SPECIAL REVIEW REPORT

The Board of Directors and Shareholders
Gol Linhas Aéreas Inteligentes S.A.

1. We have performed a special review of the Quarterly Information - ITR of Gol Linhas Aéreas Inteligentes S.A. and subsidiaries for the quarter ended September 30, 2005, comprising the balance sheets of the parent company and consolidated and the respective statements of income, the performance report and relevant information prepared in accordance with the accounting practices adopted in Brazil.
2. We conducted our review in accordance with standards specific standard established by IBRACON - Brazilian Institute of Independent Auditors, coupled with the Federal Accounting Council, consisting mainly of: (a) inquiry and discussion with the managers in charge of the Company's accounting, financial and operating areas in relation to the main criteria adopted in the preparation of the Quarterly Information; and (b) review of information and subsequent events which have or may have relevant effects on the financial situation and operations of the Company and its subsidiaries.
3. Based on our special review, we are not aware of any material modifications that should be made to the Quarterly Information referred to above for them to be in conformity with the accounting practices adopted in Brazil, in accordance with the rules issued by the Brazilian Securities and Exchange Commission, specifically applicable to the preparation of the Quarterly Information.
4. Our special review was conducted aiming at issuing an opinion on the financial statements referred to in the first paragraph. The statements of cash flow of the parent company and consolidated, prepared in accordance with the accounting practices adopted in Brazil, are presented in order to provide supplementary information on the Company, in spite of not being required as an integral part of the financial statements. These statements were submitted to the review procedures described in the second paragraph and, according to our special review, they present fairly, in all material respects, the financial statements taken as a whole.
5. As described in Note 1, pursuant to the resolution of the Securities and Exchange Commission - CVM, the Company restated the Pro Forma Consolidated Quarterly Information for the period ended on September 30, 2005. The adjustments made pursuant to the resolution of the Brazilian Securities and Exchange Commission - CVM do not change our review report issued on October 14, 2005 on the Consolidated Pro Forma Quarterly Information.

São Paulo, October 14, 2005, except for Note 1 and Note 10, for which the date is March 6, 2006.

NOTES TO THE QUARTERLY INFORMATION (UNAUDITED)

Period from January 1 to September 30, 2005

(In thousands of reais)

1. Restatement of the financial statements as of September 30, 2005

According to the Brazilian Securities Commission (CVM) deliberation, in compliance with the Official letter/CVM/SEP/GEA-I/ #098/2006, dated March 06, 2006, the financial statements for the period ended on December 31, 2004 were restated to reflect in that fiscal year the expenses incurred on funds raised to acquire new aircraft in the amount of R\$27,401, previously classified as prepaid expenses. Additionally, the balance of the expenditures with the fund raising for the acquisition of the aircraft which occurred during the second quarter of 2005, amounting R\$12,141 and previously classified as prepaid expenses have been reflected in the accumulated result of the period ended on June 30, 2005. The Company had adopted this procedure since it can clearly match fund raising expenses to its future expansion projects including the acquisition of aircraft under construction. As the fund raising will produce future benefits represented by the financial revenues created by the cash during the construction phase of aircraft ordered from suppliers until the agreement payment date, the Company had registered such fund raising expenses in assets as prepaid expenses to be amortized as the benefits were realized. The CVM concluded that by the Brazilian standards, such costs must be fully expensed in the fiscal year in which occurred. The effects of the adjustments determined by the CVM were a decrease in total assets and shareholders equity at December 31, 2004. Quarterly information from September 30, 2005 was restated to reflect the effects of the adjustments on that date, which were a decrease in total assets, shareholders equity, current liabilities and in the quarterly results in the amounts of R\$20,866, R\$19,879, R\$987 and R\$4,199, respectively. In addition, note 10 was re-stated, as determined by the CVM, to expand the disclosure on contingencies for which losses are considered remote.

