Date of reporting period: November 1, 2016 – October 31, 2017

Item 1. Reports to Stockholders.

Section 19(b) Disclosure

October 31, 2017 (Unaudited)

Clough Global Dividend and Income Fund, Clough Global Equity Fund, and Clough Global Opportunities Fund (each a “Fund” and collectively, the “Funds”), acting pursuant to a Securities and Exchange Commission (“SEC”) exemptive order and with the approval of each Fund’s Board of Trustees (the “Board”), have adopted a plan, consistent with each Fund’s investment objectives and policies to support a level distribution of income, capital gains and/or return of capital (the “Plan”). In accordance with the Plan, until July 2019, each Fund will pay monthly distributions in an annualized amount of not less than 10% of the respective Fund's average monthly net asset value (“NAV”). From August 2019 to July 2021, each Fund will pay monthly distributions in an amount not less than the average distribution rate of a peer group of closed-end funds selected by the Board of Trustees.

Under the Plan, each Fund will distribute all available investment income to its shareholders, consistent with each Fund's primary investment objectives and as required by the Internal Revenue Code of 1986, as amended (the “Code”). If sufficient investment income is not available on a monthly basis, each Fund will distribute long-term capital gains and/or return of capital to shareholders in order to maintain a level distribution. Each monthly distribution to shareholders is expected to be at the fixed amount established by the Board, except for extraordinary distributions and potential distribution rate increases to enable each Fund to comply with the distribution requirements imposed by the Code.

Shareholders should not draw any conclusions about each Fund’s investment performance from the amount of these distributions or from the terms of the Plan. Each Fund’s total return performance on net asset value is presented in its financial highlights table.

Until July 2021, each Board may amend, suspend or terminate each Fund’s Plan without prior notice if the Board determines in good faith that continuation would constitute a breach of fiduciary duty or would violate the Investment Company Act of 1940. The suspension or termination of the Plan could have the effect of creating a trading discount (if a Fund's stock is trading at or above net asset value) or widening an existing trading discount. Each Fund is subject to risks that could have an adverse impact on its ability to maintain level distributions. Examples of potential risks include, but are not limited to, economic downturns impacting the markets, increased market volatility, companies suspending or decreasing corporate dividend distributions and changes in the Code. Please refer to the Notes to Financial Statements in the Annual Report to Shareholders for a more complete description of its risks.

Please refer to Additional Information for a cumulative summary of the Section 19(a) notices for each Fund's current fiscal period. Section 19(a) notices for each Fund, as applicable, are available on the Clough Global Closed-End Funds website www.cloughglobal.com.

Clough Global Funds Shareholder Letter

October 31, 2017 (Unaudited)

To Our Investors:

Annual Results

Clough Global Dividend and Income Fund (GLV)

During the year ended October 31, 2017, the Clough Global Dividend and Income Fund's total return, assuming reinvestment of all distributions, was 17.89% based on the net asset value and 34.22% based on the market price of the Fund. The S&P 500 and the Blended Index (50% Barclays U.S. Aggregate Index, 50% MSCI World Index) returned 23.63% and 11.68% respectively over the same period. During the year ended October 31, 2017, the Fund paid \$1.29 per share in distributions. As of October 31st, the Fund had a dividend distribution rate on the market price of 9.11%.

Clough Global Equity Fund (GLQ)

During the year ended October 31, 2017, the Clough Global Equity Fund's total return, assuming reinvestment of all distributions, was 25.99% based on the net asset value and 41.01% based on the market price of the Fund. The S&P 500 and the MSCI World Index returned 23.63% and 23.46% respectively over the same period. During the year ended October 31, 2017, the Fund paid \$1.24 per share in distributions. As of October 31st, the Fund had a dividend distribution rate on the market price of 9.08%.

Clough Global Opportunities Fund (GLO)

During the year ended October 31, 2017, the Clough Global Opportunities Fund's total return, assuming reinvestment of all distributions, was 20.99% based on the net asset value and 39.95% based on the market price of the Fund. The S&P 500 and the Blended Index (25% Barclays U.S. Aggregate Index, 75% MSCI World Index) returned 23.63% and 17.44% respectively over the same period. During the year ended October 31, 2017, the Fund paid \$1.07 per share in distributions. As of October 31st, the Fund had a dividend distribution rate on the market price of 9.37%.

Final Thoughts for Fiscal Year 2017

For the fiscal year ending on October 31, 2017, all three funds exhibited very strong absolute and relative performance to their respective benchmarks. The leading contributors to performance were found in the information technology

and consumer discretionary sectors while the largest detractors were in financial and industrial short positions.

The largest individual contributor in all three funds was Apple. Bank of America, Citigroup, as well as Liberty Ventures were also top performers that are still large positions in the portfolio today. We will go into more detail on our larger themes later in the letter.

During the fiscal period, the top five detractors included US Treasuries, Deutsche Lufthansa, Fairway Energy, KBW Regional Bank ETF and State Bank of India.

Our short position in the KBW Regional Bank ETF was a large detractor, but we are inclined to keep this position as a flattening yield curve and cost pressures continue to cut into small banks' margins and ability to compete with the larger money center banks. We are still very bullish on India, but decided to exit the State Bank of India position. We still believe in a low rate environment going forward so we will continue to hold the US Treasuries despite the losses incurred this year. The recent flattening in the yield curve has offset some of these losses. The funds' short position in German airline Deutsche Lufthansa was also a detractor and is no longer held in the funds. Fairway Energy is a privately held security that is in the process of building salt domes for oil storage in Texas. Construction delays and the active hurricane season have delayed the initial public offering.

COMMENTARY ON SOME OF OUR CURRENT LARGER THEMES

THE APPLE-LED SMARTPHONE CYCLE

Both Apple Inc. and Samsung remain among our largest current holdings. Sentiment surrounding the smartphone demand cycle, in particular the iPhone X ("X"), is too pessimistic and we think the market is seriously under pricing the phone's likely success. Reports of disappointing sales of the iPhone 8 simply point to more pent up demand for the more profitable X, in our view. Over the next few years, as Apple moves its loyal user base to the iPhone X and iPhone 8+, there is a likelihood that pricing will rise by 30-40% over older iPhone models. That says to us that revenues will likely expand far more than current analyst models indicate. There is a lot more profit margin built into the X as price increases do far more than simply adjust for component costs. While announced price increases are \$200 higher on the X, for example, we do not think costs will be up more than \$80. Yet Apple stock sells at 11x earnings per share (EPS) once balance sheet cash is deducted. We also think investors will come to understand that the value of Apple's loyal customer base is unrecognized by the marketplace and its secular price-earnings ratio (P/E) can rise.

Meanwhile, Samsung is demonstrating that a \$950 phone can sell even in emerging markets and that indicates Apple's iPhone X could be very successful in China and other emerging markets. The Samsung Galaxy Note 8 upon introduction received over 250,000 registrations in almost no time. Ironically for Samsung, we think there is more money to be made selling components to Apple than in selling its own phones. The company is also a strong participant in both semiconductor memory and organic light-emitting diode (OLED) screen design which will be used

across all industry products. Yet despite this near proprietary technological leadership, the stock sells at a mere three times earnings before interest, tax, depreciation, and amortization (EBITDA) to enterprise value.

October 31, 2017 (Unaudited)

CHINA INTERNET

A significant part of our China portfolio includes a number of what we consider to be “best in class” China internet companies. After flat lining for several years, China internet stocks are performing in response to acceleration in revenues that we think is sustainable. E-commerce activity is booming in China, it is almost double that of the United States, and the backdrop for sustained growth in internet activity is strong. The most inefficient state-owned enterprises (SOEs) are being restructured and in the industrial sector steel and coal manufacturing is being replaced by auto and aerospace components. And finally the “One Belt, One Road” initiative, a development strategy that focuses on connectivity between Eurasian countries, looms as a massive infrastructure event promising strong fiscal stimulus in coming years.

China's internet companies are finding more effective ways to monetize their customer bases, and the companies are penetrating into third tier cities where incomes are growing more rapidly. They are also pushing the envelope in terms of innovation. The stocks in the aggregate trade at substantial discounts to their US counterparts, which is understandable given complicated offshore public ownership structures. Our view, however, is that these companies have global ambitions so global stock ownership makes sense and their growth rates are so much higher that valuations can converge somewhat over time.

We believe a number of our current portfolio holdings in this area have very attractive sustainable growth trajectories driven by a number of factors. For example, JD.com operates in the business to consumer sector of China's internet economy, and is the only company in China with end to end logistics. As a result, the customer experience is considered better than most competitors. Many of its clients are offered same day/next day delivery, for example.

A current holding in GLQ and GLO, Baidu, is China's dominant search engine with over 80% market share. The company's past financial performance had been hurt by ill-advised investments in the online to offline segment, which dragged corporate operating margins from the low 40% range in 2013 to the low 20% range in the beginning of 2017. What makes us more optimistic about the prospects for the stock, however, was the appointment in the beginning of January of Qi Lu as president of the company. Mr. Lu was a key deputy to Microsoft's Chief Executive Officer Satya Nadella and was in charge of the Office and Bing search engine products. Since his ascension, we have seen Baidu divest from some of its non-core businesses and focus its efforts not only in search, but also in its iQiyi business, which is similar to Netflix, and artificial intelligence. We have recently seen his efforts pay off, with operating margins recovering nicely in the company's most recent quarter. Management recently guided for better-than-consensus revenues. We believe that Baidu's restructuring is just beginning and the company's growth drivers in search, video and artificial intelligence have created a nice platform for sustainable growth.

Baozun is the leading provider of ecommerce solutions in China. As e-commerce in China grows, the need for supply chains solutions, especially warehousing, will also grow. There is a particular opportunity to provide these services to foreign brands as they grow their business on Alibaba, JD.com and their own websites. There is also a large need to service local Chinese businesses as they migrate from offline to online. These business need a platform to manage fluctuating online transaction volumes and payment processing, in addition to warehouse management and shipping capabilities. Companies like Shopify, which has a similar model here, have been very successful and we have high expectations for Baozun if it can replicate a fraction of this success in China.

INDIA

Our bullish feelings for India come from the emergence of financial sector reform, a positive credit cycle and a leader that has clearly laid out an economic vision. One year out from the exchange of old high value banknotes for new, the so-called “demonetization” scheme, the motive is clearer. It was more than a crackdown on corruption and money laundering. It reflected Mr. Modi’s intent to change the history of India and purge it of socialist era economic policies by removing the easy use of cash to operate within it. The Goods and Services Tax (GST) and bankruptcy law changes enhance productivity and broaden the tax base, which gives the government more fiscal flexibility. There is a growing sense that government policy will be focused on growing the economy. Sixty five percent of India’s population is less than 35 years of age and they have to be provided jobs. Fortunately, they have a person with a vision and mandate to lead.

Freeing up the flow of credit is a key challenge because the state-owned banks, which control 70% of bank assets in the country, are paralyzed by bad loans, are essentially without equity and are shrinking. India is pushing to restructure and shrink public banks. Most press commentary rests on current dysfunction but evidence is emerging that India can grow more rapidly than most people think. For example, India posted 6% growth in the face of a virtual collapse in available cash after Mr. Modi’s demonetization scheme was implemented.

