## 2016 Corporate Performance Highlights

CBOE Holdings and its Board of Directors are committed to a corporate mission and strategy designed to create long-term stockholder value. Our mission in 2016 was to be the leader in providing innovative products that facilitate and enhance trading in a global marketplace. Our strategy was to continue to define and lead the options and volatility space globally, develop unique products, form strategic alliances that leverage and complement our core business and expand our customer base.

The ongoing commitment of our team and the Board to this strategy produced a solid year of financial results in 2016, highlighted by record trading in our SPX options and VIX futures, and included our transformational acquisition of Bats Global Markets, Inc. ("Bats"), which was announced on September 26, 2016 and completed on February 28, 2017. We believe that the acquisition has the potential to significantly expand and diversify our product line across new asset classes, such as U.S. and European equities, ETF trading, and global FX platform, broaden our reach with Bats' market-leading European presence and increase our non-transactional revenue stream, while enabling us to streamline the combined company's technology and enhance our strong growth and margin profile.

PROXY STATEMENT

---

ANNUAL MEETING OF STOCKHOLDERS  
May 18, 2017

---

INTRODUCTION

We are furnishing this Proxy Statement to you in connection with a solicitation of proxies by the Board of Directors (the "Board") of CBOE Holdings, Inc., a Delaware corporation, for use at the CBOE Holdings, Inc. 2017 Annual Meeting of Stockholders (the "Annual Meeting") on Thursday, May 18, 2017 at 9:00 a.m., local time, and at any adjournments or postponements of our Annual Meeting. The approximate date on which this Proxy Statement and the accompanying form of proxy are first being sent to stockholders is April 6, 2017.

Except as otherwise indicated, the terms "the Company," "CBOE Holdings," "we," "us" and "our" refer to CBOE Holdings, Inc. When we use the term "CBOE," we are referring to Chicago Board Options Exchange, Incorporated, a wholly owned subsidiary and predecessor entity of CBOE Holdings. Members of the CBOE Holdings Board also serve on the Board of Directors of CBOE and the Board of Directors of C2 Options Exchange, Incorporated ("C2"), a wholly owned subsidiary. The 2016 financial results and performance highlights presented in this Proxy Statement are those of CBOE Holdings and its subsidiaries and do not include the results of Bats and its subsidiaries.

VOTING INSTRUCTIONS AND INFORMATION

Why did I receive these proxy materials?

This Proxy Statement was mailed to holders of our common stock on or about April 6, 2017. Our Board is asking for your proxy. By giving us your proxy, you authorize the proxyholders (Edward T. Tilly and Joanne Moffic-Silver) to vote your shares at the Annual Meeting according to the instructions that you provide. If the Annual Meeting is adjourned or postponed, your proxy will be used to vote your shares when the meeting reconvenes.

Our 2016 Annual Report to Stockholders, which includes a copy of our Annual Report on Form 10-K for the year ended December 31, 2016 (excluding exhibits), as filed with the Securities and Exchange Commission (the "SEC"), is being mailed to stockholders with this Proxy Statement.

Who can vote at our Annual Meeting?

You are entitled to vote your shares of our common stock if you were a stockholder at the close of business on March 21, 2017, the record date for our Annual Meeting. On that date, there were 111,984,445 shares of our common stock outstanding and 639,147 unvested restricted shares of our common stock outstanding, which have been granted to our employees and directors and have voting rights at the Annual Meeting. Therefore, there are 112,623,592 shares of voting common stock outstanding, each of which entitles the holder to one vote for each matter to be voted on at our Annual Meeting. Our outstanding common stock is held by approximately 220 stockholders of record as of March 21, 2017.

The unvested restricted shares of our common stock outstanding described in the paragraph above include Bats restricted shares that were assumed by CBOE Holdings and converted into an award of restricted shares of CBOE Holdings common stock. As set forth in the merger agreement providing for our acquisition of Bats, the number of shares of CBOE

## Table of Contents

Holdings common stock subject to each such award of CBOE Holdings restricted shares is equal to the number of shares of Bats common stock which was previously subject to the corresponding Bats restricted share award multiplied by .4452.

Who is and is not a stockholder of record?

If you hold shares of common stock registered in your name at our transfer agent, Computershare, you are a stockholder of record.

If you hold shares of common stock indirectly through a broker, bank or similar institution, or are an employee or director who holds shares of restricted stock at Fidelity, you are not a stockholder of record, but instead hold in "street name." Please see the information under the heading If I hold my shares in "street name" and do not provide voting instructions, can my broker still vote my shares? for important information.

If you are a stockholder of record, Computershare is sending these proxy materials to you directly. If you hold shares in street name, these materials are being provided to you either by the broker, bank or similar institution through which you hold your shares.

What do I need to do to attend our Annual Meeting?

Attendance at our Annual Meeting is generally limited to our stockholders and their authorized representatives. All stockholders must bring an acceptable form of identification, such as a driver's license, in order to attend our Annual Meeting in person. In addition, if you hold shares of common stock in street name and would like to attend our Annual Meeting, you will need to bring an account statement or other acceptable evidence of ownership of shares as of the close of business on March 21, 2017, the record date for our Annual Meeting.

If you hold shares in street name and you want to vote your shares in person at the Annual Meeting, you must bring a legal proxy signed by your bank, broker or nominee to the Annual Meeting.

Any representative of a stockholder who wishes to attend the Annual Meeting must present acceptable documentation evidencing his or her authority, acceptable evidence of ownership by the stockholder of common stock as described above and an acceptable form of identification. We reserve the right to limit the number of representatives for any stockholder who may attend the Annual Meeting.

Please contact Investor Relations at [investorrelations@cboe.com](mailto:investorrelations@cboe.com) or (312) 786-5600 in advance of our Annual Meeting if you have questions about attending our Annual Meeting, including regarding the required documentation. If you plan to attend the Annual Meeting, please provide adequate time to pass through the security process necessary to gain access to the meeting room.

Will our Annual Meeting be webcast?

Yes. A live webcast of the Annual Meeting will be provided on the Investor Relations section of our website at <http://ir.CBOE.com>. On the Events and Presentations page of our Investor Relations website, click on "Listen to Webcast" for our Annual Meeting. If you miss the meeting, you can view a replay of the webcast on that site. Please note that you will not be able to vote your shares or ask questions via the webcast. Please submit your vote in advance of the Annual Meeting.

