Cautionary Note Regarding Forward-Looking Statements

This quarterly report on Form 10-Q contains “forward-looking statements” within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as: “anticipate,” “intend,” “plan,” “goal,” “seek,” “aim,” “strive,” “believe,” “project,” “predict,” “estimate,” “expect,” “strategy,” “future,” “likely,” “may,” “might,” “should,” “will,” the negative of these terms, and similar references to future performance. Examples of forward-looking statements include, among others, statements we make regarding: guidance and predictions relating to expected operating results, such as revenue growth and earnings; strategic actions, including acquisitions and dispositions, anticipated benefits from strategic actions, and our success in integrating acquired businesses; anticipated levels of capital expenditures in future periods; our belief that we have sufficient liquidity to fund our ongoing business operations; expectations of the effect on our financial condition of claims, litigation, environmental costs, contingent liabilities and governmental and regulatory investigations and proceedings; and our strategy for customer retention, growth, product development, market position, financial results, and reserves.

Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based only on our current beliefs, expectations, and assumptions regarding the future of our business, future plans and strategies, projections, anticipated events and trends, the economy, and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks, and changes in circumstances that are difficult to predict and many of which are outside of our control. Our actual results and financial condition may differ materially from those indicated in the forward-looking statements. Therefore, you should not rely on any of these forward-looking statements. Important factors that could cause our actual results and financial condition to differ materially from those indicated in the forward-looking statements include, among others, the following: economic and financial conditions, including volatility in interest and exchange rates; our ability to manage system failures, capacity constraints, and cyber risks; our ability to successfully manage risks associated with changes in demand for our products and services as well as changes in our targeted industries; our ability to develop new platforms to deliver our products and services, pricing, and other competitive pressures, and changes in laws and regulations governing our business; the extent to which we are successful in gaining new long-term relationships with customers or retaining existing ones and the level of service failures that could lead customers to use competitors’ services; our ability to successfully identify and integrate acquisitions into our existing businesses and manage risks associated therewith; our ability to satisfy our debt obligations and our other ongoing business obligations; and the other factors described under the caption “Risk Factors” in our annual report on Form 10-K for the fiscal year ended

Edgar Filing: IHS Inc. - Form 10-Q

November 30, 2014, along with our other filings with the U.S. Securities and Exchange Commission (SEC).

Any forward-looking statement made by us in this quarterly report on Form 10-Q is based only on information currently available to us and speaks only as of the date of this report. We undertake no obligation to publicly update any forward-looking statement, whether written or oral, that may be made from time to time, whether as a result of new information, future developments, or otherwise.

IHS INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Basis of Presentation and Significant Accounting Policies

The accompanying unaudited condensed consolidated financial statements of IHS Inc. (IHS, we, us, or our) have been prepared on substantially the same basis as our annual consolidated financial statements and should be read in conjunction with our annual report on Form 10-K for the year ended November 30, 2014. In our opinion, these condensed consolidated financial statements reflect all adjustments necessary for a fair presentation of the financial position, results of operations, and cash flows for the periods presented, and such adjustments are of a normal, recurring nature.

Our business has seasonal aspects. Our fourth quarter typically generates our highest quarterly levels of revenue and profit. Conversely, our first quarter generally has our lowest levels of revenue and profit. We also experience event-driven seasonality in our business; for instance, IHS Energy CERAWeek, an annual energy executive gathering, is held during our second quarter. Another example is the biennial release of the Boiler Pressure Vessel Code (BPVC) engineering standard, which generates revenue for us predominantly in the third quarter of every other year. We most recently recognized a benefit in connection with the BPVC release in the third quarter of 2013.

Recent Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-08, which changes the criteria for determining which disposals can be presented as discontinued operations and modifies related disclosure requirements. The ASU is intended to reduce the frequency of disposals reported as discontinued operations by focusing on strategic shifts that have (or will have) a major effect on an entity's operations and financial results. The standard will be effective for us in the first quarter of our fiscal year 2016, although early adoption is permitted. We do not expect that the adoption of this ASU will have a significant impact on our consolidated financial statements other than changing the classification criteria and related disclosures for any potential future disposals.

In May 2014, the FASB issued ASU 2014-09, which establishes a comprehensive new revenue recognition model designed to depict the transfer of goods or services to a customer in an amount that reflects the consideration the entity expects to receive in exchange for those goods or services. The ASU allows for the use of either the full or modified retrospective transition method, and the standard will be effective for us in the first quarter of our fiscal year 2018, although the FASB has proposed a one-year deferral of the effective date; early adoption is not permitted. We are currently evaluating the impact of this new standard on our consolidated financial statements, as well as which transition method we intend to use.

In August 2014, the FASB issued ASU 2014-15, which requires that management evaluate the entity's ability to continue as a going concern within one year after the date that the financial statements are issued. Disclosure is required if there is substantial doubt about the entity's ability to continue as a going concern. The standard will be effective for us in the fourth quarter of our fiscal year 2017, although early adoption is permitted. We do not expect that the adoption of this ASU will have a significant impact on our consolidated financial statements.

In April 2015, the FASB issued ASU 2015-03, which requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability. The standard will be effective for us in the first quarter of our fiscal 2017, although early adoption is permitted. We expect that the only impact of this ASU on our financial statements will be the change in balance sheet presentation of our

debt issuance costs.

In April 2015, the FASB issued ASU 2015-05, which provides guidance about a customer's accounting for fees paid in cloud computing arrangements. If a cloud computing arrangement includes a software license, then the customer should account for the software license element consistent with the acquisition of other software licenses. If the arrangement does not contain a software license, the customer should account for the arrangement as a service contract. The standard will be effective for us in the first quarter of our fiscal year 2017, although early adoption is permitted. We anticipate that we will adopt this standard using the prospective transition method, and do not expect that the adoption of this ASU will have a significant impact on our consolidated financial statements.

2. Business Combinations

During the six months ended May 31, 2015, we completed the following acquisitions, none of which were material either individually or in the aggregate:

9

Table of Contents

JOC Group Inc. (JOC Group). On December 9, 2014, we acquired JOC Group, a leading global supplier of U.S. seaborne trade intelligence. We acquired JOC Group in support of our strategy to build integrated workflow solutions that target critical industry and government needs relating to global trade.

Infonetics Research, Inc. (Infonetics). On December 15, 2014, we acquired Infonetics, a global leader in communications technology market intelligence. We acquired Infonetics in order to provide our customers with a global, end-to-end view of the information and communications technology supply chain.

Rushmore Associates Limited (Rushmore Reviews). On February 3, 2015, we acquired Rushmore Reviews, a leading service provider for drilling and completions solutions in the oil and gas industry. We acquired Rushmore Reviews in order to complement our existing set of well information assets and expand them globally.

Dataium. On March 25, 2015, we acquired Dataium, a U.S.-based company that provides business intelligence and analysis to the automotive industry. We acquired Dataium in order to enhance our automotive offerings with Dataium's compilation and analysis of online automotive shopping behavior and markets.

Root Wireless, Inc. (RootMetrics). On April 17, 2015, we acquired RootMetrics, a recognized leader in mobile network analytics. We acquired RootMetrics in order to strengthen our position in telecommunications analytics and market intelligence, particularly related to the mobile user experience.

The aggregate purchase price for these acquisitions was approximately \$370 million, net of cash acquired. We have preliminarily allocated \$118 million of the purchase price to amortizing intangible assets and \$284 million to goodwill.