India has a vast stock of private savings and now that available cash has been restored, non-banks and private sector banks are taking up the slack, providing much needed loans to small and mid-sized businesses. Wealth is no longer being stored only in land and collectibles, but in liquid savings. Loans are picking up as customers switch from high cost sidewalk lenders. Private non-bank lenders are lending to poorer Indians who use the proceeds to pay off the loan sharks, then they can take out the loans which lift them out of poverty. Non-banks are growing loans at 25% per annum and many focus on a single sector. Two of our largest India holdings such as Housing Development Finance Corp. and Indiabulls Housing Finance are focused on funding the reconstruction of India’s poor housing stock since government subsidies are precisely aimed at that. Private banks have the technology to assess creditworthiness and those investments should be buttressed by private equity flows. Even life insurance sales are picking up in India, growing 25% in recent years.

FIXED INCOME

The funds are currently positioned very conservatively in fixed income. The yield curve has flattened and credit spreads are just off their tightest levels of the year. The funds currently hold short dated investment grade corporate debt and longer dated US Treasuries. We continue to believe in a low rate environment in the long term and will use any widening in credit spreads or increase in treasury yields as a potential buying opportunity going forward.

We still see attractive income and capital appreciation potential in some of our specialty finance names like middle market lender Ares Capital Corp and commercial mortgage real estate investment trust (REIT) Starwood Property Trust. We see value in names like Ares and Starwood that have long term track records in managing credit, produce 8% to 10% dividend yields, and are trading historically below their book value multiple relative to their return on equity.

LOOKING FORWARD: THE REEMERGENCE OF VALUE AND EMERGING MARKET STRENGTH ARE FUND TAILWINDS

Several of the fund's strategies are performing strongly after trading within a limited range for a few years while the underlying fundamental values have substantially increased. While US stocks have been strong for almost a decade and many commentators express "bubble concerns", emerging Asian markets have only recently come to life and it is our view they could outperform meaningfully in coming years. We believe we know how to invest in these markets. We believe that our investments in large US banks will likely also see valuation upgrades as it becomes clear how dominant and profitable their consumer franchises are becoming. The domestic housing cycle is also finally picking up, providing a positive backdrop for residential housing stocks.

Long short strategies have faced huge headwinds in recent years in an exchange traded fund (ETF) driven world, but we think that will change. Our short book has become more focused on companies displaying bad balance sheets, long term deterioration in revenues and declining profitability. A flawed natural gas ETF, lenders with increasing asset risk and companies on the wrong side of emerging technologies are a few examples.

FUND DISCOUNT MANAGEMENT PROGRAM

Edgar Filing: Clough Global Dividend & Income Fund - Form N-CSR

The funds have taken a number of steps in the last year to shrink the price discount to net asset value. Throughout the year, Clough Capital made a number of changes to reduce the expense ratios of the fund. This past fall, the fund's Board of Trustees agreed to a managed distribution rate of 10% until July 2019, subject to certain conditions. History has shown that funds with higher distribution rates trade at more attractive valuations relative to net asset value. Finally, the Board also implemented a significant tender offer in November at 98.5% of net asset value. Clough and the Board will continue to look for other opportunities to take shareholder friendly actions that will also shrink the funds price discount to net asset value.

If you have any questions about your investment, please call 1 877 256 8445.

Sincerely,

Charles I. Clough, Jr.

Robert M. Zdunczyk

Clough Global Funds Shareholder Letter

October 31, 2017 (Unaudited)

This letter is provided for informational purposes only and is not an offer to purchase or sell shares. Clough Global Dividend and Income Fund, Clough Global Equity Fund and Clough Opportunities Fund (the "Funds") are closed-end funds, which are traded on the NYSE American LLC, and does not continuously issue shares for sale as open-end mutual funds do. The market price of a closed-end Fund is based on the market's value.

The information in this letter represents the opinions of the individual Portfolio Managers and is not intended to be a forecast of future events, a guarantee of future results, or investment advice. Past performance is no guarantee of future results.

MSCI World Index: a stock market index of world stocks. It is maintained by MSCI Inc. and is often used as a common benchmark for world or global stock funds. The index includes a collection of stocks of all the developed markets in the world as defined by MSCI.

S&P 500 Index: Broad-based measurement of changes in stock market conditions based on the average performance of 500 widely held common stocks commonly known as the Standard & Poor's 500[®] or S&P 500[®]. Index in unmanaged.

Barclays U.S. Aggregate Bond Index: Measures the performance of the U.S. investment grade bond market. The index invests in a wide spectrum of public, investment-grade, taxable, fixed income securities in the United States, including government, corporate, and international dollar denominated bonds, as well as mortgage-backed and asset-backed securities, all with maturities of more than 1 year.

The net asset value (NAV) of a closed-end fund is the market price of the underlying investments (i.e., stocks and bonds) in the fund's portfolio, minus liabilities, divided by the total number of fund shares outstanding. However, the fund also has a market price; the value of which it trades on an exchange. This market price can be more or less than its NAV.

It is not possible to invest directly in an Index.

RISKS

An investor should consider investment objectives, risks, charges and expenses carefully before investing. To obtain a prospectus, annual report or semiannual report which contains this and other information visit www.cloughglobal.com or call 1-877-256-8445. Read them carefully before investing.

A Fund's distribution policy will, under certain circumstances, have certain adverse consequences to the Fund and its shareholders because it may result in a return of capital resulting in less of a shareholder's assets being invested in the Fund and, over time, increase the Fund's expense ratio.

Distributions may be paid from sources of income other than ordinary income, such as net realized short-term capital gains, net realized long-term capital gains and return of capital. Based on current estimates, we anticipate the most recent distribution has been paid from short-term and long-term capital gains. The actual amounts and sources of the amounts for tax reporting purposes will depend upon a Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. If a distribution includes anything other than net investment income, the Fund provides a Section 19(a) notice of the best estimate of its distribution sources at that time. These estimates may not match the final tax characterization (for the full year's distributions) contained in shareholders' 1099-DIV forms after the end of the year.

A Fund's investments in securities of foreign issuers are subject to risks not usually associated with owning securities of U.S. issuers. These risks can include fluctuations in foreign currencies, foreign currency exchange controls, social, political and economic instability, differences in securities regulation and trading, expropriation or nationalization of assets, and foreign taxation issues.

A Fund's investments in preferred stocks and bonds of below investment grade quality (commonly referred to as "high yield" or "junk bonds"), if any, are predominately speculative because of the credit risk of their issuers.

An investment by a Fund in REITs will subject it to various risks. The first, real estate industry risk, is the risk that the REIT share prices will decline because of adverse developments affecting the real estate industry and real property values. In general, real estate values can be affected by a variety of factors, including supply and demand for properties, the economic health of the country or of different regions, and the strength of specific industries that rent properties. The second, investment style risk, is the risk that returns from REITs—which typically are small or medium capitalization stocks—will trail returns from the overall stock market. The third, interest rate risk, is the risk that changes in interest rates may hurt real estate values or make REIT shares less attractive than other income-producing investments. Credit risk is the risk that an issuer of a preferred or debt security will become unable to meet its obligation to make dividend, interest and principal payments.

Interest rate risk is the risk that preferred stocks paying fixed dividend rates and fixed-rate debt securities will decline in value because of changes in market interest rates. When interest rates rise the value of such securities generally

will fall. Derivative transactions (such as futures contracts and options thereon, options, swaps, and short sales) subject a Fund to increased risk of principal loss due to imperfect correlation or unexpected price or interest rate movements. Compared to investment companies that focus only on large companies, the Fund's share price may be more volatile because it also invests in small and medium capitalization companies.

Past performance is no guarantee of future results.

Libor Rates:

3M US L - 3 Month LIBOR as of October 31, 2017 was 1.38%

Pledged security; a portion or all of the security is pledged as collateral for securities sold short or borrowings. As of October 31, 2017, the aggregate value of those securities was \$145,879,475, representing 95.20% of net assets. (See Note 1 and Note 6).

(b) Loaned security; a portion or all of the security is on loan as of October 31, 2017.

(c) Non-income producing security.

Security exempt from registration of the Securities Act of 1933. These securities may be resold in transactions exempt from registration under Rule 144A, normally to qualified institutional buyers. As of October 31, 2017, these securities had an aggregate value of \$6,772,357 or 4.42% of net assets.

Private Placement; these securities may only be resold in transactions exempt from registration under the Securities Act of 1933. As of October 31, 2017, these securities had a total value of \$773,744 or 0.50% of net assets and have been deemed illiquid by the Adviser based on procedures approved by the Board of Trustees. (See Note 1).

Fair valued security; valued by management in accordance with procedures approved by the Fund's Board of Trustees. As of October 31, 2017, these securities had an aggregate market value of \$773,744 or 0.50% of total net assets.

(g) As a result of the use of significant unobservable inputs to determine fair value, these investments have been classified as Level 3 assets. See also footnote 1 to the financial statements for additional information.

Variable rate investment. Interest rates reset periodically. Interest rate shown reflects the rate in effect at October 31, 2017. For securities based on a published reference rate and spread, the reference rate and spread are indicated in the description above.

(i) Rate shown represents the bond equivalent yield to maturity at date of purchase.

(j) Includes cash which is being held as collateral for total return swap contracts and securities sold short.

Investment Abbreviations:

ID FEDEF - Federal Funds Effective Rate (Daily)

LIBOR - London Interbank Offered Rate

Libor Rates:

3M US L - 3 Month LIBOR as of October 31, 2017 was 1.38%

(a) Non-income producing security.

Pledged security; a portion or all of the security is pledged as collateral for securities sold short or borrowings. As

(b) of October 31, 2017, the aggregate value of those securities was \$622,584,048, representing 99.88% of net assets.

(See Note 1 and Note 6).

(c) Loaned security; a portion or all of the security is on loan as of October 31, 2017.

Security exempt from registration of the Securities Act of 1933. These securities may be resold in transactions

(d) exempt from registration under Rule 144A, normally to qualified institutional buyers. As of October 31, 2017, these securities had an aggregate value of \$28,085,288 or 4.51% of net assets.

Private Placement; these securities may only be resold in transactions exempt from registration under the Securities

(e) Act of 1933. As of October 31, 2017, these securities had a total value of \$7,588,295 or 1.22% of net assets and have been deemed illiquid by the Adviser based on procedures approved by the Board of Trustees. (See Note 1).

Fair valued security; valued by management in accordance with procedures approved by the Fund's Board of

(f) Trustees. As of October 31, 2017, these securities had an aggregate market value of \$7,588,295 or 1.22% of total net assets.

(g) As a result of the use of significant unobservable inputs to determine fair value, these investments have been classified as Level 3 assets. See also footnote 1 to the financial statements for additional information.

Variable rate investment. Interest rates reset periodically. Interest rate shown reflects the rate in effect at October (h) 31, 2017. For securities based on a published reference rate and spread, the reference rate and spread are indicated in the description above.

(i) Rate shown represents the bond equivalent yield to maturity at date of purchase.

(j) Includes cash which is being held as collateral for total return swap contracts and securities sold short.

For Fund compliance purposes, each Fund's sector classifications refer to any one of the sector sub-classifications used by one or more widely recognized market indexes, and/or as defined by each Fund's management. This definition

may not apply for purposes of this report, which may combine sector sub-classifications for reporting ease. Sectors are shown as a percent of net assets. These sector classifications are unaudited.

*Based on average shares outstanding.

⁽¹⁾ Effective July 31, 2016, the Clough Global Allocation Fund name changed to Clough Global Dividend and Income Fund.

⁽²⁾ The Board announced, on September 12, 2014, approval to change the fiscal year-end of the Fund from March 31 to October 31.

⁽³⁾ Less than \$0.005.

