### **Forward-Looking Statements**

This Quarterly Report on Form 10-Q of Genie Gateway for the period ended September 30, 2015 contains forward-looking statements, principally in this Section and "Business." Generally, you can identify these statements because they use words like "anticipates," "believes," "expects," "future," "intends," "plans," and similar terms. These statements reflect only our current expectations. Although we do not make forward-looking statements unless we believe we have a reasonable basis for doing so, we cannot guarantee their accuracy and actual results may differ materially from those we anticipated due to a number of uncertainties, many of which are unforeseen, including, among others, the risks we face as described in this filing. You should not place undue reliance on these forward-looking statements which apply only as of the date of this quarterly report. To the extent that such statements are not recitations of historical fact, such statements constitute forward-looking statements that, by definition, involve risks and uncertainties. In any forward-looking statement where we express an expectation or belief as to future results or events, such expectation or belief is expressed in good faith and believed to have a reasonable basis, but there can be no assurance that the statement of expectation or belief will be accomplished.

We believe it is important to communicate our expectations to our investors. There may be events in the future; however, that we are unable to predict accurately or over which we have no control. The risk factors listed in this filing, as well as any cautionary language in this annual report, provide examples of risks, uncertainties and events that may cause our actual results to differ materially from the expectations we describe in our forward-looking statements. Factors that could cause actual results or events to differ materially from those anticipated, include, but are not limited to: our ability to successfully obtain financing for product acquisition; changes in product strategies; general economic, financial and business conditions; changes in and compliance with governmental regulations; changes in various tax laws; and the availability of key management and other personnel.

### **Overview**

We were incorporated in Nevada on November 26, 1996, as "Conceptual Technologies, Inc." On April 9, 1998, we changed our name to "NovaMed, Inc." to reflect the acquisition of a medical device manufacturer and retailer. The medical device business was abandoned in October of 2000. On August 8, 2003, we acquired World Wide Auctioneers, Ltd. ("World Wide"), a British Virgin Island registered company and changed our name to "WWA Group, Inc." On September 9, 2015, we changed our name to "Genie Gateway".

On July 12, 2012 we enter into a Share Exchange Agreement (the "SD Agreement"), subject to shareholder approval, to acquire all of the issued and outstanding shares of Summit Digital, Inc. ("Summit") from Summit Digital Holdings, Inc. in exchange for shares of our common stock. The SD Agreement provided that Summit would exchange 100 shares or 100% of the issued and outstanding shares of Summit for 99,000,000 shares of our Common Stock, par value \$001 per share.

As a result of the SD Agreement, we conduct some of our business operations under the name Summit Digital. Those operations primarily relate to acquiring existing underutilized cable systems in rural, semi-rural and gated community markets, aggregating them into a single multi-system operator structure and creating growth by upgrading management, improving efficiency, cutting costs, and fully exploiting the opportunities presented by bundling multiple services such as basic TV, premium TV, pay-per-view, broadband Internet, and voice telephony.

On April 9, 2015, we closed the transaction contemplated by an Agreement of Exchange of Stock (the “Share Exchange Agreement”) by and between us, AllCom, a Nevada corporation (“AllCom”) and Genie Gateway, a California corporation (“Genie”), dated as of January 30, 2015, as amended, pursuant to which AllCom transferred to us 100% of the common stock of Genie in exchange for the issuance of: (i) 1,257,989 shares of our Common Stock, restricted in accordance with Rule 144, (ii) 5,000,000 shares of our Series B Convertible Preferred Stock, and (iii) 10,000,000 shares of our Series C Convertible Preferred Stock, all of which shares equate to approximately 97% of our outstanding voting control (not including the shares of our Series A Convertible Preferred Stock, which will be retired once we effect a reverse stock split of our common stock). As a result of closing this transaction, Genie became our wholly-owned subsidiary and now, in addition to managing our cable operations that we control through

our subsidiary, Summit Digital, Inc., we are now also in the business of being a unified communications and payment processing platform that blends business products and services - traditionally purchased from multiple vendors - into one seamless service, through Genie.

