During the three months ended March 31, 2016, the Company received \$40,000 from a related party in consideration for convertible notes payable of \$40,000 with the beneficial conversion feature valued at \$40,000.

During the three months ended March 31, 2016, the Company issued 500,000 shares of common stock valued at \$235,000 (\$0.47 per share) in consideration for prepaid consulting services.

On February 21, 2017, the Company executed a membership interest purchase agreement to acquire 100% of the membership interests of Rockstar. In consideration of the acquisition of all of the issued and outstanding membership interests of Rockstar, the Company issued an aggregate of 95,500,000 restricted shares of its common stock to the members of Rockstar. As of December 31, 2016 Rockstar had 80,500,000 membership units outstanding. For accounting purposes the transaction is recorded at historical cost in accordance with ASU 805-50-25-2 as this is considered an acquisition of entities under common control as the board of directors of the Company and of Rockstar are the same and control the activities of the respective companies. As of December 31, 2016 the Company acquired cash of \$77,997, licenses net of amortization of \$497,260, accounts payable of \$12,585 and accounts payable related - related party of \$500,000.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED MARCH 31, 2017 AND 2016

(UNAUDITED)

NOTE 1 ORGANIZATION, NATURE OF BUSINESS AND GOING CONCERN

(A) Organization

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules and regulations of the Securities and Exchange Commission for interim financial information. Accordingly, they do not include all of the information necessary for a comprehensive presentation of financial position and results of operations. The interim results for the period ended March 31, 2017 are not necessarily indicative of results for the full fiscal year. It is management's opinion, however that all material adjustments (consisting of normal recurring adjustments) have been made which are necessary for a fair financial statements presentation.

On March 16, 2011 PayMeOn, Inc., a Nevada corporation organized on May 30, 2006 (the "Company") completed its agreement and plan of merger (the "Merger Agreement") to acquire Hyperlocal Marketing, LLC, a Florida limited liability company ("Hyperlocal"), pursuant to which Hyperlocal merged with and into HLM PayMeOn, Inc., a Florida corporation and wholly owned subsidiary of the Company. Under the terms of the Merger Agreement, the Hyperlocal members received 301,296 shares of the Company common stock, which equals approximately 50.1% of the total shares of the Company issued and outstanding following the merger on a fully diluted basis. In accordance with Accounting Standard Codification (ASC) Topic 360-10-45-15, the transaction is accounted for as a reverse acquisition. Hyperlocal is considered the accounting acquirer and the acquire is the Company since the members of Hyperlocal obtained voting and management control of the Company and the transaction has been accounted for as a reverse merger and recapitalization.

Hyperlocal Marketing, LLC was originally organized in the State of Florida on January 22, 2010. The Company has focused its efforts on organizational activities, raising capital, software development and evaluating operational opportunities.

In 2014, the Company began selling Prodeco Technologies, LLC brand electric bicycles, an affiliate entity, of which the Company acquired a 19.4% equity interest (See Note 13). During 2015, the Company expanded its sales of electric

bicycles to include sales of electric bicycles and related products made by other manufacturers in a new retail store location in Fort Lauderdale.

During the first quarter of 2016, the Company formed a new subsidiary, Paymeon Brands, Inc., to pursue the business of developing, marketing, managing and monetizing lifestyle brands and products. The Company intends to develop and leverage its relationships and expertise with respect to manufacturing processes, wholesale and retail distribution networks, and social influencer promotion, primarily targeting youth oriented "lifestyle" markets to create and grow new and existing brands across several market segments.

On April 19, 2016, the Company's wholly-owned subsidiary, Paymeon Brands, Inc., entered into a Memorandum of Understanding with Damion D Roc Butler to exclusively produce, manufacture and market certain intellectual property for certain trademarks held by Mr. Butler, including but not limited to, "Bad Boy Tour Merchandise," "Revolt," Invisible Bully and "Ciroc". The agreement provides for Paymeon Brands and Butler organizing a new entity equally owned by the parties. As of March 31, 2017 and December 31, 2016 the parties have not formally reached an agreement.

On October 16, 2016, the Company formed a new, wholly-owned company called Xtreme Fat Tire Bike Holdings, LLC (Xtreme). The Company was formed to pursue potential development of the fat tire segment of the electric bikes market. To date, Xtreme has had no material operations.

On February 21, 2017, the Company executed a membership interest purchase agreement to acquire 100% of the membership interests of Rockstar Acquisitions, LLC (Rockstar). Rockstar d/b/a Basalt America leverages its licensed intellectual property, technology and processes to produce Basalt Fiber Reinforced Polymer products that are used as replacements for steel products that reinforce concrete such as rebar. In consideration of the acquisition of all of the issued and outstanding membership interests of Rockstar, the Company issued an aggregate of 95,500,000 restricted shares of its common stock to the members of Rockstar. For accounting purposes the transaction is recorded at historical cost in accordance with ASC 805-50-25-2 as this is considered an acquisition of entities under common control as the Board of Directors of the Company and of Rockstar are the same and control the activities of the respective companies.

PayMeOn Inc. and its wholly owned subsidiaries are herein referred to as the "Company".

PAYMEON, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED MARCH 31, 2017 AND 2016

(UNAUDITED)

(B) Principles of Consolidation

The accompanying consolidated financial statements include the accounts of PayMeOn, Inc. and its wholly owned subsidiaries, Hyperlocal Marketing, LLC, PayMeOn Brands, Inc, HLM PayMeOn, Inc. Xtreme Fat Tire Bike Holdings. LLC, and Rockstar Acquisitions, LLC All intercompany accounts have been eliminated in the consolidation.

(C) Going Concern

Since inception, the Company has incurred net operating losses and used cash in operations. As of March 31, 2017, the Company has an accumulated deficit of \$13,089,596, a working capital deficiency of \$1,881,359 and used cash in operations of \$1,563,692 for the three months ended March 31, 2017. Losses have principally occurred as a result of the substantial resources required for research and development and marketing of the Company's products which included the general and administrative expenses associated with its organization and product development.

The acquisition of Rockstar and commencement of production related to the products we will produce will require substantial additional investment in plant and equipment. In addition, we will have to invest substantial sums in the creation of a sales and marketing program designed to introduce our products to the industry.