Total investment return is calculated assuming a purchase of a common share at the opening on the first day and a sale at the closing on the last day of each period reported. Dividends and distributions, if any, are assumed for

⁽⁴⁾ purposes of this calculation to be reinvested at price obtained under the Fund's dividend reinvestment plan. Total investment returns do not reflect brokerage commissions on the purchase or sale of the Fund's common shares.

Past performance is not a guarantee of future results. Total returns for the period indicated are not annualized.

⁽⁵⁾ Annualized.

⁽⁶⁾ Portfolio turnover rate for periods less than one full year have not been annualized.

Clough Global Funds Notes to Financial Statements

October 31, 2017

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING AND OPERATING POLICIES

Clough Global Dividend and Income Fund, Clough Global Equity Fund, and Clough Global Opportunities Fund (each a “Fund”, collectively the “Funds”), are closed-end management investment companies registered under the Investment Company Act of 1940 (the “1940 Act”). The Funds were organized under the laws of the state of Delaware on April 27, 2004, January 25, 2005, and January 12, 2006, respectively for Clough Global Dividend and Income Fund, Clough Global Equity Fund, and Clough Global Opportunities Fund. The Funds were previously registered as non-diversified investment companies. As a result of ongoing operations, each of the Funds became a diversified company. The Funds may not resume operating in a non-diversified manner without first obtaining shareholder approval. Each Fund’s investment objective is to provide a high level of total return. Each Declaration of Trust provides that the Board of Trustees (the “Board”) may authorize separate classes of shares of beneficial interest. The common shares of Clough Global Dividend and Income Fund, Clough Global Equity Fund, and Clough Global Opportunities Fund are listed on the NYSE American LLC and trade under the ticker symbols “GLV”, “GLQ” and “GLO” respectively.

The following is a summary of significant accounting policies followed by the Funds. These policies are in conformity with U.S. generally accepted accounting principles (“GAAP”). The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements during the reporting period. Management believes the estimates and security valuations are appropriate; however, actual results may differ from those estimates, and the security valuations reflected in the financial statements may differ from the value the Funds ultimately realize upon sale of the securities. Each Fund is considered an investment company for financial reporting purposes under GAAP and follows the accounting and reporting guidance applicable to investment companies as codified in Accounting Standards Codification Topic (“ASC”) 946 – Investment Companies.

The net asset value per share of each Fund is determined no less frequently than daily, on each day that the New York Stock Exchange (“NYSE” or the “Exchange”) is open for trading, as of the close of regular trading on the Exchange (normally 4:00 p.m. New York time). Trading may take place in foreign issues held by the Fund at times when a Fund is not open for business. As a result, each Fund’s net asset value may change at times when it is not possible to purchase or sell shares of a Fund.

Investment Valuation: Securities, including preferred stocks, exchange traded funds, closed-end funds and participation notes held by each Fund for which exchange quotations are readily available are valued at the last sale price, or if no sale price or if traded on the over-the-counter market, at the mean of the bid and asked prices on such day. Most securities listed on a foreign exchange are valued at the last sale price at the close of the exchange on which

the security is primarily traded. In certain countries market maker prices are used since they are the most representative of the daily trading activity. Market maker prices are usually the mean between the bid and ask prices. Certain markets are not closed at the time that the Funds price their portfolio securities. In these situations, snapshot prices are provided by the individual pricing services or other alternate sources at the close of the NYSE as appropriate. Securities not traded on a particular day are valued at the mean between the last reported bid and the asked quotes, or the last sale price when appropriate; otherwise fair value will be determined by the board-appointed fair valuation committee. Debt securities for which the over-the-counter market is the primary market are normally valued on the basis of prices furnished by one or more pricing services or dealers at the mean between the latest available bid and asked prices. As authorized by the Board, debt securities (including short-term obligations that will mature in 60 days or less) may be valued on the basis of valuations furnished by a pricing service which determines valuations based upon market transactions for normal, institutional-size trading units of securities or a matrix method which considers yield or price of comparable bonds provided by a pricing service. Over-the-counter options are valued at the mean between bid and asked prices provided by dealers. Exchange-traded options are valued at closing settlement prices. Total return swaps are priced based on valuations provided by a Board approved independent third party pricing agent. If a total return swap price cannot be obtained from an independent third party pricing agent the Fund shall seek to obtain a bid price from at least one independent and/or executing broker.

If the price of a security is unavailable in accordance with the aforementioned pricing procedures, or the price of a security is unreliable, e.g., due to the occurrence of a significant event, the security may be valued at its fair value determined by management pursuant to procedures adopted by the Board. For this purpose, fair value is the price that a Fund reasonably expects to receive on a current sale of the security. Due to the number of variables affecting the price of a security, however; it is possible that the fair value of a security may not accurately reflect the price that a Fund could actually receive on a sale of the security.

A three-tier hierarchy has been established to classify fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability that are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability that are developed based on the best information available.

Clough Global Funds Notes to Financial Statements

October 31, 2017

Various inputs are used in determining the value of each Fund's investments as of the reporting period end. These inputs are categorized in the following hierarchy under applicable financial accounting standards:

- Level 1 Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that a Fund has the ability to access at the measurement date;
- Level 2 – Quoted prices which are not active, quoted prices for similar assets or liabilities in active markets or inputs other than quoted prices that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and
- Level 3 – Significant unobservable prices or inputs (including the Fund's own assumptions in determining the fair value of investments) where there is little or no market activity for the asset or liability at the measurement date.

The following is a summary of the inputs used as of October 31, 2017, in valuing each Fund's investments carried at value. The Funds recognize transfers between the levels as of the end of the period in which the transfer occurred. There were no transfers between Level 1 and Level 2 securities during the year ended October 31, 2017.

Edgar Filing: Clough Global Dividend & Income Fund - Form N-CSR

In the event a Board approved independent pricing service is unable to provide an evaluated price for a security or Clough Capital Partners L.P. (the “Adviser” or “Clough”) believes the price provided is not reliable, securities of each Fund may be valued at fair value as described above. In these instances the Adviser may seek to find an alternative independent source, such as a broker/dealer to provide a price quote, or by using evaluated pricing models similar to the techniques and models used by the independent pricing service. These fair value measurement techniques may utilize unobservable inputs (Level 3).

On a monthly basis, the Fair Value Committee of each Fund meets and discusses securities that have been fair valued during the preceding month in accordance with the Funds’ Fair Value Procedures and reports quarterly to the Board on the results of those meetings.

Transaction Price	Increase	Decrease

Foreign Securities: Each Fund may invest a portion of its assets in foreign securities. In the event that a Fund executes a foreign security transaction, the Fund will generally enter into a foreign currency spot contract to settle the foreign security transaction. Foreign securities may carry more risk than U.S. securities, such as political, market and currency risks.

The accounting records of each Fund are maintained in U.S. dollars. Prices of securities denominated in foreign currencies are translated into U.S. dollars at the closing rates of exchange at period end. Amounts related to the purchase and sale of foreign securities and investment income are translated at the rates of exchange prevailing on the respective dates of such transactions.

The effect of changes in foreign currency exchange rates on investments is reported with investment securities realized and unrealized gains and losses in the Funds' Statements of Operations.

A foreign currency spot contract is a commitment to purchase or sell a foreign currency at a future date, at a negotiated rate. Each Fund may enter into foreign currency spot contracts to settle specific purchases or sales of securities denominated in a foreign currency and for protection from adverse exchange rate fluctuation. Risks to a Fund include the potential inability of the counterparty to meet the terms of the contract.

The net U.S. dollar value of foreign currency underlying all contractual commitments held by a Fund and the resulting unrealized appreciation or depreciation are determined using prevailing forward foreign currency exchange rates. Unrealized appreciation and depreciation on foreign currency spot contracts are reported in the Funds' Statements of Assets and Liabilities as a receivable for investments sold or a payable for investments purchased and in the Funds' Statements of Operations with the change in unrealized appreciation or depreciation on translation of assets and liabilities denominated in foreign currencies. These spot contracts are used by the broker to settle investments denominated in foreign currencies.

A Fund may realize a gain or loss upon the closing or settlement of the foreign transactions, excluding investment securities. Such realized gains and losses are reported with all other foreign currency gains and losses in the Statements of Operations.

Exchange Traded Funds: Each Fund may invest in exchange traded funds (“ETFs”), which are funds whose shares are traded on a national exchange. ETFs may be based on underlying equity or fixed income securities, as well as commodities or currencies. ETFs do not sell individual shares directly to investors and only issue their shares in large blocks known as “creation units.” The investor purchasing a creation unit then sells the individual shares on a secondary market. Although similar diversification benefits may be achieved through an investment in another investment company, ETFs generally offer greater liquidity and lower expenses. Because an ETF incurs its own fees and expenses, shareholders of a Fund investing in an ETF will indirectly bear those costs. Such Funds will also incur brokerage commissions and related charges when purchasing or selling shares of an ETF. Unlike typical investment company shares, which are valued once daily, shares in an ETF may be purchased or sold on a securities exchange throughout the trading day at market prices that are generally close to the NAV of the ETF.

Short Sales: Each Fund may sell a security it does not own in anticipation of a decline in the fair value of that security. When a Fund sells a security short, it must borrow the security sold short and deliver it to the broker-dealer through which it made the short sale. A gain, limited to the price at which a Fund sold the security short, or a loss, unlimited in size, will be recognized upon the termination of the short sale.

Each Fund's obligation to replace the borrowed security will be secured by collateral deposited with the broker-dealer, usually cash, U.S. government securities or other liquid securities. Each Fund will also be required to designate on its books and records similar collateral with its custodian to the extent, if any, necessary so that the aggregate collateral value is at all times at least equal to the current value of the security sold short. The cash amount is reported on the Statements of Assets and Liabilities as Deposit with broker for securities sold short which is held with one counterparty. Each Fund is obligated to pay interest to the broker for any debit balance of the margin account relating to short sales. The interest incurred by the Funds is reported on the Statements of Operations as Interest expense – margin account. Interest amounts payable, if any, are reported on the Statements of Assets and Liabilities as Interest payable – margin account.

Each Fund may also sell a security short if it owns at least an equal amount of the security sold short or another security convertible or exchangeable for an equal amount of the security sold short without payment of further compensation (a short sale against-the-box). In a short sale against-the-box, the short seller is exposed to the risk of being forced to deliver stock that it holds to close the position if the borrowed stock is called in by the lender, which would cause gain or loss to be recognized on the delivered stock. Each Fund expects normally to close its short sales against-the-box by delivering newly acquired stock. Since the Funds intend to hold securities sold short for the short term, these securities are excluded from the purchases and sales of investment securities in Note 4 and each Fund’s Portfolio Turnover in the Financial Highlights.

October 31, 2017

Derivatives Instruments and Hedging Activities: The following discloses the Funds' use of derivative instruments and hedging activities.

The Funds' investment objectives not only permit the Funds to purchase investment securities, they also allow the Funds to enter into various types of derivative contracts, including, but not limited to, purchased and written options, swaps, futures and warrants. In doing so, the Funds will employ strategies in differing combinations to permit them to increase, decrease, or change the level or types of exposure to market factors. Central to those strategies are features inherent to derivatives that make them more attractive for this purpose than equity securities; they require little or no initial cash investment, they can focus exposure on only certain selected risk factors, and they may not require the ultimate receipt or delivery of the underlying security (or securities) to the contract. This may allow the Funds to pursue their objectives more quickly and efficiently than if they were to make direct purchases or sales of securities capable of affecting a similar response to market factors.

