2. Basis of Preparation and Presentation of the Quarterly Information

The quarterly information was prepared in accordance with the accounting practices adopted in Brazil and with the procedures issued by the Brazilian Securities Commission (CVM) and by the Brazilian Institute of Accountants (IBRACON).

With the purpose of providing additional information, the following is presented: (a) statement of cash flow, prepared in accordance with the Statement NPC 20/99 issued by IBRACON and (b) statement of added value, in accordance with Resolution of Accounting Federal Council CFC 1,010 as of January 21, 2005.

Certain assets, liabilities, revenues and expenses are determined on the basis of estimates when preparing the financial statements. Accordingly, the financial statements of the Company and the consolidated financial statements include various estimates, among which are those relating to calculation of allowance for doubtful accounts, depreciation and amortization, asset valuation allowance, realization of deferred taxes, contingencies and other estimates. Actual results may differ from those estimated.

Significant accounting practices and consolidation criteria adopted by the Company are shown below:

a) Cash and cash equivalents

Cash and cash equivalents include the cash and checking account balances.

b) Marketable securities

Securities are recorded at cost, accrued of earnings verified up to the balance sheet date and not exceeding the market value. The marketable securities are redeemable within 90 days as from the balance sheet date.

c) Accounts receivable

Accounts receivable are stated at estimated realizable values. An allowance for doubtful accounts is provided in an amount considered by Management to be sufficient to meet probable future losses related to uncollectible accounts.

The setting up of provision is mainly based on the historic average of losses, in addition to specific accounts receivable deemed as uncollectible.

Customer credit financing is generally for a term of up to 24 months. Interest is recorded and allocated as financial income during the financing period.

The Company securitizes its accounts receivable with a partially owned special purpose entity, the PAFIDC (*Pão de Açúcar Fundo de Investimento em Direitos Creditórios*).

d) Inventories

Inventories are carried at the lower of cost or market value. The cost of inventories purchased directly by the stores is based on the last purchase price, which approximates the First In, First Out (FIFO) method. The cost of inventories purchased through the warehouse is recorded at average cost, including warehousing and handling costs.

e) Other current and noncurrent assets

Other assets and receivables are stated at cost, including, when applicable, contractual indexation accruals, net of allowances to reflect realizable amounts, if necessary.

f) Investments

Investments in subsidiaries are accounted for by the equity method, and provision for capital deficiency in subsidiaries is recorded, when applicable. Other investments are recorded at acquisition cost.

g) Property and equipment

These assets are shown at acquisition or construction cost, monetarily restated until December 31, 1995, deducted from the related accumulated depreciation, calculated on a straight-line basis at the rates mentioned in Note 10, which take into account the economic useful lives of the assets or the leasing term, whichever is shorter.

Interest and financial charges on loans and financing obtained from third parties directly or indirectly attributable to the process of purchase, construction and operating expansion, are capitalized during the construction and refurbishment of the Company's stores in conformity with CVM Deliberation 193. The capitalized

interest and financial charges are appropriated to results over the depreciation periods of the corresponding assets.

Other expenditures for repairs and maintenance that do not significantly extend the useful lives of related asset are charged to expense as incurred. Expenditures that significantly extend the useful lives of existing facilities and equipment are capitalized.

h) Intangible assets

Intangible assets include premium derived from the acquisition of companies and amounts related to acquisition of commercial rights and outlets. These amounts are supported by appraisal reports issued by independent experts, based on the expectation of future profitability, and are amortized in accordance with projected profitability over a maximum period of ten years.

i) Deferred charges

The expenditures related to the implementation of projects and development of new products and business models we recorded based on feasibility studies and are amortized for a term not exceeding 5 years.

j) Other current and noncurrent liabilities

These liabilities are stated at known or estimated amounts including, when applicable, accrued charges and interest or foreign exchange variations.

k) Derivative financial instruments

The Company uses derivative financial instruments to reduce its exposure to market risk resulting from fluctuations in interest and foreign currency exchange rates. In the case of asset instruments, these are accounted for at the lower of cost or market value, whichever is the shorter.

l) Taxation

Revenues from sales and services are subject to taxation by State Value-Added Tax ICMS , Services Tax ISS , Social Contribution Tax on Gross Revenue for Social Integration Program PIS and Social Contribution Tax on Gross Revenue for Social Security Financing COFINS at rates prevailing in each region and are presented as sales deductions in the statement of income.

The credits derived from non-cumulative PIS and COFINS are shown deducted from cost of goods sold in the statement of income. The debits derived from financial income and credits derived from financial expenses are shown deducted in these proper items of the statement of income.

The advances or amounts subject to offsetting are shown in the current and noncurrent assets, in accordance with the estimate for their realization.

The taxation on income comprises the income and social contribution taxes, which are calculated based on taxable income (adjusted income), at rates applicable according to the prevailing laws 15%, accrued of 10% over the amount exceeding R\$ 240 yearly for income tax and 9% for social contribution tax.

Deferred and income and social contribution tax assets were recorded under the item Deferred income and social contribution taxes from tax losses, negative basis of social contribution and temporary differences, taking into account the prevailing rates of said taxes, pursuant to the provisions of CVM Deliberation 273, as of August 20, 1998 CVM Ruling 371, as of June 27, 2002 and taking into account the history of profitability and the expectation of generating future taxable income based on a technical feasibility study, annually approved by the Board of Directors.

m) Provision for contingencies

Provision for contingencies is set up based on legal counsel opinions, in amounts considered sufficient to cover losses and risks considered probable. As per CVM Deliberation 489/05, the Company adopted the concepts established in NPC 22 on Provisions, Liabilities, Gains and Losses on Contingencies when setting up provisions and disclosures on matters regarding litigation and contingencies as per Note 16.

n) Revenues and expenses

CBD's indirect interest in Sendas Distribuidora at March 31, 2007 corresponded to 42.57% of total capital. It is incumbent upon CBD's Board of Executive Officers to conduct the operating and administrative management of Sendas Distribuidora, in addition to its prevailing decision when electing or removing executive officers.

