

PERVASIP CORP
Form 10-K
March 15, 2012

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended: November 30, 2011

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 000-04465

PERVASIP CORP.
(Exact name of registrant as specified in its charter)

New York	13-2511270
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

75 South Broadway, Suite 400
White Plains, NY 10601
(Address of Principal Executive Offices)

(914) 620-1500
(Registrant's telephone number, including area code)

Securities registered under Section 12(b) of the Exchange Act: None

Securities registered under Section 12(g) of the Exchange Act:

Common Stock, par value \$0.001 per share

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was

Edgar Filing: PERVASIP CORP - Form 10-K

required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by checkmark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer	<input type="checkbox"/>	Non-accelerated filer	<input type="checkbox"/>
Accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input checked="" type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of registrant's voting and non-voting common equity held by non-affiliates (as defined by Rule 12b-2 of the Exchange Act) computed by reference to the average bid and asked price of such common equity on May 31, 2011, was \$9,318,011. As of March 14, 2012, the registrant has one class of common equity, and the number of shares outstanding of such common equity was 137,101,970.

Documents Incorporated By Reference: None.

Special Note Regarding Forward Looking Statements

Included in this Form 10-K are “forward-looking” statements, as well as historical information. Although we believe that the expectations reflected in these forward-looking statements are reasonable, we cannot assure you that the expectations reflected in these forward-looking statements will prove to be correct. Our actual results could differ materially from those anticipated in forward-looking statements as a result of certain factors, including matters described in the section titled “Risk Factors.” Forward-looking statements include those that use forward-looking terminology, such as the words “anticipate,” “believe,” “estimate,” “expect,” “intend,” “may,” “project,” “plan,” “will,” “shall,” similar expressions, including when used in the negative. Although we believe that the expectations reflected in these forward-looking statements are reasonable and achievable, these statements involve risks and uncertainties and we cannot assure you that actual results will be consistent with these forward-looking statements. Important factors that could cause our actual results, performance or achievements to differ from these forward-looking statements include the following:

- The availability of additional funds to successfully pursue our business plan;
- The cooperation of our lender which has not demanded repayment of our debt that was due in October 2010;
- The cooperation of industry service partners that have signed agreements with us;
- Our ability to market our services to current and new customers and generate customer demand for our products and services in the geographical areas in which we operate;
- The impact of changes the Federal Communications Commission or State Public Service Commissions may make to existing telecommunication laws and regulations, including laws dealing with Internet telephony;
- Our ability to comply with provisions of our financing agreements;
- The highly competitive nature of our industry;
- The acceptance of telephone calls over the Internet by mainstream consumers;
- Our ability to retain key personnel;
- Our ability to maintain adequate customer care and manage our churn rate;
- The impact of adverse tax or regulatory rulings or actions affecting our operations, including the imposition of taxes, fees and penalties;
- Our ability to maintain, attract and integrate internal management, technical information and management information systems;
- Our ability to manage rapid growth while maintaining adequate controls and procedures;
- The availability and maintenance of suitable vendor relationships, in a timely manner, at reasonable cost;
- The decrease in telecommunications prices to consumers; and
- General economic conditions.

These forward-looking statements are subject to numerous assumptions, risks and uncertainties that may cause our actual results to be materially different from any future results expressed or implied by us in those statements.

These risk factors should be considered in connection with any subsequent written or oral forward-looking statements that we or persons acting on our behalf may issue. All written and oral forward looking statements made in connection with this Report that are attributable to us or persons acting on our behalf are expressly qualified in their entirety by these cautionary statements. Given these uncertainties, we caution investors not to unduly rely on our forward-looking statements. We do not undertake any obligation to review or confirm analysts’ expectations or estimates or to release publicly any revisions to any forward-looking statements to reflect events or circumstances after the date of this document or to reflect the occurrence of unanticipated events. Further, the statements about our intentions contained in this document are statements of our intentions as of the date of this document and are based upon, among other things, the existing regulatory environment, industry conditions, market conditions and prices, the economy in general and our assumptions as of such date. We may change our intentions, at any time and without notice, based upon any changes in such factors, in our assumptions or otherwise.

PART I

In this Annual Report on Form 10-K, we will refer to Pervasip Corp., a New York corporation, as “our company,” “we,” “us” and “our.”

ITEM 1. BUSINESS.

Overview

We are a provider of video and voice over Internet Protocol, or VoIP, telephony services. The nature of our technology is cloud-based computing, and therefore our target market is not limited to our physical presence in the United States. In particular, our mobile VoIP application, which can be downloaded to any Android smartphone or tablet, gives us a global market and allows us to sell to: (i) traditional telecom carriers that do not wish to lose market share to cloud-based upstarts; (ii) new-age entrants that seek to offer cloud-based voice telephony in addition to our sophisticated video VoIP service; and (iii) individual consumers. We sell our video and voice over Internet Protocol (“IP”) telephony product on a wholesale and retail basis to telephone carriers, broadband suppliers, individual corporations and consumers. An incumbent telephone carrier in Africa intends to sell our video VoIP services to its existing customer base, a mobile wallet company intends to sell our VoIP application to its customer base, and hundreds of individual consumers download our mobile VoIP application from the Android Market web site every day, under the brand name of VoX Communications.

The continued growth in both mobile telephone services and video telephone services has resulted in a new mobile VoIP market. Adding VoIP to mobile telephone services allows subscribers to make inexpensive calls from their mobile phones instead of using costly airtime minutes. A consumer who uses our mobile VoIP application can use our telephone service as his or her primary phone line or a secondary phone line. Our application allows unlimited free calling and instant messaging to other VoX Communications customers and provides the consumer with a distinct telephone number with its own voice mail service, free calling features such as 3-way calling and caller ID, online account management, the ability to call any phone number in the world for inexpensive calling rates and the ability to record telephone calls. We have upgraded our mobile VoIP application so that a user can make video calls from his or her Android device to other users who have downloaded the video application. We plan to release the video application for commercial use in the second quarter of 2012.

Adding video calling to mobile devices allows corporations to see their mobile employees or customers when a telephone call is made, and provides families with the ability to see loved ones who are otherwise inaccessible to visual contact. We currently sell video broadband phone services that enable fixed broadband users to add digital voice and video communications services to their high-speed Internet connections. Customers choose their own telephone numbers from a list we keep on our web site, or they can ask us to order a telephone number that is affiliated with a specific geographical location. This telephone number is then used for all incoming and outgoing telephone calls. All video telephone accounts come bundled with voice mail, caller ID, call waiting, call forwarding, hold, 3-way video conferencing, web-based access to account controls and online billing. We plan to extend this video calling service over a fixed broadband connection to our mobile application so that consumers can utilize our video calling services from their smartphones and tablet devices. Our voice and our video applications work over 3G and 4G networks, in addition to WiFi networks.

Today we support thousands of active users around the world through our wholesale channel and more than 35,000 people have downloaded our Android application in our direct-to-consumer channel. We have built a privately-managed, state-of-the-art global telecommunications platform using IP technology and we offer a broad suite of private label VoIP products and services, as well as a back-office platform. Our operations management tools include, among others: automated account provisioning; e-commerce-based payment processing systems; billing and

account management; operations management; web development; network management; and customer care. Based on our customizable VoIP solutions, our wholesale customers can offer private label video and voice-over-IP services to their own customer bases under their own brand name, a “white-label” brand (in which no brand name is indicated and different customers can offer the same product), or our own brand, VoX Communications. We are able to provide customized solutions that other VoIP providers, with more financial resources, are not able to provide. We are able to provide our services at a cost per user that is generally lower than that charged by traditional service providers because we minimize our network costs by using efficient packet-switched technology and interconnecting to a wide variety of termination options, which allows us to benefit from pricing differences between vendors to the same termination points.

Development of Business

We were incorporated in the State of New York in 1964 under the name Sirco Products Co. Inc. and developed a line of high-quality handbags, totes, luggage and sport bags. In 1999, we divested our handbag and luggage operations, which had experienced several years of operating losses

We commenced operations in the telecommunications industry in fiscal 1998 by acquiring a Competitive Local Exchange Carrier (“CLEC”) that was formed to attract and retain a geographically-concentrated customer base in the metropolitan New York region, primarily through the resale of products and services of incumbent and alternative facilities-based local providers. In 1999, we changed our name to eLEC Communications Corp. to signify our new focus on telecommunications and our vision to run local exchange services over the Internet. In March 2000 we formed a software company to provide billing services. In October 2000, we purchased another CLEC, and in November 2002 we started a third CLEC.

Our CLEC operations always leased circuit-switched network elements from other carriers in order to provide wireline services to customers. Although we entered the telephone business in 1998 by leasing wirelines, it was always our intention to use that platform as a stepping-stone on our way to becoming an IP telephone company. Consequently, we sold our wireline business during fiscal 2007. In conjunction with this sale and the shift of our focus to IP telephony, in December 2007, we changed our name to Pervasip Corp. The word Pervasip is a contraction of the phrase “Pervasive IP” and our intention is to be known as a pervasive IP company with a ubiquitous global presence.

In 2004, we began VoX Communications (“VoX”), which operates in our wholly-owned software company, to pursue the deployment of our own IP network for IP telephony services. In addition to the general cost advantages of IP telephone service, we believe IP communication technologies will continue to advance rapidly and will further the potential for the Internet to become the preferred medium of communication and commerce. Beginning in fiscal 2006, we expended a vast amount of our resources on the planning, development and implementation of our IP network.

Although we allow individual users to purchase our digital voice service on the VoX website at <http://www.voxcorp.net/>, we focused our efforts on becoming a wholesale provider of digital voice services. As a wholesaler, we enable broadband service providers to sell a voice product to their existing customers before a retail VoIP company approaches the broadband customer with its voice product. This wholesale model contains many cost advantages for us, especially with regard to customer acquisition costs. Companies that sell digital voice services on a retail level typically experience significant customer acquisition costs because of the high marketing expenses and special promotions they use to attract an end-user who already has broadband service. We do not incur the expense of retail customer acquisitions, as these costs are borne by our wholesale customers. Our wholesale customers, however, often can attract retail customers in a more cost-effective manner than we can because the wholesale customer already has a customer base of end-users who are utilizing broadband services.

With the launching of our Mobile VoIP product and our videophone service, we anticipate we will change our focus to the retail smart phone consumer. This consumer could be a customer of VoX, or it could be a person who bought a phone and phone service under a different name, but VoX is providing the service. For example, we have signed an agreement with a person-to-person marketing firm to sell the Ojo Vision Digital Video Phone with VoX service to its membership base. This marketing firm decided to sell the phone service as an agent of VoX, in lieu of selling the service under its own brand name, and therefore, the customers it signs up will become direct customers of VoX. In another instance, a carrier in Africa wants to market the video phone under its own brand name, and have VoX route all non-video calls back to its switch so that it can provide its normal audio-only services to its existing customer base, capturing all the telephone usage, billing, revenue and gross margin. In this instance, the customer is not a direct

customer of VoX, but is a customer of the African carrier that is using VoX's VoIP technology. The VoX video service is an add-on feature and the international carrier pays VoX directly for unlimited video calling from any customer who buys video service.

Available Information

We maintain a corporate website with the address <http://www.pervasip.com/> and VoX maintains a corporate website with the address <http://www.voxcorp.net/>. We have not incorporated by reference into this Report on Form 10-K the information on any of our websites and you should not consider any of such information to be a part of this document. Our website addresses are included in this document for reference only. We make available free of charge through our corporate website our Annual Reports on Form 10-K or 10-KSB, Quarterly Reports on Form 10-Q or Form 10-QSB and Current Reports on Form 8-K, and amendments to these reports through a link to the EDGAR database as soon as reasonably practicable after we electronically file such material with, or furnish such material to, the U.S. Securities and Exchange Commission (the "SEC"). You can also read and copy any materials we file with the SEC at the SEC's Public Reference Room at 100 F Street, NE, Washington, DC 20549. You can obtain additional information about the operation of the Public Reference Room by calling the SEC at 1.800.SEC.0330. In addition, the SEC maintains a website (www.sec.gov) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC, including all of our filings.

Industry Background

The technology we employ to deliver our service, known as Voice over Internet Protocol (VoIP), enables communications over the Internet through the compression of voice, video and/or other media into data packets that can be efficiently transmitted over data networks and then converted back into the original media at the other end. Data networks, such as the Internet or local area networks, have always utilized packet-switched technology to transmit information between two communicating terminals (for example, a PC downloading a page from a web server, or one computer sending an e-mail message to another computer). IP is the most commonly used protocol for communicating on these packet switched networks. VoIP allows for the transmission of voice and data over these same packet-switched networks, providing an alternative to traditional telephone networks that use a fixed electrical path to carry voice signals through a series of switches to a destination.

As a result of the potential cost savings and added features of VoIP and video VoIP, consumers, enterprises, traditional telecommunication service providers and cable television providers view VoIP and video VoIP as the future of telecommunications. VoIP has experienced significant growth in recent years due to:

- Demand for lower cost telephone service;
- Improved quality and reliability of VoIP calls due to technological advances, increased network development and greater bandwidth capacity;
- Ability to download a VoIP application to a mobile device and utilize the 3G or 4G networks of the wireless phone carriers to provide consumers with mobile VoIP calling;
- Ability to download a VoIP application to a mobile device and utilize a WiFi network for mobile VoIP or mobile video calling; and
- New product innovations such as video calling that allow VoIP providers to offer services not currently offered by traditional telephone companies.

The traditional telephone networks maintained by many local and long distance telephone companies, known as the public-switched telephone networks, or PSTN, were designed solely to carry low-fidelity audio signals with a high level of reliability. Although these traditional telephone networks are very reliable for voice communications, we believe these networks are not well-suited to service the explosive growth of digital communication applications for the following reasons:

- They are expensive to build because each subscriber's telephone must be individually connected to the central office switch, which is usually several miles away from a typical subscriber's location;

They transmit data at very low rates and resolutions, making them poorly suited for delivering high-fidelity audio, entertainment-quality video or other rich multimedia content;

They use dedicated circuits for each telephone call which allot fixed bandwidth throughout the duration of each call, whether or not voice is actually being transmitted which is an inefficient use of the investment in the network; and

They demonstrate limitations in providing new or differentiated services or functions, such as video communications, that the network was not originally designed to accommodate.

Historically, packet-switched networks were built mainly for carrying non real-time data, although they are now fully capable of transmitting real time data. The advantages of such networks are their efficiency, flexibility and scalability. Bandwidth is only consumed when needed. Networks can be built in a variety of configurations to suit the number of users, client/server application requirements and desired availability of bandwidth, and many terminals can share the same connection to the network. As a result, significantly more traffic can be transmitted over a packet-switched network, such as a home network or the Internet, than a circuit-switched telephony network. Packet-switching technology allows service providers to converge their traditionally separate voice and data networks and more efficiently utilize their networks by carrying voice, video, facsimile and data traffic over the same network. The improved efficiency of packet switching technology creates network cost savings that can be passed on to the consumer in the form of lower telephone rates.

The growth of the Internet in recent years has proven the scalability of these underlying packet-switched networks. As broadband connectivity, including cable modem and digital subscriber line (or DSL), has become more available and less expensive, it is now possible for service providers like us to offer voice and video services that run over these IP networks to businesses and residential consumers. Providing such services has the potential to both substantially lower the cost of telephone service and equipment to these customers and increase the breadth of features available to our subscribers. Services like full-motion, two-way video are now supported by the bandwidth spectrum commonly available to broadband customers, whether business or residential. We believe that televisions using the Android operating system will become popular in 2012 and that these televisions will accommodate two-way video so that consumers will be making video calls from their Android televisions, using a video application such as the one we have developed.

