Board Leadership Structure and Board's Role in Risk Oversight

The positions of chairman of the Board and Chief Executive Officer are presently separated. We believe that separating these positions allows our Chief Executive Officer to focus on our day-to-day business, while allowing the chairman to lead the Board in its fundamental role of providing advice to and independent oversight of management. While our amended and restated bylaws and corporate governance guidelines do not require that our chairman and Chief Executive Officer positions be separate, our Board believes that having separate positions is the appropriate leadership structure for us at this time. However, we also recognize that no single leadership model is right for all companies at all times and that, depending on the circumstances, other leadership models, such as having one person serving as both the chairman of the Board and Chief Executive Officer, might become appropriate.

Accordingly, our Board anticipates periodically reviewing its leadership structure.

We face a number of risks, including risks relating to our operations, strategic direction and intellectual property as more fully discussed in the section of our Annual Report on Form 10-K for the fiscal year ended April 30, 2017 titled "Risk Factors." Management is responsible for the day-to-day management of risks we face, while our Board, as a whole and through its committees, has responsibility for the oversight of risk management. In its risk oversight role, our Board has the responsibility of assuring that the risk management processes designed and implemented by management are adequate and functioning as designed.

Our Board's role in overseeing the management of our risks is conducted primarily through committees of Board, as disclosed in the descriptions of each of the committees below and in the charters of each of the committees. In particular, our audit committee regularly considers and discusses our significant accounting and financial risk exposures and the actions management has taken to control and monitor these exposures. Our nominating and governance committee regularly considers and discusses our significant corporate governance risk exposures and the actions management has taken to control and monitor these exposures. Our compensation committee, with input from our management, assists our Board in reviewing and assessing whether any of our compensation policies and programs could potentially encourage excessive risk-taking. In addition, in the event that we are contemplating an agreement to purchase an entity or business that operates in the rating and review technology space for aggregate consideration in excess of \$10,000,000, the independent members of the Board will designate a "Lead Acquisition Director" who shall be responsible for coordinating, developing an agenda for, and moderating one or more Board discussions or meetings to address any potential concerns with respect to such transaction.

Our full Board (or the appropriate Board committee in the case of risks that are under the purview of a particular committee) discusses with management our major risk exposures, the potential impact of such risks on us and the steps we take to manage these risks. When a Board committee is responsible for evaluating and overseeing the management of a particular risk, the chairman of the relevant committee reports on the committee's discussion to the full Board at regular Board meetings. This enables our Board and its committees to coordinate the risk oversight role and evaluate interrelated risks. We believe this division of responsibilities is an effective approach for addressing the

risks we face and that our Board leadership structure supports this approach.

#### Director Nomination Procedures

The nominating and governance committee has the responsibility for reviewing and recommending to the Board candidates for director positions. The nominating and governance committee will consider nominations made by stockholders. There are no differences in the manner in which the nomination and governance committee evaluates nominees for director based on whether the nominee is recommended by a stockholder. To have a candidate considered by the nominating and governance committee, a stockholder must submit its recommendation in writing in accordance with the procedures described in the section of our forthcoming proxy statement titled "Other Matters—2018 Stockholder Proposals or Nominations" and must include the information specified in our Bylaws, including information concerning the nominee and information about the stockholder's ownership of and agreements related to our stock.

Table of Contents

The nominating and governance committee, in evaluating Board candidates, considers issues such as character, integrity, judgment, diversity, age, independence, skills, education, expertise, business acumen, business experience, length of service, understanding of our business and other commitments and the like, all in the context of an assessment of the needs of the Board at the time. The committee's objective is to maintain a Board of individuals of the highest personal character, integrity and ethical standards, and that reflects a range of professional backgrounds and skills relevant to our business. The nominating and governance committee does not have a formal policy with respect to diversity; however, the committee considers diversity in identifying nominees for director, including personal characteristics such as race and gender, as well as diversity in the experience and skills that contribute to the Board's performance of its responsibilities in the oversight of a global technology business.

The nominating and governance committee believes that the minimum qualifications for serving as a director are that a nominee demonstrate knowledge of our industry, accomplishment in his or her field, an ability to make a meaningful contribution to the Board's oversight of our business and affairs, independence under NASDAQ rules, lack of conflicts of interest, and a record and reputation for integrity and ethical conduct in both his or her professional and personal activities. In addition, the nominating and governance committee examines a candidate's specific experiences and skills, time availability in light of other commitments, interpersonal skills and compatibility with the Board, and ability to complement the competency and skills of the other Board members.

The nominating and governance committee annually reviews with the Board the requisite skills and characteristics of Board members, as well as the composition of the Board as a whole. This assessment includes a consideration of independence, diversity, age, skills, and experience and industry backgrounds in the context of the needs of the Board and the Company, as well as the ability of current and prospective directors to devote sufficient time to performing their duties in an effective manner. Directors are expected to exemplify the highest standards of personal and professional integrity and to constructively challenge management through their active participation and questioning. In particular, the nominating and governance committee seeks directors with established strong professional reputations and expertise in areas relevant to the strategy and operations of our business. The nominating and governance committee may and has engaged third party search firms to assist in identifying qualified candidates or gathering information regarding a candidate's background and experience.

### Fiscal 2017 Business Performance

In fiscal 2017, we continued to execute on our strategic plan to increase long-term growth derived from sustainable operating performance as we delivered significant increases in our Adjusted EBITDA and cash flow performance, while also improving our overall SaaS business fundamentals. Fiscal 2017 included the following achievements:

• Revenue of \$201.2 million;

• GAAP net loss of \$15.9 million, compared to a GAAP net loss of \$25.3 million for fiscal 2016;

• Adjusted EBITDA of \$16.7 million, compared to \$9.1 million for fiscal 2016;

• Non-GAAP net income of \$1.7 million, compared to non-GAAP net loss of \$5.4 million for fiscal 2016; and

• First fiscal year of positive free cash flow as a public company.

Finally, during fiscal 2017, our stock price increased from \$3.35 (the closing price on April 29, 2016) to \$4.70 (the closing price on April 30, 2017), representing an increase of 40.3%.

### Significant Elements of Compensation for Fiscal 2017

Consistent with our executive compensation objectives and our performance, during fiscal 2017, our compensation committee structured compensation for our named executive officers to include the following elements:

**Base Salary:** We adjusted the base salaries of certain of our named executive officers in order to appropriately compensate them given the level of expected performance and the competitive market. We did not adjust the base salaries of our Chief Executive Officer or Chief Financial Officer in fiscal 2017.

**Annual Performance-Based Cash Compensation:** We paid annual cash incentive awards to our named executive officers in order to focus them on the achievement of key short-term business objectives and reflect their partial achievement of the corporate and individual performance objectives under our annual performance-based cash incentive plan. We did not pay any discretionary bonuses to our named executive officers in fiscal 2017.

**Long-Term Equity Incentive Compensation:** We granted performance-based stock options, as well as time-vesting stock options, and restricted stock unit ("RSU") awards for shares of our common stock to certain of our named executive officers with the aim of driving long-term stockholder value by aligning the interests of our named executive officers with our stockholders and to reward increases in stockholder value and achievement of corporate objectives.

We believe that the combination of these elements of compensation reflects our compensation philosophy and the strong alignment of the interests of our named executive officers with those of our stockholders.

### Significant Corporate Governance Policies and Practices

We have endeavored to maintain high standards in our executive compensation and governance practices and have the following policies and practices in effect:

**Emphasis On Variable, "At Risk" Compensation and Long-Term Performance Goals:** A substantial portion of our named executive officers' compensation is tied to both short-term and long-term corporate financial and operational incentives. Although we have previously granted time-vesting stock options and RSUs that we believe provide meaningful alignment between our named executive officers and stockholders, beginning in fiscal 2017, we also granted our named executive officers stock option awards that are earned based on the achievement of corporate performance metrics, which we believe further aligns the incentives of our named executive officers with those of our stockholders.

