Forward-Looking Statements

This Current Report on Form 8-K contains and the presentation attached as Exhibit 99.1 contains, and statements made by The Fresh Market's executives may contain, forward-looking statements. Any statements that are not statements of historical fact should be considered forward-looking statements. These forward-looking statements are based on management's current expectations and beliefs, as well as a number of assumptions, estimates and projections concerning future events and do not constitute guarantees of future performance. These statements are subject to risks, uncertainties, changes in circumstances, assumptions and other important factors, many of which are outside management's control, that could cause actual results to differ materially from the results discussed in the forward-looking statements. Such factors include, but are not limited to: our ability to successfully implement our growth strategy on a timely basis; the burden new stores may place on our existing resources; the competitive nature of our business; our ability to anticipate and/or react to changes in customer demand; changes in consumer confidence and spending; customer perceptions regarding food safety; commodity, energy, and fuel cost increases; our ability to maintain cybersecurity, including with respect to customer information; order errors or product supply disruptions relating to our perishable goods; disruptions in our relationship with certain key third-party vendors and other risks detailed in our filings with the SEC. You are cautioned not to put undue reliance on such forward-looking statements because actual results may vary materially from those expressed or implied. All forward-looking statements are based on information available to management on this date, and The Fresh Market, Inc. assumes no obligation to, and expressly disclaims any obligation to, update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Non-GAAP Financial Measures

This Current Report on Form 8-K and the presentation attached as Exhibit 99.1 contain references to Earnings Per Diluted Share on an adjusted basis ("Adjusted Diluted EPS") and Earnings Before Interest, Taxes, Depreciation and Amortization on an adjusted basis ("Adjusted EBITDA"). Adjusted Diluted EPS and Adjusted EBITDA are non-GAAP financial measures. Management believes that Adjusted Diluted EPS and Adjusted EBITDA are commonly reported by issuers and widely used by investors as indicators of a company's operating performance. In addition, management believes that Adjusted Diluted EPS is helpful to investors because it allows more meaningful period-to-period comparisons. These and other non-GAAP financial measures, while providing useful information, should not be considered in isolation or as a substitute for The Fresh Market's net earnings as an indicator of operating performance. Investors should carefully consider the specific items included in our computations of Adjusted Diluted EPS and Adjusted EBITDA. Adjusted Diluted EPS and Adjusted EBITDA do not have any standardized meaning prescribed by GAAP and, therefore, are unlikely to be comparable to similar measures presented by other companies. A reconciliation between Adjusted Diluted EPS and Earnings Per Diluted Share, a U.S. GAAP financial measure, and between Adjusted EBITDA and Net Income, a GAAP financial measure, is included in the last slide of the presentation attached as Exhibit 99.1.

Item 7.01 Regulation FD Disclosure.

Today, The Fresh Market, Inc. (the “Company”) is holding an Analyst Day as previously announced on October 1, 2014. The Analyst Day materials include a presentation regarding the Company, a copy of which is attached as Exhibit 99.1. A live audio webcast of the presentation was accessible during the presentation via the Company’s website at <http://ir.thefreshmarket.com> and will remain accessible for 30 days.

During Analyst Day, senior management affirmed that the Company expects fiscal 2014 comparable store sales growth for the full fiscal year of 1.5% to 3.5%. In addition, senior management affirmed that the Company expects fiscal 2014 adjusted earnings of \$1.56 to \$1.66 per diluted share. This forecast excludes anticipated store closure and exit costs of approximately \$0.21 per diluted share related to the previously announced store closings in California and Texas. The store closure and exit costs for fiscal 2014 are net of an anticipated benefit from the Company’s assignment of a lease for one of the closed stores, which took place subsequent to the close of the second quarter of fiscal 2014. Senior management also affirmed that the Company expects GAAP diluted earnings per share of between \$1.35 and \$1.45, including the aforementioned store closure and exit costs of approximately \$0.21 per diluted share.