On September 9, 2015, our common stock underwent a 1-for-100 reverse stock split. The share numbers in this Quarterly Report are expressed in post-stock split numbers. The 5,000,000 shares of Series B Convertible Preferred Stock that were issued in the Share Exchange Transaction were automatically converted into 16,666,666 shares of our post-split common stock upon the reverse stock split going effective.

**Operating Income (Loss)**

We had operating income of \$18,684 for the three months ended September 30, 2015, compared to an operating loss of \$50,450 for the three months ended September 30, 2014. This difference was largely attributable to an increase of approximately \$100,000 in revenue from cable/internet sales in the period in 2015 compared to 2014, lower cost of goods sold, offset by higher general, selling and administrative expenses. We expect our operating income (loss) to continue to be significantly impacted by our acquisition of Genie Gateway.

### Revenue

Our revenue from the three months ended September 30, 2015 was \$236,015 compared to \$136,835 for the three months ended September 30, 2014. Our revenue for the three months ended September 30, 2015 included \$136,015 from our Summit Digital subsidiary and \$100,000 in royalty revenue from our Genie Gateway subsidiary, the latter received from AllCom, our largest shareholder, for intellectual property we license from it. The revenue from Summit Digital was the result of sales of Summit Digital's bundled services such as basic TV, premium TV, pay-per-view, broadband Internet, and voice telephony. Our revenue for the three months ended September 30, 2014 was derived entirely from the operations of Summit Digital.

### Cost of Goods Sold

Our cost of goods sold for the three months ended September 30, 2015 were \$74,558, compared to \$91,095 for the same period in 2014. The cost of goods sold for the three months ended September 30, 2015 was entirely related to the revenues generated from Summit Digital, Inc. In future periods we expect our cost of goods sold to increase as a result of our acquisition of Genie Gateway on April 9, 2015.

### General, Selling and Administrative Expenses

General, selling and administrative expenses were \$96,143 for the three months ended September 30, 2015, compared to \$59,524 for the three months ended September 30, 2014. Our primary general and administrative expenses for the period in 2015 were wages and consulting, which were approximately \$50,075. The increase in our general, selling and administrative expenses was largely due to the increases related to our acquisition of Genie Gateway. We expect our general, selling and administrative expenses to increase significantly in future periods due to our acquisition of Genie Gateway.

### Salaries and Wages

Our expenses related to salaries and wages were \$43,542 for the three months ended September 30, 2015, compared to \$32,524 for the three months ended September 30, 2014. The increase in our salaries and wages for the three months in 2015 was a result of increases due to our acquisition of Genie Gateway. We expect our salaries and wages will increase in future periods as a result of the acquisition Genie Gateway.

### Depreciation

During the three months ended September 30, 2015, we had depreciation of \$3,088, primary related to office equipment and cable and wireless plant assets. We had a similar expense of \$4,142 for the three months ended September 30, 2014.

### Interest Income/Expense

We had interest expense \$1,129 for the three months ended September 30, 2015, compared to interest income of \$20,100 for the three months ended September 30, 2014. During the three months ended September 30, 2015 interest expense primarily related to our line of credit with Huntington National Bank, while the interest expense for the same period in 2014 primarily related to convertible debt we had outstanding. The change from interest income in the three month-period in 2014 to interest expense in the three-month period in 2015 related to retirement of convertible debt and related derivative liabilities in the second quarter of 2015.

### Gain (Loss) on Derivative Liability

During the three months ended September 30, 2015 we did not have any gain (loss) on derivative liability because we retired our convertible debt and did not have any derivative liabilities outstanding during the period. For the three months ended September 30, 2014, we recognized a non-cash gain on derivative liabilities of \$17,831, which was due primarily to the change in fair value of the conversion option on convertible debt which was recorded as a derivative liability.

Other Income (Expense)

During the three months ended September 30, 2015 and September 30, 2014, we had other expense of \$1,872 and \$179, respectively. These amounts were related to adjustments to correctly state balance sheet accounts.