How do I vote?

You may cast your vote in one of four ways:

• **By Internet.** The web address for Internet voting is on the enclosed proxy card. Internet voting is available 24 hours a day.

• **By Telephone.** The number for telephone voting is on the enclosed proxy card. Telephone voting is available 24 hours a day.

• **By Mail.** Mark the enclosed proxy card, sign and date it, and return it in the pre-paid envelope we have provided.

• **At Our Annual Meeting.** You may vote in person at our Annual Meeting (see What do I need to do to attend our Annual Meeting?).

Table of Contents

If you choose to vote by Internet, by telephone or at our Annual Meeting, then you do not need to return the proxy card. To be valid, your vote by Internet, telephone or mail must be received by May 17, 2017, the deadline specified on the proxy card. If you vote by Internet or telephone and subsequently obtain a legal proxy from your account representative, then your prior vote will be revoked regardless of whether you vote that legal proxy.

The Internet and telephone voting procedures are designed to authenticate stockholders' identities, allow stockholders to give their voting instructions and confirm that stockholders' instructions have been recorded properly. Stockholders voting by Internet or telephone should understand that, while we do not charge any fees for voting by Internet or telephone, there may nevertheless be costs that must be borne by you.

May I change my vote?

If you are a stockholder of record, you may revoke your proxy or change your vote at any time before it is voted at the Annual Meeting by:

- submitting a new proxy by telephone or through the Internet, after the date of the earlier voted proxy,
- returning a signed proxy card dated later than your last proxy,
- submitting a written revocation to the Corporate Secretary of CBOE Holdings, Inc. at 400 South LaSalle Street, Chicago, Illinois 60605, or
- appearing in person and voting at the Annual Meeting.

If you are a stockholder of record and need a new proxy card, to change your vote or otherwise, please contact the Corporate Secretary at the address above or via email at [CorporateSecretary@cboe.com](mailto:CorporateSecretary@cboe.com).

If your bank, broker or other nominee holds your shares in "street name," you may revoke your proxy or change your vote only by following the separate instructions provided by your bank, broker or nominee.

To vote in person at the Annual Meeting, you must attend the meeting and cast your vote in accordance with the voting provisions established for the Annual Meeting. Attendance at the Annual Meeting without voting in accordance with the voting procedures does not, by itself, revoke a proxy. If your bank, broker or other nominee holds your shares and you want to attend and vote your shares at the Annual Meeting, you must bring a legal proxy signed by your bank, broker or nominee to the Annual Meeting.

If I submit a proxy by Internet, telephone or mail, how will my shares be voted?

If you properly submit your proxy by one of these methods, and you do not subsequently revoke your proxy, your shares of common stock will be voted in accordance with your instructions.

If you sign, date and return your proxy card but do not give voting instructions, your shares of common stock will be voted as follows:

- FOR the election of each of our director nominees,
- FOR the advisory vote to approve the compensation paid to our executive officers,
- FOR every 1 year for the advisory vote to approve the frequency of an advisory vote on the compensation paid to our executive officers,
- FOR the ratification of the appointment of Deloitte as our independent registered public accounting firm for our 2017 fiscal year, and
- otherwise in accordance with the judgment of the persons voting the proxy on any other matter properly brought before our Annual Meeting.

In addition, if you properly submit your proxy by one of these methods, and you do not subsequently revoke your proxy, and any other matters are properly presented at the Annual Meeting, your shares of common stock will be voted in

Table of Contents

accordance with the judgment of the persons voting the proxy on such matters. We are not aware of any other matters that will be considered at the Annual Meeting.

If I hold my shares in "street name" and do not provide voting instructions, can my broker still vote my shares?

Under the rules of various securities exchanges, brokers that have not received voting instructions from their customers 10 days prior to the meeting date may vote their customers' shares in the brokers' discretion on the proposal regarding the ratification of the appointment of Deloitte as our independent registered public accounting firm for our 2017 fiscal year, because the rules of the exchanges currently deem this a "discretionary" matter. Absent instruction, brokers will not be able to vote on any of the other matters included in this Proxy Statement. If brokers exercise their discretion in voting on the proposal regarding the ratification of Deloitte, a "broker non-vote" will occur as to the other matters presented for a vote at the Annual Meeting, unless you provide voting instructions.

What vote is required for adoption or approval of each matter?

**Election of Directors.** You may vote FOR or AGAINST each of the director nominees or you may ABSTAIN. Each nominee must receive the affirmative vote of a majority of the votes cast with respect to his or her election in order to be elected. Each nominee has tendered his or her resignation, contingent on failing to receive a majority of the votes cast in this election and acceptance by the Board. In the event any director fails to receive a majority of votes cast, the Nominating and Governance Committee will consider and make a recommendation to the Board as to whether to accept the resignation.

**Advisory Vote to Approve Executive Compensation.** You may vote FOR or AGAINST the advisory proposal to approve our executive compensation or you may ABSTAIN. A majority of the shares of common stock cast must be voted FOR approval of the advisory proposal in order for it to pass. Votes cast FOR or AGAINST with respect to the proposal will be counted as shares cast on the proposal.

**Advisory Vote to Approve the Frequency of Executive Compensation Vote.** You may vote for a 1, 2 or 3 year interval between advisory votes on executive compensation or you may ABSTAIN. The option between 1, 2 and 3 years that receives a plurality of the votes cast will be deemed to have passed.

**Ratification of the Appointment of our Independent Registered Public Accounting Firm.** You may vote FOR or AGAINST the ratification of the appointment of our independent registered public accounting firm or you may ABSTAIN. A majority of the shares of common stock cast must be voted FOR ratification in order for it to pass. Votes cast FOR or AGAINST with respect to this matter will be counted as shares cast on the matter.

