## Semiannual Report

Delaware  
Investments  
Closed-End  
Municipal Bond  
Funds

September 30, 2010

The figures in the semiannual report for Delaware Investments Closed-End Municipal Bond Funds represent past results, which are not a guarantee of future results. A rise or fall in interest rates can have a significant impact on bond prices. Funds that invest in bonds can lose their value as interest rates rise.

### Closed-end funds

1 Ratios have been annualized and total return and portfolio turnover have not been annualized.

2 Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for the purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods.

Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

3 Ratios do not reflect the effect of dividend payments to preferred shareholders, if applicable.

4 Ratio reflects total net investment income less dividends paid to preferred shareholders, if applicable, divided by average net assets applicable to common shareholders.

5 In 2008, the Fund redeemed all of its preferred shares at par plus accumulated dividends amounting to \$25,024,395. See Note 7 in "Notes to financial statements."

6 Excluding any accumulated but unpaid dividends.

See accompanying Notes, which are an integral part of the financial statements.

## Notes to financial statements

Delaware Investments Closed-End Municipal Bond Funds  
September 30, 2010 (Unaudited)

Delaware Investments Arizona Municipal Income Fund, Inc. (Arizona Municipal Fund), Delaware Investments Colorado Municipal Income Fund, Inc. (Colorado Municipal Fund) and Delaware Investments Minnesota Municipal Income Fund II, Inc. (Minnesota Municipal Fund II) are organized as Minnesota corporations and Delaware Investments National Municipal Income Fund (National Municipal Fund) is organized as a Massachusetts business trust (each referred to as a Fund and collectively as the Funds). Arizona Municipal Fund, Colorado Municipal Fund, Minnesota Municipal Fund II and National Municipal Fund are considered diversified closed-end management investment companies under the Investment Company Act of 1940, as amended. The Funds' shares trade on the NYSE Amex Equities, the successor to the American Stock Exchange.

The investment objective of each Fund is to provide high current income exempt from federal income tax and from state personal income tax, if any, consistent with the preservation of capital. Each Fund, except National Municipal Income Fund will seek to achieve its investment objective by investing substantially all of its net assets in investment grade, tax-exempt municipal obligations of its respective state.

### 1. Significant Accounting Policies

The following accounting policies are in accordance with U.S. generally accepted accounting principles (U.S. GAAP) and are consistently followed by the Funds.

**Security Valuation** — Debt securities are valued by an independent pricing service or broker. To the extent current market prices are not available, the pricing service may take into account developments related to the specific security, as well as transactions in comparable securities. Short-term debt securities are valued at market value. Generally, other securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith under the direction of each Fund's Board of Directors/Trustees (each a Board, and collectively, the Boards). In determining whether market quotations are readily available or fair valuation will be used, various factors will be taken into consideration, such as market closures or suspension of trading in a security.

**Federal Income Taxes** — No provision for federal income taxes has been made as each Fund intends to continue to qualify for federal income tax purposes as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended, and make the requisite distributions to shareholders. The Funds evaluate tax positions taken or expected to be taken in the course of preparing the Funds' tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. Management has analyzed the Funds' tax positions taken on federal income tax returns for all open tax years (March 31, 2007 – March 31, 2010), and has concluded that no provision for federal income tax is required in the Funds' financial statements.

**Use of Estimates** — The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and such differences could be material.

**Interest and Related Expenses** — Interest and related expenses include, but are not limited to, interest expense, remarketing fees, liquidity fees, and trustees' fees from the Funds' participation in inverse floater programs where a Fund has transferred its own bonds to a trust that issues floating rate securities with an aggregate principal amount equal to the principal of the transferred bonds. In conveyance of the bond, the Funds receive the inverse floating rate securities and cash from the trust. As a result of certain rights retained by the Funds, the transfer of the bond is not considered a sale, but rather a form of financing for accounting purposes whereby the cash received is recorded as a liability and interest expense is recorded based on the interest rate of the floating rate securities. Remarketing fees, liquidity fees, and trustees' expenses are recorded on the accrual basis. There were no interest and related expenses for the six months ended September 30, 2010.

