MPLX LP posted a link to the presentation below on its website.

This presentation contains forward-looking statements within the meaning of federal securities laws regarding MPLX LP ("MPLX"), Marathon Petroleum Corporation ("MPC"), and MarkWest Energy Partners, L.P. ("MWE"). These forward-looking statements relate to, among other things, expectations, estimates and projections concerning the business and operations of MPLX, MPC, and MWE. You can identify forward-looking statements by words such as "anticipate," "believe," "estimate," "objective," "expect," "forecast," "guidance," "imply," "plan," "project," "potential," "could," "should," "would," "will" or other similar expressions that convey the uncertainty of future events or outcomes. Such forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties and other factors, some of which are beyond the companies' control and are difficult to predict. In addition to other factors described herein that could cause MPLX's or MWE's actual results to differ materially from those implied in these forward-looking statements, negative capital market conditions, including a persistence or increase of the current yield on common units, which is higher than historical yields, could adversely affect MPLX's ability to meet its distribution growth guidance, particularly with respect to the later years of such guidance. Factors that could cause MPLX's or MWE's actual results to differ materially from those implied in the forward-looking statements include: the ability to complete the proposed merger of MPLX and MWE on anticipated terms and timetable; the ability to obtain approval of the transaction by the unitholders of MWE and satisfy other conditions to the closing of the transaction contemplated by the merger agreement; risk that the synergies from the MPLX/MWE transaction may not be fully realized or may take longer to realize than expected; disruption from the MPLX/MWE transaction making it more difficult to maintain relationships with customers, employees or suppliers; risks relating to any unforeseen liabilities of MWE or MPLX, as applicable; the adequacy of MPLX's and MWE's respective capital resources and liquidity, including, but not limited to, availability of sufficient cash flow to pay distributions, and the ability to successfully execute their business plans and implement their growth strategies; the timing and extent of changes in commodity prices and demand for crude oil, refined products, feedstocks or other hydrocarbon-based products; volatility in and/or degradation of market and industry conditions; completion of pipeline capacity by competitors; disruptions due to equipment interruption or failure, including electrical shortages and power grid failures; the suspension, reduction or termination of MPC's obligations under MPLX's commercial agreements; each company's ability to successfully implement its growth plan, whether through organic growth or acquisitions; modifications to earnings and distribution growth objectives; federal and state environmental, economic, health and safety, energy and other policies and regulations; changes to MPLX's capital budget; other risk factors inherent to MPLX or MWE's industry; and the factors set forth under the heading "Risk Factors" in MPLX's Annual Report on Form 10-K for the year ended Dec. 31, 2014, filed with the Securities and Exchange Commission (SEC); and the factors set forth under the heading "Risk Factors" in MWE's Annual Report on Form 10-K for the year ended Dec. 31, 2014, and Quarterly Report on Form 10-Q for the quarter ended September 30, 2015, filed with the SEC. These risks, as well as other risks associated with MPLX, MWE and the proposed transaction are also more fully discussed in the joint proxy statement and prospectus included in the registration statement on Form S-4 filed by MPLX and declared effective by the SEC on October 29, 2015. Factors that could cause MPC's actual results to differ materially from those implied in the forward-looking statements include: risks described above relating to the MPLX/MWE proposed merger; changes to the expected construction costs and timing of pipeline projects; volatility in and/or degradation of market and industry conditions; the

availability and pricing of crude oil and other feedstocks; slower growth in domestic and Canadian crude supply; an easing or lifting of the U.S. crude oil export ban; completion of pipeline capacity to areas outside the U.S. Midwest; consumer demand for refined products; transportation logistics; the reliability of processing units and other equipment; MPC's ability to successfully implement growth opportunities; modifications to MPLX earnings and distribution growth objectives; federal and state environmental, economic, health and safety, energy and other

policies and regulations; MPC's ability to successfully integrate the acquired Hess retail operations and achieve the strategic and other expected objectives relating to the acquisition; changes to MPC's capital budget; other risk factors inherent to MPC's industry; and the factors set forth under the heading "Risk Factors" in MPC's Annual Report on Form 10-K for the year ended Dec. 31, 2014, filed with SEC. In addition, the forward-looking statements included herein could be affected by general domestic and international economic and political conditions. Unpredictable or unknown factors not discussed here, in MPLX's Form 10-K, in MPC's Form 10-K, or in MWE's Form 10-K and Form 10-Qs could also have material adverse effects on forward-looking statements. Copies of MPLX's Form 10-K are available on the SEC website, MPLX's website at <http://ir.mplx.com> or by contacting MPLX's Investor Relations office. Copies of MPC's Form 10-K are available on the SEC website, MPC's website at <http://ir.marathonpetroleum.com> or by contacting MPC's Investor Relations office. The cash consideration of \$1,075 MM is a fixed amount and will not increase as additional units are issued by MWE between 11/11/15 and closing 3. Based on a November 11, 2015 MPLX closing price of \$41.13 4. \$4.8 Bn total debt as of September 30, 2015 per Q3 '15 10Q Pro Forma Leverage Target leverage of ~4x Debt / Adjusted EBITDA MPLX will be managed to support an investment-grade credit profile; Moody's affirmed MPLX's Baa3 rating as the acquisition will afford MPLX and MWE significantly increased operating size and scale Moody's also noted that MPLX's stable outlook reflects the high degree of fee-based EBITDA MPLX will also target distribution coverage of 1.05x - 1.10x 5

THOROUGH STRATEGIC REVIEW AND TRANSACTION PROCESS 1 COMPETITIVE PROCESS AND EXTENSIVE NEGOTIATION RESULTED IN BEST TERMS FOR MWE Throughout 2014 and Q1 2015, MWE and MPC / MPLX held discussions regarding potential JV and commercial arrangements In March 2015, MWE asked its financial advisor, Jefferies, to present to the MWE GP Board (the "Board") potential strategic opportunities (e.g., JVs, acquisitions and strategic mergers) available to MWE On March 26, the Board was given an update by MWE management regarding potential JV and commercial arrangements with MPC / MPLX, including the potential for a broader strategic transaction, and the board mandated management to continue discussions MWE's April 2015 negotiations with MPLX began with an initial offer of 1.03x – 1.07x exchange ratio (all equity; no cash), which represented a premium of 21% and 26% respectively; through several weeks of negotiations, MarkWest was able to achieve an increase from the initial offer that culminated with a 1.09x exchange ratio, plus a \$675 MM cash contribution by MPC without any additional MPLX equity in exchange, which represented a premium of 31% The Board established a transaction committee on June 22, 2015 consisting solely of independent directors in order to facilitate communication amongst the board members and provide

Edgar Filing: MARKWEST ENERGY PARTNERS L P - Form 425

guidance to management. In July 2015, MPLX re-affirmed its April merger proposal of a 1.09x exchange ratio and \$675 MM cash contribution by MPC, despite the continuing deterioration of market conditions. Economic value exceeded the values of other bidders (Company A and B) and other transaction alternatives. Competing bidders had the opportunity to improve bids. Competing bidders were aware that MWE was undertaking a review of strategic alternatives. After completion of thorough negotiations and consideration of all factors the board unanimously voted for approval of the merger on July 11, 2015. Energy Minerals Group, a long-term partner and significant equity holder of MWE, supported the transaction via a voting agreement for its approximate 7.4MM common units (~4%). Since the transaction announcement on 7/13/2015, MarkWest has not received bids from other parties. On November 10, 2015, MarkWest, MPC and MPLX agreed to increase the cash consideration by \$400 MM payable to MarkWest unitholders. Note: 1 Full description can be found in definitive proxy statement filed on October 30, 2015. 6