**Abstentions and Broker Non-Votes.** Abstentions and broker non-votes will not be considered a vote cast either for or against any of the matters being presented in this proxy statement. If you do not provide your broker with voting instructions, the broker cannot vote your shares on any matter other than the ratification of the appointment of our independent registered public accounting firm. A "broker non-vote" occurs when your broker submits a proxy for the meeting with respect to discretionary matters, but does not vote on non-discretionary matters because you did not provide voting instructions on these matters. In the case of a discretionary matter (i.e., the ratification of the appointment of our independent registered public accounting firm), your broker is permitted to vote your shares of common stock even when you have not given voting instructions (as described above under If I hold my shares in "street name" and do not provide voting instructions, can my broker still vote my shares?).

How many votes are required to transact business at our Annual Meeting?

A quorum is required to transact business at our Annual Meeting. The holders of a majority of the outstanding shares of our common stock as of March 21, 2017, present in person or represented by proxy and entitled to vote, will constitute a quorum for the transaction of business at our Annual Meeting. Abstentions and broker non-votes are treated as present for quorum purposes.

What happens if the meeting is postponed or adjourned?

Your proxy will remain valid and may be voted at the postponed or adjourned meeting. You will be able to change or revoke your proxy until it is voted.

This may occur if you hold common stock in multiple accounts, such as with different brokers in street name and as the record holder with Computershare. Please complete and return all of the proxy or voting instruction cards that you receive (or vote by telephone or through the Internet all of the shares on all of the proxy or voting instruction cards received) to ensure that all of your shares are voted.

Table of Contents

PROPOSAL ONE  
ELECTION OF DIRECTORS

Board Composition

Our Second Amended and Restated Certificate of Incorporation provides that our Board will consist of not less than 11 and not more than 23 directors. Our Board currently has 14 directors. Each director is elected annually to serve until the next Annual Meeting of Stockholders or until his or her successor is elected or appointed and qualified, except in the event of earlier death, resignation or removal. There is no limit on the number of terms a director may serve on our Board.

General

At our Annual Meeting, our stockholders will be asked to elect the 14 director nominees set forth below, each to serve until the 2018 Annual Meeting of Stockholders. All of the director nominees have been recommended for election by our Nominating and Governance Committee and approved and nominated for election by our Board. Eleven of the director nominees were elected as directors by stockholders at the 2016 Annual Meeting of Stockholders: Edward T. Tilly, James R. Boris, Frank E. English, Jr., William M. Farrow III, Edward J. Fitzpatrick, Janet P. Froetscher, Jill R. Goodman, Roderick A. Palmore, Samuel K. Skinner, Carole E. Stone and Eugene S. Sunshine. Three of the director nominees, who were previously directors of Bats, were appointed as directors by the Board effective February 28, 2017 in connection with the closing of the acquisition of Bats: Christopher T. Mitchell, Joseph P. Ratterman and Michael L. Richter.

In connection with our acquisition of Bats, we agreed to take all requisite actions so that, as of the effective time of the closing of the acquisition, the CBOE Holdings Board would consist of 14 directors, including three individuals designated by Bats who were serving on the board of directors of Bats immediately prior to the effective time of the closing of the acquisition and who comply with the policies of the Nominating and Governance Committee of the CBOE Holdings Board. Accordingly, Messrs. Mitchell, Ratterman and Richter were designated by Bats to become directors of CBOE Holdings effective upon the closing of our acquisition of Bats.

Additionally, as previously announced, William J. Brodsky, R. Eden Martin and Susan M. Phillips resigned as directors effective February 28, 2017, in connection with the closing of the acquisition of Bats. We thank them for their many years of dedicated service to the CBOE family.

All of the nominees have indicated their willingness to serve if elected. Each nominee must receive the affirmative vote of a majority of the votes cast with respect to his or her election in order to be elected. Each nominee has tendered his or her resignation, contingent on failing to receive a majority of the votes cast in this election and acceptance by the Board. In the event any director fails to receive a majority of votes cast, the Nominating and Governance Committee will consider and make a recommendation to the Board as to whether to accept the resignation. Abstentions and broker non-votes will not be counted as votes cast and therefore will not affect the vote.

The Board of Directors recommends that the stockholders vote FOR each of the director nominees.

Board Structure

Independence

Our Bylaws require that, at all times, no less than two-thirds of our directors will be independent. The Nominating and Governance Committee has affirmatively determined that all of our current directors are independent under NASDAQ Global Select Market's ("NASDAQ") and BZX Exchange's ("BZX") listing standards for independence, except Mr. Tilly. In addition, R. Eden Martin and Susan M. Phillips, who resigned as directors effective February 28, 2017 in connection with the closing of the acquisition of Bats, were determined to be independent. William J. Brodsky, who resigned as a director effective February 28, 2017 in connection with the closing of the acquisition of Bats, was determined not to be independent.

As previously disclosed in the definitive joint proxy statement/prospectus dated December 9, 2016, filed by CBOE Holdings with the SEC on December 12, 2016, as amended and supplemented from time to time, we listed our common stock on BZX on March 8, 2017. Accordingly, the Nominating and Governance Committee considered the independence standards of both NASDAQ and the BZX in making independence determinations for our directors.

All of the directors on each of the Audit, Compensation and Nominating and Governance Committees are independent. Each of these committees reports to the Board as they deem appropriate, and as the Board may request.

## Table of Contents

### Chairman and CEO Roles

Effective February 28, 2017, in connection with the closing of the acquisition of Bats, we combined the roles of Chairman and CEO, with Mr. Tilly serving as the Chairman and CEO. Prior to that time, the roles of Chairman and CEO, were separated, with Mr. Brodsky serving as Chairman and Mr. Tilly serving as CEO. The Board carefully considered its Board leadership structure and the benefits of continuity in leadership roles and determined that combining the roles of Chairman and CEO at this time enhances the combined company's strategic alignment and supports CBOE Holdings' ability to deliver stockholder value.

The Board periodically reviews the leadership structure and may make changes in the future based upon what the Board believes to be in the best interests of the Company and stockholders at the time. At certain points in our history, the Chairman and CEO roles have been held by the same person, and at other times, the roles have been held by different individuals. Under our Bylaws, the Chairman may, but need not be, our CEO, and the Board believes it is important to retain its flexibility to allocate the responsibilities of the offices of the Chairman and CEO in any way that is in the best interests of the Company and stockholders at a given point in time based upon then-prevailing circumstances. The Board believes that the decision as to who should serve in those roles, and whether the offices should be combined or separate, should be assessed periodically by the Board, and that the Board should not be constrained by a rigid policy mandate when making these determinations.

