle, though they declined as the end of the period approached. However, the cash-flow impact from these higher leverage levels is somewhat offset by issuers' ability to pay low interest rates. A rising London Interbank Offered Rate and higher bond yields will gradually reduce these coverage levels, but rates continue to be low in the context of history.

In emerging markets, fixed-income assets traded in a wide range over the past 12 months, performing well at the start of the period before coming under pressure. Currencies underperformed fixed income, largely due to the strength of the U.S. dollar in the latter half of the reporting period. The Fund maintained its tilt toward higher-yielding emerging markets over the reporting period, but there have been some changes within the overarching bias. With South Africa at risk of losing its last investment-grade rating, the Fund's exposure has been switched from domestic government

bonds to AAA-rated supranationals like the European Investment Bank. The shift was intended to ensure that the Fund had access to the rand interest rate environment without breaching ratings requirements. The managers worked to increase diversification over the reporting period by adding exposure to Brazil and Peru, with the position in the former also in supranational securities. Exposure to India and Malaysia was increased at the expense of Mexico and Colombia. After a period of strong performance, the position in Hungarian government bonds was sold.

Credit quality as of October 31, 2018¹⁴

Contributors to performance included securitized sectors, high-yield bond security selection, and selected countries.

Within the mortgage and corporate sleeve of the Fund, securitized holdings generally added value during the period with ABS and RMBS the largest contributors. Agency CMBS and private-label CMBS contributed modestly. Overweights to the financial and industrial sectors were contributors, as was security selection within the financial sector.

Within the Fund's high-yield portfolio sleeve, security selection was the main driver of positive performance during the period. Selection within the transportation services, cable and satellite, oil-field services, and finance sectors were the largest contributors to relative performance. Overall industry selection benefited performance, while maturity allocation did not have a meaningful impact on performance over the reporting period.

Within the Fund's allocation to international and emerging market bonds, positions in South Africa, Colombia, and Hungary were amongst the largest positive contributors. Exposure to the Malaysian ringgit was also a value-add.

Selected securities, sector allocations, and the strength of the U.S. dollar restrained performance.

The Fund's mortgage/corporate credit sleeve holdings in certain residential MBS and CMBS positions modestly detracted from performance during the period due to security-specific prepayment and ratings changes. Security selection within media and entertainment and midstream oil and gas production were also modest detractors.

The main detractors from Fund performance in the high-yield sleeve were an underweight to supermarkets, security selection within media and entertainment, and the combination of an underweight to and selection within the energy exploration and production sector.

Within international and emerging market bonds, the strength of the U.S. dollar in the latter half of the reporting period meant that emerging market currency exposures generally detracted from performance. The Indian rupee, Brazilian real, and Indonesian rupiah were the worst affected. The Indonesian bond market has struggled as well.

The management teams of the Fund's portfolio sleeves have favorable market outlooks but remain risk-aware.

While the management team of the Fund's mortgage and corporate bond sleeve expects fundamentals to remain favorable for credit over the remainder of the year, the team sees limited upside from current levels as valuations already reflect a benign macroeconomic environment. Business fundamentals were largely supportive of corporate creditworthiness during the period as earnings surged and profit margins remained high. On a year-over-year basis, both corporate revenue and cash flow increased by about 9% while leverage declined. The reduction in leverage was largely due to improvement in the commodity sector. Excluding commodities, credit metrics remained near the most aggressive levels of this cycle. With credit spreads only slightly wider than the recent tights, overall valuation remains a concern. The team still sees opportunity in BBB-rated names, though, and believes that some financials and utilities offer attractive relative value.

Within securitized sectors, the team remains focused on shorter-duration cash flows in the senior part of the capital structure as credit fundamentals remain stable. Approximately 63% of the Fund's mortgage and corporate bond sleeve's exposure is in corporate credit and around 35% is in fixed-rate and floating-rate mortgage securities. The largest industry exposures in the credit sector include banks, media and entertainment, and technology companies.

Please see footnotes on page 10.

Table of Contents

Performance highlights (unaudited) Wells Fargo Multi-Sector Income Fund 9

The management team for the Fund's high-yield sleeve views most asset classes as richly valued based on historical measures and expects that, at some point in the future, there may be a better entry point to buy most asset classes, including high yield. High yield, however, is rather unique in that it has historically benefited from relatively high coupons, which cushioned downside risks of price declines. With a benign default outlook, high yield should continue to do well, on a relative basis, though idiosyncratic or individual bond risk is high. The sleeve's management team leans toward spreads remaining flat from these levels in the short run before ultimately widening potentially significantly in the mid to longer term.

While the high-yield team continues to remain cautiously optimistic that this environment will continue in the near term, members are cognizant that ideal environments never last forever and that the longer spreads stay low, the risk of an ultimate sell-off increases. Over a full cycle, the high-yield sleeve's management team believes the best way to insulate the Fund from periodic bouts of systemic fears and rebalancing is by following a bottom-up investment process that attempts to minimize downside risk while capturing the return potential of high-yield issuers.

The Fund's international and emerging market bond sleeve has weathered a period of heightened volatility in the global markets, with the strength of the U.S. dollar creating a headwind to emerging market gains. There are reasons to be positive on the asset class. Positioning is light among investors when compared with long-term averages and valuations are extremely attractive, which may mitigate the risk of higher levels of outflows from the asset class. The growing narrative around a global slowdown could materially benefit local-currency emerging market bonds.

Effective maturity distribution as of October 31, 2018¹⁵

Country allocation as of October 31, 2018¹⁵

- ⁸ This chart does not reflect any brokerage commissions charged on the purchase and sale of the Fund's common stock. Dividends and distributions paid by the Fund are included in the Fund's average annual total returns but have the effect of reducing the Fund's NAV.
- ⁹ The Bloomberg Barclays U.S. Treasury Index is an unmanaged index of prices of U.S. Treasury bonds with maturities of 1 to 30 years. You cannot invest directly in an index.
- ¹⁰ The Bloomberg Barclays U.S. Corporate Bond Index is an unmanaged market-value-weighted index of investment-grade corporate fixed-rate debt issues with maturities of one year or more. You cannot invest directly in an index.
- ¹¹ The ICE BofAML U.S. High Yield Constrained Index is a market-value-weighted index of all domestic and Yankee high-yield bonds, including deferred interest bonds and payment-in-kind securities. Issues included in the index have maturities of one year or more and have a credit rating lower than BBB-/Baa3 but are not in default. The ICE BofAML U.S. High Yield Constrained Index limits any individual issuer to a maximum of 2% benchmark exposure. You cannot invest directly in an index. Copyright 2018. ICE Data Indices, LLC. All rights reserved.
- ¹² The Bloomberg Barclays U.S. Aggregate Bond Index is a broad-based benchmark that measures the investment-grade, U.S.-dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, mortgage-backed securities (agency fixed-rate and hybrid adjustable-rate mortgage pass-throughs), asset-backed securities, and commercial mortgage-backed securities. You cannot invest directly in an index.
- ¹³ The ten largest holdings, excluding cash, cash equivalents and any money market funds, are calculated based on the value of the investments divided by total net assets of the Fund. Holdings are subject to change and may have changed since the date specified.
- ¹⁴ The credit quality distribution of portfolio holdings reflected in the chart is based on ratings from Standard & Poor's, Moody's Investors Service, and/or Fitch Ratings Ltd. Credit quality ratings apply to the underlying holdings of the Fund and not to the Fund itself. The percentages of the Fund's portfolio with the ratings depicted in the chart are calculated based on the total market value of fixed income securities held by the Fund. If a security was rated by all three rating agencies, the middle rating was utilized. If rated by two of the three rating agencies, the lower rating was utilized, and if rated by one of the rating agencies, that rating was utilized. Standard & Poor's rates the creditworthiness of bonds, ranging from AAA (highest) to D (lowest). Ratings from A to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories. Standard & Poor's rates the creditworthiness of short-term notes from SP-1 (highest) to SP-3 (lowest). Moody's rates the creditworthiness of bonds, ranging from Aaa (highest) to C (lowest). Ratings Aa to B may be modified by the addition of a number 1 (highest) to 3 (lowest) to show relative standing within the ratings categories. Moody's rates the creditworthiness of short-term U.S. tax-exempt municipal securities from MIG 1/VMIG 1 (highest) to SG (lowest). Fitch rates the creditworthiness of bonds, ranging from AAA (highest) to D (lowest). Credit quality distribution is subject to change and may have changed since the date specified.

Amounts are calculated based on the total long-term investments of the Fund. These amounts are subject to change and may have changed since the date specified.

Portfolio of investments October 31, 2018

Wells Fargo Multi-Sector Income Fund 31

± Variable rate investment. The rate shown is the rate in effect at period end.

144A The security may be resold in transactions exempt from registration, normally to qualified institutional buyers, pursuant to Rule 144A under the Securities Act of 1933.

±± The coupon of the security is adjusted based on the principal and interest payments received from the underlying pool of mortgages as well as the credit quality and the actual prepayment speed of the underlying mortgages.

(c) Investment in an interest-only security entitles holders to receive only the interest payments on the underlying mortgages. The principal amount shown is the notional amount of the underlying mortgages. The rate represents the coupon rate.

¥ A payment-in-kind (PIK) security is a security in which the issuer may make interest or dividend payments in cash or additional securities. These additional securities generally have the same terms as the original holdings.

(a) The security is fair valued in accordance with procedures approved by the Board of Trustees.

@ Foreign bond principal is denominated in the local currency of the issuer.

Non-income-earning security

Security is valued using significant unobservable inputs.

< All or a portion of the position represents an unfunded loan commitment. The rate represents current interest rate if the loan is partially funded.

%% The security is issued on a when-issued basis.

Edgar Filing: WELLS FARGO MULTI-SECTOR INCOME FUND - Form N-CSR

- (l) The issuer of the security is an affiliated person of the Fund as defined in the Investment Company Act of 1940.
- (u) The rate represents the 7-day annualized yield at period end.

All or a portion of this security is segregated for when-issued and/or unfunded loans.

Investments in Affiliates

An affiliated investment is an investment in which the Fund owns at least 5% of the outstanding voting shares of the issuer or as a result of other relationships, such as the Fund and the issuer having the same investment manager. Transactions with issuers that were either affiliated persons of the Fund at the beginning of the period or the end of the period were as follows:

	Shares, beginning of period	Shares purchased	Shares sold	Shares, realized end of period	Net Change in Income			Value, end of period	% of net assets
					realized gains (losses)	realized from gains (losses) affiliated securities

¹ Calculated based upon average shares outstanding

² Total return is calculated assuming a purchase of common stock on the first day and sale on the last day of the period reported. Dividends and distributions, if any, are assumed for purposes of these calculations to be reinvested at prices obtained under the Fund's Automatic Dividend Reinvestment Plan. Total return does not reflect brokerage commissions that a shareholder would pay on the purchase and sale of shares.

