ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

Market Information

There is a limited public market for our common shares. Our common shares are quoted on the OTC Bulletin Board under the symbol MRCI . Trading in stocks quoted on the OTC Bulletin Board is often thin and is characterized by wide fluctuations in trading prices due to many factors that may be unrelated to a company's operations or business prospects. We cannot assure you that there will be a market in the future for our common stock.

OTC Bulletin Board securities are not listed or traded on the floor of an organized national or regional stock exchange. Instead, OTC Bulletin Board securities transactions are conducted through a telephone and computer network connecting dealers in stocks. OTC Bulletin Board issuers are traditionally smaller companies that do not meet the financial and other listing requirements of a regional or national stock exchange.

As of March 31, 2012, no shares of our common stock have traded.

Number of Holders

As of March 31, 2012, the 9,760,000 issued and outstanding shares of common stock were held by a total of 26 shareholders of record.

No cash dividends were paid on our shares of common stock during the fiscal years ended March 31, 2012. We have not paid any cash dividends since our inception and do not foresee declaring any cash dividends on our common stock in the foreseeable future.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our financial statements, including the notes thereto, appearing elsewhere in this annual report. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward looking statements. Our audited financial statements are stated in United States Dollars and are prepared in accordance with United States Generally Accepted Accounting Principles.

RESULTS OF OPERATIONS

We have incurred recurring losses to date. Our financial statements have been prepared assuming that we will continue as a going concern and, accordingly, do not include adjustments relating to the recoverability and realization of assets and classification of liabilities that might be necessary should we be unable to continue in operation.

We expect we will require additional capital to meet our long term operating requirements. We expect to raise additional capital through, among other things, the sale of equity or debt securities.

FISCAL YEAR ENDED MARCH 31, 2012 COMPARED TO FISCAL YEAR ENDED MARCH 31, 2011.

Our net loss for the fiscal year ended March 31, 2012 was \$27,395 compared to a net loss of \$504 for the period from Inception (November 17, 2010) to March 31, 2011. During fiscal year ended March 31, 2012, the Company did not generate any revenue.

During the fiscal year ended March 31, 2012, we incurred general and administrative expenses of \$26,891 compared to \$504 incurred during the period from Inception (November 17, 2010) to March 31, 2011. These expenses incurred during the fiscal year ended March 31, 2012 consisted of: bank charges of \$43 (2011: \$5); professional fees of \$10,060 (2011: \$-0-); and miscellaneous charges of \$16,788 (2011: \$499).

Expenses incurred during fiscal year ended March 31, 2012 compared to fiscal year ended March 31, 2011 increased primarily due to the increased scale and scope of business operations. General and administrative expenses generally include corporate overhead, financial and administrative contracted services, marketing, and consulting costs.

The weighted average number of shares outstanding was 8,390,109 for the fiscal year ended March 31, 2012 compared to 1,555,556 for the fiscal year ended March 31, 2011.

LIQUIDITY AND CAPITAL RESOURCES

FISCAL YEAR ENDED MARCH 31, 2012

As of March 31, 2012, our current assets were \$6,179 and our total liabilities were \$3,474. As of March 31, 2012, current assets were comprised of \$846 in cash and \$5,333 in prepaid expenses. As of March 31, 2012, total liabilities were comprised of \$3,474 in loans from Director.

As of March 31, 2012, our total assets were \$6,179 comprised entirely of current assets. Stockholders equity decreased from \$6,996 as of March 31, 2011 to \$2,705 as of March 31, 2012.

CASH FLOWS FROM OPERATING ACTIVITIES

We have not generated positive cash flows from operating activities. For the fiscal year ended March 31, 2012, net cash flows used in operating activities was \$32,224 consisting of a net loss of \$26,891 and increase in prepaid expenses of \$5,333. Net cash flows used in operating activities was \$32,728 for the period from inception (November 17, 2010) to March 31, 2012.

CASH FLOWS FROM FINANCING ACTIVITIES

We have financed our operations primarily from either advancements or the issuance of equity and debt instruments. For the fiscal year ended March 31, 2012 net cash provided by financing activities was \$25,575, received from proceeds from issuance of common stock and loan from Director. For the period from inception (November 17, 2010) to March 31, 2012, net cash provided by financing activities was \$33,574 received from proceeds from issuance of common stock and loan from Director.

