Signet International Holdings, Inc. and Subsidiary
(a development stage enterprise)
Notes to Consolidated Financial Statements
September 30, 2009 and 2008

Note A - Organization and Description of Business

Signet International Holdings, Inc. (Company) was incorporated on February 2, 2005 in accordance with the Laws of the State of Delaware as 51142, Inc. The Company changed its corporate name to Signet International Holdings, Inc. in conjunction with the September 8, 2005 transaction discussed below.

On September 8, 2005, pursuant to a Stock Purchase Agreement and Share Exchange (Agreement) by and among Signet International Holdings, Inc. (Signet); Signet Entertainment Corporation (SIG) and the shareholders of SIG (Shareholders) (collectively SIG and the SIG shareholders shall be known as the "SIG Group"), Signet acquired 100.0% of the then issued and outstanding preferred and common stock of SIG for a total of 3,421,000 common shares and 5,000,000 preferred shares of Signet's stock issued to the SIG Group. Pursuant to the agreement, SIG became a wholly owned subsidiary of Signet.

Signet Entertainment Corporation was incorporated on October 17, 2003 in accordance with the Laws of the State of Florida. SIG was formed to establish a television network "The Gaming and Entertainment Network". To date, this effort has been incomplete.

The Company is considered in the development stage and, as such, has generated no significant operating revenues and has incurred cumulative operating losses of approximately \$1,800,000.

Note B - Preparation of Financial Statements

The acquisition of Signet Entertainment Corporation by Signet International Holdings, Inc. effected a change in control of Signet International Holdings, Inc. and is accounted for as a "reverse acquisition" whereby Signet Entertainment Corporation is the accounting acquirer for financial statement purposes. Accordingly, for all periods subsequent to the "reverse merger" transaction, the financial statements of the Signet International Holdings, Inc. will reflect the historical financial statements of Signet Entertainment Corporation from its inception and the operations of Signet International Holdings, Inc. subsequent to the September 8, 2005 transaction date.

The Company follows the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America and has a year-end of December 31.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Management further acknowledges that it is solely responsible for adopting sound accounting practices, establishing and maintaining a system of internal accounting control and preventing and detecting fraud. The Company's system of internal accounting control is designed to assure, among other items, that 1) recorded transactions are valid; 2) valid transactions are recorded; and 3) transactions are recorded in the proper period in a timely manner to produce financial statements which present fairly the financial condition, results of operations and cash flows of the Company for the

respective periods being presented.

During interim periods, the Company follows the accounting policies set forth in its annual audited financial statements filed with the U. S. Securities and Exchange Commission on its Annual Report on Form 10-K for the year ended December 31, 2008. The information presented within these interim financial statements may not include all disclosures required by generally accepted accounting principles and the users of financial information provided for interim periods should refer to the annual financial information and footnotes when reviewing the interim financial results presented herein.

Note B - Preparation of Financial Statements - Continued

In the opinion of management, the accompanying interim financial statements, prepared in accordance with the U. S. Securities and Exchange Commission's instructions for Form 10-Q, are unaudited and contain all material adjustments, consisting only of normal recurring adjustments necessary to present fairly the financial condition, results of operations and cash flows of the Company for the respective interim periods presented. The current period results of operations are not necessarily indicative of results which ultimately will be reported for the full fiscal year ending December 30, 2009.

The accompanying consolidated financial statements contain the accounts of Signet International Holdings, Inc. and its wholly-owned subsidiary, Signet Entertainment Corporation. All significant intercompany transactions have been eliminated. The consolidated entities are collectively referred to as "Company".

Note C - Going Concern Uncertainty

The Company is still in the process of developing and implementing its business plan and raising additional capital. As such, the Company is considered to be a development stage company.

The Company's continued existence is dependent upon its ability to generate sufficient cash flows from operations to support its daily operations as well as provide sufficient resources to retire existing liabilities and obligations on a timely basis.

The Company anticipates that future sales of equity securities to fully implement its business plan or to raise working capital to support and preserve the integrity of the corporate entity may be necessary. There is no assurance that the Company will be able to obtain additional funding through the sales of additional equity securities or, that such funding, if available, will be obtained on terms favorable to or affordable by the Company.

If no additional capital is received to successfully implement the Company's business plan, the Company will be forced to rely on existing cash in the bank and upon additional funds which may or may not be loaned by management and/or significant stockholders to preserve the integrity of the corporate entity at this time. In the event, the Company is unable to acquire sufficient capital, the Company's ongoing operations would be negatively impacted.