**Hedging Prohibition:** We prohibit all of our employees and members of our Board from entering into hedging arrangements with respect to our securities and prohibit our executive officers and the members of our Board from pledging our securities unless they have received pre-clearance for any pledging arrangements pursuant to the terms of our insider trading policy.

**Independent Compensation Consultant:** Our compensation committee retains an independent compensation advisor, Radford, to provide analysis, advice and guidance on our executive compensation program independent of

management.

• Representative Peer Group: On an annual basis, we use a peer group that reflects comparable size-relevant companies in industries where we compete for talent.

9

Table of Contents

**Annual Compensation Review:** Our compensation committee conducts an annual review of our compensation strategy, including a review of our compensation peer group and a review of our compensation-related risk profile.

**Compliance-based Performance Metrics:** In addition to traditional performance metrics, our compensation committee also includes specific objectives with respect to ethics and compliance in the individual performance metrics for each of our named executive officers and an assessment regarding achievement of those objectives is reviewed by our compensation committee in connection with its performance evaluation and compensation setting process.

**Stock Ownership Guidelines:** We maintain guidelines for minimum ownership of shares of our common stock by our Chief Executive Officer, Chief Financial Officer and the non-employee members of our Board.

**Independent Compensation Committee:** We maintain a completely independent compensation committee that establishes our compensation practices.

The following graphics illustrate our CEO's total direct compensation mix for fiscal 2017 and the average of the other named executive officers' average target total direct compensation mix for fiscal 2017, which emphasizes variable, performance-based pay:

**Results of Most Recent Say-on-Pay Vote**

At our 2015 Annual Meeting of Stockholders, we conducted a stockholder advisory vote to approve the fiscal 2015 compensation of our named executive officers (commonly referred to as a "Say-on-Pay" vote). Our stockholders approved the fiscal 2015 compensation of our named executive officers with approximately 80% of the votes cast in favor of the proposal.

We believe that the outcome of the Say-on-Pay vote reflects our stockholders' support of our compensation approach, specifically our efforts to attract, retain, and motivate our named executive officers. Following our fiscal 2015 Annual Meeting of Stockholders, our compensation committee reviewed the results of the Say-on-Pay vote, and concluded that our executive compensation program was operating as anticipated. Based on results of a separate stockholder advisory vote on the frequency of future stockholder advisory votes to approve the compensation of our named executive officers conducted at our 2012 Annual Meeting of Stockholders, our Board determined that we will hold our Say-on-Pay votes on a triennial basis. Therefore, the next stockholder advisory vote to approve the compensation of our named executive officers will take place at our 2018 Annual Meeting of Stockholders, unless our Board modifies its policy on the frequency of holding such advisory votes.

**Our Executive Compensation Philosophy**

Our executive compensation philosophy is to provide market-competitive opportunities with realized compensation that is closely tied to performance. Our compensation strategy focuses on providing a total compensation package that will not only attract, motivate and retain excellent executive officers, but will also align the interests of our executive officers with our stockholders by tying a significant portion of their total compensation to the achievement of our long-term business goals. Our Board strives to maintain a balance between cash and equity compensation to encourage our executive officers to act as owners and drive long-term stockholder value. Our executive compensation program is designed to provide our executive officers with a competitive total compensation package and share our success with them when our objectives are met.

Our executive compensation program is designed to be flexible, include complementary compensation elements and collectively serve the compensation objectives described above. Neither our compensation committee nor our Board has adopted any formal or informal policies or guidelines for allocating compensation between long-term and short-term compensation, between cash and non-cash compensation or among different forms of cash and non-cash compensation. We have determined that our

Table of Contents

compensation committee and Board should retain discretion and flexibility to make these determinations each year rather than adopting formal policies or guidelines.

Determining Executive Compensation for Fiscal Year 2017

For fiscal 2017, our compensation committee was responsible for designing, recommending for approval by our Board and overseeing our executive compensation program.

Our compensation committee engaged Radford, a national compensation consulting firm, to perform a competitive assessment of our executive compensation program, to assist in sustaining a framework for a company-wide compensation strategy and to generally advise our compensation committee on executive compensation matters. To assess the competitiveness of our executive compensation program and compensation levels, Radford examined the executive compensation practices of a group of publicly-traded software industry companies of similar revenue size and market valuation to us. Radford gathered this information from the Radford High Technology Survey and also from the public filings of a select peer group consisting of the following companies:

Angie's List Inc.	Marketo Inc.
Bottomline Technologies (de), Inc.	Model N, Inc.
Brightcove Inc.	Opower Inc.
BroadSoft, Inc.	Pros Holdings, Inc.
Callidus Software Inc.	Q2 Holdings, Inc.
Carbonite, Inc.	RealPage, Inc.
ChannelAdvisor Corp.	RetailMeNot, Inc.
Chegg, Inc.	SciQuest, Inc.
Five9, Inc.	ServiceSource International, Inc.
Intralinks Holdings Inc.	Tangoe, Inc.
Jive Software Inc.	TechTarget, Inc.
LivePerson, Inc.	TrueCar, Inc.
LogMeIn, Inc.	Xactly Corp
Marin Software Incorporated	YuMe, Inc.

Our compensation committee performed an annual review of our executive compensation and recommended fiscal 2017 compensation to our Board at the beginning of fiscal 2017. In carrying out its responsibilities, our compensation committee solicited and used information provided by our management, as well as recommendations from our CEO, Mr. Austin. With respect to the compensation packages for each named executive officer other than himself, Mr. Austin reviewed the performance of such executive officer and made recommendations to our compensation committee with respect to such executive officer's total compensation package for fiscal 2017. While our compensation committee solicited and reviewed our CEO's recommendations, such recommendations were only one factor considered by our compensation committee in making compensation decisions.

In determining the total compensation package for fiscal 2017 for each of our named executive officers, our compensation committee used the then-current compensation levels for each named executive officer as a starting point. In addition to considering our CEO's recommendations, our compensation committee and Board reviewed and considered Radford's report on the compensation practices of the select peer group companies and competitive market data. Our compensation committee and Board used the 50th percentile of total compensation as reflected by the market data as a reference in considering the appropriate compensation level for each named executive officer. Our compensation committee and Board also considered our company-wide performance, the applicable named executive officer's performance and internal pay equity. In reviewing individual performance, our compensation committee and Board undertook a subjective and qualitative review of each named executive officer's contribution to the success of our business in fiscal 2016.

Based in part on the review by our CEO, our executive compensation philosophy generally, and our compensation committee's review after considering the factors described above, in May 2016 our compensation committee approved a total cash compensation package for fiscal 2017 for each of our executive officers, including our then-serving named

executive officers and Mr. Paulson, that included base salary and annual performance-based cash compensation levels. In January 2017, our compensation committee approved a total compensation package for Mr. Rohrlich in connection with his promotion to Executive Vice President and General Manager of EMEA and his relocation to our London, United Kingdom office that included base salary increase, annual performance-based cash compensation, and foreign assignment allowance (including expat expenses, housing, car, school and childcare, relocation expenses and family travel to and from London) with each of these elements determined based on several factors, including expected costs, market competitive data obtained from Radford, and the contribution and value our Board expects

Table of Contents

Mr. Rohrlich to bring to the role in EMEA. In May 2017, our compensation committee amended Mr. Rohrlich's housing allowance from \$96,000 annually to \$134,000 annually based on the current housing market in London. Unless otherwise noted, all compensation figures for Mr. Rohrlich set forth in the "Compensation Discussion and Analysis" are listed in U.S. Dollars based on the average exchange rate during fiscal 2017.

