3. To approve an adjournment of the Meeting, if necessary and appropriate, to solicit additional proxies if there are insufficient votes at the time of the Meeting to approve Proposals 1 and 2.

The proxy statement, the attached Notice of Meeting and the enclosed proxy card are being mailed to stockholders on or about February , 2019. The Company’s principal executive offices are located at 100 Summit Drive, Burlington, Massachusetts 01803, and its telephone number at that location is (781) 376-5555.

Only stockholders of record of the Company's outstanding voting securities at the close of business on February 4, 2019 will be entitled to notice of and to vote at the Meeting.

Stockholders may vote by proxy over the Internet, over the telephone, or by mail. The procedures for voting by proxy are as follows:

• To vote by proxy over the Internet, go to [www.voteproxy.com](http://www.voteproxy.com) to complete an electronic proxy card;

• To vote by proxy over the telephone, dial the toll-free phone number (1-800-776-9437) listed on your proxy card and following the recorded instructions; or

• To vote by proxy by mail you must complete, sign and date your proxy card and return it promptly in the envelope provided.

---

Stockholders of record may also vote in person at the Meeting.

As of February 4, 2019, there were 14,181,259 shares of Common Stock issued and outstanding. Each share of Common Stock is entitled to one vote. In addition, as of February 4, 2019, there were 262,310 shares of the Company's Series A Convertible Preferred Stock, par value \$0.001 per share ("*Series A Preferred*"), and 30 shares of the Company's Series B Convertible Preferred Stock, par value \$0.001 per share ("*Series B Preferred*") issued and outstanding. Each stockholder of record of Series A Preferred and Series B Preferred outstanding at the close of business on the Record Date is entitled to vote, on an as-converted to Common Stock basis, at the Meeting. Each share of Series A Preferred is entitled to 0.62 votes. Therefore, the holders of our outstanding shares of Series A Preferred have an aggregate of 162,632 votes on matters to come before the Meeting, which represents approximately 1% of our outstanding voting securities. Each share of Series B Preferred is entitled to 2,000 votes. Therefore, the holders of our outstanding shares of Series B Preferred have an aggregate of 60,000 votes on matters to come before the Meeting, which represents approximately 0.4% of our outstanding voting securities.

A majority of the outstanding shares of our voting securities represented in person or by proxy at the Meeting will constitute a quorum at the Meeting. All shares of the Common Stock, Series A Preferred and Series B Preferred represented in person or by proxy (including shares which abstain or do not vote for any reason with respect to one or more of the matters presented for stockholder approval) will be counted for purposes of determining whether a quorum is present at the Meeting.

The representation in person or by proxy of a majority of the votes entitled to be cast by the stockholders entitled to vote at the Meeting is necessary to establish a quorum for the transaction of all business to come before the Meeting. Abstentions and broker non-votes will be treated as shares that are present and entitled to vote for purposes of establishing a quorum.

An abstention is the voluntary act of not voting by a stockholder who is present at a meeting and entitled to vote. A broker non-vote occurs when a broker holding shares for a beneficial owner votes on one proposal, but does not vote on another proposal because the broker does not have discretionary voting power and has not received instructions from the beneficial owner. If a stockholder holds shares beneficially in street name and does not provide its broker with voting instructions, the shares may constitute "broker non-votes." Generally, broker non-votes occur on a matter when a broker is not permitted to vote on that matter without instructions from the beneficial owner and instructions are not given. Brokers that have not received voting instructions from their clients cannot vote on their clients' behalf on "non-routine" proposals. Brokers may vote in favor of a proposal in accordance with the rules of the New York Stock Exchange ("*NYSE*") that govern how brokers may cast such votes on proposals they determine to be routine matters. We believe that the three Proposals submitted to stockholders in this proxy will be considered "routine" proposals, although no assurances can be given.

Edgar Filing: Bridgeline Digital, Inc. - Form PRE 14A

Pursuant to Delaware General Corporation Law (the “*DGCL*”), Proposal 1 and 2 must be approved by the affirmative vote of a majority of our outstanding voting securities entitled to vote as of the Record Date. Abstentions and broker non-votes cast, if any, with respect to Proposals 1 and 2 will have the same effect as a vote against Proposals 1 and 2.

Under the *DGCL* and our Amended and Restated Bylaws, Proposal 3 will be determined by the vote of the holders of a majority of the voting power present or represented by proxy at the Meeting. For these matters, abstentions and broker non-votes cast, if any, will not be counted as votes in favor of such proposals, and will also not be counted as shares voting on such matter.

The stockholders of the Company have no dissenter’s or appraisal rights in connection with any of the Proposals described herein.

## **MATTERS TO BE CONSIDERED AT THE MEETING**

### **PROPOSAL 1**

#### **AMENDMENT TO OUR CHARTER TO INCREASE THE AUTHORIZED SHARES OF COMMON STOCK**

Our Board of Directors has voted to recommend to the stockholders that we amend our Charter to increase the number of shares of Common Stock authorized for issuance thereunder from 50 million to 100 million shares. The text of the proposed amendment to effect the Increase in Authorized is set forth as Appendix B to this proxy statement

#### **Purpose and Rationale for the Increase in Authorized**

As of the Record Date, our authorized capital stock consists of (i) 50 million shares of Common Stock (ii) and 1.0 million shares of preferred stock, par value \$0.001 per share, of which 264,000 shares have been designated as Series A Preferred and 5,000 shares have been designated as Series B Preferred. As of the Record Date, we had 14,181,259 shares of Common Stock issued and outstanding, and we were required to reserve 12,328,607 shares of Common Stock for issuance under our incentive plans or upon the conversion or exercise of our outstanding convertible securities, including the following: 392,968 shares for issuance pursuant to stock options granted under our equity compensation plans, 11,443,073 shares for issuance pursuant to warrants to purchase Common Stock, 269,934 shares for future issuance under our 2016 Stock Incentive Plan, 162,632 shares for issuance upon conversion of our outstanding shares of Series A Preferred, and 60,000 shares for issuance upon the conversion of our outstanding shares of Series B Preferred. As of the Record Date, we had 262,310 shares of Series A Preferred issued and outstanding, and 30 shares of Series B Preferred issued and outstanding.

