The Benefits and Risks of Leveraging

The Funds utilize leveraging to seek to enhance the yield and net asset value of their Common Shares or Common Stock. However, these objectives cannot be achieved in all interest rate environments. To leverage, the Funds issue Preferred Shares or Stock, which pays dividends at prevailing short-term interest rates, and invests the proceeds in long-term municipal bonds. The interest earned on these investments, net of dividends to Preferred Shares or Stock, is paid to Common Shareholders or Common Stock shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share net asset value of the Fund's Common Shares or Stock. However, in order to benefit Common Shareholders or Common Stock shareholders, the yield curve must be positively sloped; that is, short-term interest rates must be lower than long-term interest rates. At the same time, a period of generally declining interest rates will benefit Common Shareholders or Common Stock shareholders. If either of these conditions change, then the risks of leveraging will begin to

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

outweigh the benefits.

To illustrate these concepts, assume a fund's Common Shares or Stock capitalization of \$100 million and the issuance of Preferred Shares or Stock for an additional \$50 million, creating a total value of \$150 million available for investment in long-term municipal bonds. If prevailing short-term interest rates are approximately 3% and long-term interest rates are approximately 6%, the yield curve has a strongly positive slope. The fund pays dividends on the \$50 million of Preferred Shares or Stock based on the lower short-term interest rates. At the same time, the fund's total portfolio of \$150 million earns the income based on long-term interest rates.

In this case, the dividends paid to Preferred Shareholders or Preferred Stock shareholders are significantly lower than the income earned on the fund's long-term investments, and therefore the Common Shareholders or Common Stock shareholders are the beneficiaries of the incremental yield. However, if short-term interest rates rise, narrowing the differential between short-term and long-term interest rates, the incremental yield pickup on the Common Shares or Stock will be reduced or eliminated completely. At the same time, the market value on the fund's Common Shares or Stock (that is, its price as listed on the New York Stock Exchange), may, as a result, decline. Furthermore, if long-term interest rates rise, the Common Shares' or Stock's net asset value will reflect the full decline in the price of the portfolio's investments, since the value of the fund's Preferred Shares or Stock does not fluctuate. In addition to the decline in net asset value, the market value of the fund's Common Shares or Stock may also decline.

As a part of their investment strategy, the Funds may invest in certain securities whose potential income return is inversely related to changes in a floating interest rate ("inverse floaters"). In general, income on inverse floaters will decrease when short-term interest rates increase and increase when short-term interest rates decrease. Investments in inverse floaters may be characterized as derivative securities and may subject the Funds to the risks of reduced or eliminated interest payments and losses of invested principal. In addition, inverse floaters have the effect of providing investment leverage and, as a result, the market value of such securities will generally be more volatile than that of fixed rate, tax-exempt securities. To the extent the Funds invest in inverse floaters, the market value of each Fund's portfolio and the net asset value of each Fund's shares may also be more volatile than if the Funds did not invest in these securities. As of August 31, 2005, the percentages of MuniHoldings Florida Insured Fund's and MuniHoldings New York Insured Fund, Inc.'s total net assets invested in inverse floaters were 5.00% and 6.99%, respectively, before the deduction of Preferred Shares or Stock.

2 ANNUAL REPORTS AUGUST 31, 2005

A Letter From the President

Dear Shareholder

Amid what we've coined a "muddle through" year for the financial markets, the major market benchmarks managed to post positive results for the current reporting period:

Total Returns as of August 31, 2005	6-month	12-month
U.S. equities (Standard & Poor's 500 Index)	+2.33%	+12.56%

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

Small-cap U.S. equities (Russell 2000 Index)	+5.75%	+23.10%
International equities (MSCI Europe Australasia Far East Index)	+1.98%	+23.58%
Fixed income (Lehman Brothers Aggregate Bond Index)	+2.85%	+ 4.15%
Tax-exempt fixed income (Lehman Brothers Municipal Bond Index)	+2.85%	+ 5.31%
High yield bonds (Credit Suisse First Boston High Yield Index)	+1.35%	+ 8.98%

Since June 2004, the Federal Reserve Board (the Fed) has tirelessly advanced its interest rate-hiking program, bringing the federal funds rate to 3.5% by August 31 (and to 3.75% on September 20). Economists and investors have struggled to project the Fed's future moves, vacillating from expectations for an impending end to monetary tightening to fears that the central bank may increase interest rates more than is necessary to moderate economic growth and keep inflation in check. Most recently, the devastation of Hurricane Katrina added a new element of ambiguity in terms of its impact on the economy and Fed sentiment. Many now believe the Fed will suspend its interest rate-hiking campaign at some point this year.

Equity market returns over the past several months have reflected a degree of investor uncertainty. After a strong finish to 2004, the S&P 500 Index posted gains in four of the first eight months of 2005. Up to this point, strong corporate earnings reports and low long-term bond yields have worked in favor of equities. Factors that pose the greatest risks to stocks include record-high oil prices, continued interest rate hikes and the possibility for disappointing earnings for the remainder of the year.

Fixed income markets have fared relatively well in the face of monetary tightening. As the short end of the yield curve moved in concert with Fed interest rate hikes, long-term bond yields remained low, perpetuating the yield curve flattening trend. Because bond prices move in the opposite direction of yields, the result has been that longer-term bonds have outperformed short-term bonds. At period end, the spread between two-year and 10-year Treasury yields was just 18 basis points (.18%).

Financial markets are likely to face continued crosscurrents for the remainder of 2005, particularly as the economy digests the impact of Hurricane Katrina. Nevertheless, opportunities do exist and we encourage you to work with your financial advisor to diversify your portfolio among a variety of asset types. This can help to diffuse risk while also tapping into the potential benefits of a broader range of investment alternatives. As always, we thank you for trusting Merrill Lynch Investment Managers with your investment assets.

Sincerely,

/s/ Robert C. Doll, Jr.

Robert C. Doll, Jr.
President and Director/Trustee

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

We continued to focus on increasing the income provided to shareholders and muting the Funds' net asset value volatility.

Describe the recent market environment relative to municipal bonds.

Over the past year, long-term bond yields generally declined as their prices, which move in the opposite direction, increased. Most recently, the devastation of Hurricane Katrina throughout the U.S. Gulf Coast prompted a strong rally in bond prices. The resultant higher energy prices and expected declines in consumer confidence and spending pushed longer-term interest rates lower as the period came to a close.

The Federal Reserve Board (the Fed) continued to raise short-term interest rates during the period, lifting the federal funds target to 3.50% by period-end (and to 3.75% on September 20). As short-term interest rates rose in concert with the Fed interest rate hikes and longer-term bond yields declined, the yield curve continued to flatten. During the past 12 months, 30-year Treasury yields declined 68 basis points (.68%) to 4.25% and 10-year Treasury yields fell 11 basis points to 4.02%. By comparison, the two-year Treasury yield rose 143 basis points to 3.84%. Tax-exempt bond yields exhibited a similar pattern during the year. The yield on 30-year revenue bonds, as measured by the Bond Buyer Revenue Bond Index, fell 26 basis points to 4.83%. According to Municipal Market Data, the yield on AAA-rated issues maturing in 30 years declined 48 basis points to 4.22% while the yield on AAA-rated bonds maturing in 10 years remained unchanged at 3.50%.

