Forward-Looking Statements

This Report on Economic and Financial Analysis contains forward-looking statements relating to our business, which are based on management's current expectations, estimates and projections about future events and financial trends, which could affect our business. Words such as: "believes", "anticipates", "plans", "expects", "intends", "aims", "evaluates", "predicts", "foresees", "projects", "guidelines", "should" and similar expressions are intended to identify forward-looking statements. These statements however, are not guarantees of future performance and involve risks and uncertainties, which are difficult to predict and which could be beyond our control. Furthermore, certain forward-looking statements are based on assumptions, which future events may prove to be inaccurate. Therefore, actual results may differ materially from the plans, objectives, expectations, projections and intentions expressed or implied in such forward-looking statements.

Factors which could modify actual results include, among others, changes in regional, national and international commercial and economic conditions; inflation rates; increase in customer delinquency on the account of borrowers and any other delays in loan operations; increase in the allowance for loan losses; loss of funding capacity; loss of clients or revenues; our capacity to sustain and improve performance; changes in interest rates which could, among others, adversely affect our margins; competition in the banking sector, in financial services, credit card services, insurance, asset management and other related sectors; government regulations and fiscal matters; disputes or adverse legal proceedings or ruling; as well as credit risks and other loan and investment activity risks.

Accordingly, the reader should not place excessive reliance on these forward-looking statements. These forward-looking statements are valid only as at the date they are made. Except as required under applicable legislation, we assume no obligation whatsoever to update these statements, whether as a result of new information, future events or any other motive.

Risk Factors and Critical Accounting Practices

We transcribe below the annual report filed with the SEC "Risk Factors" and "Critical Accounting Practices" sections of Form 20-F, to assure Bradesco's adherence to best international practices for transparency and corporate governance, describing the risk factors and the critical accounting practices which we consider most significant and which could affect our daily business, the results of our operations or our financial position. We stress that Bradesco addresses the management of all risks inherent to its activities in a complete and integrated manner. This integrated approach facilitates the improvement of risk management models and avoids the existence of any gap that could jeopardize the correct identification and assessment of these risks.

Risks Relating to Brazil

1) Brazilian political and economic conditions have direct impact on our business and on the market price of our stocks and ADSs

All of our operations and clients are mainly located in Brazil. Accordingly, our financial condition and results of operations are substantially dependent on Brazil's economy, which in the past has been characterized by frequent intervention by the Brazilian Government and volatile economic cycles. In addition, our financial condition and the market price of our stocks and ADSs may also be adversely affected by changes in policy involving exchange controls, tax and other matters, as well as factors such as: fluctuations in exchange rates, interest rate, inflation rates, and other political, diplomatic, social and economic developments within and outside of Brazil that affect the Country.

In the past, the Brazilian Government has often changed monetary, fiscal and taxation policies to influence the course of Brazil's economy. We cannot predict which measures or policies the Brazilian Government may take in response to the current or future situation of the Brazilian economy or how the Brazilian government intervention and government policies will affect the Brazilian economy and, both directly and indirectly, our operations and revenues.

2) If Brazil undergoes a period of high inflation in the future, our revenues and the market price of our stocks and ADSs may be reduced

In the last 15 years, Brazil has undergone extremely high inflation rates, with annual rates (IGP - DI from Getulio Vargas Foundation) reaching as high as 1,158% in 1992, 2,708% in 1993 and 1,093% in 1994. More recently, Brazil's inflation rates were 7.7% in 2003, 12.1% in 2004 and 1.2% in 2005. Inflation and governmental measures to combat it have had in past years significant negative effects on the Brazilian economy. In addition, public speculation about possible future actions have also contributed to economic uncertainty in Brazil and to heightened volatility in the Brazilian marketable securities markets. If Brazil suffers a period of high inflation in the future, our costs may increase, our operating and net margins may decrease and, if investor's confidence lags, the price of our stocks and ADSs may drop. Inflationary pressures may also curtail our ability to access foreign financial markets and may occasionally lead to further government intervention in the economy, including the introduction of government policies that may adversely affect the overall performance of the Brazilian economy.

3) Access to international capital markets for Brazilian companies is influenced by the perception of risk in emerging economies, which may harm our ability to finance our operations

Since the end of 1997, and in particular during the last five years, as a result of economic problems in various emerging market countries, including the economic crisis in Argentina, investors have had a heightened risk perception for investments in emerging markets. As a result, in some periods, Brazil has experienced a significant outflow of U.S. dollars and while Brazilian companies have borne higher costs to raise funds, both domestically and abroad, and have been impeded from accessing international capital markets. We cannot assure you that international capital markets will remain open to Brazilian companies or that prevailing interest rates in these markets will be advantageous for us.

4) Developments in other emerging markets may affect in a negative manner the market price of our stocks and ADSs

The market price of our stocks and ADSs may be affected in a negative manner by declines in the international financial markets and world economic conditions. Brazilian securities markets are influenced by the local economy and other emerging countries, especially those in Latin America, including Argentina, which is one of Brazil's principal trading partners. Although economic conditions are different in each country, investors' reaction to developments in one country may affect the securities markets and the securities of issuers in other countries, including Brazil.

Occasionally, developments in other countries have adversely affected the market price of our and other Brazilian companies' stocks, as investors' high risk perception due to crisis in other emerging markets may lead to reduced levels of investment in Brazil and, in addition, may hurt our ability to finance our operations through the international capital markets. If the economic situation in Argentina and Latin America deteriorates, or if similar developments occur in the international financial markets in the future, the market price of our stocks and ADSs may be adversely affected.

Risks Relating to Bradesco and the Brazilian Banking and Insurance Industries

1) The Brazilian Government regulates the operations of Brazilian banks and insurance companies, and changes in prevailing laws and regulations or the imposition of new ones may negatively affect our operations and results

Brazilian banks and insurance companies are subject to extensive and continuous regulatory review by the Brazilian Government. We have no control over government regulations, which govern all facets of our operations, including the imposition of minimum capital requirements, compulsory deposits, loan limits and other loan restrictions.

The regulatory structure governing Brazilian banks and insurance companies is continuously evolving. Existing laws and regulations could be amended. Besides, the enforcement or interpretation of laws and regulations could change, and new laws and regulations could be adopted. Such changes could materially affect in a negative manner our operations and our results.

Regulatory changes affecting other businesses in which we are engaged, including our broker dealer, consortium and leasing operations, could also have an adverse effect on our operations and our results.

2) The increasingly competitive environment in the Brazilian bank and insurance industries may negatively affect our business prospects

We face significant competition in all of our principal areas of operation from other large Brazilian banks and public and private insurance companies. Brazilian regulations raise limited barriers to market entry and do not differentiate between local or foreign commercial and investment banks and insurance companies. As a result, the growing presence of foreign banks and insurance companies in Brazil, some of which have greater resources than we do, has grown the competition both in the banking and insurance sectors. The privatization of publicly-owned banks has also made the Brazilian markets for banking and other financial services more competitive.

The increased competition may negatively affect our business results and prospects by, among other things, limiting our ability to increase our customer base and expand our operations, reducing our profit margins on the banking, insurance, leasing services and other products we offer; and increasing competition for foreign investment opportunities.

Furthermore, additional publicly-owned banks and insurance companies may be privatized in the future. The acquisition of a bank or insurance company in a privatization process by one of our competitors would generally add to the acquirers' market share, and as a result we may face increased competition from the acquirer.

3) The majority of our common stocks are held by two stockholders, whose interests may conflict with other investors' interests

On June 30, 2006 Cidade de Deus Companhia Comercial de Participações held 48.44% of our common stocks and Fundação Bradesco directly and indirectly held 46.33% of our common stocks. As a result, these stockholders have the power to prevent a change in control of our company, even if a transaction of that nature would be beneficial to our other stockholders, as well as to approve related-party transactions or corporate reorganizations.

Critical Accounting Practices

Bradesco's results are susceptible to accounting policies, assumptions and estimates. It is incumbent upon the Management to adopt proper accounting policies and provide reasonable and suitable judgments and estimates when preparing the financial statements.

Our relevant accounting policies are outlined in the note 3 to the consolidated financial statements included in chapter 8 of this Report.

The following 5 items outline the accounting policies deemed as critical, in terms of materiality, as well as areas requiring a greater judgment and estimate or involving a higher level of complexity, affecting our financial condition and the results of our operations. The accounting estimates made under such context impel us to make assumptions on highly uncertain issues. In each case, if we had made other estimates, or if changes in estimates had occurred period by period, these could have significantly impacted our financial condition or the results of our operations:

1) Allowance for Loan Losses

We periodically adjust our allowance for loan losses and leasing based on the analysis of our loan operations portfolio, including probable losses estimate in these segments at the end of each period.

The determination of allowance for loan losses amount by its nature requires us to make judgments and assumptions related to our loan operations portfolio, not only on an individual basis, but also on a portfolio basis. When we revise our portfolio as a whole, various factors may affect our estimate of probable extension of losses, including the methodology we use to measure historical rates of delinquency and the historical period we take into account in such measurements. When we revise loan operations on an individual basis, we make judgments related to the factors, which most probably should affect the risk levels and which specific credit rating we should attribute. Additional factors, which may affect our determination of allowance for loan losses, include:

- general economic conditions in Brazil and conditions of relevant sector;
- previous experience with borrower or relevant sector of economy, including losses recent experience;
- credit quality trends;
- guarantees amounts of a loan operation;
- volume, composition and growth of our loan operations portfolio;
- Brazilian Government's monetary policy; and
- any delays when receiving information necessary to assess loan operations or confirm the deterioration of existing credit.

Our determination of allowance for loan losses is influenced by the risk rating of each loan operation. By assuming a positive fluctuation of 1.0% in delinquency rate expected for our loan operations portfolio in full performance on June 30, 2006, the allowance for loan losses would increase approximately R\$ 34 million. Such sensitivity analysis is hypothetical and intends to illustrate the risk rating and loss severity impact on our allowance for loan losses. The analysis should not be considered as an observation of our expectations for future determinations of risk rating or future alterations in loss severity. In view of the procedures we observe, in order to determine our risk rating of loan portfolio and our assessment of loss severity, we believe that the current risk rating and the estimate of loss severity for our loan portfolio are appropriate.

For further information about our practices referring to the allowance for loan losses, see content of loan operations included in Chapter 3 of this Report and notes 3e and 10 included in the Chapter 8 hereof.

2) Assessment of Securities and Derivatives

The financial instruments recorded at fair value in our financial statements mainly include securities classified as for trading, available for sale and other trading assets, including derivatives. The fair value is defined as the value in which a position could be closed or sold in a transaction with a party aware of the issue and willing to trade, without any benefit.

We estimate the fair value by using market-quoted prices when available. We observe that the fair value may be affected by the volume of shares traded and also may not reflect the "control premiums" resulting from shareholders' agreements, those holding significant investments. However, the Management believes that market-quoted prices are the fair value best indicators.

When market-quoted prices are not available, we use models to estimate the fair value. The factors used in these models include distributors' quotations, pricing models, prices of instruments with similar characteristics and discounted cash flows. The pricing based on models also uses information about interest rates, exchange rates, options volatility, when these are relevant and available.

In the determination of fair value, when market-quoted prices are not available, we have the Management's judgment, since the models depend on our judgment concerning the weight to be attributed to different factors and the quality of information we receive. For instance, reliable market data, when estimating the impact of maintaining a high position are generally limited. Likewise, we use our judgment in the estimate of prices when there is no external parameter. Should we make incorrect assumptions or the model itself makes correlations or incorrect assumptions, the value of income or loss recorded for a specific asset or liability may be improper. The judgment shall also determine if a decline in fair value below the up-to-date cost of a security held to maturity or security available for sale is not temporary, so that to require we recognize a devaluation of up-to-date cost and we may reflect such reduction as expense. In the assessment, if devaluation is not temporary, the Management decides the historical period to be considered and the level of severity of a loss.

Such assessment methods may lead Bradesco to different results, if models used or assumptions and estimates are inaccurate.

For further information about our practices referring to the assessment of marketable securities and derivative financial instruments, see notes 3c, 3d and 8 included in the Chapter 8 of this Report.

3) Classification of Securities

The classification of securities occurs in three categories: for trading, available for sale and held to maturity. This classification is based on the Management's intent, on the date of acquisition of securities, of maintaining or trading such securities. The accounting treatment of securities held depends on our decision to classify them upon their acquisition. Circumstantial changes may modify our strategy related to a specific security, which will require a transfer among the three categories.

The classification of securities can be found in the note 8 included in the Chapter 8 of this Report.

4) Income Tax and Social Contribution

The determination of the amount of our taxes and contributions is related to the analysis of our deferred tax assets and liabilities, and income tax and social contribution payable. Generally, our assessment requires us to estimate the future values of deferred tax assets and income tax and social contribution payable. Our assessment about the possibility of a deferred tax asset to be realized is subjective and involves evaluations and assumptions originally uncertain. The realization of deferred tax assets is subject to alterations in future tax rates and the development of our tax planning strategies. The support to our assessments and assumptions may change over time, as a result of occurrences or unpredictable circumstances, influencing our determination of value of our tax liabilities.

Constantly we monitor and assess the impact of new tax laws on our liabilities, which could affect the assessments and assumptions of our analysis about the possibility of realizing deferred tax assets.

For further information about Bradesco's income tax and social contribution, see notes 3f and 34 to our financial statements included in the Chapter 8 of this Report.

5) Use of Estimates

Our Management estimates and makes assumptions, which include the amount of provisions for deferred taxes, the assumptions for the calculation of allowance for loan losses, the assumptions for calculations of technical provisions for insurance, private pension plans and savings bonds, the choice of useful lives of certain assets and the determination if an asset or group of specific assets was deteriorated. The estimates are based on the judgment and available information. Therefore, actual results may differ from such estimates.

Corporate Strategy

We understand that the expansion of the Brazilian economy will stimulate a solid growth in a portion of the population needing financial services, and accordingly, an increase of demand for such services. Under such context, our main objective is to maintain the focus on the domestic market and take advantage of our position, as the largest private bank in Brazil, to expand profitability, maximizing value to our stockholders and generating higher returns compared to other Brazilian financial institutions.

We intend to achieve such goals with a strategy not only to continuously expand our customer base, but also to consolidate our role as "the priority bank" of each of our clients, so that to be the first option of all our clients towards all their financial services needs. Our goal is to be a "Banco Completo" (all-inclusive Bank) in the Brazilian market. In this regard, we strive to maintain a remarkable presence in every line of financial services.

In the banking segment, we aim at rendering the most varied range of services as retail bank, supported by a staff with more than 75 thousand employees, a wide service network, including our branches, corporate site branches, Banco Postal and correspondent banks, besides the ATMs, always concerned with the expansion of business volume. We are also focused on expanding our businesses as a wholesale bank in all its aspects (investment bank and corporate business) and expand our private banking business.

In the insurance segment, we intend to consolidate Bradesco Seguros e Previdência leadership, and in relation to the supplementary private pension segment, we intend to take advantage of our ongoing expansion of demand for our private pension products.

In every line of our operation, we intend to stand out and be recognized by our clients as leaders in terms of performance and efficiency.

We understand that the essence of business success in the financial sector consists of the combination between winning the client and a team highly qualified and devoted to the rendering of services, permanently trained and with rigid discipline standards at work. Our growth plans are not only translated into seeking the addition of new clients but also are focused on the frequent improvement of products and distribution channels. It is also fundamental to promote the business, the treatment given to our team in terms of qualification, promotion and creation of a solidarity culture at work, with a view to fomenting an environment where our employees may develop a career enduring during their entire professional life.

Finally, the main component of our philosophy is to conduct the business according to the highest ethical standards. Therefore, our strategy is always guided by seeking the best Corporate Governance practices and by the understanding that Bradesco, besides being a source of profits to its stockholders, should also be a building element in the Company.

The key elements of our business strategy are:

- expansion by means of organic growth;
- performance based on the business model of a large banking institution, having as subsidiary an important insurance company, which we name as "Modelo Banco-Seguros" (Insurance Bank Model), with a view to maintaining our profitability and consolidate our leadership in the insurance industry;
- increase of revenues, profitability and value to stockholders, by consolidating our loan operations, our main activity, and the expansion of new products and services;
- maintenance of our commitment to the technological innovation;
- obtain profitability and return to the stockholders by means of improved efficiency ratio;
- maintain acceptable risk levels in our operations; and
- expansion by means of strategic alliances and selective acquisitions, when these are beneficial.

1) To expand main business areas by means of organic growth

The Brazilian economy has been showing solidity over the past years and has been creating strategic opportunities for financial and insurance segments growth, mainly by means of increased business volume. We intend to take advantage of such opportunities to increase our revenues, obtain profitability and maximize value to the stockholders, as outlined as follows:

benefiting from the opportunity in the Brazilian markets to obtain new clients with loan and financial needs only partially met, incrementing the competition for a small level of clients with higher income levels;

expanding our financial services distribution, by using creativity in developing new products, solidly employing non-traditional means, for instance, to expand our credit cards offer and extension of loan granting to stores, by utilizing alliances with such stores and rendering services via the Banco Postal;

using the distribution channels in benefit of the Bank, including our traditional Branch Network and technology to access the Internet in order to identify demand for new products;
offering our customer base, broadly, our products and services;
using the systems of our branches, with a view to assessing and monitoring the use of our products by clients, so that to drive them to the appropriate commercialization platforms; and
developing varied products, in compliance with the needs of our current and potential clients.

2) To operate based on the Insurance Bank Model, in order to maintain the profitability and consolidate Bradesco's leadership in the insurance industry

Our goal is to be "the priority bank" of our clients, thus increasing attendance to meet their banking, according to insurance and private pension needs. We believe to be in a privileged position to capitalize the synergy among banking, insurance, private pension services and other financial activities in order to sell our traditional banking products and insurance and private pension products, by means of our branches network, our brokers and dealerships network, distribution services via the Internet and our creativity in developing new distribution channels.

Concurrently, we aim at increasing profitability levels of insurance and supplementary private pension plans segments, by using the profitability measure rather than the volume of underwritten premium or amounts deposited, as observed as follows:

maintaining our current policy of carefully assessing the car insurance risks and rejecting them in events where risks are too high;
intensively trading our products; and
maintaining acceptable risk levels in our operations by means of a strategy of :

- setting priorities to insurance underwriting opportunities, according to the risk spread between the revenue expected pursuant to the terms of insurance agreement and the amount of projected claims (statistically) to be due under the terms of such agreement;
- carrying out hedge transactions, so that to set out the mismatch between the real inflation index and provisions for adjustments of interest rates and inflation in long-term agreements; and
- entering into reinsurance agreements with renowned reinsurance companies, executed by means of IRB-Brasil Resseguros (IRB), viewing to reducing the exposure to great risks.

3) Increased revenues from banking activities, profitability and value to stockholders, by reinforcing loan operations and expanding new products and services

We are concerned with the increase of revenues and profitability in our banking operations, with the following measures:

carry out our traditional activities of deposits and loan operations, continuously seeking to improve the quality of our loan portfolio, by means of risk mitigation plans and improvement in the assessment of loan granting ratings;
build our customer base, legal entities and individuals, by offering services meeting the needs of specific clients, including foreign exchange services and import/export financing;
intensively seek the development of paid services based on fees, such as collection and payment processing for current and potential clients;
expand our financial services and products distributed out of our conventional means of branches, such as credit card activities, taking advantage of change in the consumers' behavior concerning the financial services consumption;
increase our revenues from assets management and private pension plans; and
continuously build our high income customer base, by providing a varied range of tailor-made financial products and services, and offering maximum efficiency in the assets management.

4) To maintain Bradesco's commitment to technological innovation

The development of efficient means to reach clients and to process operations is a key element of our goal to increase our profitability and thus obtain coordinated growth opportunities. Recently, Bradesco resolved to reinforce such strategy with the challenge of changing our technological model, with a view to definitively maintaining Bradesco's market leadership in the industry in terms of technology. Thus, Bradesco set a task force devoted to the advance of our profile and public perception towards technology.

We believe that technology offers unequalled opportunities to reach our clients efficiently in terms of costs. We maintain the commitment of being ahead in the banking automation process, by creating opportunities to the Brazilians to contact us via the Internet. We expect to continue increasing the number of clients and operations carried out through the Internet, by means of techniques, such as:

- by continuously installing stations of access to the Internet (Web Points) in public sites, allowing clients to use our banking system via the Internet, whether or not they have access to a personal computer;

- by enlarging our mobile banking service (Bradesco Mobile Banking), allowing clients to carry out their banking operations via the Internet, with compatible mobile phones; and

- by providing Pocket Internet Banking for palmtops and Personal Digital Assistants (PDAs) allowing our clients to see their checking accounts and savings accounts, credit card transactions, provide for payments, transfer funds and also obtain institutional information.

5) To obtain profitability and return to stockholders by improving the efficiency ratio

We intend to improve our efficiency levels:

- by maintaining the austerity as guideline for our cost control policy;

- by consolidating the synergies enabled by our recent acquisitions;

- by still reducing our operational costs, by means of technology investments, decreasing the costs per transaction, always maintaining our automated distribution channels updated, including our distribution systems by phone, Internet and teller machines; and

- by still incorporating institutions to be acquired in our existing system, in order to remove potential overlaps, redundancies and inefficiency.

6) To maintain acceptable risk levels in our operations

Bradesco is constantly identifying and assessing the risks inherent to the activities we developed and we maintain proper controls, ensuring the conformity with processes and capital efficient allocation, with a view to maintaining levels similar to international standards, as well as to obtain competitive advantages.

7) To enter into strategic alliances and selective acquisitions

We understand that the expansion phase of Brazilian financial institutions will occur due to organic growth over the next years. In addition, we believe that acquisition opportunities will be smaller size institutions, mainly available by means of privatizations. Notwithstanding, we deem that certain institutions, susceptible to be acquired, could present niche opportunities, such as consumer financing, credit cards and investment bank. Therefore, we continuously evaluate potential strategic alliances as well as consolidation opportunities, including privatization and acquisitions proposals, and other forms, which offer potential opportunities to Bradesco increase its market share or improve its efficiency. Besides focusing on the value and the quality of assets, Bradesco takes into account potential operating synergies, crossed sales opportunities, know-how acquisitions and other advantages of potential alliance or acquisition. Our analysis of potential opportunities is guided by the impact these would have over our results.

In the half ended on June 30, 2006, Bradesco's net income reached R\$ 3,132 million, accounting for a 19.5% growth in relation to net income of the same period of the previous year. Bradesco's stockholders' equity amounted to R\$ 21,461 million as of June 30, 2006, equivalent to a 23.0% increase compared to the balance as of June 30, 2005. Consequently, the annualized return on stockholders' equity (ROE) reached 31.3%. Total consolidated assets reached R\$ 232,935 million as of June 30, 2006, a 19.7% growth in relation to the balance of same date of the previous year. The annualized return on total assets (ROA), in the 1st half of 2006, was 2.7%. Earnings per stock reached R\$ 3.20.

(1) Adjustments

The effects outlined below were annulled between items:

(i) partial income from derivatives used for hedge effects of investments abroad, which in terms of net income simply annuls the fiscal and tax effect (IR/CS and PIS/COFINS) of such hedge strategy was R\$ 418 million and R\$ 295 million in the 1st half of 2005 and 2006, respectively; and

(ii) extraordinary provision in the amount of R\$ 324 million was recorded in the Individual Health portfolio, to bring to the same level the premiums for insurance holders over 60 years of age whose health insurance plans are prior to

the Law 9,656/98 and for benefits related to fully settled plans which was offset by a positive result verified in the partial sale of our stake in Belgo-Mineira, R\$ 327 million in the 1st half of 2005.

Excluding these adjustments, the main items which influenced the net income in the 1st half of 2006 compared to the 1st half of 2005 are outlined below:

(2) Net Interest Income R\$ 2,317 million

Such growth is basically due to "interest" component, with a share of R\$ 1,709 million, mainly caused by an increment in the business volume, pointing out a 39.9% increase in the volume of loan operations for individuals in the 12-month period ended on June 30, 2006, mainly concerned with consumer sales and personal loan financing, the spread of which is higher when compared to the corporate portfolio. In the "non-interest" component, with a share of R\$ 608 million, the highlight was for the largest gains of TVM and treasury in the 1st half of 2006.

(3) Allowance for Doubtful Accounts R\$ 857 million

The variation is mostly due to a 27.0% increase in the volume of loan operations in the 12-month period ended on June 30, 2006, pointing out the individual client operations, under the type "personal loan", climbing 50.8%, which in view of its specific characteristic requires a higher volume of provision, as well as the increase of the delinquency ratio noted in all the Brazilian Financial System.

(4) Income from Insurance, Private Pension Plan and Savings Bonds Operations R\$ 144 million

The evolution is mostly due to: (i) the recovery in sales of the products "VGBL" and "PGBL"; (ii) the increase in the production of products of the corporate plan of the Health segment; (iii) the increase in the production of popular products of the Life segment; and **mitigated**: (iv) by the complementation of the provision in the "Individual Health" portfolio.

(5) Fee Income R\$ 710 million

The increase in the period is mainly due to a higher average volume of operations, combined with the improvement in the segmentation process.

(6) Personnel, Administrative and Tax Expenses R\$ 872 million

Out of such amount, R\$ 421 million of personnel expenses is basically due to: (i) the increase in salary levels resulting from the collective bargaining agreement of 2005; (ii) the higher "PLR" expenses; (iii) the higher expenses with provision for labor proceedings in the 1st half of 2006; and (iv) the acquisition of Banco BEC. The R\$ 260 million of other administrative expenses basically refer to: (i) the effects on increased volume of business; (ii) the acquisition of BEC in the 1st half of 2006; and (iii) the contractual adjustments in the period. The R\$ 191 million of tax expenses derive basically from the increase of PIS/COFINS expenses, due to the increase in taxable income in the 1st half of 2006 compared to the same period of 2005.

(7) Non-Operating Income R\$ 7 million

In the 1st half of 2006, the following extraordinary events happened: income of R\$ 99 million recorded in the operation with Fidelity; income of R\$ 84 million from the partial sale of the share held at ABN American BankNote; and expenses of R\$ 192 million of extraordinary goodwill amortization.

1st Quarter/06 x 2nd Quarter/06 R\$ million

Other Operating Income/Expenses	(700)	(708)			(700)	(708)	(8)	1.1
Operating Income	2,497	2,090	(249)	(9)	2,248	2,081	(167)	(7.4)
Non-Operating Income (7)	(32)	12			(32)	12	44	
Income Tax, Social Contribution and Minority Interest	(935)	(500)	249	9	(686)	(491)	195	(28.4)
Net Income	1,530	1,602			1,530	1,602	72	4.7

In the 2nd quarter of 2006, Bradesco's net income reached R\$ 1,602 million, which corresponds to a 4.7% increase when compared to the 1st quarter of 2006. Bradesco's stockholders' equity amounted to R\$ 21,461 million on June 30, 2006, corresponding to a 5.3% increase in relation to the balance as of March 31, 2006. Total consolidated assets reached R\$ 232,935 million at the end of the 2nd quarter of 2006, growing 7.6% in the quarter.

(1) Adjustments

The partial income from derivatives used for hedge effects of investments abroad, which in terms of net income simply annuls the fiscal and tax effect (IR/CS and PIS/COFINS) of such hedge strategy was R\$ 285 million and R\$ 10 million in the 1st quarter of 2006 and in the 2nd quarter of 2006, respectively. Excluding these adjustments, the main items which influenced the net income in the 2nd quarter of 2006 are outlined below:

(2) Net Interest Income R\$ (24) million

Such variation is basically due to "non-interest" component, with a reduction of R\$ 89 million, motivated by lower treasury and TVM gains in the quarter. The "interest" component, with a reduction of R\$ 65 million, of which R\$ 188 million resulting from a business volume expansion, pointing out a 5.2% increase in the volume of loan operations for individuals, mainly concerned with consumer financing and personal loan and the reduction of R\$ 123 million due to the decreased interest rates in the quarter.

(3) Allowance for Doubtful Accounts R\$ 178 million

The variation is mainly due to the growth of 5.0% in the volume of loan operations in the 2nd quarter of 2006, mainly

operations for individuals, in the "personal loan" category, with an increase of 8.7%, which, due to its specific characteristics, requires a higher volume of provision, as well as the increase of the delinquency ratio noted in all the Brazilian Financial System.

(4) Income from Insurance, Private Pension Plans and Savings Bonds Operations R\$ 125 million

The variation is basically due to the higher additional constitution of technical provisions, substantially the provision constituted in the "Individual Health" portfolio which took place in the 1st quarter of 2006.

(5) Fee Income R\$ 51 million

The increase is mostly due to an expansion in the average volume of operations in the period, pointing out the items "Loan Operations", "Checking Account" and "Collection".

(6) Personnel, Administrative and Tax Expenses R\$ 133 million

Such variation is mostly due to: (i) higher personnel expenses, due to the labor proceedings expenses in the 2nd quarter of 2006 and for the vacation concentration in the 1st quarter of 2006; (ii) to the higher administrative expenses due basically to the reflection of the increased business volume, as well as the expenses in the improvement and optimization of the technological platform (TI) and advertising; and (iii) to the increased tax expenses CPMF, as result of payments made in the 2nd quarter of 2006 in the acquisition of AMEX and the supplementary interest on own capital of 2005.

(7) Non-Operating Income R\$ 44 million

In the 2nd quarter of 2006, the following extraordinary events happened: income of R\$ 99 million recorded in the operation with Fidelity; income of R\$ 84 million from the partial sale of the share held at ABN American BankNote; and expenses of R\$ 192 million of extraordinary goodwill amortization.

(*) For comparison purposes, 100% stock bonus occurred in 2005, which was applied for previous years. Until 2004, the number of stocks was adjusted at 200% due to their splitting and for the years prior to 2003, they were divided by 10,000 in view of their reverse split.

On June 30, 2006, Bradesco's capital stock was R\$ 13.0 billion, composed of 979,823,142 stocks, of which 489,914,304 are common and 489,908,838 are preferred, non-par and book-entry stocks. The largest stockholder is the holding company, Cidade de Deus Participações, which directly holds 48.44% of our voting capital and 24.31% of our total capital. Cidade de Deus Participações is controlled by the Aguiar Family, Fundação Bradesco and another holding company, Nova Cidade de Deus Participações. Nova Cidade de Deus is basically owned by Fundação Bradesco and Elo Participações. Elo Participações has as stockholders the majority of members of Bradesco's Board of Directors and Statutory Executive Board (see page 120).

Quantity of Stockholders – Resident in the Country and Abroad

Total	2,351,730	2,333,782	2,339,832	1,374,718	1,364,498	1,367,364	1,374,322

Concerning Bradesco's stockholders, domiciled in the Country and Overseas, on June 30, 2006, 1,370,611 stockholders were domiciled in Brazil, accounting for 99.7% of total stockholders' base and holding 71.64% of the Bradesco's outstanding stocks. Whereas the number of stockholders living abroad was 3,711, representing 0.3% of total stockholders' base and holding 28.36% of Bradesco's outstanding stocks.

Market Value – R\$ million

N. B.: The market value disregards the treasury stocks (average quotation for the last day of the year).

Market Value/Stockholders Equity

Market Value/Stockholders Equity: indicates the number of times Bradesco's market value is higher than its book value.

Formula used: quantity of common and preferred stocks multiplied by its respective average price of the last business day of the period. The amount is divided by book value of the period.

Dividend Yield in percentage (accumulated over the past 12 months)

Dividend Yield: is the ratio of the stock price and the net dividend distributed to stockholders over the past 12 months, indicating the investors' return related to profit sharing. Formula used: amount received by stockholder as dividend and/or interest on own capital (net of withholding tax) over the past 12 months, which is divided by preferred stock closing price of the last business day of the period.

(*) If we consider the payment of supplementary interest on own capital relating to 2005 occurred on 4.28.2006.

(**) If we consider the payment of interest on own capital occurred on 7.20.2006.

Payout Index in percentage

Payout Index: indicates the percentage of net income paid as dividends/interest on own capital (net of withholding tax).

Formula used: amount received by stockholders as dividends and/or interest on own capital (net of withholding tax), which is divided by net income adjusted by legal reserve (5% of net income).

Bradesco Stock Performance

The 1st half of 2006 was highlighted by volatility with the reversal of flows to the Brazilian market. There was a period of a deep realization of income reaching mainly companies and sectors with higher accumulated gain.

This movement partially explains the performance of Bradesco's preferred stocks during the 1st half. After reaching a 34.9% appreciation, stocks closed the 1st half with a 0.7% appreciation while Ibovespa appreciated 9.5% in the same period.

Moreover, momentary concerns in relation to the fundamentals of the sector, mainly concerning delinquency and the level of competition also had their share in the performance, which was also negatively affected by a large secondary offer of stocks in the sector of banks, in a little favorable market moment, which created a sale pressure on the stocks of the sector on the account of investors who decided to hold a position in the securities offered.