Risk of Investing in Derivatives: The Funds' use of derivatives can result in losses due to unanticipated changes in the market risk factors and the overall market. In instances where the Funds are using derivatives to decrease or hedge exposures to market risk factors for securities held by the Funds, there are also risks that those derivatives may not perform as expected, resulting in losses for the combined or hedged positions.

Derivatives may have little or no initial cash investment relative to their market value exposure and therefore can produce significant gains or losses in excess of their cost. This use of embedded leverage allows the Funds to increase their market value exposure relative to their net assets and can substantially increase the volatility of the Funds' performance.

Additional associated risks from investing in derivatives also exist and potentially could have significant effects on the valuation of the derivative and the Funds. Typically, the associated risks are not the risks that the Funds are attempting to increase or decrease exposure to, per their investment objectives, but are the additional risks from investing in derivatives.

Examples of these associated risks are liquidity risk, which is the risk that the Funds will not be able to sell the derivative in the open market in a timely manner, and counterparty credit risk, which is the risk that the counterparty will not fulfill its obligation to the Funds. Associated risks can be different for each type of derivative and are discussed by each derivative type in the notes that follow.

Each Fund may acquire put and call options and options on stock indices and enter into stock index futures contracts, certain credit derivatives transactions and short sales in connection with its equity investments. In connection with a Fund's investments in debt securities, it may enter into related derivatives transactions such as interest rate futures, swaps and options thereon and certain credit derivatives transactions. Derivatives transactions of the types described above subject a Fund to increased risk of principal loss due to imperfect correlation or unexpected price or interest rate movements. Each Fund also will be subject to credit risk with respect to the counterparties to the derivatives contracts purchased by a Fund. If a counterparty becomes bankrupt or otherwise fails to perform its obligations under a derivatives contract due to financial difficulties, each Fund may experience significant delays in obtaining any recovery under the derivatives contract in a bankruptcy or other reorganization proceeding. Each Fund may obtain only a limited recovery or may obtain no recovery in such circumstances.

Market Risk Factors: In addition, in pursuit of their investment objectives, certain Funds may seek to use derivatives, which may increase or decrease exposure to the following market risk factors:

Equity Risk: Equity risk relates to the change in value of equity securities as they relate to increases or decreases in the general market.

Foreign Exchange Rate Risk: Foreign exchange rate risk relates to the change in the U.S. dollar value of a security held that is denominated in a foreign currency. The value of a foreign currency denominated security will decrease as the dollar appreciates against the currency, while the value of the foreign currency denominated security will increase as the dollar depreciates against the currency.

Option Writing/Purchasing: Each Fund may purchase or write (sell) put and call options. One of the risks associated with purchasing an option among others, is that a Fund pays a premium whether or not the option is exercised. Additionally, a Fund bears the risk of loss of premium and change in value should the counterparty not perform under the contract. The cost of securities acquired through the exercise of call options is increased by premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid. Each Fund is obligated to pay interest to the broker for any debit balance of the margin account relating to options. Each Fund pledges cash or liquid assets as collateral to satisfy the current obligations with respect to written options. The interest incurred on the Funds is reported on the Statements of Operations as Interest expense – margin account. Interest amounts payable by the Funds, if any, are reported on the Statements of Assets and Liabilities as Interest payable – margin account.

When a Fund writes an option, an amount equal to the premium received by a Fund is recorded as a liability and is subsequently adjusted to the current value of the option written. Premiums received from writing options that expire unexercised are treated by a Fund on the expiration date as realized gains. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is recorded as a realized gain or loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security or currency in determining whether a Fund has realized a gain or loss. If a put option is

exercised, the premium reduces the cost basis of the securities purchased by a Fund. Each Fund, as writer of an option, bears the market risk of an unfavorable change in the price of the security underlying the written option.

There was no written option or purchased option activity for the year ended October 31, 2017.

Annual Report | October 31, 2017 39

Clough Global Funds Notes to Financial Statements

October 31, 2017

Futures Contracts: Each Fund may enter into futures contracts. A futures contract is an agreement to buy or sell a security or currency (or to deliver a final cash settlement price in the case of a contract relating to an index or otherwise not calling for physical delivery at the end of trading in the contract) for a set price at a future date. If a Fund buys a security futures contract, the Fund enters into a contract to purchase the underlying security and is said to be "long" under the contract. If a Fund sells a security futures contract, the Fund enters into a contract to sell the underlying security and is said to be "short" under the contract. The price at which the contract trades (the "contract price") is determined by relative buying and selling interest on a regulated exchange. Futures contracts are marked to market daily and an appropriate payable or receivable for the change in value ("variation margin") is recorded by the Fund. Such payables or receivables are recorded for financial statement purposes as variation margin payable or variation margin receivable by each Fund. Each Fund pledges cash or liquid assets as collateral to satisfy the current obligations with respect to futures contracts. The cash amount is reported on the Statements of Assets and Liabilities as Deposit with broker for futures contracts which is held with one counterparty. Management has reviewed the futures agreement under which the futures contracts are traded and has determined that the Funds do not have the right to set-off, and therefore the futures contracts are not subject to enforceable netting arrangements.

The Funds enter into such transactions for hedging and other appropriate risk-management purposes or to increase return. While a Fund may enter into futures contracts for hedging purposes, the use of futures contracts might result in a poorer overall performance for the Fund than if it had not engaged in any such transactions. If, for example, the Fund had insufficient cash, it might have to sell a portion of its underlying portfolio of securities in order to meet daily variation margin requirements on its futures contracts or options on futures contracts at a time when it might be disadvantageous to do so. There may be an imperfect correlation between the Funds' portfolio holdings and futures contracts entered into by the Fund, which may prevent the Fund from achieving the intended hedge or expose the Fund to risk of loss.

Futures contract transactions may result in losses substantially in excess of the variation margin. There can be no guarantee that there will be a correlation between price movements in the hedging vehicle and in the portfolio securities being hedged. An incorrect correlation could result in a loss on both the hedged securities in a Fund and the hedging vehicle so that the portfolio return might have been greater had hedging not been attempted. There can be no assurance that a liquid market will exist at a time when the Fund seeks to close out a futures contract. Lack of a liquid market for any reason may prevent a Fund from liquidating an unfavorable position, and the Fund would remain obligated to meet margin requirements until the position is closed. In addition, the Fund could be exposed to risk if the counterparties to the contracts are unable to meet the terms of their contracts. With exchange-traded futures contracts, there is minimal counterparty credit risk to the Funds since futures contracts are exchange-traded and the exchange's clearinghouse, as counterparty to all exchange-traded futures contracts, guarantees the futures contracts against default.

During the year ended October 31, 2017, the Funds invested in futures contracts.

Swaps: During the year each Fund engaged in total return swaps. A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset. Each Fund may utilize swap agreements as a means to gain exposure to certain assets and/or to “hedge” or protect the Fund from adverse movements in securities prices or interest rates. Each Fund is subject to equity risk and interest rate risk in the normal course of pursuing its investment objective through investments in swap contracts. Swap agreements entail the risk that a party will default on its payment obligation to a Fund. If the other party to a swap defaults, a Fund would risk the loss of the net amount of the payments that it contractually is entitled to receive. If each Fund utilizes a swap at the wrong time or judges market conditions incorrectly, the swap may result in a loss to the Fund and reduce the Fund’s total return.

Total return swaps involve an exchange by two parties in which one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income it generates and any capital gains over the payment period. A Fund’s maximum risk of loss from counterparty risk or credit risk is the discounted value of the payments to be received from/paid to the counterparty over the contract’s remaining life, to the extent that the amount is positive. The risk is mitigated by having a netting arrangement between a Fund and the counterparty and by the posting of collateral to a Fund to cover the Fund’s exposure to the counterparty. Each Fund pledges cash or liquid assets as collateral to satisfy the current obligations with respect to swap contracts. The cash amount is reported on the Statements of Assets and Liabilities as Deposit with broker for total return swap contracts which is held with one counterparty.

International Swaps and Derivatives Association, Inc. Master Agreements (“ISDA Master Agreements”) govern OTC financial derivative transactions entered into by a Fund and those counterparties. The ISDA Master Agreements maintain provisions for general obligations, representations, agreements, collateral and events of default or termination. Events of termination include conditions that may entitle counterparties to elect to terminate early and cause settlement of all outstanding transactions under the applicable ISDA Master Agreement. Any election to early terminate could be material to the financial statements.

During the year ended October 31, 2017, the Funds invested in swap agreements consistent with the Funds’ investment strategies to gain exposure to certain markets or indices.

Warrants/Rights: Each Fund may purchase or otherwise receive warrants or rights. Warrants and rights generally give the holder the right to receive, upon exercise, a security of the issuer at a set price. Funds typically use warrants and rights in a manner similar to their use of purchased options on securities, as described in options above. Risks associated with the use of warrants and rights are generally similar to risks associated with the use of purchased options. However, warrants and rights often do not have standardized terms, and may have longer maturities and may be less liquid than exchange-traded options. In addition, the terms of warrants or rights may limit each Fund’s ability to exercise the warrants or rights at such times and in such quantities as each Fund would otherwise wish. During the year each Fund invested in warrants. Each Fund held no warrants or rights at the end of the year.

Clough Global Dividend and Income Fund	\$(2,183,153)
Clough Global Equity Fund	(3,757,888)
Clough Global Opportunities Fund	(9,678,979)

Certain derivative contracts are executed under either standardized netting agreements or, for exchange-traded derivatives, the relevant contracts for a particular exchange which contain enforceable netting provisions. A derivative netting arrangement creates an enforceable right of set-off that becomes effective, and affects the realization of settlement on individual assets, liabilities and collateral amounts, only following a specified event of default or early termination. Default events may include the failure to make payments or deliver securities timely, material adverse changes in financial condition or insolvency, the breach of minimum regulatory capital requirements, or loss of license, charter or other legal authorization necessary to perform under the contract.

Clough Global Funds Notes to Financial Statements

October 31, 2017

Restricted and Illiquid Securities: Although the Funds will invest primarily in publicly traded securities, they may invest a portion of their assets (generally, 5% of its value) in restricted securities and other investments which are illiquid. Restricted securities are securities that may not be sold to the public without an effective registration statement under the Securities Act of 1933, as amended (the "Securities Act") or, if they are unregistered, may be sold only in a privately negotiated transaction or pursuant to an exemption from registration.

The Funds may invest in securities for which there is no readily available trading market or which are otherwise illiquid. Illiquid securities include securities legally restricted as to resale, such as commercial paper issued pursuant to Section 4(2) of the Securities Act, and securities eligible for resale pursuant to Rule 144A thereunder. Section 4(2) and Rule 144A securities may, however, be treated as liquid by Clough pursuant to procedures adopted by the Board, which require consideration of factors such as trading activity, availability of market quotations and number of dealers willing to purchase the security.

