DOMESTIC POWER GENERATION INCREASES BY 6.30% IN 2008

This announcement is made pursuant to Rules 13.09(1) and (2) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

Huaneng Power International, Inc. (the “Company”) announces its power generation for 2008.

Based on the Company’s preliminary statistics, for the year ended 31 December 2008, the Company’s total domestic power generation based on a consolidated basis amounted to 184.628 billion kWh, an increase of 6.30% over the same period in 2007. The power generation of Yingkou Power Plant, Yuhuan Power Plant, Qinbei Power Plant and Shangan Power Plant, etc increased significantly as compared to the same period last year. The increase in domestic power generation of the Company’s power plants was mainly attributable to the following reasons:

1. The Company had put into operation more new power generating units in 2008, the safe and stable operation of which had provided a key momentum for the growth of the Company’s power generation.
2. Taking into consideration the relatively significant changes in the economic climate in 2008, the Company had further strengthened its marketing efforts, formulated feasible and effective marketing strategies and measures and fully utilized the competitive advantages of the power plants of the Company, thereby facilitating a relatively rapid growth of the Company’s power generation.
3. Maintenance arrangements for the Company’s generating units had been optimized, thus facilitating a growth in the Company’s power generation.

The power generation of each of the Company’s domestic power plants in 2008 was listed below (in billion kWh):

| Domestic Power Plant | Power generation in 2008 | Power generation in 2007 | Change |