3. Intangible Assets

The following table presents details of our intangible assets, other than goodwill, as of May 31, 2015 and November 30, 2014 (in thousands):

	As of May 31, 2015			As of November 30, 2014		
	Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net
Intangible assets subject to amortization:						
Information databases	\$653,992	\$(240,159)	\$413,833	\$607,655	\$(210,105)	\$397,550
Customer relationships	569,943	(135,482)	434,461	511,680	(116,138)	395,542
Developed computer software	135,727	(70,364)	65,363	138,940	(63,561)	75,379
Trademarks	169,264	(29,865)	139,399	163,739	(22,937)	140,802
Other	28,075	(10,530)	17,545	29,579	(8,844)	20,735
Total	\$1,557,001	\$(486,400)	\$1,070,601	\$1,451,593	\$(421,585)	\$1,030,008
Intangible assets not subject to amortization:						
Trademarks	58,952	—	58,952	61,101	—	61,101
Total intangible assets	\$1,615,953	\$(486,400)	\$1,129,553	\$1,512,694	\$(421,585)	\$1,091,109

Table of Contents

Intangible assets amortization expense was \$36.7 million and \$71.7 million for the three and six months ended May 31, 2015, respectively, as compared to \$33.1 million and \$66.9 million for the three and six months ended May 31, 2014. The following table presents the estimated future amortization expense related to intangible assets held as of May 31, 2015 (in thousands):

Year	Amount
Remainder of 2015	\$ 75,041
2016	\$ 139,626
2017	\$ 125,147
2018	\$ 109,754
2019	\$ 95,841
Thereafter	\$ 525,192

Goodwill, gross intangible assets, and net intangible assets were all subject to foreign currency translation effects. Changes in our goodwill and gross intangible assets from November 30, 2014 to May 31, 2015 were primarily the result of recent acquisitions, net of foreign currency effects. The change in net intangible assets was primarily due to current year amortization, partially offset by the acquisitions made in 2015.

4. Debt

The following table summarizes total indebtedness as of May 31, 2015 and November 30, 2014 (in thousands):

	May 31, 2015	November 30, 2014
2013 term loan	\$682,500	\$700,000
2014 revolving facility	690,000	385,000
5% senior notes due 2022	750,000	750,000
Capital leases	6,592	7,355
Total debt	\$2,129,092	\$1,842,355
Current portion	(36,001) (36,257
Total long-term debt	\$2,093,091	\$1,806,098

2013 term loan. In October 2014, we amended and restated our \$700 million senior unsecured amortizing term loan agreement originally entered into in the third quarter of 2013 (2013 term loan). The 2013 term loan has a maturity date of October 2019. The interest rates for borrowings under the 2013 term loan are the applicable LIBOR plus a spread of 1.00 percent to 1.75 percent, depending upon our Leverage Ratio, which is defined as the ratio of Consolidated Funded Indebtedness to rolling four-quarter Consolidated Earnings Before Interest Expense, Taxes, Depreciation and Amortization (EBITDA), as such terms are defined in the term loan agreement.

2014 revolving facility. In October 2014, we entered into a \$1.3 billion senior unsecured revolving credit agreement (2014 revolving facility). Commitments of \$500 million are available for borrowing by certain of our foreign subsidiaries and \$50 million is available for letters of credit. Subject to certain conditions, the 2014 revolving facility may be expanded by up to an aggregate of \$500 million in additional commitments. Borrowings under the 2014 revolving facility mature in October 2019 and bear interest at the same rates and spreads as the 2013 term loan. A commitment fee on any unused balance is payable periodically and ranges from 0.13 percent to 0.30 percent based upon our Leverage Ratio. The 2014 revolving facility contains certain financial and other covenants, including a maximum Leverage Ratio and a minimum Interest Coverage Ratio, as such terms are defined in the 2014 revolving facility.

We had approximately \$1.8 million of outstanding letters of credit under the 2014 revolving facility as of May 31, 2015, which reduces the available borrowing under the 2014 revolving facility by an equivalent amount.

The 2013 term loan and 2014 revolving facility agreements allow for leverage up to 3.5x, with the ability to temporarily increase that leverage to 3.75x for two quarters.

5% senior notes due 2022 (5% Notes). In October 2014, we issued \$750 million aggregate principal amount of senior unsecured notes due 2022 in an offering not subject to the registration requirements of the Securities Act of 1933, as amended (the Securities Act). The 5% Notes bear interest at a fixed rate of 5.000 percent and mature on November 1, 2022. Interest on

Table of Contents

the 5% Notes is due semiannually on May 1 and November 1 of each year, commencing May 1, 2015. We may redeem the 5% Notes in whole or in part at a redemption price equal to 100% of the principal amount of the notes plus the Applicable Premium, as defined in the indenture governing the 5% Notes. Additionally, at the option of the holders of the notes, we may be required to purchase all or a portion of the notes upon occurrence of a Change of Control Triggering Event as defined in the indenture, at a price equal to 101 percent of the principal amount thereof, plus accrued and unpaid interest to the date of purchase. The indenture contains covenants that limit our ability to, among other things, incur or create liens and enter into sale and leaseback transactions. In addition, the indenture contains a covenant that limits our ability to consolidate or merge with another entity or to sell all or substantially all of our assets to another entity. The indenture contains customary default provisions.

In connection with the issuance of the 5% Notes, we also entered into a registration rights agreement pursuant to which we agreed to conduct a registered exchange offer for the 5% Notes within 365 days of their issuance or, under certain circumstances, to file and cause to become effective a shelf registration statement providing for the resale of the 5% Notes. If we fail to comply with certain obligations under the registration rights agreement, we will be required to pay liquidated damages in the form of additional interest to holders of the 5% Notes.

As of May 31, 2015, we were in compliance with all of our debt covenants. We have classified short-term debt based on principal maturities and expected cash availability over the next 12 months. As of May 31, 2015, we had approximately \$690 million of outstanding borrowings under the 2014 revolving facility at a current annual interest rate of 1.73 percent and approximately \$683 million of outstanding borrowings under the 2013 term loan at a current weighted average annual interest rate of 2.29 percent, including the effect of the interest rate swaps described in Note 5.

The carrying value of our debt instruments other than our 5% Notes approximate their fair value because of the variable interest rates associated with those instruments. The fair value of the 5% Notes as of May 31, 2015 was approximately \$759 million, and was measured using observable inputs in markets that are not active; consequently, we have classified the 5% Notes within Level 2 of the fair value hierarchy.

5. Derivatives

Our business is exposed to various market risks, including interest rate and foreign currency risks. We utilize derivative instruments to help us manage these risks. We do not hold or issue derivatives for speculative purposes.

Interest Rate Swaps

To mitigate interest rate exposure on our outstanding floating rate debt, we utilize the following types of derivative instruments:

Interest rate derivative contracts that effectively swap \$200 million of floating rate debt at a 2.24 percent weighted-average fixed interest rate, plus the applicable spread on our floating rate debt. We entered into these swap contracts in 2011 and 2014, and the contracts expire in July 2015 and May 2020.

Forward-starting interest rate derivative contracts that effectively swap \$300 million of floating rate debt at a 2.93 percent weighted-average fixed interest rate, plus the applicable spread on our floating rate debt. We entered into these swap contracts in 2013 and 2014. The contracts take effect in August and November 2015, with respective expiration dates in August 2020 and November 2020.

Because the terms of these swaps and the variable rate debt (as amended or extended over time) coincide, we do not expect any ineffectiveness. We have designated and accounted for these instruments as cash flow hedges, with

changes in fair value being deferred in accumulated other comprehensive income/loss (AOCI) in our consolidated balance sheets.

Foreign Currency Forwards

To mitigate foreign currency exposure, we utilize the following derivative instruments:

Foreign currency forward contracts that hedge the foreign currency exposure on Euro-denominated receipts and British Pound-denominated expenses. Because the critical terms of the forward contracts and the forecasted cash flows coincide, we do not expect any ineffectiveness associated with these contracts. We have designated and accounted for these derivatives as cash flow hedges, with changes in fair value being deferred in AOCI in our consolidated balance sheets. The notional amount of outstanding foreign currency

Table of Contents

forwards under these agreements as of May 31, 2015 and November 30, 2014 was approximately \$17.6 million and \$11.0 million, respectively.