Analysis of the Statement of Income R\$ million

Income from Loan Operations and Leasing Result

1st Half/2005	1st Half./2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
7,364	9,966	35.3	4,649	5,317	14.4

Income was up basically as a result of: (i) the increase in the volume of the loan portfolio, which totaled R\$ 88,643 in June/06 against R\$ 69,787 in June/05, i.e., a 27.0% increase, particularly in the individual client portfolio, up by 39.9%, which shows higher profitability than corporate portfolio, pointing out Auto and Personal Loan products, while the corporate portfolio climbed 19.0%, pointing out BNDES Onlending and Export Financing; (ii) lower exchange loss variation of 7.5% in 1H06, against an exchange loss variation of 11.5% in 1H05, affecting foreign currency indexed and/or denominated operations, which comprise 8.1% of total Loan and Leasing Operations, basically derived from corporate portfolio (excluding Advances on Foreign Exchange Contracts); which was partially **offset**: (iii) by the decrease in average interest rates, observing the 7.8% CDI variation in 1H06, against 8.9% in 1H05 ..

The variation in income in the quarter was mainly due to: (i) an increase of 5.0% in the loan portfolio volume, which reached the amount of R\$ 88,643 in June/06, against R\$ 84,426 in March/06, pointing out the individual client portfolio, with a growth of 5.2%, which shows higher profitability than the corporate portfolio, pointing out Auto and Personal Loan products, while in the corporate portfolio, there was an increase of 4.9%, pointing out Export Financing and BNDES Onlending products and (ii) lower exchange loss variation of 0.4% in 2Q06, against exchange loss variation of 7.2% in 1Q06, affecting our foreign currency indexed and/or denominated operations, comprising 8.1% of total Loan and Leasing Operations, basically derived from corporate portfolio (excluding Advances on Foreign Exchange Contracts); which was partially **mitigated**: (iii) by a drop in the average interest rates, observing the 3.6% CDI variation in 2Q06, against 4.0% in 1Q06.

Income from Operations with Marketable Securities (TVM) and Derivative Financial Instruments

1st Half/2005	1st Half./2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
3,654	4,204	15.1	2,133	2,071	(2.9)

The increase in income is basically due to: (i) higher non-interest income gains of R\$ 395 which includes a R\$ 123 reduction represented by a portion of income from derivatives used for hedge effects of investments abroad, which in terms of net income simply annuls the tax effect of such hedge strategy in the period; (ii) lower exchange loss variation of 7.5% in 1H06, against an exchange loss variation of 11.5% in 1H05, impacting on the foreign currency indexed and/or denominated operations, comprising 10.7% of the portfolio; which was **offset**: (iii) by the reduction in the average interest rates, observing the 7.8% CDI variation in 1H06, against 8.9% in 1H05.

The variation in income is mainly due to: (i) a reduction in the average interest rates, observing the 3.6% CDI variation in 2Q06, against 4.0% in 1Q06; (ii) lower non-interest income gains of R\$ 392, which includes R\$ 275, represented by a portion of income from derivatives used for hedge effects of investments abroad, which in terms of net income simply annuls the tax effect of such hedge strategy in the period; **offset**: (iii) by the lower exchange loss variation of 0.4% in 2Q06, against exchange loss variation of 7.2% in 1Q06, impacting on the foreign currency indexed and/or denominated operations, comprising 10.7% of the portfolio.

Financial Income on Insurance, Private Pension Plans and Savings Bonds

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
3,234	3,456	6.9	1,833	1,623	(11.5)

The growth in the period was basically due to: (i) an increase in the volume of the marketable securities portfolio, mainly comprising federal government bonds, which are linked to technical provisions, especially PGBL and VGBL products; and partially **mitigated**: (ii) by the reduction in the average interest rates, observing the 7.8% CDI variation in 1H06, against 8.9% in 1H05; (ii.) lower non-interest income of R\$ 287 in 1H06, against R\$ 475 in 1H05, arising from lower gains of marketable securities, pointing out the positive result reached in the disposal of part of our interest in Belgo-Mineira of R\$ 327 in 1H05; and (iv) the lower variation in the IGP-M index.1.4% in 1H06, against 1.8% in 1H05.

The decrease in the quarter was substantially due to: (i) a decrease in the average interest rates, observing the 3.6% CDI variation in 2Q06, against 4.0% in 1Q06; partially **mitigated**: (ii) by the increase in the volume of marketable securities portfolio, mainly comprising federal government bonds, which are linked to technical provisions, especially PGBL and VGBL products; and (iii) non-interest income R\$ 15, resulting from higher gains with marketable securities.

Foreign Exchange Transactions

1st Half/2005	1st Half./2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
231	464	100.9	114	350	207.0

This item should be analyzed deducted from expenses with foreign funding, used for import/export operations financing, in accordance with Note 11a. After the deductions, the result would be R\$ 111 in 1H05 and R\$ 159 in the 1H06, mostly influenced by an increase in the average volume of foreign exchange portfolio in the period.

This item should be analyzed deducted from expenses with foreign funding, used for import/export operations financing, in accordance with Note 11a. After such deductions, the result would be R\$ 73 in 1Q06 and R\$ 86 in 2Q06, mostly influenced by an increase in the average volume of foreign exchange portfolio in the quarter.

Compulsory Deposits

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
739	677	(8.4)	350	327	(6.6)

The variation is basically due to: (i) a reduction in the SELIC rate of 7.8% in 1H06, against 8.9% in 1H05, used to remunerate the additional compulsory deposit; (ii) a reduction in Reference Rate TR from 1.3% in 1H05 to 1.0% in 1H06, which composes the remuneration of compulsory deposit over savings deposits; which was **offset**: (iii) by the increase in the average volume of deposits in the period.

The variation is basically due to: (i) a reduction in SELIC rate from 4.0% in 1Q06 to 3.6% in 2Q06, used to remunerate the additional compulsory deposit; and (ii) a reduction in the average volume of savings deposits in the quarter.

Funds Obtained in the Open Market

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
4,674	5,553	18.8	2,536	3,017	19.0

The variation is mostly due to: (i) the increase in the average funding balance in the period; (ii) lower exchange loss variation of 7.5% in 1H06, against exchange loss variation of 11.5% in 1H05, impacting the foreign currency indexed and/or denominated funding; which was **offset** by: (iii) reduction in the average interest rates, observing the 7.8% CDI variation in the 1H06, against 8.9% in 1H05, mainly affecting the time deposits expenses and purchase and sale commitments; and (iv) a reduction in Reference Rate TR from 1.3% in 1H05 to 1.0% in 1H06, impacting on the remuneration of savings deposits.

The growth in expenses mainly derives from: (i) the increase in the average funding balance in the quarter; (ii) lower exchange loss variation of 0.4% in 2Q06, against exchange loss variation of 7.2% in 1Q06, impacting on the foreign currency indexed and/or denominated funding; which was **offset** by: (iii) reduction in the average interest rates, observing the 3.6% CDI variation in the 2Q06, against 4.0% in 1Q06, mainly affecting the time deposits expenses and purchase and sale commitments.

Price-level Restatement and Interest on Technical Provisions for Insurance, Private Pension Plans and Savings Bonds

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
1,841	1,958	6.4	1,043	915	(12.3)

The increase is basically due to: (i) higher average balance of technical provisions, especially PGBL and VGBL products; and partially **mitigated** by: (ii) the reduction in the average interest rates, observing the 7.8% CDI variation in 1H06, against 8.9% in 1H05; (iii) lower IGP-M variation of 1.4% in 1H06, against 1.8% in 1H05, one of the indexes which also remunerates the technical provisions.

The decrease is basically due to: (i) the drop in the average interest rates, observing the 3.6% CDI variation in 2Q06, against 4.0% in 1Q06; and partially **mitigated** by: (ii) higher average balance of technical provisions, especially PGBL and VGBL products.

Borrowings and Onlendings Expenses

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
353	1,035	193.2	240	795	231.3

The variation in expense is mainly due to the lower exchange loss variation of 7.5% in 1H06, against exchange loss variation of 11.5% in 1H05, impacting on foreign currency indexed and/or denominated borrowings and onlendings, which represent 37.5% of the Borrowings and Onlendings portfolio.

The increase in expense is basically due to the lower exchange loss variation of 0.4% in 2Q06, against exchange loss variation of 7.2% in 1Q06, impacting on foreign currency indexed and/or denominated borrowings and onlendings, which represent 37.5% of the Borrowings and Onlendings portfolio.

Net Interest Income

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
8,354	10,221	22.3	5,260	4,961	(5.7)

The variation in the period includes the income earned in the sale of our stake in Belgo-Mineira's capital stock in 1H05 of R\$ 327, as well as a portion of income from derivatives used for hedge effects of investments abroad, which in terms of net income simply annuls the tax effect of such hedge strategy of R\$ 418 in 1H05 and R\$ 295 in 1H06. Excluding these amounts, the adjusted net interest income would be R\$ 7,609 in 1H05 and R\$ 9,926 in 1H06, i.e., variation of R\$ 2,317 composed of: (i) increase in interest income operations of R\$ 1,709, mainly due to a growth in the business volume; and (ii) higher non-interest income of R\$ 608, basically due to higher marketable securities and treasury gains.

The net interest income includes R\$ 285 and R\$ 10 in 1Q06 and 2Q06, respectively, referring to a portion of income from derivatives used for hedge effects of investments abroad, which in terms of net income simply annuls the tax effect of such hedge strategy. Excluding these amounts, the adjusted net interest income would be of R\$ 4,975 in 1Q06 and R\$ 4,951 in 2Q06, i.e., a R\$ (24) variation composed of: (i) increase in interest income operations of R\$ 65, mainly due to the growth in business volume, **offset** by the reduction in non-interest income of R\$ 89, mostly due to lower treasury gains in the quarter.

Allowance for Doubtful Accounts Expenses

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
1,197	2,054	71.6	938	1,116	19.0

The increased expense of R\$ 857 is compatible with the performance of our loan portfolio, which evolved 27.0%, that is, R\$ 18,856, over the past 12 months, pointing out to the strong growth of the individual client portfolio with 39.9% or R\$ 10,718 in the period, jointly with the slight deterioration of the payment capacity of our clients-individuals, noticed in the entire Brazilian Financial System.

We recorded surplus provision of R\$ 18 in 1Q06 and R\$ 27 in 2Q06. Excluding such effects, the expense would be R\$ 920 in 1Q06 and R\$ 1,089 in 2Q06, a R\$ 169 growth or 18.4%, mainly due to the increase of the overall delinquency ratio, both as a result of the change in the portfolio profile, with higher participation in individual clients operation and as a result of the slight deterioration of the payment capacity of our clients-individuals, noticed in the entire Brazilian Financial System.

Fee Income

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
3,421	4,131	20.8	2,040	2,091	2,5

The increase in the period is mainly due to a hike in the average volume of operations, combined with a growth in the client base and improvement in the segmentation process, pointing out: (i) checking account R\$ 191; (ii) loan operations R\$ 132; (iii) assets under management R\$ 111; (iv) income on cards R\$ 109; (v) collection R\$ 34; and (vi) consortium management R\$ 29.

The variation in the quarter is mostly due to expansion of businesses, substantially reflecting on: (i) loan operations R\$ 19; (ii) checking account R\$ 15; (iii) collection R\$ 8; and (iv) income on cards R\$ 5.

Retained Premiums from Insurance, Private Pension Plans and Savings Bonds

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
5,797	6,746	16.4	3,458	3,288	(4.9)

The growth is detailed in the charts below:

The variation is detailed in the charts below:

a) Retained Premiums from Insurance

1 st Half/2005	1 st Half/2006	Variation %	1 st Qtr./2006	2 nd Qtr./2006	Variation %
3,610	3,899	8.0	1,996	1,903	(4.7)

The growth in the period basically resulted from: (i) the increase in Health insurance production, substantially due to the corporate plan R\$ 177; (ii) the increase in Life insurance production, due to the launching of products for the lower income classes R\$ 83; (iii) the increase in DPVAT business volume R\$ 51; (iv) the recording, in 1H06 of premiums of Effective and non-Issued Risks, which was changed by means of the Circular SUSEP 314 in the Auto segment R\$ 52 and in the basic lines R\$ 31; and partially **mitigated**: (v) by the reduction of Auto insurance production, due to the fee adjustment in search for a better profile and profitability of the portfolio as well as due to the difficulty faced by the agribusiness, in view of the considerable share of the cargo category in our portfolio R\$ 89.

The variation in the quarter is mainly due to: (i) the recording, in 1Q06, of premiums of Effective and non-Issued premiums, which was changed by means of the Circular SUSEP 314 in the Auto segment R\$ 104; (ii) the reduction of basic lines sales R\$ 22; and partially **offset** by: (iii) the increase in Health insurance sales R\$ 16, Life insurance sales R\$ 10 and Auto insurance sales R\$ 6.

b) Private Pension Plans Contributions

1 st Half/2005	1 st Half/2006	Variation %	1 st Qtr./2006	2 nd Qtr./2006	Variation %
1,546	2,181	41.1	1,137	1,044	(8.2)

The increase in the period is due to: (i) the recovery in the sales of VGBL and PGBL products, R\$ 870 and R\$ 308, respectively; partially **mitigated** by: (ii) the reduction in the sale of traditional plans R\$ 273; and (iii) the increase in the volume of redemption of VGBL R\$ 270. 1H05 was influenced by uncertainties generated by changes in the tax legislation, temporarily affecting business in that period.

N.B.: according to SUSEP, the recording of VGBL redemptions reduces the retained contributions.

The reduction in the quarter is mainly due to: (i) the higher volume of VGBL redemptions R\$ 49; (ii) the lower commercialization of the VGBL product R\$ 10; and (iii) the increase in traditional plans sales of R\$ 54; partially **offset**: (iv) by the growth in sales of PGBL products R\$ 20.

N.B.: according to SUSEP, the recording of VGBL redemptions reduces the retained contributions.

c) Income on Savings Bonds

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
641	666	3.9	325	341	4.9

The growth in the period is mainly due to the larger volume of sale of Pé Quente GP Ayrton Senna products (in partnership with Instituto Ayrton Senna), Pé Quente Bradesco SOS Mata Atlântica (in partnership with Fundação SOS Mata Atlântica) and Pé Quente Bradesco 1000 . The growth in 2Q06 is mainly due to the larger volume of sale of Pé Quente GP Ayrton Senna products (in partnership with Instituto Ayrton Senna), Pé Quente Bradesco SOS Mata Atlântica (in partnership with Fundação SOS Mata Atlântica) and Pé Quente Bradesco 1000 .

Variation in Technical Provisions for Insurance, Private Pension Plans and Savings Bonds

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
(698)	(1,045)	49.7	(579)	(466)	(19.5)

The variation is detailed in the charts below:

The variation is detailed in the charts below:

a) Variation in Technical Provisions for Insurance

1 st Half/2005 (516)	1 st Half/2006 (386)	Variation % (25.2)	1 st Qtr./2006 (244)	2 nd Qtr./2006 (142)	Variation % (41.8)
------------------------------------	------------------------------------	-----------------------	------------------------------------	------------------------------------	-----------------------

The variation in technical provisions is directly related to the sale of insurance in their respective effectiveness periods. In 1H05 we made an additional provision in the Individual Health portfolio, at the amount of R\$ 324, to set out the leveling of premiums for insured above 60 years of age of plans prior to the Law 9,656/98 and benefits related to fully settled plans. The variations occurred Health 1H06 were: (i) higher constitution of technical provision in the portfolio R\$ 290 (R\$ 244 of additional provision in the portfolio of Individual Health Life R\$ 84 and basic lines R\$ 17; (ii) constitution of provision of effective and non- issued risks (PPNG), previously recorded in memorandum accounts in compliance with the Circular SUSEP 314 in the Auto segment R\$ 50 and basic lines R\$ 29; and **mitigated**: (iii) by the reversal of provision of the Auto segment R\$ 84.

The variation in technical provisions is directly related to the sale of insurance in their respective effectiveness periods. In 1Q06 there was constitution of additional provision in the Individual Health portfolio, in the amount of R\$ 149. In 2Q06 the largest variations occurred in the Health portfolio R\$ 124 (R\$ 95 of additional provision in the portfolio of Individual Health), and Life R\$ 70; and **offset**: by the reversal of provision in the Auto segment R\$ 57. Out of this amount, R\$ 23 refers to the reversal of provision of effective and non-issued risks (PPNG), previously recorded in memorandum accounts in compliance with the Circular SUSEP 314.

b) Variation in Technical Provisions for Private Pension Plans

1 st Half/2005 (189)	1 st Half/2006 (653)	Variation % 245.5	1 st Qtr./2006 (333)	2 nd Qtr./2006 (320)	Variation % (3.9)
------------------------------------	------------------------------------	----------------------	------------------------------------	------------------------------------	----------------------

Variations in technical provisions are directly related to sales, combined with benefits and redemptions. The variations in the period are due to: (i) the increase in sales of VGBL R\$ 597 and PGBL R\$ 421, and **mitigated**: (ii) by the reduction of traditional products production R\$ 554.

Variations in technical provisions are directly related to sales, combined with benefits and redemptions. The variations in the quarter are mainly due to: (i) the decrease in sales of traditional products R\$ 156; (ii) the increase in redemption of VGBL products R\$ 33; and **mitigated** by: (iii) the increase in sales of PGBL products R\$ 176.

c) Variation in Technical Provisions for Savings Bonds

1 st Half/2005	1 st Half/2006	Variation %	1 st Qtr./2006	2 nd Qtr./2006	Variation %
7	(6)		(2)	(4)	100.0

In this period, constitution of provision is mainly due to the constitution of technical provision of draws to carry out R\$ 3 and for contingency R\$ 3. In 1H05, there was reversal of constitution of technical provision for contingency.

The variation between the quarters is mainly due to the constitution of technical provision for contingency R\$ 2.

Retained Claims

1 st Half/2005	1 st Half/2006	Variation %	Qtr./2006	2 nd Qtr./2006	Variation %
(2,829)	(2,985)	5.5	(1,509)	(1,476)	(2.2)

The growth in the period is mainly due to: (i) an increase in reported claims in the Auto R\$ 63, Life R\$ 54 and DPVAT R\$ 75 segments, this last one influenced by the IBNR provision complement, to comply with the CNSP Resolution 138, which mentions that the difference between the amount accumulated by the assets ensuring the IBNR provision and the balance of this provision must be fully recorded in IBNR expenses; and **mitigated**: (ii) by the reduction of reported claims of basic lines R\$ 27 and Health R\$ 9 segments. Despite the nominal increase, the loss ratio decreased from 82.2% to 78.5%.

The variation in the quarter is mainly due to: (i) the drop in Life R\$ 10, basic lines R\$ 17 and DPVAT R\$ 30, this last one influenced by the IBNR provision complement in the 1st quarter of 2006, to comply with the CNSP Resolution 138, which mentions that the difference between the amount accumulated by the assets ensuring the IBNR provision and the balance of this provision must be fully recorded in IBNR expenses; and **mitigated**: (ii) by the increase in reported claims of the Health R\$ 12 and Auto R\$ 12 segments. Between the quarters, the loss ratio increased from 78.7% to 79.9%.

Savings Bonds Draws and Redemptions

1st Half/2005 (560)	1st Half/2006 (573)	Variation % 2.3	1st Qtr./2006 (285)	2nd Qtr./2006 (288)	Variation % 1.1
--------------------------------------	--------------------------------------	----------------------------------	--------------------------------------	--------------------------------------	----------------------------------

The redemptions are directly related to revenue. The variation is due to the increase in revenues from savings bonds in the period.

The redemptions are directly related to revenue. The variation is due to increase in revenues from savings bonds.

Insurance, Private Pension Plans and Savings Bonds Selling Expenses

1st Half/2005 (453)	1st Half/2006 (494)	Variation % 9.1	1st Qtr./2006 (243)	2nd Qtr./2006 (251)	Variation % 3.3
--------------------------------------	--------------------------------------	----------------------------------	--------------------------------------	--------------------------------------	----------------------------------

The variation is detailed in the charts below:

The variation is detailed in the charts below:

a) Insurance Products Selling Expenses

1st Half/2005 (370)	1st Half/2006 (401)	Variation % 8.4	1st Qtr./2006 (200)	2nd Qtr./2006 (201)	Variation % 0.5
--------------------------------------	--------------------------------------	----------------------------------	--------------------------------------	--------------------------------------	----------------------------------

The increase basically results from the growth in insurance sales specially in the Auto R\$ 18 and Life R\$ 14 segments. In the sale/received premium ratio, there was a drop in the indexes (11.4% in 1H05 and 11.2% in 1Q06).

In nominal terms, selling expenses remained practically steady in 2Q06 when compared to 1Q06, however in the sale/received premiums ratio, there was a marginal growth in the indexes (11.0% in 1Q06 and 11.4% in 2Q06).

b) Private Pension Plans Selling Expenses

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
(76)	(86)	13.2	(40)	(46)	15.0

The variation is mainly a result of the increase in expenses of the traditional plans R\$ 11.

The variation is mainly a result of the increase in expenses of the traditional plans R\$ 5.

c) Savings Bonds Selling Expenses

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
(7)	(7)		(3)	(4)	33.3

Selling expenses remained steady in 1H06 in relation to 1H05.

The variation in the period derives from higher expenses due to the use of Fundação SOS Mata Atlântica brand R\$ 1.

Private Pension Plans Benefits and Redemptions Expenses

1 st Half/2005	1 st Half/2006	Variation %	1 st Qtr./2006	2 nd Qtr./2006	Variation %
(1,373)	(1,294)	(5.8)	(727)	(567)	(22.0)

The variation in the period was derived from: (i) lower volume of redemptions in PGBL R\$ 62 and in traditional plans R\$ 35; and **mitigated**: (ii) by the higher volume of benefits granted R\$ 18.

The variation in the half is mainly due to the lower volume of redemptions in PGBL R\$ 156.

Personnel Expenses

1 st Half/2005	1 st Half/2006	Variation %	1 st Qtr./2006	2 nd Qtr./2006	Variation %
(2,467)	(2,888)	17.1	(1,419)	(1,469)	3.5

The growth in the period is due to: (i) the higher PLR expenses R\$ 47; (ii) the higher expenses with provisions for labor proceedings R\$ 144; (iii) the acquisition of Banco BEC R\$ 30; and (iv) the increase in salary levels, resulting from the 2005 collective bargaining agreement (6%), benefits and other of R\$ 200.

The variation in the quarter is basically due to: (i) the lower expense in 1Q06, due to the vacation concentration R\$ 41; (ii) the higher expenses with training R\$ 7; (iii) the higher expenses with provisions for labor proceedings R\$ 7; **mitigated**: (iv) by lower PLR expenses R\$ 10.

Other Administrative Expenses

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
(2,432)	(2,692)	10.7	(1,317)	(1,375)	4.4

The increase in the period is basically due to: (i) the increase in the client base and in businesses; (ii) the acquisition of BEC in 1H06 R\$ 30; (iii) the contractual adjustments; and (iv) the investments in the improvement an optimization of the technological platform (IT).

The variation in the quarter basically derives from: higher expenses with: (i) third-party services R\$ 15; (ii) advertising R\$ 14; (iii) data processing R\$ 8; and (iv) transportation R\$ 6.

Tax Expenses

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
(902)	(1,078)	19.5	(544)	(534)	(1.8)

This variation basically derives from: (i) PIS/COFINS increased expenses by R\$ 151 in view of the increase of taxable income; and (ii) ISS increased expenses R\$ 25.

The decrease in the quarter mainly results from: (i) PIS/COFINS decreased expenses by R\$ 34 on the income from derivatives used for hedge effect of investment abroad; and **mitigated**: (ii) by CPMF increased expenses R\$ 20, basically resulting from payments in 2Q06 of the acquisition of AMEX and from supplementary Interest on Own Capital of 2005; and (iii) by the increase in IPTU expenses R\$ 7.

Equity in the Earnings of Affiliated Companies

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
5	35	600.0	5	30	500.0

The variation is substantially due to better results obtained in the affiliated companies in 1H06, when compared to 1H05, pointing out the following investments: Bradesco Templeton R\$ 24; American BankNote R\$ 3; Marlim Participações R\$ 4; and NovaMarlim Participações R\$ 3.

The growth substantially derives from higher results obtained in the affiliated companies in 2Q06, when compared to 1Q06, basically at Bradesco Templeton R\$ 24.

Other Operating Income

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
559	571	2.1	255	316	23.9

The increase is basically due to: (i) higher financial income R\$ 85; (ii) higher recovery of charges and expenses R\$ 38; (iii) higher income on sale of goods R\$ 14; and partially **offset** by: (iv) the lower reversal of operating provisions R\$ 171.

The variation mainly derives from: (i) higher financial income R\$ 54; and (ii) higher recovery of charges and expenses R\$ 5.

Other Operating Expenses

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
(1,495)	(2,014)	34.7	(960)	(1,054)	9.8

The increase is mostly due to: (i) higher expenses with operating provisions R\$ 125; (ii) higher financial expenses R\$ 178; (iii) goodwill amortization R\$ 58; (iv) increase in sundry losses (basically discounts granted in loan operations) R\$ 38; and (v) increase in the cost of services rendered R\$ 27.

The variation in the quarter basically derives from: (i) higher financial expenses R\$ 30; (ii) increase in sundry losses (basically discounts granted in loan operations) R\$ 15; and (iii) higher expenses with operating provisions R\$ 30.

Operating Income

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
3,730	4,587	23.0	2,497	2,090	(16.3)

The increase derives from: (i) higher net interest income R\$ 1,867; (ii) increased fee income R\$ 710; (iii) increase in contribution of insurance, private pension plan and savings bonds operations R\$ 471; (iv) increased in the equity in the earnings of affiliated companies R\$ 30; partially **offset by**: (v) higher allowance for doubtful accounts expenses R\$ 857; (vi) higher tax expenses R\$ 176; (vii) increased personnel and administrative expenses R\$ 681; and (viii) increased operating expenses (net of income) R\$ 507. For a more detailed analysis of the variation of each item, we recommend the reading of each specific item.

The reduction derives from: (i) lower net interest income R\$ 299; (ii) higher allowance for doubtful accounts expenses R\$ 178; (iii) increased personnel and administrative expenses R\$ 108; (iv) increased operating expenses (net of income) R\$ 33; partially **offset by**: (v) increased fee income R\$ 51; (vi) increase in contribution of insurance, private pension plan and savings bonds operations R\$ 125; (vii) lower tax expenses R\$ 10; and (viii) increased in the equity in the earnings of affiliated companies R\$ 25. For a more detailed analysis of the variation of each item, we recommend the reading of each specific item.

Non-Operating Income

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
(27)	(20)	(25.9)	(32)	12	

The variation in the period is mainly due to: (i) the profits in the disposal of assets and investments R\$ 65, which includes R\$ 84 of gain in the disposal of the investment in American BankNote; (ii) the gains in the association operation with the company Fidelity R\$ 99; (iii) the higher reversals of non-operating provisions R\$ 5; partially **offset**: (iv) by the extraordinary goodwill amortization R\$ 192.

The variation in the quarter is substantially due to: (i) the profits in the disposal of assets and investments R\$ 77, which includes R\$ 84 of gain in the disposal of the investment in American BankNote; (ii) the gains in the association operation with the company Fidelity R\$ 99; (iii) the higher reversals of non-operating provisions R\$ 30; partially **offset**: (iv) by the extraordinary goodwill amortization R\$ 192.

Income Tax and Social Contribution

1st Half/2005	1st Half/2006	Variation %	1st Qtr./2006	2nd Qtr./2006	Variation %
(1,081)	(1,430)	32.3	(930)	(500)	(46.2)

The income tax and social contribution expenses include expenses of R\$ 366 and R\$ 258 in 1H05 and 1H06, respectively, referring to the partial income from derivatives used for hedge effects of investments abroad, as well as tax charge over earnings before taxes, adjusted by additions and exclusions, as per Note 34.

The income tax and social contribution expenses include expenses of R\$ 249 and R\$ 9 in 1Q06 and 2Q06, respectively, referring to the partial income on derivatives used for hedge effect on investments abroad, as well as tax charge over earnings before taxes, adjusted by additions and exclusions, as per Note 34.

Equity Analysis R\$ million

Available Funds

June			2006		
2005	2006	Variation %	March	June	Variation %
3,082	3,161	2.6	3,013	3,161	4.9

The variation in the period derived from: (i) growth in the volume of available funds in domestic currency R\$ 85; and **offset** by (ii) reduced volume in foreign currency R\$ 6.

The variation in the quarter is due to: (i) the increased volume in foreign currency R\$ 257; and **offset**: (ii) by the reduction in the volume of available funds in domestic currency R\$ 109.

Interbank Investments

June			2006		
2005	2006	Variation %	March	June	Variation %
23,374	27,569	17.9	23,759	27,569	16.0

The growth in the period derives from: (i) an increase in open market investments, own portfolio position in the amount of R\$ 3,029; (ii) increase in third-party portfolio position R\$ 798; and (iii) increase in interbank deposits of R\$ 368.

The increase in the quarter is due to: (i) the growth in third-party portfolio position R\$ 4,092; (ii) increased investments in the open market, own portfolio position in the amount of R\$ 2,558; and partially **offset**: (iii) by the reduction in interbank deposits of R\$ 2,840.

Marketable Securities (TVM) and Derivative Financial Instruments

June			2006		
2005	2006	Variation %	March	June	Variation %
64,441	70,382	9.2	68,669	70,382	2.5

The increase in the period is mainly due to: (i) additional funds derived from the increase in funding, particularly technical provisions for insurance, private pension plans and savings bonds, as well as the issuance of subordinated debt of R\$ 3,981; (ii) variation in average interest rates, observing the 17.7% CDI variation in the period, partially **mitigated** by: (iii) exchange loss variation of 7.9% in the period, impacting on foreign currency indexed and/or denominated securities, which comprise 10.7% of the portfolio; and (iv) the redemption/maturity of securities. The portfolio profile (excluded from purchase and sale commitments) based on Management's intent, is distributed as follows: "Trading Securities" 57.5%; "Securities Available for Sale" 35.9%; and "Securities Held to Maturity" 6.6%. In June/06, 47.1% of the total portfolio (excluded from purchase and sale commitments) was represented by Government Bonds, 20.3% by Private Securities and 32.6% by "PGBL" and "VGBL" fund quotas.

The variation in the quarter partially reflects: (i) additional funds arising from increased funding, especially, the technical provisions for insurance, private pension plans and savings bonds, as well as the issuance of subordinated debt of R\$ 1,100; (ii) variation in average interest rates, observing the 3.6% CDI variation in the quarter, partially **mitigated** by: (iii) exchange loss variation of 0.4% in 2Q06, impacting on foreign currency indexed and/or denominated securities, which comprise 10.7% of the portfolio; and (iv) redemptions/maturities of securities.

Interbank and Interdepartmental Accounts

June			2006		
2005	2006	Variation %	March	June	Variation %
16,259	18,212	12.0	17,261	18,212	5.5

The variation for the period basically reflects: (i) the increase in volume of compulsory demand deposits of R\$ 949, due to an expansion in average balance of these deposits, basis for payment in respective periods, from R\$ 14,749 in June/2005 to R\$ 16,836 in June/2006; (ii) the increase in the volume of the compulsory of savings accounts deposits of R\$ 109 referring to the increase in the balance of these deposits by 1.3% in the period; and (iii) the increase in the additional compulsory on total deposits of R\$ 592.

The growth in the quarter basically results from: (i) increase in the item "Checks and other instruments clearing services" R\$ 324, in view of accounts balance, represented by checks and other documents, at the end of the quarter; (ii) increase in the volume of compulsory demand deposits R\$ 356, in view of higher average balance of these deposits, basis for payment in respective periods, from R\$ 16,053 in March/06 to R\$ 16,836 in June/06; (iii) the increase in the additional compulsory on total deposits of R\$ 583; which was **mitigated** by: (iv) the reduction in the volume of savings accounts deposits

of R\$ 164 referring to the decrease in the balance of these deposits by 2.8% in the period.

Loan and Leasing Operations

June			2006		
2005	2006	Variation %	March	June	Variation %
69,787	88,643	27.0	84,426	88,643	5.0

Growth for the period was mainly due to: (i) the individual client portfolio, a 39.9% growth, in particular in the "Auto" products, up by 33.6% and "Personal Loan", up by 50.8%, reflecting the operating agreements recently executed with retailers, reflected by a stable economic scenario. In the corporate portfolio, the growth rate was of 19.0%, as a result of the 29.0% increase in the small and medium-sized companies (SME) portfolio, coupled with a 10.1% increase in the portfolio of large companies (Corporate). In the corporate portfolio we point out the products "BNDES Onlending" up by 16.6% and "Financing to Exports" with an increase of 19.0%, as a result of the maintenance of the economic activity level; and partially **offset** by: (ii) exchange loss variation of 7.9% in the period, impacting on foreign currency indexed and/or denominated contracts, comprising 8.1% of the total portfolio. In June/06, the portfolio was distributed at 57.6% for corporate (of which 25.0% was directed to industry, public and private sectors, 14.5% to commercial, 16.4% to services, 1.3% to agribusiness and 0.4% to the financial intermediation) and 42.4% for individuals. In terms of concentration, the 100 largest borrowers accounted for 24.3% of the portfolio in June/05 and for 22.7% in June/06. Out of the Total Loan Portfolio under Normal Course in June/06, in the amount of R\$ 80,955, out of this total 35.5% is falling due within up to 90 days.

N.B.: this item includes advances on foreign exchange contracts and other receivables and does not include the allowance for doubtful accounts, as described in Note 10.

