<u>Top of the Form</u> Item 8.01 Other Events.

On January 28, 2009, FBL Financial Group announced to its employees that in order to control expenses during these turbulent economic times, it has implemented a companywide workforce reduction of 76 employees. The majority of the affected employees are based in FBL's West Des Moines home office. FBL has taken other actions to reduce expenses in recent months, including eliminating open positions and streamlining operations with the implementation of automated workflow systems and other process improvements. As a result of these actions, FBL expects to achieve annual cost savings of approximately \$7 million (pre-tax). In addition, salaries for executives have been frozen for 2009. FBL expects to record a pre-tax special charge of \$1.2 million in the first quarter of 2009 related to this workforce reduction.

Certain statements made by FBL in this filing are considered forward-looking statements within the meaning of the Private Securities Litigation Reform Act. There are a number of risks and uncertainties that could cause actual results to differ materially from those expressed or implied. Factors that could cause actual results to differ materially are discussed in FBL's filings with the Securities and Exchange Commission and include the current difficult financial markets, the economy, liquidity and access to capital, investment valuations, interest rate changes, competitive factors, the ability to attract and retain sales agents and a decrease in ratings. These forward-looking statements are based on assumptions which FBL Financial Group believes to be reasonable. No assurance can be given that the assumptions will prove to be correct.