Short-term foreign currency forward contracts that manage market risks associated with fluctuations in balances that are denominated in currencies other than the local functional currency. We account for these forward contracts at fair value and recognize the associated realized and unrealized gains and losses in other expense (income), net, since we have not designated these contracts as hedges for accounting purposes. The following table summarizes the notional amounts of these outstanding foreign currency forward contracts as of May 31, 2015 and November 30, 2014 (in thousands):

	May 31, 2015	November 30, 2014
Notional amount of currency pair:		
Contracts to buy USD with CAD	\$ 52,343	\$ 51,194
Contracts to buy CAD with GBP	C\$ 79,000	C\$ 50,000
Contracts to buy USD with EUR	\$ 9,102	\$ 12,517
Contracts to buy CHF with USD	CHF 11,000	CHF 9,000
Contracts to buy GBP with EUR	£ 4,349	£ 4,774
Contracts to buy USD with GBP	\$ 38,000	\$ 48,000
Contracts to buy USD with JPY	\$ 7,434	\$ 8,778
Contracts to buy USD with KRW	\$ 9,536	\$ 10,000
Contracts to buy USD with CNY	\$ 4,017	\$ —
Contracts to buy USD with TWD	\$ 5,074	\$ —

Fair Value of Derivatives

Since our derivative instruments are not listed on an exchange, we have evaluated fair value by reference to similar transactions in active markets; consequently, we have classified all of our derivative instruments within Level 2 of the fair value measurement hierarchy. The following table shows the classification, location, and fair value of our derivative instruments as of May 31, 2015 and November 30, 2014 (in thousands):

	Fair Value of Derivative Instruments		Location on consolidated balance sheets
	May 31, 2015	November 30, 2014	
Assets:			
Derivatives designated as accounting hedges:			
Foreign currency forwards	\$777	\$987	Other current assets
Derivatives not designated as accounting hedges:			
Foreign currency forwards	2,420	1,005	Other current assets
Total	\$3,197	\$1,992	
Liabilities:			
Derivatives designated as accounting hedges:			
Interest rate swaps	\$21,600	\$16,662	Other accrued expenses and other liabilities
Foreign currency forwards	57	—	Other accrued expenses
Derivatives not designated as accounting hedges:			
Foreign currency forwards	1,540	475	Other accrued expenses
Total	\$23,197	\$17,137	

The net (gain) loss on foreign currency forwards that are not designated as hedging instruments for the three and six months ended May 31, 2015 and 2014, respectively, was as follows (in thousands):

13

Table of Contents

	Amount of (gain) loss recognized in the consolidated statements of operations				Location on consolidated statements of operations
	Three months ended May 31,		Six months ended May 31,		
	2015	2014	2015	2014	
Foreign currency forwards	\$(397) \$1,274	\$(960) \$(931) Other expense (income), net

The following table provides information about the cumulative amount of unrecognized hedge losses recorded in AOCI, net of tax, as of May 31, 2015 and 2014, respectively, as well as the activity on our cash flow hedging instruments for the three and six months ended May 31, 2015 and 2014, respectively (in thousands):

	Three months ended May 31,		Six months ended May 31,	
	2015	2014	2015	2014
Beginning balance	\$(10,901) \$(4,674) \$(9,482) \$(2,199
Amount of gain (loss) recognized in AOCI on derivative:				
Interest rate swaps	(1,690) (2,792) (3,495) (5,279
Foreign currency forwards	312	120	824	(171
Amount of loss (gain) reclassified from AOCI into income:				
Interest rate swaps ⁽¹⁾	280	239	508	474
Foreign currency forwards ⁽¹⁾	(437) 144	(791) 212
Ending balance	\$(12,436) \$(6,963) \$(12,436) \$(6,963

(1) Pre-tax amounts reclassified from AOCI into income related to interest rate swaps are recorded in interest expense, and pre-tax amounts reclassified from AOCI into income related to foreign currency forwards are recorded in revenue.

The unrecognized gains relating to the foreign currency forwards are expected to be reclassified into revenue within the next 12 months, and approximately \$6.4 million of the \$21.6 million unrecognized pre-tax losses relating to the interest rate swaps are expected to be reclassified into interest expense within the next 12 months.

6. Restructuring Charges

During the six months ended May 31, 2015, we eliminated 302 positions as part of resource refinement and alignment across most of our business functions, and we incurred additional direct and incremental costs related to lease abandonments and further consolidation of our legacy data centers. We expect to continue to incur costs related to these and other similar activities in future periods, resulting in additional restructuring charges.

During the six months ended May 31, 2015, we recorded approximately \$21.7 million of restructuring charges for these activities. Of these charges, approximately \$16.1 million was recorded in the Americas segment, \$4.5 million was recorded in the EMEA segment, and \$1.1 million was recorded in the APAC segment.

The following table provides a reconciliation of the restructuring liability as of May 31, 2015 (in thousands):

	Employee Severance and Other Termination Benefits	Contract Termination Costs	Other	Total
Balance at November 30, 2014	\$2,967	\$17	\$140	\$3,124

Edgar Filing: IHS Inc. - Form 10-Q

Add: Restructuring costs incurred	20,389	611	966	21,966	
Revision to prior estimates	(313) —	—	(313)
Less: Amount paid	(17,325) —	(998) (18,323)
Balance at May 31, 2015	\$5,718	\$628	\$108	\$6,454	

As of May 31, 2015, approximately \$3.6 million of the remaining restructuring liability was in the Americas segment, approximately \$2.6 million was in the EMEA segment, and approximately \$0.3 million was in the APAC segment. The remaining \$6.5 million restructuring liability is expected to be paid within the next 12 months.

Table of Contents

7. Acquisition-related Costs

During the six months ended May 31, 2015, we recorded approximately \$0.5 million of direct and incremental costs associated with acquisition-related activities, primarily legal and professional fees, most of which was recorded in the Americas segment.

The following table provides a reconciliation of the acquisition-related costs accrued liability as of May 31, 2015 (in thousands):

	Employee Severance and Other Termination Benefits	Contract Termination Costs	Other	Total
Balance at November 30, 2014	\$586	\$115	\$417	\$1,118
Add: Costs incurred	—	166	333	499
Revision to prior estimates	2	11	(35)	(22)
Less: Amount paid	(450)	(96)	(715)	(1,261)
Balance at May 31, 2015	\$138	\$196	\$—	\$334

As of May 31, 2015, the remaining acquisition-related costs accrued liability was primarily in the Americas segment. We expect that the remaining liability will be substantially paid within the next 12 months.

8. Pensions and Postretirement Benefits

Our net periodic pension expense for the three and six months ended May 31, 2015 and 2014 was comprised of the following (in thousands):

	Three months ended May 31,		Six months ended May 31,	
	2015	2014	2015	2014
Service costs incurred	\$494	\$3,048	\$989	\$6,093
Interest costs on projected benefit obligation	2,070	2,140	4,147	4,241
Expected return on plan assets	(2,168)	(2,134)	(4,345)	(4,224)
Amortization of prior service credit	—	(338)	—	(676)
Amortization of transitional obligation	—	11	—	22
Net periodic pension expense	\$396	\$2,727	\$791	\$5,456

Our net periodic postretirement expense was comprised of the following for the three and six months ended May 31, 2015 and 2014 (in thousands):

	Three months ended May 31,		Six months ended May 31,	
	2015	2014	2015	2014
Service costs incurred	\$4	\$4	\$8	\$8
Interest costs	97	103	194	206
Net periodic postretirement expense	\$101	\$107	\$202	\$214

9. Stock-based Compensation

Stock-based compensation expense for the three and six months ended May 31, 2015 and 2014 was as follows (in thousands):

Table of Contents

	Three months ended May 31,		Six months ended May 31,	
	2015	2014	2015	2014
Cost of revenue	\$1,444	\$1,511	\$2,858	\$3,371
Selling, general and administrative	32,900	34,521	64,976	76,625
Total stock-based compensation expense	\$34,344	\$36,032	\$67,834	\$79,996
Total income tax benefits recognized for stock-based compensation arrangements were as follows (in thousands):				
	Three months ended May 31,		Six months ended May 31,	
	2015	2014	2015	2014
Income tax benefits	\$11,002	\$12,322	\$21,745	\$27,384

No stock-based compensation cost was capitalized during the three and six months ended May 31, 2015 and 2014.

As of May 31, 2015, there was \$153.4 million of unrecognized stock-based compensation cost, adjusted for estimated forfeitures, related to unvested stock-based awards that will be recognized over a weighted-average period of approximately 1.7 years. Total unrecognized stock-based compensation cost will be adjusted for future changes in estimated forfeitures and changes in estimated achievement of performance goals.

