Item 2.02 Results of Operations and Financial Condition.

On October 9, 2012, Ferro Corporation (the "Company") issued a press release (the "Press Release") announcing, among other things, that it expects to incur asset impairment charges and to apply a valuation allowance against a portion of its net deferred tax assets, which will result in a charge, in the third quarter of 2012. A copy of the Press Release is attached hereto as Exhibit 99.1 and is incorporated in this Item 2.02 by reference.

Item 2.06 Material Impairments.

In connection with the preparation of the financial statements of the Company for the quarter ended September 30, 2012, and subsequent to consultation with the Company's Board of Directors on October 3, 2012, management of the Company concluded that long-lived asset, goodwill and other asset impairment charges, all of which are non-cash, ranging from \$175 million to \$200 million will be required in the third quarter of 2012, driven mainly by reduced forecasts of future results in the Company's Electronic Materials segment, which includes its solar pastes business. Management has estimated the range of impairment charges based upon its preliminary determinations of fair value of the Electronic Materials segment, which will be finalized during the fourth quarter of 2012.

Item 7.01 Regulation FD Disclosure.

In addition to the information discussed in Items 2.02 and 2.06 above, the Press Release also announced, among other things, (i) revised earnings guidance for 2012, (ii) that the Company is exploring strategic options for its solar pastes business and (iii) that, beginning with the third quarter of 2012, the Company expects to elect a new method of recognizing expense related to defined benefit pension and other postretirement benefits. A copy of the Press Release is attached hereto as Exhibit 99.1 and is incorporated in this Item 7.01 by reference.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits

Exhibit 99.1: Press release dated October 9, 2012
