ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

**Comments on the Company's Consolidated Performance**

**Economic Scenario**

**International Scenario**

The third quarter of 2011 was marked by the instability of the economic scenario, due to the impact of various factors on the global market. These included the political conflict in the U.S., which delayed the raising of the debt ceiling and consequently lowered the country's risk rating, the worsening of the European crisis and the continuity of China's restrictive fiscal policy to contain inflation.

**USA**

S&P recently lowered the USA's credit rating to AA+ after more than 100 years with the highest possible score. The decision came after disagreements in Congress over spending cutbacks and tax increases, which aimed to reduce the U.S. debt and, at the same time, raise the legal indebtedness limit. According to the Department of the Treasury, public debt increased from U\$14.0 trillion, at the end of 2010, to US\$14.8 trillion at the close of September.

The U.S. economy continued to show signs of slow growth, but with no contraction. GDP edged up by 1.3% in the second quarter and the Federal Reserve was pointing to moderate expansion in September.

According to the Department of Labor, unemployment remains high, recording 9.1% in September, for the third consecutive month, and the government estimates that there are currently 14 million people out of work.

As a result of this economic uncertainty and the lack of concrete solutions from the government, the IMF once again revised its 2011 U.S. GDP growth estimate, reducing from 2.5% to 1.5%.

**Europe**

The deepening of the Eurozone economic crisis put strain on the financial markets, negatively affecting global liquidity.

All attention and efforts were directed towards the recovery of Greece, which is in danger of declaring a moratorium on its debt. The European governments are extremely worried about possible repercussions on the Eurozone and the performance of banks and insurance companies.

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

The Eurozone's interest rate remained at 1.5% p.a. in order to maintain price stability and ensure that inflation remains below the 2% p.a. target.

Germany and France continued to sustain Eurozone growth. According to the IMF, these countries should record growth of 2.7% and 1.7%, respectively, in 2011, versus 1.6% for the rest of the bloc.

In Germany, exports have been contributing to the country's healthy economic performance. However, they are expected to fall substantially next year due to reduced global demand. According to the German Central Bank, a major economic slowdown is expected for 2012, with GDP growth of only 0.8%.

The long-term sovereign bond ratings for Greece, Spain and Italy were downgraded by the three main risk classification agencies, due to their high level of debt and vulnerability to financing problems.

## **Asia**

China's growth has moderated in the last few months, with the manufacturing and service sectors already showing signs of slowing.

Chinese GDP growth, although still robust, slowed slightly in the third quarter, recording 9.1%, versus 9.5% in the previous three months, due to a combination of the Chinese Central Bank's monetary squeeze and the reduction in international demand. In fact, the Chinese government is facing a dilemma in regard to monetary policy, as it needs to maintain economic growth while reducing inflation. In any event, the Central Bank has introduced successive increases in interest rates and reserve requirements. Inflation reached 6.2% in the 12 months through August 2011, slightly down on the 6.5% in the 12 months ended July 2011. The Central Bank does not intend to introduce further interest rate or reserve requirement increases in the short term, but has advised that it will take new measures, if necessary.

The Japanese economy has gradually recovered from the supply shortage triggered by the earthquake and tsunami at the beginning of the year. Industrial output has returned to pre-disaster levels, as have exports, which are beginning to grow again. However, this recovery is not enough to reverse GDP growth projections – according to the IMF, the Japanese economy will shrink by 0.5% in 2011.

## **Brazil**

Brazil's positive economic prospects for 2011 are showing signs of cooling, due to the worsening of the international crisis. The contractionist influence of the global scenario will almost certainly have a negative effect on international trade, business expectations, investments and credit.

According to the Central Bank's latest FOCUS report, 2011 GDP growth is estimated at 3.3%, down from 4.5% at the beginning of the year, and the indicators are pointing to a more moderate growth in the retail and service sectors, with an even stronger impact on industry.

Financial system loan operations recorded moderate growth in August, totaling R\$1.9 trillion, 1.7% up on July, fueled by the impact of the first-half monetary measures. Industrial funding increased by 3.4% to R\$392 billion, mostly allocated to agribusiness, construction and the auto industry.

The Consumer Confidence Index (ICC), published by the Getúlio Vargas Foundation (FGV), reached 114.8 points in September, down 3.4% on the previous month and 6.7% year-on-year.

As a result, the Central Bank reduced the SELIC base rate to 11.5% p.a. at its last meeting, reflecting the fiscal restrictions in the mature economies, due to their exposure to the global economic uncertainties.

On the inflationary front, the FOCUS report showed that the IPCA Consumer Price Index should end the year at close to the 6.5% ceiling stipulated by the Central Bank and that estimated inflation for 2012 increased to 5.60%. The Bank announced that it intends to keep inflation under control and seek the mid-point of the 2012 inflationary target.

The recent devaluation of the Real against the U.S. dollar has benefited exports. The market expects the exchange rate to close 2011 at R\$1.75/US\$.

| Source: FOCUS BACEN                    |             | Base: October 21, 2011 |

### Net Revenue

Consolidated net revenue totaled R\$4,241 million in 3Q11, 2% down on the R\$4,323 million recorded in 2Q11, reflecting lower sales of steel products, partially offset by higher iron ore sales volume in the quarter.

### Cost of Goods Sold (COGS)

In 3Q11, consolidated COGS amounted to R\$2,522 million, 1% up on the R\$2,487 million posted in 2Q11.

### Selling, General, Administrative and Other Operating Expenses

In the third quarter, SG&A expenses totaled R\$237 million, 22% down on 2Q11, chiefly due to lower steel product sales volume.

CSN recorded a net expense of R\$146 million in the “Other Revenue and Expenses” line, versus revenue of R\$605 million in 2Q11, primarily due to the R\$698 million gain in 2Q11 from the sale of CSN’s entire interest in Riversdale Mining Limited.

### EBITDA

Adjusted EBITDA totaled R\$1,703 million in 3Q11, 4% down on the R\$1,773 million recorded in 2Q11, basically due to lower steel product sales, partially offset by higher iron ore sales volume. The adjusted EBITDA margin stood at 40%, virtually flat over the 41% posted in 2Q11.

Adjusted EBITDA comprises net income before the financial result, income and social contribution taxes, depreciation and amortization and other operating revenue (expenses), the latter item being excluded due to its non-recurring nature.

### Financial Result and Net Debt

The consolidated net financial result was negative by R\$340 million in 3Q11, basically due to interest on loans and financing of R\$635 million and other financial expenses of R\$54 million, partially offset by the following positive effects:

- Returns of R\$146 million on financial investments;
- Monetary and foreign exchange variations of R\$203 million, including the result of derivative operations.

This result was an improvement of R\$310 million over the negative R\$650 million recorded in 2Q11, chiefly due to the positive impact of the above-mentioned monetary and exchange variations.

On September 30, 2011, consolidated net debt stood at R\$12.1 billion, R\$0.8 billion more than the R\$11.3 billion recorded on June 30, 2011, essentially due to the following factors:

- Investments of R\$1.4 billion in fixed assets;
- A R\$0.7 billion effect related to the cost of debt;
- An increase of R\$0.2 billion in working capital allocated to the business;
- Other effects that increased net debt by R\$0.2 billion.

These effects were partially offset by 3Q11 adjusted EBITDA of R\$1.7 billion.

---

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

The net debt/adjusted EBITDA ratio closed 3Q11 at 1.87x, based on LTM adjusted EBITDA of R\$6.4 billion, 0.15x up on the 1.72x ratio recorded at the end of 2Q11.

In August 2011, CSN contracted a Special Corporate Credit – Major Corporations loan from Caixa Econômica Federal through the issue of a R\$2.2 billion bank credit bill, maturing in 108 months. In the same month, the Company issued non-convertible debentures totaling R\$1.15 billion, maturing in eight years.

### Consolidated Net Income

Net income totaled R\$1,097 million in 3Q11, 4% down on 2Q11, basically due to the reduction in operating income, partially offset by the improved financial result in the quarter.

### Capex

CSN invested R\$1,383 million in 3Q11, R\$680 million of which in subsidiaries or joint subsidiaries, allocated as follows:

- Transnordestina Logística: R\$501 million;
- MRS Logística: R\$115 million;
- CSN Cimentos: R\$19 million.

The remaining R\$703 million went to the parent company, mostly in the following projects:

- Maintenance and repairs: R\$166 million;
- Expansion of the Casa de Pedra mine: R\$113 million;
- CSN Aços Longos: R\$90 million;
- Expansion of Itaguaí Port: R\$82 million;
- Technological improvements: R\$16 million.

### Working Capital

Working capital closed September 2011 at R\$3,378 million, an increase of R\$184 million over the figure at the end of June 2011, basically due to the increase in the “Accounts Receivable” and “Inventories” lines, in turn due to stock turnover caused by the upturn in 3Q11 sales volume, partially offset by the increase in the “Suppliers” line, thanks to improved payment management.

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

At the close of September 2011, the average supplier payment period increased by 10 days and the average receivables period by one day, while the inventory turnover period climbed by 27 days.

### Results by Segment

The Company maintains integrated operations in five business segments: steel, mining, logistics, cement and energy. The main assets and/or companies comprising each segment are presented below:

| <b>Steel</b>              | <b>Mining</b>        | <b>Logistics</b>         | <b>Cement</b>        | <b>Energy</b>      |
|---------------------------|----------------------|--------------------------|----------------------|--------------------|
| <b>Pres. Vargas Steel</b> |                      |                          |                      |                    |
| <b>Mill</b>               | <b>Casa de Pedra</b> | <b>Railways:</b>         | <b>Volta Redonda</b> | <b>CSN Energia</b> |
| <b>Porto Real</b>         | <b>Namisa (60%)</b>  | <b>- MRS</b>             | <b>Arcos</b>         | <b>Itasa</b>       |
| <b>Paraná</b>             | <b>Tecar</b>         | <b>- Transnordestina</b> |                      |                    |

|   |             |                                   |
|---|-------------|-----------------------------------|
| <b>LLC<br/>Lusosider<br/>Prada (Distribution<br/>and<br/>Packaging)<br/>Metalic</b> | <b>ERSA</b> | <b>Port:<br/>- Sepetiba Tecon</b> |
|---|-------------|-----------------------------------|

The information on CSN's five business segments is derived from the accounting data, together with allocations and the apportionment of costs among the segments. CSN's management uses adjusted EBITDA as an indicator to measure recurring net operating cash flow.

The charts below show the various segments' contribution to CSN's overall net revenue and adjusted EBITDA:

**Adjusted  
EBITDA  
Margin**

**Steel**

**Scenario**

According to the Brazilian Steel Institute (IABr), apparent consumption of steel products in Brazil totaled 19 million tonnes in the first nine months of 2011, 6% less than the same period last year. Of this total, 2.8 million tonnes came from imports, 35% down year-on-year.

Also according to the IABr, Brazil produced 26.7 million tonnes of crude steel in 9M11, 7.3% up on 9M10, while rolled flat steel output fell by 2.6% to 19 million tonnes.

Domestic flat steel sales totaled 16.3 million tonnes in 9M11, 1% up on the first nine months of 2010, while flat steel exports climbed by 40% to 8.4 million tonnes.

The IABr has revised its 2011 projections and now expects apparent consumption in the Brazilian market of 25.8 million tonnes, stable when compared to the 2010 figure.

**Segments**

**Automotive**

According to ANFAVEA (the Auto Manufacturers' Association), vehicle output in the first nine months of 2011 moved up by 3.3% over the same period last year.

In the same period, new vehicle sales totaled 2.68 million units, 7.2% up year-on-year.

According to the consulting firm Tendências Consultoria the sector should close the year with national production growth of 2.4% and domestic sales growth of 4%, followed by respective upturns of 4% and 8.9% in 2012. The increase in IPI (federal VAT) on imported cars and trucks helped the industry, as foreign manufacturers reaffirmed their intention of building factories here. ANFAVEA affiliates alone plan to invest US\$21 billion over the next five years, more than the US\$2.9 billion invested in the 2007-2010 period. According to the association, production capacity will increase from the current 4.3 million cars, light commercial vehicles, trucks and buses, to around 6.3 million units, growth of 46.5% in four years.

---

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

According to SINDIPEÇAS (the Auto Parts Manufacturers' Association), the parts industry is also doing well in 2011, with year-on-year revenue growth of 10.9% in the first nine months.

**Agricultural Machinery**

Year-to-date sales of agricultural machinery (tractors, harvesters, etc.) totaled 50,000 units, 7.4% down on the 54,000 units recorded in 9M10, chiefly due to the fact that 2010 was a record year, when sales were fueled by the *Mais Alimentos* (More Food) campaign for family-run farms and by the PSI (Sustained Investment Program). Even so, ANFAVEA expects annual sales of 66,000 units, more than the 64,600 sold last year.

**Construction**

According to ABRAMAT (the Brazilian Construction Material Manufacturers' association), sales of construction materials in the first nine months increased by 2.2% over the same period last year and the association remains optimistic over the coming months thanks to ample credit availability, the high employment level and the continuation of IPI tax exemption on these items until 2012.

Construction jobs continue to grow. According to Sinduscon-SP (the São Paulo Builders' Association) unemployment in the industry is only 3%, well below the country's overall figure of 6%.

A survey made by the CNI (National Confederation of Industry), in association with the CBIC (Construction Industry Chamber), showed that 85% of firms believe the World Cup will have a positive effect on the construction industry.

According to Tendências Consultoria, construction GDP should record growth of 4.7% in 2011, while Sinduscon-SP is projecting annual growth of between 4.5% and 5% over the next five years due to government incentives and the increase in individual income.

**Distribution**

According to INDA (the Brazilian Steel Distributors' Association), steel sales by distributors totaled 3.2 million tonnes in the first nine months, 10.7% up on the same period last year, while purchases by distributors fell by 8.3%, with a consequent downward impact on inventories, which reached 2.7 months of sales in September, in line with their historic levels.

Flat steel imports continued to record a year-on-year decline totaling 1.5 million tonnes in the first nine months of 2011, versus 2.7 million tonnes in 9M10, a reduction of 45%.

**Net Revenue**

Net revenue from steel operations in 3Q11 totaled R\$2,300 million, 8% down on 2Q11, basically due to the reduction in domestic sales volume.

**Total Sales Volume**

CSN recorded steel sales volume of 1.2 million tonnes in 3Q11, 9% less than in 2Q11. Of this total, 86% was sold on the domestic market and 10% by overseas subsidiaries, while 4% went to direct exports.

**Domestic Sales Volume**

Domestic sales totaled 1.0 million tonnes in 3Q11, 10% down on the previous quarter, reflecting inventory volume adjustments, especially by steel distributors.

**Sales Abroad/Exports**

CSN's sales abroad and exports totaled 168,000 tonnes in 3Q11, 7% less than in 2Q11, in line with the Company's plans and as a result of international market oversupply. Sales by CSN LLC and Lusosider totaled 118,000 tonnes, while direct exports amounted to 50,000 tonnes.

**Prices**

Net revenue per tonne averaged R\$1,919 in 3Q11, 1% above the 2Q11 figure, due to the product mix sold in the period.

---

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

**Production**

In the third quarter, CSN produced 1.26 million tonnes of crude steel and 1.23 million tonnes of rolled flat steel, 1% up on 2Q11 in both cases.

| Production (in thousand t) | 3Q10  | 2Q11  | 3Q11  | Change    |           |
|----------------------------|-------|-------|-------|-----------|-----------|
|                            |       |       |       | 3Q11x3Q10 | 3Q11x2Q11 |
| Crude Steel                | 1,233 | 1,243 | 1,258 | 2%        | 1%        |
| Rolled Products Total      | 1,202 | 1,212 | 1,226 | 2%        | 1%        |

**Cost of goods sold (COGS)**

Steel segment COGS stood at R\$1.73 billion in 3Q11, 5% down on the R\$1.83 billion recorded in 2Q11, chiefly due to the reduction in sales volume.

**Production Costs (Parent Company)**

In 3Q11, total steel production costs totaled R\$1.52 billion, 1% up on 2Q11 due to increased production of crude and rolled flat steel. The most significant variations between the quarters are presented below:

**Raw Materials:** increase of R\$66 million, primarily related to the following inputs:

- **Coal and coke:** the R\$20 million increase in coal costs was offset by an equivalent reduction in coke costs;
- **Iron ore:** upturn of R\$10 million due to higher production in the quarter;
- **Third-party coils:** increase of R\$41 million due to scheduled rolling mill equipment maintenance stoppages;
- **Other raw materials (scrap, pellets and others):** upturn of R\$15 million due to higher steel output.

