DAILY JOURNAL CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1 - The Corporation and Operations

Daily Journal Corporation (the “Company”) publishes newspapers and web sites covering California and Arizona and produces several specialized information services. It also serves as a newspaper representative specializing in public notice advertising.

Journal Technologies, Inc. (“Journal Technologies”), a wholly-owned subsidiary, includes as of October 1, 2014, the combined operations of Sustain Technologies, Inc. (“Sustain”), a wholly-owned subsidiary since 2008; New Dawn Technologies, Inc. (“New Dawn”), acquired in December 2012; and ISD Technologies, Inc. (“ISD”), acquired in September 2013. Journal Technologies supplies case management software systems and related products to courts, prosecutor and public defender offices, probation departments and other justice agencies, including administrative law organizations, city and county governments and bar associations. These organizations use the Journal Technologies family of products to help manage cases and information electronically, to interface with other critical justice partners and to extend electronic services to bar members and the public, including a website to pay traffic citations online. These products are licensed to more than 500 organizations in 41 states and internationally.

Essentially all of the Company’s operations are based in California, Arizona and Utah.

Note 2 - Basis of Presentation

In the opinion of the Company, the accompanying interim unaudited consolidated financial statements contain all adjustments (consisting of normal recurring accruals) considered necessary for a fair statement of its financial position as of December 31, 2015, its results of operations for the three-month periods ended December 31, 2015 and 2014 and its cash flows for the three-month periods ended December 31, 2015 and 2014. The results of operations for the three months ended December 31, 2015 are not necessarily indicative of the results to be expected for the full year.

The consolidated financial statements included herein have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally

included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2015.

Note 3 - Accounting Standards Adopted in Fiscal 2016 and Recent Accounting Pronouncements

*Accounting Standards Adopted in Fiscal 2016*

In April 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Codification (“ASU”) No. 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*. This update changes the requirements for reporting discontinued operations. A disposal of a component of an entity or a group of components of an entity is required to be reported in the discontinued operations if the disposal represents a strategic shift that has (or will have) a major effect on an entity’s operations and financial results. Further, this update expands the disclosures about an entity’s significant continuing involvement with a discontinued operation. The standard is required to be adopted for annual periods beginning on or after December 15, 2014, including interim periods within that annual period. This ASU was effective beginning October 1, 2015 for the Company, and the adoption has had no impact on the Company’s financial condition, results of operations or disclosures.

*Other Recent Accounting Pronouncements*

The Company will evaluate new accounting pronouncements as detailed in its Annual Report on Form 10-K for the year ended September 30, 2015.

## Note 4 - Basic and Diluted Income Per Share

The Company does not have any common stock equivalents, and therefore the basic and diluted income per share are the same.

## Note 5 - Intangible Assets

**Intangible Assets**

	December 31, 2015			September 30, 2015		
	Customer Relationships	Developed Technology	Total	Customer Relationships	Developed Technology	Total
Gross intangible	\$22,104,000	\$2,525,000	\$24,629,000	\$22,104,000	\$2,525,000	\$24,629,000
Accumulated amortization	(11,539,000)	(1,359,000)	(12,898,000)	(10,406,000)	(1,233,000)	(11,639,000)
	\$10,565,000	\$1,166,000	\$11,731,000	\$11,698,000	\$1,292,000	\$12,990,000

These identifiable intangible assets are being amortized over five years for financial statement purposes due to the short life cycle of technology that customer relationships depend on, and over a 15-year period on a straight line basis for tax purposes. The intangible amortization expenses were \$1,259,000 for the three months ended December 31, 2015 as compared with \$1,224,000 in the prior year period.

## Note 6 – Goodwill

The Company accounts for goodwill in accordance with ASC 350, *Intangibles — Goodwill and Other*. Goodwill, which is not amortized for financial statement purposes, is amortized over a 15-year period for tax purposes, but evaluated for impairment annually, or whenever events or changes in circumstances indicate that the value may not be recoverable. Considered factors for potential goodwill impairment evaluation with respect to Journal Technologies

include the current year's business profitability before intangible amortization, fluctuations of revenues, changes in the marketplace, the status of deferred installation contracts and new business, among other things.