Pursuant to its Shareholders' Agreement, Sendas S.A. may at any time as from February 1, 2007 exercise the right to barter its paid-in shares or a portion thereof, for preferred shares of CBD. At March 31, 2007, Sendas S.A. held 42.57% shareholding in the total capital of Sendas Distribuidora, 23.65% of which already paid-in and 18.92% to be paid-in.

- ii) To purchase the shares on which the barter rights have been exercised in cash, for the value of transfer (*);
- iii) To adopt any corporate procedure (CBD capital increase, merger of shares as per article 252 of the Corporate Law, or any other);

(*) value of transfer will be the value of the paid-in shares (23.65% at March 31, 2007 and December 31, 2006), which must be the higher between the two options below, limited to CBD's market value:

- Price of shares calculated based on the company's valuation to be calculated by acknowledged investment bank;

- Between February 1, 2010 and January 31, 2013: one third (1/3) of CBD's preferred shares, and
- As from February 1, 2013: the remaining shares still held by Sendas S.A.

At September 16, 2005, Sendas S.A. and CBD and its subsidiaries entered into the 2nd Addendum and Ratification of Shareholders' Agreement of Sendas Distribuidora, which resolved on:

- The adoption of new proportionality when appointing Board of Directors members, being CBD then entitled to appoint 7 out of the 13 members to be elected;
- Restrict the veto right of Sendas S.A. only as to the amendment to the purpose of the Company;
- The postponement of the additional term (second term) of payment of class A preferred shares not paid in by Sendas S.A., for a period to end at February 28, 2014. During this second term, the payment only be made in cash, especially by means of utilization of dividends paid by the Company to Sendas S.A. After such term, should payment do not occur, such shares will be cancelled.

At October 19, 2006, Sendas S.A. manifested in writing to CBD the wish to exercise the put option, pursuant to Clause 6.7 of Sendas Distribuidora Shareholders' Agreement, related to the transfer of equity control. CBD, understanding that a sale of control was not held, sent a counter-notice to Sendas S.A.

At October 31, 2006, CBD was notified by the *Câmara de Conciliação e Arbitragem da Fundação Getúlio Vargas FGV* (Chamber of Conciliation and Arbitration of the Getúlio Vargas Foundation) that Sendas S.A. has filed an appeal and brought the matter to arbitration, authority expected to discuss such matter.

At January 5, 2007, Sendas S.A. notified CBD, expressing the exercise of right to swap the totality of paid-up shares owned thereby with preferred shares of CBD's capital stock, provided for in Clause 6.9.1 of Shareholders' Agreement of Sendas Distribuidora, subjecting the effectiveness of swap to the award of arbitration mentioned above not to acknowledge the put exercise right on the part of Sendas.

At March 13, 2007, CBD and Sendas entered into an Arbitration Commitment, commencing the arbitration proceeding. At April 31, 2007, Sendas S.A. has formally presented their arguments in the *Câmara de Conciliação e Arbitragem* of Fundação Getúlio Vargas (FGV).

(i) Administrative Council for Economic Defense (CADE)

On March 5, 2004, Sendas Distribuidora shareholders entered into an Operation Reversibility Agreement related to the association between CBD and Sendas S.A. in the State of Rio de Janeiro, which establishes conditions to be observed until the final decision on the association process, such as the continuance, totally or partially, of the stores under Sendas Distribuidora responsibility, maintenance of the work posts in accordance with the average gross revenue by employee of the five largest supermarket chains, non-reduction of the term of current lease agreements, among others.

Shareholders are waiting for the conclusion of the process, however, based on the opinion of their legal advisors and on the normal procedural steps of the process, they believe that the association will be approved by the CADE.

(ii) Capital subscription by the AIG Group

At November 30, 2004, shareholders of Sendas Distribuidora and investment funds of the AIG Group (AIG) entered into an agreement through which AIG invested the amount of R\$ 135,675 in Sendas Distribuidora, by means of subscription and payment of 157,082,802 class B preferred shares, issued by Sendas Distribuidora, representing 14.86% of its capital. AIG has waived its rights to receive dividends, until November 30, 2008.

After this operation, the Company, through its subsidiary Sé, now holds 42.57% of the Sendas Distribuidora total capital.

According to the above mentioned agreement, CBD and AIG mutually granted reciprocal call and put options of the shares purchased by AIG in Sendas Distribuidora, which may be exercised within approximately 4 years.

Upon exercising the referred options, the shares issued by Sendas Distribuidora to AIG will represent a put against CBD which may be used to subscribe up to three billion preferred shares to be issued by CBD in a future capital increase.

The price of the future issuance of CBD preferred shares will be set based on market value at the time of issuance, and the amount of issued shares will enable the payment by AIG in the maximum quantity referred to above. If the AIG value of Sendas Distribuidora's shares results in more than the value of three billion shares of CBD, CBD will pay the difference in cash.