³ Ratios include interest expense relating to interest associated with borrowings and/or leverage transactions as follows:

Year ended October 31, 2018	1.07%
Year ended October 31, 2017	0.61%
Year ended October 31, 2016	0.44%
Year ended October 31, 2015	0.24%
Year ended October 31, 2014	0.07%

Table of Contents

Notes to financial statements

Wells Fargo Multi-Sector Income Fund 37

1. ORGANIZATION

Wells Fargo Multi-Sector Income Fund (the Fund) was organized as a statutory trust under the laws of the state of Delaware on April 10, 2003 and is registered as a diversified closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). As an investment company, the Fund follows the accounting and reporting guidance in Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 946, *Financial Services - Investment Companies*.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund, are in conformity with U.S. generally accepted accounting principles which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Securities valuation

All investments are valued each business day as of the close of regular trading on the New York Stock Exchange (generally 4 p.m. Eastern Time), although the Fund may deviate from this calculation time under unusual or unexpected circumstances.

Debt securities are valued at the evaluated bid price provided by an independent pricing service (e.g. taking into account various factors, including yields, maturities, or credit ratings) or, if a reliable price is not available, the quoted bid price from an independent broker-dealer.

Equity securities that are listed on a foreign or domestic exchange or market are valued at the official closing price or, if none, the last sales price. If no sale occurs on the principal exchange or market that day, a fair value price will be determined in accordance with the Fund's Valuation Procedures.

The values of securities denominated in foreign currencies are translated into U.S. dollars at rates provided by an independent foreign currency pricing source at a time each business day specified by the Wells Fargo Asset Management Pricing Committee at Wells Fargo Funds Management, LLC (Funds Management).

Investments in registered open-end investment companies are valued at net asset value.

Investments which are not valued using any of the methods discussed above are valued at their fair value, as determined in good faith by the Board of Trustees of the Fund. The Board of Trustees has established a Valuation Committee comprised of the Trustees and has delegated to it the authority to take any actions regarding the valuation of portfolio securities that the Valuation Committee deems necessary or appropriate, including determining the fair value of portfolio securities, unless the determination has been delegated to the Wells Fargo Asset Management Pricing Committee. The Board of Trustees retains the authority to make or ratify any valuation decisions or approve any changes to the Valuation Procedures as it deems appropriate. On a quarterly basis, the Board of Trustees receives reports on any valuation actions taken by the Valuation Committee or the Wells Fargo Asset Management Pricing Committee which may include items for ratification.

Foreign currency translation

The accounting records of the Fund are maintained in U.S. dollars. The values of other assets and liabilities denominated in foreign currencies are translated into U.S. dollars at rates provided by an independent foreign currency pricing source at a time each business day specified by the Wells Fargo Asset Management Pricing Committee. Purchases and sales of securities, and income and expenses are converted at the rate of exchange on the respective dates of such transactions. Net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded and the U.S. dollar equivalent of the amounts actually paid or received. Net unrealized foreign exchange gains and losses arise from changes in the fair value of assets and liabilities other than investments in securities resulting from changes in exchange rates. The changes in net assets arising from changes in exchange rates of securities and the changes in net assets resulting from changes in market prices of securities are not separately presented. Such changes are included in net realized and unrealized gains or losses from investments.

When-issued transactions

The Fund may purchase securities on a forward commitment or when-issued basis. The Fund records a when-issued transaction on the trade date and will segregate assets in an amount at least equal in value to the Fund's commitment to purchase when-issued securities. Securities purchased on a when-issued basis are marked-to-market daily and the Fund begins earning interest on the settlement date. Losses may arise due to changes in the market value of the underlying securities or if the counterparty does not perform under the contract.

Table of Contents

38 Wells Fargo Multi-Sector Income Fund
Loans

Notes to financial statements

The Fund may invest in direct debt instruments which are interests in amounts owed to lenders by corporate or other borrowers. The loans pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. Investments in loans may be in the form of participations in loans or assignments of all or a portion of loans from third parties. When the Fund purchases participations, it generally has no rights to enforce compliance with terms of the loan agreement with the borrower. As a result, the Fund assumes the credit risk of both the borrower and the lender that is selling the participation. When the Fund purchases assignments from lenders, it acquires direct rights against the borrower on the loan and may enforce compliance by the borrower with the terms of the loan agreement. Loans may include fully funded term loans or unfunded loan commitments, which are contractual obligations for future funding.

Security transactions and income recognition

Securities transactions are recorded on a trade date basis. Realized gains or losses are recorded on the basis of identified cost.

Interest income is accrued daily and bond discounts are accreted and premiums are amortized daily. To the extent debt obligations are placed on non-accrual status, any related interest income may be reduced by writing off interest receivables when the collection of all or a portion of interest has been determined to be doubtful based on consistently applied procedures and the fair value has decreased. If the issuer subsequently resumes interest payments or when the collectability of interest is reasonably assured, the debt obligation is removed from non-accrual status.

Dividend income is recognized on the ex-dividend date.

Income from foreign securities is recorded net of foreign taxes withheld where recovery of such taxes is not assured.

Distributions to shareholders

Under a monthly distribution plan, the Fund pays distributions to shareholders at an annual minimum fixed rate of 9% based on the Fund's average monthly net asset value per share over the prior 12 months. The monthly distributions may be sourced from income, paid-in capital, and/or capital gains, if any. To the extent that sufficient investment income is not available on a monthly basis, the Fund may distribute paid-in capital and/or capital gains, if any, in order to maintain its managed distribution level.

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in accordance with income tax regulations and may differ from U.S. generally accepted accounting principles. Dividend sources are estimated at the time of declaration. The tax character of distributions is determined as of the Fund's fiscal year end. Therefore, a portion of the Fund's distributions made prior to the Fund's fiscal year end may be categorized as a tax return of capital at year end.

Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company by distributing substantially all of its investment company taxable income and any net realized capital gains (after reduction for capital loss carryforwards)

sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for federal income taxes was required.

The Fund's income and federal excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal and Delaware revenue authorities. Management has analyzed the Fund's tax positions taken on federal, state, and foreign tax returns for all open tax years and does not believe that there are any uncertain tax positions that require recognition of a tax liability.

As of October 31, 2018, the aggregate cost of all investments for federal income tax purposes was \$621,575,109 and the unrealized gains (losses) consisted of:

Gross unrealized gains	\$ 12,364,169
Gross unrealized losses	(34,347,020)
Net unrealized losses	\$ (21,982,851)

As of October 31, 2018, the Fund had capital loss carryforwards which consist of \$11,604,833 in short-term capital losses and \$14,769,863 in long-term capital losses.

3. FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to

Table of Contents

Notes to financial statements Wells Fargo Multi-Sector Income Fund 39
 unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing investments in securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets and liabilities as of October 31, 2018:

	Quoted prices (Level 1)	Other significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total
Assets				
Investments in:				
Agency securities	\$ 0	\$ 7,140,147	\$ 0	\$ 7,140,147
Asset-backed securities	0	3,505,043	0	3,505,043
Common stocks				
<i>Materials</i>	803	0	0	803
Corporate bonds and notes	0	331,312,248	0	331,312,248
Foreign corporate bonds and notes	0	19,373,032	0	19,373,032
Foreign government bonds	0	86,217,560	0	86,217,560
Loans	0	73,616,607	14,613,791	88,230,398
Non-agency mortgage-backed securities	0	17,010,205	0	17,010,205
Rights				
<i>Utilities</i>	0	238,984	0	238,984
Yankee corporate bonds and notes	0	38,169,244	0	38,169,244

Short-term investments

<i>Investment companies</i>	8,394,594	0	0	8,394,594
Total assets	\$ 8,395,397	\$ 576,583,070	\$ 14,613,791	\$ 599,592,258

Additional sector, industry or geographic detail is included in the Portfolio of Investments.

At October 31, 2018, the Fund did not have any transfers into/out of Level 3.

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

	Asset- backed securities	Loans	Yankee corporate bonds and notes	Total
Balance as of October 31, 2017	\$ 700,000	\$ 20,926,735	\$ 7,293	\$ 21,634,028
Accrued discounts (premiums)	0	17,784	0	17,784
Realized gains (losses)	0	(48,925)	0	(48,925)
Change in unrealized gains (losses)	(232)	(452,502)	602,164	149,430
Purchases	0	4,022,507	0	4,022,507
Sales	0	(9,161,978)	(609,457)	(9,771,435)
Transfers into Level 3	0	4,824,575	0	4,824,575
Transfers out of Level 3	(699,768)	(5,514,405)	0	(6,214,173)
Balance as of October 31, 2018	\$ 0	\$ 14,613,791	\$ 0	\$ 14,613,791
Change in unrealized gains (losses) relating to securities still held at October 31, 2018	\$ 0	\$ (17,732)	\$ 0	\$ (17,732)

Table of Contents

40 Wells Fargo Multi-Sector Income Fund Notes to financial statements
The loan obligations in the Level 3 table were valued using indicative broker quotes. These indicative broker quotes are considered Level 3 inputs. Quantitative unobservable inputs used by the brokers are often proprietary and not provided to the Fund and therefore the disclosure that would address these inputs is not included above.

4. TRANSACTIONS WITH AFFILIATES

Advisory fee

Funds Management, an indirect wholly owned subsidiary of Wells Fargo & Company (Wells Fargo) is the adviser to the Fund and is entitled to receive a fee at an annual rate of 0.55% of the Fund's average daily total assets. Total assets consist of net assets of the Fund plus borrowings or other leverage for investment purposes to the extent excluded in calculating net assets.

Funds Management has retained the services of certain subadvisers to provide daily portfolio management to the Fund. The fees for subadvisory services are borne by Funds Management. Wells Capital Management Incorporated, an affiliate of Funds Management and an indirect, wholly owned subsidiary of Wells Fargo, is a subadviser to the Fund and is entitled to receive a fee from Funds Management at an annual rate of 0.30% of the Fund's average daily total assets. Wells Fargo Asset Management (International), LLC (formerly, First International Advisors, LLC), an affiliate of Funds Management and an indirect, wholly owned subsidiary of Wells Fargo, is also a subadviser to the Fund and is entitled to receive a fee from Funds Management at an annual rate of 0.10% of the Fund's average daily total assets.

Administration fee

Funds Management also serves as the administrator to the Fund, providing the Fund with a wide range of administrative services necessary to the operation of the Fund. Funds Management is entitled to receive an annual administration fee from the Fund equal to 0.05% of the Fund's average daily total assets.

Interfund transactions

The Fund may purchase or sell portfolio investment securities to certain other Wells Fargo affiliates pursuant to Rule 17a-7 under the 1940 Act and under procedures adopted by the Board of Trustees. The procedures have been designed to ensure that these interfund transactions, which do not incur broker commissions, are effected at current market prices. Pursuant to these procedures, the Fund had \$11,423,494 in interfund purchases during the year ended October 31, 2018.

5. CAPITAL SHARE TRANSACTIONS

The Fund has authorized capital of 100,000,000 shares with no par value. For the year ended October 31, 2018 and the year ended October 31, 2017, the Fund did not issue any shares.

On November 10, 2017, the Fund announced the reinstatement of its open-market share repurchase program (the Buyback Program). Under the Buyback Program, the Fund may repurchase up to 10% of its outstanding shares in open market transactions during the period beginning on January 1, 2018 and ending on December 31, 2018. The Fund's Board of Trustees had delegated to Funds Management discretion to administer the Buyback Program including

the determination of the amount and timing of repurchases in accordance with the best interests of the Fund and subject to applicable legal limitations. During the year ended October 31, 2018, the Fund purchased 3,397,183 of its shares on

the open market at a total cost of \$43,599,996 (weighted average price per share of \$12.83). The weighted average discount of these repurchased shares was 12.14%.