Business Strategy

Our objective is to provide reliable, scalable and profitable worldwide cloud-based communications services with unmatched quality by utilizing our Linux-based software technologies to deliver innovative mobile and video telephone offerings at competitive prices. We intend to bring the best possible voice and video products and services, at an affordable price, to businesses and residential consumers and enhance the ways in which these customers connect, communicate and collaborate with each other on a worldwide basis. We want to be known for our high quality of service, robust features and ability to deliver any new product to a wholesale customer or a web store without delay.

Specific strategies to accomplish this objective include:

Capitalize on our technology expertise to support new products and features. Our proprietary VoIP technology gives us the ability to offer leading-edge services and control our product development cycle. Our ability to quickly test new IP devices on our network, including videophones, IPTV, WiFi enabled VoIP phones and mobile VoIP phones, allows us to continuously offer the best and newest products as they become available. We are not dependent upon one or two device manufacturers, which has resulted in considerable cost savings, greater capacity and flexibility per port, and the ability to provide convergent solutions with new features, services and service creation capabilities in a timely manner.

Focus on offering enhanced calling features to Video calling services. The videophone that we support contains compression technology that allows us to provide real-time video calling with very efficient bandwidth usage. Our ability to customize the video phone to the needs of wholesale customers, such as making video calls to mobile Android devices, sending video ads to the phone, allowing simultaneous ringing to more than one video phone, allowing our video customers to make calls to video phones on a competitors' network, or routing certain calls to a switch specified by the customer, has allowed us to enter discussions and attract customers in several instances where our competitors had no solutions to offer.

Continue to utilize back-office automation. We believe that to achieve our objective we need to have “cradle to grave” automation of our back-office web and billing systems. We have written our software for maximum automation, flexibility and changeability. We know from experience in provisioning complex telecom orders that back-office automation is a key factor in keeping overhead costs low. Technology continues to work for 24 hours a day and we believe that the fewer people a company has in the back office, the more efficiently it can run, which should drive down the cost per order.

Our approach to VoIP does not require expensive network equipment to provide telephony services. Instead, we rely on our proprietary software and a “server cluster” or “server farm” architecture. Unlike the typical telecom model where one large expensive machine performs almost every task, we have a server farm comprised of a cluster of Dell servers and Cisco routers, where each machine performs a different task and has from one to three backup machines to ensure that services never go down. By not relying on the equipment and related software of telecom equipment vendors, we are able to control our own destiny and scale without the limitations and delays associated with equipment financing, installation and the integration of new machines and source code updates that equipment vendors impose on VoIP carriers. Our philosophy is that VoIP is an application and should be treated the same way that companies such as Google, Inc. process their data. Consequently, data servers and routers are the appropriate vehicle on which to process our VoIP calls.

Our Services

Our VoX services work over virtually any high-speed Internet connection worldwide to allow calls to or from any phone in the world, whether that phone is an IP phone or a PSTN phone. Our VoX service utilizes IP customer premise equipment to enable plug and play installation and a familiar dial tone user interface. Our service also uses web-based technologies to enable Internet fax, account setup, account management, billing and customer support. We have developed proprietary implementation of standards-based technologies underlying our service, which works with third party carriers to terminate VoIP calls on the PSTN network. As part of the VoX service, we currently resell analog telephone adapters, mobile phones and IP videophones that can utilize our unique VoIP software so that a user can make high-quality telephone calls on our VoIP network. We continue to enhance and develop new functionality in our software code so that our services can be downloaded to additional devices.

Mobile VoIP – TMCnet.com reports on its web site <http://www.tmcnet.com/channels/mobile-voip/> that the market for Mobile VoIP is expected to be \$32.2 billion by the end of 2013 and that by 2019, half of all mobile calls throughout the world will be made over all-IP networks. According to the analyst firm In-Stat, there will be more than 138 million active mobile VoIP users by 2014. We are offering our mobile VoIP product, as a downloadable application, on several web sites. We primarily market it as a second line on a consumer’s mobile device, although we do have customers who use an Internet tablet and our mobile VoIP is their only telephone line. We believe that as consumers adopt Mobile VoIP and transition away from the circuit-switched networks now in use, consumers will find that having a second phone line on their mobile devices will be helpful to distinguish between business and personal calls. Also, a second or third phone line becomes very useful to people who do not want to give out their permanent mobile phone number to someone they have recently met. A mobile VoIP number from VoX comes with its own voice mail account so the customer with a VoX number can have a professional voice mail message or a personal voice mail greeting, depending on the preferences of the customer.

VoIP and Videophone Services – We introduced our VoIP telephone service in 2005. To obtain the service, the customer must enter into a service agreement with us and select a calling plan based on the anticipated use of the service. Service plans provide alternatives for minutes of usage, up to an unlimited amount, at varying rates for calls in the United States, Canada and Puerto Rico that are made to non-VoX customers. Subscribers are charged at a per-minute rate for international calls to non-VoX customers and, depending on the level of plan selected, may be charged for calls to the PSTN if they exceed the minutes allowed under the chosen plan. All of our plans allow for unlimited calling between VoX customers, regardless of their location. Each subscriber is assigned a telephone number in any of the area codes and underlying rate centers currently offered by the service. We currently offer area codes in all 50 states in the United States, along with telephone number porting from the customer's previous service provider to VoX, for those subscribers who wish to keep their existing telephone number. All VoX customers receive access to a variety of telephone features, including voice mail, caller ID, call forwarding, call waiting, 3-way calling, online account management and billing, call blocking and caller ID blocking. We currently offer enhanced 9-1-1, or E-911, service on all VoX calling plans with a United States service address. Our customer’s E-911 call is routed as

9-1-1 emergency traffic and is accompanied by caller information. Subscribers may also have toll-free numbers (e.g., 800 numbers) or virtual numbers. A virtual number is an additional phone number that will ring through to an existing subscriber line. We offer virtual numbers in all of our U.S. rate centers, as well as in certain international countries. We also offer video over IP service the Ojo Vision videophone, which includes all of the voice service plans and features described above plus unlimited video calls to any other VoX videophone subscriber anywhere in the world.

Our Network

We operate a sophisticated IP network to deliver our broadband voice services. We carefully monitor the network as it automatically minimizes the route taken by packets carrying a voice conversation, and self-regulates traffic volumes to directly control the quality of service from the origination to the termination of a call. Calls are connected on our network with minimal post-dial delay and our G.729 compression yields virtually no jitter. When compared to other broadband voice carriers or wireline connections, we deliver a high-quality call. Our softswitch utilizes advanced SIP infrastructure on a cluster of SIP servers and has the ability to scale at a low cost. We believe the collective thought process of our SIP servers makes us unique, as our servers are capable of “thinking” about what they are doing and will perform self-healing functions when necessary to ensure a call is not dropped. Unlike many of our competitors, we do not rely on Microsoft to power our softswitch. By using our own open-source software platform, we are able to update the network as needed, avoid the delays of waiting for software upgrades from Microsoft and avert the problems associated with having too much reliance on one vendor in order to run our network.

We consider voice to be an application on an IP transport. Our network does not use the mainframe technology approach that Sonus Networks, Inc. or BroadSoft, Inc. promotes. Instead, we have a fully-scalable, redundant, power-backed stable platform with a server farm that contains no specifically-designed telecom equipment. By not relying on the telecom equipment and related software of the larger equipment vendors, we are able to own and control our own proprietary source code and to scale without the limitations and delays associated with equipment financing, installation, integration and source code updates that equipment vendors impose on other broadband voice carriers.

Competition

The communications industry is highly competitive and the market for enhanced Internet and cloud-based communications services is new and rapidly evolving. We believe the primary competitive factors that will determine our success in the Internet and cloud-based communications market are:

- Quality of service;
- Responsive customer care services;
- Ability to provide customers with a telephone number in their local calling area;
- Pricing levels and policies;
- Quality of data service, provided by wireless telephone companies, over which our applications runs;
- Ability to provide E911 and 911 service;
- Bundled service offerings;
- Innovative features;
- Ease of use;
- Accurate billing;
- Brand recognition; and
- Quality of analog telephone adapter supported by us and used by our customer.

Future competition could come from a variety of companies in both the Internet and telecommunications industries. This competition includes major companies that have been in operation for many years and have greater resources and larger subscriber bases than we have, as well as companies operating in the growing market of discount telecommunications services, including calling cards and prepaid cards.

We anticipate that competition also will come from several traditional telecommunications companies, including industry leaders, such as Verizon Communications Inc., AT&T Inc., Sprint Nextel Corporation and Deutsche Telekom AG, as well as established broadband services providers, such as Time Warner Inc., Comcast Corporation and Cablevision Inc. These companies provide enhanced Internet and IP communications services in both the United States and internationally. All of these competitors are significantly larger than we are and have:

- substantially greater financial, technical and marketing resources;
- stronger name recognition and customer loyalty;
- well-established relationships with many of our target customers;
- larger networks; and
- large existing user bases to cross sell new services.

These and other competitors may be able to bundle services and products that are not offered by us together with enhanced Internet and IP communications services, which could place us at a significant competitive disadvantage. Many of our competitors enjoy economies of scale that can result in a lower cost structure for transmission and related costs, which could cause significant pricing pressures within the industry.

Operations

We have a centrally managed platform consisting of data management, monitoring, control and billing systems that support all of our products and services. We have invested substantial resources to develop and implement our real-time call management information system. Key elements of this system include automated customer provisioning, customer access, fraud control, network security, call routing, call monitoring, media processing and normalization, call reliability, and detailed call records. Our platform monitors our process of digitizing and compressing voice and video into packets and transmitting these packets over data networks around the world. We maintain a call switching platform in software that manages call admission, call control, call rating and routes calls to an appropriate destination or customer premise equipment. Unless the recipient is using an Internet telephony device, the packets (representing a voice and/or video call initiated by a VoX subscriber) are sent to a gateway belonging to one of our partner telecommunications carriers, where they are reassembled and the call is transferred to the PSTN and directed to a regular telephone anywhere in the world. Our billing and back office systems manage and enroll customers and bill calls as they originate and terminate on the service.

Network Operations Center – We maintain a network operations center in Orlando Florida and employ a staff of 6 individuals with experience in voice and data operations to provide 24-hour operations support, 7 days per week. We use various tools to monitor and manage all elements of our network and our partners' networks in real-time. We also monitor the network elements of some of our larger business customers. Additionally, our network operations center provides technical support to troubleshoot equipment and network problems. We also rely upon the network operations centers and resources of our telecommunications carrier partners to augment our monitoring and response efforts.

Customer and Technical Support – We maintain call center operations in Orlando, Florida and White Plains, New York and have a staff of 4 employees and contractors that provide customer service and technical support to customers. Customers who access our services directly through our web site receive customer service and technical support through multilingual telephone communication, web-based and "chat" sessions and e-mail support.

Interconnection Agreements – We are a party to telecommunications interconnect and service agreements with VoIP providers and PSTN telecommunications carriers, such as Level (3) Communications and Broadvox Networks. Pursuant to these agreements, VoIP calls originating on our network can be terminated on other VoIP networks or the PSTN. Correspondingly, calls originating on other VoIP networks and the PSTN can be terminated

on our network. While we believe that relations with these providers and carriers are good, we have no assurance that these partners will be able or willing to supply services to us in the future.

Product Design

The VoIP market is characterized by rapid technological changes and advancements. Accordingly, we make substantial investments in the design and development of new products and services, as well as the development of enhancements and features to our existing mobile VoIP applications and services. Future development also will focus on the use and interoperability of our products and services with emerging audio and video telephony standards and protocols, quality and performance enhancements to multimedia compression algorithms, support of new customer premise equipment, and wireless and mobile applications. We believe that the development of new products and services and the enhancement of existing products and services are essential to our success.

Major Customer

We had one customer that accounted for 24% of our revenues in fiscal 2011 and 23% of our revenues in fiscal 2010.

Government Regulation

The Federal Communications Commission (“FCC”) has jurisdiction over all U.S. telecommunications common carriers to the extent they provide interstate or international communications services, including the use of local networks to originate or terminate such services. The FCC also has jurisdiction over certain issues relating to interconnection between providers of local exchange service and the provision of service via fixed wireless spectrum.

The use of the Internet and private IP networks to provide voice communication services is a relatively recent market development. Although the provision of such services is currently permitted by United States law and largely unregulated within the United States, several foreign governments have adopted laws and/or regulations that could restrict or prohibit the provision of voice communication services over the Internet or private IP networks. More aggressive regulation of the Internet in general, and Internet telephony providers and services specifically, may materially and adversely affect our business.

On March 10, 2004, the FCC initiated a broad rulemaking proceeding concerning the provision of voice and other services and applications utilizing IP technology. The FCC’s generic rulemaking proceeding could result in the FCC determining, for instance, that certain types of Internet telephony should be regulated like landline telecommunications services. Thus, Internet telephony would no longer be exempt from more onerous telecommunications-related regulatory obligations, or other economic regulations typically imposed on traditional telecommunications carriers.

In June 2005, the FCC adopted rules requiring providers of broadband voice services to provide 911 emergency access. We believe we are in compliance with this order. In August 2005, the FCC adopted rules that these providers must design their systems to facilitate authorized wiretaps pursuant to the Communications Assistance to Law Enforcement Act. We anticipate that we will continue to develop technologies as required by governmental regulation that support emergency access and enhanced services. We believe that almost all digital voice providers have difficulty in achieving full compliance within the stated deadlines due to the level of complexity and cost of some of the requirements. We find that we are in a position similar to our peers in the industry, where a strict interpretation of an FCC order could lead to an enforcement action including fines or an order to cease and desist marketing a certain service in a certain area where we do not have full compliance.

In June 2006, the FCC announced that interconnected digital voice providers, such as VoX, would be required to contribute to the Universal Service Fund (“USF”) on an interim basis, beginning October 2006. The FCC permitted interconnected digital voice providers to determine their USF contribution according to one of three different calculation methods. Implementation of the regulatory requirements compelled by the FCC’s action take considerable

time and cost, and we cannot guarantee that we have implemented these requirements fully. If we fail to report our revenue and remit USF on that revenue accurately, we may be subject to late fees, penalties or other actions, which could negatively affect our business.

In April 2007, the FCC released its order extending the application of the customer proprietary network information (“CPNI”) rules to interconnected VoIP providers. CPNI includes information such as the telephone numbers called by a consumer; the frequency, duration and timing of such calls; and any services and features purchased by the consumer, such as call waiting, call forwarding and caller ID.

Under the FCC’s existing rules, carriers may not use CPNI without customer approval except in circumstances related to their provision of existing services, and must comply with detailed customer approval processes when using CPNI outside of these circumstances. The new CPNI requirements are aimed at establishing more stringent security measures for access to a customer’s CPNI data in the form of enhanced passwords for on-line access and call-in access to account information as well as customer notification of account or password changes.

On August 6, 2007 and effective November 2007, the FCC adopted an Order concerning the collection of regulatory fees requiring the collection of such fees from interconnected VoIP providers. Interconnected VoIP providers pay regulatory fees based on interstate and international revenues. The Regulatory Fees Order became effective in November 2007.

On November 8, 2007, the FCC released an Order relating to local number portability imposing local number portability and related obligations on interconnected VoIP Providers like us. The Order requires interconnected VoIP providers to contribute to shared numbering administration costs. Additionally, the Order mandates that we port telephone numbers within certain timeframes. As a result of the steps we have taken, we believe that we comply with the FCC’s order regarding local number portability.

