Executive Compensation Highlights

Our employees are our most valuable asset. Our industry is intensely competitive and constantly evolving. Our executives and many of our highly skilled employees are often sought after by our competitors, both established and new. As such, it is necessary for us to offer our executives highly competitive total compensation, including equity awards, and to use employment agreements to attract, retain and motivate them.

Our compensation philosophy has allowed us to recruit, retain and motivate the best talent in our industry, as evidenced by our performance. Our executive compensation program, designed to be consistent with that philosophy, has three primary components: (1) base salary; (2) annual cash incentives; and (3) equity awards, including stock options and restricted share units, primarily with performance-based vesting criteria. We aim to incentivize our executives to drive corporate financial performance by basing a significant portion of their compensation on achieving financial and individual strategic targets, thereby linking payment to performance.

Highlights of our executive compensation program for 2015 with respect to the named executive officers included in the “Summary Compensation Table” are described below.

Salary

Salary increases for our named executive officers ranged from 4.0% to 5.0% during the 2015 annual review of executive base salaries, reflecting individual performance and the Compensation Committee’s assessment of the competitive market. Please see “Executive Compensation—Compensation Discussion and Analysis—Elements of Our Executive Compensation Program for 2015—Salary” below.

Performance-Based Annual Cash Incentives and Other Bonuses

Corporate Annual Incentive Plan

Actual 2015 performance against goals established by our Compensation Committee during the first quarter of the year for our named executive officers under our Corporate Annual Incentive Plan (i.e., our CAIP) ranged from 81% to 108% of target.

Back to Contents

For each of our named executive officers, 60% of his target opportunity under the CAIP was weighted based on financial measures (specifically, adjusted non-GAAP operating income, non-GAAP diluted earnings per share and/or adjusted non-GAAP free cash flow), and 40% of his target opportunity was based on specific and measurable individual performance measures that the Compensation Committee believes supported the Company's overall strategy and the officer's business objectives for the year.

Had our adjusted 2015 non-GAAP operating income not been 85% or more of the adjusted non-GAAP operating income target for the year as set forth in our 2015 annual operating plan (i.e., our AOP), the Compensation Committee would have reduced or eliminated all bonuses under the CAIP, including those paid to our named executive officers. Our Compensation Committee also established limits on the payments made under the CAIP for "overachievement"—payments in respect of individual performance measures were capped at 120% of the underlying target amount and payments in respect of financial performance measures were capped at 150% to 200% of target, depending on the specific metric. Please see "Executive Compensation—Compensation Discussion and Analysis—Elements of Our Executive Compensation Program for 2015—Corporate Annual Incentive Plan and Other Performance-Based Bonuses for 2015" below.

Also, in recognition of their significant contributions to our transformative acquisition of King Digital Entertainment Limited, \$300,000 was included in the 2015 CAIP award to each of Messrs. Durkin and Tippl. Please see "Executive Compensation—Compensation Discussion and Analysis—Elements of Our Executive Compensation Program for 2015—Corporate Annual Incentive Plan and Other Performance-Based Bonuses—Resulting 2015 Payments under the CAIP" below.

Blizzard Profit Sharing

In accordance with the employment agreement we entered into with him in 2008 in connection with the Vivendi Games Combination (as defined herein), Mr. Morhaime received an award for 2015 under the Morhaime Profit Sharing Plan. Please see "Executive Compensation—Compensation Discussion and Analysis—Elements of Our Executive Compensation Program for 2015—Corporate Annual Incentive Plan and Other Performance-Based Bonuses—Morhaime Profit Sharing Plan" below.

Additional Discretionary Bonuses

In accordance with the employment agreement we entered into with him in 2008 in connection with the Vivendi Games Combination and consistent with past years, Mr. Morhaime received a payment for 2015 under the Blizzard Bonus Plan.

Emphasis on Performance-Based Equity Awards

- In October 2015, we extended the term of employment of Eric Hirshberg, the Chief Executive Officer of Activision Publishing, through March 2018 (or, if we so elect, through March 2019). Mr. Hirshberg, the only named executive officer whose employment agreement was entered into or amended in 2015, received a combination of performance-based vesting restricted share units and stock options. He did not receive any time-based vesting restricted share units. Please see "Executive Compensation—Employment Agreements—Eric Hirshberg" below.

- While our named executive officers do not generally receive annual equity awards, Mr. Morhaime's employment agreement, which was negotiated in connection with the 2008 Vivendi Games Combination, does provide for annual equity awards, consistent with the compensation Mr. Morhaime received at Vivendi Games prior to the consummation

of the Vivendi Games Combination. Please see “Executive Compensation—Employment Agreements—Michael Morhaime” below.

•
No other named executive officer received an equity award during 2015 (although the Summary Compensation Table reflects the portion of a performance-based award made to Mr. Tippl in 2014, the underlying metrics for which were established in 2015).

The following table sets forth certain summarized information with respect to the compensation earned by named executive officers during 2015. **For the complete Summary Compensation Table, including the notes that accompany it, along with compensation for prior years, please see page 49.**

2015 Financial and Operational Highlights

2015 was another successful year for the Company, as we achieved strong results and introduced new franchises with outstanding gameplay, expanded on exciting new business models and continued investing in some of the world's most important entertainment franchises. During 2015:

- we generated GAAP net revenues of \$4.7 billion and non-GAAP net revenues of \$4.6 billion⁽¹⁾;
- our non-GAAP net revenues from digital online channels⁽²⁾ accounted for a record 57% of our total non-GAAP net revenues, growing over 20% year-over-year;
- our 2015 GAAP operating margin was 28% and our non-GAAP operating margin was 32%;
- we delivered GAAP and non-GAAP diluted earnings per share of \$1.19 and \$1.32, respectively;
- we generated GAAP operating cash flow of almost \$1.2 billion; and
- we delivered total shareholder return (i.e., TSR) (through stock price appreciation and dividend payments) of over 93%.

Our financial performance was driven by our operational execution during 2015. During 2015⁽³⁾:

- people played our games for over 14 billion hours, up 16% year-over-year;
- Activision Publishing's *Call of Duty®: Black Ops III* was the #1 top-selling console game globally for the calendar year, and Call of Duty was the #1 franchise in North America for the seventh year in a row;
- Activision Publishing's *Destiny* achieved record digital attach rates with 2015's *The Taken King* expansion, with over 25 million registered users having spent nearly 3 billion hours playing the game;
- Blizzard Entertainment's *World of Warcraft®* remained the #1 subscription-based massively multiplayer online role-playing game (i.e., MMORPG) in the world;

- Blizzard Entertainment's *Legacy of the Void*TM, the standalone third chapter of *StarCraft II*, sold through over one million copies in the first 24 hours of launch and has received multiple "strategy game of the year" awards;
- over nine million people registered to participate in open beta testing of Blizzard Entertainment's *Overwatch*TM, a team-based shooter to be released on PC and consoles in 2016; and
- Blizzard Entertainment's *Hearthstone®: Heroes of Warcraft*TM, a free-to-play digital strategy card game, reached more than 40 million registered players and ended 2015 with record engagement in multiple categories.

This performance was a direct result of the focused and disciplined approach followed by our top leadership prior to and during 2015, including continued investment in our established franchises, like Call of Duty and World of Warcraft, selectively introducing new concepts, like *Destiny*, *Hearthstone* and *Overwatch*, and managing our costs prudently.

(1)
For information on the calculation and reconciliation of GAAP measures to non-GAAP measures, please see Appendix A attached to this proxy statement.

(2)
Net revenues from digital online channels represents revenues from digitally distributed subscriptions, licensing royalties, value-added services, downloadable content, micro-transactions and products.

(3)
According to The NPD Group, GfK Chart-Track and Activision Blizzard internal estimates, as the case may be.

PROXY STATEMENT

GENERAL

Purpose of this Proxy Statement

This proxy statement is furnished in connection with the solicitation by our Board of Directors (our “Board”) of proxies from holders of issued and outstanding shares of the Company’s common stock, par value \$0.000001 per share (“Common Stock”). The proxies being solicited will be used at the annual meeting of our stockholders to be held on Thursday, June 2, 2016, at the Equity Office facilities at 3200 Ocean Park Boulevard, Santa Monica, California 90405, at 9:00 a.m., Pacific Daylight Time, and at any adjournment or postponement of the meeting (the “Annual Meeting”).

Notice of Internet Availability of Proxy Materials

We will be mailing a notice regarding the internet availability of these proxy materials (containing instructions on how to access the proxy materials and vote shares through the internet) to stockholders on or about April 22, 2016.

Other General Information

All financial metrics used in this proxy statement are presented in accordance with generally accepted accounting principles (“GAAP”), unless explicitly identified as non-GAAP. For information on the calculation and reconciliation of GAAP measures to non-GAAP measures, please see Appendix A attached to this proxy statement. Internally, management uses the financial measures identified herein as non-GAAP in assessing our operating results, as well as in planning and forecasting. In particular, the measures facilitate comparison of operating performance between periods and help investors to better understand the operating results of Activision Blizzard by excluding certain items that may not be indicative of the Company’s core business, operating results or future outlook. As such, the performance of our executive officers is generally measured by reference to non-GAAP financial measures. Further, management believes that the presentation of these non-GAAP financial measures provides investors with additional useful information to measure Activision Blizzard’s financial and operating performance. These non-GAAP financial measures are not intended to be considered in isolation from, as a substitute for or as more important than the financial information prepared and presented in accordance with GAAP. In addition, these non-GAAP measures have limitations in that they do not reflect all of the items associated with the Company’s results of operations as determined in accordance with GAAP. In the future, Activision Blizzard may also consider whether other significant non-recurring items should also be excluded in calculating the non-GAAP financial measures used by the Company.

Our non-GAAP financial measures are not based on a comprehensive set of accounting rules or principles, and the terms non-GAAP net revenues, non-GAAP net income, non-GAAP diluted earnings per share and non-GAAP operating margin do not have a standardized meaning. Therefore, other companies may use the same or similarly named measures, but exclude different items, which may not provide investors a comparable view of Activision Blizzard’s performance in relation to other companies.

All references in this proxy statement to “the Company”, “we”, “us”, “our”, and “Activision Blizzard” refer to Activision Blizzard, Inc.

PROCEDURAL MATTERS

Who may vote at the Annual Meeting?

Only stockholders of record at the close of business on April 7, 2016, are entitled to notice of, or to vote at, the Annual Meeting. There were 738,076,590 shares of our Common Stock outstanding and entitled to vote on the record date.

[Back to Contents](#)

A list of the stockholders entitled to vote at the Annual Meeting will be available for examination by any stockholder, for any purpose germane to the Annual Meeting, at the Annual Meeting and during ordinary business hours at our offices at 3100 Ocean Park Boulevard, Santa Monica, California 90405 for the 10 days prior to the Annual Meeting.

How many votes may I cast?

For each share of our Common Stock outstanding and entitled to vote that a stockholder holds on the record date, he or she is entitled to one vote on each matter presented for action at the Annual Meeting.

What if I hold my shares through a broker? What is the difference between holding shares as a “stockholder of record” and as a “beneficial owner”?

If your shares are held through a broker, bank or any other nominee, you hold your shares in “street name”, and you are considered the “beneficial owner” of those shares. This proxy statement and any accompanying materials have been provided to you by your broker, bank or other holder of record. As a beneficial owner, you are entitled to direct the firm that holds your shares how to vote your shares.

If your shares are registered in your name with our stock transfer agent, Continental Stock Transfer & Trust, you are the “stockholder of record”. This proxy statement and any accompanying materials have been provided to you directly by Activision Blizzard.

Can my broker vote my shares without my instruction? What are “broker non-votes”?

If you are a beneficial owner and you do not provide voting instructions to the broker, bank or other nominee that holds your shares in its name, that firm is only allowed to exercise its discretion to vote your shares on “routine” matters, but will not be allowed to vote your shares with respect to any “non-discretionary” items, resulting in a so-called “broker non-vote” with respect to such items. Proposal 3—the ratification of PricewaterhouseCoopers LLP as the Company’s independent registered public accounting firm—is the only matter for consideration at the Annual Meeting considered to be routine. For all matters other than proposal 3, you must submit voting instructions to the firm that holds your shares if you want your vote to count. A broker non-vote will occur if you do not provide instructions to your broker, bank or other nominee with respect to proposals 1 or 2.

How many votes must be present in order for business to be conducted?

In order for business to be conducted at the Annual Meeting, a quorum must be present. A quorum consists of the presence, in person or by proxy, of a majority of the shares of our Common Stock entitled to vote at the Annual Meeting. Both abstentions and broker non-votes will be included for purposes of determining whether a quorum is present at the Annual Meeting.

Stockholders at the close of business on April 7, 2016, can vote at the Annual Meeting in person or via proxy in the manner described herein. Any stockholder who holds shares in street name through a broker, bank or other nominee will receive separate instructions from the firm holding his or her shares describing the procedure for voting those shares.

How do I vote in person at the Annual Meeting?

Stockholders who wish to vote in person at the Annual Meeting must request a ballot at the meeting. Further, any street-name holder who wishes to vote in person at the Annual Meeting will need to obtain a proxy from the broker, bank or other nominee that is the record holder of his or her shares in order to cast a ballot at the meeting.

What does it mean to vote by proxy? Who represents my shares at the Annual Meeting?

A vote via proxy authorizes Robert A. Required Vote and Board Recommendation

In accordance with our Bylaws, a director nominee will be elected only if he or she receives a majority of the votes cast with respect to his or her election in an uncontested election (that is, the number of shares voted “for” that nominee exceeds the number of shares voted “against” that nominee that are present and not voted or that abstain from voting). For more information, see “Procedural Matters—How can I cast my vote with respect to each proposal and how many votes are required to approve each proposal” above and “Corporate Governance Matters—Board of Directors and Committees—Offer of Resignation in Connection with Failure to Receive More ‘For’ than ‘Against’ Votes” below.

Mr. Kotick, our Chief Executive Officer, and Mr. Kelly, the Chairman of our Board, may direct the voting of the shares held by ASAC II LP, an exempted limited partnership established under the laws of the Cayman Islands (“ASAC”), and acting by ASAC II LLC, its general partner. For more information see “Certain Relationships and Related Transactions—Relationships and Transactions—Relationships and Transactions with ASAC—ASAC Stockholders Agreement” below. CORPORATE GOVERNANCE MATTERS

Overview

Our Board has long adhered to governance principles designed to assure its continued vitality and excellence in the execution of its duties. Our Board has responsibility for management oversight and providing strategic guidance to the Company. Our Board believes that it must remain well-informed about the issues, risks and opportunities facing the Company so that our Board members can exercise their fiduciary responsibilities to all of our stockholders. Our Board recognizes the importance of constantly improving our corporate governance practices and is committed to regularly reviewing the specific elements of our corporate governance framework and making changes to them when our Board deems them to be in the best interests of the Company and its stakeholders.

Board of Directors and Committees

Identification of Candidates for Election to our Board

Nominating and Corporate Governance Committee Process

Pursuant to our Corporate Governance Principles and Policies and the Nominating and Corporate Governance Committee's charter, copies of both of which can be viewed on our website at <http://investor.activision.com/corporate-governance.cfm>, the Nominating and Corporate Governance Committee identifies and evaluates potential candidates to serve as members of our Board. The committee may consider candidates suggested by its members, other directors, senior management or stockholders and may, at the Company's expense, retain search firms, consultants and other advisors to identify, screen and/or evaluate candidates. Candidates may be interviewed in person by directors and management.

The Nominating and Corporate Governance Committee will consider nominating persons who are submitted by stockholders, subject to the limitations described immediately below.

Stockholder Recommendation of Director Candidates

Our stockholders may recommend persons who qualify as independent under the NASDAQ Rules to serve as directors. In accordance with our Corporate Governance Principles and Policies, the Nominating and Corporate Governance Committee will review the qualifications of, and make recommendations to our Board regarding, any such shareholder recommendation that is submitted to us in writing and includes the following information:

- the name, address, phone number and email address of the stockholder and evidence of the stockholder's ownership of our Common Stock, including the number of shares beneficially owned by such person and the length of time of such ownership;
- the name of the director candidate, the candidate's address, phone number and email address, the candidate's resume or a list of his or her qualifications to be a director of Activision Blizzard and the candidate's consent to be named a director, if nominated, and to serve as a director, if elected; and
-

a description of any agreements, arrangements, understandings or relationships between the stockholder and the director candidate and any other persons (including those persons' names), pursuant to which the recommendation is made.

In addition, stockholders may submit candidates for election as directors in accordance with our Bylaws, as described under "Director Nominations and Other Stockholder Proposals for 2017 Annual Meeting; Communicating with our Board" below.

Experience, Skills and Other Characteristics of Our Director Candidates

In accordance with our Corporate Governance Principles and Policies, all director nominees, whether or not they are incumbent directors, should have the appropriate experience, skills and other characteristics essential to serving as an effective Board member, assessed in the context of the perceived needs of our Board at the time, including:

Experience and Skills

Accounting/finance	Corporate governance
Entertainment industry background	Legal and regulatory knowledge
Strategic planning	International operations

In accordance with the Nominating and Corporate Governance Committee's charter, the Nominating and Corporate Governance Committee, in its selection of director candidates, considers the following attributes, among others: experience; knowledge; skills; expertise; personal and professional integrity; character; business judgment; time availability in light of other commitments; dedication; and independence. The committee evaluates each director nominee's experience, skills and other characteristics to ensure that they are consistent with the interests of our stockholders and complementary with the existing Board's composition and

Back to Contents

needs. In doing so, it considers whether the nominee has experience or skills in the areas of entertainment, international operations, strategic planning, corporate governance, accounting and finance, law or other areas that are relevant to the Company's activities and our Board's effectiveness. Although the Company's nominating procedures and policies do not prescribe specific standards for diversity, the committee also takes diversity into account, seeking to ensure a representation of diverse perspectives and experience.

Additionally, in accordance with its charter, the Nominating and Corporate Governance Committee annually oversees evaluations of our Board, our Board's committees and individual directors that assess the experience, skills, qualifications, diversity and contributions of each individual director, as well as the performance of each standing committee of our Board and our Board as a whole.

Independence Determinations

In making its determination regarding director independence, our Board reviews and discusses all relevant information regarding each director's relationships, transactions or arrangements, as required by the independence guidelines of the NASDAQ Rules, including current and prior relationships that each director or any of his or her family members has with the Company, our executive management and our independent accounting firm. To assist our Board in making these determinations, each director is required to complete a questionnaire on an annual basis.

Based on the information provided by each director concerning his or her background, employment and affiliations, our Board affirmatively determined that each of Messrs. Corti, Hartong, Meyer, Morgado, Nolan and Wasserman and Ms. Wynn is an independent director within the meaning of the NASDAQ Rules. Our Board also made this affirmative determination with respect to Richard Sarnoff, who resigned from our Board on July 1, 2015. Accordingly, our Board believes there are no such relationships or activities between the Company and any of these directors that require further review by our Board or that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director, as none of these directors has a direct or indirect material relationship with the Company.

Board Leadership Structure

Our Board is led by the chairman of our Board, and that person does not also serve as our chief executive officer. Our Board feels that the division between the two roles is appropriate because our chief executive officer is responsible for the day-to-day management of the Company, while the responsibility of our Board is to oversee the chief executive officer's performance of his or her function. Having different individuals serve as the chairman and the chief executive officer allows the chief executive officer to focus on his or her operational responsibilities, while keeping a measure of independence between the oversight function of our Board and those operating decisions. If our Board were to select our chief executive officer to serve as chairman, the independent directors would, in accordance with our Corporate Governance Principles and Policies, consider the appointment of a lead independent director.

Other Directorates

Pursuant to our Corporate Governance Principles and Policies, our directors must obtain the approval of the Nominating and Corporate Governance Committee before accepting any board membership at another publicly held company, and in no case can any director serve on the boards of more than four other publicly held companies.

Offer of Resignation in Connection with Failure to Receive More "For" than "Against" Votes

Pursuant to our Bylaws, a director nominee will be elected only if he or she receives a majority of the votes cast with respect to his or her election in an uncontested election (that is, the number of shares voted “for” that nominee exceeds the number of shares voted “against” that nominee that are present and not voted or that abstain from voting). If a nominee who currently serves as a director is not re-elected, Delaware law and our Bylaws provide that the director will continue to serve on our Board as a “holdover director” (i.e., until his or her successor has been duly elected and qualified, or until the earlier of his or her death, resignation or removal). Pursuant to our Corporate Governance Principles and Policies, if a director fails to receive the required number of votes for re-election, he or she must offer to resign from our Board.

Our Board or, at our Board’s discretion, the Nominating and Corporate Governance Committee, without, in either case, the participation of the director offering his or her resignation, will consider whether the continued service of any director so offering to resign is appropriate, by considering any factors it deems relevant (e.g., the underlying reasons for the “against” votes, the length of service and qualifications of the director, that director’s contributions to our Company and the skills and characteristics of that director) and, if our Board or the Nominating and Corporate Governance Committee, as the case may be, determines that the director continues to contribute significantly to the Company, his or her membership on our Board may continue.

[Back to Contents](#)

Offer of Resignation Upon Change in Professional Role

Pursuant to our Corporate Governance Principles and Policies, unless the Nominating and Corporate Governance Committee determines otherwise, if an independent director retires, changes employment or otherwise has a significant change in his or her professional role or responsibilities that may reasonably be seen to affect his or her ability to serve, he or she must offer to resign from our Board. Similarly, unless our Board or the Nominating and Corporate Governance Committee determines otherwise, or he or she has an agreement with us to the contrary, if a director who is employed by us retires, resigns or otherwise has a significant change in his or her professional role or responsibilities, he or she must offer his or her resignation from our Board.

Our Board or, at our Board's discretion, the Nominating and Corporate Governance Committee, without, in either case, the participation of the director offering his or her resignation will consider whether the continued service of any director so offering to resign is appropriate in light of that change and, if our Board or the Nominating and Corporate Governance Committee, as the case may be, determines that the director continues to contribute significantly to the Company, his or her membership on our Board may continue.

Board Meetings

In accordance with our Corporate Governance Principles and Policies, our Board generally meets at least quarterly, as well as in conjunction with the annual meeting of our stockholders. Our Board met 11 times during 2015, including at least once per quarter and in conjunction with the 2015 annual meeting of our stockholders. Each person who served on our Board during 2015 attended at least 75% of the aggregate of (1) the total number of meetings held by our Board during the period for which he or she was a director and (2) the total number of meetings held by each committee on which he or she served during the period in which he or she so served during the year.

Our Corporate Governance Principles and Policies also require that the independent directors meet in executive session outside of the presence of management at least two times per year. Three such executive sessions took place during 2015.