Declining tax-exempt bond yields continued to encourage municipalities to issue new debt and refund outstanding, higher-coupled issues. Over the past year, more than \$384 billion in new long-term tax-exempt bonds was issued, an increase of greater than 7.5% versus last year's total of \$357 billion. In the past six months, more than \$217 billion in new municipal bonds was underwritten, an increase of 16.3% versus the same period in 2004. During the first six months of 2005, the volume of refunding issues increased more than 50% compared to underwritings during the first half of 2004. In August 2005, refunding issuance increased 18% compared to August 2004 levels. The refunding issues have been heavily weighted in the 10-year - 20-year maturity range, putting pressure on intermediate tax-exempt bond yields while supporting longer-term bond prices.

Investor demand for municipal product has remained generally positive. The most current statistics from the Investment Company Institute indicate that, year-to-date through July 31, 2005, net new cash flows into long-term municipal bond funds have exceeded \$4.2 billion -- a significant improvement from the \$12.4 billion net outflow seen during the same period in 2004. Weekly figures for August, as reported by AMG Data Service, pointed to continued positive flows.

Notably, throughout much of the past six months, high yield tax-exempt bond funds have been the principal target for the new cash inflows. During August, these lower-rated/non-rated bond funds received an average of \$150 million per week. The need to invest these cash flows has led to strong demand for lower-rated issues and a consequent narrowing of credit spreads. Additionally, an increasing percentage of insured issuance has further reduced the availability of lower-rated municipal securities, lending more support to higher prices for these issues.

Municipal bond issues have underperformed their taxable counterparts recently as Treasury bonds have enjoyed increased demand from foreign governments, which are unable to benefit from the tax advantage inherent in tax-exempt products. This underperformance, however, has resulted in attractive tax-exempt bond yield ratios and, we believe, should continue to attract investors to the municipal marketplace.

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

The communities shattered by Hurricane Katrina will require extensive reconstruction. It is too early to estimate the amount of tax-exempt debt that may be required to finance these efforts or to assess the overall impact on the municipal market. However, much of the rebuilding is likely to be funded through federal loans and grants, and the reconstruction will likely be spread over a number of years. Consequently, any municipal bond issuance prompted by Katrina is not likely to disrupt the tax-exempt market in the near future.

MuniHoldings Florida Insured Fund

Describe conditions in the State of Florida.

Florida maintains credit ratings of Aa1 from Moody's, AAA from Standard & Poor's and AA+ from Fitch -- all with stable trends. The favorable ratings are based on the state's solid economic and financial performance, in addition to moderate debt and a proactive government that responds to economic downturns faster than other states. Florida's continued economic strength is bolstered by robust population growth, which is

4

ANNUAL REPORTS

AUGUST 31, 2005

attributed to the state's attractive physical environment and favorable business climate. Although the growth in population has put a strain on services such as education, transportation and health care, it also has allowed the state to recover more quickly from sub par economic trends.

Currently, Florida's revenues are higher than budgeted and expenditures remain under control due to prudent fiscal oversight. The fiscal year 2005 budget was brought into balance through tight expenditure controls, including outsourcing work and requiring local governments to pick up costs historically incurred by the state. To pay for these additional expenses, municipalities imposed increases to property taxes and/or local sales taxes through voter initiatives. Given the government's concerns over the high health care costs facing the state -- roughly \$15 billion, or 26% in the upcoming budget -- Governor Jeb Bush has proposed a partially private health insurance plan. Florida continues to maintain solid fund balances with consistent General Fund operations. In addition, the state has a working Capital Reserve Fund and a Budget Stabilization Fund in excess of \$2.4 billion.

How did the Fund perform during the fiscal year?

For the 12-month period ended August 31, 2005, the Common Shares of MuniHoldings Florida Insured Fund had net annualized yields of 6.52% and 6.34%, based on a year-end per share net asset value of \$15.32 and a per share market price of \$15.75, respectively, and \$.999 per share income dividends. Over the same period, the total investment return on the Fund's Common Stock was +6.49%, based on a change in per share net asset value from \$15.37 to \$15.32, and assuming reinvestment of all distributions.

The Fund's total return, based on net asset value, lagged the +7.86% average return of the Lipper Florida Municipal Debt Funds category for the 12-month period. (Funds in this Lipper category limit their investment to those securities exempt from taxation in the State of Florida.) The Fund's conservative investment parameters played some role in the underperformance for the period. Unlike other funds in the Lipper group, the Fund is prohibited from investing in non-investment grade issues, which outperformed the high-grade market as credit spreads narrowed during the period. This put the Fund at a competitive disadvantage.

Three additional factors affected Fund performance during the period. First,

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

mortgage-refinancing activity continued strong during the year, which prompted an increased number of prepayment calls on some of the Fund's single-family housing bonds. This had a negative impact on total return. Second, several large-coupon bonds in the portfolio were prerefunded in prior periods, as the issuers took the opportunity to refinance their debt in the low interest rate environment. This transformed several of our longer-dated bonds into intermediate-maturity bonds in the one-year - 10-year maturity range -- a sector that underperformed as the yield curve flattened. Finally, the Fund has an above-average exposure to higher-coupon bonds priced to a short call. Like the prerefunded bonds, these shorter-term issues underperformed on a total return basis. Nevertheless, we continued to hold these bonds to take advantage of their high acquisition yield, as we would not be able to match their yield in the current low interest rate environment. Importantly, the Fund continued to provide a highly competitive yield relative to other closed-end Florida insured funds. Our long-term commitment to an above-average yield continues to benefit performance.

For the six-month period ended August 31, 2005, the total investment return on the Fund's Common Shares was +2.85%, based on a change in per share net asset value from \$15.39 to \$15.32, and assuming reinvestment of all distributions.

For a description of the Fund's total investment return based on a change in the per share market value of the Fund's Common Shares (as measured by the trading price of the Fund's shares on the New York Stock Exchange), and assuming reinvestment of dividends, please refer to the Financial Highlights section of this report. As a closed-end fund, the Fund's shares may trade in the secondary market at a premium or discount to the Fund's net asset value. As a result, total investment returns based on changes in the market value of the Fund's Common Shares can vary significantly from total investment returns based on changes in the Fund's net asset value.

What changes were made to the portfolio during the period?

We continued to focus on increasing the income provided to shareholders and muting the Fund's net asset value volatility. To that end, we sought to sell bonds in the more volatile 10-year - 15-year maturity range, although this proved somewhat challenging as the yield curve flattened and bonds in the intermediate range cheapened relative to longer-dated securities.

In making new purchases, we generally focused on premium-coupon bonds in the 20-year - 25-year maturity range whenever they became available. This is where we have been able to capture higher yields with reduced volatility. Our restructuring efforts have been somewhat limited by a modest decline in the issuance of Florida municipal bonds during the fiscal year and the fact that few new issues have met our desired investment characteristics. Much of the supply in the market has come in the form of refinancings, and the majority of the new issues offered maturities of only 15 years - 20 years and

ANNUAL REPORTS

AUGUST 31, 2005

5

A Discussion With Your Funds' Portfolio Managers (concluded)

yields below 5%. We were not inclined to give up bonds booked in the portfolio at higher yields in order to take advantage of the new-issue calendar. Importantly, we remained fully invested throughout the fiscal year in order to augment the portfolio's yield.