In addition, ASC 2011-08, *Testing Goodwill for Impairment*, allows for the option of performing a qualitative assessment before calculating the fair value of a reporting unit. If it is determined based on qualitative factors that there is no impairment to goodwill, then the fair value of a reporting unit is not needed. If a quantitative analysis is required and the unit's carrying amount exceeds its fair value, then the second step is performed to measure the amount of potential impairment. The Company's annual goodwill impairment analysis in fiscal 2015 did not result in an impairment charge based on the qualitative assessment. There was no goodwill impairment during the three-month periods ended December 31, 2015 and 2014.

## Note 7 – Revenue Recognition

For the Company’s traditional publishing business (the “Traditional Business”), proceeds from the sale of subscriptions for newspapers, court rule books and other publications and other services are recorded as deferred revenue and are included in earned revenue only when the services are provided, generally over the subscription term. Advertising revenues are recognized when advertisements are published and are net of commissions. An allowance for doubtful accounts is recorded for the accounts receivable.

Journal Technologies recognizes revenues in accordance with the provisions of ASC 985-605, *Software—Revenue Recognition* and ASC 605-35 *Construction-Type and Production-Type Contracts*. Revenues from leases of software products are recognized over the life of the lease while revenues from software product sales are generally recognized upon delivery, installation or acceptance pursuant to a signed agreement. Revenues from annual license and maintenance contracts generally call for the Company to provide software updates and upgrades to customers and are recognized ratably over the maintenance period. Consulting and other services are recognized upon acceptance by the customers under the completed contract method. The Company elects to use the completed contract method because each customer’s acceptance is unpredictable and reliable estimates of the progress towards completion cannot be made. Only after a customer’s acceptance of a completed project are customer advances generally no longer at risk of refund and are therefore considered earned.

Approximately 59% and 57% of the Company’s revenues during the three months ended December 31, 2015 and 2014, respectively, were derived from Journal Technologies.

The Company has established Vendor Specific Objective Evidence (VSOE) of fair value of the annual maintenance because a substantial majority of the Journal Technologies’ actual maintenance renewals is within a narrow range of pricing as a percentage of the underlying license fees for the legacy contracts and is deemed substantive.

## Note 8 - Income Taxes

For the three months ended December 31, 2015, the Company recorded an income tax benefit of \$185,000 on pretax loss of \$135,000. The income tax benefit was the result of applying the effective tax rate anticipated for fiscal 2016 to pretax loss for the first quarter of fiscal 2016. The effective tax rate was lower than the statutory rate primarily due to the dividends received deduction. On pretax income of \$408,000 for the three months ended December 31, 2014, the Company recorded a tax benefit of \$25,000 which was the net result of applying the effective tax rate anticipated for fiscal 2015 to pretax income for the first quarter of fiscal 2015. The Company’s effective tax rate was 137% and -6% for the three months ended December 31, 2015 and 2014, respectively. The Company files federal income tax returns in the United States and with various state jurisdictions and is no longer subject to examinations for fiscal years before

fiscal 2012 with regard to federal income taxes and fiscal 2011 for state income taxes.

8

---

At December 31, 2015, the Company had an accrued liability of approximately \$2,925,000 for uncertain and unrecognized tax benefits relating to an acquisition in fiscal 2013, after a reduction of \$319,000 resulting from the recognition of deferred revenues and from the amortization of goodwill for tax purposes. The Company does not anticipate a significant increase or decrease in this liability in the next twelve months. If recognized, it is expected that these unrecognized tax benefits would not have a significant impact to the Company's effective tax rate. During the first quarter of fiscal 2015, interest expenses of approximately \$24,000 were recorded as "interest and penalty expense accrued for uncertain and unrecognized tax benefits" in the Statement of Comprehensive Income.