It is the intent of management and significant stockholders to provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. However, no formal commitments or arrangements to advance or loan funds to the Company or repay any such advances or loans exist. There is no legal obligation for either management or significant stockholders to provide additional future funding.

While the Company is of the opinion that good faith estimates of the Company's ability to secure additional capital in the future to reach our goals have been made, there is no guarantee that the Company will receive sufficient funding to sustain operations or implement any future business plan steps.

Note D - Summary of Significant Accounting Policies

1. Cash and cash equivalents

For Statement of Cash Flows purposes, the Company considers all cash on hand and in banks, certificates of deposit and other highly-liquid investments with maturities of three months or less, when purchased, to be cash and cash equivalents.

2. Organization costs

The Company has adopted the provisions of provisions required by the Start-Up Activities topic of the FASB Accounting Standards Codification whereby all organizational and initial costs incurred with the incorporation and initial capitalization of the Company were charged to operations as incurred.

3. Research and development expenses

Research and development expenses are charged to operations as incurred.

4. Advertising expenses

The Company does not utilize direct solicitation advertising. All other advertising and marketing expenses are charged to operations as incurred.

5. Income Taxes

The Company files income tax returns in the United States of America and may file, as applicable and appropriate, various state(s). With few exceptions, the Company is no longer subject to U.S. federal, state and local, as applicable, income tax examinations by regulatory taxing authorities for years before 2006. The Company does not anticipate any examinations of returns filed since 2006.

The Company uses the asset and liability method of accounting for income taxes. At September 30, 2009 and December 31, 2008, respectively, the deferred tax asset and deferred tax liability accounts, as recorded when material to the financial statements, are entirely the result of temporary differences. Temporary differences generally represent differences in the recognition of assets and liabilities for tax and financial reporting purposes, primarily accumulated depreciation and amortization, allowance for doubtful accounts and vacation accruals.

The Company has adopted the provisions required by the Income Taxes topic of the FASB Accounting Standards Codification. The Codification Topic requires the recognition of potential liabilities as a result of management's acceptance of potentially uncertain positions for income tax treatment on a "more-likely-than-not" probability of an assessment upon examination by a respective taxing authority. As a result of the implementation of the Codification's Income Tax Topic, the Company did not incur any liability for unrecognized tax benefits.

6. Earnings (loss) per share

Basic earnings (loss) per share is computed by dividing the net income (loss) available to common shareholders by the weighted-average number of common shares outstanding during the respective period presented in our accompanying financial statements.

Fully diluted earnings (loss) per share is computed similar to basic income (loss) per share except that the denominator is increased to include the number of common stock equivalents (primarily outstanding options and warrants).

Common stock equivalents represent the dilutive effect of the assumed exercise of the outstanding stock options and warrants, using the treasury stock method, at either the beginning of the respective period presented or the date of issuance, whichever is later, and only if the common stock equivalents are considered dilutive based upon the Company's net income (loss) position at the calculation date.

At September 30, 2009 and 2008, and subsequent thereto, the Company's issued and outstanding preferred stock is considered anti-dilutive due to the Company's net operating loss position.

7. Pending and/or New Accounting Pronouncements

The Company is of the opinion that any pending accounting pronouncements, either in the adoption phase or not yet required to be adopted, will not have a significant impact on the Company's financial position or results of operations.

Note E - Fair Value of Financial Instruments

The carrying amount of cash, accounts receivable, accounts payable and notes payable, as applicable, approximates fair value due to the short term nature of these items and/or the current interest rates payable in relation to current market conditions.

Interest rate risk is the risk that the Company's earnings are subject to fluctuations in interest rates on either investments or on debt and is fully dependent upon the volatility of these rates. The Company does not use derivative instruments to moderate its exposure to interest rate risk, if any.

Financial risk is the risk that the Company's earnings are subject to fluctuations in interest rates or foreign exchange rates and are fully dependent upon the volatility of these rates. The company does not use derivative instruments to moderate its exposure to financial risk, if any.

As consideration for the Agreement, the Company issued 20,000 shares of restricted, unregistered common stock to Access Media Group, Inc. with a mutually agreed-upon value of \$100,000.

The Company has 180 days to complete the acquisition after serving notice to AMG TV that the Company intends to exercise the option and is actively pursuing capital resources in order to exercise the option and integrate these operations according to the Company's Business Plan.