For the six-month period ended August 31, 2005, the Fund's Auction Market Preferred Shares (AMPS) had average yields as follows: Series A, 1.98%; Series B, 1.91%; Series C, 1.56%; Series D, 2.06%; and Series E, 1.88%. Continued

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

short-term interest rate increases by the Fed have boosted the Fund's borrowing costs throughout the 12-month period. Although we believe the majority of the Fed's actions have already occurred, additional interest rate hikes are expected until at least year-end. Nevertheless, the Fund's borrowing costs have remained historically very low, and the leveraging of Preferred Shares has continued to generate an income benefit to the holders of Common Shares. However, should the spread between short-term and long-term tax-exempt rates narrow, the benefits of leverage will decline and, as a result, reduce the yield on the Fund's Common Shares. At the end of the period, the Fund's leverage amount, due to AMPS, was 38.64% of total net assets, before the deduction of Preferred Shares. (For a more complete explanation of the benefits and risks of leveraging, see page 2 of this report to shareholders.)

How would you characterize the Fund's position at the close of the period?

We would characterize the Fund's position as fairly neutral in terms of interest rate risk. Currently, we favor bonds with 20-year maturities and 5% coupons. We believe the Fed will continue to raise short-term interest rates at a measured pace. While long-term bond yields have been slow to react to the Fed's rate hikes, we will look for an increase in long-term rates as an opportunity to pursue higher-coupon bonds (5.25% and above) in the 20 year - 30-year maturity range.

Robert D. Sneeden
Vice President and Portfolio Manager

MuniHoldings New York Insured Fund, Inc.

Describe conditions in the State of New York.

The State of New York maintains credit ratings of A1, AA and AA- from Moody's, Standard and Poor's (S&P) and Fitch, respectively. Moody's assigns a positive outlook to the state's rating, while Fitch and S&P carry stable outlooks. The state economy continues to improve and revenue collections are increasing. State tax collections remain largely dependent on the performance of the financial sector, but tax receipts for fiscal year 2005 were 15% above the prior fiscal year. Due to surging tax collections, particularly income taxes, the fiscal year 2005 operating surplus totaled \$1.2 billion.

The fiscal year 2006 budget calls for \$105 billion in spending and forecasts a 5% increase in tax receipts for the fiscal year. Aided by this revenue growth, the enacted budget includes most of the governor's original proposals for closing an estimated \$4 billion deficit. However, this does not factor in a lawsuit won by the Campaign for Fiscal Equity that could add up to \$2 billion in annual state education spending. Crafting balanced budgets beyond fiscal year 2006 will present a challenge given political resistance to additional tax hikes and cuts in popular programs, as well as pressure from local governments for pension and Medicaid relief, and new education spending. General fund receipts are .7% ahead of budget through the first quarter of fiscal year 2006.

The New York economy produced good job growth in 2004, with total non-farm labor increasing .5% from the prior year. This was the first annual gain since 2000. Preliminary August 2005 employment (seasonally adjusted) is 1% above the prior August level. New York ranks fifth-highest among all states in per capita income. Modest income growth through the remainder of 2005 would boost personal income tax receipts, which account for roughly 38% of general fund receipts.

How did the Fund perform during the fiscal year?

For the 12-month period ended August 31, 2005, the Common Stock of MuniHoldings New York Insured Fund, Inc. had net annualized yields of 6.10% and 6.20%, based on a year-end per share net asset value of \$15.54 and a per share market price

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

of \$15.28, respectively, and \$.948 per share income dividends. Over the same period, the total investment return on the Fund's Common Stock was +7.63%, based on a change in per share net asset value from \$15.41 to \$15.54, and assuming reinvestment of all distributions.

The Fund's total return, based on net asset value, lagged the +8.20% average return of the Lipper New York Insured Municipal Debt Funds category for the 12-month period. (Funds in this Lipper category invest primarily in securities exempt from taxation in New York and insured as to timely payment.) The modest underperformance is attributed to the portfolio's slightly shorter-than-average duration, which we maintained for the bulk of the period based on our belief that strong economic growth, coupled with a Fed tightening,

6

ANNUAL REPORTS

AUGUST 31, 2005

would cause long-term bond yields to increase. The defensive positioning was designed to limit portfolio volatility and protect the Fund's net asset value from the price impact associated with rising rates. However, long-term rates actually declined over the course of the year, costing the Fund some capital appreciation as bond prices correspondingly rose.

The decline in long-term interest rates as short-term interest rates rose also resulted in a flattening of the yield curve, a phenomenon we sought to capitalize on by moving into longer-dated securities as opportunities presented themselves. This strategy helped the Fund's total return as the price of longer-dated bonds increased. Over the course of the year, we increased the portfolio's exposure to bonds maturing in 25 years or longer from 46.8% of net assets to 59.5%.

For the most part, our focus during the period centered on yield rather than total return. As a result, the Fund was able to gain a competitive yield advantage versus its New York insured fund peers. While some of our competitors were forced to cut their dividends as market rates declined, the Fund was able to maintain an above-average monthly distribution rate.

For the six-month period ended August 31, 2005, the total investment return on the Fund's Common Stock was +3.44%, based on a change in per share net asset value from \$15.51 to \$15.54, and assuming reinvestment of all distributions.

For a description of the Fund's total investment return based on a change in the per share market value of the Fund's Common Stock (as measured by the trading price of the Fund's shares on the New York Stock Exchange), and assuming reinvestment of dividends, please refer to the Financial Highlights section of this report. As a closed-end fund, the Fund's shares may trade in the secondary market at a premium or discount to the Fund's net asset value. As a result, total investment returns based on changes in the market value of the Fund's Common Stock can vary significantly from total investment returns based on changes in the Fund's net asset value.

What changes were made to the portfolio during the period?

Throughout the year, we focused on protecting the Fund's net asset value and providing shareholders with above-average income. To that end, we remained essentially fully invested and maintained a low turnover rate in order to retain bonds booked into the portfolio at attractive yields. Whenever possible, we took opportunities to move further out on the yield curve to pick up additional yield. Consequently, the Fund's average maturity lengthened from 19.5 years at the start of the fiscal period to 20.7 years at August 31, 2005.

Recently, there has been little long-maturity new issuance in the New York

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

municipal market. As issuers are refunding their existing debt, they have tended to do so with short and intermediate issues. The limited supply of longer-dated maturities has provided for few trading opportunities. Until market yields increase or the new-issue calendar produces compelling opportunities, we are looking to enhance the diversification of the portfolio. For example, we added bonds insured by several new insurers in the municipal marketplace. These bonds came with additional yield and should outperform as credit spreads narrow.

For the six-month period ended August 31, 2005, the Fund's Auction Market Preferred Stock (AMPS) had average yields as follows: Series A, 2.25%; Series B, 2.31%; Series C, 2.32%; Series D, 2.38%; and Series E, 2.37%. Continued short-term interest rate increases by the Fed have boosted the Fund's borrowing costs throughout the 12-month period. Although we believe the majority of the Fed's actions have already occurred, additional rate hikes are expected until at least year-end. Nevertheless, the Fund's borrowing costs have remained historically very low, and the leveraging of Preferred Stock has continued to generate an income benefit to the holders of Common Stock. However, should the spread between short-term and long-term tax-exempt rates narrow, the benefits of leverage will decline and, as a result, reduce the yield on the Fund's Common Stock. At the end of the period, the Fund's leverage amount, due to AMPS, was 39.55% of total net assets, before the deduction of Preferred Stock. (For a more complete explanation of the benefits and risks of leveraging, see page 2 of this report to shareholders.)