In August 2016, our compensation committee considered the independence of Radford and found them to be independent after considering applicable factors under NASDAQ listing standards.

#### Elements of Compensation for Fiscal Year 2017

As noted above, compensation for our named executive officers for fiscal 2017 consisted of the elements identified in the following table:

Compensation Element	Objective
Base salary	To attract and retain our named executive officers and to recognize ongoing performance of job responsibilities.
Annual performance-based cash compensation	To focus our named executive officers on the achievement of key short-term business objectives and to provide additional reward opportunities for our named executive officers when key business objectives are met.
Long-term equity incentive compensation	To drive long-term stockholder value by aligning the interests of our named executive officers with our stockholders and to reward increases in stockholder value.
Performance-Based Equity	In response to our belief in a pay-for-performance culture, we started to phase in a performance equity compensation program for our executive officers during fiscal 2017. The intent of the program is to further tie executive compensation to our financial performance by shifting the proportion of equity compensation over time from solely time-based equity compensation towards a combination of time-based and performance-based equity compensation.
Severance and change of control benefits	To provide income protection in the event of involuntary loss of employment and to focus our named executive officers on stockholder interests when considering strategic alternatives.
Retirement savings (401(k)) plan	To provide retirement savings in a tax-efficient manner.
Health and welfare benefits	To provide a basic level of protection from health, dental, life and disability risks.
Foreign Assignment Allowances	To provide income equalization for executives who are working in a country other than their home country.

The following discussion describes these elements in more detail.

#### Base Salaries

Base salaries for fiscal 2017 for our named executive officers were determined by our compensation committee and Board as described above in "—Determining Executive Compensation for Fiscal Year 2017." Our compensation committee and Board did not assign a specific weight to any single factor in making decisions regarding base salary levels. The table below shows the base salaries for our named executive officers for fiscal years 2016 and 2017. In order to balance expenses with the growth expectations in fiscal 2018, our Board does not anticipate providing our named executive officers with any base salary increases in fiscal 2018.

Named Executive Officer	FY 2016	FY 2017
	Base Salary	Base Salary

## Annual Performance-Based Cash Compensation

During fiscal 2017, each of our named executive officers, as well as our other executive officers and key employees, was eligible to earn a cash bonus based on the achievement of performance objectives under our executive bonus plan. Target bonuses. For each named executive officer, the target bonus opportunity for fiscal 2017 was equal to a specified percentage of his base salary. As with base salaries, the target bonuses for our named executive officers were determined by our compensation committee and Board as described above in "—Determining Executive Compensation for Fiscal Year 2017." Our compensation committee and Board did not assign a specific weight to any single factor in establishing the applicable target bonus opportunities. The table below shows the target bonus opportunities for fiscal 2017 for each named executive officer. In order to balance expenses with the growth expectations in fiscal 2018, our Board does not anticipate modifying the target bonus opportunities for any of our named executive officers for fiscal 2018.

Named Executive Officer	FY 2017 Target Bonus Opportunity (% of base salary)
Gene Austin	100%
James R. Offerdahl	60%
Gary Allison	40%
Michael Paulson	40%
Joe Rohrlich <sup>(1)</sup>	58%

(1) Mr. Rohrlich's bonus target was increased from 41.4% to 58% beginning February 1, 2017 upon his appointment as our Executive Vice President and General Manager EMEA.

Bonus determinations. For fiscal 2017, the amount of the annual cash bonuses earned by our named executive officers was determined based on actual performance during the fiscal year compared to pre-determined performance objectives approved by our Board.

The total bonus opportunity for our named executive officers serving in their position at April 30, 2017, was based on the level of achievement of three corporate performance measures: Net Bookings, Adjusted EBITDA and Advertising Net Revenue, each of which is described in more detail below. Net Bookings was given a weighting of 40%, Adjusted EBITDA was given a weighting of 30% and Advertising Net Revenue was given a weighting of 30%. These corporate performance measures were selected because they support our objective of achieving growth and require focus on new business development, working capital management and cost containment. We believe these performance measures align our named executive officer incentives with stockholder interests through the creation of sustainable long-term value.

Payment of any portion of the bonus opportunity for fiscal 2017 related to a specific corporate performance measure was contingent on our achievement of a minimum percentage of the target level for such measure, and the payment level was capped at our achievement of a maximum percentage of the target level. Payout percentages for the various achievement levels were as follows:

Net Bookings		Adjusted EBITDA		Advertising Net Revenue	
Achievement Percentage	Payout Percentage	Achievement Percentage	Payout Percentage	Achievement Percentage	Percentage Payout
70%	30%	80%	50%	80%	50%
100%	100%	100%	100%	100%	100%
>150%	190%	>120%	150%	>120%	150%

The Net Bookings measure is an internal metric that we use to monitor our business. The calculation of "Net Bookings" takes into account an internal assessment of the annualized value of new client contracts (which include assumptions and valuation measures not calculated in accordance with GAAP) signed during the fiscal year, adjusted for client contracts that are amended or terminated during the fiscal year. We do not disclose the target level for this measure for operational and competitive reasons.

We define "Adjusted EBITDA" as net loss from continuing operations, as calculated according to GAAP, adjusted for stock-based expense, contingent considerations related to acquisitions, adjusted depreciation and amortization (which

excludes amortization of capitalized internal-use software development costs), integration and other costs related to acquisitions, other non-business costs and benefits, income tax expense and other (income) expense, net. Adjusted EBITDA is a financial measure that is not calculated in accordance with GAAP. The target level for Adjusted EBITDA for fiscal 2017 was \$8.5 million. In order to align our definition of EBITDA more closely with our peer group, in September 2016, we changed the way we computed Adjusted EBITDA to add back amortization of capitalized software expense. Because the bonus targets were set prior to the new method of calculation, we continued to use the prior method to calculate bonus amounts.

Table of Contents

"Advertising Net Revenue" is defined as the revenue derived primarily from fees charged to advertisers when their advertisements are displayed on publishers' websites and is net of amount due to such publishers. We do not disclose the target level for this measure for operational and competitive reasons. In general, we consider our corporate performance targets for fiscal 2017 to have been challenging but achievable.

For fiscal 2017, we achieved 105% of the Net Bookings target level, Adjusted EBITDA was \$8.5 million, representing 100% of the target level, and our Advertising Net Revenue was less than 80% of our target level meaning that the minimum achievement level for Advertising Net Revenue was not achieved. Our compensation committee reviewed our performance against each of the corporate performance measure target levels and consistent with the terms of our bonus plan, bonuses for each of our named executive officers were paid at 73% of the target bonus opportunity, as detailed in the table below.

Performance Objective	Percentage of Objective Achieved	Payout Percentage	Plan Weight	Weighted Payout Percentage
Net Bookings	105%	108%	40 %	43 %
Adjusted EBITDA	100%	100 %	30 %	30 %
Advertising Net Revenue	<80%	0%	30 %	0%

Named Executive Officer	Target Bonus Opportunity	Applicable Payout Percentage	Actual Bonus Payment
Gene Austin	\$ 467,000	73%	\$340,910
James R. Offerdahl	199,200	73%	145,416
Gary Allison	126,800	73%	92,564
Michael Paulson	131,600	73%	96,068
Joe Rohrlich <sup>(1)</sup>	165,000	—	<sup>(1)</sup> 84,510

Mr. Rohrlich's Bonus Target Opportunity was raised to 58% of his then current base salary (\$285,000), effective February 1, 2017, the date he became an executive officer. His fiscal 2017 Bonus Target Opportunity prior to (1)February 1, 2017 was 41.4%.of his then current base salary (\$230,000). Mr. Rohrlich received a pro-rated bonus amount based on the amount of time spent at each Bonus Target Opportunity amounts paid at 73% of that pro-rated Bonus Target Opportunity.

