PROXY STATEMENT

The accompanying proxy is solicited by the Board of Directors of Healthcare Trust of America, Inc., or HTA, for exercise at the 2014 Annual Meeting of Stockholders, or the annual meeting, to be held on July 9, 2014 at 9:00 a.m. local time, at The Westin Kierland Resort & Spa, 6902 East Greenway Parkway, Scottsdale, Arizona 85254, and at any postponement or adjournment thereof, for the purposes set forth in the attached notice. Unless otherwise indicated or required by the context, as used in this proxy statement, “the Company,” “we,” “us,” and “our” refer to HTA. On or about May 16, 2014, the Notice and these proxy materials for the annual meeting, including this proxy statement, are being made available to stockholders entitled to vote at the annual meeting. We are utilizing the U.S. Securities and Exchange Commission, or SEC, rules that allow issuers to furnish proxy materials to their stockholders on the Internet. As a result, we are mailing to most of our stockholders the Notice instead of a paper copy of this proxy statement and our 2013 Annual Report. The Notice contains instructions on how to access those documents and authorize a proxy online. The Notice also contains instructions on how each of those stockholders can receive a paper copy of the proxy materials, including this proxy statement, the 2013 Annual Report and a form of proxy card or voting instruction card. All stockholders who do not receive a Notice, such as stockholders who have previously requested to receive paper copies of proxy materials, will receive a paper copy of the proxy materials by mail. The following questions and answers relate to the 2014 Annual Meeting of Stockholders.

What is the purpose of the annual meeting?

At the annual meeting, stockholders will consider and vote upon the following:

- the election of the seven director nominees named in this proxy statement, each to hold office for a one-year term expiring at the 2015 Annual Meeting of Stockholders and until his successor is duly elected and qualifies;
- an advisory vote to approve the compensation of our named executive officers, as disclosed in this proxy statement; and
- the ratification of the appointment of Deloitte & Touche LLP, or Deloitte, as our independent registered public accounting firm for the year ending December 31, 2014.

Management will also report on our accomplishments to date, including our business and our portfolio of properties. Management will also respond to questions from stockholders. In addition, representatives of our independent registered public accounting firm are expected to be present at the annual meeting, and will have an opportunity to make a statement if they so desire, and will be available to respond to questions from the stockholders.

What are the Board of Directors’ voting recommendations?

The Board of Directors recommends that you vote or authorize a proxy to vote your shares:

- FOR all of the nominees named in this proxy statement for election as directors;
- FOR the approval, on a non-binding, advisory basis, of the compensation of our named executive officers, as disclosed in this proxy statement; and
- FOR the ratification of the appointment of Deloitte as our independent registered public accounting firm for 2014.

What happens if additional proposals are presented at the annual meeting?

Other than the matters described in this proxy statement, we are not aware of any additional matters to be presented for a vote at the annual meeting. If other matters are presented and you are voting by proxy, your proxy grants the individuals named as proxy holders the discretion to vote your shares as they see fit on any additional matters properly presented for a vote at the meeting.

Table of Contents

Who is entitled to vote?

Only stockholders of record at the close of business on April 29, 2014, or the record date, are entitled to receive notice of the annual meeting and to vote the shares of common stock that they hold on that date at the annual meeting, or any postponements or adjournments of the annual meeting. As of the record date, we had 237,303,146 shares of Class A common stock issued and outstanding and entitled to vote. You are entitled to one vote for each share of common stock you held as of the record date.

What is the difference between a “record holder” and stockholder who holds stock in “street name”?

Stockholders of Record. If your shares are registered in your name with our transfer agent, DST Systems, Inc., you are a stockholder of record with respect to those shares and the Notice or proxy materials were sent directly to you by Boston Financial Data Services, Inc.

Street Name Holders. If you hold your shares in an account at a bank or broker, then you are the beneficial owner of shares held in “street name.” The Notice or proxy materials were forwarded to you by your bank or broker, who is considered the stockholder of record for purposes of voting at the annual meeting. As a beneficial owner, you have the right to direct your bank or broker on how to vote the shares held in your account.

What are “routine” and “non-routine” matters and how are broker non-votes counted?

A broker or other nominee holding shares for a beneficial owner may generally vote on “routine” matters without receiving voting instructions, but may not vote on “non-routine” matters without receiving voting instructions. A broker “non-vote” occurs when a broker, bank or other nominee holding shares for a beneficial owner does not vote on a particular “non-routine” proposal because the nominee does not have discretionary voting power with respect to that matter and has not received voting instructions from the beneficial owner. The election of nominees for the Board (Proposal 1) and the advisory vote on named executive officer compensation (Proposal 2) are considered “non-routine” matters, and, therefore, a broker or nominee may not vote shares held for a beneficial owner without instructions and there may consequently be broker non-votes in connection with Proposals 1 and 2. Therefore, we strongly encourage you to instruct your broker or nominee on how you wish to vote your shares on the election of directors and the advisory vote on named executive officer compensation. For purposes of the election of directors and the advisory vote on named executive officer compensation, abstentions and broker non-votes, if any, will not be counted as votes cast and, therefore, will not affect the outcome of Proposals 1 or 2. The ratification of the appointment of Deloitte as the Company’s independent registered public accounting firm for 2014 (Proposal 3) is considered a “routine” matter and, therefore, a broker or nominee may vote shares held for a beneficial owner without instructions and no broker non-votes are expected to occur in connection with such proposal. Pursuant to Maryland law, broker non-votes and abstentions are not considered votes cast, but are counted as present for quorum purposes.

What constitutes a quorum?

If stockholders entitled to cast a majority of all of the votes entitled to be cast are present at the annual meeting, either in person or by proxy, we will have a quorum at the meeting, permitting the conduct of business at the meeting. Abstentions and broker non-votes, if any, will be considered present for the purpose of determining the presence of a quorum.

How do I authorize a proxy to vote my shares at the annual meeting?

You can authorize a proxy to vote your shares by following the instructions set forth in the Notice or proxy card.

Can I revoke my proxy after I have voted?

You may revoke your proxy at any time before the proxy is exercised at the annual meeting by:

- delivering to our Secretary a written notice of revocation;
- attending the annual meeting and voting in person (although attendance at the meeting will not cause your previously granted proxy to be revoked unless you specifically so request);
- returning a properly signed proxy card bearing a later date than your first proxy card (if received before the annual meeting);
- authorizing a later dated proxy using the telephone or Internet (if received before the deadline for telephone or Internet proxies); or
- using the Internet or telephone methods described in the Notice.

If you hold shares of our common stock in street name, you will need to contact the institution that holds your shares and follow its instructions for revoking a proxy.

Table of Contents

What vote is required to approve each proposal that comes before the annual meeting?

Election of directors. To elect a director nominee, the affirmative vote of a majority of all votes cast at a meeting at which a quorum is present must be cast in favor of the nominee. This means a director nominee must receive more votes “for” than “against” to be elected, with abstentions and broker non-votes not counting as votes “for” or “against.” If an incumbent director nominee fails to receive the required number of votes for reelection, then under Maryland law, he will continue to serve as a “holdover” director until his successor is duly elected and qualifies.

Advisory vote on named executive officer compensation. The affirmative vote of a majority of all votes cast at a meeting at which a quorum is present is required for the non-binding, advisory vote to approve the compensation of our named executive officers, as disclosed in this proxy statement. Abstentions and broker non-votes, if any, will not be treated as votes cast and therefore will not affect the outcome.

Ratification of auditors. To approve the ratification of the appointment of Deloitte, the affirmative vote of a majority of all votes cast at a meeting at which a quorum is present must be cast in favor of the proposal. Abstentions will have no impact on the proposal to ratify the appointment of Deloitte. The ratification of the appointment of Deloitte is deemed to be a “routine” matter and brokers will be permitted to vote uninstructed shares as to such matter.

How can I find the results of the annual meeting?

Preliminary results will be announced at the annual meeting. We intend to publish final results in a Current Report on Form 8-K filed with the SEC within four business days after the annual meeting.

What happens if the meeting is postponed or adjourned?

Your proxy will still be effective and will be voted at the rescheduled annual meeting. You will still be able to change or revoke your proxy until it is voted.

Will my vote make a difference?

Yes! Your vote is needed to ensure that the proposals can be acted upon. Unlike most other public companies, no large brokerage houses or affiliated groups of stockholders own substantial blocks of our shares. As a result, a large number of our stockholders must be present in person or by proxy at the annual meeting to constitute a quorum. **AS A RESULT, YOUR VOTE IS VERY IMPORTANT EVEN IF YOU OWN ONLY A SMALL NUMBER OF SHARES!** Your immediate response will help avoid potential delays and may save us significant additional expenses associated with soliciting stockholder proxies. We encourage you to participate in the governance of HTA and welcome your attendance at the annual meeting.

Who will bear the costs of soliciting votes for the meeting?

HTA will bear the entire cost of the solicitation of proxies from its stockholders. We have retained Boston Financial Data Services, Inc. to assist us in connection with the solicitation of proxies for a fee of \$7,500 plus reasonable out of pocket expenses. In addition to the mailing of the Notices and these proxy materials, the solicitation of proxies or votes may be made in person, by telephone or by electronic communication by our Directors and officers, who will not receive any additional compensation for such solicitation activities. We will also reimburse brokerage houses and other custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses for forwarding the Notice and proxy solicitation materials to our stockholders.

How do I get additional copies of SEC filings?

Copies of HTA’s financial reports, including its reports to the SEC filed on Forms 10-K and 10-Q, with financial statements and financial statement schedules, but without exhibits, are available without cost by sending your written request to: Healthcare Trust of America, Inc., 16435 N. Scottsdale Road, Suite 320, Scottsdale, Arizona 85254, Attention: Secretary, or by calling (480) 998-3478, or by sending an e-mail to the following address: info@htareit.com. We file information electronically with the SEC, and the SEC maintains a website that contains reports, proxy and information statements and other information regarding registrants (including HTA) that file electronically with the SEC. The address of the SEC’s web site is <http://www.sec.gov>. Copies of SEC filings, including exhibits, can also be obtained free of charge by clicking on “SEC Filings” under “Investor Relations” on our website at www.htareit.com. This website address is provided for your information and convenience. Our website is not incorporated into this proxy statement and should not be considered part of this proxy statement. You can obtain a copy of any listed exhibit to a Form 10-K or Form 10-Q by sending your written request to our Secretary at the address furnished above. We will furnish the copy upon payment of a fee to reimburse our expenses.

PROPOSAL 1:

ELECTION OF DIRECTORS

Background

The Board of Directors currently consists of seven directors. Our charter and bylaws provide for a minimum of three and a maximum of 15 directors and that our Directors each serve a term of one year, but may be re-elected. The Board of Directors has nominated Scott D. Peters, W. Bradley Blair, II, Maurice J. DeWald, Warren D. Fix, Larry L. Mathis, Steve W. Patterson and Gary T. Wescombe, each for a term of office commencing on the date of the 2014 Annual Meeting of Stockholders and ending on the date of the 2015 Annual Meeting of Stockholders and until their successors are duly elected and qualify. Each of Messrs. Peters, Blair, DeWald, Fix, Mathis, Patterson and Wescombe currently serves as a member of the Board of Directors and all of the director nominees, other than Mr. Patterson, were previously elected to the Board of Directors by our stockholders. The Board of Directors believes that such nominees have played and will continue to play a vital role in our management and operations and our continued growth and success. Mr. Patterson has served as a member of the Board of Directors since April 29, 2014, and the Board of Directors believes that such nominee will also continue to play a vital role in our management and operations and our continued growth and success.

Our bylaws permit the Board of Directors to increase the number of Directors, from time to time, by a majority of the entire Board of Directors. On April 29, 2014, the Board of Directors, upon recommendation by the Nominating and Corporate Governance Committee, increased the number of Directors from six to seven, and filled the resulting vacancy by appointing Mr. Patterson as a new member of the Board of Directors to serve for the remainder of the term until the annual meeting. Mr. Patterson was initially identified as a potential director nominee by our Chairman of the Board and Chief Executive Officer, Scott D. Peters. Following an evaluation and screening of Mr. Patterson's proposed candidacy as a director, the Nominating and Corporate Governance Committee recommended his election to the Board of Directors.

