Signet International Holdings, Inc. and Subsidiary
(a development stage enterprise)
Notes to Consolidated Financial Statements
June 30, 2008 and 2007

Note A - Organization and Description of Business

Signet International Holdings, Inc. was incorporated on February 2, 2005 in accordance with the Laws of the State of Delaware as 51142, Inc.

On September 8, 2005, pursuant to a Stock Purchase Agreement and Share Exchange (Agreement) by and among Signet International Holdings, Inc. (Signet); Signet Entertainment Corporation (SIG) and the shareholders of SIG (Shareholders) (collectively SIG and the SIG shareholders shall be known as the "SIG Group"), Signet acquired 100.0% of the then issued and outstanding preferred and common stock of SIG for a total of 3,421,000 common shares and 5,000,000 preferred shares of Signet's stock issued to the SIG Group. Pursuant to the agreement, SIG became a wholly owned subsidiary of Signet.

Signet Entertainment Corporation was incorporated on October 17, 2003 in accordance with the Laws of the State of Florida. SIG was formed to establish a television network "The Gaming and Entertainment Network".

The Company is considered in the development stage and, as such, has generated no significant operating revenues and has incurred cumulative operating losses of approximately \$1,376,000.

Note B - Preparation of Financial Statements

The acquisition of Signet Entertainment Corporation by Signet International Holdings, Inc. effected a change in control of Signet International Holdings, Inc. and was accounted for as a "reverse acquisition" whereby Signet Entertainment Corporation was the accounting acquirer for financial statement purposes. Accordingly, for all periods subsequent to the "reverse merger" transaction, the financial statements of the Signet International Holdings, Inc. reflect the historical financial statements of Signet Entertainment Corporation from its inception and the operations of Signet International Holdings, Inc. subsequent to the September 8, 2005 transaction date.

The Company follows the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America and has a year-end of December 31.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Management further acknowledges that it is solely responsible for adopting sound accounting practices, establishing and maintaining a system of internal accounting control and preventing and detecting fraud. The Company's system of internal accounting control is designed to assure, among other items, that 1) recorded transactions are valid; 2) valid transactions are recorded; and 3) transactions are recorded in the proper period in a timely manner to produce financial statements which present fairly the financial condition, results of operations and cash flows of the Company for the respective periods being presented.

During interim periods, the Company follows the accounting policies set forth in its annual audited financial statements filed with the U. S. Securities and Exchange Commission on its Annual Report on Form 10-KSB for the

year ended December 31, 2007. The information presented within these interim financial statements may not include all disclosures required by generally accepted accounting principles and the users of financial information provided for interim periods should refer to the annual financial information and footnotes when reviewing the interim financial results presented herein.

In the opinion of management, the accompanying interim financial statements, prepared in accordance with the U. S. Securities and Exchange Commission's amended instructions for Form 10-Q, issued on January 4, 2008, are unaudited and contain all material adjustments, consisting only of normal recurring adjustments necessary to present fairly the financial condition, results of operations and cash flows of the Company for the respective interim periods presented. The current period results of operations are not necessarily indicative of results which ultimately will be reported for the full fiscal year ending December 31, 2008.

Notes to Consolidated Financial Statements - Continued
June 30, 2008 and 2007

Note B - Preparation of Financial Statements - Continued

The accompanying consolidated financial statements contain the accounts of Signet International Holdings, Inc. and its wholly-owned subsidiary, Signet Entertainment Corporation. All significant intercompany transactions have been eliminated. The consolidated entities are collectively referred to as "Company".

Note C - Going Concern Uncertainty

The Company remains in the process of implementing its business plan, which will require the raising of additional capital. As such, the Company is considered to be a development stage company.

The Company's continued existence is dependent upon its ability to generate sufficient cash flows from operations to support its daily operations as well as provide sufficient resources to retire existing liabilities and obligations on a timely basis.

The Company anticipates that future sales of equity securities to fully implement its business plan or to raise working capital to support and preserve the integrity of the corporate entity may be necessary. There is no assurance that the Company will be able to obtain additional funding through the sales of additional equity securities or, that such funding, if available, will be obtained on terms favorable to or affordable by the Company.

If no additional capital is received to successfully implement the Company's business plan, the Company will be forced to rely on existing cash in the bank and upon additional funds which may or may not be loaned by management and/or significant stockholders to preserve the integrity of the corporate entity at this time. In the event, the Company is unable to acquire sufficient capital, the Company's ongoing operations would be negatively impacted.