**Labor:** growth of R\$7 million, thanks to the pay rise following the May 2011 collective bargaining agreement.

**Other production costs:** reduction of R\$31 million in service costs.

**Depreciation:** reduction of R\$20 million.

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

**Adjusted EBITDA**

Adjusted steel segment EBITDA totaled R\$596 million in 3Q11, 19% down on the R\$733 million recorded in 2Q11, basically due to lower sales and the relative increase in COGS, accompanied by an adjusted EBITDA margin of 26%, 3 p.p. lower than the 29% posted in the previous quarter.

**Mining**

**Scenario**

The market is alert to possible developments in the global economic scenario, and in regard to the iron ore market, with a particular emphasis on the recent restrictions introduced by China. According to CRU, China is currently responsible for more than half of the world's total iron ore purchases. Consequently, any adjustments to its economy have an impact proportional to its massive importance in the global iron ore market.

Despite the political and economic restrictions in the global scenario, China's ore consumption is expected to remain high in the medium and long term, given expanding urbanization and real estate industry demand. In addition, most of the new capacity announced by several mining sector players is being postponed, ensuring a narrow supply-and-demand ratio in the midterm.

Brazilian ore exports totaled around 90 million tonnes in 3Q11, 17.2% up on 2Q11 and 8.6% more than in 3Q10. Year-to-date exports reached 237 million tonnes, a 5% year-on-year improvement.

After peaking at US\$183.0/t on September 8, its highest second-half level to date, the Platts 62% Fe CFR China price has been recording successive reductions. On October 24, it reached US\$144.0/t.

Spot market freight costs on the Tubarão/Qingdao route moved slightly throughout the first half of 3Q11, averaging US\$20/t. As of the middle of the quarter, however, it suffered a series of increases before peaking at US\$29/t at the end of September, fueled by a greater number of ships chartered by mining companies.

Although lower short-term demand is resulting in a downturn in the spot market price, the supply-and-demand fundamentals remain under pressure, mainly due to delays in the main ongoing expansion projects and the high costs of the peripheral Asian manufacturers.

**Iron Ore Sales**

In 3Q11, CSN and Namisa's total sales of finished iron ore products to third parties reached 8.0 million tonnes<sup>1</sup>, 18% up on 2Q11 and a new record. Of this total, exports accounted for 7.6 million tonnes, with 4.7

million tonnes sold by Namisa, while the Company's own consumption absorbed 1.7 million tonnes.

In 9M11, sales of finished iron ore products totaled 21.3 million tonnes<sup>1</sup>, 13% up year-on-year and also another record. Exports accounted for 20.1 million tonnes, with 10.7 million tonnes sold by Namisa, while the Company's own consumption absorbed 5.1 million tonnes.

Considering CSN's 60% interest in Namisa, sales totaled 6.1 million tonnes in 3Q11. In 9M11, sales reached 17.0 million tonnes, 21% more than in the same period last year.

### **Net Revenue**

Net revenue totaled R\$1.6 billion in 3Q11, 4% up on 2Q11 and a new record, due to higher iron ore sales volume. In 9M11, net revenue totaled R\$4.3 billion, 72% up year-on-year and another record.

### **Cost of goods sold (COGS)**

COGS totaled R\$566 million in 3Q11, 12% more than in 2Q11, pushed by the increase in iron ore sales.

---

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

**Adjusted EBITDA**

Third-quarter adjusted EBITDA totaled R\$1.0 billion, remaining flat over 2Q11, while the EBITDA margin stood at 66%, a 2 p.p. quarter-on-quarter reduction.

Year-to-date EBITDA reached R\$2.9 billion, a 74% improvement over 9M10, accompanied by an EBITDA margin of 67%, up by 1 p.p.

<sup>1</sup> Sales volumes include 100% interest in NAMISA.

**Logistics**

**Scenario Port logistics**

According to the latest figures from ANTAQ (Brazilian Waterway Transport Agency), the ports handled 211.6 million tonnes of general cargo in the second quarter of 2011, 6.7% up on the same period last year. Container handling reached 1.81 million TEUs, 16.8% more than in 2Q10, while the gross weight of container cargo came to 19.3 million tonnes, also up by 16.8% on 2Q10.

**Railway Logistics**

In July, the ANTT (Brazilian Ground Transport Agency) disclosed a new regulatory framework for the rail sector which, among other measures, regulates the right of trains to use lines belonging to other companies and establishes targets for the concessionaires, who will have to repair abandoned track or return it to the government. In addition to encouraging sector competitiveness and reducing costs, the new framework reflects the agency's concern over service quality.

The government plans to invest R\$43.9 billion between 2011 and 2014 to construct new lines, as part of the second stage of the PAC (Growth Acceleration Program).

**1. Railway Logistics**

**Analysis of Results**

MRS and Transnordestina's individual 3Q11 results had not been announced up to the publication of this release.

In 3Q11, consolidated net revenue from railway logistics totaled R\$273 million, COGS stood at R\$181 million, and adjusted EBITDA came to R\$95 million, accompanied by an adjusted EBITDA margin of 35%.

In 9M11, net revenue totaled R\$761 million, COGS was R\$488 million, and adjusted EBITDA stood at R\$288 million, with an EBITDA margin of 38%.

## **2. Port Logistics**

### **Analysis of Results**

Consolidated net revenue from port logistics amounted to R\$38 million in 3Q11, COGS was R\$20 million and adjusted EBITDA totaled R\$15 million, with an EBITDA margin of 39%.

In 9M11, net revenue totaled R\$106 million, COGS was R\$62 million, and adjusted EBITDA totaled R\$36 million, with an EBITDA margin of 34%.

## **Cement**

### **Scenario**

According to SNIC (the Cement Industry Association), domestic cement sales grew by 7.7% year-on-year in the first nine months to 47 million tonnes. In September alone, sales reached 5.8 million tonnes, also a 7.7% improvement over the same month last year. In the last 12 months, sales totaled 63 million tonnes, 9% up year-on-year.

---

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

These results were mainly due to the increase in mortgage lending and the maturation of investments in the *Minha Casa Minha Vida* (My House, My Life) program, as well as the maintenance of employment levels and higher household income.

Also according to SNIC, sales should increase by between 6% and 7% this year, reaching around 63 million tonnes.

**Analysis of Results**

In 3Q11, net revenue from cement totaled R\$98 million, with sales volume of 518,000 tonnes and COGS of R\$80 million. Adjusted EBITDA stood at R\$6 million, with an adjusted EBITDA margin of 6%.

In 9M11, net revenue totaled R\$244 million, with sales volume of 1,275,000 tonnes and COGS of R\$189 million.

Adjusted EBITDA stood at R\$20 million, with an adjusted EBITDA margin of 8%.

**Energy**

**Analysis of Results**

Net revenue from energy totaled R\$59 million in 3Q11, COGS stood at R\$37 million and adjusted EBITDA amounted to R\$21 million, accompanied by an adjusted EBITDA margin of 35%.

In 9M11, net revenue totaled R\$125 million, COGS stood at R\$67 million and adjusted EBITDA amounted to R\$56 million, accompanied by an EBITDA margin of 45%.

**Capital Market**

In 3Q11, CSN's shares fell by 23% on the BM&FBovespa, while daily traded volume averaged R\$59.1 million. On the NYSE, CSN's ADRs depreciated by 36% and daily traded volume averaged U\$57.5 million.

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

**Notes to the Financial Statements**

**(In thousands of Reais, unless otherwise stated)**

**1. OPERATIONS**

Companhia Siderúrgica Nacional “CSN” is a Corporation, established on April 9, 1941, in accordance with Brazilian laws (Companhia Siderúrgica Nacional and its subsidiaries, affiliated companies and jointly-owned subsidiaries, jointly called the “Company”).

CSN is a Company which holds shares listed on the São Paulo Stock Exchange (BOVESPA) and on the New York Stock Exchange (NYSE), reporting its information on the Brazilian Securities and Exchange Commission (CVM) and on the Securities and Exchange Commission (SEC).

The main operating activities of CSN are divided into 5 segments:

- **Steel:**

Its main industrial complex is the Presidente Vargas Steelworks (“UPV”) located in the city of Volta Redonda, State of Rio de Janeiro. This segment consolidates the operations related to the production, distribution and sale of flat steel, metal packaging and galvanized steel. Besides facilities in Brazil, CSN has operations in the United States and Portugal, aiming at gaining markets and ensuring excellent services to end

consumers. Additionally, it operates in the home appliances, construction and the automobile segments.

- **Mining:**

The iron ore production is developed in the city of Congonhas, in the State of Minas Gerais. CSN also explores limestone and dolomite in branches in the State of Minas Gerais and tin in the State of Rondônia, in order to meet the needs of UPV and the surplus raw materials are traded with subsidiaries and third parties. CSN holds the concession to operate TECAR, a solid bulk terminal, one of the four terminals of the Itaguaí Port, located in the city of Rio de Janeiro. Coal and coke are imported through this terminal.

- **Cement:**

The Company started in the cement market boosted by the synergy among this new activity and its already existing businesses. A new business unit has been set up beside Presidente Vargas Mill, city of Volta Redonda, state of Rio de Janeiro: CSN Cimentos is already producing CP-III cement, using the scrap produced from blast furnaces of Volta Redonda Plant itself. Currently, most clinker used in cement production is bought from third parties; however, it started being manufactured by CSN Cimentos in the beginning of 2011, upon the conclusion of the first stage of the plant in Arcos (MG), where CSN also has a limestone mine.

- **Logistics:**

*Railways:*

CSN holds interest in two railway companies: MRS Logística, which operates the former Southeast Network of Rede Ferroviária Federal S.A. and Transnordestina Logística, which operates the RFFSA's former Northeast Network, in the states of Maranhão, Piauí, Ceará, Rio Grande do Norte, Paraíba, Pernambuco and Alagoas.

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

*Ports:*

The Company operates in the State of Rio de Janeiro through its subsidiary Sepetiba Tecon, the Terminal for Containers (Tecon), at the Port of Itaguaí. Located in Sepetiba bay, it has a privileged road, rail and sea access.

CSN steel products shipment, handling of containers, warehousing, consolidation and deconsolidation of cargo are carried out at Tecon.

- **Energy:**

Since energy is essential for its production process, the Company has invested in electricity generation assets to ensure its self-sufficiency.

For further details on the Company's strategic investments and segments, please refer to Note 27 –Business Segment Information.

## **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PRACTICES**

### **(a) Basis of presentation**

The consolidated quarterly financial information has been prepared and is being presented in accordance with CPC 21 and IAS 34 – Interim Financial Reporting, as issued by the International Accounting Standards Board - IASB and respective rules issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the preparation of the quarterly financial information.

The parent company quarterly financial information was prepared according to CPC 21 – Interim Financial Reporting issued by the Brazilian Accounting Pronouncements Committee (CPC), and rules issued by the Brazilian Securities and Exchange Commission (CVM) applicable to the quarterly financial information.

The preparation of the quarterly financial information in accordance with CPC 21 and IAS 34 requires the use of certain critical accounting estimates and also the judgment by the Company's management in the process to apply the Company's accounting policy. Those items requiring a higher judgment level and having greater complexity, as well as the items where assumptions and estimates are significant to the consolidated quarterly financial information, are being disclosed on the notes to this report and refer to the allowance for doubtful accounts, provision for inventory losses, provision for labor, civil, tax, environmental and social security liabilities, depreciation, amortization, depletion, provision for impairment, deferred taxes, financial instruments and employee benefits. Actual results may differ from these estimates.

The same accounting policies and methods of computation are followed in the interim financial information as compared with the most recent annual financial statements. The Company suffers no seasonality or cyclicity of interim operations.

The financial statements are presented in thousands of reais (R\$). Depending on the applicable IFRS pronouncement, the measurement criterion used in the preparation of the quarterly financial information considers historical cost, net realizable value, fair value, or recoverable value. When IFRS and CPCs allow for the option between acquisition cost or other measurement criterion (for instance, systematic remeasurement), the acquisition cost criterion was applied.

The parent company and consolidated quarterly financial information was approved by the Board of Directors on October 26, 2011.

**(b) Consolidated quarterly financial statement**

The accounting policies have been consistently applied to all consolidated companies.

| <b>Special-purpose entities</b>            |  |                   |                        |
| <b>Direct interest: full consolidation</b> |  |                   |                        |
| DIPLIC - Multimarket investment fund       | 100.00                                       | 100.00            | Investment fund        |
| Mugen - Multimarket investment fund        | 100.00                                       | 100.00            | Investment fund        |

In the preparation of the consolidated quarterly financial information, the following consolidation procedures have been adopted:

Unrealized gains in transactions with subsidiaries and jointly-owned subsidiaries are eliminated according to CSN's share in the related entity in the consolidation process. Unrealized losses are eliminated in the same way as unrealized gains, however only to the extent there is no reduction to the recoverable value (impairment). The base date of the quarterly financial information of the subsidiaries and jointly-owned subsidiaries is the same as of the parent company and their accounting policies are in line with the policies adopted by the Company.

- **Subsidiaries**

Subsidiaries are all entities (including special-purpose entities) whose financial and operational policies may be carried out by the Company, where usually there is a share ownership greater than half of voting

rights. The existence and the effect of potential voting rights, which are currently exercisable or convertible, are taken into consideration by the Company. Subsidiaries are fully consolidated as of the date when control is transferred to the Company and are no longer consolidated as of the date when control ends.

- **Jointly-owned subsidiaries**

The quarterly financial information of jointly-owned subsidiaries is included in the consolidated quarterly financial information as of the date when shared control starts until the date that shared control ceases. Jointly-owned subsidiaries are proportionally consolidated.

- (c) **Parent company quarterly financial information**

In the parent company quarterly financial information, the subsidiaries and jointly-owned subsidiaries are measured using the equity method. Accounting practices adopted in Brazil applied in the parent company quarterly financial information differ from IFRS standards applicable to the parent company financial statements, only with respect to the measurement of investments in subsidiaries and affiliated companies which requires the use of the equity method of accounting while according to IFRS it would be cost or fair value.

- (d) **Foreign currencies**

- i. **Functional and reporting currency**

Items included in the quarterly financial statement of each of the Company's subsidiaries are measured using the currency of the primary economic environment where each subsidiary operates ("functional currency"). Consolidated quarterly financial statement are presented in R\$ (reais), which is the Company's functional currency and the Company's reporting currency.

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

**ii. Transactions and balances**

Foreign currency operations are converted into the functional currency, using foreign exchange rates effective on the transaction or evaluation dates, when items are remeasured. Exchange gains and losses resulting from the settlement of these transactions and the conversion by foreign exchange rates as of September 30, 2011, related to monetary assets and liability in foreign currencies, are recognized in the statement of income, except when recognized in shareholders' equity as gains or losses foreign investments.

Assets and liabilities are converted at the exchange rate as of the reporting date, on September 30, 2011, US\$1 corresponding to R\$1.8544 (R\$1.6662 on December 31, 2010) EUR 1 corresponding to R\$2.4938 (R\$2.2280 on December 31, 2010) A\$ 1 corresponding to R\$1.8069 (R\$1.6959 on December 31, 2010) and JPY 1 corresponding to R\$0.02407 (R\$0.0205 on December 31, 2010).

All other exchange gains and losses, including exchange gains and losses related to loans, cash and cash equivalents are presented on the statement of income as financial income or expense.

Changes to fair value of monetary securities in foreign currency, classified as available for sale, are split into foreign exchange variations related to the security's amortized cost and other variations to the security's book value. Foreign exchange variations of amortized costs are recognized in the statement of income, and other variations in the security's book value are recognized in shareholders' equity.

Exchange variations from non-monetary financial assets and liabilities, for instance, investments in shares classified as measured at fair value through profit or loss, are recorded in the income statement as part of fair value gain or loss. Exchange variations of non-monetary financial assets, for example, investments in shares classified as available for sale, are included in the comprehensive income under shareholders'

equity.

**iii. Group companies**

Results and financial position of all of the Group's entities (none of them operating under a currency from a hyperinflationary economy), whose functional currency is different from the reporting currency, are converted into the reporting currency, as follows:

- Assets and liabilities from each balance sheet presented are converted at the closing rate on the reporting date.
- Revenues and expenses from each income statement are converted by average exchange rates (unless this average is not a reasonable rounding to the cumulative effect of rates in force on the operations date, and, in this case, revenues and expenses are converted by the rate on the operations dates); and
- All resulting exchange rate differences are recognized in a separate item under other comprehensive income.

Under the consolidation, exchange rate differences resulting from the conversion of monetary items of investment in foreign operations are recognized in shareholders' equity. When a foreign operation is partially disposed of or sold, exchange rate differences previously recognized in other comprehensive income are recognized in the statement of income as part of gain or loss on sale.