Restricted Stock Units (RSUs). The following table summarizes RSU activity during the six months ended May 31, 2015:

	Shares	Weighted-Average Grant Date Fair Value
	(in thousands)	
Balance at November 30, 2014	2,518	\$102.24
Granted	926	\$115.23
Vested	(941) \$98.25
Forfeited	(88) \$113.54
Balance at May 31, 2015	2,415	\$108.36

The total fair value of RSUs that vested during the six months ended May 31, 2015 was \$107.6 million.

10. Income Taxes

Our effective tax rate is estimated based upon the effective tax rate expected to be applicable for the full year. Our effective tax rate for the three and six months ended May 31, 2015 was 22.4 percent and 20.8 percent, respectively, compared to 23.4 percent and 22.2 percent for the same periods of 2014, due to the benefit of certain discrete items.

11. Commitments and Contingencies

From time to time, we are involved in litigation in the ordinary course of our business, including claims or contingencies that may arise related to matters occurring prior to our acquisition of businesses, such as the matter described below. At the present time, we can give no assurance as to the outcome of any pending litigation to which we are currently a party and we are unable to determine the ultimate resolution of or provide a reasonable estimate of the range of possible loss attributable to these matters or the effect they may have on us. However, we do not expect the outcome of such proceedings to have a material adverse effect on our results of operations or financial condition. We have and will continue to vigorously defend ourselves against these claims.

On April 23, 2013 (prior to our acquisition of R.L. Polk & Co.), our CARFAX subsidiary (CARFAX) was served with a complaint filed in the U.S. District Court for the Southern District of New York, purportedly on behalf of certain auto and light truck dealers. The complaint alleges, among other things that, in violation of antitrust laws, CARFAX entered into exclusive arrangements regarding the sale of CARFAX vehicle history reports with certain auto manufacturers and owners of two websites providing classified listings of used autos and light trucks. The complaint

seeks three times the actual damages that a jury finds the plaintiffs have sustained, injunctive relief, costs and attorneys' fees. On October 25, 2013, the plaintiffs served a second amended complaint with similar allegations purporting to name approximately 469 auto dealers as plaintiffs and counsel for plaintiffs have indicated that there may be additional claimants. There are significant legal and factual issues to be

Table of Contents

determined. We believe, however, that the probability that the outcome of the litigation will have a material adverse effect on our results of operations or financial condition is remote.

12. Common Stock and Earnings per Share

Weighted-average shares of Class A common stock outstanding for the three and six months ended May 31, 2015 and 2014 were calculated as follows (in thousands):

	Three months ended May 31,		Six months ended May 31,	
	2015	2014	2015	2014
Weighted-average shares outstanding:				
Shares used in basic EPS calculation	68,802	68,216	68,752	68,015
Effect of dilutive securities:				
Restricted stock units	309	481	506	715
Shares used in diluted EPS calculation	69,111	68,697	69,258	68,730

Share Repurchase Programs

In January 2015, our board of directors authorized us to repurchase up to \$100 million of our Class A common stock in open market purchases or through privately negotiated transactions in compliance with Rule 10b-18 under the Securities Exchange Act of 1934, as amended (the Exchange Act), subject to market conditions, applicable legal requirements and other relevant factors. The repurchase program does not obligate IHS to repurchase any set dollar amount or number of shares and is scheduled to expire on November 30, 2015, but may be suspended at any time at our discretion. All of our previously announced share repurchase programs have been terminated. During the first six months of 2015, we repurchased 554,407 shares under this program for a total of approximately \$67.5 million, at an average price of approximately \$121.82 per share. We subsequently completed this program in June 2015.

In June 2015, our board of directors authorized us to repurchase up to \$500 million of our Class A common stock in open market purchases or through privately negotiated transactions in compliance with Rule 10b-18 under the Exchange Act, subject to market conditions, applicable legal requirements and other relevant factors. The repurchase program does not obligate IHS to repurchase any set dollar amount or number of shares and is scheduled to expire on November 30, 2017, but may be suspended at any time at our discretion. The amount authorized under this program is inclusive of share repurchases of our Class A common stock surrendered by employees in an amount equal to the statutory tax liability associated with the vesting of their equity awards, for which we pay the statutory tax on behalf of the employee.

13. Accumulated Other Comprehensive Income (Loss)

The following table summarizes the changes in AOCI by component (net of tax) for the six months ended May 31, 2015 (in thousands):

	Foreign currency translation	Net pension and OPEB liability	Unrealized losses on hedging activities	Total
Balance at November 30, 2014	\$(83,634)) \$(13,609)) \$(9,482)) \$(106,725)
Other comprehensive loss before reclassifications	(45,808)) —) (2,671)) (48,479)
Reclassifications from AOCI to income	—) —) (283)) (283)
Balance at May 31, 2015	\$(129,442)) \$(13,609)) \$(12,436)) \$(155,487)

14. Segment Information

We prepare our financial reports and analyze our business results within our three reportable geographic segments: Americas, EMEA, and APAC. We evaluate segment performance primarily at the revenue and operating profit level for each of these three segments. We also evaluate revenues by transaction type and product category.

Information about the operations of our three segments is set forth below. No single customer accounted for 10% or more of our total revenue for the three and six months ended May 31, 2015 and 2014. There are no material inter-segment revenues for any period presented. Certain corporate transactions are not allocated to the reportable segments, including such

Table of Contents

items as stock-based compensation expense, net periodic pension and postretirement expense, corporate-level impairments, and gain (loss) on sale of corporate assets.

15. Supplemental Guarantor Information

Our 5% Notes are fully and unconditionally guaranteed on a senior unsecured basis, jointly and severally, by the following wholly owned subsidiaries of IHS Inc. (collectively, the Guarantor Subsidiaries):

- IHS Holding Inc.
- IHS Global Inc.
- R.L. Polk & Co.
- CARFAX, Inc.

The guarantees of our 5% Notes by the Guarantor Subsidiaries contain customary release provisions, which provide for the termination of such guarantees upon (i) the sale or other disposition (including by way of consolidation or merger) of the Guarantor Subsidiary or the sale or disposition of all or substantially all the assets of the Guarantor Subsidiary (in each case other than to the parent company (IHS Inc.) or another subsidiary of the parent company), (ii) the defeasance of the 5% Notes,

18

Table of Contents

(iii) at such time as the Guarantor Subsidiary ceases to be a guarantor of any significant indebtedness of the company, or (iv) if approved by the holders of the 5% Notes (except as provided in the indenture governing the 5% Notes).

The following supplemental tables present condensed consolidating financial information for the parent company, the Guarantor Subsidiaries on a combined basis, and the non-guarantor subsidiaries on a combined basis.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following Management's Discussion and Analysis is intended to help the reader understand the financial condition and results of operations of IHS Inc. (IHS, we, us, or our). The following discussion should be read in conjunction with our annual report on Form 10-K for the year ended November 30, 2014 and the Condensed Consolidated Financial Statements and accompanying notes included in this quarterly report on Form 10-Q. References to 2015 are to our fiscal 2015, which began on December 1, 2014 and ends on November 30, 2015.

Executive Summary

Business Overview

We are a leading source of information, insight and analytics in critical areas that shape today's business landscape. Businesses and governments in more than 150 countries around the globe rely on our comprehensive content, expert independent analysis, and flexible delivery methods. Our aim is to embed our solutions within the entire spectrum of our customers' organization, enabling executive-level capital deployment strategies and following decision-making activities throughout their organizations to front-line employees tasked with managing their company's complex core daily operations. We have been in business since 1959 and became a publicly traded company on the New York Stock

Exchange in 2005. Headquartered in Englewood, Colorado, USA, we are committed to sustainable, profitable growth and employ approximately 8,800 people in 32 countries around the world.

Inherent in all of our strategies is a firm commitment to put our customers first in everything that we do. To best serve our customers and be as close to them as possible, we are organized by geographies into three business segments: Americas, EMEA, and APAC. Our integrated global organization is designed to make it easier for our customers to do business with us by providing a cohesive, consistent, and effective sales-and-marketing approach in each local region.