The growth of the quarter is mainly due to: (i) individual client portfolio, with a 5.2% growth, especially in the "Auto" products, with a 4.3% increase, and "Personal Loan", with an 8.7% increase, reflected by a stable economic scenario. The 4.9% growth recorded in the corporate portfolio results from the 10.9% increase in the portfolio of small and medium-sized companies (SME) reduced by the drop of 0.7% in the portfolio of large companies (Corporate). In the corporate portfolio, we point out the 6.7% increase in "Financing to Exports" and 7.4% in "BNDES Onlending", as a result of the maintenance of the economic activity level; and partially **offset** by: (ii) exchange loss variation of 0.4% in 2Q06, impacting foreign currency indexed and/or denominated contracts, which account for 8.1% of total portfolio. In terms of concentration, the 100 largest borrowers accounted for 22.6% of the portfolio in March/06 and 22.7% in June/06.

N.B.: this item includes advances on exchange contracts and other receivables and does not take into account the allowance for doubtful accounts, as described in Note 10.

Allowance for Doubtful Accounts (PDD)

June			2006		
2005	2006	Variation %	March	June	Variation %
(4,450)	(5,833)	31.1	(5,315)	(5,833)	9.7

The variation in the PDD balance for the period was mostly due to: (i) a 27.0% increase in the volume of loan operations, pointing out individual clients operations, with a 39.9% increase, which due to its specific feature, requires a higher volume of provisioning. PDD ratio in relation to the loan portfolio increased from 6.4% in June/05 to 6.6% in June/06, and provision coverage ratio in relation to the loan operation under abnormal course, respectively, rated between E and H, decreased from 197.2% in June/05 to 157.3% in June/06, and between D and H, reduced from 158.1% in June/05 to 129.1% in June/06. However, the preventive maintenance of high provision levels made all performance indicators remain in adequate levels. In the period, PDD in the amount of R\$ 3,365 was recorded, was incorporated R\$ 101 arising from acquired institutions and R\$ 2,083 was written off. The exceeding PDD volume in relation to the minimum required increased from R\$ 946 in June/05 to R\$ 1,080 in June/06.

The increase in the PDD balance in the quarter basically reflects a 5.0% growth of the loan portfolio in the quarter, particularly, the individual client portfolio with an 5.2% growth, which due to its specific features, demands a higher provisioning volume. Comparatively, the PDD ratio in relation to the loan portfolio increased from 6.3% in March/06 to 6.6% in June/06, and the provision coverage ratios in relation to the loan portfolio under abnormal course, respectively, rated from E to H, decreased from 164.3% in March/06 to 157.3% in June/06, and those rated from D to H decreased from 132.7% in March/06 to 129.1% in June/06. However, the preventive maintenance of high provision levels made all performance indicators remain in adequate levels. In the quarter, PDD in the amount of R\$ 1,116 was recorded, was incorporated R\$ 90 arising from acquired institutions and R\$ 688 was written off. The exceeding PDD volume in reinforcement to the minimum required increased from R\$ 1,032 in March/06 to R\$ 1,080 in June/06.

Other Receivables and Assets

June			2006		
2005	2006	Variation %	March	June	Variation %
22,578	30,789	36.4	25,213	30,789	22.1

The variation in the period is basically due to: (i) a R\$ 2,622 increase in credit cards operations, not included in loan operations, basically for the consolidation of AMEX R\$ 1,277 acquired in 1H06; (ii) the increase in the foreign exchange operations R\$ 2,451; (iii) the increase in the operations of negotiation and intermediation of amounts R\$ 1,392; (iv) the increase in judicial deposits R\$ 1,082; and (v) the increase in the "Commission of Vehicle Financing" account R\$ 280.

N.B.: balances are deducted (net of corresponding PDD) of R\$ 319 in June/05 and of R\$ 365 in June/06, allocated to the "Loan Operations and Leasing" and "Allowance for Doubtful Accounts" items.

The growth in the quarter is basically due to: (i) an increase in credit cards operations R\$ 1,752, basically for the consolidation of AMEX acquired in 1H06; (ii) the increase in the operations of negotiation and intermediation of amounts R\$ 1,288; (iii) a R\$ 1,123 increase in the foreign exchange portfolio; (iv) the increase in judicial deposits R\$ 665.

N.B.: balances are deducted (net of corresponding PDD) of R\$ 366 in March/06 and of R\$ 365 in June/06, allocated to the "Loan and Leasing Operations" and "Allowance for Doubtful Accounts" items.

Permanent Assets

June			2006		
2005	2006	Variation %	March	June	Variation %
4,561	5,779	26.7	4,808	5,779	20.2

The variation in the period is mostly due to: (i) the goodwill on the acquisition of Bradesplan, Cia. Leader, AMEX and BEC R\$ 1,599; (ii) the positive result from the equity in the earnings of affiliated companies verified in the period; (iii) the increase in the realized capital in the investment Banco Espírito Santo BES R\$ 128; and partially **offset** by: (iv) goodwill amortization, normal and extraordinary, in subsidiaries R\$ 703; and (v) sale of stake in the company American BankNote R\$ 27.

The growth in the quarter was substantially due to: (i) the goodwill on the acquisition of the minority interest of BEC, Bradesplan and AMEX R\$ 1,043; (ii) the increase in the realized capital in the investment Banco Espírito Santo BES R\$ 128; and partially **offset**: (iii) by goodwill amortization, normal and extraordinary, in subsidiaries R\$ 315; and (iv) the disposal of the investment in the company American BankNote R\$ 27.

Deposits

June			2006		
2005	2006	Variation %	March	June	Variation %
71,654	78,356	9.4	74,482	78,356	5.2

The increase of the period is detailed in the charts below:

The variation in the quarter is detailed in the charts below:

a) Demand Deposits

June			2006		
2005	2006	Variation %	March	June	Variation %
14,892	16,646	11.8	16,240	16,646	2.5

The increase in the period is due to the growth in client base. The evolution of R\$ 1,754 is composed of: individuals R\$ 644 and corporations R\$ 1,100.

The variation in the quarter is due to funds stemming from individuals R\$ 475, **mitigated** by redemptions of funds from corporate clients R\$ 69.

b) Savings Deposits

June			2006		
2005	2006	Variation %	March	June	Variation %
24,517	24,835	1.3	25,560	24,835	(2.8)

The increase in the period is basically due to: (i) the remuneration of deposits (TR + 0.5% p.m.) reaching 8.8%, in the period; which was **mitigated**: (ii) by withdrawals occurred in the period.

The reduction in the quarter is basically due to: (i) the withdrawals occurred in the quarter; which was **mitigated**: (ii) by the remuneration of deposits (TR + 0.5% p.m.) reaching 2.0% in the quarter.

c) Time Deposits

June			2006		
2005	2006	Variation %	March	June	Variation %
32,043	36,435	13.7	32,296	36,435	12.8

The increase in the period is basically due to the deposit remuneration of the period, **mitigated** by migration of funds to other funding forms by institutional investors, mainly by means of issuance of debentures and subordinated debt.

The variation in the quarter is mostly due to the deposit remuneration of the quarter, **mitigated** by migration of funds to other funding forms by institutional investors, mainly by means of issuance of debentures and subordinated debt.

d) Interbank Deposits and Other Deposits

June			2006		
2005	2006	Variation %	March	June	Variation %
202	440	117.8	386	440	14.0

The variation in the period results from: (i) a hike in the volume of the "Interbank Deposits" account R\$ 117; and (ii) increase in the item "Other Deposits Investment Account" R\$ 121.

The variation in the quarter results from: (i) a reduction in the volume of "Interbank Deposits" account R\$ 35; and (ii) a increase in the item "Other Deposits Investment Account" R\$ 19.

Funds Obtained in the Open Market

June			2006		
2005	2006	Variation %	March	June	Variation %
20,957	29,258	39.6	24,037	29,258	21.7

The variation of balance in the period mainly derives from: (i) an increase in funding volume, using the funds backed by debentures issued of R\$ 7,486; (ii) the increase in the unrestricted portfolio R\$ 577; and (iii) increase in third-party portfolio R\$ 219.

N.B.: includes investment funds applied in purchase and sale commitments with Bradesco, whose owners are subsidiaries included in the consolidated financial statements, at the amount of R\$ 7,382 in June/05 and R\$ 5,175 in June/06.

The increase of balance in the quarter derives from: (i) an increase in the third-party portfolio R\$ 3,511; (ii) the increase in the own portfolio by R\$ 1,233; and (iii) the increase in the unrestricted portfolio R\$ 477.

N.B.: includes investment funds applied in purchase and sale commitments with Bradesco, whose owners are subsidiaries included in the consolidated financial statements, in the amount of R\$ 3,645 in March/06 and R\$ 5,175 in June/06.

Funds from Issuance of Securities

June			2006		
2005	2006	Variation %	March	June	Variation %
6,677	6,201	(7.1)	6,307	6,201	(1.7)

The drop in the period basically derives from: (i) decreased balance of marketable securities issued abroad at R\$ 490, mainly in view of the redemptions of Euronotes, overdue and not renewed, as well as from the partial settlement of our securitization operation of future flow of payment orders received abroad (MT-100); and (ii) exchange loss variation of 7.9% in the period, which impacted on the funds from issuance of securities abroad, the balances of which were R\$ 3,231 in June/05 and R\$ 2,741 in June/06, as per Note 16c.

In the quarter, the decrease mostly occurred due to: (i) decrease in the balance of issuance of marketable securities issued in Brazil by R\$ 116; mainly in view of the payment of interest of debentures.

Interbank and Interdepartmental Accounts

June			2006		
2005	2006	Variation %	March	June	Variation %
1,466	1,963	33.9	1,425	1,963	37.8

The variation in the period is mainly due to higher volume of foreign currency payment orders.

The variation in the quarter is basically due to lower volume of foreign currency payment orders.

Borrowings and Onlendings

June			2006		
2005	2006	Variation %	March	June	Variation %
14,999	15,485	3.2	15,611	15,485	(0.8)

The variation in the period is due to: (i) increase in the volume of funds from domestic loans and onlendings R\$ 1,474, mainly, BNDES/FINAME; **offset:** (ii) by exchange loss variation of 7.9% in the period, which impacted on the foreign currency indexed and/or denominated loans and onlendings liabilities, the balances of which were R\$ 6,468 in June/05 and R\$ 5,480 in June/06.

The variation in the quarter mainly results from: (i) increase in the volume of funds from domestic loans and onlendings R\$ 437, mainly, BNDES/FINAME; **offset:** (ii) by exchange loss variation of 0.4% in the quarter, which impacted on the foreign currency indexed and/or denominated loans and onlendings liabilities, the balances of which were R\$ 6,043 in March/06 and R\$ 5,480 in June/06.

Technical Provisions for Insurance, Private Pension Plans and Savings Bonds

June			2006		
2005	2006	Variation %	March	June	Variation %
36,533	43,947	20.3	42,555	43,947	3.3

The increase in the period is mainly due to: (i) growth in sales of supplementary private pension plans and insurance policies, and (ii) restatement and interest of technical provisions. Largest variations recorded were: (a) in the private pension segment, "VGBL" plans at R\$ 4,982 and "PGBL" plans at R\$ 1,668, and (b) in the insurance segment, in the provisions for the Health segment at R\$ 519, as well as in the provisions of the Life segment R\$ 448.

The increase in the quarter is basically due to: (i) restatement and interest of technical provisions; and (ii) increment in the sales of supplementary private pension plans and insurance policies. The largest variations recorded were: (a) in the private pension segment, in "VGBL" plans at R\$ 892 and "PGBL" plans at R\$ 423; and (b) in the insurance segment, in Health provisions at R\$ 155, as well as in the provisions for the Life segment R\$ 137.

Other Liabilities, Derivative Financial Instruments and Deferred Income

June			2006		
2005	2006	Variation %	March	June	Variation %
29,843	41,976	40.7	36,970	41,976	13.5

The variation in the period basically derives from: (i) the issuance of Subordinated Debt R\$ 3,981; (ii) the increase in "Exchange Portfolio" R\$ 2,176; (iii) the increase in the balance of items "Tax and Social Security" R\$ 2,238; (iv) the increase in the "Negotiation and Intermediation of Amounts" items R\$ 1,462, and (v) the increase in Credit Card operations R\$ 1,333, which includes R\$ 990 from AMEX.

N.B.: excludes advances on foreign exchange contracts of R\$ 5,090 and R\$ 5,767, allocated to the specific account in loan operations in June/05 and June/06, respectively.

The variation in the quarter is mainly due to the increase in the items (i) "Negotiation and Intermediation of Amounts" R\$ 1,246; (ii) "Exchange Portfolio" R\$ 1,125; (iii) "Subordinated Debt" in view of new issuances R\$ 1,100 and (iv) "Tax and Private Pension Plans" R\$ 1,110. **N.B.:** excludes advances on foreign exchange contracts of R\$ 5,443 and R\$ 5,767, allocated to the specific account in loan operations in March/06 and June/06, respectively.

Minority Interest in Subsidiaries

June			2006		
2005	2006	Variation %	March	June	Variation %
54	55	1.9	72	55	(23.6)

In the period, the "Minority Interest of Subsidiaries" account remained practically steady.

The variation in the quarter is mainly due to the reduction of minority stockholders of Banco BEC R\$ 9 and Bradesco Templeton R\$ 9.

Stockholders Equity

June			2006		
2005	2006	Variation %	March	June	Variation %
17,448	21,461	23.0	20,375	21,461	5.3

This variation in the period is due to: (i) appropriation of net income for the period R\$ 6,025; (ii) increase in the reserve for marketable securities and derivatives mark-to-market adjustment R\$ 241; which was partially **offset** by: (iii) interest on own capital/dividends paid and provisioned R\$ 2,104; and (iv) stock buyback R\$ 149.

This increase is due to: (i) appropriation of net income in the quarter R\$ 1,602; (ii) the increase in reserve for marketable securities and derivatives mark-to-market adjustment R\$ 96, which was **offset** by: (iii) interest on own capital paid and provisioned in R\$ 609; and (iv) stock buyback R\$ 3.

Profitability

Bradesco's net income reached R\$ 3,132 million in 1H06, against R\$ 2,621 million reached in the same period of 2005, which corresponds to a 19.5% growth. Stockholders' Equity amounted to R\$ 21,461 million on June 30, 2006, with a growth of 23.0% compared to the balance of June 30, 2005. Accordingly, the annualized Return on Stockholders' Equity (ROE) reached 31.3%. The total assets added up to R\$ 232,935 million at the end of 1H06, growing 19.7% when compared to the balance of June 30, 2005. The annualized Return on Total Assets (ROA) was 2.7%. The earnings per stock reached R\$ 3.20.

In the 2nd quarter of 2006, the result was R\$ 1,602 million, representing an increase of R\$ 72 million or 4.7% compared to the net income of the 1st quarter of 2006. The annualized return on the Stockholders' Equity (ROE) reached 33.4% in the quarter and the return on total assets (ROA) was 2.8%. The earnings per stock reached R\$ 1.64.

In this quarter, the following extraordinary events happened: income of R\$ 99 million recorded in the operation with Fidelity; income of R\$ 84 million from the partial sale of the share held at ABN - American BankNote; and expenses of R\$ 192 million of extraordinary goodwill amortization.

The 2Q06 was affected by a decrease of income composing the Net Interest Income, composed mainly by lower non-interest results, reaching the amount of R\$ 621 million, a R\$ 364 million decrease, compared to 1Q06, basically due to: (i) lower income from derivatives used for hedge effects of investments abroad, which in terms of Net Income, simply annuls the fiscal and tax effect (IR/CS and PIS/COFINS) of such hedge strategy of R\$ 275 million; and (ii) lower TVM and Treasury gains of R\$ 89 million. On the other hand, the result with interest reached the amount of R\$ 4,340 million, a R\$ 65 million growth in relation to the previous quarter. This increase is basically due to an increment in the business volume. We point out a 5.2% increase in the volume of loan operations for individuals, mainly concerned with consumer sales and personal loan financing, which shows a higher profitability than the corporate portfolio.

The Operating Income from Insurance, Private Pension Plans and Savings Bonds contributed in 2Q06 with an increase of R\$ 125 million, as a result, basically, of constitution of higher additional technical provisions of insurance and private pension plans in 1Q06.

In the 2nd quarter of 2006, there was a growth of the overall delinquency ratio, due to the change in the portfolio profile, with a higher share in individual operations, and a slight deterioration of the payment capacity of clients, observed in all the Brazilian Financial System. As a result, there was recording of Allowance for Doubtful Accounts, in the amount of R\$ 1,116 million in 2Q06, which results in a R\$ 178 million increase when compared to the recording of R\$ 938 million in 1Q06. We also established surplus provisions at the amount of R\$ 18 million in 1Q06 and R\$ 27 million in 2Q06. Excluded such effects, the provision would be R\$ 1,089 million in 2Q06 against R\$ 920 million in 1Q06, i.e., an 18.4% growth, reaching a level of Allowance for Doubtful Accounts of R\$ 5,833 million on June 30, 2006.

Operating Efficiency Ratio in the 12-month period ended on June 30, 2006 was of 42.8% practically stable when compared to the 12-month period ended on March 31, 2006 and a reduction of 5.3 percentage points when compared to the period ended on June 30, 2005, principally as a result of the combination of strict expense control with permanent efforts for increase in revenue.

The Expanded Coverage Ratio in the last 12 months [(fee income)/(personnel expenses + administrative expenses)] improved 0.7 percentage point, increasing from 71.7% in March 2006 to 72.4% in June 2006.

Results by Business Segment

Income Breakdown in percentage

N.B: The Balance Sheet and the Statement of Income by Business Segment can be found in the Note 5.

Variation in the Main Statement of Income Items

1st Half of 2006 compared to the 1st Half of 2005 R\$ million

- (1) Composition: Premiums and Contributions Net of variations in Technical Provisions for Insurance, Private Pension Plans and Savings Bonds deducted from Claims, Redemptions, Benefits and Commissions, not including Financial Income on Insurance activities and price-level restatement and interest on Technical Provisions, which are included in the Net Interest Income.
- (2) Composition: Tax Expenses, Equity in the Earnings of Affiliated Companies, Other Operating Income, Other operating Expenses, Non-operating Income and Minority Interest in Subsidiaries.

56

2nd Quarter of 2006 compared to the 1st Quarter of 2006 R\$ million

- (1) Composition: Premiums and Contributions Net of variations in Technical Provisions for Insurance, Private Pension Plans and Savings Bonds deducted from Claims, Redemptions, Benefits and Commissions, not including Financial Income on Insurance activities and price-level restatement and interest on Technical Provisions, which are included in the Net Interest Income.
- (2) Composition: Tax Expenses, Equity in the Earnings of Affiliated Companies, Other operating Income, Other operating Expenses, Non-operating Income and Interest in Subsidiaries.

Variation in Items Composing the Net Interest Income and Exchange Adjusted

1st Half of 2006 compared to 1st Half of 2005 R\$ million

- (1) Includes Revenues from Loan Operations + Income on Leasing Operations + Income on Foreign Exchange Transactions (Note 11a).
- (2) Includes Funding Expenses in the market, excluding Expenses for Purchase and Sale Commitments + Expenses for Borrowings and Onlendings + Income on Compulsory Deposits + Adjustments to Income on Foreign Exchange Transactions (Note 11a).
- (3) Includes Result of Operations with Marketable Securities, less expenses with Purchase and Sale Commitments + Financial Income on Insurance, Private Pension Plans and Savings Bonds + Income on Derivative Financial Instruments + Adjustments to Income on Foreign Exchange Transactions (Note 11a).
- (4) This refers to price-level restatement and interest of Technical Provisions for Insurance, Private Pension Plans and Savings Bonds.

2nd Quarter of 2006 compared to the 1st Quarter of 2006 R\$ million

- (1) Includes Revenues from Loan Operations + Income on Leasing Operations + Income on Foreign Exchange Transactions (Note 11a).
- (2) Includes Funding Expenses in the market, excluding Expenses for Purchase and Sale Commitments + Expenses for Borrowings and Onlendings + Income on Compulsory Deposits + Adjustments to Income on Foreign Exchange Transactions (Note 11a).
- (3) Includes Result of Operations with Marketable Securities, less expenses with Purchase and Sale Commitments + Financial Income on Insurance, Private Pension Plans and Savings Bonds + Income on Derivative Financial Instruments + Adjustments to Income on Foreign Exchange Transactions (Note 11a).
- (4) This refers to price-level restatement and interest of Technical Provisions for Insurance, Private Pension Plans and Savings Bonds.

Financial Market Indicators

Analysis of Net Interest Income

a) Net Interest Income Adjustment

The tax effect of hedge of investments abroad is presented separately in the compared periods which, in terms of Net Income, simply annuls the tax effect (Income Tax/Social Contribution and PIS/COFINS) of such hedge strategy.

This tax effect is triggered by the fact that exchange variation of investments abroad is not deductible when losses are verified and is not taxable when gains are recognized. On the other hand, the income from derivative instruments is taxable when gain occurs and deductible when losses occur.

Therefore, gross income from hedge is reflected in Net Interest Income, under the line *Income from Derivative Financial Instruments*, and its respective taxes are reflected under the lines *Tax Expenses* and *Income Tax and Social Contribution*, as follows:

Tax Effect of Hedge of Investments Abroad

R\$ million

Effect on the Items	Effect in 1H05			Effect in 1H06				
	Net Interest Income	Tax Expenses	Income Tax/Social Contribution	Net Income	Net Interest Income	Tax Expenses	Income Tax/Social Contribution	Net Income
Partial Income on Hedge of Investments Abroad	1.127	(52)	(366)	709	796	(37)	(258)	501
Exchange Variation of Investments Abroad	(709)			(709)	(501)			(501)
Total	418	(52)	(366)		295	(37)	(258)

Edgar Filing: BANK BRADESCO - Form 6-K

For a better evaluation of Net Interest Income growth among the periods, hedge effects and exchange variation of investments abroad occurred in the Net Interest Income were excluded, as shown in the previous chart, as well as the R\$ 327 million income earned with the sale of our stake in Belgo-Mineira, which took place in 1H05, as follows:

Adjusted Net Interest Income

Margin Adjustments	R\$ million					
	1 st Half			2006		Variation
	2005	2006	Variation	1 st Qtr.	2 nd Qtr.	
Reported Net Interest Income	8,354	10,221	1,867	5,260	4,961	(299)
() Sale of Belgo Mineira	(327)		327			
() Hedge/Exchange Variation	(418)	(295)	123	(285)	(10)	275
Adjusted Net Interest Income	7,609	9,926	2,317	4,975	4,951	(24)
% Adjusted on Average Assets in consecutive days	8.2%	9.3%		9.7%	9.1%	
% Adjusted on Average Assets in business days	8.3%	9.4%		9.7%	9.5%	

b) Comments on the Adjusted Net Interest Income Variation

In 2Q06, the result of the adjusted Net Interest Income reached R\$ 4,951 million, basically in line with 1Q06, which reached R\$ 4,975 million. In 1H06, the adjusted net interest income was R\$ 9,926 million, representing an improvement of R\$ 2,317 million or 30.5% compared to the same period of the previous year (R\$ 7,609 million).

The analytical opening of the net interest income result among interest and non-interest results is shown below:

Adjusted Net Interest Income

Margin Adjustments	R\$ million					
	1 st Half			2006		Variation
	2005	2006	Variation	1 st Qtr.	2 nd Qtr.	
Net Interest Income Interest	6,906	8,615	1,709	4,275	4,340	65
Net Interest Income Non-Interest	703	1,311	608	700	611	(89)
Adjusted Net Interest Income	7,609	9,926	2,317	4,975	4,951	(24)

The improvement in the net interest income of interest results of Bradesco Consolidated took place, essentially, due to the higher volume of loan operations, in view of Bradesco's strategy targeted at the retail market, which, in the last periods, was mainly focused on the increase of loan operations with individual clients, specially, vehicle financing and personal loan.

Accordingly, the loans targeted at corporate clients had representative evolution in both analyzed periods, mainly in lines targeted at the guaranteed account and export financing, however, it must be taken into consideration that the balance of loans and onlendings indexed and/or denominated in foreign currency posted a negative impact due to the currency depreciation, in spite of the growth of the balance in dollar.

Another evolution highlight of the operations was the increase in demand deposits between 1Q06 and 2Q06, which reached a balance of R\$ 16,240 million and R\$ 16,646 million, respectively, showing a growth of 2.5% . Comparing the evolution in the last 12 months, there was a higher growth of 11.8%, this growth is directly related to the increase of 235 thousand new individual clients checking accounts in the last 12 months, generating an average growth of almost 20 thousand accounts/month.

Thus, the growth of the volume of global operations of Bradesco Consolidated had an increase in the interest net interest income results of R\$ 188 million between 1Q06 and 2Q06 and an evolution of R\$ 1,913 million in the analyses of 1H06 against the same period of 2005.

On the other hand, the SELIC interest rate drop directly influenced the remuneration of own working capital, the technical provisions of insurance, private pension plans and savings bonds, funding and floating addition to the increase in remuneration of liabilities indexed to TR due to the change in the calculation methodology (reducer), among other factors which negatively impacted the result of the

interest net interest income. Thus, the global drop due to the lower spread was R\$ 123 million between 1Q06 and 2Q06 and R\$ 204 million when compared to 1H06 against the same half of 2005.

Bradesco, facing this scenario of decreasing SELIC interest rate and increase in the loan operations, mainly individuals, started adopting the strategy of positioning in niches of markets with better rates and spread, so that, in the last period Bradesco focused on partnerships with retail commercial companies to increase its share in the consumer financing market.

The result of the net interest income coming from non-interest results in 2Q06 had a reduction of R\$ 89 million compared to 1Q06, however, when analyzing the evolution of 1H06 compared to the same half of the previous year, we can see an increase of R\$ 608 million, resulting basically from higher gains of marketable securities and treasury. It must be highlighted that Bradesco constantly searches for the improvement of its activities related to risk management, and the VaR (Value at Risk) limits conservatively defined by the Senior Management, aiming to mitigate possible market risks.

The annualized adjusted net interest income rate, obtained by dividing the income from adjusted net interest income over the average balance of total assets, taking into consideration the business days of the periods, increased from 9.7% in 1Q06 to 9.5% in 2Q06, accounting for a slight reduction of 0.2 percentage point. When comparing the 1H06 to the same half of 2005, we can notice an evolution of 1.1 percentage point, i.e., it increased from 8.3% in 1H05 to 9.4% this half.

Total	1,661	1,760	3,421	2,040	2,091	4,131

Fee Income increased 20.8 % in 1H06, or a R\$ 710 million growth when compared to the same period of previous year, amounting to R\$ 4,131 million.

Major components for growth of Fee Income were in the halves:

the strategy of clients segmentation (Private, Prime, Corporate, Middle Market and Retail), jointly with the tariff realignment and client base growth boosted the item Checking Accounts, up by R\$ 191 million;

the increase in the volume of Loan Operations, especially individuals, with highlights to the products Personal Loan and Vehicles , was the major factor for the increase in item Revenues from Loan Operations , a R\$ 132 million improvement;

the volume growth of 26.9% in managed funds, from R\$ 108.5 billion on June 30, 2005 to R\$ 137.6 billion on June 30, 2006, was the main reason for the growth in the item Assets under Management , which increased by R\$ 111 million; and

the growth of 18.4%, represented by the increase of R\$ 109 million, in the item Cards , is directly related to the increase of 8.2% in the cards base, from 48.5 million to 52.5 million.

When compared to 1Q06, Fee Income showed an expansion of 2.5% with a R\$ 51 million growth, as a result of the increased volumes of businesses in 2Q06, pointing out increases of 5.3%, 3.0% and 14.3% under the items Loan Operations , Checking Accounts and Collections up by R\$ 19 million, R\$ 15 million and R\$ 8 million, respectively.

Total Administrative and Personnel Expenses	2,413	2,486	4,899	2,736	2,844	5,580

In 1H06, the Administrative and Personnel Expenses showed a R\$ 681 million increase when compared to the same period last year, reaching the amount of R\$ 5,580 million against R\$ 4,899 million in the same period of 2005. The nominal variation of Administrative Expenses between periods of six months ended on June 30, 2005 and 2006 shows a R\$ 260 million increase, reaching the amount of R\$ 2,692 million mainly justified: (i) by the increase in the client base; (ii) by the acquisition of BEC in the first quarter of 2006; and (iii) by contractual adjustment in the period.

Personnel Expenses increased R\$ 421 million when compared to the same period of 2005, reaching R\$ 2,888 million, pointing out: (i) higher expenses of employee profit sharing (PLR) in the amount of R\$ 47 million; (ii) higher labor claims provisions R\$ 144 million; (iii) the acquisition of Banco BEC R\$ 30 million; and (iv) the increase in the salary levels, resulting from the Collective Bargaining Agreement of 2005 (6%), benefits and other of R\$ 200 million.

When compared to 1Q06, Administrative and Personnel Expenses increased R\$ 108 million, with an increase of 3.9%, from R\$ 2,736 million in 1Q06 to R\$ 2,844 million in 2Q06.

Administrative Expenses increased by R\$ 58 million compared to the previous quarter, basically due to higher expenses with: (i) third-party services R\$ 15 million; (ii) advertising R\$ 14 million; and (iii) data processing R\$ 8 million.

Personal Expenses in 2Q06 increased by R\$ 50 million mainly due to: (i) higher concentration of vacation which caused a lower expense of R\$ 41 million in 1Q06; (ii) higher expenses with training R\$ 7 million; (iii) higher expenses with provisions for labor proceedings of R\$ 7 million; which were mitigated: (iv) by the lower PLR expense of R\$ 10 million.

(*) Accumulated amounts for the past 12 months.

Operating Efficiency Ratio in percentage

Operating Efficiency

The Operating Efficiency Ratio (accumulated in the 12 months) up to June 2006 was of 42.8% showing a slight improvement when compared to the 12-month period ended in March 2006, mainly as a result of the expenses control, pointing out administrative and personnel expenses coupled with the permanent efforts for increase in revenues. It is also worth mentioning the higher net interest income in the amount R\$ 606 million, basically stemming from interest component, generated by an increment in business volume, pointing out a 39.9% increase in the volume of loan operations for individuals, mainly concerned with consumer sales and personal loan financing, the profitability of which is higher if compared to the corporate loans, and increased fee income, in the amount of R\$ 331 million, as a result of increase in the average volume of transactions of fee realignment and the segmentation process.

The Operating Efficiency Ratio (accumulated in the 12 months) up to June 2006 posted a significant improvement of 5.3 percentage points, from 48.1% in June 2005 to 42.8% in June 2006, due to, basically, the effective control of expense accounts, especially, personnel and administrative expenses, which in the last 12-month period evolved 11.7% . Another factor that deserved attention in the improvement of efficiency ratio was the 26.2% evolution of net interest income in the period compared, pointing out higher revenues from loan operations at 46.4%, boosted by an increase in the loan portfolio volume, particularly, the individual client portfolio.

It is worth pointing out that part of the increase in the net interest income of R\$ 606 million includes R\$ 283 million, which is part of derivatives used for hedge effect on investments abroad, which in terms of net income, simply annuls the tax effect of this hedge strategy in the period. This negative tax effect is directly reflected on the items Tax Expenses and Income Tax and Social Contribution , which are not considered in the calculation of the Operating Efficiency Ratio. If we disregard this part of the result of derivatives in the calculation basis of Operating Efficiency Ratio, both in June 2006 and March 2006, we would reach an index of 43.2% in June 2006 and 44.1% in March 2006, a 0.9 percentage point improvement when compared to March 2006.

If we also exclude from the Operating Efficiency Ratio calculation basis the goodwill amortization expenses over the past 12 months, in the amount of R\$ 511 million, we would have an improvement of 0.9 percentage point, from 43.3 to 42.4% .

The Expanded Coverage Ratio accumulated in the last 12 months [(fee income)/(personnel expenses + administrative expenses)] improved 0.7 percentage point, increasing from 71.7% in March 2006 to 72.4% in June 2006.

Administrative Expenses + Personnel and Fee Income (Accumulated in the last 12 months)

Classification of Marketable Securities by Segment in percentage

N.B.: The Composition of Marketable Securities Portfolio consolidated by: issuer, maturity, business segment and by category can be found in Note 8.

Loan Operations

The consolidated balance of loan operations reached at the end of 1H06 a total of R\$ 88.6 billion (including R\$ 271.5 million loan operations resulting from the acquisition of America Express activities), representing a 9.3% increase in the half and a 27.0% growth in the last 12 months.

Bradesco Conglomerate's growth in the loan portfolio continues more pronounced in the operations for individuals, especially the portfolios of vehicle financing and personal loan, in view that, in businesses involving legal entities, the lines targeted at the guaranteed account and export financing stood out, in spite of the dollar depreciation of 7.5% in the 1st half.

Loan Operations Total Portfolio

Loan Operations by Currency

The share of the amount of loans and onlendings indexed and/or denominated in foreign currency (excluded ACC) in the total loan portfolio had a reduction in the 1st half of 2006, due to the real appreciation, despite the growth of 8.4% in the amount in dollars in the period.

76

Loan Operations by Purpose

The loan for individuals continued to grow in the first half with a 13.1% increase, accumulating 39.9% when compared to the balance of June 2005. This expansion started showing a reduction in intensity, mainly in view of the consolidation of some categories, such as personal loan and operating agreements.