6. BORROWINGS

The Fund has borrowed \$187,000,000 through a revolving credit facility administered by a major financial institution (the Facility). The Facility has a commitment amount of \$230,000,000 with no specific contract expiration date but the Facility can be terminated upon 180 days notice. The Fund is charged interest at London Interbank Offered Rate (LIBOR) plus 0.70% and a commitment fee of 0.30% of the average daily unutilized amount of the commitment which may be waived if the amount drawn on the Facility is over 75% of the committed amount. The financial institution holds a security interest in all the assets of the Fund as collateral for the borrowing.

During the year ended October 31, 2018, the Fund had average borrowings outstanding of \$187,000,000 at an average interest rate of 2.65% and paid interest in the amount of \$4,949,712, which represents 1.07% of its average daily net assets. Based on the nature of the terms of the Facility and comparative market rates, the carrying amount of the borrowings at October 31, 2018 approximates its fair value. If measured at fair value, the borrowings would be categorized as a Level 2 under the fair value hierarchy.

Table of Contents

Notes to financial statements

Wells Fargo Multi-Sector Income Fund 41

7. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments, excluding U.S. government obligations (if any) and short-term securities, for the year ended October 31, 2018 were \$156,261,733 and \$165,710,009, respectively.

As of October 31, 2018, the Fund had unfunded term loan commitments of \$2,833,116.

8. DISTRIBUTIONS TO SHAREHOLDERS

The tax character of distributions paid during the years ended October 31, 2018 and October 31, 2017 were as follows:

	Year ended October 31	
	2018	2017
Ordinary income	\$ 15,295,803	\$ 26,702,083
Tax basis return of capital	27,375,294	19,927,206

As of October 31, 2018 the components of distributable earnings on a tax basis were as follows:

Unrealized losses	Capital loss carryforward
\$(22,043,108)	\$(26,374,696)

Effective for all filings after November 4, 2018, the Securities and Exchange Commission eliminated the requirement to separately state the components of distributions to shareholders. Distributions to shareholders for the year ended October 31, 2017 consisted of \$26,702,083 from net investment income.

9. INDEMNIFICATION

Under the Fund's organizational documents, the officers and Trustees have been granted certain indemnification rights against certain liabilities that may arise out of performance of their duties to the Fund. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated.

10. NEW ACCOUNTING PRONOUNCEMENTS

In August 2018, FASB issued Accounting Standards Update (ASU) No. 2018-13, Fair Value Measurement (Topic 820) *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. ASU 2018-13 updates the disclosure requirements for fair value measurements by modifying or removing certain disclosures and adding certain new disclosures. The amendments are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is permitted. Management has adopted the removal and modification of disclosures early, as permitted, and will adopt the additional new disclosures at the effective date.

In March 2017, FASB issued ASU No. 2017-08, *Premium Amortization on Purchased Callable Debt Securities*. ASU 2017-08 shortens the amortization period for certain callable debt securities held at a premium. The amendments require the premium to be amortized to the earliest call date. The amendments do not require an accounting change for securities held at a discount; the discount continues to be amortized to maturity. ASU 2017-08 is effective for fiscal years beginning after December 15, 2018 and for interim periods within those fiscal years. Management is currently evaluating the potential impact of this new guidance to the financial statements.

In November 2016, FASB issued ASU No. 2016-18, *Statement of Cash Flows (Topic 230), Restricted Cash (a Consensus of the Emerging Issues Task Force)*, which requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Amounts described as restricted cash and restricted cash equivalents should be included with the cash and cash equivalents in reconciling the beginning and end of period total amounts shown on the statement of cash flows. Management has evaluated the impact of adopting this ASU and determined that it will not result in any material changes to presentation of amounts in the financial statements. This ASU is effective for interim and annual reporting periods beginning after December 15, 2017.

In August 2016, FASB issued ASU No. 2016-15, *Classification of Certain Cash Receipts and Cash Payments (a Consensus of the Emerging Issues Task Force)*, which is intended to reduce diversity in practice in how certain transactions are classified in

the statement of cash flows. Management has evaluated the impact of adopting this ASU and determined that it will not result in any material changes to presentation of amounts in the financial statements. This ASU is effective for annual reporting periods beginning after December 15, 2017, including interim periods within those financial years, with early adoption permitted.

11. SUBSEQUENT DISTRIBUTIONS

The Fund declared the following distributions to common shareholders:

Declaration date	Record date	Payable date	Per share amount
October 26, 2018	November 14, 2018	December 3, 2018	\$0.10489
November 9, 2018	December 17, 2018	January 2, 2019	0.10420

These distributions are not reflected in the accompanying financial statements.

BOARD OF TRUSTEES AND SHAREHOLDERS OF WELLS FARGO MULTI-SECTOR INCOME FUND:

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Wells Fargo Multi-Sector Income Fund (the Fund), including the portfolio of investments, as of October 31, 2018, the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, and the related notes (collectively, the financial statements) and the financial highlights for each of the years in the five-year period then ended. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Fund as of October 31, 2018, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the five-year period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements and financial highlights are the responsibility of the Fund s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Such procedures also included confirmation of securities owned as of October 31, 2018, by correspondence with the custodian and brokers, or by other appropriate auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. We believe that our audits provide a reasonable basis for our opinion.

We have not been able to determine the specific year that we began serving as the auditor of one or more Wells Fargo Funds investment companies, however we are aware that we have served as the auditor of one or more Wells Fargo Funds investment companies since at least 1955.

TAX INFORMATION

For the fiscal year ended October 31, 2018, \$15,691,394 has been designated as interest-related dividends for nonresident alien shareholders pursuant to Section 871 of the Internal Revenue Code.

PROXY VOTING INFORMATION

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available, upon request, by calling **1-800-222-8222**, visiting our website at **wellsfargofunds.com**, or visiting the SEC website at sec.gov. Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available on the Fund's website at **wellsfargofunds.com** or by visiting the SEC website at sec.gov.

PORTFOLIO HOLDINGS INFORMATION

The complete portfolio holdings for the Fund are publicly available monthly on the Fund's website (**wellsfargofunds.com**), on a one-month delayed basis. The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q, which is available by visiting the SEC website at sec.gov. In addition, the Fund's Form N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, DC, and at regional offices in New York City, at 233 Broadway, and in Chicago, at 175 West Jackson Boulevard, Suite 900. Information about the Public Reference Room may be obtained by calling 1-800-SEC-0330.

48 Wells Fargo Multi-Sector Income Fund Other information (unaudited)
BOARD CONSIDERATION OF INVESTMENT ADVISORY AND SUB-ADVISORY AGREEMENTS:

Wells Fargo Multi-Sector Income Fund

Under the Investment Company Act of 1940 (the 1940 Act), the Board of Trustees (the Board) of Wells Fargo Multi-Sector Income Fund (the Fund) must determine whether to approve the continuation of the Fund's investment advisory and sub-advisory agreements. In this regard, at an in-person meeting held on May 22-23, 2018 (the Meeting), the Board, all the members of which have no direct or indirect interest in the investment advisory and sub-advisory agreements and are not interested persons of the Fund, as defined in the 1940 Act (the Independent Trustees), reviewed and approved: (i) an investment advisory agreement with Wells Fargo Funds Management, LLC (Funds Management), (ii) an investment sub-advisory agreement with Wells Capital Management Incorporated (WellsCap), an affiliate of Funds Management; and (iii) an investment sub-advisory agreement with Wells Fargo Asset Management (International), LLC (WFAM International), an affiliate of Funds Management. The investment advisory agreement with Funds Management and the investment sub-advisory agreements with WellsCap and WFAM International (each, a Sub-Adviser and together, the Sub-Advisers) are collectively referred to as the Advisory Agreements.

At the Meeting, the Board considered the factors and reached the conclusions described below relating to the selection of Funds Management and the Sub-Advisers and the continuation of the Advisory Agreements. Prior to the Meeting, including at an in-person meeting in April 2018, the Trustees conferred extensively among themselves and with representatives of Funds Management about these matters. Also, the Board has adopted a team-based approach, with each team consisting of a sub-set of Trustees, to assist the full Board in the discharge of its duties in reviewing investment performance and other matters throughout the year. The Independent Trustees were assisted in their evaluation of the Advisory Agreements by independent legal counsel, from whom they received separate legal advice and with whom they met separately.

In providing information to the Board, Funds Management and the Sub-Advisers were guided by a detailed set of requests for information submitted to them by independent legal counsel on behalf of the Independent Trustees at the start of the Board's annual contract renewal process earlier in 2018. In considering and approving the Advisory Agreements, the Trustees considered the information they believed relevant, including but not limited to the information discussed below. The Board considered not only the specific information presented in connection with the Meeting, but also the knowledge gained over time through interaction with Funds Management and the Sub-Advisers about various topics. In this regard, the Board reviewed reports of Funds Management at each of its quarterly meetings, which included, among other things, portfolio reviews and investment performance reports. In addition, the Board and the teams mentioned above confer with portfolio managers at various times throughout the year. The Board did not identify any particular information or consideration that was all-important or controlling, and each individual Trustee may have attributed different weights to various factors.

After its deliberations, the Board unanimously approved the continuation of the Advisory Agreements and determined that the compensation payable to Funds Management and the Sub-Advisers is reasonable. The Board considered the continuation of the Advisory Agreements for the Fund as part of its consideration of agreements for funds across the complex, but its approvals were made on a fund-by-fund basis. The following summarizes a number of important, but not necessarily all, factors considered by the Board in support of its approvals.

Nature, extent and quality of services

The Board received and considered various information regarding the nature, extent and quality of services provided to the Fund by Funds Management and the Sub-Advisers under the Advisory Agreements. This information included, among other things, a summary of the background and experience of senior management of Wells Fargo Asset Management (WFAM), of which Funds Management and the Sub-Advisers are a part, a summary of investments made in the business of WFAM, a summary of certain organizational and personnel changes involving Funds Management and the Sub-Advisers, and a description of Funds Management s and the Sub-Advisers business continuity planning programs and of their approaches to data privacy and cybersecurity. The Board considered the additional services provided to the Fund due to the fact that the Fund is a closed-end fund, including, but not limited to, monitoring the Fund s discount. The Board also considered the qualifications, background, tenure and responsibilities of each of the portfolio managers primarily responsible for the day-to-day portfolio management of the Fund.

The Board evaluated the ability of Funds Management and the Sub-Advisers to attract and retain qualified investment professionals, including research, advisory and supervisory personnel. The Board further considered the compliance programs and compliance records of Funds Management and the Sub-Advisers. In addition, the Board took into account the full range of services provided to the Fund by Funds Management and its affiliates.