#### Long-Term Equity Incentive Compensation in Fiscal 2017

We believe that equity awards are an effective tool for meeting our compensation goal of increasing long-term stockholder value. Since fiscal year 2012, our compensation committee has been granting equity awards consisting of a combination of stock options and restricted stock unit awards. Because our executive officers are able to profit from stock options only if our stock price increases relative to the stock option's exercise price, we believe stock options provide meaningful incentives to achieve increases in the value of our common stock over time. The decision by our Board to include restricted stock unit awards into our executive compensation program is based on a number of factors, including Radford's analysis of the competitiveness of our executive compensation program, the estimated impact of such decision on our available option pool and the perceived value of restricted stock units to our executive officers. We generally grant an initial stock option and/or restricted stock unit award to each of our executive officers in connection with the commencement of his or her employment. All equity awards are approved by our Board or our compensation committee. In determining the size of an equity award, our Board and our compensation committee take into account individual performance, competitive market data, internal pay equity considerations and the unvested value of existing long-term incentive awards. To determine the total equity package for all executive officers other than Mr. Austin, our compensation committee targeted the 25th to 50th percentiles compared to our peer group. In addition to new hire grants, from time to time, our Board has granted our named executive officers equity awards in conjunction with a promotions or to recognize exceptional performance and as "refresher" grants to ensure our named executive officers continue to have an equity incentive as part of their compensation packages. Historically, these decisions have been made on a case-by-case basis, and our Board retains discretion to make equity award grants at any

time.

In addition to traditional stock option awards, beginning in fiscal 2017, our compensation committee also granted performance-based stock option awards that are earned based on achievement of corporate performance measures. Traditional stock option awards granted to our named executive officers typically vest over a four-year period as follows: 25% of the shares underlying the stock option vest on the first anniversary of the vesting start date with the remainder vesting ratably on a monthly basis over the next 36 months, subject to continued service through each applicable vesting date. The value of the performance stock options were intended to constitute approximately 50% of the total value of long-term incentive awards granted to the named executive officers in fiscal 2017. The total number of shares to be subject to the grant were determined based upon the Company's achievement of certain performance metrics in fiscal 2017. Once performance stock options are earned as described below, such options are subject to addition time-based vesting.

14

---

Table of Contents

For fiscal 2017, the performance option grants could be earned only upon the achievement of a minimum percentage of the target level of a specific corporate performance measure, and the earning potential was capped at our achievement of a maximum percentage of the target level. Earning percentages for the various achievement levels were as follows:

Net Bookings		Advertising Net Revenue	
Achievement Percentage	Payout Percentage	Achievement Percentage	Percentage Payout
80%	40%	80%	33.33%
90%	60%	85%	43.33%
100%	66.67%	90%	53.33%
110%	76.67%	95%	63.33%
120%	86.67%	100%	66.67%
>130%	100%	105%	73.33%
		110%	80%
		115%	86.67%
		120%	93.33%
		>130%	100%

The compensation committee believed that the weighting and metrics used were appropriate to influence executive performance in achieving certain annual corporate performance goals that further our strategy and that are used by investors to evaluate our financial performance. The compensation committee believes that targets for performance-based equity should be rigorous and challenging.

For fiscal 2017, we achieved 105% of the Net Bookings target level and our Advertising Net Revenue was less than 80% of our target level meaning that the minimum achievement level for Advertising Net Revenue was not achieved. Our compensation committee reviewed our performance against each of the corporate performance measure target levels and consistent with the terms of the options agreements 50.003% of the target number of shares were earned as detailed below. The option vests as follows: 25% of the shares underlying the stock option vested on the date the committee determined the performance achievement against the metrics (June 1, 2017), with the remainder vesting ratably on a monthly basis over the next 36 months, subject to continued service through each applicable vesting date. Restricted stock unit awards granted to our named executive officers typically vested in three equal yearly installments, with the first such installment vesting on the first anniversary of the vesting start date, subject to continued service through each applicable vesting date. We believe these vesting schedules appropriately encourage long-term employment with the Company, while allowing our executive officers to realize compensation in line with the value they have created for our stockholders.

Equity grants for fiscal 2017 for our named executive officers were determined by our compensation committee and Board as described above in "—Determining Executive Compensation for Fiscal Year 2017" and were granted to provide a meaningful long-term incentive opportunity and achieve our retention objectives. The table below shows the equity awards granted to our named executive officers in fiscal 2017.

RSU awards granted to Mr. Austin, Mr. Offerdahl, Mr. Allison and Mr. Robinson were made in June 2016. Mr. Rohrlich was granted 50,000 RSUs in June 2016 and another 50,000 RSUs in February 2017 in conjunction with (1) his promotion to Executive Vice President and General Manager EMEA. All awards are subject to our standard RSU vesting schedule.

The option grant to Mr. Austin was made in June 2016 with an exercise price of \$3.94 and is subject to our standard option vesting schedule. The option grants to Mr. Paulson and Mr. Rohrlich were made in conjunction (2) with our option exchange program described below. The grants were made in August 2016 with an exercise price of \$4.14. The options vest annually in two equal installments beginning in August 2017.

(3) Target number of performance-based stock options were awarded to our named executive officers in June 2016 with an exercise price of \$3.94.

(4) Represents the actual number of the performance-based options earned pursuant to fiscal 2017 corporate performance.

### Changes to Long-Term Incentive Compensation for Fiscal 2018

In June 2017, our compensation committee, based on analysis of Radford, decided not to grant stock options for fiscal 2018, including performance-based stock options. Alternatively, our committee issued traditional restricted stock units and performance based restricted stock units ("PBUs"). Like the fiscal 2017 performance based option grants, the value of the PBUs was intended to constitute approximately 50% of the total value of long-term incentive awards granted to the named executive officers in fiscal year 2018. The total number of units granted will be determined based on the Company's achievement of certain performance metrics in fiscal 2018. Specifically, between 0% and 100% of the maximum number of units potentially subject to the award will be earned based on the Company's performance against key metrics. Once the earned number of shares is determined, the units will vest in three equal annual installments beginning on the one year anniversary of the vesting commencement date.

### Option Exchange Program

On August 2, 2016, we completed a voluntary, one-time stock option exchange offer that allowed eligible participants who previously had received stock option grants with an exercise price per share greater than \$6.11 the opportunity to exchange those options for a lesser number of new stock options subject to a new vesting schedule. Our then executive officers and members of our board of directors were not eligible to participate. Mr. Paulson and Mr. Rohrlich were not executive officers at the time of the exchange offer and did participate. The program was structured so that the value of any new grant was equal to the value of the corresponding canceled grant.

### Severance and Change of Control Benefits

We are party to employment agreements with each of our named executive officers that provide for certain payments and other benefits upon termination of their employment in certain circumstances. In September 2016, after reviewing the data from Radford, we amended the employment agreements for our named executive officers to include additional severance benefits upon termination of their employment either (a) without "cause" or upon resignation for "good reason," or (b) without cause or upon resignation for good reason within one year following a change-of-control. These changes were made to align with the benefits offered by our peer group.

