2Q16

FOR IMMEDIATE RELEASE - São Paulo, August 11, 2016 – Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), one of Brazil’s leading homebuilders, today reported financial results for the second quarter ended June 30, 2016.

GAFISA RELEASES 2Q16 RESULTS

MANAGEMENT COMMENTS AND HIGHLIGHTS

The Company’s results from the first half of 2016 reflect continued uncertainty in Brazil’s political and economic prospects. This uncertainty stems from an economic slowdown and has greatly impacted the Brazilian real estate market. Gafisa was able to partially mitigate the negative effects of this period, as a result of its diversification in both the medium-high income and the low income segments.

The Gafisa and Tenda segments faced substantially different market environments throughout the quarter. The Gafisa segment has been affected by reduced demand levels in this weak macroeconomic environment. The segment is focused on its strategy of improving operational efficiency and business management, by maintaining a conservative approach in the development of new projects. The Tenda segment, conversely, took advantage of the low-income market’s

resilience and continued to expand the scale of its business model, despite macroeconomic conditions.

In 2Q16, the Gafisa segment launched two projects/phases in the city of São Paulo, accounting for R\$130.4 million in PSV, ending the first six months with R\$210.5 million in new projects launched.

Despite the political and economic headwinds, the segment posted improved results in 2Q16 relative to 1Q16. The recent sales performance in the quarter may signal a marginal rebound in the Brazilian consumer environment. In addition to increased sales, with gross sales totaling R\$262.0 million, up 10.5% from 1Q16, dissolutions decreased in the quarter and returned to average levels seen in 2015.

This result reflected positive trends in both Gafisa's operations and consumer confidence. As a result of these factors, 2Q16 net pre-sales nearly doubled QoQ to R\$129.5 million, representing 66% of total net pre-sales in 1S16.

Gafisa segment's SoS slightly recovered reaching 6.3% in 2Q16, compared to 3.3% in the previous quarter and 10.5% in 2Q15. SoS in the last twelve months reached 26.5%.

EARNINGS

RELEASE

2Q16

The volume of dissolutions in 2Q16, despite a slight improvement, comes as a result of a high volume of deliveries since the end of 2015, approximately R\$1.5 billion in PSV, combined with decreased demand in the current economic scenario. In 2Q16, PSV of R\$412.3 million was delivered, ending the first six months with R\$517.1 million in delivered projects.

The Gafisa segment ended 2Q16 with 25 projects under construction, all on schedule and within the delivery timeframe, reflecting Gafisa's commitment to our clients. 2Q16 transfer volume reached R\$142.7 million and R\$252.7 million in 6M16, showing an appropriate level of operational control and efficiency. Despite the current credit restrictions, Gafisa maintains a strong relationship in partnering with banks for the transfer process.

The Company has maintained a focus on the sale of remaining units. As a result, 72.3% of net sales in 2Q16 and 77.6% in 1H16 were units from inventory. Considering the higher volume of dissolutions related to older projects, net sales in 1H16 were concentrated in more recent projects, impacting the Gafisa segment's first half revenues.

Despite the expectation of greater visibility into the Brazilian political and economic scenario, the Company is still missing higher visibility related to a recovery in the real estate market and will keep operating on a cautious manner.

In this regard, we will keep our conservative approach, seeking to balance the placement of new products on the market, prioritizing those with higher liquidity, so as to achieve an appropriate level of sales, profitability, and cash flow.

Paulo, Rio de Janeiro, Rio Grande do Sul, Minas Gerais and Bahia.

2Q16 launches accounted for 39.8% of the Tenda segment's total sales and 25.6% of the segment's total in 6M16.

The Tenda segment's SoS reached an impressive level of 26.4%, among the highest in the sector.

2Q16 gross sales reached R\$382.9 million and dissolutions remained under control at 15.1% of gross sales, resulting in net pre-sales of R\$325.0 million. This marked an increase of 21.9% from the previous quarter and of 12.1% y-o-y. In 6M16, the net pre-sales totaled R\$591.5 million.