Note 9 - Investments in Marketable Securities

Investments in marketable securities categorized as "available-for-sale" are stated at fair value. The Company uses quoted prices in active markets for identical assets (consistent with the Level 1 definition in the fair value hierarchy) to measure the fair value of its investments on a recurring basis pursuant to ASC 820, *Fair Value Measurement*. As of December 31, 2015 and September 30, 2015, an unrealized gain of \$120,602,000 and \$111,498,000, respectively, was recorded before taxes of \$46,455,000 and \$43,278,000, respectively, in "Accumulated other comprehensive income" in the accompanying Consolidated Balance Sheets. Most of the unrealized gains were in the common stocks of three U.S. financial institutions.

Investments in equity securities and securities with fixed maturity as of December 31, 2015 and September 30, 2015 are summarized below.

	December 31, 2015 (Unaudited)			September 30, 2015		
	Aggregate fair value	Amortized/Adjusted cost basis	Pre-tax unrealized gains	Aggregate fair value	Amortized/Adjusted cost basis	Pre-tax unrealized gains
Marketable securities						
Common stocks	\$ 171,798,000	\$ 53,442,000	\$ 118,356,000	\$ 158,705,000	\$ 49,604,000	\$ 109,101,000
Bonds	7,186,000	4,940,000	2,246,000	7,336,000	4,939,000	2,397,000
Total	\$ 178,984,000	\$ 58,382,000	\$ 120,602,000	\$ 166,041,000	\$ 54,543,000	\$ 111,498,000

All investments are classified as "Current assets" because they are available for sale at any time. The bonds mature in 2039.

As of December 31, 2015, the Company performed separate evaluations for impaired equity securities to determine if the unrealized losses were other-than-temporary. This evaluation considers a number of factors including, but not limited to, the length of time and extent to which the fair value has been less than cost, the financial condition and near term prospects of the issuer and the Company's ability and intent to hold the securities until fair value recovers. The assessment of the ability and intent to hold these securities to recovery focuses on liquidity needs, asset/liability management objectives and securities portfolio objectives. Based on the results of the evaluations, the Company concluded that as of December 31, 2015, all unrealized losses related to the equity securities it owns were temporary.

#### Note 10 - Debt and Commitments and Contingencies

In December 2012, the Company borrowed from its investment margin account the purchase price of \$14 million for the New Dawn acquisition, and in September 2013, it borrowed another \$15.5 million for the ISD acquisition, in each case pledging its marketable securities as collateral. The interest rate for these investment margin account borrowings fluctuates based on the Federal Funds Rate plus 50 basis points with interest only payable monthly. The interest rate as of December 31, 2015 was 1%. These investment margin account borrowings do not mature.

In November 2015, the Company purchased a 30,700 square foot office building constructed in 1998 on about 3.6 acres in Logan, Utah that had been previously leased for Journal Technologies. The Company paid \$1.24 million and financed the balance with a real estate bank loan of \$2.26 million which bears a fixed interest rate of 4.66% and is repayable in equal monthly installments of about \$17,600 through 2030. This loan is secured by the Logan facility and can be paid off at any time without prepayment penalty.

The Company owns its facilities in Los Angeles and leases space for its other Daily Journal offices under operating leases which expire at various dates through fiscal 2020. The Company is responsible for a portion of maintenance, insurance and property tax expenses relating to these leased properties and certain other leased properties. Rental expenses for three-month periods ended December 31, 2015 and 2014 were \$250,000 and \$283,000, respectively.

From time to time, the Company is subject to litigation arising in the normal course of its business. While it is not possible to predict the results of such litigation, management does not believe the ultimate outcome of these matters will have a material effect on the Company's financial position or results of operations or cash flows.