These conditions raise substantial doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments to reflect the possible future effect on the recoverability and classification of assets or the amounts and classifications of liabilities that may result from the outcome of these uncertainties. Management believes that the actions presently being taken to obtain additional funding and implement its strategic plan provides the opportunity for the Company to continue as a going concern.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(A) Cash and Cash Equivalents

The Company considers all highly liquid temporary cash instruments with a maturity of three months or less to be cash equivalents. The Company has no cash equivalents as of March 31, 2017.

(B) Use of Estimates in Financial Statements

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates during the period covered by these financial statements include the useful lives of depreciable assets, valuation of inventory allowances, valuation of accounts receivable allowance, valuation of deferred tax asset, stock based compensation and any beneficial conversion features on convertible debt.

(C) Fair value measurements and Fair value of Financial Instruments

The Company adopted Financial Accounting Standard Board (FASB) ASC Topic 820, Fair Value Measurements. ASC Topic 820 clarifies the definition of fair value, prescribes methods for measuring fair value, and establishes a fair value hierarchy to classify the inputs used in measuring fair value as follows:

Level 1-Inputs are unadjusted quoted prices in active markets for identical assets or liabilities available at the measurement date.

Level 2-Inputs are unadjusted quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, inputs other than quoted prices that are observable, and inputs derived from or corroborated by observable market data.

PAYMEON, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED MARCH 31, 2017 AND 2016

(UNAUDITED)

Level 3-Inputs are unobservable inputs which reflect the reporting entity's own assumptions on what assumptions the market participants would use in pricing the asset or liability based on the best available information.

The Company did not identify any assets or liabilities that are required to be presented on the balance sheets at fair value in accordance with ASC Topic 820.

Due to the short-term nature of all financial assets and liabilities, their carrying value approximates their fair value as of the balance sheet date.

(D) Accounts Receivable

Accounts receivable are recorded at fair value on the date revenue is recognized. The Company provides allowances for doubtful accounts for estimated losses resulting from the inability of its customers to repay their obligation. If the financial condition of the Company's customers were to deteriorate, resulting in an impairment of their ability to repay, additional allowances may be required. The Company provides for potential uncollectible accounts receivable based on specific customer identification and historical collection experience adjusted for existing market conditions. If market conditions decline, actual collection experience may not meet expectations and may result in decreased cash flows and increased bad debt expense. As of December 31, 2016 and March 31, 2017 the Company has no accounts receivable and therefore the Company has not recorded an allowance for bad debts.

(E) Inventories

The Company's inventories consist entirely of purchased finished goods. Inventories are stated at lower of cost or market. Cost is determined on the first-in, first-out basis. As of December 31, 2016 and March 31, 2017 the Company has not recorded an allowance for the valuation of the inventory or inventory obsolescence.

(F) Fixed assets

Fixed assets consist of computer equipment, leasehold improvements and website costs which are capitalized at cost, net of accumulated depreciation. Depreciation is calculated by using the straight-line method over the estimated useful lives of the assets, which is three to five years for all categories. Repairs and maintenance are charged to expense as incurred. Expenditures for betterments and renewals are capitalized. The cost of computer equipment and the related accumulated depreciation are removed from the accounts upon retirement or disposal with any resulting gain or loss being recorded in operations.

Software maintenance costs are charged to expense as incurred. Expenditures for enhanced functionality are capitalized.

The Company has adopted the provisions of ASC 350-50-15, "Accounting for Web Site Development Costs." Costs incurred in the planning stage of a website are expensed as research and development while costs incurred in the development stage are capitalized and amortized over the life of the asset, estimated to be three years.

Asset Category	Depreciation/ Amortization Period
Website costs	5 Years
Computer equipment	3 Years
Leasehold improvements	5 Years

PAYMEON, INC. AND SUBSIDIARIES**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****FOR THE THREE MONTHS ENDED MARCH 31, 2017 AND 2016****(UNAUDITED)**

Fixed assets consist of the following:

	March 31,		December 31,
	2017		2016
Computer equipment	\$ 6,724	\$	6,724
Leasehold improvements			300,000
Website development	24,775		24,775
Total	31,499		331,499
Accumulated depreciation	(29,252)		(104,102)
Balance	\$ 2,247	\$	227,397

During the three months ended March 31, 2017 the Company identified leasehold improvements that were impaired in the amount of \$300,000. The Company recognized a loss on the impairment of \$208,931. Depreciation expense for three months ended March 31, 2017 and 2016 was \$16,219 and \$16,380 respectively.

On October 22, 2015, the Company issued an unsecured promissory note in the principal amount of \$300,000 to PDQ Auctions, LLC for leasehold improvements of the facilities subleased from PDQ Auctions, LLC. The note bears interest at an annual rate of 7% and is payable on or before October 22, 2017, unless the note is converted or prepaid prior to the maturity date. Subject to certain limitations below, the note may be converted at any time, at the option of the holder, into shares of the Company's common stock at a conversion price of \$0.35 per share, subject to adjustment. In the event the Company issues any new or additional promissory notes that pay an interest rate that exceeds 7% per annum, then the holder shall be entitled to request an increase in the interest rate payable on the note to an amount equal to the rate being paid on the new or additional notes. The conversion of the note may be limited if, upon conversion, the holder thereof would beneficially own more than 4.9% of the Company's common stock. The note may be prepaid at the option of the Company commencing 190 days after the issuance of the note. On September 22, 2017, the Company issued a total of 200,000 shares of common stock valued at \$72,000 (\$0.38 per share) in conjunction with an extension of to April 22, 2018. The interest rate on the PDQ Auctions Note was also increased to 10% per annum. The modifications to the debt will be reflected as a material modification in the Company's quarter ended September 30, 2017.

(G) Impairment of Long-Lived Assets

The Company evaluates its long-lived assets for impairment whenever events or a change in circumstances indicate that the carrying amount of such assets may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the asset to the future net undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is the excess of the carrying amount over the fair value of the asset.

(H) Revenue Recognition

The Company recognizes revenue from product sales to customers, distributors and resellers when products that do not require further services or installation by the Company are shipped, when there are no uncertainties surrounding customer acceptance and when collectability is reasonably assured in accordance with FASB ASC 605, *Revenue Recognition*, as amended and interpreted. Cash received by the Company prior to shipment is recorded as deferred revenue. Sales are made to customers under terms allowing certain limited rights of return and other limited product and performance warranties for which provision has been made in the accompanying financial statements.