On February 9, 2011, the FCC released a Notice of Proposed Rulemaking on reforming universal service and the intercarrier compensation (“ICC”) system that governs payments between telecommunications carriers primarily for terminating traffic. In particular, the FCC indicated that it has never determined the ICC obligations for VoIP service and sought comment on a number of proposals for how VoIP should be treated in the ICC system. The FCC's adoption of an ICC proposal will impact our costs for telecommunications services. On October 27, 2011, the FCC adopted an order reforming universal service and ICC. The FCC order provides that VoIP originated calls will be subject to interstate access charges for long distance calls and reciprocal compensation for local calls that terminate to the PSTN. It also subjected PSTN originated traffic directed to VoIP subscribers to similar ICC obligations. The termination charges for all traffic, including VoIP originated traffic, will transition over several years to a bill and keep arrangement (i.e., no termination charges). Numerous parties filed appeals of the FCC order in multiple federal circuit courts of appeal. We cannot yet predict what, if any, impact the ICC regulations will have on our costs.

Other action by the FCC has expanded the possibility that our digital voice services may become subject to state regulation, which will likely lead to higher costs and reduce some of the competitive advantage digital voice services hold over traditional telecommunications services.

Some state and local regulatory authorities believe they retain jurisdiction to regulate the provision of, and impose taxes, fees and surcharges on, intrastate Internet and VoIP telephony services, and have attempted to impose such taxes, fees and surcharges, such as a fee for providing E-911 service. Rulings by the state commissions on the regulatory considerations affecting Internet and IP telephony services could affect our operations and revenues, and we cannot predict whether state commissions will be permitted to regulate the services we offer in the future.

In addition, it is possible that we will be required to collect and remit taxes, fees and surcharges in other states and local jurisdictions for virtual data products, based upon a billing address or phone number of a VoIP customer and such authorities may take the position that we should have collected such taxes, fees and surcharges even though we did not. If so, they may seek to collect those past taxes, fees and surcharges from us and impose fines, penalties or interest charges on us. Our payment of these past taxes, fees and surcharges, as well as penalties and interest charges,

could have a material adverse effect on us.

12

Employees

As of March 14, 2012, we had eight employees. We are not subject to any collective bargaining agreement and we believe our relationship with our employees is good. We plan to operate with a small number of employees until our revenues increase further or until we are able to attract additional financing that has money earmarked for sales and marketing expense.

ITEM 1A. RISK FACTORS

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934, as amended (the "Exchange Act") and are not required to provide information under this item.

ITEM 1B. UNRESOLVED STAFF COMMENTS.

There are no unresolved staff comments.

ITEM 2. PROPERTIES.

The following table sets forth pertinent facts concerning our office leases as of March 14, 2012.

Location	Use	Approximate Square Feet	Annual Rent
75 South Broadway White Plains, NY 10601	Office	200	\$ 9,000

The lease for our office space in White Plains, NY is \$750 per month and is renewable every three months. We maintain two employees at this location, and we plan to maintain this location in 2012. Most of our employees work from home offices. We are aware of vacant office space if the need arises to have employees working together in the same office.

ITEM 3. LEGAL PROCEEDINGS.

We are currently not involved in any litigation that we believe could have a materially adverse effect on our financial condition or results of operations. There is no action, suit, proceeding, inquiry or investigation before or by any court, public board, government agency, self-regulatory organization or body pending or, to the knowledge of the executive officers of our company or any of our subsidiaries, threatened against or affecting our company, our common stock, any of our subsidiaries or of our company's or our company's subsidiaries' officers or directors in their capacities as such, in which an adverse decision could have a material adverse effect.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

PART II

ITEM 5. MARKET FOR COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

(a) Market Information

Our common stock currently trades on the OTCQB marketplace under the symbol PVSP. The high and low closing price for each quarterly period of our last two fiscal years are listed below:

The following table sets forth the high and low trade information for our common stock for each quarter during the past two fiscal years. The prices reflect inter-dealer quotations, do not include retail mark-ups, markdowns or commissions and do not necessarily reflect actual transactions.

Quarter ended	High Price	Low Price
1st Quarter 2010	\$ 1.30	\$ 0.31
2nd Quarter 2010	\$ 1.30	\$ 0.60
3rd Quarter 2010	\$ 1.40	\$ 0.50
4th Quarter 2010	\$ 0.74	\$ 0.40
1st Quarter 2011	\$ 0.07	\$ 0.05
2nd Quarter 2011	\$ 0.095	\$ 0.0099
3rd Quarter 2011	\$ 0.0589	\$ 0.0115
4th Quarter 2011	\$ 0.018	\$ 0.0055

The quotations set forth in the table above reflect inter-dealer prices, without retail mark-up, mark-down or commission, and may not necessarily represent actual transactions. The historical prices above have been adjusted to reflect a 1 for 10 reverse stock split on September 22, 2010.

Recent Issuances of Unregistered Securities

The issuances described in this Item 5 were made in reliance upon the exemption from registration set forth in Section 4(2) of the Securities Act relating to sales by an issuer not involving any public offering. None of the foregoing transactions involved a distribution or public offering.

On September 1, 2011, we issued 4,419,724 shares of common stock, valued at \$66,738, for payment on outstanding promissory notes of \$40,000.

On September 1, 2011, we issued 1,000,000 shares of restricted common stock, valued at \$14,000, in conjunction with a contractual obligation for consulting services.

From September 7, 2011 to September 9, 2011, we issued 6,357,507 shares of common stock, valued at \$107,632, for payment on outstanding promissory notes of \$59,000.

On September 12, 2011, we issued 411,000 shares of restricted common stock, valued at \$6,165 in conjunction with a contractual obligation for marketing services.

From September 15, 2011 to October 21, 2011, we issued 17,121,379 shares of common stock, valued at \$187,027, for payment on outstanding promissory notes of \$133,200.

Edgar Filing: PERVASIP CORP - Form 10-K

On October 25, 2011, we issued 1,500,000 shares of restricted common stock, valued at \$17,250, in conjunction with a contractual obligation for consulting services.

On November 8, 2011, we issued 3,144,654 shares of common stock, valued at \$17,296, for payment on an outstanding promissory note of \$15,000.

On November 28, 2011, we issued 3,367,003 shares of common stock, valued at \$33,670, for payment on an outstanding promissory note of \$20,000.

(b) Holders

As of March 14, 2012, a total of 137,301,970 shares of the Company's common stock are currently outstanding held by approximately 178 shareholders of record.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is Worldwide Stock Transfer, LLC with its business address at 433 Hackensack Ave., Level L, Hackensack, NJ 07601.

(c) Dividends

We have not declared or paid any dividends on our common stock and intend to retain any future earnings to fund the development and growth of our business. Therefore, we do not anticipate paying dividends on our common stock for the foreseeable future. Our secured term loans with our primary lender prohibit us from paying dividends to stockholders.

(d) Securities Authorized for Issuance under Equity Compensation Plans

The following table provides information as of November 30, 2011, with respect to shares of our common stock that are issuable under equity compensation plans.

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of Securities remaining available to future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders:			
1996 Restricted Stock Plan(1)			40,000
2007 Equity Incentive Plan(2)	85,500	\$ 2.30	67,000
Subtotal	85,500		107,000
Equity compensation plans not approved by security holders:			
Employee stock options	150,000	1.50	-
2004 Equity Incentive Plan (2)	19,000	2.42	56,153
2007 Contingent Option Plan (3)	650,694	2.70	-
2009 Equity Incentive Plan (2)	150,000	1.00	21,000
2011 Equity Incentive Plan (2)	14,100,000	.02	5,900,000
Subtotal	15,069,694		5,977,153

Total	15,155,194	6,084,153
-------	------------	-----------

-
- (1) Our Restricted Stock Plan provides for the issuance of restricted share grants to officers and non-officer employees.
 - (2) Our 2004, 2007, 2009, and 2011 Equity Incentive Plans allow for the granting of share options to members of our board of directors, officers, non-officer employees and consultants.
 - (3) The contingent options vest only if three consecutive months of positive cash flow from operations is achieved before their expiration in November 2012.

ITEM 6. SELECTED FINANCIAL DATA.

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide information under this item.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

THE FOLLOWING DISCUSSION OF OUR PLAN OF OPERATION AND RESULTS OF OPERATIONS SHOULD BE READ IN CONJUNCTION WITH THE FINANCIAL STATEMENTS AND RELATED NOTES TO THE FINANCIAL STATEMENTS INCLUDED ELSEWHERE IN THIS ANNUAL REPORT. THIS DISCUSSION CONTAINS FORWARD-LOOKING STATEMENTS THAT RELATE TO FUTURE EVENTS OR OUR FUTURE FINANCIAL PERFORMANCE. THESE STATEMENTS INVOLVE KNOWN AND UNKNOWN RISKS, UNCERTAINTIES AND OTHER FACTORS THAT MAY CAUSE OUR ACTUAL RESULTS, LEVELS OF ACTIVITY, PERFORMANCE OR ACHIEVEMENTS TO BE MATERIALLY DIFFERENT FROM ANY FUTURE RESULTS, LEVELS OF ACTIVITY, PERFORMANCE OR ACHIEVEMENTS EXPRESSED OR IMPLIED BY THESE FORWARD-LOOKING STATEMENTS.

Overview

We are a provider of voice and video communications services that connect people through broadband devices worldwide. We rely significantly on our network, which is a flexible, scalable Session Initiation Protocol (SIP) based Voice over Internet Protocol, or VoIP, network. We market attractively priced voice and messaging services throughout the world under the brand name of VoX Communications.

We began selling our VoIP services as a landline telephone business. Over the past two years we have leveraged our technology to offer services and applications for mobile devices, such as smart phones and tablets. In 2011 we introduced mobile applications, under the name of VoX Mobile, that allow free calling and messaging between users who have the application, as well as low-cost calling from anywhere in the world to the United States, Canada and Puerto Rico. In addition, calls by users of VoX Mobile to any device on the VoX Communications network are also free. Our mobile applications work over 3G, 4G and WiFi and can be downloaded in any country.

In 2011, we began selling video VoIP services. Our video VoIP runs over a fixed broadband connection, and we plan to add the video technology to our mobile Android application so that users can download the video application through the Android Market and make video calls from their mobile devices over the 3G, 4G or WiFi networks, to other VoX video users.

We have managed a significant strategic shift to Mobile VoIP while transforming the cost structure of our core business to drive significant improvements in our gross profit percentage from 34% in fiscal 2010 to 41% in fiscal 2011. The structural cost reductions are continuing to benefit our business in fiscal 2012, and we anticipate our gross profit percentage in the first quarter of fiscal 2012 to approach 50%. In addition to reducing ongoing costs, we are contracting with a new international carrier to lower international termination costs to further enhance our margins on international calling.

We have made significant financial progress over the past three months, providing an improved foundation for the future. In February 2012, we reduced the debt that we owe to our secured lenders by more than 35% and reduced our interest rate on the remaining secured debt to zero percent

Plan of Operation

We are focused on growth in three primary areas that target existing revenue streams with significant addressable markets.

Services to mobile and other connected devices. We are developing next-generation services to meet the increasing demand for VoIP telephony and messaging services by users of smart phones, tablets and other connected devices. We believe that we can capitalize on favorable trends in the mobile Internet market, including the worldwide proliferation of low cost 3G and 4G services and low or no-cost WiFi broadband, and the accelerating rate of smart phone and tablet adoption. In 2012 we expect to expand our mobile service offerings to include video calling from mobile devices. We anticipate our first video application will be available to users of Android devices. As of February 27, 2012, Google reported that 850,000 Android devices are activated each day and that more than 300 million mobile Android devices are roaming the world.

International long distance calling. The markets for international long distance are large and growing and we plan to leverage our VoIP network by offering consumers a low-cost and convenient alternative to the international services offered by telephone and cable companies and international calling cards. Industry data estimates the international long distance calling market to be \$80 billion annually, with up to 15% of such calling originating in the United States. We plan to develop direct sales channels where customers can subscribe to our service on-line or through a retail distribution channel using hang tags from VoX Communications that allow an easy download of our prepaid international calling services to a mobile phone.

Opportunities outside of the United States. There are many countries outside of the United States that have advanced wireless networks. We have approached several telecom companies in Africa, and a mobile wallet company in Africa, to sell our mobile VoIP services and our videophone services. We plan to add a device to the Ojo Vision videophone that will allow the videophone to run on the 3G network. We are pursuing arrangements where African carriers will sell to their customers a videophone that will use the VoX Communications video services. We offer automated provisioning of videophones with web-based interfaces to allow the carriers to rapidly add new videophone subscribers. Any non-video phone calls made over our videophone, we will route back to the carrier's switch so that we are not taking away revenues from the African carriers, but are instead enhancing their revenues by allowing them to sell video services. We have negotiated an agreement where in exchange for a monthly fee for unlimited video VoIP calling and a small per minute switching fee, the carrier will commit to sell up to 50,000 videophones, all of which would be using our videophone service. We anticipate finishing the details of this agreement in the second quarter of 2012, and we have approached several telecom companies overseas with the same model. The global consumer communications market is estimated to be \$200 billion annually, and we believe we can attract new subscribers in this market, especially when we offer a mobile video calling app for Android users that allows mobile video calls over the 3G, 4G and WiFi networks to other video applications users and to customers who have our desktop videophone.

Revenues

Revenues consist of telephony services revenue and customer equipment revenue.

Telephony services revenue. The majority of our operating revenues are telephony services revenues. We offer several bundled plans, unlimited plans and basic plans for wholesale and retail customers. The wholesale plans do not change much from customer to customer as the plan we offer to a cable operator is typically the same plan we offer to a WiFi carrier, Internet service providers or satellite broadband carrier. Each of our unlimited plans offers unlimited domestic calling, subject to certain restrictions, and each of our basic plans offers a limited number of calling minutes per month. Under our basic plans, we charge on a per-minute basis when the number of calling minutes included in

the plan is exceeded for a particular month. For all of our U.S. plans, we charge on a per-minute basis for international calls to destinations other than Canada. These per-minute fees are not included in our monthly subscription fees. Any plan we offer to our wholesale customers is also available to an individual end-user at a higher price that approximates the retail-selling price that most of our wholesale customers charge. We also have products that are on a per-minute usage basis, such as toll-free telephone numbers to businesses and international cell phone termination.

We derive most of our telephony services revenue from usage fees and monthly subscription fees we charge our customers under our service plans. We also offer a fax service over broadband, virtual phone numbers, toll free numbers and other services, for each of which we may charge an additional monthly fee. We automatically charge service fees monthly in advance to the credit cards of all of our retail customers. Our wholesale customers typically do not pay by credit card, but are required to give us a deposit. Depending on the volume of revenue generated by a wholesale customer, we bill them either weekly or monthly.

We charge retail customers a fee for activating service. Further, since we do not charge a retail customer for the cost of an analog telephone adapter (“ATA”), we generally charge a disconnect fee to customers who do not return their ATA to us upon termination of service, if the length of time between activation and termination is less than one year. Disconnect fees are recorded as revenue and are recognized at the time the customer terminates service. These revenues were nominal in fiscal 2011 and 2010.

Customer equipment revenue. Customer equipment revenue consists of revenue from sales of customer equipment to our wholesalers or directly to customers. In addition, customer equipment revenue includes the fees we charge our customers for shipping any equipment to them. In January 2011, we began selling video phones to retail customers, and these phones are considered customer equipment. Unlike the ATA, we charge the customer for the videophone. Frequently, a customer will purchase a videophone from a third-party and use our video VoIP service. In these instances, we have no equipment revenue.

Cost of Revenues

Direct cost of telephony services. Direct cost of telephony services primarily consists of fees we pay to third parties on an ongoing basis in order to provide our services. These fees include:

Access charges we pay to other telephone companies to terminate digital voice calls on the PSTN. When a VoX subscriber calls another VoX subscriber, we do not pay an access charge, as the call routes through our network without touching the PSTN.

The cost of leasing interconnections to route calls over the Internet and transfer calls between the Internet and the PSTN of various long distance carriers.

The cost of leasing from other telephone companies the telephone numbers we provide to our customers. We lease these telephone numbers on a monthly basis.