Since 2013, when Tenda started its new model operations, the segment has launched 72 projects, representing a total of R\$2.7 billion in PSV. Of this total, Tenda has delivered R\$1.1 billion, comprised of 32 projects/phases. Notably, all projects related to the first year of new model operations (2013) have been completed and delivered on schedule. In relation to the 2014 projects, only one project/phase of 14 projects launched is still waiting delivery. In 2Q16, the Tenda segment delivered 10 projects/phases, corresponding to 1,895 units, and representing R\$275.4 million in PSV. In 1H16, the Tenda segment delivered 13 projects/phases, comprising 2,359 units and R\$337.1 million in PSV.

For the second half of the year, the Tenda segment will continue focusing on increasing its scale by growing launches and implementing strategies designed to ensure a strong sales pace. The segment will be guided by market behavior and

Tenda's 2Q16 results benefitted from the stable scenario in the low-income segment, with increased launches and fewer dissolutions. These factors were further improved by the policy of immediately transfer after sale, and a reduction in the legacy project portfolio. The Tenda segment continues concentrating its efforts in the new business model. The consolidation of the new model, based on four strategic pillars, has allowed Tenda to post consistent positive operational and financial performance.

In 2Q16, Tenda launches totaled R\$414.7 million, the highest levels since 4Q10. The launches were comprised of 12 projects/phases, in the states of São

focused on delivering profitability. The consistency of recent results from the new model projects reaffirms management's confidence in the 2016 business plan.

On a consolidated basis, Gafisa and Tenda launched R\$545.0 million in 2Q16, ending the first six months with R\$853.7 million in new projects. The Gafisa segment accounted for 24% of 2Q16 launches while Tenda accounted for the remaining 76%. Second quarter 2016 net pre-sales totaled R\$454.5 million, an increase of 36.4% quarter-over-quarter. In the quarter, sales from launches accounted for 36.4% of total sales, while the sale of inventory units accounted for the remaining 63.6%. The Gafisa segment accounted for 29% of net

2Q16

pre-sales while the Tenda segment represented the remaining 71%.

Consolidated adjusted gross profit totaled R\$138.3 million with a gross margin of 29.2%, which resulted from a partial recovery in the Gafisa segment's operating profitability in the period. In 1H16, adjusted gross profit totaled R\$248.5 million, with a gross margin of 28.3%.

In the current economic environment, the Company's main focus is on greater stability in its cost and expense structure. Selling, general and administrative expenses were R\$82.2 million in 2Q16, stable y-o-y and down 8.3% q-o-q, reflecting the Company's efforts in efficiently answering to the adjustments and movements of the real estate market, so that to allow a structure of costs and expenses aligned to current scenario.

As a result of these factors, Gafisa reported a 2Q16 consolidated net loss of R\$38.5 million, compared to a loss of R\$53.2 million recorded in 1Q16 and net income of R\$28.5 million in 2Q15.

At the end of the first six months, the Net Debt/Shareholders' Equity ratio reached 48.5%, a slight increase compared to 1Q16, although in line with the

Company's business plan. Excluding project finance, the Net Debt/Shareholders' Equity ratio was negative at 9.8%.

Consolidated operating cash generation reached R\$38.2 million in the quarter, ending the period with a net cash burn of R\$32.5 million. In 6M16, the net cash burn totaled R\$4.2 million. It is worth noting that in 1H16, the Company's cash generation was impacted by the decreased volume of deliveries in the Gafisa segment, which we expect to improve on in the second semester of the year.

We will maintain this conservative approach in this second half of 2016, seeking to balance the placement of new products on the market, prioritizing those with higher liquidity, in order to reach adequate sales and profitability levels. The Gafisa segment, through its balanced performance, seeks to manage the effects of this period of economic weakness. The Tenda segment is ready to expand the volume of new projects, backed by the resilience of the low-income market, sustained demand, and the positive results from new model projects.

The Company continues to advance guided by capital discipline, its profitability goals, and value creation for shareholders.

The uncertainty in Brazil's economic and political environment negatively impacted demand in the mid-high income segment and continued to hurt the Gafisa segment's operational performance. Despite a greater share of projects launched before 2015 in the 2Q16 gross sales mix (68.7% of gross sales), the high volume of dissolutions related to these projects (95.2% of dissolutions in the quarter) ended up concentrating part of the net volume of sales from inventory of more recent projects. Thus, revenues in the quarter were impacted again for the following items: (i) lower volume of net sales in the period; and (ii) higher concentration of net sales in projects with slower evolution of work progress.