The restricted securities held at October 31, 2017 are identified below and are also presented in the Funds' Statement of Investments:

Fund	Security	% of Net Assets	Acquisition Date	Shares	Cost	Fair Value
Clough Global Dividend and Income Fund	Fairway Energy LP	0.51%	6/30/2015	130,700	\$1,307,000	\$773,744
	Total	0.51%			\$1,307,000	\$773,744
Clough Global Equity Fund	Fairway Energy LP	0.51%	6/30/2015	217,600	\$2,176,000	\$1,288,192
	Apellis Pharmaceuticals	0.12%	8/7/2017	56,297	308,731	308,731
	Sienna Biopharmaceuticals - Series B ^(a)	0.57%	4/12/2017	76,575	937,021	1,465,852
Total		1.20%			\$3,421,752	\$3,062,775
Clough Global Opportunities Fund	Fairway Energy LP	0.51%	6/30/2015	536,000	\$5,360,000	\$3,173,120
	Apellis Pharmaceuticals	0.12%	8/7/2017	139,701	766,117	766,117
	Sienna Biopharmaceuticals - Series B ^(a)	0.59%	4/12/2017	190,624	2,332,592	3,649,058
Total		1.22%			\$8,458,709	\$7,588,295

^(a) *The Fund also invests in unrestricted securities of the same issuer. The fair value of restricted securities is 58.80% and 59.15%, respectively, of the total value of securities of the same issuer.*

Income Taxes: Each Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required. As of and during the year ended October 31, 2017, the Funds did not have a liability for any unrecognized tax benefits. The Funds recognize the interest and penalties, if any, related to the unrecognized tax benefits as income tax expense in the Statements of Operations. During the period, the Funds did not incur any interest or penalties.

The Funds file U.S. federal, state, and local tax returns as required. The Funds' tax returns are subject to examination by the relevant tax authorities until expiration of the applicable statute of limitations, which is generally three years after the filing of the tax return but which can be extended to six years in certain circumstances. Tax returns for open years have incorporated no uncertain tax positions that require a provision for income taxes.

Certain foreign countries impose a capital gains tax which is accrued by the Funds based on the unrealized appreciation, if any, on affected securities. Any accrual would reduce a Fund's NAV. The tax is paid when the gain is realized and is included in capital gains tax in the Statements of Operations.

Distributions to Shareholders: Each Fund intends to make a dividend distribution each month to Common Shareholders after payment of interest on any outstanding borrowings. Any net capital gains earned by a Fund are distributed at least annually to the extent necessary to avoid federal income and excise taxes. Distributions to shareholders are recorded by each Fund on the ex-dividend date. Each Fund has received approval from the Securities and Exchange Commission (the "Commission") for exemption from Section 19(b) of the 1940 Act, and Rule 19b-1 there under permitting each Fund to make periodic distributions of long-term capital gains, provided that the distribution policy of a Fund with respect to its Common Shares calls for periodic (e.g. quarterly/monthly) distributions in an amount equal to a fixed percentage of each Fund's average net asset value over a specified period of time or market price per common share at or about the time of distributions or pay-out of a level dollar amount.

Effective August 2017, each Fund's Board approved a managed dividend distribution rate of 10% of each Fund's prior month average NAV. Subject to certain conditions, these distribution policies will remain in effect through July 2019, when each Board might consider reducing the amount to not less than the average distribution rate of a peer group of closed-end funds selected by the Board. During the fiscal year prior to August 2017, each Fund made the following level dividend distributions each month: Clough Global Dividend and Income Fund, \$0.1032 per share on a monthly basis; Clough Global Equity Fund, \$0.0989 on a monthly basis; and Clough Global Opportunities Fund, \$0.0860 on a monthly basis.

Clough Global Funds Notes to Financial Statements

October 31, 2017

Securities Transactions and Investment Income: Investment security transactions are accounted for on a trade date basis. Dividend income and Dividend expense-short sales are recorded on the ex-dividend date. Certain dividend income from foreign securities will be recorded, in the exercise of reasonable diligence, as soon as a Fund is informed of the dividend if such information is obtained subsequent to the ex-dividend date and may be subject to withholding taxes in these jurisdictions. Withholding taxes on foreign dividends are paid (a portion of which may be reclaimable) or provided for in accordance with the applicable country's tax rules and rates and are disclosed in the Statements of Operations. Interest income, which includes amortization of premium and accretion of discount, is recorded on the accrual basis. Realized gains and losses from securities transactions and unrealized appreciation and depreciation of securities are determined using the identified cost basis for both financial reporting and income tax purposes.

Counterparty Risk: Each of the Funds run the risk that the issuer or guarantor of a fixed income security, the counterparty to an over-the-counter derivatives contract, a borrower of each Fund's securities or the obligor of an obligation underlying an asset-backed security will be unable or unwilling to make timely principal, interest, or settlement payments or otherwise honor its obligations. In addition, to the extent that each of the Funds use over-the-counter derivatives, and/or has significant exposure to a single counterparty, this risk will be particularly pronounced for each of the Funds.

Other Risk Factors: Investing in the Funds may involve certain risks including, but not limited to, the following:

Unforeseen developments in market conditions may result in the decline of prices of, and the income generated by, the securities held by the Funds. These events may have adverse effects on the Funds such as a decline in the value and liquidity of many securities held by the Funds, and a decrease in net asset value. Such unforeseen developments may limit or preclude the Funds' ability to achieve their investment objective.

Investing in stocks may involve larger price fluctuation and greater potential for loss than other types of investments. This may cause the securities held by the Funds to be subject to larger short-term declines in value.

The Funds may have elements of risk due to concentrated investments in foreign issuers located in a specific country. Such concentrations may subject the Funds to additional risks resulting from future political or economic conditions and/or possible impositions of adverse foreign governmental laws or currency exchange restrictions. Investments in securities of non-U.S. issuers have unique risks not present in securities of U.S. issuers, such as greater price volatility and less liquidity.

Fixed income securities are subject to credit risk, which is the possibility that a security could have its credit rating downgraded or that the issuer of the security could fail to make timely payments or default on payments of interest or principal. Additionally, fixed income securities are subject to interest rate risk, meaning the decline in the price of debt securities that accompanies a rise in interest rates. Bonds with longer maturities are subject to greater price fluctuations than bonds with shorter maturities.

The Funds invest in bonds which are rated below investment grade. These high yield bonds may be more susceptible than higher grade bonds to real or perceived adverse economic or industry conditions. The secondary market, on which high yield bonds are traded, may also be less liquid than the market for higher grade bonds.

2. TAXES

Classification of Distributions: Net investment income/(loss) and net realized gain/(loss) may differ for financial statement and tax purposes. The character of distributions made during the year from net investment income or net realized gains may differ from its ultimate characterization for federal income tax purposes. Also, due to the timing of dividend distributions, the fiscal year in which amounts are distributed may differ from the fiscal year in which the income or realized gain was recorded by the Funds.

Clough Global Funds Notes to Financial Statements

October 31, 2017

The tax character of the distributions paid by the Funds during the years ended October 31, 2017 and October 31, 2016, were as follows:

	Ordinary Income	Long-Term Capital Gains	Return of Capital	Total
Clough Global Dividend and Income Fund				
October 31, 2017	\$3,908,415	\$-	\$9,527,880	\$13,436,295
October 31, 2016	-	6,159,918	8,281,647	14,441,565
Clough Global Equity Fund				
October 31, 2017	\$2,298,935	\$-	\$19,645,484	\$21,944,419
October 31, 2016	-	15,868,789	7,640,117	23,508,906
Clough Global Opportunities Fund				
October 31, 2017	\$6,976,864	\$-	\$48,235,156	\$55,212,020
October 31, 2016	-	9,287,743	50,435,017	59,722,760

Components of Earnings: Tax components of distributable earnings are determined in accordance with income tax regulations which may differ from composition of net assets reported under accounting principles generally accepted in the United States. Accordingly, for the year ended October 31, 2017, certain differences were reclassified. These differences relate primarily to the differing tax treatment of passive foreign investment companies (PFICs), foreign currencies, partnerships, paydowns and certain other investments.

The reclassifications were as follows:

	Undistributed Ordinary Income	Accumulated Capital Loss	Paid-in Capital
Clough Global Dividend and Income Fund	\$ 33,827	\$ (30,580)	\$(3,247)
Clough Global Equity Fund	3,086	3,029	(6,115)
Clough Global Opportunities Fund	264,851	(249,790)	(15,061)

Capital loss carryovers used during the year ended October 31, 2017, were:

Edgar Filing: Clough Global Dividend & Income Fund - Form N-CSR

Fund	Amount
Clough Global Dividend and Income Fund	\$4,726,787
Clough Global Equity Fund	15,278,865
Clough Global Opportunities Fund	26,723,033

Capital losses deferred to the year ending October 31, 2018 were as follows:

Fund	Non-Expiring Short-Term	Non-Expiring Long-Term
Clough Global Dividend and Income Fund	\$7,656,856	\$ —
Clough Global Equity Fund	6,150,225	—
Clough Global Opportunities Fund	43,260,709	—

The Funds elect to defer to the year ending October 31, 2018, late year ordinary losses in the amounts of:

Fund	Amount
Clough Global Equity Fund	\$407,573
Clough Global Opportunities Fund	903,150

Annual Report | October 31, 2017 47

Clough Global Funds Notes to Financial Statements

October 31, 2017

Tax Basis of Distributable Earnings: Tax components of distributable earnings are determined in accordance with income tax regulations which may differ from composition of net assets reported under GAAP.

As of October 31, 2017, the components of distributable earnings on a tax basis were as follows:

	Clough Global Dividend and Income Fund	Clough Global Equity Fund	Clough Global Opportunities Fund
Accumulated net realized loss on investments	\$(7,656,856)	\$(6,150,225)	\$(43,260,709)
Net unrealized appreciation on investments	15,801,447	34,417,900	72,058,523
Other accumulated losses	(35,006)	(465,851)	(1,046,706)
Total	\$8,109,585	\$27,801,824	\$27,751,108

Tax Basis of Investments: Net unrealized appreciation/(depreciation) of investments based on federal tax cost as of October 31, 2017, were as follows:

	Clough Global Dividend and Income Fund	Clough Global Equity Fund	Clough Global Opportunities Fund
Gross appreciation (excess of value over tax cost) ^(a)	\$30,014,112	\$63,759,324	\$138,246,620
Gross depreciation (excess of tax cost over value) ^(a)	(14,211,502)	(29,339,310)	(66,182,974)
Net depreciation (excess of tax cost over value) of foreign currency and derivatives	(1,163)	(2,114)	(5,123)
Net unrealized appreciation	\$15,801,447	\$34,417,900	\$72,058,523
Cost of investments for income tax purposes	\$201,112,717	\$318,396,876	\$806,952,815

^(a)Includes appreciation/(depreciation) on securities sold short.

The difference between book and tax basis unrealized appreciation is attributable primarily to wash sales and tax treatment of certain other investments.

3. CAPITAL TRANSACTIONS

Common Shares: There are an unlimited number of no par value common shares of beneficial interest authorized for each Fund.

The Board of each Fund announced, on April 20, 2015, that it had approved a share repurchase program in accordance with Section 23(c) of the 1940 Act. Under the share repurchase program, each Fund may purchase up to 5% of its outstanding common shares as of April 9, 2015, in the open market, through the Funds' fiscal year end of October 31, 2015. The Board of Trustees of each Fund approved, in October 2015, to extend the share repurchase program through the Funds' fiscal year end of October 31, 2016. The Board of each Fund approved, in December 2016, to extend the share repurchase program through the Funds' fiscal year end of October 31, 2017. In April 2017, the Board temporarily suspended the share repurchase program in light of prevailing discount rates.

Repurchase of Fund Shares	(15,000)	–
Common Shares Outstanding - end of period	51,559,059	51,574,059

⁽¹⁾Effective July 31, 2016, the Clough Global Allocation Fund name changed to Clough Global Dividend and Income Fund.

There were no shares repurchased during the year ended October 31, 2016. During the year ended October 31, 2017, 12,700, 12,200 and 15,000 shares of common stock were repurchased at a total purchase price of \$155,239, \$139,566 and \$138,330 for Clough Global Dividend and Income Fund, Clough Global Equity Fund and Clough Global Opportunities Fund, respectively. These transactions reflect a weighted average discount from net asset value per share of 10.50%, 10.40% and 16.16% for Clough Global Dividend and Income Fund, Clough Global Equity Fund and Clough Global Opportunities Fund, respectively.