On September 18, 2009, the Company and the owners of Access Media Group, Inc. executed an Asset Purchase Agreement whereby the Company will acquire "... one hundred percent (100%) of the Pittsburgh, PA leased facility (and/or any other leased facility owned or leased by Seller), licenses, equipment and ancillaries of the assets listed and identified on Exhibit A which includes a list of Affiliates and Clearances and all other assets including but not limited to intellectual properties, leases, licenses, permits, clients lists, contracts, applications pending or otherwise owned by AMG-TV without lien or security interest. The purchase price is approximately \$3,000,000 composed of 100,000 shares of common stock valued at \$5.00 per share and a note payable of \$2,500,000. The \$2,500,000 note payable bears interest at prime plus 2%, [accruing from September 18, 2009] and is payable in increments of \$100,000 starting on the 180th day after September 18, 2009 and \$100,000 every 90 days thereafter. In the event that the Company is successful in selling any part of a future stock offering, 33.3% of the net proceeds of said offering will be applied to reduction of this note payable up to \$1,500,000 or a maximum of the total balance due at that time.

This Stock Purchase Agreement has an effective date of January 1, 2010.

Note G - Broadcast and Intellectual Properties

The total consideration paid by the Company for these rights was 270,000 shares of restricted, unregistered common stock and a \$50,000 open account payable. Based on an independent third-party appraisal, the Company valued this transaction at approximately \$2,870,625. The common stock was issued pursuant to an exemption from registration under Section 4(2) of the Securities Act of 1933, as amended, and no underwriter was used in this transaction.

Note I - Preferred Stock - Continued

Liquidation Upon the liquidation, dissolution and winding up of the Company, whether voluntary or involuntary, the Preference holders of the Series A Super Preferred Stock then outstanding shall be entitled to, on a pro-rata basis with the holders of common stock, distributions of the assets of the Corporation, whether from capital or from earnings available for distribution to its stockholders.

The Board of Directors has the authority, without further action by the shareholders, to issue, from time to time, preferred stock in one or more series for such consideration and with such relative rights, privileges, preferences and restrictions that the Board may determine. The preferences, powers, rights and restrictions of different series of preferred stock may differ with respect to dividend rates, amounts payable on liquidation, voting rights, conversion rights, redemption provisions, sinking fund provisions and purchase funds and other matters. The issuance of preferred stock could adversely affect the voting power or other rights of the holders of common stock.

On October 20, 2003, in conjunction with the formation and incorporation of Signet Entertainment Corporation, SIG issued 4,000,000 shares of preferred stock to the incorporating persons. This transaction was valued at approximately \$40,000, which approximates the value of the services provided.

On July 19, 2005, the Company issued 1,000,000 shares of preferred stock to an existing shareholder and Company officer for services related to the organization and structuring of the Company and its proposed business plan. This transaction was valued at approximately \$10,000, which approximates the value of the services provided.

Concurrent with the reverse merger transaction, these shareholders exchanged their Signet Entertainment Corporation preferred stock for equivalent shares of Signet International Holdings, Inc. Series A Super Preferred stock, as described above.

Note J - Common Stock Transactions

On October 17, 2003 and November 1, 2003, in connection with the incorporation and formation of the Company, an aggregate of approximately 3,294,000 shares of restricted, unregistered shares of common stock and were issued to various founding individuals. This combined preferred stock and common stock issuances were collectively valued at approximately \$40,810, which approximated the fair value of the time provided by the individuals and the related out-of-pocket expenses.

On June 16, 2004 and December 3, 2004, the Company sold, in three separate transactions to three unrelated individuals, an aggregate 70,000 shares of restricted, unregistered common stock for \$35,000 cash. These shares were sold pursuant to an exemption from registration under Section 4(2) of the Securities Act of 1933, as amended, and no underwriter was used any of the three transactions.

Between July 20, 2005 and August 26, 2005, Signet Entertainment Corporation sold an aggregate 57,000 shares of common stock to existing and new shareholders at a price of \$0.01 per share for gross proceeds of approximately \$570. As this selling price was substantially below the "fair value" of comparable transactions, the Company

recognized a charge to operations for consulting expense equivalent to the difference between the established "fair value" of \$1.00 per share (as determined by the pricing in the September 2005 Private Placement Memorandum) and the selling price of \$0.01 per share.