The exit of AIG from Sendas Distribuidora is defined based on the Exit Price, the calculation is based on the EBITDA, EBITDA multiple and the Net Financial Indebtedness of Sendas Distribuidora. This Exit Price will give AIG the right to purchase CBD preferred shares according the criteria below:

- Should the Exit Price be lower than the equivalent to two billion CBD preferred shares (at market value on the occasion), the number of shares to be issued will be defined by the Exit Price divided by the CBD preferred share market value;
- Should the Exit Price exceed the equivalent to two billion CBD preferred shares (at market value on the occasion), the number of shares to be issued will be, at CBD discretion, a minimum of two billion shares and a maximum of three billion shares, and the difference between the Exit Price and the amount equivalent to the number of CBD preferred shares issued (defined by CBD) will be paid in cash.

At March 31, 2007, total AIG shareholding represented a credit of R\$ 137,747 (R\$ 151,157 at December 31, 2006), which, converted to the average quotation of the last week of March 2007 of CBD shares in the São Paulo Stock Exchange BOVESPA, would be equivalent to a total of 2,223,880,667 shares (2,181,516,928 shares at December 31, 2006) of the Company (1% of its capital).

d) Investment agreement CBD and Itaú

Miravalles, a company set up in July 2004 and owner of exploitation rights of the Company's financial activities, received funds from Itaú related to capital subscription, which then started to hold 50% of such company. Also in 2004, Miravalles set up Financeira Itaú CBD S.A. FIC, with capital stock of R\$ 150,000. It is a company which operates in structuring and commercialization of financial products and services exclusively to CBD customers.

On December 22, 2005, an amendment to the partnership agreement among CBD, Itaú and FIC was signed, and the clauses referring to meeting of performance goals, initially established, were changed. By such amendment, the meeting of goals and the guarantee account are not longer tied, and fines for noncompliance of said goals were set out. At December 31, 2006 the Company recognized the remaining amount of R\$ 58,151 under non-operating results, due to the fulfillment of certain performance goals during the year.

This partnership is effective for 20 years and may be extended for an indeterminate term. The operational management of FIC is under the responsibility of Itaú.

The Miravalles financial information for the quarter ended March 31 and the financial statements for the year ended December 31, 2006 were audited by other independent auditors. In the quarter ended at March 31, 2007, total investments and net equity result of said investee represented 0.7% and (16.3)%, respectively, in relation to the Company's consolidated financial statements (0.7% and 15.4% of total assets in the year ended at December 31, 2006 and net income in the quarter ended at March 31, 2006, respectively).

The Company uses swaps operations to switch obligations from fixed interest rate in U.S. dollar to Brazilian real related to CDI (floating) interest rate. The Company entered, contemporaneously with the same counterparty, into cross-currency interest rate swaps and has treated the instruments on a combined basis as though the loans were originally denominated in *reais* and accrued interest at floating rates.

The annualized CDI benchmark rate at March 31, 2007 was 13.91% (15.0% at December 31, 2006).

(i) Working capital financing

Obtained from local banks and part of it is used to fund customer credit (the remaining balance not granted to PAFIDC), or originated from needs of financing of CBD growth. This is made without guarantees, but endorsed by CBD in case of Sendas Distribuidora.

(ii) BNDES credit line

The line of credit agreements, denominated in *reais*, with the Brazilian National Bank for Economic and Social Development (BNDES), are either subject to the indexation based on TJLP rate (long-term rate) or are denominated based on a basket of foreign currencies to reflect the BNDES funding portfolio, plus an annual interest rates, in both cases. The financing is paid in monthly installments after a grace period, as mentioned below.

The Company cannot offer any assets as collateral for loans to other parties without the prior authorization of BNDES and is required to comply with certain debt covenants, measured in accordance with Brazilian GAAP, including: (i) maintenance of a capitalization ratio (shareholders' equity/total assets) equal to or in excess of 0.40 and (ii) maintenance of a current ratio (current assets/current liabilities) equal to or in excess of 1.05. Management effectively controls and monitors covenants, which were fully performed. The parent company offered pledges as a joint and several liable party for settlement of the agreements.

In the event the TJLP exceeds 6% per annum, the excess is added to the principal. For the quarter ended March 31, 2007, R\$ 185 was added to the principal (R\$ 1,902 at December 31, 2006).

In the meeting held on March 8, 2007, the BNDES directors authorized the concession of a new financial support in the amount of R\$ 187,330, with a grace period of 6 months and 60 months for amortization, with interest taxes from 2.7% to 3.2% over TJLP.

This new financial support has a term of 60 days to be contracted by CBD and will entirely support investments, already accrued by the Company with the opening of 15 new stores and the modernization of several existing stores.

16. Provision for Contingencies

Provision for contingencies is estimated by management, supported by its legal counsel. Such provision was set up in an amount considered sufficient to cover losses considered probable by the Company's legal counsel, as shown below:

a) Taxes

Tax-related contingencies are indexed to the SELIC (Central Bank Overnight Rate), of 13.96% at March 31, 2007 (15.08% at December 31, 2006) and, in some cases, are subject to fines. In all cases, when applicable, both interest charges and fines have been computed with respect to unpaid amounts and are fully accrued.

COFINS and PIS

In 1999, the rate for COFINS increased from 2% to 3%, and the tax base of both COFINS and PIS was extended to encompass other types of income, including financial income. The Company is challenging the increase in contributions of

COFINS and the extension of base of such contributions. Provision for COFINS and PIS includes unpaid amounts, monetarily restated, in the total of R\$ 922,417 (R\$ 907,707 at December 31, 2006), resulting from the lawsuit filed by the Company and its subsidiaries, claiming the right to not apply Law 9718/98, permitting it to determine the payment of COFINS under the terms of Complementary Law 70/91 (2% over the revenue) and of PIS under Law 9715/98 (0.65% over the revenue) as from February 1, 1999. The lawsuits are in progress at the Regional Federal Court, and up to this moment, the company has not been required to make judicial deposits.