4. PORTFOLIO SECURITIES

Purchases and sales of investment securities, excluding securities sold short intended to be held for less than one year and short-term securities, for the year ended October 31, 2017, are listed in the table below.

Fund	Cost of Investments Purchased	Proceeds From Investments Sold	Purchases of Long-Term U.S. Government Obligations	Proceeds from Sales of Long-Term U.S. Government Obligations
Clough Global Dividend and Income Fund	\$273,810,725	\$281,552,784	\$27,686,719	\$40,393,289
Clough Global Equity Fund	419,876,479	403,522,929	9,599,727	52,610,047
Clough Global Opportunities Fund	1,217,041,196	1,210,307,998	122,749,414	206,407,012

5. INVESTMENT ADVISORY AND ADMINISTRATION AGREEMENTS

Clough serves as each Fund's investment adviser pursuant to an Investment Advisory Agreement (each an "Advisory Agreement" and collectively, the "Advisory Agreements") with each Fund. As compensation for its services to the Fund, Clough receives an annual investment advisory fee of 0.70%, 0.90% and 1.00% based on Clough Global Dividend and Income Fund's, Clough Global Equity Fund's and Clough Global Opportunities Fund's, respectively, average daily total

assets, computed daily and payable monthly. ALPS Fund Services, Inc. (“ALPS”) serves as each Fund’s administrator pursuant to an Administration, Bookkeeping and Pricing Services Agreement with each Fund. As compensation for its services to each Fund, ALPS receives an annual administration fee based on each Fund’s average daily total assets, computed daily and payable monthly. ALPS will pay all expenses incurred by each Fund, with the exception of advisory fees, trustees’ fees, portfolio transaction expenses, litigation expenses, taxes, expenses of conducting repurchase offers for the purpose of repurchasing fund shares, costs of preferred shares, and extraordinary expenses.

Clough Global Funds Notes to Financial Statements

October 31, 2017

Both Clough and ALPS are considered to be “affiliates” of the Funds as defined in the 1940 Act.

6. COMMITTED FACILITY AGREEMENT AND LENDING AGREEMENT

Each Fund entered into a financing package that includes a Committed Facility Agreement (the “Agreement”) dated January 16, 2009, as amended, between each Fund and BNP Paribas Prime Brokerage, Inc. (“BNP”) that allows each Fund to borrow funds from BNP. Each Fund is currently borrowing the maximum commitment covered by the agreement. Each Fund entered a Special Custody and Pledge Agreement (the “Pledge Agreement”) dated December 9, 2013, as amended, between each Fund, the Funds’ custodian, and BNP. As of October 31, 2016, the Pledge Agreement was assigned from BNP to BNP Paribas Prime Brokerage International, Ltd. Per the Pledge Agreement, borrowings under the Agreement are secured by assets of each Fund that are held by the Fund’s custodian in a separate account (the “pledged collateral”) valued at \$132,394,606, \$216,339,991 and \$583,205,558 for the Clough Global Dividend and Income Fund, Clough Global Equity Fund and Clough Global Opportunities Fund, respectively. Each Fund may, with 30 days notice, reduce the Maximum Commitment Financing (Initial Limit amount plus the increased borrowing amount in excess of the Initial Limit) to a lesser amount if drawing on the full amount would result in a violation of the applicable asset coverage requirement of Section 18 of the 1940 Act. Interest is charged at the three month LIBOR (London Inter-bank Offered Rate) plus 0.70% on the amount borrowed and 0.65% on the undrawn balance. Each Fund also pays a one-time arrangement fee of 0.25% on (i) the Initial Limit and (ii) any increased borrowing amount in the excess of the Initial Limit, paid in monthly installments for the six months immediately following the date on which borrowings were drawn by the Fund.

The Agreement was amended on October 31, 2016, to decrease the Maximum Commitment Financing, effective October 28, 2016, to \$72,000,000, \$113,000,000 and \$292,000,000 for the Clough Global Dividend and Income Fund, Clough Global Equity Fund and the Clough Global Opportunities Fund, respectively. Prior to October 28, 2016 the Maximum Commitment Financing was \$93,300,000, \$156,000,000 and \$388,900,000 for the Clough Global Dividend and Income Fund, Clough Global Equity Fund and the Clough Global Opportunities Fund, respectively. For the year ended October 31, 2017, the average borrowings outstanding for Clough Global Dividend and Income Fund, Clough Global Equity Fund and Clough Global Opportunities Fund under the agreement were \$72,000,000, \$113,000,000 and \$292,000,000, respectively, and the average interest rate for the borrowings was 1.88%. As of October 31, 2017, the outstanding borrowings for Clough Global Dividend and Income Fund, Clough Global Equity Fund and Clough Global Opportunities Fund were \$72,000,000, \$113,000,000 and \$292,000,000, respectively. The interest rate applicable to the borrowings of Clough Global Dividend and Income Fund, Clough Global Equity Fund and Clough Global Opportunities Fund on October 31, 2017, was 2.08%.

The Lending Agreement is a separate side-agreement between each Fund and BNP pursuant to which BNP may borrow a portion of the pledged collateral (the “Lent Securities”) in an amount not to exceed the outstanding borrowings owed by a Fund to BNP under the Agreement. The Lending Agreement is intended to permit each Fund to significantly reduce the cost of its borrowings under the Agreement. BNP has the ability to re-register the Lent Securities in its own name or in another name other than the Fund to pledge, re-pledge, sell, lend or otherwise transfer or use the collateral with all attendant rights of ownership. (It is each Fund’s understanding that BNP will perform due diligence to determine the creditworthiness of any party that borrows Lent Securities from BNP.) Each Fund may designate any security within the pledged collateral as ineligible to be a Lent Security, provided there are eligible securities within the pledged collateral in an amount equal to the outstanding borrowing owed by a Fund. During the year in which the Lent Securities are outstanding, BNP must remit payment to each Fund equal to the amount of all dividends, interest or other distributions earned or made by the Lent Securities.

Under the terms of the Lending Agreement, the Lent Securities are marked to market daily, and if the value of the Lent Securities exceeds the value of the then-outstanding borrowings owed by a Fund to BNP under the Agreement (the “Current Borrowings”), BNP must, on that day, either (1) return Lent Securities to each Fund’s custodian in an amount sufficient to cause the value of the outstanding Lent Securities to equal the Current Borrowings; or (2) post cash collateral with each Fund’s custodian equal to the difference between the value of the Lent Securities and the value of the Current Borrowings. If BNP fails to perform either of these actions as required, each Fund will recall securities, as discussed below, in an amount sufficient to cause the value of the outstanding Lent Securities to equal the Current Borrowings. Each Fund can recall any of the Lent Securities and BNP shall, to the extent commercially possible, return such security or equivalent security to each Fund’s custodian no later than three business days after such request. If a Fund recalls a Lent Security pursuant to the Lending Agreement, and BNP fails to return the Lent Securities or equivalent securities in a timely fashion, BNP shall remain liable for the ultimate delivery to each Fund’s custodian of such Lent Securities, or equivalent securities, and for any buy-in costs that the executing broker for the sales transaction may impose with respect to the failure to deliver. Should the borrower of the securities fail financially, the Funds have the right to reduce the outstanding amount of the Current Borrowings against which the pledged collateral has been secured. Although risk is mitigated by the collateral, the Funds could experience a delay in recovering their securities and possible loss of income or value if the borrower fails to return the borrowed securities. Under the terms of the Lending Agreement, each Fund shall have the right to apply and set-off an amount equal to one hundred percent (100%) of the then current fair value of such Lent Securities against the Current Borrowings. As of October 31, 2017, the value of the Lent Securities for Clough Global Dividend and Income Fund, Clough Global Equity Fund and Clough Global Opportunities Fund were \$66,103,328, \$99,173,783 and \$256,933,010, respectively.

50www.cloughglobal.com

Clough Global Funds Notes to Financial Statements

October 31, 2017

The Board has approved each Agreement and the Lending Agreement. No violations of the Agreement or the Lending Agreement have occurred during the year ended October 31, 2017.

Each Fund receives income from BNP based on the value of the Lent Securities. This income is recorded as Hypothecated securities income on the Statements of Operations. The interest incurred on borrowed amounts is recorded as Interest on loan in the Statements of Operations, a part of Total Expenses.

7. OTHER

The Independent Trustees of each Fund receive from each Fund a quarterly retainer of \$3,500 and an additional \$1,500 for each board meeting attended. The Chairman of the Board of each Fund receives a quarterly retainer from each Fund of \$4,200 and an additional \$1,800 for each board meeting attended. The Chairman of the Audit Committee of each Fund receives a quarterly retainer from each Fund of \$3,850 and an additional \$1,650 for each board meeting attended. The per-meeting fees for each special telephonic board meeting are as follows: (i) \$500 for each Independent Trustee; (ii) \$600 for the Chairman of the Board; and (iii) \$550 for the Chairman of the Audit Committee. The Independent Trustees will continue to not receive any additional fees for in-person or telephonic committee meetings.

8. RECENT ACCOUNTING PRONOUNCEMENT

In December 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-19, "Technical Corrections and Improvements." It includes an update to Accounting Standards Codification Topic 820 ("Topic 820"), Fair Value Measurement. The update to Topic 820 clarifies the difference between a valuation approach and a valuation technique. It also requires disclosure when there has been a change in either or both a valuation approach and/or a valuation technique. The changes related to Topic 820 are effective for annual reporting periods, including interim periods within those annual periods, beginning after December 15, 2016. Management is currently evaluating the impact of the ASU to the financial statements.

9. SUBSEQUENT EVENT

On October 13, 2017 the Funds commenced tender offers which expired on November 10, 2017. Each Fund's tender offer was oversubscribed, and as a result, Clough Global Equity Fund and Clough Global Opportunities Fund purchased 37.5% of its respective outstanding common shares of beneficial interest and Clough Global Dividend and Income Fund purchased 32.5% of its outstanding common shares of beneficial interest. A total of 4,998,066, 10,052,547 and 31,646,419 shares, for Clough Global Dividend and Income Fund, Clough Global Equity Fund and Clough Global Opportunities Fund, respectively, were properly tendered and not withdrawn. The Funds accepted 3,373,469, 6,615,414 and 19,334,647 shares, for Clough Global Dividend and Income Fund, Clough Global Equity Fund and Clough Global Opportunities Fund, respectively, for cash payment totaling \$49,421,321, \$95,394,270 and \$232,209,110 at a purchase price of \$14.65, \$14.42 and \$12.01 per common share for Clough Global Dividend and Income Fund, Clough Global Equity Fund and Clough Global Opportunities Fund, respectively, which is 98.5% of the net asset value per common share determined as of the close of the regular trading session of the New York Stock Exchange on November 13, 2017. Accordingly, on a pro rata basis, Clough Global Dividend and Income Fund, Clough Global Equity Fund and Clough Global Opportunities Fund accepted approximately 67%, 66% and 61%, respectively, of the shares properly tendered.