---

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

**(e) Cash and cash equivalents**

Cash and cash equivalents include cash, bank deposits and other short-term investments of immediate liquidity, redeemable in up to 90 days from the contracting date, immediately convertible into cash and with an insignificant risk of change in their market value. Deposit certificates that may be redeemed at any time without penalties are considered cash equivalents.

**(f) Trade accounts receivable**

Trade accounts receivable are recognized at the invoiced amount, including the respective taxes and ancillary expenses, and receivables from clients in foreign currency are restated at the exchange rate as of the reporting date. The allowance for doubtful accounts was recognized in an amount considered sufficient to support possible losses. Management's assessment takes into account the client's history, the financial situation and the opinion of our legal advisors regarding the receipt of these credits for the recognition of this provision.

**(g) Inventory**

Inventory is recorded at the lowest value between cost and net realizable value. Cost is determined using the weighted average cost method in the acquisition of raw materials. Cost of both finished and in process products consists of raw material, labor, and other direct costs (based on the normal production capacity). Net realizable value is the sale price estimated on the normal course of business, net of estimated conclusion costs and estimates costs necessary to carry on the sale. Losses on low turnover or obsolete inventories are recognized when deemed adequate. The Company has spare parts which will be used in its operating cycle, classified as other non-current assets, instead of being classified as inventories.

**(h) Investments**

Investments in subsidiaries, jointly-owned subsidiaries and affiliated companies are recognized and measured using the equity accounting method and recognized initially at cost. Gains or losses are recognized in the income statement as operating income (or expenses) in the parent company quarterly financial information. In the case of exchange variation of investments abroad whose functional currency is different from the Company's currency, variations in the amount of investments deriving solely from the exchange variation are recognized in the cumulative translation adjustment account, in the Company's shareholders' equity, and are only reclassified to the income statement when the investment is sold or written-off by loss. Other investments are recognized and held at cost or fair value.

When necessary, the accounting practices of the subsidiaries and jointly-owned subsidiaries are changed to ensure criteria consistency and uniformity with the practices adopted by the Company.

**(i) Business combination**

The acquisition method is applied to account for each of the Company's business combinations. The transferred consideration includes the fair value of certain asset or liability resulting from a contingent consideration agreement, where applicable. Acquisition-related costs are recorded in the income statement, when incurred. The acquired identifiable assets and liabilities undertaken in a business combination are firstly measured at fair values on the acquisition date. The Company recognizes non-controlling interest in the acquired company, by the proportional amount of non-controlling interest in the fair value of the acquired company's net assets.

---

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

**(j) Property, plant and equipment**

Property, plant and equipment are recognized at acquisition, formation or construction costs, net of accumulated depreciation or depletion and impairment. Depreciation is calculated using the straight-line method based on the economic useful life remaining from assets according to Note 13. The depletion of mines is calculated based on the amount of ore extracted, and plots of land are not depreciated as they have an undefined useful life. The Company recognizes subsequent costs, by writing-off the carrying amount of the portion that has been replaced, if it is probable that future economic benefits incorporated therein will be reverted back to the Company, and if the subsequent cost may be estimated reliably. All other expenses are recognized as expenses when incurred. Borrowing costs are capitalized until projects are concluded.

If some components property, plant and equipment have different useful lives, these components are depreciated as different items from property, plant and equipment.

Gains and losses from disposal are determined by the comparison of the sale value less the residual value and are recognized in “other operating income/expenses”.

Development costs of new iron ore fields or to expand the capacity of operating mines are capitalized and amortized using the method of units produced (extracted) based on probable and proven ore amounts. Exploitation expenditures are recognized as expenses until the mining activity is considered feasible; after this period, subsequent development costs are capitalized.

**(k) Intangible assets**

Intangible assets comprise assets acquired from third parties, including by means of business combinations, and/or those internally generated.

These assets are recognized at the acquisition or formation cost, less amortization calculated using the straight-line method based on exploitation or recovery terms.

Intangible assets with indefinite useful lives, as well as goodwill, are not amortized.

- **Goodwill**

Goodwill is the positive difference between paid and/or payable consideration for the purchase of a business and the net amount of fair value of assets and liabilities of the subsidiary acquired. The goodwill from acquisition of subsidiaries is recognized as an intangible asset in the consolidated quarterly financial information. In the parent company balance sheet, goodwill is included in investments. Negative goodwill is recorded as a gain in the income statement for the period, on the acquisition date. Goodwill is annually tested for impairment. Impairment losses recognized over goodwill are irreversible. Gains and losses from the disposal of a Cash Generating Unit (CGU) include goodwill book value relating to the CGU sold.

Goodwill is allocated to CGUs for the purpose of impairment tests. The allocation is made to Cash Generating Units or groups of Cash Generating Units, which should benefit from the business combination from which goodwill is derived, and the CGU is not larger than an operational segment.

- **Software**

Software licenses purchased are capitalized based on incurred costs to buy software and to make them ready to be used. These costs are amortized using the straight-line method during the estimated economic useful life.

- (l) **Impairment of non-financial assets**

Assets with an undefined useful life, such as goodwill, are not subject to amortization and are tested on an annual basis for impairment. Assets subject to amortization are reviewed for impairment purposes whenever events or changes in circumstances show that book value may not be recoverable. Impairment

loss is recognized if book value of the asset exceeds its recoverable value. The latter is the highest value between an asset fair value net of selling costs and its value in use. For the purposes of impairment valuation, assets are divided into the lowest levels for which there are identifiable separate cash inflows (CGUs). Non-financial assets, except for goodwill, which have been impaired, are subsequently reviewed to analyze a possible impairment reversal on the reporting date.

---

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

**(m) Employee benefits**

**Defined contribution plans**

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contribution to a separate entity (social security plan) and it will have no legal or constructive obligation to pay additional values. Liabilities for contributions to defined contribution pension plans are accounted for as employee benefit expenses to the profit or loss for the periods in which services are provided by employees. Contributions paid in advance are recognized as an asset upon the cash repayment condition or the decrease in future payments is available. Contributions to a defined contribution plan whose maturity is expected for 12 months after the end of period in which the employee provides the services are discounted at their present values.

**Defined benefit plans**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation regarding defined benefit plans is calculated individually for each plan by estimating the value of the future benefits that the employees accrue as return for services provided in the current period and in prior periods; such benefit is discounted to its present value. Any unrecognized costs of past services and the fair values of any plan assets are deducted. The discount rate is the yield presented at the end of the reporting period for top line debt securities whose maturity dates approximate the terms and conditions of the Company's obligations and which are denominated in the same currency as the one in which it is expected that the benefit will be paid. The calculation is made annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the asset to be recognized is limited to the total amount of any unrecognized costs of past services and the present value of the economic benefits available in the form of future plan reimbursement or reduction in future contributions to the plan. In calculating the present value of economic benefits, consideration is given to any minimum funding requirements that apply to any Company plan. An economic

benefit is available to the Company if it is realizable during the life of the plan or upon liquidation of the plan's liabilities.

When the benefits of a plan are increased, the portion of the increased benefit related to past services of employees is recognized using the straight-line method over the average period until the benefits become vested. When the benefits become immediately vested, the expenses are immediately recognized in profit or loss.

The Company has chosen to recognize all actuarial gains and losses resulting from defined benefit plans immediately in other comprehensive income.

**i. Profit sharing and bonuses**

Employee profit sharing is subject to achieving certain operating and financial targets, mainly allocated to the production cost and, when applicable, to general and administrative expenses. Recognition occurs under the accrual method as services are rendered and bonus payments are deemed probable.

---

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

**(n) Provisions**

Provisions are recognized when: (i) the Company has a present liability that is either legal or constructive from past events, (ii) it is likely to have a future disbursement to settle a present liability, and (iii) when the value may be measured reliably. Provisions are determined by discounting estimated future cash flows based on a pretax discount rate that consider a market valuation of the time value of money and, where appropriate, specific liability risks. The liability increase due to time is recorded as financial expenses.

**(o) Concessions**

The Company has governmental concessions and payments classified as operating lease.

**(p) Share capital**

Common shares are classified as equity.

Additional costs directly attributed to the issue of new shares or options are recognized in shareholders' equity as a deduction of the amount raised, net of taxes.

When any company of the group buys shares from the Company's capital stock (treasury shares), the amount paid, including any additional costs directly chargeable (net of income tax), is decreased from the shareholders' equity attributed to the Company's shareholders until shares are cancelled or issued again. When these shares are subsequently issued, any amount received, net of any additional transaction costs directly chargeable and respective income and social contribution tax effects, is included in the

shareholders' equity attributable to the Company's shareholders.

**(q) Operating revenue**

Revenue from sales in the normal course of operations is measured at the fair value of the consideration received or receivable. Operating revenue is recognized when there is persuasive evidence that the significant risks and rewards inherent to the ownership of the goods have been transferred to the buyer; it is probable that future economic benefits will flow to the entity, that the associated costs and the possible return of goods can be measured reliably; the entity does not retain continuing involvement with the goods sold and the amount of operating revenue can be measured reliably. If it is probable that discounts will be granted and the amount can be reliably measured, then such discounts are recognized as a reduction of operating revenue as sales are recognized. Service revenue is recognized when services are rendered.

The transfer of risks and rewards is determined by the individual terms of the sale agreement. For export sales, the transfer of risks and rewards of ownership depend on the terms of delivery set out in the incoterms governing the agreement.

**(r) Financial income and expenses**

Financial income includes interest income on invested funds (including available-for-sale financial assets), dividend income (except for dividends received from investees stated under the equity method in the parent company), gains on sale of available-for sale financial assets, gains and losses arising from the change in the fair value of financial assets measured at fair value through profit or loss, and gains on hedging derivatives that are recognized in the statement of income. Interest income is recognized in the income statement using the effective interest method. Dividend income is recognized in profit or loss when the Company's right to receive the dividend is established. Distributions received from investees recorded under the equity method reduce the investment amount.

Financial expenses include borrowing costs, net of the discount to present value of provisions, dividends on preferred shares classified as liabilities, losses in the fair value of financial instruments measured at the fair value through profit or loss, impairment losses recognized in the financial assets, and losses on hedging instruments that are recognized in the income statement. Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognized in the income statement using the effective interest method.

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

Exchange gains and losses are reported on a net basis.

**(s) Income and social contribution taxes**

Income and social contribution taxes, both current and deferred, are calculated at the rate of 15%, plus a surtax of 10% on taxable income exceeding R\$240 for income tax, and at the rate of 9% on taxable income for the social contribution on net income. Tax losses and social contribution tax loss carryforward are offset, limited to 30% of the taxable income.

Income and social contribution tax expense includes current and deferred taxes. Current and deferred taxes are recognized in the income statement except to the extent that it relates to a business combination, or items recognized directly in shareholders' equity.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted, at the reporting date of the quarterly financial information and any adjustment to tax payable in respect of previous years.

Deferred taxation is recognized on temporary differences arising between the book values of assets and liabilities for accounting purposes and corresponding amounts applied for tax purposes. Deferred taxation is not recognized for the following temporary differences: the initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss, and differences related to investments in subsidiaries and controlled entities when it is probable that they will not be reversed in the foreseeable future. In addition, deferred tax liability is not recognized for temporary taxable differences resulting from the initial recognition of goodwill. Deferred taxation is calculated using the rates that are expected to apply to the temporary differences when they are reversed, based on the laws that were enacted or substantively enacted until the financial statement reporting date.

Deferred tax assets and liabilities may be offset if there is a legal right to offset current tax asset and liability amounts and they relate to income tax levied by the same tax authority over the same entity subject to taxation.

A deferred income and social contribution tax asset is recognized by unused tax losses, tax credits and deductible temporary differences when it is probable that future income subject to taxation will be available and against which they will be used.

Deferred income and social contribution tax assets are reviewed at each reporting date and will decrease if their realization is no longer probable.

**(t) Earnings per share**

Basic earnings per share are calculated through the net income for the period attributable to the Company's controlling shareholders and the weighted average of the common shares outstanding in the respective period. Diluted earnings per share are calculated through the average of the outstanding shares, adjusted by instruments potentially convertible into shares, with a diluting effect, in the reporting periods. The Company does not have instruments potentially convertible into shares, then diluted earnings per share is equal to basic earnings per share.

---

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

**(u) Environmental and restoration costs**

The Company recognizes a provision for recovery costs and fines when a loss is probable and the amounts of related costs can be reliably determined. Usually, a provision to be used in the recovery of the amount is recorded until the feasibility study is completed or the commitment to a formal action plan is fulfilled.

Expenses related to compliance with environmental regulations are recognized as expenses in the income statement or capitalized, as appropriate. The capitalization is considered appropriate when expenses refer to items that will continue to benefit the Company and they relate to the acquisition and installation of equipment for pollution control and/or prevention.

**(v) Research and development**

These costs are recognized in the income statement when incurred, except when they meet the criteria for capitalization. Expenses for research and development of new products for the period ended September 30, 2011 was R\$4,792 (R\$1,321 on September 30, 2010).

**(w) Financial instruments**

**i) Classification**

Financial assets are classified in the following categories: measured at fair value through profit or loss, loans and receivables, held to maturity and available for sale. The classification depends on the purpose for which the financial assets were acquired. The Company's Management sets forth the classification of its financial assets at the initial recognition.

- **Financial assets measured at fair value through profit or loss**

Financial assets measured at fair value through profit or loss are financial assets held for active and frequent trading. Derivatives are also categorized as held for trading and, therefore, are classified in this category, unless they have been accounted as cash flow hedge. Assets in this category are classified as current.

- **Loans and receivables**

This category includes loans granted and receivables that are non-derivative financial assets with fixed payment or to be established, not priced at in an active market. They are classified as current assets, except those with a maturity term greater than 12 months after the reporting date (these are classified as non-current assets). Loans and receivables comprise loans to affiliated companies, trade accounts receivable and other accounts receivable. Loans and receivables are accounted for at the amortized cost, using the effective interest method.

- **Cash and cash equivalents**

Cash and cash equivalents are recognized at fair value.

- **Financial assets held to maturity**

Financial assets acquired with the purpose and capacity to be held in portfolio until maturity are classified as financial assets held to maturity. Investments held to maturity are initially recognized at fair value including any directly attributable transaction costs. After their initial recognition, these are measured at the amortized cost using the effective interest method, decreased by any impairment loss.

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

- **Financial assets available for sale**

Financial assets designated as available for sale are those not classified in any other category. They are included in non-current assets when they are the Company's strategic investments, unless Management intends to dispose of the investment within 12 months after the reporting date. Financial assets available for sale are recorded at fair value.

- ii) **Recognition and measurement**

Regular purchases and sales of financial assets are recognized on the trade date, i.e., the date on which the Company undertakes to buy or sell the asset. Investments are initially recognized at fair value, plus transaction costs for all the financial assets not classified as fair value through profit or loss. Financial assets at fair value through profit or loss are initially recognized at their fair value and transaction costs are expensed in the income statement. Financial assets are written off when the rights to receive cash flow from the investments expire or are transferred; in the latter case, provided that the Company has transferred significantly all the risks and rewards of the ownership. Financial assets available for sale and the financial assets measured at fair value through profit or loss are subsequently recognized at fair value. Loans and receivables are accounted for at amortized cost, using the effective interest method.

Gains or losses arising from changes in the fair value of financial assets measured at fair value through profit or loss are presented in the income statement under financial income in the period when they occur. Revenue from dividends of financial assets measured at fair value through profit or loss is recognized in the income statement as part of financial income, when the Company's right to receive the dividends is established.

The changes in the fair value of financial assets denominated in foreign current and classified as available for sale, are divided between the conversion differences resulting from the changes in the amortized cost of the financial assets and other changes in the financial assets' book value. The exchange rate changes in

financial assets are recognized in the income statement. The exchange rate changes in non-financial assets are recognized in shareholders' equity. The changes in the fair value of financial and non-financial assets classified as available for sale are recognized in other comprehensive income.

Interest on available-for-sale securities, calculated using the effective interest method, is recognized in the income statement as other income. Dividends from shareholders' equity's instruments available for sale, such as shares, are recognized in the income statement as part of financial income, when the Company's right to receive payments is established.

The fair value of publicly quoted investments is based on current purchase prices. If the market of a financial asset (and bonds not listed on the stock exchange) is not active, the Company establishes fair value through valuation techniques. These methods include the use of transactions recently contracted with third parties, reference to other instruments that are substantially similar and an analysis of discounted cash flows and option pricing models that optimize the use of market generated information and minimize the use of information provided by the Company's management.