As the calculation system of such contributions started to use the non-cumulative tax principle, starting by PIS as from December 1, 2002, with the Law 10637/02 and COFINS, as from February 2004 by means of Law 10833/03, the Company and its subsidiaries then started to apply said rules, as well as, to question with the Judiciary Branch, the extension of tax base of such contributions, aiming at continuing its application by the concept of sales results, as well as the appropriation of credits not accepted by laws and that the Management understands to be subject to appropriation, such as financial expenses and third parties expenses. The provision recorded in the balance sheet in the amount of R\$ 101,732 (R\$ 96,007 at December 31, 2006), includes the unpaid installment, monetarily restated. In addition, the company challenges the limit of percentage and the term for appropriation of COFINS credit over the initial inventory carried with the Law 10833/03, recording in its balance sheet the difference of appropriated credit under such rule by virtue of judicial authorization. There are no judicial deposits for such discussions.

The company has another discussion stemming from the merged company Cia. Pernambucana de Alimentos CIPAL, as to the tax base applied to PIS and COFINS contributions. We discuss the application of gross income as tax base, booking in its balance sheet the restated difference between the amounts paid and the basis provided for by Law 9718/98, in the amount of R\$ 7,747 (R\$ 7,606 at December 31, 2006). Said discussion has no judicial deposit.

Other

The Company and its subsidiaries have other tax contingencies, which after analysis of its legal counsels, were deemed as probable losses: a) lawsuit questioning the non-levy of IPI over codfish imports, which awaits decision by appellate court judge; b) federal administrative assessment about the restatement of equity accounts by an index higher than that accepted by tax authorities, which awaits decision by administrative appellate court judge (Summer Plan); c) administrative assessment referring to the collection of debts of withholding IRPJ

(corporate income tax), PIS and COFINS, which also awaits decision by administrative appellate court judge, d) administrative assessment due to offsetting of INSS credit verified by the company under the viewpoint of undue payment over allowance not provided for by law, in progress in administrative lower court. The amount recorded in accounting books for such issues is R\$ 19,104 (R\$ 17,094 at December 31, 2006). The Company has no judicial deposits related to such issues.

b) Labor claims

The Company is party to numerous lawsuits involving disputes with its employees, primarily arising from layoffs in the ordinary course of business. At March 31, 2007, the Company recorded a provision of R\$ 44,401 (R\$ 42,708 at December 31, 2006) for contingencies related to labor claims. Such lawsuits, which loss in the amount of R\$ 9,154 (R\$ 9,734 at December 31, 2006), is deemed as probable by our legal counsel. Management, based on advice from legal counsel, evaluates these contingencies and provides for losses where probable and reasonably estimable, bearing in mind previous experiences in relation to the amounts sought. Labor claims are indexed to the Referential Interest Rate TR (2.0% accumulated over the last 12 months in the quarter ended at March 31, 2007) plus 1% monthly interest. The earmarked judicial deposits amount is R\$ 41,465 (R\$ 36,715 at December 31, 2006).

c) Civil and other

The Company is a defendant, at several judicial levels, in lawsuits of civil natures, among others. The Company sets up provisions for losses in amounts considered sufficient to cover unfavorable court decisions when its internal and external legal counsel consider losses to be probable.

Among these lawsuits, we point out the following:

- The company brought a writ of mandamus in order to be entitled to not pay the contributions provided for by Complementary Law 110/2001 related to the FGTS financing. The company obtained a preliminary injunction recognizing the right of not paying such contributions. Subsequently, this preliminary injunction was reversed, determining the judicial deposit of unpaid amounts during the effectiveness period of the preliminary injunction. The enforceability of tax credit is suspended in view of appeal filed, which awaits decision by the appellate Regional Federal Court. The amount accrued is R\$ 45,071 (R\$ 43,156 at December 31, 2006) and the Company effected a

R\$ 4,079 million judicial deposit, protecting the period in which it was not covered by the preliminary injunction.

- The Company is challenging the constitutionality of the contribution to SEBRAE and requested, by means of a writ of prevention, the payment of the restated credit of amounts paid, through the offsetting of the balances payable to SESC (Social Service for Trade) and SENAC (National Service for Commercial Training). The company was granted the right of not paying the falling due contributions, inasmuch as it provides for the judicial deposits, as usual. The writ of prevention was filed and the Company's legal advisors have obtained a Declaratory Action at lower court of appeals maintaining the proceeding. The accrued amount is R\$ 32,631 (R\$ 31,122 at December 31, 2006), and judicial deposit in the amount of R\$ 32,360 (R\$ 30,825 at December 31, 2006).
- The Company by means of a writ of mandamus is challenging the constitutionality of the FUNRURAL (Rural Workers Assistance Fund) for companies located in urban areas. The lawsuit is in progress at the Regional Federal Court and the accrual amount is R\$ 31,216 (R\$ 30,516 at December 31, 2006). There is no judicial deposit for such proceeding.
- The Company files and answers various lawsuits in which it requests the review of lease amounts paid by the stores. In these lawsuits, the judge determines a provisional lease amount, which then is paid by the stores, until report and decision define the final lease amount. The set up provision of difference between the amount originally paid by the stores and that defined provisionally in these lawsuits. At March 31, 2007 the accrual amount for these lawsuits is R\$ 12,377 (R\$ 11,507 at December 31, 2006). There is no judicial deposit for such proceeding.

d) Possible losses

The Company has other contingencies which have been analyzed by the legal counsel and deemed as possible but not probable; therefore, have not been accrued, at March 31, 2007, as follows:

- *INSS (Social Security Tax)* the Company was served notice regarding the non-levy of payroll charges on benefits granted to its employees, and the loss, considered possible, amounts to R\$ 110,362 (R\$ 106,117 at December 31, 2006). This lawsuit is under discussion in the administrative lower court and there is no judicial deposit.