The Committed Facility Agreement was amended on November 2, 2017, to decrease the Maximum Commitment Financing, effective November 15, 2017, to \$55,000,000, \$85,000,000 and \$207,000,000 for the Clough Global Dividend and Income Fund, Clough Global Equity Fund and the Clough Global Opportunities Fund, respectively.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Trustees of
Clough Global Dividend and Income Fund,
Clough Global Equity Fund, and
Clough Global Opportunities Fund

We have audited the accompanying statements of assets and liabilities, including the statements of investments, of Clough Global Dividend and Income Fund, Clough Global Equity Fund, and Clough Global Opportunities Fund (each a “Fund”, collectively the “Funds”) as of October 31, 2017, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the six periods in the period then ended. These financial statements and financial highlights are the responsibility of the Funds’ management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2017, by correspondence with the custodian, issuer, transfer agent, and brokers or by other appropriate auditing procedures where replies from brokers or counterparties were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Clough Global Dividend and Income Fund, Clough Global Equity Fund, and Clough Global Opportunities Fund as of October 31, 2017, the results of their operations and cash flows for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the six periods in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Clough Global Funds Dividend Reinvestment Plan

October 31, 2017 (Unaudited)

Unless the registered owner of Common Shares elects to receive cash by contacting DST Systems, Inc. (the “Plan Administrator”), all dividends declared on Common Shares will be automatically reinvested by the Plan Administrator for shareholders in each Fund’s Dividend Reinvestment Plan (the “Plan”), in additional Common Shares. Shareholders who elect not to participate in the Plan will receive all dividends and other distributions in cash paid by check mailed directly to the shareholder of record (or, if the Common Shares are held in street or other nominee name, then to such nominee) by the Plan Administrator as dividend disbursing agent. You may elect not to participate in the Plan and to receive all dividends in cash by contacting the Plan Administrator, as dividend disbursing agent, at the address set forth below. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional Common Shares for you. If you wish for all dividends declared on your Common Shares to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each Common Shareholder under the Plan in the same name in which such Common Shareholder’s Common Shares are registered. Whenever a Fund declares a dividend or other distribution (together, a “Dividend”) payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Shares. The Common Shares will be acquired by the Plan Administrator for the participants’ accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Shares from a Fund (“Newly Issued Common Shares”) or (ii) by purchase of outstanding Common Shares on the open market (“Open-Market Purchases”) on the American Stock Exchange or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commissions per Common Share is equal to or greater than the net asset value per Common Share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant’s account will be determined by dividing the dollar amount of the Dividend by the net asset value per Common Share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common Share on the payment date. If, on the payment date for any Dividend, the net asset value per Common Share is greater than the closing market value plus estimated brokerage commissions, the Plan Administrator will invest the Dividend amount in Common Shares acquired on behalf of the participants in Open-Market Purchases. In the event of a market discount on the payment date for any Dividend, the Plan Administrator will have until the last business day before the next date on which the Common Shares trade on an “ex-dividend” basis or 30 days after the payment date for such Dividend, whichever is sooner (the “Last Purchase Date”), to invest the Dividend amount in Common Shares acquired in Open-Market Purchases. If, before the Plan Administrator has completed its Open-Market Purchases, the market price per Common Share exceeds the net asset value per Common Share, the average per Common Share purchase price paid by the Plan Administrator may exceed the net asset value of the Common Shares, resulting in the acquisition of fewer Common Shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making

Open–Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at the net asset value per Common Share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per Common Share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common Shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of Common Shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of Common Shares certified from time to time by the record shareholder's name and held for the account of beneficial owners who participate in the Plan.

There will be no brokerage charges with respect to Common Shares issued directly by a Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open–Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. Participants that request a sale of Common Shares through the Plan Administrator are subject to brokerage commissions.

Each Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, each Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, DST Systems, Inc., 333 West 11th Street, 5th Floor, Kansas City, Missouri 64105.

Clough Global Funds Additional
 Information

October 31, 2017 (Unaudited)

FUND PROXY VOTING POLICIES & PROCEDURES

Each Fund's policies and procedures used in determining how to vote proxies relating to portfolio securities are available on the Funds' website at <http://www.cloughglobal.com>. Information regarding how each Fund voted proxies relating to portfolio securities held by each Fund for the period ended June 30, are available without charge, upon request, by contacting the Funds at 1-877-256-8445 and on the Commission's website at <http://www.sec.gov>.

PORTFOLIO HOLDINGS

The Funds file their complete schedule of portfolio holdings with the Commission for the first and third quarters of each fiscal year on Form N-Q within 60 days after the end of the period. Copies of the Funds' Form N-Q are available without a charge, upon request, by contacting the Funds at 1-877-256-8445 and on the Commission's website at <http://www.sec.gov>. You may also review and copy Form N-Q at the Commission's Public Reference Room in Washington, D.C. For more information about the operation of the Public Reference Room, please call the Commission at 1-800-SEC-0330.

NOTICE

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that each Fund may purchase at market prices from time to time shares of its common stock in the open market.

SHAREHOLDER MEETING

On August 3, 2017, the Funds held their annual meeting of Shareholders for the purpose of voting on a proposal to elect Trustees of the Funds. The results of the proposal for each Fund were as follows:

Clough Global Dividend and Income Fund

Edgar Filing: Clough Global Dividend & Income Fund - Form N-CSR

Proposal: To elect the following trustees to the Clough Global Dividend and Income Fund Board.

	Adam Crescenzi	Jerry Rutledge
For	6,024,371	6,025,131
Withheld	154,353	153,593

Clough Global Equity Fund

Proposal: To elect the following trustees to the Clough Global Equity Fund Board.

	Edmund Burke	Vincent Versaci	Clifford Weber
For	11,374,507	11,376,427	11,376,758
Withheld	296,591	294,671	294,340

Clough Global Opportunities Fund

Proposal: To elect the following trustees to the Clough Global Opportunities Fund Board.

	Robert Butler	Karen DiGravio	Kevin McNally
For	30,118,163	30,148,030	30,145,641
Withheld	1,874,256	1,844,389	1,846,778

SECTION 19(A) NOTICES

The following table sets forth the estimated amount of the sources of distribution for purposes of Section 19 of the Investment Company Act of 1940, as amended, and the related rules adopted there under. Each Fund estimates the following percentages, of the total distribution amount per share, attributable to (i) current and prior fiscal year net investment income, (ii) net realized short-term capital gain, (iii) net realized long-term capital gain and (iv) return of capital or other capital source as a percentage of the total distribution amount. These percentages are disclosed for the fiscal year-to-date cumulative distribution amount per share for each Fund.

The amounts and sources of distributions reported in these 19(a) notices are only estimates and not for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

54 www.cloughglobal.com

Clough Global Funds Additional
Information

October 31, 2017 (Unaudited)

	Total Cumulative Distributions for the year ended October 31, 2017				% Breakdown of the Total Cumulative Distributions for the year ended October 31, 2017			
	Net Investment Income	Net Realized Capital Gains	Return of Capital	Total Per Common Share	Net Investment Income	Net Realized Capital Gains	Return of Capital	Total Per Common Share
Clough Global Dividend and Income Fund	\$0.2098	\$0.00000	\$1.0844	\$1.2942	16.21%	0.00%	83.79%	100.00%
Clough Global Equity Fund	\$0.0653	\$0.00000	\$1.1785	\$1.2438	5.25%	0.00%	94.75%	100.00%
Clough Global Opportunities Fund	\$0.0312	\$0.00000	\$1.0396	\$1.0708	2.91%	0.00%	97.09%	100.00%

Each Fund's dividend policy is to distribute all or a portion of its net investment income to its shareholders on a monthly basis. In order to provide shareholders with a more stable level of dividend distributions, each Fund may at times pay out less than the entire amount of net investment income earned in any particular month and may at times in any particular month pay out such accumulated but undistributed income in addition to net investment income earned in that month. As a result, the dividends paid by each Fund for any particular month may be more or less than the amount of net investment income earned by the Fund during such month. Each Fund's current accumulated but undistributed net investment income, if any, is disclosed in the Statements of Assets and Liabilities, which comprises part of the financial information included in this report.

TAX DESIGNATIONS

The Funds hereby designate the following as a percentage of taxable ordinary income distributions, or up to the maximum amount allowable, for the calendar year ended December 31, 2016:

Edgar Filing: Clough Global Dividend & Income Fund - Form N-CSR

	Clough Global Dividend and Income Fund	Clough Global Equity Fund	Clough Global Opportunities Fund
Corporate Dividends Received Deduction	22.59%	0.00%	0.00%
Qualified Dividend Income	35.72%	0.00%	0.00%

Please consult a tax advisor if you have questions about federal or state income tax laws, or how to prepare your tax returns.

Clough Global Funds Privacy Policy

October 31, 2017 (Unaudited)

The Funds are committed to ensuring your financial privacy. This notice is being sent to comply with privacy regulations of the Securities and Exchange Commission. The following policy is in effect with respect to nonpublic personal information about Fund customers:

Only such information received from you, through application forms or otherwise, and information about your Fund transactions will be collected.

None of such information about you (or former customers) will be disclosed to anyone, except as permitted by law (which includes disclosure to employees necessary to service your account).

Policies and procedures (including physical, electronic and procedural safeguards) are in place that are designed to protect the confidentiality of such information.

The Funds do not currently obtain consumer information. If the Funds were to obtain consumer information at any time in the future, appropriate procedural safeguards that comply with federal standards to protect against unauthorized access to and properly dispose of consumer information would be employed.

For more information about the Funds' privacy policies call (877) 256-8445 (toll-free).

Annual Report | October 31, 2017 61

Item 2. Code of Ethics.

The Registrant, as of the end of the period covered by the report, has adopted a Code of Ethics that applies to the (a) Registrant's Principal Executive Officer, Principal Financial Officer, Principal Accounting Officer or Controller or any persons performing similar functions on behalf of the Registrant.

(b) Not Applicable.

(c) During the period covered, by this report, no amendments were made to the provisions of the Code of Ethics adopted in 2 (a) above.

(d) During the period covered by this report, no implicit or explicit waivers to the provision of the Code of Ethics adopted in 2 (a) above were granted.

(e) Not Applicable.

(f) The Registrant's Code of Ethics is attached as Exhibit 13.A.1 hereto.

Item 3. Audit Committee Financial Expert.

The Registrant's Board of Trustees has determined that the registrant has as least one audit committee financial expert serving on its Audit Committee. The Board of Trustees has designated Karen DiGravio as the Registrant's "audit committee financial expert." Ms. DiGravio is "independent" as defined in paragraph (a)(2) of Item 3 to Form N-CSR.

Item 4. Principal Accounting Fees and Services.

The following table sets forth the aggregate audit and non-audit fees billed to the registrant for each of the last two fiscal years for professional services rendered by the registrant's principal accountant, Cohen & Company, Ltd. ("Cohen").