How would you characterize the Fund's position at the close of the period?

In view of the current risks to the economy and the uncertainty wrought by Hurricane Katrina, we believe a neutral approach to duration is appropriate. We maintain our focus on yield generation and are looking for the new-issue market to pick up and provide more trading opportunities. We continue our efforts to diversify the portfolio, which we believe will allow us more flexibility to capitalize on the rapidly changing market and the dislocations caused by the various market participants.

Swap Agreements

The Funds may invest in swap agreements, which are over-the-counter contracts in which one party agrees to make periodic payments based on the change in market value of a specified bond, basket of bonds, or index in return for periodic payments based on a fixed or variable interest rate or the change in market value of a different bond, basket of bonds or index. Swap agreements may be used to obtain or reduce exposure to a bond or market without owning or taking physical custody of securities. Swap agreements involve the risk that the party with whom each Fund has entered into the swap will default on its obligation to pay the Fund and the risk that the Fund will not be able to meet its obligations to pay the other party to the agreement.

Dividend Policy

The Funds' dividend policy is to distribute all or a portion of its net investment income to their shareholders on a monthly basis. In order to provide shareholders with a more stable level of dividend distributions, the Funds may at times pay out less than the entire amount of net investment income earned in any particular month and may at times in any particular month pay out such accumulated but undistributed income in addition to net investment income earned in that month. As a result, the dividends paid by the Funds for any particular month may be more or less than the amount of net investment income earned by the Funds during such month. The Funds' current accumulated but undistributed net investment income, if any, is disclosed in the Statement of Net Assets, which comprises part of the financial information included in these reports.

ANNUAL REPORTS

AUGUST 31, 2005

25

Notes to Financial Statements

1. Significant Accounting Policies:

MuniHoldings Florida Insured Fund and MuniHoldings New York Insured Fund, Inc. (the "Funds" or individually as the "Fund") are registered under the Investment Company Act of 1940, as amended, as non-diversified, closed-end management investment companies. The Funds' financial statements are prepared in conformity with U.S. generally accepted accounting principles, which may require the use of management accruals and estimates. Actual results may differ from these estimates. The Funds determine and make available for publication the net asset value of their Common Stock/Shares on a daily basis. The Funds' Common Stock/Shares are listed on the New York Stock Exchange under the symbols MFL and MHN, respectively. The following is a summary of significant accounting policies followed by the Funds.

(a) Valuation of investments -- Municipal bonds are traded primarily in the over-the-counter ("OTC") markets and are valued at the last available bid price in the OTC market or on the basis of values as obtained by a pricing service.

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

Pricing services use valuation matrixes that incorporate both dealer-supplied valuations and valuation models. The procedures of the pricing service and its valuations are reviewed by the officers of the Funds under the general direction of the Board of Directors/Trustees. Such valuations and procedures are reviewed periodically by the Board of Directors/Trustees of the Funds. Financial futures contracts and options thereon, which are traded on exchanges, are valued at their closing prices as of the close of such exchanges. Options written or purchased are valued at the last sale price in the case of exchange-traded options. In the case of options traded in the OTC market, valuation is the last asked price (options written) or the last bid price (options purchased). Swap agreements are valued by quoted fair values received daily by the Funds' pricing service. Short-term investments with a remaining maturity of 60 days or less are valued at amortized cost which approximates market value, under which method the investment is valued at cost and any premium or discount is amortized on a straight line basis to maturity. Investments in open-end investment companies are valued at their net asset value each business day. Securities and other assets for which market quotations are not readily available are valued at fair value as determined in good faith by or under the direction of the Board of Directors/Trustees of the Funds.

(b) Derivative financial instruments -- Each Fund may engage in various portfolio investment strategies both to increase the return of the Fund and to hedge, or protect, its exposure to interest rate movements and movements in the securities markets. Losses may arise due to changes in the value of the contract or if the counterparty does not perform under the contract.

- o Financial futures contracts -- Each Fund may purchase or sell financial futures contracts and options on such futures contracts. Futures contracts are contracts for delayed delivery of securities at a specific future date and at a specific price or yield. Upon entering into a contract, the Fund deposits and maintains as collateral such initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as variation margin and are recorded by the Funds as unrealized gains or losses. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.
- o Options -- Each Fund may write covered call options and purchase call and put options. When the Fund writes an option, an amount equal to the premium received by the Fund is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. When a security is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. When an option expires (or the Fund enters into a closing transaction), the Fund realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium paid or received).

Written and purchased options are non-income producing investments.

- o Forward interest rate swaps -- Each Fund may enter into forward interest rate swaps. In a forward interest rate swap, the Fund and the counterparty agree to make periodic net payments on a specified notional contract amount, commencing on a specified future effective date, unless terminated earlier. When the agreement is closed, the Fund records a realized gain or loss in an amount equal to the value of the agreement.

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

(c) Income taxes -- It is each Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute

26 ANNUAL REPORTS

AUGUST 31, 2005

Notes to Financial Statements (continued)

substantially all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

(d) Security transactions and investment income -- Security transactions are recorded on the dates the transactions are entered into (the trade dates). Realized gains and losses on security transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Interest income is recognized on the accrual basis. The Funds amortize all premiums and discounts on debt securities.

(e) Dividends and distributions -- Dividends from net investment income are declared and paid monthly. Distributions of capital gains are recorded on the ex-dividend dates.

(f) Reclassification for MuniHoldings New York Insured Fund, Inc. -- U.S. generally accepted accounting principles require that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. Accordingly, during the current year, \$781 has been reclassified between accumulated net realized capital losses and undistributed net investment income as a result of permanent differences attributable to amortization methods on fixed income securities. This reclassification has no effect on net assets or net asset values per share.

2. Investment Advisory Agreement and Transactions with Affiliates:

Each Fund has entered into an Investment Advisory Agreement with Fund Asset Management, L.P. ("FAM"). The general partner of FAM is Princeton Services, Inc. ("PSI"), an indirect, wholly-owned subsidiary of Merrill Lynch & Co., Inc. ("ML & Co."), which is the limited partner.

FAM is responsible for the management of each Fund's portfolio and provides the necessary personnel, facilities, equipment and certain other services necessary to the operations of the Fund. For such services, each Fund pays a monthly fee at an annual rate of .55% of the Fund's average weekly net assets, including proceeds from the issuance of Preferred Stock/Shares. The Investment Adviser has agreed to reimburse its management fee by the amount of management fees each Fund pays to FAM indirectly through its investments described below:

	Investment	Reimbursement
MuniHoldings Florida Insured Fund	Merrill Lynch Institutional Tax-Exempt Fund	\$25,756
MuniHoldings New York Insured Fund, Inc.	CMA New York Municipal Money Fund	\$ 4,154

In addition, the Investment Adviser has agreed to reimburse its management fee on the proceeds of Preferred Stock/Shares that exceeds 35% of each Fund's total net assets. For the year ended August 31, 2005, FAM earned and waived the following:

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

	Fees Earned	Waived
MuniHoldings Florida Insured Fund	\$5,173,879	\$311,067
MuniHoldings New York Insured Fund, Inc.	\$4,340,557	\$321,137

For the year ended August 31, 2005, the Funds reimbursed FAM for certain accounting services. The reimbursements were as follows:

	Reimbursement
MuniHoldings Florida Insured Fund	\$21,295
MuniHoldings New York Insured Fund, Inc.	\$17,862

Certain officers and/or directors/trustees of the Fund are officers and/or directors of FAM, PSI, and/or ML & Co.