## Note 11 - Operating Segments

The Company's reportable segments are: (i) the Traditional Business and (ii) Journal Technologies. All inter-segment transactions were eliminated. Summarized financial information concerning the Company's reportable segments is shown in the following table:

	Reportable Segments		Corporate income and expenses	Total
	Traditional	Journal		
	Business	Technologies		
<u>Three months ended December 31, 2015</u>

---

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

**Results of Operations**

The Company continues to operate as two different businesses: (1) The Traditional Business, being the business of newspaper publishing and related services that the Company had before 1999 when it purchased a majority interest in Sustain, and (2) Journal Technologies, Inc. ("Journal Technologies"), a wholly-owned subsidiary which supplies case management software systems and related products to courts, prosecutor and public defender offices, probation departments and other justice agencies, including administrative law organizations, city and county governments and bar associations.

*Overall Results*

During the three months ended December 31, 2015, consolidated pretax loss was \$135,000 as compared to a profit of \$408,000 in the prior year period. The Traditional Business segment's pretax income decreased by \$168,000 (58%) to \$122,000 from \$290,000, primarily resulting from decreases in trustee sale notice and related service fee revenues of \$245,000 and commercial advertising revenues of \$208,000, partially offset by decreased legal, accounting and tax fees. Journal Technologies' business segment pretax loss increased by \$439,000 (65%) to \$1,110,000 from \$671,000 primarily resulting from decreased other public service fees of \$146,000 and increased personnel costs and additional travel expenses for installation services. The Company's non-operating income, net of expenses, increased by \$58,000 (8%) to \$827,000 primarily because of additional dividends and interest income from the Company's marketable securities.

At December 31, 2015, the aggregate fair market value of the Company's marketable securities was \$178,984,000. These securities had approximately \$120,602,000 of unrealized gains before taxes of \$46,455,000 and generated approximately \$903,000 in dividends and interest income during the three months ended December 31, 2015, which lowers the Company's effective income tax rate because of the dividends received deduction.

Consolidated revenues were \$10,815,000 and \$11,323,000 for the three months ended December 31, 2015 and 2014, respectively. This decrease of \$508,000 (4%) was primarily from the reduction in The Traditional Business's trustee sale notice and related service fee revenues of \$245,000 and commercial advertising revenues of \$208,000 (primarily due to the discontinuance of publishing the California Lawyer magazine), and Journal Technologies' public service fees of \$146,000. The Company's revenues derived from Journal Technologies' operations constituted about 59% and 57% of the Company's total revenues for the three months ended December 31, 2015 and 2014, respectively.

Consolidated operating costs and expenses increased by \$93,000 (1%) to \$11,777,000 from \$11,684,000, primarily resulting from additional expenses for Journal Technologies. Total personnel costs increased by \$36,000 (1%) to \$6,648,000 from \$6,612,000 including additional personnel costs for Journal Technologies. Postage and delivery expenses decreased by \$46,000 (14%) to \$286,000 from \$332,000, and newsprint and printing expenses decreased by \$125,000 (37%) to \$217,000 from \$342,000 primarily because of the discontinuance of publishing the California Lawyer magazine effective October 1, 2015. Other general and administrative expenses increased by \$156,000 (7%) to \$2,347,000 from \$2,191,000 mainly because of increased travel costs for installation services and selling expenses for Journal Technologies.

There was net income per share of \$0.04 for the three months ended December 31, 2015 as compared with \$0.31 per share in the prior year period.