In addition, our Board has implemented the following elements in order to ensure independent oversight for us and for our Board:

- requiring the Board to consist of at least two-thirds independent directors who meet regularly without management and solely with non-employee and independent directors,
- establishing independent Audit, Compensation and Nominating and Governance Committees, and
- appointing an independent Lead Director.

### Board Oversight of Risk

The Board is responsible for overseeing our risk management processes. The Board is responsible for overseeing both our general risk management strategy and the significant risks facing us, including the risk mitigation strategies employed by management. The Board stays apprised of particular risk management matters in accordance with its general oversight responsibilities.

The Board has delegated to the Audit Committee oversight of risk management. Among its duties, the Audit Committee is responsible for reviewing our compliance, guidelines, policies and practices for identifying, assessing and managing key risks, and reviewing the adequacy and effectiveness of internal controls and procedures. The Compensation Committee has been delegated oversight of risk management as it relates to our compensation policies and procedures. All committees report to the full Board on a routine basis and when a matter rises to the level of a material or enterprise level risk.

Our management is responsible for daily risk management. In addition, representatives of each of our divisions attend periodic enterprise risk management meetings at which an established matrix of identified risks is reviewed to evaluate the level of potential risks facing us and to identify any new risks. This group, along with our Chief Risk Officer, provides information and recommendations to the Audit Committee as necessary. We believe this division of risk management responsibilities is an effective approach for addressing the enterprise risks that we face.

### Board and Committee Meeting Attendance

There were 13 meetings of the Board during 2016. Each director attended at least 75% of the aggregate number of meetings of the Board and meetings of committees of which the director was a member during 2016.

### Independent Directors Meetings

Periodically, the independent directors meet separately in executive session without management. The Lead Director presides over these meetings. The independent directors met in executive session 4 times during 2016.

### Criteria for Directors

We believe that each of the individuals serving on our Board has the necessary skills, qualifications and experiences to address the challenges and opportunities we face. The Nominating and Governance Committee is responsible for considering and recommending to the Board nominees for election as director, including considering each incumbent director's continued service on the Board. The Committee annually reviews the skills and characteristics required of directors in the context of the current composition of the Board, our operating requirements and the long-term interests of our stockholders. In evaluating director candidates, the Committee takes into consideration many factors, including the individual's educational and professional background, whether the individual has any special experience in a relevant area, personal accomplishments and cultural experiences. In addition, the Committee may consider such other factors it deems appropriate when conducting its assessment of director candidates.

### Board Self-Evaluations

The Nominating and Governance Committee is responsible for handling the Board and committee annual self-evaluations to determine whether the Board and the committees are functioning effectively and to identify potential areas of improvement. The annual evaluation process includes the Chairman and the Lead Director interviewing each member of the Board and the committees discussing various topics and subject areas related to committee annual self-evaluations. These discussions are then reported to the Nominating and Governance Committee and the Board for their review and consideration.

other current and emerging issues to ensure that our Board and management understand and address the issues that are important to our stockholders.

Our key stockholder engagement activities in 2016 included attending investor and industry conferences, conducting investor road shows in major U.S. cities and hosting meetings at our corporate headquarters. In 2016, we engaged with holders of approximately 35 percent of our common stock outstanding and engaged with holders of approximately 68 percent of our common stock outstanding that was held by actively managed funds. This activity included heavy engagement with stockholders in connection with our acquisition of Bats. In addition, our quarterly earnings calls are open to the general public and feature a live webcast. Our Annual Meeting, to be held in Chicago, also includes a live webcast, so all of our stockholders may listen to the meeting remotely if they are unable to attend the meeting in person.

Periodically, our outreach includes discussions specifically focused on corporate governance and proxy season trends and issues, targeting our top stockholders. Through these discussions we gain valuable feedback, and this feedback is shared with the Board and its relevant committees and we take steps to address any areas of improvement.

Communications with Directors

As provided in our Corporate Governance Guidelines, stockholders and other interested parties may communicate directly with our independent directors or the entire Board. Our policy and procedures regarding these communications are located in the Investor Relations section of our website at <http://ir.CBOE.com>.

RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Our Audit Committee has responsibility for reviewing and approving all related party transactions. The Committee has adopted a related-party transactions approval policy. Under this policy, transactions between us and any executive officer, director or holder of more than 5% of our common stock, or any immediate family member of such person, must be approved or ratified by the Committee in accordance with the terms of the policy. Other than as described below, since January 1, 2016, there were no transactions in which CBOE Holdings or any of its subsidiaries was a party, in which the amount involved exceeded \$120,000 and in which a director, a director nominee, an executive officer, a security holder known to own more than 5% of our common stock or an immediate family member of any of the foregoing had, or will have, a direct or indirect material interest.

None of Messrs. Mitchell, Ratterman or Richter, each of whom joined our Board in connection with the completion of our acquisition of Bats, has any direct or indirect material interest in any transaction or proposed transaction required to be reported under Item 404(a) of Regulation S-K other than as reported under the heading "Interests of Bats' Directors and Executive Officers in the Merger" in the definitive joint proxy statement/prospectus dated December 9, 2016, filed by CBOE Holdings with the SEC on December 12, 2016, as amended and supplemented from time to time, which disclosure is incorporated herein by reference.

## BENEFICIAL OWNERSHIP OF MANAGEMENT AND DIRECTORS

The following table lists the shares of our common stock that were beneficially owned as of March 21, 2017, or as of the date otherwise indicated below, and the percentage of our common stock beneficially owned, based on 112,623,592 shares outstanding on March 21, 2017, including those issued in connection with the acquisition of Bats, by each of:

- our directors and nominees,
- our named executive officers,
- our directors and nominees and executive officers as a group, and
- beneficial owners of more than 5% of our common stock.

COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary

The design of our executive compensation program, including compensation practices and independent oversight, is intended to align management's interests with those of our stockholders and pay for our performance. Compensation awarded in 2016 is a result of yet another year of solid results. The financial results and performance highlights presented below are those of CBOE Holdings and its subsidiaries and do not include the results of Bats and its subsidiaries.