In accordance with our Corporate Governance Principles and Policies, all directors are expected to attend annual meetings of our stockholders. In 2015, six of the eight persons serving as directors at the time attended the annual meeting.

Annual Board Self-Evaluation

The Nominating and Corporate Governance Committee annually evaluates our Board's overall performance, the overall performance of each of our Board's standing committees and the performance of each individual director.

Director Orientation and Continuing Education

- *Board Orientation.* New directors are provided with a comprehensive director orientation manual upon joining our Board that provides them with important information about the Company, our Board and the general roles and responsibilities of directors of publicly traded companies. Each new director is also invited to attend an "onboarding day", during which he or she meets with our executives and other key members of our senior management.

- *Continuing Education.* We recognize the benefit of continuing education for our directors. In addition to the education routinely provided to our directors by our executives and other key members of our senior management at meetings of our Board and its committees on topics impacting the Company, including emerging risks, industry trends, technological developments, economic forecasts and competitive challenges, we may engage third parties to provide in-boardroom education. To supplement the education we provide, we encourage our directors to attend external programs and provide financial and administrative support to the directors in connection therewith.

Board Committees

Audit Committee

Our Audit Committee's charter, which describes the composition and responsibilities of the committee, may be viewed on our website at <http://investor.activision.com/corporate-governance.cfm>.

With respect to membership on the Audit Committee, the charter currently provides that the committee must have at least three members and that:

- all Audit Committee members must be determined by our Board to be independent directors under the NASDAQ Rules and the rules of the SEC and otherwise satisfy the NASDAQ Rules and the rules of the SEC with respect to audit committee membership;
- no director may serve as a member of the Audit Committee if that director serves on the audit committees of more than two other public companies, unless our Board determines that the simultaneous service would not impair the ability of that director to effectively serve on the Audit Committee;
- all Audit Committee members must understand fundamental financial statements;
- at least one Audit Committee member must be designated by the Board as an "audit committee financial expert" as defined in the applicable rules of the SEC; and
- no Audit Committee member can have participated in the preparation of the financial statements of Activision Blizzard or any of our current subsidiaries at any time during the three years prior to the proposed appointment of that Audit Committee member.

Further, the NASDAQ Rules require that at least one Audit Committee member meets the financial sophistication requirements set forth in those rules.

The current members of the Audit Committee are Messrs. Corti, Hartong and Morgado. Based upon information provided by each director concerning his background, employment and affiliations, our Board has determined that each member of the Audit Committee is an independent director under the NASDAQ Rules and the rules of the SEC and that each otherwise satisfies the NASDAQ requirements for audit committee membership (including that each meets the independence criteria set forth in Exchange Act Rule 10A-3 and is able to read and understand fundamental financial statements). Our Board has also determined that each Audit Committee member is an "audit committee financial expert" as defined in the applicable rules of the SEC and that each is "financially sophisticated" within the meaning of the NASDAQ Rules.

The purpose of the Audit Committee is to oversee the accounting and financial reporting processes of Activision Blizzard and our subsidiaries, the audits of our financial statements and our internal controls over financial reporting. The Audit Committee's responsibilities include:

- selecting, evaluating and overseeing our independent registered public accounting firm, including determining that firm's compensation and evaluating that firm's independence;

- overseeing our annual audit and quarterly reviews;
- overseeing our financial reporting process and internal controls, including:
 - reviewing and discussing with the independent auditors the results of the annual audit of our financial statements, including any comments or recommendations of our independent registered public accounting firm, and, based on that review and discussions and other considerations, recommending to our Board whether our financial statements should be included in our Annual Report on Form 10-K; and
 - discussing with our management the Company’s process for assessing and managing our exposure to risk;
- overseeing policies regarding hiring employees from our independent registered public accounting firm and establishing procedures for the receipt and retention of accounting-related complaints and concerns; and
- overseeing our policies relating to the ethical handling of conflicts of interest, including related party transactions (see “Certain Relationships and Related Transactions—Policies and Procedures—Review, Approval or Ratification of Transactions with Related Persons”).

Our independent registered public accounting firm reports directly to the Audit Committee.

Before we or any of our subsidiaries engage our independent registered public accounting firm to render audit or non-audit services, the Audit Committee must pre-approve the engagement. See “Audit-Related Matters—Pre-Approval Policies and Procedures” below for further detail. The Audit Committee’s charter authorizes it to engage independent counsel or other consultants or advisors, as it deems appropriate.

In accordance with our Corporate Governance Principles and Policies and the Audit Committee’s charter, the Audit Committee must meet at least quarterly. The Audit Committee met six times during 2015, including at least once each quarter.

Compensation Committee

Our Compensation Committee’s charter, which describes the composition and responsibilities of the committee, may be viewed on our website at <http://investor.activision.com/corporate-governance.cfm>.

Membership and Responsibilities

With respect to membership on the Compensation Committee, the charter currently provides that the committee must have at least two members, both of whom must be:

- “non-employee directors” as defined in Rule 16b-3 under the Exchange Act;
- “outside directors” as defined under Section 162(m) (“Section 162(m)”) of the Internal Revenue Code, as amended (the “Internal Revenue Code”); and

- determined by our Board to be independent directors under the NASDAQ Rules, including the requirements with respect to compensation committee composition.

The current members of the Compensation Committee are Messrs. Morgado and Wasserman and Ms. Wynn. Based upon information provided by each director concerning his or her

background, employment and affiliations, our Board has determined that each member of the Compensation Committee is an outside director as defined under Section 162(m), a non-employee director as defined in Rule 16b-3 under the Exchange Act and an independent director under the NASDAQ Rules. Our Board has also determined that none of the members of the Compensation Committee has a relationship to the Company that is material to such director's ability to be independent from management in connection with the duties of a Compensation Committee member.

The Compensation Committee discharges our Board's responsibilities relating to compensation paid to our directors and executive officers and oversight of compensation under our equity incentive plans and other compensation policies, programs, agreements and arrangements. Please see "Executive Compensation—Compensation Discussion and Analysis—Decision-Making Approach to Compensation for Executive Officers—Roles of the Key Participants in the Executive Compensation Decision-Making Process" and "—Compensation Risk Management" below for a description of such responsibilities. The Compensation Committee is also responsible for:

- reviewing and discussing compensation-related disclosure with our management, including in our proxy statement and Annual Report on Form 10-K; and
- overseeing any proposals we submit to our stockholders on matters relating to executive compensation, including advisory votes on compensation and the frequency of such votes and approval of compensatory plans and any amendments to such plans.

As further described in "Executive Compensation—Compensation Discussion and Analysis—Decision-Making Approach to Compensation for Executive Officers—Roles of the Key Participants in the Executive Compensation Decision-Making Process", the Compensation Committee consults with our management in formulating compensation plans, but ultimately the Compensation Committee exercises independent judgment in approving our compensation of executive officers.

In accordance with our Corporate Governance Principles and Policies, the Compensation Committee must meet at least four times annually. The Compensation Committee met eight times during 2015.

Engagement of Compensation Consultants

The Compensation Committee's charter authorizes it to engage independent counsel or other consultants or advisors, including compensation consultants, to advise the Compensation Committee with respect to compensation and benefits for our directors and our executive officers and other employees. Since October 2013, the Compensation Committee has engaged Exequity LLP ("Exequity"). In accordance with its charter and the NASDAQ Rules, in connection with the engagement of any compensation consultant, the committee assesses whether any potential conflicts of interest existed with the compensation consultant, using the following factors: other services, if any, the compensation consultant provided to us; the significance of the fees paid by us as a percentage of the compensation consultant's total revenues; the compensation consultant's policies and procedures designed to prevent conflicts of interest; any business or personal relationships between the compensation consultant professionals engaged to advise our Compensation Committee and the members of our Compensation Committee; ownership of any Company stock by the compensation consultant professionals engaged to advise the Company; and any business or personal relationships between the compensation consultant professionals engaged to advise our Compensation Committee and our executive officers. Based on the evaluation of these factors, including information received from the compensation consultant addressing these factors, the committee concluded that Exequity's service to the committee did not raise any conflicts of interest.

For additional information regarding the Compensation Committee, including its use of consultants, see “Executive Compensation—Compensation Discussion and Analysis” below.

Nominating and Corporate Governance Committee

Our Nominating and Corporate Governance Committee’s charter, which describes the composition and responsibilities of the committee, may be viewed on our website at <http://investor.activision.com/corporate-governance.cfm>.

The charter currently provides that the Nominating and Corporate Governance Committee must consist of at least two directors.

The current members of the Nominating and Corporate Governance Committee are Messrs. Meyer, Morgado and Nolan. Based upon information provided by each director concerning his background, employment and affiliations, our Board has determined that each member of the Nominating and Corporate Governance Committee is an independent director under the NASDAQ Rules.

The Nominating and Corporate Governance Committee’s responsibilities include:

- assisting in identifying and recruiting director nominees;
- periodically evaluating the size of our Board and recommending to our Board any appropriate increase or decrease;
- making recommendations to our Board regarding the size and composition of each standing committee of our Board;
- overseeing the evaluation of our Board and its committees;
- overseeing our corporate governance affairs; and
- determining the appropriate engagement with shareholder groups and proxy advisory firms on our submissions to our stockholders (which, in the case of matters relating to executive compensation, will be done in conjunction with the Compensation Committee).

In accordance with our Corporate Governance Principles and Policies, our Nominating and Corporate Governance Committee is also responsible for evaluating any stockholder proposals submitted to us for inclusion in any proxy statement for, and for consideration at, any meeting of our stockholders (which, in the case of stockholder proposals relating to the compensation of our directors or employees, will be done in conjunction with the Compensation Committee).

The Nominating and Corporate Governance Committee’s charter authorizes it to engage independent counsel or other consultants or advisors as it deems appropriate, including a search firm to assist in the identification of director candidates.

In accordance with our Corporate Governance Principles and Policies and the Nominating and Corporate Governance Committee’s charter, the Nominating and Corporate Governance Committee must meet at least twice annually. The Nominating and Corporate Governance Committee met six times during 2015.

Our Board's Role in Risk Oversight

It is the responsibility of our senior management to develop and implement the Company's financial, operating and strategic plans, and identify, evaluate, manage and mitigate the risks inherent in those plans. It is our Board's responsibility to understand and oversee those plans, the associated risks and the steps that senior management is taking to manage and mitigate those risks. Our Board and its standing committees exercise this risk oversight function in a variety of ways, including:

Compensation Risk Management

The Compensation Committee, together with legal counsel and members of our human resources team, reviews the Company's incentive compensation plans annually to determine if they encourage employees to take inappropriate risks that are reasonably likely to have a material adverse effect on the Company. During 2015, and again in 2016, this review consisted of an analysis of each of our incentive compensation programs for our executives and other employees, including eligibility, performance measures, payment targets and maximum payments, payment timing and governance (including the applicable approval process).

The incentive compensation plans in which our employees are eligible to participate are designed to encourage achievement of high levels of performance against challenging targets that are tied to achievement of the overall corporate strategy, while mitigating potential risks. The following factors help mitigate risk:

- performance measures are designed to focus executive performance on long-term stockholder value creation and do not encourage taking short-term risks at the expense of long-term results, balancing between financial, operational and qualitative targets and short-and long-term time horizons for achievement;

Back to Contents

- although bonuses to our executives and our corporate employees under our Corporate Annual Incentive Plan (the “CAIP”) are based on the achievement of annual target goals: (1) they represent just one element of our employees’ total compensation; (2) the Compensation Committee approves the financial objectives and individual goals used to measure our executive officers’ performance; (3) payments in respect of financial performance measures are capped at 150% to 200% of target, depending on the specific metric, and payments in respect of individual performance measures are capped at 120% of target; and (4) the Compensation Committee has discretion under the plan to reduce or eliminate payments based on individual performance;

- although bonuses to our sales employees are based on the achievement of targets relating to the sales of our games: (1) they represent just one element of our employees’ total compensation; (2) payments in respect of financial performance measures are capped at 125% to 200% of target, depending on the specific metric, and payments in respect of individual performance measures are capped at 120% of target; and (3) the Company has discretion under each plan to reduce or eliminate payments;

- although bonuses to employees of our development studios are based on the achievement of targets relating to performance of the games being developed: (1) they represent just one element of our employees’ total compensation; (2) aggregate payments in respect of each title are subject to certain caps; and (3) the Company has discretion under each plan to reduce or eliminate payments;

- equity awards, which represent a meaningful portion of the compensation paid to our executives, are subject to a multi-year vesting schedule, and any vesting in respect of underlying performance measures is capped at 100%, 125% or 200% of target;

- our stockholder-approved incentive plan limits the size and/or value of the short- and long-term incentive awards any individual may receive for any given fiscal year;

- our Compensation Committee annually reviews and approves the equity award guidelines for all eligible employees of the Company; and

- incentive awards generally require at least two levels of approval (including, in the case of any award to one of our executive officers, Compensation Committee approval and, for any executive other than the chief executive officer, the CEO’s approval) and all equity-based awards to any employee require Compensation Committee approval in addition to any management-level approval.

We also have a number of governance policies in place that may also mitigate compensation-related risk, including:

- our “clawback policy”, pursuant to which performance-based compensation may be recovered in the event of an earnings restatement if the amounts paid were in excess of what would have been paid had the restated numbers been used to determine payments;

-

provisions in our equity award agreements pursuant to which, should an executive officer breach his or her employment agreement with the Company, including his or her post-termination obligations, realized gain in respect of his or her awards may be recovered;

- stock ownership guidelines for our executive officers, which require each executive to obtain and maintain equity ownership with a value equal to a specified multiple of his or her base salary (which guidelines are expected to be satisfied within five years of the policy's 2012 adoption or, if later, the executive officer's election);

- our insider trading policies, which prohibit "shorting" our securities, engaging in "puts", "calls" or other hedging transactions involving our securities or using margin accounts with our securities; and

- our Code of Conduct, compliance with which must be certified by every employee on an annual basis.

Political Activities

Pursuant to our Code of Conduct, Company resources may not be used for employees' personal political activities, and lobbying activities are permitted only in compliance with applicable law and by individuals designated to represent the Company in such capacity. Trade associations of which the Company is a member may take a stance on legislative matters or engage in lobbying on specific issues.

Code of Conduct

We have a code of ethics, our Code of Conduct, which applies to all of our directors and officers, including our chairman, chief executive officer, chief financial officer and chief accounting officer. We also have a chief compliance officer, who administers our ethics and compliance program. You can access a copy of our Code of Conduct on our website at <http://investor.activision.com/corporate-governance.cfm>. Furthermore, we will post any amendments to, or waivers of, the Code of Conduct that apply to our chairman, chief executive officer, chief financial officer or chief accounting officer, and any other related information, on that website.

Three-Year Financial Performance Metrics

Our Compensation Committee believes that a significant portion of our executive compensation should be tied to performance. We have used measures we believe are robust indicators of our overall performance, including profitability and cash flow. The tables below demonstrate our performance over the past three years.

ACTIVISION BLIZZARD, INC. - 2016 Proxy Statement 32

[Back to Contents](#)

Aligning Pay with Performance

A portion of the potential annual compensation of each of our executive officers is the payment, if any, he may receive under the CAIP. That compensation, in turn, is contingent upon the executive achieving the financial and individual strategic targets set for him at the beginning of the relevant year. The following tables illustrate the relationship between the Company's 2015 performance, as measured by three of our key financial metrics, and the 2015 CAIP payments awarded to our executive officers, as compared to the range of potential payments:

The graphic regarding actual payout ranges under the CAIP for 2015 also highlights the fact that, while the financial targets underlying the payment to each named executive officer were met or exceeded in each case, not every executive officer achieved all of his individual targets. Please see “—Elements of Our Executive Compensation Program for 2015—Corporate Annual Incentive Plan and Other Performance-Based Bonuses—2015 Incentive Opportunities under the CAIP” below for more information.

Our Compensation Program Best Practices

We continue to implement and maintain best practices in our executive compensation programs and policies. These practices include:

- **Performance-Based Vesting of Equity Awards**—We generally include performance-based vesting conditions for a significant portion of the equity awards made to our senior officers;
- **Multi-Year Vesting of Equity Awards**—We make equity awards to our executive officers that vest over multiple years, which encourages a focus on long-term stockholder value creation;
- **No Guaranteed Incentive Bonuses**—The Compensation Committee exercises discretion in determining final award payments under the CAIP, and no bonuses are paid if a minimum financial objective is not achieved;
- **Balanced Objectives Underlying Incentive Bonus**—The CAIP opportunities for our executive officers include both financial and specific and measurable strategic objectives;
- **Two-Tier Approval for Incentive Awards**—We generally require at least two levels of approval for incentive awards (i.e., management and our Compensation Committee);
- **Stock Ownership Guidelines**—We have meaningful stock ownership guidelines for our executive officers; please see “—Stock Ownership Guidelines”;
- **Formal Risk Management Programs**—We maintain strong internal controls, governance and review structures, as well as formal risk-management programs;

- **No Hedging of Company Stock**—We prohibit our employees from directly or indirectly “shorting” our securities, engaging in “put” or “call” or other “hedging” transactions involving our stock or establishing or using a margin account with a broker-dealer to trade our securities;
- **Clawback Policy on Variable Pay**—In the event of an earnings restatement, we may “claw back” performance-based compensation (including both annual and long-term incentive awards) paid to executives;
- **No Stock Option Repricing**—The Activision Blizzard, Inc. 2014 Incentive Plan (the “2014 Plan”) prohibits the repricing of “underwater” equity awards;

[Back to Contents](#)

- **Independent Consultant Reporting Directly to Compensation Committee**—The Compensation Committee engages the services of an independent executive compensation consultant that has no other relationship with the Company or its management and about whom additional information can be found, along with information regarding the Compensation Committee’s engagement of advisors, generally, under “Corporate Governance Matters—Board of Directors and Committees—Board Committees—Compensation Committee—Engagement of Compensation Consultants” above; and

- **Peer Group Review**—The Compensation Committee monitors our peer group to ensure it continues to reflect an appropriate mix of the industry segments in which we compete, or plan to compete, for key talent; please see “—Decision-Making Approach to Compensation for Executive Officers—Compensation Surveys and Peer Company Data Referenced” below for more information about our executive peer group.

Actions in Response to Our Recent Shareholder Advisory Votes on Executive Compensation

Approximately 65% of the votes cast at the 2015 annual meeting of our stockholders were voted to approve our advisory, non-binding “say-on-pay” proposal. Considering these results, and after engaging with key stakeholders, the Compensation Committee performed a thorough review of our compensation practices. Although the Compensation Committee concluded that our general compensation philosophy remains appropriate, the Compensation Committee did identify specific areas for adjustment based on stockholder feedback, the most significant of which are described below. The Compensation Committee also reemphasized our core philosophy of tying pay to performance, so that the compensation our officers ultimately realize is largely contingent upon achieving the goals we establish for them.

As noted, in response to past “say-on-pay” results, members of our management conducted a stockholder outreach effort aimed at soliciting feedback from a number of our largest stockholders. A summary of the feedback received was presented to the Compensation Committee, and the items raised in that feedback have been discussed regularly by the Compensation Committee.

While our use of multi-year employment agreements with our executive officers generally prevents us from making immediate changes to our executive compensation program, the Compensation Committee has incorporated the stockholder feedback into its decision-making process. Since the 2014 annual meeting of our stockholders:

- no time-based vesting restricted share units have been awarded to any named executive officer (with the exception of Mr. Morhaime, as his employment agreement, which was last amended in 2010, provides that we will grant him a specified number of time-based restricted share units each year); and

- no time- or performance-based equity awards with the right to dividend equivalents have been awarded to any named executive officer.

The Compensation Committee takes the feedback received from stockholders seriously and will continue to incorporate such feedback into its decision-making process.

Highly Competitive Business Environment and Associated Talent Requirements

We operate in the interactive entertainment industry, which sits at the convergence of the gaming, entertainment and leisure, technology and consumer packaged goods sectors. Our industry is intensely competitive and constantly

evolving. It features a number of unique characteristics, including:

- a dependence on a relatively small number of titles for a disproportionate level of revenues and profits;
- rising costs of development, partially due to increasingly complex technological requirements;
- an increasing importance on building and growing key franchises with sustained game quality; and
- a global consumer base that expects entertainment content delivered through an increasingly varied range of channels, including digital distribution.

We believe that, in order to succeed in this fast-changing business environment, we require executive talent with very specialized qualifications, including the following:

- significant global experience managing complex brands and franchises;
- in-depth knowledge of sophisticated strategies and operational models in the digital and entertainment segments; and
- aptitude for, and experience in, managing entertainment and technology products and talent in a rapidly changing, high-risk environment.

Finding top executives with these characteristics requires recruitment of executives from a variety of industries, including those that are larger and more mature (e.g., gaming, entertainment and leisure, technology and consumer packaged goods companies).

Compensation Philosophy and Objectives

To respond to these requirements for top executive talent, the Compensation Committee has established the following philosophy and objectives for the compensation of our executive officers:

What We Do

Align Compensation with Stockholder Interests—A substantial portion of the compensation opportunity should be variable, stock-based, and linked to performance metrics that are intended to increase stockholder value, so that executive compensation is aligned with the interests of stockholders.

Focus on Pay for Performance—Annual and long-term incentive awards should be linked to the Company’s financial performance, incentivizing executives to drive corporate performance.

Create Clearly Defined Short- and Long-Term Goals Aligned with Our Strategy—Performance goals, both short- and long-term, should be clearly defined to provide clear alignment between our business strategy, financial results and incentive payments.

Offer Competitive Total Compensation—Compensation should reflect the competitive talent market from which we recruit. “Total direct compensation” (the sum of salary, target bonuses and the annualized value of equity awards) should be targeted to attract, retain and motivate the highest caliber talent, as well as to reward outstanding performance.

Use an Independent Compensation Consultant—Our Compensation Committee should receive advice and analysis regarding executive compensation from a consultant that is independent and performs no other work for the Company.

Strive to Preserve the Tax Deductibility of Compensation—We should generally strive to preserve the tax deductibility of the compensation paid to our executives.

Use Employment Agreements to Attract and Retain Key Executive Talent—Employment agreements should be used to attract and retain executive talent.

Use “Upfront” Equity Awards—Use “upfront” equity awards in connection with an executive’s hire and with any promotion or other change in his role or responsibilities or the extension of his term of employment.

What We Don’t Do

Frequently Replace Our Management Team—Entering into employment agreements with each of our executive officers encourages long-term and invested relationships between them and the Company.

Put Our Executives Before Our Stockholders—Executive compensation that is variably linked to the performance of the Company helps to align the goals and interests of executive officers and stockholders.