### *The Traditional Business*

The Traditional Business segment advertising revenues, which declined by \$383,000 (14%) to \$2,321,000 from \$2,704,000, are primarily trustee sale notice advertising fees. These trustee sale notices are very much dependent on the number of California and Arizona foreclosures for which public notice advertising is required by law. The number of foreclosure notices published by the Company decreased by 20% during the three months ended December 31, 2015 as compared to the prior year period and accounted for almost all of the decline in revenues. Because this slowing is expected to continue, there will be fewer foreclosure notice advertisements and declining revenues in fiscal 2016, and the Company's print-based earnings will also likely decline significantly because it will be impractical for the Company to offset all revenue loss by expense reduction. The Company's smaller newspapers, those other than the Los Angeles and San Francisco Daily Journals ("The Daily Journals"), accounted for about 92% of the total public notice advertising revenues in the three months ended December 31, 2015. Public notice advertising revenues and related advertising and other service fees constituted about 21% and 22% of the Company's total revenues for the three months ended December 31, 2015 and 2014, respectively. Because of this concentration, the Company's revenues would be significantly affected if California (and to a lesser extent Arizona) eliminated the legal requirement to publish public notices in adjudicated newspapers of general circulation, as has been proposed from time to time. Also, if the adjudication of one or more of the Company's newspapers was challenged and revoked, those newspapers would no longer be eligible to publish public notice advertising, and it could have a material adverse effect on the Company's revenues. Commercial advertising revenues decreased by \$208,000 (23%) to \$695,000 from \$903,000 because of the continuing challenges in the commercial advertising business and the discontinuance of publishing the California Lawyer magazine.

The Daily Journals accounted for about 84% of the Company's total circulation revenues, which declined by \$18,000 to \$1,506,000 from \$1,524,000. The court rule and judicial profile services generated about 9% of the total circulation revenues, with the other newspapers and services accounting for the balance. Advertising service fees and other are Traditional Business segment revenues, which include primarily (i) agency commissions received from outside newspapers in which the advertising is placed and (ii) fees generated when filing notices with government agencies.

The Traditional Business segment operating expenses decreased by \$270,000 (6%) to \$4,353,000 from \$4,623,000 primarily due to decreased legal, accounting and tax fees of \$302,000.

### *Journal Technologies*

Journal Technologies' revenues decreased by \$72,000 (1%) to \$6,338,000 from \$6,410,000 in the prior year period. Licensing and maintenance fees decreased by \$110,000 (3%) to \$3,647,000 from \$3,757,000. Consulting fees increased by \$184,000 (15%) to \$1,376,000 from \$1,192,000. In most cases, revenues from new installation projects will only be recognized, if at all, upon completion and acceptance of the services by the various customers. Deferred revenues on installation contracts primarily represent the fair value of advances from customers of Journal

Technologies for software licenses and installation services. After a customer's acceptance of the completed project, the advances are generally no longer at risk of refund and are therefore considered earned. Deferred revenues on license and maintenance contracts represent prepayments of annual license and maintenance fees and are recognized ratably over the maintenance period. Other public service fees decreased by \$146,000 (10%) to \$1,315,000 from \$1,461,000 primarily due to a reduction in the number of traffic tickets processed.

Journal Technologies' operating expenses, which included the same amount of amortization of intangible assets of \$1,224,000 for both of the three month periods ended December 31, 2015 and 2014, increased by \$363,000 (5%) to \$7,424,000 from \$7,061,000 primarily due to increased personnel costs and travel expenses. Identifiable intangible assets, including customer relationships and developed technology, are being amortized on a straight-line basis over five years due to the short life cycle of technology that customer relationships depend on and over 15 years for tax purposes. Goodwill, which is not amortized for financial statement purposes, is amortized over a 15-year period for tax purposes. Goodwill represents the expected synergies in expanding the Company's software business. Goodwill is evaluated for impairment annually, or whenever events or changes in circumstances indicate that the value may not be recoverable. Considered factors for potential goodwill impairment evaluation include the current year's business profitability before intangible amortization, fluctuations of revenues, changes in the market place, the status of installation contracts and new business, among other things. The Company is continuing to update and upgrade its software products. These costs are expensed as incurred and will impact earnings at least through the foreseeable future.