Compensation Governance Practices

What we do

Mitigate undue compensation risk

Enforce robust mandatory stock ownership guidelines

Utilize independent compensation consultant

Maintain double trigger change in control provisions in employment agreement and Executive Severance Plan

Provide clawback provisions for cash incentive and equity awards for executives

Limits on all incentive award payouts

What we don't do

No hedging or pledging of company stock

No excessive perquisites

No excessive use of employment contracts

No tax gross-ups upon a change in control or otherwise

Independent Oversight

The Compensation Committee:

is composed solely of independent directors;

- utilizes an independent compensation consultant; and

met 8 times during the year to discuss executive officer compensation, compensation practices and performance criteria.

Compensation Program

• Market competitive base salary.

• High proportion of named executive officers' total compensation was composed of performance-based compensation. Annual cash incentive for 2016 was based on corporate performance (weighted 70%) against pre-established pre-tax, pre-bonus net income levels and individual performance (weighted 30%) against individual and company-wide strategic goals.

• Long-term incentive for 2016 was composed of 50% time-based restricted stock units ("RSUs") and 50% performance-based restricted stock units ("PSUs").

• Market competitive retirement, medical, life and disability arrangements that are generally available to all employees.

• Market competitive executive retirement programs (however, we froze our Executive Retirement Plan to new entrants effective January 1, 2017).

Edward L. Provost	President and Chief Operating Officer
Alan J. Dean	Executive Vice President, Chief Financial Officer and Treasurer
Joanne Moffic-Silver	Executive Vice President, General Counsel and Corporate Secretary

The following is a brief summary of our 2016 business highlights as they relate to the key performance metrics used in our performance-based compensation program as well as other business highlights.

- We reported solid revenues with total operating revenues of \$657 million, up 4% compared to the prior year.

- Fourth consecutive year of record index trading, with new highs in SPX options and VIX futures.

  - CBOE Holdings entered into a \$1.0 billion senior unsecured delayed draw term loan facility on December 15, 2016 and issued on January 12, 2017 \$650 million aggregate principal amount of 3.650% Senior Notes due 2027, securing \$1.65 billion in the aggregate to finance the cash portion of its acquisition of Bats as well as the repayment of Bats' existing indebtedness.
- On December 15, 2016, we entered into a \$150 million revolving credit facility to be used for working capital and other general corporate purposes.

- We launched SPX Weeklys with Monday and Wednesday expirations and options on the FTSE 100, FTSE China 50 and FTSE Emerging Indexes.
  - We continued in-house custom development of our next generation of trading technology, CBOE Vector. However, the launch of CBOE Vector on CFE was suspended due to the acquisition of Bats.
- We made a majority equity investment in CBOE Vest Financial Group, Inc., an investment manager focused on Target Outcome Investment strategies, and made a minority equity investment in Eris Exchange Holdings, LLC, a U.S.-based futures exchange group offering swap futures as a capital-efficient alternative to over-the-counter swaps. We believe that the performance of the Company demonstrates that management is keenly focused on obtaining short-term results, while positioning the Company for long-term growth. Our business continued to generate strong cash flows from operations and we effectively deployed capital to enhance stockholder returns while retaining the flexibility to pursue new opportunities. To that end:
  - in keeping with our goal of consistent and sustainable dividend growth, in 2016, we increased our quarterly dividend by 9% to \$0.25 per share; and
  - in 2016, we had \$64 million in share repurchases under our share repurchase program and from employees.

Table of Contents

As a result of these business highlights and capital allocation decisions, we achieved a total stockholder return of approximately 16% for 2016 and approximately 50% over the past three years.

Compensation Philosophy and Summary

Our executive compensation program is designed to attract and retain talented and dedicated executives who are instrumental in our achievement of key strategic business objectives. To meet these objectives, the Compensation Committee designed and implemented a program that pays a substantial portion of executive compensation based on corporate and individual performance.

The Compensation Committee believes that compensation plays a vital role in contributing to the achievement of key strategic business objectives that ultimately drive long-term business success. Accordingly, we designed our executive compensation program to focus our executives on achieving critical corporate financial and strategic goals, while taking steps to position the business for sustained growth in financial performance over time.

The following table lists the various components included in total compensation for our executive officers and each element's purpose. Later sections provide additional details regarding each component.

Total

The following is a distribution of the total target 2016 compensation mix for the Chief Executive Officer and the other named executive officers as a group. Total target compensation is the sum of an executive officer's 2016 base salary, target annual incentive and target value for long-term equity awards (i.e., RSUs and PSUs).

Role of the Compensation Committee

The Compensation Committee is responsible for reviewing the various components of the total compensation program for all executive officers. The Compensation Committee either approves or makes recommendations to the full Board regarding compensation related decisions. To provide the Compensation Committee with advice and assistance related to the design of our incentive compensation plans, the Compensation Committee engaged Meridian Compensation Partners, LLC as its independent compensation consultant. Meridian consultants regularly attend meetings of the Compensation Committee. In addition, Messrs. Tilly, Provost and Dean generally attended in 2016 portions of the meetings of the Compensation Committee

to provide information and assistance, other than when the Compensation Committee discusses the respective executive's compensation.

Independent Compensation Consultant

The independent compensation consultant reviews the executive compensation program and advises the Compensation Committee on best practices and plan design to help improve the Company's program's effectiveness. In addition, the consultant provides advice to the Compensation Committee on the Company's compensation peer groups and on the competitive positioning of the various components of the executive compensation program. The independent compensation consultant also meets with the Compensation Committee in executive session without management present and may communicate directly, as needed, with members of the Compensation Committee and the Board at large. Based on a review of its engagement of the independent compensation consultant and consideration of factors set forth in SEC and NASDAQ rules, the Compensation Committee determined that Meridian's work did not raise any conflicts of interest and that it is independent.