Incentivize Excessive Risk Taking—Performance goals linked to our executive compensation do not encourage or incentivize excessive risk taking or risk exposure.

Use Arbitrary Performance Metrics—We do not use arbitrary or unreliable measurements of performance in assessing performance-based executive compensation.

Make Biased Compensation Decisions—Reviewing our executive and director compensation plans with an independent consultant introduces an unbiased and professional perspective on executive compensation.

Why Do We Use Employment Agreements?

We believe that having multi-year employment agreements with our named executive officers is critical in enabling us to attract and retain talent in a highly competitive industry and, as such, we have entered into an employment agreement with each of them. These employment agreements specify base salary, any minimum annual salary increase, annual incentive targets and the terms and conditions of equity awards, and include provisions regarding the consequences of termination of employment and restrictive covenants, including non-competition and non-solicitation provisions. The terms of each of these agreements have been approved by the Compensation Committee, which utilized its judgment to determine the appropriate amount and form of compensation and other terms of employment necessary to recruit, retain and motivate the executive, based in part upon the negotiations with the executive. Please see “—Employment Agreements” below for further information about the agreements with our named executive officers.

Why Do We Use “Upfront” Equity Awards?

Each named executive officer receives “upfront” equity awards in connection with his hire and with any promotion or other change in role or responsibilities or the extension of his term of employment. These equity awards generally vest over the contract term, either upon attainment of specified performance objectives or ratably, providing the executive with a significant equity position up front, which we believe enhances retention. With the exception of Mr. Morhaime, whose employment agreement was last amended in 2010 and provides for annual awards of equity, consistent with the compensation to which he was entitled from Vivendi Games prior to the Vivendi Games Combination, our named executive officers have generally not received annual equity awards. Please see “—Employment Agreements” below for further information about these equity awards. Please see “Elements of Our Executive Compensation Program for 2015-Equity Awards-Use of Employment Agreements and Their Impact on Reported Compensation” and “—Employment Agreements” below for further information about these equity awards.

[Back to Contents](#)

How Do We Determine the Size of Equity Awards?

In order to remain the leader in our industry, we must attract, retain and motivate the highest caliber of talent, as well as reward outstanding performance. Accordingly, in determining the estimated size of equity awards to any given executive, the Compensation Committee considers a number of reference points, including the executive's then-current total direct compensation (i.e., the sum of salary, target bonuses and the annualized value of equity awards), the compensation paid to such executive's peers within the Company and the compensation paid to executives in comparable positions at other companies within our peer group.

Decision-Making Approach to Compensation for Executive Officers

Roles of the Key Participants in the Executive Compensation Decision-Making Process

Decisions regarding compensation for our executive officers are at the sole discretion of our Compensation Committee. To help inform these decisions, the Compensation Committee regularly reviews materials, advice and analysis provided by our management and external compensation consultants in deciding on executive compensation matters, as described in more detail below.

Compensation Committee

- Establishes our executive compensation philosophy.
- Reviews and approves all compensation of our executive officers.
- Has oversight of the Company's long-term strategy for employee compensation.
- Reviews and approves the corporate goals and objectives relevant to our chief executive officer's compensation, evaluates his performance in light of those goals and objectives and determines his compensation based on that evaluation.
- Selects and monitors the Company's peer group.
- Evaluates compensation-related information and recommendations provided by management and outside advisors.
- Annually reviews the compensation payable to our Board.
- Administers our equity incentive plans, including:

- approving equity award guidelines;
- approving all equity awards; and
- monitoring our equity usage and resulting potential dilution.
- Reviews and approves executive officer employment and severance agreements.
- Evaluates broad industry trends and practices.
- Engages, retains and, where appropriate, terminates its independent compensation consultants.

For additional information regarding the Compensation Committee, see “Corporate Governance Matters—Board of Directors and Committees—Board Committees—Compensation Committee” above.

Compensation Committee’s Independent Compensation Consultant

- Reports directly to the Compensation Committee and regularly attends Compensation Committee meetings.
- Consults with the members of the Compensation Committee outside of formal committee meetings and without the participation of management, when requested by the committee.
- At the Compensation Committee’s direction, interacts with our management from time to time in order to obtain information it deems necessary to form its recommendations to the committee.
- Provides the Compensation Committee advice on the appropriateness and market competitiveness of our executive and director compensation programs.
- Presents third-party data and provides advice and expertise on director and executive compensation trends, pay programs and pay levels and other emerging “best practices” relating to such compensation.
- Analyzes materials provided by management to the Compensation Committee to ensure that those materials are consistent with the Company’s stated philosophy with respect to director and executive compensation and reasonable vis-à-vis the Company’s peer group.
- Assists the Compensation Committee with its determination as to who should be included in the Company’s peer group, and reviews current peer group members.

Since October 2013, the Compensation Committee has retained Exequity as its independent compensation consultant.

Executive Officers and Management

- Our management assists the Compensation Committee in formulating the Company's compensation programs and plans, including by, among other things:

- supporting the development of the materials for each Compensation Committee meeting;

- regularly advising the Compensation Committee with respect to our business strategies and operational goals and plans;

- regularly making recommendations to the Compensation Committee on the Company's compensation practices, including with respect to effective types of incentive rewards and the individual performance of our executives; and

- monitoring the Company's peer group and trends in the market.

- Our chief executive officer reviews the performance of the Company's executive officers and provides his recommendations to the Compensation Committee on our officers' compensation.

- No member of our management has a direct role in determining his or her own compensation. Further, decisions pertaining to the compensation of our chief executive officer are reviewed and discussed by the Compensation Committee in executive session, without the presence of the chief executive officer or any other member of our management.

During 2015, the Compensation Committee consulted with our named executive officers, as well as our former Chief Strategy and Talent Officer, Humam Sakhnini, our Chief Legal Officer, Mr. Walther, and our Chief Compliance Officer and Corporate Secretary, Jeffrey Brown.

Factors Influencing Compensation Decisions

In general, the Compensation Committee evaluates a variety of factors when making compensation decisions for our executive officers, including:

- the executive's skill set, experience, historical performance and expected future contributions to the Company;

- the potential effect of an executive's departure if he or she were to leave the Company;

- as a reference for internal pay equity, the level of total compensation for our other senior executives; and

-

to provide a market reference, compensation data from our peer group and published surveys.

Additionally, the terms on which any given executive officer is employed reflect the Compensation Committee's independent judgment as to the amount and form of compensation necessary to recruit, retain and motivate that individual.

Total Direct Compensation Target

The Compensation Committee generally targets total direct compensation for our executive officers at between the 50th and 75th percentiles of executives in comparable positions at companies in our peer group and relevant survey data, believing that doing so best enables us to attract, retain and motivate the highest caliber talent, given the highly competitive market for executive talent in which we compete. This review is done both at the inception of an executive's employment and on an annual basis. Other factors considered by the Compensation Committee include the executive's then-current total direct compensation and performance by the executive.

Compensation Surveys and Peer Company Data Referenced

In reviewing the compensation of our executive officers, the Compensation Committee, with the support of its independent consultant and our management, annually consults third-party surveys prepared by compensation specialists with respect to companies with comparable revenues, market capitalization, industry focus, number of employees and other similar business-related factors in order to discern broader compensation trends in the market. During 2015, the surveys referenced included ones published by Croner and Radford.

In addition, the Compensation Committee utilized compensation data obtained from SEC filings made by companies among our peer group, discussed in more detail below, including compensation elements of the named executive officers of those companies, company-wide equity usage rates and potential dilution from equity awards.

The surveys and peer group data help the Compensation Committee understand the sectors in and with which we compete for talent, including, without limitation, gaming, entertainment and leisure, technology and consumer products.

Benchmarking our executive compensation programs and policies against the unique interactive entertainment industry is challenging given the limited number of direct competitors for which there is publicly-available information regarding their executive compensation programs and policies. Additionally, we frequently compete for executive talent with other industries. Therefore, the Compensation Committee has selected a 17-company peer group from across the four industry segments it believes best represent our business model and potential executive talent pool:

- *Gaming*—Our core business, the video and computer gaming industry is a niche market in which we directly compete for consumer market share and talent;
- *Entertainment and Leisure*—Generally multinational in nature, the entertainment and leisure industry is one with which we compete for talent and increasingly compete for consumer market share through digital content delivery;

Back to Contents

- *Technology*—Generally multinational in nature, the technology industry is one with which we compete for talent; and

- *Consumer Packaged Goods*—Generally multinational in nature, the consumer packaged goods industry is one with which we compete for talent.

Our peer group represents a diversified yet targeted collection of companies that, like us, operate both in the United States and internationally. In general, our peer group consists of companies with similar levels of annual revenues, but it also includes companies whose revenue levels we have surpassed in recent years and companies we strive to surpass in the future. Our 2015 revenues of \$4.7 billion approximated the 35th percentile among these peer group companies. Revenues, in billions, as reported by each such company for its most recently ended fiscal year are shown below:

Our management and Compensation Committee monitor our peer group as our business model and potential talent pool evolve to ensure the companies to which we reference continue to reflect an appropriate mix of the industry segments in which we compete, or may compete, for key talent.

While the peer group provides the Compensation Committee with an important frame of reference, the Compensation Committee, as it deems appropriate, considers the compensation practices of other companies with which we compete directly for executive talent. Furthermore, we evaluate broader industry trends and practices to determine the appropriate elements of compensation and the effective design of each element.

Elements of Our Executive Compensation Program for 2015

An overview of the primary elements of our executive compensation program and their purposes is presented below. Not all of these elements are applicable to all named executive officers. Our compensation philosophy, including our use of equity awards, has allowed us to recruit, retain and motivate the best talent in our industry, as evidenced by our performance. We aim to incentivize our executives to drive corporate financial performance by basing a significant portion of their compensation on achieving financial and individual strategic targets.

Back to Contents

Compensation Element	Purpose	Principal Actions for 2015
Salary	Compensate for day-to-day responsibilities.	NEO salaries increased 4.0% to 5.0% as a result of the annual review process. Financial metrics for NEOs included profitability and adjusted non-GAAP free cash flow measures.
Annual bonus (e.g., Corporate Annual Incentive Plan)*	Drive annual corporate and business unit financial results, as well as individual contributions toward strategic initiatives.	NEOs received CAIP-related payouts ranging between 81% and 108% of target, as a result of financial and individual performance. None of our NEOs, with the exception of Mr. Morhaime, received an award as part of our annual equity award process. As previously noted, our executives generally receive “upfront” awards in connection with the entry into, or extension of, employment agreements. As such, Mr. Hirshberg received “upfront” awards during 2015 in connection with the extension of his employment agreement.
Equity awards (i.e., restricted share units, primarily with performance-based vesting criteria, and stock options)	Create alignment with stockholders, drive long-term stockholder value and promote employee retention.	NEOs participated in generally the same benefits programs we make available to all of our employees and received limited perquisites. No change of control or termination payments were triggered for any NEOs.
Health and welfare benefits; perquisites	Provide modest supplemental benefits to provide compensation and benefits that, in the aggregate, are competitive.	No NEOs other than Mr. Kotick have change of control protection.
Limited change of control and termination of employment payments/benefits	Ensure balanced assessment of, and contribution to, merger and acquisition activity and fair treatment in the event of termination.	NEOs participated in the 401(k) plan we offer to all other employees.
Retirement payments/benefits	Provide modest supplemental retirement benefits to provide compensation and benefits that, in the aggregate, are competitive.	

*

In addition to the compensation elements described above, Mr. Morhaime also participates in the Blizzard Bonus Plan, which provides him with an annual discretionary payment, and a Blizzard Entertainment profit-sharing program under the 2014 Plan (the “Morhaime Profit Sharing Plan”), which provides Mr. Morhaime with a portion of Blizzard Entertainment’s operating profit, and each thereby provides him with a meaningful incentive to continue to drive the profitability of the Blizzard Entertainment operating unit.

Salary

As noted above, each of our named executive officers is party to an employment agreement with us that specifies, among other things, such executive’s initial salary and any contractually guaranteed minimum annual salary increases. Aside from any contractually guaranteed minimum requirements, salary increases are generally only provided to an

executive officer:

- upon his or her hire or entry into a new or revised employment agreement with the Company or one of its subsidiaries; or
- in connection with our annual review of executive base salaries, where increases are determined based on performance during the previous fiscal year, with reference to competitive market data and, for internal pay equity purposes, salaries of our other executives.

As it does each year, in March 2015 and, again, in March 2016, the Compensation Committee reviewed a competitive target compensation assessment for each executive officer using our peer group and survey data to evaluate the competitiveness of our executive compensation program and considered potential base salary increases for such year. For information about our peer group, see “—Decision-Making Approach to Compensation for Executive Officers—Compensation Surveys and Peer Company Data Referenced” above. After taking into consideration a number of factors for each year (e.g., each executive’s performance during the prior year and the target total compensation for each of our senior executives vis-à-vis the market data), the Compensation Committee established annual base salary rates for our named executive officers for the year.

Michael Morhaime	\$ 887,118.4	%	\$ 922,603	4.0%	\$ 959,507	None

(1)

Other than as discussed in footnotes (2) and (3) below, the increases to base salary for 2015 were effective on March 1, 2015, and the increases for 2016 were effective on February 28, 2016.

(2)

Mr. Kotick's annual base salary for any year is determined in March, in connection with our annual review of executive base salaries, but, in accordance with his employment agreement, the increases to that base salary are retroactively effective to January 1st of the year.

(3)

In accordance with his employment agreement, as amended in October 2015, Mr. Hirshberg's annual base salary was increased by 6.2% effective September 4, 2015 and was not eligible for further increase during the 2016 annual review

of executive base salaries.

The Compensation Committee may, at its discretion, further adjust the salary of any of our named executive officers at any time.

Corporate Annual Incentive Plan and Other Performance-Based Bonuses

2015 Incentive Opportunities under the CAIP

To qualify the payments to our executives under the CAIP for 2015 for tax deductibility, while retaining flexibility to make downward adjustments to reflect each executive's actual performance, the awards were structured so that there was a single performance objective that, if met or exceeded, would result in the payment of a bonus to each executive of the maximum allowed under the 2014 Plan, subject to the Compensation Committee's use of negative discretion. That is, if our adjusted 2015 non-GAAP operating income was at least 75% of the adjusted non-GAAP operating income target for the year set forth in the annual operating plan approved by our Board for that year (such plan for any given year, the "AOP"), the bonus to be paid to each executive would be \$10,000,000 less the amount of any other "senior executive plan bonus" within the meaning of the 2014 Plan that was paid or to be paid to that person for 2015, and subject to the Compensation Committee's use of negative discretion to reduce or eliminate that bonus.

In regards to the Compensation Committee's use of that negative discretion, when approving the 2015 CAIP opportunities, it expressed the intent to reduce or eliminate all such bonuses if our adjusted 2015 non-GAAP operating income was not 85% or more of the adjusted non-GAAP operating income target for the year set forth in the 2015 AOP. The Compensation Committee also expressed the intent to reduce the bonus for each executive officer to the amount for which he was eligible in accordance with the formula described below under "—Resulting 2015 Payments under the CAIP", which is based, in part, on his target and maximum opportunity.

Back to Contents

In setting the minimum, target and maximum payout opportunities for each of our named executive officers under the CAIP for 2015, the Compensation Committee considered any requirements set forth in the applicable employment agreements, competitive market data, our desired pay mix and the compensation levels of our other senior executives. If a named executive officer satisfied (but did not exceed) all performance goals, the executive officer was eligible to receive a payment equal to his target payment, although the Compensation Committee retained the discretion to reduce this amount. Based upon the established performance goals, payments under the CAIP for 2015 to our named executive officers could have ranged as follows:

Name	2015 Corporate Annual Performance Goal Payout Opportunity		
	(% of 2015 Salary)		
	Minimum	Target	Maximum ⁽¹⁾
Robert A. Kotick	0%	200%	321%
Dennis Durkin	0%	100%	161%
Thomas Tippl	0%	150%	241%
Eric Hirshberg	0%	100%	163%
Michael Morhaime	0%	27% ⁽²⁾	44%

(1)

The maximum payments (expressed here as a percentage of salary) vary for each executive based on his actual base salary, his target opportunity, and his individual performance measures, including the relative weighting and maximum payments with respect to each, as set forth in the 2015 CAIP. The 2014 Plan caps maximum payments of “senior executive plan bonuses” to each individual executive at \$10,000,000 per year; actual maximum payments under the CAIP (expressed as a percentage of salary) for each measure are shown in the tables below.

(2)

In accordance with his employment agreement, Mr. Morhaime’s target CAIP opportunity is 27% of his salary. In addition to being eligible for a CAIP bonus, Mr. Morhaime is also eligible to participate in the Blizzard Bonus Plan and the Morhaime Profit Sharing Plan, both of which are discussed in more detail below (see respectively “—Other Cash Bonus Programs or Awards for 2015” and “Corporate Annual Incentive Plan and Other Performance-Based Bonuses—Morhaime Profit Sharing Plan”).

Determination of 2015 Performance Goals for the CAIP

Our Compensation Committee established the financial and individual strategic performance goals based on the 2015 AOP.

•

Financial Objectives. For our named executive officers, 60% of their target opportunity under the CAIP for 2015 was weighted on measures of non-GAAP profitability and adjusted non-GAAP free cash flow. The Compensation Committee believes that non-GAAP profitability and adjusted non-GAAP free cash flow are robust indicators of our overall performance, capturing fluctuations in sales as well as operating costs, and, as such, provide incentives to our executives to achieve goals that contribute to increasing stockholder value. Other measures the committee considered but excluded when initially designing the CAIP included revenues, excluded because it does not capture operating costs, and TSR, excluded because awards under our equity incentive plans already incentivize stock appreciation.

•

Individual Performance Measures. Forty percent of the target opportunity for each named executive officer under the CAIP for 2015 was based on specific and measurable individual performance measures that supported our overall

strategy and the officer's business objectives for the year, such as successful product launches, controlling costs and strategic hiring decisions. These objectives, established in March 2015, specified an action or event to be achieved during the year (e.g., title xyz must sell # number of units on or before December 31, 2015). Performance was measured against each pre-established objective on an "all-or-nothing" basis during March 2016.

The Compensation Committee believes that the specific goals chosen required significant profitability, demanded superior performance from our management team and drove accountability for Activision Blizzard and/or applicable business units for each executive.

In addition, and as noted above, the Compensation Committee expressed the intent to reduce or eliminate all bonuses under the CAIP if our adjusted 2015 non-GAAP operating income was not 85% or more of the adjusted non-GAAP operating income target for the year set forth in the 2015 AOP.

Our Compensation Committee also established limits on the payments made under the CAIP for "overachievement". Payments in respect of individual performance measures are capped at 120% of the underlying target amount. The following table illustrates the relationship between the achievement of the financial measures and the resulting payouts to our executive officers:

[Back to Contents](#)**Achievement of Metrics Underlying 2015 Financial Goals for the CAIP**

The 2015 financial performance goals that the Compensation Committee approved for use in connection with the CAIP and other performance-related compensation were based on our 2015 AOP. The number of titles we release fluctuates from year-to-year and, as such, the financial goals underlying our AOP for a year may be lower than the goals—or results—from a prior year. The achievement of the financial performance goals relevant to the bonuses of our named executive officers under the CAIP for 2015 is set forth below:

Non-GAAP Financial Performance Measures ⁽¹⁾	Performance Goals and Actual Results			
	AOP Goal ⁽²⁾	Actual Results	Actual Achievement	Resulting CAIP Achievement
<i>(dollars in millions, except share-based amounts)</i>				
Activision Blizzard Adjusted Operating Income ⁽³⁾	\$ 1,337.0\$	1,480.1	110.7%	110.7%
Activision Blizzard Diluted Earnings Per Share ⁽⁴⁾	\$ 1.15\$	1.34	116.5%	116.5%
Activision Blizzard Adjusted Free Cash Flow ⁽⁵⁾	\$ 685.0\$	1,187.0	173.3%	150.0%
Blizzard Entertainment Adjusted Operating Income ⁽³⁾	\$ 517.0\$	562.3	108.8%	108.8%
Activision Publishing Adjusted Operating Income	\$ 835.0\$	898.9	107.6%	107.6%

(1)

The corporate performance measures used in the CAIP are non-GAAP financial measures. An explanation of how these measures were calculated is provided in the following footnotes. For 2015, financial metrics assume constant foreign exchange rates, which means we convert current period results into U.S. dollars using the average exchange rate from the AOP established at the beginning of the period (i.e., the AOP foreign exchange rates), rather than the actual exchange rate in effect during the relevant period. We estimate that utilizing the AOP foreign exchange rates had \$14 million of impact on our adjusted non-GAAP operating income, \$0.02 of impact on our non-GAAP diluted earnings per share and \$(15) million of impact on our adjusted non-GAAP free cash flow for the year. We also estimate that using utilizing the AOP foreign exchange rates had \$31 million of impact on Activision Publishing's adjusted non-GAAP operating income and \$2 million of impact on Blizzard Entertainment's adjusted non-GAAP operating income for the year. For additional information on the reconciliation of GAAP measures to non-GAAP measures, see Appendix A attached to this proxy statement.

(2)

For purposes of determining CAIP performance, financial goals may, at the discretion of the Compensation Committee, exclude the impact of any extraordinary transaction (i.e., non-recurring corporate transaction or legal expense matter that results in expenses exceeding \$10,000,000 for the year). No such adjustments were made for 2015.

(3)

Adjusted non-GAAP operating income measures exclude, as applicable: the impact of the change in deferred net revenues and related cost of sales with respect to certain of our online-enabled games; expenses related to stock-based payments; expenses related to restructuring; the amortization of intangibles and impairment of intangible assets and goodwill from purchase accounting; fees and other expenses related to acquisitions, including the acquisition of King,

and the debt financings related thereto; and the tax benefits adjustments associated with any of the aforementioned items.

(4)
Activision Blizzard non-GAAP diluted earnings per share is calculated by dividing non-GAAP net income by weighted average diluted shares.

(5)
Activision Blizzard adjusted non-GAAP free cash flow is an internal measure calculated by subtracting year-over-year cash changes related to working capital (excluding certain one-time items and timing of tax payments) and capital expenditures from the Company's non-GAAP net income (excluding the after-tax effect of interest and other income/expense as well as depreciation expense).

Resulting 2015 Payments under the CAIP

Since we exceeded the threshold level of 85% of the adjusted non-GAAP operating income target for the year set forth in the 2015 AOP, each of our named executive officers was eligible to receive a bonus of \$10,000,000 for 2015, subject to the Compensation Committee's use of negative discretion to reduce or eliminate that bonus. In recognition of their significant contributions to our transformative acquisition of King, \$300,000 was included in the 2015 CAIP award to each of Messrs. Durkin and Tippl. The Compensation Committee used this discretion in order to qualify those incremental awards for tax deductibility.