### *Taxes*

For the three months ended December 31, 2015, the Company recorded an income tax benefit of \$185,000 on a pretax loss of \$135,000. The income tax benefit was the result of applying the effective tax rate anticipated for fiscal 2016 to the pretax loss for the first quarter of fiscal 2016. The effective tax rate was lower than the statutory rate primarily due to the dividends received deduction. On pretax income of \$408,000 for the three months ended December 31, 2014, the Company recorded a tax benefit of \$25,000 which was the net result of applying the effective tax rate anticipated for fiscal 2015 to pretax income for the first quarter of fiscal 2015. The Company's effective tax rate was 137% and -6% for the three months ended December 31, 2015 and 2014, respectively. The Company files federal income tax returns in the United States and with various state jurisdictions and is no longer subject to examinations for fiscal years before fiscal 2012 with regard to federal income taxes and fiscal 2011 for state income taxes.

At December 31, 2015, the Company had an accrued liability of approximately \$2,925,000 for uncertain and unrecognized tax benefits relating to an acquisition in fiscal 2013, after a reduction of \$319,000 resulting from the recognition of deferred revenues and from the amortization of goodwill for tax purposes. The Company does not anticipate a significant increase or decrease in this liability in the next twelve months. If recognized, it is expected that these unrecognized tax benefits would not have a significant impact to the Company's effective tax rate. During the first quarter of fiscal 2015, interest expenses of approximately \$24,000 were recorded as "interest and penalty expense accrued for uncertain and unrecognized tax benefits" in the Statement of Comprehensive Income.

### **Liquidity and Capital Resources**

During the three months ended December 31, 2015, the Company's cash and cash equivalents and marketable security positions increased by \$6,209,000 to \$187,867,000. Cash and cash equivalents were used primarily for the purchase of

marketable securities of \$3,838,000 and capital assets of \$3,541,000, including \$3,500,000 for the Logan building. The investments in marketable securities, which had an adjusted cost basis of approximately \$58,382,000 and had a market value of about \$178,984,000 at December 31, 2015, generated approximately \$903,000 in dividends and interest income, which lowers the Company's effective income tax rate because of the dividends received deduction. As of December 31, 2015, there were unrealized investment pretax gains of \$120,602,000 as compared to \$111,498,000 as of September 30, 2015. Most of the unrealized gains were in the common stocks of three U.S. financial institutions.

The net cash used for operating activities of \$1,615,000 included net decreases in deferred installation contracts and maintenance agreements of \$1,334,000 and decreases in deferred subscriptions of \$118,000. Cash flows from operating activities decreased by \$1,867,000 during the three months ended December 31, 2015 as compared to prior year period primarily resulting from (i) decreases in net income of \$383,000 and accounts payable and accrued liabilities of \$516,000 as more liabilities were paid and (ii) increases in accounts receivable of \$289,000 primarily resulting from more billings.

As of December 31, 2015, the Company had working capital of \$126,310,000, including the liabilities for deferred subscriptions and deferred installation contracts and deferred maintenance agreements and others of \$16,828,000, which are scheduled to be earned within one year, and the deferred tax liability of \$46,455,000 for the unrealized gains described above

The Company believes that it will be able to fund its operations for the foreseeable future through its cash flows from operating activities and its current working capital and expects that any such cash flows will be invested in its businesses. The Company may or may not have the ability to borrow against its marketable securities on favorable terms as it did for prior acquisitions. The Company also may entertain additional business acquisition opportunities. Any excess cash flows could be used to reduce the investment margin account liability or note payable collateralized by real estate or invested as management and the Board of Directors deem appropriate at the time.

Such investments may include additional securities of the companies in which the Company has already invested, securities of other companies, government securities (including U.S. Treasury Notes and Bills) or other instruments. The decision as to particular investments will be driven by the Company's belief about the risk/reward profile of the various investment choices at the time, and it may utilize government securities as a default if attractive opportunities for a better return are not available. The Company's Chairman of the Board, Charles Munger, is also the vice chairman of Berkshire Hathaway Inc., which maintains a substantial investment portfolio. The Company's Board of Directors has utilized his judgment and suggestions, as well as those of J.P. Guerin, the Company's vice chairman, when selecting investments, and both of them will continue to play an important role in monitoring existing investments and selecting any future investments.