The cost of co-locating our connection point equipment in third-party facilities owned by other telephone companies.

The cost of providing local number portability, which allows customers to move their existing telephone numbers from another provider to our service. Only regulated telecommunications providers have access to the centralized number databases that facilitate this process. Because VoX is not a regulated telecommunications provider, we must pay other telecommunications providers to process our local number portability requests.

The cost of complying with the new FCC regulations regarding emergency services, which require us to provide enhanced emergency dialing capabilities to transmit 911 calls for all of our customers. This cost may increase in future periods.

Taxes we pay on our purchases of telecommunications services from our suppliers.

Direct cost of customer equipment and shipping. Direct cost of equipment sold primarily consists of costs we incur when a customer first subscribes to our service. These costs include:

The cost of the equipment we provide to customers who subscribe to our service through our direct sales channel, in each case in excess of activation fees.

The cost of shipping and handling for customer equipment, together with the installation manual, we ship to customers.

Results of Operations

Fiscal Year 2011 Compared to Fiscal Year 2010

Our revenues for fiscal 2011 decreased by approximately \$154,000, or approximately 11%, to approximately \$1,292,000 as compared to approximately \$1,446,000 reported for fiscal 2010. The decrease in revenues was mainly due the loss of lower margin wholesale business during the year, which we consider less desirable than our mobile VoIP application or our video VoIP product. In fiscal 2011, our sales representatives have focused on growth of our video VoIP product, which we anticipate will see significant gains in fiscal 2012.

Our gross profit for fiscal 2011 increased by approximately \$30,000 to approximately \$524,000 from a gross profit of approximately \$494,000 reported in fiscal 2010, and our gross profit percentage of 41% in fiscal 2011, as compared to 34% in fiscal 2010, increased by 7 percentage points. Although we had a reduction of revenue due to the loss of some wholesale customers, we had an increase in gross profit due to the higher gross profit percentage that we achieved. We were able to reduce our cost of completing calls to phone numbers that are not on our network and to increase some of the fees we charge to our customers. Our preliminary data for fiscal 2012 demonstrates further increases in our gross profit percentage, and we anticipate the first quarter gross margin in fiscal 2012 to approach 50%. Selling, general and administrative expenses (“SG&A”) decreased by approximately \$222,000, or approximately 10%, to approximately \$2,111,000 for fiscal 2011 from approximately \$2,333,000 reported in the prior year fiscal period. The decrease is primarily attributable to overhead cuts in consulting fees.

Bad debt expense decreased by approximately \$25,000 to approximately \$13,000 for fiscal 2011, as compared to approximately \$38,000 for the prior fiscal year. There were no large delinquencies in fiscal 2011 or 2010.

Interest expense increased by approximately \$2,154,000 to approximately \$3,578,000 for the year ended November 30, 2011, as compared to approximately \$1,424,000 for the prior fiscal year. Increased borrowings in fiscal 2011 at high effective interests rates caused interest expense to increase. A significant portion of the interest expense was accrued and unpaid interest expense to our secured lenders. Effective January 31, 2012, our secured lenders have agreed to charge us zero percent interest on our secured debt, so long as timely payments are made in fiscal 2012 of \$100,000 a month, beginning on March 30, 2012, by an investor that is the assignee of our secured debt. We anticipate this arrangement will cause interest expense in fiscal 2012 to be lower than the interest expense incurred in fiscal 2011.

For the year ended November 30, 2011 we recorded a gain on the settlement of liabilities of approximately \$107,000 as compared to a loss on the settlement of liabilities of approximately \$89,000 in fiscal 2010. In fiscal 2011 we recorded a gain on the extinguishment of a derivative liability of \$497,667.

For the year ended November 30, 2011, we recorded income from a mark-to-market adjustment of \$101,474, as compared to a mark-to-market loss of \$28,419 in fiscal 2010 (see Note 3). In accordance with authoritative guidance, with certain of our convertible notes outstanding, the embedded derivatives are revalued at each balance sheet date

and marked to fair value with the corresponding adjustment as a gain or loss on the change in the fair value of the derivatives, which are recorded as other income or expense.

Liquidity and Capital Resources

At November 30, 2011, we had cash and cash equivalents of approximately \$10,000 and negative working capital of approximately \$18,805,000 as compared to cash and cash equivalents of approximately \$32,000 and negative working capital of approximately \$16,484,000 at November 30, 2010.

Net cash used in operating activities aggregated approximately \$625,000 and \$488,000 in fiscal 2011 and 2010, respectively. The principal use of cash from operating activities in 2011 was the loss for the year of approximately \$4,450,000. The use of cash was offset in part by an increase in accounts payable and other liabilities of approximately \$2,303,000 and amortization of debt discount of approximately \$2,061,000. The principal use of cash from operating activities in fiscal 2010 was the loss for the year of approximately \$3,407,000. The use of cash was offset in part by an increase in accounts payable and other liabilities of approximately \$2,142,000 and common stock, options and warrants granted for services of approximately \$359,000.

Net cash provided by financing activities aggregated approximately \$603,000 and \$483,000 in fiscal 2011 and 2010, respectively. The principal sources of cash from financing activities were net proceeds from short-term borrowings of approximately \$397,000 and proceeds from issuances of common stock of approximately \$210,000. The principal sources of cash from financing activities in fiscal 2010 were net proceeds from short-term borrowings of approximately \$153,000 and proceeds from issuances of common stock of approximately \$231,000.

In fiscal 2011 and 2010, there were no expenditures for capital assets. Even though we anticipate rapid growth from business outside of the United States in fiscal 2012, we do not anticipate significant capital expenditures in fiscal 2012. Our arrangements with overseas carriers for the selling of our videophone services and the routing of video calls, includes our utilization of capital assets and collocation facilities provided by the overseas carrier.

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles, which contemplate continuation of our company as a going concern. However, we have sustained net losses from operations during the last several years, and we have very limited liquidity. Management anticipates that we will be dependent, for the near future, on additional capital to fund our operating expenses and anticipated growth and the report of our independent registered public accounting firm expresses doubt about our ability to continue as a going concern. Our operating losses have been funded through the issuance of equity securities and borrowings.

Although we are not yet profitable and we are not generating cash from operations, we believe we have short-term financing available to fund our monthly cash-flow deficit from operations until July 2012, and to pay our secured lenders in accordance with a settlement agreement (the "Agreement") signed by our secured lenders on February 3, 2012. Under the terms of the Agreement, a third-party investor (the "Investor") can purchase all the debt we owe to our secured lenders of approximately \$13,900,000 for a total price of \$1,500,000. We have also signed an agreement with the Investor that requires us to pay the Investor \$1,700,000 over an 18-month period. Our payments to the Investor will satisfy the entire liability of approximately \$13,900,000 that we owed to our secured lenders. We anticipate that most of our payments to the Investor will be in the form of stock issuances. Our agreement with the Investor is in the form of a convertible note, in which the Investor can convert debt into equity at a 10% discount to the defined market price of our common stock.

While we continually look for other financing sources, in the current economic environment, the procurement of outside funding is extremely difficult and there can be no assurance that such financing will be available, or, if available, that such financing will be at a price that will be acceptable to us. Failure to generate sufficient revenues or raise additional capital will have an adverse impact on our ability to achieve our longer-term business objectives, and will adversely affect our ability to continue operating as a going concern.

New Accounting Standards

The new accounting pronouncements in Note 1 to our consolidated financial statements, which are included in this Report, are incorporated herein by reference thereto.

20

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with generally accepted accounting principles (“GAAP”) in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. The most significant estimates include:

- revenue recognition and estimating allowance for doubtful accounts;
- valuation of long-lived assets; and
- income tax valuation allowance.

We continually evaluate our accounting policies and the estimates we use to prepare our consolidated financial statements. In general, the estimates are based on historical experience, on information from third party professionals and on various other sources and assumptions that are believed to be reasonable under the facts and circumstances at the time such estimates are made. Management considers an accounting estimate to be critical if:

- it requires assumptions to be made that were uncertain at the time the estimate was made; and
- changes in the estimate, or the use of different estimating methods, could have a material impact on our consolidated results of operations or financial condition.

Actual results could differ from those estimates. Significant accounting policies are described in Note 1 to our consolidated financial statements, which are included in this Report. In many cases, the accounting treatment of a particular transaction is specifically dictated by GAAP. There are also areas in which management’s judgment in selecting any available alternative would not produce a materially different result.

Certain of our accounting policies are deemed “critical”, as they require management's highest degree of judgment, estimates and assumptions. The following critical accounting policies are not intended to be a comprehensive list of all of our accounting policies or estimates:

Revenue Recognition

We recognize revenue from telecommunication services in the period that the service is provided. We estimate amounts earned for carrier interconnection and access fees based on usage.

Allowance for Doubtful Accounts

We maintain allowances for doubtful accounts for estimated losses that result from the inability or unwillingness of our customers to make required payments. We base our allowances on our determination of the likelihood of recoverability of trade accounts receivable based on past experience and current collection trends that are expected to continue. In addition, we perform ongoing credit evaluations of our significant customers and we require most of our wholesale customers to post a deposit, typically an amount between \$2,500 and \$5,000, which may be refunded after several months of prompt payments.

Impairment of Long-Lived Assets

Financial Accounting Standards Board (“FASB”) authoritative guidance requires that certain assets be reviewed for impairment and, if impaired, remeasured at fair value whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. Impairment loss estimates are primarily based upon management’s analysis and review of the carrying value of long-lived assets at each balance sheet date, utilizing an

undiscounted future cash flow calculation. The Company does not have any long-lived assets as of November 30, 2011 and 2010, and as such, no impairment losses were recorded.

Income Taxes

We estimate the degree to which tax assets and loss carryforwards will result in a benefit based on expected profitability by tax jurisdiction. A valuation allowance for such tax assets and loss carryforwards is provided when it is determined that such assets will more likely than not go unused. If it becomes more likely than not that a tax asset or loss carry-forward will be used, the related valuation allowance on such assets is reversed. If actual future taxable income by tax jurisdiction varies from estimates, additional allowances or reversals of reserves may be necessary.

Share-Based Payment

We account for our stock-based compensation under the FASB authoritative guidance. Equity classified stock-based compensation cost is measured at grant date, based on the fair value of the award and is recognized as expense over the requisite service period. Liability classified stock-based compensation cost is re-measured at each reporting date and is recognized over the requisite service period. We calculate the fair value of our employee stock options using the Black-Scholes option pricing model. The fair value of non-employee options and warrants are calculated based upon the cost of the services provided to us. Compensation expense for awards with graded vesting provisions is recognized on a straight-line basis over the requisite service period of each separately vesting portion of the award. Compensation expense for contingent stock option awards is recognized when it is probable that the contingent event will occur.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide information under this item.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

Our Consolidated Financial Statements required by this Item are included herein, commencing on page F-1.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

Not applicable.

ITEM 9A. CONTROLS AND PROCEDURES.

(a) Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in the reports we file pursuant to the Securities Exchange Act of 1934, as amended (the “Exchange Act”) are recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and that such information is accumulated and communicated to our Principal Executive Officer (“PEO”) and Principal Financial Officer (“PFO”), to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can only provide a reasonable assurance of achieving the desired control objectives, and in reaching a reasonable level of assurance, management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Management designed the disclosure controls and procedures to provide reasonable assurance of achieving the desired control objectives.

We carried out an evaluation, under the supervision and with the participation of our management, including our PEO and PFO, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Annual Report. Based upon that evaluation, the PEO and PFO concluded that the Company's disclosure controls and procedures were ineffective.

(b) Management's Assessment of Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in the Exchange Act Rules 13a-15(f). A system of internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Under the supervision and with the participation of management, including the principal executive officer and the principal financial officer, the Company's management has evaluated the effectiveness of its internal control over financial reporting as of November 30, 2011, based on the criteria established in a report entitled "Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission" and the interpretive guidance issued by the Commission in Release No. 34-55929. Based on this evaluation, the Company's management has evaluated and concluded that the Company's internal control over financial reporting was ineffective as of November 30, 2011, and identified the following material weaknesses:

There is a lack of accounting personnel with the requisite knowledge of Generally Accepted Accounting Principles in the US ("GAAP"), telecom taxation requirements and the financial reporting requirements of the SEC;

There are insufficient written policies and procedures to insure the correct application of accounting and financial reporting with respect to the current requirements of GAAP and SEC disclosure requirements; and

There is a lack of segregation of duties, in that we only had one person performing all accounting-related duties.

Notwithstanding the existence of these material weaknesses in our internal control over financial reporting, our management believes that the consolidated financial statements included in its reports fairly present in all material respects the Company's financial condition, results of operations and cash flows for the periods presented.

The Company will continue its assessment on a quarterly basis. We plan to hire personnel and resources to address these material weaknesses. We believe these issues can be solved with hiring in-house accounting support and plan to do so as soon as we have funds available for this.

This annual report does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting. The Company's registered public accounting firm was not required to issue an attestation on its internal controls over financial reporting pursuant to rules of the SEC. The Company will continue to evaluate the effectiveness of internal controls and procedures on an on-going basis.

(c) Changes in Internal Control over Financial Reporting

There have been no changes in our internal controls over financial reporting (as such term is defined in Rule 13a-15(f) and 15d-15(f) under the Securities Exchange Act) during the year ended November 30, 2011, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION.

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.

Directors and Executive Officers

The following table and biographical summaries set forth information, including principal occupation and business experience, about our directors and executive officers as of March 14, 2012. There is no familial relationship between or among the nominees, directors or executive officers of the Company.

Name	Age	Position
Paul H. Riss	56	Chief Executive Officer, Chief Financial Officer, Treasurer and Chairman
Greg M Cooper	52	Director
Mark Richards	52	Chief Information Officer and Director
Cherian Mathai	55	Director
Scott Widham	54	Director

Our Amended and Restated Certificate of Incorporation provides that a director shall hold office until the annual meeting for the year in which his or her term expires except in the case of elections to fill vacancies or newly created directorships. While each director is typically elected for a one-year term, we did not have an annual stockholders meeting for the election of directors in 2011. The Company's officers serve at the discretion of the Company's board of directors, until their death, or until they resign or have been removed from office.

There are no agreements or understandings for any director or officer to resign at the request of another person and none of the directors or officers is acting on behalf of or will act at the direction of any other person. The activities of each director and officer are material to the operation of the Company. No other person's activities are material to the operation of the Company.

Paul H. Riss, age 56, Chief Executive Officer, Chief Financial Officer, Treasurer and Chairman

Paul H. Riss has served as a director since 1995; Chairman of our board of directors since March 2005; our Chief Executive Officer since August 1999 and our Chief Financial Officer and Treasurer since November 1996. He has served on the board of four telecom companies and has more than 25 years of entrepreneurial business and management experience including the engineering of his own leveraged buyout in 1987 and the audit of numerous public companies at Ernst & Young. He is a CPA in New York State and earned an MBA with distinction from the Stern School of Business at New York University and a magna cum laude BA with distinction from Carleton College. We believe Mr. Riss's qualifications to serve as a director include his tenure as our Chief Executive Officer and as a member of our Board, and his more than 15 years of service to us with extensive experience in financings, contract negotiations, acquisitions, budgeting, external reporting and accounting.

Greg M Cooper, age 52, Director

Greg M Cooper has served as a director since April 2004; He has been the managing partner for more than five years of Cooper, Niemann & Co., CPAs, LLP, certified public accountants; a member of the board of directors, since 1997, of Mid Hudson Cooperative Insurance Company in Montgomery, New York, a privately-held insurance company; a member of the American Institute of Certified Public Accountants since 1982; a member of the New York State Society of Certified Public Accountants since 1982; and a member of the Pennsylvania Institute of Certified Public Accountants since 2003. He received a BBA from Pace University in 1980. We believe Mr. Cooper's qualifications to serve on the board include his extensive experience in accounting and taxation and his experience serving business clients.