To calculate the amount of the bonus that each named executive officer would receive, the following formula, applied using straight-line interpolation, was used:

We believe that disclosing specific, non-quantitative corporate objectives for the year could affect us adversely by, for example, providing confidential information on business operations and forward-looking strategic plans to our customers and competitors that could result in substantial competitive harm. Therefore, only a brief description and the weighting of each goal for each of our named executive officers for 2015 are shown.

All CAIP payments were based on actual eligible earnings and the achievement of specified Company and individual performance measures and the weighting thereof.

Name	Target Payment	Actual Payment*	Actual Payment*
	(\$ value)	(as % of target)	(\$ value)
Robert A. Kotick	\$ 4,546,070	107%	\$ 4,844,383
Dennis Durkin	\$ 745,566	108%	\$ 805,673
Thomas Tippl	\$ 1,935,577	107%	\$ 2,062,589
Eric Hirshberg	\$ 950,340	102%	\$ 967,636
Michael Morhaime	\$ 247,260	81%	\$ 201,224

In recognition of their significant contributions to our transformative acquisition of King, the award to each of Messrs. Durkin and Tippl included, at the discretion of the Compensation Committee and in addition to the formulaic bonus, a \$300,000 performance-based bonus for 2015, the amount of which is not reflected in this table. In order to qualify the incremental payments for tax deductibility, the Compensation Committee used its discretion to reduce the bonus payable to each under the 2014 Plan by a lesser degree.

Morhaime Profit Sharing Plan

In addition to the CAIP, discussed above, in accordance with his employment agreement, Mr. Morhaime received a payment for 2015 under the Morhaime Profit Sharing Plan. The Morhaime Profit Sharing Plan is commensurate with the Blizzard Profit Sharing Plan, a program that predates the 2008 Vivendi Games Combination and provides

employees of Blizzard Entertainment with the opportunity to share in the earnings generated by Blizzard Entertainment. In order to maximize the deductibility of those payments as performance-based compensation under Section 162(m), rather than participating directly in the Blizzard Profit Sharing Plan, Mr. Morhaime's opportunity to receive profit sharing payments is under the 2014 Plan (and is, therefore, known as the "Morhaime Profit Sharing Plan"). The Compensation Committee made the decision to retain a profit sharing component in Mr. Morhaime's compensation following the Vivendi Games Combination due to Mr. Morhaime's position, as well as our strategic focus on profitability, the prevalent market practice of profit sharing programs in the gaming industry, contractual obligations and our desire to incentivize and reward his contribution to Blizzard Entertainment and Activision Blizzard profits. Under the Morhaime Profit Sharing Plan, Mr. Morhaime is entitled to up to 6% of the "profit sharing pool" established pursuant to the Blizzard Entertainment Profit Sharing Plan. However, the Compensation Committee may exercise negative discretion with respect to his actual annual percentage interest in the pool, subject to a specified minimum percentage. For 2015, Mr. Morhaime received the minimum payment under the Morhaime Profit Sharing Plan to which he was entitled (i.e., \$2,802,414).

Other Cash Bonus Programs or Awards for 2015

Blizzard Bonus Plan

In addition to the CAIP and the Morhaime Profit Sharing Plan, discussed above, in accordance with his employment agreement, Mr. Morhaime received a payment for 2015 under the Blizzard Bonus Plan. Under the Blizzard Bonus Plan, a Blizzard Entertainment program that, like the Morhaime Profit Sharing Plan, predates the 2008 Vivendi Games Combination, Mr. Morhaime is eligible to receive an end-of-year bonus, the target amount of which is 37% of his base salary, the minimum of which is 18.5% of his base salary and the actual amount of which is otherwise based on a subjective determination by the Compensation Committee. For 2015, Mr. Morhaime received the target amount (i.e., \$341,363).

Equity Awards

Philosophy

Our equity incentive program is intended to drive long-term value creation, create alignment with stockholders' interests and encourage retention of key executives. The program consists of restricted share units, primarily with performance-based vesting criteria, and stock options. In awarding equity to executive officers, we generally target delivering a defined value. Specifically, in determining the estimated grant value of "upfront" equity awards to executive officers, we consider a number of reference points, including compensation paid to the executive's peers within the Company and the executive's base salary and target annual bonuses such that annualized total direct compensation generally targets between the 50th and 75th percentiles of executives in comparable positions when compared to our peer companies or applicable survey data. We may also provide supplemental equity awards to our executive officers during the term of their employment agreement, if there are particular circumstances that warrant doing so, including outstanding performance.

We utilize a mix of equity awards:

- restricted share unit awards, the vast majority of which have performance-based vesting criteria designed to incentivize our executives to achieve specific performance objectives that align with our multi-year business strategy; and
- stock options, which directly align an executive's interests to that of our stockholders, as any financial gain is conditioned upon appreciation of our Common Stock and, as such, directly links executive pay with Company performance.

We believe a combination of restricted share units (primarily with performance-based vesting criteria) and stock options appropriately balances the various objectives of the equity incentive program because it promotes long-term value creation critical to driving TSR, directly aligns executive compensation with stockholder interests through share ownership and encourages our key executives to remain engaged with our organization through the vesting date of the awards.

Use of Employment Agreements and Their Impact on Reported Compensation

As discussed above (see "—Overview—Compensation Philosophy and Objectives"), we believe that entering into employment agreements with our executives is important to attracting and retaining top talent. When we make an equity award to an executive officer, it is typically done in connection with the initial entry into an employment agreement, the renewal of that agreement or an amendment to that agreement in connection with a promotion or other assumption of new responsibilities. By providing "upfront" awards, we align interests of our executives with those of our stockholders over the entire term of the executive's employment. Additionally, by making equity awards with target values that are based upon the length of the term of the agreement, rather than a single year, we ensure executive support of our multi-year business strategy. Our practice of using "upfront" awards in lieu of annual awards may result in the equity-based compensation, and, as such, the total compensation, reported for each executive to differ significantly from year to year, depending on whether he entered into an employment agreement (or amendment thereof), and therefore received an equity award, in a given year. We view the value of these "upfront" equity awards on an annualized basis over the life of the employment agreement when evaluating an executive's total compensation.

During 2015, we provided “upfront” equity awards to Mr. Hirshberg in conjunction with the extension of his term of employment. Please see “—Employment Agreements—Eric Hirshberg” below.

Annual and Other Equity Awards

We do not generally make annual equity awards to our executive officers, although Mr. Morhaime’s employment agreement, which was last amended in 2010, provides for annual equity awards, consistent with the compensation to which he was entitled from Vivendi Games prior to the Vivendi Games Combination in 2008. Please see “—Employment Agreements—Michael Morhaime” below. Accordingly, during 2015 we made equity awards to Mr. Morhaime as part of the broader annual grant of equity to our employees.

Use of Performance-Based Equity Awards

The Compensation Committee believes that, in general, equity awards made in connection with a new or amended employment agreement with an executive officer should include an award with performance-based vesting criteria. Consistent with that philosophy, certain restricted share unit awards made to Messrs. Kotick, Durkin, Tippl and Hirshberg during or prior to 2015 have vesting that is contingent on the achievement of specified profitability-focused performance objectives (as well as, in the case of awards to Mr. Kotick, relative total shareholder return). Further, Mr. Hirshberg, the only named executive officer whose employment agreement was entered into, or amended, in 2015, received performance-based vesting restricted share units and stock options and did not receive any time-based vesting restricted share units in connection with the extension of his employment. The Compensation Committee chooses performance objectives that it believes relate to measures of overall Company performance on which our executives have direct impact. For the performance awards to Mr. Kotick, vesting is based on our non-GAAP diluted earnings per share, adjusted non-GAAP free cash flow and relative TSR. For Mr. Durkin, vesting is based on our non-GAAP diluted earnings per share. For Mr. Tippl, vesting is based on our non-GAAP diluted earnings per share, our adjusted non-GAAP free cash flow and Blizzard Entertainment’s adjusted non-GAAP operating income. For Mr. Hirshberg, vesting is based on Activision Publishing’s adjusted non-GAAP operating income. Please see “—Employment Agreements” below for further details about each award.

2015 Vesting and Cancellation of Performance-Based Equity Awards

Based on Company performance during 2015 and, for Mr. Kotick, over a multi-year period including 2015, performance-based equity awards to our named executive officers vested or were cancelled as follows:

- *Mr. Kotick:* 1,206,641 performance shares vested and 223,338 were cancelled, as performance was above the target, but fell below the maximum, as follows:

- 349,736 vested and 119,142 were cancelled based on our 2014 and 2015 non-GAAP diluted earnings per share;

- 233,005 vested and 19,468 were cancelled based on our 2014 and adjusted 2015 non-GAAP free cash flow;

- 108,198 vested and 39,462 were cancelled based on our relative TSR for the period July 1, 2011 through December 31, 2015;

- 131,064 vested and 45,266 were cancelled based on our relative TSR for the period January 1, 2012 through December 31, 2015;

- 75,487 vested based on our relative TSR for the period January 1, 2013 through December 31, 2015; and

- 309,151 vested based on our relative TSR for the period January 1, 2014 through December 31, 2015;

- *Mr. Durkin:* 90,000 restricted share units vested based on our 2015 non-GAAP diluted earnings per share;

- *Mr. Tippel:* 280,729 restricted share units vested and 60,181 were cancelled, as performance was above the target, but fell below the maximum, as follows:

- 120,374 vested and 34,586 were cancelled based on our 2015 non-GAAP diluted earnings per share;

- 92,975 restricted share units vested based on our adjusted 2015 non-GAAP free cash flow; and

- 67,380 restricted share units vested and 25,595 were cancelled based on Blizzard Entertainment's adjusted 2015 non-GAAP operating income; and

- *Mr. Hirshberg:* 60,000 restricted share units vested based on Activision Publishing's adjusted 2015 non-GAAP operating income.

Dividend Equivalents

The performance-based vesting restricted share units awarded to Mr. Hirshberg in 2015 have no right to dividend equivalents, nor do the restricted share units awarded to Mr. Morhaime in 2014 or 2015—and we do not anticipate making time- or performance-based awards with the right to dividend equivalents in the future. Awards made to our named executive officers prior to August 2014 are entitled to dividend equivalents, however, the performance shares awarded to Mr. Kotick in 2012 and the performance-based vesting restricted share units awarded to Mr. Tipll in 2014 only receive dividend equivalents if and to the extent the underlying performance conditions are met and the awards vest.

Other Award Terms

-

Stock options have an exercise price equal to the NASDAQ Official Closing Price of our Common Stock as reported on NASDAQ.com on the effective date of the grant.

-

Equity awards will generally cease to vest upon the termination of the holder's employment, and stock options will generally remain exercisable for thirty days after the termination date. For the impact of the termination of the employment of each named executive officer on his outstanding equity awards, please see "—Potential Payments upon Termination or Change of Control" below.

Incentive Plan Limitations on Equity Awards

Under the 2014 Plan, we cannot grant anyone, including our executive officers, options to purchase more than four million shares of our Common Stock in a single year. We are further currently restricted from granting anyone restricted share unit awards with respect to more than three million shares in a single year or from granting anyone more than six million performance shares in a single year.

Health and Welfare Benefits

Our named executive officers are eligible to participate in our medical, vision and dental insurance programs. With the exception of Mr. Morhaime, our named executive officers are offered the same terms as the broad employee population. Pursuant to his employment agreement, Mr. Morhaime is entitled to health and welfare benefits that are, in the aggregate, on terms and conditions no less favorable than those made available to him prior to the Vivendi Games Combination. As such, we cover the full cost of Mr. Morhaime's health/medical insurance, and the plan in which he participates pays for the full amount of covered medical expenses. Please see the "Summary Compensation Table" below for further details.

Our named executive officers may also receive Company-paid life and disability insurance and/or participate in insurance programs only available to our senior employees. In addition, pursuant to the provisions of his employment agreement referenced in the prior paragraph, if Mr. Morhaime were to receive short-term disability insurance benefits, we would provide him with the difference between the amount he receives under the insurance and his base salary.

Retirement Arrangements

We offer a 401(k) plan to all employees in the United States, including our named executive officers, and we match a certain percentage of each employee's contributions to our 401(k) plan (which, for Mr. Morhaime is, consistent with the benefits to which he was entitled prior to the Vivendi Games Combination, a higher percentage than our other named executive officers). Please see the "Summary Compensation Table" below for further details.

We do not maintain other retirement benefit plans for our employees, including our named executive officers, such as a qualified pension plan or a special non-qualified or supplemental deferred compensation plan. We believe that retirement arrangements are particular to, and should remain the responsibility of, each individual officer. The emphasis on minimal retirement arrangements ensures that a substantial portion of our named executive officers' long-term wealth accumulation depends on the achievement of Activision Blizzard profitability targets and the appreciation of our Common Stock.

Employment and Change-of-Control Arrangements

To attract and retain talented executives, we provide severance benefits under certain conditions, which are negotiated with each executive officer in connection with a new or renewed employment agreement. In addition, Mr. Kotick has been provided certain change-of-control protection. The Compensation Committee believes these arrangements will incentivize the relevant individuals to maintain objectivity in the context of, and contribute to, a potential change-of-control transaction. These benefits for each of our named executive officers are described under “—Potential Payments upon Termination or Change of Control” below.

Perquisites

We provide limited perquisites to our named executive officers, although our named executive officers are eligible to participate in a number of broad-based benefits programs that are available to all of our employees (e.g., they are entitled to relocation assistance). See the “Summary Compensation Table” below for further details.

Stock Ownership Guidelines

In order to align the interests of our management with those of our stockholders, we believe that each of our executive officers should maintain a meaningful ownership stake in the Company. Accordingly, in 2012, the Compensation Committee established stock ownership guidelines for our senior officers. After a competitive assessment conducted with the assistance of its independent consultant, the Compensation Committee adopted guidelines providing that our chief executive officer is expected to beneficially own shares of our Common Stock with a value at least equal to three times his or her then-current annual base salary and that each other executive officer is expected to beneficially own shares of our Common Stock with a value at least equal to his or her then-current annual base salary. Our executive officers are expected to accumulate the required stock within five years (so that anyone who is an executive officer of the Company as of the date on which these guidelines were adopted has five years from the adoption date and anyone who subsequently becomes an executive officer of the Company has five years from the date on which he or she becomes an executive). Further, if an executive officer does not satisfy these guidelines within the five year period, then, until he or she satisfies the guidelines, he or she will be required to hold 50% of the net shares received in connection with an award of unrestricted shares, upon exercise of stock options or upon the vesting of restricted share units awards received, provided such shares received are under equity awards made after the adoption of the ownership guidelines and that such awards are specifically subject to the ownership guidelines.

Impact of Tax and Accounting Considerations

Section 162(m) of the Internal Revenue Code—Limits on Compensation Deductibility

In structuring compensation programs, setting individual compensation levels and awarding bonuses and incentive plan payments, the Compensation Committee considers the potential impact of Section 162(m). Section 162(m) generally prevents a publicly held corporation from taking a tax deduction when compensation paid to a covered employee (generally, the chief executive officer and any of the corporation’s three other highest paid officers other than the chief financial officer) exceeds \$1.0 million in any taxable year unless:

- the compensation is payable solely on account of the attainment of pre-established objective performance goals;
-

a committee of two or more outside directors determines the performance goals;

- our stockholders approve the material terms of the performance goals; and
- the committee certifies that the employee has met the performance goals.

The tax deductibility of compensation paid to other executives is not subject to these limitations.

We generally attempt to preserve the deductibility of elements of our performance-based incentives. However, we believe it is important that we retain the flexibility to structure compensation arrangements necessary to attract, retain and motivate the best executive talent, even though such elements may not be fully deductible under Section 162(m).

Payments under the CAIP and the Morhaime Profit Sharing Plan, each described above, are structured to be performance-based incentives within the meaning of the 2014 Plan and, therefore, deductible up to the \$10 million limit on the payment of such awards to any one person for a single year under the 2014 Plan. For further detail on the CAIP structure, see “—Elements of Our Executive Compensation Program for 2015—Corporate Annual Incentive Plan and Other Performance-Based Bonuses—2015 Incentive Opportunities under the CAIP”, and for further detail on the Morhaime Profit Sharing Plan structure, see “—Elements of Our Executive Compensation Program for 2015—Corporate Annual Incentive Plan and Other Performance-Based Bonuses—Morhaime Profit Sharing Plan” above.

Section 162(m) prevents us from deducting the incremental amount by which the sum of Mr. Morhaime’s base salary and payment under the Blizzard Bonus Plan for 2015 exceeds \$1.0 million. Section 162(m) also prevents us from deducting the amount by which, if any, the base salary for each other covered employee exceeds \$1.0 million. As our chief financial officer, the deduction of Mr. Durkin’s compensation is not subject to Section 162(m).

Section 409A of the Internal Revenue Code—Limits on Deferral of Compensation

To the extent that any compensation paid or committed to any of our named executive officers constitutes a deferral of compensation within the meaning of Section 409A of the Internal Revenue Code, the Compensation Committee intends to cause that compensation to comply with the requirements of Section 409A and to avoid the imposition of penalty taxes and interest upon the person receiving the compensation.

Accounting Considerations

The Compensation Committee also takes accounting considerations, including the impact of Accounting Standards Codification (“ASC”) Topic 718, into account in structuring compensation programs and determining the form and amount of compensation awarded.

Compensation Committee Report

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis included under “Executive Compensation—Compensation Discussion and Analysis” above. Based on that review and discussion, the Compensation Committee recommended to our Board that the Compensation Discussion and Analysis be included in this proxy statement and also be incorporated by reference into our Annual Report on Form 10-K for the period ended December 31, 2015.

[Back to Contents](#)**Summary Compensation Table**

The table below presents information with respect to each of our named executive officers regarding compensation earned during the periods indicated.

As previously discussed, we believe that entering into multi-year employment agreements with our executives is important to attracting and retaining top talent. When we make a long-term equity award to an executive officer, it is typically done in connection with the initial entry into an employment agreement, the renewal of that agreement or an amendment to that agreement in connection with a promotion or other assumption of new responsibilities. The target value of any such equity award is based upon the term of the agreement and such awards have typically been the only equity awards made to our executive officers (other than Mr. Morhaime, who also receives annual awards of equity, consistent with the compensation to which he was entitled from Vivendi Games prior to the 2008 Vivendi Games Combination).

We view the initial target value of these “upfront” equity awards on an annualized basis over the life of the employment agreement when evaluating an executive’s total compensation. Consistent with the way that we view them, the fair value for each tranche of performance-based vesting restricted share units is shown in the Stock Award column in the table below as compensation in the year in which the underlying performance metrics for that tranche are set. However, for time-based vesting restricted share units and stock options, the fair value for the entire award is shown as compensation for the year in which the award was approved. As such, information shown in the Stock Awards and Option Awards columns in the table below will include the entire value of options and time-based vesting awards, as the case may be, made in connection with the entry into, renewal of or amendment of an employment agreement. Ultimately, this may result in the equity-based compensation and, as such, the total compensation shown for each executive differing significantly from year to year, depending on whether he entered into an employment agreement (or amendment thereof), and therefore received an equity award, in any given year. Please see “—Compensation Discussion and Analysis—Elements of Our Executive Compensation Program for 2015—Equity Awards” above for further information about our equity granting practices.

The amount paid to each of Messrs. Durkin and Tippl for 2013 represents a special performance award each of them received in recognition of his significant contributions to the Company in connection with the consummation of the transactions contemplated by the Vivendi Share Purchase Agreement (as defined herein) and its ancillary agreements. The amount paid to Mr. Tippl for 2014 represents two-thirds of a special performance award he received in recognition of his significant contributions to the Company's financial performance for 2012, which had a time-based vesting provision and was subsequently paid in 2014 pursuant to the December 2013 amendment to Mr. Tippl's employment agreement with the Company (see "—Employment Agreements—Thomas Tippl" below). The amounts paid to Mr. Morhaime for 2015, 2014 and consist of bonuses paid to him pursuant to the Blizzard Bonus Plan (see "—Compensation Discussion and Analysis—Element Our Executive Compensation Program for 2015—Other Cash Bonus Programs or Awards for 2015" above).

(2)

The amounts in the Stock Awards column with respect to time-based vesting restricted share units represent the aggregate grant date fair value awarded in the period computed in accordance with ASC Topic 718, as do, beginning in 2014, amounts with respect to performance-based vesting restricted share units.

The amounts paid to each of Messrs. Durkin and Tippl under the CAIP for 2015 also represents an additional performance-based bonus of \$300,000 paid under the 2014 Plan in recognition of his significant contributions in connection with our transformative acquisition of King. This amount represents both a reimbursement for taxes Mr. Morhaime incurred on the compensation referenced in footnote (g) and a reimbursement for taxes Mr. Morhaime incurred on merchandise he received from Blizzard Entertainment, the value of which is not included, as it was provided as part of a broad-based program for employees of Blizzard Entertainment.

(6)

This amount reflects the value of the following two "upfront" awards made to Mr. Tippl in 2014 in connection with the extension of his term of employment pursuant to the Tippl Employment Agreement (as defined herein) (see "—Employment Agreements—Thomas Tippl" below)—time-based vesting restricted share units with a reported grant date fair value of \$5,999,993 for 2014 and performance-based vesting restricted share units tied to the 2014 performance period with a reported grant date fair value of \$4,400,025, assuming a target level of performance under the performance conditions established for the 2014 performance period. This grant date fair value of time-based vesting restricted share units awarded in 2014 was computed in accordance with ASC Topic 718. Based upon this same methodology and assuming achievement of the maximum outcome of the performance conditions (as opposed to target level), the reported grant date fair value for performance-based vesting restricted share units tied to the 2014 performance period would have been \$6,600,037. On March 4, 2015, the metrics for the 2015 performance period were established and a grant date fair value for the 2015 was established for financial reporting purposes in accordance with ASC Topic 718 in the amount of \$5,211,347 (assuming target level of performance under the performance conditions and using the closing market price of our Common Stock on the date the performance metrics were established). Based upon this same methodology and assuming achievement of the maximum outcome of the performance conditions (as opposed to target level), the reported grant date fair value for the 2015 performance period would have been \$7,817,043. On March 3, 2016, the metrics for the 2016 performance period were established and a grant date fair value for that tranche of the award (which will be eligible for inclusion in future Summary Compensation Tables) was established for financial reporting purposes in accordance with ASC Topic 718 in the amount of \$7,163,582 (assuming target

level of performance under the performance conditions and using the closing market price of our Common Stock on the date the performance metrics were established). Based upon this same methodology and assuming achievement of the maximum outcome of the performance conditions (as opposed to target level), the reported grant date fair value for the 2016 performance period would have been \$10,745,420.