On September 9, 2005, the Company commenced the sale of common stock pursuant to a Private Placement Memorandum in a self-underwritten offering. This Memorandum is offering for sale to persons who qualify as accredited investors and to a limited number of sophisticated investors, on a best efforts basis, up to 2,000,000 of our common shares at \$1.00 per share, for anticipated gross proceeds of \$2,000,000. The common shares will be offered through the Company's officers and directors on a best-efforts basis. The minimum investment is \$1,000, however, the Company might, at its sole discretion, accept subscriptions for lesser amounts. Funds received from all subscribers will be released to the Company upon acceptance of the subscriptions by the Company's management. Through December 31, 2006, the Company has sold an aggregate 381,000 shares for gross proceeds of \$381,000 under this Memorandum.

Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements.

Such factors include, among others, the following: international, national and local general economic and market conditions; demographic changes; the ability of the Company to sustain, manage or forecast its growth; the ability of the Company to successfully make and integrate acquisitions; raw material costs and availability; new product development and introduction; existing government regulations and changes in, or the failure to comply with, government regulations; adverse publicity; competition; the loss of significant customers or suppliers; fluctuations and difficulty in forecasting operating results; changes in business strategy or development plans; business disruptions; the ability to attract and retain qualified personnel; the ability to protect technology; and other factors referenced in this and previous filings.

Given these uncertainties, readers of this Form 10-Q and investors are cautioned not to place undue reliance on such forward-looking statements. The Company disclaims any obligation to update any such factors or to publicly announce the result of any revisions to any of the forward-looking statements contained herein to reflect future events or developments.

(2) Results of Operations

We had no revenue for either of the respective nine or three month periods ended September 30, 2009 or 2008, respectively.

General and administrative expenses for the nine months ended September 30, 2009 and 2008 were approximately \$75,000 and \$89,000, respectively. These costs relate principally to the maintenance of our corporate offices, compliance with the periodic reporting requirements of the Securities Exchange Act of 1934, as amended, and continued efforts to implement our business plan.

For the nine months ended September 30, 2009 and 2008, we accrued compensation to our chief executive officer, Ernest W. Letiziano of \$52,500 for each respective period. We further accrued compensation to non-executive personnel for their assistance in our efforts to implement our business plan of approximately \$97,500 for each respective period. None of these persons has made a demand for payment and have agreed to defer payment until such time that the Company has a viable and functioning business plan with positive cash flows from operations.

Our net loss for the nine months ended September 30, 2009 and 2008, respectively, was approximately \$(225,000) and \$(240,000). Our earnings per share for the respective quarters ended September 30, 2009 and 2008 were approximately \$(0.05) and \$(0.05) based on the respective weighted-average shares issued and outstanding at the end of the respective period.

The Company does not expect to generate any meaningful revenue or incur operating expenses for purposes other than fulfilling the obligations of a reporting company under the Securities Exchange Act of 1934 unless and until such time that the Company's operating subsidiary begins meaningful operations.

At September 30, 2009 and December 31, 2008, respectively, the Company had working capital of approximately \$(186,000) and \$(143,000), exclusive of accrued officer and other compensation. As noted previously, none of these persons has made a demand for payment and have agreed to defer payment until such time that the Company has a viable and functioning business plan with positive cash flows from operations.

(3) Plan of Business

In March 2007, we began implementation of our initially disclosed business plan relating to the acquisition of LPTV stations by executing by executing Sale & Share Exchange Contracts with the LPTV Stations. To date, we have been presented with several acquisition opportunities; however, we have been unsuccessful in raising sufficient capital to fulfill the cash requirements to consummate closing on any one of these potential acquisitions.

Acquisition of Access Media Group, Inc. and its Subsidiary, AMG-TV

We have executed an Option to Purchase Agreement which will allow our acquisition of a programming distribution and syndication company which is essential to the success of the Signet plan of establishing our own network and to also offer an exclusive 3-D TV Network.

AMG-TV (AMG) currently has programming content that is currently being aired in over 50.0 million television households in the United States. AMG provides delivery of programming to all of the Caribbean, New Zealand, Germany, Central and South America and, currently anticipates, a Q3-2009 launch in Asia through affiliations with over 200 digital full power stations consisting of independents, national affiliates, cable networks, and satellite services such as Dish Network and DirecTV on a daily basis. We believe that AMG's programming is useful, informative, entertaining and distinctive that fulfills the entertainment requirements of today's global viewing audiences.

AMG currently holds over 2,000 broadcast property titles at the Pittsburgh library. A second library of 1,500 feature films and vintage programming is housed outside of Dallas and the library in New Jersey consists of 500 music specials and films. These assets are available in numerous formats.

AMG has a distribution footprint that includes a potentially unexploited market which extends from the United States/Mexican border and passes South through Central America and extends throughout all of the South American countries to the southernmost tip of Chile.