Mark Richards, age 52, Chief Information Officer and Director

Mark Richards has been a director since January 2008 and our Chief Information Officer since October 2004. Previously, Mr. Richards was the Chief Operating Officer of a VoIP carrier, Volo Communications. He also served as acting Chief Executive Officer for Epicus Communications, a competitive local exchange carrier ("CLEC"). Prior to that, he held executive positions with a variety of CLEC and telecom start-ups, including NET-Tel, TCCF, and American Network Exchange. Mr. Richards also served as a consultant to numerous Fortune 500 companies in the U.S. and abroad, including Citibank Card Services, CitiCorp Karten Services, Citibank London, D.G. Durham London, B.P. UK, and Citibank Japan. We believe Mr. Richards' qualifications to serve on the board include his tenure as our Chief Information Officer and his extensive experience in the development and sale of communications technologies and services, including video processing algorithms, videophone technology, Android operating systems, data packet processing and programming know-how.

Cherian Mathai, age 55, Director

Cherian Mathai has served as a director since March 2008. Mr. Mathai serves as the Chief Financial Officer of dotSport LLC since 2007 and as President of Sophia Associates Inc., a management consulting and advisory firm since 2007; Co-founded and served as Chief Operating Officer of Tralliance Corporation, the registry for .travel Internet Top Level Domain from January 2002 to June 2007 and co-founded fareone, Inc. in 1999. Both companies that he co-founded were conceived, developed and sold to larger entities. We believe Mr. Mathai's qualifications to serve on the board include his expertise in structuring project finance deals, identifying business opportunities and creating successful business enterprises, in addition to his global business experience, completing transactions in the United Kingdom, Canada, Mexico and India.

Scott Widham, age 55, Director

Scott Widham has served as a director since March 2008. Mr. Widham serves as the Chief Executive Officer of Alpheus Communications since December 2011. Previously, Mr. Widham was the Chief Executive Officer at Cobridge Communications LLC, an operator of cable telecommunication systems, from March 2010 – January 2012; a principal in CAS, LLC, a technology and telecom consulting company since 2007; and the President – Sales and Marketing, President – Corporate Development and Co-CEO of Broadwing Corporation, a voice, data and video service provider from 2001 to 2007; He has a BBA degree in marketing from the University of Texas at Austin. We believe that Mr. Widham's qualifications to serve on the board include his extensive experience in the telecom industry and as a president and co-CEO of a publicly traded company.

Board Meetings and Committees; Management Matters

Our amended and restated certificate of incorporation provides that the number of members of our Board of Directors shall be not less than three and not more than five. There are currently five directors on the Board. At each annual meeting of stockholders, directors are elected to hold office for a term of one year and until their respective successors are elected and qualified.

Our board of directors held 8 meetings during the fiscal year ended November 30, 2011. During fiscal 2011, each director attended at least 75% of the board of directors and committee meetings of which he was a member during such time as he served as a director. From time to time, the members of our board of directors act by unanimous written consent pursuant to the laws of the State of New York. No fees are paid to directors for attendance at meetings of the board of directors.

Compensation Committee

We have a compensation committee currently composed of Greg M Cooper and Scott Widham. Mr. Widham is the Chairman of the committee. The compensation committee establishes remuneration levels for our executive officers. The compensation committee did not meet during the fiscal year ended November 30, 2011.

Nominating Committee

Our board of directors does not have a nominating committee. Our entire board of directors is responsible for this function. Due to the relatively small size of our company and the resulting efficiency of a board of directors that is also limited in size, our board of directors has determined that it is not necessary or appropriate at this time to establish a separate nominating committee. Our board of directors intends to review periodically whether such a nominating committee should be established.

Our board of directors uses a variety of methods for identifying and evaluating nominees for director. It regularly assesses the appropriate size of the board of directors, and whether any vacancies exist or are expected due to retirement or otherwise. If vacancies exist, are anticipated or otherwise arise, our board of directors considers various potential candidates for director. Candidates may come to their attention through current members of our board of directors, shareholders or other persons. These candidates are evaluated at regular or special meetings of our board of directors, and may be considered at any point during the year.

Qualifications for consideration as a director nominee may vary according to the particular areas of expertise that may be desired in order to complement the qualifications that already exist among our board of directors. Among the factors that our directors consider when evaluating proposed nominees are their independence, financial literacy, business experience, character, judgment and strategic vision. Other considerations would be their knowledge of issues affecting our business, their leadership experience and their time available for meetings and consultation on company matters. Our directors seek a diverse group of candidates who possess the background skills and expertise to make a significant contribution to our board of directors, our company and our shareholders.

Audit Committee

We have an audit committee that, during the fiscal year ended November 30, 2011, was composed of Greg M Cooper, Cherian Mathai and Scott Widham. Each audit committee member is an independent director as defined by the rules of the National Association of Securities Dealers. A written charter approved by our board of directors and attached as Annex A to our 2007 proxy statement, which was filed with the SEC on May 15, 2007, governs the audit committee.

Our board of directors has determined that Greg M Cooper qualifies as an “audit committee financial expert,” as defined under the rules of the Commission adopted pursuant to the Sarbanes-Oxley Act of 2002. Our board of directors has determined that Mr. Mathai and Mr. Widham are financially literate and experienced in business matters and fully qualified to monitor the performance of management, the public disclosures by our company of our financial condition and performance, our internal accounting operations, and our independent auditors.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act of 1934, requires our directors and executive officers, and persons who own more than ten percent of a registered class of our equity securities (“10% Shareholders”), to file with the Commission initial reports of ownership and reports of changes in ownership of our common stock and other equity securities. Officers, directors and 10% Shareholders are required by Commission regulation to furnish us with copies of all Section 16(a) forms they file.

Based solely on our review of the copies of such reports received by us, we believe that for the fiscal year ended November 30, 2011, all Section 16(a) filing requirements applicable to our officers, directors and 10% shareholders were complied with, except for Scott Widham, who did not file ownership forms for options granted to him.

Code of Ethics

We have adopted a code of business conduct and ethics for our directors, officers and employees, including our chief executive officer and chief financial officer. In addition, we have adopted a supplemental code of ethics for our financial executives and all employees in our accounting department. The text of our codes are posted on our Internet website at www.pervasip.com.

ITEM 11. EXECUTIVE COMPENSATION.

Summary Compensation Table

The following table sets forth, for the fiscal years indicated, all compensation awarded to, earned by or paid to Mr. Paul H. Riss, our Chairman, Chief Executive Officer and Chief Financial Officer, and Mr. Mark Richards, our Chief Information Officer (collectively, the “Named Executives”). We have no other executive officers.

Fiscal 2011 Summary Compensation Table

Name and Principal Position	Year	Salary (\$)(1)	Bonus (\$)	Stock Awards (\$)(2)	Option Awards (\$)(3)	Non-equity Plan Compensation (\$)	Change in Pension Value and Non-qualified Deferred Compensation (\$)	All Other Compensation (\$)(4)	Total (\$)
Paul H. Riss Chairman, Chief Executive Officer and Chief Financial Officer	2011	\$ 165,000	\$ 0	\$ 10,000	\$ 246	\$ 0	\$ 0	\$ 0	\$ 175,246
	2010	175,000	0	0	0	0	0	0	175,000
	2009	165,000	0	10,000	0	0	0	0	175,000
Mark Richards Chief Information Officer	2011	180,000	0	0	71,520	0	0	0	251,520
	2010	5,000	0	120,000	71,520	0	0	55,000	251,520
	2009	105,000	0	20,000	10,190	0	0	60,000	195,190

- (1) Amounts in this column include unpaid salary to Mr. Riss and Mr. Richards of \$244,450 and \$52,500, respectively, at November 30, 2011.
- (2) Amounts in this column reflect the expense recognized for financial reporting purposes for the indicated fiscal year, in accordance with FASB authoritative guidance, with respect to awards of restricted shares of common stock, which may include awards made during earlier years as well as the indicated year.
- (3) Amounts in this column reflect the expense recognized for financial reporting purposes for the indicated fiscal year, in accordance with FASB authoritative guidance, with respect to awards of options to purchase common stock, which may include awards made during earlier years as well as the indicated year.
- (4) Mr. Richards received consulting fees from one of our vendors amounting to \$55,000 in fiscal 2010 and \$60,000 in fiscal 2009.

Outstanding Equity Awards at Fiscal Year End

The following table sets forth certain information with respect to stock options outstanding as of November 30, 2011, for each of the named executive officers. The Named Executives did not exercise any options in Fiscal 2011.

Name	Option Awards		Equity Incentive Plan Awards (1): Number of Securities Underlying Unexercised Options (#)	Option Exercise Price	Option Expiration Date
	Number of Securities Underlying Unexercised Options (#) Exercisable	Number of Securities Underlying Unexercised Options (#) Unexercisable			
Paul H. Riss		4,000,000		\$0.01	11/21/2016
Paul H. Riss	-	-	189,444	\$3.00	11/17/2012
Mark Richards	-	-	236,805	\$3.00	11/17/2012
Mark Richards	100,000	50,000	-	\$1.50	10/09/2014

(1) The options granted to Mr. Riss and Mr. Richards are contingent stock options, which vest only if we achieve positive cash flow from operations for three consecutive months before the options expire in November 2012.

Stock Option Grants

The following table sets forth individual grants of stock options and stock appreciation rights (“SARs”) made during fiscal 2011 to the Named Executives.

Option/SAR Grants In Last Fiscal Year

Name	Number of Securities Underlying Options/SARs Granted(1)	Percent of Total Options/SARs Granted to Employees in Fiscal Year(2)	Exercise or Base Price (\$/Share)	Expiration Date
Paul H. Riss	4,000,000	28.4 %	\$ 0.01	1/21/2016

(1) No SARs were granted in fiscal 2011.

(2) In fiscal 2011, we granted options to 8 employees, certain members of our board of directors and one consultant to purchase an aggregate of 14,100,000 shares of our common stock. The exercise price of all stock options granted was equal to or greater than the market price of our common stock on the date of the grant.

There were no stock option exercises in fiscal 2011.

Board of Directors Compensation

We do not currently compensate directors in cash for service on our board of directors. On May 26, 2011, we granted each of our three independent directors a stock option to purchase 100,000 shares of our common stock at a price of \$0.10. On November 21, 2011, we granted each of our three independent directors a stock option to purchase 500,000 shares of our common stock at a price of \$0.01. The options vest over a three-year period and expire five years from the date of grant. For both sets of option grants the exercise price was higher than the market price of our common stock on the day of the grant. We maintain a Non-Employee Director Stock Option Plan (the “Director Option Plan”). Under the Director Option Plan, each non-employee director is granted a non-statutory option to purchase 1,000 shares of our common stock on the date on which he or she is elected, re-elected or appointed to our board of directors. Our existing directors were last re-elected on May 13, 2009. Options granted pursuant to the Director Option Plan will vest in full on the one-year anniversary of the grant date, provided the non-employee director is still our director at that time. The exercise price granted under the Director Option Plan is 100% of the fair market value per share of the common stock on the date of the grant as reported on the OTC Marketplace.

Name	Director Compensation						Total (\$)
	Fees Earned or Paid in Cash (\$)	Stock Awards (\$)	Option Awards (\$) (1)	Non-Equity Incentive Plan Compensation (\$) (2)	Non-qualified Deferred Compensation Earnings (4)	All Other Compensation (\$)	
Greg Cooper	-	-	\$11,445	-	-	-	\$11,445
Cherian Mathai	-	-	11,445	-	-	-	11,445
Scott Widham	-	-	11,445	-	-	--	11,445

(1) Dollar amounts reflect the aggregate grant date fair value computed in accordance with FASB authoritative guidance.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

As of March 14, 2012, there were 137,101,970 shares of our common stock issued and outstanding. Each share of common stock entitles the holder thereof to one vote with respect to each item to be voted on by holders of the shares of common stock. We have 51 shares of Series C Preferred stock outstanding, held by our Named Executives, as detailed in the chart below.

The following table sets forth information with respect to the beneficial ownership of shares of our common stock as of March 14, 2012, by:

Each person whom we know beneficially owns more than 5% of the common stock;
each of our directors individually;
each of our named executive officers individually; and
all of our current directors and executive officers as a group

Unless otherwise indicated, to our knowledge, all persons listed below have sole voting and investment power with respect to their shares of common stock. Each person listed below disclaims beneficial ownership of their shares, except to the extent of their pecuniary interests therein. Shares of common stock that an individual or group has the right to acquire within 60 days of March 14, 2012, pursuant to the exercise of options or restricted stock are deemed to be outstanding for the purpose of computing the percentage ownership of such person or group, but are not deemed outstanding for the purpose of calculating the percentage owned by any other person listed.

Name and Address	Number of Shares of Common Stock Beneficially Owned	Percent of Shares of Common Stock Beneficially Owned	Percent of Shares of Common Stock Beneficially Owned	Number of Shares of Series C Preferred Stock Beneficially Owned (7)	Percent of Shares of Series C Preferred Stock Beneficially Owned
G3 Connect, LLC 321 Newark Street 3rd Floor Hoboken, NJ 07030	67,260,000(1)	32.91	%		
Paul H. Riss Pervasip Corp. 75 South Broadway, Suite 400 White Plains, New York 10601	10,438,533(2)	7.30	%	48 (8)	94.12 %
Mark Richards 75 South Broadway, Suite 400 White Plains, New York 10601	2,501,000 (3)	1.80	%	3 (9)	5.88 %

* Less than 1%.

- (1) Includes 67,260,000 shares of common stock subject to debt that is presently convertible.
- (2) Includes 5,906,000 shares of common stock subject to warrants that are presently exercisable or exercisable within 60 days after March 14, 2012.
- (3) Includes 1,500,000 shares of common stock subject to options and warrants that are presently exercisable or exercisable within 60 days after March 14, 2012.
- (4) Includes 12,000 shares of common stock subject to options that are presently exercisable or exercisable within 60 days after March 14, 2012.
- (5) Includes 21,000 shares of common stock subject to options that are presently exercisable or exercisable within 60 days after March 14, 2012.
- (6) Includes 11,000 shares of common stock subject to options that are presently exercisable or exercisable within 60 days after March 14, 2012.
- (7) Each one share of Series C Preferred has voting rights equal to (x) 0.019607 multiplied by the total issued and outstanding Common Stock eligible to vote at the time of the respective vote (the "Numerator"), divided by (y) 0.49, minus (z) the Numerator.
- (8) Mr. Paul Riss owns 48 shares of Series C Preferred Stock, which is representative of 134,298,196 shares solely for voting purposes.
- (9) Mr. Mark Richards owns 3 shares of Series C Preferred Stock, which is representative of 8,393,637 shares solely for voting purposes.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE.

Certain Relationships and Related Transactions

We paid fees to an intellectual property development firm ("Consultant") of \$192,000 and \$252,000 in fiscal 2011 and 2010, respectively. All such work performed by the Consultant is the property of our company. An officer of our company has performed work for the Consultant, including disbursement services, in which funds that were remitted by us to the Consultant were subsequently transferred to a company controlled by the officer to distribute such funds to appropriate vendors. Our officer received fees from the Consultant of \$0 in fiscal 2011 and \$55,000 in fiscal 2010, respectively.

At November 30, 2011 the total amount due to our chief executive officer, including loans, unpaid salary, interest and expenses amounted to \$636,744.

At November 30, 2011, unpaid salary and expenses owed to our chief information officer amounted to \$53,592. In fiscal 2012 we have been paying the full salary to our chief information officer and approximately 62% of the salary this is due to our chief executive officer.