As a result, as of the Record Date, an aggregate of 26,509,866 shares of our Common Stock were either issued and outstanding, reserved for issuance or obligated to be reserved for issuance, as described above, leaving us with 23,490,134 shares of Common Stock available for issuance.

On January 29, 2019, we executed an engagement letter with ThinkEquity, a division of Fordham Financial Management, Inc. (“*Think Equity*”), which engagement letter was subsequently amended on February 4, 2019 (together, the “*Engagement Letter*”), pursuant to which ThinkEquity agreed to act as our exclusive underwriter or book-runner in connection with a proposed fully underwritten public offering of our securities pursuant to a registration statement on Form S-1 (the “*Proposed Offering*”). We currently desire to issue and sell up to approximately \$10.0 million of our securities pursuant to the Proposed Offering, the net proceeds from which we intend to use (i) to pursue one or more

strategic acquisitions, which may include acquiring or investing in complimentary businesses, technologies, products or assets, although we do not currently have any specific arrangements to do so at this time; (ii) to repay the full balance of our non-revolving term loan through Montage Capital II, L.P., amounting to approximately \$819,909.86 as of February 5, 2019, which amount includes the principal amount and all accrued but unpaid interest, as well as early termination fees and additional interest that we would be required to pay as a result of the early termination of the term loan as of February 5, 2019; (iii) to repay, in full or in part, the balance due to Heritage Bank of Commerce under our \$2.5 million line of credit ("*Line of Credit*"), the outstanding balance of which was \$1,879,632 as of February 4, 2019; and (iv) for general corporate purposes, including, but not limited to, research and development, capital expenditures and additions to working capital.

Currently, as a result of the trading price of our Common Stock on the Nasdaq Capital Market and the number of shares that we have available for issuance under our Charter, as set forth above, we do not have sufficient shares of Common Stock available for issuance to raise \$10.0 million in the Proposed Offering. As a result, our Board of Directors believes that it is in the best interests of the Company and our stockholders to approve the Increase in Authorized in order to provide us with enough authorized shares available for issuance to consummate the Proposed Offering.

In addition, our Board of Directors believes that increasing the number of shares of Common Stock available for issuance under our Charter to 100.0 million shares, the Increase in Authorized will provide us with additional flexibility to issue Company securities in connection with future financings and strategic acquisitions, debt restructurings or resolutions, equity compensation and incentives to employees and officers and for other corporate purposes, and will help avoid the delay and expense associated with obtaining special stockholder approval each time an opportunity requiring the issuance of shares of Common Stock arises in the future.

Except as described above or elsewhere in this proxy statement, we currently have no definitive plans, understandings, commitments, agreements or undertakings concerning the issuance of any such additional shares.

---

### **Effect on Outstanding Common Stock**

The additional shares of Common Stock authorized by the Increase in Authorized will have the same privileges and rights as the shares of Common Stock currently authorized and issued. Stockholders do not have preemptive rights under our Charter and will not have such rights with respect to the additional authorized shares of Common Stock. The increase to our authorized shares would not affect the terms or rights of holders of existing shares of Common Stock. All outstanding shares of Common Stock will continue to have one vote per share on all matters to be voted on by our stockholders, including the election of directors.

The issuance of any additional shares of Common Stock may, depending on the circumstances under which those shares are issued, reduce stockholders' equity per share and, unless additional shares are issued to all stockholders on a pro rata basis, will reduce the percentage ownership of Common Stock of existing stockholders. In addition, if our Board of Directors elects to issue additional shares of Common Stock, such issuance could have a dilutive effect on the earnings per share, voting power and shareholdings of current stockholders. We expect, however, to receive consideration for any additional shares of Common Stock issued, thereby reducing or eliminating any adverse economic effect to each stockholder of such dilution.

The Increase in Authorized will not otherwise alter or modify the rights, preferences, privileges or restrictions of the Common Stock.

### **Anti-Takeover Effects**

Although the Increase in Authorized is not motivated by anti-takeover concerns and is not considered by our Board of Directors to be an anti-takeover measure, the availability of additional authorized shares of Common Stock could enable the Board of Directors to issue shares defensively in response to a takeover attempt or to make an attempt to gain control of the Company more difficult or time-consuming. For example, shares of Common Stock could be issued to purchasers who might side with management in opposing a takeover bid that the Board of Directors determines is not in our best interests, thus diluting the ownership and voting rights of the person seeking to obtain control of the Company. In certain circumstances, the issuance of Common Stock without further action by the stockholders may have the effect of delaying or preventing a change in control of the Company, may discourage bids for our Common Stock at a premium over the prevailing market price and may adversely affect the market price of our Common Stock. As a result, increasing the authorized number of shares of our Common Stock could render more difficult and less likely a hostile takeover, tender offer or proxy contest, assumption of control by a holder of a large block of our stock, and the possible removal of our incumbent management. We are not aware of any proposed attempt to take over the Company or of any present attempt to acquire a large block of our Common Stock.

## **Authorized Capital Stock**

### *Common Stock*

Except as otherwise expressly provided in our Charter, or as required by applicable law, all shares of our Common Stock have the same rights and privileges and rank equally, share ratably and are identical in all respects as to all matters, including, without limitation, those described below. All outstanding shares of common stock are fully paid and nonassessable.

*Voting Rights.* The holders of Common Stock are entitled to one vote per share on all matters. The Common Stock does not have cumulative voting rights.

*Dividends.* Each share of Common Stock has an equal and ratable right to receive dividends to be paid from our assets legally available therefore when, as and if declared by our Board of Directors. We have never declared or paid cash dividends on our Common Stock, and we do not anticipate paying cash dividends on our Common Stock in the foreseeable future.

*Liquidation.* In the event we dissolve, liquidate or wind up, the holders of Common Stock are entitled to share equally and ratably in the assets available for distribution after payments are made to our creditors and to the holders of any outstanding preferred stock we may designate and issue in the future with liquidation preferences greater than those of the Common Stock.

*Other.* The holders of shares of our Common Stock have no preemptive, subscription or redemption rights and are not liable for further call or assessment.