2. Business Overview

Gol Linhas Aéreas Inteligentes S.A. (Company or GLAI) is a low-cost, low-fare airline, with an aircraft fleet of 38 Boeing 737 simplified by one single class of service, one of the industry's newest and most modern fleets, with low maintenance, fuel and training costs, and high utilization and efficiency ratios.

2. Business Overview Continued

In January 2005, the Company obtained an authorization from the Committee of Studies Related to International Air Navigation (CERNAI) to operate regular flights from Brazil to Santa Cruz de La Sierra, Bolivia (VVI). Company Management expects to begin operating those flights in the fourth quarter of 2005. In May 2005, the Company also obtained an authorization from CERNAI to operate regular flights from Brazil to Asunción, Paraguay (ASU), and Montevideo, Uruguay (MVD). Company Management expects to begin operating those flights in the fourth quarter of 2005.

On April 27, 2005, the Company concluded a global public offering of 14,700,000 preferred shares at the price of R\$ 35.12, out of which 5,520,811 preferred shares were offered by the Company and 9,179,189 preferred shares were offered by BSSF Air Holding LLC, a company affiliated to the shareholder AIG Capital Partners, in the Brazilian and foreign markets as ADS. The funds raised by the Company by means of a primary offering of new shares, in the amount of R\$ 193,890, will be used for its expansion plan, mainly for payment of deposits for aircraft purchase provided under its agreement with Boeing.

On May 2, 2005, the Board of Directors resolved on a R\$ R\$ 77,440 capital increase as a result of the public subscription of 2,205,000 preferred shares, in view of the option exercise for subscription and distribution of new shares, according to the agreements entered into with financial institutions for placement of the new shares issued.

At September 30, 2005, the Company's share ownership structure is as follows:

3. Basis of Preparation and Presentation of the Financial Statements Continued

The financial statements are presented in compliance with the rules established by IBRACON NPC 27 Accounting Statements Presentation and Disclosure. The following significant re-classifications were performed in 2005 and 2004 due to the application of NPC 27:

- i. Investments at R\$ 550,591 (R\$ 617,829 on June 30, 2005) were segregated in short-term investments.
- ii. The net financial result was segregated between financial expenses and revenues based on the concepts established by NPC 27, as described in note 2 k.

Additionally, the following re-classification and grouping were performed so that the information is adequate and consistent with the current year:

- i. The Company revised the profit sharing concept, considering that the profit sharing program also includes other operating goals, the total benefits are classified as operating payroll expenses on September 30, 2005 and 2004.
- ii. The commercial leases payable in the short-term were included in other provisions and liabilities. The long term payable lines were grouped in accounts payable and provisions, in long-term liabilities, due to the relevance of the figures involved.
- iii. Differed investments were grouped in other permanent assets.

Significant accounting practices and consolidation criteria adopted by the Company are described in the financial statements for the year ended December 31, 2004 and remain unchanged.

Additionally in 2005, aiming towards continuous improvement of the information presented to the market, the Company began adopting the following new principles:

a) Employee profit sharing

The provision for employee profit sharing is set up monthly, based on Management's estimates, in view of the goals established for the current year, and recorded as

personnel expenses while considered as provision, classified as employee profit sharing when the accomplishment of the year's goals is confirmed.

b) Managed account

The Company and its subsidiaries are quota holders of managed accounts, whose investment in securities and liabilities resulting from the fund portfolio activities began to be presented on a consolidated basis for the first quarter of 2005.

Securities from the managed account portfolios are acquired with the aim of being frequently and actively traded and, as provided for by specific rules of the Central Bank of Brazil are classified as securities for trading and booked based on the market value, which is stated based on the managers' quotes or estimates, having the realized and unrealized gains and losses recognized in the results.

c) Accounting of operations with derivatives

Aiming at recording, stating and disclosing transactions with derivative financial instruments performed by the Company and its subsidiaries, based on formal policies of risk management, the Company began to adopt, beginning January 2005, accounting practices for derivative instruments in line with the USGAAP, whose concepts used are described below.