Other information (unaudited)

Wells Fargo Multi-Sector Income Fund 49

Fund investment performance and expenses

The Board considered the investment performance results for the Fund over various time periods ended December 31, 2017. The Board considered these results in comparison to the performance of funds in a custom peer group that included funds selected by Broadridge Inc. (Broadridge) and additional funds that were determined by Funds Management to be similar to the Fund (the Custom Peer Group), and in comparison to the Fund's benchmark index and to other comparative data. The Board received a description of the methodology used by Broadridge and Funds Management to select the funds in the Custom Peer Group and discussed the limitations inherent in the use of other peer groups. The Board noted that the investment performance of the Fund was higher than or in range of the average investment performance of the Custom Peer Group for all periods under review except the five-year period. The Board also noted that the investment performance of the Fund was higher than its benchmark, the ERC Blended Index, which is a proprietary index used by the Board to help it assess the Fund's relative performance, for all periods under review.

The Board also received and considered information regarding the Fund's net operating expense ratio and its various components, including actual management fees, and custodian and other non-management fees. The Board considered this ratio in comparison to the median ratio of funds in the Custom Peer Group and in comparison to the median ratio of funds in an expense group that was determined by Broadridge to be similar to the Fund (the Broadridge Group , and together with the Custom Peer Group, the Expense Groups). Broadridge is an independent provider of investment company data. The Board received a description of the methodology used by Broadridge and Funds Management to select the funds in the Expense Groups, and an explanation from Broadridge of how funds comprising Broadridge expense groups and their expense ratios may vary from year-to-year. Based on the Broadridge reports, the Board noted that the net operating expense ratio of the Fund was lower than or in range of the median net operating expense ratios of the Expense Groups.

The Board took into account the Fund's investment performance and expense information provided to it among the factors considered in deciding to re-approve the Advisory Agreements.

Investment advisory and sub-advisory fee rates

The Board reviewed and considered the contractual investment advisory fee rate that is payable by the Fund to Funds Management for investment advisory services (the Advisory Agreement Rate), both on a stand-alone basis and on a combined basis with the Fund's contractual administration fee rate (the Management Rate). The Board also reviewed and considered the contractual investment sub-advisory fee rates that are payable by Funds Management to each of the Sub-Advisers for investment sub-advisory services (the Sub-Advisory Agreement Rate).

Among other information reviewed by the Board was a comparison of the Management Rate of the Fund with those of other funds in the Expense Groups at a common asset level. The Board noted that the Management Rate of the Fund was lower than the average rates for both Expense Groups.

The Board also received and considered information about the portion of the total advisory fee that was retained by Funds Management after payment of the fee to the Sub-Advisers for sub-advisory services. In assessing the reasonableness of this amount, the Board received and evaluated information about the nature and extent of responsibilities retained and risks assumed by Funds Management and not delegated to or assumed by the Sub-Advisers, and about Funds Management's on-going oversight services. Given the affiliation between Funds

Management and the Sub-Advisers, the Board ascribed limited relevance to the allocation of the advisory fee between them.

Based on its consideration of the factors and information it deemed relevant, including those described here, the Board determined that the Advisory Agreement Rate and each Sub-Advisory Agreement Rate was reasonable.

Profitability

The Board received and considered information concerning the profitability of Funds Management, as well as the profitability of both WFAM and Wells Fargo & Co. (Wells Fargo) as a whole, from providing services to the Fund and the fund family as a whole. The Board noted that the Sub-Advisers' profitability information with respect to providing services to the Fund was subsumed in the Wells Fargo and Funds Management profitability analysis.

Funds Management reported on the methodologies and estimates used in calculating profitability, including a description of the methodology used to allocate certain expenses and recent enhancements made to the methodology. Among other things, the Board noted that the levels of profitability reported on a fund-by-fund basis varied widely, depending on factors such as the size and type of fund. Based on its review, the Board did not deem the profits reported by Funds Management, WFAM or Wells Fargo from services provided to the Fund to be at a level that would prevent it from approving the continuation of the Advisory Agreements.

Table of Contents

50 Wells Fargo Multi-Sector Income Fund
Economies of scale

Other information (unaudited)

The Board considered the extent to which Funds Management may experience economies of scale in the provision of management services, and the extent to which scale benefits, if any, would be shared with shareholders. The Board noted that, as is typical of closed-end funds, there are no breakpoints in the Management Rate. Although the Fund would not share in any potential economies of scale through contractual breakpoints, the Board noted that competitive management fee rates set at the outset without regard to breakpoints and fee waiver and expense reimbursement arrangements, as well as investments in the business to enhance services available to Fund shareholders, are means of sharing potential economies of scale with shareholders of the Fund. The Board concluded that the Fund's fee waiver and expense arrangements constituted a reasonable approach to sharing potential economies of scale with the Fund and its shareholders. The Board also noted that it would have opportunities to revisit the Management Rate as part of future contract reviews.

Other benefits to Funds Management and the Sub-Advisers

The Board received and considered information regarding potential fall-out or ancillary benefits received by Funds Management and its affiliates, including the Sub-Advisers, as a result of their relationships with the Fund. Ancillary benefits could include, among others, benefits directly attributable to other relationships with the Fund and benefits potentially derived from an increase in Funds Management's and the Sub-Advisers' business as a result of their relationships with the Fund. The Board also reviewed information about soft dollar credits earned and utilized by WellsCap and commissions earned by affiliated brokers from portfolio transactions.

Based on its consideration of the factors and information it deemed relevant, including those described here, the Board did not find that any ancillary benefits received by Funds Management and its affiliates, including the Sub-Advisers, were unreasonable.

Conclusion

At the Meeting, after considering the above-described factors and based on its deliberations and its evaluation of the information described above, the Board unanimously approved the continuation of the Advisory Agreements for an additional one-year period and determined that the compensation payable to Funds Management and the Sub-Advisers is reasonable.

Automatic dividend reinvestment plan

Wells Fargo Multi-Sector Income Fund 51

AUTOMATIC DIVIDEND REINVESTMENT PLAN

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan (the Plan). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by Computershare Trust Company, N.A., as agent for shareholders in administering the Plan (Plan Agent), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as dividends) payable either in shares or in cash, nonparticipants in the Plan will receive cash, and participants in the Plan will receive the equivalent in common shares. The shares are acquired by the Plan Agent for the participant s account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (newly issued common shares) or (ii) by purchase of outstanding common shares on the open-market (open-market purchases) on the NYSE Amex or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions (market premium), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant s account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value (market discount), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent s open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at 505000, Louisville, Kentucky 40233 or by calling 1-800-730-6001.

Table of Contents**ITEM 2. CODE OF ETHICS**

(a) As of the end of the period, covered by the report, Wells Fargo Multi-Sector Income Fund has adopted a code of ethics that applies to its President and Treasurer. A copy of the code of ethics is filed as an exhibit to this Form N-CSR.

(c) During the period covered by this report, there were no amendments to the provisions of the code of ethics adopted in Item 2(a) above.

(d) During the period covered by this report, there were no implicit or explicit waivers to the provisions of the code of ethics adopted in Item 2(a) above.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT

The Board of Trustees of Wells Fargo Multi-Sector Income Fund has determined that Judith Johnson is an audit committee financial expert, as defined in Item 3 of Form N-CSR. Mrs. Johnson is independent for purposes of Item 3 of Form N-CSR.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES

(a), (b), (c), (d) The following table presents aggregate fees billed in each of the last two fiscal years for services rendered to the Registrant by the Registrant's principal accountant. These fees were billed to the registrant and were approved by the Registrant's audit committee.

	Fiscal year ended October 31, 2018	Fiscal year ended October 31, 2017
Audit fees	\$ 54,385	\$ 54,322
Audit-related fees		
Tax fees (1)	4,245	4,150
All other fees		
	\$ 58,630	\$ 58,472

(1) Tax fees consist of fees for tax compliance, tax advice, tax planning and excise tax.

(e) The Chairman of the Audit Committees is authorized to pre-approve: (1) audit services for the Wells Fargo Multi-Sector Income Fund; (2) non-audit tax or compliance consulting or training services provided to the Wells Fargo Multi-Sector Income Fund by the independent auditors (Auditors) if the fees for any particular engagement are not anticipated to exceed \$50,000; and (3) non-audit tax or compliance consulting or training services provided by the Auditors to a Wells Fargo Multi-Sector Income Fund's investment adviser and its controlling entities (where pre-approval is required because the engagement relates directly to the operations and financial reporting of the Wells Fargo Multi-Sector Income Fund) if the fee to the Auditors for any particular engagement is not anticipated to exceed \$50,000. For any such pre-approval sought from the Chairman, Management shall prepare a brief description of the proposed services. If the Chairman approves of such service, he or she shall sign the statement prepared by

Management. Such written statement shall be presented to the full Committees at their next regularly scheduled meetings.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES

PROXY VOTING POLICIES AND PROCEDURES

REVISED AS OF FEBRUARY 28, 2018

Scope of Policies and Procedures. These Policies and Procedures (Procedures) are used to determine how to vote proxies relating to portfolio securities held by the series of Wells Fargo Funds Trust, Wells Fargo Master Trust, Wells Fargo Variable Trust, Asset Allocation Trust, Wells Fargo Global Dividend Opportunity Fund, Wells Fargo Income Opportunities Fund, Wells Fargo Multi-Sector Income Fund, and Wells Fargo Utilities and High Income Fund (the Trusts) except for those series that exclusively hold non-voting securities (hereafter, all such series, and all such Trusts not having separate series, holding voting securities are referred to as the Funds).

Voting Philosophy. The Funds and Wells Fargo Funds Management, LLC (Funds Management), a registered investment adviser, have adopted these Procedures to ensure that proxies are voted in the best interests of Fund shareholders, without regard to any relationship that any affiliated person of the Fund (or an affiliated person of such affiliated person) may have with the issuer. Funds Management exercises its voting responsibility, as a fiduciary, with the goal of maximizing value to shareholders consistent with governing laws and the investment policies of each Fund. While securities are not purchased to exercise control or to seek to effect corporate change through share ownership, the Funds support sound corporate governance practices within companies in which they invest.

Board of Trustees. The Board of Trustees of each Trust (the Board) has delegated the responsibility for voting proxies relating to the Funds portfolio securities to Funds Management. The Board retains the authority to make or ratify any voting decisions or approve any changes to these Procedures as the Board deems appropriate. Funds Management will provide reports to the Board regarding voting matters when and as reasonably requested by the Board. The Board shall review these Procedures as often as it deems appropriate to consider whether any revisions are warranted. On an annual basis, the Board shall receive and review a report from Funds Management on the proxy voting process.

Table of Contents

Proxy Committee. The Funds Management Proxy Voting Committee (the Proxy Committee) shall be responsible for overseeing the proxy voting process to ensure its implementation in conformance with these Procedures. The Proxy Committee shall coordinate with Funds Management Risk and Compliance to monitor Institutional Shareholder Services (ISS), the proxy voting agent for Funds Management, to determine that ISS is accurately applying the Procedures as set forth herein. The Proxy Committee shall review the continuing appropriateness of the Procedures set forth herein, recommend revisions to the Board as necessary and provide an annual update to the Board on proxy voting activity.

Meetings: Committee Actions. The Proxy Committee shall convene or act through written consent, including through the use of electronic systems of record, as needed and when discretionary voting determinations need to be considered. The Proxy Committee shall have the authority to act by vote or written consent of a majority of the full Proxy Committee members, or a designated working group thereof, available at that time. The Proxy Committee shall also meet at least annually to review the Procedures and shall coordinate with Funds Management Risk and Compliance to review the performance of ISS in exercising its proxy voting responsibilities.

