GOL Announces Traffic Statistics for August 2007

(GTA), that operates the GOL brand) and VRG Linhas Aéreas S.A. (VRG), that operates the VARIG brand), today released preliminary passenger statistics for the month of August 2007. Consolidated domestic passenger traffic (RPK) for August 2007 increased 1% and capacity (ASK) increased 44% year-over-year. Domestic consolidated load factor for the month was 54%, and in the international market consolidated load factor was 55%. GOL's total consolidated load factor for the month of August was 54%. Average fares increased approximately 4% versus August 2006.

Domestic load factors were negatively impacted by a reduction in demand during August, as a result of events at the Congonhas airport in São Paulo during late July, reflecting in immediate aversion by customers, especially corporates. Suspension of ticket sales at the end of July, bad weather, transfer of flights to Guarulhos and intense press coverage of an accident translated into a reduction in demand. At the end of July, GOL transferred 11 daily flights from the Congonhas airport to the Guarulhos airport and maintained 70 direct daily flights departing from Congonhas to 16 Brazilian cities. VRG currently keeps 52 direct daily flights departing from the Congonhas airport to seven Brazilian cities.