Fiscal	Fiscal
year	year
ended	ended

Edgar Filing: Clough Global Dividend & Income Fund - Form N-CSR

	October	October
	31, 2017	31, 2016
(a) Audit Fees (1)	\$20,500	\$20,500
(b) Audit-Related Fees (2)	0	0
(c) Tax Fees (3)	3,000	3,000
(d) All Other Fees (4)	0	0
(g) Aggregate Non-Audit Fees (5)	3,000	3,000

- Audit Fees are fees billed for professional services rendered by Cohen for the audit of the registrant's annual
- (1) financial statements and for the services that are normally provided by Cohen in connection with the statutory and regulatory filings or engagements.
 - (2) Audit-Related Fees are fees billed for assurance and related services by Cohen that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under the caption "Audit Fees". Tax Fees are fees billed for professional services rendered by Cohen for tax compliance, tax advice and tax
 - (3) planning. In all periods shown in the table, such services consisted of preparation of the registrant's annual tax returns, excise tax returns, and review of dividend distribution calculation fees.
 - (4) All Other Fees are fees billed for products and services provided by Cohen, other than the services reported under the captions "Audit Fees", "Audit-Related Fees" and "Tax Fees". Aggregate Non-Audit Fees are non-audit fees billed by Cohen for services rendered to the registrant, the registrant's investment adviser (the "Adviser") and any entity controlling, controlled by or under common control with the
 - (5) Adviser that provides ongoing services to the registrant (collectively, the "Covered Entities"). The Aggregate Non-Audit Fee includes the Tax Fees disclosed pursuant to Footnote 3 above. During all periods shown in the table, no portion of such fees related to services rendered by Cohen to the Adviser or any other Covered Entity.
- (e)(1) Audit Committee Pre-Approval Policies and Procedures: All services to be performed by the Registrant's principal auditors must be pre-approved by the Registrant's Audit Committee.
- (e)(2) No services described in paragraphs (b) through (d) were approved pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.
- (f) Not applicable.

Item 5. Audit Committee of Listed Registrant.

The registrant has a separately designated standing Audit Committee established in accordance with Section 3 (a)(58)(A) of the Exchange Act and is comprised of the following members:

Robert L. Butler

Adam D. Crescenzi

Clifford J. Weber

Karen DiGravio, Committee Chairman

Jerry G. Rutledge

Hon. Vincent W. Versaci

Item 6. Schedule of Investments.

(a) Schedule of Investments is included as part of the Report to Stockholders filed under Item 1 of this form.

(b) Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

Attached, as Exhibit Ex. 99. Item 7, is a copy of the policies and procedures of Clough Capital Partners L.P. (“Clough”), the investment adviser of the Registrant.

Item 8. Portfolio Managers of Closed-End Management Investment Companies, January 8, 2018

Portfolio Managers Name	Title	Length of Service	Business Experience: 5 Years
Charles I. Clough, Jr.	CEO, Partner and Portfolio Manager	Since Inception	Founding Partner Clough Capital Partners L.P. Portfolio Manager for pooled investment accounts, separately managed accounts, and investment companies for over 17 years.
Robert Zdunczyk	Portfolio Manager & Fixed Income Analyst	Since 12/21/11	Mr. Zdunczyk has over 18 years of industry experience which includes analysis of fixed income securities, fixed income trading, equity research, portfolio management, and accounting. He has been an Analyst at Clough Capital Partners L.P. since 2005, where he has been managing fixed income portfolios, specialty finance equity research and fixed income trading.

(a)(2) As of October 31, 2017, the Portfolio Managers listed above are also responsible for the day-to-day management of the following:

Portfolio Managers Name	Registered Investment Companies	Other Pooled Investment Vehicles ⁽¹⁾	Other Accounts⁽²⁾	Material Conflicts If Any
Charles I. Clough, Jr.	3 Accounts \$1,426.2 million Total Assets	\$714.9 million Total Assets	1 Accounts \$262.9 million Total Assets	See below ⁽³⁾
Robert Zdunczyk	2 Accounts \$1,389.4 million Total Assets	N/A	1 Account \$262.9 million Total Assets	See below ⁽³⁾

(1)The advisory fees are based in part on the performance for each account.

(2)The advisory fee is based in part on the performance for the account.

(3)Material Conflicts:

Material conflicts of interest may arise as a result of the fact that the Portfolio Managers also have day-to-day management responsibilities with respect to both the Registrant and the various accounts listed above (collectively with the Registrant, the “Accounts”). These potential conflicts include:

Limited Resources. The Portfolio Managers cannot devote their full time and attention to the management of each of the Accounts. Accordingly, the Portfolio Managers may be limited in their ability to identify investment opportunities for each of the Accounts that are as attractive as might be the case if the Portfolio Managers were to devote substantially more attention to the management of a single Account. The effects of this potential conflict may be more pronounced where the Accounts have different investment strategies.

Limited Investment Opportunities. If the Portfolio Managers identify a limited investment opportunity that may be appropriate for more than one Account, the investment opportunity may be allocated among several Accounts. This could limit any single Account’s ability to take full advantage of an investment opportunity that might not be limited if the Portfolio Managers did not provide investment advice to other Accounts.

Different Investment Strategies. The Accounts managed by the Portfolio Managers have differing investment strategies. If the Portfolio Managers determine that an investment opportunity may be appropriate for only some of the Accounts or decide that certain of the Accounts should take different positions with respect to a particular security, the Portfolio Managers may effect transactions for one or more Accounts which may affect the market price of the

security or the execution of the transaction, or both, to the detriment or benefit of one or more other Accounts.

Variation in Compensation. A conflict of interest may arise where Clough or Clough Associates, LLC, as applicable, is compensated differently by the Accounts that are managed by the Portfolio Managers. If certain Accounts pay higher management fees or performance-based incentive fees, the Portfolio Managers might be motivated to prefer certain Accounts over others. The Portfolio Managers might also be motivated to favor Accounts in which they have a greater ownership interest or Accounts that are more likely to enhance the Portfolio Managers' performance record or to otherwise benefit the Portfolio Managers.

Selection of Brokers. The Portfolio Managers select the brokers that execute securities transactions for the Accounts that they supervise. In addition to executing trades, some brokers provide the Portfolio Managers with research and other services which may require the payment of higher brokerage fees than might otherwise be available. The Portfolio Managers' decision as to the selection of brokers could yield disproportionate costs and benefits among the Accounts that they manage, since the research and other services provided by brokers may be more beneficial to some Accounts than to others.

(a)(3) Portfolio Manager Compensation as of October 31, 2017.

The Portfolio Manager Charles Clough owns 84.15% of Clough. He receives a fixed base salary determined based on market factors. Additionally, Clough distributes substantially all of its annual net profits to its partners, with Mr. Clough receiving a majority share and the remainder being divided between the James Canty Trust of 2012, with an additional smaller share allocated to eight income partners, including Mr. Zdunczyk. Mr. Zdunczyk also receives a fixed base salary based on market factors.

(a)(4) Dollar Range of Securities Owned as of October 31, 2017.

Portfolio Managers	Dollar Range of the Registrant's Securities Owned by the Portfolio Managers
Charles I. Clough, Jr.	\$500,001 - \$1,000,000
Robert Zdunczyk	\$10,001 - \$50,000

Item 9. Purchases of Equity Securities by Closed-End Management Investment Companies and Affiliated Purchasers.

None.

Item 10. Submission of Matters to Vote of Security Holders.

On October 12, 2017, the Board of Trustees of the Registrant adopted bylaws of the Registrant (the “Bylaws”) that designate procedures by which shareholders may submit proposals to the Registrant’s Board of Trustees. A summary of these procedures, along with the pertinent section of the By-Laws referenced is below:

Certain actions must be approved by “Continuing Trustees,” which is defined to include any Trustee that has served for a certain period of time, or is a successor to a Continuing Trustee, and is not affiliated with any parties that may seek to enter certain into special arrangements with a Trust. (Introduction)

Trustees may require that proxies be voted in-person or by written proxy in the case of shareholder proposals or contested proxies. (2.2)

Shareholders must hold at least 10% of the shares entitled to vote in order to require an Inspector of Election to be appointed. (2.4)

At least 10 business days’ advance notice is required for any request for the minutes of the last shareholder meeting and shareholder list to be available for inspection. (2.5)

A person must be a shareholder at the time of making a proposal and at the time the annual meeting is held and a shareholder making a proposal must provide certain information to the Trust. (2.6)

The Chairman of the meeting may determine if a proposal is properly brought before a special meeting. (2.7)

A shareholder (or its duly authorized representative) must be present at the shareholder meeting in order for the shareholder’s proposal to be acted upon at the meeting. (2.8)

A shareholder is required to comply with any applicable requirements of the Securities Exchange Act with respect to submitting a proposal. (2.9)

A majority of the Trustees (rather than any two Trustees) may call a meeting of the Board; and Trustees can participate in a meeting by any election means that permits the Trustee to hear and be heard by the other participants. (3.1)

Trustees may require that a Trustee sign a non-disclosure agreement as a condition of the Trustee’s service as a Trustee of the Trust. (3.5)

Trustees may require that a Trustee sign an acknowledgement of the policies of the Trust as a condition of the Trustee's service as a Trustee of the Trust. (3.6)

A candidate for Trustee must meet certain specific qualifications to serve as a Trustee (unless waived by resolution of a majority of the Board). (3.7)

Requests to inspect the records of the Trust must give at least 10 days' notice. (5.1 and 5.2)

A shareholder requesting the records of a Trust must follow a procedure and permits the Board or officers of the Trust to impose reasonable restrictions on the use of the records. (5.5)

Shareholders wishing to enter into litigation against or on behalf of a Trust must meet certain requirements, including that shareholders must make a demand upon the Trustees before entering into any derivative lawsuits; shareholders are restricted from bringing direct lawsuits, such as those in the Northstar v. Schwab case, unless they have suffered a unique harm; shareholders wishing to engage in a derivative lawsuit must hold a minimum number of shares of a Trust and reimburse the Trustees for any counsel or other advisers retained by the Trustees to consider the merits of a shareholder's allegations. (6.10)

Any derivative suit or action claiming breach of duty of a Trustee must be brought in the courts located in Boston, Massachusetts. (6.11)

Item 11. Controls and Procedures.

(a) The Registrant's Principal Executive Officer and Principal Financial Officer have concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) are effective based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.

(b) There was no change in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940, as amended) during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12. Disclosure of Securities Lending Activities for Closed-End Management Investment Companies.

(a) For the fiscal year ended October 31, 2018, the registrant had the following dollar amounts of income and fees/compensation related to its securities lending activities to report:

Gross Income¹	Revenue Split²	Cash Collateral Management Fees³	Administrative Fees⁴	Indemnification Fees⁵	Rebates to Borrowers	Other Fees	Total Costs of the Securities Lending Activities	Net Income from the Securities Lending Activities
\$36,066	N/A	N/A	N/A	N/A	N/A	N/A	N/A	\$36,066

(b) The registrant has a credit facility with BNP Paribas Prime Brokerage, Inc. (BNP). Pursuant to the credit facility agreements and subject to conditions, BNP is authorized to hypothecate certain securities held by a third party custodian.

¹Gross income includes income from the reinvestment of cash collateral.

²Revenue split represents the share of revenue generated by the securities lending program and paid to State Street.

³Cash collateral management fees include fees deducted from a pooled cash collateral reinvestment vehicle that are not included in the revenue split.

⁴These administrative fees are not included in the revenue split.

⁵These indemnification fees are not included in the revenue split.

Item 13. Exhibits.

(a)(1) The Code of Ethics that applies to the Registrant's Principal Executive Officer and Principal Financial Officer is attached hereto as Exhibit 13.A.1.

(a)(2) The certifications required by Rule 30a-2(a) of the Investment Company Act of 1940, as amended, and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto as Ex-99.Cert.

(a)(3) Not applicable.

(a)(4) Not applicable.

(b) A certification for the Registrant's Principal Executive Officer and Principal Financial Officer, as required by Rule 30a-2(b) of the Investment Company Act of 1940, as amended, and Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto as Ex-99.906Cert.

(c) The Proxy Voting Policies and Procedures are attached hereto as Ex99. Item 7.

(d) Pursuant to the Securities and Exchange Commission's Order granting relief from Section 19(b) of the Investment Company Act of 1940 dated September 21, 2009, the form of 19(a) Notices to Beneficial Owners are attached hereto as Exhibit 13(d).