PLAN OF OPERATION AND FUNDING

We expect that working capital requirements will continue to be funded through a combination of our existing funds and further issuances of securities. Our working capital requirements are expected to increase in line with the growth of our business.

Existing working capital, further advances and debt instruments, and anticipated cash flow are expected to be adequate to fund our operations over the next six months. We have no lines of credit or other bank financing arrangements. Generally, we have financed operations to date through the proceeds of the private placement of equity and debt instruments. In connection with our business plan, management anticipates additional increases in operating expenses and capital expenditures relating to: (i) acquisition of inventory; (ii) developmental expenses associated with a start-up business; and (iii) marketing expenses. We intend to finance these expenses with further issuances of securities, and debt issuances. Thereafter, we expect we will need to raise additional capital and generate revenues to meet long-term operating requirements. Additional issuances of equity or convertible debt securities will result in dilution to our current shareholders. Further, such securities might have rights, preferences or privileges senior to our common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, we may not be able to take advantage of prospective new business endeavors or opportunities, which could significantly and materially restrict our business operations.

MATERIAL COMMITMENTS

As of the date of this Annual Report, we do not have any material commitments.

PURCHASE OF SIGNIFICANT EQUIPMENT

We do not intend to purchase any significant equipment during the next twelve months.

OFF-BALANCE SHEET ARRANGEMENTS

As of the date of this Annual Report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

GOING CONCERN

The independent auditors' report accompanying our March 31, 2012 and March 31, 2011 financial statements contains an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. The financial statements have been prepared "assuming that we will continue as a going concern," which contemplates that we will realize our assets and satisfy our liabilities and commitments in the ordinary course of business.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors

Mericol, Inc.

Montreal, Canada

I have audited the accompanying balance sheets of Mericol, Inc. (a development stage company) as of March 31, 2012 and 2011, and the related statements of operations, stockholders' (deficit) and cash flows for the year ended March 31, 2012, the period from November 17, 2010 (inception) through March 31, 2011, and for the period from November 17, 2010 (inception) through March 31, 2012. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Mericol, Inc. as of as of March 31, 2012 and 2011, and the results of its operations and its cash flows for the year ended March 31, 2012, the period from November 17, 2010 (inception) through March 31, 2011, and for the period from November 17, 2010 (inception) through March 31, 2012 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements the Company has suffered a loss from operations and has a working capital deficit that raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 2 GOING CONCERN

The financial statements have been prepared on a going concern basis which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since inception resulting in an accumulated deficit of \$27,395 as of March 31, 2012 and further losses are anticipated in the development of its business raising substantial doubt about the Company's ability to continue as a going concern. MERICOL, INC.

(A DEVELOPMENT STAGE COMPANY)

NOTES TO UNAUDITED FINANCIAL STATEMENTS

MARCH 31, 2012

NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value of Financial Instruments

The Company's financial instruments consist of cash and cash equivalents and amounts due to shareholder. The carrying amounts of cash and current liabilities approximate fair value because of the short-term maturity of these items. These fair value estimates are subjective in nature and involve uncertainties and matters of significant judgment, and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect these estimates. We do not hold or issue financial instruments for trading purposes, nor do we utilize derivative instruments.

The FASB ASC clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. It also requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability.

Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The determination of where assets and liabilities fall within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Income Taxes

We account for income taxes as required by the Income Tax Topic of the FASB ASC, which requires recognition of deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse.

We have analyzed filing positions in all of the federal and state jurisdictions where we are required to file income tax returns, as well as all open tax years in these jurisdictions. The Company has identified its federal tax return as a major tax jurisdiction, as defined. We are not currently under examination by the Internal Revenue Service or any other jurisdiction. The Company believes that its income tax filing positions and deductions will be sustained on audit and does not anticipate any adjustments that will result in a material adverse effect on the Company's financial condition, results of operations, or cash flow. Therefore, no reserves for uncertain income tax positions have been recorded.