We paid fees of \$4,000 in fiscal 2011 to Cooper, Neimann & Company CPA, LLP for preparation of our federal and state income tax returns. Our board member, Greg Cooper, is a partner in this firm.

At November 30, 2011, we owed G3 Connect LLC, \$100,000 for cash we received from them in conjunction with a subscription agreement to purchase common stock in a private placement and \$1,967 in unpaid commissions. We have not issued the common stock as of March 14, 2012.

Director Independence

Our common stock is currently quoted on the OTCQB marketplace and is not listed on the Nasdaq Stock Market or any other national securities exchange. Accordingly, we are not currently subject to the Nasdaq continued listing requirements or the requirements of any other national securities exchange. Nevertheless, in determining whether a director or nominee for director should be considered “independent” the board utilizes the definition of independence set forth in Rule 4200(a)(15) of the Nasdaq Marketplace Rules. Greg M Cooper, Cherian Mathai and Scott Widham qualify as “independent” under this rule.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES.

The following table presents fees for professional audit services rendered by Nussbaum Yates Berg Klein & Wolpow LLP for the audit of our annual financial statements for the years ended November 30, 2011 and 2010, and fees billed for other services rendered by Nussbaum Yates Berg Klein & Wolpow LLP during those periods.

	2011	2010
Audit fees	\$ 97,500	\$ 97,500
Audit related fees	-	-
Tax fees	-	-
All other fees	-	1,420
Total	\$ 97,500	\$ 98,920

In the above table, in accordance with the SEC’s definitions and rules, “audit fees” are fees we paid Nussbaum Yates Berg Klein & Wolpow LLP for professional services for the audit of our annual financial statements and review of financial statements included in our quarterly reports filed with the SEC, as well as for work generally only the independent auditor can reasonably be expected to provide, such as statutory audits and consultation regarding financial accounting and/or reporting standards; “audit-related fees” are fees billed by Nussbaum Yates Berg Klein & Wolpow LLP for assurance and related services that are reasonably related to the performance of the audit or review of our financial statements; “tax fees” are fees for tax compliance, tax advice and tax planning; and “all other fees” are fees billed by Nussbaum Yates Berg Klein & Wolpow LLP for any services not included in the first three categories.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditors

Consistent with SEC policies regarding auditor independence, the Audit Committee has responsibility for appointing, setting compensation and overseeing the work of the independent auditor. In recognition of this responsibility, the Audit Committee has established a policy to pre-approve all audit and permissible non-audit services provided by the independent auditor.

Prior to engagement of the independent auditor for the next year's audit, management will submit an aggregate of services expected to be rendered during that year for each of four categories of services to the Audit Committee for approval.

1. Audit services include audit work performed in the preparation of financial statements, as well as work that generally only the independent auditor can reasonably be expected to provide, including comfort letters and reviews of our financials statements included in our Quarterly Reports on Form 10-Q.
2. Audit-Related services are for assurance and related services that are traditionally performed by the independent auditor, including due diligence related to mergers and acquisitions, employee benefit plan audits, and special procedures required to meet certain regulatory requirements.
3. Tax services include all services performed by the independent auditor's tax personnel except those services specifically related to the audit of the financial statements, and includes fees in the areas of tax compliance, tax planning, and tax advice.
4. Other services are those associated with services not captured in the other categories. We generally do not request such services from the independent auditor.

Prior to engagement, the Audit Committee pre-approves these services by category of service. The Audit Committee may delegate pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting.

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES.

Exhibit No.	Document
3.1	Certificate of Incorporation, as amended, incorporated by reference to our Registration Statement on Form S-1 filed with the SEC on August 27, 1969 under Registration Number 2-34436.
3.2	Certificate of Amendment of the Certificate of Incorporation, incorporated by reference to our definitive proxy statement filed with the SEC in connection with our Annual Meeting of Shareholders held in May 1984.
3.3	Certificate of Amendment to the Certificate of Incorporation, incorporated by reference to Exhibit 3(b) to our Annual Report on Form 10-K for the year ended November 30, 1988.
3.4	Certificate of Amendment to the Certificate of Incorporation, incorporated by reference to Exhibit 3(e) to our Annual Report on Form 10-K for the year ended November 30, 1994, as amended.
3.5	Certificate of Amendment of the Certificate of Incorporation, incorporated by reference to Exhibit 3 to our Quarterly Report on Form 10-Q for the quarter ended August 30, 1995.
3.6	Certificate of Amendment of the Certificate of Incorporation, incorporated by reference to Exhibit 3(f) to our Annual Report on Form 10-K for the year ended November 30, 1998.
3.7	Certificate of Amendment of the Certificate of Incorporation, incorporated by reference to Exhibit 3.2 to our Quarterly Report on Form 10-Q for the quarter ended August 31, 1998.
3.8	Certificate of Amendment of the Certificate of Incorporation, incorporated by reference to Exhibit 3(1) to our Current Report on Form 8-K dated November 16, 1999.
3.9	Certificate of Amendment of the Certificate of Incorporation, incorporated by reference to Exhibit 3(1) to our Current Report on Form 8-K dated December 28, 2007.
3.10	Certificate of Amendment of the Certificate of Incorporation, incorporated by reference to Exhibit 3.1 to our Current Report on Form 8-K dated January 23, 2012.
3.11	By-laws, amended and restated as of December 1996, incorporated by reference to Exhibit 3(e) to our Annual Report on Form 10-K for the year ended November 30, 1996.
4.1	Secured Term Note, dated as of September 28, 2007, issued in favor of Calliope Capital Corporation (as filed as Exhibit 10.2 to the Company's Current Report on Form 8-K, as filed with the SEC on October 4, 2007).
4.2	Secured Term Note, dated as of September 28, 2007, issued in favor of Valens Offshore SPV II, Corp. (as filed as Exhibit 10.3 to the Company's Current Report on Form 8-K, as filed with the SEC on October 4, 2007).

Report of Independent Registered Public Accounting Firm

The Board of Directors
Pervasip Corp.
White Plains, New York

We have audited the accompanying consolidated balance sheets of Pervasip Corp. and subsidiaries as of November 30, 2011 and 2010 and the related consolidated statements of loss, stockholders' equity deficiency and comprehensive loss, and cash flows for each of the years then ended. Pervasip Corp.'s management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Pervasip Corp. and subsidiaries as of November 30, 2011 and 2010, and the results of their operations and their cash flows for the each of the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As further discussed in Note 2 to the financial statements, the Company, among other matters, has negative working capital, a stockholders' equity deficiency, has suffered recurring losses from operations and is unable to meet its obligations as they become due, which raises substantial doubt about the Company's ability to continue as a going concern. Management's plans regarding to these matters are also described in Note 2. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

PERVASIP CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

1. Description of Business and Summary of Accounting Principles

Description of Business and Concentrations

Pervasip Corp. (“Pervasip” or the “Company”) is a provider of voice and video telephone services, products and hosted solutions. The Company offers its customers high-quality Internet telephone products and services that are a cost-effective alternative to traditional wireline telephone services. Most of the Company’s revenues are derived from customers that are broadband service providers or other telephone service providers. The Company provides them with a customized private label Internet protocol (“IP”) telephony service, as well as a back-office and web suite of services. The Company uses Session Initiation Protocol technology to provide all the components needed to support its IP telephony service.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries after elimination of significant intercompany balances and transactions.

Income Taxes

The Company accounts for income taxes under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income and the reversal of deferred tax liabilities during the period in which related temporary differences become deductible. A valuation allowance has been established to eliminate the Company’s deferred tax assets as it is more likely than not that none of the deferred tax assets will be realized.

The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon settlement with the tax authorities. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. The Company records interest related to unrecognized tax benefits in interest expense and penalties in income tax expense. The Company has determined that it had no significant uncertain tax positions requiring recognition or disclosure.

PERVASIP CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

1. Description of Business and Summary of Accounting Principles (Continued)

Revenue Recognition

Revenues from voice, data and other telecommunications-related services are recognized in the period in which subscribers use the related services. Revenues for carrier interconnection and access are recognized in the period in which the service is provided.

Collectibility of Accounts Receivable

Trade receivables potentially subject the Company to credit risk. The Company extends credit to certain customers and generally requires a deposit to minimize its credit risk. Once a customer is billed for services, the Company actively manages the accounts receivable and may return the deposit if the customer has a track record of making timely payments of invoices for six consecutive months.

In order to record the Company's accounts receivable at their net realizable value, the Company must assess their collectibility. A considerable amount of judgment is required in order to make this assessment, including an analysis of historical bad debts and other adjustments, a review of the aging of the Company's receivables, and the current creditworthiness of the Company's customers. Generally, when a customer account reaches a certain level of delinquency, the Company disconnects the customer's service and provides an allowance for the related amount receivable from the customer. The Company has recorded allowances for receivables that it considers uncollectible, including amounts for the resolution of potential credit and other collection issues, such as disputed invoices and pricing discrepancies. However, depending on how such potential issues are resolved, or if the financial condition of any of the Company's customers was to deteriorate and its ability to make required payments became impaired, increases in these allowances may be required. The Company writes off the accounts receivable balance from a customer and the related allowance established when it believes it has exhausted all reasonable collection efforts.

Earnings (Loss) Per Share

Basic earnings (loss) per share is computed by dividing net income (loss) by the weighted-average number of shares outstanding. To the extent that stock options and warrants are anti-dilutive, they are excluded from the calculation of diluted earnings (loss) per share. Diluted earnings per share includes the dilutive effect of stock options and warrants. For 2011 and 2010, the Company excluded from its loss per share calculations potentially dilutive securities of 90,424,594 and 4,707,094, respectively, because their effect on loss per share was anti-dilutive.

PERVASIP CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

1. Description of Business and Summary of Accounting Principles (Continued)

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with original maturities of three months or less to be cash equivalents. The Company did not have any cash equivalents during 2011 and 2010.

Concentrations

As of November 30, 2011 and 2010, the Company had one customer and that constituted 12% and 15%, respectively, of its accounts receivable. For the years ended November 30, 2011 and 2010, one customer accounted for 24% and 23% of the Company's revenues, respectively.

The Company is dependent on the availability and functionality of the networks of its two primary suppliers and is vulnerable to a cessation or disruption of service if the Company is not able to pay these vendors timely.

Foreign Currency Translation

Assets and liabilities of the Company's foreign subsidiary are translated at year-end exchange rates, and income and expenses are translated at average exchange rates prevailing during the year with the resulting adjustments accumulated in stockholders' equity.

Use of Estimates

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. The most significant estimates relate to the allowance for doubtful accounts receivable, income tax valuation allowance, and the derivative liabilities. On a continual basis, management reviews its estimates, utilizing currently available information, changes in facts and circumstances, historical experience and reasonable assumptions. After such reviews, and if deemed appropriate, those estimates are adjusted accordingly. Actual results could differ from those estimates.

Reclassifications

Certain reclassifications have been made to prior year amounts to conform with the current year presentation.

PERVASIP CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

1. Description of Business and Summary of Accounting Principles (Continued)

Accounting for Derivative Instruments

The Company accounts for derivative instruments under the Financial Accounting Standards Board (“FASB”) authoritative guidance, which establishes accounting and reporting standards for derivative instruments and hedging activities, including certain derivative instruments embedded in other financial instruments or contracts and requires recognition of all derivatives on the balance sheet at fair value, regardless of the hedging relationship designation. Accounting for the changes in the fair value of the derivative instruments depends on whether the derivatives qualify as hedge relationships and the types of the relationships designated are based on the exposures hedged. Changes in the fair value of derivatives designated as fair value hedges are recognized in earnings along with fair value changes of the hedged item. Changes in the fair value of derivatives designated as cash flow hedges are recorded in other comprehensive income (loss) and are recognized in earnings when the hedged item affects earnings. Changes in the fair value of derivative instruments which are not designated as hedges are recognized in earnings as other income (loss). At November 30, 2011 and 2010, the Company did not have any derivative instruments that were designated as hedges.

Stock Based Compensation

The Company issues stock and stock options to its employees, outside directors and consultants pursuant to stockholder approved and non-approved stock option programs.

Stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense on a straight-line basis over the requisite service period. For the years ended November 30, 2011 and 2010, the Company recorded approximately \$145,000 and \$120,000 in employee stock-based compensation expense and approximately \$46,000 and \$359,000 in consultant compensation expense, which is included in selling, general and administrative expenses. As of November 30, 2011 and 2010, there was approximately \$117,000 and \$150,000, respectively, of unrecognized stock-compensation expense for previously granted unvested options that will be recognized over a period of up to three years.

The Company’s 2004 Equity Incentive Plan (the “2004 Plan”) provides for the grant of up to 100,000 incentive stock options, non-qualified stock options, tandem stock appreciation rights, and stock appreciation rights of shares of common stock. Under the 2004 Plan, incentive stock options may be granted at no less than the fair market value of the Company’s stock on the date of grant, and in the case of an optionee who owns directly or indirectly more than 10% of the outstanding voting stock (an “Affiliate”), 110% of the market price on the date of grant. As of November 30, 2011 and 2010, 56,153 and -0- option shares, respectively remain unissued.

PERVASIP CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

1. Description of Business and Summary of Accounting Principles (Continued)

Stock Based Compensation (Continued)

The Company's 2007 Equity Incentive Plan (the "2007 Plan") provides for the grant of up to 200,000 incentive stock options, non-qualified stock options, tandem stock appreciation rights, and stock appreciation rights of shares of common stock. Under the 2007 Plan, incentive stock options may be granted at no less than the fair market value of the Company's stock on the date of grant, and in the case of an optionee who is an Affiliate, 110% of the market price on the date of grant. As of November 30, 2011 and 2010, 67,000 and -0- option shares, respectively remain unissued.

The Company's 2007 Contingent Stock Option Plan (the "Contingent Plan") provides for the grant of up to 789,351 contingent stock options. Under the Contingent Plan, contingent stock options may be granted at no less than the fair market value of the Company's stock on the date of grant, and in the case of an optionee who is an Affiliate, 110% of the market price on the date of grant. As of November 30, 2011 and 2010, all options have been granted under this plan. The options expire on November 19, 2012. These options vest when the Company has generated, for three consecutive months, positive cash flow from operations before interest, taxes, depreciation and amortization expense. The Company has determined that the performance condition is not probable of achievement, and accordingly, no compensation cost has been recognized during the years ended November 30, 2011 and 2010. The Company will reassess at each reporting date whether achievement of the performance condition is probable and would begin recognizing compensation cost if and when achievement of the performance condition becomes probable.

The Company's 2009 Equity Incentive Plan (the "2009 Plan") provides for the grant of up to 500,000 incentive stock options, non-qualified stock options, tandem stock appreciation rights, and stock appreciation rights of shares of common stock. Under the 2009 Plan, incentive stock options may be granted at no less than the fair market value of the Company's stock on the date of grant, and in the case of an optionee who is an Affiliate, 110% of the market price on the date of grant. As of November 30, 2011 and 2010, approximately 21,000 and 6,000 option shares remain unissued and are available for future issuance.

The Company's 2011 Equity Incentive Plan (the "2011 Plan") provides for the grant of up to 20,000,000 incentive stock options, non-qualified stock options, tandem stock appreciation rights, and stock appreciation rights of shares of common stock. Under the 2011 Plan, incentive stock options may be granted at no less than the fair market value of the Company's stock on the date of grant, and in the case of an optionee who is an Affiliate, 110% of the market price on the date of grant. As of November 30, 2011, approximately 5,900,000 option shares remain unissued.

PERVASIP CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

1. Description of Business and Summary of Accounting Principles (Continued)

Stock Based Compensation (Continued)

The Company's Non-employee Director Stock Option Plan provides for the grant of options to purchase 1,000 shares of the Company's common stock to each non-employee director on the first business day following each annual meeting of the shareholders of the Company. Under this Plan, options may be granted at no less than the fair market value of the Company's common stock on the date of grant.