**Other** — Expenses directly attributable to a Fund are charged directly to that Fund. Other expenses common to various funds within the Delaware Investments® Family of Funds are generally allocated amongst such funds on the basis of average net assets. Management fees and some other expenses are paid monthly. Security transactions are recorded on the date the securities are purchased or sold (trade date) for financial reporting purposes. Costs used in calculating realized gains and losses on the sale of investment securities are those of the specific securities sold. Interest income is recorded on the accrual basis. Discounts and premiums are amortized to interest income over the lives of the respective securities. Each Fund declares and pays dividends from net investment income monthly and distributions from net realized gain on investments, if any, annually. Such dividends and distributions, if any, are recorded on the ex-dividend date.

The Funds may receive earnings credits from their custodian when positive cash balances are maintained, which are used to offset custody fees. There were no earnings credits for the six months ended September 30, 2010.

The Funds may receive earnings credits from their transfer agent when positive cash balances are maintained, which are used to offset transfer agent fees. There were no earnings credits for the six months ended September 30, 2010.

# Edgar Filing: Delaware Investments Colorado Municipal Income Fund, Inc. - Form N-CSR

## 2. Investment Management, Administration Agreements and Other Transactions with Affiliates

In accordance with the terms of its respective investment management agreement, each Fund pays Delaware Management Company (DMC), a series of Delaware Management Business Trust and the investment manager, an annual fee of 0.40% which is calculated daily based on the average weekly net assets of each Fund.

Delaware Service Company, Inc. (DSC), an affiliate of DMC, provides fund accounting and financial administration oversight services to the Funds. For these services, the Funds pay DSC fees based on the aggregate daily net assets of the Delaware Investments® Family of Funds at the following annual rate: 0.0050% of the first \$30 billion; 0.0045% of the next \$10 billion; 0.0040% of the next \$10 billion; and 0.0025% of aggregate average daily net assets in excess of \$50 billion. The fees payable to DSC under the service agreement described above are allocated among all Funds in the Delaware Investments® Family of Funds on a relative net asset value basis. For the six months ended September 30, 2010, the Funds were charged as follows:

	Arizona Municipal Fund	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
	\$1,050	\$1,719	\$4,098	\$810

At September 30, 2010, each Fund had liabilities payable to affiliates as follows:

	Arizona Municipal Fund	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
Investment management fee payable to DMC	\$ 14,013	\$ 22,951	\$ 54,547	\$ 10,845
Accounting administration and other expenses payable to DSC	175	286	680	135
Other expenses payable to DMC and affiliates*	3,270	6,531	15,090	1,473

\*DMC, as part of its administrative services, pays operating expenses on behalf of each Fund and is reimbursed on a periodic basis. Such expenses include items such as printing of shareholder reports, fees for audit, legal and tax services, stock exchange fees, custodian fees and directors/trustees' fees.

As provided in the investment management agreement, each Fund bears the cost of certain legal and tax services, including internal legal and tax services provided to each Fund by DMC and/or its affiliates' employees. For the six months ended September 30, 2010, each Fund was charged for internal legal and tax services provided by DMC and/or its affiliates' employees as follows:

	Arizona Municipal Fund	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
	\$304	\$474	\$1,134	\$242

Directors'/Trustees' fees include expenses accrued by the Funds for each Director's/Trustee's retainer and meeting fees. Certain officers of DMC and DSC are officers and/or Directors/Trustees of the Funds. These officers and Directors/Trustees are paid no compensation by the Funds.

## 3. Investments

For the six months ended September 30, 2010, the Funds made purchases and sales of investment securities other than short-term investments as follows:

	Arizona Municipal Fund	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
Purchases	\$ 2,450,070	\$ 6,130,780	\$ 7,157,349	\$ 8,847,969
Sales	1,693,721	6,615,529	7,997,264	9,836,146

At September 30, 2010, the cost of investments for federal income tax purposes has been estimated since final tax characteristics cannot be determined until fiscal year end. At September 30, 2010, the cost of investments and unrealized appreciation (depreciation) for each Fund were as follows:

Edgar Filing: Delaware Investments Colorado Municipal Income Fund, Inc. - Form N-CSR

