U.S. Bank National Association (“USB”) is joint lead arranger and syndication agent, Raymond James Bank, N.A., Regions Bank and Wells Fargo Bank, National Association, are documentation agents, and Merrill Lynch, Pierce, Fenner & Smith Incorporated, is joint lead arranger and sole bookrunner under the Primary Credit Agreement. The Primary Credit Agreement amends and restates in its entirety that certain Third Amended and Restated Credit Agreement, dated as of October 16, 2014, among the Company, the Operating Partnership, BofA and certain other lenders named therein, as amended. Pursuant to the Primary Credit Agreement, the Company and certain subsidiaries of the Company guarantee to the lenders thereunder all of the financial obligations (including indebtedness, capital leases and guarantees) of the Operating Partnership and each other guarantor. From time to time, the Operating Partnership may be required to cause additional subsidiaries to become guarantors under the Primary Credit Agreement.

The Primary Credit Agreement provides a \$750 million unsecured borrowing capacity, composed of a \$450 million unsecured revolving credit facility, which matures on January 15, 2022, and a \$300 million unsecured term loan facility, which matures on January 15, 2023. Subject to certain terms and conditions set forth in the Primary Credit Agreement, the Operating Partnership (i) may request additional lender commitments under either or both facilities of up to an additional aggregate of \$500 million (for a maximum aggregate borrowing capacity under the Primary Credit Agreement of \$1.25 billion) and (ii) may elect, for an additional fee, to extend the maturity date of the revolving credit facility by six months once or twice, for a maximum maturity date of January 15, 2023.

All borrowings under the \$450 million unsecured revolving credit facility (except swing line loans) will bear interest at a rate per annum equal to, at the option of the Company, (i) LIBOR plus a margin that is based upon the Company's leverage ratio or (ii) the Base Rate (which is defined as the greater of the rate of interest as publicly announced from time to time by BofA as its prime rate and the Federal Funds rate plus 0.50%) plus a margin that is based on the Company's leverage ratio. The Primary Credit Agreement also permits the issuance of letters of credit and provides for swing line loans. Letters of credit will bear interest at a rate equal to that borne by balances on the revolving credit facility. Swing line loans will bear interest at a rate equal to the Base Rate plus a margin that is based on the Company's leverage ratio. There are no prepayment penalties under the Primary Credit Agreement.

(“S&P”), the Company may elect to convert the pricing structure under the Primary Credit Agreement to be based on such rating. In that event, the margins for revolving credit facility loans (other than swing line loans) will range in amount from 0.875% to 1.550% for LIBOR-based loans and 0.00% to 0.55% for Base Rate-based loans and swing line loans, depending on such rating. In addition to the interest payable on amounts outstanding under the Primary Credit Agreement, the Company is required to pay an amount equal to 0.20% of the unused portion of the revolving credit facility if the aggregate usage of the such facility is greater than or equal to 50% of such facility and 0.30% if the average usage of such facility is less than 50% of such facility.

The Company's ability to borrow under the Primary Credit Agreement is subject to its ongoing compliance with a number of customary financial and other covenants, including:

The Primary Credit Agreement contains representations, warranties, covenants, terms and conditions customary for transactions of this type, including limitations on liens, incurrence of debt, investments, mergers and asset dispositions, covenants to preserve corporate existence and comply with laws, covenants on the use of proceeds of the credit facility and default provisions, including defaults for non-payment, breach of representations and warranties, insolvency, non-performance of covenants, cross-defaults and guarantor defaults. The occurrence of an event of default under the Primary Credit Agreement could result in all loans and other obligations becoming immediately due and payable and the credit facility being terminated and allow the lenders under the agreement to exercise all rights and remedies available to them with respect to the collateral.

As of October 13, 2017, the Company had \$30.0 million outstanding under the \$450 million unsecured revolving credit facility.