The fair value of each stock option grant in fiscal 2011 and 2010 to consultants was based upon the fair value of services rendered to the Company. In fiscal 2011, the fair value of stock options granted to employees was estimated on the date of grant using the Black Scholes option-pricing model with the following weighted average assumptions: annual dividends of \$-0-, expected volatility of 270%, risk-free interest rate of 1%, and expected life of up to five years, depending on the individual grant. The weighted-average fair value of all stock options granted in 2011 and 2010 was \$.02 and \$.63. No stock options were granted to employees in fiscal 2010.

As the stock-based compensation expense recognized on the consolidated statements of operations is based on awards ultimately expected to vest, such amount has been reduced for estimated forfeitures. ASC 718, "Compensation - Stock Compensation" requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Forfeitures were estimated based on the Company's historical experience.

With the above valuation methods, the total value of stock options granted in 2011 and 2010 was approximately \$177,000 and \$14,000, respectively, which are amortized ratably over the related vesting periods, which ranged from immediate vesting to five years.

Recent Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04, "Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRSs")." Under ASU 2011-04, the guidance amends certain accounting and disclosure requirements related to fair value measurements to ensure that fair value has the same meaning in U.S. GAAP and in IFRSs and that their respective fair value measurement and disclosure requirements are the same. ASU 2011-04 is effective for public entities during interim and annual periods beginning after December 15, 2011. Early adoption by public entities is not permitted. The Company does not believe that the adoption of ASU 2011-04 will have a material impact on the Company's consolidated results of operation and financial condition.

PERVASIP CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

1. Description of Business and Summary of Accounting Principles (Continued)

Recent Accounting Pronouncements (Continued)

In June 2011, the FASB issued ASU No. 2011-05, "Comprehensive Income (ASC Topic 220): Presentation of Comprehensive Income," ("ASU 2011-05") which amends current comprehensive income guidance. This accounting update eliminates the option to present the components of other comprehensive income as part of the statement of shareholders' equity. Instead, we must report comprehensive income in either a single continuous statement of comprehensive income, which contains two sections, net income and other comprehensive income, or in two separate but consecutive statements. ASU 2011-05 will be effective for public companies during the interim and annual periods beginning after December 15, 2011 with early adoption permitted. The Company does not believe that the adoption of ASU 2011-05 will have a material impact on the Company's consolidated results of operation and financial condition.

In September 2011, the FASB issued ASU No. 2011-08, "Intangibles - Goodwill and Other (Topic 350): Testing Goodwill for Impairment," ("ASU 2011-08") which simplifies how entities test goodwill for impairment. This accounting update permits an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step good will impairment test described in Topic 350. The more-likely-than-not threshold is defined as having a likelihood of more than 50 percent. ASU 2011-08 will be effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011 with early adoption permitted. We do not believe that the adoption of ASU 2011-08 will have a material impact on the Company's consolidated results of operation and financial condition.

In December 2011, the FASB issued ASU No. 2011-12, Comprehensive Income (Topic 220) - Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05 ("ASU 2011-12"). ASU 2011-12 defers changes in Update 2011-05 that relate to the presentation of reclassification adjustments. ASU 2011-12 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. The Company does not believe that the adoption of ASU 2011-12 will have a material impact on the Company's consolidated results of operation and financial condition.

PERVASIP CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

2. Going Concern Matters and Realization of Assets

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the ordinary course of business. However, the Company has sustained substantial losses from its continuing operations in recent years and as of November 30, 2011 has negative working capital of \$18,804,865 and a stockholders' equity deficiency of \$18,075,270. In addition, the Company is unable to meet its obligations as they become due and sustain its operations. The Company believes that its existing cash resources are not sufficient to fund its continuing operating losses, capital expenditures, lease and debt payments and working capital requirements.

The Company may not be able to raise sufficient additional debt, equity or other cash on acceptable terms, if at all. Failure to generate sufficient revenues, achieve certain other business plan objectives or raise additional funds could have a material adverse effect on the Company's results of operations, cash flows and financial position, including its ability to continue as a going concern, and may require it to significantly reduce, reorganize, discontinue or shut down its operations.

In view of the matters described above, recoverability of a major portion of the recorded asset amounts shown in the accompanying balance sheet is dependent upon continued operations of the Company which, in turn, is dependent upon the Company's ability to meet its financing requirements on a continuing basis, and to succeed in its future operations. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might be necessary should the Company be unable to continue in its existence. Management's plans include:

1. Seeking to raise \$150,000 in debt or equity in the near term, and additional equity later in the year. With additional cash available to the Company, it can cover monthly cash losses and allocate funds toward marketing its products to achieve additional sales and consequently cut monthly operating losses.
2. Continuing to develop new uses and distribution channels for its voice-over-IP enabled voice service. The Company's mobile VoIP application allows for low-cost calling to the United States, Canada and Puerto Rico. To increase sales and the addressable market for its VoIP application, the Company plans to add low-cost international calling to its Android application, including a prepaid calling plan for unlimited calling to more than 60 countries.
3. Continue to list new products on the Android Market to obtain new subscribers. The Company lists its Android VoIP application on the Android Market to obtain new subscribers. In February 2012, new Android activations are reported to be more than 850,000 devices each day. In order to capitalize on the rapid growth of Android devices, the Company is planning a video application that will allow users of Android devices to make video calls to other users of the Company's video application.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

2. Going Concern Matters and Realization of Assets (Continued)

4. Leverage the production and marketing know-how of G3 Connect, LLC. G3 Connect, LLC has helped to fund our operating losses since October 2011 and plans to continue to provide us with cash infusions until July 2012. It also plans to manufacture and sell new Android devices that would utilize our VoIP service. Furthermore, it is marketing a videophone, which runs on our network, to domestic corporations and overseas entities. We plan to continue to utilize the manufacturing, marketing and sales experience of G3 Connect, LLC and to cooperate with their product development team.

There can be no assurance that we will be able to achieve our business plan objectives or that we will achieve or maintain cash-flow-positive operating results. If we are unable to generate adequate funds from operations or raise additional funds, we may not be able to repay our existing debt, continue to operate our network, respond to competitive pressures or fund our operations. As a result, we may be required to significantly reduce, reorganize, discontinue or shut down our operations. Our financial statements do not include any adjustments that might result from this uncertainty.

3. Long-Term Debt and Capital Lease Obligations

The following table summarizes components of long-term debt and capital lease obligations as of November 30, 2011 and 2010:

Principal lender:	2011	2010	Interest Rate	
Note dated November 30, 2005	\$ 2,080,349	\$ 2,261,281	5.25	%
Note dated May 31, 2006	1,510,673	1,642,059	5.25	%
Note dated September 28, 2007	4,960,260	5,153,932	9.75	%
Note dated May 28, 2008	2,332,294	2,230,658	20.00	%
Note dated October 29, 2008	1,425,045	1,414,968	15.00	%
Note date February 15, 2009	812,531	792,064	20.00	%
Note dated October 6, 2009	7,835	11,634	5.25	%

3. Long-Term Debt and Capital Lease Obligations (Continued)

Debt with Principal Lender

As of November 30, 2011 and 2010, the Company owed its principal lender (“Lender”) \$13,177,587 and \$13,559,445, respectively. All of such debt became due by its terms on September 30, 2010. The Company has not made payments of principal or interest when due, and is not in compliance with its agreements with the Lender. The Lender has not issued a default notice. As a result of the transaction described below, the Lender has agreed that it cannot attempt to collect the debt, pledge the debt to others, or foreclose on the debt so long as payments as described below are made to the Lender.

Subsequent to our year ended November 30, 2011, on February 3, 2012, the Lender entered into a contract to sell such debt to JDM Group, LLC. (“JDM”). JDM agreed to pay the Lender in installments over time, \$1,500,000 to acquire all of the debt from the Lender. The first installment of \$600,000 was due on February 15, 2012, and the balance of \$900,000 is payable on the 30th day of each month in installments of \$100,000 beginning on March 30, 2012. JDM also entered into an agreement with the Company which requires the Company to pay JDM \$1,700,000, without interest, in August 2013 to repay such debt to JDM. The debt to JDM is convertible by JDM into shares of the Company’s common stock at a conversion rate equal to a 10% discount to the volume weighted average trading price of the Company’s common stock for the three trading days prior to such conversion. The conversion price is subject to a minimum conversion price of \$.02 per share.

When the first payment of \$600,000 by JDM was due to the Lender in February 2012, JDM sold the required installment payment of \$600,000 of such debt to other parties in exchange for cash which was then paid to the Lender. The Company then issued 15,833,713 shares of common stock to settle \$350,000 of such debt with the other parties, and the Company issued two new convertible notes aggregating \$300,000 to such other parties. As a result of the first \$600,000 payment to the Lender, the liability to the Lender was reduced by \$5,580,000. The Company also has the option, in the event that JDM is unable to make future payments, to make JDM’s scheduled payments itself to the Lender in satisfaction of the debt. The agreements between JDM, the Company and the Lender provide that, after the initial payment to the Lender of \$600,000, for every \$100,000 paid to the lender, the outstanding principal amount owing to the Lender shall be reduced by \$930,000. There can be no assurance that either JDM or the Company will be able to make the remaining payments to the Lender.

In connection with the financings, the Company has agreed, so long as 25% of the principal amount of the financings are outstanding, to certain restrictive covenants, including, among others, that the Company will not declare or pay any dividends, issue any preferred stock that is subject to mandatory redemption prior to the one year anniversary of the maturity date as defined in the agreement, redeem any of its preferred stock or other equity interests, dissolve, liquidate or merge with any other party unless, in the case of a merger, the Company is the surviving entity, materially alter or change the scope of the Company’s business incur any indebtedness except as defined in the agreement, or assume, guarantee, endorse or otherwise become directly or contingently liable in connection with any other party’s obligations. To secure the payment of all obligations to the lender, the Company entered into a Master Security Agreement that assigns and grants to the lender a continuing security interest and first lien on all of the assets of the Company and its subsidiaries.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

3. Long-Term Debt and Capital Lease Obligations (Continued)

Short-Term Borrowings and Capital Lease Obligations

The Company is in default on its capital lease obligation and has recorded the obligation as a current obligation of \$32,100 as of November 30, 2011. Short-term borrowings include demand notes from the Company's Chief Executive Officer of \$477,730 and \$459,339, at November 30, 2011 and 2010, respectively at annual interest rates of ranging from 12% and 24%. Short-term borrowings at November 30, 2011 also include three demand notes, at a zero percent interest rate, totaling \$144,276, one demand note totaling \$349,070 at an annual interest rate of 12% and 5 convertible notes (the "Convertible Notes") totaling \$232,198.

The Convertible Notes consist of two notes that we issued in exchange for cash payments to our Company aggregating \$105,000, and three notes that which we issued in the aggregate total of \$329,610, in exchange for existing notes payable, including notes payable to our Chief Executive Officer of \$54,610. Conversion features allow the holders of the Convertible Notes to convert into shares of our common stock at a discount to the trading price of our common stock, as defined, ranging from 10% to 50%. For a limited period of time before a conversion notice is submitted, the Company has the ability to pre-pay some or all of the Convertible Notes at a 15% to 30% premium to the principal amount that is retired.

The conversion features embedded in the Convertible Notes were evaluated to determine if such conversion feature should be bifurcated from its host instrument and accounted for as a freestanding derivative. In four of the five Convertible Notes, the conversion option was accounted for as a derivative liability, in accordance with authoritative accounting guidance. The derivatives associated with the Convertible Notes were recognized as a discount to the debt instrument and the discount is being amortized over the expected life of the notes with any excess of the derivative value over the note payable value recognized as additional interest expense at the issuance date. One of the five Convertible Notes is convertible into common stock at a fixed price and the conversion option is not a derivative liability.

PERVASIP CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

3. Long-Term Debt and Capital Lease Obligations (Continued)

The derivative liability for the Convertible Notes was calculated using the Black Scholes method over the expected terms of the convertible debentures, with a risk free rate of 1% and volatility of 270%. In accordance with authoritative guidance, the embedded derivatives are revalued at each balance sheet date and marked to fair value with the corresponding adjustment as a gain or loss on the change in the fair value of the derivatives, which were recorded as other income or expense in our consolidated statement of operations and comprehensive loss. As of November 30, 2011 and 2010, the fair value of such derivative totaled \$274,908 and \$70,519. During the years ended November 30, 2011 and 2010, we recognized income and a (loss) on the change in fair value of the derivatives of \$101,474 and \$(28,419), respectively.

Troubled Debt Restructuring

On November 23, 2011, the Company entered into an agreement with an unsecured lender under which the Company assigned a total of six unsecured convertible notes (the "Notes") with a carrying value of \$292,148 and a face value of \$400,004 to a new unsecured third-party lender. The Notes had a stated 6% interest rate and were due at various dates during 2012. Such notes also contained embedded beneficial conversion features for an undeterminable number of shares, which was bifurcated and accounted for as a derivative liability calculated using the Black Scholes method described above and was valued at \$497,667 on November 23, 2011.

Upon such assignment, the Company and the new lender restructured the terms of the outstanding notes, creating one new convertible note (the "New Note") with a face value of \$400,004, an interest rate of 6% and a three-year term stating that all principal and accrued interest shall be due on November 23, 2014. Additionally, the New Note contained a conversion feature allowing the new lender to convert any outstanding principal balance in to shares of the Company's common stock at a rate of \$0.006 per share.

As the Company is experiencing financial difficulties and the creditor has granted a concession by extending the term of the notes, the Company accounted for such transaction as a troubled debt restructuring under ASC 470-60. As the total future cash payments of the New Note are greater than the carrying value, no adjustment has been made to the carrying value of the debt. The New Note will bear interest under its new effective interest rate of 16.412% representing the rate that equates the present value of the total future cash payments to the carrying value of the debt. Additionally, as the Company no longer has a derivative liability associated with the Notes as the beneficial conversion feature associated with the New Note is for a fixed and determinable number of shares, the Company extinguished the remaining derivative liability and recorded a gain on extinguishment of liabilities of \$497,667.

Other Long-Term Debt

In August 2011, the Company entered into an agreement with the Federal Communications Commission to convert its existing Universal Service Fund liability of \$61,366 into a two year promissory note requiring monthly payments of \$2,910 including interest at 12.75% through August 2013. The balance outstanding as of November 30, 2011 was \$52,188.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

4. Fair Value Measurements

The Company uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures of financial instruments on a recurring basis.

Fair Value Hierarchy

The Fair Value Measurements Topic of the FASB Accounting Standards Codification establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for the asset or liability.

Determination of Fair Value

Under the Fair Value Measurements Topic of the FASB Accounting Standards Codification, the Company bases its fair value on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. It is the Company's policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements, in accordance with the fair value hierarchy. Fair value measurements for assets and liabilities where there exists limited or no observable market data and, therefore, are based primarily upon management's own estimates, are often calculated based on current pricing policy, the economic and competitive environment, the characteristics of the asset or liability and other such factors. Therefore, the results cannot be determined with precision and may not be realized in an actual sale or immediate settlement of the asset or liability. Additionally, there may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows, that could significantly affect the results of current or future value.

Following is a description of valuation methodologies used for assets and liabilities recorded at fair value and for estimating fair value where it is practicable to do so for financial instruments not recorded at fair value (disclosures required by the Fair Value Measurements Topic of the FASB Accounting Standards Codification).

PERVASIP CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

4. Fair Value Measurements (Continued)

Cash and cash equivalents, accounts receivable, and accounts payable

In general, carrying amounts approximate fair value because of the short maturity of these instruments.