Company's Response to Stockholder Vote on Say-on-Pay

At the 2016 Annual Meeting of Stockholders, our "say-on-pay" proposal received the support of over 95% of the votes cast for approval of our 2015 executive compensation program as disclosed in our 2016 Proxy Statement, and every year since going public in 2010, we have received over 85% stockholder support of our executive compensation programs. The Compensation Committee has reviewed the results of the stockholder vote on our 2015 executive compensation program and considered such results supportive of our executive compensation program and the Compensation Committee's measured approach to modifying our compensation practices to enhance their alignment with stockholder interests. In addition, the Compensation Committee has determined that the vote result did not warrant any large-scale changes to our executive compensation program; however, the Compensation Committee continues to take steps to ensure our compensation practices remain aligned with best practices and stockholder interests.

Peer Groups and Comparative Data

Based on advice from our independent compensation consultant, the Compensation Committee approved two peer groups from which it derived competitive market compensation data: (i) the Securities Exchange Peer Group and (ii) the Broader Financial and Technology Industry Peer Group. The Securities Exchange Peer Group is composed of seven companies, each with a heavy focus on our industry. The Broader Financial and Technology Industry Peer Group is composed of 20 companies, which include financial services firms with a heavy focus on technology and with corporate profiles similar to ours. The Compensation Committee utilizes this two peer group model to derive meaningful compensation data due to our unique business model and to ensure that our target compensation is competitive. The Compensation Committee also uses this data as points of reference, rather than as the determining factors in setting compensation for our executive officers.

Table of Contents

The Compensation Committee annually reviews the two peer groups. Subsequent to the 2016 compensation decisions, the Committee approved updates to the Broader Financial and Technology Industry Peer Group, removing BGC Partners, Inc. and GFI Group Inc. from the group as a result of the two companies merging in 2016. The change decreased the number of peers in the Broader Financial and Technology Industry Peer Group from 20 to 18 companies. The Compensation Committee made no changes to the Securities Exchange Peer Group.

The Compensation Committee compared our corporate performance to our peer groups in the areas of revenues, market capitalization, operating margin and number of employees. With respect to the industry-specific Securities Exchange Peer Group, the Compensation Committee recognizes that the Company falls below the median annual revenue, but believes that the Securities Exchange Peer Group is appropriate due to the limited number of competitors in our industry. With respect to the Broader Financial and Technology Industry Peer Group, the Company's annual revenue falls near the median of the peer group. Given the acquisition of Bats, the Compensation Committee expects to review the compositions of these peer groups for 2017.

Elements of Compensation

**Base Salary.** The base salary for our named executive officers is designed to be part of a competitive total compensation package when compared to both of our peer groups. Base salary provides our named executive officers with a measure of certainty within their total compensation package and provides a baseline for their target payout opportunity under the annual incentive plan. In setting base salary, in addition to considering peer group data, the Compensation Committee also considered for each named executive officer the following factors:

position, individual performance,  
 experience, potential to influence our future success, and  
 industry specific knowledge, total compensation.  
 level of responsibility,

For 2016, the Compensation Committee reviewed and made recommendations to the Board regarding the base salaries for each of the named executive officers, with input from Mr. Tilly regarding the individual performance of Mr. Provost and from Messrs. Tilly and Provost regarding the individual performances of Mr. Dean, Ms. Moffic-Silver and Mr. O'Connell. Due to her assumption of additional responsibilities and duties, Ms. Moffic-Silver's base salary was increased 3% in May 2016 to better align her base salary with comparative market data. We made no changes to the base salaries for Messrs. Tilly, Provost, Dean and O'Connell in 2016.

**Annual Incentive.** The annual incentive, or bonus, component of the total compensation package paid to our named executive officers is intended to reward performance during the prior year, including performance relative to goals that were approved by the Board and Compensation Committee at the beginning of the year. In the first quarter of each year, the Compensation Committee reviews corporate and individual performance for the prior year and makes recommendations to the Board for annual incentives to be paid to the named executive officers and other executive officers for the prior year performance. The Board may approve, disapprove or modify the recommendations of the Compensation Committee.

The Compensation Committee established a target annual incentive opportunity for each of the executive officers by considering market data derived from our two peer groups and the following factors: the executive officer's job responsibilities and experience, pay history and ability to affect our success in the upcoming year. Below are the 2016 target annual incentive amounts for the named executive officers, shown as a percentage of salary. The target annual incentive opportunity amount for Ms. Moffic-Silver increased from 117% in 2015 to 140% in May 2016, due to her increase in responsibilities and duties in 2016. We made no changes to the target annual incentive opportunity amounts for Messrs. Tilly, Provost, Dean and O'Connell in 2016.

Table of Contents

## Named Executive Officer Target Annual Incentive Opportunity as Percentage of Base Salary

Edward T. Tilly	150%
Edward L. Provost	150%
Alan J. Dean	140%
Joanne Moffic-Silver	140%
Gerald T. O'Connell	140%

The Compensation Committee determines actual bonus payouts based on achieved results against pre-established performance metrics. The use of pre-established performance metrics creates an annual incentive plan that rewards our executive officers for superior performance, reduces payouts when performance does not meet target and eliminates payouts if performance does not meet threshold. In addition, the performance metrics create a more structured, formulaic annual incentive plan - the executive officers know throughout the year what needs to be accomplished and what specific bonus dollar amounts can be earned at different performance levels.

The Company funds the annual incentive plan for our named executive officers from a bonus pool based on a corporate performance metric. The Compensation Committee also establishes annual performance metrics for each named executive officer that include a corporate performance metric and non-financial individual performance goals. At the beginning of 2016, the Compensation Committee established the bonus "pool" based on a percentage of the Company's pre-tax, pre-bonus net income and allocated a fixed proportion of any bonus pool formed to each of our named executive officers. However, the Compensation Committee maintains discretion to adjust a named executive officer's allocable share of the bonus pool based on achieved performance against a corporation performance metric (pre-tax, pre-bonus net income) weighted 70% and individual performance goals weighted 30%. In no event may the Compensation Committee award an annual incentive bonus in an amount greater than a named executive officer's allocable portion of the bonus pool.

Under the annual incentive plan, the Compensation Committee established threshold, target and maximum performance levels. The Company will pay no annual incentive bonus if actual performance is below threshold. The following chart shows the aggregate bonus payout opportunity for each named executive officer at these performance levels.