### *Preferred Stock*

We are authorized, subject to limitations prescribed by Delaware law and our Charter, to issue up to 1.0 million shares of preferred stock in one or more series, to establish from time to time the number of shares to be included in each series and to fix the designation, powers, preferences and rights of the shares of each series and any of its qualifications, limitations or restrictions. Our Board of Directors can increase or decrease the number of shares of any series, but not below the number of shares of that series then outstanding, without any further vote or action by our stockholders. Our Board of Directors may authorize the issuance of preferred stock with voting or conversion rights that could adversely affect the voting power or other rights of the holders of the Common Stock. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, have the effect of delaying, deferring or preventing a change in control of the Company and may adversely affect the market price of our common stock and the voting and other rights of the holders of our common stock.

### Series A Preferred

In October 2014, our Board of Directors authorized the creation of a series of up to 264,000 shares of Series A Preferred. The Certificate of Designation of Preferences, Rights and Limitations of the Series A Convertible Preferred was filed with the Delaware Secretary of State on October 28, 2014. As of February 4, 2019, there were 264,000 shares of Series A Preferred issued and 262,310 shares of Series Preferred outstanding. There will be no further issuances of Series A Preferred.

*Voting Rights.* Shares of Series A Preferred vote on an as-converted basis along with shares of our Common Stock.

*Conversion.* Shares of Series A Preferred may be converted, at the option of the holder, at any time into such number of shares of our Common Stock (“*Conversion Shares*”) equal (i) to the number of shares of Series A Preferred to be converted, multiplied by the stated value of \$10.00 per share (the “*Stated Value*”) and (ii) divided by the conversion price in effect at the time of conversion, currently \$16.25.

Any accrued but unpaid dividends on the shares of Series A Preferred to be converted shall also be converted in shares of our Common Stock at the Conversion Price. We also have the right to require the holders to convert shares of Series A Preferred into Conversion Shares if (i) our Common Stock has closed at or above \$32.50 per share for ten consecutive trading days, and (ii) the Conversion Shares are (A) registered for resale on an effective registration statement or (B) may be resold pursuant to Rule 144.

*Dividends.* Cumulative dividends are currently payable in cash at a rate of 12% per year. The Series A Preferred is senior to our Common Stock and any other stock with respect to dividends rights.

*Liquidation.* In the event of any liquidation, dissolution, or winding up of the Company, the holders of shares of Series A Preferred will be entitled to receive in preference to the holders of Common Stock and any other stock, the amount equal to the Stated Value per share of Series A Preferred plus declared and unpaid dividends, if any. After such payment has been made, the remaining assets of the Company will be distributed ratably to the holders of Common Stock.

### Series B Preferred

In October 2018, our Board of Directors authorized the creation of a series of up to 5,000 shares of Series B Preferred. The Certificate of Designation of Preferences, Rights and Limitations of the Series B Convertible Preferred was filed with the Delaware Secretary of State on October 17, 2018. As of February 4, 2019, there were 4,288 shares of Series B Preferred issued and 30 shares outstanding.

*Voting Rights.* Except as required by our Charter or by the DGCL, shares of Series B Preferred vote on an as-converted basis along with shares of our Common Stock.

*Conversion.* Shares of Series B Preferred may be converted, at the option of the holder, at any time into such number of shares of our Common Stock equal (i) to the number of shares of Series B Preferred to be converted, multiplied by the stated value of \$1,000.00 per share (the “*Stated Value*”) and (ii) divided by the conversion price in effect at the time of conversion, currently \$0.50.

Holders of Series B Preferred are prohibited from converting Series B Preferred into shares of Common Stock if, as a result of such conversion, the holder, together with its affiliates, would own more than 4.99% of the total number of shares of Common Stock then issued and outstanding

Any accrued but unpaid dividends on the shares of Series B Preferred to be converted shall also be converted in shares of our Common Stock at the Conversion Price.

*Dividends.* Shares of the Series B Preferred Stock are not entitled to receive any dividends, unless and until specifically declared by the Company's Board of Directors. Subject to any senior rights of the Company's Series A Preferred, the holders of the Series B Preferred Stock will participate, on an as-if-converted-to-common stock basis, in any dividends to the holders of Common Stock.

*Liquidation.* In the event of any liquidation, dissolution, or winding up of the Company, the holders of shares of Series B Preferred will be entitled to receive in preference to the holders of Common Stock and any other stock, the amount equal to the Stated Value per share of Series B Preferred plus declared and unpaid dividends, if any. After such payment has been made, the remaining assets of the Company will be distributed ratably to the holders of Common Stock.

#### **Required Stockholder Vote to Approve the Proposal**

Approval of the amendment to our Charter to effect the Increase in Authorized will require the affirmative vote of the holders of a majority of our outstanding voting securities as of the Record Date. Abstentions and broker non-votes will have the same effect as a vote against the proposal.

**The Board of Directors recommends that you vote FOR the approval of Proposal 1 to approve an amendment our Charter in order to increase the number of shares of Common Stock authorized thereunder from 50 million to 100 million.**

---

## **PROPOSAL 2**

### **AMENDMENT TO OUR CHARTER**

#### **TO AUTHORIZE THE BOARD TO EFFECT A REVERSE STOCK SPLIT OF OUR ISSUED AND OUTSTANDING COMMON STOCK**

##### **Overview**

Our Board of Directors has determined that it is advisable and in the Company's and its stockholders' best interests that our Board of Directors be granted the authority to implement a reverse stock split of the issued and outstanding shares of our Common Stock, but not the shares of Common Stock authorized for issuance under our Charter, at any time on or prior to February 5, 2020, at a ratio to be determined in the discretion of our Board of Directors within a range of one (1) share of Common Stock for every two (2) to twenty (20) shares of Common Stock. Accordingly, stockholders are asked to approve an amendment to our Charter to effect the Reverse Split consistent with those terms set forth in this Proposal, and to grant authorization to Board of Directors to determine, in its sole discretion, whether or not to implement the Reverse Split, in a manner designed to maximize the anticipated benefits for the Company and our stockholders, as well as its specific timing.

The amendment to our Charter to effect the Reverse Split of our issued and outstanding Common Stock, if approved by the stockholders, will be substantially in the form set forth on [Appendix C](#) (subject to any changes required by applicable law). If approved by the holders of outstanding voting securities, the Reverse Split proposal would permit, but not require, our Board of Directors to implement a reverse stock split of our issued and outstanding Common Stock at a ratio to be determined in the discretion of our Board of Directors within a range of one (1) share of Common Stock for every two (2) to twenty (20) shares of Common Stock, at any time prior to February 5, 2020.