The Company evaluates at the reporting date if there is objective evidence that a financial asset or a group of financial assets is impaired. In the case of available-for-sale equity instruments, a significant or long decrease in the fair value to below its cost value is an indication that equity instruments are impaired. If there is any evidence of impairment of available-for-sale financial assets, the cumulative loss measured as the difference between acquisition cost and current fair value, less any impairment loss for the financial asset previously recognized in the income statement, is transferred from shareholders' equity and recognized in the income statement. Impairment losses recognized in the income statement of equity instruments are not reversed through profit or loss.

---

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

- **Offsetting financial instruments**

A financial asset and a financial liability are offset and the net amount reported in the balance sheet when an entity has a legally enforceable right to set off the recognized amounts and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

- **Impairment of financial assets**

**Assets measured at amortized cost**

The Company evaluates at the end of each reporting period if there is objective evidence that the financial asset or group of financial assets is impaired. An asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as the result of one or more events occurred after the initial recognition of the assets (a “loss event”) and that loss event (or events) has an impact on estimated future cash flows of the financial asset or group of financial assets that can be measured reliably.

The criteria CSN adopts to determine if there is objective evidence of impairment loss include:

- relevant financial difficulty of the issuer or debtor;
- a contract breach, such as default or delinquency in interest or principal payments;
- the issuer, due to economic or legal reasons related to the financial difficulty of the borrower, ensures the borrower a concession that the creditor would not consider;
- it is likely that the borrower will undergo bankruptcy or another financial reorganization;

- the disappearance of an active market for that financial asset due to financial difficulties; or
- observable data indicating that there is a measurable reduction in estimated future cash flows from a portfolio of financial assets, since the initial recognition of these assets, although the reduction still cannot be identified with the individual financial assets in the portfolio, including:
  - Adverse change in the payment situation of the borrowers in the portfolio;
  - National or local economic conditions that relate to the default on the portfolio's assets.

The amount of loss is measured as the difference between the book value of the assets and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial assets' original effective interest rate. The book value of the asset is written down and the amount of loss is recognized in the income statement. If a loan or investment held to maturity has a variable interest rate, the discount rate to measure an impairment loss is the current effective interest rate determined pursuant to the agreement. The Company may measure impairment based on the fair value of an instrument using an observable market price.

If, in a subsequent period, the impairment loss decreases and this reduction can be objectively related to an event that occurred after the impairment was recognized (an improvement in the debtor's credit rating), the impairment loss reversal will be recognized in the income statement.

#### **Assets classified as available for sale**

At the end of each reporting period, CSN assesses whether there is objective evidence of impairment for financial asset or group of financial assets. For debt instruments, CSN adopts the criteria mentioned above. For equity instrument (shares) classified as available for sale, a significant or long term decline in the fair value of the instrument below its cost is also evidence that assets may be impaired. Should any such evidence exist for available-for-sale financial assets, the accumulated loss - measured as the difference between the acquisition cost and its current fair value, less any impairment loss over the financial asset previously recognized in the income statement, will be reclassified from shareholders' equity and recognized in the income statement. If, in a subsequent period, the fair value of a debt instrument classified as available for sale increases, and such increase can be objectively related to an event occurred after the impairment was recognized as loss, the impairment loss is reversed through the income statement.

---

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

**iii) Derivative instruments and hedging activities**

- **Foreign exchange gain or loss in foreign operations**

Any gain or loss of the instrument related to the effective portion is recognized in capital. The gain or loss related to the ineffective portion is immediately recognized in the income statement under “Other net gains (losses), net”.

Gains and losses accumulated in equity are included in the statement of income when a foreign operation is partially disposed of or sold.

- **Derivatives measured at fair value through profit or loss**

Certain derivative instruments are not qualified for hedge accounting. Changes in fair value of any of these derivative instruments are immediately recognized in the statement of income under “Other net gains (losses)”. Although the Company uses derivatives for hedging purposes, it does not apply hedge accounting.

**(x) Segment information**

An operational segment is a Group component committed to the business activities, from which it can obtain revenues and incur expenses, including revenues and expenses related to transactions with any

other Group component. All operating income from operational segments are regularly reviewed by CSN's Executive Board for decision-making about funds to be allocated to the segment and performance evaluation, to which there is distinctive financial information available (see Note 26).

**(y) Government grants**

Government grants are not recognized until there is reasonable assurance that the Company will comply with related conditions and that grants will be received and then systematically recognized in the income statement during the periods in which the Company recognizes as expense the corresponding costs that grants intend to offset.

The Company has state tax incentives in the North and Northeast regions, which are recognized in income statement as corresponding costs and expenses or taxes reduction are received.

**3. BUSINESS COMBINATION**

On July 12, 2011, CSN, through its wholly-owned subsidiary "Prada", increased the capital of Companhia Brasileira de Latas ("CBL"), by means of a capitalization of credits. Therefore, the Company now controls CBL with an interest corresponding to 59.17% of its voting capital, represented by 784,055,451 common shares ("Acquisition").

With the acquisition of CBL's control, operational and administrative synergies will be created, thus, reducing production, logistics and administrative costs.

As mentioned in Note 2 (i), the Company applied the acquisition method to account for acquired identifiable assets, undertaken liabilities and non-controlling interest. The 40.83% non-controlling interest in CBL was proportionally determined, based on the fair value of the acquired identifiable assets and the undertaken liabilities. There are non-controlling shareholders who compose CSN's controlling group ownership structure.

The acquisition cost of R\$43,316 was allocated between the identified acquired assets and undertaken liabilities, valued at fair value. During the process of identifying assets and liabilities, intangible assets not recognized in the acquired entities' accounting books were considered. Transaction-related costs are represented by consulting services, attorney expenses and amount to R\$485 included in the income statement, as incurred.

The following tables show the allocation of acquired identifiable assets and undertaken liabilities recognized on the date of acquisition, the purchase price considered in CBL's buyout and the calculation of resulting goodwill.

---

(\*) Mainly composed of fair value adjustment to property, plant and equipment amounting to R\$90,572.

(\*\*) Mainly composed of fair value adjustment to credits with CSN amounting to R\$388,640.

Fair value adjustments made according to the company's balance sheet in order to prepare the opening balance sheet are preliminary and may change until conclusion of a valuation report estimated for December 2011.

**Goodwill resulting from acquisition**

|  |                 |
|--|-----------------|
| (-) Equity value of CBL  | (604,794)       |
| (+) Fair value of acquired assets and assumed liabilities              | 505,266         |
| <b>(=) Total fair value of acquired assets and assumed liabilities</b> | <b>(99,528)</b> |

|  |                |
|--|----------------|
| <b>Purchase price considered</b>               | <b>43,316</b>  |
| <b>(=) Goodwill resulting from acquisition</b> | <b>142,844</b> |

The goodwill due to expected future profitability of R\$142,844, originated in the acquisition, mainly consists of synergies created with the business combination between Prada Embalagens and CBL, as described in Note 14.

The business combination with Companhia Brasileira de Latas ("CBL"), occurred on July 12, 2011, has been analyzed by the Brazilian Antitrust Regulator ("CADE").

#### 4. RELATED PARTY TRANSACTIONS

##### a) Transactions with Parent Company

Vicunha Siderurgia S.A. is a holding company whose purpose is to hold interest in other companies. It is the Company's main shareholder, with a 47.86% interest in the voting capital.

The Company's main operations with subsidiaries are the purchase and sale of products and services, including iron ore, steel and port services.

**d) Other related parties**

- **CBS Previdência**

The Company is the main sponsor of a non-profit civil association set up in July 1960, whose main purpose is to pay supplementary benefits to those covered by social security. As a sponsor, CSN makes contributions and recognizes actuarial liabilities ascertained in defined benefit plans, as per Note 28.

- **Fundação CSN**

The Company develops socially responsible policies currently focused on Fundação CSN. Transactions between the parties are related to operating and financial support for Fundação CSN to develop social projects, mainly in the locations where CSN operates.

- **Banco Fibra**

Banco Fibra is under the same ownership structure of Vicunha Siderurgia, and financial transactions with this bank are limited to transactions in current account and financial investments in fixed income.

The balances of transactions between the Company and these entities are shown as follows:

**f) Policy of investments and payment of interest on shareholders' equity and distribution of dividends**

On December 11, 2000, the CSN Board of Directors decided to adopt a profit sharing policy which will result in the full distribution (100% of available) net income to its shareholders, in compliance with Law 6,404/76, as amended by Law 9,457/97, provided that the following priorities are preserved, irrespective of their order: (i) business strategy; (ii) compliance with liabilities; (iii) execution of the necessary investments; and (iv) maintenance of the Company's good financial standing.

**5. CASH AND CASH EQUIVALENTS**

The available financial funds in the parent company and subsidiaries established in Brazil are primarily invested in exclusive investment funds, whose cash is mostly invested in repurchase operations pegged to government and corporate bonds, with immediate liquidity. Additionally, a significant portion of the financial funds of the Company and its subsidiaries abroad is invested in Time Deposits with first-tier banks.

The exclusive investment funds, managed by BTG Pactual Serviços Financeiros S.A DTVM, and its assets, are accountable for possible losses in investments and operations carried out. The fund quotaholders may be called to secure the shareholders' equity in the event of losses resulting from interest rate, exchange rate or other financial asset variations.

**(\*) Investment funds:** "Vértice" investment fund portfolio is managed by Federal Savings Bank (CEF).

**(\*\*) Fixed income:** financial investments in the amount of R\$2,664,701 in the consolidated and R\$54,911 in the parent company, backed by Bank Deposit Certificates, with remuneration based on the variation of Interbank Deposit Certificates (CDI).

**Debentures:** Investments totaling R\$71,225 consolidated from jointly-owned subsidiary MRS, with remuneration based on the variation of CDI.

In order to meet the needs of some customers in the domestic market related to an extension of steel payment terms, in common agreement with CSN's internal commercial policy and the maintenance of its short-term receivables (up to 14 days), as requested by the customer, loan granting operations without co-obligation are negotiated between the customer and common banks, where CSN grants trade bills/notes

issued by it to common banks.

Due to the characteristics of the transactions for assignment of receivable without co-obligation, CSN, after granting client trade bills/notes and receiving funds from closing each operation, settles accounts receivable and fully releases itself from the operation credit risks.

This arrangement amounts to R\$264,317 on September 30, 2011 (R\$247,680 on December 31, 2010), less trade accounts receivable.

The changes in the provision for losses on the company's trade accounts receivable are as follow:

Some companies of the group recorded tax credits on income and social contribution taxes loss carryforwards that are not subject to statute of limitations based on the history of profitability and on the expectations of future taxable income determined in technical valuation approved by Management.

In July 2010, the Company adhered to the Tax Recovery Program – REFIS and chose to offset part of the tax loss balance as of December 31, 2009 and portion B (temporary differences) of the tax accounting ledger (LALUR) from the credits deriving from income and social contribution taxes loss carryforwards in the amount of R\$110,192 and R\$39,669, respectively, with the last four installments of the tax recovery program, debit modality pursuant to Provisional Measure 470/09 paid in 12 months, according to the applicable legislation.

As deferred tax assets are subject to various material aspects that might change realization projections, the book value of deferred tax assets is reviewed quarterly and projections are reviewed annually. These studies indicate the realization of these tax assets within the term established by CVM Instruction 273 and within the 30% limit of the taxable income.

Some of CSN's subsidiaries have tax credits amounting to R\$645,680 and R\$199,766 of income and social contribution taxes losses carryforwards, for which no deferred tax was recorded, of which R\$15,969 expire in 2011, R\$54 in 2012, R\$9,605 in 2013, R\$672 in 2014, R\$27,616 in 2015 and R\$47,039 in 2025. The remaining tax credits refer to domestic companies, thus, these do not expire.

The tax credit on goodwill of Nacional Minérios S.A., resulting from the merger of Big Jump in July 2009, was R\$1,391,858. Up to September 30, 2011, R\$603,139 (R\$394,360 until 2010) was realized, and R\$788,719 remains to be realized by 2014. From 2011 to 2013 this realization will be R\$69,593 for 2011, R\$278,372 for 2012 and 2013 and in the last year, in 2014, the benefit will be R\$162,382.

Undistributed profits related to the Company's foreign subsidiaries were invested and continued to be invested in its operations. These undistributed profits related to the Company's foreign subsidiaries amounted to R\$6,325,863 on September 30, 2011. If circumstances change and the tax authorities position when applying treaties to avoid double taxation to prevail at courts, these undistributed profits may trigger a tax obligation of R\$1,671,079.

**(c) Income tax recognized in equity:**

Income and social contribution taxes directly recognized in shareholders' equity are shown below:

|   | Consolidated |            | Parent Company |            |
|---|--------------|------------|----------------|------------|
|   | 9/30/2011    | 12/31/2010 | 9/30/2011      | 12/31/2010 |
| <b>(Losses)/gains from income and social contribution taxes</b> |              |            |                |            |
| Actuarial gains and losses                                      | 125,065      | 125,065    | 125,065        | 125,065    |
| Available for sale financial instruments                        | 109,724      | 75,522     | 109,724        | 11,300     |
| Investments in foreign operations                               | 425,510      | 433,297    | 425,510        | 433,297    |

**(d) Tax incentives**

The Company benefits from tax incentives of income tax based on prevailing laws, such as: Employee Meal Program, Rouanet Law, Tax Incentives from Audiovisual Activities, Child and Teenager Rights Funds and Incentive to Sports and Sports for the Disabled Projects. On September 30, 2011, they amounted to R\$1,914 (on September 30, 2010, the Company did not benefit from these tax incentives).

**10. OTHER NONCURRENT ASSETS**

Other non-current assets are broken down as follows:

|                             |                  | <b>Consolidated</b> |                  | <b>Parent Company</b> |  |
|-----------------------------|------------------|---------------------|------------------|-----------------------|--|
|                             | <b>9/30/2011</b> | <b>12/31/2010</b>   | <b>9/30/2011</b> | <b>12/31/2010</b>     |  |
| Judicial deposits (Note 20) | 1,807,604        | 2,774,706           | 1,728,947        | 2,704,026             |  |
| Recoverable Taxes(*)        | 220,525          | 247,910             | 101,117          | 122,868               |  |
| Prepaid expenses            | 117,181          | 115,755             | 25,305           | 27,540                |  |
| Others                      | 298,535          | 283,478             | 178,837          | 172,202               |  |
|                             | <b>2,443,845</b> | <b>3,421,849</b>    | <b>2,034,206</b> | <b>3,026,636</b>      |  |

(\*) This mainly refers to PIS/COFINS and ICMS on the acquisition of property, plant and equipment, which will be recovered during a 48-month period.

(\*) Refers to mark-to-market of investments classified as available for sale and conversion to reporting currency and, as described in Note 11.e, the Company sold its interest in Riversdale;

(\*\*) Merger of CSN Aços Longos and Inal Nordeste on January 28, 2011 and May 30, 2011, respectively.

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

**c) Additional information on the main operating subsidiaries**

- CIA. METALIC NORDESTE

The Company, with its head office located in Maracanaú, State of Ceará, has as its main corporate purpose the manufacturing of metallic packaging destined to the beverage industry.

Its operating unit is one of the world's most modern facilities, with two different production lines: the can production line, whose raw material is tin-coated steel, supplied by the parent company, and the lid production line, whose raw material is aluminum.

Its production is mainly geared towards the Brazilian northern and northeastern markets, with the surplus production of lids sold abroad.

- INAL NORDESTE

Based in Camaçari, State of Bahia, the company's main purpose is to reprocess and distribute CSN's steel products, operating as a service and distribution center in the Northeast region of the country.

On May 30, 2011, CSN merged the subsidiary Inal Nordeste.

- CSN AÇOS LONGOS

Established in Volta Redonda in the state of Rio de Janeiro, it aims to manufacture and sell rolled long steel, except tubes.

In October 2, 2009, the Company started the construction of the plant, which is expected to become operational in 2012.

On January 28, 2011, CSN Aços Longos was merged into CSN. The merger resulted in the optimization of processes, reduction and streamlining of administrative expenses, especially of managerial nature, due to the concentration into a single organizational structure of all commercial, operating and administrative activities of its companies.

- COMPANHIA METALÚRGICA PRADA

#### *Packages*

In the market since 1936, Companhia Metalúrgica Prada operates in the metallic steel packages segment, manufacturing the best and safest cans, buckets and aerosol containers, serving the chemical and food segments, supplying lithography packages and services to the main companies in the market.

In its three production units – São Paulo, Pelotas and Uberlândia – Prada produces more than 1 billion steel cans per year, a performance achieved due to a combination of attributes present in the company's path since its foundation.