Amounts billed to customers in sales transactions related to shipping and handling, represent revenues earned for the goods provided and are included in net sales. Costs of shipping and handling are included in cost of products sold.

PAYMEON, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED MARCH 31, 2017 AND 2016

(UNAUDITED)

(I) Loss Per Share

The basic loss per share is calculated by dividing the Company's net loss available to common shareholders by the weighted average number of common shares during the period. The diluted loss per share is calculated by dividing the Company's net loss by the diluted weighted average number of shares outstanding during the period. The diluted weighted average number of shares outstanding is the basic weighted number of shares adjusted for any potentially dilutive debt or equity. The Company has 4,407,181 and 199,065 shares issuable upon the exercise of options and 3,739,7984 and 2,000,000 shares issuable upon conversion of convertible notes payable that were not included in the computation of dilutive loss per share because their inclusion is anti-dilutive for the three months ended March 31, 2017 and 2016, respectively.

(J) Stock-Based Compensation

The Company recognizes compensation costs to employees under FASB ASC Topic 718, Compensation – Stock Compensation. Under FASB ASC Topic. 718, companies are required to measure the compensation costs of share-based compensation arrangements based on the grant-date fair value and recognize the costs in the financial statements over the period during which employees are required to provide services. Share based compensation arrangements include stock options, restricted share plans, performance based awards, share appreciation rights and employee share purchase plans. As such, compensation cost is measured on the date of grant at their fair value. Such compensation amounts, if any, are amortized over the respective vesting periods of the option grant.

Equity instruments issued to other than employees are recorded on the basis of the fair value of the instruments, as required by FASB ASC Topic 505, Equity Based Payments to Non-Employees. In general, the measurement date is when either a (a) performance commitment, as defined, is reached or (b) the earlier of (i) the non-employee performance is complete or (ii) the instruments are vested. The measured value related to the instruments is recognized over a period based on the facts and circumstances of each particular grant as defined in the FASB Accounting Standards Codification.

(K) Cost of Sales

Components of cost of sales include product costs and shipping costs to customers.

(L) Shipping and Handling Costs

The Company includes shipping and handling fees billed to customers as revenue and shipping and handling costs to customers as cost of revenue.

(M) Reclassification

Certain amounts from prior periods have been reclassified to conform to the current period presentation.

(N) Segment information

In accordance with the provisions of ASC 280-10, *Disclosures about Segments of an Enterprise and Related Information*, the Company is required to report financial and descriptive information about its reportable operating segments. The Company has two identifiable operating segments for the three months ended March 31, 2016 based on the activities of the company in accordance with the ASC 280-10. We had three operating segments at March 31, 2017:

.

We sell electric bicycles and related products

.

We develop, market, manage and monetize apparel lifestyle brands and products on an opportunistic basis

.

We manufacture, market and sell concrete reinforcement products made from basalt fiber through our recent acquisition of Rockstar

With respect to Rockstar, the Company executed a membership interest purchase agreement to acquire 100% of the membership interests of Rockstar. Rockstar was organized under the laws of the State of Florida in November 2016. Rockstar leverages its licensed intellectual property, technology and processes to produce Basalt Fiber Reinforced Polymer products that are used as replacements for steel products that reinforce concrete such as rebar.

NOTE 3 RECENT ACCOUNTING PRONOUNCEMENTS

In July 2017, the FASB issued ASU 2017-11, *Earnings Per Share (Topic 260) Distinguishing Liabilities from Equity (Topic 480) Derivatives and Hedging (Topic 815)*, which addresses the complexity of accounting for certain financial instruments with down round features. Down round features are features of certain equity-linked instruments (or embedded features) that result in the strike price being reduced on the basis of the pricing of future equity offerings. Current accounting guidance creates cost and complexity for entities that issue financial instruments (such as warrants and convertible instruments) with down round features that require fair value measurement of the entire instrument or conversion option. For public business entities, the amendments in Part I of this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. For all other entities, the amendments in Part I of this Update are effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. The Company does not believe that this amendment will impact the financial position or results of its operations.

In January 2017, the FASB issued Accounting Standard Update (ASU) 2017-04 *Intangibles - Goodwill and Other (Topic 350), Simplifying the Test for Goodwill Impairment*. The amendments in this update are required for public business entities that have goodwill reported in their financial statements and have not elected the private company alternative for the subsequent measurement of goodwill. The update is intended to simplify the annual or interim goodwill impairment test. A public business entity that is a U.S. SEC filer should adopt the amendments in this update for its annual or interim goodwill impairment tests in fiscal years beginning after December 15, 2019. Early adoption is permitted. The Company is assessing the impact, if any, of implementing this guidance on its financial position and results of operations.

In January 2017, the FASB issued ASU 2017-01 *Business Combinations (Topic 805), Clarifying the Definition of a Business*. The amendments in this update are required for public business entities that have goodwill reported in their financial statements and have not elected the private company alternative for the subsequent measurement of goodwill. The update is intended to clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The definition of a business affects many areas of accounting including acquisitions, disposals, goodwill, and consolidation. Public business entities should apply the amendments in this update to annual periods beginning after December 15, 2017. Early application is permitted under certain conditions. The Company is assessing the impact, if any, of implementing this guidance on its financial position and results of operations.

In August 2016, the FASB issued ASU No. 2016-15, *Statement of Cash Flows (Topic 230), Classification of Certain Cash Receipts and Cash Payments*. The amendments in this update provided guidance on eight specific cash flow issues. This update is to provide specific guidance on each of the eight issues, thereby reducing the diversity in practice in how certain transactions are classified in the statement of cash flows. ASU 2016-15 is effective for fiscal years and interim periods beginning after December 31, 2017. Early adoption is permitted. The Company is assessing the impact, if any, of implementing this guidance on its financial position, results of operations and liquidity.

In February 2016, FASB issued ASU 2016-02, *Leases (Topic 842)*. The new standard requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases. The new guidance will be effective for annual reporting periods beginning after December 15, 2018, including interim periods within that reporting period and is applied retrospectively. Early adoption is permitted. We are currently in the process of assessing the impact the adoption of this guidance will have on the Company's condensed consolidated financial statements.