Our Board of Directors reserves the right to elect to abandon the Reverse Split, if it determines, in its sole discretion, that the Reverse Split is no longer in the best interests of the Company and our stockholders.

Depending on the ratio for the Reverse Split determined by our Board, no more than 20 shares of existing Common Stock, as determined by our Board, will be combined into one share of Common Stock. In the event that the Reverse Split is effected, no fractional shares of our Common Stock will be issued; instead, holders of our Common Stock who would otherwise be entitled to receive a fractional share of Common Stock as a result of the Reverse Split will receive cash in lieu of such fractional share. The amendment to our Charter to effect the Reverse Split, if any, will include only the Reverse Split ratio determined by our Board to be in the best interests of our stockholders and all of the other proposed Amendments at different ratios will be abandoned.

Although the number of shares of Common Stock authorized for issuance under our Charter will not be effected by the Reverse Split, the Reverse Split, if implemented, will effectively increase the number of shares of Common Stock available for issuance under our Charter as a result of the decrease in number of issued and outstanding shares of our Common Stock.

The Board strongly believes that the Reverse Split is necessary to maintain our listing on the Nasdaq Capital Market and to provide us with additional authorized shares for future issuances, including in connection with the Proposed Offering. Accordingly, our Board of Directors has approved resolutions proposing an amendment to our Charter to effect the Reverse Split and directed that it be submitted to our stockholders for approval at the Meeting.

Should we receive the required stockholder approval for this Proposal, and our Board of Directors determines that effecting the reverse split is in our best interest, our Board of Directors will have the sole authority to elect, at any time on or prior to February 5, 2020, and without the need for any further action on the part of our stockholders, whether or not to effect the Reverse Split. Notwithstanding approval of the Reverse Split by our stockholders, Board of Directors may, in its sole discretion, abandon the proposed amendment and determine prior to the effectiveness of any filing with the Delaware Division of Corporations not to effect the Reverse Split, as permitted under Section 242(c) of the DGCL. If the Board does not implement the Reverse Split on or prior to February 5, 2020, stockholder approval again would be required prior to implementing any reverse stock split.

In determining the Reverse Split ratio, Board of Directors will consider, among other things, various factors, such as:

- the number of shares of Common Stock issued and outstanding, and the number of shares of Common Stock that we are obligated to reserve for issuance;

- the historical trading price and trading volume of our Common Stock;

- the then-prevailing trading price and trading volume of our Common Stock and the expected impact of the Reverse Split on the trading market for our Common Stock in the short- and long-term;

- our ability to continue our listing on the Nasdaq Capital Market;

---

- which reverse stock split ratio would result in the least administrative cost to us; and

prevailing general market and economic conditions.

Failure to approve the Reverse Split could have serious, adverse effects on the Company and our stockholders. We could be delisted from the Nasdaq Capital Market because shares of our Common Stock may continue to trade below the requisite \$1.00 per share price needed to maintain our listing. If the Nasdaq Capital Market delists our Common Stock, our shares may then trade on the OTC Bulletin Board or other small trading markets, such as the pink sheets. In that event, our Common Stock could trade thinly as a microcap or penny stock, adversely decrease to nominal levels of trading and become avoided by retail and institutional investors, resulting in the impaired liquidity of our shares. Certain of our officers and directors have an interest in the Reverse Split as a result of their ownership of Common Stock, as set forth in the section entitled “*Security Ownership of Certain Beneficial Owners and Management.*”

### **Purpose and Rationale for the Reverse Split**

By potentially increasing our stock price, the Reverse Split would reduce the risk that our stock could be delisted from the Nasdaq Capital Market. To continue our listing on the Nasdaq Capital Market, we must comply with Nasdaq Marketplace Rules, which requirements include a minimum bid price of \$1.00 per share. On November 20, 2018, we were notified by the Nasdaq Listing Qualifications Department that we were not in compliance with the \$1.00 minimum bid threshold, as our Common Stock had traded below the \$1.00 minimum bid price for 30 consecutive business days. In accordance with Nasdaq Marketplace Rule 5810(c)(3)(A), we were provided an initial 180-calendar day period, or until May 20, 2019, to regain compliance. To regain compliance, our Common Stock must close at or above the \$1.00 minimum bid price for at least 10 consecutive business days. If we do not regain compliance by that date in accordance with terms of the notice, Nasdaq will provide written notice that our securities will be subject to delisting from the Nasdaq Capital Market. In that event, we may appeal the decision to a Nasdaq Listing Qualifications Panel (the “*Panel*”). In the event of an appeal, our securities would remain listed on the Nasdaq Capital Market pending a written decision by the Panel following a hearing. In the event that the Panel determines not to continue our listing and we are delisted from the Nasdaq Capital Market, our Common Stock may be delisted and trade on the OTC Bulletin Board or other small trading markets, such as the pink sheets.

The Board has considered the potential harm to the Company and its stockholders should Nasdaq delist our Common Stock from the Nasdaq Capital Market. Delisting could adversely affect the liquidity of our Common Stock since alternatives, such as the OTC Bulletin Board and the pink sheets, are generally considered to be less efficient markets. An investor likely would find it less convenient to sell, or to obtain accurate quotations in seeking to buy, our Common Stock on an over-the-counter market. Many investors likely would not buy or sell our Common Stock due to difficulty in accessing over-the-counter markets, policies preventing them from trading in securities not listed on a national exchange or other reasons.

The Board believes that the Reverse Split is a potentially effective means for us to regain compliance with Nasdaq Marketplace Rules and to avoid, or at least mitigate, the likely adverse consequences of our Common Stock being delisted from the Nasdaq Capital Market by producing the immediate effect of increasing the bid price of our Common Stock.

In addition, as discussed above, we currently have insufficient shares of Common Stock available for issuance under our Charter to raise up to \$10.0 million through the sale and issuance of shares of our Common Stock pursuant to the Proposed Offering. Assuming that our Board of Directors were to effect the Reverse Split at a ratio of twenty-to-one, the Reverse Split would effectively increase the number of shares of Common Stock that we have available for issuance enough to allow for us to consummate the Proposed Offering. In the event that stockholders do not approve either the Increase in Authorized or the Reverse Split, we will not be able to consummate the Proposed Offering, and will have to raise additional capital through other methods, including through a private placement of our securities.