On July 12, 2011 Companhia Metalúrgica Prada, increased the capital of Companhia Brasileira de Latas ("CBL"), through the capitalization of debentures and other receivables. Companhia Metalúrgica Prada now owns CBL, through an interest corresponding to 59.17% of its voting capital.

#### *Distribution*

The distribution unit processes and distributes flat steel with a diversified line of products. It supplies coils, rolls, plates, strips, blanks, metallic sheets, shapes, tubes and tiles, among other products to the most

different industries - from automotive to civil construction. Materials produced by Distribution unit are made from hot- and cold-rolled coils, hot-dip galvanized, tin plate, chrome-plated steel, uncoated, pre-painted and galvalume. Distribution unit also specializes in providing steel processing service, meeting the demand of many Brazilian companies.

Companhia Brasileira de Latas produces metallic steel packages for the chemical and food segments, supplying packages to the main companies in the market.

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

- SEPETIBA TECON

This company's objective is to manage the #1 Containers Terminal of the Itaguaí Port, located in Itaguaí, State of Rio de Janeiro. This terminal is linked to Presidente Vargas Steelworks by the Southeast railroad network, which concession was granted to MRS Logística. Services agreement covers the handling and warehousing operation of containers, vehicles, steel products, among other containers washing and sanitation products and services.

Sepetiba Tecon won the auction that occurred on September 3, 1998 for the takeover of the terminal concession. This concession allows the management of the aforementioned terminal for 25 years, renewable for another term of 25 years.

When this concession expires, all the rights and privileges transferred to Tecon will return to the federal government, together with Tecon's assets and those resulting from its investments in leased properties, declared reversible by the federal government, as they are deemed necessary to carry on the services granted. The reversible assets will be indemnified by the federal government by the residual value of their cost, verified in Tecon's accounting records, which considers accumulated depreciation.

- CSN ENERGIA

Its main purpose is to distribute and trade the surplus electric power generated by CSN and by companies, consortiums or other entities in which Company holds an interest.

- TRANSNORDESTINA LOGÍSTICA

Transnordestina has as its main purpose the exploration and development of the public rail cargo transport service for the Northeast network in Brazil.

On December 31, 2008, the Company's ownership interest in Transnordestina Logística S.A. ("TLSA")'s capital stock was 84.49%. Currently, TLSA is a CSN's subsidiary, consolidated in the Company's financial statements since December 2009, when CSN reached an interest of 84.97% in its capital stock, corresponding to 740,372,383 common shares. TLSA consolidation in the Company's financial statements resulted from capital increases made by CSN during 2009 and which were not followed by shareholder Taquari Participações S.A. In that same year, Fundo de Investimentos do Nordeste – FINOR subscribed 45,513,333 new preferred shares, and at the end of 2009 holds 5.22% of TLSA's capital stock.

In 2010, FINOR transferred its 45,513,333 preferred shares to CSN and thereafter subscribed other 61,286,145 new preferred shares which were subsequently transferred to BNDES and BNDESPAR, and its ownership interest was zeroed at the end of that same year.

On December 31, 2010, the Company had a total amount of 914,636,803 common shares and 45,513,333 preferred shares corresponding to 76.45% of TLSA's capital stock.

On June 30, 2011, the interest in TLSA's capital stock was 82.91% in view of the capital increase approved on February 28, 2011 when the Company subscribed another 474,520,512 new common shares issued by Transnordestina.

On July 2011, VALEC subscribed 257,187,500 preferred shares and, in August 2011, FINOR subscribed 132,121,430 preferred shares.

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

From July to September 2011, FINOR paid up 215,631,956 preferred shares and transferred 132,121,430 to certain Transnordestina's shareholders, of which 22,671,464 were transferred to CSN.

On September 30, 2011, due to these changes in Transnordestina's capital stock, CSN held a 66.15% interest in the capital stock of that company.

- **ESTANHO DE RONDÔNIA - ERSA**

Ersa is a subsidiary based in the State of Rondônia, where it operates two units, one in the city of Itapuã do Oeste and the other in the city of Ariquemes. The subsidiary's mining operation for cassiterite (tin ore) is located in Itapuã do Oeste and the casting operation from which metallic tin is obtained, which is the raw material used in UPV for the production of tin plates, is located in Ariquemes.

- **CSN CIMENTOS**

Based in Volta Redonda, State of Rio de Janeiro, it has the production and trading of cement as its corporate purpose. CSN Cimentos uses as one of its raw material the blast furnace slag from the pig iron production of the Presidente Vargas Steelworks. CSN Cimentos started to operate on May 14, 2009.

In early 2011, CSN Cimentos started producing clinker in its Arcos plant, in Minas Gerais.

**d) Additional information on indirect interest abroad**

- COMPANHIA SIDERURGICA NACIONAL – LLC (“CSN LLC”)

Incorporated in 2001 with the assets and liabilities of the extinct Heartland Steel Inc., headquartered in Wilmington, State of Delaware – USA, it has an industrial plant in Terre Haute, State of Indiana – USA, where there is a complex comprising a cold rolling line, a hot pickling line for spools and a galvanization line. CSN LLC is a wholly-owned indirect subsidiary of CSN Americas.

- LUSOSIDER

Incorporated in 1996 in succession to Siderurgia Nacional – a company privatized by the Portuguese government that year, Lusosider is the only Portuguese company in the steel industry to produce cold-re-rolled flat steel, with a corrosion-resistant coating. The company has in Paio Pires an installed capacity of around 550 thousand tons/year to produce four large groups of steel products: galvanized plate, cold-rolled plate, pickled and oiled plate.

Products manufactured by Lusosider may be used in the packaging industry, civil construction (pipes and metallic structures), and in home appliance components.

#### **e) Other investments**

- RIVERSDALE MINING LIMITED - Riversdale

On April 20, 2011, the Company adhered to the tender offer of Riversdale Mining Limited (“Riversdale”) shares conducted by Rio Tinto. Therefore, the Company sold 100% of its equity interest held in Riversdale’s capital stock, corresponding to 47,291,891 shares at the price of A\$16.50 per share, totaling A\$780,316.

- PANATLÂNTICA

On January 5, 2010, the Company’s Board of Directors approved the acquisition of common shares representing 9.39% of the capital stock of Panatlântica S.A. (“Panatlântica”), a publicly-held company, headquartered in the city of Gravataí, state of Rio Grande do Sul, whose purpose is the industrialization,

trade, imports, exports and processing of steel and ferrous or non-ferrous metals, coated or not. This investment is measured at fair value.

---

SIDERURGICA NACIONAL

- **USIMINAS**

Usinas Siderúrgicas de Minas Gerais S.A. – USIMINAS headquartered in Belo Horizonte, state of Minas Gerais, aims at exploring the steel industry and related industries. USIMINAS manufactures flat rolled steel at the Intendente Câmara and José Bonifácio de Andrada e Silva Plants, located in the city of Ipatinga, state of Minas Gerais, and in the city of Cubatão, state of São Paulo, respectively, destined to the domestic market and exports, and also owns and explores iron ore mines located in the city of Itaúna, state of Minas Gerais, aiming at meeting the production costs verticalization and optimization strategies. USIMINAS owns service and distribution centers in several regions of Brazil, besides the ports of Cubatão, state of São Paulo, and Praia Mole, state of Espírito Santo, strategic sites to ship its products.

On August 19, 2011, the Company's interest was of 11.29% in the common shares and 15.15% in the preferred shares of Usiminas' capital stock.

USIMINAS is listed at the São Paulo Stock Exchange ("Bovespa": USIM3 and USIM5).

## **12. INVESTMENTS IN JOINTLY-OWNED SUBSIDIARIES**

The balance sheet and statement of income of companies whose control is shared are shown as follows. These amounts were consolidated in the Company's financial statements, in accordance with the interest described in item (b) of Note 2.

- NACIONAL MINÉRIOS – NAMISA

Headquartered in Congonhas, state of Minas Gerais, NAMISA's main purpose is the production, purchase and sale of iron ore and it sells its products mainly to the foreign market. Its main operations are developed

in the municipalities of Congonhas, Ouro Preto, Itabirito and Rio Acima, state of Minas Gerais, and in Itaguaí, state of Rio de Janeiro.

In December 2008, CSN sold 2,271,825 shares of the voting capital of Nacional Minérios S.A. to Big Jump Energy Participações S.A. ("Big Jump"), whose shareholders are the companies Posco and Brazil Japan Iron Ore Corp (Itochu Corporation, JFE Steel Corporation, Sumitomo Metal Industries, Ltd., Kobe Steel Ltd., Nisshin Steel Co. Ltd., Nippon Steel). Subsequently to this sale, Big Jump subscribed new shares, paying in cash the total of US\$3,041,473 thousand, corresponding to R\$7,286,154 thousand, R\$6,707,886 thousand of which were recorded as goodwill in the share subscription.

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

Due to the new corporate structure of the jointly-owned subsidiary, in which Big Jump holds 40% and CSN 60% and, due to the shareholders' agreement entered into between the parties, CSN consolidated it proportionally.

Such shareholders' agreement provides that certain extreme deadlock situations among shareholders, not solved after mediation and negotiation procedures among executive officers of the parties, may entitle CSN to exercise the call option and Big Jump to exercise the put option related to Big Jump's shareholding in Namisa.

Other agreements were executed to implement the partnership, among them the share purchase agreement and the long-term operating agreements between Namisa and CSN, provide for certain affirmative covenants, which if neither complied with nor remedied within estimated terms, in certain extreme situations, may entitle the aggrieved party to exercise the put option or the call option, where applicable, related to Big Jump's interest in Namisa.

Continuing the restructuring process of Namisa, on July 30, 2009, the jointly-owned subsidiary merged its parent company Big Jump Energy Participações S.A. Now Posco and Brazil Japan Iron Corp. hold a direct interest of 39.99% in Namisa. This merger did not change CSN's shareholding structure.

- MRS LOGÍSTICA

The Company's main purpose is to explore, by onerous concession, the public rail cargo transport service in the right of way of the Southeast network, located in the stretch connecting Rio de Janeiro, São Paulo and Belo Horizonte, of Rede Ferroviária Federal S.A. - RFFSA, privatized on September 20, 1996. In 2008, CSN capitalized in Namisa 10% of its interest in MRS, decreasing its direct interest from 32.93% to 22.93%.

In addition to this direct interest, the Company also holds an indirect interest of 6% through Nacional Minérios S.A. – Namisa, a proportionally consolidated company, and 4.34% through International Investment Fund.

MRS may also explore modal transportation services regarding the rail transport and take part in developments aiming at the extension of the rail transport services concession granted.

To provide the services which are the purpose of the concession obtained for a 30-year period, as from December 1, 1996, and renewable for another equal period at the exclusive discretion of the grantor, MRS leased from RFFSA, for the same period of the concession, the assets necessary to operate and maintain rail cargo transportation activities. When concession is extinguished, all the leased assets will be transferred to the possession of the railway operator designated in that same act.

- ITÁ ENERGÉTICA S.A. - ITASA

CSN holds 48.75% of the subscribed capital and the total amount of common shares issued by Itasa, a special purpose entity (SPE) originally established for the construction of the Itá Hydroelectric Power Plant, the contracting of the supply of goods and services necessary to carry out the venture and to obtain financing through the offering of the corresponding guarantees.

Itasa holds a 60.5% interest in the Itá Consortium, which was created for the exploration of the Itá Hydroelectric Power Plant pursuant to the concession agreement of December 28, 1995, and its Addendum 1 dated July 31, 2000, entered into between the consortium holders (Itasa and Centrais Geradoras do Sul do Brasil - Gerasul, formerly called Tractebel Energia S.A.), granted by the Federal Government, by means of the Brazilian Agency for Electric Energy (ANEEL), to expire in October 2030.

In accordance with the terms provided for in the Consortium Agreement, Itasa is entitled to 60.5% of the average 668 MW, which corresponds to the energy project apportioned among the consortium holders, while the other consortium holder, Tractebel Energia S.A. (“Tractebel”), will receive the remaining 39.5%. From the Company’s average 404.14 MW, the average of 342.95 MW is sold to its shareholders at the ratio of their interest in the company, and the average of 61.19 MW is sold to the consortium holder Tractebel.

- **CONSORTIUM OF THE IGARAPAVA HYDROELECTRIC POWER PLANT**

The Igarapava Hydroelectric Power Plant is located in Rio Grande, 400 km from Belo Horizonte and 450 km from São Paulo, with an installed capacity of 210 MW, formed by 5 bulb-type generating units, and is considered a landmark for energy generation in Brazil.

Igarapava stands out for being the first Hydroelectric Power Plant built by a consortium of 5 large companies.

CSN holds 17.92% in the consortium, whose specific purpose is the distribution of electric energy, which is distributed according to the interest percentage of each company.

Property plant and equipment, net of depreciation, totaled R\$32,043 on September 30, 2011 (R\$32,919 on December 31, 2010) and the expense amount attributed to CSN totaled R\$4,346 (R\$5,791 on September 30, 2010).

| Others                              | 15                  | 15                    |

**a)** Loan costs were capitalized in the amount of R\$257,965 (R\$156,048 on September 30, 2010) in the consolidated and R\$185,221 (R\$135,552 on September 30, 2010) in the parent company (see Note 25). Borrowing costs are attributed to mining, cement, long steel and Transnordestina projects, mainly relating to:(i) Casa de Pedra expansion (ii) construction of the cement plant in the city of Volta Redonda (State of Rio de Janeiro) and of the clinker plant in the city of Arcos (State of Minas Gerais); (iii) construction of the long steel mill in the city of Volta Redonda (State of Rio de Janeiro) and(iv) extension of Transnordestina railroad, which will connect the countryside of the northeast region to the ports of Suape (State of Pernambuco) and Pecém (State of Ceará).

Below, the capitalization rates used in borrowing costs:

| <b>RATES</b>             |                              |
|--------------------------|------------------------------|
| <b>Specific projects</b> | <b>Non-specific projects</b> |
| TJLP + 1.3% up to 3.2%   | 11.75%                       |

UM006 + 2.7%

Depreciation, amortization and depletion additions in the period were distributed as follows:

(\*) Goodwill from expected future profitability, deriving from business combination between Prada Embalagens and CBL on July 12, 2011.

The recoverable value of a cash generating unit (“CGU”) is determined based on the economic valuation report prepared by independent appraisers. In view of this valuation, the impairment adjustment amounted to R\$60,861 on July 12, 2011.

The concession intangible asset with definite useful life refers to the amount originally paid by shareholders, whose economic fundamentals were the expectation of future income from the concession right, recorded by the Company’s jointly-owned subsidiary. Amortization is calculated using the straight-line method for the concession period.

**16. FINANCIAL INSTRUMENTS****I - Identification and measurement of financial instruments**

The Company holds financial instruments, mainly cash and cash equivalents, including financial investments, marketable securities, trade accounts receivable, trade payables and loans and financing.. In addition, the Company also holds derivative financial instruments, especially foreign exchange and interest rate swap.

Considering the nature of instruments, the fair value is determined by using market prices in Brazil and prices at Commodities and Futures Exchange. The amounts recorded in current assets and liabilities either have acid test ratio or are mostly due in three-month periods or less. Given the term and characteristics of these instruments, which are systematically renegotiated, book values are close to fair values.

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

**Fair value measurement**

Financial instruments recorded at their fair value require the disclosure of fair value measurement in three hierarchical levels:

- Level 1: prices stated (unadjusted) in current markets for identical assets and liabilities
  
- Level 2: Other information available, except for that of level 1, which is noticeable to assets or liabilities, directly (such as prices) or indirectly (resulting from prices).
  
- Level 3: Not available information due to little or no market activity, which is significant to set assets fair value.

The table below shows financial instruments recorded at fair value, by level:

| Consolidated - R\$ thousand                | 9/30/2011 |         |         | Balances | Level 1 | Level 2 |
|--|-----------|---------|---------|----------|---------|---------|
|  | Level 1   | Level 2 | Level 3 |          |         |         |
| <b>Assets</b>                              |           |         |         |          |         |         |
| <b>Current assets</b>                      |           |         |         |          |         |         |
| <b>Financial assets available for sale</b> |           |         |         |          |         |         |
| Derivatives                                |           | 89,527  |         | 89,527   |         |         |

**II – Fair values of assets and liabilities compared to book value**

Amounts that are accounted for in the quarterly financial information by their book value are substantially similar to those which would be reached in case they were traded in the market. Fair values of other noncurrent assets and liabilities are not significantly different from their book values, except for the amounts below.