3. Investments:

Purchases and sales of investments, excluding short-term securities, for the year ended August 31, 2005 were as follows:

	MuniHoldings Florida Insured Fund	MuniHoldings New York Insured Fund, Inc.
Total Purchases	\$249,070,620	\$276,339,378
Total Sales	\$242,625,234	\$276,047,729

4. Stock/Share Transactions:

MuniHoldings Florida Insured Fund is authorized to issue an unlimited number of shares of beneficial interest, including Preferred Shares, par value \$.10 per share, all of which were initially classified as Common Shares. The Board of Trustees is authorized, however, to reclassify any unissued shares of beneficial interest without the approval of holders of Common Shares.

MuniHoldings New York Insured Fund, Inc. is authorized to issue 200,000,000 shares of stock, including Preferred Stock, par value \$.10 per share, all of which were initially classified as Common Stock. The Board of Directors is authorized, however, to reclassify any unissued shares of stock without approval of holders of Common Stock.

Common Shares

MuniHoldings Florida Insured Fund:

Shares issued and outstanding during the year ended August 31, 2005 increased by 34,561 as a result of dividend reinvestments and for the year ended August 31, 2004 remained constant.

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

Notes to Financial Statements (concluded)

MuniHoldings New York Insured Fund, Inc.:

Shares issued and outstanding during the years ended August 31, 2005 and August 31, 2004 remained constant.

Preferred Stock

Auction Market Preferred Stock/Shares are shares of Preferred Stock/Shares of the Funds, with a par value of \$.10 per share and a liquidation preference of \$25,000 per share, plus accrued and unpaid dividends, that entitle their holders to receive cash dividends at an annual rate that may vary for the successive dividend periods.

The yields in effect at August 31, 2005 were as follows:

	MuniHoldings Florida Insured Fund	MuniHoldings New York Insured Fund, Inc.
Series A	2.38%	1.65%
Series B	2.38%	1.65%
Series C	2.45%	1.90%
Series D	2.47%	1.90%
Series E	2.35%	2.05%

Each Fund pays commissions to certain broker-dealers at the end of each auction at an annual rate ranging from .25% to .375%, calculated on the proceeds of each auction. For the year ended August 31, 2005, Merrill Lynch, Pierce, Fenner & Smith Incorporated, an affiliate of FAM, earned commissions as follows:

	Commissions
MuniHoldings Florida Insured Fund	\$467,672
MuniHoldings New York Insured Fund, Inc.	\$296,931

5. Distributions to Shareholders:

Each Fund paid a tax-exempt income dividend to holders of Common Stock/Shares in the amounts of \$.083000 per share and \$.079000 per share relating to MuniHoldings Florida Insured Fund and MuniHoldings New York Insured Fund, Inc. respectively, on September 29, 2005 to shareholders of record on September 14, 2005.

MuniHoldings Florida Insured Fund

The tax character of distributions paid during the fiscal years ended August 31, 2005 and August 31, 2004 was as follows:

	8/31/2005	8/31/2004
Distributions paid from:		
Tax-exempt Income	\$44,560,482	\$41,164,179
Total distributions	\$44,560,482	\$41,164,179

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

=====

As of August 31, 2005, the components of accumulated earnings on a tax basis were as follows:

Undistributed tax-exempt income--net	\$ 6,445,041
Undistributed long-term capital gains--net	--

Total undistributed earnings--net	6,445,041
Capital loss carryforward	(61,566,460)*
Unrealized gains--net	57,285,284**

Total accumulated earnings--net	\$ 2,163,865
=====	

* On August 31, 2005, the Fund had a net capital loss carryforward of \$61,566,460, of which \$25,345,146 expires in 2007, \$9,834,324 expires in 2008, \$16,563,861 expires in 2009, \$1,836,991 expires in 2012 and \$7,986,138 expires in 2013. This amount will be available to offset like amounts of any future taxable gains.

** The difference between book-basis and tax-basis net unrealized gains is attributable primarily to the tax deferral losses on wash sales, the tax deferral of losses on straddles and the difference between book and tax amortization methods for premiums and discounts on fixed income securities.

MuniHoldings New York Insured Fund, Inc.

The tax character of distributions paid during the fiscal years ended August 31, 2005 and August 31, 2004 was as follows:

	8/31/2005	8/31/2004

Distributions paid from:		
Tax-exempt income	\$34,381,754	\$31,322,450

Total distributions	\$34,381,754	\$31,322,450
=====		

As of August 31, 2005, the components of accumulated earnings on a tax basis were as follows:

Undistributed tax-exempt income--net	\$ 5,178,903
Undistributed long-term capital gains--net	--
=====	
Total undistributed earnings--net	5,178,903
Capital loss carryforward	(36,185,739)*
Unrealized gains--net	31,439,726**

Total accumulated earnings--net	\$ 432,890
=====	

* On August 31, 2005, the Fund had a net capital loss carryforward of \$36,185,739, of which \$566,530 expires in 2007, \$3,509,287 expires in 2008, \$17,055,889 expires in 2009 and \$15,054,033 expires in 2013. This amount will be available to offset like amounts of any future taxable gains.

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

** The difference between book-basis and tax-basis net unrealized gains is attributable primarily to the tax deferral of losses on wash sales, the tax deferral of losses on straddles, the difference between book and tax amortization methods for premiums and discounts on fixed income securities, the realization for tax purposes of unrealized gains (losses) on certain futures contracts and the deferral of post-October capital losses for tax purposes.

28 ANNUAL REPORTS

AUGUST 31, 2005

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors/ Trustees of MuniHoldings Florida Insured Fund and MuniHoldings New York Insured Fund, Inc.:

We have audited the accompanying statements of net assets, including the schedules of investments, of MuniHoldings Florida Insured Fund and MuniHoldings New York Insured Fund, Inc. (the "Funds"), as of August 31, 2005, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Funds' management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Funds are not required to have, nor were we engaged to perform, audits of their internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of August 31, 2005 by correspondence with the custodian and brokers; where replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of MuniHoldings Florida Insured Fund and MuniHoldings New York Insured Fund, Inc. as of August 31, 2005, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Deloitte & Touche LLP
Princeton, New Jersey
October 21, 2005

Fund Certification (unaudited)

In February 2005, MuniHoldings Florida Insured Fund and MuniHoldings New York Insured Fund, Inc. filed their Chief Executive Officer Certification for the

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

prior year with the New York Stock Exchange pursuant to Section 303A.12(a) of the New York Stock Exchange Corporate Governance Listing Standards.

The Funds' Chief Executive Officer and Chief Financial Officer Certifications pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 were filed with the Funds' Form N-CSR and are available on the Securities and Exchange Commission's Web site at <http://www.sec.gov>.