The derivative financial instruments used by the Company, with the specific purpose of covering market risks, are measured based on their fair values, and the non-effective portion of income realized from transactions with derivative financial instruments is directly recognized in the income for the period, while the effective risk coverage is recognized in order to adjust revenues and expenses relating to the items subject to the contracted coverage. The accounting criteria for the effective measurement of the instruments was defined based on the Company's risk management policy, which considers effective the instruments that offset between 80% and 120% of the volatility of the item for which the hedge was contracted.

The market value of derivative financial instruments is calculated based on usual market practices, using the closing values for the period, considering relevant underlying quotes, except for option contracts, whose values are stated through the Black and Scholes' pricing methodology, whereby the variables and the information related to the volatility coefficients are obtained through well-known sources.

d) Financial revenues (expenses)

The financial revenues represent the interests, the effect of the exchange rate on assets and gains from financial investments and financial derivative instruments. The financial expenses include interest payments on loans, the effect of the exchange rate liabilities and losses from financial derivative instruments.

e) Provision for Contingencies

The provision for contingencies is supported by the opinion of the legal consultants with sufficient amounts to cover possible losses and gains.

The Company adopted concepts established by NPC No. 22, concerning Provisions, Liabilities, Contingencies for Liabilities and Assets, on the constitution of provisions for and releases on subjects involving legal disputes and contingencies.

f) Reconciliation between information and the disclosures under USGAAP Continued

Preferred shares of Gol Linhas Aéreas Inteligentes S.A. are traded as American Depositary Shares ADS on the NYSE in the United States of America and are subject to the rules of the US Securities and Exchange Commission SEC. Each ADS represents 2 preferred shares traded under the ticker GOL. The Company prepares the consolidated financial statements according to generally accepted accounting principles in the United States of America USGAAP. Aiming at fulfilling the need for information in the markets in which it operates, the Company's practice is to simultaneously disclose its corporate financial statements and the USGAAP.

3. Basis of Preparation and Presentation of the Financial Statements Continued

f) Reconciliation between information and the disclosures under USGAAP Continued The accounting practices adopted in Brazil differ from accounting principles generally accepted in the United States USGAAP applicable to the air transport segment, especially the allocation of maintenance expenses to income. At September 30, 2005, the net income for the period, in accordance with accounting practices adopted in Brazil (BRGAAP), was R\$ 65,438 lower (R\$ 119,302 at September 30, 2004) due to this difference and the respective tax effects in comparison with net income under USGAAP. At this same date, shareholder s equity presented in the Company s financial statements as per Brazilian Corporation Law was R\$ 201,354 lower due to, mainly, the accumulated difference in the allocation of maintenance expenses and respective tax effects, also as the result of the accrual in USGAAP financial statements of net proceeds received through issuing shares and accounting for stock options granted to executives and employees. There are also differences in the classification of assets, liabilities and income items, and the most significant difference is the classification of readily available financial investments. The Company discloses significant information on transactions in a consistent way in the corporate financial statements as per Brazilian Corporation Law and in accordance with USGAAP.

The Company entered into an Agreement for the Adoption of Level 2 Differentiated Corporate Governance Practices with the São Paulo Stock Exchange BOVESPA, by means of which it began to take part in the Differentiated Corporate Governance Share Index IGC and the Differentiated Tag Along Shares - ITAG, created to differ companies committed to adopting differentiated corporate governance practices. The Company s financial statements comply with the additional requirements of BOVESPA s Novo Mercado (New Market).

The financial statements include statements of cash flow, presented as supplementary information and also prepared to ensure conformity to the financial statements for the year ended December 31, 2004.

No significant changes occurred in the course of these proceedings in accordance with disclosures in the financial statements for the year ended December 31, 2004.