In addition, each of our named executive officers is entitled to receive accelerated vesting with respect to all or a portion of his or her outstanding and unvested stock options or restricted stock unit awards in the event of the termination of his or her employment following a change of control of the Company. These accelerated vesting arrangements are intended to preserve morale and productivity and encourage retention in the face of the disruptive impact of a change of control of the Company and to allow our named executive officers to focus on the value of strategic alternatives to stockholders without concern for the impact on their continued employment, as we believe each of their positions is at heightened risk of turnover in the event of a change of control. We also believe that accelerated vesting arrangements related to change of control transactions provide an incentive for our named executive officers to successfully execute such a transaction from its early stages until closing, which we believe will ultimately benefit our stockholders.

In October 2015, the compensation committee amended all outstanding and future equity awards, including our named executive officers, to provide for the acceleration of outstanding unvested stock option or restricted stock unit awards in the event of termination pursuant to his or her death or disability.

Please refer to the discussion below under "— Potential Payments upon Termination or Change of Control" for a more detailed discussion of our severance and change of control arrangements, including the severance benefits provided to each of our named executive officers pursuant to their respective employment agreement.

### Employee Benefits

Our named executive officers are eligible for the same benefits available to our full-time employees generally. These include participation in a tax-qualified Section 401(k) plan, an employee stock purchase plan, and group life, health, dental, vision and disability insurance plans. The type and extent of benefits offered are intended to be competitive within our industry.

### Foreign Assignment Allowance

In January 2017, Mr. Rohrlich was promoted to the role of Executive Vice President and General Manager EMEA and in connection with that role, has relocated to our London office. As part of his relocation, we have provided for Mr.

Rohrlich to receive certain allowances to provide an equalization of his income while working in London. These allowances include the following.

#### Other Compensation Practices and Policies

##### Hedging and Pledging

All of our employees and members of our Board are prohibited from entering into hedging arrangements with respect to our common stock or other securities issued by us. In addition, we prohibit our executive officers and the members of our Board from pledging our common stock or other securities unless they have received pre-clearance for any pledging arrangements pursuant to the terms of our insider trading policy.

##### Perquisites, Retirement and Other Personal Benefits

As noted above, our named executive officers are eligible to receive the same benefits as those offered to all full-time employees. In addition, we have established a tax-qualified employee savings and retirement plan pursuant to which employees, including our named executive officers, who satisfy certain eligibility requirements, including age and length of service, may elect to defer up to 100% of eligible compensation, subject to applicable Internal Revenue Code limits. We currently match 50% of contributions, up to 2% of salary, made by our employees, including our executive officers. We intend for the 401(k) plan to qualify under Section 401(a) of the Internal Revenue Code so that contributions to the 401(k) plan, and income earned on plan contributions, are not taxable to employees until withdrawn from the 401(k) plan.

We believe that cash and equity compensation are the two key components in attracting and retaining executive talent. Other than the foreign assignment allowances, as described above, offered to Mr. Rohrlisch in connection with his assignment to our London office, we do not have any programs for providing perquisites and other personal benefits for any named executive officer in an amount that exceeds the \$10,000 disclosure threshold. We do provide our named executive officers with access to an executive wellness program, reimbursements for which do not exceed \$10,000 on an individual basis, and may cover the costs associated with our named executive officers travel, lodging, food, and entertainment in connection with our annual sales quota recognition event.

##### Stock Ownership Guidelines

As described above under "— Corporate Governance — Stock Ownership Guidelines", the compensation committee approved stock ownership guidelines for our non-employee directors, chief executive officer and chief financial officer. As of the date of this Form 10-K/A, Mr. Austin, Mr. Offerdahl and each non-employee director have achieved the required ownership levels.

##### Pension Benefits and Nonqualified Deferred Compensation

We do not provide a pension plan for our employees, and none of our named executive officers participated in a nonqualified deferred compensation plan during fiscal 2017.

## Table of Contents

### Policy Regarding the Timing of Equity Awards

The exercise price of each stock option grant is generally the fair market value of our common stock on the grant date. Beginning in August 2012, our Board established a policy providing that it would not grant stock options to executive officers or directors during closed trading periods under our insider trading policy, but that exceptions could be made on a case-by-case basis.

### Policy Regarding Compensation Recovery

We do not currently have a formal "clawback" policy requiring a fixed course of action with respect to compensation adjustments following later restatements of financial results. However, we plan to consider adopting a formal clawback policy once the SEC issues final rules in accordance with the requirements of The Dodd-Frank Wall Street Reform and Consumer Protection Act. Until such time, in the event of a later restatement of financial results, our Board or compensation committee would evaluate whether compensation adjustments were appropriate based upon the facts and circumstances surrounding the restatement and then-applicable law.

### Compliance-based Performance Metrics

In addition to traditional performance metrics, our compensation committee also includes specific objectives with respect to ethics and compliance in the individual performance metrics for each of our named executive officers and an assessment regarding achievement of those objectives is reviewed by our compensation committee in connection with its performance evaluation and compensation setting process.

### Results of Most Recent Say-on-Pay Vote

At our 2015 Annual Meeting of Stockholders, we conducted a stockholder advisory vote to approve the fiscal 2015 compensation of our named executive officers (commonly known as a "Say-on-Pay" vote). Our stockholders approved the fiscal 2015 compensation of our named executive officers with approximately 80% of the votes cast in favor of the proposal.

We believe that the outcome of the Say-on-Pay vote reflects our stockholders' support of our compensation approach, specifically our efforts to attract, retain, and motivate our named executive officers. Our compensation committee evaluated the results of the 2015 Say-on-Pay vote when determining compensation policies for our named executive officers, along with the other factors described above in "— Determining Executive Compensation for Fiscal Year 2016." Based on its evaluation, our compensation committee did not implement any significant design changes to our executive compensation program for fiscal 2016. We value the opinions of our stockholders and our compensation committee will continue to consider the outcome of future Say-on-Pay votes, as well as feedback received throughout the year, when making compensation decisions for our named executive officers. Based on the results of a separate stockholder advisory vote on the frequency of future stockholder advisory votes to approve the compensation of our named executive officers conducted at our 2012 Annual Meeting of Stockholders, our Board determined that we will hold our Say-on-Pay votes on a triennial basis. Therefore, the next stockholder advisory vote to approve the compensation of our named executive officers will take place at our 2018 Annual Meeting of Stockholders, unless our Board modifies its policy on the frequency of holding such advisory votes.

### Accounting and Tax Considerations

#### Deductibility of Executive Compensation

Generally, Section 162(m) of the Internal Revenue Code disallows a tax deduction to any publicly held corporation for any remuneration in excess of \$1.0 million paid in any taxable year to its chief named executive officer and each of its three next most highly compensated named executive officers (other than its chief financial officer).

Remuneration in excess of \$1.0 million may be deducted if, among other things, it qualifies as "performance-based compensation" within the meaning of the Internal Revenue Code. In this regard, the compensation income realized upon the exercise of stock options granted under a stockholder-approved stock option plan generally will be deductible so long as the options are granted by a committee whose members are non-employee directors and certain other conditions are satisfied.

Our compensation committee, in approving the amount and form of compensation for our named executive officers, considers all elements of the cost to us of providing such compensation, including the potential impact of Section 162(m). Our compensation committee may, in its judgment, authorize compensation payments that do not

comply with an exemption from Section 162(m) when it believes that such payments are appropriate to attract and retain executive talent.

Taxation of "Parachute" Payments and Deferred Compensation

Sections 280G and 4999 of the Internal Revenue Code provide that our named executive officers and directors who hold significant equity interests and certain other service providers may be subject to an excise tax if they receive payments or benefits in connection with a change of control of the Company that exceeds certain prescribed limits, and that we (or a successor) may forfeit a deduction on the amounts subject to this additional tax.