Long-term debt

At November 30, 2011 and 2010, long-term debt was carried at its face value plus accrued interest due to the fact that the debt is fully callable by the lender. Based on the financial condition of the Company, it is impracticable for the Company to estimate the fair value of the long-term debt.

Liabilities Measured and Recognized at Fair Value on a Recurring Basis

The table below presents the amounts of liabilities measured at fair value on a recurring basis as of November 30, 2011 and 2010.

Derivative Liability

The fair value of the derivatives that are traded in less active over-the-counter markets are generally measured using pricing models with market observable inputs such as interest rates and equity index levels. These measurements are classified as Level 2 within the fair value of hierarchy.

	Total	(Level 1)	(Level 2)	(Level 3)
November 30, 2011				
Derivative liability	\$ 274,908	-	\$ 274,908	-
November 30, 2010				
Derivative liabilities	\$ 70,519	-	\$ 70,519	-

The Company has no instruments with significant off balance sheet risk.

PERVASIP CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

5. Income Taxes

At November 30, 2011, the Company had net operating loss carryforwards for Federal income tax purposes of approximately \$34,000,000 expiring in the years of 2012 through 2031. Utilization of the net operating losses may be subject to annual limitations provided by Section 382 of the Internal Revenue Code and similar State provisions.

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's deferred tax assets and liabilities as of November 30, 2011 and 2010 were as follows:

	2011	2010
Deferred tax assets, net:		
Net operating loss carryforwards	\$ 12,420,000	\$ 11,550,000
Allowance for doubtful accounts	20,000	50,000
Stock based compensation	120,000	300,000
Accrued pension	550,000	470,000
Property, plant and equipment	-	60,000
Interest	1,280,000	810,000
Other	110,000	220,000
	14,500,000	13,460,000
Valuation allowance	14,500,000	13,460,000
Net deferred assets	\$ -	\$ -

The valuation allowance increased to \$14,500,000 at November 30, 2011 from \$13,460,000 at November 30, 2010.

The following is a reconciliation of the tax provisions for the years ended November 30, 2011 and 2010 with the statutory Federal income tax rates:

	Percentage of Pre-Tax Income	
	2011	2010
Statutory Federal income tax rate	(34.0)%	(34.0)%
Loss generating no tax benefit	34.0	34.0
	-	-

The Company did not have any material unrecognized tax benefits as of November 30, 2011 and 2010. The Company does not expect the unrecognized tax benefits to significantly increase or decrease within the next twelve months. The Company recorded no interest and penalties relating to unrecognized tax benefits as of and during the years ended November 30, 2011 and 2010. The Company is subject to U.S. federal income tax, as well as taxes by various

state jurisdictions. The Company is currently open to audit under the statute of limitations by the federal and state jurisdictions for the years ending November 30, 2008 through 2011.

6. Pension Plans

Defined Benefit Plan

The Company received a letter dated July 27, 2011 from the Pension Benefit Guaranty Corporation, (“PBGC”), stating that the Company’s defined benefit pension plan (the “Plan”) was terminated as of September 30, 2010, and the PBGC was appointed trustee of the Plan. Pursuant to the agreement, the PBGC has a claim to the Company for the total amount of the unfunded benefit liabilities of the Plan of \$1,614,000. The PBGC has notified the Company that the liability is due and payable as of the termination date, and interest accrues on the unpaid balance at the applicable rate provided under Section 6621(a) of the Internal Revenue Code. The total amount outstanding to the PBGC at November 30, 2011 is \$1,730,727, including accrued interest, which is recorded as a current liability. The Company made no payments to the Plan in fiscal 2011. The Plan covers approximately 40 former employees.

Effective June 30, 1995, the Plan was frozen, ceasing all benefit accruals and resulting in a plan curtailment. As a result of the curtailment, it has been the Company’s policy to recognize the unfunded status of the Plan as of the end of the fiscal year with a corresponding charge or credit to earnings for the change in the unfunded liability. Pension expense amounted to \$248,312 and \$128,379 for the years ended November 30, 2011 and 2010.

Obligations and Funded Status at November 30, 2010.

Pension Benefits	2010
Change in benefit obligation:	
Benefit obligation at beginning of year	\$ (1,345,612)
Interest cost	(69,398)
Actuarial gain (loss)	585
Benefits paid	45,030
Benefits obligation at end of year	\$ (1,369,395)
Change in plan assets:	
Fair value of plan assets at beginning of year	\$ 78,727
Actual return on plan assets	(44,535)
Employer contribution	10,838
Benefits paid	(45,030)
Fair value of plan assets at end of year	\$ -
Funded status	\$(1,369,395)
Net amount recognized	\$(1,369,395)

6. Pension Plans (Continued)

Amounts recognized in the statement of financial position consist of:

	2010
Accrued benefit cost	\$ (1,369,395)
Net amount recognized	\$ (1,369,395)

The accumulated benefit obligation for the Company's defined benefit pension plan was \$1,369,395 at November 30, 2010.

Information required for a pension plan with an accumulated benefit obligation in excess of plan assets:

	2010
Projected benefit obligation	\$ (1,369,395)
Accumulated benefit obligation	(1,369,395)
Fair value of plan assets	-

Components of net periodic benefit cost:

	2010
Interest cost	\$ 69,398
Expected return on plan assets	(4,864)
Amortization of net loss	51,905
Net periodic benefit cost	\$ 116,439

Assumptions

Weighted-average assumptions used to determine net periodic benefit cost as of November 30:

	2010
Discount rate	5.10 %
Expected long-term return on plan assets	N/A

Defined Contribution Plan

The Company has a 401(k) profit sharing plan for the benefit of all eligible employees, as defined. The plan provides for voluntary contributions not to exceed the statutory limitation provided by the Internal Revenue Code. The

Company may make discretionary contributions. There were no contributions made for the years ended November 30, 2011 and 2010.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

7 Commitments and Contingencies

Operating Leases

The Company leases facilities under operating lease agreements that can be canceled with 90-day advance notice.

Rent expense was approximately \$15,000 and \$43,000 in fiscal 2011 and 2010, respectively.

Capital Lease Obligations

The Company has one obligation under a capital lease that has been recorded in the accompanying financial statements. The lease is in default and is recorded on the books of an inactive subsidiary of the Company (see Note 3). The Company does not utilize any equipment associated with such lease.

Litigation

The Company is subject to legal proceedings and claims that arise in the ordinary course of its business. In the opinion of management, the amount of ultimate liability, if any, is not likely to have a material effect on the financial condition, results of operations or liquidity of the Company. However, as the outcome of litigation or legal claims is difficult to predict, significant changes in the estimated exposures could occur.

8 Stockholders' Equity

The Company is authorized to issue 1,000,000 shares of preferred stock, par value \$0.001 per share, with rights and privileges to be determined by the Board of Directors. The Company is authorized to issue up to 250,000,000 shares of its common stock, par value \$0.001.

On May 13, 2009, the shareholders of the Company approved a proposed amendment to the Certificate of Incorporation of the Company to effect a reverse split of the Company's common stock and authorized the Board of Directors ("Board") to file the amendment at any time prior to the next annual meeting. On February 4, 2010, the Board authorized a reverse split of the common stock on a 1-for-10 basis, whereby the Company issued to each of its stockholders one share of common stock for every 10 shares of common stock held by such stockholder. The reverse split was effective on September 22, 2010.

PERVASIP CORP. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

8 Stockholders' Equity (Continued)

On October 20, 2011, the Board authorized a series C of the Company's previously authorized preferred stock and designated a par value per share of \$0.001 (the "Series C Preferred"). The number of shares of Series C Preferred was set at 51 shares, with no dividend rights and no liquidation rights. The shares were issued to the Company's Chief Executive and Information Officers. Unless otherwise voted on by the disinterested members of the Board, the Company shall redeem all shares of Series C Preferred, in cash, for the aggregate amount of \$1.00 on November 21, 2013. All shares of Series C Preferred rank senior to the Company's (i) common stock, par value \$0.001, (ii) Series A Convertible Preferred Stock, par value \$.001 per share, (iii) Series B Convertible Preferred Stock, par value \$.001 per share, and any other class or series of capital stock of the Company creates, except for stock created (a) pari passu with any class or series of capital stock of the Company hereafter created and specifically ranking, by its terms, on par with the Series C Preferred (the "Pari Passu Shares") and (b) junior to any class or series of capital stock of the Company hereafter created specifically ranking, by its terms, senior to the Series C Preferred (the "Senior Shares"), in each case as to distribution of assets upon liquidation, dissolution or winding up of the Corporation, whether voluntary or involuntary.

Each one (1) share of the Series C Preferred has voting rights equal to (x) 0.019607 multiplied by the total issued and outstanding shares of Common Stock eligible to vote at the time of the respective vote (the "Numerator"), divided by (y) 0.49, minus (z) the Numerator.

With respect to all matters upon which stockholders are entitled to vote or to which stockholders are entitled to give consent, the holders of the outstanding shares of Series C Preferred Stock shall vote together with the holders of Common Stock without regard to class, except as to those matters on which separate class voting is required by applicable law or the Certificate of Incorporation or by-laws.

So long as any shares of Series C Preferred are outstanding, the Company shall not, without first obtaining the unanimous written consent of the holders of Series C Preferred, (i) alter or change the rights, preferences or privileges of the Series C Preferred so as to affect adversely the holders of Series C Preferred or (ii) create Pari Passu Shares or Senior Shares.

On October 20, 2011, the Board approved a change in the authorized shares to 250,000,000 and a change in the par value of the common stock to \$0.001 (together, the "Actions"). On November 28, 2011, the Series C Preferred shareholders, representing 51% of the voting equity of the Company, approved each of the Actions by written consent in lieu of a meeting. A certificate of amendment to the Company's certificate of incorporation, reflecting such Actions, was filed with the State of New York Department of State on January 23, 2012.

The financial statements as of and for the year ended November 30, 2010 have been retroactively adjusted to give effect to the change in par value of the Company's common stock.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

8. Stockholders' Equity (Continued)

As discussed in Note 3, the Company entered into various transactions during the years ended November 31, 2011 and 2010 where it issued convertible notes to third-parties in exchange for existing notes payable with various lenders. Such convertible notes allowed the new debt holders to convert outstanding debt principal into shares of the Company's common stock at a discount to the trading price of the common stock. To the extent, if any, that there was a beneficial conversion feature associated with these debts, the beneficial conversion feature was bifurcated from the host instrument and accounted for as a free standing derivative. As a result of such conversions, during the course of fiscal 2011 a total of \$1,313,480 of outstanding debt principal was converted into 86,688,055 shares of the Company's common stock with a value of \$2,150,802 at the time of conversion. During 2010, a total of \$29,000 of outstanding debt principal was converted into 880,785 shares of the Company's common stock with a value of \$58,050 at the time of conversion.

Additionally, during fiscal 2011, one debt holder settled outstanding debt principal of \$148,522 for 594,088 shares of the Company's common stock, which was valued at \$41,586 at the time of conversion, resulting in a gain on the settlement of liabilities of \$106,929.

In fiscal 2011, the Company issued 3,161,000 shares of common stock, valued at \$43,750, in exchange for services rendered by independent contractors.

Subsequent to the end of the fiscal year, the Company issued 2,650,000 shares of common stock for proceeds of \$47,313 in conjunction with a private placement of securities.

From December 1, 2011, through March 14, 2012, the Company issued 34,962,221 shares of stock to settle debts of \$676,063.

10. Risks and Uncertainties

The Company has created a proprietary IP telephony network and has transitioned from a reseller of traditional wireline telephone services into a facilities-based broadband service provider to take advantage of the network cost savings that are inherent in an IP network. Although the IP telephony business continues to grow, the Company faces strong competition. The Company has built its IP telephony business with significantly less financial resources than many of its competitors. The survival of the business is currently dependent upon the success of the IP operations. Future results of operations involve a number of risks and uncertainties. Factors that could affect future operating results and cash flows and cause actual results to vary materially from historical results include, but are not limited to:

The availability of additional funds to successfully pursue our business plan;

The cooperation of our lender who has not demanded repayment of our debt that was due in October 2010;

Our ability to market our services to current and new customers and generate customer demand for our products and services in the geographical areas in which we operate;

The cooperation of industry service partners that have signed agreements with us;

The impact of changes the Federal Communications Commission or State Public Service Commissions may make to existing telecommunication laws and regulations, including laws dealing with Internet telephony;

The ability to comply with provisions of our financing agreements;

The highly competitive nature of our industry;

The acceptance of telephone calls over the Internet by mainstream consumers;

Our ability to retain key personnel;

Our ability to maintain adequate customer care and manage our churn rate;

Our ability to maintain, attract and integrate internal management, technical information and management information systems;

The impact of adverse tax or regulatory rulings or actions affecting our operations, including the imposition of taxes, fees and penalties;

Our ability to manage rapid growth while maintaining adequate controls and procedures;

The availability and maintenance of suitable vendor relationships, in a timely manner, at reasonable cost;

The decrease in telecommunications prices to consumers;

General economic conditions.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

AS OF AND FOR THE YEARS ENDED NOVEMBER 30, 2011 AND 2010

11. Accounts Payable and Accrued Expenses

	2011	2010
Trade payables	\$ 996,151	\$ 1,077,641
Payable from sale of subsidiaries	796,499	796,499
Customer deposits	135,912	155,101
Due to investor	100,000	-
Other, individually less than 5% of current liabilities	521,611	486,528
	\$ 2,550,173	\$ 2,515,769

When the Company sold certain subsidiaries in December 2006, the Company agreed to reimburse the purchaser for certain disputed claims on the books of the subsidiaries, if the sold subsidiaries were required to pay such claims. At November 30, 2011 and 2010, the Company has recorded a payable of \$796,499 in conjunction with the sale of the subsidiaries. If claims are reduced or eliminated by the subsidiaries, and the purchaser provides the Company with appropriate documentation that the Company's liability has been reduced, such reduction will be reflected on the books of the Company.

In the fourth quarter of fiscal 2011, the Company received \$100,000 from an investor pursuant to a stock subscription agreement whereby the Company is required to either issue 5,000,000 shares to the investor or refund to the investor the amount received. As of March 14, 2012, the Company had not issued the shares to the investor or refunded the amount.

12. Related Party Transactions

The Company paid fees to a software consulting firm ("Consultant") of \$192,000 and \$252,000 in fiscal 2011 and 2010, respectively. All such work performed by the Consultant is the property of the Company. An officer of the Company has performed work for the Consultant, including disbursement services, in which funds that were remitted by the Company to the Consultant were subsequently transferred to a company controlled by the officer to distribute such funds to appropriate vendors. The Company officer received fees from the Consultant of \$0 and \$55,000 in fiscal 2011 and 2010, respectively.

At November 30, 2011 and 2010, total unpaid salary owed to the Company's chief executive officer was \$244,450 and \$306,339, which was converted into unsecured short-term loans bearing interest at 12%. Accrued interest on such loans was \$19,840 and \$31,575 as of November 30, 2011 and 2010.

Additionally, from December 1, 2009 to November 30, 2010, the Company's chief executive officer provided funding to the Company in the amount of \$342,000. Of such amount, \$188,000 was converted into common stock and \$153,000 was provided as unsecured short-term loans bearing interest at 24%. Accrued interest on such loans was \$26,483 as of November 30, 2010. During the fiscal year ended November 30, 2011, the Company's chief executive officer provided an additional \$417,280 in funding to the Company. Of the opening balance of \$153,000 and the \$417,280 provided in fiscal 2011, \$337,000 was converted to common stock or sold to a non-affiliated investor,

leaving an unsecured short-term loan balance of \$233,280. Accrued interest on such loans was \$29,953 as of November 30, 2011.

The Company also owes its chief executive officer \$109,222 and \$117,764 for unreimbursed business expenses, which are included in the Company's accounts payable balance as of November 30, 2011 and 2010.