Table of Contents

Subscriptions represented approximately 78 percent of our total revenue in the second quarter of 2015. Our subscription agreements are typically annual and non-cancellable for the term of the subscription and may contain provisions for minimum monthly payments. For subscription revenue, the timing of our cash flows generally precedes the recognition of revenue and income, and therefore, we typically have good revenue visibility.

Our business has seasonal aspects. Our fourth quarter typically generates our highest quarterly levels of revenue and profit. Conversely, our first quarter generally has our lowest levels of revenue and profit. We also experience event-driven seasonality in our business; for instance, IHS Energy CERAWeek, an annual energy executive gathering, is held during our second quarter. Another example is the biennial release of the Boiler Pressure Vessel Code (BPVC) engineering standard, which generates revenue for us predominantly in the third quarter of every other year. We most recently recognized a benefit in connection with the BPVC release in the third quarter of 2013.

In 2015, we continue to focus on our key strategic priorities:

Operational excellence. Operational excellence encompasses our efforts to continuously improve our internal systems and processes to help us become more efficient, as well as allow us to capture new growth and expand margins as we strive to fully leverage a common global infrastructure.

Commercial expansion. We expect to continue our pace of new and integrated product platform releases and offerings, and we are on track with the development and release of product platforms across the various workflows we service. We also continue to target high potential and new opportunity accounts through our sales initiatives.

Global Operations

Approximately 40 percent of our revenue is generated outside of the United States; however, only about 20 percent of our revenue is transacted in currencies other than the U.S. dollar. As a result, a strengthening U.S. dollar relative to certain currencies has historically resulted in a negative impact to our revenue; conversely, a weakening U.S. dollar has historically resulted in a positive impact to our revenue. However, the impact on operating income is diminished due to certain operating expenses denominated in currencies other than the U.S. dollar. Our largest foreign currency exposures, in order of magnitude, are the British Pound, Canadian Dollar, and Euro.

Key Performance Indicators

We believe that revenue growth, Adjusted EBITDA (both in dollars and margin), and free cash flow are the key financial measures of our success. Adjusted EBITDA and free cash flow are financial measures that are not prepared in accordance with GAAP (non-GAAP).

Revenue growth. We review year-over-year revenue growth in our segments as a key measure of our success in addressing customer needs in each region of the world in which we operate. We measure revenue growth in terms of organic, acquisitive, and foreign currency impacts. We define these components as follows:

Organic – We define organic revenue growth as total revenue growth from continuing operations for all factors other than acquisitions and foreign currency movements. We drive this type of revenue growth through value realization (pricing), expanding wallet share of existing customers through up-selling and cross-selling efforts, securing new customer business, and through the sale of new or enhanced product offerings.

- **Acquisitive** – We define acquisitive revenue as the revenue generated from acquired products and services from the date of acquisition to the first anniversary date of that acquisition. This type of growth comes as a result of our strategy to purchase, integrate, and leverage the value of assets we acquire. We also include the impact of

divestitures in this growth metric.

Foreign currency – We define the foreign currency impact on revenue as the difference between current revenue at current exchange rates and current revenue at the corresponding prior period exchange rates. Due to the significance of revenue transacted in foreign currencies, we measure the impact of foreign currency movements on revenue.

We also measure and report revenue by transaction type. Understanding revenue by transaction type helps us identify broad changes in product mix. We summarize our transaction type revenue into the following two categories:

29

Table of Contents

Subscription revenue represents the significant majority of our revenue, and is comprised of subscriptions to our various information offerings and software maintenance.

Non-subscription revenue represents consulting (e.g., research and analysis, modeling, and forecasting), services, single-document product sales, software license sales and associated services, conferences and events, and advertising. Our non-subscription products and services are an important part of our business because they complement our subscription business in creating strong and comprehensive customer relationships.

We also measure and report revenue by product category, which helps us understand performance based on our capabilities within key vertical industries and horizontal workflows.

Non-GAAP measures. We use non-GAAP financial measures such as EBITDA, Adjusted EBITDA, and free cash flow in our operational and financial decision-making, and believe that such measures allow us to focus on what we deem to be more reliable indicators of ongoing operating performance (Adjusted EBITDA) and our ability to generate cash flow from operations (free cash flow). We also believe that investors may find non-GAAP financial measures useful for the same reasons, although we caution readers that non-GAAP financial measures are not a substitute for GAAP financial measures or disclosures. None of these non-GAAP financial measures are recognized terms under GAAP and do not purport to be an alternative to net income or operating cash flow as an indicator of operating performance or any other GAAP measure. Throughout this section on management's discussion and analysis and on our website (www.ihs.com), we provide reconciliations of these non-GAAP financial measures to the most directly comparable GAAP measures.

EBITDA and Adjusted EBITDA. EBITDA and Adjusted EBITDA are used by many of our investors, research analysts, investment bankers, and lenders to assess our operating performance. For example, a measure similar to Adjusted EBITDA is required by the lenders under our 2013 term loan and 2014 revolving facility. We define EBITDA as net income plus or minus net interest, plus provision for income taxes, depreciation, and amortization. Our definition of Adjusted EBITDA further excludes primarily non-cash items and other items that we do not consider to be useful in assessing our operating performance (e.g., stock-based compensation expense, restructuring charges, acquisition-related costs, asset impairment charges, gain or loss on sale of assets, gain or loss on debt extinguishment, pension mark-to-market and settlement expense, and income or loss from discontinued operations).

Free Cash Flow. We define free cash flow as net cash provided by operating activities less capital expenditures.

Because not all companies use identical calculations, our presentation of non-GAAP financial measures may not be comparable to other similarly titled measures of other companies. However, these measures can still be useful in evaluating our performance against our peer companies because we believe the measures provide users with valuable insight into key components of GAAP financial disclosures. For example, a company with higher GAAP net income may not be as appealing to investors if its net income is more heavily comprised of gains on asset sales. Likewise, excluding the effects of interest income and expense moderates the impact of a company's capital structure on its performance.

Results of Operations

Total Revenue

Second quarter 2015 revenue increased 4 percent compared to the second quarter of 2014, and our year-to-date 2015 revenue also increased 4 percent compared to the same period in 2014. The table below displays the percentage change in revenue due to organic, acquisitive, and foreign currency factors when comparing the three and six months ended May 31, 2015 to the three and six months ended May 31, 2014.

Edgar Filing: IHS Inc. - Form 10-Q

(All amounts represent percentage points)	Change in Total Revenue		
	Organic	Acquisitive	Foreign Currency
Second quarter 2015 vs. second quarter 2014	1	% 6	% (2)
Year-to-date 2015 vs. year-to-date 2014	1	% 5	% (2)

Organic growth for the three and six months ended May 31, 2015, compared to the same periods of 2014, was primarily attributable to organic subscription growth, largely offset by negative non-subscription organic growth. Organic subscription growth was positive across the business, at 5 percent and 6 percent for the three and six months ended May 31, 2015, respectively, compared to the same periods of 2014, but declined sequentially. We continue to benefit from strength in our

Table of Contents

Industrials product category, offset by lower Resources revenue from market pressure in our energy product offerings. Non-subscription organic revenue results were adversely impacted by lower consulting, software, and services revenue, mostly in our Resources product category.

Acquisitive revenue growth for the three and six months ended May 31, 2015, compared to the same periods of 2014, was due to acquisitions we made in the last 12 months, including the following:

- Global Trade Information Services and PCI Acrylonitrile in the third quarter of 2014;
- DisplaySearch/Solarbuzz and PacWest Consulting Partners in the fourth quarter of 2014;
- JOC Group, Infonetics, and Rushmore Reviews in the first quarter of 2015; and
- Dataium and RootMetrics in the second quarter of 2015.

Foreign currency had an adverse effect on our year-over-year revenue growth as the U.S. dollar continued to maintain its strength against foreign currencies. We anticipate continued negative foreign currency impacts on year-over-year revenue comparisons through the remainder of 2015.