The estimated fair value for consolidated noncurrent loans and financing was calculated at market rates in force, considering the nature, term and risks similar to those of registered contracts, compared below:

|                  | <b>9/30/2011</b>  |                     | <b>12/31/2010</b> |                     |
|------------------|-------------------|---------------------|-------------------|---------------------|
|                  | <b>Book value</b> | <b>Market value</b> | <b>Book value</b> | <b>Market value</b> |
| Perpetual bonds  | 1,856,924         | 1,818,803           | 1,668,468         | 1,663,701           |
| Fixed Rate Notes | 5,081,336         | 5,854,032           | 4,606,820         | 4,966,629           |

**III – Investments in available-for-sale securities and measured at fair value through profit or loss**

Includes investments in shares acquired in Brazil and abroad from first-tier companies rated by international rating agencies as investment grade, which are recorded in non-current assets and gains and eventual losses are recorded in shareholders' equity, until the realization of these securities, or when an eventual impairment loss is deemed to exist.

Financial assets measured at fair value through profit or loss are recorded as current assets and gains and eventual losses are recorded as financial income and expenses respectively.

**IV –Policy for management for financial risk**

The Company has and follows a risk management policy that provides guidance on the risks incurred by the Company. According to this policy, the nature and general position of financial risks is regularly monitored and managed with the purpose of evaluating results and the financial impact on cash flow. Credit limits and the quality of the counterparties' hedge are also periodically revised.

The risk management policy was established by the Board of Directors. According to this policy, market risks are hedged when it is considered necessary to support the corporate strategy or when it is necessary to maintain the financial flexibility level.

Under the risk management policy, the Company manages some risks by using derivative instruments. The Company's risk policy prohibits speculative negotiations and short sales.

- **Liquidity risk**

Liquidity risk is the risk that the Company might not have sufficient cash to honor its financial commitments, due to term or volume mismatch between receipts and expected payments.

In order to manage cash liquidity in domestic and foreign currency, disbursement and future receipts assumptions were established and are monitored daily by Treasury. Payment schedules for long-term installments of loans, financings and debentures are presented in Note 15.

Below are the contracted financial liabilities maturities, including the payment of estimated interest.

|                                  |                    |                   |                    |               | <b>Consolidated</b> |

| <b>December 31, 2010</b>         |                    |                   |                    |               |                     |
| Loans, financing and debentures  | 1,344,561          | 4,254,057         | 6,357,168          | 8,250,406     | 20,206,192          |
| Derivative financial instruments | 116,407            | 263               |                    |               | 116,670             |
| Trade accounts payable           | 623,233            |                   |                    |               | 623,233             |

- **Exchange rate risk**

The Company evaluates its exposure to exchange rate risk by subtracting its liabilities from its assets in US dollar, Euro and Australian dollar, to measure its net exposure to exchange risk, which is effectively the exposure risk in foreign currency. Therefore, in addition to accounts receivable from exports and investments abroad that are economically natural hedge instruments, the Company evaluates and uses several financial instruments, such as derivative instruments (swap, dollar x real, euro x dollar and future exchange contracts) to manage its exposure to exchange rate variation risks of the real against other currencies.

- **Policies for the use of hedging derivatives**

The Company's financial policy reflects the liquidity parameters, credit and market risk approved by the Audit Committee and Board of Directors. The use of derivative instruments, with the purpose of preventing interest rate and foreign exchange rate fluctuations from having a negative impact on the Company's balance sheet and statement of income, should comply with the same parameters. Pursuant to internal rules, this financial investment policy was approved and is managed by the Board of Executive Officers.

As a routine, the Board of Executive Officers presents and discusses, at the meetings of the Board of Executive Officers and Board of Directors, the Company's financial positions. Pursuant to the Bylaws,

significant amount operations require previous approval by the Company's Management. The use of other derivative instruments is subject to prior approval by the Board of Directors.

---

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

In order to finance its activities, the Company often resorts to capital markets, either domestic or international ones, and due to the debt profile it seeks, part of the Company's debt is pegged to foreign currency, mainly to the U.S. dollar, which motivates the Company to seek hedge for its indebtedness through derivative financial instruments.

In order to contract financial instruments and derivatives with the purpose of hedge in compliance with the structure of internal controls, the Company adopts the following policies:

- continuous ascertainment of the exchange exposure, which occurs by means of the assessment of assets and liabilities exposed to foreign currency, within the following terms: (i) accounts receivable and payable in foreign currency; (ii) cash and cash equivalents and foreign currency-denominated debt, considering, inclusive, the maturity of assets and liabilities exposed to currency fluctuation;
- presentation of the financial position and foreign exchange exposure, as a routine, at meetings of the Board of Executive Officers and of the Board of Directors which approve this hedging strategy;
- contracting of hedge derivative operations only with first-tier banks, diluting the credit risk due to diversification of these banks;

The consolidated net exposure to the foreign exchange rate on September 30, 2011 is shown as follows:

| <b>Foreign exchange exposure</b>                   | <b>(Amounts in USD)</b> | <b>(Amounts in EUR)</b> | <b>9/30/2011<br/>(Amounts in AUD)</b> |

| <b>Net exposure</b>                                | <b>285,301</b>          | <b>(43,840)</b>         | <b>640,473</b>                        |

The results obtained with these operations are in accordance with the policies and strategies defined by the Management.

- **Exchange swap transactions**

The company carries out foreign exchange rate swap operations, aiming to protect its assets and liabilities of possible US dollar/Brazilian real fluctuations. This exchange swap protection provides the Company, through the contracted long position, FRA (Forward Rate Agreement) exchange coupon gain, which at the same time improves investment rates and reduces fundraising in the foreign market.

On September 30, 2011, the company held a foreign exchange rate swap long position of US\$351,221 thousand (US\$1,249,529 thousand on December 31, 2010), where it receives, from the long position, exchange variation over 3.4541% per year on average (in 2010 exchange variation over 2.29% per year), and paid 100% of CDI in the exchange swap contract short position.

On September 30, 2011, the consolidated position of these contracts is as follows:

In addition to the swaps above, the Company also entered into NDFs (Non Deliverable Forward) in Euros. Basically, the Company hedged in financial derivatives of its assets in Euros, from which it will receive the difference between the exchange variation in U.S. dollars observed in the period, multiplied by the notional value (long position) and pays the difference between the exchange variation in Euros observed in the period, over the notional value in Euros on the agreement date (short position). These are over-the-counter Brazilian market operations, and first-tier financial institutions are the counterparties, contracted within exclusive funds.

On September 30, 2011, the consolidated position of these agreements was as follows:

- **Real-U.S. Dollar Commercial Exchange Rate Futures Contract**

Real-U.S. Dollar Commercial Exchange Rate Futures Contracts seek to hedge foreign-denominated liabilities against the Real variation. The Company may buy or sell commercial U.S. dollar futures contracts on the Commodities and Futures Exchange (BM&F) to mitigate the foreign currency exposure of its US dollar-denominated liabilities. The terms of the Real-U.S. dollar exchange rate futures contract, including detailed explanation on the contracts' terms and calculation of daily adjustments, are published by BM&F and disclosed on its website ([www.bmf.com.br](http://www.bmf.com.br)). In 2011, the Company did not contract U.S. dollar futures operations. Throughout 2010, the Company paid R\$179,564 and received R\$259,490 in adjustments, thus having a gain of R\$79,926. Gains and losses from these contracts are directly related to the currency fluctuations.

- **Other Derivatives**

The subsidiary Lusosider has derivative operations to hedge against Euro and US Dollar exposures. The notional value of this operation is US\$73,872 and the outstanding long position of R\$7,342 on September 30, 2011. On September 26, 2011, the subsidiary Tecon settled its derivative operations to hedge against Real exposure to Yen, whose notional value was JPY 2,390,398. The results of these operations on September 30, 2011 are consolidated in the Company's financial result totaling gain of R\$8,808 (gain of R\$3,557 on September 30, 2010).

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

- **Sensitivity analysis**

For the consolidated foreign exchange operations with US Dollar fluctuation risk, based on the foreign exchange rate on September 30, 2011 of R\$1.8544 per US\$1.00, adjustments were estimated for five scenarios:

- Probable scenario: foreign exchange swap operations considered the assumption of maintaining the fair values (at market) on September 30, 2011 and the 1.8970 future U.S. Dollar rate in the BM&F was used in the foreign exchange position to mature on November 1, 2011, as of September 30, 2011.
- Scenario 1: (25% Real appreciation) R\$/US\$ parity of 1.3908;
- Scenario 2: (50% Real appreciation) R\$/US\$ parity of 0.9272;
- Scenario 3: (25% Real devaluation) R\$/US\$ parity of 2.31804;
- Scenario 4: (50% Real devaluation) R\$/US\$ parity of 2.7816.

- **Interest rate risk**

Short and long-term liabilities are indexed to floating interest and inflation rates. Due to this exposure, the Company maintains derivatives to better manage these risks.

- **Libor x CDI swap transactions**

These transactions aim at hedging its liabilities indexed to the U.S. dollar Libor against fluctuations of Brazilian interest rates. The Company carried swap operations of its Libor-indexed liabilities bearing 1.25% p.a. interest rates over the notional amount in U.S. dollars (long position) and paid 96% of the Interbank Deposit Certificate – CDI over the reference amount in reais on the contracting date (short position). The reference value of this swap on September 30, 2011 is US\$129,000 thousand, hedging an export prepayment operation of the same amount. Gains and losses deriving from this contract are directly related to the U.S. dollar fluctuations, Libor and CDI. This usually refers to operations on the Brazilian over-the-counter market having first-tier institution as counterparty.

On September 30, 2011, the position of contracts is the following:

**a) Open transactions**

| Settlement date | Counterparties | Notional value (US\$ thousand) |      | Valuation - 2011 (R\$ thousand) |                | Fair (market) value (R\$ thousand) | 9/30/2011 Amount payable (R\$ thousand) |
|-----------------|----------------|--------------------------------|------|---------------------------------|----------------|------------------------------------|---|
|                 |                | 2011                           | 2010 | Long position                   | Short position | 2011                               | Amount payable                          |
| 11/14/2011      | CSFB           | 129,000                        |      | 218,968                         | (221,896)      | (2,928)                            | (2,928)                                 |

The net position of the aforementioned contracts is recorded in specific derivatives account as loss totaling R\$2,928 on September 30, 2011 and their effects are recognized in the Company's financial result as loss totaling R\$16,337 (loss of R\$13,694 on September 30, 2010).

**b) Settled transactions**

| Maturity  | Counterparties | Notional value US\$ thousand |         | Appreciation - 2011 (R\$ thousand) |                | Appreciation - 2010 (R\$ thousand) |                | Fair Value (Market) (R\$ thousand) |         |             |

- **Sensitivity analysis of interest rate swaps**

The sensibility analysis is based on the assumption of maintaining as probable scenario the market values on September 30, 2011. The Company considered the scenarios below for the US\$ Libor rates and CDI.

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

|                                  |                 |              |          |          |          |        | 9/30/2011 |
|----------------------------------|-----------------|--------------|----------|----------|----------|--------|-----------|
|                                  | Notional (US\$) | Risk         | Probable | 25%      | 50%      | 25%    | 50%       |
| Libor interest rate vs CDI Swaps | 129,000         | (Libor) US\$ | (2,928)  | (28,966) | (34,423) | 28,966 | 34,423    |

- Sensitivity analysis of interest rate**

The Company considers the effects of a 5% increase or decrease of interest rates over its loans, financing and outstanding debentures on September 30, 2011, on the date of the consolidated quarterly financial information.

|                           | Initial rate (% p.a) | Effects on results |           |
|---------------------------|----------------------|--------------------|-----------|
|                           |                      | 9/30/2011          | 9/30/2010 |
| Changes in interest rates |                      |                    |           |
| TJLP                      | 6.00                 | 8,576              | 5,839     |
| Libor                     | 0.04                 | 8,240              | 7,543     |
| CDI                       | 11.66                | 79,095             | 37,978    |

- Share's market price risks**

The Company is exposed to the risk of changes in the price of shares due to the investments made and classified as available for sale.

The table below summarizes the impact of stock prices changes as provided in the scenarios below on shareholders' equity in other comprehensive income.

| <b>Other comprehensive income (loss)</b>  | <b>Nine-month period ended</b> |                  | <b>Consolidated<br/>Three-month period ended</b> |                  |
|---|--------------------------------|------------------|--|------------------|
|   | <b>9/30/2011</b>               | <b>9/30/2010</b> | <b>9/30/2011</b>                                 | <b>9/30/2010</b> |
| Net variation in fair value of financial instruments classified as available for sale | (446,890)                      | 206,904          | (322,763)  | 58,752           |

Investments in acquired shares of leading companies are traded at BOVESPA.

The sensitivity analysis is based on the assumption of maintaining as probable scenario the fair values on September 30, 2011. Therefore, there are no effects over the financial instruments classified as available for sale reported above. The Company considered the scenarios below for volatility of the shares.

- Scenario 1: (25% appreciation of shares);
- Scenario 2 (50% appreciation of shares);
- Scenario 3 (25% devaluation of shares);
- Scenario 4 (50% devaluation of shares):

| <b>Companies</b> | <b>Impact on Equity</b> |                |                  |                  |
|------------------|-------------------------|----------------|------------------|------------------|
|                  | <b>25%</b>              | <b>50%</b>     | <b>25%</b>       | <b>50%</b>       |
| Usiminas         | 459,985                 | 919,969        | (459,985)        | (919,969)        |
| Panatlântica     | 2,662                   | 5,324          | (2,662)          | (5,324)          |
|                  | <b>462,647</b>          | <b>925,293</b> | <b>(462,647)</b> | <b>(925,293)</b> |

- **Credit risks**

The exposure to the financial institutions credit risk observes the parameters set forth in the financial policy. The Company analyzes in detail the equity and financial positions of its customers and suppliers, by setting a credit limit and permanently monitoring their outstanding balance.

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

In relation to financial investments, the Company only invests in institutions with low credit risk rated by rating agencies. As part of the funds are invested in government bonds, there is also the credit risk of the Brazilian government.

- **Capital Management**

The Company manages its capital structure with a view to safeguarding its going concern capacity to offer return to shareholders and benefits to other stakeholders, besides maintaining an ideal capital structure to reduce this cost.

**V – Guaranteed margin**

The Company has guaranteed margin amounting to R\$390,874 (R\$254,485 on December 31, 2010); which is invested at the Deutsche Bank to guarantee the derivative financial instrument agreements, specially a swap between CSN Islands VIII and CSN. Additionally, the Company has a securitization reserve fund amounting to R\$63,246 (R\$54,675 on December 31, 2010) as set forth in the securitization program agreements.

**17. OTHER PAYABLES**

Other payables classified under current and non-current liabilities are as follows:

|   | <b>Consolidated</b> |                   | <b>Current<br/>Parent Company</b> |                   | <b>C</b>         |
|---|---------------------|-------------------|-----------------------------------|-------------------|------------------|

## 19. TAXES PAYABLE IN INSTALLMENTS

### a) Tax recovery program (Refis)

- **Federal Refis**

On November 26, 2009, CSN, its subsidiaries and jointly-owned subsidiaries adhered to the Federal Tax Repayment Program (REFIS) introduced by Law 11,941/09 and Provisional Measure 470/09, in order to settle their tax and social security obligations through a special payment and installment payment system. The adhesion to special tax programs reduced the amount payable of fines, interests and legal charges previously due.

The Management's decision took into account the matters judged by higher courts, as well as the evaluation of its external advisors as to the possibility of a favorable court decision for the lawsuits in progress.

For debits recorded pursuant to Provisional Measure 470/09, these were paid in 12 installments as of November 2009. In July 2010, the Company chose to offset with the amounts of income and social contribution taxes loss carryforwards the last four installments of this tax recovery program, pursuant to the possibility set forth in the applicable legislation.

In November 2009 and February 2010, the debits payable pursuant to the installment payment program set forth by Law 11,941/09, already recognized through provisions, were reviewed based on the reductions in debits set forth in special programs, according to the waiver date of administrative appeals or legal proceedings. In 1Q10, those amounts corresponded to a negative effect before income and social contribution taxes of R\$48,890 in the parent company and R\$42,365 in the consolidated, which were recorded in other operating income and expenses and financial result (see Notes 24 and 25).

In June, 2011, the Group's companies consolidated the debits payable pursuant to the tax program set forth by Law 11,941/09 under the 180-installment modality adjusted by the SELIC rate. As a result of the consolidation, the provision increased R\$19,734 in the second quarter of 2011, recognized in the parent company under financial results and other expenses, before income and social contribution taxes as they related to interest and monetary adjustments on taxes.