Unless otherwise instructed on the proxy, the shares represented by proxies will be voted "FOR ALL NOMINEES" who are named below. Each of the nominees has consented to being named as a nominee in this proxy statement and has agreed that, if elected, he will serve on the Board of Directors for a one-year term and until his successor is duly elected and qualifies. If any nominee becomes unable or unwilling for good cause to serve as a director if elected, the shares represented by proxies may be voted for a substitute nominee designated by the Board of Directors. We are not aware of any family relationship among any of the nominees to become Directors or executive officers of HTA. Each of the nominees for election as Director has stated that there is no arrangement or understanding of any kind between him and any other person relating to his election as Director except that such nominees have agreed to serve as our Directors if elected.

CORPORATE GOVERNANCE

Board of Directors

The Board of Directors held nine meetings during the year ended December 31, 2013. Each of our Directors attended at least 75% of the aggregate of the total number of meetings of the Board of Directors held during the period for which he served as a director and the total number of meetings held by all committees of the Board of Directors on which he served during the periods in which he served.

Table of Contents

Board Leadership Structure

The Nominating and Corporate Governance Committee and the Board of Directors believe it is important to select the Chairman of the Board of Directors and Chief Executive Officer in the manner they consider in the best interests of the Company at any given point in time. The members of the Nominating and Corporate Governance Committee and the Board of Directors possess considerable business experience and in-depth knowledge of the issues the Company faces and, therefore, are in the best position to evaluate our needs and how best to organize our leadership structure to meet those needs. Accordingly, the Chairman and Chief Executive Officer positions may be filled by one individual or by two different individuals. The Nominating and Corporate Governance Committee and the Board of Directors believe that the most effective leadership structure for the Company at this time is for Mr. Peters to serve as both our Chairman and Chief Executive Officer. Mr. Peters' combined role as Chairman and Chief Executive Officer serves as a bridge between the Board of Directors and management and provides unified leadership for developing and implementing our strategic initiatives and business plans. In conjunction with this evaluation, it has been determined that the establishment of a lead director position should not be made at this point in time. Five of the six independent Directors have been in place since the Company began business (four in 2006 and one in 2007). Each of these independent Directors has been intimately involved in the business of the Company. Due to the small size and intimacy of the Board of Directors, the Board of Directors believes that direct communications with the Chairman/Chief Executive Officer has been extremely effective. Thus, the Board of Directors has determined that it is not necessary or advisable at this time to establish a lead director position and that to do so could impede an otherwise highly interactive and communicative board.

Director Attendance at Annual Stockholder Meetings

Although we have no policy with regard to attendance by the members of the Board of Directors at our annual stockholder meetings, we invite and encourage the members of the Board of Directors to attend our annual stockholder meetings to foster communication between stockholders and the Board of Directors. One of our Directors attended the 2013 annual stockholder meeting in person and the rest attended telephonically.

Contacting the Board of Directors

Any interested party who desires to contact members of the Board of Directors may do so by writing to: Healthcare Trust of America, Inc., Board of Directors, 16435 N. Scottsdale Road, Suite 320, Scottsdale, Arizona 85254, Attention: Kellie S. Pruitt, Secretary. The independent Directors may also be contacted by writing to: Healthcare Trust of America, Inc., Independent Directors, 16435 N. Scottsdale Road, Suite 320, Scottsdale, Arizona 85254, Attention Kellie S. Pruitt, Secretary. Communications received will be distributed by our Secretary to such member or members of the Board of Directors, or to one or more independent Directors as deemed appropriate by our Secretary, depending on the facts and circumstances outlined in the communication received. For example, if any questions regarding accounting, internal accounting controls and auditing matters are received, they will be forwarded by our Secretary to the Audit Committee for review.

Director Independence

We have a seven-member Board of Directors. We consider all of our Directors other than Scott D. Peters, our Chief Executive Officer, to be independent under the New York Stock Exchange, or NYSE, and SEC rules. Our charter provides that a majority of our Directors must be "independent directors." We consider all of our Directors other than Mr. Peters to be "independent directors" as defined in our charter. As currently defined in our charter, the term "independent director" means:

"[A] Director who is not on the date of determination, and within the last two years from the date of determination has not been, directly or indirectly associated with the Corporation or its Affiliates by virtue of (i) employment by the Corporation or any of its Affiliates; (ii) performance of services, other than as a Director, for the Corporation; or (iii) maintenance of a material business or professional relationship with the Corporation or any of its Affiliates. A business or professional relationship is considered "material" if the aggregate gross income derived by the Director from the Corporation and its Affiliates (excluding fees for serving as a director of the Corporation or other REIT or real estate program that is organized, advised or managed by the Corporation and its Affiliates) exceeds five percent of either the Director's annual gross income during either of the last two years or the Director's net worth on a fair market value basis. An indirect association with the Corporation or its Affiliates shall include circumstances in which a

Director's spouse, parent, child, sibling, mother- or father-in-law, son- or daughter-in-law or brother- or sister-in-law is or has been associated with the Corporation or its Affiliates.”

In addition, our Audit Committee members qualify as independent under the NYSE's and SEC's rules applicable to Audit Committee members.

Our independent directors meet throughout the year in regularly scheduled executive sessions. Generally, the director chosen to preside at each executive session of the independent directors is the director most closely associated with the applicable issue being discussed. This information is also available by clicking on “Corporate Governance” under “Investor Relations” on our website at www.htareit.com.

In addition, members of management responsible for managing our risk periodically report to the full Board of Directors regarding risk management matters.

Committees of the Board of Directors

Our Board of Directors may establish committees it deems appropriate to address specific areas in more depth than may be possible at a full Board of Directors meeting, provided that the majority of the members of each committee are independent directors. Our Board of Directors has established an Audit Committee, a Compensation Committee, a Nominating and Corporate Governance Committee, an Investment Committee and a Risk Management Committee. Audit Committee. Our Audit Committee's primary function is to assist the Board of Directors in fulfilling its oversight responsibilities by reviewing the financial information to be provided to our stockholders and others, the system of internal controls which management has established, and the audit and financial reporting process. The Audit Committee is responsible for the selection, evaluation and, when necessary, replacement of our independent registered public accounting firm. Under our Audit Committee charter, the Audit Committee will always be comprised solely of independent directors. The Audit Committee is currently comprised of Messrs. The Compensation Committee has the authority to engage outside advisors to assist it in fulfilling these responsibilities. In 2012, our Compensation Committee retained Towers Watson, an independent compensation consultant, to provide background information as it established at the end of 2012 the 2013 base salaries and other compensation terms for our named executive officers for their then new employment agreements. Towers Watson performs no services for management and receives no compensation from the Company other than for its work in advising our Compensation Committee and maintains no other economic relationships with the Company. Our Compensation Committee determined that Towers Watson was independent and the engagement raised no conflicts of

interest. In 2013, our Compensation Committee retained FPL Associates, LP, or FPL, an independent compensation consultant to perform an evaluation of certain aspects of our compensation program and certain other matters related to the compensation of our Chief Executive Officer. FPL performs no services for management and receives no compensation from the Company other than for its work in advising our Compensation Committee and maintains no other economic relationships with the Company. Our Compensation Committee determined that FPL was independent and that the engagement of FPL raised no conflicts of interest.

Executive Summary

Changes to Executive Incentive Program

In 2013, our Compensation Committee reviewed our cash incentive and long-term incentive plans with the goal of using specific performance metrics considered important to our success to measure our performance for purposes of determining incentive compensation to be awarded to our named executive officers. While our cash and long-term equity incentive awards have historically been 100% performance-based, the awards were determined in the discretion of our Compensation Committee based on their assessment of the Company's and the executive's achievements, respectively. Accordingly, our Compensation Committee established quantitative performance targets, as further described below under "Elements of Our 2013 Compensation Program," to be used to determine the cash and equity incentive compensation awarded to our executives. Our Compensation Committee continues to have the discretion to assess an individual executive's achievements and determine incentive awards related to those achievements. For 2013 cash incentives, 60% of an executive's total incentive opportunity is based on the achievement of Company performance goals and 40% is based on the executive's individual performance. For 2013 long-term equity incentives, 50% is based on Total Stockholder Returns, or TSR, and the remaining 50% is based on our Compensation Committee's discretionary assessment of our performance in certain key financial and operational areas. Our Compensation Committee believes it is important to retain the discretion to reward our executives' individual achievements that we believe help preserve long-term stockholder value and discourage excessive risk-taking. These performance metrics are described in more detail in this CD&A, including how such metrics contribute to the determination of the value of our named executive officers' incentive awards and support our pay-for-performance philosophy, and we believe help provide our stockholders better transparency to our executive compensation program. See "Elements of our 2013 Compensation Program - Annual Bonus" and "Elements of our 2013 Compensation Program - Long-Term Incentives" for more detail on these performance metrics.

2013 Accomplishments

Our executive compensation program is guided by the principle that the compensation of our executive officers should encourage creation of value for our stockholders and achievement of our strategic corporate objectives. The objectives of our executive compensation program are to attract, incentivize and retain executive management in a manner that is tied to achieving our business objectives and aligning the financial interests of our executives with the long-term interests of our stockholders. Key financial and strategic achievements that drove our Compensation Committee's compensation decisions in 2013 included the following:

For the year ended December 31, 2013, we generated one-year cumulative TSR of approximately 4.8%, which significantly exceeded the 1-year TSR by approximately 1,100 basis points of the SNL US REIT Healthcare Index as well as the comparative performance of our directly competitive, publicly traded healthcare REIT peer group, or our healthcare REIT peers, as further described below under "Compensation Consultant and Benchmarking." The SNL US REIT Healthcare Index, or SNL HC REIT, includes all publicly traded healthcare REITs in SNL's coverage universe (including those listed on the NYSE, the NYSE MKT, NASDAQ and the OTC). In addition, our 1-year cumulative TSR exceeded the 1-year TSR of the MSCI US REIT Index, or RMS. The chart below shows the comparison of the Company's 1-year TSR as of December 31, 2013 compared with the one-year TSR of the SNL HC REIT and the RMS.

We grew our normalized funds from operations, or FFO, to \$148 million, an increase of 9.3% on a year over year basis, while our normalized FFO per diluted share of common stock increased 4.9% to \$0.64 per diluted share of common stock on a year over year basis.

We completed approximately \$398 million of investments, an increase in our portfolio size by more than 15% based on total investment. We were the most active investor in the medical office building sector in 2013 among our healthcare REIT peers.

For the year ended 2013, we entered into new or renewal leases on approximately 1,396,000 square feet of GLA, or approximately 9.9% of our portfolio, and our tenant retention was approximately 85% by GLA, the highest among our healthcare REIT peer group.

We grew our occupancy approximately 70 basis points from 90.5% in the first quarter of 2013 to 91.2% in the fourth quarter of 2013, while the medical office building portfolios of our healthcare REIT peer group, on average, remained flat.

We increased our same-property cash net operating income, or NOI, growth 3% or more, which exceeded the same-property cash NOI growth of the medical office building portfolios of our healthcare REIT peer group for each quarter in 2013. The chart below shows our same-property cash NOI growth for each quarter in 2013 compared to the average same-property cash NOI growth reported by our healthcare REIT peer group with respect to their medical office building portfolios:

We successfully launched a \$250 million Equity ATM program and issued approximately \$250 million of our common stock at an average price of \$11.22 per share.

Table of Contents

We successfully executed our debut \$300 million 10-year bond issuance while interest rates were at historically low levels in 2013, which helped us achieve a lower cost of long-term debt and better ladder our debt maturity schedule. In July 2013, we were added to the Russell Global and Russell 1000 Indexes.

In June and November 2013, all shares of our Class B-2 and B-3 common stock, respectively, converted to shares of our Class A common stock, our sole outstanding class of common stock. As a result, our liquidity more than doubled as all of our outstanding shares of common stock became eligible to trade on the NYSE.

We ended the year with a strong balance sheet with \$613 million of liquidity and net debt to annualized adjusted EBITDA of 5.3x, one of the lowest among our healthcare REIT peer group.

- The strength of our portfolio and balance sheet was recognized by Moody's Investors Service, or Moody's, in 2013 as Moody's assigned us an upgraded credit rating of Baa2 from Baa3 allowing us to achieve approximately \$2.5 million of interest expense savings in 2014. As a rationale for the credit rating upgrade, Moody's specifically cited our high quality, on-campus medical office building portfolio, our low leverage profile, and the successful execution of our growth strategy.

2013 Compensation Practices

Our executive compensation program includes a number of features intended to reflect best practices in the market and to help ensure that the program reinforces our stockholders' interests. These features are described in more detail below in this CD&A and include the following:

Our Compensation Committee is comprised solely of independent directors. Our Compensation Committee engages independent compensation consultants, as further described below, to advise on matters related to our executive compensation program.