- *Income tax* – the Company was served tax assessment notice in relation to exclusion from the IRPJ (Corporate Income Tax) tax base of accounts payable regarding certain taxes with suspended enforceability, which, from the tax authorities' point of view, should not have been excluded, which awaits decision by administrative appellate court judge and possible loss concerning said notice amounts to R\$ 41,692 (R\$ 40,088 at December 31, 2006), with no judicial deposit up to this moment.
- *Other contingencies* – They are related to administrative proceedings and to lawsuits under the civil court scope, special civil court, Consumer Protection Agency – PROCON (in many states), Weight and Measure Institute – IPEM, National Institute of Metrology, Standardization and Industrial Quality – INMETRO and National Health Surveillance Agency – ANVISA, in great majority related to suits for damages, amounting to R\$ 60,122 (R\$ 52,404 at December 31, 2006). There are also (a) other lawsuits related to the FINSOCIAL (Tax for Social Security Financing) at the amount of R\$ 19,235 (R\$ 18,495 at December 31, 2006); (b) administrative assessments related to divergences verified in DCTF and DIPJ, lack of payment and offsetting questioned for the purposes of IRPJ, PIS, COFINS and FINSOCIAL in the amount of R\$ 44,960 (R\$ 42,917 at December 31, 2006), which await decision in administrative lower and appellate courts; (c) and tax assessments notices in the State level, regarding the use of ICMS credits related to electricity, suppliers believed to be disreputable by the tax authorities, among others, that are in progress in administrative lower court and amount to R\$ 110,394 (R\$ 104,235 at December 31, 2006). For these and other lawsuits with non-significant individual amounts, there are no judicial deposits.

The Company was served notice in a State level as to the ICMS, related to purchase, manufacturing and sale transactions for export purposes of soybean and its byproducts, in which, in the tax authorities' understanding, the circulation of products did not take place. Regarding the Federal level, the Company was served notice regarding these operations, in relation to PIS, COFINS and income tax. The installment was classified by our legal counsel as probable, which has been accrued, amounting to R\$ 7,985 (R\$ 7,485 at December 31, 2006) and as possible, amounting to R\$ 167,639 (R\$ 161,191 at December 31, 2006). Such lawsuits are being discussed in the administrative level and there are no judicial deposits.

Past December 2006, after the conclusion of the inspection process for the year 2001, the Company was served notice by the São Paulo State Treasury. The tax assessment refers to the recovery of tax replacement pursuant to the Ordinance

CAT 17/99. The tax authorities understood that the Company was not complying with ordinances 63/99 and 99/05 dealing with ancillary liabilities to recovery. According to our attorneys, the possible losses amount to R\$ 242,207 (R\$ 226,659 at December 31, 2006).

Occasional adverse changes in the expectation of risk of the referred to lawsuits may require that additional provision for contingencies be set up.

The goodwill special reserve set up at CBD, as a result of such merger, as provided for by provision in paragraph 1 of article 6 of the CVM Ruling 319, will be at the end of each fiscal year and to the extent in which the tax benefit to be determined by CBD, as a result of goodwill amortization, represents an effective decrease of taxes paid by CBD, purpose of capitalization at CBD, to the benefit of controlling shareholders, without prejudice to the preemptive right ensured to other CBD's shareholders in the subscription of capital increase resulting from said capitalization, all pursuant to article 7, *caput* and paragraphs 1 and 2 of CVM

Ruling 319.

In order to enable a better presentation of the Financial Statements, the goodwill net value less provision of R\$ 515,488, which substantially represents the tax credit balance plus the amount of R\$ 1,806 was classified as deferred income tax.

e) Preferred stock option plan

The Company offers a stock option plan for the purchase of preferred shares to management and employees. The exercise of options guarantees the beneficiaries the same rights granted to the Company's other shareholders. The management of this plan was attributed to a committee designated by the Board of Directors.

The option price for each lot of shares is, at least, 60% of the weighted average price of the preferred shares traded in the week the option is granted. The percentage may vary for each beneficiary or series.

The right to exercise the options is acquired in the following manner and terms: (i) 50% in the last month of the third year following the option date (1st tranche) and (ii) 50% in the last month of the fifth year following the option date (2nd tranche), with the condition that a certain number of shares will be restricted as to sale until the date the beneficiary retires.

The price of option from the date of concession to the date of exercise thereof by the employee is updated by reference to the General Market Price Index - IGP-M variation, less dividends attributed for the period.

Information on the stock option plan is summarized below:

New Preferred Stock Option Plan

The Extraordinary General Meeting held on December 20, 2006, approved the amendment to the Company's Stock Option Plan, approved by the Extraordinary General Meeting held at April 28, 1997.

As from 2007, the granting of preferred stock option plan to management and employees will take place as follows:

Shares will be classified into two types: Silver and Gold, and the quantity of Gold-type shares may be decreased and/or increased (reducer or accelerator), at discretion of the Plan Management Committee, in the course of 35 months following the granting date.