The Company is questioning in court the non-assessment of VAT (ICMS) in aircraft and engine imports under operating leasing in transactions made with lessors headquartered in foreign countries. The Company's Management understands that these transactions are mere leases, in view of the contractual obligation to return the object of the contract, which will never integrate the Company's assets, neither now or in the future. Given that there is no circulation of goods, the tax triggering event is not characterized.

Estimated aggregated value of the current lawsuits on September 30, 2005, estimate based on the 4% rate applied to the price of the lease aircraft and engines, taking these assets' estimated useful life over the average period of the Company's commercial leases is of R\$34,000 monetarily restated and excluding eventual default fees.

The Company, supported by case law and the opinion of its independent legal advisors understands that it is unlikely for the Company to lose these court suits and the accounting practices adopted in the preparation of its financial statements, in line with international standards, do not require provisions for losses.

16. Commitments Continued

The Company has been making the initial payments related to the acquisition of these aircraft, using its own funds arising from the primary public offering of its shares and loans contracted through short-term credit lines and supplier's financing. Future payments referring to firm orders and purchase options, set forth based on the aircraft price list, denominated in US dollars and converted into reais based on the exchange rate as of September 30, 2005, have the following breakdown per year:

| | Future commitments for aircraft acquisition | |
|-------|--|-------------|
| | R\$ | US\$ |

| 2012 | 2,043,944 | 919,784 |
| Total | 15,999,274 | 7,199,745 |

The Company expects that aircraft purchase obligations will be financed up to 85% through long-term financing guaranteed by the US Exim Bank.

The Company maintains an agreement, which expires in 2014, for use of the Open Skies sales system, which may be terminated with a prior notice of 180 days. The future payments under that agreement depend on the number of passengers carried and the minimum monthly price is R\$ 327, corresponding to US\$ 147 translated based on the exchange rate as of September 30, 2005. From January 1 to September 30, 2005 payments to Open Skies totaled R\$ 12,433 (R\$ 8,242 up to June 30, 2005).

17. Employee Benefits

At an Extraordinary Shareholders Meeting held on May 25, 2004, the shareholders approved a stock option plan targeting senior executives, executive officers and other Company managers. Still on May 25, 2004, the Board of Directors approved the issuance of 937,412 preferred stock options at the price of R\$ 3.04 per share, from which 50% became exercisable as of October 25, 2004, and the remaining 50% exercisable quarterly on a *pro rata* basis until the second quarter of 2006. After becoming exercisable, the holder of each option may exercise it for a period of 24 months.

On January 19, 2005, the Compensation Committee, within the scope of its functions and in conformity with the Company's Stock Option Plan, approved the grant of 87,418 options for the purchase of the Company's preferred shares at the price of R\$ 33.06 per share.

If the Company had accounted for the total effect of the options granted as expense, the operating result for the period ended June 30, 2005 would be lower by approximately R\$ 4,610 (R\$ 3,353 on June 30, 2005), considering the intrinsic value of options granted.

Employee profit sharing is also provided for in the Bylaws of the Company's subsidiary Gol. The employee profit sharing plan is subject to economic and financial results measured based on the Company's performance indicators, which assume the accomplishment of the performance goals of the Company and the business and individual units. On September 30, 2005 the provision set up based on the Management's estimates and expectations is R\$18.706.

18. Derivative Financial Instruments

The Company is exposed to several market risks arising from its operations. Such risks involve mainly the effects of changes in price and fuel availability, exchange rate risk, as the revenues thereof are generated in reais and the Company has significant obligations in US dollars, credit risks and interest rate risks. The Company uses derivative financial instruments to minimize those risks. The Company maintains a formal risk management policy under the management of its executive officers, the Risk Policy Committee and the Board of Directors.

18. Derivative Financial Instruments Continued

The management of these risks is performed through control policies, establishing limits, as well as other monitoring techniques, mainly mathematical models adopted for the continuous monitoring of exposures. The Company's risk management policy sets forth that all derivative instruments used shall present a certain level of liquidity in order to permit position adjustments.