Named Executive Officer	Base Salary*	Target Annual Incentive Opportunity as Percentage of Base Salary	Bonus Payout Opportunity*		
			Threshold (50% Payout)	Target (100% Payout)	Maximum (200% Payout)
Edward T. Tilly	\$1,000	150%	\$750	\$1,500	\$3,000
Edward L. Provost	\$630	150%	\$473	\$945	\$1,890
Alan J. Dean	\$525	140%	\$368	\$735	\$1,470
Joanne Moffic-Silver	\$433	140%	\$303	\$606	\$1,212

Corporate Performance. The Compensation Committee established the following levels of the Company's pre-tax, pre-bonus net income for 2016 to be met with respect to threshold, target and maximum bonus payouts. The Compensation Committee used straight-line interpolation to determine amounts for any results in between the threshold and target performance levels and in between the target and maximum performance levels.

Performance Metric	Weighting	Threshold (50% Payout)	Target (100% Payout)	Maximum (200% Payout)
Corporate Performance				
Pre-tax, pre-bonus net income	70%	\$309 million	\$363 million	\$418 million

"Pre-tax, pre-bonus net income" is net income before taxes excluding the annual incentive accrual, which may be further adjusted for extraordinary items that are not reflective of performance and therefore, should not be included in the calculation. The target pre-tax, pre-bonus net income was based on our Board-approved business plan. In addition,

Committee approved the selected pre-tax, pre-bonus net income measure to focus and reward management's efforts to increase trading in our products and managing expenses. The Compensation Committee adjusted actual pre-tax, pre-bonus net income to remove the impact of the acquisition of Bats. The Compensation Committee excluded costs in connection with the acquisition of Bats, as such acquisition costs are not reflective of performance of the Company. For 2016, the unweighted payout percentage for corporate performance was approximately 83% of each named executive officer's target annual incentive award opportunity.

Individual Performance. The individual performance goals are 30% of each named executive officer's target annual incentive opportunity. Based upon data and analysis on each goal as provided by management, the Compensation Committee determined the unweighted payout percentage of target annual incentive award opportunity for individual performance for each named executive officer.

Early in 2016, the Compensation Committee set the following strategic goals for 2016:

• **Resources:** Ensure resources are in place to implement plans to leverage existing technology and develop new trading technology;

• **Indexes:** Strengthen core index franchise;

• **Methodologies:** Pursue leveragable methodologies;

• **Customer Engagement:** Reach out via education, technology and analytics;

• **Geographic Expansion:** Widen global access and distribution;

• **Asset Class Diversification:** Create markets for the Company's capabilities; and

• **Customer Capital:** Facilitate products and customers.

As discussed above in "2016 Business Highlights," overall, we substantially performed on our targeted 2016 strategic goals.

The Compensation Committee received from Mr. Tilly input regarding the individual performance of Mr. Provost.

The Compensation Committee also received from Messrs. Tilly and Provost input regarding the individual

performances, and recommendations regarding incentive compensation, of Mr. Dean, Ms. Moffic-Silver and Mr.

O'Connell. The Compensation Committee, with input from the Board, also evaluated the performance of Messrs. Tilly and Provost with respect to the following:

Mr. Tilly's Individual Goals:

• manage the Company and its affiliates to achieve the strategic goals listed above which allow for long-term success;

• manage communications with the investment community so as to cultivate a loyal stockholder base;

• work with the Compensation Committee and the Board in continuing to develop and enhance the Company's

• succession plan for all senior management positions. The succession plan will identify and qualify multiple potential successors for each senior management position; and

• work with government officials and ensure the Company remains a leader in policy-making that may affect its business.

Mr. Provost's Individual Goals:

• ensure resources are in place to execute the Company's strategic goals listed above;

• manage communications with the investment community so as to cultivate a loyal stockholder base; and

manage the operation of the Company and its affiliates to ensure reliable and efficient service at a competitive cost. Based on these factors and its deliberations, the Compensation Committee determined for individual performance the unweighted payout percentage of each named executive officer's target annual incentive award opportunity. The "Non-Equity Incentive Plan Compensation" column of the Summary Compensation Table reflects amounts paid under the annual incentive plan.

In addition to his annual incentive award, the Compensation Committee, provided Mr. O'Connell a cash award in the amount of \$333,333 for his continued role in the successful development of CBOE Vector. This was the second of three annual installments of the \$1,000,000 incentive award related to the development of CBOE Vector. The "Bonus" column of the Summary Compensation Table reflects this cash award paid to Mr. O'Connell.

**Long-Term Incentive Plan.** The Compensation Committee strongly believes that a stock ownership culture enhances our long-term success. We have adopted the Second Amended and Restated CBOE Holdings, Inc. Long-Term Incentive Plan, which was approved by stockholders at the 2016 Annual Meeting of Stockholders. Under the plan, the Compensation Committee may grant equity or cash awards, including restricted stock, restricted stock units and options.

The Compensation Committee believes that equity awards assist us in meeting the following goals:

- aligning the financial interests of our Board members and employees with the interests of our stockholders;
- aligning our Board and executive compensation with that of our peer groups in terms of vehicle and value;
- providing competitive compensation to assist in retaining highly skilled and qualified Board members and executives;
- and
- deferring a significant portion of total compensation to the future and linking the ultimate value of the award to our future stock price.

#### 2016 Grants

The Compensation Committee and the Board approved equity awards in early 2016 for 2015 service. The grants were made at the target amount for each executive. The Compensation Committee set each named executive officer's target long-term incentive value based on peer group market data and individual executive performance. Once the Compensation Committee set the target long-term incentive value for each named executive officer, one-half of the target value was granted in the form of time-based RSUs and one-half of the target value was granted in the form of PSUs.

**Time-Based Restricted Stock Units.** Time-based RSUs comprise 50% of the 2016 grant value and have a three-year vesting period, with one-third of the RSUs vesting on each of the first, second and third anniversaries of the grant date. The vesting of these awards is not subject to performance conditions.

**Performance-Based Restricted Stock Units.** The PSUs comprise the remaining 50% of the 2016 grant value. As described below, one-half of PSU grants are subject to the achievement of relative total shareholder return ("TSR") against pre-determined performance goals and one-half of PSU grants are subject to the achievement of earnings per share ("EPS") against pre-determined performance goals, both over a three-year performance period.