The price for each Silver-type thousand shares will correspond to the average of closing price of negotiations of CBD's preferred shares occurred over the last 20 trading sessions of BOVESPA, prior to the date on which the Committee resolves on the granting of option, with negative goodwill of 20%. The price per each Gold-type thousand shares will correspond to R\$ 0.01. In both bases, the prices will not be restated.

The acquisition of rights to the options exercise will occur as follows in the following term: as from the 36th month to 48th month as from the start date defined as the date of the adhesion agreement of respective series or fulfillment of any suspensive condition of its effectiveness to be defined by the Committee, the beneficiary will acquire the right to exercise: a) 100% of granting of Silver-type shares; b) the quantity of lots of Gold-type shares to be determined by the Committee, after the compliance with granting conditions.

Up to date, there was no granting of this new plan. The series of previous plan continue in force until the respective maturity dates.

20. Financial Instrumentsa) General considerations

Management considers that risk of concentration in financial institutions is low, as operations are limited to traditional, highly-rated banks and within limits approved by the Management.

b) Concentration of credit risk

The Company's sales are direct to individual customers through post-dated checks, in a small portion of sales (2% of yearly sales). In such portion, the risk is minimized by the large customer base. These receivables are also mostly sold to PAFIDC without right of recourse.

The advances to suppliers are made only to selected suppliers. We do not have credit risk with suppliers, since we discount only own payments of goods already delivered.

In order to minimize credit risk from investments, the Company adopts policies restricting the marketable securities that may be allocated to a single financial institution, and which take into consideration monetary limits and financial institution credit ratings.

c) Market value of financial instruments

Estimated market value of financial instruments at March 31, 2007 approximates market value, reflecting maturities or frequent price adjustments of these instruments, as shown below:

	At March 31, 2007			
	Parent Company		Consolidated	
	Book	Market	Book	Market
Assets				
Cash and cash equivalents	68,498	68,498	112,350	112,350

	858,357	860,569	2,526,386	2,539,181

Market value of financial assets and of current and noncurrent financing, when applicable, was determined using current interest rates available for operations carried out under similar conditions and remaining maturities.

In order to translating the financial charges and exchange variation of loans denominated in foreign currency into local currency, the Company contracted swap operations, pegging the referred to charges to the CDI variation, which reflects market value.

d) Currency and interest rate risk management

08.01 Comments on the Consolidated Performance During the Quarter

Sales Performance
Net sales grew 6.8% in the quarter

R\$ million	1Q07	1Q06	Chg.
Gross Sales	4,168	3,925	6.2%
Net Sales	3,530	3,305	6.8%

In the 1st quarter of 2007, the Company recorded gross sales of R\$ 4,168.0 million and net sales of R\$ 3,530.3 million, with growth of 6.2% and 6.8% respectively in relation to the same prior-year period. This increase is due to the consolidation of the competitiveness strategy adopted, the recovery of food sales and the new sales incentive campaign.

In the same stores concept, sales also presented a growth trend in relation to the levels observed in previous quarters, attaining the rate of 4.8% (gross sales) and 5.6% (net sales), in line with the growth of 5.0% expected by the Company for 2007.

Sales of food products presented a reversal of the downtrend recorded during the year 2006, registering growth of 4.5%, with an emphasis on the performance of perishable products. Sales of non-food products, even with the strong basis of comparison (growth of 14.5% in the first quarter of 2006 – World Cup effect), presented growth of 5.9% .

One of the prominent aspects was that although food inflation presented recovery in the quarter, the Group's internal price monitoring index shows that prices practiced at the stores have been growing at considerably lower rates than those recorded by the food inflation indexes published by Fipe (*Fundação Instituto de Pesquisas Econômicas* - Brazilian Institute of Economic Research) or by IBGE (*Instituto Brasileiro de Geografia e Estatística* - Brazilian Institute of Geography and Statistics).

Another highlight of the period was the continuity of the growth of the flow of customers at the Group's stores, a performance that has been accompanied by a higher average purchase per customer.

Although all the banners have displayed a growth in the same stores the period, reflecting the Company's better price positioning, the Pão de Açúcar banner stood out once again and the Sendas banner showed recovery in relation to the levels recorded in previous quarters.

Operating Performance **New sales campaign: Varejo na Alma**

The sales incentive campaign called "Varejo na Alma", an initiative involving all the employees of the stores, main office and Distribution Centers, stimulating the increase of sales with profitability, was started in January 2007. All the collaborators from the stores that attain growth of 5% in sales over the budget and that guaranteed at least the net income of this budget are awarded in this campaign.

The Campaign has been achieving excellent results and has already awarded 79 stores in the first quarter of 2007. This will be the focal point of 2007, which will clear the path for the consolidation of a new sales threshold.

The Company also continues focused on expense reduction programs and on the competitiveness strategy, which continued to produce consistent results in the 1st quarter of 2007 (sales growth, customer traffic and price image of the banners).

The comments presented below about operating performance refer to the consolidated figures of CBD, which include all the operating results of Sendas Distribuidora (a joint venture of CBD with the Sendas chain, in the state of Rio de Janeiro).

Gross margin of 27.8% in the quarter
Price reduction strategy contributed toward this performance.

R\$ million	1Q07	1Q06	Chg.
Gross Income	982	983	-0.1%
Gross Margin - %	27.8%	29.7%	-190 bps

The gross margin reached 27.8% in 1Q07, 190 basis points (bps) below the 29.7% reported in 1Q06. The margin reduction was offset by the growth of the sales volume, which allowed the Group to maintain practically the same gross income in the two periods (R\$ 981.8 million in the first quarter of 2007 as opposed to R\$ 982.9 million in the same period of 2006).