	Arizona Municipal Fund	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
Cost of investments	\$ 41,016,999	\$ 65,755,041	\$ 154,166,796	\$ 30,095,786
Aggregate unrealized appreciation	\$ 1,881,093	\$ 3,674,007	\$ 9,873,641	\$ 2,181,157
Aggregate unrealized depreciation	(244,152)	(383,878)	(284,487)	(22,933)
Net unrealized appreciation	\$ 1,636,941	\$ 3,290,129	\$ 9,589,154	\$ 2,158,224

(continues) 23

## Notes to financial statements

### Delaware Investments Closed-End Municipal Bond Funds

#### 3. Investments (continued)

U.S. GAAP defines fair value as the price that the Funds would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. A three level hierarchy for fair value measurements has been established based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available under the circumstances. Each Fund's investment in its entirety is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three level hierarchy of inputs is summarized below.

Level 1 – inputs are quoted prices in active markets for identical investments (i.e. equity securities, open-end investment companies, futures contracts, options contracts)

Level 2 – other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs) (i.e. debt securities, government securities, swap contracts, foreign currency exchange contracts, foreign securities utilizing international fair value pricing)

Level 3 – inputs are significant unobservable inputs (including the Funds' own assumptions used to determine the fair value of investments) (i.e. broker-quoted securities, fair valued securities)

The following table summarizes the valuation of each Fund's investments by fair value hierarchy levels as of September 30, 2010:

	Arizona Municipal Fund
	Level 2
Municipal Bonds	\$ 42,653,940

Total	\$ 32,254,010

There were no Level 3 securities at the beginning or end of the period for any Fund.

## Edgar Filing: Delaware Investments Colorado Municipal Income Fund, Inc. - Form N-CSR

In January 2010, the Financial Accounting Standards Board issued an Accounting Standards Update, Improving Disclosures about Fair Value Measurements, which introduced new disclosure requirements and clarified certain existing disclosure requirements around fair value measurements currently presented above. The new disclosures and clarifications of existing disclosures are generally effective for the Funds' fiscal year ending, March 31, 2011 and interim periods therein. During the six months ended September 30, 2010, there were no transfers between Level 1 investments, Level 2 investments, or Level 3 investments that had a material impact to the Funds.

## 4. Dividend and Distribution Information

Income and long-term capital gain distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP. Additionally, distributions from net short-term gains on sales of investment securities are treated as ordinary income for federal income tax purposes. The tax character of dividends and distributions paid during the six months ended September 30, 2010 and year ended March 31, 2010 was as follows:

	Arizona Municipal Fund	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
<b>Six Months Ended 9/30/10*</b>				
Long-term capital gain	\$ 97,833	\$ —	\$ —	\$ —
Ordinary income	580	—	—	12,514
Tax-exempt income	767,917	1,378,574	3,278,918	611,203
<b>Total</b>	<b>\$ 866,330</b>	<b>\$ 1,378,574</b>	<b>\$ 3,278,918</b>	<b>\$ 623,717</b>
<b>Year Ended 3/31/10</b>				
Long-term capital gain	\$ 74,555	\$ —	\$ —	\$ —
Ordinary income	—	—	—	18,011
Tax-exempt income	1,438,912	2,757,147	6,557,836	1,217,311
<b>Total</b>	<b>\$ 1,513,467</b>	<b>\$ 2,757,147</b>	<b>\$ 6,557,836</b>	<b>\$ 1,235,322</b>

\*Tax information for the six months ended September 30, 2010 is an estimate and the tax character of dividends and distributions may be redesignated at fiscal year end.

## 5. Components of Net Assets on a Tax Basis

The components of net assets are estimated since final tax characteristics cannot be determined until fiscal year end. As of September 30, 2010, the estimated components of net assets on a tax basis were as follows:

	Arizona Municipal Fund	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
Shares of beneficial interest	\$40,651,205	\$66,918,121	\$157,931,075	\$33,208,317
Undistributed long-term capital gains	4,686	—	—	—
Undistributed tax-exempt income	380,050	262,136	604,731	264,758
Realized gains 4/1/10 - 9/30/10	—	123,308	162,363	99,424
Capital loss carryforwards as of 3/31/10	—	(672,918)	(2,257,889)	(2,649,375)
Unrealized appreciation of investments	1,636,941	3,290,129	9,589,154	2,158,224
<b>Net assets</b>	<b>\$42,672,882</b>	<b>\$69,920,776</b>	<b>\$166,029,434</b>	<b>\$33,081,348</b>

The differences between book basis and tax basis components of net assets are primarily attributable to tax treatment of market discount on debt instruments.