It is the intent of management and significant stockholders to provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. However, no formal commitments or arrangements to advance or loan funds to the Company or repay any such advances or loans exist. There is no legal obligation for either management or significant stockholders to provide additional future funding.

While the Company is of the opinion that good faith estimates of the Company's ability to secure additional capital in the future to reach our goals have been made, there is no guarantee that the Company will receive sufficient funding to sustain operations or implement any future business plan steps.

Note D - Summary of Significant Accounting Policies

1. Cash and cash equivalents

For Statement of Cash Flows purposes, the Company considers all cash on hand and in banks, certificates of deposit and other highly-liquid investments with maturities of three months or less, when purchased, to be cash and cash equivalents.

The Company has adopted the provisions of AICPA Statement of Position 98-5, "Reporting on the Costs of Start-Up Activities" whereby all organizational and initial costs incurred with the incorporation and initial capitalization of the Company were charged to operations as incurred.

4. Advertising expenses

The Company does not utilize direct solicitation advertising. All other advertising and marketing expenses are charged to operations as incurred.

5. Income Taxes

The Company uses the asset and liability method of accounting for income taxes. At June 30, 2008 and 2007, respectively, the deferred tax asset and deferred tax liability accounts, as recorded when material to the financial statements, are entirely the result of temporary differences. Temporary differences represent differences in the recognition of assets and liabilities for tax and financial reporting purposes, primarily accumulated depreciation and amortization, allowance for doubtful accounts and vacation accruals.

As of June 30, 2008 and 2007, the deferred tax asset related to the Company's net operating loss carryforward is fully reserved. Due to the provisions of Internal Revenue Code Section 338, the Company may have no net operating loss carryforwards available to offset financial statement or tax return taxable income in future periods as a result of a change in control involving 50 percentage points or more of the issued and outstanding securities of the Company.

6. Earnings (loss) per share

Basic earnings (loss) per share is computed by dividing the net income (loss) available to common shareholders by the weighted-average number of common shares outstanding during the respective period presented in our accompanying financial statements.

Fully diluted earnings (loss) per share is computed similar to basic income (loss) per share except that the denominator is increased to include the number of common stock equivalents (primarily outstanding options and warrants).

Common stock equivalents represent the dilutive effect of the assumed exercise of the outstanding stock options and warrants, using the treasury stock method, at either the beginning of the respective period presented or the date of issuance, whichever is later, and only if the common stock equivalents are considered dilutive based upon the Company's net income (loss) position at the calculation date.

At June 30, 2008 and 2007, and subsequent thereto, the Company's issued and outstanding preferred stock is considered anti-dilutive due to the Company's net operating loss position.

Note E - Fair Value of Financial Instruments

The carrying amount of cash, accounts receivable, accounts payable and notes payable, as applicable, approximates fair value due to the short term nature of these items and/or the current interest rates payable in relation to current market conditions.

Interest rate risk is the risk that the Company's earnings are subject to fluctuations in interest rates on either investments or on debt and is fully dependent upon the volatility of these rates. The Company does not use derivative instruments to moderate its exposure to interest rate risk, if any.

Financial risk is the risk that the Company's earnings are subject to fluctuations in interest rates or foreign exchange rates and are fully dependent upon the volatility of these rates. The company does not use derivative instruments to moderate its exposure to financial risk, if any.

As of June 30, 2008, the Company has a net operating loss carryforward of approximately \$638,000 for Federal and State income tax purposes. The amount and availability of any future net operating loss carryforwards may be subject to limitations set forth by the Internal Revenue Code. Factors such as the number of shares ultimately issued within a three year look-back period; whether there is a deemed more than 50 percent change in control; the applicable long-term tax exempt bond rate; continuity of historical business; and subsequent income of the Company all enter into the annual computation of allowable annual utilization of the carryforwards.

The Company's income tax expense (benefit) for each of the six month periods ended June 30, 2008 and 2007 and for the period from October 17, 2003 (date of inception) through June 30, 2008, respectively, differed from the statutory federal rate of 34 percent as follows:

Note G - Preferred Stock

On March 14, 2007, the Company formally designated a series of Super Preferred Stock of the Company's 50,000,000 authorized shares of the capital preferred stock of the Corporation. The designated Series A Convertible Super Preferred Stock (the "Series A Super Preferred Stock"), to consist of 5,000,000 shares, par value \$.001 per share, which shall have the following preferences, powers, designations and other special rights:

Voting: Holders of the Series A Super Preferred Stock shall have ten votes per share held on all matters submitted to the shareholders of the Company for a vote thereon. Each holder of these shares shall have the option to appoint two additional members to the Board of Directors. Each share shall be convertible into ten (10) shares of common stock.