The lower gross margin is explained by the more aggressive price posture, which is already in its third consecutive quarter and has contributed to improve the price image of all the banners.

Operating Expenses
Expense as a percentage of the net sales at a level lower than in 1Q06

R\$ million ¹	1Q07	1Q06	Chg.
Selling Expenses	606	588	3.2%
Gen. Adm. Exp.	118	117	0.8%
Operating Exp. (without Taxes and Charges)	725	705	2.8%
% of net sales	20.5%	21.3%	
Taxes and Charges	23	18	25.1%
Total Operating Expenses	748	723	3.3%
% of net sales	21.2%	21.9%	

(1) Totals may not tally as the figures are rounded off

Important advances were presented in relation to selling and general and administrative expenses in the 1st quarter of 2007.

Excluding taxes and charges, the level of operating expenses in the quarter was 20.5%, down 80 bps in relation to the 21.3% recorded in 1Q06.

Total operating expenses, including taxes and charges, attained 21.2% of the net revenue in 1Q07, lower than the 21.9% of the net revenue recorded in the same period of 2006.

The period highlight was the 60 bps drop in sales expenses as a percentage of net sales, from 17.8% in 1Q06 to 17.2% in 1Q07.

Administrative expenses as a percentage of net sales registered a slight downslide in relation to the previous year, going from 3.5% in 1Q06 to 3.3% in 1Q07.

In absolute terms, selling expenses and administrative expenses presented lower growth rates than the increase of sales in the period (6.8%), amounting to 3.2% and 0.8% respectively.

This reduction of expenses as a percentage of net revenue is mainly due to the expense reduction programs implemented throughout 2006 and to the greater dilution of expenses in the period.

These programs will continue to produce results during 2007, causing expenses as a percentage of net sales (excluding taxes and rates) to reach the target of 20% in 2007.

EBITDA Margin of 6.6% (without taxes and charges)

Competitiveness strategy affected EBITDA

R\$ million	1Q07	1Q06	Chg.
EBITDA (without taxes and charges)	234	259	-9.7%
EBITDA Margin (without taxes and charges)	6.6%	7.9%	-130 bps

The reduction of 190 bps in the gross margin was partially offset by the reduction of 70 bps in operating expenses, which led to an EBITDA margin of 6.6% in the first quarter of 2007, as opposed to 7.9% in the same period of 2006, a reduction of 130 bps.

In absolute terms EBITDA was R\$ 234.3 million in 1Q07, 9.7% lower than the R\$ 259.5 million recorded in the same period of last year.

Financial Results
Lower interest rates caused an impact in the period

R\$ million ¹	1Q07	1Q06	Chg.
Financ. Revenue	70	102	-31.0%
Financ. Expenses	(131)	(169)	-22.2%
Net Financial Income	(61)	(67)	-8.9%

(1) Totals may not tally as the figures are rounded off

During the 1st quarter of 2007, financial expenses and revenues exhibited a decrease in comparison with the same period of the year 2006. Financial revenues in 1Q07 came to R\$ 70.2 million, as opposed to R\$ 101.7 million in 1Q06, representing a downslide of 31.0%. Three factors contributed toward this decrease: (i) lower average cash in 1Q07 in comparison with 1Q06, which was R\$ 1,706.2 million and is currently R\$ 1,069.1 million; (ii) lower interest rate in the period (average of 13.9% in 1Q07 versus 16.5% in 1Q06) and; (iii) increase in installment sales without interest.

Financial expenses in the period amounted to R\$ 131.4 million, 22.2% lower than the R\$ 168.9 million recorded in the 1st quarter of 2006. This reduction is mainly due to the lower interest rate in the period, as commented on above.

Net financial expenses attained R\$ 61.2 million in the period, versus R\$ 67.2 million in relation to the 1st quarter of 2006, a reduction of 8.9%.

Equity Income**Equity income result starts to show improvements in the period**

With a 12% share in the sale of the Group, FIC (Financeira Itaú CBD) recorded negative equity income of R\$ 5.9 million in the 1st quarter of 2007, an improvement of 60.4% in relation to the R\$14.8 million of 1Q06 and of 48.2% in relation to the R\$ 11.3 million of 4Q06.

This improvement in FIC's performance, which generated growth of 87% in the total revenues in the period, occurred on account of the following factors: (i) increase of the receivables portfolio (which totaled R\$ 871.9 million, up 34.9% over the same prior-year period); (ii) increase of the supply of relationship products (insurance, personal loan and extended warranty); (iii) growth of the Company's sales and; (iv) reduction of the credit loss levels.

The result of this quarter supports the forecast that the break-even point will be attained at the end of 2007. The number of customers of FIC attained 5.2 million in the quarter, with 3.8 million private label card holders.

Minority Interest: Sendas Distribuidora**Gross margin reflects more competitiveness in Rio de Janeiro**

In the 1st quarter of 2007, the gross sales of Sendas Distribuidora attained R\$ 796.2 million, which represents 19.1% of the Group's sales. Net sales amounted to R\$ 693.9 million in the period. In spite of the improvement in the sales performance in relation to the previous year, sales in the period do not yet reflect investments in competitiveness implemented in the last few quarters.

Gross income amounted to R\$ 177.3 million, with a gross margin of 25.6%. In comparison with the same prior-year period, the gross margin registered a downslide of 180 bps, reflecting the aggressive price strategy and the heated competition faced in Rio de Janeiro.