For financial reporting purposes, capital accounts are adjusted to reflect the tax character of permanent book/tax differences. Reclassifications are primarily due to tax treatment of dividends and distributions and tax treatment of market discount on debt instruments. Results of operations and net assets were not affected by these reclassifications. For the six months ended September 30, 2010, the Funds recorded an estimate of these differences since final tax characteristics cannot be determined until fiscal year end.

	Arizona Municipal Fund	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
Undistributed net investment income	\$ (4,978)	\$ (1,904)	\$ (7,706)	\$ (925)
Accumulated net realized gain	4,978	1,904	7,706	925

## Notes to financial statements

### Delaware Investments Closed-End Municipal Bond Funds

#### 5. Components of Net Assets on a Tax Basis (continued)

For federal income tax purposes, capital loss carryforwards may be carried forward and applied against future capital gains. Capital loss carryforwards remaining at March 31, 2010 will expire as follows:

Year of Expiration	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
2013	\$ —	\$ 9,826	\$ —
2016	—	—	18,596
2017	672,918	1,983,869	1,770,984
2018	—	264,194	859,795
<b>Total</b>	<b>\$ 672,918</b>	<b>\$ 2,257,889</b>	<b>\$ 2,649,375</b>

For the six months ended September 30, 2010, the Funds had capital gains, as follows, which may reduce the capital loss carryforwards:

	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
	\$123,308	\$162,363	\$99,424

#### 6. Capital Stock

Pursuant to their articles of incorporation, Arizona Municipal Fund, Colorado Municipal Fund and Minnesota Municipal Fund II each have 200 million shares of \$0.01 par value common shares authorized. National Municipal Fund has been authorized to issue an unlimited amount of \$0.01 par value common shares. The Funds did not repurchase any shares under the Share Repurchase Program during the six months ended September 30, 2010. Shares issuable under the Funds' dividend reinvestment plan are purchased by the Funds' transfer agent, BNY Mellon Shareowner Services, in the open market.

For the six months ended September 30, 2010, the Funds did not have any transactions in common shares.

#### 7. Redemption of Preferred Shares

On October 7, 2008, the Funds' Board approved a plan to redeem all outstanding preferred shares issued by the Funds. At the time, the market was experiencing extraordinary volatility, which resulted in significantly higher rates on the preferred shares. Management recommended the redemption of the Funds' preferred shares because of the increasing difficulty for the Funds to invest the assets attributable to the preferred shares in securities that provided a rate of return in excess of the dividend rates payable on the preferred shares. These higher costs, in conjunction with market conditions at that time, could cause the Funds to realize an overall lower rate of return than if the Funds were not leveraged. Each Fund's Board may consider adding some form of leverage to the Funds in the future if warranted by economic conditions at that time.

## Edgar Filing: Delaware Investments Colorado Municipal Income Fund, Inc. - Form N-CSR

Prior to the redemption, each preferred share had a liquidation preference of \$50,000 plus an amount equal to accumulated but unpaid dividends. The effective dates and redemption values are as follows:

	Shares Redeemed	Total
<b>Arizona Municipal Fund</b>		
Effective 10/24/08		
Series A	250	\$ 12,512,197.50

Series A	200	\$ 10,009,758.00
Series B	200	10,009,758.00
Total	400	\$ 20,019,516.00

In connection with these transactions, each Fund liquidated a corresponding amount of its investments to fund the redemptions.

### 8. Derivatives

U.S. GAAP requires enhanced disclosures that enable investors to understand: 1) how and why an entity uses derivatives, 2) how they are accounted for, and 3) how they affect an entity's results of operations and financial position.