Our Board of Directors also believes that the increased market price of our Common Stock expected as a result of implementing the Reverse Split could improve the marketability and liquidity of our Common Stock and will encourage interest and trading in the Common Stock. The Reverse Split, if effected, could allow a broader range of institutions to invest in our stock (namely, funds that are prohibited from buying stock whose price is below a certain threshold), potentially increasing trading volume and liquidity of our Common Stock. The Reverse Split could help increase analyst and broker interest in our stock as their policies can discourage them from following or recommending companies with low stock prices. Because of the trading volatility often associated with low-priced stocks, many brokerage houses and institutional investors have internal policies and practices that either prohibit them from investing in low-priced stocks or tend to discourage individual brokers from recommending low-priced stocks to their customers. Some of those policies and practices may make the processing of trades in low-priced stocks economically unattractive to brokers. Additionally, because brokers' commissions on low-priced stocks generally represent a higher percentage of the stock price than commissions on higher-priced stocks, a low average price per share of Common Stock can result in individual stockholders paying transaction costs representing a higher percentage of their total share value than would be the case if the share price were higher.

---

Further, our Board of Directors believes that by effectively increasing the number of shares of Common Stock available for issuance, the Reverse Split will provide us with additional flexibility to issue our securities in connection with future financings and strategic acquisitions, debt restructurings or resolutions, equity compensation and incentives to employees and officers and for other corporate purposes, and will help avoid the delay and expense associated with obtaining special stockholder approval each time an opportunity requiring the issuance of shares of Common Stock arises in the future.

Our Board of Directors does not intend for this transaction to be the first step in a series of plans or proposals of a “going private transaction” within the meaning of Rule 13e-3 of the Exchange Act.

### **Risks of the Proposed Reverse Split**

*We cannot assure you that the proposed Reverse Split will increase our stock price and have the desired effect of maintaining compliance with Nasdaq Marketplace Rules.*

The Board expects that the Reverse Split of our issued and outstanding Common Stock will increase the market price of our Common Stock so that we are able to regain and maintain compliance with the Nasdaq minimum bid price requirement. However, the effect of a reverse stock split upon the market price of our Common Stock cannot be predicted with any certainty, and the history of similar stock splits for companies in like circumstances is varied. It is possible that (i) the per share price of our Common Stock after the Reverse Split will not rise in proportion to the reduction in the number of shares of our Common Stock outstanding resulting from the Reverse Split, (ii) the market price per post-Reverse Split share may not exceed or remain in excess of the \$1.00 minimum bid price for a sustained period of time, or (iii) the Reverse Split may not result in a per share price that would attract brokers and investors who do not trade in lower priced stocks. Even if we effect the Reverse Split, the market price of our Common Stock may decrease due to factors unrelated to the stock split. In any case, the market price of our Common Stock will be based on other factors which may be unrelated to the number of shares outstanding, including our future performance. If the Reverse Split is consummated and the trading price of our Common Stock declines, the percentage decline as an absolute number and as a percentage of our overall market capitalization may be greater than would occur in the absence of the Reverse Split. Even if the market price per post-Reverse Split share of our Common Stock remains in excess of \$1.00 per share, we may be delisted due to a failure to meet other continued listing requirements, including NASDAQ requirements related to the minimum number of shares that must be in the public float and the minimum market value of the public float.

*The proposed Reverse Split may decrease the liquidity of our capital stock.*

The liquidity of our capital stock may be harmed by the proposed Reverse Split given the reduced number of shares of Common Stock that would be outstanding after the Reverse Split, particularly if the stock price does not increase as a result of the Reverse Split.

In addition, investors might consider the increased proportion of unissued authorized shares to issued shares to have an anti-takeover effect under certain circumstances, since the proportion allows for dilutive issuances which could prevent certain stockholders from changing the composition of the Board or render tender offers for a combination with another entity more difficult to successfully complete. The Board does not intend for the Reverse Split to have any anti-takeover effects.

*The proposed Reverse Split, if implemented, will have the effect of increasing our authorized but unissued shares of Common Stock.*

If implemented, the Reverse Split will have the effect of reducing the number of shares of our Common Stock issued and outstanding, without reducing the total number of authorized shares of our Common Stock. As a result, the Reverse Split will have the effect of increasing the number of our authorized, but unissued shares. We would therefore have the ability to issue additional shares of Common Stock, or securities convertible or exercisable into shares of Common Stock, without stockholder approval.

### **Principal Effects of the Reverse Split**

After the effective date of the proposed Reverse Split, each stockholder will own a reduced number of shares of Common Stock. Except for adjustments that may result from the treatment of fractional shares as described below, the proposed Reverse Split will affect all stockholders uniformly and will not affect any stockholder's percentage ownership interest in us. The proportionate voting rights and other rights and preferences of the holders of Common Stock will not be affected by the proposed Reverse Split (other than as a result of the payment of cash in lieu of fractional shares). For example, a holder of 2% of the voting power of the outstanding shares of our Common Stock immediately prior to a Reverse Split would continue to hold 2% (assuming there is no impact as a result of the payment of cash in lieu of issuing fractional shares) of the voting power of the outstanding shares of our Common Stock immediately after such Reverse Stock Split. The number of stockholders of record also will not be affected by the proposed Reverse Split, except to the extent that any stockholder holds only a fractional share interest and receives cash for such interest after the Reverse Split.

---

The following table contains approximate information relating to the Common Stock under the proposed Reverse Split ratio, without giving effect to any adjustments for fractional shares of Common Stock, as of February 4, 2019:

<b>Status</b>	<b>Number of Shares of Common Stock Authorized</b>	<b>Number of Shares of Common Stock Issued and Outstanding</b>	<b>Number of Shares of Common Stock Reserved for Issuance<sup>(1)</sup></b>	<b>Number of Shares of Common Stock Authorized but Unissued and Unreserved</b>
Pre-Reverse Split	50,000,000	14,181,259	12,328,6073	23,490,134
Post-Reverse Split 20:1	50,000,000	709,063	616,431	1,174,507

<sup>(1)</sup> The pre-Reverse Split number of shares of our Common Stock reserved for future issuance includes the following, as of February 4, 2019:

11,836,041 shares reserved for issuance pursuant to outstanding options and warrants;  
 162,632 shares reserved for issuance pursuant to conversion of the Series A Preferred Stock currently outstanding;  
 60,000 shares reserved for issuance pursuant to conversion of the Series B Preferred Stock currently outstanding; and  
 269,934 shares of Common Stock available for future grant under our Stock Option Plans (the “Plans”).