Important Tax Information (unaudited)

All of the net investment income distributions paid by MuniHoldings Florida Insured Fund and MuniHoldings New York Insured Fund, Inc. during the taxable year ended August 31, 2005 qualify as tax-exempt interest dividends for federal income tax purposes.

ANNUAL REPORTS

AUGUST 31, 2005

29

Automatic Dividend Reinvestment Plan

The following description of the Funds' Automatic Dividend Reinvestment Plan (the "Plan") is sent to you annually as required by federal securities laws.

Pursuant to the Fund's Plan, unless a holder of Common Shares or Stock otherwise elects, all dividend and capital gains distributions will be automatically reinvested by The Bank of New York (the "Plan Agent"), as agent for shareholders in administering the Plan, in additional Common Shares or shares of Common Stock of the Fund. Holders of Common Shares or Stock who elect not to participate in the Plan will receive all distributions in cash paid by check mailed directly to the shareholder of record (or, if the shares are held in street or other nominee name then to such nominee) by The Bank of New York, as dividend paying agent. Such participants may elect not to participate in the Plan and to receive all distributions of dividends and capital gains in cash by sending written instructions to The Bank of New York, as dividend paying agent, at the address set forth below. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by written notice if received by the Plan Agent not less than ten days prior to any dividend record date; otherwise such termination will be effective with respect to any subsequently declared dividend or distribution.

Whenever the Fund declares an income dividend or capital gains distribution (collectively referred to as "dividends") payable either in shares or in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Shares or shares of Common Stock. The shares will be acquired by the Plan Agent for the participant's account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Shares or shares of Common Stock from the Fund ("newly issued shares") or (ii) by purchase of outstanding Common Shares or shares of Common Stock on the open market ("open-market purchases") on the New York Stock Exchange or elsewhere. If, on the payment date for the dividend, the net asset value per share of the Common Shares or Stock is equal to or less than the market price per Common Share or share of the Common Stock plus estimated brokerage commissions (such conditions being referred to herein as "market premium"), the Plan Agent will invest the dividend amount in newly issued shares on behalf of the participant. The number of newly issued Common Shares or shares of Common Stock to be credited to the participant's account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If, on the dividend payment date, the net asset value per share is greater than the market value (such condition being referred to herein as "market discount"),

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases.

In the event of a market discount on the dividend payment date, the Plan Agent will have until the last business day before the next date on which the shares trade on an "ex-dividend" basis or in no event more than 30 days after the dividend payment date (the "last purchase date") to invest the dividend amount in shares acquired in open-market purchases. It is contemplated that the Fund will pay monthly income dividends. Therefore, the period during which open-market purchases can be made will exist only from the payment date on the dividend through the date before the next "ex-dividend" date, which typically will be approximately ten days. If, before the Plan Agent has completed its open-market purchases, the market price of a Common Share or share of Common Stock exceeds the net asset value per share, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the Fund's shares, resulting in the acquisitions of fewer shares than if the dividend had been paid in newly issued shares on the dividend payment date. Because of the foregoing difficulty with respect to open-market purchases, the Plan provides that if the Plan Agent is unable to invest the full dividend amount in open-market purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Agent will cease making open-market purchases and will invest the uninvested portion of the dividend amount in newly issued shares at the close of business on the last purchase date determined by dividing the uninvested portion of the dividend by the net asset value per share.

30 ANNUAL REPORTS

AUGUST 31, 2005

The Plan Agent maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the account, including information needed by shareholders for tax records. Shares in the account of each Plan participant will be held by the Plan Agent in non-certificated form in the name of the participant, and each shareholder's proxy will include those shares purchased or received pursuant to the Plan. The Plan Agent will forward all proxy solicitation materials to participants and vote proxies for shares held pursuant to the Plan in accordance with the instructions of the participants.

In the case of shareholders such as banks, brokers or nominees which hold shares of others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the record shareholders as representing the total amount registered in the record shareholder's name and held for the account of beneficial owners who are to participate in the Plan.

There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open-market purchases in connection with the reinvestment of dividends.

The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends.

Shareholders participating in the Plan may receive benefits not available to shareholders not participating in the Plan. If the market price plus commissions of the Funds' shares is above the net asset value, participants in the Plan will receive shares of the Funds at less than they could otherwise purchase them and will have shares with a cash value greater than the value of any cash distribution they would have received on their shares. If the market price plus

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

commissions is below the net asset value, participants will receive distributions in shares with a net asset value greater than the value of any cash distribution they would have received on their shares. However, there may be insufficient shares available in the market to make distributions in shares at prices below the net asset value. Also, since the Funds do not redeem shares, the price on resale may be more or less than the net asset value.

The value of shares acquired pursuant to the Plan will generally be excluded from gross income to the extent that the cash amount reinvested would be excluded from gross income. If, when each Fund's shares are trading at a premium over net asset value, each Fund issues shares pursuant to the Plan that have a greater fair market value than the amount of cash reinvested, it is possible that all or a portion of such discount (which may not exceed 5% of the fair market value of each Fund's shares) could be viewed as a taxable distribution. If the discount is viewed as a taxable distribution, it is also possible that the taxable character of this discount would be allocable to all the shareholders, including shareholders who do not participate in the Plan. Thus, shareholders who do not participate in the Plan might be required to report as ordinary income a portion of their distributions equal to their allocable share of the discount.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan; however, the Funds reserve the right to amend the Plan to include a service charge payable by the participants.

All correspondence concerning the Plan should be directed to the Plan Agent at The Bank of New York, Church Street Station, P.O. Box 11258, New York, NY 10286-1258, Telephone: 800-432-8224.

Investment Objectives

NYSE Symbol MFL MuniHoldings Florida Insured Fund seeks to provide
shareholders with current income exempt from federal income
tax. The Fund also seeks to offer shareholders the opportunity
to own shares, the value of which is exempt from Florida
intangible personal property tax. The Fund seeks to achieve
its investment objective by investing primarily in a portfolio
of long-term, investment grade municipal obligations, the
interest on which, in the opinion of bond counsel to the
issuer, is exempt from federal income taxes and which enables
shares of the Fund to be exempt from Florida intangible
personal property tax.

NYSE Symbol MHN MuniHoldings New York Insured Fund, Inc. seeks to provide
shareholders with current income exempt from federal income
taxes and New York State and New York City personal income
taxes by investing primarily in a portfolio of long-term,
investment grade municipal obligations, the interest on which,
in the opinion of bond counsel to the issuer, is exempt from
federal income taxes and New York State and New York City
personal income taxes.

Availability of Quarterly Schedules of Investments

The Funds file their complete schedules of portfolio holdings with the
Securities and Exchange Commission ("SEC") for the first and third quarters of
each fiscal year on Form N-Q. The Funds' Forms N-Q are available on the SEC's
Web site at <http://www.sec.gov>. The Funds' Forms N-Q may also be reviewed and

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

These reports, including the financial information herein, are transmitted to shareholders of MuniHoldings Florida Insured Fund and MuniHoldings New York Insured Fund, Inc. for their information. This is not a prospectus. Past performance results shown in this report should not be considered a representation of future performance. The Funds have leveraged their Common Shares or Stock and intend to remain leveraged by issuing Preferred Shares or Stock to provide the Common Shareholders or Common Stock shareholders with a potentially higher rate of return. Leverage creates risks for Common Shareholders or Common Stock shareholders, including the likelihood of greater volatility of net asset value and market price of shares of the Common Shares or Stock, and the risk that fluctuations in the short-term dividend rates of the Preferred Shares or Stock may affect the yield to Common Shareholders or Common Stock shareholders. Statements and other information herein are as dated and are subject to change.

