## NOTIFICATION ON RELATED PARTY TRANSACTIONS

Any participation by the counterparty, its partners or managers in the issuer's decision-making process or in the negotiation of the transaction as representatives of the issuer

The Alliance Agreement, which provides for the execution of TAEs, was deliberated at a meeting of the Board of Directors of Braskem S.A., whose members include one director and one alternate director on the board of the direct parent company of Construtora Norberto Odebrecht/the counterparty.

However, no manager of CNO or its parent company participated in negotiations of the transaction as a representative of the issuer.

Detailed justification of the reasons why the management of the issuer believes the transaction was carried out on an arm's length basis or involves adequate compensatory payment

The commercial conditions established in said TAE were based on industry standards, considering the volumes contracted and technical conditions. Braskem conducted a comparative analysis of its routine agreements, maintenance shutdown agreements and market proposals, in particular, an analysis of labor costs, charges, contractual management fees and profit, and the CNO proposal was found technically and commercially competitive. Furthermore, the execution of the Services requires compliance with rigorous cost and deadline targets, as well as high quality and productivity technical standards, with strict compliance with environmental, health and safety standards, and CNO fulfilled all these requirements. CNO holds vast experience in executing the Services under other previous alliance agreements and its performance reviews have always been positive.

The decision-making process involved an analysis and negotiation of the proposal prepared by CNO by the respective Executive Officers of Braskem.