Revenue by Segment

(In thousands, except percentages)	Three months ended May 31,		Percentage Change	Six months ended May 31,		Percentage Change
	2015	2014		2015	2014	
Revenue:						
Americas	\$401,881	\$376,787	7 %	\$767,962	\$727,207	6 %
EMEA	136,630	138,847	(2) %	263,677	265,708	(1) %
APAC	52,896	52,374	1 %	106,029	99,551	7 %
Total revenue	\$591,407	\$568,008	4 %	\$1,137,668	\$1,092,466	4 %

As a percent of total revenue:

Americas	68	% 66	%	68	% 67	%
EMEA	23	% 24	%	23	% 24	%
APAC	9	% 9	%	9	% 9	%

The percentage change in each geography segment is due to the factors described in the following table.

(All amounts represent percentage points)	Increase (decrease) in revenue Second quarter 2015 vs. second quarter 2014			Year-to-date 2015 vs. year-to-date 2014		
	Organic	Acquisitive	Foreign Currency	Organic	Acquisitive	Foreign Currency
Americas	1	% 7	% (1)	% 1	% 5	% (1)
EMEA	1	% 2	% (5)	% 1	% 2	% (4)
APAC	(2)	% 6	% (2)	% 2	% 7	% (2)

Americas revenue for the three and six months ended May 31, 2015, compared to the same periods of 2014, experienced steady organic subscription growth at 6 percent for the three and six months, benefiting primarily from strong Industrials performance. Non-subscription organic growth was negative 13 percent for the three months and negative 15 percent for the six months, and was adversely impacted by lower consulting, software, and services revenue, primarily in our Resources product category.

EMEA revenue for the three and six months ended May 31, 2015, compared to the same periods of 2014, experienced organic subscription growth at 3 percent for the three and six months. Non-subscription organic growth was negative 7 percent for the three months and negative 8 percent for the six months, and was adversely impacted by lower software and consulting revenue.

APAC revenue for the three and six months ended May 31, 2015, compared to the same periods of 2014, experienced organic subscription growth at 4 percent for the three months and 7 percent for the six months. Non-subscription organic growth was negative 19 percent for the three months and negative 13 percent for the six months, and was adversely impacted by lower software and consulting revenue in our Resources product category.

Table of Contents

Revenue by Transaction Type

(in thousands, except percentages)	Three months ended May 31,		Percent change		Six months ended May 31,		Percent change					
	2015	2014	Total	Organic	2015	2014	Total	Organic				
Subscription revenue	\$459,681	\$426,346	8	% 5	%	\$907,488	\$843,720	8	% 6	%		
Non-subscription revenue	131,726	141,662	(7)%	(12)%	230,180	248,746	(7)%	(13)%
Total revenue	\$591,407	\$568,008	4	% 1	%	\$1,137,668	\$1,092,466	4	% 1	%		

As a percent of total revenue:

Subscription	78	% 75	%	80	% 77	%
Non-subscription	22	% 25	%	20	% 23	%

Subscription revenue grew at 5 percent and 6 percent organically for the three and six months ended May 31, 2015, respectively, compared to the same periods of 2014, with Industrials subscription offerings providing the largest contribution to the growth. We expect that our Resources subscription base will be flat for the remainder of the year.

Non-subscription revenue decreased 12 percent and 13 percent organically for the three and six months ended May 31, 2015, respectively, compared to the same periods of 2014, due to lower consulting, software, and services revenue, primarily in our Resources product category and energy market headwinds in our Horizontal Products category.

Revenue by Product Category

(in thousands, except percentages)	Three months ended May 31,		Percent change		Six months ended May 31,		Percent change					
	2015	2014	Total	Organic	2015	2014	Total	Organic				
Resources revenue	\$234,673	\$243,876	(4)%	(4)%	\$452,242	\$461,370	(2)%	(2)%
Industrials revenue	220,536	181,346	22	% 8	%	417,126	353,069	18	% 7	%		
Horizontal products revenue	136,198	142,786	(5)%	(1)%	268,300	278,027	(3)%	(1)%
Total revenue	\$591,407	\$568,008	4	% 1	%	\$1,137,668	\$1,092,466	4	% 1	%		

As a percent of total revenue:

Resources	40	% 43	%	40	% 42	%
Industrials	37	% 32	%	37	% 32	%
Horizontal products	23	% 25	%	24	% 25	%

Total Resources revenue decreased 4 percent and 2 percent for the three and six months ended May 31, 2015, respectively, compared to the same periods of 2014, and included organic subscription growth at 2 percent for the three months and 4 percent for the six months. We continue to see moderating Resources subscription growth due to industry dynamics, and expect that our Resources subscription base will be flat for the remainder of the year. Subscription base pressure for the quarter came largely from our smaller customer accounts. Non-subscription organic growth was negative 23 percent for the three months and negative 25 percent for the six months, and was adversely impacted by lower energy software, consulting, and services revenue.

Total Industrials revenue growth was 22 percent and 18 percent for the three and six months ended May 31, 2015, respectively, compared to the same periods of 2014, and included organic subscription growth at 10 percent for the three months and 9 percent for the six months, benefiting primarily from strong performance in our automotive product offerings. Non-subscription organic growth was 2 percent for the three months and 1 percent for the six months, also mostly due to performance in our automotive product offerings.

Total Horizontal Products revenue growth was negative 5 percent and negative 3 percent for the three and six months ended May 31, 2015, respectively, compared to the same periods of 2014, and included organic subscription growth at 3 percent for the three months and 4 percent for the six months. Non-subscription organic growth was negative 14 percent for the

Table of Contents

three and six months, and was adversely impacted by lower product design revenue and energy market headwinds in our other Horizontal Products category offerings.

Operating Expenses

The following table shows our operating expenses and the associated percentages of revenue.

(In thousands, except percentages)	Three months ended May 31,		Percentage Change	Six months ended May 31,		Percentage Change	
	2015	2014		2015	2014		
Operating expenses:							
Cost of revenue	\$228,903	\$224,945	2	%	\$443,849	\$437,870	1 %
SG&A expense	\$210,480	\$203,644	3	%	\$406,418	\$401,360	1 %
Stock-based compensation expense allocated to SG&A	32,900	34,521	(5))%	64,976	76,625	(15) %)
SG&A expense, excluding stock-based compensation	\$177,580	\$169,123	5	%	\$341,442	\$324,735	5 %
Depreciation and amortization expense	\$58,910	\$49,142	20	%	\$114,829	\$98,779	16 %
As a percent of revenue:							
Cost of revenue	39	% 40	%		39	% 40	%
SG&A expense	36	% 36	%		36	% 37	%
SG&A expense excluding stock-based compensation	30	% 30	%		30	% 30	%
Depreciation and amortization expense	10	% 9	%		10	% 9	%

Cost of Revenue

For the three and six months ended May 31, 2015, cost of revenue was slightly down as a percentage of revenue, compared to the same periods in the prior year, reflecting operating efficiencies associated with our scaled infrastructure, as well as cost management across all areas. We continue to invest in areas such as our automotive offerings, energy asset valuation offerings, and selected sales investments to drive future growth in the business.

Selling, General and Administrative (SG&A) Expense

We evaluate our SG&A expense after excluding stock-based compensation expense in order to focus on the ongoing operating performance of our SG&A activities. For the three and six months ended May 31, 2015, compared to the same periods of 2014, SG&A expense as a percentage of revenue was largely unchanged.

For the three and six months ended May 31, 2015, compared to the same periods of 2014, stock-based compensation expense decreased primarily due to the timing of changes in the number of shares expected to vest for performance-based awards in 2014, as well as the impact of forfeitures associated with restructuring activities. Please refer to Note 9 to the Condensed Consolidated Financial Statements in this quarterly report on Form 10-Q for a discussion of stock-based compensation.

Depreciation and Amortization Expense

For the three and six months ended May 31, 2015, compared to the same periods of 2014, depreciation and amortization expense increased primarily as a result of an increase in depreciable and amortizable assets from capital expenditures and acquisitions.