Dividends: The holders of Series A Super Preferred Stock shall be entitled to receive dividends or distributions on a pro rata basis with the holders of common stock when and if declared by the Board of Directors of the Company. Dividends shall not be cumulative. No dividends or distributions shall be declared or paid or set apart for payment on the Common Stock in any calendar year unless dividends or distributions on the Series A Preferred Stock for such calendar year are likewise declared and paid or set apart for payment. No declared and unpaid dividends shall bear or accrue interest.

Liquidation

Preference Upon the liquidation, dissolution and winding up of the Company, whether voluntary or involuntary, the holders of the Series A Super Preferred Stock then outstanding shall be entitled to, on a pro-rata basis with the holders of common stock, distributions of the assets of the Corporation, whether from capital or from earnings available for distribution to its stockholders.

The Board of Directors has the authority, without further action by the shareholders, to issue, from time to time, preferred stock in one or more series for such consideration and with such relative rights, privileges, preferences and restrictions that the Board may determine. The preferences, powers, rights and restrictions of different series of preferred stock may differ with respect to dividend rates, amounts payable on liquidation, voting rights, conversion rights, redemption provisions, sinking fund provisions and purchase funds and other matters. The issuance of

preferred stock could adversely affect the voting power or other rights of the holders of common stock.

On October 20, 2003, in conjunction with the formation and incorporation of Signet Entertainment Corporation, SIG issued 4,000,000 shares of preferred stock to the incorporating persons. This transaction was valued at approximately \$40,000, which approximates the value of the services provided.

On July 19, 2005, the Company issued 1,000,000 shares of preferred stock to an existing shareholder and Company officer for services related to the organization and structuring of the Company and its proposed business plan. This transaction was valued at approximately \$10,000, which approximates the value of the services provided.

Note G - Preferred Stock - Continued

Concurrent with the reverse merger transaction, these shareholders exchanged their Signet Entertainment Corporation preferred stock for equivalent shares of Signet International Holdings, Inc. Series A Super Preferred stock, as described above.

Note H - Common Stock Transactions

On October 17, 2003 and November 1, 2003, in connection with the incorporation and formation of the Company, an aggregate of approximately 3,294,000 shares of restricted, unregistered shares of common stock and were issued to various founding individuals. This combined preferred stock and common stock issuances were collectively valued at approximately \$40,810, which approximated the fair value of the time provided by the individuals and the related out-of-pocket expenses.

On June 16, 2004 and December 3, 2004, the Company sold, in three separate transactions to three unrelated individuals, an aggregate 70,000 shares of restricted, unregistered common stock for \$35,000 cash. These shares were sold pursuant to an exemption from registration under Section 4(2) of the Securities Act of 1933, as amended, and no underwriter was used any of the three transactions.

Between July 20, 2005 and August 26, 2005, Signet Entertainment Corporation sold an aggregate 57,000 shares of common stock to existing and new shareholders at a price of \$0.01 per share for gross proceeds of approximately \$570. As this selling price was substantially below the "fair value" of comparable transactions, the Company recognized a charge to operations for consulting expense equivalent to the difference between the established "fair value" of \$1.00 per share (as determined by the pricing in the September 2005 Private Placement Memorandum) and the selling price of \$0.01 per share.

On September 9, 2005, the Company commenced the sale of common stock pursuant to a Private Placement Memorandum in a self-underwritten offering. This Memorandum is offering for sale to persons who qualify as accredited investors and to a limited number of sophisticated investors, on a best efforts basis, up to 2,000,000 of our common shares at \$1.00 per share, for anticipated gross proceeds of \$2,000,000. The common shares will be offered through the Company's officers and directors on a best-efforts basis. The minimum investment is \$1,000, however, the Company might, at its sole discretion, accept subscriptions for lesser amounts. Funds received from all subscribers will be released to the Company upon acceptance of the subscriptions by the Company's management. Through December 31, 2006, the Company has sold an aggregate 381,000 shares for gross proceeds of \$381,000 under this Memorandum.

On March 31, 2006, the Company repurchased 50,000 shares of common stock from the estate of a deceased shareholder which purchased said shares for \$50,000 cash pursuant to the aforementioned September 2005 Private Placement Memorandum for \$50,000 cash. In June 2006, the Company's Board of Directors cancelled these shares and returned them to unissued status.