Voting Discretion. In all cases, the Proxy Committee will exercise its voting discretion in accordance with the voting philosophy of the Funds. In cases where a proxy item is forwarded by ISS to the Proxy Committee, the Proxy Committee may be assisted in its voting decision through receipt of: (i) independent research and voting recommendations provided by ISS or other independent sources; (ii) input from the investment sub-adviser responsible for purchasing the security; and (iii) information provided by company management and shareholder groups.

Membership. The voting members of the Proxy Committee are identified in Appendix B. Changes to the membership of the Proxy Committee will be made only with Board approval. Upon departure from Funds Management, a member s position on the Proxy Committee will automatically terminate.

Table of Contents

Voting Policy. Proxies generally shall be voted in accordance with the recommendations of proxy advisor ISS. However, the following proxy items shall be referred to the Proxy Committee for case-by-case review and vote determination:

1. Proxy items for meetings deemed of high importance where ISS opposes management recommendations; and
2. Proxy items for any third party registered investment companies (e.g., mutual funds, exchange-traded funds and closed-end funds) and business development companies (as defined in Section 2(a)(48) of the Investment Company Act of 1940 (the 1940 Act)) (Third Party Fund Holding Voting Matters).

The term high importance is defined as those items designated Proxy Level 6, 5, or 4 by ISS, which include proxy contests, mergers, capitalization proposals and anti-takeover defenses. (Further detail appears in Appendix A.)

The Proxy Committee may consult Fund sub-advisers on specific proxy voting issues as it deems appropriate or if a sub-adviser makes a recommendation regarding a proxy voting issue. As a general matter, however, proxies are voted consistently on the same matter when securities of an issuer are held by multiple Funds.

Voting decisions made by the Proxy Committee will be reported to ISS to ensure that the vote is registered in a timely manner and included in Form N-PX reporting.

Practical Limitations to Proxy Voting. While Funds Management uses its best efforts to vote proxies, in certain circumstances it may be impractical or impossible for Funds Management to vote proxies (e.g., limited value or unjustifiable costs).

For example, in accordance with local law or business practices, many foreign companies prevent the sales of shares that have been voted for a certain period beginning prior to the shareholder meeting and ending on the day following the meeting (share blocking). Due to these restrictions, Funds Management must balance the benefits to its clients of voting proxies against the potentially serious portfolio management consequences of a reduced flexibility to sell the underlying shares at the most advantageous time. As a result, Funds Management will generally not vote those proxies in the absence of an unusual, significant vote or compelling economic importance. Additionally, Funds Management may not be able to vote proxies for certain foreign securities if Funds Management does not receive the proxy statement in time to vote the proxies due to custodial processing delays.

¹ Where provisions of the 1940 Act specify the manner in which a Third Party Fund Holding Voting Matter must be voted (e.g., vote such matters in accordance with voting instructions sought from a Fund's shareholders or vote shares in the same proportion as the vote of all other holders of the registered investment company), a Fund shall vote the Third Party Fund Holding Voting Matter accordingly.

Table of Contents

Securities on Loan. As a general matter, securities on loan will not be recalled to facilitate proxy voting (in which case the borrower of the security shall be entitled to vote the proxy). However, if the Proxy Committee is aware of an item in time to recall the security and has determined in good faith that the importance of the matter to be voted upon outweighs the loss in lending revenue that would result from recalling the security (i.e., if there is a controversial upcoming merger or acquisition, or some other significant matter), the security will be recalled for voting.

Conflicts of Interest. Funds Management may have a conflict of interest regarding a proxy to be voted upon if, for example, Funds Management or its affiliates have other relationships with the issuer of the proxy. In most instances, conflicts of interest are avoided through a strict and objective application of the voting guidelines attached hereto. However, when the Proxy Committee is aware of a material conflict of interest regarding a matter that would otherwise require a vote by the Proxy Committee or that, in the determination of the Proxy Committee, otherwise warrants the taking of additional steps to mitigate the conflict, the Proxy Committee shall address the material conflict by using any of the following methods:

1. instructing ISS to vote in accordance with the recommendation ISS makes to its clients;
2. disclosing the conflict to the Board and obtaining its consent before voting;
3. submitting the matter to the Board to exercise its authority to vote on such matter;
4. engaging an independent fiduciary who will direct the Proxy Committee how to vote on such matter;
5. consulting with outside legal counsel for guidance on resolution of the conflict of interest;
6. erecting information barriers around the person or persons making voting decisions;
7. voting in proportion to other shareholders (mirror voting); or
8. voting in other ways that are consistent with each Fund's obligation to vote in the best interests of its shareholders.

The Proxy Committee will not permit its votes to be influenced by any conflict of interest that exists for any other affiliated person of the Fund (such as a sub-adviser or principal underwriter) or any affiliated persons of such affiliated persons and the Proxy Committee will vote all such matters without regard to the conflict.

Funds Management may also have a conflict of interest regarding a proxy to be voted on if a member of the Board has identified an affiliation, directly or

Table of Contents

indirectly, with a public or private company (an Identified Company). Identified Companies include a Board member s employer, as well as any company of which the Board member is a director or officer or a 5% or more shareholder. The Proxy Committee shall address such a conflict by instructing ISS to vote in accordance with the recommendation ISS makes to its clients, irrespective of the Proxy Level designated for such matters by ISS.

Disclosure of Policies and Procedures. Each Fund shall disclose in its statement of additional information a description of the policies and procedures it uses to determine how to vote proxies relating to securities held in its portfolio. In addition, each Fund shall disclose in its semi- and annual reports that a description of its proxy voting policies and procedures is available without charge, upon request, by calling 1-800-222-8222, on the Fund s web site at <https://www.wellsfargofunds.com/> and on the Securities and Exchange Commission s website at <http://www.sec.gov>.

Disclosure of Proxy Voting Record. Each Trust shall file with the Commission an annual report on Form N-PX not later than August 31 of each year (beginning August 31, 2004), containing the Trust s proxy voting record for the most recent twelve-month period ended June 30.

Each Fund shall disclose in its statement of additional information and semi- and annual reports that information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge on the Funds web site at <https://www.wellsfargofunds.com/> or by accessing the Commission s web site at www.sec.gov.

Each Fund shall disclose the following information on Form N-PX for each matter relating to a portfolio security considered at any shareholder meeting held during the period covered by the report and with respect to which the Fund was entitled to vote:

1. The name of the issuer of the portfolio security;
2. The exchange ticker symbol of the portfolio security;
3. The Council of Uniform Securities Identification Procedures (CUSIP) number for the portfolio security (unless the CUSIP is not available through reasonably practicable means, in which case it will be omitted);
4. The shareholder meeting date;
5. A brief identification of the matter voted on;
6. Whether the matter was proposed by the issuer or by a security holder;
7. Whether the Fund cast its vote on the matter;

Table of Contents

8. How the Fund cast its vote (e.g. for or against a proposal, or abstain; for or withhold regarding election of directors); and

9. Whether the Fund cast its vote for or against management.
Form N-PX shall be made available to Fund shareholders through the SEC web site.

Table of Contents

APPENDIX A

TO

PROXY VOTING POLICIES AND PROCEDURES

Funds Management will vote proxies relating to portfolio securities held by the Trusts in accordance with the following proxy voting guidelines. To the extent the specific guidelines below do not address a proxy voting proposal, Funds Management will vote pursuant to ISS' current U.S. and International proxy voting guidelines. Proxies for securities held by the Wells Fargo Advantage Social Awareness Fund related to social and environmental proposals will be voted pursuant to ISS' current SRI Proxy Voting Guidelines. In addition, proxies related to issues not addressed by the specific guidelines below or by ISS' current U.S. and International proxy voting guidelines will be forwarded to the Proxy Committee for a vote determination by the Proxy Committee.

Uncontested Election of Directors or Trustees

THE FUNDS will generally vote for all uncontested director or trustee nominees. The Nominating Committee is in the best position to select nominees who are available and capable of working well together to oversee management of the company. THE FUNDS will not require a performance test for directors. FOR

THE FUNDS will generally vote for reasonably crafted shareholder proposals calling for directors to be elected with an affirmative majority of votes cast and/or the elimination of the plurality standard for electing directors, unless the company has adopted formal corporate governance principles that present a meaningful alternative to the majority voting standard. FOR

THE FUNDS will withhold votes for a director if the nominee fails to attend at least 75% of the board and committee meetings without a valid excuse. WITHHOLD

THE FUNDS will vote against routine election of directors if any of the following apply: company fails to disclose adequate information in a timely manner, serious issues with the finances, questionable transactions, conflicts of interest, record of abuses against minority shareholder interests, bundling of director elections, and/or egregious governance practices. AGAINST

THE FUNDS will withhold votes from the entire board (except for new nominees) where the director(s) receive more than 50% withhold votes out of those cast and the issue that was the underlying cause of the high level of withhold votes has not been addressed. WITHHOLD

THE FUNDS will withhold votes from members of the Audit Committee and/or the full board if poor accounting practices, which rise to a level of serious concern, such as: fraud; misapplication of GAAP; and material weaknesses identified in Section 404 disclosures, are identified. WITHHOLD

Table of Contents

THE FUNDS will withhold votes from members of the Audit Committee if the company receives an adverse opinion on the company's financial statements from its auditor. WITHHOLD

THE FUNDS will withhold votes from members of the Audit Committee if there is persuasive evidence that the audit committee entered into an inappropriate indemnification agreement with its auditor that limits the ability of the company, or its shareholders, to pursue legitimate legal recourse against the audit firm. WITHHOLD

THE FUNDS will withhold votes from all directors (except for new nominees) if the company has adopted or renewed a poison pill without shareholder approval since the company's last annual meeting, does not put the pill to a vote at the current annual meeting, and does not have a requirement or does not commit to put the pill to shareholder vote within 12 months. In addition, THE FUNDS will withhold votes on all directors at any company that responds to the majority of the shareholders voting by putting the poison pill to a shareholder vote with a recommendation other than to eliminate the pill. WITHHOLD

THE FUNDS will withhold votes from compensation committee members if they fail to submit one-time transferable stock options (TSOs) to shareholders for approval. WITHHOLD

Limitation on Number of Boards a Director May Sit On

THE FUNDS will withhold votes from directors who sit on more than six boards. WITHHOLD

THE FUNDS will withhold votes from CEO directors who sit on more than two outside boards besides their own. WITHHOLD

Ratification of Auditors

THE FUNDS will vote against auditors and withhold votes from audit committee members if non-audit fees are greater than audit fees, audit-related fees, and permitted tax fees, combined. THE FUNDS will follow the disclosure categories being proposed by the SEC in applying the above formula. AGAINST/
WITHHOLD

With the above exception, THE FUNDS will generally vote for proposals to ratify auditors unless: FOR

1. an auditor has a financial interest in or association with the company, and is therefore not independent, or AGAINST

Table of Contents

2. there is reason to believe that the independent auditor has rendered an opinion that is neither accurate nor indicative of the company's financial position. AGAINST