A description of the policies and procedures that the Funds use to determine how to vote proxies relating to portfolio securities is available (1) without charge, upon request, by calling toll-free 1-800-MER-FUND (1-800-637-3863); (2) at www.mutualfunds.ml.com; and (3) on the Securities and Exchange Commission's Web site at <http://www.sec.gov>. Information about how the Funds vote proxies relating to securities held in the Funds' portfolios during the most recent 12-month period ended June 30 is available (1) at www.mutualfunds.ml.com; and (2) on the Securities and Exchange Commission's Web site at <http://www.sec.gov>.

Princeton, NJ 08543-9011

#MHFLNY -- 8/05

Item 2 - Code of Ethics - The registrant has adopted a code of ethics, as of the end of the period covered by this report, that applies to the registrant's principal executive officer, principal financial officer and principal accounting officer, or persons performing similar functions. A copy of the code of ethics is available without charge upon request by calling toll-free 1-800-MER-FUND (1-800-637-3863).

Item 3 - Audit Committee Financial Expert - The registrant's board of directors has determined that (i) the registrant has the following audit committee financial experts serving on its audit committee and (ii) each audit committee financial expert is independent: (1) Ronald W. Forbes, (2) Richard R. West, and (3) Edward D. Zinbarg.

Item 4 - Principal Accountant Fees and Services

(a) Audit Fees - Fiscal Year Ending August 31, 2005 - \$32,000
Fiscal Year Ending August 31, 2004 - \$30,000

(b) Audit-Related Fees - Fiscal Year Ending August 31, 2005 - \$3,500
Fiscal Year Ending August 31, 2004 - \$3,000

The nature of the services include assurance and related services reasonably related to the performance of the audit of financial statements not included in Audit Fees.

(c) Tax Fees - Fiscal Year Ending August 31, 2005 - \$7,000
Fiscal Year Ending August 31, 2004 - \$5,610

The nature of the services include tax compliance, tax advice and tax planning.

(d) All Other Fees - Fiscal Year Ending August 31, 2005 - \$0
Fiscal Year Ending August 31, 2004 - \$0

(e)(1) The registrant's audit committee (the "Committee") has adopted policies and procedures with regard to the pre-approval of services. Audit, audit-related and tax compliance services provided to the registrant on an annual basis require specific pre-approval by the Committee. The Committee also must approve other non-audit services provided to the registrant and those non-audit services provided to the registrant's affiliated service providers that relate directly to the operations and the financial reporting of the registrant. Certain of these non-audit services that the Committee believes are a) consistent with the SEC's auditor independence rules and b) routine and recurring services that will not impair the independence of the independent accountants may be approved by the Committee without consideration on a specific case-by-case basis ("general pre-approval"). However, such services will only be deemed pre-approved provided that any individual project does not exceed \$5,000 attributable to the registrant or \$50,000 for all of the registrants the Committee oversees. Any proposed services exceeding the pre-approved cost levels will require specific pre-approval by the Committee, as will any other services not subject to general pre-approval (e.g., unanticipated but permissible services). The Committee is informed of each service approved subject to general pre-approval at the next regularly scheduled in-person board meeting.

Item 7 - Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies -
Proxy Voting Policies and Procedures

Each Fund's Board of Directors/Trustees has delegated to Merrill Lynch Investment Managers, L.P. and/or Fund Asset Management, L.P. (the "Investment Adviser") authority to vote all proxies relating to the Fund's portfolio securities. The Investment Adviser has adopted policies and procedures ("Proxy Voting Procedures") with respect to the voting of proxies related to the portfolio securities held in the account of one or more of its clients, including a Fund. Pursuant to these Proxy Voting Procedures, the Investment Adviser's primary objective when voting proxies is to make proxy voting decisions solely in the best interests of each Fund and its shareholders, and to act in a manner that the Investment Adviser believes is most likely to enhance the economic value of the securities held by the Fund. The Proxy Voting Procedures are designed to ensure that the Investment Adviser considers the interests of its clients, including the Funds, and not the interests of the Investment Adviser, when voting proxies and that real (or perceived) material conflicts that may arise between the Investment Adviser's interest and those of the Investment Adviser's clients are properly addressed and resolved.

In order to implement the Proxy Voting Procedures, the Investment Adviser has formed a Proxy Voting Committee (the "Committee"). The Committee is comprised of the Investment Adviser's Chief Investment Officer (the "CIO"), one or more other senior investment professionals appointed by the CIO, portfolio managers and investment analysts appointed by the CIO and any other personnel the CIO deems appropriate.

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

The Committee will also include two non-voting representatives from the Investment Adviser's Legal department appointed by the Investment Adviser's General Counsel. The Committee's membership shall be limited to full-time employees of the Investment Adviser. No person with any investment banking, trading, retail brokerage or research responsibilities for the Investment Adviser's affiliates may serve as a member of the Committee or participate in its decision making (except to the extent such person is asked by the Committee to present information to the Committee, on the same basis as other interested

knowledgeable parties not affiliated with the Investment Adviser might be asked to do so). The Committee determines how to vote the proxies of all clients, including a Fund, that have delegated proxy voting authority to the Investment Adviser and seeks to ensure that all votes are consistent with the best interests of those clients and are free from unwarranted and inappropriate influences. The Committee establishes general proxy voting policies for the Investment Adviser and is responsible for determining how those policies are applied to specific proxy votes, in light of each issuer's unique structure, management, strategic options and, in certain circumstances, probable economic and other anticipated consequences of alternate actions. In so doing, the Committee may determine to vote a particular proxy in a manner contrary to its generally stated policies. In addition, the Committee will be responsible for ensuring that all reporting and recordkeeping requirements related to proxy voting are fulfilled.

The Committee may determine that the subject matter of a recurring proxy issue is not suitable for general voting policies and requires a case-by-case determination. In such cases, the Committee may elect not to adopt a specific voting policy applicable to that issue. The Investment Adviser believes that certain proxy voting issues require investment analysis - such as approval of mergers and other significant corporate transactions - akin to investment decisions, and are, therefore, not suitable for general guidelines. The Committee may elect to adopt a common position for the Investment Adviser on certain proxy votes that are akin to investment decisions, or determine to permit the portfolio manager to make individual decisions on how best to maximize economic value for a Fund (similar to normal buy/sell investment decisions made by such portfolio managers). While it is expected that the Investment Adviser will generally seek to vote proxies over which the Investment Adviser exercises voting authority in a uniform manner for all the Investment Adviser's clients, the Committee, in conjunction with a Fund's portfolio manager, may determine that the Fund's specific circumstances require that its proxies be voted differently.