In May 2014, August 2015 and May 2016, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers*, ASU 2015-14, *Revenue from Contracts with Customers, Deferral of the Effective Date*, and ASU 2016-12, *Revenue from Contracts with Customers, Narrow-Scope Improvements and Practical Expedients*, respectively, which implement ASC Topic 606. ASC Topic 606 outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance under US GAAP, including industry-specific guidance. It also requires entities to disclose both quantitative and qualitative information that enable financial statements users to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The amendments in these ASUs are effective for annual periods beginning after December 15, 2017, and interim periods therein. Early adoption is permitted for annual periods beginning after December 15, 2016. These ASUs may be applied retrospectively with a cumulative adjustment to retained earnings in the year of adoption. The Company is assessing the impact, if any, of implementing this guidance on its financial position, results of operations and liquidity.

There are several other new accounting pronouncements issued or proposed by the FASB. Each of these pronouncements, as applicable, has been or will be adopted by the Company. Management does not believe any of these accounting pronouncements has had or will have a material impact on the Company's condensed consolidated financial position or operating results.

NOTE 4 ACQUISITION OF ROCKSTAR

On February 21, 2017, the Company executed a membership interest purchase agreement to acquire 100% of the membership interests of Rockstar. In consideration of the acquisition of all of the issued and outstanding membership interests of Rockstar, the Company issued an aggregate of 95,500,000 restricted shares of its common stock to the members of Rockstar. As of December 31, 2016 Rockstar had 80,500,000 membership units outstanding. For accounting purposes the transaction is recorded at historical cost in accordance with ASU 805-50-25-2 as this is considered an acquisition of entities under common control as the board of directors of the Company and of Rockstar are the same and control the activities of the respective companies.

As the acquisition of Rockstar was deemed to be a transaction between entities under common control, the assets and liabilities were transferred at the historical cost of Rockstar with prior periods retroactively adjusted to include the historical financial results of the acquired company for the period ended December 31, 2016 that were controlled by

the previous owners of the Company.

The Company recorded the acquisition of Rockstar as following:

The Company consolidated the total assets and liabilities of Rockstar. Since the consolidation was done retrospectively, the Company adjusted the beginning balance of the following accounts to include balances as if the transaction occurred on November 18, 2016 (Inception). Set forth below is the Paymeon balance sheet as previously filed for the fiscal year ended December 31, 2016, the net effect of the acquisition and the net effect at December 31, 2016, after the acquisition.

Leases

On May 1, 2013, the Company entered into a lease agreement for executive offices located at 2400 E. Commercial Blvd., Suite 612, Fort Lauderdale, Florida. The facility was approximately 4,777 square feet. The lease was for a term of 39 months at a current cost of approximately \$9,900 per month. The lease contained three months of deferred rent that would be forgiven if the Company made its 36 required monthly payments timely. The Company was also required to make a security deposit of \$31,407. As of March 31, 2014, the Company had not been timely on its monthly payments and is in default of the agreement. On March 31, 2014, the Company received a "notice of default" from legal counsel representing the landlord for the office space. The letter demanded immediate payment of \$41,937 for rent past due as of April 1, 2014. On May 15, 2014, the Company returned the office space to the landlord. As of May 20, 2014, the Company had not been able to pay its outstanding rent obligation and the landlord had accelerated all rent obligations due under the lease agreement. The Company had been served with a civil lawsuit with Case # 14007105 filed on February 11, 2015. The Landlord is seeking \$376,424 in accelerated rent and damages and \$12,442 for its attorney's costs. On April 22, 2015, the motion for unpaid rent, recovery of abated rents and tenant improvements and attorney's costs was granted by the Circuit Court for the 17th Judicial Circuit in and for Broward County in the amount of \$388,866. The Company has accrued the full amount of rent and attorney costs as of December 31, 2016. As of March 31, 2017 and December 31, 2016 the Company had accrued \$35,880 and \$31,325 of interest associated with the judgment.

On October 22, 2015, the Company's wholly owned subsidiary, HLM PayMeOn, Inc., entered into a sublease agreement with PDQ Auctions, LLC to lease retail premises located 2599 North Federal Highway, Fort Lauderdale, FL 33305. The premises are used to operate a retail electric hover board, bicycle and related product store under the Company's irideelectric brand. The sublease is for an initial term of approximately 5 years at an initial monthly sum of \$5,617 and an additional 5 year term at a monthly sum of \$5,899. As consideration for leasehold improvements, the Company issued PDQ Auctions, LLC a convertible note payable in the amount of \$300,000 (See Note 6). During the three months ended March 31, 2017 the Company vacated the location due to the fact that it was unable to be used to support our retail operations as a result of a car accident in December, 2016. In conjunction with the accident, the landlord informed the Company that it would no longer be expected to be responsible for amounts due under the lease from the time of the accident forward. Accordingly, we have not accrued any amounts due under the lease in our financial statements since the time of the accident. The Company is pursuing legal action against the driver, whom we believe was insured, in the Circuit Court of the 17th Judicial Circuit in and for Broward County, Florida.

Edgar Filing: PayMeOn, Inc. - Form 10-Q

On March 31, 2017, the Company entered into a lease agreement for manufacturing and general office facilities located at 2688 NW 29th Terrace, Building 13, Oakland Park, Fl. 33311. The facility is for approximately 12,921 square feet. The lease is for six separate six month terms. The Company has the right to terminate the lease at the end of each term by providing the landlord with 60-days notice prior to the end of any of the six-month terms. Lease payments are approximately \$11,520 per month during the first two terms of the lease and rise to approximately \$12,450 per month during the last two terms of the lease.

Future minimum lease commitments due for facilities leases under non-cancellable capital and operating leases at March 31, 2017 are as follows:

2017	\$ 103,676
2018	142,343
2019	147,986
2020	37,353

Crowd Funding

Through its wholly-owned subsidiary, Paymeon Brands, the Company launched a crowd sourcing campaign through the online platform known as Indiegogo. The Company intended to crowd source donations for the development of a new, electrically powered tricycle known as the eChariot. As part of the campaign, the Company was required to establish a minimum goal of donations for its funding requirements. The Company set a minimum goal target for donations of \$25,000. The Company surpassed its goal during the quarter and on October 3, 2016 and October 31, 2016, received approximately \$25,000 from Indiegogo (after deducting platform and transaction fees). The Company decided to refund all amounts collected. All amounts have been refunded.