If the proposed Reverse Split is implemented, it will increase the number of our stockholders who own “odd lots” of fewer than 100 shares of Common Stock. Brokerage commission and other costs of transactions in odd lots are generally higher than the costs of transactions of more than 100 shares of Common Stock.

After the effective date of the Reverse Split, our Common Stock would have a new committee on uniform securities identification procedures (CUSIP) number, a number used to identify our Common Stock.

Our Common Stock is currently registered under Section 12(b) of the Exchange Act, and we are subject to the periodic reporting and other requirements of the Exchange Act. The proposed Reverse Split will not affect the registration of our Common Stock under the Exchange Act. Our Common Stock would continue to be reported on the Nasdaq Capital Market under the symbol “BLIN,” although it is likely that Nasdaq would add the letter “D” to the end of the trading symbol for a period of twenty trading days after the effective date of the Reverse Split to indicate that the Reverse Split had occurred.

**Effect on Series A Preferred Stock, Series B Preferred Stock, and Warrants**

The Reverse Split will require that proportionate adjustments be made to the conversion rate, the per share exercise price and the number of shares issuable upon the exercise or conversion of the following outstanding securities issued by the Company, in accordance with the Reverse Split ratio determined by our Board of Directors (all figures are as of February 4, 2019 and are on a pre-Reverse Split basis):

- 262,310 shares of Series A Preferred, currently convertible into 162,632 shares of Common Stock;
- 30 shares of Series B Preferred, currently convertible into 60,000 shares of Common Stock; and
- warrants to purchase 11,443,073 shares of Common Stock.

The adjustments to the above securities, as required by the Reverse Split and in accordance with the Reverse Split ratio, would result in approximately the same aggregate price being required to be paid under such securities upon exercise, and approximately the same value of shares of Common Stock being delivered upon such exercise or conversion, immediately following the Reverse Split as was the case immediately preceding the Reverse Split.

### **Effect on Stock Option Plans**

As of February 4, 2019, we had 392,968 shares of Common Stock reserved for issuance pursuant to the exercise of outstanding options issued under our Plans, as well as 269,934 shares of Common Stock available for issuance under the Plans. Pursuant to the terms of the Plans, our Board of Directors or a committee thereof, as applicable, will adjust the number of shares of Common Stock underlying outstanding awards, the exercise price per share of outstanding stock options and other terms of outstanding awards issued pursuant to the Plans to equitably reflect the effects of the Reverse Split. The number of shares subject to vesting under restricted stock awards and the number of shares issuable as contingent consideration as part of an acquisition by the Company will be similarly adjusted, subject to our treatment of fractional shares. Furthermore, the number of shares available for future grant under the Plans will be similarly adjusted.

### **Potential Anti-takeover Effects of a Reverse Split**

Release No. 34-15230 of the staff of the SEC requires disclosure and discussion of the effects of any action, including the proposals discussed herein, that may be used as an anti-takeover mechanism. The Reverse Split, if effected, will also result in a relative increase in the number of authorized but unissued shares of our Common Stock vis-à-vis the outstanding shares of our Common Stock and, could, under certain circumstances, have an anti-takeover effect, although this is not the purpose or intent of our Board of Directors. A relative increase in the number of authorized shares of Common Stock could have other effects on our stockholders, depending upon the exact nature and circumstances of any actual issuances of authorized but unissued shares. A relative increase in our authorized shares could potentially deter takeovers, including takeovers that our Board of Directors has determined are not in the best interest of our stockholders, in that additional shares could be issued (within the limits imposed by applicable law) in one or more transactions that could make a change in control or takeover more difficult. For example, we could issue

additional shares so as to dilute the stock ownership or voting rights of persons seeking to obtain control without our agreement. Similarly, the issuance of additional shares to certain persons allied with our management could have the effect of making it more difficult to remove our current management by diluting the stock ownership or voting rights of persons seeking to cause such removal. The Reverse Split therefore may have the effect of discouraging unsolicited takeover attempts. By potentially discouraging initiation of any such unsolicited takeover attempts, the Reverse Split may limit the opportunity for our stockholders to dispose of their shares at the higher price generally available in takeover attempts or that may be available under a merger proposal.

Although the Reverse Split has been prompted by business and financial considerations and not by the threat of any known or threatened hostile takeover attempt, stockholders should be aware that the effect of the Reverse Split could facilitate future attempts by us to oppose changes in control of our Company and perpetuate our management, including transactions in which the stockholders might otherwise receive a premium for their shares over then current market prices. We cannot provide assurances that any such transactions will be consummated on favorable terms or at all, that they will enhance stockholder value, or that they will not adversely affect our business or the trading price of the Common Stock.

---

### **Effective Date**

The proposed Reverse Split would become effective on the date of filing of a certificate of amendment to our Charter with the office of the Secretary of State of the State of Delaware. On the effective date, shares of Common Stock issued and outstanding and shares of Common Stock held in treasury, in each case, immediately prior thereto will be combined and converted, automatically and without any action on the part of the stockholders, into new shares of Common Stock in accordance with the Reverse Split ratio set forth in this Proposal. If the proposed amendment is not approved by our stockholders, a Reverse Split will not occur.

### **Treatment of Fractional Shares**

No fractional shares of Common Stock will be issued as a result of the Reverse Split. Instead, in lieu of any fractional shares to which a stockholder of record would otherwise be entitled as a result of the Reverse Split, we will pay cash (without interest) equal to such fraction multiplied by the average of the closing sales prices of our Common Stock on the Nasdaq Capital Market during regular trading hours for the five consecutive trading days immediately preceding the effective date of the Reverse Split (with such average closing sales prices being adjusted to give effect to the Reverse Split). After the Reverse Split, a stockholder otherwise entitled to a fractional interest will not have any voting, dividend or other rights with respect to such fractional interest except to receive payment as described above.