While Mr. Hirshberg was an officer of the Company during 2013 and 2014 he was not a named executive officer for either year.

(8)

In 2015, in connection with the extension of his term of employment pursuant to the Hirshberg Employment Agreement (as defined herein) (see “—Employment Agreements—Eric Hirshberg” below), the Company made an “upfront” award to Mr. Hirshberg. For 2015, there is no value associated with the performance-based vesting restricted share units in accordance with ASC Topic 718, as none of the underlying performance conditions were established during the year. On March 3, 2016, the metrics for the 2016 performance period were established and a grant date fair value for that tranche of the award (which will be eligible for inclusion in future Summary Compensation Tables) was established for financial reporting purposes in accordance with ASC Topic 718 in the amount of \$1,827,107 (assuming target level of performance under the performance conditions and using the closing market price of our Common Stock on the date the performance metrics were established). Based upon this same methodology and assuming achievement of the maximum outcome of the performance conditions (as opposed to target level), the reported grant date fair value for the 2016 performance period would have been \$2,283,877.

(1)

Reflects the date on which the Compensation Committee approved the grant of an equity award or, if later in the case of a performance-based award, the date that the Compensation Committee established the performance metric underlying such award or a tranche thereof.

(2)

The grant date fair value of the stock and stock option awards is computed in accordance with ASC Topic 718. Please see footnotes (2) and (3) to the Summary Compensation Table for information about the assumptions and key variables used in the calculation of the grant date fair values. All stock options awarded have an exercise price equal to the fair market value of a share of our Common Stock on the date of grant.

(3)

Each of our named executive officers had an opportunity to earn a CAIP bonus for his 2015 performance under the 2014 Plan. None were entitled to a minimum amount thereunder. The target bonus for each named executive officer was based on his base salary rate in effect at the time the opportunity was approved by our Compensation Committee and assumes 100% performance for the relevant financial and individual strategic goals established under the CAIP. For more information about the CAIP and the opportunities for each of our named executive officers thereunder, including the maximum bonus opportunity for each, please see “—Compensation Discussion and Analysis—Elements of Our Executive Compensation Program for 2015—Corporate Annual Incentive Plan and Other Performance-Based Bonuses—2015 Incentive Opportunities under the CAIP” above.

(4)

On March 4, 2015, the Compensation Committee approved the use of the non-GAAP diluted earnings per share objective set forth in our 2015 AOP for the purpose of a tranche of a performance-based vesting restricted share

unit award to Mr. Durkin under the 2008 Plan approved by the Compensation Committee on March 6, 2012. As a result, a grant date was established in accordance with ASC Topic 718 with respect to 90,000 of those restricted share units. As these restricted share units were previously disclosed in the “Grants of Plan-Based Awards” table included in the Company’s Notice of 2013 Annual Meeting of Stockholders and Proxy Statement, in accordance with the methodology used by the Company in its disclosure of the grant date fair value of performance-vesting awards prior to 2014, these shares are not reflected in the table above. The grant date fair value for this tranche is greater than the amount of \$1,055,700 reported in 2013 by \$1,008,000, due to share price appreciation between March 6, 2012 and March 4, 2015.

(5)

In accordance with ASC Topic 718, these performance-based vesting restricted share units were awarded for financial reporting purposes as of the date on which the Compensation Committee established the metric for the relevant performance period. These restricted share units represent three of the six remaining tranches of an equity award approved by the Compensation Committee on January 15, 2014.

(6)

On February 10, 2014, in connection with the extension of his employment with us through April 2017, the Compensation Committee approved an award to Mr. Tippl of performance-based vesting restricted share units, each representing the conditional right to receive one share of our Common Stock. In accordance with ASC Topic 718, only the portion of the award for which the performance metrics were established during 2015 is reflected in this table. These restricted share units vest on March 31, 2016, subject to Mr. Tippl’s continued employment through such date, as follows: (a) approximately 45% (i.e., a maximum of 154,959) vest if the Compensation Committee determines that the non-GAAP diluted earnings per share objective set forth in our 2015 AOP has been met or exceeded; (b) approximately 27% (i.e., a maximum of 92,975) vest if the Compensation Committee determines that the adjusted non-GAAP free cash flow objective set forth in our 2015 AOP has been met or exceeded; and (c) approximately 27% (i.e., a maximum of 92,975) vest if the Compensation Committee determines that the adjusted non-GAAP operating income objective for Blizzard Entertainment set forth in our 2015 AOP has been met or exceeded. In each case: (i) if actual performance is below 75% of target, no shares subject to the performance criteria will be earned; (ii) if actual performance is 100% of target, 100% of the target shares subject to the operating performance criteria will be earned; (iii) if actual performance is 150% of target or above, all of the shares (i.e., 150% of the target shares) subject to the operating performance criteria will be earned; and (iv) if actual performance falls between two thresholds, the number of shares subject to the operating performance criteria that will be earned will be determined using straight-line interpolation. If dividends are declared on our Common Stock, if and when the performance-based vesting restricted share units vest, Mr. Tippl will receive a cash dividend equivalent payment in an amount equal to the dividend to which he would have been entitled had the restricted share units been issued and outstanding Common Stock as of the record date for such dividend. For more information on the remainder of this award, see “—Employment Agreements—Thomas Tippl” below.

 On March 4, 2015, the Compensation Committee approved the use of the adjusted non-GAAP operating income objective Publishing set forth in our 2015 AOP for the purpose of a tranche of a performance-based vesting restricted share unit to Mr. Hirshberg under the 2008 Plan approved by the Compensation Committee on November 8, 2010. As a result, a grant date was established in accordance with ASC Topic 718 with respect to 60,000 of those restricted share units. As these restricted share units were not disclosed in the “Grants of Plan-Based Awards” table included in the Company’s Notice of 2011 Annual Meeting of Stockholders, in accordance with the methodology used by the Company to in its disclosure of the grant date fair value of performance-based awards prior to 2014, these shares are not reflected in the table above. The grant date fair value for this tranche is greater than the \$712,800 reported in 2011 by \$663,000, due to share price appreciation between November 8, 2010 and March 4, 2015. Additionally, on October 28, 2015, in connection with the extension of his employment with us through March 2018 (or, if we so elect, through March 2019), the Compensation Committee approved an award to Mr. Hirshberg of performance-based vesting restricted share units representing a conditional right to receive a maximum of 221,163 shares of our Common Stock. For more information on this award, see “Executive Compensation—Eric Hirshberg” below. As more fully described in footnotes (2) and (8) to the Summary Compensation Table reflected in this table, as the performance metrics underlying the award were not established during 2015. This award will be included in future Grants of Plan-Based Awards tables when the underlying performance metrics and, as such, the accounting are established.

(8)
 These equity awards were approved during a “trading blackout” as described in our insider trading and pre-clearance procedures. In accordance with our equity awarding procedures, the grant date of the awards was the first trading day after that trading blackout was no longer in effect. Further, awards with performance-based vesting criteria are not awarded, for these purposes, until the performance metrics have been established.

(9)
 These options to purchase our Common Stock were awarded to Mr. Hirshberg pursuant to the Hirshberg Employment Agreement in connection with the extension of his employment with us through March 31, 2018 (or, if we so elect, through March 31, 2019). All of these options vest on March 30, 2018 and the remaining one-third vest on March 30, 2019, subject to Mr. Hirshberg’s continued employment through such date.

(10)

As discussed in footnote (11) below, Mr. Morhaime participates in the Morhaime Profit Sharing Plan. As the amount paid to Mr. Morhaime under the Morhaime Profit Sharing Plan is a “senior executive plan bonus” within the meaning of the 2014 Plan, the sum of all such bonuses, if any, paid to him for any given year under the Morhaime Profit Sharing Plan and the CAIP may not exceed the limit set forth in the 2014 Plan of \$10 million. As such, the maximum bonus Mr. Morhaime was eligible to earn under the CAIP for 2015 was adjusted to reflect the payment he received under the Morhaime Profit Sharing Plan for the year.

(11)

Pursuant to the Morhaime Employment Agreement (as defined herein) (see “—Employment Agreements—Michael Morhaime”) Mr. Morhaime participates in the Morhaime Profit Sharing Plan (see “—Employment Agreements—Michael Morhaime”) beginning on the date hereof. Pursuant therewith, Mr. Morhaime is entitled to share in an annual profit sharing pool, the aggregate amount of which depends upon our operating performance and Entertainment’s earnings for that year. While Mr. Morhaime is entitled to an amount equal to up to 6% of the pool, because the actual amount of the pool cannot be known at the beginning of a year, no target amount is determinable and the target amount shown is a representation of the amount Mr. Morhaime is entitled to receive equal to the amount Mr. Morhaime received under the Morhaime Profit Sharing Plan with respect to 2014. Further, while Mr. Morhaime is entitled to receive an amount equal to a minimum specified percentage of that pool, because there is no certainty there will be a pool, there is no minimum or maximum amount to which he is entitled. For more information about the Morhaime Profit Sharing Plan, see “Discussion and Analysis—Elements of Our Executive Compensation Program for 2015—Corporate Annual Incentive Program—Performance-Based Bonuses—Morhaime Profit Sharing Plan” above.

(12)

This represents restricted share units, each representing the conditional right to receive one share of our Common Stock, that will be awarded to Mr. Morhaime pursuant to the Morhaime Employment Agreement as part of our annual equity award process. One-third of the restricted share units will vest on each of November 12, 2016, 2017 and 2018, subject to Mr. Morhaime’s continued employment through such date.

(13)

These options to purchase our Common Stock were awarded to Mr. Morhaime pursuant to the Morhaime Employment Agreement as part of our annual equity award process. One-third of these stock options will vest on each of November 12, 2016, 2017 and 2018, subject to Mr. Morhaime’s continued employment through such date.

All exercisable stock options are currently vested.

(2)

Calculated using the NASDAQ Official Closing Price of \$38.71 per share of our Common Stock on December 31, 2015, the last trading day of 2015.

(3)

The number of performance shares reflected in the table is the target amount for the remaining performance period; the maximum number of performance shares subject to the award at December 31, 2015 was 1,429,979 and includes 399,477 performance shares from the first and third performance periods that are eligible to vest at the end of the final performance period. These performance shares vest in accordance with the Kotick Employment Agreement. Please see “—Employment Agreements—Robert A. Kotick” below. On March 31, 2016, 34,350 performance shares vested based on performance assessed through December 31, 2015, and the shares remaining unvested were 1,395,629.

(4)

This value is based on the target amount for the remaining performance period: if the highest level of performance is assumed, the fair market value of the unvested performance shares, calculated in the manner described in footnote (2), would be \$55,354,487.

(5)

One-seventh of these restricted share units vest on the first day of each month, with the exception of the final tranche, which vests on April 30, 2016. (6)

One-half of these restricted share units vest on each of March 14, 2016 and 2017, in each case only if the Compensation Committee determines that the non-GAAP diluted earnings per share objective for the Company set forth in our AOP for the prior year has been met or exceeded. The performance metric related to 2015 was satisfied and, on March 14, 2016, 90,000 of these restricted share units vested.

(7)

One-half of these restricted share units vested on March 14, 2016, and one-half will vest on March 14, 2017.

(8)

One-half of these stock options vested on March 14, 2016, and one-half will vest on March 14, 2017.

(9)

As a result of Mr. Tippl's transfer by gift, all of his outstanding equity awards are held in the name of the Thomas and Laura Tippl Family Trust. Mr. Tippl and his wife, Laura Tippl, are co-trustees of the trust and share voting and investment power with respect to those securities.

(10)

The number of performance-based vesting restricted share units reflected in the table is the target amount for all remaining performance periods; the maximum number of restricted share units subject to the award at December 31, 2015 was 681,817. These restricted share units vest in accordance with the Tippl Employment Agreement. Please see "—Employment Agreements—Thomas Tippl" below. The performance metrics related to 2015 were satisfied and, on March 31, 2016, 280,729 of the performance shares vested.

(11)

This value is based on the target amount for the all remaining performance periods: if the highest level of performance is assumed, the market value of the unvested performance shares, calculated in the manner described in footnote (2), would be \$26,393,136.

(12)

One-half of these restricted share units vested on March 31, 2016, and one-half will vest on March 31, 2017.

(13)

[Back to Contents](#)**Option Exercises and Stock Vested for 2015**

The table below sets forth details with respect to the stock options exercised by, and the restricted shares and restricted share units that vested for, or were otherwise transferred for value by, our named executive officers in 2015:

Name	Option Awards		Stock Awards	
	Number of Shares	Value Realized	Number of Shares	Value Realized
	Acquired on Exercise	on Exercise	Acquired on Vesting	on Vesting
	(#)	(\$) ⁽¹⁾	(#)	(\$) ⁽²⁾

Michael Morhaime	—	—	136,666	5,011,507

(1)

As each of these transactions involved a same-day sale, the “Value Realized on Exercise” is computed by multiplying the number of shares exercised by the difference between sale price of the shares and the exercise price of the underlying stock options.

(2)

The “Value Realized on Vesting” is computed by multiplying the number of shares of stock or units by the NASDAQ Official Closing Price of our Common Stock on the vesting date (or if that date is not a trading date, the immediately preceding trading date).

(3)

These awards were held by the Thomas and Laura Tipl Family Trust at the time of vesting.

(4)

Per the terms of Mr. Hirshberg’s award agreement, these options were required to be exercised on December 31, 2015.

Employment Agreements

As previously discussed, we believe that entering into employment agreements with our executives is important to attracting and retaining the executive talent necessary to lead us. The following is a summary of the material terms regarding compensation set forth in the employment agreement we have entered into with each of our named executive officers. Certain provisions regarding payments and benefits upon termination or a change of control, which are described under “—Potential Payments upon Termination or Change of Control” below, are not included in the following summary.

Robert A. Kotick

Term & Title. Robert A. Kotick is party to an employment agreement with us, dated as of March 15, 2012 (the “Kotick Employment Agreement”), pursuant to which he serves as our President and Chief Executive Officer. Mr. Kotick’s term of employment under the Kotick Employment Agreement began on March 15, 2012, and continues through June 30, 2016.

Base Salary. Pursuant to the Kotick Employment Agreement, Mr. Kotick's annual base salary was \$2,000,000 as of July 1, 2011. Beginning in 2013, Mr. Kotick's annual base salary was and will be increased as of January 1st of each year during the term in an amount at least equal to the average percentage increase approved by the Compensation Committee for members of our executive leadership team with respect to that year (excluding any increase guaranteed to any such person by contract or due to such person's promotion or other significant modification in duties). For more information about Mr. Kotick's base salary, see “—Compensation Discussion and Analysis—Elements of Our Executive Compensation Program for 2015—Salary” above.

Annual Bonus. Pursuant to the Kotick Employment Agreement, Mr. Kotick is also entitled to receive an annual bonus under the CAIP, with a target amount of 200% of his base salary. The actual amount of any bonus Mr. Kotick may receive under the CAIP is determined by the Compensation Committee based on Mr. Kotick's achievement of objectives determined by the Compensation Committee at its sole discretion, after consultation with Mr. Kotick, his overall performance and our financial performance. The form of any such bonus is determined by the Compensation Committee at its sole discretion. For more information about performance-based bonuses, see “—Compensation Discussion and Analysis—Elements of Our Executive Compensation Program for 2015—Corporate Annual Incentive Plan and Other Performance-Based Bonuses” above.

Other Bonuses. As an inducement to enter into the Kotick Employment Agreement, Mr. Kotick earned a cash signing bonus payment of \$2,500,000. Further, pursuant to the Kotick Employment Agreement, the Compensation Committee, at its sole discretion, may award Mr. Kotick a performance bonus at any time in any amount and form determined by the Compensation Committee.

Equity Awards. As an inducement to enter into the Kotick Employment Agreement, on March 15, 2012, Mr. Kotick was awarded approximately 2,061,006 restricted share units, the number of which was based on a total grant date value approximately equal to \$25,000,000. As our “gross profit” for 2012 (as determined in

Back to Contents

accordance with the Kotick Employment Agreement) was greater than or equal to \$500,000,000, on March 15, 2013, the restricted share units vested with respect to one-third of the award (representing the twenty month-long vesting tranches between August 1, 2011 and March 1, 2013) and thereafter one-sixtieth of the award vested and will vest, as the case may be, on the first day of each month, with the exception of the final tranche, which will vest on the expiration date of the Kotick Employment Agreement.

As further inducement to enter into the Kotick Employment Agreement, on March 15, 2012, Mr. Kotick received an award of 4,122,012 performance shares, each representing the right to receive one share of our Common Stock, the number of which was based on a total grant date value approximately equal to \$50,000,000 and assumes maximum performance. This number represents the maximum number of shares available under the award, assuming the “stretch” performance goals are attained; if target performance is achieved, only half these performance shares (i.e., 2,061,006 shares) would be eligible to vest. Moreover, to ensure that performance is incentivized throughout the term of the contract, performance shares vested in four equal installments over a five-year period, with each tranche reflecting performance over a two-year period (i.e., 2011-2012, 2012-2013, 2013-2014 and 2014-2015), other than the performance period applicable to those shares measured by reference to TSR for 2011-2012, which was measured from July 1, 2011 through December 31, 2012. The performance shares vested on each of March 31, 2013, 2014, 2015 and 2016 as follows:

- - 70% of the performance shares based upon our operating performance:
 -
 - 65% of those shares by reference to a non-GAAP diluted earnings per share objective for the Company;
 -
 - 35% of those shares by reference to an adjusted non-GAAP free cash flow objective for the Company; and
 -
 - in each case and for each performance period, vesting occurred following the Compensation Committee determination with respect to the level of achievement for the relevant period as follows:
 -
 - if actual performance was below 75% of target, no shares subject to the operating performance criteria were earned;
 -
 - if actual performance was 75% of target, 75% of the target shares subject to the operating performance criteria were earned;
 -
 - if actual performance was 100% of target, 100% of the target shares subject to the operating performance criteria were earned;
 -
 - if actual performance was 125% of target or above, all of the shares (i.e., 200% of the target shares) subject to the operating performance criteria were earned; and
 -
 - if actual performance fell between two thresholds, the number of shares subject to the operating performance criteria that were earned was determined using straight-line interpolation.

- 30% of the performance shares based on our compound annual TSR between the average closing price of our Common Stock during the 30 days immediately preceding the commencement of the applicable performance period and the average closing price of our Common Stock during the 30 days immediately preceding the end of the applicable performance period, as compared to the TSR of the NASDAQ Composite measured over the same 30-day periods in such performance period and calculated in an analogous manner.

—
For each performance period, vesting occurred following the Compensation Committee determination with respect to the level of achievement for the relevant period as follows:

—
if our TSR was 20 percentage points or more below the TSR of the NASDAQ Composite, no shares subject to the TSR performance criteria were earned;

—
if our TSR was 10 percentage points below the TSR of the NASDAQ Composite, 50% of the target shares subject to the TSR performance criteria were earned;

—
if our TSR equaled the TSR of the NASDAQ Composite, 100% of the target shares subject to the TSR performance criteria were earned;

—
if our TSR was 10 percentage points more than the TSR of the NASDAQ Composite, 150% of the target shares subject to the TSR performance criteria were earned;

—
if our TSR was 20 percentage points more than the TSR of the NASDAQ Composite, all (i.e., 200% of the target) of the performance shares subject to the TSR performance criteria were earned; and

—
if actual performance fell between two thresholds, the number of shares subject to the TSR performance criteria that were earned was determined using straight-line interpolation.

In addition, to the extent that not all of the performance shares subject to TSR metrics were earned, those missed shares could have vested at the end of subsequent performance periods based on relative achievement of TSR measures, where the beginning average price of our Common Stock was measured by reference to the 30-day period beginning 30 days prior to the commencement of the performance period with respect to which such shares were missed. Further, the vesting of the performance shares for the performance period for 2011-2012 was also contingent upon our “gross profit” for 2012 (as determined in accordance with the Kotick Employment Agreement) being greater than or equal to \$500,000,000.

Impact of Change of Control. Pursuant to the Kotick Employment Agreement, if there is a change of control during the term of his employment under the Kotick Employment Agreement, Mr. Kotick will be entitled to a cash bonus payable within 10 days of such change of control in an amount of at least \$30,000,000, which may be increased up to \$45,000,000 at the good faith discretion of the Compensation Committee. Mr. Kotick will also receive that bonus if he is terminated without cause (as defined in the Kotick Employment Agreement) and a change of control is consummated within the six months after his termination (in which case the bonus will be paid on the date that is six months after his termination date). Please see “—Potential Payments Upon Termination or Change of Control” below for the definition of change of control used in the Kotick Employment Agreement. Although the transactions

- in 2015, an option to purchase 200,000 shares of our Common Stock and 70,000 restricted share units, one-third of both of which will vest on each of November 12, 2016, 2017 and 2018.

Other Benefits. Mr. Morhaime is also entitled to participate in all benefit plans generally available to Blizzard Entertainment's senior executive officers (provided that in any case his benefits are in the aggregate at least as favorable to him as those provided to him by Blizzard Entertainment as of October 15, 2007). Mr. Morhaime was entitled to reimbursement of any legal fees he incurred in connection with the negotiation of the Morhaime Employment Agreement.

Restrictive Covenants. Pursuant to the Morhaime Employment Agreement, while he is our employee and during any period following the termination of his employment in which he is receiving severance from us (as well as for any period corresponding to any lump-sum severance payment he receives from us), Mr. Morhaime is restricted from soliciting the employment of anyone then-employed by us or Blizzard Entertainment and from inducing any of our business partners or Blizzard Entertainment's business partners to terminate its relationship with us or them. Mr.

Morhaime is also prohibited from competing with us while he is our employee. In addition, Mr. Morhaime is prohibited from disclosing or using our confidential information during his employment, except as required in the course of his employment, and at all times following the termination of his employment. Further, during any period in which he is receiving severance from us (as well as for any period corresponding to any lump-sum severance payment he receives from us), he must make himself reasonably available to us to provide any information or other assistance we may reasonably request with respect to matters relating to Blizzard Entertainment's business about which he has knowledge as a result of his employment. For information about the severance Mr. Morhaime may receive, see "—Potential Payments upon Termination or Change of Control" below.