Royalty

On October 7, 2016, legal representatives of Remrylie Licensing, Inc. asked one of the Company's retail customers to cease and desist from selling items related to Christopher "Notorious BIG" Wallace's image on Paymeon Brands behalf. Remrylie, owner of the exclusive right to market Notorious BIG's image, claimed that Paymeon Brands did not have the right to sell certain items it was selling through its retail customer. While we believe that the claims were without merit, we decided to cooperate and allow our retail customer to remove the items in question. On November 29, 2016 the Company and Remrylie Licensing, Inc., agreed to settle their dispute over royalty payments for sales of merchandise related to the estate of Notorious BIG. The Company agreed to pay \$7,000 and the Parties mutually agreed to end the dispute and mutually indemnify each other. The Company does not expect to engage in any sales related to the estate of Notorious BIG in the future.

Rockstar and RAW

On February 21, 2017, the Company assumed certain obligations in conjunction with its acquisition of Rockstar, including:

On December 11, 2016, Rockstar entered into a License Agreement with Raw Energy Materials Corp (RAW) for exclusive rights for use of certain intellectual property associated with the production of certain concrete reinforcement products for the construction industry. The License Agreement provided for Rockstar to have exclusive rights for use of the intellectual property in conjunction with product sales for the State of Florida, the Caribbean Islands (excluding Cuba), and Peru (Licensed Territory). In addition, Rockstar had purchase rights on a Right of First Refusal basis for areas outside the Licensed Territory. The License Agreement required that Rockstar purchase goods used in its production of the products from RAW or its affiliates for a purchase price equal to RAW s gross-cost plus five percent. In addition, RAW or its affiliates were entitled to sales commissions for any sales of products generated within Rockstar s Licensed Territory according to the following commission schedule:

RAW generated sales within the Licensed Territory	RAW Commission
Up to \$1,000,000	5%
\$1,000,001 to \$2,000,000	4%
\$2,000,001 to \$3,000,000	3%
\$3,000,001 to \$4,000,000	2%
\$4,000,001 +	1%

As of December 31, 2016 and March 31, 2017, there were no amounts due for product sales, nor sales commissions due to RAW or its affiliates.

On January 15, 2017, the Company entered into a consulting agreement with RAW, LLC to conduct research, development and related services for the Company in exchange for \$10,000 per month. The agreement has a term of 5 years and contains standard representations, warranties and indemnifications.

On January 15, 2017, the Company entered into a consulting agreement with Yellow Turtle Design, LLC to conduct graphic arts design and various other computer aided design (CAD) services for the Company in exchange for \$5,000 per month. The agreement has a term of 5 years and contains standard representations, warranties and indemnifications.

ITEM 2.

MANAGEMENTS DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements. These forward-looking statements are based on our management's beliefs, assumptions and expectations and on information currently available to our management. Generally, you can identify forward-looking statements by terms such as may, will, should, could, would, expects, plans, anticipates, believes, estimates, projects, predicts, potential and similar expressions. You should identify forward-looking statements, which generally are not historical in nature. All statements that address operating or financial performance, events or developments that we expect or anticipate will occur in the future are forward-looking statements, including without limitation our expectations with respect to product sales, future financings, or the commercial success of our products. We may not actually achieve the plans, projections or expectations disclosed in forward-looking statements, and actual results, developments or events could differ materially from those disclosed in the forward-looking statements. Our management believes that these forward-looking statements are reasonable as and when made. However, you should not place undue reliance on forward-looking statements because they speak only as of the date when made. We do not assume any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by federal securities laws and the rules of the Securities and Exchange Commission (the "SEC"). We may not actually achieve the plans, projections or expectations disclosed in our forward-looking statements, and actual results, developments or events could differ materially from those disclosed in the forward-looking statements. Forward-looking statements are subject to a number of risks and uncertainties, including without limitation those described from time to time in our future reports filed with the SEC.

The following discussion and analysis of our financial condition and results of operations should be read together with our unaudited interim consolidated condensed financial statements and related notes appearing elsewhere in this Quarterly Report on Form 10-Q.

Overview

During the first quarter of 2017 we acquired the exclusive rights as licensee to manufacture and distribute concrete reinforcement products in various territories (see below) under the Basalt America name. While we have continued to sell bicycles on a limited basis and grow Paymeon Brands opportunistically, our primary focus and resources will be on the Basalt America business.

BASALT AMERICA

In February, 2017, we acquired 100% of the membership interests of Rockstar Acquisitions, LLC. Rockstar Acquisitions, LLC conducts business under the name Basalt America, and leverages its licensed intellectual property, technology and processes to produce Basalt Fiber Reinforced Polymer products that are used as replacements for steel products such as rebar that reinforce concrete. In March, 2017, we announced our intention to change our parent Company name from Paymeon, Inc. to Basalt America, Inc., in order to better reflect the primary focus of our Company going forward.

Basalt America is the exclusive licensee under a license agreement with Global Energy Sciences for its concrete reinforcement products known as RockRebar®, RockStirrups®, RockMesh®, and RockStaples . The license provides Basalt America with exclusivity for the United States, (excluding California and Hawaii), the Caribbean (excluding Cuba), and Peru. It also provides that Basalt America shall have a right of first refusal for all other territories in the world.

Manufacture of concrete reinforcement products made from basalt fiber create substantial benefits for the construction industry, including but not limited to:

.

No corrosion – steel reinforcement products rust, our products do not

.

Sustainability and Lifecycle – production of our products results in exceptionally low “carbon footprint.” Lack of corrosion allows the “lifespan” of projects to be much longer

.

Cost – the physical nature of our products relative to steel (much lighter, easily transportable, “spoolable”) reduces the all-in cost of reinforcement products when factors such as transportation and liability are considered

We believe that macroeconomic factors, such as global infrastructure in need of repair, trends towards the consideration of lifespan of projects, and their environmental impact, position our Company to benefit from the construction industry’s growing interest in the use of alternative reinforcement materials.

Since completion of our acquisition of Basalt America, we have moved our headquarters to a facility located in Oakland Park, Florida that is approximately 14,000 square feet in size. We expect to begin producing our products at this facility during the second half of 2017, as well as store raw materials and finished inventory.

Going forward, we expect most of the investment we make to be in our Basalt America operations. We believe we will require at least \$3 million in additional capital during the next 6 months. We will likely fund this investment through the issuance of equity or convertible notes to accredited investors. We expect to begin sales of our products during the second half of 2017.

