Item 2.05. Costs Associated with Exit or Disposal Activities.

On March 29, 2005, La Jolla Pharmaceutical Company issued a press release announcing that it is implementing a restructuring plan to reduce its costs. The restructuring plan, which will be initiated immediately but not completed until the second quarter of 2005, includes a workforce reduction of approximately 60 staff members, leaving a post-restructuring workforce of approximately 95 staff members. Under the plan, the Company expects to continue its ongoing clinical benefit trial of Riquent without any significant additional patient enrollment or site expansion and continue its small molecule inflammation program. The Company also plans to continue its activities that would allow a filing of a Marketing Authorization Application in Europe. The termination benefits, primarily severance costs, are expected to be approximately \$1.5 million, of which approximately \$1.3 million will be recorded in the first quarter and the remainder in the second quarter.

This action follows a recent announcement by the Company that, based on the outcome of a meeting with the United States Food and Drug Administration (FDA), Riquent is unlikely to receive an accelerated approval under the FDA's Subpart H regulation. A copy of the press release is attached hereto as Exhibit 99.1 and is incorporated herein by reference.