**Inverse Floaters** — Each Fund may participate in inverse floater programs where a fund transfers its own bonds to a trust that issues floating rate securities and inverse floating rate securities (inverse floaters) with an aggregate principal amount equal to the principal of the transferred bonds. The inverse floaters received by the Funds are derivative tax-exempt obligations with floating or variable interest rates that move in the opposite direction of short-term interest rates, usually at an accelerated speed. Consequently, the market values of the inverse floaters will generally be more volatile than other tax-exempt investments. The Funds typically use inverse floaters to adjust the duration of their portfolio. Duration measures a portfolio's sensitivity to changes in interest rates. By holding inverse floaters with a different duration than the underlying bonds that a Fund transferred to the trust, the Fund seeks to adjust its portfolio's sensitivity to changes in interest rates. The Funds may also invest in inverse floaters to add additional income to the Funds or to adjust the Funds' exposure to a specific segment of the yield curve. At September 30, 2010, the Funds held no investments in inverse floaters.

### 9. Credit and Market Risk

The Funds concentrate their investments in securities issued by municipalities. The value of these investments may be adversely affected by new legislation within the states, regional or local and national economic conditions, as applicable and differing levels of supply and demand for municipal bonds. Many municipalities insure repayment for their obligations. Although bond insurance reduces the risk of loss due to default by an issuer, such bonds remain subject to the risk that market value may fluctuate for other reasons and there is no assurance that the insurance company will meet its

(continues) 27

## Notes to financial statements

### Delaware Investments Closed-End Municipal Bond Funds

#### 9. Credit and Market Risk (continued)

obligations. A real or perceived decline in creditworthiness of a bond insurer can have an adverse impact on the value of insured bonds held in each Fund. At September 30, 2010, the percentages of each Fund's net assets insured by insurers are listed below and these securities have been identified in the statements of net assets.

Arizona Municipal Fund	35%
Colorado Municipal Fund	41%
Minnesota Municipal Fund II	23%
National Municipal Fund	30%

The Funds invest a portion of their assets in high yield fixed income securities, which carry ratings of BB or lower by Standard & Poor's Ratings Group (S&P) and/or Ba or lower by Moody's Investors Service, Inc. (Moody's). Investments in these higher yielding securities are generally accompanied by a greater degree of credit risk than higher rated securities. Additionally, lower rated securities may be more susceptible to adverse economic and competitive industry conditions than investment grade securities.

The Funds may invest in advanced refunded bonds, escrow secured bonds or defeased bonds. Under current federal tax laws and regulations, state and local government borrowers are permitted to refinance outstanding bonds by issuing new bonds. The issuer refinances the outstanding debt to either reduce interest costs or to remove or alter restrictive covenants imposed by the bonds being refinanced. A refunding transaction where the municipal securities are being refunded within 90 days from the issuance of the refunding issue is known as a "current refunding". "Advance refunded bonds" are bonds in which the refunded bond issue remains outstanding for more than 90 days following the issuance of the refunding issue. In an advance refunding, the issuer will use the proceeds of a new bond issue to purchase high grade interest bearing debt securities which are then deposited in an irrevocable escrow account held by an escrow agent to secure all future payments of principal and interest and bond premium of the advance refunded bond. Bonds are "escrowed to maturity" when the proceeds of the refunding issue are deposited in an escrow account for investment sufficient to pay all of the principal and interest on the original interest payment and maturity dates.

Bonds are considered "pre-refunded" when the refunding issue's proceeds are escrowed only until a permitted call date or dates on the refunded issue with the refunded issue being redeemed at the time, including any required premium. Bonds become "defeased" when the rights and interests of the bondholders and of their lien on the pledged revenues or other security under the terms of the bond contract are substituted with an alternative source of revenues (the escrow securities) sufficient to meet payments of principal and interest to maturity or to the first call dates. Escrowed secured bonds will often receive a rating of AAA from Moody's, S&P, and/or Fitch Ratings due to the strong credit quality of the escrow securities and the irrevocable nature of the escrow deposit agreement.

Each Fund may invest up to 15% of its net assets in illiquid securities, which may include securities with contractual restrictions on resale, securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and other securities which may not be readily marketable. The relative illiquidity of these securities may impair each Fund from disposing of them in a timely manner and at a fair price when it is necessary or desirable to do so. While maintaining oversight, each Fund's Board has delegated to DMC the day-to-day functions of determining whether individual securities are liquid for purposes of each Fund's limitation on investments in illiquid assets. Securities eligible for resale pursuant to Rule 144A, which are determined to be liquid, are not subject to the Funds' 15% limit on investments in illiquid securities. As of September 30, 2010, there were no Rule 144A securities and no securities have been determined to be illiquid under the Funds' Liquidity Procedures.