ELECTRIC BICYCLE BUSINESS

We have owned and operated a retail store dedicated to the sale of electric bicycles and other alternative transportation products (such as hoverboards) since October, 2015. This business has been limited as a result of an automobile driving through our showroom, which has not been repaired. While we have shifted our focus primarily to our Basalt America operations, we intend to remain in the electric bicycle business at this time.

PAYMEON BRANDS

Paymeon Brands was formed in March 2016 to develop, market, manage and monetize lifestyle brands and products. The Company intends to leverage its relationships and expertise with manufacturing, wholesale and retail distribution, and social influencer promotion, primarily in youth oriented lifestyle markets to create and grow new and existing brands across products. Generally, Paymeon Brands intends to acquire exclusive licensing rights to brands it believes are expandable to additional product lines. We incur minimum overhead related to this business and approach investment on a project by project basis.

Results of Operations

Revenues for the three months ended March 31, 2017 were \$11,032 compared to \$89,620 for the three months ended March 31, 2016, a decrease of \$78,588, and were derived from sales of electric bicycles. During the three months ended March 31, 2017 and 2016, the Company did not derive any revenue from Paymeon Brands or from Basalt America. The decline in bicycle sales was caused by the closure of our showroom as a result of an automobile accident. We expect our revenues from electric bicycles and related products, such as apparel, will decrease during the balance of 2017 due to our focus on building our Basalt America business.

Operating expenses for three months ended March 31, 2017, totaled \$548,901, reflecting a decrease of \$921,191 or 63% from \$1,470,092 for the three months ended March 31, 2016.

The decrease in operating expenses for the three months ended March 31, 2017 compared to the same period ended March 31, 2016 were primarily due to the scaling back of operations of our Paymeon Brands subsidiary as we focused on Basalt America. Professional fees of \$17,961 decreased due to our failure to timely make our SEC filings. Payroll and related taxes increased \$17,961 due to additional staff associated with the acquisition of Basalt America.

Consulting expenses decreased \$549,862 primarily due to non-cash expenses related to warrants issued to consultants in the amount of \$566,752 during the three months ended March 31, 2016. General and administrative (G&A) expenses decreased \$456,419, which was primarily attributable to non-cash expenses related to stock options issued to directors and employees in the amount of \$567,286 during the three months ended March 31, 2016.

During the three months ended March 31, 2017, the Company impaired leasehold improvements of \$300,000 and recognized a loss on the impairment of \$208,931.

Interest expense for three months ended March 31, 2017, totaled \$32,703, reflecting a decrease of \$52,725 or 61% from \$85,428 for the three months ended March 31, 2016 as a result of reduced amortization of the beneficial conversion feature on convertible loans.

Liquidity and Capital Resources

At March 31, 2017, we had \$107,718 of cash and a working capital deficit of \$1,881,359. We require additional working capital. See Plan of Operations below.

Since inception, the Company has incurred net operating losses and used cash in operations. As of March 31, 2017, the Company had an accumulated deficit of \$13,089,596. The Company has also dedicated substantial resources to research and development and marketing of the Company's products which included the general and administrative expenses associated with its organization and product development. We expect operating losses to continue due to the anticipated costs to develop our Basalt America business. These conditions raise substantial doubt about the Company's ability to continue as a going concern. We require additional financing for the development of the Basalt America business.

We have historically satisfied our working capital requirements through the sale of restricted common stock and the issuance of promissory notes. This has continued through the first quarter of 2017 and will continue until we have cash flow to cover our expenses.

The Company entered into two secured convertible promissory notes in the principal amount in total of \$165,500 to a related party. The notes bear interest at an annual rate of 7% and is payable on or before 12 months from the date of issuance. In addition, the notes may be converted at any time, at the option of the holder, into shares of the Company's common stock at a conversion price of \$0.345 per share, subject to adjustment for stock splits and dividends. The Company recorded a debt discount of \$165,500 for the fair value of the beneficial conversion feature. As of December 31, 2014 the Company amortized \$165,500 of the debt discount. Accrued interest at March 31, 2017 and December 31, 2016 amounted to \$49,355 and \$46,499, respectively.

The Company entered into various unsecured convertible promissory note in the total principal amount of \$110,691 to a related party. The note bears interest at an annual rate of 7% and is payable on or before 12 months from the date of issuance. In addition, the note may be converted at any time, at the option of the holder, into shares of the Company's common stock at a conversion price of \$0.12 per share, subject to adjustment. The Company recorded a debt discount of \$90,416 for the fair value of the beneficial conversion feature. The note holder has agreed to extend the note through March 31, 2018. As of March 31, 2017 and December 31, 2016 the Company amortized \$90,416 and \$90,416 and accrued interest amounted to \$20,407 and \$18,496, respectively.

The Company entered into various unsecured convertible promissory notes in the principal amount of \$239,975 to a related party. The note bears interest at an annual rate of 7% and is payable on or before 12 months from the date of issuance. In addition, the note may be converted at any time, at the option of the holder, into shares of the Company's common stock at a conversion price of \$0.20 per share, subject to adjustment. The note holder has agreed to extend the note through March 31, 2018. The Company recorded a debt discount of \$217,700 for the fair value of the beneficial conversion feature. As of March 31, 2017 and December 31, 2016 the Company amortized \$217,700 and \$217,700 and accrued interest amounted to \$23,552 and \$19,410, respectively.

The Company entered various unsecured convertible promissory notes in the principal amount of \$184,382 to a related party. The note bears interest at an annual rate of 7% and is payable on or before 12 months from the date of issuance. In addition, the note may be converted at any time, at the option of the holder, into shares of the Company's common stock at a conversion price of \$0.30 per share, subject to adjustment. The note holder agreed to extend the note through March 31, 2018. The Company recorded a debt discount of \$183,500 for the fair value of the beneficial conversion feature. As of March 31, 2017 and December 31, 2016 the Company amortized \$182,525 and \$171,975 and recorded accrued interest of \$27,692 and \$24,510, respectively.

On January 20, 2015, the Company received a 7% unsecured promissory note in the principal amount of \$75,000 (the Note Receivable) from Prodeco Technologies, LLC, an affiliated entity. The note was payable January 20, 2018. The note holder was required to pay interest in the amount of \$1,312 per quarter due on the 15th day of each month following the end of the quarter until the maturity date. On February 6, 2015 the Company advanced an additional \$9,761 to Prodeco Technologies, LLC under the same terms due on February 8, 2018. For the year ended December 31, 2015 the Company has \$2,967 of interest income. During the year ended December 31, 2015 Prodeco Technologies, LLC, a related party, elected to accept the Note Receivable of \$84,760 and accrued interest of \$2,967 as payment against the notes payable - related party - convertible.