The majority of our executives' compensation is at-risk. For fiscal year 2013, approximately 89% of Mr. Peters' target total direct compensation was performance-based, and approximately 64% to 70% of the three other named executive officers' target total direct compensation was performance-based. As used in this discussion, the term "total direct compensation" means the aggregate amount of the executive's base salary, target annual incentive awards, and long-term equity incentive awards based on the grant-date fair value of such awards as determined under the accounting principles used in the Company's financial reporting.

Effective January 1, 2013, we entered into new employment agreements with each of our named executive officers. We believe it was appropriate to enter into these agreements with our named executive officers in light of their increased responsibilities following our listing on the NYSE and to promote the stability of our management team. Each executive's base salary represents our Compensation Committee's view of the minimum level of fixed compensation necessary to attract and retain executive talent. Salaries are based on a number of factors, including competitive market data, the scope of the executive's role in the Company, the executive's level of experience, and the executive's performance potential. After consultation with our independent compensation consultant, our Compensation Committee approved in late 2012 the named executive officers' 2013 base salaries and reflected the same in the then new employment agreements with our named executive officers, as further described below under "Elements of our 2013 Compensation Program - Base Salaries."

Our executives' bonuses under our annual incentive program are performance-based cash incentives that reward achievement of performance objectives tied to our annual business plan and projections. A range of earnings opportunities, expressed as percentages of base salary and corresponding to three levels of performance (Threshold, Target and High), are established for each of our executives. Actual bonus awards to our executives depend on actual achievement relative to the corporate objectives and our Compensation Committee's subjective assessment of each executive's individual performance as described below under "Elements of Our 2013 Compensation Program." As described in more detail below, our Compensation Committee determined that our actual performance for 2013 for each of the performance metrics in the annual incentive program was as follows:

- Normalized FFO per share: achieved results at the Threshold level;
- Net acquisitions: achieved results at the High level;
- Same-property cash NOI growth: achieved results between the Target and High levels;
- Debt to undepreciated assets: achieved results between the Threshold and Target levels; and
- Peer performance: achieved results at the High level.

Table of Contents

Individual executive performance is described in more detail below and differed for each of our executives. Based on the Company’s performance as summarized above and our Compensation Committee’s assessment of the performance of each of our executives during 2013, our Compensation Committee awarded each of the named executive officers bonuses at the following percentages of the Target level: Mr. Peters at 81% of the Target level; Ms. Pruitt at 86% of the Target level; Mr. Engstrom at 108% of the Target level; and Ms. Houghton at 91% of the Target level. Because the Compensation Committee believes that a significant portion of Mr. Peters’ incentive compensation should be in the form of equity to increase the alignment of his interests with those of our stockholders, our Compensation Committee reduced the portion of his 2013 annual incentive that would otherwise have been paid in cash and increased the portion of his 2013 annual incentive awarded in equity as described below.

Our Compensation Committee also granted our executives equity awards based on performance in 2013 in the form of restricted stock. The awards were granted in January 2014 and determined by our Compensation Committee based on the achievement of pre-established corporate goals, and our Compensation Committee’s discretionary assessment of each individual executive’s performance for the 2013 performance year. These awards are intended to (a) promote achievement of corporate performance goals tied to our business strategies, (b) incentivize individual executive achievement consistent with our corporate goals, and (c) focus our executives on creating long-term value for our stockholders. These awards also provide a retention incentive as they vest over a multi-year period. The range of potential award levels that may be granted, expressed as percentages of base salary and corresponding to the three levels of performance (Threshold, Target and High), is established for each executive. As described in more detail below under “Elements of Our 2013 Compensation Program,” our Compensation Committee determined that actual performance for the year 2013 was as follows for each of the performance metrics in the long-term incentive program:

- 1-year TSR vs. peers: achieved results at the High level;
- Improve value of portfolio: achieved results between the Threshold and Target levels;
- Financial flexibility: achieved results at the Target level; and
- Franchise value: achieved results between the Threshold and Target levels.

Based on our Compensation Committee’s assessment of the performance of the Company and each of our executives during 2013, our Compensation Committee awarded our executives restricted stock awards in January 2014 with a grant-date value at the following percentages of the Target level: Mr. Peters at 118% of the Target level; Ms. Pruitt at 80% of the Target level; Mr. Engstrom at 98% of the Target level; and Ms. Houghton at 80% of the Target level. As set forth above, our Compensation Committee believes that a significant portion of Mr. Peters’ incentive compensation should be in the form of equity to increase the alignment of his interests with those of our stockholders and, accordingly, reduced the portion of his 2013 annual incentive that would otherwise have been paid in cash and increased the portion of his 2013 annual incentive awarded in equity.

Our Compensation Committee established stock ownership guidelines for our executives. Our Chief Executive Officer and other named executive officers are required to own a minimum of six and four times the applicable executive’s base salary, respectively, of fully vested shares of our common stock, as further described below.

• We do not provide any tax gross-up payments or material perquisites to our named executive officers.

• Our Amended and Restated 2006 Incentive Plan expressly prohibits pledging awards granted to our executives under the plan.

The Risk Management Committee reviews our compensation policies and practices as a part of its overall review of the material risks or exposures associated with our internal and external risks. Through this review process, our Risk Management Committee concluded that our compensation policies are not reasonably likely to have a material adverse effect on us or our stockholders.

Compensation Philosophy and Objectives

Our Compensation Committee is charged with the responsibility of setting compensation for our named executive officers and our other executive officers and employees. Pursuant to the terms of our Compensation Committee charter, our Compensation Committee has oversight over all of our compensation programs, including plans and programs relating to cash compensation, incentive compensation and equity-based awards. Through our executive compensation program, we strive to attract, retain and motivate talented executives, and link the compensation realized by our executives to the achievement of financial and strategic corporate goals, as well as individual achievement consistent with our corporate goals and projections. Our Compensation Committee recognizes that effective compensation strategies are critical to recruiting and retaining key employees who contribute to our long-term success and thereby create value for our stockholders. An important objective of our Compensation Committee is to align the financial interests of our executives with those of our stockholders by maintaining a performance and achievement-focused culture that provides our executives with competitive market-based cash payments and long-term, equity incentive compensation for strong performance measured against key financial and strategic goals. The objectives of our executive compensation program are set forth below:

- attract, retain and motivate talented executives;
- link compensation realized with the achievement of pre-established short and long-term financial and strategic goals, as well as our Compensation Committee's assessment of an individual's overall contributions generally and to the achievement of our corporate goals and projections;
- align management and stockholder interests by encouraging long-term value creation; and
- maintain compensation and corporate governance practices that are designed to deliver stable and consistent total returns to stockholders.

Compensation Consultant and Benchmarking

In 2012, our Compensation Committee retained Towers Watson, an independent compensation consultant, to provide background information as it established at the end of 2012 the 2013 base salaries and other compensation terms for our named executive officers for their then new employment agreements. During the period it served as compensation consultant, Towers Watson performed no services for management and received no compensation from the Company other than for its work in advising our Compensation Committee and maintained no other economic relationships with the Company. Our Compensation Committee determined that Towers Watson was independent and the engagement raised no conflicts of interest.

In 2013, our Compensation Committee retained FPL Associates, LP, or FPL, an independent compensation consultant to perform an evaluation of certain aspects of our compensation program and certain other matters related to the compensation of our Chief Executive Officer. FPL performs no services for management and receives no compensation from the Company other than for its work in advising our Compensation Committee and maintains no other economic relationships with the Company. Our Compensation Committee determined that FPL was independent and that the engagement of FPL raised no conflicts of interest.

Our Compensation Committee periodically reviews the compensation arrangements of our executive officers and employees, and our overall compensation structure. In addition, the employment agreements of our named executive officers require that their base salaries be reviewed by our Compensation Committee not less frequently than annually. With the assistance of FPL, our Compensation Committee conducted a review of our executive compensation program in November 2013 relative to two peer groups of publicly traded REITs (i.e., size-based peers, and healthcare REIT peers), or, collectively, the "comparable peers." The review of comparable peers' compensation programs is just one of the elements our Compensation Committee takes into account in making compensation decisions for our named executive officers. Our Compensation Committee also considers the experience, tenure, and past and recent performance of each executive, as described below, and does not benchmark compensation at any particular level as compared with the peer group.

When selecting the comparable peers, our Compensation Committee considered input from FPL. Our Compensation Committee selected a combination of (a) our directly competitive, publicly traded healthcare REIT peers, or "healthcare REIT peers," and (b) a group of other REITs based on total capitalization relative to our total capitalization, or "size-based peers."

Table of Contents

For the healthcare REIT peers, our Compensation Committee focused on companies with significant portfolios of medical office buildings that it believes we compete with on a day-to-day basis for acquisitions, leasing, investor interest, management talent, and other similar strategic initiatives. For the healthcare REIT peers, (a) the medical office building portfolios of the peers by gross real estate investments in 2013 ranged from approximately \$2.6 billion to \$3.8 billion, and our medical office building portfolio was approximately \$3.0 billion, (b) same store stabilized occupancy of the medical office building portfolios of the peers in the fourth quarter of 2013 ranged from approximately 88.8% to 94.7%, and our portfolio was at approximately 90.6%, (c) same store NOI growth of the medical office building portfolios of the peers in each quarter of 2013 showed our performance exceeding our peers in each quarter, (d) the medical office building portfolio size of the peers ranged from 174 to 327 medical office buildings, and our portfolio was comprised of 269 medical office buildings; (e) our debt to total capitalization of 34.0% was the lowest of all of the peers (when considering each peer's aggregate debt), and (f) 2013 acquisitions by dollar volume showed the medical office building portfolios of the peers as growing in 2013 between \$0 and \$189 million, whereas we were the most acquisitive medical office building buyer among the peers at \$398 million. Our Compensation Committee recognizes that certain of the healthcare REIT peers are active with property types in addition to medical office buildings, and in three cases the market capitalization and total capitalization of the healthcare REIT peers was substantially larger than ours; however, our Compensation Committee concluded that our performance was both consistently strong throughout 2013 and at the high end of performance relative to the healthcare REIT peers with respect to their medical office building portfolios. Moreover, our Compensation Committee recognized the intensive level of effort required to actively operate, manage and lease a portfolio of multi-tenant medical office buildings, such as we must do for the type of portfolio we own. For these reasons, our Compensation Committee believes it is appropriate to include the healthcare REIT peers among the comparable peers in assessing market compensation levels.

For the size-based peers, our Compensation Committee considered REITs with a total capitalization of between \$3.4 billion to \$6.2 billion, which ranges from 0.95 to 1.75 times our total capitalization of \$3.6 billion as of December 31, 2013. Our Compensation Committee also considered, among other things, the size and geographic reach of the respective size-based peers' portfolios, whether or not the size-based peers actively managed their portfolios, the magnitude of the size-based peers' growth through acquisitions, the amount of leverage the size-based peers maintain, and the size-based peers' total stockholder returns. For the size-based peers, (a) the portfolio size of the peers ranged from 28 to 366 buildings or properties, and our portfolio was comprised of 269 medical office buildings; (b) the geographic reach of the size-based peers ranged from seven states to 29 states, and we had buildings in 27 states; (c) each of the size-based peers, like us, actively manages and leases their respective portfolios; (d) the size-based peers external growth through acquisitions between 2012 and 2013 ranged from \$312 million to \$1.3 billion, and our acquisitions between 2012 and 2013 totaled \$693 million representing approximately a 30% expansion of our portfolio; (e) leverage for the size-based peers ranged from 32.8% to 52.4% of total debt to total market capitalization, and our leverage was 34.0% of total debt to total market capitalization; and (f) the size-based peers had a 1-year TSR that ranged from (12.3)% to 20.9% with an average of 5.0%, and our one-year TSR was 4.8%. For these reasons, the Compensation Committee believes it is appropriate to include the size-based peers among the comparable peers in assessing market compensation levels.