We highlight in the loan portfolio for individuals, the consumer financing (vehicles, personal loan, leasing, credit card and assets financing) which reached a balance of R\$ 32.3 billion in June 2006 against R\$ 27.9 billion in December 2005 with an increase of 16.0% in the first half. Vehicle financing, which remained with the highest volume of loans, aligned to payroll charges, for its guarantees and characteristics provided the portfolio with a low loan risk level.

Loan Operations Consumer Financing

The loan granted to companies increased 19.0% in the last 12 months, an increase of 6.6% in the half with a more intense rhythm in 2Q06, due to the operations carried out in branches and subsidiaries abroad and onlending operations of BNDES.

Loan Operations per Type of Client

Loan Operations Client Features

We point out in the 2nd quarter the evolution of the balance of operations carried out for micro, small and medium companies, which started representing 29.3% of total loans. On the other hand, the balance of loans for Large Companies was negatively affected by the real appreciation in the 1st half, once a great portion of this portfolio is indexed to the dollar.

Loan Operations By Activity Sector

Items	R\$ million							
	2005				2006			
	March	%	June	%	March	%	June	%
Public Sector	571	0.9	624	0.9	1,089	1.2	1,065	1.2

Advances on Foreign Exchange Contracts	5,298	5,089	5,443	5,767
Subtotal of Loan Operations	65,340	69,326	83,916	88,138
Other Loans	639	461	510	505
Total Loan Operations	65,979	69,787	84,426	88,643
Sureties and Guarantees Recorded in Memorandum Accounts	9,085	8,559	10,737	13,369
Total Including Sureties and Guarantees	75,064	78,346	95,163	102,012

The evolution of balance of operations, including Sureties and Aval Guarantees rendered was recorded again, with a growth of 24.5% in the 2nd quarter, pointing out the operations carried out with clients of the Corporate segment.

In the table below, we can observe the evolution in the representativeness of the Bank's business segments:

Loan Operations per Business Segment in percentage

In the 1H06, the loan portfolio of Banco Finasa, mainly targeted at vehicle financing for individual clients, continued to show an evolution higher than the total portfolio, reflecting on the increase of its share in the total loans of Bradesco Conglomerate.

Loan Portfolio Quality

As discussed in the last quarter, the tendency of change in the share of credits under the AA and C ratings was maintained, compared to the total portfolio, a result of the higher share of the consumer loans for individuals and the slight growth in delinquency of these portfolios.

Loan Operations by Rating in percentage

The total volume of allowance for doubtful accounts reached R\$ 5,833 million, representing 6.6% of the total loan portfolio (6.3%, in March 2006), ensuring the maintenance of adequate levels of PDD coverage for the current profile of the loan portfolio.

In this regard, we point out the strength of the provision criteria adopted, which may be evidenced through the analysis of historical data of allowances for doubtful accounts and losses effectively occurred in the subsequent period of twelve months.

Loan Operations PDD x Default x Losses Percentage over Loan Operation Balance

It can be verified in the graph above that our PDD coverage ratios on loan losses had comfortable margins over all the period analyzed.

In the 1st half of 2006, it can be verified a growth in the delinquency ratio of the consolidated portfolio, both due to the change of its profile and due to the slight deterioration of the payment capacity of clients, mainly individuals, noticed in all the National Financial System. As already discussed in the previous quarter, increase in the delinquency indicators was expected and it is already duly priced in our products and services.

Loan Operations Delinquency up to 90 days x PDD in percentage

81

Loan Operations Distribution of the Loan Portfolio Falling Due by Terms in percentage

The terms of loan operations, reflected by the profile of credits to mature, has been extending, mainly in view of consumer financing operations, which by their nature have a longer term. The operations with

maturity exceeding 180 days represented 49.8% of total portfolio in June 2006, against 47.4% one year ago.

Loan Operations Portfolio Movement between June 2005 and 2006 R\$ million

At the same time Bradesco has tried to conquer new clients in the market, mainly among individuals, the concern of having the loyalty of those previously existing remains, by means of the offer of new financing lines and revaluation of current loan limits, maintaining the high quality of clients, as shown in the table below:

Loan Operations Portfolio Movement between June 2005 and 2006

Rating	Borrowers Remaining from June 2005		New Borrowers Between June 2005 and 2006		Total Loans in June 2006	
	R\$ million	%	R\$ million	%	R\$ million	%
AA C	65,958	91.9	15,988	94.9	81,946	92.4
D	1,526	2.1	243	1.5	1,769	2.0

Provision/E - H Rated Loan Operations (%)	86.9	85.3	87.0	86.7

Edgar Filing: BANK BRADESCO - Form 6-K

E H Rated Loan Operations overdue	2,182	2,257	3,235	3,708
Total Provision/E H Rated Loan Operations overdue (%)	197.1	197.2	164.3	157.3
Total Provision / Non Performing Loans (*) (%)	192.9	198.2	162.0	156.6

(*) Loan Operations Overdue for more than 59 days and which do not generate income under the accrual method of accounting.

In the 1st half, we noticed the continuity of the expansion of the loan portfolio of Bradesco Conglomerate, followed by the slight growth of the delinquency ratios. This increase was already estimated, due to changes in the portfolio breakdown, mainly individuals. The maintenance of adequate provision levels could absorb such fluctuations with a significant margin, maintaining all performance indicators with comfortable coverage indices.

For the 2nd half of 2006, Bradesco remains prepared to take full advantage of all business opportunities, focused on increasing the loan portfolio, while respecting the established loan granting parameters, based on the traditional concepts of security, consistency, selectivity and diversification.

Asset Management

Bradesco is elected the Best Manager by GazetaInvest magazine

Bradesco was the manager with the largest number of 5 diamonds Funds in the ranking of GazetaInvest magazine. There were 29 Funds in the total, criterion which rated it as the Best Manager in 2005. In a survey conducted by Austin Rating, Bradesco was highlighted with Funds awarded in all categories analyzed – DI, Fixed Income, Multimarkets, Foreign Exchange, Variable Income and Private Pension Plan.

The achievement of the leadership was due to Bradesco's capacity to operate in all market segments, with products designed according to the needs and characteristics of each type of investor it serves. This acknowledgment reflects the Bank's efficiency in the management of funds, result of the focus on management quality and the effort of all teams in the placement of investment products.

Bradesco Investment Funds are highlighted in the rankings of Agência Estado and Investidor Individual magazine

The Investment Fund management of Bradesco was in the Agência Estado Fundos ranking, disclosed in March 2006. Made in partnership with Ibmecc São Paulo, the ranking appoints the best investment funds of 2005. Bradesco ranked third in the general rating and second in Fixed Income Fund management.

In the ranking disclosed in March 2006 by Investidor Individual magazine, Bradesco had a very good rating with 28.5 star Funds, which ranked third among 61 managers evaluated.

Number of Insured in thousands

Until June 2006, there was an increase of 6.9% in the customer base compared to June, 2005.

When comparing 2Q06 to the same period of the prior year, Bradesco Saúde maintained its noteworthy market position (source: ANS). Brazilian companies are increasingly convinced that Health and Dental Insurance are the best alternatives for meeting their medical, hospital and dental care needs. At present, Bradesco Saúde has more than 2.5 million customers, of which 2.2 million pertain to the corporate segment.

The increasing number of insured from large corporations that have contracted Bradesco Saúde confirms the insurance company's high level of expertise and personalization in the Corporate Insurance services, a distinct advantage in the Supplementary Health Insurance market.

Almost 12 thousand companies in Brazil have acquired Bradesco Saúde insurance products. Out of Brazil's 100 largest companies in terms of revenues, 29 are Bradesco's insurance clients and out of the country's 50 largest companies, 30% are Bradesco Saúde's clients. (source: Exame magazine's *Maiores e Melhores de julho de 2006* - Biggest and Best List, July 2006).

Finally, emphasis should also be given to the user-friendly nature of the Bradesco Saúde Portal (www.bradescosaude.com.br), which, in addition to providing information on available products, also offers access to a number of services for the insured, prospects and brokers.

Until May 2006, Bradesco maintained an outstanding position among the main insurance companies in the Brazilian Basic Line (RE) Insurance market, with an 8.3% share of total market sales in this area.

In the Asset Risks segment, Bradesco Auto/RE insures the assets of a significant number of large companies of the country related to the home-building, steel, petrochemical, pulp and paper, aircraft, automotive and food sectors by means of issuances of insurance policies for Operational Risks, Named, Oil, Port Operator, Civil Liability, Engineering Risks, Domestic and International Transport, Hull and Aircraft.

In the area of Domestic and International Transport insurance, from the implementation of several visits to clients of the segments Corporate and Companies, mainly in the south, mid-west and southeast, we got more trading frequency with some important corporate groups.

Similarly, we adopted the strategy to intensify visits to brokers with potential in the transportation insurance portfolio for achievements of new accounts.

We are also being successful in the maintenance of our profitable policies and, as possible, excluding from the portfolio the accounts which are not adding a satisfactory result.

We achieved several insurance of business aircraft, in view of the larger disclosure and increase of products Bradesco Seguro Aeronáutico (Bradesco Aircraft Insurance). In the Maritime Hull area, we renewed the account of DOCENAVE's fleet.

We also point out that the relation of Bradesco Auto/RE with Bradesco Corporate and Bradesco Empresas (Middle Market), including with own structure, has allowed greater closeness with Bradesco's clients and enabled the achievement and renew of policies of large companies installed in the country.

In the mass market insurance segment, whose products are focused on individuals, small and medium-sized (SME's) companies, we maintained a meaningful number of customers, in particular those of the Residential Insurance line.

Another high profitability segment was the Diverse Risks directed to equipment, mainly the insurance arising from operations of leasing, FINAME and CDC of Banco Bradesco.

The continuous upgrading of products provides the improvement of the services rendered to our clients and contributed significantly for the increase in income of the current period.

In the Auto/RCF line, the market was characterized by intense competition in big metropolitan areas, aggravated by a small growth in insured vehicle market.

During the period, we maintained our technically correct pricing policy, focused on balanced portfolio results. We consolidated our pricing policy based on the insured specific characteristics, after one year it was launched. We also maintained differentiated services, which add value to our products, such as discounts given through the nationwide customer service networks and auto glass repair, as well as the increase in the number of electronic relationships with brokers and those insured, which are carried out via the Internet.

Bradesco's market share of the Auto/RCF portfolio, up to May, 2006 was 15.1% .

Operating Risk

Grupo Bradesco de Seguros, integrating Bradesco Organization, within its permanent commitment to obtain conformity with the laws and regulations, has adapted its processes and activities, by means of the utilization of methodologies and resources aligned with the best market practices, mainly those related to risk management.

Within this aspect, for adequacy to the guidance brought by the New Capital Basel Agreement (Basel II), provisions of the monetary authority and alignment to future definitions related to Solvability II we are carrying out the survey and analysis of the events related to operating risk, enabling the improvement in the management and knowledge of losses and their causes. At the end of this process, the plan of accounts of the companies of the Insurance Group will be reviewed and specific accounting accounts will be opened for the registration of events of operating risk loss, resulting from business interruption, failure of systems, errors, omissions, frauds or external events, thus enabling the determination of the regulatory capital calculation for Operating Risk according to the methodology adopted by Bradesco Organization.

Awards/Recognition

1. Bradesco Seguros was elected the most remembered brand and the preferred one in the Insurance category in the eighth edition of Pesquisa Marcas de Quem Decide (Brand Research of Who Decides), conducted by Jornal do Comércio/RS in partnership with QualiData Institute. The research was carried out with 330 businessmen and professionals of Rio Grande do Sul and recognized as the most complete study about brands in the south region of the country.
2. Bradesco Auto/RE received the Segurador Brasil 2006 Award, with highlights to the Auto segment. The award is promoted by Segurador Brasil magazine and has as purpose to acknowledge the leadership, performance and achievements of companies of the sector in 2005, besides showing the scenario involving the importance of companies and entities in the implementation and development of concepts, products and services for the Brazilian insurance market.
3. The President of Bradesco Seguros e Previdência Group, Luiz Carlos Trabuco Cappi, was elected 2005 National Business Leader in the Finance Sector Insurance and Private Pension Plans of the 20th edition of the Gazeta Mercantil Forum of Business Leaders. Promoted by Gazeta Mercantil newspaper, the members of the Forum are elected by subscribers, businessmen and executives, in a free voting and without pre-candidature. The main purpose is, by means of the main business leaderships, to discuss and analyze structural themes of high relevance for the Brazilian development.
4. Bradesco Seguros received The Best Insurance Companies of Brazil award, from Conjuntura Econômica magazine, of Fundação Getulio Vargas, as the Largest Insurance Company by Net Income and Stockholders Equity. The award is promoted by the Brazilian Institute of Economy (Ibre) of Fundação Getulio Vargas, which considers the companies economic-financial performance in 2005, according to a study prepared by the Data Management Division of the own Institute.
5. Bradesco Seguros e Previdência received, by the fifth consecutive year, the iBEST 2006 award, the maximum award granted to a website in Brazil. The insurance company was the winner in the Insurance category according to the public vote (popular jury).
6. Bradesco Seguros e Previdência received the 2006 Top of Marketing award. The Association of Sales and Marketing Managers of Brazil (ADVB) granted the award by the case Christmas Tree of Bradesco Seguros e Previdência 10 Years of Light and Emotion. The award is one of the most important ones of the market and has as purpose to consider the organizations that care for the best sustenance of their product, service or brand, by means of innovative and consistent marketing strategies.
7. Bradesco Seguros received the trophy Gaiivota de Ouro 2006, granted by Seguro Total magazine. The company was highlighted in the Excellence in Total Insurance category in the VI 2006 Insurance Market Award.

Sponsorships

1. Bradesco Seguros was the official insurance company of the 19th edition of the International Book Biennial carried out in the Exposition Lodge of Anhembi, in São Paulo, in the period from March 9 to 19.
2. Bradesco Seguros e Previdência was one of the sponsors of the Pennacchi 100 anos exposition, carried out in the Pinacoteca of the State of São Paulo, from May 13 to June 25. The work of Pennacchi, one of the masters of the Brazilian plastic arts, is divided into the themes sacred, scenes, people, sculptures and advertising sketches produced in Italy and Brazil. The event was an homage to the centenary of the birth of the great artist.

3. Bradesco Seguros e Previdência was the sponsor of the 7th Regional Meeting of Insurance Brokers of Rio Grande do Sul (ENCOR), carried out in the Center of Events ExpoGramado, in the city of Gramado, in May 25 and 26. The 7th ENCOR is promoted by the Union of Brokers of Rio Grande do Sul (Sincor-RS).

(1) Bradesco Capitalização and Atlântica Capitalização are included

Bradesco Capitalização's outstanding position in the savings bonds market is the result of its transparent operating policy, which is focused on adjusting its products in line with potential consumer demand.

Regionally, the company holds a leadership position in two Brazilian states, according to the latest figures for May 2006 published by SUSEP. The company's market share was of 31.22% in Amazonas and 27.09% in São Paulo.

In pursuit of a bond which is suited to its customers' different profiles and budgets, a number of products were developed, which vary in accordance with the type of payment (single or monthly), contribution terms, regularity of draws and related prize amounts. This phase was important due to the closeness to the public, by means of the consolidation of Pé Quente Bradesco's family products.

We can highlight the performance of products with a social-environmental character such as Pé Quente Bradesco SOS Mata Atlântica which, in addition to enabling the formation of a financial reserve, contributes for reforestation projects of Fundação SOS Mata Atlântica and Pé Quente Bradesco GP Ayrton Senna, launched in July 2005, whose great differential is the destination of a percentage of the amount collected with securities to social projects of Instituto Ayrton Senna. Thus, in addition to competing for prizes, the product allows the client to help to develop the potential of new generations and participate in the construction of a better Brazil.

As the most recent Company's launching, we can highlight the Pé Quente Bradesco o Câncer de Mama no Alvo da Moda (the Breast Cancer in the Fashion Target), launched in March 2006. Upon acquiring this product, the client contributes to the development of projects of prevention, precocious diagnosis and treatment of cancer in Brazil, for a part of the amount collected will be given to IBCC - Brazilian Institute of Cancer Control.

Rating

Standard & Poor's increased the rating from brAA to brAA+ of Bradesco Capitalização, which is the only company of the savings bond segment with this rating. The solid financial and equity protection standard that Bradesco Capitalização ensures to its clients contributed to the result.

Quality Management System

Bradesco Capitalização S.A. was the first private savings bonds company in Brazil to receive ISO 9002 Certification. On December 2005, it received again the certification of its quality management system, in the ISO 9001: 2000 version within the scope of Bradesco Savings Bonds Management. Granted by Fundação Vanzolini, it shows the quality of its internal processes and confirms the principle which is the origin of Bradesco Savings Bonds: good products, good services and permanent evolution.

Growth in Technical Provisions R\$ million

Due to the growing strengthening of Technical Provisions volume, Bradesco Capitalização reached the amount of R\$ 2.2 billion in June 2006 and according to May 2006 data, released by SUSEP, it holds 20.6% of the total volume of Technical Provisions in the market.

All these results deliver safety and reaffirm the financial solidity and the ability to honor the commitments assumed with clients.

Number of Clients in thousands

As a result of a customer loyalty building policy, focused on the quality customer service and the offer of innovative products, Bradesco Capitalização ended 2Q06 amounting to 2.4 million of clients.

Outstanding Savings Bonds Traditional in thousands

Outstanding Savings Bonds With Transfer of Draw Participation Rights in thousands

Outstanding Savings Bonds in thousands

The outstanding savings bonds portfolio decreased from 11.9 million in June 2005 to 13.4 million in June 2006. Out of this total, 66.0% comprise bonds with Transfer of Draw Participation Rights modality, including: Bradesco Cartões, Bradesco Vida e Previdência, Banco Finasa etc. Since the purpose of this type of savings bonds certificate is to add value to partners products or even to provide incentives for customer due payments, these are low-priced bonds which are sold with reduced terms and grace periods and at a lower unit purchase price.

Awards/Recognition

1. Bradesco Capitalização received the Segurador Brasil 2006 Award, as a highlight in the Savings Bonds segment. The award is promoted by Segurador Brasil magazine and has as purpose to acknowledge the leadership, performance and achievements of the companies of the sector in 2005, in addition to showing a scenario involving the importance of companies and entities in the implementation and in the development of concepts, products and services for the Brazilian insurance market.

2. Bradesco Capitalização received two Top Social 2006 awards, promoted by the Association of Sales and Marketing Managers of Brazil (ADVB-SP). The cases awarded were Pé Quente Bradesco SOS Mata Atlântica and Pé Quente Bradesco GP Ayrton Senna. The award is one of the most important ones in the sector and has as purpose to evaluate and highlight the socially responsible actions.

3. Bradesco Capitalização received three Gaivota de Ouro 2006 trophies, granted by Seguro Total magazine. The company was highlighted in the Best Savings Bond Company, Savings Bond Product highlighted in 2005 and Companies which have contributed to Entities in Social Works categories in the VI 2006 Insurance Market Award.

Profile

Banco Finasa commercializes financings of direct loan to consumer for acquisition of light vehicles, transportation and other goods and services, in addition to leasing and personal loan operations, operating as the financing company of Bradesco.

Thus, Banco Finasa relies on the services of Finasa Promotora de Vendas Ltda., its wholly-owned subsidiary, responsible for the business prospect, through its 270 branches established nationwide, in addition to counting on a structure of business partners, represented in June, 2006 by 17,431 auto dealers and 22,350 stores selling furniture and home décor, tourism, auto parts, IT programs and equipment, home improvement material, clothing and footwear, amongst others. At the end of the half, Finasa Promotora de Vendas recorded 4,173 employees, 77% of which were directly performing in new businesses prospect.

As a strategy to add more potential to Bradesco's solid operation in the granting of financing, Banco Finasa continued with the policy to enter into operational agreements with large car makers, auto and truck resale, associations and important store chains. Enlarged the portfolio of agreements executed in the previous years with Ford, Abracred Brazilian Association of Fiat Vehicles Resale, Anamaco Brazilian Association of Home Improvement Material Stores, Microsoft, Casas Bahia, Salfer, Dudony, Ponte Irmão, Eletrozema and GREleto-Vesle, by entering into new agreements, in this half, with Lojas Gabryella, located in the northeast region of the country, in the city of São Luis, State of Maranhão and with Rede de Lojas Armazém Paraíba, a company owned by SOCIC group Sociedade Irmãs Claudino S/A.

The highlight in the period was the transfer of the headquarters of Finasa Promotora to new and modern facilities at Alameda Santos, 1420 in the city of São Paulo, totally planned to receive the Board of Executive Officers and Commercial and Operational Managers of the company, which represented one more important step towards the sustained growth of its businesses in the retail of consumer loan.

Operating Performance

The differentiated form of trading of products, with a specialized and focused team, enabled Finasa a loan portfolio growth of 50.8% in the last twelve months. The production of new businesses increased, on average, from R\$ 985 million/month in the 1st half of 2005 to R\$ 1,267 million/month in 2006, with a growth of 28.6% .

The balances of Bradesco's loan operations in June 2006, in all lines of business, when compared to 2005, showed growth higher than the Market (source: Central Bank of Brazil), according to the table as follows:

(*) Source: BACEN

The share of balance of Allowance for Doubtful Accounts on Loan and Leasing Operations, in June 2006, was 4.6%, above the 3.0% reached in the same period of 2005, due to the larger share of products of Personal Loan and Other Assets and Services in the portfolio composition, to the market behavior in the first six months of 2006 and to the provision criterion of the Organization, more conservative and above the minimum required by BACEN which grants a higher coverage level to the investment of Stockholders.

In the 1st half of 2006, the Bank reached a Net Result of R\$ 119.2 million against the R\$ 131.8 million recorded in the same period of 2005, which considers:

the impact of strong investments made in acquisitions and physical expansion in the last 12 months, which naturally provided a return in the medium and long term;

the increase in delinquency in a generalized way in the market in the 1st half of 2006, jointly with the criterion already mentioned of the Organization concerning additional provisions.

Finasa ended 1H06 with a Stockholders Equity of R\$ 1.1 billion, which included the capitalization of R\$ 162 million with the subscription of capital by controlling stockholder, carried out in December 2005.

Leasing Companies

On June 30, Bradesco Organization controlled the following leasing companies: Bradesco Leasing S.A. Arrendamento Mercantil, Zogbi Leasing S.A. Arrendamento Mercantil and Bankpar Arrendamento Mercantil S.A., besides the leasing portfolio of Banco Finasa S.A., which is directly shown in its financial statements.

On June 28, 2006, under #CVM/SRE/PRO/2006/003, The Second Program of Public Distribution of Debentures of Bradesco Leasing S.A. Arrendamento Mercantil was filed at the CVM, limited to the amount of R\$ 10.0 billion with duration term of up to 2 years.

Leasing Performance Aggregated Bradesco

Leasing operations are carried out by Bradesco Leasing S.A. Arrendamento Mercantil and Banco Finasa S.A.

On June 30, leasing operations brought to present value totaled R\$ 3.2 billion, with a balance of R\$ 10.0 million receivable in operating leases.

The Bradesco Organization's leasing companies are positioned amongst sector leaders, according to ABEL (Brazilian Association of Leasing Companies), with an 11.78% share of this market (reference date: May 2006). This good performance is rooted in its Branch Network integrated operations and the maintenance of its diversified business strategies in various market segments, in particular, the implementation of operating agreements with major industries, mainly in the carriers vehicles and machinery/equipment industries.

The following graph presents the breakdown of Bradesco's aggregated leasing portfolio by type of asset:

In 2006, amounts are shown as per Circular Letter 3,147/2004 of the Brazilian Central Bank.

Operating Overview

Bradesco Consórcios on December 9, 2002 started to sell consortium purchase plan quotas to its employees, and on January 21, 2003, started to sell to its account holders and non-account holders, both for individuals and corporations.

Bradesco Consórcios sells automobile, trucks, tractors, agricultural implements and real properties plans, according to the rules of Central Bank of Brazil.

Referring to the sale of plans offered, the Company relies on the Banco Bradesco branches network, liable for higher Bradesco Consórcios share in the consortium purchase plan market. The extensive nature and security associated with the Bradesco Brand name are added advantages for expanding consortium purchase plan sales.

Segmentation

The Banco Bradesco's entry into this market is part of its strategy to offer the most complete range of product and services options to its clients, with a view to providing all social classes with the opportunity to purchase items through the consortium quota system, filling a market lacuna at accessible prices, especially taking into account in relation to real estate product, the country's current high housing deficit.

Operating Performance

The different way of negotiation of products (Real State, Automobiles and Trucks), with a specialized and focused team, provided Bradesco Consórcios with a growth of 49.8% in the result compared to the 1st half of 2005, highlighting the Towards the Complete Leadership sales campaign, carried out in April and May, when we reached a total of 40.7 thousand quotas sold, amount 39.6% higher than the target established.

Operating Risk

Bradesco Consórcios and DGRC (Department of Risk Management and Compliance) started in February 2005 the works related to the identification and collection of operating losses. Accounting accounts specific for accounting of losses resulting from operating risk events were opened. We understand that these actions meet the concepts introduced by the New Basel Capital Agreement, and this work aims to establish a statistic basis for modeling of the operating risk, with the purpose of lower allocation of capital required, as well as increase the mitigation capacity of risks identified.

N.B.: the market share of Banco do Brasil as of June 2005 was not disclosed.

Bradesco has been playing an important role in the consortium purchase plan industry, enabling to the population access to loan for the acquisition of personal and real property. The freedom to select an asset is one of the main characteristics of the plans sold by Bradesco Consórcios, since the consortium member is free to select a preferred automobile or real property when he/she wins the draw.

In 2Q06, 151 groups were inaugurated and 42.2 thousand consortium quotas were sold. On June 30, we recorded total accumulated sales exceeding 252.2 thousand consortium quotas, summing up sales exceeding R\$ 7.5 billion and recording 70.6 thousand draws, 56.1 thousand properties delivered and 1,326 active groups and 1 groups closed.

Active Quotes

Total Active Quotes

Leadership

According to a strategy defined by the Organization, Bradesco Consórcios leads the automobile and real estate segments and has been searching for a highlighting position in the segment of Trucks and Tractors.

In the real estate segment, Bradesco ended June 2006 with 90,694 active quotas. In the Automobile segment, Bradesco ended with 145,179 active quotas, surpassing consortium management companies associated with car makers, consolidated in the market, such as Volkswagen, Fiat and General Motors.

Leadership (Real Estate and Auto) is conquered and consolidated as a result of ongoing and determined efforts, motivated by the enthusiasm and strength of the Bradesco Branch Network.

Bradesco Corretora ended 1H06 in the 14th position of São Paulo Stock Exchange – BOVESPA of the 93 participant brokers. 35,454 investors were served in such period, executing 381,666 stock call and put orders, summing up a volume corresponding to R\$ 11,286 million. Bradesco Corretora has been participating with BOVESPA in the event *Bovespa vai até você* (Bovespa reaches you), with a view to popularizing the stock market.

In 1H06, Bradesco Corretora traded 1,199 thousand contracts at the Brazilian Mercantil & Futures Exchange – BM&F, with a financial volume of R\$ 104,614 million, reaching the 29th position in the ranking of top 72 participant brokers. It has been driving its efforts to proceed with the expansion of businesses, as well as to disseminate future markets. Concerning the agricultural sector, Bradesco Corretora has been directly acting in the main producing regions of the country, through visits, lectures, and participation in agribusiness fairs and exhibitions. Jointly with BM&F, it has been sponsoring the clients' visit from various regions of the country to São Paulo, for visits to BM&F and Bradesco Corretora. It has also been receiving producers, teachers, opinion makers and dealers of goods physical market. It also takes part in the trading of future mini-contracts of Bovespa Index, U.S. dollar and *boi gordo* (live cattle) through the Web Trading system, with a view to offering an alternative to carry out derivative operations directly at the trading floor.

Electronic trading carried out via Internet in the 1H06 summed up 265,599 orders executed, with a financial volume of R\$ 1,969 million, accounting for 3% over total volume operated via Home Broker at BOVESPA,

with Bradesco Corretora at the 5th position in the ranking. The customer base grew 37%, with the acceptance of 14,063 new registrations in 1H06, period in which we received 44,978 e-mails.

On January 9, 2006, Bradesco Corretora launched the new version of Home Broker, totally restructured, with more benefits, resources and safety for its clients.

With a financial volume of R\$ 1.3 billion in the semester, Bradesco Corretora maintained its highlighting position in the market, operating in Public Offerings for Share Purchase, Primary and Secondary Public Distribution and Special Operations and Privatization Auctions.

Bradesco Corretora offers to its customers a complete investment analysis service with coverage of the main sectors and companies of the Brazilian market. Our team of analysts is comprised of sector specialists who disclose their opinions to clients in an equitable way by means of follow-up reports and guides of stocks. Moreover, clients also count on analyses of the team of economists of Banco Bradesco, one of the most important ones of the Brazilian market.

In addition, it offers non-resident investors representation service in operations conducted in the financial and capital markets, under the terms of the CMN (Brazilian Monetary Council) Resolution No 2,689, as of January 26, 2000.

It also offers the Tesouro Direto (Direct Treasury) Program, which allows the individual client to invest in federal government bonds via the Internet; he/she just have to register himself/herself at Bradesco Corretora via the Website www.bradesco.com.br.

In compliance with the concepts introduced by the New Basel Capital Agreement, Bradesco S.A. Corretora de Títulos e Valores Mobiliários in partnership with the Department of Risk Management and Compliance (DGRC), started in August 2005 a work of identification and registration of events of operating losses taking place in the intermediation of operations carried out in the capital markets as well as other events classified as Operating Risk. The development of this work will provide the treatment of historic data and the performance of statistic studies with the purpose of risk mitigation and constant improvement of internal controls.

The Net Income recorded in the 1H06 amounted to R\$ 15,667 thousand.

The Stockholders Equity, at the end of 1H06, amounted to R\$ 102,822 thousand and assets summed up R\$ 1,480 million.

Bradesco Securities, Inc., a wholly-owned subsidiary of Banco Bradesco, operates as a broker dealer in the United States. The company's activities are focused on the intermediation of stock purchases and sales, with emphasis on ADR operations. The company is also authorized to operate with Bonds, Commercial Paper and Certificates of Deposit, among others, and to provide Investment Advisory services. This Bradesco initiative was motivated by the more than 90 ADR programs of Brazilian companies traded in New York and by the growing interest of foreign investors in the emerging markets, which is designed to offer support for global economy investors who invest part of this flow in countries such as Brazil.

Banco Bradesco obtained the Financial Holding Company status from the Board of Governors of the Federal Reserve System, on January 30, 2004, which will allow the expansion of Bradesco Securities activities.

This status, given based on a rigorous analysis of various aspects determined in US banking legislation, including Banco Bradesco's high level of capitalization and the quality of its Management, will allow the Bank, either directly or through its subsidiaries, to operate in the US market, whenever considered convenient, carrying out financial activities under the same conditions as local banks, in particular the following:

- Securities trading (underwriting, private placement and market-making);
- Acquisitions, mergers, portfolio management and financial services (merchant banking);
- Mutual funds portfolio management; and
- Sale of insurance.

Accordingly, Banco Bradesco has strengthened its role in the Investment Banking segment, increasing opportunities for exploiting various financial activities in the US market and contributing to the increase in the volume of transactions carried out with Brazilian companies.

Market Segmentation

Bradesco operates on a segmented service basis, i.e., seeks to match its different products and services to the different profiles and size of its target public. In line with a world market trend, Bradesco's structure allows to grouping together customers with similar profiles, facilitating superior quality customer service, extending business opportunities with a greater focus on relationship actions.

Bradesco Corporate Banking

Mission and Values

Bradesco Corporate's mission is to meet client's needs, developing long-term ethical and innovative relationship in harmony with stockholders' interest.

The area's principal values and which permeate its day-to-day activities comprise the following:

- teamwork;
- ongoing pursuit of innovation and excellence in customer service;
- transparency in all actions;
- commitment to self-development;
- adherence to strategic guidelines;
- creativity, flexibility and initiative; and
- agile customer delivery.

Background and Achievements

The Corporate Banking segment was introduced in 1999, designed to serve companies from its target market based on a customer, rather than product standpoint, under a centralized relations management, offering as well as traditional products, structured, Tailor-made and Capital Markets solutions, through specific Managers who have a clear vision of risk, market, industries and relationship.

Among the various significant achievements obtained, we point out the ISO 9001:2000 quality certification received by all areas of the Corporate Banking structure, including its Corporate Banking exclusive customer service platforms, as well as the important partnerships entered into with major international banks: UFJ Japan, BBVA Spain and BES Portugal.

Brazilian Desk

Bradesco was the first Brazilian bank to carry out an operating agreement with a Japanese bank allowing the inclusion of approximately 300 thousand Brazilians living and working in Japan.

This partnership between the different professionals from the two Banks, which was carried out during two years, offers checking accounts, products and services destined to meet the needs of this community.

Customers have access to an exclusive UFJ-Bradesco Branch 7-days-a-week with bilingual (Japanese and Portuguese) employees who answer via Automated Consulting and Contract Machines - ACMs, which are fully integrated with the UFJ Branch Network, for local bank services and remittances to Brazil.

These facilities are also available via 6,000 ATMs with screens in Portuguese, offering ease and convenience to customers.