THE FUNDS will vote against proposals that require auditors to attend annual meetings as auditors are regularly reviewed by the board audit committee, and such attendance is unnecessary. AGAINST

THE FUNDS will vote for shareholder proposals requesting a shareholder vote for audit firm ratification. FOR

THE FUNDS will vote against shareholder proposals asking for audit firm rotation. This practice is viewed as too disruptive and too costly to implement for the benefit achieved. AGAINST

Company Name Change/Purpose

THE FUNDS will vote for proposals to change the company name as management and the board is best suited to determine if such change in company name is necessary. FOR

However, where the name change is requested in connection with a reorganization of the company, the vote will be based on the merits of the reorganization. CASE-BY-CASE

In addition, THE FUNDS will generally vote for proposals to amend the purpose of the company. Management is in the best position to know whether the description of what the company does is accurate, or whether it needs to be updated by deleting, adding or revising language. FOR

Employee Stock Purchase Plans/401(k) Employee Benefit Plans

THE FUNDS will vote for proposals to adopt, amend or increase authorized shares for employee stock purchase plans and 401(k) plans for employees as properly structured plans enable employees to purchase common stock at a slight discount and thus own a beneficial interest in the company, provided that the total cost of the company's plan is not above the allowable cap for the company. FOR

Similarly, THE FUNDS will generally vote for proposals to adopt or amend thrift and savings plans, retirement plans, pension plans and profit plans. FOR

Table of Contents**Anti-Hedging/Pledging/Speculative Investments Policy**

THE FUNDS will consider proposals prohibiting named executive officers from engaging in derivative or speculative transactions involving company stock, including hedging, holding stock in a margin account, or pledging stock as collateral for a loan on a case-by-case basis. The company's existing policies regarding responsible use of company stock will be considered. CASE-BY-CASE

Approve Other Business

THE FUNDS will generally vote for proposals to approve other business. This transfer of authority allows the corporation to take certain ministerial steps that may arise at the annual or special meeting. FOR

However, THE FUNDS retains the discretion to vote against such proposals if adequate information is not provided in the proxy statement, or the measures are significant and no further approval from shareholders is sought. AGAINST

Independent Board of Directors/Board Committees

THE FUNDS will vote for proposals requiring that two-thirds of the board be independent directors. An independent board faces fewer conflicts and is best prepared to protect stockholders interests. FOR

THE FUNDS will withhold votes from insiders and affiliated outsiders on boards that are not at least majority independent. WITHHOLD

THE FUNDS will withhold votes from compensation committee members where there is a pay-for-performance disconnect (for Russell 3000 companies). WITHHOLD

THE FUNDS will vote for proposals requesting that the board audit, compensation and/or nominating committees be composed of independent directors, only. Committees should be composed entirely of independent directors in order to avoid conflicts of interest. FOR

THE FUNDS will withhold votes from any insiders or affiliated outsiders on audit, compensation or nominating committees. THE FUNDS will withhold votes from any insiders or affiliated outsiders on the board if any of these key committees has not been established. WITHHOLD

THE FUNDS will vote against proposals from shareholders requesting an independent compensation consultant. AGAINST

Table of Contents

Director Fees

THE FUNDS will vote for proposals to set director fees. FOR

Minimum Stock Requirements by Directors

THE FUNDS will vote against proposals requiring directors to own a minimum number of shares of company stock in order to qualify as a director, or to remain on the board. Minimum stock ownership requirements can impose an across-the-board requirement that could prevent qualified individuals from serving as directors. AGAINST

Indemnification and Liability Provisions for Directors and Officers

THE FUNDS will vote for proposals to allow indemnification of directors and officers, when the actions taken were on behalf of the company and no criminal violations occurred. THE FUNDS will also vote in favor of proposals to purchase liability insurance covering liability in connection with those actions. Not allowing companies to indemnify directors and officers to the degree possible under the law would limit the ability of the company to attract qualified individuals. FOR

Alternatively, THE FUNDS will vote against indemnity proposals that are overly broad. For example, THE FUNDS will oppose proposals to indemnify directors for acts going beyond mere carelessness, such as gross negligence, acts taken in bad faith, acts not otherwise allowed by state law or more serious violations of fiduciary obligations. AGAINST

Nominee Statement in the Proxy

THE FUNDS will vote against proposals that require board nominees to have a statement of candidacy in the proxy, since the proxy statement already provides adequate information pertaining to the election of directors. AGAINST

Director Tenure/Retirement Age

THE FUNDS will vote against proposals to limit the tenure of directors as such limitations based on an arbitrary number could prevent qualified individuals from serving as directors. However, THE FUNDS is in favor of inserting cautionary language when the average director tenure on the board exceeds 15 years for the entire board. AGAINST

The Funds will vote for proposals to establish a mandatory retirement age for directors provided that such retirement age is not less than 65. FOR

Table of Contents

Board Powers/Procedures/Qualifications

THE FUNDS will consider on a case-by-case basis proposals to amend the corporation's By-laws so that the Board of Directors shall have the power, without the assent or vote of the shareholders, to make, alter, amend, or rescind the By-laws, fix the amount to be reserved as working capital, and fix the number of directors and what number shall constitute a quorum of the Board. In determining these issues, THE FUNDS will rely on the proxy voting Guidelines. CASE-BY-CASE

Adjourn Meeting to Solicit Additional Votes

THE FUNDS will examine proposals to adjourn the meeting to solicit additional votes on a case-by-case basis. As additional solicitation may be costly and could result in coercive pressure on shareholders, THE FUNDS will consider the nature of the proposal and its vote recommendations for the scheduled meeting. CASE-BY-CASE

THE FUNDS will vote for this item when:

THE FUNDS is supportive of the underlying merger proposal; the company provides a sufficient, compelling reason to support the adjournment proposal; and the authority is limited to adjournment proposals requesting the authority to adjourn solely to solicit proxies to approve a transaction THE FUNDS supports. FOR

Reimbursement of Solicitation Expenses

THE FUNDS will consider contested elections on a case-by-case basis, considering the following factors: long-term financial performance of the target company relative to its industry; management's track record; background of the proxy contest; qualifications of director or trustee nominees (both slates); evaluation of what each side is offering shareholders as well as the likelihood that the proposed objectives and goals can be met; and stock ownership positions. CASE-BY-CASE

Board Structure: Staggered vs. Annual Elections

THE FUNDS will consider the issue of classified boards on a case-by-case basis. In some cases, the division of the board into classes, elected for staggered terms, can entrench the incumbent management and make them less responsive to shareholder concerns. On the other hand, in some cases, staggered elections may provide for the continuity of experienced directors on the Board. CASE-BY-CASE

Table of Contents

Removal of Directors

THE FUNDS will consider on a case-by-case basis proposals to eliminate shareholders' rights to remove directors with or without cause or only with approval of two-thirds or more of the shares entitled to vote. CASE-BY-CASE

However, a requirement that a 75% or greater vote be obtained for removal of directors is abusive and will warrant a vote against the proposal. AGAINST

Board Vacancies

THE FUNDS will vote against proposals that allow the board to fill vacancies without shareholder approval as these authorizations run contrary to basic shareholders' rights. AGAINST

Alternatively, THE FUNDS will vote for proposals that permit shareholders to elect directors to fill board vacancies. FOR

Cumulative Voting

THE FUNDS will vote on proposals to permit or eliminate cumulative voting on a case-by-case basis based upon the existence of a counter balancing governance structure and company performance, in accordance with its proxy voting guideline philosophy. CASE-BY-CASE

THE FUNDS will vote for against cumulative voting if the board is elected annually. AGAINST

Board Size

THE FUNDS will vote for proposals that seek to fix the size of the board, as the ability for management to increase or decrease the size of the board in the face of a proxy contest may be used as a takeover defense. FOR

However, if the company has cumulative voting, downsizing the board may decrease a minority shareholder's chances of electing a director.

By increasing the size of the board, management can make it more difficult for dissidents to gain control of the board. Fixing the size of the board also prevents a reduction in the board size as a means to oust independent directors or those who cause friction within an otherwise homogenous board.

Shareholder Rights Plan (Poison Pills)

THE FUNDS will generally vote for proposals that request a company to submit its poison pill for shareholder ratification. FOR

Table of Contents

Alternatively, THE FUNDS will analyze proposals to redeem a company's poison pill, or requesting the ratification of a poison pill on a case-by-case basis. CASE-BY-CASE

Poison pills are one of the most potent anti-takeover measures and are generally adopted by boards without shareholder approval. These plans harm shareholder value and entrench management by deterring stock acquisition offers that are not favored by the board.

Fair Price Provisions

THE FUNDS will consider fair price provisions on a case-by-case basis, evaluating factors such as the vote required to approve the proposed mechanism, the vote required to approve the proposed acquisition, the vote required to repeal the fair price provision, and the mechanism for determining the fair price. CASE-BY-CASE

THE FUNDS will vote against fair price provisions with shareholder vote requirements of 75% or more of disinterested shares. AGAINST

Greenmail

THE FUNDS will generally vote in favor of proposals limiting the corporation's authority to purchase shares of common stock (or other outstanding securities) from a holder of a stated interest (5% or more) at a premium unless the same offer is made to all shareholders. These are known as anti-greenmail provisions. Greenmail discriminates against rank-and-file shareholders and may have an adverse effect on corporate image. FOR

If the proposal is bundled with other charter or bylaw amendments, THE FUNDS will analyze such proposals on a case-by-case basis. In addition, THE FUNDS will analyze restructurings that involve the payment of pale greenmail on a case-by-case basis. CASE-BY-CASE

Voting Rights

THE FUNDS will vote for proposals that seek to maintain or convert to a one-share, one-vote capital structure as such a principle ensures that management is accountable to all the company's owners. FOR

Alternatively, THE FUNDS will vote against any proposals to cap the number of votes a shareholder is entitled to. Any measure that places a ceiling on voting may entrench management and lessen its interest in maximizing shareholder value. AGAINST

Table of Contents

Dual Class/Multiple-Voting Stock

THE FUNDS will vote against proposals that authorize, amend or increase dual class or multiple-voting stock which may be used in exchanges or recapitalizations. Dual class or multiple-voting stock carry unequal voting rights, which differ from those of the broadly traded class of common stock. AGAINST

Alternatively, THE FUNDS will vote for the elimination of dual class or multiple-voting stock, which carry different rights than the common stock. FOR

Confidential Voting

THE FUNDS will vote for proposals to adopt confidential voting. FOR

Vote Tabulations

THE FUNDS will vote against proposals asking corporations to refrain from counting abstentions and broker non-votes in their vote tabulations and to eliminate the company's discretion to vote unmarked proxy ballots. Vote counting procedures are determined by a number of different standards, including state law, the federal proxy rules, internal corporate policies, and mandates of the various stock exchanges. AGAINST

Equal Access to the Proxy

THE FUNDS will evaluate Shareholder proposals requiring companies to give shareholders access to the proxy ballot for the purpose of nominating board members, on a case-by-case basis taking into account the ownership threshold proposed in the resolution and the proponent's rationale for the proposal at the targeted company in terms of board and director conduct. CASE-BY-CASE

Disclosure of Information

THE FUNDS will vote against shareholder proposals requesting fuller disclosure of company policies, plans, or business practices. Such proposals rarely enhance shareholder return and in many cases would require disclosure of confidential business information. AGAINST