Net income (loss)	\$ 22,833	\$ (206,262)

Operating Loss

We had operating loss of \$16,839 for the nine months ended September 30, 2015, compared to an operating loss of \$220,481 for the nine months ended September 30, 2014. This difference was largely attributable to an increase of \$200,000 in royalty revenue from AllCom, our largest shareholder, for intellectual property we license to them (offset by an approximate \$20,000 decrease in cable/internet sales) in the period in 2015 compared to 2014, lower cost of goods sold, and lower salaries and wages, offset by higher general, selling and administrative expenses. We expect our operating income (loss) to continue to be significantly impacted by our acquisition of Genie Gateway.

### Revenue

Our revenue from the nine months ended September 30, 2015 was \$584,036 compared to \$405,708 for the nine months ended September 30, 2014. Our revenue for the nine months ended September 30, 2015 included \$384,036 from our Summit Digital subsidiary and \$200,000 in royalty revenue from our Genie Gateway subsidiary, the latter received from AllCom, our largest shareholder, for intellectual property we license from it. The revenue from Summit Digital was the result of sales of Summit Digital's bundled services such as basic TV, premium TV, pay-per-view, broadband Internet, and voice telephony. Our revenue for the nine months ended September 30, 2014 was derived entirely from the operations of Summit Digital.

### Cost of Goods Sold

Our cost of goods sold for the nine months ended September 30, 2015 were \$188,828, compared to \$237,088 for the same period in 2014. The cost of goods sold for the nine months ended September 30, 2015 related to the revenues generated from Summit Digital, Inc. In future periods we expect our cost of goods sold to increase as a result of our acquisition of Genie Gateway on April 9, 2015.

### General, Selling and Administrative Expenses

General, selling and administrative expenses were \$292,474 for the nine months ended September 30, 2015, compared to \$187,731 for the nine months ended September 30, 2014. Our primary general and administrative expenses for the period in 2015 were wages and consulting. The increase in our general, selling and administrative expenses was largely due to the increases related to our acquisition of Genie Gateway. We expect our general, selling and administrative expenses to increase significantly in future periods due to our acquisition of Genie Gateway.

### Salaries and Wages

Our expenses related to salaries and wages were \$108,809 for the nine months ended September 30, 2015, compared to \$189,757 for the nine months ended September 30, 2014. The decrease in our salaries and wages for the nine months in 2015 was a result of wages accrued for officers in the first quarter of the prior year partially offset by an increase in second quarter due to our acquisition of Genie Gateway. We expect our salaries and wages will increase in future periods as a result of the acquisition Genie Gateway.

### Depreciation

During the nine months ended September 30, 2015, we had depreciation of \$10,764, primary related to office equipment and cable and wireless plant assets. We had a similar expense of \$11,613 for the nine months ended September 30, 2014.

### Interest Expense

We had interest expense \$2,103 for the nine months ended September 30, 2015, compared to interest expense of \$51,539 for the nine months ended September 30, 2014. During the nine months ended September 30, 2015 interest expense primarily related to our line of credit with Huntington National Bank, while the interest expense for the same

period in 2014 primarily related to convertible debt we had outstanding. The change from interest income in the three month-period in 2014 to interest expense in the three-month period in 2015 related to retirement of convertible debt and related derivative liabilities in the second quarter of 2015.

#### Gain (Loss) on Derivative Liability

During the nine months ended September 30, 2015 we recognized a non-cash gain on derivative liabilities of \$121, compared to \$45,170 for the nine months ended September 30, 2014. The losses in both periods were a result of changes in the fair value of the conversion option and the significant difference between the two periods was due primarily to the change in fair value of the conversion option on convertible debt which was recorded as a derivative liability and a gain from writing off of the derivative liability upon retirement of the convertible notes.

#### Other Income

During the nine months ended September 30, 2015 and September 30, 2014, we had other income of \$41,654 and \$20,588, respectively. These amounts were related to adjustments to correctly state balance sheet accounts.