On October 22, 2015, the Company issued an unsecured promissory note in the principal amount of \$300,000 to PDQ Auctions, LLC for leasehold improvements of the facilities subleased from PDQ Auctions, LLC. The note bears interest at an annual rate of 7% and is payable on or before October 22, 2017, unless the note is converted or prepaid prior to the maturity date. Subject to certain limitations below, the note may be converted at any time, at the option of the holder, into shares of the Company's common stock at a conversion price of \$0.35 per share, subject to adjustment. In the event the Company issues any new or additional promissory notes that pay an interest rate that exceeds 7% per annum, then the holder shall be entitled to request an increase in the Interest rate payable on the note to an amount equal to the rate being paid on the new or additional notes. The conversion of the note may be limited if, upon conversion, the holder thereof would beneficially own more than 4.9% of the Company's common stock. The note may be prepaid at the option of the Company commencing 190 days after the issuance of the note. As of March 31, 2017 and December 31, 2016 accrued interest amounted to \$30,263 and \$25,085, respectively. On September 22, 2017, the Company issued a total of 200,000 shares of common stock valued at \$72,000 (\$0.38 per share) in conjunction with an extension of the note to April 22, 2018. The interest rate on the Note was also increased to 10% per annum. The modifications to the debt will be reflected as a material modification in the Company's quarter ended September 30, 2017.

In December and September 2010, the Company issued unsecured, non-interest bearing, due on demand notes for \$8,000 and \$16,000, respectively. During the quarter ended December 31, 2010 the Company repaid \$22,000. As of March 31, 2017, the outstanding principal balance of the notes was \$2,000.

On July 13, 2016, HLM Paymeon, Inc., the Company's wholly owned subsidiary, entered into a merchant agreement with Summit Capital Partners (SCP), whereby it sold \$40,500 of accounts receivable (the Receipts Purchased Amount) for a total purchase price of \$30,000. HLM Paymeon shall repay \$337 daily until the Receipts Purchased Amount is repaid. The Company recorded a \$10,500 deferred finance charge on the date of issuance. To secure HLM Paymeon's payment and performance obligations to SCP, HLM Paymeon has granted to SCP a security interest in all HLM Paymeon's accounts, chattel paper, documents, equipment, general intangibles, instruments and inventory. In addition, the Company's directors have individually guaranteed repayment of the Receipts Purchased Amount. As of March 31, 2017 and December 31, 2016 the Company has a balance owed \$0 and \$1,885, respectively and has amortized a total of \$10,500.

On September 23, 2016, the Company entered into demand note in the amount of \$5,000. The Company is obligated to repay the holder a total of \$6,333 after 30 days. Accrued interest at March 31, 2017 and December 31, 2016 amounted to \$691 and \$362, respectively.

Notwithstanding proceeds from the sale of our common stock in the amount of \$591,460 during the first quarter and additional sales proceeds and proceeds from a short-term note financing after the first quarter of \$1,017,218, current working capital is not sufficient to maintain our current operations and there is no assurance that future sales and marketing efforts will be successful enough to achieve the level of revenue sufficient to provide cash to sustain operations. To the extent such revenues and corresponding cash flows do not materialize, we will attempt to fund

working capital requirements through third party financing, including a private placement of our securities. In the absence of revenues, we currently believe we require a minimum of \$3,000,000 to maintain our current operations through the next 12 months. We cannot provide any assurances that required capital will be obtained or that the terms of such required capital may be acceptable to us. If we are unable to obtain adequate financing, we may reduce our operating activities until sufficient funding is secured or revenues are generated to support operating activities.

Critical Accounting Policies and Estimates

Revenue Recognition

The Company recognizes revenue on arrangements in accordance with FASB ASC No. 605, *Revenue Recognition*. In all cases, revenue is recognized only when the price is fixed and determinable, persuasive evidence of an arrangement exists, the service is performed and collectability of the resulting receivable is reasonably assured.

The Company recognizes sales of deals and texts when revenue is recognized only when the price is fixed and determinable, persuasive evidence of an arrangement exists, the service is performed and collectability of the resulting receivable is reasonably assured.

The Company recognizes revenue from the sale of keywords over the period the keywords are purchased for exclusive use, usually one year.

The Company recognizes revenue from setup fees in accordance with Topic 13, which requires the fees to be deferred and amortized over the term of the agreements. Revenue from the sale of bulk text messages sales and packages are recognized over twelve months. Revenue from monthly membership fees are recorded during the month the membership is earned.

The Company recognizes revenue from bike sales when delivered to our customers and collectability is reasonably assured.

Stock-Based Compensation

The Company recognizes compensation costs to employees under FASB Accounting Standards Codification No. 718, *Compensation – Stock Compensation*. Under FASB Accounting Standards Codification No. 718, companies are required to measure the compensation costs of share-based compensation arrangements based on the grant-date fair value and recognize the costs in the financial statements over the period during which employees are required to provide services. Share based compensation arrangements include stock options, restricted share plans, performance based awards, share appreciation rights and employee share purchase plans. As such, compensation cost is measured on the date of grant at their fair value. Such compensation amounts, if any, are amortized over the respective vesting periods of the option grant.

Equity instruments issued to other than employees are recorded on the basis of the fair value of the instruments, as required by FASB Accounting Standards Codification No. 505, *Equity Based Payments to Non-Employees*. In general, the measurement date is when either a (a) performance commitment, as defined, is reached or (b) the earlier of (i) the non-employee performance is complete or (ii) the instruments are vested. The measured value related to the instruments is recognized over a period based on the facts and circumstances of each particular grant as defined in the FASB Accounting Standards Codification.

Recent Accounting Pronouncements

In July 2017, the FASB issued ASU 2017-11, *Earnings Per Share (Topic 260) Distinguishing Liabilities from Equity (Topic 480) Derivatives and Hedging (Topic 815)*, which addresses the complexity of accounting for certain financial instruments with down round features. Down round features are features of certain equity-linked instruments (or embedded features) that result in the strike price being reduced on the basis of the pricing of future equity offerings. Current accounting guidance creates cost and complexity for entities that issue financial instruments (such as warrants and convertible instruments) with down round features that require fair value measurement of the entire instrument or conversion option. For public business entities, the amendments in Part I of this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. For all other entities, the amendments in Part I of this Update are effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. The Company does not believe that this amendment will impact the financial position or results of its operations.