Such operational agreement sets forth a strategic alliance between Bradesco and the UFJ Bank, which after its merger with Banco Tokyo Mitsubishi as from January 1, 2006, became the world's largest bank: Bank of Tokyo Mitsubishi-UFJ (MUFG).

BES

The partnership with Banco Espírito Santo (BES) to provide for funds remittance services from Portugal to Brazil directly benefits more than 100 thousand Brazilians living and working in that Country.

Besides processing the remittance service, the agreement also provides for the opening of checking accounts of Brazilians, allowing their banking inclusion. The opening of checking accounts will give access to various financial products, such as debit card, savings accounts and life insurance.

The funds remittance from Brazilians working in Portugal represents nearly 300 million Euros per year. Brazilians using the remittance service offered by the partnership Bradesco/BES will have competitive cost and more processing alternatives, such as the Internet and 10 thousand ATMs, besides the telephone and the Internet Banking. Inflow of funds will occur and these will be distributed to the beneficiaries in Brazil by Bradesco.

Another example of a solution with significant added value for the Institution are the partnerships entered into with major retail networks for consumer sales financing, made feasible as a result of the relationship and familiarity with this industry's production chain and the synergy which exists among the Bank's various segments.

Total resources comprising assets (credit, bonds and guarantees) and liabilities (deposits, funds and portfolios) amount to R\$ 76.2 billion.

Target Market

The 1,251 Economic Groups comprising Bradesco Corporate's target market, which is mostly comprised of large corporations which record sales results in excess of R\$ 180 million per annum, are located in the states of São Paulo, both the capital and inner state, Rio de Janeiro, Minas Gerais, Paraná, Rio Grande do Sul, Santa Catarina, Goiás, Pernambuco and Bahia.

Specialized Structures

In addition to the teams specialized in the different economic sectors, this service also maintains structures entirely dedicated to the management of specific clients:

Euro Desk this structure is focused on the management of customers of Spanish origin and the development of financial solutions for Bradesco Corporate companies, prospecting business synergies in Europe and Latin America.

Asian Desk this desk serves Asian descendent clients, by developing financial solutions as an economic financial advisor in businesses with Japan and the entire Asia.

Bradesco Empresas (Middle Market)

Bradesco's Middle Market segment (Bradesco Empresas) was implemented with a view to offering services to companies with annual sales results from R\$ 15 million to R\$ 180 million, through 66 exclusive Branches in the main Brazilian capitals.

Bradesco Empresas aims at offering the best business management, such as: Loans, Investments, Foreign Trade, Derivatives, Cash Management and Structured Finance, targeting customers' satisfaction and results to Bradesco.

The 66 Branches are strategically distributed throughout Brazil as follows: Southeast (41), South (16), Mid-West (4), Northeast (3) and North (2).

Bradesco Empresas is formed by a team of 365 Relationship Managers, who are included in the ANBID Certification Program, serving on average 30 economic groups per Manager, on a tailor-made concept, encompassing 21,472 companies from all sectors of the economy.

Bradesco Private Banking

Bradesco Private Banking, through its highly qualified and specialized professionals, offers the Bank's high-income individual customers with minimum funds available for investment of R\$ 1 million, an exclusive line of products and services aimed at increasing their equity by maximizing returns. Therefore, the most appropriate financial solution is sought, considering each client's profile, under the Tailor-Made concept, providing advisory services for asset allocation and fiscal, tax and successor advisory services. Aiming the proximity to its customer base, Bradesco Private Banking has two offices in the cities of São Paulo and Rio de Janeiro, as well as 9 service units in Porto Alegre, Blumenau, Curitiba, Belo Horizonte, Brasília, Salvador, Recife, Fortaleza and Uberlândia. Bradesco Private Banking is also certified by ISO 9001:2000 with scope on the Relationship Management of High Net Wealth Individuals, as well as with the certification GoodPriv@cy (Data Protection Label 2002 Edition) granted by IQNet (The International Quality Network), in the Management of Privacy of Data Used in the Relationship with High Net Wealth Clients.

Bradesco Prime

Aligned with the commitment to providing all its clients with a Complete Bank, Bradesco Prime operates in the segment of High Income clients, having as target-public individuals with income of R\$ 4 thousand or higher or with investments of R\$ 50 thousand or higher.

Bradesco Prime's Mission is to be first Client's Bank, focusing on relationship quality and in offering appropriate solutions to their needs, with prepared staff, adding value to stockholders and employees, within high ethical and professional standards.

Attesting its commitment to quality, Bradesco Prime Department was granted the NBR ISO 9001:2000 certification by Fundação Carlos Alberto Vanzolini, under the scope Bradesco Prime Segment Management, enhancing even more Bradesco's commitment to continuously improving processes and pursuing clients' satisfaction.

Bradesco Prime's customers are provided with:

- VIP facilities specifically designed to provide comfort and privacy;

- Customized service by the Relationship Managers who, due to their small client portfolios, are able to dedicate special attention to each client;

- Differentiated products and services, amongst them, the Bradesco Prime Checking Account, a loyalty program which is designed to add value and provide incentives to the client's relationship with Bradesco through the offer of increasing benefits, the chat on-line, real time financial consultant, besides investments funds exclusively created for Bradesco Prime clients.

Bradesco Prime clients have access to a Network comprising 202 exclusive Branches throughout Brazil. Furthermore, clients use unique Internet Banking and Call Center facilities, in addition to the extensive Bradesco Customer Service Network, which includes its nationwide Branches and ATM equipment.

Some Prime branches also offer differentiated services, such as:

- Prime Digital Branch: focused on customer service via call center with a team of managers available at extended business hours (from 8:00 am to 8:00 pm, 7 days-a-week, including bank holidays).

- Prime Branch at Cidade de Deus, Latin America's first Wireless Branch, where managers use remoteconnected equipment, enabling client to conduct his/her business from his/her own facilities.

The Relationship Managers are continually enhancing their professional qualifications to meet the financial needs of their clients. Moreover, all Bradesco Prime s Managers are included in the ANBID Certification Program.

Bradesco Retail

Bradesco maintains its Retail specialty, serving with high quality service all segments of the Brazilian population regardless of income level. The Bank has more than 16 million individuals and corporate customers account holders, who carry out millions of transactions daily at our Branches, Service Branches, Banco Postal (Post-Office Branches) and Bradesco Expresso, comprising Brazil's largest Customer Service Network, besides thousands of teller machines, providing ease and convenient services over extended hours.

In addition to the extensive service network, clients are offered the comfort of alternative service channels such as Fone Fácil (Easy Phone) service and Internet Banking, which are already used for a significant portion of daily transactions.

Micro, small and medium-sized companies (SME), as well as individuals, are given special attention through oriented management.

The Retail segment has been focusing on the development of financial products, tailor-made to meet the customers' profile in an ongoing effort to offer quality, agile and reliable services to all customers, in particular, bearing in mind the value of customer relations.

The main focus of this segment is directed towards meeting the diverse customer demands, which include the offer of microcredit, onlending, foreign exchange and a complete range of financing products for individuals, which allied with the Bradesco Brand Name and nationwide Branch Network comprise an important source for increasing Bradesco's results.

Significant investments have been made in staff training, aiming at qualifying employees for customized and efficient customer service, seeking to preserve relations and increase the customers' loyalty to the Bank.

Bradesco Retail also makes available a Digital Branch, operating in a virtual environment and offering courier service. The Branch has a team of managers who serve its clients, regardless of location, from 8:00 am to 8:00 pm, seven days a week.

Banco Postal

Banco Postal is a brand through which the Brazilian Post Office Company ECT renders services as Correspondent Bank of Bradesco. Banco Postal is present in more than 4,800 cities of Brazil, and aims at serving the low income population, especially in 1,700 cities where there are no other financial institution.

Thanks to Banco Postal, millions of Brazilians, who before were excluded from the banking system, now have the possibility of opening a bank account and obtain loan with a regulated institution. In addition, Banco Postal enables a greater economic development of the cities, fomenting new entrepreneurs, hence, improving peoples' lives. It also enables the replacement of physical money with debit and credit cards, reducing risks and easing funds management.

Bradesco Expresso

Bradesco has increased its share in the segment with the expansion of Bradesco Expresso Network, by means of partnerships entered into with supermarkets, drugstores, department stores and other retail chains.

For clients and community in general, Bradesco Expresso offers a convenient banking service, closer to the residence or workplace. For Bradesco, this is the best way to reach low income clients, especially the population deprived of bank services, and promoting the inclusion of millions of Brazilians in the banking system, which would not be possible by means of traditional banking branches, in view of high installation and operational costs. Concerning shopkeepers, Bradesco Expresso foments a higher flow of clients and encourages them to visit the establishment many times, opening possibilities for loyalty and sales increase.

Risk Management and Compliance

Credit Risks, Operational Risks, Market Risks, Internal Controls and Compliance

Activity and Structure

The risk management activity plays a significant role, not only as a result of a growing complexity of services and products offered by the Organization, but also in view of the globalization of its activities. Therefore, Bradesco has improved its risk management-related activities, in pursuit of the best internationally used practices, however duly adjusted to Brazil's reality.

Bradesco deems the risk management a generating factor of competitive advantage employed by the Organization with a view to adding value to Bradesco Brand, to the extent this enables support to the business areas in the planning of their activities, optimizing the utilization of own funds and of third parties, in benefit of stockholders and the company. In this regard, Bradesco foments the technical improvement of its team on a permanent basis and particularly, the professionalization of those connected with the risk management and control.

The organizational structure of the Risk Management and Compliance Department – DGRC reflects the Organization's commitment to the issue, once the integration of three risks into one independent Department brings great advantages to risk management, meeting the concepts enacted by the New Capital Accord (Basel II) and the best Corporate Governance practices.

Organizational Structure of the Risk Management and Compliance Department:

The structure of the Risk Management and Compliance Department also aims at ensuring the necessary focus to such activities and generate a solid added value. Robust investments are made, especially in the qualification of employees, to enhance the quality of risk management of the Conglomerate, not restricted to the banking activities, but on the contrary, extended with the same relevance to the other activities of the Organization.

Additionally, the Risk Management and Compliance Department coordinates all the actions necessary to comply with the regulations issued by the Brazilian Central Bank, as regards the New Capital Accord (Basel II). These works are directed by an Executive Committee designated by the Board of Directors, under the coordination of the Organization's President.

The Department also has as attribution the responsibility for the compliance with the Resolution 2554 of the Central Bank of Brazil (Internal Controls) and with the provisions of the Sarbanes-Oxley Act, Section 404.

Risk Management Process

Bradesco adopts a comprehensive and integrated approach for managing all risks inherent to its activities, based on the support from its Internal Controls and Compliance structure. This integrated view allows the improvement of its risk management models, filling possible gaps, which could jeopardize the correct identification and assessment.

Credit Risk Management

Credit Risk is the possibility of a counterparty of a loan or financial operation might neither intend nor suffer any change in its ability to comply with its contractual liabilities, thus may generate any loss for the Organization.

As part of its Credit Risk Management improvement process, Bradesco is working uninterruptedly to improve the procedures for gathering and controlling portfolio information, developing and improving loss estimation models to examine and prepare the rating inventories used in the follow-up of credit analysis, granting and settlement processes, monitoring credit concentration and identifying new components offering credit risks and preparing risk mitigation strategies.

Efforts, which are focused on the utilization of advanced models, used to assess the risks and improve processes, have demanded exhaustive works by all areas comprising the loan chain, and on the other hand, have reflected on the quality and performance of the portfolio seen over the past quarters, both in terms of results and solidity to various past and future scenarios.

We also point out the following actions and events:

The Executive Committee of Credit Risk Management monthly holds a monthly meeting, enabling the follow-up and the participation of the Top Management in the major facts and decisions referring to credit risk;

incentives to improve risk rating models of clients within particular characteristics in the business segments Bradesco operates;

participation in the evaluation of credit risks upon review of formalization of products;

implementation of expected and unexpected losses calculation system, besides the allocation of corresponding capital;

a periodical review of projects related to the compliance with best practices and requirements of New Capital Basel Accord, by monitoring actions in progress and identifying new gaps and needs emerged for the improvement of management process, preparing action plans;

backtesting of the models used for measuring loan portfolio's risks;

optimization of the manageable information systems in order to meet the current approach of department and customers' segmentation, emphasizing decision-making process and loan portfolio's management;

follow-up of critical risks: periodical monitoring of the main events of default, by means of individual analysis based on the growth of clients' balances and recovery estimates; and

continuous review and restructuring of the internal processes, including roles and responsibilities, qualification, organizational structures review and IT demands.

Operational Risk Management

Under the corporate scope, Bradesco Organization defines operational risk as a manifestation of events resulting in the business interruption, systems failure, errors, omissions, frauds, or events in various activities, with impacts over clients and the Institution.

The operational risk management is based on the preparation and implementation of methodologies, using a standardization specific system of collection format and treatment of operating loss historical data and is aligned to best practices of operational risk management. We point out that we are under the conditions to meeting the guidelines enacted by the New Capital Basel Accord and to the schedule set forth by the Central Bank of Brazil, by means of Notice #12,746, issued in December 2004.

The National Monetary Council issued by means of the Central Bank on June 29, 2006 the Resolution 3380 which provides for the implementation of the operational risk management structure. Since 2003, the Bank is fully aligned with this guidance about operational risk management in all Bradesco Organization.

We have been conducting quarterly theoretical calculations of operational risk capital allocation, using the Basic Indicator Approach (BIA), Standardized Approach (STA) and the Alternative Standardized Approach (ASA), as defined by Basel II and Notice 12,746 of the Central Bank of Brazil. Through such studies, we verified a lower utilization of capital with the Alternative Approach (ASA), when compared to the others, according to the table below:

Participation among Approaches in the Calculation of Capital Allocation for Operational Risk

Approach	1Q06 (*)
Basic Indicator (BIA)	100.0%
Standardized (STA)	95.9%
Alternative Standardized (ASA)	56.0%

* Calculated according to the Central Bank of Brazil criteria.

141

In 2005, Bradesco concluded an exhaustive process of reviewing the corporate accounts plan, which included the review of the Organization's products and services. As a result of such work, Bradesco opened specific accounting items, improved the records and the analysis of events related to operational risk, by also resulting in the improvement of internal processes, associating them to the lines of business enacted by Basel II, which on their turn, are aligned to the concepts used in the credit risk management.

Aiming at synergy and rationalization of resources, an identical work is also under development in the Insurance Group. These efforts focus on the convergence of implementation of concepts of Basel II and Solvability II, concerning the knowledge and development of the advanced (operating losses) and intermediate (based on gross result) methodology for unification of the criteria within Bradesco Organization, in conformity with Resolution 3380 in terms of financial economic consolidated.

In addition, in the 1st half of 2006 we maintained efforts to identify operational losses occurred with loan instruments, by observing the concepts of Basel II, and obtaining solid results in the businesses involving the Retail Segment.

Bradesco Organization's goal is to obtain qualification for the Advanced Measurement Approach (AMA). The data to prepare the calculations required are obtained by means of book accounts opened for registration of Operational Risk loss events. This structure enables a better understanding of the events, as well as a detailed evaluation of their occurrences by means of inferences about the operational data base.

When determining the regulatory capital for Operational Risk, by the Advanced Methodology, we measure the expected losses (EL), not only in compliance with Basel II rules, but also an assistance for the establishment of operational losses provisions necessary with statistical assistance.

Those losses not classified as expected (EL), i.e., the unexpected losses (UL) are calculated by using the LDA (Loss Distribution Approach) methodology, which comprises the estimate of distribution of severity (loss amount), frequency (number of losses events) and the calculation of VaR (Value at Risk), which represents a maximum loss with 99.9% of chance of occurring. Therefore, we consider as unexpected loss (UL), the difference obtained between the expected loss and the VaR measure, which will reflect on future capital allocations.

In addition, a new systemic business platform is under validation process, which will integrate into a single data base, the Operational Risk and Internal Controls information (quantitative and qualitative portion of the risk), and will comprise the requirements set forth by the U.S. Sarbanes-Oxley Act.

Market Risk Management

Market risk is related to the possibility of the loss of income from fluctuating rates caused by mismatched maturities, currencies and indexes of the Institution's asset and liability portfolios. This risk has been accompanied by growing strictness by the market, with significant technical evolvement over the past years, with a view to avoiding, or at least, minimizing, eventual losses to institutions, due to higher complexity in operations carried out domestically and internationally.

At Bradesco, market risks are managed through methodologies and models, which are consistent with local and international market realities, ensuring that the Organization's strategic decisions are implemented with speed and a high level of reliability.

The Organization adopts a conservative policy regarding market risk exposure; VaR (Value at Risk) limits are defined by Senior Management, and compliance therewith is daily monitored by an independent area to the portfolio management. The methodology used to determine VaR has a reliability level of 97.5%. The volatilities and correlations used by the models are calculated on a statistical basis and used in processes based on future prospects in accordance with economic studies. The methodology applied and current statistical models are validated daily using

backtesting techniques.

Other	810	436	775	5,267	3,413	1,002
Correlated Effect	(41,466)	(24,862)	(39,901)	(59,897)	(50,799)	(41,206)
VaR	78,229	47,831	63,875	69,678	63,347	85,765
Average VaR in the Quarter	70,082	58,896	63,357	69,371	60,495	71,419
Minimum VaR in the Quarter	59,765	36,923	43,873	58,796	44,856	37,556
Maximum VaR in the Quarter	78,229	78,036	80,911	82,457	74,138	100,305

Investments abroad protected by hedge operations are not considered in the VaR calculation, since these are strategically managed differently, with amounts taking into account the tax effects, which minimize the sensitivity to risks and corresponding impacts on results, as well as foreign securities positions, which are funding-matched.

Besides the follow-up and control via VaR, a Sensitivity Analysis is made daily, which measures the effect on domestic interest rate curve portfolio and exchange coupon curve (differential of interest paid above the exchange variation), as well as possible impacts on stress scenarios positions are periodically assessed.

Complementing the market risk monitoring, control and management structure and in accordance with Central Bank regulations, a daily verification is made of the values at risk for the pre-fixed and foreign exchange positions of the Organization's entire portfolio and of remaining capital requirements.

Management of Internal Controls and Compliance

The Organization is continually developing policies, systems and internal controls to mitigate possible potential losses generated by its exposure to risk, destined to optimize processes and procedures, among which we point out the following:

Internal Control System based on 25 Basel Internal Control Principles and in the methodology of Committee of Sponsoring Organizations – COSO, in the businesses areas, referring to control environment components, risk assessment, control activities, information, communication and monitoring and Control Objectives for Information and related Technology – COBIT, for the information technology areas. This system reinforces the ongoing improvement in the identification process and assessment of controls used in risks mitigation, also in compliance with the Sarbanes-Oxley Act, Section 404.

SPB Management Brazilian Payment System, has the purpose of ensuring the execution of the messages among the Banks of the Organization and all the entities participating in this system. The activity is supported by monitoring tools of the Organization's information systems, aligned with the continuous training and professional qualification, with the purpose of ensuring full operationality and availability of the system. Additionally, the Organization has a PCN Operational Continuity Plan for SPB, documented in a specific tool and with corporate access, comprising predefined scenarios and actions, which enables the reduction of systemic unavailability risk. The areas involved in the process also count on a physical environment located in Alphaville, for operational continuity of the SPB processes, in the occurrence of a possible claim (fire, landslide, strike etc.), in the facilities of the Headquarters or Nova Central, which hinder the performance of activities. PCN SPB is continuously tested and the evidences are published in standard reports disclosed in our corporate intranet.

Measures preventing and combating Money Laundering observe the best market practices and are based on the policy *Conheça seu Cliente* (Know your Client). Training and awareness programs are exhaustively provided to all employees and the use of technological tools to monitor financial transactions are constantly upgraded, with a view to protecting the Institution and Management, Stockholders, Clients and Employees and avoid the use of Organization in transactions or situations, which may be directly or indirectly related to crimes preceding money laundering, characterized in the Law 9,613/98.

Information Security Management, consolidated in the Security Policy, is designed to protect client and corporate information. Bradesco Organization has a formal structure, with specific objectives and responsibilities, for defining, maintaining and improving information security in the corporate environment, which is based on the Corporate Information Security Policy and Standards approved by the Executive Information Security Committee. The following policies are adopted in relation to client information:

Information is collected ethically and legally and under the clients' awareness, for specific purposes and are duly informed;

The information received by Bradesco are treated and stored safely and fully, with cryptography methods or digital certification, when applicable;

The information will only be accessed by persons legally authorized and qualified;

The information may be available to companies contracted for services rendering, however it is required that such organizations comply with our guidelines for security and privacy of data;

Clients' information only will be provided to third parties, by means of previous authorization of the client or to comply with a legal or regulatory requirement;

The information for the purposes of evaluation of credit, checking and risk management, may only be exchanged with respectable reference sources and clearing services; and

The information and data included in our records, as well as other requests to ensure legal or contractual rights will only be provided to those interested, by means of formal request, observing the prevailing legal requirements.

Liquidity Risk Management

Liquidity risk management is designed to control the different mismatched settlement terms of the Institution's rights and obligations, as well as the liquidity of the financial instruments used to manage the financial positions.

Knowledge and monitoring of this risk are critical since they enable the Organization to settle transactions on a timely and secure manner.

At Bradesco, liquidity risk management involves a series of controls, mainly with respect to the establishment of technical limits, with constant assessment of the positions assumed and the financial instruments used.

Capital Risk Management

The Organization's capital is managed to optimize the risk to return ratio, in such a way to minimize losses through the implementation of well-defined business strategies and maximizing efficiency in the combination of factors which impact on the Capital Adequacy Ratio (Basel).

Capital Adequacy Ratio (Basel) June 2006 R\$ million

Loan Policy

The Organization's Loan Policy complies with resolutions of the Board of Executive Officers and Brazilian Central Bank, besides guiding their actions by goals of security, quality, liquidity and diversification in the assets utilization.

In a continuous search to offer agile and profitable business, we apply appropriate methodology directed to each Bradesco's business segment, as well as guiding the establishment of operating limits and the granting of loan operations.

Within rules and Loan Policy, the Branches maintain their limit values variable, according to the size and guarantees of operations, and the automatic classification is verified against global risk of client / economic group.

The loan proposals pass through an automated system and under parameters in a continuous improvement process, with a view to supplying indispensable subsidies for analysis, granting and follow-up of loans granted, minimizing the risks inherent to loan operations.

For the granting of mass loan, the specialized Credit Scoring systems enable to attain greater agility and reliability, besides the standardization of procedures in the credit analysis and granting processes.

The Loan Committee located at Bradesco's Headquarters aims at joint decision-making processes within its skills referring to consultations about limits or operations proposed by the Branches (Prime, Private, Varejo (Retail) and Corporate) and by the Departments (Corporate and Exchange), including External Branches, previously analyzed and with opinion of the Loan Department.

Operations are diversified, non-selective and focused on individuals and corporate customers with sound payment capacity and proven creditworthiness. Care is taken to ensure that the underlying guarantees are sufficient to cover the risks assumed, considering the purpose and terms of the loan granted.

Methodology Used for Loan Portfolio and Client Classification

The credit risk assessment methodology, besides delivering data to establish minimum parameters in the loan granting and risk management, also enables to define differentiated loan policies in view of characteristics and size of client, providing grounds not only for the correct pricing of operations, but also the definition of adequate guarantees according to each situation.

Concerning the internal policy, the risk ratings of Bradesco's clients are given on a corporate basis and periodically followed-up, with a view to preserving the quality of loan portfolio, according to the following levels:

Classification Corporate

Rating	Bradesco	% Provision	Concept
AA	Excellent	0.0	Premium clients, with size, tradition and market leadership, with excellent reputation and economic and financial position.
A	Very good	0.5	Clients with size, sound economic and financial position, operating in markets with good prospects and/or potential for expansion.
B	Good	1.0	Clients, which, regardless of size, have a good economic and financial position.
C	Acceptable	3.0	Clients with a satisfactory economic and financial position but with performance sensitive to economic scenario variations.
D	Fair	10.0	Clients with economic and financial position in decline or unsatisfactory accounting information, under risk management.
E	Deficient	30.0	
F	Bad	50.0	Loan operations with any expectation of not being paid or in default, classified under the possibility of loss.
G	Critical	70.0	
H	Uncollectible	100.0	

In the case of individuals, the risk ratings mentioned above are mainly defined based on their registered reference variables which include: income, equity, restrictions and indebtedness, besides standard and past relationship with Bradesco.

Credit Cards

In 2Q06, Bradesco increased 41.3% its credit card base in relation to the same period of 2005 and the number of transactions climbed 30.0% in relation to 2Q05.

Sales for 2Q06 reached the amount of R\$ 4,905.8 million, a growth of 52.0% as compared to the same period in 2005, with a market share of 13.8% (source: ABECS).

In this quarter, Bradesco launched Bradesco Transportation Card, targeted at transportation, shipping, risk management companies and truck drivers.

Bradesco Transportation Card is the first one in the market that has several products and services in a single card: Tool Voucher, freight reception, purchases in the Visa Electron Network, withdrawals in Bradesco Dia&Noite (Day&Night) Self-Service Network and Credit Card.

Credit Cards Base million

Credit Cards Sales R\$ million

Debit Cards

Bradesco started the 2nd quarter of 2006 with a base of 38.2 million Debit Cards, closing the period with 38.9 million, representing a growth of 1.8% .

The debugging process of the base, started in 4Q05 and which resulted in the exclusion of inactive Eletron cards, is showing a better quality of the base. The average quantity of transactions per card grew 19.1%, and the total quantity of transactions made by debit card in 2Q06 was 72.9 million, a 13.6% growth compared to 2Q05.

In terms of sales results, in 2Q06, there was an increase of 16.8% over the same period of 2005. The financial volume reached R\$ 3,272.6 million versus R\$ 2,801.5 million in 2Q05.

These two indicators clearly demonstrate that Brazilians are changing their payment habits, replacing checks and cash for the use of cards, especially debit cards.

148

Debit Card Base million

Debit Card Sales R\$ million

Cards Private Label/Hybrid

In this market, Bradesco operates in the segments of supermarkets through partnerships with the stores Comper, Dois Irmãos and Carone; in the segment of Retail stores with the partnerships with Casas Bahia, LeaderCard and Lojas Esplanada (Grupo Deib Otoch); and in the Clothing segment with the partnership with Lojas Hering.

It ended the 2nd quarter of 2006 with 3.0 million cards, revenue of R\$ 211.7 million and 2.7 million transactions.

Bradesco concluded negotiations with Brazil's fifth largest supermarket chain, G. Barbosa Group, for the launch of the card Private Label Credi-Hiper. Currently with 680 thousand users, the partnership must increase the loan basis and advantages.

149

Meal Cards

In partnership with other issuers and Visa International, Bradesco actively participated in the distribution of Visa Vale cards.

The value proposal for this business, besides reducing the operational cost with 100% of electronic transactions, it offers higher security and agility for companies and workers.

This quarter, Visa Vale, although being a company with only 3 years of activity, launched the extraordinary brand of 3.0 million cards issued and revenue of R\$ 1.8 billion, ranking 2nd in this segment.

Bradesco contributed with a base of 1.1 million Visa Vale cards in 2Q06, representing a growth of 3.4% compared to the same period of 2005. Revenue in the half added up to R\$ 774.2 million, a growth of 42.3% compared to the same period of 2005.

Visanet

Bradesco holds interest of 39.7% in the capital of Visanet, acquirer company of Visa in Brazil, the purpose of which is to capture and authorize transactions within the Brazilian territory and manage the chain of commercial establishments affiliated to Visa System.

In June 2006, Visanet had more than 920 thousand affiliated establishments throughout Brazil, present in more than 4,629 Brazilian cities.

Income from Credit Cards

Card services revenue reached, in the 1st half of 2006, R\$ 703 million, with a growth of 18.4% compared to the same period of 2005, mainly in revenues of commissions on purchases made with Credit and Debit Cards and several fees of services provided to clients which are card holders and affiliated establishments.

In the 2nd quarter of 2006, financial revenues increased 33.2% compared to the same period of 2005, reaching R\$ 599 million.

Credit Card Assets

In 2Q06 2006, Credit Card assets, which include financings to the bearer, advances to establishments and credits for cash purchases and by installments increased 103.6% compared to the same period in 2005, ending the quarter with R\$ 6,769.7 million, considering the assets of the Amex operations.

International Area

The International Area operates under the following framework:

7 Units Abroad (Branches and Subsidiaries)

Branches:

New York	Bradesco
Grand Cayman	Bradesco
Nassau	Boavista

Subsidiaries:

Buenos Aires	Banco Bradesco Argentina S.A.
Luxembourg	Banco Bradesco Luxembourg S.A.
Tokyo	Bradesco Services Co., Ltd.
Grand Cayman	Cidade Capital Markets Ltd.

12 Operational Units in Brazil

Belo Horizonte (with support platform in Brasília), Blumenau, Campinas (with support platforms in Franca, Ribeirão Preto and Sorocaba), Curitiba, Fortaleza, Manaus (with support platform in Belém), Porto Alegre, Recife, Rio de Janeiro, Salvador, São Paulo (with support platforms in Guarulhos and Santos) and Vitória.

Bradesco Organization, by means of its International Area, reaffirms once again the commitment assumed in the past years for the expansion, strengthening and consolidation of the Brazilian foreign trade.

The figures reached in the first half of 2006 show this commitment.

Export exchange closings carried out by Bradesco from January to June 2006, reached US\$ 15.7 billion, recording an evolution of 29.5% compared to the same period of 2005, while the evolution shown by the market stood at 19.8% . This performance enabled the International Area to set a new record in export exchange closings in a single month, fact which took place in May with US\$ 3.1 billion, exceeding by 10.7% the previous record of US\$ 2.8 billion in March this year.

The market share in the period, record for a half, stood at 22.7%, surpassing by 1.3 percentage point the previous record of 21.4% reached in the 2nd quarter of 2004.

In line with the export market, the closings of import exchange agreements by Bradesco added up to US\$ 5.8 billion in 1H06, representing an evolution of 18.4% compared to January to March 2005.

As the export market, the semester registered also in June a record in import foreign exchange closings when it accounted for the amount of US\$ 1.2 billion, exceeding by 14.0% the previous record reached in September 2005. The market share in this market reached in the semester 14.6% .

The International Area ends the 1st half recording in its Foreign Trade Portfolio the expressive balance of US\$ 6.5 billion when taking into account the amounts of Export and Import Financing, Foreign Collateral Provided and Loans to Brazilian companies abroad. Compared to the same period of 2005, the amount had an evolution of 44.9%, representing a new record for the International Area in the amounts granted of financing in these categories.

Volume of Foreign Currency Trade US\$ billion

Export Market

Import Market

With the clear purpose of offering a larger support to companies operating in the exchange market and foreign trade or those that try to operate in this market, Bradesco is investing in the expansion of its structure, creating exchange platforms in the main export centers of the country. These platforms are located jointly with the segment Bradesco Empresas and count on professionals specialized in exchange and foreign trade.

It is also worth pointing out that Bradesco already uses a Digital Certification system for foreign exchange contracts. This service allows the customer to electronically sign exchange contracts, which, besides making the clients transaction easier, speeds up the exchange contracting flow, reducing operational risks and costs.

152

Overall Total	4,515.6	10,611.2	6,541.3	14,154.5

The support to financings of the Foreign Exchange Portfolio is financed by credit lines obtained with correspondent banks abroad and at the end of the 1st half this year, 86 U.S., European and Asian Banks had extended credit lines to Bradesco.

The spreads paid by Bradesco in this 1st half are between 12 and 21 basis points above Libor for a period between 180 days and 360 days, respectively.

Compared to the same period of 2005, it was noticed a decrease which totaled approximately 12 basis points on average, evidencing a substantial improvement in the international market perception towards the country risk.

We present below the book balance of Assets and Stockholders' Equity of the foreign units on respective dates:

Edgar Filing: BANK BRADESCO - Form 6-K

The core objective of the Foreign Branches and Subsidiaries is to obtain funds in the international market for onlending to clients, mainly through the financing to the Brazilian foreign trade.

The main activity of the subsidiary Banco Bradesco Luxembourg S.A. is to provide additional services to private banking clients and to increase foreign trade operations.

In the end of 1H06, besides the short-term funds obtained with correspondent banks for foreign trade financing, Bradesco Organization obtained the amount of US\$ 300.5 million in the international capital markets by means of public and private, medium and long-term placements, earmarked for foreign trade financing and working capital loans.

Capital Markets

Underwriting Transactions

During 1H06, Bradesco coordinated important stock and debentures transactions, which amounted to R\$ 7.8 billion. This volume accounts for 28.21% of the total amount of stock, debentures and promissory notes issuance recorded by Brazilian Securities and Exchange Commission (CVM) in the same period.

Among the operations we took part, we can highlight the Public Offering of Stocks of Rossi Residencial S.A., in the amount of R\$ 862.5 million and the Public Offerings of Debentures of Petroflex Indústria e Comércio S.A., in the amount of R\$ 160.0 million, Companhia Piratininga de Força e Luz, in the amount of R\$ 400.0 million, Telemar Norte Leste S.A., in the amount of R\$ 2.2 billion. We also point out the Public Offerings of Debentures of Bandeirante Energia S.A., in the amount of R\$ 250.0 million and of Enersul Empresa Energética do Mato Grosso do Sul S.A., in the amount of R\$ 337.5 million, both belonging to Grupo Energias do Brasil.