On June 22, 2006, the Company issued 250,000 shares of unregistered, restricted common stock, valued at \$0.50 per share or \$125,000, in payment of consulting fees. As the agreed-upon value of the services provided was less than the "fair value" of comparable transactions, the Company has recognized an additional charge to Consulting Fees

equivalent to the difference between the established “fair value” of \$1.00 per share (as determined by the pricing in the September 2005 Private Placement Memorandum) and the agreed-upon value of \$0.50 per share in the corresponding line item in the Company’s Statement of Operations.

On April 16, 2007, the Company issued 270,000 shares of unregistered, restricted common stock for the acquisition of certain broadcast and other production rights. These shares were sold pursuant to an exemption from registration under Section 4(2) of the Securities Act of 1933, as amended, and no underwriter was used in this transaction.

Certain statements contained in this quarterly filing, including, without limitation, statements containing the words "believes", "anticipates", "expects" and words of similar import, constitute forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements.

Such factors include, among others, the following: international, national and local general economic and market conditions; demographic changes; the ability of the Company to sustain, manage or forecast its growth; the ability of the Company to successfully make and integrate acquisitions; raw material costs and availability; new product development and introduction; existing government regulations and changes in, or the failure to comply with, government regulations; adverse publicity; competition; the loss of significant customers or suppliers; fluctuations and difficulty in forecasting operating results; changes in business strategy or development plans; business disruptions; the ability to attract and retain qualified personnel; the ability to protect technology; and other factors referenced in this and previous filings.

Given these uncertainties, readers of this Form 10-Q and investors are cautioned not to place undue reliance on such forward-looking statements. The Company disclaims any obligation to update any such factors or to publicly announce the result of any revisions to any of the forward-looking statements contained herein to reflect future events or developments.

(2) Results of Operations and Plan of Operation

Period ended June 30, 2008 and 2007

We had no revenue for either of the respective six or three months ended June 30, 2008 and 2007, respectively.

General and administrative expenses for the six months ended June 30, 2008 and 2007 were approximately \$63,464 and \$85,302, respectively. These costs relate principally to the maintenance of our corporate offices, continued efforts towards the implementation of our business plan and our compliance with our reporting requirements under the Securities Exchange Act of 1934, as amended.

For the six months ended June 30, 2008 and 2007, we accrued compensation to our chief executive officer, Ernie Letiziano of \$35,000 for each respective six month period. Effective January 1, 2007, we engaged the services of and commenced the accrual of executive compensation of \$17,500 per quarter to Thomas Donaldson for his role in implementing the Company's business plan for future growth and/or acquisitions in the broadcast marketplace.

Our net loss for the six months ended June 30, 2008 and 2007, respectively, was approximately \$(63,464) and \$(85,302). Our earnings per share for the respective six and three month periods ended June 30, 2008 and 2007 were approximately \$(0.03) and \$(0.01) for 2008 and approximately \$(0.04) and \$(0.02) for 2007, based on the respective weighted-average shares issued and outstanding at the end of each quarter.

The Company does not expect to generate any meaningful revenue or incur operating expenses for purposes other than fulfilling the obligations of a reporting company under The Securities Exchange Act of 1934 unless and until such

time that the Company's operating subsidiary begins meaningful operations.

At June 30, 2008 and 2007, respectively, the Company had working capital of approximately \$(293,000) and \$(34,000), exclusive of accrued officer compensation. Both Mr. Letiziano and our staff, including Mr. Donaldson, have agreed to defer payment of their accrued compensation until such time that we have adequate cash flows to service these obligations without undue hardship to our operations and expansion plans.

It is the intent of management and significant stockholders, if necessary, to provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. However, there is no legal obligation for either management or significant stockholders to provide additional future funding. Should this pledge fail to provide financing, the Company has not identified any alternative sources. Consequently, there is substantial doubt about the Company's ability to continue as a going concern.

The Company's need for capital may change dramatically as a result of any business acquisition or combination transaction. There can be no assurance that the Company will identify any such business, product, technology or company suitable for acquisition in the future. Further, there can be no assurance that the Company would be successful in consummating any acquisition on favorable terms or that it will be able to profitably manage the business, product, technology or company it acquires.

