NORWALK, CONNECTICUT, July 26, 2007 - EMCOR Group, Inc. (NYSE: EME) today reported results for the second quarter and six months ended June 30, 2007. The Company's financial results for the prior year periods have been adjusted to reflect its 2-for-1 stock split, effective July 9, 2007.

For the 2007 second quarter, net income increased 55.1% to \$26.2 million, or \$0.39 per diluted share, compared to net income of \$16.9 million, or \$0.26 per diluted share, in the 2006 second quarter. Revenues increased 15.2% in the second quarter of 2007 to \$1.41 billion from \$1.22 billion in the same period last year.

In the second quarter of 2007, operating income rose 74.3% to \$44.2 million, or 3.1% of revenues, compared to operating income of \$25.3 million, or 2.1% of revenues, a year ago. Selling, general and administrative (SG&A) expenses were \$125.3 million in the 2007 second quarter versus \$108.2 million in the

comparable prior year period, reflecting higher SG&A activity as a result of higher revenues during the period. As a percentage of revenues, SG&A expenses remained flat at 8.9% in both periods.

EMCOR continued to generate strong growth in its contract backlog for the quarter, achieving record levels. At June 30, 2007, contract backlog was \$4.26 billion, a 32.3% increase over \$3.22 billion at June 30, 2006, and 10.9% higher than the previous record of \$3.84 billion at March 31, 2007. Private sector commercial and hospitality/gaming contracts represented 56% of total backlog at the end of the second quarter of 2007 compared to 53% and 54%, respectively, at March 31, 2007 and June 30, 2006.

For the 2007 six-month period, the Company reported income from continuing operations of \$38.1 million, or \$0.57 per diluted share, an increase of 55.7% over income from continuing operations of \$24.5 million, or \$0.38 per diluted share, for the first six months of 2006. As a percentage of revenues, SG&A expenses declined to 8.8% from 8.9% for the six months ended June 30, 2006.

Frank T. MacInnis, Chairman and CEO of EMCOR Group, commented, "Our record second quarter results reflect the continued strength and demand growth we've experienced in our end markets. Organic revenue growth in the quarter was a robust 11.5%, while our commitment to cost management created substantial leverage and increased profits. These results were driven by strong performance across our domestic operations, including excellent results within our U.S. Mechanical and Electrical segments, and continued strong performance in our facilities services segment, which grew in line with our expected rate for this business."

Mr. MacInnis continued, "While we are very pleased with our financial performance, we are also encouraged by the trajectory of our backlog in recent quarters in terms of both amount and composition. As we have discussed in the past, EMCOR has focused its efforts on leveraging the private sector commercial and hospitality/gaming markets as well as other markets such as healthcare. Not only have these efforts generated strong financial results, they have also served to increase the proportion of our backlog consisting of larger and more complex projects which tend to have longer durations and increasing profit opportunities. More and more clients recognize EMCOR as being uniquely positioned to support the installation and maintenance of their systems-rich facility environments."

Mr. MacInnis concluded, "As we enter the second half of 2007, we remain confident about the visibility of our markets and our business prospects. The indicators we follow continue to point to strength in our markets, and EMCOR continues to build its reputation for being uniquely positioned to deliver on the most complex, mission critical projects and maintain these types of facilities for our clients. As a result of this visibility and sustained momentum in both our order trends and performance execution, we are increasing our anticipated year-end 2007 diluted earnings per share to \$1.48 - \$1.60, while increasing and narrowing our 2007 revenues guidance to \$5.6B - \$5.7B."