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

Judicial deposits linked to Refis and to the National Treasury Attorney General Office (PGFN) proceedings, the Company recognized the right to the surplus generated after application of the reductions provided by the payment in cash modality and advised that its utilization should follow the Normative Instruction of the Federal Revenue Service (RFB) no. 900/2008.

The position of debits from Refis, recorded in taxes paid in installments in current and non-current liabilities on September 30, 2011 was R\$1,978,269 (R\$1,410,062 on December 31, 2010) in the parent company and R\$2,087,351 (R\$1,444,207 on December 31, 2010) in the consolidated balance sheet.

**20. PROVISIONS FOR TAX, SOCIAL SECURITY, LABOR AND CIVIL RISKS AND JUDICIAL DEPOSITS**

Several proceedings involving actions and complaints of a number of issues are being challenged at the proper jurisdictions. The breakdown of the amounts recorded as provisions and the respective judicial deposits related to those actions are shown as follows:

|   | <b>Judicial<br/>deposits</b> | <b>9/30/2011<br/>Provision</b> | <b>Judicial<br/>deposits</b> | <b>12/31/2010<br/>Provision</b> |
|---|------------------------------|--------------------------------|------------------------------|---------------------------------|
| Social security and labor                     | 101,381                      | 187,312                        | 78,302                       | 183,141                         |
| Civil   | 25,557                       | 59,912                         | 38,646                       | 54,613                          |
| Tax   | 1,152,668                    | 60,620                         | 847,301                      | 67,427                          |

(\*) The transfers to taxes payable in installments occurred after the adhesion to Law 11,941/09 and refer to the proceedings regarding Social Contribution on Net Income – Exports, COFINS Law 10,833/03, CIDE and IPI Premium Credit on exports.

The provisions for civil, labor, tax, environmental and social security liabilities were estimated by the Company's Management substantially based on the opinion of its legal counsels, and only the cases classified with a risk of probable loss were recorded. Additionally, the provisions include tax liabilities arising from actions taken on the Company's initiative, plus SELIC (Special Settlement and Custody System) interest.

The Company and its subsidiaries are defendants in other judicial and administrative proceedings (labor, civil and tax) in the approximate amount of R\$6,937,457 of which R\$5,450,439 corresponds to tax proceedings including tax deficiency notices related to profits earned abroad as disclosed in Note 9, R\$377,394 refer to civil actions and R\$1,109,624 to labor and social security lawsuits. According to the Company's legal counsels, these administrative and legal proceedings are assessed as a possible risk of

loss. These proceedings were not accrued in accordance with the Management's judgment and with accounting practices adopted in Brazil.

**a) Labor contingencies**

On September 30, 2011, the Company is defendant in 8,972 labor claims, with a provision in the amount of R\$147,832 (R\$146,175 on December 31, 2010). Most of the pleadings of the actions are related to joint and/or subsidiary liability, wage parity, additional allowances for unhealthy and hazardous activities, overtime and differences related to the 40% fine on FGTS (severance pay) resulting from the federal government's economic plans, health plan, action for damages due to alleged occupational disease or accident and profit sharing differences from 1997 to 1999 and from 2001 to 2003.

**b) Civil contingencies**

Among the civil judicial contingencies to which the Company is defendant, there are mainly actions with indemnification requests. Such proceedings, in general, arise from occupational accidents, diseases, contractual controversies, related to the Company's industrial activities. A provision in the amount of R\$53,006 on September 30, 2011 (R\$54,113 on December 31, 2010) was recognized for contingencies involving civil matters.

Among the environmental administrative/legal contingencies in which the Company is defendant, these mainly refer to administrative proceedings aiming the verification of possible environmental irregularities and the environmental licenses regularization; at courts, there are collection suits of fines levied due to these irregularities and public civil actions requesting the regularization cumulated with indemnities, which include environmental restoration, in most of the cases. These contingencies usually derive from controversies related to alleged damage to the environment, concerning the Company's industrial activities. The Company recognized a provision for environmental-related lawsuits of R\$6,906 (R\$500 on December 31, 2010).

**c) Tax contingencies**

§ Income and Social Contribution Taxes

**(i) Plano Verão** - The parent company claims the recognition of the financial-tax effects on the calculation of the income and social contribution taxes on net income, related to the 51.87% inflation write-down of the Consumer Price Index (IPC), which occurred in January and February 1989 (“Plano Verão”).

---

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

In 2004, the discussion was concluded and a final and unappealable decision was reached, granting the right to apply the index of 42.72% (January 1989), from which the 12.15% already applied should be deducted. The use of the index of 10.14% (February 1989) was also granted. The proceeding is currently under expert examination.

As at September 30, 2011 there is a amount of R\$344,916 (R\$341,551 on December 31, 2010) deposited in a specific account of judicial deposit as noncurrent receivables and a provision of R\$20,892 (R\$20,892 on December 31, 2010), which represents the portion not recognized by the court.

**(ii) CSLL export (social contribution on income from export revenues)**

In February 2004, the Company filed a lawsuit in order to be exempted from the social contribution payment on its export revenues/earnings, as well as obtaining a court authorization to be able to repeat/offset all social contribution values that had been improperly paid on export revenues/earnings since the publication of the Amendment 33/2001, which provided a new wording to Article 149, paragraph 2 of CF/88, when establishing that “social contributions will not levy on revenues resulting from exports”.

Since then, the Company has accrued CSLL amount over export revenues/profit; however, after decision rendered by Federal Supreme Court (STF) in the records of RE 564,413 (leading case) in contrary voting related to the non-levy of social contribution on exports to taxpayers, also pending of publication, the Company decided to also include this lawsuit in the installment payment program enacted by Law 11,941/09 (REFIS). The lawsuit’s adjusted amount included in the installment payment totaled R\$365,466.

§ Contribution for intervention in the Economic Domain - CIDE

The parent company questioned the legality of Law 10,168/00, which established the payment of CIDE on the amounts paid, credited or remitted to beneficiaries not resident in Brazil, for royalties or remuneration purposes on supply contracts, technical assistance, trademark license agreement and exploration of patents.

The lower court decision was unfavorable, which was ratified by the 2<sup>nd</sup> Regional Federal Court (TRF). Appeals for Clarification of Judgment were filed, which were rejected, and an Extraordinary Appeal was filed at STF, which is awaiting decision as to its admissibility.

Due to adverse decisions and benefits from reduction of fines and interest rates, the Company's Board of Directors approved the adhesion of said litigation to the tax recovery program of Law 11,941/2009.

After having applied the benefits of this program, the Company also maintains judicial deposits in the amount of R\$6,200, of which R\$2,895 refer to excess deposits after the application of REFIS reductions that may converted into income. On September 30, 2011, there is a provision in the amount of R\$3,246 (R\$27,545 on December 31, 2010), which includes legal charges.

§ Salary premium for education – “Salário Educação”

The parent company challenged the unconstitutionality of the salary premium for education and the possible recovery of the amounts paid in the period from January 5, 1989 to October 16, 1996. The proceeding was judged baseless, and the Federal Regional Court maintained its unfavorable decision, which is final and unappealable.

In view of this fact, CSN attempted to pay the amount due, but FNDE and INSS did not reach an agreement about who should receive it. A fine was also demanded, but CSN did not agree on it.

CSN filed new proceedings questioning the above-mentioned facts and deposited in court the amounts due. In the first proceeding, the 1<sup>st</sup> level sentence judged partially favorable the pleading, in which the Judge removed the amount of the fine, maintaining, however, the SELIC rate. The Company presented brief of respondent to the defendant's appeal, and appealed concerning the SELIC rate.

The amount accrued and deposited in court on September 30, 2011 totals R\$33,121 (R\$33,121 on December 31, 2010).

SIDERURGICA NACIONAL

§ On-the-job accident insurance - SAT

The parent company is challenging in court the increase in the SAT rate from 1% to 3% and is also contesting the raise in SAT for the purposes of Contribution to Special Retirement, whose rate was set at 6%, in accordance with the legislation, for employees who are exposed to harmful agents.

As for the first proceeding mentioned above, the lower court decision was unfavorable and the proceeding is under judgment in the 2<sup>nd</sup> Region of the Federal Regional Court. As for the second proceeding it ended up unfavorably for the Company, and the total amount due in this proceeding of R\$33,077, which was deposited in court, was converted into revenue for the benefit of INSS.

The amount accrued on September 30, 2011, totals R\$39,480 (R\$36,966 on December 31, 2010), which includes legal charges and is exclusively related to the process of rate difference from 1% to 3% for all establishments of the Company. Due to the probability of loss, the Company's Board of Directors approved the adhesion of these discussions to the installment payment set forth by Law 11,941/09. Due to the adhesion to REFIS and the withdrawal from the litigation that discussed the rate increase from 1% to 3%, CSN also included the period that had not been assessed in the Common Installment Program in 60 installments.

§ IPI premium credit over exports

The Brazilian tax laws allowed companies to recognize IPI premium credit until 1983, when the Brazilian government, through an Executive act, cancelled these benefits, prohibiting companies to use these credits.

The parent company challenged the constitutionality of this act and filed a claim to obtain the right to use the IPI premium credit over exports from 1992 to 2002, once only laws enacted by the legislative branch may cancel or revoke benefits from prior legislation.

On August 13, 2009, the Federal Supreme Court issued a decision with effects of general repercussion establishing that the IPI Premium Credit would only be effective up to October 1990. Thus, the credits determined after 1990 were not recognized, and, in view of this court decision, the Company's Board of Directors approved the adherence of said issues to the tax recovery programs of tax debts pursuant to the Provisional Measure 470/09 and Law 11941/09, in which there is the advantage of reduced fines, interest and legal charges.

The Company accrued the amount of credits already offset, increased by default charges up to September 30, 2009. The new debit value after the application of reductions set forth in the program of Law 11,941/09, was offset with court deposits related to said operations, resulting in an excess deposits amounting to R\$516 million after the application of REFIS reductions, which can be refunded.

Debits recognized pursuant to MP 470/09 have been paid in 12 installments as of November 2009, and the last four installments were offset with the amounts of income and social contribution taxes losses carryforwards, pursuant to the possibility set forth in the applicable legislation.

§ Other

The parent company also recorded provisions for proceedings related to INSS, Severance Pay (FGTS) - Supplementary Law 110, COFINS Law 10,833/03, PIS - Law 10,637/02 and PIS/COFINS - Manaus Free-trade Zone, amount of which totaled R\$89,548 on September 30, 2011 (R\$84,367 on December 31,2010), which includes legal charges.

Regarding the Cofins debit Law 10,833/03, the Board of Directors approved the adherence of said discussions to the tax recovery program Law 11,941/09. The Parent Company maintained a provision in the amount of credits already offset, increased by default charges up to September 30, 2009.

The new debit value after the application of reductions set forth in the program of Law 11,941/09, was offset by court deposits related to these operations, resulting in an excess deposit amounting to R\$9,141 after the application of REFIS reductions, which can be refunded.

SIDERURGICA NACIONAL

On June 14, 2010, the Regional Federal Court of Brasília rejected the annulment action filed by CSN against CADE – Administrative Council for Economic Defense, which aimed at annulling its injunction for the so-infringements provided for in Articles 20 and 21, item I of Law 8,884/1984. The respective appeals were presented against this decision, which were denied allowing for a Motion for Clarification, which is pending judgment. The collection of the fine, amounting to R\$65,292, was suspended by Court decision, which granted an interim suspension effect as to guarantee the debit through a surety issued by CSN. This action is classified under risk of possible loss.

## **21. PROVISIONS FOR ENVIRONMENTAL AND DECOMMISSIONING LIABILITIES**

### **a) Environmental liabilities**

On September 30, 2011, the Company has a provision in the amount of R\$291,351 in the Parent Company and R\$300,993 in the consolidated (R\$271,608 and R\$278,106 on December 31, 2010, respectively) related to services for environmental investigation and recovery of areas potentially polluted within the plants in the States of Rio de Janeiro, Minas Gerais and Santa Catarina. The expense estimates are reviewed periodically by adjusting the amounts recognized, whenever necessary. These are the Management's best estimates considering the degraded area recovery studies and those in process of exploration.

Provisions are measured by present value of expenses that shall be required to settle the obligation, using a pretax discount rate, which reflects the market's current valuations of time value of money and the specific risks of the obligation. The higher obligation due to passage of time is recognized as other operating expenses.

The long-term interest rate used to discount to present value was and update the provision through September 30, 2011 is 11.00% on. The recognized liabilities are periodically adjusted based on the discount rates and the interest rate (IGPM) at force in the period.

## **b) Decommissioning of Assets**

Liabilities related to decommissioning of assets consist of costs estimates due to decommissioning or restoration of areas at the shutdown of mineral resources exploitation and extraction activities. Initial measurement is recognized as a liability discounted at present value and subsequently by adding expenses over time. Asset decommissioning costs corresponding to the initial liability is capitalized as part of the book value of that asset and has been depreciated during the asset's useful life. The liability recognized on September 30, 2011 was R\$14,720 in the Parent Company and R\$23,653 in the consolidated (R\$13,435 and R\$17,421 on December 31, 2010).

## **22. SHAREHOLDERS' EQUITY**

### **i. Common Stock**

The Company's fully subscribed and paid-in capital on September 30, 2011 amounted to R\$1,680,947 (R\$1,680,947 on December 31, 2010), divided into 1,457,970,108 (1,483,033,685 on December 31, 2010) common book-entry shares, with no par value. Each share is entitled to one vote in the resolutions of the General Meeting. At the Extraordinary General Meeting held on March 25, 2010, shareholders approved the split of shares representing the capital stock. After this split, each share is now represented by two (2) new shares.

### **ii. Authorized capital**

The Company's bylaws in force on September 30, 2011, determine that the capital stock can be increased up to 2,400,000,000 shares, by decision of the Board of Directors.

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

SIDERURGICA NACIONAL

**26. SEGMENT AND GEOGRAPHICAL INFORMATION**

According to the Company's structure, its businesses are distributed in five operational segments. Consequently, CSN has analyzed its information by segment as follows:

- **Steel**

The steel division encompasses all operations related to the production, distribution, and sale of flat steel products, steel containers and galvanized steel in Brazil, the U.S. and Portugal. The segment makes steel packaging materials for Brazil's chemical and food industries and also serves the country's civil construction, white line (appliances), automotive and motors and compressors segments. The Company's steel units produce highly durable hot- and cold-laminated, galvanized and pre-painted steel products. The Company also makes tinplate, a raw material used in the production of packaging products.

At Lusosider, in Portugal, the division also produces metallic leafing, in addition to galvanized steel products. CSN LLC, which operates in the U.S., serves the local market, offering cold-laminated and galvanized products. The production of long steel is slated to begin in 2012. With an initial production of 500 thousand tons, the Company will consolidate its position as a one-stop provider for the civil construction industry, rounding out its portfolio of high valued-added products in the steel chain.

- **Mining**

The mining division encompasses the Company's iron ore and tin operations. Those high quality iron ore operations are located in the Iron Quadrangle region of Minas Gerais State, the Casa de Pedra mine, located in Congonhas, Minas Gerais, which produces high quality iron ore, as does its jointly-owned

subsidiary Nacional Minérios S.A. (Namisa), which owns its own mines, also of excellent quality. It also sells iron ore for third parties. CSN also owns the Estanho de Rondônia S.A. (ERSA) mining company, which operates tin mining and smelting operations.

The Company holds the concession to operate TECAR, a solid bulk terminal, one of the four terminals at Port of Itaguaí, located in the State of Rio de Janeiro. Coal and coke imports are carried at this terminal.

- **Logistics**

- i. Railroad**

CSN holds stakes in two railroad companies: MRS Logística S.A., which manages Southeast Network formerly run by Rede Ferroviária Federal S.A. (RFFSA), and Transnordestina Logística S.A., which operates RFFSA's former Northeast Network, which traverses the states on Maranhão, Piauí, Ceará, Rio Grande do Norte, Paraíba, Pernambuco and Alagoas.

- a) MRS**

The transport services provided by MRS are fundamental to the supply of raw materials and the shipment of end products to their destinations. All of the iron ore, carbon and coke used at the Presidente Vargas Plant are transported by MRS, as well as a portion of the steel produced by CSN for the domestic market and for export.

A railroad system in Southeastern Brazil, with a 1,674 km rail network, serves the industrial triangle São Paulo - Rio de Janeiro - Minas Gerais in the southeast, connecting its mines located in Minas Gerais to ports located in São Paulo and Rio de Janeiro, and to CSN's steel plants, Companhia Siderúrgica Paulista, or Cosipa, and Gerdau Açominas. In addition to serving other clients, the line transports iron ore from its mines of Casa de Pedra in Minas Gerais and coke and coal from Port of Itaguaí, in the State of Rio de Janeiro, to the city of Volta Redonda, and transports its exports to the Ports of Itaguaí and Rio de Janeiro. Its transportation volume accounts for nearly 28% of the total volume of the railroad system in southeastern Brazil.