In January 2017, the FASB issued Accounting Standard Update (ASU) 2017-04 *Intangibles – Goodwill and Other (Topic 350), Simplifying the Test for Goodwill Impairment*. The amendments in this update are required for public business entities that have goodwill reported in their financial statements and have not elected the private company alternative for the subsequent measurement of goodwill. The update is intended to simplify the annual or interim goodwill impairment test. A public business entity that is a U.S. SEC filer should adopt the amendments in this update

for its annual or interim goodwill impairment tests in fiscal years beginning after December 15, 2019. Early adoption is permitted. The Company is assessing the impact, if any, of implementing this guidance on its financial position and results of operations.

In January 2017, the FASB issued ASU 2017-01 *Business Combinations (Topic 805), Clarifying the Definition of a Business*. The amendments in this update are required for public business entities that have goodwill reported in their financial statements and have not elected the private company alternative for the subsequent measurement of goodwill. The update is intended to clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The definition of a business affects many areas of accounting including acquisitions, disposals, goodwill, and consolidation. Public business entities should apply the amendments in this update to annual periods beginning after December 15, 2017. Early application is permitted under certain conditions. The Company is assessing the impact, if any, of implementing this guidance on its financial position and results of operations.

In August 2016, the FASB issued ASU No. 2016-15, *Statement of Cash Flows (Topic 230), Classification of Certain Cash Receipts and Cash Payments*. The amendments in this update provided guidance on eight specific cash flow issues. This update is to provide specific guidance on each of the eight issues, thereby reducing the diversity in practice in how certain transactions are classified in the statement of cash flows. ASU 2016-15 is effective for fiscal years and interim periods beginning after December 31, 2017. Early adoption is permitted. The Company is assessing the impact, if any, of implementing this guidance on its financial position, results of operations and liquidity.

In February 2016, FASB issued ASU 2016-02, Leases (Topic 842). The new standard requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases. The new guidance will be effective for annual reporting periods beginning after December 15, 2018, including interim periods within that reporting period and is applied retrospectively. Early adoption is permitted. We are currently in the process of assessing the impact the adoption of this guidance will have on the Company's condensed consolidated financial statements.

In May 2014, August 2015 and May 2016, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers*, ASU 2015-14, *Revenue from Contracts with Customers, Deferral of the Effective Date*, and ASU 2016-12, *Revenue from Contracts with Customers, Narrow-Scope Improvements and Practical Expedients*, respectively, which implement ASC Topic 606. ASC Topic 606 outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance under US GAAP, including industry-specific guidance. It also requires entities to disclose both quantitative and qualitative information that enable financial statements users to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The amendments in these ASUs are effective for annual periods beginning after December 15, 2017, and interim periods therein. Early adoption is permitted for annual periods beginning after December 15, 2016. These ASUs may be applied retrospectively with a cumulative adjustment to retained earnings in the year of adoption. The Company is assessing the impact, if any, of implementing this guidance on its financial position, results of operations and liquidity.

There are several other new accounting pronouncements issued or proposed by the FASB. Each of these pronouncements, as applicable, has been or will be adopted by the Company. Management does not believe any of these accounting pronouncements has had or will have a material impact on the Company's condensed consolidated financial position or operating results.

Risk Factors

Investing in our common stock involves a high degree of risk. You should carefully consider the risk factors included in the Company's annual report on Form 10-K for the year ended December 31, 2016, before deciding whether to invest in the Company. Additional risks and uncertainties not presently known to us, or that we currently deem immaterial, may also impair our business operations or our financial condition.

ITEM 4.

CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)) that are designed to be effective in providing reasonable assurance that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and that such information is accumulated and communicated to our management to allow timely decisions regarding required disclosure.

The Company's management, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial (and principal accounting) Officer, carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Exchange Act) as of March 31, 2017.

During our assessment of the effectiveness of internal control over financial reporting as of March 31, 2017 management identified significant deficiencies related to (i) the U.S. GAAP expertise of our internal accounting staff, (ii) the ability of our internal accounting staff to record our transactions to which we are a party which necessitates our bringing in external consultants to supplement this function, and (iii) a lack of segregation of duties within accounting functions. Therefore, our internal controls over financial reporting were not effective as of March 31, 2017 based on the material weakness described below.

.
insufficient systems for timely entering new inventory items and point of sales;

.
insufficient monitoring controls to determine the adequacy of our internal control over financial reporting and related policies and procedures;

.
lack of competent financial management personnel with appropriate accounting knowledge and training;

.
our financial staff does not hold a license such as Certified Public Accountant in the U.S., nor have they attended U.S. institutions or extended educational programs that would provide enough of the relevant education relating to U.S. GAAP, nor have any U.S. GAAP audit experience;

.
we rely on an outside consultant to prepare our financial statements; and

.
insufficient controls over our period-end financial close and reporting processes.

As a result of this material weakness, our Chief Executive Officer and Chief Financial Officer concluded that our internal control over financial reporting was not effective as of March 31, 2017. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness; yet important enough to merit attention by those responsible for oversight of the Company's financial reporting.

Because of its inherent limitations, however, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate. In order to mitigate the foregoing material weakness, we engaged an outside accounting consultant to assist us in the preparation of our financial statements to ensure that these financial statements are prepared in conformity to U.S. GAAP. This outside accounting consultant has significant experience in the preparation of financial statements in conformity with U.S. GAAP. We believe that the engagement of this consultant will lessen the possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis, and we will continue to monitor the effectiveness of this action and make any changes that our management deems appropriate. We expect to continue to rely on this outside consulting arrangement to supplement our internal accounting staff for the foreseeable future. Until such time as we hire the proper internal accounting staff with the requisite U.S. GAAP experience, however, it is unlikely we will be able to remediate the material weakness in our internal control over financial reporting.

We believe that the foregoing steps will remediate the material weaknesses identified above, and we will continue to monitor the effectiveness of these steps and make any changes that our management deems appropriate.

Changes in Internal Control over Financial Reporting

No change in our system of internal control over financial reporting occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