The review in November 2013 included a competitive compensation analysis for Mr. Peters individually and our four named executive officers (including Mr. Peters) in the aggregate. In the case of Mr. Peters, the review indicated that Mr. Peters, as compared to chief executive officers in the comparable peers, was generally provided total direct compensation at approximately the median level of the comparable peers. The review also indicated that the total direct compensation structure for our top four executives, in the aggregate, provides below median compensation as compared to the top four named executive officers, in the aggregate, in the comparable peers. Our Compensation Committee reviewed this structure in the aggregate because of the amount of our Chief Executive Officer's compensation relative to the amount of compensation for our other named executive officers. In addition, the total direct compensation of each of our four named executive officers relative to similar positions with the comparable peers was as follows: Mr. Peters' compensation was in the 4th percentile relative to the comparable peers; Ms. Pruitt's compensation was in the 9th percentile relative to the comparable peers; Mr. Engstrom's compensation was in the 36th percentile relative to the comparable peers; and Ms. Houghton's compensation was in the 9th percentile relative to the comparable peers.

The Role of Stockholder Say-on-Pay Votes. We provide our stockholders with the opportunity to cast an advisory vote every three years to approve our executive compensation program (referred to as a "say-on-pay proposal"). At our annual meeting of stockholders held in November 2011, a substantial majority of the votes cast on the say-on-pay proposal at that meeting were voted in favor of the proposal. Our Compensation Committee believes this result affirms our stockholders' support of our approach to executive compensation and, thus, our Compensation Committee did not change its approach in making its executive compensation decisions after the 2011 annual meeting. Our Compensation Committee will continue to consider the outcome of our say-on-pay proposals when making future compensation decisions for our named executive officers.

Employment Agreements. After consultation with Towers Watson in 2012, our Compensation Committee approved new employment agreements, effective as of January 1, 2013, with each of our named executive officers. The employment agreement with Mr. Peters has a four-year term, and the employment agreements with each of our other named executive officers has a three-year term. In considering the appropriate terms of these employment agreements, our Compensation Committee focused on the increased duties and responsibilities of each executive following our 2012 listing on the NYSE, involved in managing and growing a publicly traded company. Each of these executives has served, and we expect will continue to serve, a major role in hiring, supervising and overseeing our employees, the transition and implementation of our self-management structure and our post-transition management to a publicly traded company. In particular, as part of and as a result of this transition to our listing on the NYSE, the role of Mr. Peters, as our Chief Executive Officer and President, has been significantly expanded on a number of levels. Mr. Peters will also continue to (a) successfully lead a strategy with a goal of seeking to consistently deliver attractive returns to stockholders; (b) oversee our NOI growth, our level of quality investment activity, the overall occupancy of our portfolio, our debt to total capitalization and our credit rating; (c) represent us and enhancing our reputation externally, including with tenants, investors, industry organizations and the media; (d) conduct regular communications with and responsiveness to our stockholders' inquiries; (e) focus on regular communications with the Board of Directors and committees; (f) focus on attention to governance matters and risk oversight; and (g) attract, develop and retain a highly skilled management team and motivating them to create long-term value for our stockholders. We believe that these employment agreements are important in helping us retain and promote the stability of our management team. A summary of the terms of these employment agreements are described below under "Employment Agreements."

Elements of our 2013 Compensation Program

In 2013, the key elements of compensation for our named executive officers were base salary, annual bonus and long-term equity incentive awards, as described in more detail below. In addition to these key elements, each employment agreement for our named executive officers provides for severance protection under certain circumstances, as discussed below.

Base Salary

Base salary provides the fixed portion of compensation for our named executive officers and is intended to reward core competence for each executive in their respective roles relative to skill, experience and contributions to us. In

determining the base salary levels for each of our named executive officers in connection with their respective employment agreements entered into on January 1, 2013, our Compensation Committee reviewed the market compensation data as prepared by Towers Watson in 2012, as described in our 2013 proxy statement filed on April 30, 2013. With the assistance of Towers Watson, our Compensation Committee conducted a competitive market assessment of the compensation levels of each of our named executive officers compared to survey data from the 2012 NAREIT Compensation Survey, as well as a peer group consisting of healthcare REITs and other REITs from a variety of sectors with total capitalization within a range of \$2.5 billion to \$5.0 billion. In the case of our Chief Executive Officer, Towers Watson reported to our Compensation Committee that Mr. Peters' total cash compensation proposed for 2013 (which consists of base salary and annual bonus) was competitive at about the market median based on both the Towers Watson selected peer companies and the 2012 NAREIT Compensation Survey, and his equity award value for 2012 was low relative to the market median.

Table of Contents

In the case of our other named executive officers, excluding our Chief Executive Officer, Towers Watson reported to our Compensation Committee that total direct compensation proposed for 2013 was below the median when compared to both the 2012 NAREIT Compensation Survey data and the proxy data available for the Towers Watson selected peer group at the time Towers Watson completed its review.

The peer group selected by Towers Watson in 2012 was comprised of Alexandria Real Estate Equities, Inc.; BioMed Realty Trust, Inc.; Brandywine Realty Trust; HCP, Inc.; Healthcare Realty Trust, Inc.; Health Care REIT, Inc., Medical Properties Trust, Inc.; Omega Healthcare Investors, Inc.; Senior Housing Properties Trust; and Ventas, Inc. Our Compensation Committee used this information from Towers Watson as a reference point in making its compensation decisions; however, it did not benchmark to a particular percentile within the Towers Watson selected peer group or otherwise target any element of compensation at a particular level or quartile within the Towers Watson selected peer group. Our Compensation Committee believes that the increased base salaries for 2013 reflected market competitive levels. However, in the case of Ms. Pruitt, our Compensation Committee determined that a higher increase was indicated because the market data was higher for the chief financial officer position.

Based on this information, in December 2012, our Compensation Committee determined that the base salary levels for our named executive officers would be increased for 2013 as follows:

| Executive | 2012 | 2013 | % Increase |
|--------------------|-----------|-----------|------------|
| Scott D. Peters | \$750,000 | \$800,000 | 7% |
| Kellie S. Pruitt | 300,000 | 350,000 | 17% |
| Mark D. Engstrom | 300,000 | 325,000 | 8% |
| Amanda L. Houghton | 250,000 | 275,000 | 10% |

As noted above under the “Compensation Consultant and Benchmarking,” with the assistance of FPL, our Compensation Committee conducted a review in 2013 of our executive compensation program for our four named executive officers, in the aggregate, compared to the top four named executive officers, in the aggregate, for the comparable peers. This review concluded that, in the aggregate, the base salaries of our named executive officers, was below the median compensation as compared to the top four named executive officers, in the aggregate, for the comparable peers. Nevertheless, our Compensation Committee determined that the base salary levels for our named executive officers would remain unchanged for 2014 because of the recent finalization at the beginning of 2013 of new employment agreements for each of our named executive officers.

Annual Bonus

Annual cash bonuses for our named executive officers are intended to reward and recognize contributions by our executives to our financial goals generally and our Compensation Committee’s assessment of individual executive contributions to us. As noted above, our Compensation Committee changed its approach in 2013 to provide that a portion of each executive’s annual cash incentive would be determined based on our performance against pre-established metrics. At the beginning of each performance year, our Compensation Committee determines specific performance metrics and related goals and an award opportunity range (expressed as multiples of base salary and corresponding to Threshold, Target and High levels of performance) for each of our named executive officers. Our Compensation Committee believes that the Target goals established by it are “stretch” (i.e., ambitious) goals, and, accordingly, (a) that strong performance is expected of an executive in order to achieve a pay out at a Target level, and (b) that superior performance is expected of an executive in order to achieve a payout above a Target level. For each of our named executive officers, 60% of the bonus is determined by our Compensation Committee based upon the Company’s performance metrics against pre-established standards, and 40% of the bonus is determined by our Compensation Committee based on its subjective assessment of the executive’s individual performance.

Performance Metrics. We have set forth below (a) a summary explanation of why we believe each performance metric is an important component of our pay-for-performance philosophy, (b) the performance goals determined by our Compensation Committee at the beginning of 2013, based on our projections, to evaluate each executive’s 2013 performance, and (c) the relative weighting of each performance metric.

Normalized FFO per share growth. Funds From Operations, or FFO, is a common measure of operating performance for REITs because FFO excludes, among other items, the effect of gains and losses from real estate sales and real estate depreciation and amortization in order to allow investors, analysts and management to compare operating

performance among companies and across time periods on a consistent basis. A REIT's FFO can have a significant impact on the trading price of its common stock and is, therefore, a significant contributor to Total Stockholder Returns, or TSR. For further description of Normalized FFO, see "Non-GAAP Financial Measures" below.

Net Acquisitions. We believe net acquisitions are important to our growth and future profitability. Net acquisitions is defined as gross acquisitions of real estate, less sales of properties and mortgage notes receivable.

Table of Contents

Same-property cash NOI growth. We believe same-property cash NOI is an important and widely-recognized measure of internal growth, which is the foundation for the cash flows that support our dividend and an important component of TSR. For further description of same-property cash NOI, see “Non-GAAP Financial Measures” below.

Debt to undepreciated assets. Debt to undepreciated assets reflects the strength of our balance sheet, which is fundamental to preserving stockholder value. A strong balance sheet positions us to continue to execute our acquisition strategy, which is important to our growth. This metric also prevents us from achieving FFO per share growth through inappropriate leverage.

Peer performance. TSR is the most direct measure of a company’s creation and preservation of stockholder value. This year this metric measures performance target as a 1-year TSR as compared to the SNL US REIT Healthcare Index as of the last trading day of the year. Due to our short duration as a publicly listed company, our Compensation Committee initially set the performance target as 1-year TSR. As time progresses, our Compensation Committee presently intends to also review TSR over three, five and ten-year periods. The TSR is measured as a percentile rank in each category as set forth below.

Factors considered in the assessment of individual performance for each executive include: implementation of targeted acquisition strategies; effective capital raising, promotion of the Company in the capital markets, and communication with investors; effectively managing and leasing our portfolio; and managing a strong balance sheet. Mr. Peters provides our Compensation Committee with recommendations for individual performance for each named executive officer (other than himself) based on his assessment of the executive’s achievements during the year. Our Compensation Committee assesses Mr. Peters’ performance based on his individual achievements to determine his individual performance score.

For 2013, our Compensation Committee rated the individual performance for each of (a) Mr. Peters and Mr. Engstrom as achieving results between the Target and High levels, and (b) Ms. Pruitt and Ms. Houghton as achieving results between the Threshold and Target levels. This assessment was not based on specifically proscribed criteria established at the beginning of 2013 but, rather, was based on a subjective determination by our Compensation Committee of (i) a combination of factors relevant to each executive’s position, and (ii) projections that were important to helping the Company achieve its short-term and long-term corporate objectives.

For Mr. Peters, our Compensation Committee considered the following individual achievements and the extent to which Mr. Peters: (i) successfully led the Company’s strategy, drove financial results and delivered solid returns to stockholders through internal growth and acquisitions while maintaining a strong balance sheet and improving our cost of capital; (ii) enhanced our franchise value through the communication to our tenants, the investor community and the media of our strengths and competitive advantages; and (iii) facilitated the achievement of the personal goals of all of our executive officers and driving excellence as a key component of our culture and organization.

For Ms. Pruitt, our Compensation Committee considered the following individual achievements and the extent to which Ms. Pruitt: (i) managed our liquidity and strengthened our balance sheet, including her role in the successful execution of our \$300 million debut bond issuance to help us achieve a lower cost long-term debt and better ladder our debt maturity schedule, and capital raising through the Equity ATM program; (ii) communicated with the credit rating agencies and our successful achievement of an upgraded rating from Baa3 to Baa2 from Moody’s to allow us to achieve approximately \$2.5 million of interest expense savings in 2014; and (iii) provided leadership in managing improvements in our accounting and finance departments that increased efficiency and helped position us for future growth.

For Mr. Engstrom, our Compensation Committee considered the following individual achievements and the extent to which Mr. Engstrom: (i) achieved the closing of \$398 million of acquisitions of high quality medical office buildings; (ii) established multiple new health system and new developer relationships, as well as expanded our relationships with our existing health systems and developers; and (iii) structured acquisitions to increase stockholder value and restructured a significant lease transaction with a key health system to transition the management of its buildings to our internal property management and leasing platform.

For Ms. Houghton, our Compensation Committee considered the following individual achievements and the extent to which Ms. Houghton: (i) drove industry leading same-property cash NOI for the portfolio ranging from 3.0% to 3.4% per quarter; (ii) advanced our in-housing initiatives by bringing an additional 3.2 million square feet of GLA of our

properties onto our in-house asset management platform (allowing us to achieve approximately \$2 million in fee savings); and (iii) supervised marketing and leasing of our nationwide portfolio, including bringing seven new markets onto our in-house leasing platform.

The following table sets forth the performance metrics and goals approved by our Compensation Committee at the beginning of 2013 to measure 2013 corporate performance, the relative weighting for each performance metric, and the actual performance level achieved:

| Metric | Weighting | Threshold | Target | High | Actual | % Awarded |
|---------------------------------|-----------|---------------|---------------|---------------|---------------|-----------|
| Normalized FFO per share growth | 20% | 5% | 8 | % 10% | 5% | 76 % |
| Net acquisitions | 20% | \$200 million | \$300 million | \$400 million | \$398 million | 133 % |
| Same-property cash NOI growth | 30% | 2.0% | 3.0% | 3.5% | 2.9 | % 90 % |
| Debt to undepreciated assets | 10% | 40% | 35% | 30% | 38% | 92 % |
| Peer performance | 20% | 25% | 50% | 75% | >75% | 100 % |

Based on these performance results, our Compensation Committee determined that each of our named executive officers would be awarded 98% (relative to a Target level of 60%) for the Company performance component of the cash bonus program. After factoring in the assessment of each executive's individual performance as described above, our Compensation Committee awarded the cash bonus amounts reflected in the table below.

The following table sets forth the range of the 2013 bonus opportunity for each of our named executive officers and the actual bonus amounts awarded to each executive for their respective 2013 performance:

| Executive | Range of 2013 Bonus Opportunities (as a % of Base Salary) | | | 2013 Bonus Earned | |
|--------------------|--|--------|------|--------------------|-----------------|
| | Threshold | Target | High | Actual % of Target | Amount |
| Scott D. Peters | 100% | 200% | 300% | 81% | (1) \$1,300,000 |
| Kellie S. Pruitt | 50% | 100% | 150% | 86% | 300,000 |
| Mark D. Engstrom | 50% | 100% | 150% | 108% | 350,000 |
| Amanda L. Houghton | 50% | 100% | 150% | 91% | 250,000 |

As noted above, our Compensation Committee believes that a significant portion of Mr. Peters' incentive compensation should be in the form of equity to increase the alignment of his interests with those of our (1) stockholders. Accordingly, our Compensation Committee reduced the portion of Mr. Peters' 2013 annual incentive that would otherwise have been paid in cash and increased the portion of his 2013 annual incentive awarded in equity as described below.

Long-Term Equity Incentives

In 2013, our named executive officers participated in our long-term incentive program. The objectives of our long-term incentive program are to promote achievement of performance goals, to focus our executive officers on creating long-term value for the our stockholders, and to assist us in attracting and retaining key executives. Like our annual incentive program, long-term incentive awards for the applicable year are based on our achievement of pre-established corporate goals, and our executives' achievement of individual goals for the performance year. For each executive, a range of potential award values, expressed in each case as a dollar amount, is established at the beginning of the applicable performance year corresponding to three levels of performance (Threshold, Target, and High) for long-term incentive compensation.

Performance Metrics. At the beginning of 2013, our Compensation Committee also approved the performance metrics for determining the levels of the 2013 long-term equity incentive awards. Set forth below is a summary of the performance metrics and the rationale as to why our Compensation Committee believes each performance metric is an important component of our pay-for-performance philosophy.

Total Stockholder Returns. TSR is the most direct measure of a company's creation and preservation of stockholder value. Given our short duration as a publicly listed company, our Compensation Committee initially set our performance target as a 1-year TSR as compared to the 1-year SNL US REIT Healthcare Index. As time progresses, our Compensation Committee presently intends to also review TSR over 3-year, 5-year and 10-year periods for purposes of the long-term equity incentive awards.

Proactive Asset Management. Proactive asset management is an important tool to drive internal growth, mitigate risk and preserve long-term stockholder value. We measure internal growth by evaluating same-property cash NOI, as

defined above. Our expertise in working with tenants to improve the performance of our assets enhances the value of our assets and mitigates the risk of loss and asset impairment. We also create and preserve stockholder value by proactively leasing our vacant space, managing lease expirations and renewals, monitoring tenant compliance and performance, allocating capital, and engaging in redevelopment opportunities.

Table of Contents

Financial Flexibility. The strength of our balance sheet and our available liquidity demonstrate our ability to generate sufficient earnings to meet our debt obligations and compete successfully for new acquisitions. A strong balance sheet is fundamental to preserving our stockholder value. In addition, a strong balance sheet enables us to successfully execute our acquisition strategy, which is an important component of long-term value creation for our stockholders. Positive ratings movement is an external indicator of the strength of our balance sheet and has a direct impact on our cost of capital through a reduction in interest expense. Our ability to access the various capital markets and our efficiency in accessing those markets are important to our long-term stockholder value because our overall cost of capital is a critical component of our ability to improve earnings with accretive acquisitions.

Franchise value. We believe the talent of our personnel, processes and systems, and our risk management program both help protect our stockholder value over the long-term and mitigate risk in the Company. Our reputation and the values we consistently demonstrate can enhance our ability to be the landlord of choice for our tenants, compete for new acquisitions, reduce our cost of capital and improve the implied valuation of our equity, each of which has a positive impact on long-term stockholder value. Ensuring that we have the appropriate infrastructure to manage our growth and position ourselves for future opportunities to grow, while preserving our reputation for reliability, is an important component of our long-term stockholder value.

For Mr. Peters, 60% of the value of his long-term incentive compensation award is based on corporate performance goals set by our Compensation Committee at the beginning of the performance year, and 40% of the value of his long-term compensation award is based on individual performance achievements as determined by our Compensation Committee on a discretionary basis at the end of the performance year. For Ms. Pruitt, Mr. Engstrom and Ms. Houghton, 40% of the value of their long-term incentive compensation awards are determined by corporate performance goals set by our Compensation Committee, and 60% of the value of their long-term incentive compensation awards are based on their individual performance achievements as determined by our Compensation Committee on a discretionary basis at the end of the performance year. Our Compensation Committee determined it would be appropriate to have a larger percentage of Mr. Peters' incentive opportunity be based on the performance of the Company as a whole in light of his position as our Chief Executive Officer. The performance goals for 2013, as well as the achievement level for each goal, were as follows:

| Company performance | Weighting | Threshold | Target | High | Actual | |
|--|-----------|-----------|---|------|--------|-----------|
| 1-year TSR v. peers (expressed in percentile) | 50 | % | 25% | 50% | 75% | >75% |
| Improve value of portfolio-proactive asset management | 30 | % | Subjective - At Compensation Committee's Discretion | | | See below |
| Financial flexibility (leverage, access to capital, ratings) | 10 | % | Subjective - At Compensation Committee's Discretion | | | See below |
| Franchise Value | 10 | % | Subjective - At Compensation Committee's Discretion | | | See below |

Our Compensation Committee considered the personal achievements of each executive as set forth above under "Annual Bonus" for the individual performance criteria, and the following relative to the three subjective components of the incentive criteria for Company performance:

Improve value of portfolio - proactive asset management - Our Compensation Committee determined the Company's performance was between the Target and High levels. Our Compensation Committee considered the following accomplishments in making its determination:

- We increased our same-property cash NOI by 3% or more each quarter, which exceeded the same-property cash NOI growth of the medical office building portfolios of the healthcare REIT peer group for each quarter in 2013.

- Our tenant retention was approximately 85% by GLA, the highest among the healthcare REIT peer group.

- We grew our occupancy approximately 70 basis points from 90.5% in the first quarter of 2013 to 91.2% in the fourth quarter of 2013, while the medical office building portfolios of the healthcare REIT peer group, on average, remained flat.

- We transitioned 3.2 million square feet of our properties onto our in-house asset management platform (allowing us to achieve approximately \$2 million in fee savings) and brought seven new markets onto our in-house leasing platform.

Financial flexibility (leverage, access to capital, ratings) - Our Compensation Committee determined that the Company's performance was at the Target level. Our Compensation Committee considered the following

accomplishments in making its determination:

• We successfully launched a \$250 million Equity ATM program and issued approximately \$250 million of common stock at an average price of \$11.22 per share.

• We successfully executed our debut \$300 million 10-year bond issuance while interest rates were at historically low levels in 2013, which helped us achieve a lower cost of long-term debt and better ladder our debt maturity schedule.

• We were added to the Russell Global and Russell 1000 Indexes.

Table of Contents

All of the shares of our Class B-2 and B-3 common stock, respectively, converted to shares of our Class A common stock, our sole outstanding class of common stock. As a result, our liquidity more than doubled as all of our outstanding shares of common stock are now eligible to trade on the NYSE.

At year-end, we had \$613 million of liquidity and net debt to annualized adjusted EBITDA of 5.3x, one of the lowest among our healthcare REIT peer group.

We achieved an upgraded credit rating of Baa2 from Baa3 by Moody's, allowing us to achieve approximately \$2.5 million of interest expense savings in 2014.

Franchise Value - Our Compensation Committee determined that the Company's performance was at the Target level. Our Compensation Committee considered the following accomplishments in making its determination:

- Established five new health system relationships and expanded our relationships with five of our existing health systems.

- Established three new developer relationships and expanded our relationships with two of our existing developer relationships.

- Our 2013 acquisitions expanded our presence in our key markets of Atlanta, Dallas, Denver and Pittsburgh, and established new key markets in Austin and South Florida.

- Increased our investment banking equity analyst coverage from three analysts to eight analysts covering us as of the end of the year.

- Established new fixed income investor relationships with our bond issuance and achieved analyst coverage from two investment banking fixed income analysts.

- Expanded our in-house property management platform by 3.2 million square feet of GLA and brought seven of our existing markets onto our in-house leasing platform.

Based on these performance results, our Compensation Committee determined that each of our named executive officers would be awarded 100% (relative to a Target level of 60% for Mr. Peters and 40% for the other named executive officers) for the Company performance component of the long-term incentive program. After factoring in the assessment of each executive's individual performance as described above, our Compensation Committee awarded the equity grant values reflected in the table below.

The following table sets forth the range of the 2013 long-term incentive opportunity for each of our named executive officers and the actual equity grant levels awarded for each executive for their respective 2013 performance.

| Executive | Threshold | Target | High | Actual % of Target | Amount |
|--------------------|-------------|-------------|-------------|--------------------|-------------------|
| Scott D. Peters | \$1,400,000 | \$2,000,000 | \$3,000,000 | 118% | \$(1) \$2,361,600 |
| Kellie S. Pruitt | 300,000 | 400,000 | 500,000 | 80% | 319,800 |
| Mark D. Engstrom | 300,000 | 400,000 | 500,000 | 98% | 393,600 |
| Amanda L. Houghton | 300,000 | 400,000 | 500,000 | 80% | 319,800 |

As noted above, our Compensation Committee believes that a significant portion of Mr. Peters' incentive compensation should be in the form of equity to increase the alignment of his interests with those of our stockholders and, accordingly, it reduced the portion of his 2013 annual incentive that would otherwise have been paid in cash and increased the portion of his 2013 annual incentive awarded in equity.

Accordingly, each of our named executive officers received an award of restricted stock in January 2014, with the number of shares subject to each award being the grant date value set forth in the table above, divided by \$9.84, which was the closing price of our stock on the grant date. The grant to Mr. Peters was 25% vested on the grant date, and the remainder of the grant vests in three annual installments. The grant to each of our other named executive officers vest 100% on the third anniversary of the grant date. In accordance with SEC rules, these grants will be reflected in the compensation tables of next year's proxy statement as compensation to each executive in 2014.

Table of Contents

January 2013 Grant to Mr. Peters

As set forth above, Mr. Peters was awarded a grant of restricted stock in connection with his entering into his new employment agreement with us. Mr. Peters' grant was 25% vested on the grant date, and the remainder of the grant vests in three annual installments. As reported in last year's proxy statement, each of our other named executive officers received grants of restricted stock in December 2012 in connection with their new employment agreements. Our Compensation Committee determined that these grants were appropriate for the reasons set forth above under "Employment Agreements" and to provide an additional retention incentive for these executives.

May 2012 Awards of "Founders" LTIP Units

In May 2012, our executives received grants of LTIP units in our operating partnership, Healthcare Trust of America Holdings, LP, in order to establish an equity position similar to "founders" shares in the Company to incentivize future performance. Conceptually, the program was designed to incentivize future performance after our initial stockholders achieved liquidity at a specified level of return above \$10.75 per share on their initial \$10.00 per share investment. Specifically, these grants to our executives and other key employees under the LTIP program are intended to: (1) incentivize and reward future performance by our executives and other employees selected to participate, where such performance results in added value to the Company and our stockholders, in the short, mid, and long term; (2) retain key executive personnel; (3) further align the interests of our executives with those of our stockholders; and (4) be consistent and competitive with our peers in the public marketplace.

The LTIP program is performance-based and subject to achieving or exceeding objective benchmarks over a four-year period, as discussed below. The rationale of the program is to provide a structure that our Compensation Committee believes fairly rewards our executive leadership team with appropriate deference to the interests of our stockholders. This compensation program is aimed at promoting and rewarding risk-managed decision-making that we believe is in the best interests of the Company and our stockholders.

In general, none of the LTIP units will vest unless our per-share stock price is at least \$10.75 per share or more, and the full number of LTIP units subject to an LTIP award will vest only if our per-share stock price is \$13.00 per share or more. (For purposes of the LTIP program, our stock price is measured based on the average closing price over a period of 20 consecutive trading days). Our Compensation Committee awarded these grants in 2012 at levels it determined in its judgment to provide appropriate additional incentives to our executives to continue our growth and create value for our stockholders and to continue their employment with us. As a result of significant increases in our stock price during 2013, approximately 97% of each of our named executive officers' LTIP units that are tied to stock price targets vested during the year.

LTIP units are a special class of partnership interests under our operating partnership. Each LTIP unit awarded is deemed equivalent to an award of one share of our common stock under the Amended and Restated 2006 Incentive Plan, or the 2006 Incentive Plan, reducing availability for other equity awards on a one-for-one basis. We do not receive a tax deduction for the value of any LTIP units granted to our employees. In March 2013, the LTIP units achieved full parity with common units of our operating partnership. As of December 2013, no vested LTIP units have been converted into our common stock.

Severance Benefits. Our Compensation Committee believes that severance provisions in our named executive officers' employment agreements can be a valuable tool in attracting and retaining key executive officers. Accordingly, we provide such protections for our named executive officers under their respective employment agreements. Our Compensation Committee determines the level of severance benefits to provide to each named executive officer on a case-by-case basis and, in general, we consider these severance protections an important part of an executive's compensation and consistent with competitive market practices. As described in more detail under "Potential Payments Upon Termination or Change in Control" below, our named executive officers would be entitled under their employment agreements to severance benefits in the event of a termination of employment by us without "Cause" or by the executive for "Good Reason," as defined in the applicable employment agreement.

The amounts in this column represent discretionary annual bonuses paid to each executive for 2012 and 2011. In addition, Mr. Peters has had the opportunity to elect to receive a portion of his grants of restricted shares awarded on or before June 6, 2012 in the form of restricted cash awards in order to pay state and federal taxes on the vesting of restricted shares. Such amounts vested in full on June 6, 2012 and no amounts remain unvested. The amount reported in this column for Mr. Peters for 2012 and 2011 represents the amount of these restricted cash awards that vested during the respective year.

Reflects the aggregate grant date fair value of awards granted to the named executive officers in the reported year, including the May 2012 one-time LTIP awards, as more fully described above, determined in accordance with Financial Accounting Standards Board Accounting Standard Codification 718 Stock Compensation, or ASC 718. ASC 718 establishes accounting and reporting standards for LTIP awards. Applying such standards and with the assistance of our independent valuation specialists, Equity Methods, we utilized a Monte Carlo simulation to calculate the grant date fair value of the awards of \$5.62 per award. The amounts reported in this column as to the LTIP awards represent the value assuming that the maximum performance levels are achieved (other than an award of LTIP units to Mr. Peters that would vest in connection with a change in control referred to in note (5) below). For more information regarding the grant date fair value of awards of restricted stock and LTIP units, see Note 11, Stockholders' Equity and Partners' Capital, of the Company's financial statements filed with the SEC as part of the 2013 Annual Report. This column does not include any amount for awards that Mr. Peters elected to receive in the form of cash as described in note (2) above.

Amounts in this column for 2013 include payments for 100% of the premiums of healthcare coverage under our group health plan in the amount of \$14,168 for each of the named executive officers and 401K match in the amount of \$10,200 for Ms. Pruitt, Mr. Engstrom and Ms. Houghton. Amounts in this column for 2012 include: (1) payments for 100% of the premiums of healthcare coverage under our group health plan for each of the named executive officers; and (2) dividends on unvested stock awards granted prior to the listing on the NYSE. | Amanda L. Houghton | 40,000 | (4) 393,600 | 5,320 | 52,349 |

(1) For the purposes of this table the market value of unvested restricted common stock is based on the closing price of our Class A common stock on the NYSE as of December 31, 2013, which was \$9.84.

Reflects one-time LTIP awards issued to executives in May 2012 in anticipation of the listing on the NYSE on June 6, 2012. The vesting of these awards are contingent on reaching stock prices ranging from \$10.75 to \$13.00 per share within a 4-year period. This column reflects the maximum number of outstanding units that would vest (2) upon achievement of a \$13.00 stock price. In the case of Mr. Peters, the amount also includes 450,000 LTIP units eligible to vest only if a change in control occurs prior to May 16, 2015. The market value represents the number of units reported in the table multiplied by the closing price of our Class A common stock on the NYSE as of December 31, 2013, which was \$9.84.

- Reflects (1) 187,500 restricted shares of our common stock, which vest and become non-forfeitable in equal installments on each of January 1, 2014, January 1, 2015 and January 1, 2016, and (2) 50,000 restricted shares of our common stock, which vest and become non-forfeitable on December 24, 2014, provided Mr. Peters is employed by us on each such vesting date.
- (3)
- (4) Reflects restricted shares of our common stock, which vest and become non-forfeitable on December 24, 2015, provided the executive is employed by us on such vesting date.

(2) Reflects LTIP units that vested pursuant to the achievement of the performance objectives under each respective award agreement.

(3) The value realized for restricted stock awards was based upon the closing price of our common stock on the day prior to the vesting date. The market value per vested LTIP unit is assumed to be the closing market price of our Class A common stock on the NYSE as of December 31, 2013, which was \$9.84 (as these LTIP units have not yet been converted into shares of our common stock).

Potential Payments Upon Termination or Change in Control

Summary of Potential Payments Upon Termination of Employment. As mentioned above, we are a party to an employment agreement with each of our named executive officers, which provide certain benefits to each executive in the event of his or her termination of employment with us under certain conditions. In each case, the amount of the benefits varies depending on the reason for the termination. Following is a description of the benefits provided under each executive's employment agreement as in effect in December 2013.

Termination without Cause; Resignation for Good Reason. If we terminate the executive's employment without Cause, or he or she resigns for Good Reason (as such terms are defined in the applicable employment agreement), the applicable executive will be entitled to the following benefits:

A cash payment equal to the product of (a) the executive's target bonus for the year in which the termination occurs, and (b) a fraction, the numerator of which is the number of days in the current fiscal year through the date of termination, and the denominator of which is 365.

A lump sum cash severance payment equal to:

• in the case of Mr. Peters, three times the sum of (1) his then-current base salary and (2) his target bonus for the fiscal year in which the date of termination occurs;

• in the case of Ms. Pruitt, two times the sum of (1) her then-current base salary and (2) her target bonus for the fiscal year in which the date of termination occurs; and

• in the case of Mr. Engstrom and Ms. Houghton, two times his or her then-current base salary.

Continued healthcare coverage under COBRA for 18 months in the case of Mr. Peters, or six months in the case of Ms. Pruitt, Mr. Engstrom and Ms. Houghton with all premiums paid by us.

• Immediate vesting of the executive's then-outstanding and unvested equity awards (other than the LTIP units).

In each case, the executive's right to receive the severance benefits described above is contingent on the executive providing a general release of claims in favor of the Company.

Disability. If we terminate the executive's employment by reason of his or her disability, the executive will be entitled to continued healthcare coverage under COBRA, with all premiums paid by us, for 18 months in the case of Mr. Peters, or six months in the case of Ms. Pruitt, Mr. Engstrom and Ms. Houghton. In addition, unvested equity awards (other than the LTIP units) will become immediately vested.

Death. In the event of a termination due to death, unvested equity awards (other than the LTIP units) will become immediately vested.

LTIP Units. If a named executive officer's employment is terminated and the executive would be entitled to cash severance in the circumstances as described above, or if the executive's employment terminates due to his or her death or disability, the executive's LTIP units will remain eligible to vest based on our stock price levels for up to one year following the termination.

Non-Compete Agreement. Each of our named executive officers entered into a non-compete and non-solicitation agreement with us. These agreements generally require the executives to refrain from competing with us within the United States and soliciting our customers, vendors, or employees during their employment with us through the occurrence of a change in control (or such shorter period as required by applicable law). The agreements also limit each executive's ability to disclose or use any of our confidential business information or practices.

The following table summarizes the value of the termination payments and benefits that each of our named executive officers would receive if he or she had terminated employment on December 31, 2013 under the circumstances shown. The amounts shown in the tables do not include accrued but unpaid salary, earned annual bonus for 2013, or payments and benefits to the extent they are provided on a non-discriminatory basis to salaried employees generally upon termination of employment.

Summary of Potential Payments upon a Change in Control. Other Change in Control Provisions. If a change in control of the Company occurs, Mr. Peters would be entitled under his employment agreement to terminate his employment for any reason within 90 days after the change in control and receive the severance benefits described above. Our Compensation Committee does not presently intend to include this change in control provision set forth in Mr. Peters' employment agreement in future employment agreements with any newly hired executives.

Director Compensation

Our independent Directors receive compensation pursuant to the terms of our 2006 Independent Directors Compensation Plan, a sub-plan of our 2006 Incentive Plan, as amended. In 2010, the Compensation Committee reviewed the compensation payable to our independent Directors. In conducting this review, the Compensation Committee took into account, among other things, the substantial time and effort required of our Directors, the value to the Company of retaining experienced Directors with a history at the Company, and our overall financial strength and growth, as well as the results of a 2008 NAREIT survey regarding director compensation and a 2009 report from Towers Watson. On May 20, 2010, based upon the recommendation of the Compensation Committee, our Board of Directors approved certain amendments to our independent director compensation plan. In April 2014, based upon the recommendation of the Compensation Committee, our Board of Directors approved a further amendment to our 2006 Independent Director Compensation Plan to increase the amount of restricted shares of our common stock for new directors upon initial election, from 5,000 to 7,500 shares. Our current director compensation policy is as follows:

Annual Retainer. Our independent Directors receive an annual retainer of \$50,000.

Annual Retainer, Committee Chairman. The chairman of the Audit Committee receives an annual retainer of \$15,000, and the chairman of each of the Compensation Committee, the Nominating and Corporate Governance

Committee, the Investment Committee and the Risk Management Committee receive an annual retainer of \$12,500. These retainers are in addition to the annual retainer payable to all independent board members for Board service.

Table of Contents

Meeting Fees. Our independent Directors receive \$1,500 for each Board meeting attended in person or by telephone and \$1,000 for each committee meeting attended in person or by telephone. An additional \$500 is paid to the committee chair for each committee meeting attended in person or by telephone. If a Board meeting is held on the same day as a committee meeting, the independent Directors will receive a fee for each meeting attended.

Equity Compensation. As of April 2014, upon initial election to our Board of Directors, an independent Director receives an award of 7,500 restricted shares of our common stock (an increase as of April 2014 from 5,000 restricted shares of common stock). Upon his or her re-election to the Board of Directors at an annual meeting of our stockholders, an independent Director receives an award of 7,500 restricted shares. The awards of restricted stock granted to our independent Directors vest 20% of the shares on the grant date, with the remaining 80% of the shares vesting in equal installments on each anniversary thereafter over four years from the date of grant.

Director Stock Purchase. In May 2012, the Board of Directors of the Company approved a policy whereby each existing member of the Board of Directors at that time shall be required to purchase (subject to the Company's Insider Trading Policy and applicable securities laws) by no later than May 16, 2014 and hold not less than 25,000 shares in the aggregate of the Company's common stock (independent of all grants from the Company) for so long as each such member of the Board of Directors remains a member of the Board of Directors of the Company. As of April 29, 2014, the members of the Board of Directors have acquired and hold in the aggregate 163,000 shares of common stock in the Company.

Expense Reimbursement. We reimburse our Directors for reasonable out-of-pocket expenses incurred in connection with attendance at meetings, including committee meetings, of our Board of Directors. Additionally, our Directors are reimbursed for expenses incurred in connection with attending continuing education programs to assist them in remaining abreast of developments in corporate governance and other critical issues relating to the operation of public company boards.

Independent Directors do not receive other benefits from us. Mr. Peters, who is employed by us, does not receive any compensation in connection with his service as a Director. The compensation paid to Mr. Peters is presented above under "Executive Compensation."

EQUITY COMPENSATION PLANS

The following table gives information as of December 31, 2013 about the common stock that may be issued under the 2006 Incentive Plan.

| Plan Category (1) | Number of Securities to be Issued Upon Exercise of Outstanding Options, Warrants and Rights (2) | Weighted-Average Exercise Price of Outstanding Options, Warrants and Rights | Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans |

| Total | 2,897,200 | — | 5,101,800 |

(1) The 2006 Incentive Plan was initially approved by our stockholders. In February 2011, our Board of Directors approved an increase in the shares that may be issued under the plan from 2,000,000 to 10,000,000. This increase was not approved by stockholders. Accordingly, the shares under the 2006 Incentive Plan that were approved by stockholders are reflected in the table above under “Equity compensation plans approved by security holders,” and the remaining shares under the plan are reflected in the table above under “Equity compensation plans not approved by security holders.”

(2) Does not include 641,000 outstanding restricted shares granted under the 2006 Incentive Plan.

Amended and Restated 2006 Incentive Plan

We have adopted the 2006 Incentive Plan, which we use to attract and retain qualified independent directors, employees, officers and consultants providing services to us who are considered essential to our long-term success by offering these individuals an opportunity to participate in our growth through awards in the form of, or based on, our common stock.

The 2006 Incentive Plan provides for the granting of awards to participants in the following forms to those independent directors, employees, and consultants selected by the plan administrator for participation in the 2006 Incentive Plan:

- options to purchase shares of our common stock;
- stock appreciation rights, which give the holder the right to receive the difference between the fair market value per share on the date of exercise over the grant price;
- performance awards, which are payable in cash or stock upon the attainment of specified performance goals;
- restricted stock, which is subject to restrictions on transferability and other restrictions set by the committee;
- restricted stock units, which give the holder the right to receive shares of our common stock, or the equivalent value in cash or other property, in the future;
- deferred stock units, which give the holder the right to receive shares of our common stock, or the equivalent value in cash or other property, at a future time;
- dividend equivalents, which entitle the participant to payments equal to any dividends paid on the shares of our common stock underlying an award; and/or
- other stock based awards in the discretion of the plan administrator, including unrestricted stock grants and units of our operating partnership.

Any such awards will provide for exercise prices, where applicable, that are not less than the fair market value of our common stock on the date of the grant. Any shares issued under the incentive stock plan will be subject to the ownership limits contained in our charter.

Our Board of Directors or a committee of our independent Directors administers the 2006 Incentive Plan, with sole authority to select participants, determine the types of awards to be granted and all of the terms and conditions of the awards, including whether the grant, vesting or settlement of awards may be subject to the attainment of one or more

performance goals. No awards will be granted under the plan if the grant, vesting and/or exercise of the awards would jeopardize our qualification as a REIT under the Internal Revenue Code or otherwise violate the ownership and transfer restrictions imposed under our charter.

Table of Contents

The maximum number of shares of our common stock that may be issued upon the exercise or grant of an award under the 2006 Incentive Plan is 10,000,000. In the event of a nonreciprocal corporate transaction that causes the per share value of our common stock to change, such as a stock dividend, stock split, spin-off, rights offering, or large nonrecurring cash dividend, the share authorization limits of the incentive stock plan will be adjusted proportionately. Except as described in the next sentence, shares that are subject to or underlie awards which expire or for any reason are cancelled or terminated, are forfeited, fail to vest, or for any other reason are not paid or delivered under the 2006 Incentive Plan will again be available for subsequent awards under the plan. Shares that are exchanged by a participant or withheld by the Company to pay the exercise price of an award granted under the 2006 Incentive Plan, as well as any shares exchanged or withheld to satisfy the tax withholding obligations related to any award, will not be available for subsequent awards under the plan. To the extent that an award is settled in cash or in a form other than shares, the shares that would have been delivered had there been no such cash or other settlement will again be available for subsequent awards under the 2006 Incentive Plan. To the extent that shares are delivered pursuant to the exercise of a stock appreciation right or stock option granted under the 2006 Incentive Plan, the number of underlying shares as to which the exercise related shall be counted against the applicable share limits, as opposed to only counting the shares actually issued. By way of example only, if a stock appreciation right relates to 100,000 shares and is exercised at a time when the payment due to the participant is 15,000 shares, 100,000 shares shall be charged against the applicable share limits with respect to such exercise.

Unless otherwise provided in an award certificate or any special plan document governing an award, upon the termination of a participant's service due to death or disability (as defined in the plan), (i) all of that participant's outstanding options and stock appreciation rights will become fully vested and exercisable, (ii) all time-based vesting restrictions on that participant's outstanding awards will lapse, and (iii) the payout level under all of that participant's outstanding performance-based awards will be determined and deemed to have been earned based upon an assumed achievement of all relevant performance goals at the "target" level, and the awards will payout on a pro rata basis, based on the time within the performance period that has elapsed prior to the date of termination.

Unless otherwise provided in an award certificate or any special plan document governing an award, upon the occurrence of a change in control of the Company (as defined in the plan) in which awards are not assumed by the surviving entity or otherwise equitably converted or substituted in connection with the change in control in a manner approved by the Compensation Committee or our Board of Directors: (i) all outstanding options and stock appreciation rights and other outstanding awards in the nature of rights that may be exercised will become fully vested and exercisable; (ii) all time-based vesting restrictions on outstanding awards will lapse as of the date of termination; and (iii) the payout level under outstanding performance-based awards will be determined and deemed to have been earned as of the effective date of the change in control based upon an assumed achievement of all relevant performance goals at the "target" level, and the awards will payout on a pro rata basis, based on the time within the performance period that has elapsed prior to the change in control. In addition, with respect to awards assumed by the surviving entity or otherwise equitably converted or substituted in connection with a change in control, if within one year after the effective date of the change in control, a participant's employment is terminated without cause or the participant resigns for good reason (as such terms are defined in the plan), then: (i) all of that participant's outstanding options, stock appreciation rights and other awards in the nature of rights that may be exercised will become fully vested and exercisable; (ii) all time-based vesting restrictions on that participant's outstanding awards will lapse as of the date of termination; and (iii) the payout level under all of that participant's performance-based awards that were outstanding immediately prior to effective time of the change in control will be determined and deemed to have been earned as of the date of termination based upon an assumed achievement of all relevant performance goals at the "target" level, and the awards will payout on a pro rata basis, based on the time within the performance period that has elapsed prior to the date of termination.

The 2006 Incentive Plan will automatically expire on the tenth anniversary of the date on which it is adopted, unless extended or earlier terminated by the Board of Directors. The Board of Directors may terminate the plan at any time, but such termination will have no adverse impact on any award that is outstanding at the time of such termination. The Board of Directors may amend the plan at any time, but any amendment would be subject to stockholder approval if, in the reasonable judgment of the board, stockholder approval would be required by any law, regulation or rule

applicable to the plan. No termination or amendment of the plan may, without the written consent of the participant, reduce or diminish the value of an outstanding award determined as if the award had been exercised, vested, cashed in or otherwise settled on the date of such amendment or termination. The Board of Directors may amend or terminate outstanding awards, but those amendments may require consent of the participant and, unless approved by the stockholders or otherwise permitted by the anti-dilution provisions of the plan, the exercise price of an outstanding option may not be reduced, directly or indirectly, and the original term of an option may not be extended.

Table of Contents

Under Section 162(m) of the Code, a public company generally may not deduct compensation in excess of \$1 million paid to its Chief Executive Officer and certain other executive officers, although there is an exemption for “performance-based compensation” that meets certain requirements under Section 162(m). Awards granted under the plan currently would not satisfy these requirements. In order for awards granted under the plan to be exempt, the 2006 Incentive Plan must be amended to comply with the exemption conditions and be resubmitted for approval by our stockholders. As a qualifying REIT, the Company does not pay federal income tax; therefore, the unavailability of the Section 162(m) compensation deduction to these amounts did not result in any increase in the Company’s federal income tax obligations and, accordingly, the Compensation Committee has not adopted a policy requiring all compensation to be deductible.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Conflicts of Interest

Our independent Directors have an obligation to function on our behalf in all situations in which a conflict of interest may arise and have a fiduciary obligation to act in the best interest of our stockholders. However, we cannot assure you that the independent Directors will be able to eliminate or reduce the risks related to these conflicts of interest. Some of these conflicts of interest and restrictions and procedures we have adopted to address these conflicts are described below.

Interests in Our Investments

We are permitted to make or acquire investments in which our Directors, officers or stockholders or any of our or their respective affiliates have direct or indirect pecuniary interests. However, any such transaction in which our Directors or officers or any of their respective affiliates has any interest would be subject to the restrictions and procedures described below.

Related Person Transactions

In order to reduce or eliminate certain potential conflicts of interest, our charter contains restrictions and conflict resolution procedures relating to transactions we enter into with our Directors or their respective affiliates. These restrictions and procedures include, among others, the following:

We will not purchase or lease any asset (including any property) in which any of our Directors or officers or any of their affiliates has an interest without a determination by a majority of our Directors, including a majority of our independent Directors, not otherwise interested in such transaction that such transaction is fair and reasonable to us and at a price to us no greater than the cost of the property to such director or directors or officer or officers or any such affiliate, unless there is substantial justification for any amount that exceeds such cost and such excess amount is determined to be reasonable. In no event will we acquire any such asset at an amount in excess of its appraised value.

We will not sell or lease assets to any of our Directors or officers or any of their affiliates unless a majority of our Directors, including a majority of our independent Directors, not otherwise interested in the transaction determine the transaction is fair and reasonable to us, which determination will be supported by an appraisal obtained from a qualified, independent appraiser selected by a majority of our independent Directors.

We will not make any loans to any of our Directors or officers or any of their affiliates (other than loans to our wholly owned subsidiaries). In addition, any loans made to us by our Directors or officers or any of their affiliates must be approved by a majority of our Directors, including a majority of the independent Directors, not otherwise interested in the transaction as fair, competitive and commercially reasonable, and no less favorable to us than comparable loans between unaffiliated parties.

We will not invest in any joint ventures with any of our Directors or any of their affiliates unless a majority of our Directors, including a majority of our independent Directors, not otherwise interested in the transaction determine the transaction is fair and reasonable to us and on substantially the same terms and conditions as those received by other joint ventures.

Table of Contents

Our Board of Directors recognizes that transactions between us and any of our Directors, executive officers and significant stockholders can present potential or actual conflicts of interest and create the appearance that our decisions are based on considerations other than the best interests of the Company and our stockholders. Therefore, as a general matter and consistent with our charter and code of ethics, it is our preference to avoid such transactions. Nevertheless, we recognize that there are situations where such transactions may be in, or may not be inconsistent with, the best interests of the Company and our stockholders. Accordingly, in addition to the restrictions and conflict resolution procedures described above and as set forth in our charter, our Board of Directors has adopted a “Related Person Transactions Policy” which provides that the Nominating and Corporate Governance Committee of our Board of Directors will review all transactions in which we are or will be a participant and the amount involved exceeds \$120,000 if a related person had, has or will have a direct or indirect material interest in such transaction. Any such potential transaction is required to be reported to our Nominating and Corporate Governance Committee for their review. Our Nominating and Corporate Governance Committee will only approve or ratify such related person transactions that are (i) in, or are not inconsistent with, the best interests of us and our stockholders, as the Nominating and Corporate Governance Committee determines in good faith, (ii) on terms comparable to those that could be obtained in arm’s length dealings with an unrelated third person, and (iii) approved or ratified by a majority of the disinterested members of the Nominating and Corporate Governance Committee.

In making such a determination, the Nominating and Corporate Governance Committee is required to consider all of the relevant and material facts and circumstances available to it including (if applicable, and without limitation) the benefits to us of the transaction, the ongoing impact of the transaction on a Director’s independence, the availability of other sources for comparable products or services, the terms of the transaction, and whether the terms are comparable to the terms available to unrelated third parties generally. A member of the Nominating and Corporate Governance Committee is precluded from participating in any review, consideration or approval of any transaction with respect to which the Director or the Director’s immediate family members are related persons.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires each Director, officer, and individual beneficially owning more than 10% of a registered security of the Company to file with the SEC, within specified time frames, initial statements of beneficial ownership (Form 3) and statements of changes in beneficial ownership (Forms 4 and 5) of common stock of the Company. These specified time frames require the reporting of changes in ownership within two business days of the transaction giving rise to the reporting obligation. Reporting persons are required to furnish us with copies of all Section 16(a) forms filed with the SEC. PROPOSAL 2:

ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

The Company is providing its stockholders with the opportunity to cast a non-binding, advisory vote on the compensation of our “named executive officers” as disclosed pursuant to the SEC’s executive compensation disclosure rules and set forth in this proxy statement (including in the compensation tables and narratives accompanying those tables).

As described more fully in the “Compensation Discussion and Analysis” above, our executive compensation program is guided by the principle that the compensation of the Company’s executive officers should encourage creation of stockholder value and achievement of strategic corporate objectives. In furtherance of this principle, the Company’s executive compensation program includes a number of features intended to reflect best practices in the market and help ensure that the program reinforces stockholder interests. These features include the following:

Our Compensation Committee is comprised solely of independent Directors. Our Compensation Committee engages independent compensation consultants, as further described below, to advise on matters related to our executive compensation program.

The majority of our executives’ compensation is at-risk. For fiscal year 2013, approximately 89% of Mr. Peters’ target total direct compensation was performance-based, and approximately 64% to 70% of the three other named executive officers’ target total direct compensation was performance-based. As used in this discussion, the term “total direct compensation” means the aggregate amount of the executive’s base salary, target annual incentive awards, and long-term equity incentive awards based on the grant-date fair value of such awards as determined under the accounting principles used in the Company’s financial reporting.

Effective January 1, 2013, we entered into new employment agreements with each of our named executive officers.

We believe it was appropriate to enter into these agreements with our named executive officers in light of their increased responsibilities following our listing on the NYSE and to promote the stability of our management team.

Our executives’ base salary represents our Compensation Committee’s view of the minimum level of fixed compensation necessary to attract and retain executive talent. Salaries are based on a number of factors, including competitive market data, the scope of the executive’s role in the Company, the executive’s level of experience, and the executive’s performance potential.

Our executives’ bonuses under our annual incentive program are performance-based cash incentives that reward achievement of performance objectives tied to our annual business plan and projections. A range of earnings opportunities, expressed as percentages of base salary and corresponding to three levels of performance (Threshold, Target and High), are established for each of our executives. Actual bonus awards to our executives depend on actual achievement relative to the corporate objectives and the Compensation Committee’s subjective assessment of each executive’s individual performance. As described in more detail above, the metrics used to measure the Company’s performance for 2013 were normalized FFO per share, net acquisitions, same-property cash NOI growth: debt to undepreciated assets and performance against our peer companies.

The Compensation Committee also granted our executives equity awards based on performance in 2013 in the form of restricted stock. The awards were granted in January 2014 and determined by our Compensation Committee based on the achievement of pre-established corporate goals, and the Compensation Committee’s discretionary assessment of each individual executive’s performance for the 2013 performance year. These awards are intended to promote achievement of corporate performance goals tied to our business strategies, incentivize individual executive achievement consistent with our corporate goals, and focus our executives on creating long-term value for our stockholders. These awards also provide a retention incentive as they vest over a multi-year period. The range of potential award levels that may be granted, expressed as percentages of base salary and corresponding to the three levels of performance (Threshold, Target and High), is established for each executive. As described in more detail above, the metrics used to measure the Company’s performance for 2013 were 1-year TSR against our peer companies, improved value of our portfolio, financial flexibility and franchise value.

Our Compensation Committee has established stock ownership guidelines for our executives. Our Chief Executive Officer and other named executive officers are required to own a minimum of six and four times the applicable executive’s base salary, respectively, of fully vested shares of our common stock.

We do not provide any tax gross-up payments or material perquisites to our named executive officers. Our Amended and Restated 2006 Incentive Plan expressly prohibits pledging awards granted to our executives under the plan.

The Risk Management Committee reviews our compensation policies and practices as a part of its overall review of the material risks or exposures associated with our internal and external risks. Through this review process, our Risk Management Committee concluded that our compensation policies are not reasonably likely to have a material adverse effect on us or our stockholders.

In accordance with the requirements of Section 14A of the Exchange Act (which was added by the Dodd-Frank Wall Street Reform and Consumer Protection Act) and the related rules of the SEC, the Board of Directors will request your advisory vote on the following resolution at the annual meeting:

RESOLVED, that the compensation paid to the Company's Named Executive Officers, as disclosed in this proxy statement pursuant to the SEC's executive compensation disclosure rules (which disclosure includes the compensation tables above and the narrative discussion that accompanies the compensation tables), is hereby approved.

This vote is an advisory vote only and will not be binding on the Company, the Board of Directors or the Compensation Committee, and will not be construed as overruling a decision by, or creating or implying any additional duty for, the Board of Directors or the Compensation Committee. However, the Compensation Committee, which is responsible for designing and administering the Company's executive compensation program, values input from our stockholders, and will consider the outcome of the vote when making future compensation decisions for Named Executive Officers.

The Company's current policy is to provide our stockholders with an opportunity to approve the compensation of our named executive officers every three years at the annual meeting of stockholders. It is expected that the next Say-on-Pay vote will be held at the 2017 annual meeting of stockholders.

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Our Audit Committee has appointed Deloitte to be our independent registered public accounting firm for the year ending December 31, 2014. A representative of Deloitte is expected to be present at the annual meeting and will have an opportunity to make a statement if he or she so desires. The representative also will be available to respond to appropriate questions from the stockholders.

Although it is not required to do so, the Board of Directors is submitting the Audit Committee's appointment of our independent registered public accounting firm for ratification by the stockholders at the annual meeting in order to ascertain the view of the stockholders regarding such appointment as a matter of good corporate practice. If the stockholders should not ratify the appointment of our independent registered public accounting firm, the Audit Committee will reconsider the appointment.

The Board of Directors recommends a vote "FOR" ratification of the appointment of Deloitte as our independent registered public accounting firm for the fiscal year ending December 31, 2014.

Pre-Approval Policies

The Audit Committee charter imposes a duty on the Audit Committee to pre-approve all auditing services performed for us by our independent auditors, as well as all permitted non-audit services, if any (including the fees and terms thereof) in order to ensure that the provision of such services does not impair the auditors' independence. Unless a type of service to be provided by the independent auditors has received "general" pre-approval, it will require "specific" pre-approval by the Audit Committee.

All requests or applications for services to be provided by the independent auditor that do not require specific pre-approval by the Audit Committee will be submitted to management and must include a detailed description of the services to be rendered. Management will determine whether such services are included within the list of services that have received the general pre-approval of the Audit Committee. The Audit Committee will be informed on a timely basis of any such services rendered by the independent auditors.

Requests or applications to provide services that require specific pre-approval by the Audit Committee will be submitted to the Audit Committee by both the independent auditors and the principal financial officer, and must include a joint statement as to whether, in their view, the request or application is consistent with the SEC's rules on auditor independence. The chairperson of the Audit Committee has been delegated the authority to specifically pre-approve de minimis amounts for services not covered by the general pre-approval guidelines. All amounts, other than such de minimis amounts, require specific pre-approval by the Audit Committee prior to engagement of Deloitte. All amounts, other than de minimis amounts not subject to pre-approval, specifically pre-approved by the chairperson of the Audit Committee in accordance with this policy are to be disclosed to the full Audit Committee at the next regularly scheduled meeting.

All services rendered by Deloitte for the years ended December 31, 2013 and 2012 were pre-approved in accordance with the policies and procedures described above.

Auditor Independence

The Audit Committee has considered whether the provision of the above noted services is compatible with maintaining the independence of our independent registered public accounting firm's independence and has concluded that the provision of such services has not adversely affected the independent registered public accounting firm's independence.

NON-GAAP FINANCIAL MEASURES

FFO and Normalized FFO

We compute FFO in accordance with the current standards established by the National Association of Real Estate Investment Trusts, or NAREIT. NAREIT defines FFO as net income or loss attributable to common stockholders (computed in accordance with GAAP), excluding gains or losses from sales of property and impairment write-downs of depreciable assets, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. We present this non-GAAP financial measure because we consider it an important supplemental measure of our operating performance and believe it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs. Historical cost accounting assumes that the value of real estate assets diminishes ratably over time. Since real asset values have historically risen or fallen based on market conditions, many industry investors have considered presentation of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. Because FFO excludes depreciation and amortization unique to real estate, among other items, it provides a perspective not immediately apparent from net income or loss attributable to common stockholders.

Our methodology for calculating FFO may be different from methods utilized by other REITs and, accordingly, may not be comparable to such other REITs. FFO should not be considered as an alternative to net income or loss attributable to common stockholders (computed in accordance with GAAP) as an indicator of our financial performance or to cash flow from operating activities (computed in accordance with GAAP) as an indicator of our liquidity, nor is it indicative of sufficient cash flow to fund all of our needs. FFO should be reviewed in connection with other GAAP measurements.

Table of Contents

We also compute Normalized FFO, which excludes from FFO acquisition-related expenses, listing expenses, net gain or loss on change in fair value of derivative financial instruments, noncontrolling income from partnership units included in diluted shares, transitional expenses, debt extinguishment costs and other normalizing items. We present this non-GAAP financial measure because it allows for the comparison of our operating performance to other REITs and between periods on a consistent basis. Our methodology for calculating Normalized FFO may be different from the methods utilized by other REITs and, accordingly, may not be comparable to such other REITs. Normalized FFO should not be considered as an alternative to net income or loss attributable to common stockholders (computed in accordance with GAAP) as an indicator of our financial performance or to cash flows from operating activities (computed in accordance with GAAP) as an indicator of our liquidity, nor is it indicative of sufficient cash flow to fund our needs. Normalized FFO should be reviewed in connection with other GAAP measurements.

The following is the reconciliation of FFO and Normalized FFO to net income or loss attributable to common stockholders for the years ended December 31, 2013 and 2012 (in thousands, except per share amounts):

| | Year Ended December 31, | |
|---|-------------------------|------------|
| | 2013 | 2012 |
| Net income (loss) attributable to common stockholders | \$24,261 | \$(24,424) |

| Weighted average number of common shares outstanding - diluted | 229,939 | 222,869 |

NOI and Same-Property Cash NOI

NOI is a non-GAAP financial measure that is defined as net income or loss (computed in accordance with GAAP), generated from our total portfolio of properties before general and administrative expenses, non-traded REIT expenses, acquisition-related expenses, depreciation and amortization expense, listing expenses, interest expense and net gain or loss on change in fair value of derivative financial instruments, debt extinguishment costs and other income or expense. We believe that NOI provides an accurate measure of the operating performance of our operating assets because NOI excludes certain items that are not associated with management of the properties. Additionally, we believe that NOI is a widely accepted measure of comparative operating performance of REITs. However, our use of the term NOI may not be comparable to that of other REITs as they may have different methodologies for computing this amount. NOI should be reviewed in connection with other GAAP measurements.

To facilitate the comparison of between periods, we calculate comparable amounts for a subset of our owned properties referred to as “same-property.” Same-property cash NOI excludes properties which have not been owned or operated during the entire span of all periods reported, assets held for sale, notes receivable interest income and certain non-routine items. Same-property cash NOI should not be considered as an alternative to net income or loss (computed in accordance with GAAP) as an indicator of our financial performance. Same-property cash NOI should be reviewed in connection with other GAAP measurements.

| Net Debt to Annualized Adjusted EBITDA | | | | |

We compute adjusted EBITDA on an assumed annualized basis. We define this non-GAAP financial measure as net income (computed in accordance with GAAP) plus depreciation and amortization expense, interest expense and net change in the fair value of derivative financial instruments, acquisition-related expenses, non-cash compensation expense and pro forma impact as if all the acquisitions had occurred on the first day of the quarter. We consider adjusted EBITDA an important measure because it provides additional information to allow management, investors, and our current and potential creditors to evaluate and compare our core operating results and our ability to service debt. Our use of the term adjusted EBITDA may not be comparable to that of other REITs as they may have different methodologies for computing this amount. Adjusted EBITDA should be reviewed in connection with other GAAP measurements. We compute net debt as debt less cash and cash equivalents. The following is the reconciliation of annualized adjusted EBITDA to net income for the three months ended December 31, 2013 (in thousands):