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

**b) Transnordestina Logística**

CSN and the federal government will jointly finance the implementation of the Transnordestina Project, which involves the construction of nearly 1,728 kilometers of new lines. That project, which is slated for conclusion in 2013, also includes extensions of and improvements to part of infrastructure (or lines) of Transnordestina Logística's concession network, which will be expanded from its current 2,600 operational kilometers to approximately 4,300 km operational kilometers.

Transnordestina Logística S.A. holds a 30-year concession granted in 1998 to operate the rail system in northeastern Brazil. The rail system in northeastern Brazil comprises a 4,238 km of rail network and operates in the states of Maranhão, Piauí, Ceará, Paraíba, Pernambuco, Alagoas, and Rio Grande do Norte. In addition, it connects itself to the main ports of the region, thus offering an important competitive advantage by means of opportunities for combined transportation solutions and customized logistic projects.

The project will increase transportation capacity of Transnordestina Logística by 20 times, almost the same level of the world's most modern railways.

Transnordestina will become the best logistic option to export grains through the ports of Pecém and Suape, as well as other solid bulks, such as iron ore of the Northeast Region, playing an important role in the region's development.

**ii. Ports**

The ports division encompasses the operation of the Sepetiba Tecon terminal built in the post-privatization period. The Sepetiba terminal's infrastructure can meet all the needs of exporters, importers and ship-owners, since its installed capacity surpasses those of most other Brazilian terminals. Its berths have an excellent depth of 14.5 meters and plenty of storage space, and the terminal also provides adequate

access to state-of-the-art equipment, systems and intermodal connections.

The Company's constant investment in terminal projects consolidates the Port Complex of Itaguaí as one of the country's most modern ones, currently with a movement capacity of 480 thousand containers on an annual basis and 30 million tons of bulk.

- **Energy**

CSN is one of the major industrial consumers of electricity in Brazil. Considering that energy is essential in its productive process, the Company invests in energy generation assets to guarantee its self-sufficiency, which include: the Itá Hydroelectric Plant, located in Santa Catarina State, with an installed capacity of 1,450 MW, in which CSN holds a 29.5% interest; the Igarapava Hydroelectric Plant, located in Minas Gerais, which has an installed capacity of 210 MW and in which CSN holds a 17.9% interest; and the thermo-electric co-generation station, with 238 MW, operational at the Presidente Vargas steelworks since 1999. The thermoelectric power plant uses residual gases deriving from its own steel production as fuel. CSN obtains 430 MW of energy from these three energy generation assets.

- **Cement**

The cement division consolidates the Company's cement production, distribution and sales operations, which use the slag produced by the Volta Redonda plant's blast furnaces. Currently, most of the clinker used in cement production is leased from third parties, however, the production by CSN itself began in 2011, when the first stage of the Arcos factory in Minas Gerais will be completed. CSN also has a limestone mine on that site, which is already part of its cement division.

The information presented to the Management pertinent to each division is generally derived directly from the accounting records combined with a few inter-unit allocations.

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

Sales by geographic area are determined based on customer location. In consolidated terms, Brazilian sales consist of revenues obtained from clients in Brazil, while export sales correspond to revenues obtained from clients abroad.

(\*) The mining sales volumes presented in this chart include those of the company and its stake in subsidiaries and jointly-controlled subsidiaries (Namisa 60%).

The adjusted EBITDA comprises the net income plus income before taxes, income and social contribution, depreciation and amortization, in addition to other operating revenues (expenses), which are excluded, as they mainly refer to non-recurring items of the operation.

The Company's Board of Executive Officers uses the adjusted EBITDA as means of measuring the recurring generation capacity of operating cash, allowing for comparison criteria with other companies.

## 28. EMPLOYEE BENEFITS

Pension plans granted by the Company substantially cover all employees. Plans are managed by Caixa Beneficente dos Empregados da CSN ("CBS"), a non-profit private pension fund, established in July 1960, whose members are employees and former employees of the parent company and some subsidiaries, which joined the fund by means of an agreement and CBS's employees themselves. CBS's Executive Board comprises a president and two executive officers, all of them appointed by CSN, CBS's main sponsor. The Deliberative Council is CBS's top authority of deliberation and guidance presided over by the president of the pension fund and composed of ten members, six of them are chosen by CSN, CBS's main sponsor, and four of them are elected by participants.

Up to December 1995, CBS Previdência managed two benefit plans based on years of services, salary and social security benefits. On December 27, 1995, the Brazilian Department of Supplementary Private Pensions ("SPC") approved the implementation of a new benefit plan, effective as of the abovementioned date, called Combined Supplementary Benefit Plan ("Combined Plan"), organized as a variable contribution plan. Employees hired after this date may only join the new plan ("Combined Plan"). In addition, all active employees who participated in the previous defined benefit plans had the opportunity to change to the new Combined Plan.

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

On September 30, 2011, CBS had 31,623 participants (30,540 on December 31, 2010), of which 16,666 were active taxpayers (15,433 on December 31, 2010), 9,745 were retired employees (9,888 on December 31, 2010) and 5,212 were contingent beneficiaries (5,219 on December 31, 2010). Out of total participants, on September 30, 2011, 13,035 belong to the defined benefit plan and 17,786 to the combined plan.

CBS's guarantee assets are mainly invested in restricted operations (backed by in federal public securities, federal public securities indexed to the inflation, shares, loans and real estate. On September 30, 2011, CBS held 12,788,231 common shares of CSN (12,788,231 common shares on December 31, 2010). The entity's total guarantee assets amounted to R\$3.7 billion and R\$3.6 billion on September 30, 2011 and 2010, respectively. CBS's fund managers try to combine the plan assets with the benefit liabilities payable in the long term. Brazilian pension funds are subject to certain restrictions related to their investment capacity in foreign assets and, consequently, funds invest mainly in securities in Brazil.

Guarantee assets are those assets available and investments of benefit plans, not including debts contracted with sponsors.

**a. Description of pension plans**

**Plan covering 35% of average salary**

This plan, which began on February 1<sup>st</sup>, 1966, is a defined benefit plan for the purpose of paying retirements (due to time in service, special cases, disability or age) on a life-long basis, equivalent to 35% of the participant's adjusted average for the last 12 salaries. The plan also guarantees the payment of a sickness allowance to a participant on sick leave through the Official Pension Plan and it also guarantees the payment of benefits, death grant and a cash grant. This plan became inactive on October 31, 1977, when the Supplementary average salary plan became effective.

**Supplementary average salary plan**

This defined benefit plan began on November 1, 1977. The purpose of this plan is to supplement the difference between the 12 last average adjusted salaries of the participant and the benefit paid by the Official Social Security to the retired employees, on a life-long basis. Like in the 35% Average Salary Plan, there is sickness allowance, death grant and pension coverage. This plan became inactive on December 26, 1995, after the mixed supplementary benefit plan has been implemented.

**Mixed supplementary benefit plan**

Begun on December 27, 1995, this is a variable contribution plan. Besides the programmed pension benefit, there is the payment of risk benefits (pension in activity, disability and sickness/accident benefit). In this plan, the retirement benefit is calculated based on the total accumulated sponsor's and participant's contributions per month, as well as on each participant's payment option, which may occur during lifetime (with or without receiving death benefit) or by a percentage applied on the balance of the benefit generating fund (loss by indefinite term). Upon the participant's retirement grant, the plan starts having a defined benefit plan.

**b. Investment policy**

The investment policy sets forth principles and guidelines that should rule investments from funds of the entity, aiming to promote safety, liquidity and profitability necessary to ensure balance between the plan assets and liabilities, based on the Asset Liability Management (ALM) study, which takes into consideration the benefits of the participants and beneficiaries of each plan.

The investment plan is reviewed on a yearly basis and approved by the Deliberative Council taking into consideration a 5-year period, as set forth by CGPC Rule 7 of December 4, 2003. Investment limits and criteria set forth in the policy are based on Resolution 3,792/09, published by the Brazilian Monetary Council ("CMN").

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

Cost is recognized in the income statement under other operating expenses.

Breakdown of actuarial gains and losses in 2010 is as follows:

|   |                   |
|---|-------------------|
|   | <b>12/31/2010</b> |
| Actuarial gains and losses                        | 184,671           |
| Restriction due to recovery limitation            | (99,509)          |
| <b>Total cost of actuarial (gains) and losses</b> | <b>85,162</b>     |

Actuarial gains and losses history in 2010 is as follows:

|  |                   |
|--|-------------------|
|  | <b>12/31/2010</b> |
| Present value of defined benefit obligations | 1,982,556         |
| Fair value of plan assets                    | (2,316,018)       |
| <b>Surplus</b>                               | <b>(333,462)</b>  |
| Adjustments to the plan liabilities          | 225,341           |
| Adjustments to the plan assets               | 40,669            |

The main actuarial assumptions used were as follows:

12/31/2010

|   |   |
|---|---|
| Actuarial financing method                              | Projected Unit Credit   |
| Functional currency                                     | Real (R\$)  |
| Accounting for the plan assets                          | Market value  |
|   | Best estimate for the equity at the end of the fiscal year, using the projection of amounts recorded in October |
| Value used as estimate of equity at the end of the year |   |
| Discount rate   | 10.66%  |
| Inflation rate  | 4.40%   |
| Salary increase nominal rate                            | 5.44%   |
| Benefit increase nominal rate                           | 4.40%   |
| Rate of return on investment                            | 11.31% - 12.21%   |
| General mortality table                                 | AT 2000 by gender   |
| Disability entry table                                  | Mercer Disability with probabilities x 2  |
| Disabled mortality table                                | Winklevoss - 1%   |
| Turnover table  | 2% p.a. millennium plan, null for defined benefit plans   |
|   | 100% on the first date the individual becomes eligible to a retirement benefit scheduled by the plan            |
| Retirement age  | 95% will be married at the time of retirement, the wife is 4 years younger than the husband                     |
| Family breakdown of active participants                 |   |

**d. Post-employment health care plan**

Refers to the Bradesco health care plan created on December 1<sup>st</sup>, 1996 exclusively covering former retired employees, pensioners, those who were granted amnesty, veterans, widows of injured employees and retirees until March 20, 1997 and their respective legal dependents, since then, the health plan does not allow the inclusion of new beneficiaries. The Plan is sponsored by CSN and managed by the Caixa Beneficente dos Empregados da Cia Siderúrgica Nacional – CBS.

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

Amounts recognized in the balance sheet on December 31, 2010, were determined as follows:

|                              |                   |
|------------------------------|-------------------|
|                              | <b>12/31/2010</b> |
| Present value of obligations | 367,839           |
| <b>Liabilities</b>           | <b>367,839</b>    |

Interest on actuarial liability was R\$35,457 in 2010.

The reconciliation of liabilities of health benefits is as follows:

|  |                   |
|--|-------------------|
|  | <b>12/31/2010</b> |
| Actuarial liabilities at the beginning of the year       | 317,145           |
| Cost of current service                                  | 35,457            |
| Sponsor's contributions calculated for the previous year | (33,064)          |
| Recognition of (gains)/losses in the year                | 48,301            |
| <b>Actuarial liabilities at the end of the year</b>      | <b>367,839</b>    |

Actuarial gains and losses registered in shareholders' equity are as follows:

|  |                   |
|--|-------------------|
|  | <b>12/31/2010</b> |
| Actuarial liability losses                       | 48,301            |
| <b>Losses recognized in shareholders' equity</b> | <b>48,301</b>     |

Actuarial gains and losses history is as follows:

|  |                   |
|--|-------------------|
|  | <b>12/31/2010</b> |
| Present value of defined benefit obligations | 367,839           |
| <b>Deficit/(surplus)</b>                     | <b>367,839</b>    |
| Experience adjustments in plan obligations   | 48,301            |

Actuarial assumptions used to calculate post-employment health benefits were as follows:

|   |                   |
|---|-------------------|
|   | <b>2010</b>       |
| <b>Biometrics</b>                               |                   |
| General mortality table                         | AT 2000 by gender |
| Turnover  | N/A               |
| Family composition                              | Real breakdown    |
| <br>  |                   |
| <b>Financial Assumptions</b>                    | <b>12/31/2010</b> |
| Nominal rate of actuarial discount              | 10.77%            |
| Inflation                                       | 4.40%             |
| Increase in Medical Assistance Costs due to age | 1.50%             |
| Nominal growth rate in Medical Assistance Costs | 2.31%             |
| Average Medical Assistance Costs                | 316.22            |

### 30. INSURANCE COVERAGE

Aiming at properly mitigating risks and in view of the nature of its operations, the Company and its subsidiaries took out several different types of insurance policies. The policies are taken out in line with the Risk Management policy and are similar to insurances taken out by other companies operating in the same line as CSN and its subsidiaries. The coverage of these policies include: National Transportation, International Transportation, Carrier Civil Responsibility, Import, Export, Life and Personal Accidents Insurance, Health, Vehicle Fleet, D&O (Administrator Civil Responsibility Insurance), General Civil Liability, Engineering Risks, Sundry Risks, Export Credit, Guarantee Insurance and Port Operator Civil Responsibility.

**(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)**

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

The Company also contracted the Operational Risk of Property Damage and Loss of Profits policy, with Maximum Indemnification Limit (LMI) of R\$850,000 to its entities and subsidiaries: Usina Presidente Vargas, Mineração Casa de Pedra, Mineração Arcos, CSN Paraná, CSN Porto Real, Terminal de Cargas TECAR, Terminal TECON, NAMISA and CSN Cimentos, which policy was negotiated with insurance and reinsurance companies in Brazil and abroad. CSN decided to undertake responsibility for an average retention of R\$170,000 exceeding the property damage and loss of profits deductible and will co-participate with 54% of the risks. The Company continues striving towards reducing its co-participation.

The risk assumptions adopted, given their nature, are not part of the scope of a review of the quarterly financial information, and, consequently, they were not reviewed by our independent auditors.

### **31. SUBSEQUENT EVENTS**

- On September 27, 2011, subsidiary Transnordestina Logística S.A. subscribed and paid-in 468,293,037 4<sup>th</sup> series convertible debentures through the Fundo de Desenvolvimento do Nordeste (FDNE) a government fund that invests in development projects in northeast, at the face value of R\$1.00 each, totaling R\$468,293, and the credit generated was received on October 7, 2011.

São Paulo – SP

**Introduction**

We have reviewed the individual and consolidated interim financial information of Companhia Siderúrgica Nacional (“the Company”) included in the Quarterly Financial Information - ITR referring to the quarter ended September 30, 2011, comprising the balance sheet as of September 30, 2011 and the statements of income and comprehensive income for the three and nine-months periods then ended and changes in shareholders' equity and cash flows for the nine-months period then ended, including the explanatory notes.

Management is responsible for the preparation and fair presentation of these individual interim financial information in accordance with technical pronouncement CPC 21 - Interim Financial Information and the consolidated interim financial information in accordance with CPC 21 and the international standard IAS 34 - Interim Financial Reporting, as issued by the International Accounting Standards Board - IASB, and presented in a manner consistent with the rules of the Brazilian Securities and Exchange Commission applicable to the preparation of Quarterly Financial Information. Our responsibility is to express a conclusion on this interim financial information based on our review.

### **Scope of Review**

We conducted our review in accordance with the Brazilian and International Standards on interim financial information (NBC TR 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with standards on auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion on the individual Quarterly Financial Information**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual interim financial information included in the Quarterly Financial Information described above, were not prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of the Quarterly Financial Information and presented in a manner consistent with the rules issued by the Brazilian Securities and Exchange Commission.

ITR — Quarterly Financial Information - September 30, 2011 – CIA  
SIDERURGICA NACIONAL

**Conclusion on the consolidated quarterly financial information**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information included in the Quarterly Financial Information described above were not prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Financial Information and presented in a manner consistent with the rules issued by the Brazilian Securities and Exchange Commission.

**Other matters**

***Statements of value added***

We also reviewed the individual and consolidated statement of value added (DVA), for the nine-months period ended on September 30, 2011, prepared under management's responsibility, for which the disclosure in the interim information is required in accordance with the rules issued by the Brazilian Securities and Exchange Commission applicable to the preparation of Quarterly Financial Information and considered additional information for IFRS, which does not require this disclosure. These statements were submitted to the same review procedures previously described and, based on our review, nothing has come to our attention that would lead us to believe that they have not been prepared, in all its material respects, in accordance with the individual and consolidated Quarterly Financial Information taken as whole.