Plan of Business

We have begun the initial implementation of our business plan relating to the acquisition of LPTV stations by initiating the negotiation of Sale & Share Exchange Contracts with the owners of various identified LPTV Stations. Although we have had no revenues generated to date, we expect to realize revenues from operations of the LPTV stations once an agreement is finalized and executed and we take control of an LPTV Station. Ernie Letiziano, our sole officer, director will not relinquish control of Signet to any of the acquired LPTV stations resulting from any acquisition agreement. In addition, since our business plan calls for the acquisition of any LPTV station(s) with the issuance or exchange of our common stock in exchange for either the ownership security interest in the LPTV station or an acquisition of the LPTV station's assets and operations, we continue to believe that we should not incur any significant cash expenditures other than incidental expenses such as telephone, travel and general and administrative expenses.

We have a defined and immediate need for both operating and acquisition capital in future periods. At the present time, management has no commitments for raising additional operating capital. Accordingly, our future cash requirements are anticipated to be met through the sale of additional equity securities, short-term loans from executive officers and/or the proceeds of additional equity offerings in conjunction with the acquisition of LPTV station(s).

It is the intent of management and significant stockholders, if necessary, to provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. Although we have verbal assurances from Mr. Letiziano that he will provide such interim working capital, there is no legal obligation for either management or significant stockholders to provide additional future funding. We may raise additional funds through public offerings of equity, securities convertible into equity or debt, or private offerings of securities.

Liquidity has been maintained through the current period through our two successful funding rounds of both debt and equity offerings. We anticipate that any funds we secure from future round(s) of financing will enable us to acquire our initial LPTV station(s), some using a cash consideration component, provide additional working capital to support our daily operations and, possibly acquire some stations currently incurring operating losses with future upside potential, purchase or develop broadcast programming and initiate Triple Play Media operations. Our estimated capital requirements for these phases of our plan range as high as \$30 to \$50 million, plus up to an additional \$15 million to support Triple Play. Currently, we do not have any specifically identified source(s) of such potential financing.

Based upon our review and understanding of the marketplace today, we continue to believe that we will be able to take the appropriate steps to effectuate the acquisition of LPTV station(s). However, our current financial condition and the condition of the capital markets in today's environment may not allow us to complete any acquisition in a timely manner.

Our current monthly cash requirements do not include any post-acquisition costs of operating the LPTV stations. We are unsure of the expenses to be required for operating the stations since we have not acquired any specific station to benchmark their current operating status and expenditure levels. However, in the event that the stations do not generate the anticipated revenues, we may be unable to pay any shortfall from our current cash on hand. We may have to rely on shareholder loans to cover such costs until the station generates sufficient revenues or until we can obtain additional debt or equity financing. The fees and expenses for the due diligence, negotiations and expenses for the additional stations will be paid from current cash on hand, revenues or stockholder loans.

There will be no costs associated with Big Vision until services have been provided by Big Vision at which time we will be generating revenues to cover these costs. Until such time we receive additional financing and proceed with our business we have no other contractually obligated expenses. We cannot assure investors that we will be able to

raise sufficient capital. In the absence of additional funding, we may not be able to purchase some of the stations we have identified. Even in our current financial condition, we remain confident that we will be able to acquire some profitable LPTV stations in exchange for our common stock and integrate their operations into our financial statements subsequent to their acquisition.

Apart from building the board of directors, and employees of LPTV stations we acquire as subsidiaries we do not expect any significant changes in the number of employees.

On July 23, 2008, we executed an Option to Purchase Asset Agreement (Agreement) with Access Media Group, Inc. (a Florida Corporation) dba AMG TV, headquartered in Jensen Beach, FL, to acquire 100% of the assets, satellite delivery service contracts, customer service agreements in the USA and the Caribbean, including the business operations located in Pittsburgh and North New Jersey for an agreed purchase price is \$3 million, payable as set forth in the Agreement, and the issuance of 100,000 shares of our restricted, unregistered common stock. The term of our option is one (1) year and expires on July 22, 2009. As consideration for the Agreement, we issued 20,000 shares of restricted, unregistered common stock to Access Media Group, Inc. and we have up to 180 days to complete the acquisition after serving notice to AMG TV that we intend to exercise the option. Our management is actively pursuing the necessary capital resources to exercise the option and integrate these operations according to our Business Plan.

(3) Capital Resources and Liquidity

As of June 30, 2008, we had approximately \$14,000 in cash. Our monthly cash requirements presently average \$10,500 per month. Given our current circumstances, we will have to obtain additional sources of cash to preserve our plan of operation or terminate all activities.