The Gafisa segment ended 2Q16 with a gross margin of 12.3% compared to 25.9% in 2Q15 and 2.0% in the past quarter, reflecting a modest rebound from 1Q16. 2Q16 was still impacted by dissolutions related to commercial projects (R\$28.4 million – 21.4% of total PSV dissolutions) and due to the effects of pricing pressure related to the resale of cancelled units. Adjusted Gross Margin reached 30.7% in the quarter and 26.4% in the first half of the year.

In 2Q16 the Gafisa segment maintained a level of SG&A expenses more in line with the current level of the business cycle and market demand, posting a y-o-y reduction of 21.2% and ending 1H16 down 10.6% from 1H15.

EARNINGS**RELEASE****2Q16****Net Income**

Net loss for the period was R\$47.1 million compared to a loss of R\$58.0 million in 1Q16 and a profit of R\$8.5 million in 2Q15. Excluding the net loss from Alphaville equity income, which totaled R\$12.0 million in the quarter, the Gafisa segment reported a 2Q16 net loss of R\$35.1 million, compared to a net loss of R\$68.9 million in 1Q16 and net profit of R\$3.3 million in 2Q15. In 1H16, the Gafisa segment posted a net loss of R\$104.0 million.

As previously stated, this was due to the following items: (i) volume and mix of net sales in the period, and (ii) the effect of the negative contribution of AUSA equity income, due to the lower operating volume (launches and sales), reflecting on the quarter's revenue level and also to AUSA's net financial result, impacted by the higher cost of debt, compared to the previous year. In 1H16, net loss including Alphaville reached R\$105.1 million.

During 2Q16, the Tenda segment continued to scale its operations, supported by positive demand levels, which stimulated sales and launches.

Adjusted gross margin went down to 28.0% in the second quarter, compared to 31.7% in the 1Q16 and 30.1% in the previous year, as a result of the completion of the receivables portfolio revision, started in 4Q15, which resulted in additional provisioning of R\$14.6 million in 2Q16. In April, as a result of major credit constraints, Tenda chose to be more flexible in its discount policy as an initiative to recover sales volume. This initiative was a one-off situation that normalized in subsequent months.

Selling, general and administrative expenses ended the 1H16 at R\$79.7 million, 18.9% higher than 1H15, but in line with the expansion of Tenda's operations; launch volume increased by 37.5% in 6M16, compared to the same period last year.

Adjusted EBITDA totaled R\$21.9 million, with adjusted EBITDA margin of 8.4% in 2Q16. Adjusted EBITDA increased from R\$15.2 million in 2Q15 and decreased from R\$22.8 million in 1Q16.

EARNINGS**RELEASE****2Q16****Net Income**

The Tenda segment's 2Q16 net income was R\$8.6 million, up from net income of R\$4.8 million recorded in 1Q16 and down from net income of R\$20.0 million in 2Q15. In 6M16, net income was R\$13.4 million.

The 2Q16 results are attributable to: (i) higher volume of revenues, mitigating the effect of the lower gross margin; and (ii) a lower impact from Other Operating Revenues/Expenses.

UPDATE ON THE SEPARATION PROCESS OF THE GAFISA AND TENDA UNITS

In 2016, the Company has continued working on the potential separation of the Gafisa and Tenda business units. Since studies began in February 2014, several activities have been undertaken to enable these two business units to become more independent, both from an operational viewpoint and in terms of capital structure. As previously informed via Material Fact, such procedures are still in progress, but are taking more time to complete than initially planned.

The Company will keep its shareholders and the market informed about the process and any developments pertaining to the issues mentioned above.

GAFISA SEGMENT

Focuses on residential developments within the upper, upper-middle, and middle-income segments, with average unit prices above R\$250,000.

Operating Results | Launches and Pre-Sales

Second quarter launches totaled R\$130.4 million and consisted of 2 projects/phases in São Paulo. The sales speed of these launches reached 21.0%. In 6M16, the Gafisa segment reached R\$210.5 million in launches or 23.9% of consolidated launches.

Second quarter gross pre-sales in the Gafisa segment totaled R\$262.0 million. Dissolutions in 2Q16 were R\$132.5 million, yielding total net pre-sales of R\$129.5 million, up 93.8% q-o-q and down 46.5% y-o-y. Out of total dissolutions in the quarter, 21.5% were related to corporate projects, while residential dissolutions corresponded to the remaining 78.5%. In 1H16, net pre-sales totaled R\$196.4 million.