As of December 31, 2015, the investments were concentrated in just seven companies. Accordingly, a significant decline in the market value of one or more of the Company's investments may not be offset by the hypothetically better performance of other investments, and that could result in a large decrease in the Company's shareholders' equity and, under certain circumstances, in the recognition of impairment losses in the Company's income statement (such as the other-than-temporary impairment losses of \$376,000 recognized during fiscal 2015, \$1,719,000 recognized in fiscal 2013 and \$2,855,000 recognized in fiscal 2012).

### **Critical Accounting Policies and Estimates**

The Company's financial statements and accompanying notes are prepared in accordance with U.S. generally accepted accounting principles. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. These estimates and assumptions are affected by management's application of accounting policies. Management believes that revenue recognition, accounting for software costs, fair value measurement and disclosures (including for the long-term Incentive Plan liabilities), accounting for business combinations, testing for goodwill impairment and income taxes are critical accounting policies and estimates.

The Company's critical accounting policies are detailed in its Annual Report on Form 10-K for the year ended September 30, 2015. The above discussion and analysis should be read in conjunction with the unaudited consolidated financial statements and notes thereto included in this report.

### **Disclosure Regarding Forward-Looking Statements**

This Quarterly Report on Form 10-Q includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Certain statements contained in this document, including but not limited to those in "Management's Discussion and Analysis of Financial Condition and Results of Operations", are "forward-looking" statements that involve risks and uncertainties that may cause actual future events or results to differ materially from those described in the forward-looking statements. Words such as "expects," "intends," "anticipates," "should," "believes," "will," "plans," "estimates," "may," variations of such similar expressions are intended to identify such forward-looking statements. We disclaim any intention or obligation to revise any forward-looking statements whether as a result of new information, future developments, or otherwise. There are many factors that could cause actual results to differ materially from those contained in the forward-looking statements. These factors include, among others: risks associated with software development and implementation efforts; Journal Technologies' reliance on professional services engagements with justice agencies, including California courts, for a substantial portion of its revenues; material changes in the costs of postage and paper; possible changes in the law, particularly changes limiting or eliminating the requirements for public notice advertising; possible loss of the adjudicated status of the Company's newspapers and their legal authority to publish public notice advertising; a further decline in public notice advertising revenues because of fewer foreclosures; a further decline in subscriber and commercial advertising revenues; possible security breaches of the Company's software or websites; the Company's reliance on its president and chief executive officer; changes in accounting guidance; material weaknesses in the Company's internal control over financial reporting; and declines in the market prices of the securities owned by the Company. In addition, such statements could be affected by general industry and market conditions, general economic conditions (particularly in California) and other factors. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct. Important factors that could cause actual results to differ materially from those in the forward-looking statements are discussed in this Form 10-Q, including in conjunction with the forward-looking statements themselves. Additional information concerning factors that could cause actual results to differ materially from those in the forward-looking statements is contained from time to time in documents filed by the Company with the Securities and Exchange Commission, including in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2015.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For information regarding the Company's market risk, refer to Item 7A – Quantitative and Qualitative Disclosures about Market Risk in the Company's Form 10-K for the fiscal year ended September 30, 2015. There have been no material changes to the Company's market risk exposures since September 30, 2015.

Item 4. CONTROLS AND PROCEDURES

In light of the material weaknesses in the Company's internal control over financial reporting discussed in the Company's Form 10-K for the fiscal year ended September 30, 2015, management concluded that the Company's disclosure controls and procedures were not effective as of December 31, 2015. While the Company intends to adopt the 2013 COSO framework beginning this fiscal year, there were no material changes in the Company's internal control over financial reporting or in other factors reasonably likely to affect its internal control over financial reporting during the quarter ended December 31, 2015.