Annual Meetings

THE FUNDS will vote for proposals to amend procedures or change date or location of the annual meeting. Decisions as to procedures, dates or locations of meetings are best placed with management. FOR

Table of Contents

Alternatively, THE FUNDS will vote against proposals from shareholders calling for a change in the location or date of annual meetings as no date or location proposed will be acceptable to all shareholders. AGAINST

THE FUNDS will generally vote in favor of proposals to reduce the quorum necessary for shareholders meetings, subject to a minimum of a simple majority of the company's outstanding voting shares. FOR

Shareholder Advisory Committees/Independent Inspectors

THE FUNDS will vote against proposals seeking to establish shareholder advisory committees or independent inspectors. The existence of such bodies dilutes the responsibility of the board for managing the affairs of the corporation. AGAINST

Technical Amendments to the Charter of Bylaws

THE FUNDS will generally vote in favor of charter and bylaw amendments proposed solely to conform to modern business practices, for simplification, or to comply with what management's counsel interprets as applicable law. FOR

However, amendments that have a material effect on shareholder's rights will be considered on a case-by-case basis. CASE-BY-CASE

Bundled Proposals

THE FUNDS will vote for bundled or conditional proxy proposals on a case-by-case basis, as THE FUNDS will examine the benefits and costs of the packaged items, and determine if the effect of the conditioned items are in the best interests of shareholders. CASE-BY-CASE

Dividends

THE FUNDS will vote for proposals to allocate income and set dividends. FOR

THE FUNDS will also vote for proposals that authorize a dividend reinvestment program as it allows investors to receive additional stock in lieu of a cash dividend. FOR

However, if a proposal for a special bonus dividend is made that specifically rewards a certain class of shareholders over another, THE FUNDS will vote against the proposal. AGAINST

Table of Contents

THE FUNDS will also vote against proposals from shareholders requesting management to redistribute profits or restructure investments. Management is best placed to determine how to allocate corporate earnings or set dividends. AGAINST

Reduce the Par Value of the Common Stock

THE FUNDS will vote for proposals to reduce the par value of common stock. FOR

Preferred Stock Authorization

THE FUNDS will generally vote for proposals to create preferred stock in cases where the company expressly states that the stock will not be used as a takeover defense or carry superior voting rights, or where the stock may be used to consummate beneficial acquisitions, combinations or financings. FOR

Alternatively, THE FUNDS will vote against proposals to authorize or issue preferred stock if the board has asked for the unlimited right to set the terms and conditions for the stock and may issue it for anti-takeover purposes without shareholder approval (blank check preferred stock). AGAINST

In addition, THE FUNDS will vote against proposals to issue preferred stock if the shares to be used have voting rights greater than those available to other shareholders. AGAINST

THE FUNDS will vote for proposals to require shareholder approval of blank check preferred stock issues for other than general corporate purposes (white squire placements). FOR

Preemptive Rights

THE FUNDS will generally vote for proposals to eliminate preemptive rights. Preemptive rights are unnecessary to protect shareholder interests due to the size of most modern companies, the number of investors and the liquidity of trading. FOR

Share Repurchase Plans

THE FUNDS will vote for share repurchase plans, unless: FOR

- 3. there is clear evidence of past abuse of the authority; or AGAINST
- 4. the plan contains no safeguards against selective buy-backs. AGAINST

Corporate stock repurchases are a legitimate use of corporate funds and can add to long-term shareholder returns.

Table of Contents

Executive and Director Compensation Plans

THE FUNDS will analyze on a case-by-case basis proposals on executive or director compensation plans, with the view that viable compensation programs reward the creation of stockholder wealth by having high payout sensitivity to increases in shareholder value. Such proposals may seek shareholder approval to adopt a new plan, or to increase shares reserved for an existing plan. CASE-BY-CASE

THE FUNDS will review the potential cost and dilutive effect of the plan. After determining how much the plan will cost, ISS evaluates whether the cost is reasonable by comparing the cost to an allowable cap. The allowable cap is industry-specific, market cap-base, and pegged to the average amount paid by companies performing in the top quartile of their peer groups. If the proposed cost is below the allowable cap, THE FUNDS will vote for the plan. ISS will also apply a pay for performance overlay in assessing equity-based compensation plans for Russell 3000 companies. FOR

If the proposed cost is above the allowable cap, THE FUNDS will vote against the plan. AGAINST

Among the plan features that may result in a vote against the plan are: AGAINST

5. plan administrators are given the authority to reprice or replace underwater options; repricing guidelines will conform to changes in the NYSE and NASDAQ listing rules.

THE FUNDS will vote against equity plans that have high average three-year burn rate. (The burn rate is calculated as the total number of stock awards and stock options granted any given year divided by the number of common shares outstanding.) THE FUNDS will define a high average three-year burn rate as the following: The company's most recent three-year burn rate exceeds one standard deviation of its four-digit GICS peer group segmented by Russell 3000 index and non-Russell 3000 index; and the company's most recent three-year burn rate exceeds 2% of common shares outstanding. For companies that grant both full value awards and stock options to their employees, THE FUNDS shall apply a premium on full value awards for the past three fiscal years. AGAINST

Even if the equity plan fails the above burn rate, THE FUNDS will vote for the plan if the company commits in a public filing to a three-year average burn rate equal to its GICS group burn rate mean plus one standard deviation. If the company fails to fulfill its burn rate commitment, THE FUNDS will consider withholding from the members of the compensation committee. FOR

Table of Contents

THE FUNDS will calculate a higher award value for awards that have Dividend Equivalent Rights (DER s) associated with them.	CASE-BY-CASE
THE FUNDS will generally vote for shareholder proposals requiring performance-based stock options unless the proposal is overly restrictive or the company demonstrates that it is using a substantial portion of performance-based awards for its top executives.	FOR
THE FUNDS will vote for shareholder proposals asking the company to expense stock options, as a result of the FASB final rule on expensing stock options.	FOR
THE FUNDS will generally vote for shareholder proposals to exclude pension fund income in the calculation of earnings used in determining executive bonuses/compensation.	FOR
THE FUNDS will generally vote for TSO awards within a new equity plan if the total cost of the equity plan is less than the company s allowable cap.	FOR
THE FUNDS will generally vote against shareholder proposals to ban future stock option grants to executives. This may be supportable in extreme cases where a company is a serial repricer, has a huge overhang, or has highly dilutive, broad-based (non-approved) plans and is not acting to correct the situation.	AGAINST
THE FUNDS will evaluate shareholder proposals asking companies to adopt holding periods for their executives on a case-by-case basis taking into consideration the company s current holding period or officer share ownership requirements, as well as actual officer stock ownership in the company.	CASE-BY-CASE
For certain OBRA-related proposals, THE FUNDS will vote for plan provisions that (a) place a cap on annual grants or amend administrative features, and (b) add performance criteria to existing compensation plans to comply with the provisions of Section 162(m) of the Internal Revenue Code.	FOR
In addition, director compensation plans may also include stock plans that provide directors with the option of taking all or a portion of their cash compensation in the form of stock. THE FUNDS will consider these plans based on their voting power dilution.	CASE-BY-CASE
THE FUNDS will generally vote for retirement plans for directors.	FOR

Table of Contents

THE FUNDS will evaluate compensation proposals (Tax Havens) requesting share option schemes or amending an existing share option scheme on a case-by-case basis. CASE-BY-CASE

Stock options align management interests with those of shareholders by motivating executives to maintain stock price appreciation. Stock options, however, may harm shareholders by diluting each owner's interest. In addition, exercising options can shift the balance of voting power by increasing executive ownership.

Bonus Plans

THE FUNDS will vote for proposals to adopt annual or long-term cash or cash-and-stock bonus plans on a case-by-case basis. These plans enable companies qualify for a tax deduction under the provisions of Section 162(m) of the IRC. Payouts under these plans may either be in cash or stock and are usually tied to the attainment of certain financial or other performance goals. THE FUNDS will consider whether the plan is comparable to plans adopted by companies of similar size in the company's industry and whether it is justified by the company's performance. CASE-BY-CASE

Deferred Compensation Plans

THE FUNDS will generally vote for proposals to adopt or amend deferred compensation plans as they allow the compensation committee to tailor the plan to the needs of the executives or board of directors, unless FOR

6. the proposal is embedded in an executive or director compensation plan that is contrary to guidelines AGAINST

Disclosure on Executive or Director Compensation Cap or Restrict Executive or Director Compensation

THE FUNDS will generally vote for shareholder proposals requiring companies to report on their executive retirement benefits (deferred compensation, split-dollar life insurance, SERPs, and pension benefits). FOR

THE FUNDS will generally vote for shareholder proposals requesting to put extraordinary benefits contained in SERP agreements to a shareholder vote, unless the company's executive pension plans do not contain excessive benefits beyond what is offered under employee-wide plans. FOR

THE FUNDS will generally vote against proposals seek to limit executive and director pay. AGAINST

Table of Contents

Tax-Gross-Up Payments

THE FUNDS will examine on a case-by-case basis proposals calling for companies to adopt a policy of not providing tax gross-up payments to executives. CASE-BY-CASE

Relocation Benefits

The FUNDS will not consider relocation benefits as a problematic pay practice in connection with management say-on-pay proposals.

Exchange Offers/Re-Pricing

The FUNDS will not vote against option exchange programs made available to executives and directors that are otherwise found acceptable.

Golden and Tin Parachutes

THE FUNDS will vote for proposals that seek shareholder ratification of golden or tin parachutes as shareholders should have the opportunity to approve or disapprove of these severance agreements. FOR

Alternatively, THE FUNDS will examine on a case-by-case basis proposals that seek to ratify or cancel golden or tin parachutes. Effective parachutes may encourage management to consider takeover bids more fully and may also enhance employee morale and productivity. Among the arrangements that will be considered on their merits are: CASE-BY-CASE

7. arrangements guaranteeing key employees continuation of base salary for more than three years or lump sum payment of more than three times base salary plus retirement benefits;

8. guarantees of benefits if a key employee voluntarily terminates;

9. guarantees of benefits to employees lower than very senior management; and

10. indemnification of liability for excise taxes.

By contrast, THE FUNDS will vote against proposals that would guarantee benefits in a management-led buyout. AGAINST

Stakeholder Laws

THE FUNDS will vote against resolutions that would allow the Board to consider stakeholder interests (local communities, employees, suppliers, creditors, etc.) when faced with a takeover offer. AGAINST

Table of Contents

Similarly, THE FUNDS will vote for proposals to opt out of stakeholder laws, which permit directors, when taking action, to weight the interests of constituencies other than shareholders in the process of corporate decision-making. Such laws allow directors to consider nearly any factor they deem relevant in discharging their duties. FOR

Mergers/Acquisitions and Corporate Restructurings

THE FUNDS will consider proposals on mergers and acquisitions on a case-by-case basis. THE FUNDS will determine if the transaction is in the best economic interests of the shareholders. THE FUNDS will take into account the following factors: CASE-BY-CASE

11. anticipated financial and operating benefits;

12. offer price (cost versus premium);

13. prospects for the combined companies;

14. how the deal was negotiated;

15. changes in corporate governance and their impact on shareholder rights.