The financial investment funds the Company and its Subsidiary are quota holders are used as instruments for contracting risk coverage in accordance with the Company's risk management policies.

a) Fuel price risk and availability

In order to manage risks resulting from the price changes in aircraft fuel, GOL uses derivative financial instruments to measure oil price changes represented by *futures and commodities options contracts*. Oil prices are extremely linked to aircraft fuel, which makes oil derivatives efficient in the compensation of aircraft fuel price fluctuations, providing a short-term hedge against fuel price increases.

The Company makes use of oil swap and options. The Company records its derivative instruments related to fuel hedge as cash flow hedges. The fair value of the Company's fuel derivative instruments at September 30, 2005 corresponded to an unrealized net gain of R\$ 1.0 million.

During the quarter ended September 30, 2005, the Company recognized in operating expenses gains of R\$ 4.0 million with derivative instruments.

18. Derivative Financial Instruments Continueda) Fuel price risk and availability Continued

At September 30, 2005, the Company held derivative agreements for the purchase of up to 180,000 barrels of oil, in the nominal value of US\$ 12.4 million, for a one- month period, and the results from the transactions with such derivatives were not recognized as adjustments to the items which refer to the financial statements.

The fuel purchase is substantially made from a single supplier, which accounts for the supply of 95% of the Company's annual fuel consumption.

b) Exchange rate risk

At September 30, 2005, significant assets and liabilities in foreign currency are related to aircraft leasing operations.

The Company's currency exchange exposure at September 30 is set forth below:

b) Exchange rate risk

The total exchange exposure related to unsettled amounts resulting from leasing operations is managed by means of hedge strategies. The Company records its derivative financial instruments related to foreign currency futures market as cash flow hedges. All changes in the fair value of derivative instruments measured as effective are recorded in

Other total accumulated revenues up to the date when the corresponding foreign currency exposure is realized. Changes in the fair value of the Company's derivative financial instruments at September 30, 2005 corresponded to a net current asset of R\$ 4,582 (equivalent to US\$ 2,062 thousand), classified in other current assets in the Balance Sheet.

In the quarter ended September 30, 2005, the Company recognized in the financial result the amount of R\$ 1,712 with derivative instruments.

c) Interest rate risk

The Company's results are affected by changes in interest rates due to the impact of such changes on expenses with interest on variable income instruments, operating lease agreements based on variable rates and remuneration on cash balance and financial investments.

At September 30, 2005, there were no open hedge agreements and the transactions carried out in 2005 were not recognized as adjustments relating to items in the financial statements.

At September 30, 2005 the Company holds derivative instrument agreements related to futures at the nominal value of R\$ 168,002.

The value of derivative financial instruments at September 30, 2005 and June 30, 2005, recorded in equity and compensation accounts, is summarized as follows:

19. Insurance Coverage Continued

By means of the Law 10,605 as of December 18, 2002, the Brazilian government undertook to supplement any civil liability expenses against third parties caused by acts of war or terrorist attacks, occurred in Brazil or abroad, for which GOL may be demanded, for the amounts that exceed the insurance policy limit effective on September 10, 2001, limited to the equivalent in reais to one billion US dollars.

20. EBITDA and EBITDAR

The Company uses, among others, EBITDA (earnings before interest, taxes, depreciation and amortization) and EBITDAR (earnings before interest, taxes, depreciation and amortization plus operating costs with aircraft leases and supplementary aircraft leases) as indices for measuring its economic performance.

EBITDA and EBITDAR are not measurements accepted by accounting rules. The Company uses EBITDA and EBITDAR because they are standard financial statistical measures, widely used in the civil aviation industry. The Company believes that these are useful financial data that indicate its performance and also to compare it with other airline companies.

EBITDA and EBITDAR should not be analyzed as stand-alone matters, in replacement to operating profit and net income, established according to the Brazilian Corporation Law. The table below represents the calculation to determine the EBITDA and EBITDAR in the specified periods:
