Item 1.01 Entry into a Material Definitive Agreement.

Term Loan Credit Agreement

On October 1, 2008, the Woodward Governor Company (the Company) entered into a Term Loan Credit Agreement (the Term Loan Credit Agreement), by and among the Company, the institutions from time to time parties thereto, as lenders, and JPMorgan Chase Bank, National Association, as administrative agent. The Term Loan Credit Agreement provides for a \$150,000,000 unsecured term loan facility, and may be expanded by up to \$50 million of additional indebtedness from time to time, subject to the Company s compliance with certain conditions and the lenders participation. The Term Loan Credit Agreement generally bears interest at LIBOR plus 1.00% to 2.25% and matures in October 2013.

The Term Loan Credit Agreement contains customary terms and conditions, including, among others, covenants that place limits on the Company s ability to incur liens on assets, incur additional debt (including a leverage or coverage based maintenance test), transfer or sell the Company s assets, merge or consolidate with other persons, make capital expenditures, make certain investments, make certain restricted payments and enter into material transactions with affiliates. The Term Loan Credit Agreement contains financial covenants requiring that (a) the Company s ratio of consolidated net debt to consolidated EBITDA not exceed 3.5 to 1.0 and (b) the Company have a minimum consolidated net worth of \$400,000,000 plus 50% of net income for any fiscal year and 50% of the net proceeds of certain issuances of capital stock, in each case on a rolling four quarter basis. The Term Loan Credit Agreement also contains events of default customary for such financings, the occurrence of which would permit the lenders to accelerate the amounts due thereunder.

The Company s obligations under the Term Loan Credit Agreement are guaranteed by Woodward FST, Inc., a wholly owned subsidiary of the Company (Woodward FST).

A portion of the proceeds from the Term Loan Credit Agreement was used to finance the acquisition of MPC Products Corporation (MPC), as described under item 2.01 hereof, and to repay outstanding debt and other obligations of MPC.

The foregoing description of the Term Loan Credit Agreement and related matters is qualified in its entirety by reference to the Term Loan Credit Agreement, which is filed as Exhibit 10.1 hereto and incorporated herein by reference.

Note Purchase Agreement

On October 1, 2008, the Company entered into a Note Purchase Agreement (the Note Purchase Agreement) with the purchasers named therein (the Purchasers) relating to the sale by the Company and the purchase by the Purchasers of an aggregate principal amount of \$250,000,000 comprised of (a) \$100,000,000 aggregate principal amount of its Series B Senior Notes due October 1, 2013 (the Series B Notes), (b) \$50,000,000 aggregate principal amount of its Series C Senior Notes due October 1, 2015 (the Series C Notes) and (c) \$100,000,000 aggregate principal amount of its Series D Senior Notes due October 1, 2018 (the Series D Notes and, together with the Series B Notes and Series C Notes, the Notes) in a series of private placement transactions. On October 1, 2008, \$200,000,000 aggregate principal amount of Notes were sold to certain of the Purchasers, comprised of \$80,000,000 aggregate principal amount of the Series B Notes, \$40,000,000 aggregate principal amount of the Series C Notes and \$80,000,000 aggregate principal amount of the Series D Notes. Under the Note Purchase Agreement, the Company intends to issue an additional \$50,000,000 aggregate principal amount of Notes with similar maturities and interest rates, prior to November 10, 2008.

The Series B Notes have a maturity date of October 1, 2013 and generally bear interest at a rate of 5.63% per annum. The Series C Notes have a maturity date of October 1, 2015 and generally bear interest at a rate of 5.92% per annum. The Series D Notes have a maturity date of October 1, 2018 and generally bear interest at a rate of 6.39% per annum. Under certain circumstances, the interest rate on each series of Notes is subject to increase if the Company's leverage ratio of consolidated net debt to consolidated EBITDA increases beyond 3.5 to 1.0. Interest on the Notes is payable semi-annually on April 1 and October 1 of each year until all principal is paid. Interest payments commence on April 1, 2009.

The Company's obligations under the Note Purchase Agreement and the Notes rank pari passu, without preference or priority, with all other unsecured unsubordinated debt of the Company, including the Company's outstanding debt under the Term Loan Credit Agreement.

The Note Purchase Agreement contains restrictive covenants customary for such financings, including, among other things, covenants that place limits on the Company's ability to incur liens on assets, incur additional debt (including a leverage or coverage based maintenance test), transfer or sell the Company's assets, merge or consolidate with other persons and enter into material transactions with affiliates. The Note Purchase Agreement also contains events of default customary for such financings, the occurrence of which would permit the Purchasers of the Notes to accelerate the amounts due thereunder.

The Note Purchase Agreement contains financial covenants requiring that the Company's (a) ratio of consolidated net debt to consolidated EBITDA not exceed 4.0 to 1.0 during any material acquisition period, or 3.5 to 1.0 at any other time on a rolling four quarter basis, and (b) consolidated net worth at any time equal or exceed \$425,000,000 plus 50% of consolidated net earnings for each fiscal year beginning with the fiscal year ending September 30, 2008. Additionally, under the Note Purchase Agreement, the Company may not permit the aggregate amount of priority debt to at any time exceed 20% of the consolidated net worth of the Company at the end of the then most recently ended fiscal quarter. Priority debt is defined as all unsecured debt of the Company's subsidiaries (but excluding certain types of debt) and all debt of the Company and its subsidiaries secured by liens (but excluding debt secured by certain permitted liens).

Pursuant to a Guaranty Agreement, Woodward FST guaranteed the payment of all principal, interest, and any applicable make-whole amount on the Notes and the other payment and performance obligations of the Company contained in the Notes and in the Note Purchase Agreement.

The Company, at its option, is permitted at any time to prepay all, or from time to time to prepay any part of, the then outstanding principal amount of any series of the Notes at 100% of the principal amount of the series of Notes to be prepaid (but, in the case of partial prepayment, not less than \$1,000,000), together with interest accrued on such amount to be prepaid to the date of payment, plus any applicable make-whole amount. The make-whole amount is computed by discounting the remaining scheduled payments of interest and principal of the Notes being prepaid at a discount rate equal to the sum of 50 basis points and the yield to maturity of U.S. treasury securities having a maturity equal to the remaining average life of the Notes being prepaid.

A portion of the proceeds from the issuance of the Notes was used to finance the acquisition of MPC, as described under Item 2.01 hereof, and to repay outstanding debt and other obligations of MPC.

The foregoing description of the Note Purchase Agreement and related matters is qualified in its entirety by reference to the Note Purchase Agreement, which is filed as Exhibit 10.2 hereto and incorporated herein by reference.

Amendment to Existing Note Purchase Agreement

On October 1, 2008, the Company entered into an Amendment No. 1 to Note Purchase Agreement (the Existing Note Amendment) with the then current holders of the entire outstanding principal amount of the notes issued under the Existing Note Purchase Agreement (as defined below). The Existing Note Amendment amends that certain Note Purchase Agreement, dated as of October 15, 2001 (the Existing Note Purchase Agreement) relating to the issuance and sale by the Company of \$75,000,000 in aggregate principal amount of its 6.39% Senior Notes due October 15, 2011. The Existing Note Amendment provides for certain changes to the covenants in the Existing Note Purchase Agreement, among other things, to permit the Company's entry into the Term Loan Credit Agreement and the Note Purchase Agreement.

The Revolving Amendment provides for certain changes to the covenants in the Revolving Facility, among other things, to permit the Company's entry into the Term Loan Credit Agreement and the Note Purchase Agreement.