In addition, THE FUNDS will also consider whether current shareholders would control a minority of the combined company's outstanding voting power, and whether a reputable financial advisor was retained in order to ensure the protection of shareholders' interests. CASE-BY-CASE

On all other business transactions, i.e. corporate restructuring, spin-offs, asset sales, liquidations, and restructurings, THE FUNDS will analyze such proposals on a case-by-case basis and utilize the majority of the above factors in determining what is in the best interests of shareholders. Specifically, for liquidations, the cost versus premium factor may not be applicable, but THE FUNDS may also review the compensation plan for executives managing the liquidation. CASE-BY-CASE

Appraisal Rights

THE FUNDS will vote for proposals to restore, or provide shareholders with rights of appraisal. FOR

Rights of appraisal provide shareholders who are not satisfied with the terms of certain corporate transactions (such as mergers) the right to demand a judicial review in order to determine the fair value of their shares.

Table of Contents

Mutual Fund Proxies

THE FUNDS will vote mutual fund proxies on a case-by-case basis. Proposals may include, and are not limited to, the following issues: CASE-BY-CASE

16. eliminating the need for annual meetings of mutual fund shareholders;

17. entering into or extending investment advisory agreements and management contracts;

18. permitting securities lending and participation in repurchase agreements;

19. changing fees and expenses; and

20. changing investment policies.

Table of Contents

APPENDIX B
TO
PROXY VOTING POLICIES AND PROCEDURES

Members of Funds Management Proxy Voting Committee

Thomas C. Biwer, CFA

Mr. Biwer has 38 years experience in finance and investments. He has served as an investment analyst, portfolio strategist, and corporate pension officer. He received B.S. and M.B.A. degrees from the University of Illinois and has earned the right to use the CFA designation.

Erik J. Sens, CFA

Mr. Sens has 22 years of investment industry experience. He has served as an investment analyst and portfolio manager. He received undergraduate degrees in Finance and Philosophy from the University of San Francisco and has earned the right to use the CFA designation.

Travis L. Keshemberg, CFA

Mr. Keshemberg has 17 years experience in the investment industry. He has served as a overlay portfolio manager and investment consultant. He holds a Masters Degree from the University of Wisconsin Milwaukee and Bachelors degree from Marquette University. He has earned the right to use the CFA, CIPM and CIMA designations.

Patrick E. McGuinnis, CFA

Mr. McGuinnis has 12 years of experience in the investment industry as an analyst. He holds B.S. and M.S. degrees in Finance from the University of Wisconsin and has earned the right to use the CFA designation.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES

PORTFOLIO MANAGERS

Niklas Nordenfelt, CFA

Mr. Nordenfelt is currently managing director, senior portfolio manager with the Sutter High Yield Fixed Income team at Wells Capital Management. Niklas joined the Sutter High Yield Fixed Income team of Wells Capital Management in February 2003 as investment strategist. Niklas began his investment career in 1991 and has managed portfolios ranging from quantitative-based and tactical asset allocation strategies to credit driven portfolios. Previous to joining Sutter, Niklas was at Barclays Global Investors (BGI) from 1996-2002 where he was a principal. At BGI, he worked on their international and emerging markets equity strategies after having managed their asset allocation products. Prior to this, Niklas was a quantitative analyst at Fidelity and a portfolio manager and group leader at Mellon Capital Management. He earned a bachelor's degree in economics from the University of California, Berkeley, and has earned the right to use the CFA designation.

Philip Susser

Mr. Susser is currently managing director, senior portfolio manager, and co-head of the Sutter High Yield Fixed Income team at Wells Capital Management. Philip joined the Sutter High Yield Fixed Income team as a senior research analyst in 2001. He has extensive research experience in the cable/satellite, gaming, hotels, restaurants, printing/publishing, telecom, REIT, lodging and distressed sectors. Philip's investment experience began in 1995 spending three years as a securities lawyer at Cahill Gordon and Shearman & Sterling representing underwriters and issuers of high yield debt. Later, Philip evaluated venture investment opportunities for MediaOne Ventures before joining Deutsche Bank as a research analyst. He received his bachelor's degree in economics from the University of Pennsylvania and his law degree from the University of Michigan Law School.

Table of Contents

Lauren van Biljon, CFA

Lauren van Biljon is a portfolio manager and sovereign analyst with the Wells Fargo Asset Management (WFAM) Global Fixed Income team. She joined WFAM from Evergreen Investments in 2009. Prior to this, she served as an emerging markets analyst with 4Cast Ltd., where she began her investment industry career in 2007. She earned a bachelor's degree in economics from the University of Cape Town, South Africa, and a master's degree in economics from the University of Edinburgh, U.K. She has earned the right to use the CFA designation and is a member of the Society of Technical Analysts (STA).

Noah Wise, CFA

Noah Wise is a portfolio manager for the Wells Capital Management Customized Fixed Income team. Noah joined Wells Capital Management in 2008 as a research analyst and later became a portfolio manager in 2013. Prior to joining WellsCap, Noah worked as a lead market maker for Interactive Brokers. He began his investment industry career as an intern for Capital Financial Services in 2001. Noah earned a bachelor's degree in finance and a master's degree in business administration with an emphasis in securities analysis from the University of Wisconsin, Madison. He has earned the right to use the CFA designation.

Christopher Y. Kauffman, CFA

Mr. Kauffman is a portfolio manager for the Wells Capital Management Fixed Income team. He joined WellsCap from Tattersall Advisory Group (TAG), where he served in a similar role since 2003. He began his investment industry career in 1997 as an investment officer for NISA Investment Advisors, where he was responsible for MBS analysis, risk assessment, and trading. He earned a bachelor's degree in finance and economics and a master's degree in business administration with an emphasis in finance from Washington University in St. Louis. He has earned the right to use the CFA designation and is a member of the St. Louis Society of Financial Analysts and the CFA Institute.

Peter Wilson

Mr. Wilson is a managing director and senior portfolio manager with the Wells Fargo Asset Management (International), LLC Advisors team at Wells Capital Management. Peter is one of five senior members of the investment team that forms the Senior Strategy Team. His responsibilities include macro-portfolio allocation, portfolio positioning, and risk management. He joined WellsCap from Evergreen Investments, where he served in a similar role since 1989. Previously, he served as treasurer and portfolio manager for Axe-Houghton, vice president at Bankers Trust in London and New York, and portfolio manager at Merchant Bankers Kleinwort Benson Ltd. Peter began his investment industry career in 1978 at international stockbrokers James Capel & Co. He was educated in Canada, Hong Kong, and England.

Michael Lee

Mr. Lee is a senior portfolio manager with the Wells Fargo Asset Management (International), LLC Advisors team at Wells Capital Management. Mike is one of five senior members of the investment team that forms the Senior Strategy Team. His responsibilities include the day-to-day management and implementation of portfolio strategies. He joined WellsCap from Evergreen Investments, where he served in a similar role since 1992. Prior to this, he worked at Northern Trust Co. Earlier, he held investment positions at JPMorganChase and National Westminster Bank. Michael began his investment industry career in 1982. He is a member of the U.K. Society of Investment Professionals.

Alex Perrin

Mr. Perrin is a senior portfolio manager with the Wells Fargo Asset Management (International), LLC Advisors team at Wells Capital Management. Alex is one of five senior members of the investment team that forms the Senior Strategy Team. His responsibilities include developing investment strategies, macro-portfolio allocation, portfolio positioning, and risk management. He joined Wells Fargo Asset Management (International), LLC (formerly, First International Advisors) in 1992. Alex earned a bachelor's degree in mathematics and computer science from Hull University in the U.K. He is a member of the Society of Technical Analysts and an Associate Member of the U.K. Society of Investment Professionals.

Table of Contents**OTHER FUNDS AND ACCOUNTS MANAGED**

The following table provides information about the registered investment companies and other pooled investment vehicles and accounts managed by the portfolio manager of the Fund as of the Fund's most recent year ended October 31, 2018.

MATERIAL CONFLICTS OF INTEREST

The Portfolio Managers face inherent conflicts of interest in their day-to-day management of the Funds and other accounts because the Funds may have different investment objectives, strategies and risk profiles than the other accounts managed by the Portfolio Managers. For instance, to the extent that the Portfolio Managers manage accounts with different investment strategies than the Funds, they may from time to time be inclined to purchase securities, including initial public offerings, for one account but not for a Fund. Additionally, some of the accounts managed by the Portfolio Managers may have different fee structures, including performance fees, which are or have the potential to be higher or lower, in some cases significantly higher or lower, than the fees paid by the Funds. The differences in fee structures may provide an incentive to the Portfolio Managers to allocate more favorable trades to the higher-paying accounts.

To minimize the effects of these inherent conflicts of interest, the Sub-Advisers have adopted and implemented policies and procedures, including brokerage and trade allocation policies and procedures, that they believe address the potential conflicts associated with managing portfolios for multiple clients and ensure that all clients are treated fairly and equitably. Additionally, some of the Sub-Advisers minimize inherent conflicts of interest by assigning the Portfolio Managers to accounts having similar objectives. Accordingly, security block purchases are allocated to all accounts with similar objectives in proportionate weightings. Furthermore, the Sub-Advisers have adopted a Code of Ethics under Rule 17j-1 of the 1940 Act and Rule 204A-1 under the Investment Advisers Act of 1940 (the Advisers Act) to address potential conflicts associated with managing the Funds and any personal accounts the Portfolio Managers may maintain.

Wells Fargo Asset Management (International), LLC

Wells Fargo Asset Management (International), LLC's Portfolio Managers often provide investment management for separate accounts advised in the same or similar investment style as that provided to mutual funds. While management

of multiple accounts could potentially lead to conflicts of interest over various issues such as trade allocation, fee disparities and research acquisition, Wells Fargo Asset Management (International), LLC has implemented policies and procedures for the express purpose of ensuring that clients are treated fairly and that potential conflicts of interest are minimized.

While management of multiple accounts could potentially lead to conflicts of interest over various issues such as trade allocation, fee disparities and research acquisition, Wells Capital Management has implemented policies and procedures for the express purpose of ensuring that clients are treated fairly and that potential conflicts of interest are minimized.

COMPENSATION

The Portfolio Managers were compensated by their employing sub-adviser from the fees the Adviser paid the Sub-Adviser using the following compensation structure:

Wells Fargo Asset Management (International), LLC Compensation. The compensation structure for Wells Fargo Asset Management (International), LLC's Portfolio Managers includes a competitive fixed base salary plus variable incentives (Wells Fargo Asset Management (International), LLC utilizes investment management compensation surveys as confirmation). Incentive bonuses are typically tied to pretax relative investment performance of all accounts under his or her management within acceptable risk parameters. Relative investment performance is generally evaluated for 1, 3, and 5 year performance results, with a predominant weighting on the 3- and 5- year time periods, versus the relevant benchmarks and/or peer groups consistent with the investment style. This evaluation takes into account relative performance of the accounts to each account's individual benchmark and/or the relative composite performance of all accounts to one or more relevant benchmarks consistent with the overall investment style. In the case of each Fund, the benchmark(s) against which the performance of the Fund's portfolio may be compared for these purposes generally are indicated in the Performance sections of the Prospectuses.