(1) Bonus Payments upon Termination

In the event of a termination of employment by us without cause or by the employee for good reason or in the event of a termination of his employment due to death or disability, or, in the case of Mr. Kotick, in the event of a termination of his employment for any of the aforementioned reasons during the 12-month period following a change of control, in each case on December 31, 2015, each of our named executive officers would have received any earned but unpaid bonuses for prior years (of which there were none as of December 31, 2015), as well as a pro rata bonus for the year in which the termination occurred, as follows:

(a) Mr. Kotick would have received, to the extent the bonus was earned and subject to his execution of an effective and irrevocable release (other than in the event of a termination of his employment due to death):

- in the event of his termination due to death or disability, a lump-sum payment equal to the annual bonus for the year immediately preceding the year in which the termination occurred, multiplied by a fraction, the numerator of which is the number of days worked during the year in which the termination occurred and the denominator of which is 365; or

- in the event of the termination of his employment by us without cause or by him for good reason, a lump-sum payment equal to the annual bonus for the year in which the termination occurred, multiplied by a fraction, the numerator of which is the number of days worked during the year in which the termination occurred and the denominator of which is 365;

(b) Messrs. Durkin, Tippl, and Hirshberg would have each received, to the extent the bonus was earned and subject to his execution of an effective and irrevocable release (other than in the event of a termination of his employment due to death):

- a lump-sum payment equal to the annual bonus for the year in which the termination occurred (where all goals would have been measured by actual performance), multiplied by a fraction, the numerator of which is the number corresponding to the month in which the termination occurred and the denominator of which is 12; and

(c) Mr. Morhaim would have received, to the extent the bonus was earned:

- a lump-sum payment equal to any amounts he would have received under the CAIP, Morhaim Profit Sharing Plan and Blizzard Bonus Plan for the year in which the termination occurred (where all goals would have been measured by actual performance), multiplied by a fraction, the numerator of which is the number of days prior to and including his termination date in the year in which the termination occurred and the denominator of which is 365.

None of our named executive officers is entitled to a bonus with respect to the year of termination of his employment in connection with a termination for cause, although Mr. Kotick would have received any earned but unpaid bonus for prior years (of which there were none as of December 31, 2015). Further, each of Messrs. Durkin, Tippl and Hirshberg would have received any earned but unpaid bonuses for prior years (of which there were none as of December 31, 2015) and a pro rata bonus (as described above) for the year in which termination occurred had the term of his employment expired on December 31, 2015.

(2) Termination of Employment due to Death or Disability

In the event of a termination of employment due to death or disability on December 31, 2015, each of our named executive officers or his estate would have received, in addition to any amounts to which he was entitled under applicable law, such as earned but unpaid salary, accrued but unpaid vacation, unreimbursed business expenses and any amounts then due under our benefit plans, programs or policies (collectively, “basic severance”) (which for purposes of this table, are assumed to have been paid or reimbursed in full as of December 31, 2015), the following:

(a) Mr. Kotick would have received:

- in the event of his termination due to disability, subject to his execution of an effective and irrevocable release, an amount equal to 100% of his annual base salary in effect on his termination date, which amount would have been paid to him in equal installments over the 12-month period following his termination date;
- in the event of his termination due to death or disability, continuation of health/medical insurance benefits for him and his then-current spouse and minor children, as applicable, for a period of two years following his termination date; and
- in the event of his termination due to disability, continuation of his supplemental life insurance benefits through March 15, 2022;

(b) Mr. Durkin would have received:

- in the event of his termination due to death, a lump-sum payment equal to 200% of his annual base salary in effect on his termination date, less any payments received or to which he became entitled under company-provided life insurance, if any (which payments, for purposes of this table, are assumed to be zero);
- in the event of his termination due to disability, subject to his or his legal representative’s execution of an effective and irrevocable release, salary continuation through the expiration date of his employment agreement in an amount equal to 100% of the base salary (at the rate in effect on his termination date) that would have been payable to him through that date, less any payments received or to which he became entitled under company-provided long-term disability insurance, if any (which payments, for purposes of this table, are assumed to be zero); and
- in the event of his termination due to death or disability, subject to his or his legal representative’s execution of an effective and irrevocable release (other than in the event of a termination of his employment due to death), continuation of health/medical insurance benefits for him and his then-current spouse and minor children, as applicable, for a period of one year following his termination date, provided that he does not become eligible for another company’s group health/medical insurance or coverage program, in which case he and his then-current spouse

Back to Contents

and minor children, as applicable, would cease to be eligible for continuation of health/medical insurance benefits;

(c) Mr. Tippl would have received, subject to his or his legal representative's execution of an effective and irrevocable release (other than in the event of a termination of his employment due to death):

- in the event of his termination due to death or disability, a lump-sum payment equal to 300% of the base salary paid or payable to him for the most recent year immediately prior to termination; and

- in the event of his termination due to death or disability, continuation of health/medical insurance benefits for him and his then-current spouse and minor children, as applicable, for a period of two years following his termination date; and

(d) Mr. Hirshberg would have received:

- in the event of his termination due to death, a lump-sum payment equal to 200% of his annual base salary in effect on his termination date, less any payments received or to which he became entitled under company-provided life insurance, if any (which payments, for purposes of this table, are assumed to be zero);

- in the event of his termination due to disability, subject to his or his legal representative's execution of an effective and irrevocable release, salary continuation through the expiration date of his employment agreement in an amount equal to 100% of the base salary (at the rate in effect on his termination date) that would have been payable to him through that date, less any payments received or to which he became entitled under company-provided long-term disability insurance, if any (which payments, for purposes of this table, are assumed to be zero); and

- in the event of his termination due to death or disability, a payment based on the canceled stock options as discussed in footnote (7).

With the exception of a payment in respect of a bonus, discussed in footnote (1), Mr. Morhaim would not have received anything other than basic severance in connection with his termination due to death or disability.

Except as otherwise indicated, the amounts reflected in the table are in addition to any proceeds from company-provided insurance the executive or his estate would have received upon death or disability, as the case may be.

Any payment in respect of a bonus that any of our named executive officers would have received in connection with a termination of employment due to death or disability is discussed in footnote (1). The effects of a termination of employment due to death or disability on outstanding equity awards are discussed in footnote (7).

(3) Termination for Cause

The employment of each of our named executive officers may be terminated for "cause" if any of the following occur:

- For Mr. Kotick, subject to his right to cure, a determination by our Board that he: (1) engaged in an act of fraud or embezzlement in respect of us or our funds, properties or assets; (2) was convicted of a felony relating to his actions

as our executive under the laws of the United States or any state thereof (provided that all rights of appeal have been exercised or have lapsed), unless such acts were committed in the reasonable, good faith belief that his actions were in our best interests and the best interests of our stockholders and would not violate criminal law; (3) engaged in willful misconduct or gross negligence in connection with the performance of his duties that has caused or is highly likely to cause us severe harm; or (4) was intentionally dishonest in the performance of his duties under his employment agreement and such dishonesty had a material adverse effect on us;

•

For Mr. Durkin, our good-faith determination that he: (1) engaged in willful, reckless or gross misconduct that caused, or is reasonably likely to cause, harm to us or our subsidiaries; (2) subject to his right to cure, was grossly negligent in the performance of his duties or willfully and continuously failed or refused to perform any duties reasonably requested in the course of his employment; (3) engaged in fraud or dishonesty that caused, or is likely to cause, severe harm to us or our subsidiaries, including our business or reputation; (4) subject to his right to cure, violated any of our lawful and reasonable directives or policies or any applicable laws, rules or regulations in connection with the performance of his duties that caused, or is reasonably likely to cause, harm to us or our subsidiaries; (5) subject to his right to cure, materially breached his employment agreement; (6) subject to his right to cure, materially breached any proprietary information or confidentiality agreement with us or our subsidiaries; (7) was convicted of, or pled guilty or no contest to, a felony or crime involving dishonesty or moral turpitude; or (8) subject to his right to cure, breached his fiduciary duties to us or our subsidiaries;

•

For Mr. Tippl, that he: (1) engaged in willful, reckless or gross misconduct; (2) subject to his right to cure, materially breached his employment agreement or the proprietary information agreement with us; (3) was convicted of, or pled no contest to, a felony or crime involving dishonesty or moral turpitude; (4) breached his duty of loyalty to us; or (5) violated our corporate governance policies;

•

For Mr. Hirshberg, that he: (1) engaged in willful, reckless or gross misconduct; (2) subject to his right to cure, materially breached his employment agreement; (3) subject to his right to cure, materially breached his proprietary information or confidentiality agreement with us and our subsidiaries; (4) was convicted of, or pled no contest to, a felony or crime involving dishonesty or moral turpitude; (5) breached his duty of loyalty to us; or (6) violated our corporate governance policies; and

•

For Mr. Morhaime, that he: (1) subject to his right to cure, failed to perform his primary duties or breached his employment agreement, in either case resulting in material and demonstrable damage to us or our affiliates; (2) subject to his right to cure, intentionally and materially failed to comply with our material policies of which he had been provided written notice and the terms of which are equally and uniformly applied to all of our executive employees; or (3) was convicted of a felony or other crime involving dishonesty or fraud or that results or would

reasonably be expected to result in our becoming subject to public reprimand or sanction.

Each of our named executive officers would have received basic severance in connection with a termination for cause on December 31, 2015, and none of them would have received any salary-related severance or bonus with respect to the year of termination in connection with a termination for cause.

In addition, in the event of a termination of employment by us for cause, Mr. Kotick would have received:

- any earned but unpaid bonuses for prior years (of which there were none as of December 31, 2015); and
- continuation of his supplemental life insurance benefits through March 15, 2022.

The effects of a termination of employment in connection with a performance termination or a termination for cause on outstanding equity awards are discussed in footnote (7).

(4) Termination Without Cause or for Good Reason

As described below, each named executive officer may terminate his employment for “good reason” upon the occurrence of any of the following without his consent:

- For Mr. Kotick, subject to our right to cure: (1) a reduction in his base salary; (2) a material reduction in certain benefits to which he is contractually entitled; (3) the assignment to him of any duties inconsistent with his position, duties, responsibilities, authority or status with us or a change in his reporting responsibilities, titles or offices as in effect prior to such assignment or change; (4) his failure to be nominated for election, or failure to be re-elected, as a member of our Board; (5) our material breach or failure to perform, when due, any of our obligations under his employment agreement; (6) any purported termination of his employment in contravention of the notice provision of his employment agreement or in violation of our Bylaws; or (7) a good faith determination by him that he is not able to discharge his duties effectively by reason of directives from our Board requiring him to perform duties not directly related to our operations;

- For Mr. Durkin, subject to our right to cure: (1) a relocation of his principal place of business to a location more than 50 miles from our current headquarters that materially and adversely affects his commute or (2) his being assigned to serve in a position that results in a material diminution of his responsibilities, duties or title;

- For Mr. Tippl, subject to our right to cure: our relocation to a location more than 25 miles from Los Angeles County that is materially adverse to him;

- For Mr. Hirshberg, subject to our right to cure: (1) a relocation of his principal place of business to a location more than 50 miles from our current headquarters that materially and adversely affects his commute; or (2) his being assigned to serve in a position that is not a “C-level” executive office; and

-

For Mr. Morhaime, subject to our right to cure: (1) a reduction in his base salary or any contractually guaranteed minimum bonuses or bonus opportunities; (2) a material reduction in certain benefits to which he is contractually entitled; (3) any change to the CAIP, the Blizzard Bonus Plan or the Morhaime Profit Sharing Plan that materially reduces his opportunity to earn compensation under those plans, when taken as a whole; (4) any change to the Blizzard Profit Sharing Plan that materially reduces the aggregate compensation opportunities available to Blizzard Entertainment's employees under that plan; (5) a material default by us in paying or providing him with any compensation or benefits required or any material obligations owed to him under his employment agreement; (6) our termination without cause of any member of Blizzard Entertainment's management team; (7) a change in location of his primary place of employment to a location more than 15 miles from Blizzard Entertainment's existing office in Irvine, California; (8) a change in title that conveys lesser responsibility or lower status, or the imposition of any restriction or constraint upon him or the undertaking of any other act that materially diminishes his position, office, responsibility, duties or authority; (9) a change in his reporting structure and responsibilities as set forth in his employment agreement; (10) a change of control of Blizzard Entertainment; or (11) subject to certain exceptions and limitations on his authority, our engaging in conduct with respect to the operations or activities of Blizzard Entertainment that, taken individually or as a whole, prevent or materially interfere with him having authority, ability, accountability and control over the conduct of Blizzard Entertainment's strategic, operational and daily business activities, or otherwise prevent him from effectively acting as Blizzard Entertainment's chief executive officer.

Upon a termination of the employment of one of our named executive officers by us without "cause" or by one of our named executive officers for good reason on December 31, 2015 (including the termination of Mr. Kotick by us without cause or by Mr. Kotick for good reason during the 12-month period following a change of control), that named executive officer would have received, in addition to any basic severance, the following:

(a) Mr. Kotick:

- subject to his execution of an effective and irrevocable release, an amount equal to 200% of the sum of his base salary in effect on his termination date and the target annual bonus for the year in which the termination occurred (unless such termination is during the 12-month period following a change of control, in which case the amount would have been equal to 300% of that sum), which amount would have been paid to him in equal installments over the 12-month period following his termination date;
- continuation of health/medical insurance benefits for him and his then-current spouse and minor children for a period of two years following his termination date; and
- continuation of his supplemental life insurance benefits through March 15, 2022;

(b) Mr. Durkin:

- subject to his execution of an effective and irrevocable release, salary continuation through the expiration date of his employment agreement in an amount equal to 100% of the base

Back to Contents

salary (at the rate in effect on his termination date) that would have been payable to him through that date; and

- subject to his execution of an effective and irrevocable release, continuation of health/medical insurance benefits for him and his then-current spouse and minor children for a period of one year following his termination date, provided that he does not become eligible for another company's group health/medical insurance or coverage program, in which case he and his then-current spouse and minor children, as applicable, would cease to be eligible for continuation of health/medical insurance benefits;

(c) Mr. Tippl:

- subject to his execution of an effective and irrevocable release, salary continuation through the expiration date of his employment agreement in an amount equal to 100% of the base salary that would have been payable to him through that date (taking into account the automatic increases in base salary under his employment agreement, which increases are not reflected in this table because the amount thereof cannot be determined, as they are based upon increases approved for other members of the executive leadership team for the year in question) (Mr. Tippl would also receive these amounts if his employment is terminated as a result of his loss of immigration status and legal ability to work for us in the United States, unless such loss results from his action or inaction);

(d) Mr. Hirshberg:

- subject to his execution of an effective and irrevocable release, salary continuation through the expiration date of his employment agreement in an amount equal to 100% of the base salary (at the rate in effect on his termination date) that would have been payable to him through that date; and
- subject to his execution of an effective and irrevocable release, a lump-sum payment of \$1,360,000 for each of 2016, 2017 and 2018, if his employment was terminated after December 31st of the respective year and the Compensation Committee determines that Activision Publishing's adjusted non-GAAP operating income for that year is both (1) positive (i.e., \$1 or greater) and (2) 85% or more than the adjusted non-GAAP operating income objective for Activision Publishing set forth in the AOP for that year, which amounts are cumulative (although Mr. Hirshberg is not entitled to payments in respect of 2016 and 2017 if he is terminated on or after March 30, 2018) (which payments, for purposes of this table, are assumed to be zero, as Mr. Hirshberg is not entitled to anything thereunder for a termination as of December 31, 2015); and

(e) Mr. Morhaim:

- a lump-sum payment equal to the sum of:
 - 100% of the base salary (at the rate in effect on his termination date) payable to him for the two years following his termination date;
 - the sum of the following components for the two years following his termination date:

—
an amount equal to the actual annual bonus paid under each of the CAIP and Blizzard Bonus Plan for the year immediately preceding the year of termination; and

—
the value of his health/medical insurance, life insurance and disability insurance benefits based upon his coverage as of December 31, 2015;

—
200% of the actual annual bonus compensation paid to Mr. Morhaime under the Morhaime Profit Sharing Plan for the year immediately prior to termination; and

—
\$1,500,000.

Any payment in respect of a bonus that any of our named executive officers would have received in connection with a termination of employment by us without cause or by that named executive officer for good reason is discussed in footnote (1). The effects of a termination of the employment of one of our named executive officers by us without cause or by that named executive officer for good reason on outstanding equity awards are discussed in footnote (7).

Pursuant to the terms of each of Messrs. Durkin's and Hirshberg's employment agreements, all payments and benefits to which he is otherwise entitled upon a termination of employment by us without cause or by him for good reason, with the exception of the basic severance, would cease if he breaches the post-termination provisions of his employment agreement. Please see, respectively, "—Employment Agreements—Dennis Durkin" and "—Employment Agreements—Eric Hirshberg" above for a description of those obligations.

In addition, if Mr. Durkin obtains any subsequent employment, any severance payable to him in the form of salary continuation would be offset by the amount of his salary from his then-current employer (which payments, for the purposes of this table, are assumed to be zero). If Mr. Hirshberg obtains any subsequent employment, all payments and benefits to which he is otherwise entitled, with the exception of the basic severance, would cease.

(5) Change of Control

For Mr. Kotick, in the event of a change of control:

(a) As noted in footnotes (1) and (4), upon a subsequent termination of employment by us without cause or by Mr. Kotick for good reason during the 12-month period following the effective date of that change of control, he would have received, in addition to any basic severance, the following:

- subject to his execution of an effective and irrevocable release, a lump-sum payment equal to the annual bonus earned for the year in which the termination occurred, multiplied by a fraction, the numerator of which is the number of days worked during the year in which the termination occurred and the denominator of which is 365;

- subject to his execution of an effective and irrevocable release, an amount equal to 300% of the sum of his base salary in effect on his termination date and the target annual bonus for the year in which the termination occurred, which amount would have been paid to him in equal installments over the 12-month period following his termination date;

-

continuation of health/medical insurance benefits for him and his then-current spouse and minor children, as applicable, for a period of two years following his termination date; and

Back to Contents

- continuation of his supplemental life insurance benefits through March 15, 2022.

(b) If there is a change of control during the term of Mr. Kotick's employment or Mr. Kotick is terminated without cause and a change in control is consummated during the six months after his termination, Mr. Kotick will be entitled to a cash bonus payable upon such change of control in an amount of at least \$30,000,000, which may be increased up to \$45,000,000 at the good faith discretion of the Compensation Committee. For purposes of this table, the payment has been assumed to be \$30,000,000.

(c) The amounts shown represent the value of any restricted share units or performance shares that vest or as to which the restrictions would have lapsed, as the case may be, upon Mr. Kotick's termination, measured as the NASDAQ Official Closing Price of \$38.71 per share of our Common Stock on December 31, 2015.

(d) If there had been a change of control on December 31, 2015 (whether or not he was subsequently terminated):

- the stock options awarded to him on or prior to June 15, 2007 would have remained exercisable until their original expiration date; and

- the target number of performance shares awarded to him thereunder on March 15, 2012 for the performance period in which the change of control occurred (i.e., 25% of the total number of performance shares awarded to him) would have vested, and the remaining performance shares would have been cancelled.

In addition, if the NASDAQ Official Closing Price of our Common Stock on the date of the change of control was greater than the exercise price of any of his vested stock options, Mr. Kotick would have had the right to forfeit the stock options in exchange for a cash payment equal in value to the number of shares of our Common Stock underlying those stock options multiplied by the amount that the NASDAQ Official Closing Price exceeded the exercise price of the stock options. For purposes of this table, no value is attributed to this provision of his employment agreement, as Mr. Kotick could have obtained the same value by exercising those stock options and selling the shares purchased upon exercise in the open market.

If, following a change of control, he had been terminated due to his death, as discussed in footnote (7):

- all the stock options awarded to him on December 5, 2007 would have remained exercisable until their original expiration date.

Further, in the event of his termination due to death or disability or in the event of the termination of his employment by us without cause or by him for good reason during the 12-month period following a change of control:

- those restricted share units awarded to him thereunder on March 15, 2012 that would have vested had he remained employed for the 36 months following his termination date (and had such termination not been during the 12-month period following a change of control, the number of restricted share units that would have vested would be those that would have vested had he remained employed for the 24 months following his termination date, rather than the 36 months).

Other than as described in this footnote (5), Mr. Kotick's termination following a change of control, whether or not in the 12-month period thereafter, would have no impact on his outstanding equity awards.

(e) Pursuant to his employment agreement, Mr. Kotick is entitled to be indemnified for any excise taxes for which he is responsible in respect of payments by us to him as a result of a change of control. Assuming that a change of control occurred on December 31, 2015, any payment owed to him under the employment agreement as a result of that change of control would not have exceeded the necessary safe harbor cap under the Internal Revenue Code to trigger such a payment for him.

For purposes of Mr. Kotick's employment agreement, a change of control is defined to include: (a) the acquisition of 25% or more of our outstanding voting stock; (b) the failure of the directors who constituted our Board at the time of the Vivendi Games Combination (or replacements who are approved by a majority of such directors) to constitute a majority of our Board, other than as a result of voluntary resignations or removals for good cause; or (c) a consolidation, merger or sale of all or substantially all of our assets in which our stockholders immediately prior to such transaction do not retain in excess of 65% of the combined voting power of the corporation or other person or entity resulting from that transaction in substantially the same proportion as their ownership of the voting securities of Activision Blizzard immediately before the transaction. No change of control will be deemed to have occurred upon the acquisition of additional control of Activision Blizzard by Vivendi or by any one person or more than one person acting as a group that beneficially owns, directly or indirectly, more than 50% of our total outstanding voting stock. Although the transactions contemplated by the Vivendi Share Purchase Agreement could have been deemed to constitute a change of control as defined in his employment agreement, Mr. Kotick voluntarily waived any rights he had to payments, benefits and vesting upon a change of control under his agreement in connection therewith. Please see "Certain Relationships and Related Transactions—Relationships and Transactions—Relationships with Our Directors and Executive Officers—Waiver and Acknowledgement Letters" below for further information on the waiver.

(6) Continuation of Insurance Benefits

The amounts shown represent the estimated cost to us for continuation of health/medical insurance benefits and, if applicable, life insurance benefits for the required period, based on the cost to us of providing those benefits as of December 31, 2015. Please see footnotes (2), (3), (4) and (5) for a description of the termination scenarios for which these amounts are relevant.

(7) Treatment of Equity Awards

The amounts shown represent the value of any restricted share units or performance shares that vest or as to which the restrictions would have lapsed upon termination, measured as the NASDAQ Official Closing Price of \$38.71 per share of our Common Stock on December 31, 2015.