Despite headwinds in Brazil's political and economic scenario, the segment was capable of achieving an improved performance in 2Q16 relative to the previous quarter. Gross sales totaled R\$262.0 million, 10.5% higher than the previous quarter. The slight improvement in sales performance from 1Q16 signals a marginal improvement in the consumer environment and a potentially improving scenario in 2H16. Another positive trend in 2Q16 was the lower volume of dissolutions compared to 1Q16, which returned to average levels posted in 2015.

As a main operational guideline for the year, the Company continues to focus its efforts on the sale of remaining units. As a result, 77.6% of net sales for the period were related to projects with launches before 2016. The dissolutions, in turn, were concentrated in the units launched prior to 2014, impacting the level of revenue in the period.

Sales over Supply (SoS)

The Gafisa segment's SoS for the last twelve months reached 26.5% compared to 27.7% in the same period last year. In the 2Q16, SoS was 6.3% compared to 3.3% in 1Q16 and 10.5% in 2Q15.

Dissolutions

The weak economic conditions observed in 2016 and the strong recession have directly impacted consumer confidence and, accordingly, the level of gross sales and dissolutions. Due to the challenging operating environment, the level of dissolutions in the Gafisa segment reached R\$132.5 million in 2Q16, down sequentially compared to R\$170.3 million in 1Q16 and up from R\$115.6 million in 2Q15. In 1H16, the total volume of dissolutions was R\$302.8 million.

Over the last three years, the Company has been working on initiatives to strengthen the credit review component of its sale process. In doing so, the Company intends to reduce the level of dissolutions throughout the construction and delivery cycle. Given the current economic uncertainties and corresponding effects on the real estate market, the reduction in dissolutions has been slower than expected.

A comprehensive approach in the credit review process at the time of sale has generated a more efficient process of transferring Gafisa customers to financial institutions, even amid an unfavorable economic environment. As an example of the efficiency achieved in this process, only 9.2% of those who asked for transfers in 1H16 have been rejected by the bank's credit analysis. (i.e. out of the 656 units asking for transfers, only 60 were not accepted)

In recent quarters the Gafisa segment has been able to reduce the level of dissolutions by enabling customers facing financial pressure to swap their units for those that better match their financial position. This exchange process reflects the flexibility of Gafisa's product portfolio. In 1H16, R\$56.2 million of new sales were made to clients who opted for swaps.

In the quarter, 243 Gafisa units were cancelled and 143 units, representing R\$73.4 million, were already resold within the period. In 1H16, 500 units were cancelled, with the resale of 259 units in the same period, or R\$135.3 million.

Inventory

Gafisa is maintaining its focus on inventory reduction initiatives. Projects launched prior to 2016 represented 72.3% of net sales in the period. The market value of the Gafisa segment's inventory decreased by 3.1% q-o-q, and 7.8% y.o.y, totaling R\$1.9 billion. The reduction reflects current market conditions, the effect of sales income in the period, as well as pricing adjustments on some inventory projects. Finished units outside of core markets accounted for R\$51.2 million, or 2.7% of total inventory.

Gross Profit & Margin

2Q16 gross profit for the Gafisa segment was R\$26.1 million, up from R\$3.5 million in 1Q16, and down from R\$90.3 million in the prior year period, due to a lower top line result. Gross margin in the quarter

reached 12.3%, higher q-o-q, but still negatively impacted by the higher volume of dissolutions, mainly those related to corporate projects (R\$28.4 million – 21.4% of total PSV cancelled) and the effect of pricing differences. Excluding financial impacts, adjusted gross margin reached 30.7% in 2Q16 compared to 21.0% in 1Q16 and 36.5% in 2Q15.

RELEASE

2Q16

A higher volume of deliveries over the past three years, due to the delivery of delayed projects in legacy regions, led to an increase in the level of contingencies. The Gafisa segment has since concentrated its operations on the metropolitan regions of São Paulo and Rio de Janeiro. This strategic geographical positioning, combined with improved internal processes, is expected to result in fewer future legal claims and a subsequent decrease in the amount of expenses related to contingencies in the following years.