Table of Contents

Section 409A of the Internal Revenue Code imposes significant additional taxes in the event that a named executive officer, director, or service provider receives "nonqualified deferred compensation" that does not satisfy the conditions of Section 409A.

We did not provide any directors or named executive officer with a "gross-up" or other reimbursement payment for any tax liability that he or she might owe as a result of the application of Sections 280G, 4999 or 409A of the Internal Revenue Code during fiscal 2017 and we have not agreed and are not otherwise obligated to provide any director or named executive officer with such a "gross-up" or other reimbursement.

Accounting for Stock-Based Compensation

We follow the FASB ASC Topic 718 for our stock-based compensation awards. ASC 718 requires companies to calculate the grant date "fair value" of their stock-based awards using a variety of assumptions. The valuation assumptions used in determining such amounts are described in Note 12 to our consolidated financial statements included in our Annual Report on Form 10-K. This calculation is performed for accounting purposes and reported in the compensation tables below under "—Tabular Disclosure Regarding Executive Compensation" even though recipients may never realize any value from their awards. ASC 718 also requires companies to recognize the compensation cost of their stock-based awards in their income statements over the period that an employee is required to render service in exchange for the award.

Report Of The Compensation Committee

During fiscal 2017, our compensation committee consisted of three non-employee directors, Sydney L. Carey, Steve Berkowitz and Thomas J. Meredith. Our Board has determined that each of these members is independent under applicable NASDAQ and SEC rules and regulations.

Our compensation committee has reviewed and discussed with management the disclosures contained in the section of this Form 10-K/A titled "Executive Compensation—Compensation Discussion and Analysis." Based on this review and discussion, our compensation committee recommended to the Board that the section titled "Executive Compensation—Compensation Discussion and Analysis" be included in this Form 10-K/A.

(1) Unless otherwise noted, the amounts reported in the "Bonus" column represent a discretionary bonus paid by us.

The amounts reported in the "Stock Awards" and "Option Awards" column represent the aggregate grant date fair value computed in accordance with FASB ASC Topic 718. The valuation assumptions used in determining such

(2) amounts are described in Note 12 to our consolidated financial statements included in our Annual Report on Form 10-K filed with the SEC on June 16, 2017. Note that the amounts reported in these columns reflect the accounting cost for these awards and do not correspond to the actual economic value that may be received by the named executive officers from the awards.

(3) Unless otherwise noted, the amounts reported in the "All Other Compensation" column consist solely of premiums for short term disability, long term disability, life and accidental death and dismemberment insurance paid by us, reimbursement for costs associated with our executive wellness program and 401(k) matching contributions, each of which was less than \$10,000.

(4) For all other than Mr. Austin, the amounts represent the grant date fair value of performance based stock options awarded in June 2016 as if the fiscal 2017 net bookings and advertising revenue targets were met at 100%. For Mr.

Austin, it also includes the grant date fair value of a traditional option grant (\$384,480). In order to receive the maximum number of options (150% of the target), we would have needed to achieve 130% of our fiscal 2017 net bookings target and 120% of our fiscal 2017 advertising revenue target. The maximum grant date fair values of the grants were, Mr. Austin - \$1,095,000, Mr. Offerdahl - \$560,640, Mr. Allison - \$394,200, Mr. Paulson - \$339,450 and Mr. Rohrlich - \$219,000. Also for Mr. Rohrlich in fiscal 2017, the amount includes \$1,600 in incremental values of options received pursuant to our option exchange program in which the named executive officer opted to exchange certain previously granted option awards that were under-water, and receive a smaller number of options at the then current price.

(5) Includes \$43,260 in fiscal 2017, \$14,885 in fiscal 2016 and \$13,936 in fiscal 2015 of costs covered by the Company associated with travel, lodging, food and entertainment for our annual sales quota recognition event.

(6) Mr. Paulson was appointed as an executive officer in September 2016.

(7) Mr. Rohrlich was appointed as an executive officer in January 2017.

Mr. Rohrlich was on a temporary assignment in London from April 2016 until November 2016 and during that time he was entitled to certain foreign allowances including the following: \$59,961 for temporary housing, \$87,438 for tax equalization, \$16,162 for family travel and \$5,165 for other expenses relating to UK tax preparation, relocation and child-care in addition to the amounts noted in note (3) above. Any amounts that were paid in British Pounds were converted to US Dollars using the average conversion ratio for our fiscal 2017.

## Potential Payments upon Termination or Change of Control

The information below describes certain compensation that would have become payable under existing plans and contractual arrangements assuming a termination of employment and change of control of the Company had occurred on April 28, 2017 and based upon a price of \$4.70 per share for our common stock, which was the closing price on NASDAQ on April 28, 2017 (the last trading day of fiscal 2017), given the named executive officers' compensation and service levels as of such date. There can be no assurance that an actual triggering event would produce the same or similar results as those estimated if such event occurs on any other date or at any other price, or if any other assumption used to estimate potential payments and benefits is not correct. Due to the number of factors that affect the nature and amount of any potential payments or benefits, any actual payments and benefits may be different. In August 2016, the compensation committee approved severance arrangements for our named executive officers in connection with a termination without cause and any termination in connection with a change in control. We also allow for the "double trigger" vesting acceleration for equity awards, as well as vesting acceleration of all equity awards upon death or permanent disability for of all named executive officers, each as described below.

## Severance Arrangements with Gene Austin

Pursuant to our employment agreement with Mr. Austin dated April 25, 2013, as amended, in the event that Mr. Austin's employment is terminated without "cause" or he resigns for "good reason" Mr. Austin is entitled to receive severance payments in an aggregate amount equal to the sum of (a) 12 months of his then-current base salary, to be paid in 12 equal monthly installments, (b) payment of 100% of his then-current target bonus assuming 100% achievement of plan and (c) payment of the monthly amount of Consolidated Omnibus Budget Reconciliation Act ("COBRA") continuation coverage for 12 months or until he becomes eligible for medical coverage from another employer. In addition, in the even that Mr. Austin's employment is terminated without cause or he resigns for good reason within one year following a change of controls (as defined in the employment agreement), Mr. Austin is entitled to receive severance payments in an aggregate amount equal to the sum of (a) twelve months of his then-current base salary, to be paid in twelve equal monthly installments, (b) payment of 100% of his then-current target bonus assuming 100% achievement of plan and (c) payment of the monthly amount of COBRA Continuation for 12 months or until he becomes eligible for medical coverage from another employer. Other than the foregoing and

the vesting acceleration for equity awards described below, Mr. Austin is not eligible to receive any other severance payments or benefits.

Under the employment agreement with Mr. Austin, "cause" means (i) his willful and continued failure to perform substantially his duties (other than any such failure resulting from his disability), (ii) any act of personal dishonesty, fraud or misrepresentation taken by him which was intended to result in substantial gain or personal enrichment for him at the expense of the Company, (iii) the willful engaging by him in illegal conduct or gross misconduct which is or is reasonably likely to be injurious to the Company; (iv) his conviction of, or plea of nolo contendere or guilty to, a felony under the laws of the United States or any State; (v) his breach of the terms of the agreement(s) with us relating to proprietary information and inventions assignment; or (vi) his material breach of the terms of the employment agreement. Clauses (i), (v) and (vi) will constitute "cause" only after Mr. Austin has received from our Board written notice describing the circumstances of such breach or failure in reasonable detail and has been given a reasonable cure period of not less than 30 days. Under the employment agreement with Mr. Austin, "good reason" refers to the existence or occurrence of the following, provided in each case that his resignation occurs within 30 days after the original occurrence of such event: (i) a change in his position that materially reduces his position, title, duties and responsibilities or the level of management to which he reports; (ii) a material reduction in his total compensation and benefits

package (including base salary, fringe benefits and target bonus under any corporate-performance based bonus or incentive programs as established from time to time); or (iii) a relocation of his place of employment by more than 50 miles from our current offices in Austin, Texas; provided, however, an event described in clauses (i), (ii) or (iii) of this paragraph shall give rise to "good reason" if and only if such change, reduction or relocation is effected without Mr. Austin's consent.