Back to Contents

The effects of termination as of December 31, 2015 on the outstanding equity awards held by each named executive officer on that date and information with respect to the outstanding awards held by him (assuming target performance, in the case of all performance-based awards) are as follows:

(a) For Mr. Kotick, on the date of termination:

- in the event of a termination of his employment due to death or disability or in the event of a termination of his employment by us without cause or by Mr. Kotick for good reason, subject to his execution of an effective and irrevocable release (other than in the event of a termination of his employment due to death):

- the stock options awarded to him on June 15, 2007 and December 15, 2007 would remain exercisable until their original expiration date;

- those restricted share units awarded to him on March 15, 2012 that would have vested had he remained employed for the 24 months following his termination date would have vested (unless such termination had been during the 12-month period following a change of control, in which case it would have been those restricted share units that would have vested had he remained employed for the 36 months following his termination date rather than the 24 months thereafter); and

- if the performance condition for the relevant period (i.e., the period ending December 31, 2015) is met or exceeded, the performance shares would vest at the end of the period (and, for purposes of this table, the amount shown is based upon actual performance for that period);

- in the event of a termination of employment by us for cause:

- his stock options, whether or not vested, would have been canceled;

- his unvested restricted share units would have been canceled; and

- the performance shares would have been canceled; and

- in the event of a termination of employment for any other reason:

- his stock options would have ceased to vest and, to the extent vested, would have generally remained exercisable for 30 days;

- his unvested restricted share units would have been canceled; and

—
the performance shares would have been canceled.

As of December 31, 2015, the following equity awards made to Mr. Kotick were outstanding: (1) vested options to purchase 3,962,998 shares of our Common Stock; (2) 240,450 restricted share units; and (3) 515,250 performance shares. Please see “—Outstanding Equity Awards at December 31, 2015” above for further details about these awards.

For the effects of a change of control and any subsequent termination on Mr. Kotick’s outstanding equity awards, see footnote (5).

(b) For Mr. Durkin:

•
in the event of a termination of employment due to death, on the date of termination:

—
his stock options would have ceased to vest and, to the extent vested, would have generally remained exercisable for one year; and

—
his unvested restricted share units would have been canceled;

—
his stock options, whether or not vested, would have been canceled; and

—
his unvested restricted share units would have been canceled; and

•
in the event of a termination of employment for any other reason, on the date of termination:

—
his stock options would have ceased to vest and, to the extent vested, would have generally remained exercisable for 30 days; and

—

As of December 31, 2015, the following equity awards made to Mr. Durkin were outstanding: (1) vested options to purchase 112,500 shares of our Common Stock; (2) unvested options to purchase 150,000 shares of our Common Stock; and (3) 355,000 unvested restricted share units (180,000 of which have vesting tied to performance). Please see “—Outstanding Equity Awards at December 31, 2015” above for further details about these awards.

(c) For Mr. Tippl:

•
in the event of a termination of employment due to death, on the date of termination:

—
his stock options would have ceased to vest and, to the extent vested, would have generally remained exercisable for one year; and

—
his unvested restricted share units would have been canceled;

- in the event of a termination of employment by us for cause, on the date of termination:

—
his stock options, whether or not vested, would have been canceled; and

—
his unvested restricted share units would have been canceled; and

- in the event of a termination of employment for any other reason, on the date of termination:

—
his stock options would have ceased to vest and, to the extent vested, would have generally remained exercisable for 30 days; and

—
his unvested restricted share units would have been canceled.

As of December 31, 2015, the following equity awards made to Mr. Tippl were outstanding: (1) vested options to purchase 44,427 shares of our Common Stock; and (2) 661,154 restricted share units (454,543 of which have vesting tied to performance). Please see “—Outstanding Equity Awards at December 31, 2015” above for further details about these awards.

(d) For Mr. Hirshberg:

- in the event of a termination of employment due to death or disability, on the date of termination:

—
with respect to the stock options awarded to him on November 8, 2010, as the NASDAQ Official Closing Price of

Back to Contents

\$38.71 per share of our Common Stock on December 31, 2015 was greater than the exercise price per share of \$11.88, he would have received cash or shares of our Common Stock with a value equal to that excess multiplied by the number of shares for which the options were then vested (i.e., \$9,390,500) (the amount of which is not reflected in this table, as, pursuant to the terms of his employment agreement, he was entitled to that amount on December 31, 2015 regardless of whether he was terminated on that date);

–

the stock options awarded to him on November 13, 2015 would have ceased to vest and, to the extent vested, would have generally remained exercisable for one year; and

–

his unvested restricted share units would have been canceled;

•

in the event of a termination of employment by us without cause or by Mr. Hirshberg for good reason:

–

with respect to the stock options awarded to him on November 8, 2010, as the NASDAQ Official Closing Price of \$38.71 per share of our Common Stock on December 31, 2015 was greater than the exercise price per share of \$11.88, he would have received cash or shares of our Common Stock with a value equal to that excess multiplied by the number of shares for which the options were then vested (i.e., \$9,390,500) (the amount of which is not reflected in this table, as, pursuant to the terms of his employment agreement, he was entitled to that amount on December 31, 2015 regardless of whether he was terminated on that date);

–

the stock options awarded to him on November 13, 2015 would have ceased to vest and, to the extent vested, would have generally remained exercisable for 30 days; and

–

his unvested restricted share units would have been canceled and, in lieu of any canceled restricted share units awarded to him on November 13, 2015, if his employment was terminated after December 31, 2016, 2017 or 2018 and the Compensation Committee determined that the performance objectives for that year were met or exceeded, he would have received a payment in an amount equal to the percentage of the AOP objective achieved for the respective year, up to a maximum of 125%, multiplied by the price of the stock on the date of grant (i.e., \$34.59) multiplied by the number of restricted share units awarded for the applicable year (i.e., 58,977) (which payment, for purposes of this table, is assumed to be zero, as Mr. Hirshberg is not entitled to anything thereunder for a termination as of December 31, 2015);

•

in the event of a termination of employment by us for cause, on the date of termination:

–

his stock options, whether or not vested, would have been canceled; and

–

his unvested restricted share units would have been canceled; and

•

in the event of a termination of employment for any other reason, on the date of termination:

—
with respect to the stock options awarded to him on November 8, 2010, as the NASDAQ Official Closing Price of \$38.71 per share of our Common Stock on December 31, 2015 was greater than the exercise price per share of \$11.88, he would have received a cash or shares of our Common Stock with a value equal to that excess multiplied by the number of shares for which the options were then vested (i.e., \$9,390,500) (the amount of which is not reflected in this table, as, pursuant to the terms of his employment agreement, he was entitled to that amount on December 31, 2015 regardless of whether he was terminated on that date);

—
the stock options awarded to him on November 13, 2015 would have ceased to vest and, to the extent vested, would have generally remained exercisable for 30 days; and

—
his unvested restricted share units would have been canceled.

As of December 31, 2015, the following equity awards made to Mr. Hirshberg were outstanding: (1) unvested options to purchase 398,820 shares of our Common Stock; and (2) 236,930 unvested restricted share units, all of which have vesting tied to performance. Please see “—Outstanding Equity Awards at December 31, 2015” above for further details about these awards. In addition, on December 31, 2015, in accordance with his Employment Agreement, the stock options awarded to him on November 8, 2010 were automatically exercised and Mr. Hirshberg was entitled to \$9,390,500, which, at our election, was delivered to him, net of shares withheld to satisfy the resulting tax withholding obligation, in shares of our Common Stock.

(e) For Mr. Morhaim:

•
in the event of a termination of employment due to death or disability, on the date of termination:

—
his stock options would have ceased to vest and, to the extent vested, would have generally remained exercisable for one year; and

PROPOSAL 2

ADVISORY VOTE TO APPROVE THE COMPANY'S EXECUTIVE COMPENSATION

General

Our stockholders are being provided the opportunity to cast a non-binding, advisory vote (commonly known as “say-on-pay”) on the compensation of the executive officers named in the “Summary Compensation Table” above (i.e., the named executive officers). This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the executive compensation policies and practices described in this proxy statement, through consideration of the following non-binding advisory resolution:

“Resolved, that the stockholders advise that they approve the compensation of the Company’s named executive officers as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis and the compensation tables and related narrative discussion.”

Please see “Executive Compensation” above for the “Compensation Discussion and Analysis” and the accompanying compensation tables and related narrative discussion relating to compensation paid to our named executive officers, including detail about how our executive compensation policies and practices operate and are designed to achieve our compensation objectives.

Our Compensation Committee and Board believe that the compensation policies and practices articulated in the “Compensation Discussion and Analysis” are effective in enabling us to achieve our financial, operational and strategic goals and that the compensation paid to our named executive officers has allowed, and will continue to allow, us to attract and retain the key executive talent responsible for our recent and long-term success.

Required Vote and Board Recommendation

The affirmative vote of the holders of a majority of the shares present in person or by proxy and entitled to vote at the Annual Meeting is required for the approval of proposal 2. While our Board and its Compensation Committee believe that the views of the Company’s stockholders are of utmost importance and will carefully consider the outcome of the vote expressed by our stockholders when making future executive compensation decisions, the vote will not be binding upon them. Our Board ultimately has a duty to act in what it believes to be the best interests of the Company and all of its stockholders.

Mr. Kotick, our Chief Executive Officer, and Mr. Kelly, the Chairman of our Board, may direct the voting of the shares held by ASAC II LP, an exempted limited partnership established under the laws of the Cayman Islands (i.e., ASAC), and acting by ASAC II LLC, its general partner. Messrs. Kotick and Kelly may also direct the voting of shares they beneficially own at their discretion, except they have agreed to vote any such shares that, when aggregated with ASAC’s shares, represent shares of our Common Stock in excess of 19.9% of the issued and outstanding Common Stock either in a manner proportionally consistent with the vote of the shares of Common Stock not owned by them or ASAC or in accordance with the recommendation, if any, of a majority of the members of our Board not affiliated with ASAC. For more information see “Certain Relationships and Related Transactions—Relationships and Transactions—Relationships and Transactions with ASAC—ASAC Stockholders Agreement” below. As of the record date for the Annual Meeting, ASAC and Messrs. Kotick and Kelly collectively held shares representing approximately 24.2% of our issued and outstanding Common Stock. Messrs. Kotick and Kelly are expected to vote the shares over which they have discretion FOR proposal 2.

Your Board unanimously recommends that you vote FOR the approval of the Company’s executive compensation, as disclosed in this proxy statement.

DIRECTOR COMPENSATION

General

Directors of Activision Blizzard who are not employed by us or any of our subsidiaries (the “non-affiliated directors”) receive a mix of compensation, which includes an annual cash retainer, specific cash fees for services rendered and equity awards. Affiliated directors do not receive any compensation for their service on our Board in addition to what they receive in connection with their employment. All of our directors are reimbursed by us for expenses incurred in connection with their service on our Board. We also reimburse our directors’ spouses for travel, lodging and related expenses they incur in attending business-related meetings or events at our request, though such occurrences are uncommon. Pursuant to our director compensation program and the Company’s Corporate Governance Principles and Policies, our Board may provide our directors with other benefits, though no such benefits have been provided recently. For example, on rare occasions, if a director’s spouse accompanies him or her on a business trip other than at our request, we may provide that person with travel and lodging at our expense when the incremental cost to us for doing so is negligible.

The Compensation Committee annually reviews the compensation plans and policies applicable to all directors and makes recommendations to our Board regarding those plans and policies as needed. Our executive officers may assist the Compensation Committee in obtaining benchmarking and other information relevant to determining director compensation, but management has no role in recommending or determining the amount or form of director compensation. From time to time, the Compensation Committee engages a compensation consultant to assist it in this review.

The Compensation Committee most recently engaged a compensation consultant in July 2015 to determine whether the director compensation program remained appropriate. The consultant—Exequity—provided the Compensation Committee with a detailed competitive market analysis of non-employee director compensation practices and policies among our peer group. In order to ensure that each component of our non-employee director compensation remained competitive with that provided by the Company’s peer group, the Compensation Committee, consistent with Exequity’s recommendations, recommended that:

- the annual retainer paid to the chairperson of the Audit Committee be increased by \$7,000;
- the annual retainer paid to the chairperson of the Compensation Committee be increased by \$18,000; and
- the annual retainer paid to the chairperson of the Nominating and Corporate Governance Committee be increased by \$13,500.

On July 28, 2015, our Board approved changes to our director compensation program consistent with the Compensation Committee’s recommendation.

Cash Compensation

The following table sets forth a summary of the cash elements of our director compensation program that was in effect for our non-affiliated directors prior to July 28, 2015 and the cash elements of such director compensation program that has been in effect since July 28, 2015:

	Prior Cash Elements	Current Cash Elements

Equity Compensation

Our Board believes that directors more effectively represent our stockholders, whose interests our Board is charged with protecting, if they are stockholders themselves. Each non-affiliated director is entitled, upon his or her election or appointment to our Board and upon each subsequent re-election to our Board, to receive restricted share units representing the right to receive shares of our Common Stock. The grant date value of those restricted share units is \$250,000, provided that, in the event of an election or appointment at any time other than at a Board meeting immediately following an annual meeting of our stockholders, the grant of restricted share units will be pro-rated based on the expected amount of time from the date of such election or appointment until the Company's next annual meeting of stockholders. The actual number of shares underlying the restricted share units is determined by dividing the grant date fair value of the award by the NASDAQ Official Closing Price of our Common Stock on the date of grant. The award of restricted share units is approved by our Board promptly following a non-affiliated director's election, appointment or re-election to the Board and is made three business days following the date of the first Board's approval of such grant. Each award vests in four equal installments (on a quarterly basis for the year following the date of grant, subject to continued service on our Board).

Stock Ownership Guidelines

Pursuant to our director compensation program and our Corporate Governance Principles and Policies, each non-affiliated director is required, within four years following his or her initial election to our Board, to beneficially own shares of our Common Stock (including any restricted shares of Common Stock or restricted share units payable in shares of our Common Stock) having an aggregate value at least equal to five times the amount of the annual cash retainer we then pay that director for regular service on our Board. The value of shares owned by each non-affiliated director is calculated as of January 2nd of each applicable year (or if that date is not a trading date, the next trading date) based on the higher of: (a) the NASDAQ Official Closing Price of our Common Stock on that day; and (b) the NASDAQ Official Closing Price of our Common Stock on the date of grant (or if that date is not a trading date, the next trading date), for any shares awarded to the director by us, and the actual cost to the director for any other shares (including shares acquired upon exercise of a stock option). Non-affiliated directors are subject to these guidelines for as long as they continue to serve on our Board. As of January 4, 2016, all non-affiliated directors who, as of that date, had been a member of our Board for four or more years were in compliance with these guidelines.

Indemnification

We maintain a directors and officers insurance policy that insures all of our directors from claims arising out of an alleged wrongful act by them in their capacity as directors of Activision Blizzard. Further, our Certificate of Incorporation and our Bylaws require us to indemnify our directors and officers to the fullest extent permitted by the Delaware General Corporation Law.

In addition, we enter into indemnification agreements with certain of our non-affiliated directors that require us, among other things, to indemnify those directors against certain liabilities that may arise by reason of their status or service as directors, provided that they acted in good faith and in a manner they reasonably believed to be in, or not opposed to, our best interests (and, with respect to any criminal action, suit or proceeding, that they had no reasonable cause to believe that their conduct was unlawful). The indemnification agreements also require us to advance expenses incurred by our non-affiliated directors as a result of any proceeding against them as to which they could be indemnified.

Compensation for 2015

The following table sets forth a summary of certain information regarding the compensation of our directors for 2015, other than Mr. Kotick, as the compensation he received as an employee of the Company is included in the “Summary Compensation Table” above, and he does not receive any additional compensation for his Board service. The information in the table reflects Mr. Kelly’s compensation as an employee of the Company, as he receives no additional consideration for his Board service.

The amounts in the Stock Awards and Option Awards columns represent the aggregate grant date fair value of stock awards and stock option awards made in 2015 to each person who served on our Board during the year who is not a named executive officer (in each case, computed in accordance with ASC Topic 718). As such, the amount shown represents the full aggregate grant date fair value, rather than the portion being expensed for financial statement reporting purposes in 2015. Assumptions and key variables used in the calculation of these grant date fair values are discussed in footnote 14 to our audited financial statements included in our 2015 10-K.

(a)

Consists of 265,279 performance shares and 165,592 restricted share units, 41,797 of which have vesting tied to performance, each representing the right to receive one share of our Common Stock. The number of performance shares reflected in the table is the target amount; the maximum number of performance shares subject to the award at December 31, 2015 was 736,232 and includes 205,672 performance shares from the first, second and third performance periods that are eligible to vest at the end of the final performance periods. The restricted share units are held by a grantor retained annuity trust of which Mr. Kelly is the annuitant beneficiary and his wife, Joelle Kelly, is the trustee.

(b)

These restricted share units are held in trust—one-half in the Barry Meyer Separate Property Trust and one-half in the Barry and Wendy Meyer Trust.

(c)

These restricted share units are held by Mr. Nolan's employer, Leonard Green and Partners, L.P.

(4)

Mr. Kelly is party to an employment agreement with us, dated as of June 30, 2012, pursuant to which he serves as our Chairman, a copy of which is filed as an exhibit to our Quarterly Report on Form 10-Q for the quarter ended June 30, 2012. Mr. Kelly's term of employment under that agreement continues through June 30, 2016. Pursuant to his employment agreement, Mr. Kelly's annual base salary was \$100,000 as of June 30, 2012 (reduced from the \$450,000 annual base salary he was receiving before he entered into his current employment agreement). Mr. Kelly is also eligible for an annual bonus if the Company achieves its objectives for the applicable year, the actual amount of which is determined at the Compensation Committee's sole discretion. As an inducement to enter into the employment agreement, Mr. Kelly was awarded 1,061,121 performance shares (2,122,241, if

maximum performance is achieved) and 1,061,121 restricted share units, each representing the right to receive one share of our Common Stock. Mr. Kelly's employment agreement also provides for payments upon the occurrence of certain termination events or a change of control. On August 6, 2015, Mr. Kelly was awarded a bonus consisting of 80,676 options to purchase our Common Stock and 41,797 restricted share units, each representing the right to receive one share of our Common Stock, and each of which have vesting tied to performance. These stock options and restricted share units vest on July 28, 2016, subject to Mr. Kelly's continued employment through such date, in each case if the Compensation Committee determines that the non-GAAP diluted earnings per share objective set forth in our 2015 AOP has been met or exceeded. The Compensation Committee has since determined that this objective was, in fact, met or exceeded. In addition, Mr. Kelly is entitled to participate in all benefits plans generally available to our senior executive officers and we maintain a \$6 million supplemental term life insurance policy for the benefit of his estate. As a result, during 2015, he also received other compensation consisting of \$10,197 in insurance premiums paid by us with respect to life and long-term disability insurance for his benefit and \$2,000 in "matching" contributions by us to his account under our 401(k) plan.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Policies and Procedures

Review, Approval or Ratification of Transactions with Related Persons

Related Person Transactions Policy

We have a Related Person Transactions Policy pursuant to which the Audit Committee evaluates transactions, arrangements or relationships (or any series of similar transactions, arrangements or relationships) in which (1) we were, are or will be a participant, whether directly or indirectly, (2) the amount involved exceeds \$120,000, and (3) a related person had, has or will have a direct or indirect interest. For the purposes of the policy, a "related person" is (a) any person who is, or was at any time since the beginning of our last fiscal year, a director, a person nominated for election to our Board or one of our executive officers, (b) any person who beneficially owns more than 5% of our Common Stock, or (c) any person who is, or was at any time since the beginning of our last fiscal year, an immediate family member of any person covered by (a) or (b).

Our Related Person Transactions Policy is generally designed to capture any transaction for which disclosure by the Company would be required pursuant to Item 404 of Regulation S-K promulgated under the Securities Act of 1933, as amended.

Under our Related Person Transactions Policy, our Chief Legal Officer is generally responsible for making an initial determination as to whether something is a related party transaction within the meaning of the policy and notifying the Audit Committee if he or she concludes that it is. The Audit Committee evaluates each related person transaction taking into consideration the following factors:

- the purpose of the transaction and what benefit it provides us;

- the terms of the transaction and whether they are arm's-length;
- the direct or indirect nature of the related person's interest in the transaction;
- the availability of comparable goods or services from non-related persons;
- whether the transaction was initiated by us or the related person;
- whether the transaction was undertaken in the ordinary course of our business;
- the expected term of the transaction and the approximate dollar value involved in the transaction, particularly as it relates to the related person;
- the related person's interest in the transaction;
- the potential for reputational harm;
- applicable law and listing standards;
- our Certificate of Incorporation and our Bylaws; and
- any other facts and circumstances the Audit Committee believes to be relevant.

The Audit Committee may approve or ratify the related party transaction if it determines that the transaction is in the best interests of the Company and consistent with law and our Certificate of Incorporation and our Bylaws. If the Audit Committee does not approve or ratify the transaction, it may be voided, terminated or amended by us, if so directed by the Audit Committee.

Code of Conduct and Conflicts of Interest

Our Code of Conduct addresses the handling of actual and potential conflicts of interest between our interests and the interests of our employees, including our executive officers, and our directors, which may include related party transactions. In accordance with our Code of Conduct, such actual or potential conflicts of interest must be disclosed. Once disclosed, our legal department, working with relevant parties, will evaluate the conflict and determine how to manage or resolve it.

Relationships and Transactions

Relationships and Transactions with Vivendi and its Affiliates

2008 Combination of Activision and Vivendi Games and 2013 Vivendi Share Repurchase Transaction

On July 9, 2008, the business combination (the “Vivendi Games Combination”) by and among the Company (then known as Activision, Inc.), Sego Merger Corporation, a wholly owned subsidiary of the Company, Vivendi, VGAC, a wholly owned subsidiary of Vivendi (“VGAC”), and Vivendi Games, a wholly owned subsidiary of VGAC, was consummated. Vivendi and its subsidiaries owned approximately 54% of the issued and outstanding shares of our Common Stock following the consummation of the Vivendi Games Combination.

On October 11, 2013, we repurchased approximately 429 million shares of our Common Stock, pursuant to a stock purchase agreement (the “Vivendi Share Purchase Agreement”) we entered into on July 25, 2013, with Vivendi and ASAC II LP, an exempted limited partnership established under the laws of the Cayman Islands (i.e., ASAC), acting by its general partner, ASAC II LLC. Pursuant to the terms of the Vivendi Share Purchase Agreement, we acquired all of the capital stock of Amber Holding Subsidiary Co., a Delaware corporation and wholly owned subsidiary of Vivendi (“New VH”), which was the direct owner of approximately 429 million shares of our Common Stock, for a cash payment of \$5.83 billion, or \$13.60 per share, before taking into account the benefit to the Company of certain tax attributes of New VH assumed in the transaction (collectively, the “Vivendi Share Repurchase Transaction”).