Table of Contents

Restructuring

Please refer to Note 6 to the Condensed Consolidated Financial Statements in this quarterly report on Form 10-Q for a discussion of our restructuring activities. During the six months ended May 31, 2015, we incurred approximately \$21.7 million of restructuring charges, primarily for severance related to resource refinement and alignment across most of our business functions, as well as other restructuring costs related to lease abandonments and further consolidation of our legacy data centers.

During the six months ended May 31, 2015, we eliminated 302 positions related to these activities. We expect to continue to incur costs related to similar activities in future periods, resulting in additional restructuring charges.

Acquisition-related Costs

Please refer to Note 7 to the Condensed Consolidated Financial Statements in this quarterly report on Form 10-Q for a discussion of costs associated with our integration and other acquisition-related activities. During the six months ended May 31, 2015, we recorded approximately \$0.5 million of direct and incremental costs associated with acquisition-related activities, primarily legal and professional fees.

Pension and Postretirement Expense

Net periodic pension and postretirement expense decreased from \$2.8 million and \$5.7 million for the three and six months ended May 31, 2014, respectively, to \$0.5 million and \$1.0 million for the three and six months ended May 31, 2015, primarily as a result of the pension freeze we implemented on our U.S. Retirement Income Plan (U.S. RIP) and Supplemental Income Plan (SIP) in July 2014. As a result of the pension freeze, we no longer have any expense related to participant service accruals, but continue to incur pension and postretirement expense related to plan administration, interest costs, and regulatory fees.

Our pension expense and associated pension liability as calculated under GAAP requires the use of assumptions about the estimated long-term rate of return on plan assets and the discount rate. Our pension investment strategy is designed to align the majority of our pension assets with the underlying pension liability and minimize volatility caused by changes in asset returns and discount rates. Our pension expense estimates are updated to reflect actual experience through the remeasurement process in the fourth quarter, or sooner if earlier remeasurements are required. For the six months ended May 31, 2015, we used a 4.7 percent expected long-term rate of return on plan assets and a 4.2 percent discount rate for the U.S. RIP; the actual return on plan assets during that period was 1.5 percent. We anticipate that the difference between actual return on plan assets and expected return on plan assets will be largely mitigated by the offsetting change in the pension liability resulting from movements in the discount rate.

Operating Income by Segment (geography)

(In thousands, except percentages)	Three months ended May 31,		Percentage Change	Six months ended May 31,		Percentage Change
	2015	2014		2015	2014	
Operating income:						
Americas	\$86,200	\$93,587	(8)%	\$159,541	\$171,197	(7)%
EMEA	31,775	34,465	(8)%	56,948	59,060	(4)%
APAC	13,743	12,938	6 %	24,597	23,000	7 %
Shared services	(48,789)	(54,217)		(92,731)	(110,830)	
Total operating income	\$82,929	\$86,773	(4)%	\$148,355	\$142,427	4 %

As a percent of segment
revenue:

Americas	21	%	25	%	21	%	24	%
EMEA	23	%	25	%	22	%	22	%
APAC	26	%	25	%	23	%	23	%

For the three and six months ended May 31, 2015, compared to the same periods of 2014, operating income as a percentage of revenue for the Americas segment was negatively impacted by severance expense associated with restructuring activities, as well as higher depreciation and amortization expense associated with recent acquisitions and capital expenditures.

Table of Contents

For the three and six months ended May 31, 2015, compared to the same periods of 2014, the EMEA segment operating income as a percentage of revenue decreased primarily as a result of product mix, increased restructuring expense, and increased depreciation and amortization expense. For the three and six months ended May 31, 2015, compared to the same periods of 2014, the APAC segment operating income as a percentage of revenue was largely unchanged.

Provision for Income Taxes

Our effective tax rate for the three and six months ended May 31, 2015 was 22.4 percent and 20.8 percent, respectively, compared to 23.4 percent and 22.2 percent for the same periods of 2014, due to the benefit of certain discrete items.

EBITDA and Adjusted EBITDA (non-GAAP measures)

The following table provides reconciliations of our net income to EBITDA and Adjusted EBITDA for the three and six months ended May 31, 2015 and 2014.

(In thousands, except percentages)	Three months ended May 31,		Percentage Change	Six months ended May 31,		Percentage Change
	2015	2014		2015	2014	
Net income	\$50,952	\$55,492	(8)%	\$90,472	\$87,914	3%
Interest income	(180)	(235)		(340)	(486)	
Interest expense	17,454	14,610		34,448	29,855	
Provision for income taxes	14,703	16,906		23,775	25,144	
Depreciation	22,259	16,090		43,172	31,880	
Amortization	36,651	33,052		71,657	66,899	
EBITDA	\$141,839	\$135,915	4%	\$263,184	\$241,206	9%
Stock-based compensation expense	34,344	36,032		67,834	79,996	
Restructuring charges	7,369	860		21,653	4,035	
Acquisition-related costs	301	77		477	1,017	
Impairment of assets	1,243	—		1,243	—	
Loss (gain) on sale of assets	—	(151)		—	2,654	
Adjusted EBITDA	\$185,096	\$172,733	7%	\$354,391	\$328,908	8%
Adjusted EBITDA as a percentage of revenue	31.3%	30.4%		31.2%	30.1%	

Our Adjusted EBITDA for the three and six months ended May 31, 2015, compared to the same periods of 2014, increased primarily because of our continued focus on realization of operating efficiencies and cost containment.

Financial Condition

(In thousands, except percentages)	As of May 31, 2015	As of November 30, 2014	Dollar change	Percent change
Accounts receivable, net	\$365,265	\$421,374	\$(56,109)	(13)%
Accrued compensation	\$60,545	\$101,875	\$(41,330)	(41)%
Deferred revenue	\$680,863	\$596,187	\$84,676	14%

The decrease in accounts receivable is primarily due to the timing of billings and cash collections in the second quarter of 2015. We continue to experience the historical trend of seeing seasonal decreases in our accounts receivable balances in the second and third fiscal quarters, as we typically have the most subscription renewals in our first and

fourth fiscal quarters. The decrease in accrued compensation was primarily due to the 2014 bonus payout made in the first quarter of 2015 (partially offset by the current year accrual), as well as lower commission accruals. The increase in deferred revenue was primarily due to seasonal increases associated with subscription renewals, as well as acquired deferred revenue balances.

Table of Contents

Liquidity and Capital Resources

As of May 31, 2015, we had cash and cash equivalents of \$226 million, of which approximately \$194 million was held by our foreign subsidiaries. Cash held by our foreign subsidiaries could be subject to U.S. federal income tax if we decided to repatriate any of that cash to the U.S.; however, our intent is to permanently reinvest these funds outside of the U.S. and our current plans do not indicate a need to repatriate cash to fund our operations in jurisdictions outside of where they are held. We also had approximately \$2.13 billion of debt as of May 31, 2015, comprised primarily of \$750 million of senior notes, \$690 million of revolving facility debt, and \$683 million of term loan debt. As of May 31, 2015, we had approximately \$610 million available under our revolving credit facility.

Due to our recent refinancing, a larger portion of our debt is now carried at a fixed interest rate, which has resulted in a higher average interest rate for overall debt and is the primary reason for the increase in interest expense for the three and six months ended May 31, 2015, compared to the same periods of 2014. We expect that our increased debt, coupled with the higher effective interest rate, will result in higher interest expense in the near future. On a trailing twelve-month basis, the ratio of free cash flow to Adjusted EBITDA was approximately 64 percent. Over the longer term, we anticipate that this ratio will be in the mid-60s range, reflecting increased interest expense and an increase in our cash taxes.

In the first quarter of 2015, our board of directors authorized us to repurchase up to \$100 million of outstanding stock. We completed this repurchase program in June 2015 and announced a new \$500 million repurchase program for share repurchases through November 2017. This new repurchase program does not obligate us to repurchase any set dollar amount or number of shares. The amount authorized under the new program is inclusive of open market share repurchases, as well as repurchases for stock surrendered by employees in an amount equal to the statutory tax liability associated with the vesting of their equity awards, for which we pay the statutory tax on behalf of the employee. Because of our cash, debt, and cash flow positions, we believe we will have sufficient liquidity to meet our ongoing working capital and capital expenditure needs.