Severance Arrangements for Other Executive Officers

In September 2016, the offer letters for each of our other executive officers were amended to provide that, in the event that such executive officer's employment is terminated without "cause" or he or she resigns for "good reason," such officer is entitled to receive severance payments in an aggregate amount equal to the sum of (a) six months of his or her then-current base salary, to be paid in six equal monthly installments, (b) payment of 50% of his or her then-current target bonus assuming 100% achievement of plan and (c) payment of the monthly amount of COBRA continuation coverage for six months or until he or she becomes eligible for medical coverage from another employer. In addition, in the event that such executive officer's employment is terminated without cause or he or she resigns for good reason within one year following a change of control (as defined in the applicable employment agreement), such officer is entitled to receive severance payments in an aggregate amount equal to the sum of (a) 12 months of his or her then-current base salary, to be paid in twelve equal monthly installments, (b) payment of 100% of his or her then-current target bonus assuming 100% achievement of plan and (c) payment of the monthly amount of COBRA continuation coverage for 12 months or until he or she becomes eligible for medical coverage from another employer. The definitions of "cause" and "good reason" are the same as those contained in Mr. Austin's agreement. Other than the foregoing and the vesting acceleration for equity awards described below, the executive officers are not eligible to receive any other severance payments or benefits.

Double Trigger Vesting Acceleration of Equity Awards

The employment agreements, stock option agreements and restricted stock unit agreements with Messrs. Austin, Offerdahl, Allison, Paulson and Rohrlich provide for "double trigger" vesting acceleration of equity awards, such that the vesting with respect to 100% of their outstanding and unvested stock options and restricted stock unit awards will be accelerated in the event of their termination upon change of control (as defined in the employment agreements and/or the applicable equity grant documentation with such named executive officers).

Under the employment agreements and applicable equity grant documentation with our named executive officers, "termination upon change of control" means any termination of his or her employment by us without cause or by him or her for good reason during the period commencing on or after the date that we have signed a definitive agreement or that our Board has endorsed a tender offer for our stock that, in either case, when consummated would result in a change of control (even though consummation is subject to approval or requisite tender by our stockholders and other conditions and contingencies) and ending at the earlier of the date on which such definitive agreement or tender offer has been terminated without a change of control or on the date which is 12 months following the consummation of any transaction or series of transactions that results in a change of control.

For purposes of the definition of "termination upon change of control" above, the following terms have the following meanings:

"cause" means (i) the executive's willful and continued failure to perform substantially his or her duties with the Company (other than any such failure resulting from the executive's "disability"), (ii) any act of personal dishonesty, fraud or misrepresentation taken by the executive which was intended to result in substantial gain or personal enrichment for the executive at the expense of the Company, (iii) the willful engaging by the executive in illegal conduct or gross misconduct which is or is reasonably likely to be injurious to the Company; (iv) the executive's conviction of, or plea of nolo contendere or guilty to, a felony under the laws of the United States or any State; (v) the executive's breach of the terms of the executive's agreement(s) with the Company relating to proprietary information and inventions assignment, including the executive's EPIA; or (vi) the executive's material breach of the terms of his or her offer letter. Clauses (i), (v) and (vi) shall constitute "Cause" only after the executive has received from the Board written notice describing the circumstances of such breach or failure in reasonable detail and has been given a reasonable cure period of not less than thirty (30) days;

"change of control" means (a) any "person" (as such term is used in Sections 13(d) and 14(d) of the Exchange Act), other than a trustee or other fiduciary holding securities of the Company under an employee benefit plan of the Company, becomes the "beneficial owner" (as defined in Rule 13d-3 promulgated under the Exchange Act), directly or indirectly, of securities of the Company representing 50% or more of (A) the outstanding shares of common stock of the Company or (B) the combined voting power of the Company then-outstanding securities; (b) the Company is party to a merger or consolidation, or series of related transactions, which results in the voting securities of the Company outstanding immediately prior thereto failing to continue to represent (either by remaining outstanding or by being converted into voting securities of the surviving or another entity) at least fifty (50%) percent of the combined voting power of the voting securities of the Company or such surviving or

Table of Contents

other entity outstanding immediately after such merger or consolidation; (c) the sale or disposition of all or substantially all of the Company's assets (or consummation of any transaction, or series of related transactions, having similar effect), unless at least fifty (50%) percent of the combined voting power of the voting securities of the entity acquiring those assets is held by persons who held the voting securities of the Company immediately prior to such transaction or series of transactions; (d) the dissolution or liquidation of the Company, unless after such liquidation or dissolution all or substantially all of the assets of the Company are held in an entity at least fifty (50%) percent of the combined voting power of the voting securities of which is held by persons who held the voting securities of the Company immediately prior to such liquidation or dissolution; or (e) any transaction or series of related transactions that has the substantial effect of any one or more of the foregoing;

"disability" means that the executive, at the time notice is given, has been unable to substantially perform his or her duties under his or her letter agreement for not less than one hundred and twenty (120) work days within twelve (12) consecutive month period as a result of the executive's incapacity due to a physical or mental condition and, if reasonable accommodation is required by law, after any reasonable accommodation.

"good reason" refers to the existence or occurrence of the following, provided in each case that the executive's resignation occurs within thirty (30) days after the original occurrence of such event: (i) a change in the executive's position with the Company or a successor entity that materially reduces the executive's position, title, duties and responsibilities or the level of management to which the executive reports; (ii) a material reduction in the executive's total compensation and benefits package (including base salary, fringe benefits and target bonus under any corporate-performance based bonus or incentive programs as established from time to time) (provided, that, for the avoidance of doubt, any Time-Based Option and Performance-Based Option shall not be deemed compensation or benefits for purposes of this definition); or (iii) a relocation of the executive's place of employment by more than fifty (50) miles from the Company's current offices in Austin, Texas; provided, however, an event described in clauses (i), (ii) or (iii) of this paragraph shall give rise to "good reason" only if such change, reduction or relocation is effected without the executive's consent. The executive resignation will not be deemed to be for "good reason" unless the executive first provides the Company with written notice of the acts or omissions constituting the grounds for "good reason" and a reasonable cure period of not less than thirty (30) days following such notice, during which such condition has not have been cured.

**Acceleration of Vesting Upon Death or Disability**

All equity awards contain provisions that accelerate the vesting of outstanding unvested awards upon the death or permanent disability of the holder. These provisions are generally applicable to all of our employees, including executive officers.

**Potential Payments**

The table below estimates payments and benefits that would have become payable to our named executive officers under the existing plans and contractual arrangements assuming a termination of employment and change of control of the Company had occurred on April 28, 2017 and based upon a price of \$4.70 per share for our common stock, which was the closing price on NASDAQ on April 28, 2017 (the last trading day of fiscal 2017), given the named executive officers' compensation and service levels as of such date.

Restricted Stock Unit award acceleration is based on the amount of \$4.70 per share (the closing price of our common stock on April 28, 2017, the last trading day of fiscal 2017) multiplied by the number of shares of our common stock subject to outstanding and unvested restricted stock unit awards held by each named executive officer. Stock Option award acceleration is based on the number of outstanding and unvested options held by each named executive officer multiplied by \$4.70 minus the exercise price of the options. The target number of performance based stock-option was used to calculate the acceleration.