### *Liquidity and Capital Resources for Nine months ended September 30, 2015 and 2014*

#### Introduction

During the nine months ended September 30, 2015 and 2014, because of our operating losses, we did not generate positive operating cash flows. For the period ended September 30, 2015, our operating losses were largely a result of losses from our operations prior to our transaction with AllCom, which closed on April 9, 2015. During the second and third quarters of 2015 we generated a profit from our operations. Our cash and cash equivalents as of September 30, 2015 was \$72,350. Beginning with the second quarter of 2015 we believe our revenue will be sufficient to support our current ongoing business operations going forward.

Our cash, current assets, total assets, current liabilities, and total liabilities as of September 30, 2015 compared to December 31, 2014, respectively, are as follows:

	<b>September 30,</b>	<b>December 31,</b>	
	<b>2015</b>	<b>2014</b>	<b>Change</b>
Cash	\$ 72,350	\$ 11,833	\$ 60,517
Total Current Assets	763,674	39,431	724,243
Total Assets	912,364	197,168	715,196
Total Current Liabilities	237,981	328,088	(90,107)
Total Liabilities	\$ 249,856	\$ 328,088	(78,232)

Our total assets increased by \$715,196 as of September 30, 2015 compared to December 31, 2014. Our current assets increased by \$724,243 over the same period. These significant increases were due to our transaction with AllCom

whereby we acquired Genie Gateway, as well prepaid expenses paid to certain of our service providers.

Our current liabilities decreased by \$90,107 and our total liabilities decreased by \$78,232 as of September 30, 2015 as compared to December 31, 2014. This decrease was due to us paying down a number of our accounts payable and accrued expenses, as well as repaying the remaining \$15,765 due under a convertible promissory note.

#### Cash Requirements

We had cash and cash equivalents available as of September 30, 2015 of \$72,350 and \$11,833 as of December 31, 2014. Beginning with the second quarter of 2015 we believe our revenue will be sufficient to support our current ongoing business operations going forward.

#### **Controls and Procedures**

##### **(a)**

#### **Evaluation of Disclosure Controls Procedures**

We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) that are designed to ensure that information that would be required to be disclosed in Exchange Act reports is recorded, processed, summarized and reported within the time period specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including to our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As required by Rule 13a-15 under the Exchange Act, our management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of September 30, 2015. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of September 30, 2015, and as of the date that the evaluation of the effectiveness of our disclosure controls and procedures was completed, our disclosure controls and procedures were not effective to satisfy the objectives for which they are intended.

## Management's Report on Internal Controls over Financial Reporting

Our management is responsible for establishing and maintaining effective internal control over financial reporting (as defined in Rule 13a-15(f) of the Securities Exchange Act). Management assessed the effectiveness of the Company's internal control over financial reporting as of September 30, 2015. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Based on that assessment, management believes that, as of September 30, 2015, the Company's internal control over financial reporting was ineffective based on the COSO criteria, due to the following material weaknesses listed below.

*Insufficient segregation of duties in our finance and accounting functions due to limited personnel.* We internally performed all aspects of our financial reporting process, including, but not limited to, access to the underlying accounting records and systems, the ability to post and record journal entries and responsibility for the preparation of the financial statements. Due to the fact these duties were performed by limited personnel, a lack of review was created over the financial reporting process that might result in a failure to detect errors in spreadsheets, calculations, or assumptions used to compile the financial statements and related disclosures as filed with the SEC.

*Insufficient corporate governance policies.* Our corporate governance activities and processes are not always formally documented.

These control deficiencies could result in a material misstatement to our interim or annual financial statements that would not be prevented or detected.

When we are financially able, we intend to take appropriate and reasonable steps to make the necessary improvements to remediate these deficiencies and we intend to consider the results of our remediation efforts and related testing as part of our next assessment of the effectiveness of our internal control over financial reporting.

(c)

## Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting during the period ended September 30, 2015, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
