SAP AG  
FORM 6-K

On January 10, 2006, SAP AG, a stock corporation organized under the laws of the Federal Republic of Germany ( SAP ), issued a press release (the Press Release ) announcing SAP 's preliminary financial results for the fourth quarter ended December 31, 2005. The Press Release is attached as Exhibit 99.1 hereto and incorporated by reference herein. This press release discloses certain financial measures such as pro forma operating margin, pro forma earnings per share (EPS) and currency-adjusted year-on-year changes in revenue. These measures are not prepared in accordance with generally accepted accounting principles and are, therefore, considered non-GAAP financial measures.

Generally, a non-GAAP financial measure is a numerical measure of a company 's performance, financial position, or cash flows that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with GAAP. The non-GAAP measures included in our press release have been reconciled to the nearest GAAP measure as is required under SEC rules regarding the use of non-GAAP financial measures. The non-GAAP measures should be considered in addition to, and not as a substitute for, or superior to, operating margin, EPS, or other measures of financial performance prepared in accordance with generally accepted accounting principles. The pro forma measures used by SAP may be different from pro forma measures used by other companies.

Management believes that pro forma operating margin and pro forma EPS provide supplemental meaningful information to the investor to fully assess the financial performance of SAP 's core operations. The pro forma operating measures disclosed are the same SAP uses in its internal management reporting and as criteria for variable elements of management compensation.

Eliminated expenses in pro forma operating margin and pro forma EPS are defined as follows:

Stock-based compensation includes expenses for stock-based compensation as defined under U.S. GAAP (STAR, LTI and SOP) as well as expenses related to the settlement of stock-based compensation plans in the context of mergers and acquisitions. Management excludes stock-based compensation expenses because SAP has no direct influence over the actual expense of these awards once the Company enters into stock-based compensation plans.

Acquisition-related charges include amortization of intangible assets acquired in acquisitions of businesses or intellectual property.

Impairment-related charges include other-than-temporary impairment charges on minority equity investments. As used herein, GAAP refers to generally accepted accounting principles in the United States.

Any statements contained in this document that are not historical facts are forward-looking statements as defined in the U.S. Private Securities Litigation Reform Act of 1995. Words such

as anticipate, believe, estimate, expect, forecast, intend, may, plan, project, predict, should and expressions as they relate to SAP are intended to identify such forward-looking statements. SAP undertakes no obligation to publicly update or revise any forward-looking statements. All forward-looking statements are subject to various risks and uncertainties that could cause actual results to differ materially from expectations. The factors that could affect SAP's future financial results are discussed more fully in SAP's filings with the U.S. Securities and Exchange Commission (the SEC), including SAP's most recent Annual Report on Form 20-F for 2004 filed with the SEC. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates.