**PSUs subject to Relative Total Shareholder Return ("PSUs-TSR").** 25% of the long-term incentive grant is subject to a relative TSR performance condition. The number of PSUs-TSR that will vest at the end of the three-year performance period will vary from 0% to 200% of the target number of PSUs-TSR granted to each named executive officer, based on our TSR relative to the TSR for the S&P 500 Index during the three-year performance period. We calculate TSR as the increase in our stock price over the performance period plus reinvested dividends, divided by the stock price at the beginning of the performance period. The Compensation Committee selected the relative TSR performance metric to incent management to increase TSR for the benefit of stockholders, and believe that tying a portion of each executive's compensation to TSR compared to a broad index like the S&P 500 Index will encourage management to generate superior returns.

**PSUs subject to Earnings Per Share ("PSUs-EPS").** 25% of the long-term incentive grant is subject to an EPS performance condition. The number of PSUs that will vest at the end of the three-year performance

Table of Contents

period will vary from 0% to 200% of the target number of PSUs-EPS granted to each named executive officer, based on our cumulative EPS during the three-year performance period, as adjusted for certain extraordinary, unusual or non-recurring items. The Compensation Committee selected the cumulative EPS performance metric to encourage management to continue growing the business and increasing trading on our exchanges. Because of the operating leverage inherent in our business, they believe that EPS growth over the next three years is an appropriate basis for these awards.

The Company will settle vested PSUs and RSUs in shares of the Company's common stock. For each vested RSU or PSU, the named executive officer will receive one share of our common stock. To receive shares earned under RSUs and PSUs, a named executive officer must be continuously employed during the applicable service period or performance period, subject to acceleration in the event of a change in control or in the event of a participant's earlier death, disability or qualified retirement.

The Compensation Committee equally weighted PSUs-TSR and PSUs-EPS so that management will maintain an equal focus on enhancing Company TSR and profitably grow the Company to increase EPS. The Compensation Committee granted time-based RSUs to align the interests of management with stockholders and to provide a retention incentive.

The details of the RSUs with a three-year vesting period awarded on February 19, 2016 are as follows.

Named Executive Officer	# of Shares
Edward T. Tilly	20,227

## 2014 Grants

In early 2017, the Compensation Committee determined, with respect to the 2014 grants of equity awards, the achievement of relative TSR against pre-determined performance goals and the achievement of EPS against pre-determined performance goals, both over a three-year performance period from January 1, 2014 through December 31, 2016. The TSR percentile attained was the 72nd percentile, and so 173.3% of the PSUs-TSR vested for each named executive officer. The cumulative EPS attained was \$7.09, and so 87.9% of the PSUs-EPS vested for each named executive officer. Certain details of the PSUs based on achievement of 2014-2016 EPS and TSR performance goals are as follows and do not include the dividend equivalent payments. The specific performance goals for the PSUs-TSR and PSUs-EPS for the 2014-2016 performance period were previously disclosed in our proxy statement covering 2014 compensation.

### Clawbacks

The Compensation Committee has a policy for the clawback of cash incentive payments and long-term incentives based on the provisions of the Dodd-Frank Act, as currently proposed. The policy provides that we will attempt to recover incentive amounts paid to executive officers in the event of any material noncompliance with any financial reporting requirement. The policy has a three-year look-back and applies to both current and former executives, regardless of such executive's involvement in the noncompliance. The equity award agreements contain provisions applying the clawback policy to equity grants.

### Employee Benefit Plans, Severance, Change in Control and Employment-Related Agreements

We make retirement, medical, life and disability plans available to all of our employees and, for certain grandfathered named executive officers and other employees, we provide participation in the Supplemental Executive Retirement Plan and the Executive Retirement Plan, which are described more fully below under "Summary Compensation – Non-Qualified Deferred Compensation Plans." We offer these plans in order to provide a competitive benefits program, a level of protection for catastrophic events and income during retirement. We do not provide any defined benefit retirement plans to our executive officers or employees. Effective January 1, 2017, the Company froze the Executive Retirement Plan to new executive officers and employees. In addition, we have an employment agreement with Mr. Tilly and an Executive Severance Plan for other named executive officers in order to encourage retention, maintain a consistent management team to effectively run our operations and allow executives to focus on our strategic business priorities. Mr. Tilly's employment agreement and the Executive Severance Plan contain severance and change in control provisions and are described more fully below under "Severance, Change in Control and Employment-Related Agreements." Any payments under the employment agreement and the Executive Severance Plan upon a change in control will only occur if the named executive officer's employment is also terminated without cause or he or she resigns for good reason during a set period following the change in control, known as a double trigger provision.

### Tax and Accounting Considerations

The Compensation Committee considers the tax and accounting implications of compensation to us and the tax implications to our named executive officers. The Compensation Committee strives to provide compensation deductible under Section 162(m) of the Internal Revenue Code and, to that end, certifies the level of attainment of the performance targets under the Second Amended and Restated Long-Term Incentive Plan annually in accordance with Section 162(m). However, the Compensation Committee reserves the right to pay compensation that is not deductible for tax purposes when, in its judgment, such compensation is appropriate.

Risk Assessment

We believe that any potential risks arising from our employee compensation policies and practices are not likely to have a material adverse effect on us. With assistance from the independent compensation consultant, the Compensation Committee reviewed and discussed a risk assessment of our compensation policies and practices for all employees for 2016, including non-executive officers, in its oversight capacity.

The Compensation Committee and management considered a number of factors, including the following factors, when reviewing potential risk from our employee compensation policies and practices:

Our compensation program is designed to provide a mix of both fixed and variable incentive compensation.

The variable portions of compensation are designed to reward both annual and long-term performance. We believe that this design mitigates any incentive for short-term risk-taking that could be detrimental to our company's long-term best interests.

Our senior executives are subject to stock ownership guidelines, which we believe provide incentives for our executives to consider the long-term interests of our company and our stockholders and discourage excessive risk-taking that could negatively impact our stock price over time.

We include clawback provisions in our executives' cash incentive and equity incentive awards as a mechanism to recover compensation in the event of financial reporting wrongdoing.

We utilize an independent compensation consultant to provide the Compensation Committee with advice on best practices and the risks associated with various compensation policies.