It is the intent of management and significant stockholders, if necessary, to provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. However, there is no legal obligation for either management or significant stockholders to provide additional future funding. Should this pledge fail to provide financing, the Company has not identified any alternative sources. Consequently, there is substantial doubt about the Company's ability to continue as a going concern.

As reflected in the accompanying financial statements, we are in the development stage with no operations. Our ability to continue as a going concern is dependent on our ability to raise additional capital and implement our business plan. The financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern. We have no plans to pay no salaries per month to our sole officer and employee until we are properly funded. We intend to raise additional capital to continue our operations although there is no assurance we will be successful. Currently we have no material commitments to make capital expenditures.

The Company's need for capital may change dramatically as a result of any business acquisition or combination transaction. There can be no assurance that the Company will identify any such business, product, technology or company suitable for acquisition in the future. Further, there can be no assurance that the Company would be successful in consummating any acquisition on favorable terms or that it will be able to profitably manage the business, product, technology or company it acquires.

Management believes that actions presently being taken to obtain additional funding and to implement our strategic plans continue to provide the opportunity for us to continue as a going concern. Management continues to refine and pursue the necessary capital resources for the development and implementation of our business plan. As such, the Company remains as a "development stage company."

(4) Critical Accounting Policies

Our financial statements and related public financial information are based on the application of accounting principles generally accepted in the United States ("GAAP"). GAAP requires the use of estimates; assumptions, judgments and subjective interpretations of accounting principles that have an impact on the assets, liabilities, revenue and expense amounts reported. These estimates can also affect supplemental information contained in our external disclosures including information regarding contingencies, risk and financial condition. We believe our use of estimates and underlying accounting assumptions adhere to GAAP and are consistently and conservatively applied. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions or conditions. We continue to monitor significant estimates made during the preparation of our financial statements.

Our significant accounting policies are summarized in Note D of our financial statements. While all these significant accounting policies impact our financial condition and results of operations, we view certain of these policies as critical. Policies determined to be critical are those policies that have the most significant impact on our financial statements and require management to use a greater degree of judgment and estimates. Actual results may differ from those estimates. Our management believes that given current facts and circumstances, it is unlikely that applying any other reasonable judgments or estimate methodologies would cause effect on our consolidated results of operations, financial position or liquidity for the periods presented in this report.

Item 3 - Quantitative and Qualitative Disclosures About Market Risk

The Company may be subject to certain market risks, including changes in interest rates and currency exchange rates. At the present time, the Company does not undertake any specific actions to limit those exposures.

17

Item 4 - Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the U. S. Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Management necessarily applied its judgment in assessing the costs and benefits of such controls and procedures, which, by their nature, can provide only reasonable assurance regarding management's control objectives.

The Company carried out an evaluation, under the supervision and with the participation of its management, including its Chief Executive Officer and Chief Financial Officer, on the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15 as of the end of the period covered by this report. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to information relating to the Company required to be included in the Company's Exchange Act reports.

While the Company believes that its existing disclosure controls and procedures have been effective to accomplish their objectives, the Company intends to continue to examine, refine and document its disclosure controls and procedures and to monitor ongoing developments in this area.

(b) Changes in Internal Controls

During the quarter ended June 30, 2008, there were no changes (including corrective actions with regard to significant deficiencies or material weaknesses) in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II - Other Information

Item 1 - Legal Proceedings

From time to time, as we acquire operating properties, we may become subject to various legal proceedings that are incidental to the ordinary conduct of its business. Although, to date, there have been no such proceedings, we do not anticipate that any future proceedings, either individually or in the aggregate, will become material to our business or be likely to result in a material adverse effect on our future operating results, financial condition, or cash flows.

Item 2 - Recent Sales of Unregistered Securities and Use of Proceeds

On June 5, 2008, the Company sold, in a private transaction, 3,000 shares of unregistered, restricted common stock for cash proceeds of \$800, which approximated the fair value and closing quoted price of the Company's common stock on the transaction date. These shares were sold pursuant to an exemption from registration under Section 4(2) of the Securities Act of 1933, as amended, and no underwriter was used in this transaction.

Subsequent to the execution of the July 23, 2008 Option to Purchase Asset Agreement (Agreement), we issued 20,000 shares of restricted, unregistered common stock to Access Media Group, Inc. (a Florida corporation), doing business as AMG TV, to acquire 100% of Access Media Group's assets, satellite delivery service contracts, and customer service agreements in the USA and the Caribbean, including the business operations located in Pittsburgh and North