In addition to the local market, Bradesco also operates in the international capital markets, originating and structuring underwriting transactions of fixed income (commercial papers, notes and bonds) for placement with foreign investors.

Special Operations Mergers, Acquisitions, Corporate Reorganizations and Privatization Operations

Bradesco has a specialized team for the financial advisory services in mergers, acquisitions, spin-offs, joint ventures, corporate restructuring and privatizations operations.

In the 1st half of 2006, four important operations were concluded: i) the acquisition of activities of American Express in Brazil by Bradesco; ii) partnership among Banco Bradesco, Banco ABN AMRO Real and Fidelity National Information Services, Inc. for the provision of card processing services, creating Fidelity Processadora e Serviços S.A.; iii) financial assistance to Açúcar Guarani S.A. in the operation in which its holding company, Tereos Group, took over the share control of Companhia Energética São José; and iv) financial assistance to Satélite Distribuidora de Petróleo S.A. in the association with Ale Combustíveis S.A., creating the sixth largest company of this competitive segment of Brazil.

Project Finance Operations

Bradesco has a solid track record being the financial structuring company and advisor for several greenfield projects in the categories Project and Corporate Finance. The team of specialists has a close relationship with BNDES and several development bodies.

In the 1st half of 2006, Bradesco was chosen as the financial advisor for projects in the category Public-Private Partnerships (PPP).

Structured Operations

With the purpose of providing the best assistance for companies, Bradesco counts on highly qualified professionals for:

- development of structures used to segregate credit risks, through Special Purpose Entities (SPEs), Credit Acquisitions, Credit Right Investment Funds (FIDCs) and Certificates of Real Estate Receivables (CRIs);

- structuring of properly protected medium and long-term financings based on pre-defined cash flows pursuant to specific covenants and guarantees, which minimize the risks of each transaction; and

- coordination of syndicated loan processes, including the extension of debts, which can be refinanced, structured by the Bank or by third parties.

Among structured operations developed during 1H06 we can highlight the FIDCs Quero-Quero Financeiro, in the amount of R\$ 51.0 million and of Cemig FIDC Conta CRC, in the amount of R\$ 900.0 million and FIDC Marcopolo Financeiro, in the amount of R\$ 96.0 million and Built to Suit Financing of Confidere Imobiliária e Incorporadora Ltda., in the amount of R\$ 97.0 million.

Cash Management Solutions

Cash management solutions are dealt with by means of the performance of the team of experts which conducts the analysis and implementation of customized and parameterized solutions, conditioned to the needs of cash management of the companies, maximizing results in the mutual view of businesses offered and operated with clients, with a technological synergy of the products and channels involved.

Among the key product and service solutions made available by Bradesco, we point out the following:

Receivables Solutions

Bradesco Online Collection

The high efficiency standards of Bradesco's online collection service generate confidence, minimizing costs and maximizing customer returns, covering all of their accounts receivable management needs.

As a result of these features, Bradesco Collection is the market leader, generating other business opportunities for the Organization.

Tax Payment and Collections

Developed based on high standards of efficiency and quality, Bradesco's tax payment and collections serve a dual purpose. On the one hand, they seek to provide customer satisfaction with appropriate and innovative solutions for the settlement of taxes, duties and contributions. On the other hand, they effectively interact with the different Government Departments in the federal, state and local spheres and with Public Utility concessionaires. These are emphasized for the speed and security in processed information and amounts collected.

Payment Solutions

Pag-For (Suppliers Payment), Bradesco Net Empresa and PTRB (Electronic Payment of Taxes)

Based on the same efficiency commitment, Bradesco's payment solutions available via the Net Empresa, Pag-For and PTRB products, meet all clients' needs, enabling supplier payments, tax settlements and wire transfers, via online or through the transmission of files with maximum speed and security.

In 1H06, payment solutions accounted for R\$ 252.7 billion, corresponding to 67.2 million payment transactions, enabling the management of Accounts Payable of more than 392 thousand companies.

Corporate Solutions

Bradesco Digital Certificate

Attentive to the market trends, Bradesco is accredited as Register Authority to issue the Digital Certificate, which is an electronic identification document ensuring integrity, authenticity and the irreversibility of any transaction or message, assisting to maintain the confidential data protected, in addition to allowing documents storage.

Bradesco Digital Certificate is legally valid and is digitally signed by a Certifying Authority, and may be used for documents digital signature.

Government Authority Solutions

The activities of the Government Authority area comprise a differentiated service to federal, state and local bodies, identifying business opportunities and structuring customized solutions, also counting on a portal in the Internet (www.bradescopoderpublico.com.br).

Custody	R\$ 222.3 billion in assets under custody (Funds, Portfolios, DR and Receivable Funds).
Controllership	R\$ 261 billion distributed in 726 Assets under Management and Portfolio under Management.
Depositary Receipt DR	R\$ 48.4 billion in 8 Programs.

Assets under Custody Growth R\$ billion

Business Processes

Ombudsman Area

Bradesco Organization always had the philosophy of giving voice to its clients and users of banking products and services, innovatively creating in April 1985, the service Alô Bradesco (Hello Bradesco), which was the first financial market communication channel for suggestions and complaints, five years prior to the launching of Consumer Defense Code. This channel contributed to enhance these relations and has been an important strategic tool for relations transparency.

We implemented the Ombudsman area, dealing with all manifestations, whether these stem from Alô Bradesco service, which answers by phone and e-mail, or those deriving from Brazilian Central Bank, Procon (Consumer Protection Agency) and Press. It is incumbent upon the Ombudsman to manage these manifestations, follow-up term and quality of answers offered, provide the managers of products, services and processes with updated information so that they can learn from these warnings received and anticipate compatible solutions with needs and demands of our clients.

Quality Management NBR ISO 9001:2000 Certifications

The Bradesco Organization has 127 Products and Services certified by NBR ISO 9001:2000, confirming the Bank's commitment to assuring ongoing ease and convenience for its clients and users.

These achievements motivated the Organization to advance in the quality management practices, thus adopting the Excellence Criteria Worldwide Class, which, undoubtedly represent a great differential in business management, as well as they highly contribute to issues of sustainability and corporate governance.

Protection Seal and Data Privacy GoodPriv@cy

GoodPriv@cy Data Protection and Privacy Seal is a standard established internationally, comprising requirements for the management of data protection and privacy at the organizations.

GoodPriv@cy was launched in Switzerland in 2002, under the scope of IQNet in 2003 and it is ensured that all and any information collected is collected and stored according to the most strict security and reliability standards.

GoodPriv@cy seal attests that the certified organization:

- operates a management system for data protection (DMS Data Management System).
- complies with statutory requirements for data protection and privacy.
- continuously improves data protection and privacy processes.

GoodPriv@cy is granted by independent bodies. In Brazil, FCAV Fundação Carlos Alberto Vanzolini, member of IQNet The International Certification Network is the single authorized body to grant said data privacy and protection seal after the compliance audit with GoodPriv@cy Data Protection 2002 Edition.

Bradesco Organization has 8 certifications:

- Fax Fácil
- Fone Fácil
- Home Broker
- Internet Banking
- Private
- Custody - Dockets
 - Liabilities docket data privacy management.
 - Assets docket data privacy management.
 - Report data privacy management.

Methodology for Mapping Processes

This methodology is designed to codify and standardize processes mapping works carried out by the Organization's different departments on a stage-by-stage basis which, in conjunction with the information on related products, services and activities, ensures that these processes are effectively analyzed in the pursuit for ongoing improvement, as well as providing the documentation required by the Internal Controls and Compliance System, the Bradesco Quality Management System based on the NBR ISO 9001:2000, the Activity-Based Costing System ABC and Section 404 of the Sarbanes-Oxley Act.

Activity-Based Costing ABC

Designed to support the Bank in its actions to improve processes and optimize production resources, such as practices recommended for decreasing costs, Bradesco adopts the Activity-Based Costing System ABC, which measures the cost and performance of its activities, resources and cost centers.

The knowledge of the Bank's activities, as well as the correct measurement of the resources consumed by these activities, allows a more accurate analysis of the cost/benefit ratio of each of the Organization's productive processes and results centers.

We stress that as a result of the application of Activity-Based Costing, the Bank is now meeting the following targets: improved allocation of costs to products, channels and customers; support to qualification studies and negotiation of bank fees; subsidy to product, unit and client profitability systems; support to studies concerning outsourcing, incorporation and equipment sharing, as well as support to cost rationalization studies.

Activity-Based Management Program

Seeking to explore the potential applications of the information base of the Activity-Based Costing, we are to adopt a Cost Management model by means of the Activity-Based Management ABM, which will rapidly lead to the prevention of costs and a proactive approach regarding the identification of opportunities.

Accordingly, as processes are improved, operating performance can be seamlessly integrated with Bradesco's strategic goals, designed to create and/or sustain Bradesco's competitive advantages and add value both for clients and stockholders.

The future mission of Activity-Based Management is to provide permanent support to the planning and control of the Bank's business processes, ensuring that tactical and operational issues are continually improved, as well as supporting their strategic gearing.

Expenses Assessment Committee

In the pursuit of enhanced cost control and the adoption of strategies, policies and measures designed to restrain expenses, in March 2004, Bradesco created the Expenses Assessment Committee, responsible for monitoring administrative and personnel expenses, as well as stockholders' equity to fixed assets, analyzing their origin with the related areas, seeking to obtain a maximum cost/benefit ratio.

In line with good Corporate Governance practices, the Committee is an important tool, as a result of its permanent activity and capacity to anticipate events, for improving and enhancing processes, capable of carrying out an in-depth analysis of Bradesco's costs, from all standpoints and producing savings which reflect positively on the Organization's results.

Integrated Management System - ERP

For purposes of providing permanent and appropriate support for its operations and in the pursuit of improved results, as well as extending its capacity to manage the Organization's resources, Bradesco adopts one of the most modern concepts for integrating organizational processes, using SAP's Integrated Management System, mySAP Business Suite solution.

This system's development represents an innovation in the treatment of the value chain supporting Bradesco's financial industry, through the adoption of an approach, which is focused on processes, people, organizational structure and technology.

Initially, the system will integrate processes in the Human Resources, Training, Purchases, Accounts Payable, Fixed Assets and Accounting, processes on which they are based. The areas integrated through this technology will be able to renew processes and review organizational structures and nearly 75 thousand system users will be qualified via in-class and e-learning training.

As a result of the implementation of the Integrated Management System, Bradesco will benefit most from the organization and standardization of the processes carried out in different areas, secure data processing, increased productivity and agile decision-making, as well as decreased operating costs. These factors are crucial for the Organization's growth, especially in view of current financial area competition, prompting us to pursue increasingly effective management methods designed to ensure that all of Bradesco's business potential is properly leveraged.

Acknowledgments

Bradesco's president, Márcio Artur Laurelli Cypriano, was elected 2005 National Sector Leader in the Finance - Banks sector, in the Forum of Business Leaders. The event was promoted by Gazeta Mercantil newspaper and showed the most representative professionals in their activity sectors.

Bradesco received the ISO 14001 Certificate, granted by Fundação Vanzolini for companies with proved practices of support to the preservation of the planet's sustainability. The institution was the first Brazilian Bank to receive this certificate.

6 - Social-environmental Responsibility

Bradesco Organization and the Social-environmental Responsibility

Bradesco believes that successful companies are those that generate good results for all the community, adopting long-term policies whose purpose is to foment the country's sustainable development and the better wealth distribution.

The Organization also understands that environmental preservation and social inclusion are great challenges of the modern world, crucial for the human development and for the corporate continuity.

In conformity with these premises and sensible to this condition Bradesco consolidates its social-environmental policy, showing the concern with the sustainable development of the planet, the respect to the ecosystems and human dignity, also undertaking to disseminate a culture based on actions of social-environmental responsibility.

Bradesco Organization's social-environmental Responsibility Corporate Policy has:

1. Purpose

- a) to define the social-environmental guidelines which must be complied with in Bradesco Organization environment;
- b) to be a permanent consultation source for implementation of all and any measure or action that may impact the social-environmental matter, by means of ensuring principles adopted by the Organization; and
- c) to be a guidance source to our staff, as well as its awareness as to Bradesco Organization's social-environmental role.

2. Principles

2.1. As to Sustainable Development

- a) Bradesco Organization, aware of the importance of the country's development, is aligned with the best world practices of sustainability and corporate governance. Thus, it considers sustainable growth, represented by economic, environmental and social development, an important component of corporate responsibility, adding value in corporate management and fomenting social-environmental Responsibility.
- b) Bradesco Organization shows its firm commitment to practicing, encouraging and valuing Social-environmental Responsibility, searching for convergence of its corporate goals with the desires and interests of the community in which it has a presence, exercising sustainable growth in a healthy environment and using ethical and transparent methods.
- c) Bradesco Organization will make all efforts for the preservation of the ecosystems and for the optimization of the use of resources, mainly non-renewable ones.

2.2. As to Social-environmental Responsibility

- a) Values

Bradesco Organization considers Social-environmental Responsibility one of its corporate values.

b) Vocation/Citizenship

b.1) Bradesco Organization exercises its corporate citizenship to value Social-environmental Responsibility.

b.2) The valuation of educational, sport and social work activities are really important for Bradesco Organization, for instance the work done by Fundação Bradesco, reaching different regions of the country, providing children, youngsters and adults with free and professional education, being a social-cultural reference to the communities where it has a presence.

b.3) Bradesco Organization repudiates slave and child labor.

166

2.3. As to the Social-environmental Legislation

Bradesco Organization considers as a fundamental responsibility the compliance with the applicable legislation.

2.4. As to Social-environmental Commitments

Bradesco Organization also considers indispensable the compliance with the commitments, guidelines and safeguards set forth in national and international Principles , Protocols , Agreements and Treaties , related to social environmental responsibility, to which Bradesco Organization has been signatory or has adhered to their terms.

3. Guidelines

The Guidelines in the Principles already detailed, which must guide all social-environmental actions or measures at Bradesco Organization, are:

- a) to search for convergence of its business goals with social-environmental responsibility aspects, adding value to all interested parties;
- b) to develop and sell products and services, as well as offer credit facilities to clients who respect the social-environmental awareness spirit, in order to ratify the Organization s corporate responsibility commitment;
- c) to encourage partnerships, supports and cooperation with governmental entities, NGOs and market entities aiming at developing and promoting social-environmental responsibility actions in several segments of the civil society;
- d) to consider, when choosing suppliers and service providers, those who are engaged and practice social-environmental responsibility, in conformity with the principles defined in this document;
- e) to maintain and promote an ethical and transparent posture in all levels of activities and business relationships, repudiating and fighting against any means of illegality, such as corruption or bribery;
- f) to ensure conformity of the applicable legislation with the social-environmental issues in the development and performance of Bradesco Organization s economic activities;
- g) to adopt responsible policies of loan concession to clients and respective internal procedures, imposing, when deemed necessary, preventive, reconstructing or repairing measures of environmental impacts, rating, in these cases, risks in financing of business projects;
- h) to stipulate, for borrowers of funds whose projects have potential social-environmental risks, the obligation to maintain an action plan of risk mitigation, following the stages of the project while the respective financing lasts;
- i) to adopt internal policies with a view to rationalizing the use of non-renewable resources, use recycled material, give adequate treatment to scrap and disposable material and encourage the environment preservation;
- j) to make employees aware and train them and guide service providers for social-environmental issues, reinforcing citizenship, ecology and responsibility concepts;
- k) to make all efforts for the society to share globalization benefits, by means of a more inclusive and equal market;

l) to defend social justice principles and human rights, repudiating exploitation of people through labor, in particular child labor;

m) to support education and professionalization of children, youngsters and adults, increasing job opportunities and citizenship;

n) to adopt internal policies of diversity valuation, aiming at promoting balance in the Organization's relations with its different publics;

167

o) to propagate, value and support projects targeted at the practice of sport activities in the communities it has a presence, providing, through sport, respect to each other, union, teamwork, dedication, persistence and overcoming;

p) to develop, implement and maintain a social-environmental management system that normalizes, dimensions and follows the performance of social-environmental actions of Bradesco Organization; and

q) to disclose its achievements by means of the social balance sheet and make available to interested parties relevant information related to possible happenings and social and environmental actions carried out by the Organization.

And, ratifying the premises of its policy, Bradesco structured the Social-environmental Responsibility Executive Committee, which is permanent and has decision-making powers.

This Committee is comprised of nine (9) Directors and representatives of the following Facilities: Fiscal Audit Department; Risk Management and Compliance Department; General Inspectorate Department; Organization and Methods Department; Assets Department; Human Resources Department; Market Relations Department; General Secretariat; and Fundação Bradesco.

The Social-environmental Responsibility Area, which composes the Market Relations Department, was created to assist the Executive Committee and has as main mission to interact and integrate the several Areas of Bradesco Organization in order to sensitize them as to social-environmental issues, in addition to encouraging and following initiatives related to the matter, considering the premises of Bradesco Organization's Social-environmental Responsibility Corporate Policy and the best market practices.

Bradesco's Contribution to Preserve the Environment

Bradesco aware of the dimension of sustained responsibility and the need of balancing our mission in maintaining adequate facilities, without disregarding the social and environmental aspects, we have adopted practical measures contributing to preserve the environment.

In this regard, we permanently seek to apply new technologies minimizing the impact on ecosystems. In addition, the contracted companies' commitment to our social and environmental goal and a continued awareness of our staff in pursuit of eco-efficiency, reinforces our commitment to foment sustainability. Below, we present some measures already adopted or under implementation.

1) Solid Residues derived from Civil Works

Concerned with the impact on environment, all contracted construction companies undertake to comply with Resolution 307, of the Environment National Council concerning the correct destination of residues produced in site office (debris, wood, plastic, metal etc.), upon refurbishments and alterations in layouts of our premises. Referring to the maintenance of buildings at the headquarters and Avenida Paulista, the agreements were added with a specific clause on the correct destination of painting residues (inks, glue, paint brush used etc.)

This responsibility includes the submission of a document recording that residues were deposited in licensed landfills, in the cities served thereby, under the selection of works remains as indicated by the above-mentioned Resolution.

2) Paper and Cardboard

Currently, approximately 100 tons of paper and cardboard are collected monthly in some of our administrative centers, which are submitted to a selective process. It has been examined the possibility of its implementation in other regions. Methods to assess the quantity of paper consumed by the Organization is under study, both office paper and forms, with a view to knowing which are the possible measures that may be adopted aiming at reducing such consumption.

168

3) Recycled Paper Usage Program

Now we hold a special initiative, whether due to its dimension and comprehensiveness, or due to a positive standing towards the environment preservation: Recycled Paper Usage Program at Bradesco Organization.

This Program, a result of Bradesco's belief that it is able to highly contributing to disseminate theory and practice of environmental responsibility, has been implemented gradually in our Organization. The option to use Recycled Paper was made after long negotiations with suppliers, and even if it does not mean costs optimization, we are aware that the result will be beneficial for the environment. We already started to use recycled paper to produce internal prints and also in the routine information to our Investors, Market Analysts and Clients.

4) Metal, Glass and Plastics

At the headquarters and in four other administrative centers the selective collection of metal, glass and plastics is implemented. This practice has been encouraged and improved by means of in-house campaigns and actions, in the expectation of increasing to other centers, as well as to increase the quantity of recycled products. In order to improve our concern in this regard, we have been using at the headquarters and main administrative centers biodegradable plastic bags with colors corresponding to waste collected. The expansion to the other facilities is in the final implementation stage. A measure adopted nearly 4 years ago is the utilization of remanufactured cartridges as consumption items for our premises, aiming besides cost savings, the benefits of reducing pollution and environmental waste. Out of the 51 types of toner cartridges composing our consumption list, 34 are remanufactured products, which participate in the reutilization cycle, as much as this is technically feasible, aiming at maintaining a good quality when printing documents.

5) Biodegradable Products for Cleaning

At Bradesco's headquarters, the Company started the cleaning and maintenance services by using biodegradable products. Other companies are being encouraged to use products of such type, which then will be one of the requirements to be considered in a further agreement renewal. Such measure integrates an improvement program seeking to standardize the biodegradable products, the appropriate dilution, in conformity with the manufacturer's guidance and the obligation to present information about chemical products applied in our premises.

6) Lamps

We have more than 36 thousand lamps at our headquarters buildings and monthly more than 600 lamps are replaced. Concerned with the appropriate destination of this material, the maintenance agreements contain specific clause about the service company's obligation to conduct the ecologically correct discard.

The replacement of 50% of 255 mercury lamps by other sodium steam lamps, in 178 posts installed on the streets of Cidade de Deus (headquarters), and the exchange over the past 3 years of approximately 30,000 40 Watts lamps with 32 Watts has substantially reduced the energy consumption, without losing the lighting efficiency.

7) Electricity and Water

With a view to rationing electricity and water consumption, we destined an area to manage the consumption of these strategic resources. Its attributions consist of managing agreements of demand for electricity with the concessionaires and permanent research of efficient and intelligent new technologies for our equipment, observing the environment preservation policy.

The Branches Network awareness about this issue has been deserved continual attention by indicating consumption targets for our units, based on size, quantity of equipment installed and headcount, as well as release of articles about the rational use of electricity and water.

For instance, we installed and guided the use of timing machines for the automatic turning-off of lamps and lights, allowing an easy utilization at

169

scheduled hours. The turning-off of illuminations, non-used areas, and the employment of natural light have been encouraged.

Similar care is adopted in the acquisition and installation of air-conditioning systems, such as thermo-accumulation devices, which reduce the energy consumption in peak hours, and water treatment in its towers, without using chemical products.

We recommend the optimization in the use of lifts and air conditioning. We also recommend that energy consuming equipment, is only turned on when under use.

Same concern is expressed as to the rational use of water. Thus, our premises are periodically guided concerning the monthly follow-up of consumption and maintenance aiming at correcting possible leakage in valves, flushings and faucets. In addition, technical measures contributing to the water consumption reduction have been adopted, for instance, the replacement of mechanical faucets with automatic ones for use at headquarters premises, amounting to 736 units.

The adequate garden watering, observing the best hour and periodicity, has also been deserved attention. There is a feasibility study related to the reuse of water that comes from the partial sewage treatment generated at headquarters, with the purpose of watering and usage in the air conditioning towers. Also concerning the gardening areas, our headquarters maintain approximately 115,000m² of green area, with more than 3 thousand trees cataloged under the replacement and planting program. We have been using equipment for grind of dried leaves, which are used in gardening, totaling nearly 1.5 tonne/month. We have also been reintegrating the parings of grass to the soil as input.

8) ISOs 14001 and OHSAS 18001 Certifications Building

In May Bradesco obtained the ISOs 14001 and OHSAS 18001 certificates for the building Avenida Paulista, in the city of São Paulo. This is a 12-story building with three basements totally refurbished and adapted, aiming at complying with all the specifications and rules required for the referred certificates.

Equator Principles

In September 2004, Bradesco adhered to Equator Principles, a set of social-environmental measures based on criteria defined by the International Finance Corporation (IFC), used in the evaluation and concession of financing of infrastructure projects known as project finance.

Bradesco ratified, in July 2006, its adhesion to the new version of Equator Principles, whose scope comprises all project finance, its assistance, new ones or in expansion, with total capital cost higher or equal to US\$10 million.

It is important to point out that the adoption of these principles is voluntary, with no dependence or support of IFC or the World Bank. Thus, the institutions which will adopt them must take them as basis for the development of practices and internal and individual policies.

By adhering to Equator Principles, Bradesco increases its commitment to the sustainable development and reaffirms its role as one of the largest financing companies of the country's economic activity.

Bradesco's Contributions to Social Issues

1) Global Compact

Bradesco, at the beginning of November 2005, aligned with the corporate responsibility guidelines, adhered to Global Compact principles, assuming the commitment to promote actions to contribute for the development of an inclusive and sustainable economy, increasing its performance within the social-environmental scope.

Global Compact is a result of an invitation made by the Secretary-General of the UN, Kofi Annan, at the World Economic Forum in Davos, in January 1999, to companies, NGOs and other governmental and civil entities, to follow and disclose the ten principles that guide it, concerning Human and Labor Rights, Environmental Protection and corruption combat.

2) Social Stock Exchange Program of BOVESPA

The Program was launched in June 2003 by BOVESPA and its brokers as a social initiative to raise funds for non-governmental organizations, acknowledged by UNESCO as the first one in the world. The idea is to gather institutions of the Third Sector that need financial resources and investors (donors) willing to provide them. Thus, the NGOs get stronger and give back investments as social profit, i.e. making society fairer, where thousands of children and youngsters may enjoy better opportunities.

Finasa Sports Program

The Bradesco Organization demonstrates its support of sports activities through the FINASA ESPORTES (Finasa sports) program, successor of the BCN Sports Program. This initiative, with 18 years of activity, gained momentum as from 1997, following its integration with Bradesco's other social projects. Along its history, the program was known by its seriousness and has become a benchmark for assistance in the education of young people, using volleyball and basketball as an instrument for social inclusion. At present, 3,093 girls from 10 to 16 years of age, enrolled at school and attending classes on a regular basis are included in the program. Approximately 70% of these girls derive from deprived backgrounds and are considered to be in a social risk situation.

FINASA ESPORTES is structured in 73 training centers, 47 for volleyball and 26 for basketball, installed on the premises of state and local schools, at Osasco's city hall sports centers, at Fundação Bradesco school, at a SESI unit and at three private schools, all located in the municipality of Osasco, in the Greater São Paulo. Acting in partnership with the local government, the Bradesco Organization offers a full support structure which includes the supply of sports and learning materials, as well as a team of more than 70 professional instructors, including local and state coordinators and teachers.

The community integration has been the outstanding feature of this work. The PROGRAM is designed to transform sports practice into a powerful tool for strengthening the ties with citizenship values. At the FINASA ESPORTES training centers, 2 classes every week are dedicated to counseling on various topics, such as notions of hygiene, teen pregnancy, stress, drug abuse and adolescence, always emphasizing the importance of team spirit. The training centers are also used to disseminate values that favor healthy living in society, including respect for others, union, dedication, persistence and excellence. Classes also stress the importance of having a positive and participative attitude, emphasizing the need to foster activities related to the recycling of materials, the rational use of water and electricity

and the promotion of campaigns related to social issues, such as collecting donations in food and clothing.

The FINASA ESPORTES program considers the sports practice much more than a way to discover vocations or create athletes, it also lays the basis for the formation of citizens, who are the essence of a better country for everyone.

171

Social-cultural Events

In the 1st half of 2006, Bradesco took part in the Summer Festival and in the Carnival in Salvador (BA), in the IV Gife Congress of Social Private Investment, in Curitiba (PR), in the event Viva a Mata, of Fundação SOS Mata Atlântica, in São Paulo (SP), of Roça in Rio Arraial da Providência, in Rio de Janeiro (RJ), in the Folkloric Festival of Parintins (AM), in the Di Casaluze Party, in São Paulo (SP), in the Bumba Meu Boi Party, of São Luís (MA), in the Jaguariúna Rodeo Festival (SP), in the Maior São João do Mundo, of Campina Grande (PB), and in the XXVIII Festa do Peão de Conceição of Mato Dentro (MG).

It also took part in the Coopavel Rural Show, in Cascavel (PR), in the Expogrande Farming Expo of Campo Grande (MS) and in the editions of Agrishow of Rio Verde (GO), Rondonópolis (MT) and Ribeirão Preto (SP).

In the cultural area, Bradesco sponsored, among other projects, the Symphonic Series at Hebraica, in São Paulo (SP), the theater spectacle Rapunzel, in São Paulo (SP), the play Mademoiselle Chanel, presented in Belo Horizonte (MG), Brasília (DF), Curitiba (PR) and Porto Alegre (RS), and the Cultural Exposition Edgar Degas, at MASP, in São Paulo (SP). Bradesco Seguros e Previdência was one of the sponsors of the exposition Pennacchi 100 anos, carried out at the Pinacoteca of the State of São Paulo.

ISE Corporate Sustainability Index

Bradesco, as from December 2005, started integrating ISE, Sustainability Index of BOVESPA São Paulo Stock Exchange.

This index was created with the purpose of providing visibility to the sustainable companies, so that investors may invest their funds.

To evaluate the performance of the companies eligible to ISE, the Sustainability Center of FGV was contracted and developed a questionnaire with the triple bottom line concept, which comprises the evaluation of economic, social and environmental elements in an integrated way.

The index is comprised by a select group of companies which have the best performances in the economic-financial, social and corporate governance dimensions.

The choice of Bradesco's common and preferred stocks to comprise ISE strengthens the Organization's commitment to the good corporate governance practices in the relationship with stockholders, clients, investors, employees and the general public.

This positioning gives priority to ethics by quality and clarity of information disclosed in order to enable a closer follow-up of the Organization's performance.

The selection of Bradesco in ISE reaffirms its concern with liquidity, transparency, stability and social and environmental responsibility.

Human Resources

Since the inception of Bradesco's activities, the Company acknowledges in the value of its team's performance and achievement potential the foundation to sustain Bradesco Organization's businesses.

The Company offers its employees ongoing professional development opportunities, in a healthy, safe and ethical environment, with transparent Bradesco's commitments and goals.

Bradesco believes in its ability to promote a sustained growth for people and through these people.

The Company seeks to maintain an excellence model in Human Resources Management, guided by respect and transparency in its relations, continuous development investment, sharing of information and human being value, without discrimination.

Bradesco maintains a closed-career policy, whereby the admission occurs at apprentice levels. All the growth opportunities are destined to employees, allowing access to all hierarchical levels.

This assurance of opportunity for professional development and growth, where employees see the

possibility of holding all the positions, not only the positions of managers, but also the high management, is a motivational factor for all the staff, stimulating creativity, innovation and the ceaseless search for knowledge and updating.

We may say that when a youngster joins our Organization, whose closed carrier system privileges, incentives and strongly invests in the growth and development of its employees, this professional starts a carrier full of opportunities, connected with his/her effort and dedication.

To encourage our professionals to exceed their limits and stimulate their creativity in search for solutions, aiming at self satisfaction, clients' satisfaction and business expansion, have been priority for the Bank and is one of the assumptions of our Human Resources Management Policy, established in 2005, by the Board of Directors.

Only creative and innovative teams, highly skilled, with ensured carrier opportunities, could surpass the achievement of goals and show excellent results that have highlighted our Organization.

Bradesco's performance is disseminated and is continuously expanded throughout the country, enabling job opportunities in all the operation segments.

Bradesco is a bank which takes into account, by means of its clients and partners, the diversity which is the own expression of the Brazilian social structure, with a fundamental commitment to respecting cultural and ethnical diversity. The respect to the Brazilian diversity is part of the Company's strategic vision towards good performance, since Bradesco is inserted throughout the Brazilian territory.

Certification in International Rules

Searching for what is best done in the worldwide level, we achieved the certification of Rule OHSAS 18001 of Occupational Safety and Health which allows to establish and develop conditions that contribute to a safe and healthy work environment.

Great Place to Work

Bradesco's employees contribute to the achievement of the outstanding position we hold in the financial market, maintaining the excellence in all group's activities.

The Company seeks to promote the transparency, so that to ensure a motivating and challenging organizational environment. Evidence is that Bradesco was listed for the sixth time in the Guia Exame-Você S/A - As Melhores Empresas para Você Trabalhar (The Best Companies to Work for).

In addition to being ranked among the 150 best companies to work in Brazil, Bradesco was also acknowledged among the 50 best companies for women to work for, for the third consecutive year.

Guia Exame is considered the best and most comprehensive study on the work environment in Brazil. Based on employees' opinion, the study assessed the working environment, benefits, remuneration, professional development opportunities, ethics, citizenship values and social responsibility of companies.

For the second consecutive year, Bradesco also stood out in the survey *As Melhores na Gestão de Pessoas* (The Best Companies in People Management) of *Valor Carreira* magazine, edited by the *Valor Econômico* newspaper . The selection was made by means of evaluation of companies' internal environment, as from questionnaires and interviews with employees who gave their opinion about issues such as training, benefits, safety and work conditions, credibility, motivation, performance and development planning.

Human Resources Management Policy of Bradesco Organization

We reaffirmed the commitment with our employees formalizing guidelines for the management and development of our human resources, by means of the Human Resources Management Policy of Bradesco Organization. Basic assumptions:

1. To comply with all the requirements, regulating rules and legal conventions concerning work relations and environment, applicable to our activities;
2. To assume the public commitment of defense and protection of Human Rights, Children's Rights and Labor Fundamental Rights, in line with national and international Principles, Standards and Treaties;
3. To respect the diversity and dignity of the human being, preserving the individuality and privacy, not admitting the practice of discriminatory acts of any nature in the work environment in all our relations, with the internal and external public;
4. To ensure the good relationship among all professionals of the Organization, maintain a safe and healthy work environment and provide conditions for great performance and productivity levels;
5. To contribute to the improvement in the quality of life of employees, offering conditions for the balance among work, health and family;
6. To encourage our professionals to surpass their limits and stimulate creativity in search for solutions, aiming at the self-achievement, clients' satisfaction and business expansion;
7. To promote the constant development and improvement of technical and behavioral potentialities of our employees and make available favorable mechanisms which allow them to manage their personal and professional plan growth, in order to ensure the continuous improvement of management processes; and
8. To ensure opportunity priority for the professional growth of people, by the permanent investment and development of internal competences, by the valuation and respect to knowledge and professional qualification acquired during the career.