Adjusted EBITDA

Adjusted EBITDA for the Gafisa segment was R\$12.5 million in 2Q16, an improvement from the negative R\$18.1 million in 1Q16 and lower than the R\$52.4 million recorded in 2Q15. Year-to-date adjusted EBITDA was negative R\$5.6 million compared to the positive result of R\$110.7 million in 6M15. 2Q16 Adjusted EBITDA was impacted year-over-year by the following factors: (i) lower revenue in the quarter due to the volume and sales mix; and (ii) decreased gross margin level in 2Q16. As a reminder, adjusted EBITDA for the Gafisa segment does not include equity income from Alphaville.

The adjusted EBITDA margin reached 5.9% in 2Q16, compared to 15.0% in 2Q15, and a negative margin of 10.6% in 1Q16. The adjusted EBITDA margin for the 6M16 was negative 1.5%.

In 2Q16, sales velocity (sales over supply) was 26.4%, and on a trailing 12-month basis, Tenda's SoS was 54.2%.

Below is a breakdown of Tenda's SoS, which includes both legacy and New Model projects.

Dissolutions

The level of dissolutions in the Tenda segment totaled R\$57.9 million in 2Q16, an increase of 7.8% compared to 2Q15 and 25.3% compared to 1Q16, in line with the increasing volume of gross sales in this quarter.

Due to its transfer policy, which occurs immediately after the sale, and the reduction of the legacy portfolio, the Tenda segment continues to support a lower volume of dissolutions. The percentage of dissolutions over gross sales reached 15.1%, despite the 58.5% of the legacy projects in this quarter's total volume of dissolutions.

Revenues

Tenda's 2Q16 net revenues totaled R\$260.7 million, an increase of 7.2% y-o-y, reflecting an increased volume of net sales in the period. As shown in the table below, revenues from new projects represented the majority of total revenues in 2Q16. Tenda's net revenues totaled R\$495.3 million in 6M16, an increase of 17.2% y-o-y, due to the increased level of operations in the period.

Gross Profit and Margin

2Q16 gross profit totaled R\$67.4 million, in line with R\$68.3 million in 2Q15, and R\$68.7 million in the 1Q16. Gross margin for the quarter reached 25.9%, compared to 28.1% in 2Q15 and 29.3% in 1Q16. The reduction in gross margin is a result of the completion of the receivables portfolio review, started in 4Q15, resulting in additional provisioning of R\$14.6 million in the 2Q16. In April, as a result of major credit constraints, Tenda chose to be more flexible in its discount policy as an initiative to recover sales volume. This initiative was a one-off situation that normalized in subsequent months.

It is worth mentioning that the adjusted gross margin remained in the level between 28 and 30%, as it has been since 2Q14, as a result of the consolidation of New Model projects, improved performance and

profitability and decreased contribution from legacy projects in the breakdown of Tenda's revenues. 2Q16 adjusted gross margin was 28.0%, lower than the 30.1% seen in 2015 and the 31.7% in 1Q16. In 6M16, Tenda's adjusted gross margin reached 29.7%.

The table below shows Tenda's gross margin breakdown in 2Q16.

EARNINGS**RELEASE****2Q16****Selling, General and Administrative Expenses (SG&A)**

During 2Q16, selling, general and administrative expenses totaled R\$42.4 million, an increase of 8.1% compared to R\$39.3 million in 2Q15 and 13.8% compared to R\$37.3 million in 1Q16. In 1H16, SG&A increased by 18.9%, totaling R\$79.7 million, as a result of a higher volume of Tenda segment operations.

Selling expenses reached R\$21.3 million in 2Q16, an increase of 16.4% from 1Q16 and 20.4% from 2Q15, due to a higher launch volume and increased gross sales in the Tenda segment. It is worth noting that despite the 16.4% increase in selling expenses, gross sales volume outpaced the SG&A expense, increasing 22.4% in the quarter. In 6M16, selling expenses increased 28.9%, totaling R\$39.5 million.

In 2Q16, general and administrative expenses decreased 2.0% compared to 2Q15 and increased 11.3% in the sequential comparison. The difference is a result of the partial reversal of expenses related to the provision for profit sharing recorded in 1Q16, which had a net effect of R\$2.0 million between the quarters. Year-to-date, general and administrative expenses totaled R\$40.2 million, 10.5% above the R\$36.4 million recorded in 2015 and in line with the level of operations of the Tenda segment.

Another step taken by the Tenda segment to improve its operational and financial cycle since 2013 is the reduction in the cost structure to match the Company's new business model and achieve better profitability.