Our future capital requirements will depend on many factors, including the number and magnitude of future acquisitions and share repurchase programs, the need for additional facilities or facility improvements, the timing and extent of spending to support product development efforts, information technology infrastructure investments, investments in our internal business applications, and the continued market acceptance of our offerings. We could be required, or could elect, to seek additional funding through public or private equity or debt financings; however, additional funds may not be available on terms acceptable to us. We expect that our capital expenditures for 2015 will be approximately 5 to 6 percent of revenue.

Cash Flows

(In thousands, except percentages)	Six months ended May 31,		Dollar change	Percent change
	2015	2014		
Net cash provided by operating activities	\$334,284	\$374,974	\$(40,690)	(11)%
Net cash used in investing activities	\$(436,866)	\$(47,679)	\$(389,187)	816%
Net cash provided by (used in) financing activities	\$186,683	\$(355,188)	\$541,871	(153)%

The decrease in net cash provided by operating activities was primarily due to increased cash payments associated with restructuring activities and interest expense in 2015, as well as activities associated with working capital. Our subscription-based business model continues to be a cash-flow generator that is aided by positive working capital characteristics that do not generally require substantial working capital increases to support our growth.

The increase in net cash used in investing activities was principally due to the acquisitions of JOC Group, Infonetics, Rushmore Reviews, Dataium, and RootMetrics in the first half of 2015, as well as an increase in capital expenditures.

The increase in net cash provided by (used in) financing activities in 2015 was principally to help finance our acquisitions and share repurchase activities in the first six months of 2015, versus our focus on reducing our debt leverage in 2014.

Free Cash Flow (non-GAAP measure)

The following table reconciles our non-GAAP free cash flow measure to net cash provided by operating activities.

36

Table of Contents

(In thousands, except percentages)	Six months ended May 31,		Dollar change	Percent change
	2015	2014		
Net cash provided by operating activities	\$334,284	\$374,974		
Capital expenditures on property and equipment	(69,038)	(51,036)		
Free cash flow	\$265,246	\$323,938	\$(58,692)	(18)%

Our free cash flow has historically been positive due to the robust cash generation attributes of our business model, and we expect that it will continue to be a significant source of funding for our business strategy of growth through organic and acquisitive means.

Credit Facility and Other Debt

Please refer to Note 4 to the Condensed Consolidated Financial Statements in this quarterly report on Form 10-Q for a discussion of the current status of our debt arrangements.

Share Repurchase Programs

Please refer to Note 12 to the Condensed Consolidated Financial Statements in this quarterly report on Form 10-Q and to Part II, Item 2 in this quarterly report on Form 10-Q for a discussion of our share repurchase programs.

Off-Balance Sheet Transactions

We have no off-balance sheet transactions.

Critical Accounting Policies

Our management makes a number of significant estimates, assumptions and judgments in the preparation of our financial statements. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies and Estimates” in our annual report on Form 10-K for fiscal year 2014 for a discussion of the estimates and judgments necessary in our accounting for revenue recognition, business combinations, goodwill and other intangible assets, income taxes, pension and postretirement benefits, and stock-based compensation.

Recent Accounting Pronouncements

Please refer to Note 1 to the Condensed Consolidated Financial Statements in this quarterly report on Form 10-Q for a discussion of recent accounting pronouncements and their anticipated effect on our business.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For information regarding our exposure to certain market risks, see Item 7A, “Quantitative and Qualitative Disclosures About Market Risk,” in our annual report on Form 10-K for fiscal year 2014.

Borrowings under the 2014 revolving facility and 2013 term loan are subject to variable interest rates. We use interest rate swaps in order to fix a portion of our variable rate debt as part of our overall interest rate risk management strategy. As of May 31, 2015, we had approximately \$1.373 billion of floating-rate debt at a 1.73 percent weighted-average interest rate, of which \$200 million was subject to effective floating-to-fixed interest rate swaps. A hypothetical increase in interest rates of 100 basis points applied to our floating rate indebtedness would increase annual interest expense by approximately \$12 million (\$14 million without giving effect to any of our interest rate

swaps).

37

Table of Contents

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act are effective at a reasonable assurance level to ensure that information required to be disclosed in the reports required to be filed or submitted under the Exchange Act is (i) recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and (ii) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

(b) Changes in internal control over financial reporting.

There were no changes in our internal control over financial reporting that occurred during the period covered by this quarterly report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Please refer to Note 11 to the Condensed Consolidated Financial Statements in this quarterly report on Form 10-Q for information about legal proceedings.

Item 1A. Risk Factors

There have been no material changes to the risk factors associated with our business previously disclosed in Part I of our annual report on Form 10-K for fiscal year 2014.

Table of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides detail about our share repurchases during the three months ended May 31, 2015.

	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs (in thousands)
March 1 - March 31, 2014:				
Share repurchase programs (1)	40,000	\$ 111.71	40,000	\$77,993
Employee transactions (2)	6,668	\$ 113.51	N/A	N/A
April 1 - April 30, 2015:				
Share repurchase programs (1)	137,231	\$ 123.28	137,231	\$61,075
Employee transactions (2)	5,511	\$ 117.76	N/A	N/A
May 1 - May 31, 2015:				
Share repurchase programs (1)	225,873	\$ 126.68	225,873	\$32,461
Employee transactions (2)	4,948	\$ 125.72	N/A	N/A
Total share repurchases	420,231	\$ 123.81	403,104	

(1) In January 2015, our board of directors authorized us to repurchase up to \$100 million of our Class A common stock (the January 2015 Program). We may repurchase shares in open market purchases or through privately negotiated transactions in compliance with Rule 10b-18 of the Exchange Act, subject to market conditions, applicable legal requirements, and other relevant factors. The repurchase program does not obligate us to repurchase any set dollar amount or number of shares and is scheduled to expire on November 30, 2015, but may be suspended at any time at our discretion. We completed this repurchase program in June 2015.

In June 2015, our board of directors authorized us to repurchase up to \$500 million of our Class A common stock (the June 2015 Program). We may repurchase shares in open market purchases or through privately negotiated transactions in compliance with Rule 10b-18 of the Exchange Act, subject to market conditions, applicable legal requirements, and other relevant factors. The June 2015 Program does not obligate us to repurchase any set dollar amount or number of shares and is scheduled to expire on November 30, 2017, but may be suspended at any time at our discretion. The amount authorized under the June 2015 Program is inclusive of share repurchases of our Class A common stock surrendered by employees in an amount equal to the statutory tax liability associated with the vesting of their equity awards, for which we pay the statutory tax on behalf of the employee, as previously approved by our board of directors.

(2) Amounts represent common shares surrendered by employees in an amount equal to the statutory tax liability associated with the vesting of their equity awards. We then pay the statutory tax on behalf of the employee. Our board of directors approved this program in 2006 in an effort to reduce the dilutive effects of employee equity grants.

Item 5. Other Information

Iran Threat Reduction and Syria Human Rights Act Disclosure

Under the Iran Threat Reduction and Syrian Human Rights Act of 2012, which added Section 13(r) of the Exchange Act, we are required to include certain disclosures in our periodic reports if we or any of our affiliates knowingly engaged in certain specified activities during the period covered by the report. Disclosure is generally required even if the transactions or dealings were conducted in compliance with applicable law and regulations. During the third quarter of 2014, we acquired Global Trade Information Services, a Virginia corporation (“GTIS”). GTIS publishes the

Global Trade Atlas (the “GTA”), an online trade data system offering global merchandise trade statistics such as import and export data from official sources in more than 65 countries. Included in the GTA is certain trade data sourced from Iran for which GTIS pays an annual fee of approximately \$30,000. The procurement of this information is exempt from applicable economic sanctions laws and regulations as a funds transfer related to the exportation or importation of information and informational materials. Sales attributable to this Iranian trade data represented approximately \$75,000 in gross revenue for GTIS in the second quarter of 2015 and would have represented approximately 0.01% of our company’s second quarter 2015 consolidated revenues and gross profits. Subject to any changes in the exempt status of such activities, we intend to continue these business activities as permissible under applicable export control and economic sanctions laws and regulations.
