Grupo Radio Centro Reports First Quarter 2005 Results

Mexico City, April 26, 2005 - Grupo Radio Centro, S.A. de C.V. (NYSE: RC, BMV: RCENTRO-A) (the Company), one of Mexico's leading radio broadcasting companies, announced today its results of operations for the three months ended March 31, 2005. All figures were prepared in accordance with generally accepted accounting principles in Mexico and have been restated in constant pesos as of March 31, 2005.

Due to the termination of the news program previously provided by a third party, which took place on March 3, 2004, the Company was able to increase its productivity, however for the first quarter of 2005, broadcasting revenue was Ps. 106,391,000, representing a decrease of 12.5% compared to Ps. 121,620,000 reported for the same period of 2004. This decrease was mainly due to the loss of revenue from the abovementioned broadcasting news programs, which the Company ceased receiving after the cancellation of these news broadcasts at the end of the first quarter of 2004.

The Company's broadcasting expenses (excluding depreciation, amortization and corporate, general and administrative expenses) for the first quarter of 2005 were Ps. 86,363,000, representing a decrease of 26.4% compared to Ps. 117,380,000 reported for the same period of 2004. This decrease was mainly attributable to lower production costs resulting from the termination of news programming produced by a third party at the end of the first quarter of 2004.

For the first quarter of 2005, the Company reported broadcasting income (i.e., broadcasting revenue minus broadcasting expenses, excluding depreciation, amortization and corporate, general and administrative expenses) of Ps. 20,028,000, an amount which more than quadrupled the broadcasting income of Ps. 4,240,000 reported for the same period in 2004. This increase was mainly attributable to the decrease in the aforementioned Company's broadcasting expenses, which more than offset the reduction in broadcasting revenues.

Depreciation and amortization for the first quarter of 2005 amounted to Ps. 9,735,000, a 60.0% decrease compared to Ps. 24,367,000 reported for the same period of 2004. This decrease was caused by the implementation of a new accounting principle in Mexico (Bulletin B-7 *Adquisición de Negocios*). As a result, the Company no longer amortizes goodwill as of January 1, 2005, but instead tests goodwill for impairment at least once a year. In accordance with the requirements of Bulletin B-7, the Company performed an analysis for impairment of goodwill as of December 31, 2004 and concluded that no impairment adjustment was necessary. This new Mexican accounting principle is in accordance with U.S. GAAP.

For the first quarter of 2005, the Company's corporate, general and administrative expenses were Ps. 4,284,000, compared to Ps. 7,641,000 reported for the same period of 2004. This 43.9% decrease was due to the discontinuance of expenses previously related to a news production contract that the Company formerly had with a third party, which was terminated at the end of the first quarter of 2004.

The Company reported operating income of Ps. 6,009,000 for the first quarter of 2005, compared to operating loss of Ps. 27,768,000 reported for the same period of 2004. The increase in operating income resulted primarily from (i) the implementation of a new accounting principle that eliminates amortization of goodwill and (ii) a reduction in broadcast expenses, which together more than offset the decrease in broadcasting revenues.

The Company's comprehensive financing cost for the first quarter of 2005 was Ps. 6,144,000, compared to a comprehensive financing cost of Ps. 3,567,000 reported for the same period of 2004. This increase of 72.2% was primarily attributable to (i) an increase in interest expense during the first quarter of 2005 that resulted principally from the Company recording interest relating to a contingent liability provision recorded at the end of 2003, and (ii) a foreign currency exchange loss, net of Ps. 589,000 for the first quarter of 2005 compared to a foreign currency exchange gain, net of Ps. 1,732,000 for the same period of 2004. This was a result of the depreciation of the peso against the U.S. dollar during the first quarter of 2005.

For the first quarter of 2005, other expenses, net, were Ps. 9,033,000, a slight decrease compared to Ps. 10,684,000 reported for the same period in 2004. This decrease was mainly due to the inclusion in other income, of income from a special promotional event of the Company in the first quarter of 2005.

The Company reported a loss before provisions for income tax and employee profit sharing of Ps. 9,168,000 for the first quarter of 2005, compared to a loss before provisions for income tax and employee profit sharing of Ps. 42,019,000 for the same period of 2004.

For the first quarter of 2005, the Company recorded provisions for income tax and employee profit sharing of Ps. 44,000. No provisions for income tax and employee profit sharing were recorded for the first quarter of 2004 primarily due to the loss before provisions reported for that period.

As a result of the foregoing, the Company had a net loss for the first quarter of 2005 of Ps. 9,212,000, compared to a net loss of Ps. 42,019,000 reported for same period of 2004.

Other Matters:

From March 31, 2004 to March 31, 2005, the Company's total bank debt decreased from Ps. 236.1 million to Ps. 169.8 million as a result of scheduled payments.