Upon stockholder approval of this Proposal, if our Board of Directors elects to implement the proposed Reverse Split, stockholders owning, prior to the Reverse Split, less than the number of whole shares of Common Stock that will be combined into one share of Common Stock in the Reverse Split would no longer be stockholders. For example, if a stockholder held 10 shares of common stock immediately prior to the Reverse Split and the Reverse Split ratio selected by the Board was one-for-twenty, then such stockholder would cease to be our stockholder following the Reverse Split and would not have any voting, dividend or other rights except to receive payment for the fractional share as described above.

### **Record and Beneficial Stockholders**

If the Reverse Split is authorized by the stockholders and our Board of Directors elects to implement the Reverse Split, stockholders of record holding some or all of their shares of our Common Stock electronically in book-entry form under the direct registration system for securities will receive a transaction statement at their address of record indicating the number of shares of our Common Stock they hold after the Reverse Split along with payment in lieu of any fractional shares. Non-registered stockholders holding Common Stock through a bank, broker or other nominee should note that such banks, brokers or other nominees may have different procedures for processing the consolidation and making payment for fractional shares than those that would be put in place by us for registered stockholders. If

you hold your shares with such a bank, broker or other nominee and if you have questions in this regard, you are encouraged to contact your nominee.

If the Reverse Split is authorized by the stockholders and our Board of Directors elects to implement the Reverse Split, stockholders of record holding some or all of their shares in certificate form will receive a letter of transmittal, as soon as practicable after the effective date of the Reverse Split. Our transfer agent will act as “exchange agent” for the purpose of implementing the exchange of stock certificates. Holders of pre-Reverse Split shares will be asked to surrender to the exchange agent certificates representing pre-Reverse Split shares in exchange for post-Reverse Split shares and payment in lieu of fractional shares (if any) in accordance with the procedures to be set forth in the letter of transmittal. Until surrender, each certificate representing shares before the Reverse Split would continue to be valid and would represent the adjusted number of whole shares based on the exchange ratio of the Reverse Split. No new post-Reverse Split share certificates will be issued to a stockholder until such stockholder has surrendered such stockholder’s outstanding certificate(s) together with the properly completed and executed letter of transmittal to the exchange agent.

---

**STOCKHOLDERS SHOULD NOT DESTROY ANY PRE-SPLIT STOCK CERTIFICATE AND SHOULD NOT SUBMIT ANY CERTIFICATES UNTIL THEY ARE REQUESTED TO DO SO.**

**Accounting Consequences**

The par value per share of Common Stock would remain unchanged at \$0.001 per share after the Reverse Split. As a result, on the effective date of the Reverse Split, the stated capital on our balance sheet attributable to the Common Stock will be reduced proportionally, based on the exchange ratio of the Reverse Split, from its present amount, and the additional paid-in capital account shall be credited with the amount by which the stated capital is reduced. The per share Common Stock net income or loss and net book value will be increased because there will be fewer shares of Common Stock outstanding. The shares of Common Stock held in treasury, if any, will also be reduced proportionately based on the exchange ratio of the Reverse Split. Retroactive restatement will be given to all share numbers in the financial statements and accordingly all amounts including per share amounts will be shown on a post-split basis. We do not anticipate that any other accounting consequences would arise as a result of the Reverse Split.

**No Appraisal Rights**

Our stockholders are not entitled to dissenters' or appraisal rights under the DGCL with respect to this Proposal and we will not independently provide the stockholders with any such right if the Reverse Split is implemented.

**Material Federal U.S. Income Tax Consequences of the Reverse Stock Split**

The following is a summary of the material U.S. federal income tax consequences of a Reverse Stock Split to our stockholders. The summary is based on the Internal Revenue Code of 1986, as amended, or the Code, applicable Treasury Regulations promulgated thereunder, judicial authority and current administrative rulings and practices as in effect on the date of this proxy statement. Changes to the laws could alter the tax consequences described below, possibly with retroactive effect. We have not sought and will not seek an opinion of counsel or a ruling from the Internal Revenue Service regarding the federal income tax consequences of a Reverse Split. This discussion is for general information only and does not discuss the tax consequences which may apply to special classes of taxpayers (e.g., non-resident aliens, broker/dealers or insurance companies). The state and local tax consequences of a Reverse Split may vary significantly as to each stockholder, depending upon the jurisdiction in which such stockholder resides. Stockholders are urged to consult their own tax advisors to determine the particular consequences to them.

In general, the federal income tax consequences of a Reverse Split will vary among stockholders depending upon whether they receive cash for fractional shares or solely a reduced number of shares of Common Stock in exchange for their old shares of Common Stock. We believe that because the Reverse Split is not part of a plan to increase periodically a stockholder's proportionate interest in our assets or earnings and profits, the Reverse Split should have the following federal income tax effects. A stockholder who receives solely a reduced number of shares of Common Stock will not recognize gain or loss. In the aggregate, such a stockholder's basis in the reduced number of shares of Common Stock will equal the stockholder's basis in its old shares of Common Stock and such stockholder's holding period in the reduced number of shares will include the holding period in its old shares exchanged. A stockholder who receives cash in lieu of a fractional share as a result of the Reverse Split should generally be treated as having received the payment as a distribution in redemption of the fractional share, as provided in Section 302(a) of the Code. Generally, if redemption of the fractional shares of all stockholders reduces the percentage of the total voting power held by a particular redeemed stockholder (determined by including the voting power held by certain related persons), the particular stockholder should recognize gain or loss equal to the difference, if any, between the amount of cash received and the stockholder's basis in the fractional share. In the aggregate, such a stockholder's basis in the reduced number of shares of Common Stock will equal the stockholder's basis in its old shares of Common Stock decreased by the basis allocated to the fractional share for which such stockholder is entitled to receive cash, and the holding period of the reduced number of shares received will include the holding period of the old shares exchanged. If the redemption of the fractional shares of all stockholders leaves the particular redeemed stockholder with no reduction in the stockholder's percentage of total voting power (determined by including the voting power held by certain related persons), it is likely that cash received in lieu of a fractional share would be treated as a distribution under Section 301 of the Code. Stockholders should consult their own tax advisors regarding the tax consequences to them of a payment for fractional shares.