Although operating expenses presented a result that resembles that of the prior year (R\$ 164.6 million in 1Q07 as opposed to R\$ 163.9 million in 1Q06), the EBITDA margin was down 170 bps (1.8% in 1Q07 against 3.5% in 1Q06), due to the lower gross margin of the period.

Financial income exhibited a negative result of R\$ 31.5 million in the period, significantly influencing the result of Sendas Distribuidora. Net loss for the quarter was R\$ 38.6 million, generating a minority interest result of R\$ 22.2 million for the Group.

Net Income

Result of the quarter is strongly influenced by the lower gross margin

R\$ million	1Q07	1Q06	Chg.
Net Income	36	60	-40.3%
Net Margin - %	1.0%	1.8%	-80 bps

The Group reported net income of R\$ 36.0 million in this quarter, a decrease of 40.3% in relation to the same period of 2006. This reduction occurred mainly because of the lower gross margin of the period, affected by the price strategy adopted by the Group.

Investments

The sum earmarked for investments in the quarter was R\$ 204.2 million

Investments in the 1st quarter amounted to R\$ 204.2 million, higher than the R\$ 143.9 million invested in the 1st quarter of 2006.

Investments were divided as follows:

- R\$ 77.6 million in the opening and construction of new stores to be inaugurated during the year 2007;
- R\$ 68.4 million in the acquisition of strategic land;
- R\$ 45.5 million in store renovations;
- R\$ 12.7 million in infrastructure (technology, logistics and others).

Four Extra Perto stores were opened in the period, and in the second quarter another 3 stores will be inaugurated (one CompreBem and two Extra hypermarket stores). Most of the openings scheduled for the year 2007 will be concentrated in the second semester.

Subsequent Events: 6th Debenture Issue

On April 27, 2007, CVM (Brazilian Securities Commission) approved the issue of 77,965 debentures (simple, non-convertible, nominative and book-entry debentures in 2 tranches, of the unsecured kind) by CBD.

The issue was performed in two tranches, whereas the final quantity of debentures of the 1st tranche was 54,000 and the final quantity of debentures of the 2nd tranche was 23,965 debentures. The unit face value was R\$ 10,000.00, amounting to a total value of the offering of R\$ 779,650,000.00.

The 1st tranche debentures were targeted at individual and corporate investors, investment funds, pension funds, third party asset management entities registered at CVM, entities licensed to operate by the Central Bank of Brazil, insurance companies, supplementary pension entities and capitalization companies and institutional or qualified investors, considered as such by the current regulations. 2nd tranche debentures were earmarked exclusively for exchange for the holders of 5th issue debentures.

The unit face value of the debentures will be amortized according to the following schedule: three (3) annual installments, on March 1, 2011, March 1, 2012 and March 1, 2013. The payment of 1/3 of the Unit Face Value of the Debentures in circulation will be made on each amortization payment date.

17.01 Unqualified Report on the Special Review

A free translation from Portuguese into English of Special Review Report of Independent Auditors on quarterly financial information prepared in Brazilian currency in accordance with the accounting practices adopted in Brazil and specific norms issued by IBRACON (Institute of Independent Auditors of Brazil), CFC (Federal Board of Accountancy) and CVM (Brazilian Securities Exchange Commission)

SPECIAL REVIEW REPORT OF INDEPENDENT AUDITORS

The Board of Directors and Shareholders

Companhia Brasileira de Distribuição

1. We have performed a special review of the accompanying Quarterly Financial Information (ITR) of Companhia Brasileira de Distribuição (the Company) and of Companhia Brasileira de Distribuição and subsidiaries for the quarter and quarter ended March 31, 2007, including the balance sheets, statements of income, report on the Company s performance and other significant information prepared by Company management, in accordance with accounting practices adopted in Brazil. The quarterly financial information of investees Pão de Açúcar Fundo de Investimento em Direitos Creditórios and Miravalles Empreendimentos e Participações S.A. for the quarter ended March 31, 2007 were reviewed by other independent auditors. Our special review report, insofar as it relates to the amounts of assets, liabilities and results of those investees, is based solely on the limited reviews of those independent auditors.
2. Our review was conducted in accordance with the specific procedures determined by the Institute of Independent Auditors of Brazil (IBRACON) and the Federal Board of Accountancy (CFC), and included principally: (a) inquiries of and discussions with the management responsible for the Company s accounting, financial and operating areas regarding the criteria adopted for the preparation of the quarterly information and (b) review of information and subsequent events which have or might have significant effects on the Company s operations and financial position.
3. Based on our special review and on the limited review reports issued by other independent auditors, we are not aware of any material modification that should be made to the Quarterly Financial Information referred in the first paragraph for it to comply with accounting practices adopted in Brazil and with Brazilian Securities and

Exchange Commission (CVM) regulations specifically applicable to the preparation of Quarterly Financial Information.

4. Our review was carried out to enable us to issue a report on the special review of the Quarterly Financial Information, referred to in the first paragraph, taken as a whole. The statements of cash flows and of added value of Companhia Brasileira de Distribuição and of Companhia Brasileira de Distribuição and subsidiaries for the quarter ended March 31, 2007 and 2006, prepared in accordance with the accounting practices adopted in Brazil, which are presented to provide supplementary information about the Company and its subsidiaries, are not required as an integral part of the Quarterly Financial Information. These statements were submitted to the review procedures described in the second paragraph and, based on our review and on the quarterly information reviewed by other independent auditors, we are not aware of any material modification that should be made to these supplementary statements for them to be fairly disclosed, in all material respects, with regard to the Quarterly Financial Information for the quarter ended March 31, 2007, taken as a whole.