In-house Communication

We strongly invest in our internal communication so that our employees are effective participants of the Organization's expansion strategy of results.

Simultaneously and from any location in the country, Bradesco's employees receive relevant information via the Intranet and e-mail.

The Company makes available, day to day, the newsletter *Sempre em Dia* (Always Updated), with issues about the Bank's strategic direction, launch of products, quality practices and business focus.

Brochures and magazines are periodically published and addressed to each employee.

Produced according to the best quality standards, the editions in video of Bradesco TV comprise, monthly, institutional messages and technical guidance. Created in 1990, Bradesco TV is one of the country's oldest corporate television projects.

The annual goals and strategies are disclosed at meetings with the Presidency, where Directors, Regional Managers and Managers of Branches and Departments of the Organization take part. All the issues are referred to respective teams.

With the purpose of making the communication between the Human Resources Department and the staff closer, more agile and transparent, we have created ALÔ RH, an effective and fast communication channel that guides about benefits, legislation, policies and practices of human resources, in addition to suggestions and complaints.

People Management

Bradesco maps the Organization's human capital and currently records 16,000 employees' profiles.

Based on this knowledge, leaders and employees are given conditions to share actions focused on improving their performance and relationships, as well as establishing goals designed to improve their key skills.

The maintenance of such work is the management of the Organization's corporate competencies and the incentive and guidance to leaders practice the feedback.

Respect to Diversity – Social Inclusion

Bradesco respects the diversity and self-respect of human being, by preserving the individuality and privacy, not accepting the practice of discriminatory acts of any nature: at the work environment and in all the Company's relations with internal and external public.

In 2005, Bradesco created the Diversity Appreciation Work Group, composed of professionals of different areas, with a view to effectively contributing to an improved relationship of the Company with different people, as well as to maintaining a balanced internal demography, both in the admission and retention of talents.

The issue is broadly supported on the Code of Ethics, Human Resources Management Policy and Social-environmental Policy of the Organization.

Ethnic Groups

Bradesco entered into a partnership with the Faculdade Cidadania Zumbi dos Palmares – Unipalmares, by means of a professional qualification program which aims to contract interns, to work in important business areas of Bradesco.

Unipalmares' mission, by means of ONG Afrobrás, is to promote the inclusion of black people into higher education of the country.

The program is divided into various modules, with 2-year duration and also relies on a partnership with renowned institutions, such as FGV, USP, FIPE, FIPECAFI and FIA.

The program, which started with 30 interns, was increased and currently counts on 60 students.

Inclusion Policy for Disabled People

Aiming at the contracting and retention of disabled people at the Organization, Bradesco set forth partnerships with specialized entities and focused on inclusion of such professionals, qualifying them and creating job opportunities in the Organization. We have in our Call Center a specific part with visually impaired employees.

Bradesco was one of the banks which sponsored Febraban Professional Qualification Program which qualified professionals with deficiency to exercise activities in the job market.

By means of Bradesco's Website, in the link Career Opportunities, the Company offers an exclusive channel for the collection of disabled people's curriculums.

Bradesco has a staff of 794 disabled people.

Opportunities for Women

Bradesco ended 1st half 2006 with a quota of 35,107 women employees, corresponding to 47% of the functional staff.

In the Prime segment, 72% of staff is women.

In leading positions, Bradesco has 15,544 women, including in the Board of Executive Officers and the Board of Directors.

175

Internship Program

Aiming at providing real professional development opportunities, Bradesco Organization offers internship program to all operation and business areas, allowing the student to relate the academic learning with the practical activity. The program currently benefits 1,132 students.

Traineeship Programs

Students of Information Technology course of Fundação Bradesco have the opportunity to start their professional career in the systems development area of the Organization. Since 2002, all students approved in the selection process have been contracted.

Bradesco developed in 2005 a traineeship program specific for Bradesco Prime business area, aiming at the qualification of future Relationship Managers of this segment.

The program has an 8-month duration.

Youth Apprentice Program

The Youth Apprentice Program was implemented by Bradesco Organization in 2004, executed in partnership with Fundação Bradesco and other qualified entities, encompassing the administrative centers throughout the country.

The program estimates the contracting of youngsters from 14 to 18 years old, having as purpose to provide personal and professional development to adolescents.

We ended June 2006 with 709 Apprentices and we have already provided the program for around 850 youngsters.

Young Citizen Program

With a view to reinforcing Bradesco's actions in the Social Responsibility area, as from October 2005, the Company entered into a partnership with the São Paulo State Government by means of the Young Citizen Program - My First Job.

The purpose is to provide students with their first professional experience opportunity, those students originated from families with higher social vulnerability, between age of 18 and 21 years, regularly enrolled and effectively attending high school classes of the state public school system, preparing them to exercise the citizenship, by means of paid internship.

Currently we count on 173 contracted youngsters.

Occupational Health and Safety Policies

Bradesco is a company that develops actions in health, disease prevention, safety and work conditions.

We offer our employees an appropriate work environment and conditions for a complete physical, mental and emotional well-being.

Bradesco invests in programs and methodologies allowing to map and identify the causes of symptoms and diseases occurred in the work environment and relations, viewing to promoting health and disease prevention, on a broadly

basis.

The issues addressed include Repetitive Stress Injury, Stress, Drug-Addict, (Alcoholism/Drugs/Tobacco), Obesity, Cardiovascular Diseases, Sexually Transmitted Diseases, AIDS and others. Those campaigns are carried out monthly through the Interação magazine and in the SIPAT (Internal Week of Occupational Accident Prevention).

Since contracting, Bradesco's employees receive information and guidance on behavior and conduct adequate to the maintenance of health and improvement of life quality.

Bradesco has been an active member of the National Business Council for HIV-AIDS Prevention - CEN, which is destined to promote and strengthen the combat against such epidemic in the work environment and has been providing information to a considerable portion of workers, family members and the community as a whole about the safe ways to prevent the infection by HIV virus.

176

Another outstanding issue related to life quality is the balance between the employee's personal and professional life. We are permanently concerned with the working hours, so that the contract time is not surpassed, guaranteeing that employees have time for their personal commitments and leisure.

In order to offer an appropriate environment and extra emotional support to employees, the Bank created in its Call Center at the Santa Cecília building, in the city of São Paulo, a room for winding down. It is a reserved room with a different infrastructure from all other Organization environments, offering comfort and material that help to relax and soften the impact of the caused by the day-to-day activities in and out of the call center. The room is open to all the employees of that section in the event they go through situations related to psychological and emotional aspects.

In the 1st half of 2006, we conquered the certification of Rule OHSAS 18001, internationally recognized, which establishes an Occupational Safety and Health System Management. Thus, we reassure the commitment to the safety and health of our employees, with the adoption of ergonomic management and awareness programs about the importance of safety and health in the work environment.

Benefits

The concession of benefits is based on the Organization's Human Resources Management Policy.

Transmitting safety and trust to our employees, this management strategy contributes to a healthier, more productive and participative work environment, providing conditions for great performance levels and better results.

Besides the aspects provided for by the law, Bradesco's employees and their dependents enjoy a combination of benefits viewing to ensure the best life quality.

Health and Dental Care Insurance

Our employees and their dependents have access to health and dental care plans paid for in full by the Bank.

The healthcare insurance includes non-traditional treatments, such as dialysis, organ transplants, acupuncture, homeopathy, myopia correction, GPR (Global Postural Re-education), heart valve, physiotherapy and also treatment for AIDS (with reimbursement of expenses for medicine prescriptions).

The Dental Care Insurance includes preventive and surgical treatment, oral rehabilitation, child dentistry, endodontics, periodontology and prosthodontics. Implants are offered at costs lower than the market, by means of agreements.

In the 1st half of 2006, there were 970,975 medical/ hospital consultations and 169,462 dental consultations.

Supplementary Private Pension Plan

Bradesco makes available for all its employees a Supplementary Private Pension Plan, which Bradesco contributes with 50% of the monthly installments, including in the 13th salary.

The plan guarantees coverage to the retiree, the retiree's widow or widower and their children under the age of 21, or up to the age of 24, if they are undergraduate.

Group Life Insurance

All Bradesco's employees have access to Group Life and Personal Accidents Insurance, with subsidized costs. The employees retired by INSS, who left the company without cause, are offered the option to maintain the policy, with subsidized costs.

Social Service and Psychological Assistance

Bradesco's employees and their dependents are provided with follow-up of Social Service and Psychological Assistance under situations of need and emergency.

Services are offered in most varied situations: medical treatment, accidents, decease in the family and release of special loans.

Such initiative shows Bradesco's concern with its employees' well-being when facing personal problems.

Snack Supply

Bradesco's employees receive snacks on a free basis all working days.

In the 1st half of 2006, we invested R\$16 million, distributing 12 million snacks.

Medicine

For the states of São Paulo and Rio de Janeiro, Bradesco offers agreements with the drugstores Drogasil and Drogasmil, for the acquisition of medicine at a cost lower than that practiced in the market.

Influenza Vaccination

Bradesco carries out a vaccination campaign against influenza, offering the vaccination free of charge to all its employees and at subsidized prices to their dependents.

Leisure Activities

Bradesco maintains in Cidade de Deus, in the city of Osasco, an area with swimming pools, racetrack, soccer field, basketball, volleyball, soccer, tennis and squash courts, destined to leisure and recreation activities to employees and their dependents.

In the 1st half of 2006, around 30,000 people attended the facilities.

Social Loan

By means of Caixa Beneficente (Benefits Fund), the Company offers financial assistance to its employees, granting loans with subsidized fees, destined to emergency conditions, education expenditures, acquisition of orthopedic instruments, glasses, funerals, psychologists, psychiatrists, phonoaudiologists, among others.

Credit Facilities for Acquisition of Computers, Vehicles, Real Properties and Personal Expenses:

Bradesco offers loans to its employees with subsidized fees for acquisition of computers, vehicles and personal expenses. Employees and their first relatives may also finance the acquisition of residential real properties with lower interest rates.

Fee Exemption

Bradesco exempts its employees to pay various fees, such as: check account maintenance, fee to open credit, issuance and annuity of credit and debit cards, financial transactions on teller machines, access to Fone Fácil, issuance of bank statements in electronic terminals and utilization of single check sheets.

Online Shopping Channel

The ShopFácil Funcionário is a differentiated online shopping channel, by which Bradesco negotiates special discounts directly with various products suppliers.

Other benefits provided for in the Collective Convention of Bank Employees:

Day care/Baby sitter assistance

Transportation voucher

Meal voucher

Food voucher

Funeral assistance

Professional Requalification Allowance

Human Resources June 2006

Personnel Expenses

In the first half of 2006, Bradesco's personnel expenses reached R\$2,888 million, including in such total expenses related to salaries, social charges, benefits, training, employees' profit sharing, among others.

The following pie graph shows the percentage share of each item in relation to total Bradesco personnel expenditure in the halves.

Breakdown of Personnel Expenses

Personnel Expenses by Business Segment

Training

The Staff Training Department is responsible for the training actions of Bradesco Organization, aligned to the corporate and appropriate strategies to the quickness of changes required by the market. The training programs meet Bradesco's commitment to provide development opportunities to all its independent employees of the hierarchical level, essential for Bradesco's generation of results.

The Gestão de Treinamento da Organização Bradesco (Bradesco Organization Training Management) process was granted the NBR ISO 9001:2000 certification in December 2002 and the Company was certified again in December 2005, which ensures an ongoing improvement of processes and the quality of actions of training, reinforcing its commitment to contributing to the development and appreciation of the staff and the employees.

For 2006, a budget of R\$ 63.7 million was made available, 26% higher than the average of investments in the past 5 years, to continue with the main training programs targeted at several areas of the Organization and at the implementation of new programs aimed at meeting corporate business strategies.

In this different context of knowledge management, Bradesco Organization has strongly invested in training programs that contribute to the strengthening of internal competences and to the development of talents, as a support to the mission described in the internal policy of people management: Recognizing that people are the sustaining basis of our business, we have as mission to attract, develop, recognize, manage, esteem and stimulate Bradesco Organization's talents, by means of the permanent construction of an integrated value relation among corporate activities.

In this 1st half, training had 802,782 participations in the 735 different courses made available. Investments, in presence and long-distance courses, added up to R\$ 22.7 million.

Presence Courses

In this 1st half, with a strong growth mainly in the last three months, we reached more than 43 thousand participations in presence courses, mainly actions for Retail comprising nearly 18 thousand participants in several programs such as Client Management, which comprises themes such as relationship and analysis of clients potential for the increase of assets and results of Branches, the Loan in Retail program, in partnership with Sebrae, focused on loan concession for micro and small-sized companies, the Real Estate Loan course, which provides conceptual knowledge for the sale of the product, as well as operating aspects of contracting, with the purpose of facilitating the achievement of goals of investment of funds proposed by the Organization, as well as the increase of results of branches and the courses Assistance A New Business View and Pre-Assistance with specific focus on the quality of Assistance and on the preparation and awareness of the teams directly connected to the assistance of new clients, concerning the continuous search for excellence in the provision of our services.

The process of qualifying Managers of the Prime segment continued with the Managerial Development Program which comprises, among other aspects, the improvement of the business management process, the optimization of funds and the leverage of results for the segments. The Trainees Assistant Managers Program is also in progress, promoting integration of participants at Bradesco Organization/Prime Segment, in order to facilitate the understanding of culture and several focuses of operation in the market and in the segment and qualify participants for the development of activities related to their attributions, by means of the improvement of skills and technical and behavioral competences and abilities. We also point out the courses of Stocks and Futures Markets, in addition to the Loan Products.

The continuity of assistance to the Companies Segment was made with the participation of employees in courses of Managerial Development and also in the course of Certification in Investment Products, in addition to other operating programs.

In the Corporate Segment we qualified the Assistant Managers with the purpose of promoting the integration with the Organization's Departments involved in the operations of the segment and loan management focused on the corporate client.

The training actions to Departments and Affiliated Companies were also shown by means of attendances in external and internal events, made available by specialized companies, which offer vacancies to the general public and also by teams of instructors, employees of the Organization, which provided 15,972 participations in several courses.

The assistance to the needs of Finasa Promotora de Vendas, generated 1,627 participations in 39 managerial and operational programs, such as: Professional Management in Sales, targeted at managers and assistants; Corporate Tune, Supervisors and Assistants, with focus on the assistance for results and the Sensibilization program Project 5S.

Training for Information Technology areas continued in this 1st half of 2006, with some highlights such as: TI Improvement Project, with technical, operational and behavioral training, comprising themes about service management, commitment and alignment of professionals, in the implementation of this large project of the Organization, which may assist 1,240 participations and OBB PLUS training, which aims to qualify professionals in the new architecture tool of Office Banking Bradesco and which comprised 228 employees. Also in the IT areas, the certification processes were implemented, maintaining the staff qualification and qualifying them among the most modern techniques of the market. In this context, we can highlight the Software Quality Certification, which is new in the country and has several software engineering techniques and concepts about product quality, involving 40 professionals, and the Specialist in Function Points Certification, which qualifies employees for measurement of systems according to the standard technique of the international market, in which 35 employees have already been certified. In this continuous search for professional improvement and technological updating, 97 professionals

participated in the event CIAB Information Technology Congress and Exposition of the Financial Institutions, with a view at knowing and using the best market practices in IT. Moreover, to provide solutions that ensure quality to the technology systems, we qualified 133 professionals in the training about Management of IT Projects with an estimate to assist another 40 professionals still this year.

181

Evolution of Presence Participation in 2006

Partnership with University and Colleges

Since 1996, in partnership with educational institutions, such as FIA, FIPE, FIPECAFI, FGV and IBMEC, 1,289 Bradesco's employees obtained MBAs, Post-Graduate, Specialization courses and Masters Degree certificates, important for the maintenance of quality of information provided and for the qualification of the staff to be aligned with the most modern management practices. Two classes of MBA Negócios Bancários (FGV) and one class of MBA Negócios Bancários on-line (FGV-RJ) were concluded, in groups made exclusively for Bradesco, and a new MBA Controller (FIPECAFI) class is in progress, amounting to 130 professionals of different areas of the Organization.

Insurance Group

Projects for Bradesco Seguros e Previdência are in progress supported by the UniverSeg (Insurance Knowledge Universe) brand, which aims to provide all the action of training for employees, insurance brokers and dealerships, targeted at the insurance segment, as a single, corporate project, contributing to the Insurance Company to be the best place for the broker set his/her production, the best place for the insured insure his/her life, health, assets and the best place to work for.

New projects are under development for UniverSeg with highlights to UniverSeg on the Stage, using the interactive theater methodology, which works with themes connected to the performance of insurance brokers and dealerships that sell products of Bradesco Seguros within the scope of our branches. The outcome of the project has been surprising and significant, for it meets all the goals proposed by the Insurance Company and, in view of this experience, this program may be offered to the internal public, focusing actions on quality of assistance and on the improvement of professional performance.

In the first half of 2006, more than 33,000 professionals were qualified in programs developed by means of several training media: TreiNet, Videotraining, Presence and Post-university Courses (MBA), in addition to qualification to third parties, where we had 9,500 participations of brokers and 500 of other service providers, totaling 10,000 participations. The emphasis of the projects developed was on the assistance of Branches and Assistance Center of the Insurance Group, searching for specific alternatives to align the development needs of the employees and brokers with the satisfaction of the client/insured, in the continuous search for efficiency of our service provision.

We also continued with the Movere Project, started in

October 2005, resulting from a mapping carried out in the team of managers of the Headquarters. The work has been focused on the development of competences: guidance for Learning and Change, Strategic View and Planning, People Management and Leadership, using as methodology courses, lectures, workshops and meetings. The project is innovative in view that it was exclusively designed for the development of teams and the training and development actions are always focused on the sales team.

Certification in Investment Products

Programs that prepare for the exam of Certification in Investment Products are in progress and are specially prepared for employees who need to obtain a certification, after study of the material previously made available. In this 1st half, two certification exams in which 1,766 professionals were certified.

The average approval index reached by Bradesco in all exams was 79%, while the market index stood at 70%. This fact consolidates the concern the Organization has to adequately prepare professionals and also the involvement shown by employees during the certification process.

These figures enabled the certification, until the end of this half, of more than 9,250 professionals directly involved in the assistance to clients of the Branches Network and to qualified investors in conformity with the compliance with the Resolution 3,158/03, of the Brazilian Monetary Council.

The CFPTTM Certified Financial Planner exam was also performed, and 15 professionals were approved in the Private Banking area assuring the quality of customer service also in this segment.

Incorporation of BEC

In May Bradesco concluded incorporation process of BEC, Banco do Estado do Ceará, when we made available training in managerial and operational courses, for the appropriate operationalization of Bradesco system, client assistance and performance of businesses, by means of the understanding of concepts, techniques and business policies of the Organization.

TreiNet On-line training

In June, Treinet was the winner of e-Learning Brazil 2006 award, in the Corporate Diamond category, reinforcing that the resources offered by the tool make possible the dissemination of a new knowledge in a indistinct way, becoming a difference for our employees, who in addition to meeting the Organization's interests, may plan their learning actions according to their needs, respecting their personal preferences of time, places and time of assimilation of contents.

Bradesco reached more than 1.390 million participations in the 71 courses available, since its implementation in 2000. In the 1st half of 2006, 18 new titles were launched, with 119 thousand participations in financial, operational and information technology issues.

On-line training is also used in the implementation of new business or back-office tools, for example the recent implementation of SAP, which in this 1st half recorded nearly 585 thousand participations in the 27 courses made available for the use of the tool. It would not be possible to adequately train 75 thousand presence employees in the same period and the use of other distance training media, such as videotraining or even brochures, would not allow the same results.

In English learning, on-line training has also been a differential, enabling the participation of around 1,000 employees in courses from basic to advanced level.

In partnership with Fundação Bradesco, TreiNet courses are available for clients who hold a Bradesco University Account. Moreover, by means of the website 100% broker of Bradesco Seguros e Previdência, TreiNet is also available for brokers and concessionaires who sell the Organization's insurance products.

Evolution of courses launched in TreiNet

Brochures and Videotraining

Based on the demands of Bradesco areas of standard and operational issues, with a view at the awareness of employees, in this period we made available three Brochures, one about the Alert System (SALE), with the purpose of providing employees with a basic view of the Alert Systems, in order to facilitate the understanding of how the system organizes information coming from the data base and how to use this information for loan analysis and management; the other brochure is about the Management of Administrative Expenses, mainly the importance of the effective follow-up and control of administrative expenses in all premises of Bradesco and the third one that comprises the Pé Quente Savings Bonds Products.

Other three new videotrainings were also launched: A Matter of Posture, which makes employees aware of the importance of posture in the prevention of occupational diseases; the video Code of Defense of the Bank Client - New Edition, which was reedited with the purpose of training employees about the main rules and procedures defined in the Resolution 2,878 - Code of Defense of the Bank Client, and the video ISO 14001, OHSAS 18001 and SA8000 Management System, which was prepared comprising the main items of the certifications mentioned, searching for a language that makes the employee aware of the importance of the commitment and participation of each one, in their contexts, for issues of environmental management, occupational safety and health management and the social responsibility system.

Social and Corporate Responsibility

We continued with the projects that focus on human valuation such as: Youth Apprentice Program, Young Citizen Program and Internship Programs, among them, the Bradesco Program Unipalmares (Universidade Zumbi dos Palmares). These programs benefit youngsters in the beginning of their careers, with qualification, social inclusion, as well as personal and professional development. Also under this context, Bradesco developed preparatory training in Libras (the sign language for deaf-mute people), for employees providing direct services to disabled clients.

Evolution in Employee Training Participation thousands

Total Amount Invested in Training R\$ million

Fundação Bradesco The Bradesco Organization's Social Action

Background

Fundação Bradesco, a non-profit entity, headquartered at Cidade de Deus, Osasco, SP, was founded in 1956 and declared to be of Federal Public Utility by Decree 86,238, on July 30, 1981.

Aware that education lies on the roots of equal opportunities and personal and collective fulfillment, Fundação Bradesco currently holds 40 schools installed as priority in the country's most underprivileged regions, in all Brazilian states and in the Federal District.

Objectives and Goals

Through the pioneer action of private social investment, the main mission of Fundação Bradesco is to provide formal quality education to children, young people and adults, so that they achieve personal fulfillment through their work and the effective exercise of citizenship.

Accordingly, the reach of Fundação Bradesco has been expanded yearly, increasing the number of enrolled students from 13,080 to more than 107,944 over the last twenty-five years. The schools of Fundação Bradesco run free education for Kindergarten, Primary School and High School, Continued and Preliminary Education of Workers as well as High School Technical Professional Education in IT, electronics, industry, management and agribusiness. Distance learning is also offered as part of the Youth and Adult Basic Education Equivalency programs via Teleeducation and the Virtual Classroom site.

Areas and Methods of Action

Basic Education

Basic Education comprises the Kindergarten, Primary School (first to eight grades) and High School, comprising more than 43.61% of all students on courses provided on a free basis by Fundação Bradesco each year. In addition, the students receive free school materials, uniforms, meals and health and dental care.

Fundação Bradesco is always evaluating the contemporary learning trends and, therefore, is always bringing new challenges for learning practices so that the conclusions are spread throughout all school units and that propose ongoing interactions among them.

The schools are understood as a privileged environment for citizenship values and for regarding students as original and creative human beings, who learn through experiences in both school and society.

Hence, their potential and needs to interact and reflect on the diversity of knowledge are essential.

The multi-disciplinary learning seeks to provide students with access to practical and theoretical cognitive content, based on the principle that the development process is both dialectic and constructive and that their role in learning is faced as a producer of knowledge.

On this intent, Fundação Bradesco offers various continued education opportunities to educators, including long-distance courses.

These resources have resulted in the compilation of diverse learning materials, including text books used up to the fourth grade of Primary School, Philosophy for High School and Cultural Diversity as well as other supporting materials.

Technical Professional Education

Based on the commitment of offering technical professional education capable of guaranteeing to the student the continuous right to develop their skills for a fruitful and social life, Fundação Bradesco is in consonance to a new model of technical education in force in Brazil. Bradesco structured the subjects of the course, prioritizing the demands from the market and the society from a brand new perspective, offering work preparation.

186

High School Technical Education

Based on the professional areas of Agribusiness, Management, Industry (Electronics) and Information Technology, a number of courses were developed and offered according to the specific needs of the communities in which the school units are located.

The content of these courses aims to ensure a strict relation among work, knowledge and citizenship.

The final target is to bring out creative, productive and business-minded citizens, as well as showing students the importance of permanent education.

When offering to students, who arise from underprivileged backgrounds, courses whose content will facilitate their entry and re-entry into the labor market, Fundação Bradesco provides access to the emerging and fast-changing business world.

Preliminary and Continued Qualification of Workers

Fundação Bradesco offers on a free of charge basis this mode of education, designed for the needs of update, qualification and re-qualification of workers with different school levels. There are more than 100 options for free courses, presenting flexible programs, in the same track of the labor market conditions, in the following professional areas: Management, Personal Image, (Fashion and Personal Beauty Care), Industry (Electrical, Electronics and Printing Technology), IT, Leisure and Social Development, Tourism and Hospitality (Tourism, Hospitality and Catering Services). In the Agribusiness Area, Fundação Bradesco offers courses which include Artificial Insemination techniques.

Youth and Adult Education

These students come from different regions but often have similar life histories and comprise in their majority, workers and housewives who were unable to attend or remain at school when they were supposed to. At Fundação Bradesco, they are given adult literacy courses and graduate at both Elementary and High School levels, apply for university entry, in order to improve their employment prospects and most importantly to increase their skills.

Youth and Adult Education courses are given in two segments: Youth and Adult Literacy and Tele-education for Elementary and High School Equivalency.

The Tele-education courses are offered in the own schools of the Fundação or on the premises of the companies that have entered into operating agreements with it, with flexible timetables to suit the different work shifts, once the classrooms are taken up to the companies, respecting the different working hours and avoiding the need for students to travel to the school units. Another reason for the good performance is related to the investments made by Fundação Bradesco in learning technology resources.

Developed for the parents of students who attend the schools of Fundação Bradesco, the Adult Literacy Course is structured around a socio-constructive concept, whereby the student becomes an active subject in the learning process. The topics addressed during classes awake the interests and motivate learners, guaranteeing the success of the course.

The main purpose of the Fundação Bradesco is to prepare students to improve their life conditions, based on the acquisition of organized knowledge, since according to Bradesco's philosophy education alone is capable of forming citizens who are participative and aware of their role in society.

Material Facts

To celebrate the environment month, Fundação Bradesco took part in the event Viva a Mata, promoted by Fundação SOS Mata Atlântica in Parque do Ibirapuera-SP. They showed the results of the partnership which ensures the maintenance of nurseries of production of native seedlings in the schools and qualification programs of teachers for the development of projects in environmental education.

The School Unit of Laguna-SC promoted the International Seminar The Guarani Culture with presentation of projects made by teachers and students involved in the Karay Ouá Project (Renascer do Sol). The purpose of the event was to discuss issues related to ethical matters and cultural plurality and counted on the participation of experts in studies about diversity in Latin America.

Bradesco sponsored the 5th Volunteering Action Show, an event promoted by GIFE Group of Institute Foundations and Companies, which took place in Curitiba-PR simultaneously to the 4th Congress about Private Social Investment. The Organization's social-environmental responsibility actions were presented, highlighting the 50 years of the Fundação, in addition to projects developed by the Committees of its Schools gathered in the booklet Educational Volunteering which was distributed to the public.

The Fundação presented projects carried out in its farm-schools of Canuanã-TO and Bodoquena-MS during the V Exposition of Farming Technology Science for Life. Carried out by Embrapa, the Brazilian Farming Research Company, it is considered the largest event of the sector in Brazil, strategically created for the promotion of the agribusiness and development of science and technology.

Main Acknowledgments

International Championship of Robotics First Lego League FLL: ten students of the 10th grade of Osasco School, Unit I, took part in the championship, carried out in Atlanta in the United States. The championship involved 83 teams of students from 16 countries, who use science and technology to study and explore themes important to society. Fundação Bradesco achieved the 2nd place in the Scientific Research Category.

VII National Contest of Posters: a project of the School Unit of Paragominas-PA achieved the 3rd place, and was awarded in the Palácio da Alvorada in Brasília.

2006 E-Learning Brazil Award: Fundação Bradesco was acknowledged in the Educational Category Star and as a National Material Contribution Diamond, for the results of its work in long distance education in consecutive years.

Race and Gender Award: an educational project carried out by the School Unit of Cuiabá-MT was honored with the seal and diploma Race and Gender, an action of the local city hall, which acknowledges institutions, entities and people involved in the fight against racism, racial and gender discrimination and in the construction of a culture of peace and social justice.

Schools Location

The majority of the Fundação Bradesco's educational units are located in the outskirts of major cities or in rural areas where there is a significant lack of educational and welfare assistance. Thousands of students in all over Brazil are given the opportunity to study at these schools.

Independent Auditors' Report on Limited Review of Supplementary Accounting Information Contained in the Report on Economic and Financial Analysis and in the Statement of Social Responsibility

To the Board of Directors
Banco Bradesco S.A.

1. In connection with our audit of the financial statements of Banco Bradesco S.A. and its subsidiaries (consolidated) as of June 30, 2006, on which we expressed an unqualified opinion in our report dated August 4, 2006, we carried out a limited review of the supplementary accounting information presented in the Report on Economic and Financial Analysis and in the Statement of Social Responsibility. This supplementary information was prepared by the Bank's management and is presented to permit additional analysis and should not be considered as an integral part of the financial statements.
2. Our work was carried out in accordance with the specific standards established by the Institute of Independent Auditors of Brazil - IBRACON, in conjunction with the Federal Accounting Council - CFC, for purposes of our review of the supplemental accounting information contained in the Report on Economic and Financial Analysis and in the Statement of Social Responsibility and mainly comprised: (a) inquiries of and discussions with management responsible for the accounting, financial and operating areas of the Bank with regard to the main criteria used for the preparation of this supplementary accounting information and (b) a review of the significant information and the subsequent events which have, or could have, significant effects on the financial position and operations of the Bank and its subsidiaries.
3. Based on our limited review, we are not aware of any material modifications which should be made to the supplementary information referred to above in order that such information be fairly stated, in all material respects, in relation to the financial statements taken as a whole, referred to in paragraph one.
4. The supplementary accounting information, referred to in paragraph 1, also includes accounting information presented for comparison purposes for the six-month period ended June 30, 2005. The review of the supplementary accounting information for that six-month period was conducted by other independent auditors, who issued an unqualified report on the special review dated August 5, 2005.

8 - Financial Statements, Independent Auditors' Report, Summary of the Audit Committee Report and Report of the Fiscal Council

Management Report

Dear Stockholders,

We are pleased to present the Financial Statements of Banco Bradesco S.A. for the 1st half of 2006, as well as the consolidated financial statements, pursuant to the Brazilian Corporate Law.

The economic environment in the period was pointed out by the relaxation process of the monetary policy, jointly with the strong inflation reduction of consumer and wholesale prices. With the interest decrease, the activity had clear signs of upturn, mainly the consumption of families and investment. The closeness of the presidential elections may not generate volatility to the markets, and that has made attentions be drawn to the international uncertainties. As the Brazilian economy is much more solid and resistant to this international context, it is expected the continuity of the domestic and income growth, favoring loan operations without relevant concerns with delinquency.

Among the material events in the period at Bradesco Organization, we point out the following:

- **On March 20, a partnership was entered into with American Express Company**, by means of which Bradesco took over its credit card operations and similar activities in Brazil, starting to have the exclusivity right for the issuance of cards of the Centurion line, for a minimum period of 10 years, and the management of the network of establishments using Amex Cards. The operation was approved by the Brazilian Central Bank in June 28, 2006.
- **On March 24, a 15% increase in the amount of the Monthly Interest on Own Capital, paid as of May/2006**, increasing it from R\$ 0.028500000 to R\$ 0.032775000 (net of income tax R\$ 0.027858750), related to common stocks, and from R\$ 0.031350000 to R\$ 0.036052500 (net of income tax R\$ 0.030644625), to preferred stocks, both per stock, paid in advance to stockholders, in conformity with the Monthly Compensation System, on the account of the result reached at the end of the year.
- **On March 28, a partnership was entered into among Bradesco, Fidelity National Information Services, Inc. and Banco ABN AMRO Real S.A.**, for the creation of Fidelity Processadora e Serviços S.A., which provides services related to card activities, pointing out processing, Call Center management, back office support, risk management and collection services.
- **On May 15, integration of Banco BEC S.A. to Bradesco, with the change of BEC Branches into Bradesco Branches.** The initiative optimized resources, joining specialties and the dedication of the work force, always with the purpose of providing clients with the maximum of quality in products and services.
- **On June 8, partnership with GBarbosa**, one of the main retail chains of Northeastern Brazil, to manage the Credit Card Private Label Credi-Hiper, **and, on July 14, with COOP Cooperativa de Consumo**, Latin America's largest cooperative, for the launch and management of the Card Private Label Coop Fácil. The agreements will offer the possibility of access to Bradesco's products and services.

1. Result in the Period

Bradesco, in this 1st half of 2006, recorded a Net Income of R\$ 3.132 billion, corresponding to R\$ 3.20 per stock and an annualized profitability of 31.32% on the final Stockholders' Equity and of 33.39% on the average Stockholders' Equity. The annualized return on Total Assets was 2.71%, equal to the same period of the previous year.