## Limitation on Liability and Indemnification Matters

Our amended and restated certificate of incorporation contains provisions that limit the liability of our directors for monetary damages to the fullest extent permitted by Delaware law. Consequently, our directors will not be personally liable to us or our stockholders for monetary damages for any breach of fiduciary duties as directors, except liability for:

- any breach of the director's duty of loyalty to us or our stockholders;
- any act or omission not in good faith or that involves intentional misconduct or a knowing violation of law;
- unlawful payments of dividends or unlawful stock repurchases or redemptions as provided in Section 174 of the Delaware General Corporation Law; or
- any transaction from which the director derived an improper personal benefit.

Our amended and restated bylaws provide that we are required to indemnify our directors and officers to the fullest extent permitted by Delaware law. Our amended and restated bylaws also provide that we are obligated to advance expenses incurred by a director or officer in advance of the final disposition of any action or proceeding and permit us to secure insurance on behalf of any officer, director, employee or other agent for any liability arising out of his or her actions in that capacity, regardless of whether we would otherwise be permitted to indemnify him or her under the provisions of Delaware law. We have entered and expect to continue to enter into agreements to indemnify our directors, executive officers and other employees as determined by our Board. With specified exceptions, these agreements provide for indemnification for related expenses including, among other things, attorneys' fees, judgments, fines and settlement amounts incurred by any of these individuals in any action or proceeding. We believe that these bylaw provisions and indemnification agreements are necessary to attract and retain qualified persons as members of our Board and officers and potentially in other roles with the Company. We also maintain directors' and officers' liability insurance.

The limitation of liability and indemnification provisions in our amended and restated certificate of incorporation and amended and restated bylaws may discourage stockholders from bringing a lawsuit against our directors and officers for breach of their fiduciary duties. They may also reduce the likelihood of derivative litigation against our directors and officers, even though an action, if successful, might benefit us and other stockholders. Further, a stockholder's investment may be adversely affected to the extent that we pay the costs of settlement and damage awards against directors and officers as required by these indemnification provisions. At present, there is no pending litigation or proceeding involving any of our directors, officers or employees for which indemnification is sought, and we are not aware of any threatened litigation that may result in claims for indemnification.

**Standard Director Compensation Arrangements**

After reviewing analysis from Radford and in order to align our director compensation with our peer group, in August 2016, our compensation committee approved changes to the outside director compensation policy applicable to all of our non-employee directors, or our outside directors. This policy provides that each such outside director will receive the following compensation for their Board service:

an annual cash retainer of \$25,000;

an annual cash retainer of \$50,000 (previously \$40,000) for serving as the chair of our Board, \$20,000 for serving as the chair of the audit committee, \$10,000 for serving as chair of the compensation committee and \$6,250 for serving as chair of the nominating and governance committee;

an annual cash retainer of \$6,500 for serving as a member of the audit committee, \$3,750 for serving as a member of the compensation committee and \$2,500 for serving as a member of the nominating and governance committee;

reimbursement of reasonable, customary and documented travel expenses to meetings of our Board;

upon first joining our Board, an "initial award" of restricted stock with an aggregate value of \$200,000 (previously \$300,000); and

after the market closes on the date of the annual meeting of our stockholders of each year an automatic "annual equity award" with an aggregate value of \$150,000 delivered in the form of restricted stock or stock options at the election of the outside director.

The annual cash retainers described above are paid ratably on a fiscal quarterly basis. With respect to the annual equity award described above, our outside director compensation policy provides that the outside director will receive the award in the form of restricted stock if the outside director fails to make a timely election. Our outside directors are also eligible to receive all types of awards, except incentive stock options, under our 2012 Equity Incentive Plan, or the 2012 Plan, including discretionary awards not covered under our outside director compensation policy. All grants of equity awards to our outside directors are subject to the 2012 Plan in all respects. The shares subject to a director's "initial award" will vest quarterly in 12 equal tranches beginning three months after the vesting commencement date. The shares or options subject to each "annual equity grant" will vest quarterly in four equal tranches beginning three months after the vesting commencement date. Directors who are employees do not receive any compensation for their service on our Board. An employee director who subsequently ceases to be an employee, but remains a director, will not receive an initial equity award described above.

Our outside director compensation policy provides that, in the event of a change of control of the Company, any stock options and stock appreciation rights granted to an outside director under our 2012 Plan will vest fully and become immediately exercisable, all restrictions on his or her restricted stock or restricted stock unit awards will lapse, and all performance goals or other vesting requirements for his or her performance share and unit awards will be deemed achieved at 100% of target levels and all other terms and conditions met.

Compensation Committee Interlocks and Insider Participation

None of the members of our compensation committee is an officer or employee of Bazaarvoice. None of our executive officers currently serves, or in the past year has served, as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving on our Board or compensation committee.

**Risk Assessment of Compensation Programs**

We do not believe that our compensation programs create risks that are reasonably likely to have a material adverse effect on the Company. We believe that the combination of different types of compensation as well as the overall amount of compensation, together with our internal controls and oversight by the Board, mitigates potential risks.

## Item 12. Security Ownership of Certain Beneficial Owners and Management

## Security Ownership of Certain Beneficial Owners and Management

The following table sets forth certain information with respect to the beneficial ownership of our common stock as of August 15, 2017 for each person known by us to beneficially own more than 5% of our outstanding shares of common stock, each of our named executive officers (for the fiscal year ended April 30, 2017), each of the members of our Board and all of the members of our Board and executive officers as a group.

We have determined beneficial ownership in accordance with SEC rules. The information does not necessarily indicate beneficial ownership for any other purpose. Except as indicated in the footnotes to this table, and pursuant to state community property laws, we believe, based on the information furnished to us, that the persons named in the table have sole voting and investment power with respect to all shares reflected as beneficially owned by them. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, (i) shares of common stock that could be issued upon the exercise of outstanding options held by that person are currently exercisable or exercisable within 60 days of August 15, 2017, (ii) shares of common stock that would be issued upon the vesting of restricted stock units within 60 days of August 15, 2017 and (iii) shares of restricted common stock for which the holder may exercise full voting rights while the shares remain restricted are considered outstanding. These shares, however, are not considered outstanding when computing the percentage ownership of any other person. Percentage of ownership is based on 85,590,521 shares of our common stock outstanding on August 15, 2017. Unless otherwise indicated, the address for each of the stockholders in the table below is c/o Bazaarvoice, Inc., 10901 Stonelake Blvd., Austin, Texas 78759.

The Company does not control the Foundation's activities and accordingly, the Company does not consolidate the Foundation's statement of activities with its financial results.

Policies and Procedures for Related Party Transactions

Director Independence

On August 23, 2017, our Board undertook a review of the independence of the directors and considered whether any director has a material relationship with us that could compromise his or her ability to exercise independent judgment in carrying out his or her responsibilities. As a result of these reviews, our Board determined that Steven H. Berkowitz, Krista Berry, Sydney L. Carey, Jeffrey S. Hawn, Jared Kopf, Thomas J. Meredith and Allison M. Wing are "independent directors" as defined under the rules of NASDAQ and SEC rules and regulations. Our Board had previously determined that Mary T. McDowell, who was not nominated for reelection at our 2016 Annual Meeting of Stockholders and served on our Board until the time of the Annual Meeting on October 12, 2016, was an "independent director" as defined under the rules of NASDAQ and SEC rules and regulations.

This policy mandates that the audit committee approve the audit and non-audit services and related budget in advance, and that the audit committee be provided with quarterly reporting on actual spending. This policy also mandates that we may not enter into auditor engagements for non-audit services without the express approval of the audit committee.