To assist the Investment Adviser in voting proxies, the Committee has retained Institutional Shareholder Services ("ISS"). ISS is an independent adviser that specializes in providing a variety of fiduciary-level proxy-related services to institutional investment managers, plan sponsors, custodians, consultants, and other institutional investors. The services provided to the Investment Adviser by ISS include in-depth research, voting recommendations (although the Investment Adviser is not obligated to follow such recommendations), vote execution, and recordkeeping. ISS will also assist the Fund in fulfilling its reporting and recordkeeping obligations under the Investment Company Act.

The Investment Adviser's Proxy Voting Procedures also address special circumstances that can arise in connection with proxy voting. For instance, under the Proxy Voting Procedures, the Investment Adviser

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

generally will not seek to vote proxies related to portfolio securities that are on loan, although it may do so under certain circumstances. In addition, the Investment Adviser will vote proxies related to securities of foreign issuers only on a best efforts basis and may elect not to vote at all in certain countries where the Committee determines that the costs associated with voting generally outweigh the benefits. The Committee may at any time override these general policies if it determines that such action is in the best interests of a Fund.

From time to time, the Investment Adviser may be required to vote proxies in respect of an issuer where an affiliate of the Investment Adviser (each, an "Affiliate"), or a money management or other client of the Investment Adviser (each, a "Client") is involved. The Proxy Voting Procedures and the Investment Adviser's adherence to those procedures are designed to address such conflicts of interest. The Committee intends to strictly adhere to the Proxy Voting Procedures in all proxy matters, including matters involving Affiliates and Clients. If, however, an issue representing a non-routine matter that is material to an Affiliate or a widely known Client is involved such that the Committee does not reasonably believe it is able to follow its guidelines (or if the particular proxy matter is not addressed by the guidelines) and vote impartially, the Committee may, in its discretion for the purposes of ensuring that an independent determination is reached, retain an independent fiduciary to advise the Committee on how to vote or to cast votes on behalf of the Investment Adviser's clients.

In the event that the Committee determines not to retain an independent fiduciary, or it does not follow the advice of such an independent fiduciary, the powers of the Committee shall pass to a subcommittee, appointed by the CIO (with advice from the Secretary of the Committee), consisting solely of Committee members selected by the CIO. The CIO shall appoint to the subcommittee, where appropriate, only persons whose job responsibilities do not include contact with the Client and whose job evaluations would not be affected by the Investment Adviser's relationship with the Client (or failure to retain such relationship). The subcommittee shall determine whether and how to vote all proxies on behalf of the Investment Adviser's clients or, if the proxy matter is, in their judgment, akin to an investment decision, to defer to the applicable portfolio managers, provided that, if the subcommittee determines to alter the Investment Adviser's normal voting guidelines or, on matters where the Investment Adviser's policy is case-by-case, does not follow the voting recommendation of any proxy voting service or other independent fiduciary that may be retained to provide research or advice to the Investment Adviser on that matter, no proxies relating to the Client may be voted unless the Secretary, or in the Secretary's absence, the Assistant Secretary of the Committee concurs that the subcommittee's determination is consistent with the Investment Adviser's fiduciary duties.

In addition to the general principles outlined above, the Investment Adviser has adopted voting guidelines with respect to certain recurring proxy issues that are not expected to involve unusual circumstances. These policies are guidelines only, and the Investment Adviser may elect to vote differently from the recommendation set forth in a voting guideline if the Committee determines that it is in a Fund's best interest to do so. In addition, the guidelines may be reviewed at any time upon the request of a Committee member and may be amended or deleted upon the vote of a majority of Committee members present at a Committee meeting at which there is a quorum.

The Investment Adviser has adopted specific voting guidelines with

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

respect to the following proxy issues:

- o Proposals related to the composition of the Board of Directors of issuers other than investment companies. As a general matter, the Committee believes that a company's Board of Directors (rather than shareholders) is most likely to have access to important, nonpublic information regarding a company's business and prospects, and is therefore best-positioned to set corporate policy and oversee management. The Committee, therefore, believes that the foundation of good corporate governance is the election of qualified, independent corporate directors who are likely to diligently represent the interests of shareholders and oversee management of the corporation in a manner that will seek to maximize shareholder value over time. In individual cases, the Committee may look at a nominee's history of representing shareholder interests as a director of other companies or other factors, to the extent the Committee deems relevant.
- o Proposals related to the selection of an issuer's independent auditors. As a general matter, the Committee believes that corporate auditors have a responsibility to represent the interests of shareholders and provide an independent view on the propriety of financial reporting decisions of corporate management. While the Committee will generally defer to a corporation's choice of auditor, in individual cases, the Committee may look at an auditors' history of representing shareholder interests as auditor of other companies, to the extent the Committee deems relevant.
- o Proposals related to management compensation and employee benefits. As a general matter, the Committee favors disclosure of an issuer's compensation and benefit policies and opposes excessive compensation, but believes that compensation matters are normally best determined by an issuer's board of directors, rather than shareholders. Proposals to "micro-manage" an issuer's compensation practices or to set arbitrary restrictions on compensation or benefits will, therefore, generally not be supported.
- o Proposals related to requests, principally from management, for approval of amendments that would alter an issuer's capital structure. As a general matter, the Committee will support requests that enhance the rights of common shareholders and oppose requests that appear to be unreasonably dilutive.
- o Proposals related to requests for approval of amendments to an issuer's charter or by-laws. As a general matter, the Committee opposes poison pill provisions.
- o Routine proposals related to requests regarding the formalities of corporate meetings.
- o Proposals related to proxy issues associated solely with holdings of investment company shares. As with other types of companies, the Committee believes that a fund's Board of Directors (rather than its shareholders) is best-positioned to set fund policy and oversee management. However, the Committee opposes granting Boards of Directors authority over certain matters, such as changes to a fund's investment objective, that the Investment Company Act envisions will be approved directly by shareholders.
- o Proposals related to limiting corporate conduct in some manner that relates to the shareholder's environmental or social concerns. The Committee generally believes that annual shareholder meetings are inappropriate forums for discussion of larger social issues, and opposes

Edgar Filing: MUNIHOLDINGS FLORIDA INSURED FUND INC - Form N-CSR

shareholder resolutions "micromanaging" corporate conduct or requesting release of information that would not help a shareholder evaluate an investment in the corporation as an economic matter. While the Committee is generally supportive of proposals to require corporate disclosure of matters that seem relevant and material to the economic interests of shareholders, the Committee is generally not supportive of proposals to require disclosure of corporate matters for other purposes.

Item 8 - Portfolio Managers of Closed-End Management Investment Companies - Not Applicable at this time

Item 9 - Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers - Not Applicable

Item 10 - Submission of Matters to a Vote of Security Holders - Not Applicable

Item 11 - Controls and Procedures

11(a) - The registrant's certifying officers have reasonably designed such disclosure controls and procedures to ensure material information relating to the registrant is made known to us by others particularly during the period in which this report is being prepared. The registrant's certifying officers have determined that the registrant's disclosure controls and procedures are effective based on our evaluation of these controls and procedures as of a date within 90 days prior to the filing date of this report.

11(b) - There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Act (17 CFR 270.30a-3(d)) that occurred during the second fiscal half-year of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12 - Exhibits attached hereto

12(a) (1) - Code of Ethics - See Item 2

12(a) (2) - Certifications - Attached hereto

12(a) (3) - Not Applicable

12(b) - Certifications - Attached hereto

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