On September 18, 2009, the Company and the owners of Access Media Group, Inc. executed an Asset Purchase Agreement whereby the Company will acquire one hundred percent (100%) of the Pittsburgh, PA leased facility (and/or any other leased facility owned or leased by Seller), licenses, equipment and ancillaries of the assets listed and identified on Exhibit A which includes a list of Affiliates and Clearances and all other assets including but not limited to intellectual properties, leases, licenses, permits, clients lists, contracts, applications pending or otherwise owned by AMG-TV without lien or security interest. The purchase price is approximately \$3,000,000 composed of 100,000 shares of common stock valued at \$5.00 per share and a note payable of \$2,500,000. The \$2,500,000 note payable bears interest at prime plus 2%, [accruing from September 18, 2009] and is payable in increments of \$100,000 starting on the 180th day after September 18, 2009 and \$100,000 every 90 days thereafter. In the event that the Company is successful in selling any part of a future stock offering, 33.3% of the net proceeds of said offering will be applied to reduction of this note payable up to \$1,500,000 or a maximum of the total balance due at that time.

This Stock Purchase Agreement has an effective date of January 1, 2010.

The Acquisition of Exclusive Licensing Rights from Kerner Broadcasting Corporation

Kerner Broadcasting Corporation (KBC) and its affiliate, Kerner Labs, represent the current amalgamation of talented professionals their common goal of which is to design and develop state-of-the-art stereoscopic 3-D hardware and, related technologies.

Kerner Labs is affiliated with Kerner Optical LLC, a studio and movie effects group whose formation and historical background rise from the spinoff of Industrial Light & Magic (ILM), a special effects company founded and developed by George Lucas and his team. Kerner's engineers, machinists and technology experts have been building extraordinary cameras and rigs to accommodate whatever the ILM photographic effects artists required to create astounding visual effects imagery in motion pictures.

Studios and broadcasters are endeavoring to align with a 3-D distribution format compatible with the existing Digital 2-D pipeline. However, the competing TV/DVD manufacturers are incorporating different 3-D formats into their systems or just brand their systems as "3-D Ready." Kerner Labs has developed a set-top box which decodes multiple existing 3-D formats for display on a variety of different types and styles of 3-D monitors from various manufacturers. This converter box appears to be the hardware preferred by major manufacturers.

Historically, competing broadcast and replay formats and hardware have taken several years and multiple versions for the consuming public and various standard setting organizations to determine the most feasible and/or popular format and delivery system. With the Kerner technology, it is anticipated that display manufacturers will be able to display a clear, high quality 3-D TV content and distribution through the proprietary Kerner 3-D set top converter box.

The technology behind this converter box was developed by a group of individuals with significant experience and focus on 3-D generation that joined Kerner in order to better focus their energies on developing the highest caliber 3-D products and technologies to meet the anticipated emerging 3-D boom. Kerner and its affiliates have applied for and received several 3-D patents and are working on key new technologies that will result in a number of additional new patents.

As Signet's new licensor, Kerner will be in a position to support AMG to effectively bring Kerner's cutting-edge 3-D technology to the AMG client base and consumer homes. This combination will afford Kerner the cost effective benefit of not having to create an extensive sales and distribution structure, not to mention having its own TV Network which literally spans the terrestrial skyscape. Kerner also anticipates development efforts to create step-ahead technology, improve 3-D and develop more solutions. AMG will be in the position to grow its brand by offering 3-D TV exclusively into its markets.

We anticipate that the acquisition of AMG and the distribution agreement with KBC will impart crucial benefits for success because we will be able to meet the needs for supplying content, syndicating and distributing the content, and realizing the sales in one complete triangle of a scalable business.

(4) Capital Resources and Liquidity

As of September 30, 2009, we had approximately \$33,000 in cash. Our monthly cash requirements have been reduced to approximately \$8,000 per month. Given our current circumstances, we will continue to have additional sources of cash to preserve our plan of operation or terminate all activities.

It is the belief of management and significant stockholders that they will provide sufficient working capital necessary to support and preserve the integrity of the corporate entity. However, there is no legal obligation for either management or significant stockholders to provide additional future funding. Further, the Company is at the mercy of future economic trends and business operations for the Company's majority stockholder to have the resources available to support the Company. Should this pledge fail to provide financing, the Company has not identified any alternative sources. Consequently, there is substantial doubt about the Company's ability to continue as a going concern.