Taxes and contributions, including social security, paid or provisioned in the period, resulting from the main activities developed by Bradesco Organization, totaled R\$ 2.769 billion, equivalent to 88.40% of the Net Income.

On June 30, the Operating Efficiency Ratio - IEO, accumulated for 12 months, was 42.75% against 48.05% in June/2005. The improvement reflects the strict control of administrative expenses and the permanent effort for the increase in revenues.

Monthly and Interim Interest on Own Capital paid and provisioned to stockholders added up to R\$ 1.148 billion. Thus, for each stock, R\$ 1.227771 (R\$ 1.043605 net of withholding income tax) were attributed, including the additional of 10% for preferred stocks, and R\$ 1.116155 (R\$ 0.948732 net of withholding income tax) for common stocks.

2. Capital and Reserves

At the end of the 1st half, the paid-up Capital Stock was R\$ 13 billion. Added up to Equity Reserves of R\$ 8.461 billion, it comprised the Stockholders' Equity of R\$ 21.461 billion, with an evolution of 22.99% compared to the same period of the previous year, corresponding to the equity amount of R\$ 21.92 per stock.

The Managed Stockholders' Equity represents 9.24% of the consolidated Assets, which added up to R\$ 232.935 billion, an increase of 19.74% over June/2005. Thus, the capital adequacy ratios reached 18.67% in the financial consolidated and 16.51% in the economic-financial consolidated, therefore higher than the minimum of 11% set forth by Resolution 2,099, as of 8.17.1994, of the National Monetary Council, in conformity with the Basel Committee. At the end of the first half, the stockholders' equity to fixed assets ratio, compared to the Consolidated Reference Stockholders' Equity, was 48.03% in the financial consolidated and 16.40% in the economic-financial consolidated, placed in the maximum limit of 50%.

In compliance with the provision in the Article 8 of the Circular 3,068, as of 11.8.2001, of the Central Bank of Brazil, Bradesco states it has financial capacity and intention to hold to maturity securities rated in the securities held to maturity category.

3. Funding and Asset Management

The global volume of funds raised and managed by Bradesco Organization, on June 30, corresponded to R\$ 343.628 billion, 21.31% higher than the same period of the previous year, namely:

- R\$ 107.614 billion in Demand Deposits, Time Deposits, Interbank Deposits, Other Deposits, Open Market and Savings Accounts;
- R\$ 137.648 billion in assets under management, comprising Investment Funds, Managed Portfolios and Quotas of Third-Party Funds, a 26.88% growth compared to the same period of the previous year;
- R\$ 48.687 billion recorded in the Exchange Portfolio, Borrowings and Onlendings, Own Working Capital, Tax Payment and Collection and Related Taxes, Funds From Issuance of Securities and Subordinated Debt in the Country;
- R\$ 43.947 billion recorded in Technical Provisions for Insurance, Supplementary Private Pension Plans and Savings Bonds, with an increase of 20.29% when compared to the previous year;
- R\$ 5.732 billion in Foreign Funding, by means of public and private issuances, Subordinated Debt and Securitization of Future Financial Flows, representing US\$ 2.648 billion.

4. Loan Operations

Consolidated loan operations, at the end of the first half, recorded a balance of R\$ 88.643 billion, increasing 27.02% compared to June/2005, including in this amount:

- R\$ 5.767 billion in Advances on Foreign Exchange Contracts, for a total Portfolio of US\$ 5.320 billion of Export Financing;

Edgar Filing: BANK BRADESCO - Form 6-K

- US\$ 563.428 million of operations in Import Financing in Foreign Currencies;
- R\$ 3.178 billion in Leasing;
- R\$ 6.865 billion in businesses in the Rural Area;
- R\$ 32.310 billion in Consumer Financing;

- R\$ 8.489 billion referring to onlending operations of external and internal funds, mainly coming from BNDES Brazilian Development Bank.

In the first half, for the activities of Real Estate Loan, the Organization destined funds for house construction and acquisition in the amount of R\$ 1.344 billion, corresponding to 11,835 properties.

The consolidated balance of allowance for doubtful accounts reached R\$ 5.833 billion, equivalent to 6.58% of the total volume of loan operations, with R\$ 1.080 billion of additional provision in relation to the minimum required by the Central Bank.

5. Capital Markets Operations

With a highlighted performance in the Capital Markets Area, Bradesco intermediated important operations of public placement of stocks, debentures and promissory notes, and also took part in structured operations, pointing out Credit Right Investment Funds, which, in the period, added up to R\$ 8.963 billion, 29.39% of the total volume of issuances registered at the CVM – Brazilian Securities and Exchange Commission. The Bank was also highlighted in assisted special operations, comprising mergers and acquisitions, project finance and corporate and financial restructurings.

6. Bradesco Assistance Network

Bradesco Organization's Network, made available for clients and users, at the end of the first half was comprised of 13,644 branches with 23,551 machines of Bradesco Day&Night Self-Service Network, 22,164 of them working even on the weekends and holidays. In addition, more 2,841 machines of Banco24Horas (24-hour Bank) were made available for Bradesco clients for withdrawal operations, issuance of statements and balance consultation.

2,993	Branches in the country (2,992 Bradesco and 1 Banco Finasa);
3	Branches Overseas, 1 in New York, 1 in Grand Cayman and 1 in Nassau, in Bahamas (Boavista);
5	Subsidiaries overseas (Banco Bradesco Argentina S.A., in Buenos Aires, Banco Bradesco Luxembourg S.A., in Luxembourg, Bradesco Securities, Inc., in New York, Bradesco Services Co., Ltd., in Tokyo and Cidade Capital Markets Ltd., in Grand Cayman);
5,533	Banco Postal Branches;
2,513	Corporate Site Branches;
2,327	Outplaced Terminals of Bradesco Day&Night Self-Service Network;
270	Branches of Finasa Promotora de Vendas, a company present in 17,431 car dealers and 22,350 stores trading furniture and home décor, tourism, auto parts, information technology programs and equipment, home building material, clothing and footwear, among others.

7. Grupo Bradesco de Seguros e Previdência

Grupo Bradesco de Seguros e Previdência, with a strong operation in the Insurance, Supplementary Pension Plans and Savings Bonds areas, recorded on June 30 a Net Income of R\$ 1.041 billion and Stockholders' Equity of R\$ 6.305 billion. Net premiums issued recorded R\$ 8.646 billion, with a 16.41% growth compared to the same period of the previous year.

8. Corporate Governance

The adoption of the best Corporate Governance practices has enabled Bradesco Organization to improve the relationship with investors and other interested parties as well as improve performance in all operation segments. Up to date, we have adopted many initiatives, such as: the monthly payment of dividends, 100% Tag Along, for the common stocks and 80% for the preferred stocks; Corporate and Departmental Codes of Ethics for the Accounting and Financial Management Areas; Instrument of Policies for Disclosure of Material Act or Fact and Trading of Securities; attendance of two independent board of directors members; adherence to the Equator Principles and the Global Compact; progress in the transparency of information to the market and release in three languages Portuguese, English and Spanish; and Disclosure, Audit, Internal Controls and Compliance, Compensation, Expenses Evaluation, Social-environmental Responsibility and Corporate Governance Committees, accurate definition of the attributions of each Management Body.

Another highlight is that Bradesco Stocks, since June/2001, take part in the Level 1 of Corporate Governance of BOVESPA and, since December/2005, started to integrate ISE Bovespa's Corporate Sustainability Index, in addition to the achievement, by the Bank, of the specific Corporate Governance rating AA-Best Practices. Thus, we can see the Organization's commitment to its stockholders, clients, investors, employees and the public in general, highlighting the different aspects of stability, transparency, liquidity and social and environmental responsibility. The Bank, as it has stocks traded on foreign stock exchanges, also makes its financial statements in US GAAP, North American accounting practices.

It is also important to mention that, on May 19, Standard & Poor's Rating Services attributed Bradesco, in its Global Scale, ratings of counterparty credit in foreign currency and local currency BB+/B (long and short terms). In the Brazil Domestic Scale, it granted the Bank the rating of counterparty credit brAA+. In this same Scale, the two subsidiaries Bradesco Seguros e Previdência and Bradesco Capitalização had the ratings of counterparty credit increased from brAA to brAA+. These ratings are one level above the rating of sovereign credit in foreign currency attributed to the Federative Republic of Brazil (BB/Stable/B).

On May 22, with the intention of reaffirming the permanent commitment to strengthen the Organization and, consequently, contribute to its continuity, Bradesco Organization's Corporate Governance Policy was approved. Further information as to the practices adopted may be obtained in the website www.bradesco.com.br, Corporate Governance page.

In the period, it is worth mentioning that Bradesco Organization, in compliance with the Instruction 381, issued by the Brazilian Securities and Exchange Commission, neither contracted nor had services rendered by PriceWaterhouseCoopers Auditores Independentes unrelated to the independent audit in levels higher than 5% of total costs thereof. The policy adopted complies with the principles preserving the Auditor's independence, pursuant to the internationally accepted criteria, such as: the auditor shall neither audit his own work, nor perform management duties with his client or promote his interests.

The Annual Stockholders Meeting as of March 27 resolved to maintain the Fiscal Council, composed of 3 sitting members and 3 deputy members, with a term of office until 2007, being 1 sitting member and deputy chosen amongst preferred stockholders.

8.1. Internal Controls and Compliance

The Internal Controls and Compliance system, subordinated to the guidance and supervision of the Board of Directors, is an important instrument in the management of businesses and activities of Bradesco Organization, with a view to ensuring the compliance with legal and regulatory rules, guidelines, plans, procedures and internal rules, and minimize the risks of equity losses and harm to the image.

The Organization, in compliance with the Sarbanes-Oxley Act, contracted an audit firm internationally acknowledged in certification of internal controls to conduct an evaluation of its processes and its systems. More than 150 thousand hours were invested, among external and internal resources, highlighting the analysis of processes, reevaluation of its flows and design and application of adherence tests aiming at the effectiveness of the controls. The works provided improvement of the structure of internal controls and compliance, of the documentation of significant processes and flows, being aligned with the main control frameworks, such as the COSO and the COBIT, which comprise Corporate Governance and Technology aspects.

As provided for in the Article 302 of the Sarbanes-Oxley Act, the design of the internal controls processes are adherent, and deficiencies that compromise their certification have not been identified, which will involve the evaluation of the adherence to the processes and the issuance of a report with reference date as of December 31, 2006, to be filed with the Securities and Exchange Commission SEC jointly with the corresponding financial statements in US GAAP.

It is incumbent upon the Internal Controls and Compliance Committee to evaluate, issue an opinion and submit to the approval of the Board of Directors the Conformity Reports of the Internal Controls.

Money Laundering Combat

Bradesco Organization maintains a policy to prevent and combat money laundering, which strictly complies with the laws and regulations in force. Its compliance is structured with a specific area, liable for the management and monitoring of operations and financial transactions carried out in its business environments.

Information on client, supported by systems continuously improved for the monitoring and the identification of unusual operations, has the clear purpose of preventing the use of the Organization in the practice of laundering of financial funds.

These measures, combined with specific analyses, contribute to the full compliance with the policy defined by the Senior Management and enable to protect the Institution, managers, stockholders, clients and employees.

8.2. Policies for Transparency and Disclosure of Information

Concerning the relationship with investors and the market in general, 63 internal and external meetings with analysts were promoted in the period, 7 conference calls, 4 presentations to APIMEC Association of the Capital Markets Investment Analysts and Professionals and 4 events abroad, besides quarterly release of Report of Economic and Financial Analysis, a detailed collection of information most requested by specialized readers.

On the website www.bradesco.com.br, Investor Relations Section, you can access information related to Bradesco Organization, for instance, its profile, history, ownership structure, management reports, financial results, last acquisitions, meetings at the Market Analysts Associations (Apimec and Abamec), besides other information about the financial market, in the Portuguese, English and Spanish versions.

The Bank distributes monthly a newsletter named as *Cliente Sempre em Dia* (Updated News for Client), with circulation of 700 thousand copies; quarterly, the *Acionista Sempre em Dia* (Up-to-Date Stockholder), with 30

thousand copies, Revista Bradesco (Bradesco Magazine), with 26 thousand copies and Revista Bradesco Rural (Bradesco Rural Magazine), with 10 thousand copies, all of them targeting external readers. Annually it publishes the Management and the Social Responsibility Reports.

200

8.3. Social-environmental Responsibility

The social-environmental issue and its impacts on the economic development of the communities and of the country play an important role in Bradesco's strategic planning. In the period, the Bank decided to adopt the reviewed version of the Equator Principles, ratifying the commitment of evaluating, still under this aspect, all project financing with amount equal or higher than US\$10 million. And among its consumption materials, it also started using recycled paper to make checkbooks, produced with the same safety, quality and reliability already seen by all the market.

In addition to this, Bradesco obtained ISO 14001 Certification, granted to companies with proved support practices in the preservation of sustainability of the planet, and the OHSAS 18001 Rule Certification of Occupational Health and Safety, which allows the establishment and development of conditions contributing to a safe and healthy work environment, for the Edifício Bradesco Avenida Paulista in São Paulo, SP.

The Social-environmental Responsibility Corporate Policy, which sets forth the guidelines about the theme, is available in the Corporate Governance page on the Investor Relations website www.bradesco.com.br/ri, inclusively in the English and Spanish languages, increasing the visibility of the Organization's actions related to the sustainable development.

9. Risk Management

Directly subordinated to an Executive Officer and Presidency of the Bank and carried out independently, the risk management involves an integrated set of controls and processes, comprising credit risk, market risk and operating risk. By principle, the Organization adopts a conservative policy in terms of exposure to risks, and the guidelines and limits are defined by the Senior Management.

9.1. Credit Risk

The Credit Risk management observes the best practices existing in the market and aims at complying with the requirements proposed in the New Basel Accord, requiring a high level of discipline and control in the analyses of operations, preserving the integrity and independence of processes. This management occurs by means of a continuous and evolutionary process of mapping, assessment and diagnosis of models, instruments, policies and procedures in force, supported by study and analysis integrated to the Organization's reality.

9.2. Market Risk

Market risk is followed, assessed and managed by means of methodologies and models aligned with the best practices of the domestic and foreign markets and with the recommendations and rules of the regulating bodies. The market risk management policy is conservative, and the VaR (Value at Risk) limits are defined by the Senior Management and daily monitored, in an independent way.

9.3. Operating Risk Management

The effective success for the excellence in the Operating Risk management is based on the dissemination of culture, disclosure of policies and implementation of corporate methodologies. In this sense, Bradesco Organization applies these assumptions and considers the risk management activity essential for the generation of value added, by means of the improvement of internal processes and systems, as well as the support to the business areas, having as purpose the improvement of the operating efficiency and the decrease of capital to be allocated.

With a continuous work to be aligned with the best market practices in the operating risk management, Bradesco is able to meet the guidance of the New Basel Capital Accord, in the schedule established by the Central Bank of Brazil, by means of the Notice 12,746, as of December 2004. The Organization's goal is to reach a qualification for the Capital Allocation Model by the Advanced Internal Measuring Approach (AMA), as the adoption of this method will provide lower capital allocation.

It is also worth pointing out that a new corporate systemic platform is under development, which will integrate in a single database the information of Operating Risk and Internal Controls, comprising inclusively the requirements set forth by the Sarbanes-Oxley Act. The result reached foresees to assist the Bank in the increase of quality of the management of its risks and controls, contributing to the improvement of the operating efficiency indexes, in addition to meeting the legal requirements.

10. Bradesco Organization's Social Action

In the social area, the Organization continues with its expensive work, mainly by means of the educational and assistance programs of Fundação Bradesco, which maintains 40 Schools set up mainly in regions with social-economic needs, in all Brazilian States and in the Federal District. The program provides more than 108 thousand students with totally free education, including education courses targeted at youngsters and adults and initial and continued education of workers. Out of these, more than 50 thousand students of the elementary, middle and high schools and technical professional courses receive, also on a free basis, food, uniform, school supply and medical and dental assistance.

It is worth pointing out Bradesco's support to Finasa Esportes Program with volleyball and basketball training centers at Fundação Bradesco, in Osasco, SP, and in local schools and sports centers in the city. It currently assists 3,093 girls from 10 to 16 years of age.

11. Human Resources

In the Human Resources area, searching for a permanent evolution in the quality of assistance and in the level of the services provided, the Bank maintains its wide training program, aiming at the qualification and professional development of the staff. In the first half of 2006, 735 courses were carried out, with 802,782 participations. On June 30, the assistance benefits aimed at the improvement of the quality of life, well being and safety of the employees and their dependents comprised 174,386 lives.

12. Acknowledgments

Seen in a comprehensive way or by specific activity area, the results reassure Bradesco's effort to exceed expectations, always based on the quality of services and on the permanent determination to offer the best assistance. For the achievements and advances reached, we thank our stockholders and clients for their support and trust and our employees for their dedicated work.

1) Operations

Banco Bradesco S.A. is a private-sector publicly-held company which, operating as a Multiple Bank, carries out all types of authorized banking activities through its commercial, foreign exchange, consumer financing, housing loan and credit card portfolios. The Bank also operates in a number of other activities through its direct and indirect subsidiary companies, particularly in Leasing, Investment Bank, Consortium Management, Insurance, Private Pension Plan and Savings Bonds activities. Operations are conducted within the context of the companies comprising the Bradesco Organization, working in an integrated manner in the market.

On December 21, 2005 Bradesco acquired the stock control of Banco do Estado do Ceará S.A. BEC and its subsidiary, whose process was concluded on January 3, 2006, date of the execution of the Agreement for Purchase and Sale of Stocks and of the Special Stockholders Meeting which elected the new Managers.

On March 28, 2006 Bradesco, Fidelity National Information Services, Inc. (Fidelity National) and Banco ABN AMRO Real S.A. (Banco Real) entered into an agreement to make a partnership with the purpose of providing card processing services.

On June 28, 2006 Bradesco informed its stockholders, clients and the market in general the approval by the Central Bank of Brazil of the Purchase and Sale Agreement entered into with American Express Company, to take over its credit card operations and similar activities in Brazil, comprising the transfer to Bradesco of the subsidiaries of American Express in Brazil that operate in the credit card segment, insurance brokerage, travel services, retail foreign exchange services and consumer sales financing CDC operations, as well as the exclusivity right of Bradesco for the issuance of credit cards of the Centurion line in Brazil. The Centurion line includes the traditional cards Green, Gold and Platinum which have the logo American Express Centurion. The exclusivity right will be for a minimum term of 10 years and allows Bradesco to issue American Express credit cards for individual and corporate clients, offer the Membership Rewards Program related to these cards and manage the network of establishments for the acceptance of American Express cards in Brazil.

On May 15, 2006 Bradesco and Bradespar informed their stockholders, customers and the market in general that they entered into a Purchase and Sale Agreement of Stocks Issued by Bradesplan Participações S.A., by means of which Bradespar sold to Bradesco 100% of the stocks issued by Bradesplan Participações S.A.

2) Presentation of the Financial Statements

The financial statements of Banco Bradesco S.A. include the financial statements of Banco Bradesco S.A., its foreign branches and its direct and indirect subsidiaries and jointly controlled investments, in Brazil and Abroad, and Special Purpose Entities (SPEs). They were prepared based on accounting policies determined by Brazilian Corporate Law for the recording of operations, as well as the rules and instructions of the National Monetary Council (CMN), Brazilian Central Bank (BACEN), Brazilian Securities Commission (CVM), Brazilian Council of Private Insurance (CNSP), and Superintendence of Private Insurance (SUSEP) and the National Agency for Supplementary Healthcare (ANS), and comprise the financial statements of the leasing companies based on the capital leasing method of accounting, whereby leased assets are reclassified to the leasing operations account.

Accordingly, for preparation purposes, intercompany investments, asset and liability account balances, revenue, expenses and unrealized profit were eliminated from these financial statements and, in the case of investments which are jointly controlled with other stockholders, asset, liability and income components were included in the consolidated financial statements in proportion to the parent company's percentage capital ownership of each investee, as well as the portions of the net income and the stockholders' equity referring to the interest of minority stockholders were highlighted. Goodwill on the acquisition of investments in subsidiaries and in the jointly controlled investments is presented in deferred assets. The exchange variation arising from transactions of foreign branches and subsidiaries was allocated to the statement of income accounts according to the corresponding assets and liabilities from which it

was originated.

The financial statements include estimates and assumptions, such as the calculation of the allowance for loan losses, the estimation of the fair value of certain financial instruments, provision for contingencies, other provisions, the quantification of technical provisions for insurance, pension plans and savings bonds and the determination of the useful economic life of specific assets. Actual results could differ from these estimates and assumptions.

213

We highlight the main ownerships included in the consolidation:

- (18) Company acquired in May 2006;
- (19) Interest increase due to the acquisition of Banco BEC S.A; and
- (20) Current name of American Express do Brasil Tempo Ltda. (Note 1).

3) Significant Accounting Policies

a) Determination of net income

Income and expenses are determined on the accrual basis of accounting. Transactions with prefixed rates are recorded at their redemption amounts and income and expenses for the future period are recorded as a discount to the corresponding asset and liability accounts. Income and expenses of a financial nature are prorated daily and calculated based on the exponential method, except when relating to discounted notes or to cross-border transactions which are calculated based on the straight-line method. Post-fixed or foreign-currency-indexed transactions are adjusted to the balance sheet date.

The insurance and coinsurance premiums and commissions, net of premiums assigned in coinsurance and reinsurance and corresponding commissions, are appropriated to results upon issuance of the corresponding insurance policies and invoices and are deferred for appropriation on a straight-line basis over the terms of the insurance policies, during the risk coverage period, by means of recording and reversal of unearned premiums reserve and deferred selling expenses. The accepted coinsurance and retrocession operations are recorded based on the information received from other companies and the Brazilian Institute of Reinsurers (IRB), respectively.

The supplementary private pension plans contributions and life insurance premiums covering survival are recognized in income when effectively received.

The revenue from savings bonds plans is recognized at the time it is effectively received. The expenses for placement of bonds, classified as Selling Expenses, are recorded as they are incurred. Brokerage expenses are recorded when the saving bonds contributions are effectively received. The payment for draw redemptions is considered as expenses of the month when these occur.

The expenses for technical provisions for private pension plans and savings bonds are recorded at the same time as the corresponding revenues there from are recognized.

b) Interbank investments

Purchase and sale commitments subject to unrestricted movement agreements are adjusted to mark-to-market. Other assets are recorded at acquisition cost, including income earned up to the balance sheet date, net of loss accrual, when applicable.

c) Marketable Securities

Trading securities securities which are acquired for the purpose of being actively and frequently traded are adjusted to mark-to-market as a counter-entry to income for the period;

Securities available for sale securities which are not specifically intended for trading purposes or as held to maturity are adjusted to mark-to-market as a counter-entry to a specific account in stockholders' equity, at amounts net of tax effects; and

Securities held to maturity securities for which there exists intention and financial capacity for maintenance through to maturity are recorded at acquisition cost, plus income earned, as a counter-entry to income for the period.

d) Derivative financial instruments (assets and liabilities)

These are classified based on management's intended use thereof on the date of the operation and whether it was carried out for hedging purposes or not.

The derivative financial instruments, which do not comply with the hedging criteria established by BACEN, particularly derivatives used to manage general exposure to risk, are recorded at market values, with the corresponding mark-to-market adjustments taken directly to income for the period.

e) Loan and leasing operations, advances on foreign exchange contracts, other receivables with characteristics of loan granting and allowance for doubtful accounts

Loan and leasing operations, advances on foreign exchange contracts and other receivables with characteristics of loan granting are classified at their corresponding risk levels in compliance with: (i) the parameters established by CMN Resolution 2682, at nine levels from AA (minimum risk) to H (maximum risk); and (ii) management's risk level assessment. This assessment, which is carried out on a periodic basis, considers current economic conditions, and past loan loss experience, as well as specific and general risks relating to operations, borrowers and guarantors. Moreover, the length of the delay in payment defined in CMN Resolution 2682 is also taken into account for customer risk classification purposes as follows:

Past-due period	Customer classification
From 15 to 30 days	B
From 31 to 60 days	C
From 61 to 90 days	D
From 91 to 120 days	E
From 121 to 150 days	F
From 151 to 180 days	G
More than 180 days	H

The accrual of these operations past due up to 59 days is recorded in revenues and subsequent to the 60th day, in unearned income.

Past-due operations classified at H level remain at this level for six months, subsequent to which time they are written-off against the existing allowance and controlled over a five-year period in memorandum accounts, no longer being recorded in balance sheet accounts.

Renegotiated operations are maintained with a classification equal to their prior rating. Renegotiated operations, already written-off against the provision and which are recorded in memorandum accounts, are classified at H level and the possible revenues derived from their renegotiation are recognized as revenue only when they are effectively received.

In the case of mortgage loans, the contractual capitalization period (monthly or quarterly) for income appropriation purposes complies with applicable legislation and end-borrower financings are adjusted to the present value of the installments receivable.

The allowance for doubtful accounts is recorded at an amount considered sufficient to cover estimated losses and considers BACEN requirements and instructions, as well as Management's appraisal of the related credit risks.

f) Income tax and social contribution (asset and liability)

Tax credits, income tax and social contribution, calculated on tax losses, negative basis of social contribution and temporary additions are recorded in Other receivables - Sundry, and the provision for deferred tax liabilities on excess depreciation and mark-to-market adjustments of securities is recorded in Other liabilities - Fiscal and pension plan activities. Only tax credits which have already acquired tax deductibility rights are recorded on goodwill amortization.

Tax credits on temporary additions are realized upon use and/or reversal of the corresponding provisions on which they were recorded. Tax credits on tax losses and negative basis of social contribution will be realized as taxable

income is generated.

The provision for federal income tax is calculated at the standard rate of 15% of taxable income, plus an additional rate of 10%. The provision for social contribution is recorded at the rate of 9% of pre-income tax. Provisions were recorded for other taxes and social contributions in accordance with specific applicable legislation.

g) Prepaid expenses

This records investments of resources in prepayments, whose benefits or service provision will take place in subsequent years.

h) Investments

The investments in subsidiaries, shared control subsidiaries and affiliated companies (when relevant) are valued by the equity accounting method. The financial statements of the foreign branches and subsidiaries are adjusted to comply with the accounting practices adopted in Brazil, translated into Reais and their related effects recognized in income for the period.

The exchange membership certificates of Stock Exchanges, the Custody and Settlement Chamber (CETIP) and the Mercantile and Futures Exchange (BM&F) are recorded at their unaudited book values, informed by the corresponding exchanges, and fiscal incentives and other investments are recorded at acquisition cost, less the provision for losses, when applicable.

i) Fixed assets

This is shown at acquisition cost, net of respective accumulated depreciations, calculated by the straight-line method according to the estimated useful-economic life of assets of which: real estate in use 4% p.a.; furnishings and fixtures, machinery and equipment 10% p.a.; transport systems 20% p.a.; and data processing systems 20% to 50% p.a.

j) Deferred charges

Deferred charges are recorded at cost of acquisition or formation, net of the corresponding accumulated amortization at 20% to 50% per annum, calculated on the straight-line method.

Goodwill on the acquisition of investments in subsidiary companies, and shared control subsidiaries based on expected future results, is amortized at rates of 10% to 20% per annum and is presented in deferred charges.

k) Deposits and funds obtained in the open market

These are recorded at the amount of the liabilities and include, when applicable, related charges up to the balance sheet date, on a daily pro rata basis.

l) Technical provisions relating to insurance, private pension plans and savings bonds activities

Technical provisions are calculated according to actuarial technical notes approved by SUSEP and ANS, and criteria set forth by CNSP Resolution 120/2004.

- Insurance of basic lines, life and health

The provision of unearned premiums is comprised of retained premiums which are deferred during the term of effectiveness of the insurance agreements, determining the pro-rata day value of the unearned premium of the period of the risk to accrue (future risk of policies in effect).

The provision of claims incurred but not reported (IBNR) is calculated on an actuarial basis to quantify the amount of claims incurred and not reported by those insured/beneficiaries. The provision is established net of recoveries of co-insurance and re-insurance.

The provision of unsettled claims is established based on the estimates of payments of indemnities, net of recoveries of co-insurance and re-insurance, pursuant to notices of claims received from those insured until the balance sheet date. The provision is monetarily restated and includes all the claims under litigation.

- Supplementary private pension plans and life insurance covering survival

The mathematical provision of benefits to be granted refers to participants whose benefits have not started yet. The mathematical provision of benefits granted refers to participants already using the benefits. Mathematical provisions related to private pension plans known as traditional represent the difference between the current value of the future benefits and the current value of the future contributions, corresponding to the obligations assumed under the form of supplementary pension plans, disability, pension and savings funds. They are calculated according to the methodology and premises set forth in Actuarial Technical Notes. The provisions linked to life insurance covering survival (VGBL) and to the private pension plans of the unrestricted benefits generating (PGBL) category represent the amount of the contributions made by the participants, net of loadings and other contractual charges, plus financial earnings generated by the investment of resources in investment funds specially established (FIEs).

The contribution insufficiency provision is constituted to complement the mathematical provisions of benefits to be granted and granted, should they not be sufficient to guarantee future commitments. The provision is calculated on an actuarial basis and takes into consideration the actuarial table AT-2000.

The financial fluctuation provision is established until the limit of 15% of the mathematical provision of benefits to be granted related to the private pension plans in the category of variable contribution with guarantee of earnings to meet possible financial fluctuations.

The administrative expenses provision is constituted to cover administrative expenses of the defined benefit and variable contribution plans. It is calculated in conformity with the methodology set forth in the Actuarial Technical Note.

- Savings Bonds

The mathematical provision for redemptions is calculated on nominal amounts of savings bonds and monetarily restated, when applicable, based on Actuarial Technical Notes approved by SUSEP.

The provisions for redemptions are established by the values of the expired savings bonds and also by the values of the savings bonds which have not expired but whose redemption has been early required by the clients. The provisions are monetarily restated based on the indexes estimated in each plan.

The provisions for unrealized and payable draws are constituted to meet premiums arising from future draws (unrealized) and also to premiums arising from draws in which clients were already selected (payable).

m) Contingent Assets and Liabilities and Legal Liabilities Tax and Social Security

The recognition, measuring and disclosure of contingent assets and liabilities and legal liabilities are made according to the criteria defined in CVM Resolution 489/05.

- **Contingent Assets:** They are not recognized on an accounting basis, except when the Management has total control of the situation or when there are real guarantees or favorable judicial decisions, on which more resources are not provided for, characterizing the gain as practically certain. The contingent assets with probability of probable success are only disclosed in the financial statements.
- **Contingent Liabilities:** They are established taking into consideration the opinion of the legal advisers; the nature of the lawsuits; similarity with previous processes; complexity; and in the positioning of our Courts, whenever the loss is evaluated as probable, what would cause a probable outflow of resources for the settlement of liabilities and when the amounts involved are measurable with enough safety. The contingent liabilities classified as possible losses are not recognized on an accounting basis, and they must only be disclosed in the financial statements, and those classified as remote do not require provision and disclosure.
- **Legal Liabilities Tax and Social Security:** They result from judicial proceedings related to tax liabilities, whose purpose of contestation is their legality or constitutionality, which regardless of the evaluation about the probability of success, have their amounts fully recognized in the financial statements.

n) Other Assets and Liabilities

The assets were stated at their realizable amounts, including, when applicable, related income and monetary and exchange variations (on a daily pro rata basis), and provision for loss, when deemed appropriate. The liabilities include known or estimated amounts, plus related charges and monetary and exchange variations (on a daily pro rata basis).

o) Supplementary Information to Financial Statements

With the purpose of providing supplementary information, we present the cash flow statement by the indirect method and the added value statement, not required by BACEN, which have been prepared in conformity with the structure set forth in the chart of accounts for National Financial System Institutions (COSIF).

4) Information For Comparison Purposes

During 1H06, Bradesco started consolidating in its financial statements American Express in Brazil (AMEX Brazil) and subsidiaries (note 1).

a) We present the main balance sheet and the statement of income, drawn up on 6.30.2006:

	R\$ thousand
	AMEX Brazil and subsidiaries
Assets	
Current and long-term assets	1,775,715
Funds available	44,268

Interbank investments	47,253
Securities and derivative financial instruments	141,129
Interbank and interdepartmental accounts	3,078
Loan operations	169,804
Other receivables and other assets	1,370,183
Permanent	70,529
Investments	484
Property, plant and equipment	66,907
Deferred charges	3,138
Total	1,846,244
Liabilities	
Current and long-term liabilities	1,655,313
Demand, time and other deposits	160,469
Interbank and interdepartmental accounts	43
Borrowings and onlendings	29,996
Derivative financial instruments	1,038
Other liabilities	1,463,767
Deferred income	51,400
Stockholders equity	139,531
Total	1,846,244

b) Loan operations and other receivables with loan concession features on 6.30.2006:

Loan operations	260,221
Other receivables	11,264
Total	271,485
Normal course	174,080
Abnormal course	97,405
Allowance for doubtful accounts	90,421

5) Adjusted Balance Sheet and Statement of Income by Business Segment

The following information is presented in conformity with the definitions set forth in the Chart of Accounts for National Financial System Institutions (COSIF).