#### 10. Contractual Obligations

The Funds enter into contracts in the normal course of business that contain a variety of indemnifications. The Funds' maximum exposure under these arrangements is unknown. However, the Funds have not had prior claims or losses pursuant to these contracts. Management has reviewed each Fund's existing contracts and expects the risk of loss to be remote.

#### 11. Investments in Municipal Securities Issued by the State of Florida

On September 13, 2007, shareholders of Delaware Investments National Municipal Income Fund (formerly Delaware Investments Florida Insured Municipal Income Fund) approved (1) the elimination of the Fund's fundamental investment policy that required the Fund to invest primarily in insured municipal securities issued by the State of Florida and (2) the adoption of a new fundamental investment policy permitting the Fund to invest in un-insured municipal securities issued by states other than Florida. The Fund's portfolio managers began to transition the Fund's portfolio to include un-insured municipal bonds issued by other states and territories on October 15, 2007. As of September 30, 2010, municipal bonds issued by the state of Florida constitute approximately 26% of the Fund's portfolio. These investments could make the Fund more sensitive to economic conditions in Florida than other more geographically diversified national municipal income funds.

## 12. Subsequent Event

On November 19, 2010, the Boards of Trustees/Directors of Delaware Investments National Municipal Income Fund (the "National Muni Fund") and Delaware Investments Arizona Municipal Income Fund, Inc. (the "Arizona Muni Fund") announced their decision to approve a proposal providing for the reorganization of the Arizona Muni Fund into the National Muni Fund. Under the terms of the proposed reorganization, the National Muni Fund would acquire substantially all of the Arizona Muni Fund's assets in exchange for newly issued shares of beneficial interest of the National Muni Fund. Those shares of the National Muni Fund would then be distributed pro rata to Arizona Muni Fund's shareholders, and the Arizona Muni Fund would subsequently be liquidated and dissolved.

Common shares of Arizona Muni Fund would be exchanged for common shares of National Muni Fund based on the relative net asset values of each Fund's common shares. These transactions, which are expected to be tax-free, are subject to the approval of the Agreement and Plan of Acquisition by each Fund's shareholders (which includes the National Muni Fund's approval of the issuance of new common shares).

Each Fund's Board plans to submit the proposals described above to each Fund's shareholders at a special meeting, currently expected to take place on February 25, 2011. Any solicitation of proxies by each Fund in connection with this shareholder meeting will be made only pursuant to proxy materials filed under the federal securities laws. It is anticipated that these proxy materials will be distributed to each Fund's shareholders in January 2011. There can be no assurance that the shareholders of each Fund will vote in favor of the proposals.

## Other Fund information (Unaudited)

### Delaware Investments Closed-End Municipal Bond Funds (the "Funds")

Change in Independent Registered Public Accounting Firm. Due to independence matters under the Securities and Exchange Commission's auditor independence rules relating to the January 4, 2010 acquisition of Delaware Investments (including DMC and DSC) by Macquarie Group, Ernst & Young LLP ("E&Y") has resigned as the independent registered public accounting firm for the Funds effective May 27, 2010. At a meeting held on February 18, 2010, the Board of Directors/Trustees of the Funds, upon recommendation of the Audit Committee, selected PricewaterhouseCoopers LLP ("PwC") to serve as the independent registered public accounting firm for the Funds for the fiscal year ending March 31, 2011. During the fiscal years ended March 31, 2010 and March 31, 2009, E&Y's audit reports on the financial statements of the Funds did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles. In addition, there were no disagreements between the Funds and E&Y on accounting principles, financial statements disclosures or audit scope, which, if not resolved to the satisfaction of E&Y, would have caused them to make reference to the disagreement in their reports. Neither the Funds nor anyone on their behalf has consulted with PwC at any time prior to its selection with respect to the application of accounting principles to a specified transaction, either completed or proposed or the type of audit opinion that might be rendered on the Funds' financial statements.

## About the organization

This semiannual report is for the information of Delaware Investments Closed-End Municipal Bond Funds shareholders. Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Funds may, from time to time, purchase shares of their common stock on the open market at market prices.