We will not recognize any gain or loss as a result of the proposed Reverse Stock Split.

THE PRECEDING DISCUSSION IS INTENDED ONLY AS A SUMMARY OF CERTAIN FEDERAL U.S. INCOME TAX CONSEQUENCES OF THE REVERSE SPLIT AND DOES NOT PURPORT TO BE A COMPLETE ANALYSIS OR DISCUSSION OF ALL POTENTIAL TAX EFFECTS RELEVANT THERETO. YOU SHOULD CONSULT YOUR OWN TAX ADVISORS AS TO THE PARTICULAR FEDERAL, STATE, LOCAL, FOREIGN AND OTHER TAX CONSEQUENCES OF THE REVERSE SPLIT IN LIGHT OF YOUR SPECIFIC CIRCUMSTANCES.

### **Required Vote and Recommendation**

In accordance with our Charter, Delaware law and the Nasdaq Marketplace Rules, approval and adoption of this Proposal requires the affirmative vote of at least a majority of our outstanding voting securities. Abstentions and broker non-votes will have the same effect as a vote "AGAINST" this Proposal.

**THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" PROPOSAL 2.**

**SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS**

Beneficial ownership is determined in accordance with Rule 13d-3 under the Exchange Act. Unless otherwise indicated, the address of each individual named below is our address, 100 Summit Drive, Burlington, Massachusetts 01803.

The following tables set forth, as of February 4, 2019, the beneficial ownership of our Series A Preferred, Series B Preferred and Common Stock by (i) each person or group of persons known to us to beneficially own more than 5% of the outstanding shares of each class of the outstanding securities, (ii) each of our directors and named executive officers, and (iii) all of our executive officers and directors as a group. ## **PROPOSAL 3**

### **THE ADJOURNMENT PROPOSAL**

This Proposal is presented to stockholders at the Meeting to approve an adjournment to another time or place, if necessary or appropriate, to solicit additional proxies if there are not sufficient votes at the time of the Meeting to approve Proposals 1 and 2.

If, at the Meeting, the number of shares present or represented and voting in favor of the approval of Proposal 1 and 2 are not sufficient to approve that proposal, we currently intend to move to adjourn the Meeting in order to enable our Board of Directors to solicit additional proxies for the approval of Proposals 1 and 2. In the event this Proposal 3 is approved, the Meeting may be adjourned from time to time to a date that is not more than 120 days after the original record date for the Meeting.

In this proposal, we are asking our stockholders to authorize the holder of any proxy solicited by our Board of Directors to vote in favor of granting discretionary authority to the proxy holders, and each of them individually, to adjourn the Meeting to another time and place for the purpose of soliciting additional proxies. If the stockholders approve the adjournment proposal, we could adjourn the Meeting and any adjourned session of the Meeting and use the additional time to solicit additional proxies, including the solicitation of proxies from stockholders who have previously voted.

### **Vote Required and Recommendation**

If the proposal to adjourn the Meeting for the purpose of soliciting additional proxies is submitted to the stockholders for approval, such proposal will be approved by the affirmative vote of a majority of the votes cast at the Meeting.

The Board of Directors unanimously recommends that stockholders vote “FOR” Proposal 3, as to the adjournment of the Meeting if necessary or appropriate to solicit additional proxies in favor of the approval of Proposals 1 and 2.

**The Board recommends that stockholders vote “FOR” Proposal 3.**

## **Other Matters**

The Board of Directors has no knowledge of any other matters which may come before the Meeting and does not intend to present any other matters. However, if any other matters shall properly come before the Meeting or any adjournment thereof, the persons named as proxies will have discretionary authority to vote the shares of Common Stock represented by the accompanying proxy in accordance with their best judgment.

## **Additional Information**

We file annual, quarterly and current reports, proxy statements and other documents with the Securities and Exchange Commission (“SEC”) under the Exchange Act. The public may read and copy any materials that we file with the SEC at the SEC’s Public Reference Room at 100 F Street NE., Washington, DC 20549. ## **Deadline for Receipt of Stockholder Proposals**

Pursuant to Rule 14a-8 under the Exchange Act, stockholder proposals to be presented at our 2019 Annual Meeting of Stockholders and included in our Proxy Statement and form of proxy relating to that annual meeting must be received by us at our principal executive offices at 100 Summit Drive, Burlington, Massachusetts 01803, addressed to our corporate secretary, not later than 90 days nor more than 120 days prior to the first anniversary of the preceding year’s annual meeting. These proposals must comply with applicable Delaware law, the rules and regulations promulgated by the SEC and the procedures set forth in our Bylaws.

We reserve the right to reject, rule out of order, or take other appropriate action with respect to any proposal that does not comply with these and all other applicable requirements.

## **Distribution and Householding of Solicitation Materials**

We will pay the cost of preparing, printing and distributing this Proxy.

The SEC has adopted rules that permit companies and intermediaries (e.g., brokers) to satisfy the delivery requirements for proxy materials with respect to two or more stockholders sharing the same address by delivering a single set of proxy materials addressed to those stockholders. This process, which is commonly referred to as “householding,” potentially means extra convenience for stockholders and cost savings for companies.

A number of brokers with account holders who are stockholders of the Company will be “householding” the Company’s proxy materials. A single set of the Company’s proxy materials will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your broker that they will be “householding” communications to your address, “householding” will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in “householding” and would prefer to receive a separate set of the Company’s proxy materials, please notify your broker or direct a written request to the corporate secretary at 100 Summit Drive, Burlington, Massachusetts 01803, or by calling 781-376-5555. The Company undertakes to deliver promptly, upon any such oral or written request, a separate copy of its consent proxy materials to a stockholder at a shared address to which a single copy of these documents was delivered. Stockholders who currently receive multiple copies of the Company’s proxy materials at their address and would like to request “householding” of their communications should contact their broker, bank or other nominee, or contact the Company at the above address or phone number.

is Fifty-One Million (51,000,000), of which Fifty Million (50,000,000) shares shall be Common Stock, having a par value of \$0.001 per share, and of which One Million (1,000,000) shares shall be Preferred Stock, having a par value of \$0.001 per share.