Pursuant to the Vivendi Share Purchase Agreement, on October 11, 2013, immediately following the completion of the Vivendi Share Repurchase Transaction, ASAC, acting by its general partner, ASAC II LLC, purchased 172 million shares of our Common Stock from Vivendi for a cash payment of \$2.34 billion (i.e., the ASAC Private Sale). As a consequence, we ceased to be a controlled company.

On May 28, 2014, Vivendi sold approximately 41 million shares, or 50% of its then-remaining shares, of our Common Stock, reducing its ownership in the Company to less than 10%.

On January 13, 2016, Vivendi sold its remaining stake in the Company, consisting of approximately 41 million shares of our Common Stock.

Amended and Restated Investor Agreement

In connection with the consummation of the Vivendi Games Combination, on July 9, 2008, we, Vivendi, VGAC and Vivendi Games entered into an investor agreement. The investor agreement was amended and restated in connection with the consummation of the Vivendi Share Repurchase Transaction. The investor agreement automatically terminated on August 26, 2014, as Vivendi’s voting interest had fallen and remained below 9.9% for a period of more than 90 days on that date.

Our grant of certain registration rights to Vivendi, including demand registration rights with respect to its remaining shares of our Common Stock, and our agreement to indemnify certain parties for certain liabilities in connection with those registrations, survived the termination, although the registration rights effectively expired on January 13, 2016, when Vivendi ceased to own any shares of our Common Stock.

Further, Vivendi’s agreement, subject to certain exceptions, to a standstill under which it may not acquire additional shares of our Common Stock, call a meeting of our stockholders, initiate a stockholder proposal for action by our stockholders or engage in the solicitation of proxies or consents to vote any of our voting securities will survive until

July 13, 2016, when Vivendi and its controlled affiliates will have ceased to beneficially own at least 5% of the outstanding shares of our Common Stock for six months.

Tax Sharing Agreement

Also in connection with the consummation of the Vivendi Games Combination, on July 9, 2008, we entered into a tax sharing agreement with Vivendi Games and Vivendi Holding I Corp., a subsidiary of Vivendi (“VHIC”). The tax sharing agreement sets forth various agreements among the parties relating to, among other things:

- the joining of Activision Blizzard or certain of our subsidiaries in the filing of certain consolidated, combined or unitary income or franchise tax returns that VHIC may elect or be required to file;
- the payment by us and our subsidiaries to VHIC of amounts representing certain tax liabilities attributable to us and our subsidiaries;
- the payment by VHIC to us of (or the offsetting of certain of our obligations to pay VHIC with) amounts in respect of fifty percent of the tax liability associated with certain distributions that may be made by non-U.S. subsidiaries of Vivendi Games to us (or certain of our U.S. subsidiaries) during the five-year period following the consummation of the Vivendi Games Combination (i.e., until July 9, 2013);
- VHIC’s indemnification of us for certain tax liabilities imposed on us arising in periods prior to the consummation of the Vivendi Games Combination in respect of Vivendi Games or its subsidiaries or resulting from VHIC’s failure to pay the Vivendi group’s tax liabilities and our indemnification of VHIC for certain tax liabilities imposed on the Vivendi group for our failure to pay our tax liabilities;
- the control of certain tax contests with certain taxing authorities; and
- the resolution of certain tax disputes between the parties.

In addition, the agreement specifies certain procedural matters that will apply in any tax contest with any taxing authority.

Back to Contents

Following the consummation of the Vivendi Share Repurchase Transaction, Vivendi ceased including any of our subsidiaries in its consolidated tax returns. As a result, while the agreement will remain in full force until both parties agree to terminate it in writing, the parties' sole remaining obligations under the agreement are with respect to prior taxable years. During 2015, neither we nor Vivendi made payments in accordance therewith.

Relationships with Universal Music Group and its Affiliates

Our subsidiaries are party to a number of agreements with Universal Music Group, a wholly owned subsidiary of Vivendi, and its affiliates. These agreements pertain to the licensing of master recordings and compositions for our games and for marketing and promotional purposes. During 2015, we paid an aggregate of \$1,469,334 in royalties and other fees to Universal Music Group and its affiliates for those uses. Our subsidiaries are also party to a number of agreements with Universal Music Group and its affiliates pertaining to the distribution of music we own pursuant to which Universal Music Group and its affiliates paid us an aggregate of \$198,530 during 2015. Our subsidiaries also paid an aggregate of \$838,764 during 2015 to affiliates of Universal Music Group in connection with the production and sponsorship of music events in connection with our business.

Relationships and Transactions with ASAC

Private Sale of Stock by Vivendi to ASAC

Pursuant to the Vivendi Share Purchase Agreement (see “—Relationships and Transactions with Vivendi and its Affiliates—2008 Combination of Activision and Vivendi Games and 2013 Vivendi Share Repurchase Transaction” above), on October 11, 2013, immediately following the completion of the Vivendi Share Repurchase Transaction, ASAC, acting by its general partner, ASAC II LLC, purchased 172 million shares of our Common Stock from Vivendi for a cash payment of \$2.34 billion (i.e., the ASAC Private Sale).

ASAC is an investment vehicle formed by Mr. Kotick, our Chief Executive Officer, and Mr. Kelly, the Chairman of our Board. ASAC II LLC, the general partner of ASAC, is managed and controlled by Messrs. Kotick and Kelly, and each of them owns, through his affiliates, 50% of the membership interests of the general partner. Each of Messrs. Kotick and Kelly made, through his affiliates, a \$50,000,000 capital contribution to the general partner, which in turn made capital contributions to ASAC in the aggregate amount of \$100,000,000 in exchange for preferred and common interests in ASAC. Messrs. Kotick and Kelly, through the general partner, are entitled to exercise the rights of ASAC as a stockholder of Activision Blizzard.

ASAC owned approximately 23% of the issued and outstanding shares of our Common Stock as of December 31, 2015.

ASAC Stockholders Agreement

In connection with the ASAC Private Sale, on October 11, 2013, we, ASAC and, for the limited purposes set forth therein, Messrs. Kotick and Kelly entered into a stockholders agreement (the “ASAC Stockholders Agreement”). The ASAC Stockholders Agreement was amended on May 28, 2015, pursuant to the Settlement Agreement (as defined herein). The ASAC Stockholders Agreement, as so amended, contains various agreements among the parties regarding, among other things:

-

ASAC's agreement to vote the portion of its shares of our Common Stock that represents shares of our Common Stock in excess of 19.9% of the issued and outstanding Common Stock either in a manner proportionally consistent with the

vote of the shares of Common Stock not owned by ASAC or Messrs. Kotick and Kelly or in accordance with the recommendation, if any, of a majority of the members of our Board not affiliated with ASAC then serving on our Board (see “—Settlement of Litigation Relating to 2013 Vivendi Share Repurchase Transaction” below);

- our grant of certain registration rights to ASAC, including demand and piggyback registration rights and our agreement to indemnify certain parties for certain liabilities in connection with those registrations;

- ASAC’s agreement, subject to certain exceptions, not to transfer or announce any intention to transfer its shares of our Common Stock without prior written consent of the majority of our unaffiliated directors (as defined in the agreement) prior to the end of the 12-month period following the closing of the ASAC Private Sale and thereafter during our regularly scheduled trading blackout periods; and

- ASAC’s agreement, subject to certain exceptions, to a standstill under which it may not acquire additional shares of our Common Stock, call a meeting of our stockholders, initiate a stockholder proposal for action by our stockholders or engage in the solicitation of proxies or consents to vote any of our voting securities, until six months after ASAC and its controlled affiliates cease to beneficially own at least 5% of the outstanding shares of our Common Stock.

The agreement will terminate if and when ASAC ceases to own any shares of our Common Stock.

Settlement of Litigation Relating to 2013 Vivendi Share Repurchase Transaction

On December 19, 2014, the Company, as the nominal defendant, entered into a stipulation of compromise and settlement (the “Settlement Agreement”) with respect to the litigation captioned In re: Activision Blizzard, Inc. Stockholder Litigation (the “Lawsuit”) relating to the Vivendi Share Repurchase Transaction and the ASAC Private Sale. Vivendi and ASAC are also party to the Settlement Agreement, as are certain former members of our Board who were appointed to our Board by Vivendi, the members of the special committee of our Board formed in connection with the Company’s consideration of the transaction, Messrs. Kotick and Kelly, and the lead plaintiff, Anthony Pacchia.

Back to Contents

At the time they entered into the Settlement Agreement, Vivendi and ASAC owned approximately 6% and 24%, respectively, of the issued and outstanding shares of our Common Stock.

On May 20, 2015, the Court of Chancery of the State of Delaware entered an order granting final approval of the Settlement Agreement. Pursuant to the Settlement Agreement:

- the Lawsuit was dismissed with prejudice;
- the plaintiff, the Company, the class and every stockholder released all claims against the defendants relating to the transactions consummated pursuant to the Stock Purchase Agreement;
- the defendants released all claims against our stockholders, officers and directors, and the affiliates of them, relating to the institution, prosecution of and settlement of the Lawsuit (other than claims relating to the enforcement of the settlement);
- the defendants paid an aggregate of \$275 million to us, \$67.5 million of which was paid by Vivendi and the remaining \$207.5 million of which was paid by the remaining defendants or their insurers, \$72.5 million of which was paid to the plaintiff's counsel (who, in turn, paid up to \$50,000 to the lead plaintiff);
- the number of members of which our Board consists was increased by two and, for so long as ASAC holds at least 5% of the our Common Stock, the resulting vacancies were and will be filled by persons who are independent of, and unaffiliated with, ASAC and their affiliates (including Messrs. Kotick and Kelly)—currently they are filled by Messrs. Hartong and Wasserman; and
- the ASAC Stockholders Agreement was amended to provide that, for so long as ASAC holds at least 5% of our Common Stock, Messrs. Kotick and Kelly must vote any shares of our Common Stock they beneficially own that, when aggregated with ASAC's shares, represent shares of our Common Stock in excess of 19.9% of the Company's Common Stock either (1) in a manner proportionally consistent with the vote of the shares of Common Stock not owned by them or ASAC or (2) in accordance with the recommendation, if any, of a majority of the members of our Board not affiliated with ASAC; prior to such amendment, the ASAC Stockholders Agreement obligated Messrs. Kotick and Kelly to vote any shares of our Common Stock they beneficially owned that, when aggregated with ASAC's shares, represented shares of our Common Stock in excess of 24.9% of our Common Stock in that manner (see “—ASAC Stockholders Agreement” above).

Relationships with Our Directors and Executive Officers

Private Sale of Stock by Vivendi to ASAC

Messrs. Kotick and Kelly are the managers of ASAC II LLC, the general partner of ASAC. In addition, Peter Nolan, a member of our Board, is a senior advisor to Leonard Green & Partners, L.P., one of the limited partners of ASAC. Please see “—Relationships and Transactions with ASAC” above for more information about ASAC.

Waiver and Acknowledgement Letters

Pursuant to, and concurrently with, the signing of the Vivendi Share Purchase Agreement, we and each of Messrs. Kotick and Kelly entered into certain waiver and acknowledgement letters that provided, among other things:

- that the transactions contemplated by the Vivendi Share Purchase Agreement and its ancillary agreements, taken individually or collectively, would not (or would be deemed not to) constitute a “change in control” (or similar term) under their respective employment arrangements, including Messrs. Kotick and Kelly’s respective employment agreements with us, our 2008 Plan or any award agreements in respect of awards granted thereunder, or other benefit plans and arrangements;
- that in determining whether a “change in control” or similar term had occurred with respect to Messrs. Kotick and Kelly’s employment arrangements with the Company (1) the shares of our Common Stock acquired by ASAC and held or controlled directly by ASAC, by the investors in ASAC, Messrs. Kotick and Kelly, any lender to ASAC or their respective affiliates or transferees in connection with the transactions would not be included in or count toward such determination, (2) the investors in ASAC would not be deemed to be a group for purposes of such determination, and (3) any changes in the composition of our Board, in connection with or during the one-year period following the consummation of the transactions would not contribute towards such determination; and
- for the waiver by Messrs. Kotick and Kelly of their rights to change in control related payments, benefits or vesting under their respective employment agreements with us, our 2008 Plan or any award agreements in respect of awards granted thereunder, and other benefit plans and arrangements (in each case, with respect to all current and future grants, awards, benefits or entitlements) in connection with or as a consequence of the transactions contemplated by the Vivendi Share Purchase Agreement and its ancillary agreements.

Business Use of Aircraft Indirectly Owned by Our Chief Executive Officer

Mr. Kotick indirectly owns aircraft that are operated by an FAA-certified charter operator he controls. From time to time, Mr. Kotick and our other executives and directors of the Company use these aircraft for travel in connection with our business. We pay for such use an amount that is not greater than 80% of the charter operator’s regular hourly flight charges plus 100% of the actual, third-party costs incurred by the charter operator in obtaining goods and services for the flights. During 2015, the Company paid \$1,579,087 for business-related use of these aircraft, including by our executives and directors. Our use of these aircraft was authorized by the Audit Committee, which believes that this arrangement provides us with substantial value because our cost is significantly

less than the cost we would incur if we were to charter aircraft from another charter operator and pay market rates.

Business Use of Aircraft Indirectly Owned by Our Chairman

During 2015, Mr. Kelly indirectly owned an aircraft that was leased to, and operated by, an independent FAA-certified charter operator. Mr. Kelly's controlled entity received a set rate from the charter operator for the time that the aircraft was operated, which was approximately 80% of the average market-based rate charged to third parties. From time to time, Mr. Kelly and other executives and directors of the Company chartered this aircraft from the independent FAA-certified charter operator for travel in connection with our business. We paid for such use an amount equal to 100% of the hourly flight rate charged by the charter operator to Mr. Kelly (which is equal to the amount the charter operator paid to Mr. Kelly's controlled entity) plus 100% of the actual, third-party costs incurred by the charter operator in obtaining goods and services for the flights. During 2015, the Company paid \$361,384 for business-related use of this aircraft, including by our executives and directors. Our use of this aircraft was authorized by the Audit Committee, which believes that this arrangement provided us with substantial value because our cost was significantly less than the cost we would have incurred if we were to charter aircraft from another charter operator and pay market rates.

Employed Family Members

Amy Morhaime, a long-tenured employee of the Company, is the wife of Mr. Morhaime, Blizzard Entertainment's Chief Executive Officer. In 2015, Ms. Morhaime received an aggregate of \$470,944 in cash compensation, consisting of salary and bonuses. She was also awarded (1) 2,385 performance-based vesting restricted share units, the number of which assumes maximum performance (whereas target performance would result in the vesting of 1,908 shares), which vest on March 15, 2019, based upon the level of performance measured by reference to the Company's adjusted non-GAAP operating income for 2016, 2017 and 2018, and (2) an option to purchase 4,313 shares of our Common Stock, which will vest in three equal installments on each November 13, 2016, 2017 and 2018. The elements of her compensation are consistent with the compensation provided to other employees of the same level with similar responsibilities.

Audit Committee Report

Management is responsible for our system of internal control over financial reporting. Our independent registered public accounting firm, PricewaterhouseCoopers LLP, is responsible for performing an independent audit of our consolidated financial statements and the effectiveness of our internal control over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board (United States), and for issuing a report thereon. The Audit Committee is responsible for overseeing management's conduct of the financial reporting process and our system of internal control over financial reporting.

The Audit Committee has reviewed and discussed with both management and our independent registered public accounting firm all annual financial statements prior to their issuance. In connection with these reviews, management advised the Audit Committee that each set of financial statements reviewed had been prepared in accordance with generally accepted accounting principles (i.e., GAAP), and reviewed significant accounting and disclosure issues with the Audit Committee. PROPOSAL 3

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of our Board has appointed PricewaterhouseCoopers LLP to serve as the Company's independent registered public accounting firm for the current fiscal year ending December 31, 2015. Please see "Audit-Related Matters—Independent Registered Public Accounting Firm Fees" above for a description of the services provided to us by PricewaterhouseCoopers LLP during the fiscal years ended December 31, 2014 and 2015.

Our Audit Committee has the responsibility for selecting our auditors, and stockholder approval is not required for the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm. However, we believe that our stockholders should have the opportunity to ratify such appointment and we are requesting that they do so at the Annual Meeting.

Representatives of PricewaterhouseCoopers LLP are expected to be present at the Annual Meeting and will have the opportunity to make a statement if they desire to do so. They are also expected to be available to respond to appropriate questions.

Required Vote and Board Recommendation

The affirmative vote of the holders of a majority of the shares present in person or by proxy and entitled to vote at the Annual Meeting is required for the approval of proposal 3. In the event our stockholders fail to ratify the appointment, our Audit Committee will reconsider its selection for our next fiscal year. Even if the appointment is ratified, our Audit Committee may direct the appointment of a different independent registered public accounting firm at any time during the year if the Audit Committee determines that such a change would be in the best interests of the Company and our stockholders.

Mr. Kotick, our Chief Executive Officer, and Mr. Kelly, the Chairman of our Board, may direct the voting of the shares held by ASAC II LP, an exempted limited partnership established under the laws of the Cayman Islands (i.e., ASAC), and acting by ASAC II LLC, its general partner. Messrs. Kotick and Kelly may also direct the voting of shares they beneficially own at their discretion, except they have agreed to vote any such shares that, when aggregated with ASAC's shares, represent shares of our Common Stock in excess of 19.9% of the issued and outstanding Common Stock either in a manner proportionally consistent with the vote of the shares of Common Stock not owned by them or ASAC or in accordance with the recommendation, if any, of a majority of the members of our Board not affiliated with ASAC. For more information see "Certain Relationships and Related Transactions—Relationships and Transactions—Relationships and Transactions with ASAC—ASAC Stockholders Agreement" above. As of the record date for the Annual Meeting, ASAC and Messrs. Kotick and Kelly collectively held shares representing approximately 24.2% of our issued and outstanding Common Stock. Messrs. Kotick and Kelly are expected to vote the shares over which they have discretion FOR proposal 3.

Your Board unanimously recommends that you vote FOR the ratification of the appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm.

TOTAL	33,926,117	(4) 17.91	40,703,512

(1) Reflects options to purchase shares of our Common Stock and, in the case of the 2008 Plan, 6,538,504 restricted share units, 3,006,480 of which have vesting tied to performance, and 780,529 performance shares, each reflecting the right to receive a share of our Common Stock, and, in the case of the 2014 Plan, 3,891,024 restricted share units, 3,436,499 of which have vesting tied to performance, each reflecting the right to receive a share of our Common Stock.

(2)

As there is no exercise price for restricted share units or performance shares, the values in this column represent the weighted average exercise price of any outstanding stock options under the relevant plan.

(3)

Upon adoption of the 2008 Plan, we ceased making awards under the following plans, although each remains in effect and continues to govern outstanding awards thereunder: the 2001 Plan; the 2003 Plan; the 2007 Plan; the 1999 Plan; and the 2002 Plan. Similarly, upon the adoption of the 2014 Plan, we ceased making awards under the 2008 Plan. The 2001 Plan, the 2003 Plan, the 2007 Plan, the 2008 Plan, the 1999 Plan and the 2002 Plan are collectively referred to herein as the “Rolled Up Plans”.

(4)

The number of shares assumes target performance for all outstanding unvested performance-based vesting restricted share units and performance shares. If achievement of maximum performance is assumed, the number of shares of Common Stock to be issued upon exercise of outstanding options, warrants and rights as of December 31, 2015 would be, in the case of the 2008 Plan, 15,846,517 shares, and, in the case of the 2014 Plan, 13,299,473 shares.

(5)

The 2014 Plan permits the granting of non-qualified stock options, incentive stock options (“ISOs”), stock appreciation rights (“SARs”), restricted shares, restricted share units, performance shares, performance units and any other equity-based awards to our and any of our subsidiaries’ directors, officers and other employees and consultants.

(6)

The number of shares reserved for issuance under the 2014 Plan may be increased from time to time by: (X) the number of shares relating to awards outstanding under any Rolled Up Plan that: (a) expire, or are forfeited, terminated or canceled, without the issuance of shares; (b) are settled in cash in lieu of shares; or (c) are exchanged, prior to the issuance of shares of our Common Stock, for awards not involving our Common Stock; (Y) if the exercise price of any stock option outstanding under any Rolled Up Plan is, or the tax withholding requirements with respect to any award outstanding under any Rolled Up Plan are, satisfied by withholding shares otherwise then deliverable in respect of the award or the actual or constructive transfer to the Company of shares already owned, the number of shares equal to the withheld or transferred shares; and (Z) if a SAR is exercised and settled in shares, the number of shares equal to the difference between the total number of shares with respect to which the award is exercised and the number of shares actually issued or transferred. The number of shares available for issuance under the 2014 Plan, as reflected in this table, assumes target performance of outstanding performance-based vesting restricted share units. If achievement of maximum performance is assumed, the number available for issuance under the 2014 Plan as of December 31, 2015 would be 39,979,799 shares.

(7)

On April 26, 1999, our Board approved the 1999 Plan. The 1999 Plan permitted the granting of non-qualified stock options, ISOs, SARs, restricted stock awards, deferred share awards and other equity-based awards to our or any of our subsidiaries’ directors, officers, key employees, consultants, representatives and other agents, but only non-qualified stock options have been granted thereunder. All stock options granted under the 1999 Plan have an exercise price equal to the fair market value of a share of our Common Stock on the date of grant and a term of 10 years and they generally vest on a pro rata basis over a specified period of time or vest in their entirety on an anniversary of the date of grant (subject to possible earlier vesting if certain performance objectives are satisfied). The 1999 Plan expired on May 31, 2009; however, we ceased making awards under the 1999 Plan upon adoption of the 2007 Plan.

(8)

On April 4, 2002, our Board approved the 2002 Plan. The 2002 Plan permitted the granting of non-qualified stock options, ISOs, SARs, restricted stock awards, deferred share awards and other equity-based awards to our or any of

our subsidiaries' or affiliates' officers (other than executive officers), employees, consultants and advisors, but only non-qualified stock options have been granted thereunder. All stock options granted under the 2002 Plan have an exercise price equal to the fair market value of a share of our Common Stock on the date of grant and a term of 10 years and they generally vest on a pro rata basis over a specified period of time or vest in their entirety on an anniversary of the date of grant (subject to possible earlier vesting if certain performance objectives are satisfied). The 2002 Plan expired on April 3, 2012; however, we ceased making awards under the 2002 Plan upon adoption of the 2007 Plan.

To be proper, the notice must be in writing and contain all of the information required by our Bylaws (e.g., a description of any material interest of such person or the stockholder nominating him or her and other information that would be required to be included in our proxy statement for the meeting if such person was nominated by our Board) and include such person's written consent to being named in the proxy statement as a nominee and to serve as a director if elected.