As reflected in the accompanying financial statements, we are in the development stage with no operations. Our ability to continue as a going concern is dependent on our ability to raise additional capital and implement our business plan. The financial statements do not include any adjustments that might be necessary if we are unable to continue as a going concern. We have no plans to pay no salaries per month to our sole officer and employee until we are properly funded. We intend to raise additional capital to continue our operations although there is no assurance we will be successful. Currently we have no material commitments to make capital expenditures.

Our need for capital may change dramatically as a result of any business acquisition or combination transaction. There can be no assurance that we will identify any such business, product, technology or company suitable for acquisition in the future. Further, there can be no assurance that we would be successful in consummating any acquisition on favorable terms or that it will be able to profitably manage the business, product, technology or company it acquires.

Management believes that actions presently being taken to obtain additional funding and implement its strategic plans provide the opportunity for us to continue as a going concern. The Company is still in the process of developing and implementing its business plan and raising additional capital. As such, the Company is considered to be a development stage company.

(5) Critical Accounting Policies

Our financial statements and related public financial information are based on the application of accounting principles generally accepted in the United States ("GAAP"). GAAP requires the use of estimates; assumptions, judgments and subjective interpretations of accounting principles that have an impact on the assets, liabilities, revenue and expense amounts reported. These estimates can also affect supplemental information contained in our external disclosures including information regarding contingencies, risk and financial condition. We believe our use of estimates and underlying accounting assumptions adhere to GAAP and are consistently and conservatively applied. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions or conditions. We continue to monitor significant estimates made during the preparation of our financial statements.

Our significant accounting policies are summarized in Note D of our financial statements. While all these significant accounting policies impact our financial condition and results of operations, we view certain of these policies as critical. Policies determined to be critical are those policies that have the most significant impact on our financial statements and require management to use a greater degree of judgment and estimates. Actual results may differ from those estimates. Our management believes that given current facts and circumstances, it is unlikely that applying any other reasonable judgments or estimate methodologies would cause effect on our consolidated results of operations, financial position or liquidity for the periods presented in this report.

Item 3 - Quantitative and Qualitative Disclosures About Market Risk

The Company may be subject to certain market risks, including changes in interest rates and currency exchange rates. At the present time, the Company does not undertake any specific actions to limit those exposures.

Item 4 - Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the U. S. Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Management necessarily applied its judgment in assessing the costs and benefits of such controls and procedures, which, by their nature, can provide only reasonable assurance regarding management's control objectives.

The Company carried out an evaluation, under the supervision and with the participation of its management, including its Chief Executive Officer and Chief Financial Officer, on the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15 as of the end of the period covered by this report. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to information relating to the Company required to be included in the Company's Exchange Act reports.

While the Company believes that its existing disclosure controls and procedures have been effective to accomplish their objectives, the Company intends to continue to examine, refine and document its disclosure controls and procedures and to monitor ongoing developments in this area.

(b) Changes in Internal Controls

During the quarter ended September 30, 2009, there were no changes (including corrective actions with regard to significant deficiencies or material weaknesses) in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II - Other Information

Item 1 - Legal Proceedings

From time to time, as we acquire operating properties, we may become subject to various legal proceedings that are incidental to the ordinary conduct of its business. Although, to date, there have been no such proceedings, we do not anticipate that any future proceedings, either individually or in the aggregate, will become material to our business or be likely to result in a material adverse effect on our future operating results, financial condition, or cash flows.

Item 2 - Recent Sales of Unregistered Securities and Use of Proceeds

On September 18, 2009, the Company and the owners of Access Media Group, Inc. executed an Asset Purchase Agreement whereby the Company will acquire one hundred percent (100%) of the Pittsburgh, PA leased facility (and/or any other leased facility owned or leased by Seller), licenses, equipment and ancillaries of the assets listed and identified on Exhibit A which includes a list of Affiliates and Clearances and all other assets including but not limited to intellectual properties, leases, licenses, permits, clients lists, contracts, applications pending or otherwise owned by AMG-TV without lien or security interest. The purchase price will be approximately \$3,000,000 composed of 100,000 shares of common stock valued at \$5.00 per share and a note payable of \$2,500,000. The \$2,500,000 note payable will bear interest at prime plus 2% accruing from September 18, 2009 and is payable in increments of \$100,000 starting on the 180th day after September 18, 2009 and \$100,000 every 90 days thereafter. In the event that the Company is successful in selling any part of a future stock offering, 33.3% of the net proceeds of said offering will be applied to reduction of this note payable up to \$1,500,000 or a maximum of the total balance due at that time.

This Stock Purchase Agreement has an effective date of January 1, 2010.
